Women’s and Gender Studies with a 3+3 Track to Law (BA)

Bachelor of Arts in Women’s and Gender Studies with a 3+3 Track to Law (WGSTBA 3+3)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: Women’s and Gender Studies (http://www.louisville.edu/a-s/ws)

Program Information
The College of Arts & Sciences and the Louis D. Brandeis School of Law have joined forces to create 3+3 Accelerated Law programs that allows eligible students in the College of Arts & Sciences to begin law school in their senior year of undergraduate study. Students substitute undergraduate major requirements with the first 30 hours of law school, earning an undergraduate degree after their first year of law school and a Juris Doctor (JD) degree two years later.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements
Admission to the BA in Women’s and Gender Studies requires a minimum cumulative grade point average of 2.0 and a minimum grade point average of 2.0 on courses in the major. A 3.5 GPA is recommended by the School of Law (see below).

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Admission to Law School
Admission to the 3+3 track does not guarantee admission to the law school. Students seeking admission to law school must complete a law school application and satisfy all of Brandeis’ admissions requirements, including its median GPA and LSAT expectations.

It is recommended that students planning to pursue this track have a minimum cumulative GPA of 3.5.

For more information on Brandeis and its admissions requirements, please contact the law school’s Office of Admissions. The office can also arrange for you to visit the law school and to sit in on a class.

Women's and Gender Studies (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Women's and Gender Studies (WGSTBS)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s) Department: Women's and Gender Studies (http://www.louisville.edu/a-s/ws)

Program Information
Women's and gender studies is an interdisciplinary major that draws its questions and approaches from the humanities, social sciences, natural sciences, and arts. It helps students to develop theoretical, empirical, and methodological perspectives for studying gender as a crucial category for understanding the world. We offer extremely flexible scheduling for our majors: we have three core courses, offered regularly; students are allowed a fair amount of control in selecting the classes that will be most helpful to them in their chosen career path to complete the remainder of their requirements. Our students are required to engage in service learning opportunities outside the university, giving them useful career experience. Students in our program also find it easy to double major, if they so desire.

Completion of this degree requires work to be submitted for the department's Student Learning Outcomes Measurement. For details, contact the department.

Accelerated BA-BS/MA in WGS

Women's and Gender Studies majors who are already thinking about pursuing an MA in Women's and Gender Studies can speed up the process by applying some of their undergraduate credit hours toward a master's degree. The basic idea is to take three graduate level courses/nine hours (either 500-level with the additional graduate level assignments, or 600-level) while still an undergraduate, and then have those credits apply both toward the undergraduate degree and towards an eventual master's degree from UofL.

Students in the accelerated Master of Arts in Women's and Gender Studies program may take a maximum of nine hours for graduate credit, which will also apply to the requirements for the baccalaureate degree. To be considered for admission to the Accelerated Master of Arts in Women's and Gender Studies program, students must:

- Complete an application for admission to the Women's and Gender Studies Department's Master of Arts program (including GRE scores, transcripts, two letters of recommendation, a statement of purpose, and a writing sample) no later than the end of their junior year.
- Have a minimum overall grade point average (GPA) of 3.35, a Women's and Gender Studies GPA of 3.35, and meet all other requirements for admission to the Women's and Gender Studies Department's Master of Arts program.

Students must retain a 3.35 GPA in Women's and Gender Studies during their senior year to remain in the program. Once admitted to the accelerated BA/MA program and starting the graduate work, students are expected to maintain a full graduate load of 9 credit hours.

Students in the accelerated BA/MA program must meet all of the MA requirements including receiving at least 18 of their 36-hour program in 600-level, courses.

Departmental Admission Requirements

Admission to the BS in Women's and Gender Studies requires a minimum cumulative grade point average of 2.0 and a minimum grade point average of 2.0 on courses in the major.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Accelerated BA-BS/MA in WGS

Interested students should apply for entry into the accelerated program no later than the end of their Junior year.

Certificate in Police Executive Leadership Development

Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)

Department: Criminal Justice (http://www.louisville.edu/a-s/ja)

The Police Executive Leadership Development curriculum is designed to prepare student-officers for administrative careers in law enforcement. The courses offered have been approved by the University of Louisville and evaluated by the Southern Association of Colleges and Schools. Content of the individual courses as well as the overall content of the program is evaluated periodically and changes made if necessary to meet the needs of the law enforcement community.

Students who are accepted for the Southern Police Institute course are enrolled as full-time students in the University of Louisville. Each student is enrolled in five different courses, and those who successfully complete the courses receive 15 hours of college credit.

Students who have a baccalaureate degree are enrolled in the graduate certificate option (p. 1025) outlined in the Graduate Catalog.

