For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
Sustainability (SUST)

SUST 101. Introduction to Sustainability - SB  3 Units
Term Typically Offered: Fall, Spring, Summer
Description: The study of sustainability is an interdisciplinary activity that examines interrelated environmental, political, economic, and social problems facing humans and society at local, regional and global scales. This course provides an introductory survey of the concepts, values, frameworks, and methodologies that contribute to understanding and responding to problems such as climate change, environmental degradation, and the issues of limited resource allocation. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

SUST 201. Environmental Management  3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): SUST 101.
Description: This course introduces students to major environmental problems in sustainability. Students will examine the biophysical or ecological properties, manifestations, and consequences of these problems at local, regional, and global scales. The course will take particular interest in human-environment interactions, understanding the role different ecosystems and environmental processes play in human well-being, as well as how humans interact with and influence biodiversity, structure, and function of natural systems worldwide. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

SUST 202. Behavioral Dimensions of Environmental Decision-Making  3 Units
Prerequisite(s): SUST 101.
Description: This course will examine sustainability through a behavioral lens, exploring the psychological processes, primary research methods, and behavioral solutions involved in environmentally responsible behavior and sustainability. Students will be introduced to key principles of motivation, perception, and decision-making to identify fundamental behavioral obstacles to sustainability. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

SUST 301. Sustainable Built Environment  3 Units
Prerequisite(s): SUST 101 and a 200-level SUST course.
Description: The course will explore the issues of sustainability from the perspective of the built environment, our history of construction and expansion, and buildings and how they interact with the natural environment. These issues will be explored from building specific, as well as urban system, perspectives including urban design. Further, the course will focus on identifying and implementing practices that lead to more sustainable man-made modifications of natural environment for human purposes. The course will comprise of a discussion about sustainable sources for energy, water, air, materials for human habitat design and management. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

SUST 401. Independent Study Sustainability - CUE  1-3 Units
Prerequisite(s): SUST 101, SUST 201, SUST 301, and permission of the instructor.
Description: By making arrangements with a faculty member, students can register for one to three hours of credit in SUST 401 to participate in research relevant to sustainability science or practice.
Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

SUST 402. Policy and Governance in Sustainability - WR  3 Units
Term Typically Offered: Fall Only
Prerequisite(s): SUST 101, SUST 201, and SUST 202.
Description: The course will deal with policy making and governance, and explore the impacts of political economy on overall sustainability. Students will examine desired economic conditions, policies, and governance systems that may encourage adoption of best practices in sustainability, including city / county level policy making, state and federal level issues (e.g., EPA, renewable energy incentives), and grassroots political organizing.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

SUST 403. Sustainable Societal Systems  3 Units
Term Typically Offered: Spring Only
Prerequisite(s): SUST 101, SUST 201, and SUST 202.
Description: This course examines sustainability problems and processes as embedded within large social-ecological systems and societal frameworks in the U.S. and globally. Students will examine topics in sustainability from a holistic systems perspective, in which "sustainability" is seen to integrate multiple actors, social systems (e.g., culture, economy, communities, and governance), environmental processes, and built / technological infrastructures at multiple scales to archive human welfare and lasting environmental prosperity (i.e., "social-ecological sustainability").
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

SUST 404. Sustainability Internship - CUE  3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): SUST 101, SUST 201, SUST 202, SUST 301, and permission of the instructor.
Description: The Sustainability Internship is a culminating learning experience for students to develop critical thinking skills, synthesize lessons learned from the BA in Sustainability, and apply the knowledge to real-world projects or activities in sustainability. Typical Internship sites and clients will include: local government agencies, community-based organizations, business organizations, and university committees or partnerships.
Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
SUST 480. Special Topics in Sustainability 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): Consent of instructor.
Description: Examination of an advanced topic related to sustainability. Topics will vary depending on instructor.
Note: May be repeated for credit.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

SUST 518. Urban Demography and GIS 3 Units
Term Typically Offered: Spring Only
Prerequisite(s): SUST 101; completion of Math/Quantitative Reasoning
General Education requirement; Junior or Senior standing.
Description: A spatial analysis of the distribution, characteristics, growth and change of the population of a metropolitan area.
Note: Cross-listed with PLAN 618 and PADM 621.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

