Program Information
The Department of Urban and Public Affairs offers an 18-hour Graduate Certificate in Real Estate Development designed to equip graduates with the skills needed to make better real estate decisions with respect to investment considerations and site analysis and planning. The program will be particularly attractive to Urban Planning students desiring to work in the private sector; however, the program will also be appealing to students enrolled in other graduate programs at the university or who wish to complete the certificate on a stand-alone basis.

The program may be completed in conjunction with the Master of Urban Planning program without the need to take any additional coursework beyond what is required for the MUP program. For MUP students, the certificate courses satisfy the requirements for the specialization in Housing and Community Development.

Admission Requirements
Applicants must have a bachelor’s degree (any major is acceptable), and provide a completed application form, a transcript of all undergraduate work, and two letters of recommendation.

The application for graduate programs at the University of Louisville can be found at: louisville.edu/graduate/apply

Admission is competitive and generally requires a minimum undergraduate GPA of 3.00. Those applicants whose native language is not English and who do not hold a degree from a university where the language of instruction is English must complete the Test of English as a Foreign Language (TOEFL) with a score of at least 78 on the internet-based test.

Program Requirements
The program requires 18 credit hours, and may be completed in one year as a full-time student or up to four years as a part-time student. Courses may be waived by the Program Coordinator based on previous study; however, substitute course work will be required.

The following courses are required:
