Program Information

Interdisciplinary Early Childhood Education Birth to Primary Teacher Certification Program

This program can be completed 100% online (<https://louisville.edu/online/programs/masters/online-mat-in-interdisciplinary-early-childhood-education/>).

The program emphasizes in-depth academic preparation and field experiences that allow teachers to be knowledgeable about the field of early childhood/special education and to develop critical thinking and lifelong learning skills. The program emphasizes:

- Nurturing students as active agents in their own learning
- Authentic, performance-based assessment of teaching and learning
- Meeting the needs of all students
- Responding constructively to sociocultural differences among students

The program prepares students interested in working with children from birth to age 5 in a wide variety of settings—day care centers, public and private preschools, community programs, and clinics. This program gives students authentic experiences with infants, toddlers, and preschool children in the areas of curriculum development, typical and atypical child development, programs and services for children and their families, family involvement and intervention, screening and assessment, program administration, current topics, and practicum/action research.

The goals of this program include:

- IECE Teacher Certification
- Preparation of teachers for the education of typical and atypical children in different settings
- Provide background information on Kentucky Child Learning and Assessment Standards

Although this program has determined that it meets educational requirements for licensure in other US states and jurisdictions, this program is designed specifically to align with Kentucky certification requirements for the supervised student teaching or culminating clinical experience. **Therefore, students in this program are required to complete their student teaching or clinical experience at an approved placement location in the state of Kentucky.** Please contact the program director to discuss possible arrangements to complete culminating experiences in Southern Indiana before enrolling in the program.

The Master of Arts in Teaching in Interdisciplinary Early Childhood Education program prepares students to meet the requirements for certification and/or licensure. If you plan to pursue professional licensure or certification you should first determine your state's criteria for examination and licensure to see how/if our program meets those requirements prior to enrollment. We recommend that you also contact your state's licensing board directly to verify that the requirements have not changed recently and to answer any questions especially those regarding additional requirements beyond the degree.

Although this program has determined that it meets educational requirements for licensure in other US states and jurisdictions, this program is designed specifically to align with Kentucky certification requirements for the supervised student teaching or culminating clinical experience. Therefore, students in this program are required to complete their student teaching or clinical experience at an approved placement location in the state of Kentucky. Please contact the program director to discuss possible arrangements to complete culminating experiences in Southern Indiana before enrolling in the program.