SUST 576. Sustainable Social-Ecological Systems 3 Units
Term Typically Offered: Fall Only
Prerequisite(s): SUST 101, SUST 201 or SUST 202; and SUST 301; or consent of instructor.
Description: The course is designed to address the social ecological frameworks for understanding and applying sustainability concepts in both theory and practice.
Note: Cross-listed with PLAN 676, UPA 676, and PADM 676.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Theatre Arts (TA)

TA 207. Enjoyment of Theatre - AH 3 Units
Term Typically Offered: Fall, Spring, Summer
Description: A survey of theatre from its origins to the present, with an emphasis on dramatic literature, and theatrical techniques.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 224. Introduction to Acting as Communication - OC 3 Units
Term Typically Offered: Fall, Spring
Description: This course is an introduction to acting and performance as communication. Students will develop a general performance awareness and effective approaches to speaking in front of a variety of groups throughout the course. Students will demonstrate critical thinking and problem-solving by exploring the link between self and partner/audience. Additionally, students will build and grow themselves in performance and communication through ensemble building, active listening, acting exercises, and creative material development. The semester will culminate in a student conceived, written and performed presentation piece.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 240. Stagecraft I 3 Units
Term Typically Offered: Fall Only
Description: An introduction to aspects of technical theatre, including theatre facilities, scenic production, and production planning. Production work is required.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 241. Stagecraft II 3 Units
Term Typically Offered: Spring Only
Description: Continuing studies in technical theatre including: scenic production, stage properties, costume construction, stage lighting and sound mechanics, and production & stage management. Production work required.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 243. Design Aesthetics - AH 3 Units
Term Typically Offered: Fall Only
Description: This course is designed for students interested in further study into the principles, fundamentals, techniques and process of design.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 302. Acting I 3 Units
Term Typically Offered: Fall, Spring
Description: Fundamental techniques of acting, including sensory awareness, imagination, spontaneity, self-discovery through improvisation, and understanding and applying the vocabulary of acting. Culminates in an introduction to scene study.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 321. Acting II 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): TA 320 or TA 322 or equivalent, and permission of instructor.
Description: Techniques of character development and script analysis, stressing scene study in contemporary realistic style.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 322. Acting The Black Experience - AH, D1 3 Units
Term Typically Offered: Fall Only
Description: Fundamental approaches to performance developed through improvisation, call and response, rhythm and movement styles that are drawn from the black experience in America.
Note: Cross-listed with PAS 353.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
TA 324. Acting for Nonmajors 3 Units
Term Typically Offered: Fall, Spring, Summer
Description: Survey of basic acting techniques, intended for students who do not anticipate careers in theatre. Does not automatically apply to theatre degree requirements.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 326. Cultural Diversity in Performance - AH, D1 3 Units
Term Typically Offered: Fall, Spring
Description: Performance and discussion of selected public and private texts written by American minority writers. Course explores what it means to be part of a culturally diverse society.
Note: Cross-listed with PAS 355.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 330. Directing 3 Units
Term Typically Offered: Spring Only
Prerequisite(s): TA 241 or equivalent, and permission of instructor.
Description: Fundamental techniques of theatre directing, including script analysis and rehearsal methods.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 340. Introduction to Scene Design 3 Units
Term Typically Offered: Spring Only
Prerequisite(s): TA 240 or faculty consent.
Description: Techniques of scene design, including drafting, rendering, working drawings and set models.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 345. Introduction to Costume Design 3 Units
