Program Information

The Master of Arts in Anthropology is designed to enhance student knowledge of and skills in dealing with contemporary social issues facing globalizing communities world-over and to enable students to locate these in the long progression of human history and within the body of social science theory. We expect our graduates to enter professions as skilled administrators, researchers, practitioners, advocates, and leaders. Although students may focus on biological anthropology, archaeology, or cultural anthropology, this is a general, comprehensive masters program.

Anthropology is among the most transdisciplinary of fields, and we see our students taking courses from and pursuing collaborations with colleagues in Humanities, Sociology, History, Women and Gender Studies, Pan-African Studies, Political Science, Art History, Biology, and the Kent School of Social Work. Students with little or no academic background in anthropology will be required to take some preparatory courses determined in consultation with the Anthropology Director of Graduate Studies.
