PUBLIC HEALTH (MPH)

Master of Public Health
Unit: School of Public Health and Information Sciences (https://louisville.edu/sphis/) (GH)
Program Website (https://louisville.edu/sphis/academics/mph-program/)
Academic Plan Code(s): See Concentration Requirements tab.

Program Information
Introduction
The Master of Public Health (MPH) degree program is designed to graduate students with skills in the core competencies in public health and additional competencies in one of the following concentrations: biostatistics, epidemiology, health policy, health promotion and behavioral sciences, or global public health.

Graduates of the MPH program are prepared for positions in the public health workforce, in health-related industries, and in academic organizations and for further professional or academic education.

Competencies
The MPH program has adopted the foundational competencies published by the Council on Education for Public Health (CEPH 2016 MPH Foundational Competencies (https://storage.googleapis.com/media.ceph.org/wp_assets/2016.Criteria.pdf)) and each MPH concentration has developed concentration-specific competencies.

The learning objectives for each core course in the MPH curriculum are mapped to these targeted foundational CEPH competencies and the learning objectives for courses offered in each concentration are mapped to the specific competencies developed for that concentration.

Concentrations
Concentrations are offered in each of the following areas of public health. Each concentration is designed to develop the competencies needed by a public health worker in the corresponding area.

</tr>
</tbody>
</table>

Students are encouraged to declare their concentration at the time of application, though applications from students that do not declare a concentration are also accepted. For students declaring concentrations, the faculty in each concentration reviews applicants for acceptance. Applications from students that do not declare a concentration are reviewed for acceptance by the MPH Program Director.

Requirements for declaring concentrations in the MPH program after matriculation are:

- Undeclared students will need to identify to a concentration prior to November 15 of their first semester.
- The student must be in good standing in the MPH program.

- Any undeclared student will first meet with the department chair or director of the concentration prior to declaring that concentration to determine if there are any additional criteria for admission to that concentration.

Accreditation
The School of Public Health and Information Sciences is accredited by the Council on Education for Public Health (CEPH). For more information, see the School’s accreditation webpage (http://louisville.edu/sphis/accreditation/).

Accelerated Bachelor’s-MPH in Public Health
The accelerated degree program allows any qualifying undergraduate student to complete their undergraduate bachelor’s degree and the Master of Public Health (MPH) over a five year period. The first four years consist of undergraduate studies, including up to 15 credits of graduate level courses taken during the senior year, culminating in the award of a bachelor’s degree.

The fifth year, including the summer following graduation with a bachelor’s degree, consists of graduate coursework in public health, leading to completion of the Master of Public Health (MPH) degree. The Master of Public Health (MPH) degree program is designed to provide students with training in foundational MPH competencies as well as a specific area of concentration. MPH concentrations currently available for the accelerated program are:

- Epidemiology
- Health Policy
- Health Promotion and Behavioral Sciences

MPH graduates are prepared for positions in the public health workforce, health-related industries, academic organizations, or for further professional or academic education.

The accelerated curriculum allows students to take a maximum of 15 credit hours of the Master of Public Health course work during their undergraduate studies.

For more information, please refer to the School of Public Health and Information Sciences Undergraduate Programs (https://louisville.edu/sphis/academics/bs-ba-public-health/bs-ba-in-public-health/) page.

Dual MPH in Health Policy - Masters in Health Administration
The dual MPH (Health Policy) - MSHA degree program facilitates development of advanced population and public health management professionals that may leverage knowledge and practices from both public health science and healthcare management domains to serve in leadership roles within public health institutions, federal-state-local agencies, and healthcare organizations. For more information about the dual program, please visit the program webpage (https://louisville.edu/sphis/departments/hmss/academics-1/dual-mph-in-health-policy-msha-program/).

Admission Requirements
The ideal candidate for admission to the MPH program has received the equivalent of a bachelor’s degree or higher, can comprehend and
communicate effectively in English, has the recommendations of at least three persons in a health-related or advanced education field, has performed satisfactorily on one or more standardized test, and is interested in pursuing a career in public health or a related field.

