SW 773. Measurement and Theoretical Model Test 3 Units

Term Typically Offered: Spring Only

Prerequisite(s): SW 769, SW 770, and mastery of SPSS stats software.

Description: This course builds on the work developed in SE 759. As an extension of the work in SE 759, students will extend the development of their theoretical conceptual models by operationalizing their conceptualizations. Using the rapid instrument development model, Student will learn to create measures from their conceptualization innovations to develop skills in establishing the reliability and validity of measures. Additionally, students will use methods and forms analyses learned during their doctoral studies to evaluate and test elements of the theoretical model proposed.

For class offerings for a specific term, refer to the Schedule of Classes (<http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm>)

SW 782. Advanced Qualitative Research II: Data Analysis & Reporting 3 Units

Term Typically Offered: Spring Only

Prerequisite(s): SW 772.

Description: This course focuses on analysis and interpretation in qualitative research. Students will broaden their qualitative data analysis skills by expanding upon traditional Grounded Theory analysis procedures by learning and applying Situational Analysis, Art-Based Practices and Constructivist Grounded Theory techniques to the analysis of data. This course includes the use of qualitative software as an analysis technique and learning strategies for determining rigor in qualitative inquiry, a process which in turn will lead to the development of a conceptual formulation, analytic memos and set the foundation for reporting of findings through presentations and publications.
