Program Information

This program can be completed 100% online (<https://louisville.edu/online/programs/masters/master-of-arts-in-teaching-in-special-education/>).

The special education licensure program provides a strong foundation in general education content, special education theory and methods, and teaching experience. Extensive classroom experience allows students to develop the skills, competencies, and confidence for successful teaching, including strategies for inclusion, behavior management, social skill instruction, and modifying instruction in the general curriculum. Students also benefit from the supervision and mentorship of experienced practitioners and field supervisors. The program's special education professors are experienced practitioners who are experts in their fields as researchers, teachers, and administrators.

Although this program has determined that it meets educational requirements for licensure in other US states and jurisdictions, this program is designed specifically to align with Kentucky certification requirements for the supervised student teaching or culminating clinical experience. **Therefore, students in this program are required to complete their student teaching or clinical experience at an approved placement location in the state of Kentucky.** Please contact the program director to discuss possible arrangements to complete culminating experiences in Southern Indiana before enrolling in the program.

The Master of Arts in Teaching in Special Education program with a concentration in Learning Behavior Disorders P-12 prepares students to meet the requirements for certification and/or licensure. If you plan to pursue professional licensure or certification you should first determine your state's criteria for examination and licensure to see how/if our program meets those requirements prior to enrollment. We recommend that you also contact your state's licensing board directly to verify that the requirements have not changed recently and to answer any questions especially those regarding additional requirements beyond the degree.

Although this program has determined that it meets educational requirements for licensure in other US states and jurisdictions, this program is designed specifically to align with Kentucky certification requirements for the supervised student teaching or culminating clinical experience. Therefore, students in this program are required to complete their student teaching or clinical experience at an approved placement location in the state of Kentucky.