**Program Requirements**

The curriculum of the Administrative Officers Course (AOC) of the Southern Police Institute is chosen from the following courses and may be taken only by students regularly enrolled in the Institute.

There are over 35 doctoral programs, more than 70 master’s-level programs, and over 20 graduate certificate programs, along with Rank I programs for certified teachers.

Professional Schools

The University of Louisville includes three schools that offer professional degrees: the School of Dentistry, the Louis D. Brandeis School of Law, and the School of Medicine.

For information on pre-professional curriculum and admissions requirements of the professional schools, students should contact the Arts & Sciences Advising Center.

The School of Dentistry

In addition to an undergraduate Bachelor of Science in Dental Hygiene, the School of Dentistry offers graduate and professional degree programs. They are the Doctor of Dental Medicine (DMD), Master of Science in Oral Biology (MS), and Master of Science in Dentistry (MSD) combined with an advanced specialty certificate in endodontics, orthodontics, pediatric dentistry, periodontics, and prosthodontics; and a bachelor of science in dental hygiene.

For the DMD degree, most applicants will have earned a BA or BS degree prior to enrollment. DMD applicants must have a minimum of 90 college credit hours with at least 32 hours of science course work, including courses in biology, general chemistry, organic chemistry and physics.

The master’s degree in oral biology program contains graduate level courses provided by departments within the School of Dentistry. This program is directed toward a general understanding of the biology of dental science. Students obtain detailed knowledge and necessary skills required to perform biologic research. For more information, see the UofL Graduate Catalog.

The School of Dentistry offers a program of study leading to the master of science degree in dentistry for postgraduate students/residents enrolled in the advanced specialty certificate programs in endodontics, orthodontics, pediatric dentistry, periodontics, and prosthodontics.

To apply, please contact the appropriate program director of each program at louisville.edu/dentistry or contact the Office of Postgraduate Education, School of Dentistry, (502) 852-0002.

The bachelor of science in dental hygiene program is a four year program with a lower and upper division. Students complete the lower division requirements on the Belknap Campus and then apply for competitive admission to the dental hygiene upper division which is housed in the School of Dentistry on the Health Sciences Center Campus.

More detailed information about admission requirements and application procedures may be obtained at the School of Dentistry website (louisville.edu/dentistry) or by contacting the Office of Student Affairs, School of Dentistry, (502) 852-5081.

The Louis D. Brandeis School of Law

The Brandeis School of Law offers a degree program leading to the Juris Doctor (JD) degree.

The program accommodates both full-time and part-time study. Full-time students complete the JD program in three years; part time students complete in four or five years.

The School of Law also offers eight dual degree programs. The joint MBA/JD degree is offered in conjunction with the University's College of Business; the MSSW/JD is offered in cooperation with the Kent School of Social Work. The joint JD/MA in humanities is offered in conjunction with the Division of Humanities in the School Interdisciplinary and Graduate Studies. The joint JD/master of divinity is offered in collaboration with the Louisville Presbyterian Theological Seminary. The joint JD/MA in political science is offered in conjunction with the Department of Political Science. The joint MUP/JD degree in urban planning and law is offered in conjunction with the University's Department of Urban and Public Affairs. The JD/MAs in bioethics and medical humanities is offered jointly with the School of Interdisciplinary and Graduate Studies, Department of Philosophy, and Division of Medical Humanities and Ethics. The joint JD/master of public administration is offered in conjunction with the Department of Urban and Public Affairs.

Successful candidates for admission must have a baccalaureate degree from an accredited institution prior to enrollment. Candidates must also take the Law School Admission Test (LSAT) prior to admission. More detailed information about admission requirements and application procedures can be obtained at louisville.edu/law/admissions or by calling the Law School Office of Admissions (502) 852-6391.

The law touches many phases of life and no uniform pre-law curriculum or major is prescribed for undergraduates. A liberal arts education is just as beneficial as an education directed toward later professional training.

Academic preparation should include courses that emphasize critical thinking, analysis, writing, and communication skills. These skills are necessary for the study of law. Generally, students interested in pursuing a legal career may follow the major of their choice. Those most commonly chosen are political science, business, English, history, and philosophy.

The College of Arts and Sciences has pre-law advisors to assist students in developing an integrated program of undergraduate studies tailored
to their particular needs and interests, preparing for the Law School Admissions Test, and choosing a law school suited to individual career objectives. The LSAT is normally taken in June following the junior year or in the fall of the senior year. In the course of fulfilling requirements in their major fields, pre-law students are urged, depending on your major, to include as many of the following as possible:

Consistent with the mission of the University of Louisville as a state university, those with significant academic, personal or family ties to Kentucky are given preference. International applicants are considered under the following circumstances:

The applicant either has a pending application for permanent residency status in the United States or has been granted DACA status and is either married to a U.S. citizen who has an established residence in Kentucky and intends to remain in Kentucky, or b) has numerous members of his or her immediate family who have established residence in Kentucky indefinitely.