The requirements for admission to the MPH program are:

- Bachelor's degree from an accredited institution or its equivalent
- Recommended minimum GPA of 3.0 on a 4.0 scale
- If a candidate's primary language is not English, one of the following:
  - Test of English as a Foreign Language (TOEFL) exam with a minimum score of 79 (after conversion for test type), official IELTS scores of at least 6.5 overall band score from the academic module exam or official Duolingo overall score of 105.
  - Degree from an accredited U.S. institution

Applicants must apply through the Centralized Application Service for Public Health, SOPHAS (https://sophas.org/).

An application is considered after the following requirements have been received:

- Three letters of recommendation written within the last twelve months.
- Official transcripts of all degrees.
- One-page personal statement written by the applicant that is a clear, substantive description of his or her goals in public health, noting any professional or research experience.
- GRE scores are not required for the following MPH concentrations: Health Promotion and Behavioral Sciences, Health Policy, and Epidemiology.
- GRE scores are required for the MPH concentration in Biostatistics.
- International applicants: Foreign credential evaluation of all degrees from non-U.S. institutions. Please contact the MPH program prior to completing this requirement.
- Students applying with a concentration in Health Policy must be interviewed by the HMSS Health Leadership Committee.

Application Deadline

Fall semester – March 1 (International applicants). Applications are accepted on a rolling basis for domestic students. Domestic students are encouraged to apply no later than 30 days prior to the start of the fall semester.

Spring semester – Applications are not accepted.

Summer semester – Applications are not accepted.

For information on the application process, please contact:

MPH Program
School of Public Health and Information Sciences
University of Louisville
485 East Gray Street
Louisville, KY 40202

Phone: (502) 852-3289
Fax: (502) 852-3294

Faculty Advisor

On matriculation, each student is assigned a faculty advisor and is requested to meet at least twice each semester with his or her advisor.

If a student is admitted to a specific concentration, the director of the concentration will assign a specific faculty member as advisor. If students are admitted to the program as undeclared, the MPH program director will serve as their advisor. Undeclared students admitted to a specific concentration by the end of the first semester will be assigned a faculty advisor by the director of the concentration.

The faculty advisor serves as academic practicum advisor, academic mentor, and counselor on career and employment opportunities, professional development, and opportunities beyond graduate school.

Program Requirements

The MPH curriculum consists of core courses, concentration courses in one of the areas of public health, completion of a practicum experience, and completion of an integrating experience. The core courses are generally completed prior to taking concentration courses, the integration experience, and the practicum.

Full-time students are expected to complete the program and graduate in two years. Part-time students are required to complete the program and graduate within six years.

Coursework

42-48 total credit hours:

- Twelve (12) credit hours of core courses
- Four (4) credit hours of Practice Experience
- Two (2) credit hours of Integrative Experience
- 24-30 credit hours of concentration coursework

Students must successfully complete core, concentration, practicum, and integrating experience coursework with a minimum GPA of 3.0.

Academic Standing

To maintain good academic standing in the MPH program, students must maintain a cumulative GPA of 3.0 or higher for all coursework in the program. A student must be in good academic standing in order to receive the degree.

Any MPH student with a program cumulative GPA below 3.0 will be placed in probationary status. Any student who remains in probationary status for two consecutive terms may be considered for dismissal from the program.

Dual Master of Public Health, Health Policy - Master of Science, Health Administration
Dual Master of Science, Health Administration - Master of Public Health, Health Policy
Unit: Public Health and Information Sciences
Academic Plan Code: PH__MPHHPC, HEADMS

Program Information
The dual MPH (Health Policy) - MS Health Administration degree program facilitates development of advanced population and public health management professionals that may leverage knowledge and practices from both public health science and healthcare management domains to serve in leadership roles within public health institutions, federal-state-local agencies, and healthcare organizations. For more information about the dual program, please visit the program webpage.

Admission Requirements
Students must apply to and be accepted into both the MPH-HP and MS-HA programs. Only MS-HA Evening track students may apply. Each program will require a separate application and application fee.

The dual program is not available to MSHA Online track students.
