

ORAL BIOLOGY (MS)

Master of Science in Oral Biology

Unit: School of Dentistry (<http://louisville.edu/dentistry>) (GD)
 Program Webpage (<https://louisville.edu/dentistry/degrees/oralbiology/msob>)
 Academic Plan Code(s): OBIOMS

Program Information

The School of Dentistry offers a research-based program leading to the Master of Science degree in Oral Biology. The program is directed toward an in-depth understanding of the biology of the oral cavity and processes leading to disease, including the interactions between oral and systemic health. Students obtain the scientific knowledge and biomedical skills required to perform contemporary dental research. This is a research-based degree for which each student completes a thesis project under the guidance of a faculty mentor. Research projects include basic, clinical, and translational studies.

The MS in Oral Biology offers training important to persons wishing to pursue a career in either academic or clinical dentistry or to enter the biotechnology sector or advance to a PhD. The program is available to students wishing to obtain only the MS in Oral Biology degree, as well as to students currently enrolled in the DMD degree program wishing to earn a dual degree (DMD/MS), and persons who have previously earned a DMD or MD (or equivalent) degree, including international applicants. See louisville.edu/dentistry/degrees/oralbiology.

Areas for research training include: molecular, cellular and craniofacial biology; craniomaxillofacial diagnostic imaging; neural crest-related craniofacial and cardiovascular disorders; regulation of gene transcription; oral microbiology and immunology; cellular mechanisms of salivary gland secretion; birth defects; infection control; protein glycosylation; protein expression and trafficking; periodontology; dental materials science; orthodontics; endodontics; prosthodontics; and health services research related to dentistry. Developmental biology, oral microbiology, and innate immunology are particular strengths of the program.

A minimum of 30 credit hours is needed for the MS degree. Requirements for the degree include courses in introductory and advanced oral biology and in data analysis, participation in seminars, development of a biomedical research project, and a thesis.

Individualized programs are developed by students working with their thesis advisor and graduate committee. The graduate committee also approves proposed thesis research, reviews the thesis research, reviews the thesis for acceptance, and administers a final oral examination.

Additional important information about the program is available in the Oral Biology Program Guide (<http://louisville.edu/dentistry/degrees/oralbiology/msob/curriculum>).

Admission Requirements

Information about application process is available on the Oral Biology program website (<http://louisville.edu/dentistry/degrees/oralbiology/msob/admissions>).

Application for the program is online (<http://louisville.edu/graduate/apply>). There is a non-refundable application fee. Applications are not processed until the application fee is received and all required application materials have been received by the Graduate School.

Credentials listed below should be sent to the Graduate School, Graduate Admissions, by the following admission deadlines for complete applications:

June 5 for Fall
November 1 for Spring

Applications that are not complete by the deadline may not be reviewed in time for registration.

Students currently enrolled in the DMD degree program who wish to also apply to the MS degree in Oral Biology program should meet with the Program Director or Director of Student Affairs to determine a timeline for making an application.

Admission Credentials

(See Oral Biology Program Guide (<http://louisville.edu/dentistry/degrees/oralbiology/msob/admissions>))

- Application and application fee
- Transcripts of all college coursework, including evidence of a baccalaureate degree
- Graduate Record Examination scores or acceptable scores on the DAT or National Boards Dental Exam (NBDE)
- Two letters of recommendation which document your research experience or academic ability
- A personal statement of research experience or interest in research, and your career goals
- TOEFL scores, if English is not applicant's native language

Program Requirements

The *minimum* requirement for the MSOB degree is **30 credit hours**. At least one-half of the credits counting toward the degree (exclusive of thesis) must be in courses open to graduate students only (600 level or above).

Code	Title	Hours
Major Subject Core Courses		
OIID 501	Biomedical Data Analysis: Experimental Design and Statistics	8
OIID 601	Introduction to Oral Biology Research	
OIID 605	Oral Health Seminars (2 semesters, 0.5 credits each)	
OIID 606	Oral Biology Communication ¹	
Major Subject Selective Courses (see list below)		7-8
Thesis Research Requirements		14-15

OIID 619	Graduate Research (minimum of 8 semester hours required)
OIID 620	Thesis (minimum of 6 credit hours required)
<hr/>	
Minimum Total Hours	30

Major Subject Selective Courses

In addition to the list below, courses may be chosen from any 600-level courses offered by the University of Louisville that are deemed to be relevant and applicable to the student's program of study and thesis research, with approval by the student's thesis advisor/director and the Program Director.

Code	Title	Hours
OIID 600	Concepts in Oral Immunology	2
OIID 604	Oral Microbiology	3
OIID 610	Advanced Topics in Oral Biology ²	1-4
OBIO 611	Craniofacial Osteology	1-3
OBIO 612	Craniomaxillofacial Diagnostic Imaging	2-4
OBIO 613	The Diagnosis & Treatment of Temporomandibular Disorders	1
OBIO 614	Advanced Oral Diagnosis and Oral Medicine ²	1
OBIO 615	Advanced Clinical Pharmacology ²	1
OBIO 616	Overview of Medical Genetics in Oro-Facial Disease ³	1.5
OBIO 617	Advanced Oral Pathology ²	1
BIOC 668	Molecular Biology and Genetics ²	4

¹ Prerequisite: OIID 601 Introduction to Oral Biology Research

² Requires course director approval. Graduate-level clinical courses may require DMD or equivalent.

³ Course provided every second year.
