ORAL IMMUNOLOGY AND INFECTIOUS DISEASES (OID)

Subject-area course lists indicate courses currently active for offering at the University of Louisville. Not all courses are scheduled in any given academic term. For class offerings in a specific semester, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/scheduleSearchClassSchedule.cfm).

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

Course Fees

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website (http://louisville.edu/bursar/tuitionfee/).

OID 501. Biomedical Data Analysis: Experimental Design and Statistics

Term Typically Offered: Fall Only
Prerequisite(s): Acceptance to a graduate program or permission of course director.
Description: OID 501 is designed for graduate and professional students in health sciences who require a working knowledge of the experimental design and statistical methods most often utilized in the biomedical sciences. The focus is upon the initial evaluation of scientific literature, the formulation of research protocols, and the interpretation of data. Special attention is given to those areas of data interpretation most common in the health sciences. Fall semesters.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/scheduleSearchClassSchedule.cfm)

OID 600. Concepts in Oral Immunology

Term Typically Offered: Spring Only
Prerequisite(s): Students should have previously taken a basic immunology course or consent of instructor.
Description: To provide an in-depth analysis of how the host's immune system within the oral cavity is involved in mediating host immunity against periodontal pathogens, as well as defining the immunological events underlying the initiation and progression of periodontal diseases. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/scheduleSearchClassSchedule.cfm)

OID 601. Introduction to Oral Biology Research

Prerequisite(s): Acceptance to an Oral Biology degree program or consent of course director.
Description: An introduction to modern research methodology in oral biology. Designed to acquaint the student with a broad spectrum of experimental techniques and concepts which will help prepare for successful design of a research project. Major emphasis is placed on research design, research methodology, critical evaluation of basic research literature, and scientific writing.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/scheduleSearchClassSchedule.cfm)

OID 604. Oral Microbiology

Term Typically Offered: Spring Only
Prerequisite(s): Acceptance to an Oral Biology degree program or consent of course director.
Description: An in-depth study of the microbiota and host defense mechanisms with an emphasis on the ecology, nutrition, and biochemistry of the indigenous bacteria.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/scheduleSearchClassSchedule.cfm)

OID 605. Oral Health Seminars

Grading Basis: Pass/Fail
Prerequisite(s): Acceptance to the MSOB program or consent of course director.
Description: Biomedical research seminars describing basic and clinical research by internal and external faculty and postdoctoral research associates. Students will learn about the breadth of faculty biomedical research, providing context for their own research. The seminars are at least monthly, and the course is continuous through the fall and spring semesters.
Note: A required course for most students in the Master of Science in Oral Biology (MSOB) program.
Note: Students must enroll in both Fall and Spring semesters to receive full credit.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/scheduleSearchClassSchedule.cfm)

OID 606. Oral Biology Communication

Term Typically Offered: Spring Only
Prerequisite(s): OID 601.
Description: Provided to MS and PhD students, and to dental residents. The goal of this course is for students to develop their research plan and to become familiar with presenting and defending research findings in a scientific setting. The students will: prepare a scientific abstract in the style of the Journal of the American Dental Association; give a 15-minute seminar describing their research project; answer questions on their talk; and contribute to discussions and feedback on the research of classmates.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/scheduleSearchClassSchedule.cfm)
OID 610. Advanced Topics in Oral Biology 1-4 Units
Prerequisite(s): OID 601 or OBIO 601; consent of Graduate Program Director.
Description: This course allows graduate credit to be obtained for guided readings or other specialized studies needed to enhance the student's understanding of their thesis research project. This course can be used for a student to read and discuss a series of advanced publications with a faculty guide other than their primary mentor, in order to build expertise in a specialized area relevant to their research project. Guided readings with a Thesis Committee faculty (other than the mentor) can be particularly important for an interdisciplinary project. This course is intended for specialized in depth studies beyond what is appropriate in a classroom setting. The faculty and student must obtain approval from the Graduate Program Director for this course prior to registering. The faculty guide should send an email to the Graduate Director at the beginning of the semester describing the goals and expected effort and number of credits. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

OID 619. Graduate Research 1-8 Units
Grading Basis: Pass/Fail
Prerequisite(s): Acceptance to a graduate degree program or consent of course director.
Description: Allows graduate credit to be obtained for performing biomedical research. The student will perform research under the supervision of a primary mentor who is specifically named in the Thesis Committee Form that is required to be completed by all students during their first semester and signed by student, committee members and the Program Director. Research hours and duties are as defined by the mentor in conjunction with the student.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

OID 620. Thesis 1-8 Units
Grading Basis: Pass/Fail
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): Acceptance to an Oral Biology degree program or consent of course director.
Description: This course allows graduate credit to be obtained for all aspects of writing the students thesis or writing a research article suitable for publication.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

OID 610. Advanced Topics in Oral Biology 1-4 Units
Prerequisite(s): OID 601 or OBIO 601; consent of Graduate Program Director.
Description: This course allows graduate credit to be obtained for guided readings or other specialized studies needed to enhance the student's understanding of their thesis research project. This course can be used for a student to read and discuss a series of advanced publications with a faculty guide other than their primary mentor, in order to build expertise in a specialized area relevant to their research project. Guided readings with a Thesis Committee faculty (other than the mentor) can be particularly important for an interdisciplinary project. This course is intended for specialized in depth studies beyond what is appropriate in a classroom setting. The faculty and student must obtain approval from the Graduate Program Director for this course prior to registering. The faculty guide should send an email to the Graduate Director at the beginning of the semester describing the goals and expected effort and number of credits. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

OID 800. Correlated Sciences 1 Unit
Grading Basis: Pass/Fail
Prerequisite(s): Acceptance to the DMD program.
Description: OID 800 is provided in the first semester of the DMD program. The diverse range of didactic lectures in OID 800 is intended to introduce the concept of the need to maintain a holistic scientific view of the body when providing dental care. The course will introduce anatomical, historical, immunological, biochemical, physiological, microbiological, pharmacological and pathological research concepts that will ultimately, lead to improvements in the examination, evaluation, diagnosis and/or treatment of dental patients. OID 800 will introduce the wide range of clinical, basic and transnational research that currently takes place in the School of Dentistry and how you can become actively involved.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

OID 804. DMD Research 2-8 Units
Grading Basis: Pass/Fail
Prerequisite(s): Acceptance to the DMD program and to a research program.
Description: OID 804 gives credit to DMD students participating in a research program such as the ULSD Summer Research Program. Students should apply for a Summer Research Program during the spring semester, participate in research during the summer, and present at Research Louisville in the Fall semester. Applications are through the ULSD Associate Dean for Research + Enterprise. Students receive 2 credits for each semester doing research.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