International students, including those with a pending application for permanent residency or with DACA status, are not eligible for most federal benefits. Therefore, if these international students are offered...
admission, they must submit documentation of sufficient funds to cover the cost of completing a medical degree (see estimates at louisville.edu/medicine/financialaid/cost-of-attendance).

The process of selecting medical school applicants involves a variety of considerations including academic, non-academic, and personal characteristics. Admission to medical school requires a strong foundation in the natural sciences (biology, chemistry, mathematics, and physics), highly developed communication skills, and a solid background in the social sciences and humanities. Specific majors are not recommended, but the undergraduate major area of study should be a careful and considered decision. All applicants to medical school must take the Medical College Admission Test. Information about the MCAT and how to apply to medical school are available via the AMCAS website at www.aamc.org (http://www.aamc.org). Students considering making application to the University of Louisville School of Medicine should consult the school’s website for information about their program, in addition to contacting the College of Arts & Sciences Advising Center, (502) 852-5502, to meet with a pre-health advisor.

Pre-Optometry
Students who are planning to apply to schools of optometry can fulfill the pre-optometry course requirements at the University of Louisville. The only optometry school in the state of Kentucky is Kentucky College of Optometry at University of Pikeville (www.upike.edu/KYCO (http://www.upike.edu/KYCO)). Since schools of optometry vary somewhat in their course requirements for admission, students interested in making application should select schools to which they have an interest in applying so that they can schedule courses to meet requirements for those schools. In general, students planning to make application to schools of optometry will need a minimum of three years of college coursework including a heavy concentration in the natural sciences (biology, chemistry, mathematics, and physics) as well as courses in social sciences and humanities. Many schools of optometry give preference to students who have completed a bachelor’s degree; all schools require applicants to take the Optometry Admissions Test. Students considering making application to optometry school should contact the College of Arts and Sciences Pre-Health Professions Advisors (louisville.edu/a-s/advising) for more information. Open advising sessions are scheduled during the academic year.

Pre-Veterinary Medicine
Students planning to apply to schools of veterinary medicine can fulfill pre-veterinary course requirements at the University of Louisville. Since schools may vary somewhat in their requirements, students interested in making application should select schools to which they have an interest in applying so they can schedule courses to meet requirements for those schools.

There is not a school of veterinary medicine in Kentucky. However, Kentucky does have contracts with the following schools in Alabama to reserve spaces for students who are legal residents of Kentucky: Auburn University College of Veterinary Medicine (34 spaces; www.vetmed.auburn.edu (http://www.vetmed.auburn.edu)) and Tuskegee University School of Veterinary Medicine (2 spaces; www.tuskegee.edu/academics/colleges/cvmnah/school_of_veterinary_medicine.aspx (http://www.tuskegee.edu/academics/colleges/cvmnah/school_of_veterinary_medicine.aspx)). Admission is competitive with selection made by the respective schools. Students admitted to either the Auburn or Tuskegee program will be charged in-state tuition, with Kentucky making a payment for each enrolling student for up to four years. This is outlined by the Council on Post-Secondary education and can be found here: cpe.ky.gov/acm/apply-cs.html (http://cpe.ky.gov/acm/apply-cs.html)

Students interested in making application to schools of veterinary medicine should contact the College of Arts and Sciences Pre-Health Professions Advisors (louisville.edu/a-s/advising) for more information. Open advising sessions are scheduled during the academic year.

Pre-Pharmacy
Students who are interested in making application to a school of pharmacy can complete prerequisite course requirements at the University of Louisville. Although requirements for admission to pharmacy schools are similar, they do vary. Students should select schools to which they are interested in applying and schedule courses to meet those requirements. The University of Kentucky College of Pharmacy and Sullivan University are the only schools in Kentucky to offer a pharmacy degree. The degree program involves a four-year professional curriculum leading to the Doctor of Pharmacy degree. Pre-Pharmacy students at the University of Louisville should consult the pharmacy school’s website for the undergraduate courses required for admission to this program. Admission to pharmacy schools is competitive.

Students will need two to three years of college coursework with a heavy concentration in the natural sciences in order to meet minimum prerequisites.

All applicants must take the Pharmacy College Admission Test. Students considering making application to pharmacy school should contact the College of Arts and Sciences Pre-Health Professions Advisors (louisville.edu/a-s/advising) for more information. Open advising sessions are scheduled during the academic year.

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Specific information can be found on the Office of the Bursar website (http://louisville.edu/bursar/tuitionfee).

ANTH 348. State & Empire  
**Description:** The argument: that states and empires lie at the heart of the social sciences, of the humanities, and of our everyday lives. The devil lies mainly in the details. Different states and empires serve as examples, with specific foci depending on the instructor’s expertise. Stressed: how older empires haunt newer ones. Also emphasized: colonization and empire work as much “at home” as they do “abroad”. The course is organized to keep problematical character of states and empires in our sights. It is organized, that is, to suggest that states and empires may often present where we ordinarily do not look for them.

Analysis and interpretation of ceramics has been used by archaeologists to accomplish varied ends: to establish a time scale, to document interconnections between different areas, sites or groups of people, and to suggest what activities were carried out at particular sites. <td>Installation Art is an advanced exploratory seminar that investigates a contemporary art form as well as a thorny art-historical problem: the term &quot;installation&quot; now functions both as a loose descriptor for a myriad of contemporary artworks (having supplanted terms such as Assemblage and Environment) independent of medium and context, as well as a general and comprehensive art-historical genre-a circumstance that has its own compelling historical development. As a course, Installation Art is designed so that students can grapple with a central issue for contemporary art—the definition of a burgeoning critical term for art history. <td>This seminar examines the changing relationships between trauma and its representation in the twentieth century. Beginning with the Holocaust, the course charts a trajectory from this most profound of collective traumas, to the refinement of clinical definitions of trauma (e.g., PTSD) in the wake of the Vietnam War, to the development of trauma studies in the humanities in the 1990s, to the recent &quot;pictorial turn&quot; within scholarship on trauma. This historical framework will be brought to bear upon the dynamics of how trauma and visuality have been approached by scientists, scholars, and artists.</td>

PAS 247. Language, Protest and Identity - D1, SB  
Term Typically Offered: Fall, Spring  
Description: Sociolinguists see language as more than a question of people talking to each other. Language not only communicates ideas, but also communicates our identities in a society. It identifies us as we see ourselves and it identifies us, as others perceive us. Embodied in the act of human communication is a complex set of rules for how to send a message and another set of rules for how to interpret that message. Beyond these rules, socially constructed preconceptions, such as issues of race, class, and gender, can have an influence on the way people choose to communicate with others and on how that communication is understood by others. Much of this operates subtly and below our consciousness, such as when we say one thing, but our kinesics (body language) displays a different attitude. However, there are some, particularly those working in politics or advertising, who have developed a keen ability to manipulate or otherwise channel messages for a special effect. Recognizing how these various factors work, and their effect on the ability of people to understand one another, is particularly important in the current era. Societies have become more complex and diverse populations are now faced with the challenges of sharing the same living and working space. (Humanities)

SCHG 333. Globalizing Inequalities - WR  3 Units  
**Prerequisite(s):** ANTH 201 or SOC 201 or SOC 202; or consent of instructor.  
**Description:** One popular story about globalization holds that human beings have been like boats all rising together on a globalizing tide. The course uses data and perspectives from across the social sciences to develop a more realistic story—one that understands that people are not boats and the tides can alternately lift them up or beat them down, refresh them or drown them depending on the circumstances. Questions about those circumstances structure the course. Another question addressed by the course: how can knowing more about globalization and inequality help us develop the human career in different possible directions? The readings and other materials vary greatly by period, by spatial focus, and by analytical perspective. This is a WR course because the topic demands that students learn to pose their own questions about it and to answer those questions in cogent prose.  
**Note:** Cross-listed ANTH 333.

SW 361. Special Issues in Alcohol and Drug Counseling 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): Restricted to students admitted to Kent School of Social Work BSW program.
Description: This course includes highly specialized and advanced topics in addiction treatment to prepare students to begin practice in Alcohol and Drug Counselor training. Content will round out and complete a basic course of study for alcohol and drug counselors that was not adequately addressed in substance abuse and motivational interviewing classes. These advanced topics will 1) generally aid students in submitting the application for certification as alcohol and drug counselors, 2) provide students with required case management training for working in a licensed alcohol and other drug treatment facility, and 3) prepare students for working within multidisciplinary teams and gain familiarity with clinical supervision methods utilized in substance abuse treatment programs. 4) Students will become familiar with the use of the Addiction Severity Index (ASI) a very common assessment tool widely used in substance abuse treatment settings. The complexity and demonstrated efficacy of specialized treatment for substance abuse disorders is well documented and preparation to work with this problem will be valuable across a range of populations; including, but not limited to individuals treated in traditional and non-traditional treatment settings. Evidence based knowledge is progressively improving the effectiveness of treatment. This course will utilize a convergence of knowledge to prepare students for their role in advancing the treatment of alcohol and other drug dependency.