Term Typically Offered: Fall Only
Description: A survey of clothing styles as they relate to the design of costumes for the stage.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 346. Stage Make-up 3 Units
Term Typically Offered: Occasionally Offered
Description: Basic techniques of design and execution of makeup for the stage.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 349. Introduction to Stage Lighting 3 Units
Term Typically Offered: Fall Only
Prerequisite(s): TA 241 or faculty consent.
Description: Intensive study of modern stage lighting with emphasis on equipment and basic electricity. Production requirement.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 350. Theatre Performance and Production 0.5 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): Faculty consent.
Description: Participation in major productions of Belknap Theatre.
Note: One-half credit per term, to a maximum of 3 credits.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 352. Special Topics in Theatre 1-3 Units
Term Typically Offered: Spring Only
Description: Study of specific areas of theatre arts as announced in Schedule of Courses.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 357. Introduction to Hip-Hop Theatre - AH, D1, WR 3 Units
Term Typically Offered: Fall, Summer
Description: Exploration of contemporary hip-hop theatre and forerunners of hip-hop culture and art; including its relationship to African-American, American multicultural postmodern styles-through discussion, reading and performance exercises.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 360. Classical to Medieval Theatre History - WR 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): ENGL 102 or ENGL 105 or equivalent.
Description: The development of theatre and drama from ancient Greece to the age of Shakespeare.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 361. Renaissance to Romantic Theatre History - WR 3 Units
Term Typically Offered: Spring Odd Years
Prerequisite(s): ENGL 102 or ENGL 105 or equivalent.
Description: The development of theatre and drama from the Italian Renaissance to the rise of Realism.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 362. Modern and Contemporary Theatre History 3 Units
Term Typically Offered: Fall Odd Years
Prerequisite(s): ENGL 102, ENGL 105 or equivalent.
Description: Overview of theatrical production and dramatic literature from the rise of realism to the present day.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
TA 363. African-American Women in Theatre - AH, D1, WR 3 Units
Term Typically Offered: Occasionally Offered
Description: This course will explore the theatrical representation of African-American women through the lens of African-American playwrights, designers and theoreticians. Course content will focus on the works of African-American women playwrights, designers and theoreticians and encourage critical discourse on the material covered. Assignments and activities will include script analyses, discussion board posts, research papers, and quizzes. Assignments are designed to strengthen critical thinking skills, encourage perspective broadening dialogue and research, and enhance your understanding of the experience of the African diaspora. (Humanities)
Note: Approved for the Arts & Sciences upper-level requirement in written communication (WR).
Note: Cross-listed with PAS 350 and WGST 380.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 365. Theatre of the African World - AH, D2 3 Units
Term Typically Offered: Spring Odd Years
Description: This course is a cross-cultural examination of theatre and performance modes of select cultural and ethnic groups within Africa and the African Diaspora. The material will focus on performance and dramatic scripts by artists from West and South Africa, East Africa, the Caribbean, and the United States. We will investigate the distinctions in the manifestations of "theatre," "drama," and "performance" in Africa and the African Diaspora by means of lectures, play readings, written responses, in-depth discussions, video screenings, student projects, and presentations. (Humanities)
Note: Cross-listed with PAS 315.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 366. History of the African-American Theatre - AH, D1, WR 3 Units
Term Typically Offered: Fall Only
Description: This course will introduce students to the historical, political, and cultural milieu experienced by African Americans and their impact on theatrical expression in theatre and performance.
Note: Cross-listed with PAS 356.
Note: Approved for the Arts & Sciences upper-level requirement in written communication (WR).

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 367. Black Dramatic Literature - AH, D1 3 Units
Term Typically Offered: Occasionally Offered
Description: The primary goal of this course is to accomplish in-depth analyses of selected plays by black dramatists.
Note: Cross-listed with PAS 367.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
TA 451. Cooperative Internship in Theatre Arts  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): Completion of at least 30 hours and GPA of at least 3.0.  
Description: An individually-arranged course for applying theatre or speech skills to work experience.  
Note: May count as an elective toward a major in Theatre Arts.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 455. Independent Study  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): Departmental consent.  
Description: Practical problems in the art of acting approached in a laboratory setting.  
Note: Meets with TA 530.  
Note: May be repeated.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 520. Acting Workshop  
Prerequisite(s): Consent of instructor.  
Description: Development of physical expressiveness and agility for the stage.  
Note: One section each semester.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 522. Stage Movement II  
Prerequisite(s): Consent of instructor.  
Description: Development of physical expressiveness and agility for the stage.  
Note: One section each semester.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 523. Stage Speech I  
Prerequisite(s): Consent of instructor.  
Description: Development of voice production and articulation for the stage.  
Note: One section each semester.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 524. Stage Speech II  
Prerequisite(s): Consent of instructor.  
Description: Development of voice production and articulation for the stage.  
Note: One section each semester.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 525. Advanced Studies in Acting  
Prerequisite(s): Consent of instructor.  
Description: Group studies in specialized areas of actor training. Two-to-six hours of laboratory work, as announced in Schedule of Courses.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 526. Tools for a Global Theatre  
Prerequisite(s): Permission of instructor.  
Description: Cultural issues, perspectives, and approaches to theatre in various parts of the world will be addressed using both classical and contemporary texts.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 529. Actors Theatre of Louisville Workshop  
Prerequisite(s): Senior standing or faculty consent.  
Description: Organization of commercial theatre, auditioning techniques, and employment possibilities.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 530. Directing Workshop  
Prerequisite(s): Permission of instructor.  
Description: Practical problems in the art of directing approached in a laboratory setting.  
Note: Meets with TA 520.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 532. Advanced Directing the Black Experience  
Prerequisite(s): Permission of instructor.  
Description: Advanced techniques for staging plays from an African-centered perspective.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 533. Stage Management  
Prerequisite(s): Consent of instructor.  
Description: Techniques of production management during audition, rehearsal, and performance. Practical project required.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
TA 540. Problems in Technical Theatre  
**Prerequisite(s):** TA 241.  
**Description:** Topics vary by semester, but may include: A) Welding, B) Sound Design, C) Technical Direction, and/or D) Special Topics. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 541. Topics: Scene Design  
**Prerequisite(s):** TA 340.  
**Description:** Topics vary by semester, but may include: A) Scene Design, B) Advanced Scene Design, C) Design for the Camera, and/or D) Design for Lyric Theatre. E) Special Topics. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 543. Scenographic Techniques  
**Prerequisite(s):** TA 340.  
**Description:** Topics vary by semester, but may include: A) CAD for Stage Design, B) Sketching and Rendering - Scenery, C) Scene Painting, and/or D) Special Topics. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 545. Topics: Costume Design  
**Prerequisite(s):** TA 345.  
**Description:** Topics vary by semester, but may include: A) Advanced Costume Design, B) Costume History, C) Costume Construction, D) Sewing Techniques, E) Sketching and Rendering - Costumes, and/or F) Special Topics. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 547. Advanced Black Aesthetic on Stage  
**Prerequisite(s):** Permission of instructor.  
**Description:** Exploration of scenic, costume, lighting, and sound design from an Afrocentric perspective. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 549. Topics: Lighting Design  
**Prerequisite(s):** TA 349.  
**Description:** Topics vary by semester, but may include: A. Lighting Design, B. Advanced Lighting Design, and/or C. Special Topics. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 550. Culminating Undergraduate Experience Practicum - CUE  
**Prerequisite(s):** 90 credit hours.  
**Description:** The Theatre Arts CUE course is an independent project that demonstrates the student’s ability to conceptualize, analyze, communicate and direct, design, perform, manage or otherwise take a leadership role in a work for the stage.  
**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 555. Special Topics in Theatre  
**Prerequisite(s):** Consent of instructor.  
**Description:** Advanced study of specific areas of theatre arts.  
**Note:** May be repeated. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 557. Advanced Hip-Hop Theatre  
**Prerequisite(s):** Consent of instructor.  
**Description:** Advanced exploration of hip-hop theatre and forerunners of hip-hop culture and art—including its relationship to African-American, American multicultural and postmodern styles—through discussion, reading, research and performance exercises.  
**Note:** Undergraduate credit may not be earned for both this course and TA 357. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 560. Directed Study in Theatre History  
**Prerequisite(s):** Consent of instructor.  
**Description:** Survey of theatre history and literature, supplemented with directed reading of secondary sources.  
**Note:** Meets with TA 360-TA 361. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 562. Advanced Black Dramatic Literature  
**Prerequisite(s):** Permission of instructor.  
**Description:** An examination of the drama of selected African-descended writers whose work stands out as exceptional in the realm of dramatic literature. The material will be explored by means of lectures, play readings, written responses, in-depth discussion, videos, student projects and presentations. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
TA 563. Advanced African-American Women in Theatre 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): Permission of instructor.
Description: Examines the full range of African-American women working in theatre including playwrights, performers, designers, theorists, academics, and directors. Includes examination of plays by women of African descent.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 565. Advanced Theatre of the African World 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): Permission of Instructor.
Description: Cross-cultural examination of the drama of the African-descended playwrights in the African Diaspora.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 566. Advanced History of African-American Theatre 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): Permission of instructor.
Description: Survey of African-American Theatre from 1820 to the present, its relationship to sociopolitical issues in America and its relationship to mainstream American theatre.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 567. Asian Theatre 3 Units
Prerequisite(s): Graduate standing or permission of instructor.
Description: The theatre and drama of Japan, China, and other Asian nations.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

TA 571. Playscript Interpretation - WR 3 Units
Prerequisite(s): Permission of instructor.
Description: Advanced techniques of play analysis, emphasizing the theatre artist's response to text.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Women's and Gender Studies (WGST)

WGST 199. Writing in Women's and Gender Studies - WC 3 Units
Term Typically Offered: Fall Only
Prerequisite(s): ENGL 101.
Description: Intermediate college writing course based on the subject and methodology of women's and gender studies.
Note: Credit may not be earned for this course and ENGL 102.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 201. Women In American Culture - D1, SB 3 Units
Term Typically Offered: Fall, Spring, Summer
Description: Examination of women's experiences in 19th- and 20th-century America, focusing on issues pertaining to family, religion, economy, politics, law, race and class. (Social Sciences)
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 202. Seeing Gender: Introduction to Gender in Visual Studies - AH, D1 3 Units
Term Typically Offered: Fall, Spring
Description: This course introduces students to the disciplines of Visual Studies and Women's Studies. It explores the many ways in which these fields intersect through a consideration of two primary, related concepts: the social construction of vision and its inverse, the visual construction of the social. The first highlights how humans are conditioned to see the way they do because they are social animals. The latter underscores the fact that it is equally true that social arrangements, such as gender and race, take the forms that they do because humans are seeing animals. This framework allows students to critically engage some of the central questions that have shaped both Visual Studies and Women's & Gender Studies. How does seeing impose itself upon the social construction of gender and other forms of identity, such as racial and sexual identity? What is the relationship between images and words, and how does that relationship affect the politics of how images are used? What are the mechanisms by which vision and visual images become gendered or racialized? Why is visual experience so fraught with anxiety and fantasy? How do visual encounters with other people (and with images and objects) inform the construction of social life as gendered and racialized?
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 203. Gender Issues in Public Dialogue - D1, OC 3 Units
Term Typically Offered: Fall
Description: This course familiarizes students with ways gender issues have been represented in public dialogue. Students analyze speech, acts, and writing that affect public perceptions of gender and practice public speaking on gender issues. (Humanities)
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 207. Introduction to Philosophy through Cultural Diversity - AH, D2 3 Units
Term Typically Offered: Fall, Spring
Description: Survey of historical canonical contributions to western philosophy juxtaposed with minority voices to understand how social, economic, and cultural situatedness affect bodies of knowledge.
Note: Cross-listed with PHIL 207 and PAS 207.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
WGST 300. Sex, Gender, and Culture 3 Units
Term Typically Offered: Fall Even Years
Prerequisite(s): ANTH 201 or SOC 201 or SOC 202 or any WGST course.
Description: A cross-cultural examination of the interrelationship between biological sex, socially-constructed gender norms, sexuality, and culture. Topics include feminist/gender theory, masculinity, femininity, hermaphroditism, hetero-normative sexuality and homosexuality with emphasis on non-US cultures. (Social Sciences)
Note: Cross-listed with ANTH 309.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 301. Introduction to Lesbian, Gay, Bisexual, Transgender, and Queer Studies 3 Units
Term Typically Offered: Spring Only
Description: Course focuses on defining the field of LGBTQ studies, examining the historical and social contexts of LGBTQ communities as well as the personal, cultural, and political aspects of LGBTQ life. (Social Sciences)
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 303. Humanities and Gender - AH, D2 3 Units
Term Typically Offered: Fall, Spring, Summer
Description: Analysis of sex roles as embodied in classic works of philosophy, literature, history, drama, and art in ancient, medieval, modern and contemporary times. (Humanities)
Note: Cross-listed with HUM 331.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 312. Sociology of Women's Health 3 Units
Term Typically Offered: Occasionally Offered
Description: Introduces key theoretical and substantive issues in the sociology of women's health and healing. Draws from feminist theories and their intersections with critical perspectives on gender, race/ethnicity, social structure, power, science and medicine. Attention to social and cultural factors in the U.S. and abroad. (Social Sciences)
Note: Cross-listed with SOC 343.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 313. Sociology of Gender 3 Units
Term Typically Offered: Fall, Spring
Description: Examines the differential status of women and men in all major social institutions and explores the structural foundations and theoretical explanations of gender inequality. (Social Sciences)
Note: Cross-listed with SOC 327.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 316. Gender, Sexuality & Law 3 Units
Prerequisite(s): POLS 201 or instructor consent.
Description: This course examines how legal policy both reflects and shapes norms related to gender and sexuality, and analyzes the public policy implications of court decisions related to gender and sexuality.
Note: Cross-listed with POLS 316.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 320. Women in Music: A History - AH, D1 3 Units
Term Typically Offered: Fall, Spring, Summer
Description: Addresses the historical and social contexts and social constructions of gender related to women and music, as well as the portrayal of women in musical works. Includes focus on Western art music as well as various genres of popular music.
Note: Cross-listed with MUH 320.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 323. Queer Politics 3 Units
Term Typically Offered: Spring Only
Description: The course examines the political organization of gays, lesbians, and transgendered persons, forms of oppression they experience, forms of political activism they utilize, and their relationship to mainstream political institutions. (Social Sciences)
Note: Cross-listed with POLS 323.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 324. Communication and Gender 3 Units
Term Typically Offered: Fall, Spring, Summer
Description: The course examines how gender identities, roles and norms have been structured within different modes of communication (e.g., interpersonal, mass media and institutional). (Social Sciences)
Note: Cross-listed with COMM 324.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 325. Women and Global Literature - AH, D2 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): ENGL 102 or ENGL 105 or WGST 199 or equivalents.
Description: This course examines literatures by women writers and about women subjects from non-U.S. societies, exploring a variety of literary forms in relationship to social factors such as class, race, ethnicity, religion, sexuality and/or indigeneity.
Note: Cross-listed with ENGL 373.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
WGST 326. Gender and Children's Literature - AH, D1 3 Units
Term Typically Offered: Fall Only
Prerequisite(s): ENGL 102 or ENGL 105 or WGST 199 or equivalents.
Description: Examination of gender in British and North American literature for children/young adults from the late 19th century to the present with attention to the intersection of gender with common themes (e.g., heroic journey). Historical period: Post-1900. (Humanities)
Note: Cross-listed with ENGL 374.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 331. The History of Women, 1700 to the Present 3 Units
Term Typically Offered: Fall Only
Description: A comparative treatment of women’s changing status, including material from European and American history. (Social Sciences)
Note: Junior standing recommended.
Note: Credit may not be received for this course and HIST 324.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 332. History of Childhood in America - D1, SBH, WR 3 Units
Term Typically Offered: Fall, Summer
Description: An analysis of the impact of socioeconomic and ideological change in the experience of children and youth from the colonial period to the present, with attention to the effects of race, class, and gender on childhood experience. (Social Sciences)
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
Note: Credit may not be earned for this course and HIST 326.
Note: Cross-listed with HIST 326.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 333. Women in Latin American History 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): HIST 331 or HIST 332 recommended.
Description: Examines the history of women and gender in Latin America, with an emphasis on women's political participation. (Social Sciences)
Note: Credit may not be earned for this course and HIST 333.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 337. Motherhood and the Law 3 Units
Term Typically Offered: Occasionally Offered
Description: Motherhood and the Law will examine the various ways the legal system impacts and regulates mothers. Students will critically analyze the effect court decisions and laws have on mothers using an intersectional approach (as developed by Kimberle Crenshaw).
The course begins with setting a theoretical framework - built on both theories of motherhood and legal analysis - and from there will study the interplay between the law and motherhood, from reproductive rights through raising their children. This course is designed to give students an understanding of how the justice system impacts mothers’ lives, maintains systems of inequality, and regulates their bodies.
Note: Crosslisted with SOC 337.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 339. Black Women and the Criminology system 3 Units
Term Typically Offered: Occasionally Offered
Description: Black Women in the Criminal Justice System will examine the various ways the legal system impacts and regulates Black women.
Students will critically analyze the effect court decisions and laws have on Black women using an intersectional approach of race, gender, economic class, differently abled bodies, sexual orientation, religion, and nationality. Students will first study legal standards and terminology as well as race and gender theory to develop a solid foundation on which to examine case law, constitutional standards and current events. This course is designed to give students an understanding of how the justice system impacts Black women's lives, maintains systems of inequality, and regulates their bodies. We will look at women lead the criminal justice reform movement both within and outside of the legal system.
Note: Cross-listed with SOC 339 and PAS 339.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 340. Women and Religion 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): Sophomore standing.
Description: An examination of the significance of religious imagery for the socio-cultural roles of women, both past and present. (Humanities)
Note: Cross-listed with HUM 340.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 342. Black Women Novelists - AH, D2, WR 3 Units
Term Typically Offered: Occasionally Offered
Description: Selected novels by contemporary African, African-American and Caribbean women writers, in-depth and in-comparative study.
Historical period: Post-1900. (Humanities)
Note: Cross-listed with PAS 342 and ENGL 342.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
WGST 343. Faces of Global Poverty - WR  
Term Typically Offered: Occasionally Offered  
Description: Persistent poverty in the Third World and specific groups in the United States. Focuses on causes, consequences, solutions and survival strategies. (Social Sciences)  
Note: Cross-listed with PAS 392 and SOC 392.  
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 344. Black Lesbian Lives  
Term Typically Offered: Occasionally Offered  
Description: Course focuses on black, lesbian-identified people cross-culturally, examining autobiographical accounts and visual culture within the context of LGBTQ politics and discourse. (Social Sciences).  
Note: Cross-listed with PAS 344.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 346. Women in Africa: Historical and Literary Perspectives  
3 Units
Description: Survey of the role of women in historical African societies, women under colonialism, in nationalist movements, and in modern African countries. Literature about and by women will be considered. Emphasis on African/female perspective. (Humanities)  
Note: A prior course in PAS or WGST is recommended.  
Note: Cross-listed with PAS 385.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 347. Racism and Sexism - D1, SB  
3 Units
Term Typically Offered: Summer Only  
Description: The impact of racism and sexism on marginally-oppressed communities as well as their strategies of resistance. (Social Sciences)  
Note: Cross-listed with PAS 364.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 348. African-American Women - WR  
3 Units
Term Typically Offered: Occasionally Offered  
Description: Examination of the status and roles of African-American women from the slave era to contemporary times. Emphasis on migration, urbanization and labor force participation in familial contexts. (Social Sciences)  
Note: Cross-listed with PAS 332.  
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 349. Color Complex of Black Women  
3 Units
Term Typically Offered: Fall Even Years  
Description: Study of phenotypes, body image, inter/intra-gender relationships, media influences, and social norms, from slavery to present, on the development of black female identities, using theories in psychology, sociology, and deconstruction. (Social Sciences)  
Note: Cross-listed with PAS 331.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 355. Women in American Politics  
3 Units
Term Typically Offered: Spring, Summer  
Description: A study of women's involvement in American politics as active political party members, as candidates for national, state, and local office, as elected officials, and as appointees to government positions at all levels. (Social Sciences)  
Note: Cross-listed with POLS 324.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 360. Philosophy and Feminism - AH, D1  
3 Units
Term Typically Offered: Fall, Spring  
Description: An examination of philosophical issues involved in feminism, including classical, but emphasizing contemporary discussions.  
Note: Cross-listed with PHIL 318.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 364. Women's Health Issues - D1, SB  
3 Units
Term Typically Offered: Fall, Spring  
Description: This course will identify a broad range of health issues that can be unique to women or of special importance to women throughout the world. The course will examine the roles women play as both providers and consumers of health care nationally and internationally. (Social Sciences)  
Note: Cross-listed with HSS 364.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 373. Women Writers and Filmmakers - WR  
3 Units
Description: Explores issues relating to women's lives in their cinematic and fictional texts from 1970's until today; emphasis on foreign language films. Texts are read in English translation; films are either subtitled or dubbed (Humanities).  
Note: Cross-listed with M L 365.  
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 490. Topics in Women's and Gender Studies: Humanities  
3 Units  
**Description:** Focuses on a specific topic related to women or gender from an interdisciplinary, humanities perspective. Topics announced in the schedule of courses.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

WGST 491. Topics in Women's and Gender Studies: Social Sciences  
3 Units  
**Term Typically Offered:** Fall, Spring, Summer  
**Description:** Focuses on a specific topic related to women or gender from an interdisciplinary, social sciences perspective. Topics are announced in the Schedule of Classes.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

WGST 492. Topics in Women's and Gender Studies: Social Sciences (WR)  
3 Units  
**Description:** Focuses on a specific topic related to women or gender from an interdisciplinary, social sciences perspective and also meets the Arts and Sciences upper-level requirement in written communication (WR).  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

WGST 493. Topics in Women's and Gender Studies: Humanities (WR) - WR  
3 Units  
**Description:** Focuses on a specific topic related to women or gender from an interdisciplinary, humanities perspective and also meets the Arts and Sciences upper-level requirement in written communication (WR).  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

WGST 498. Senior Honors Thesis: Social Sciences - WR  
3 Units  
**Term Typically Offered:** Fall, Spring  
**Prerequisite(s):** Restricted to Women's & Gender Studies majors and minors who have been admitted to departmental or college honors; permission of instructor required.  
**Description:** An intensive examination from a social sciences perspective of a topical area in women's and gender studies undertaken with a designated faculty advisor.  
**Note:** Approved for the Arts and Sciences upper-level requirement in written communication (WR).  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

WGST 499. Senior Honors Thesis: Humanities (WR) - WR  
3 Units  
**Term Typically Offered:** Fall, Spring  
**Prerequisite(s):** Restricted to Women's & Gender Studies majors and minors who have been admitted to departmental or college honors; permission of instructor required.  
**Description:** An intensive examination from a humanities perspective of a topical area in women's and gender studies, undertaken with a designated faculty advisor.  
**Note:** Approved for the Arts and Sciences upper-level requirement in written communication (WR).  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

WGST 500. Senior Seminar in Women's and Gender Studies: Social Sciences - CUE  
3 Units  
**Term Typically Offered:** Occasionally Offered  
**Prerequisite(s):** Senior standing or consent of instructor.  
**Description:** This course investigates a Women's and Gender Studies topic from an interdisciplinary perspective and requires students to practice interdisciplinary methodology.  
**Note:** Approved for the General Education requirement in written communication (WR).  

**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

WGST 512. Gender, Race, Work, and Welfare  
3 Units  
**Prerequisite(s):** 9 hours of social sciences course work at the 300-level or above; or consent of instructor.  
**Description:** Introduction to theory and research on labor market and welfare state with focus on gender and race/ethnicity as they influence women's experiences of and ideas about work and welfare. (Social Sciences)  
**Note:** Cross-listed with PAS 512 and SOC 512.  
**Note:** Credit may not be earned for both WGST 512 / PAS 512 / SOC 512 and WGST 612 / PAS 612 / SOC 612.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

WGST 513. U. S. Social Justice Movements  
3 Units  
**Prerequisite(s):** Junior-level standing.  
**Description:** Course will begin with abolitionism, then concentrate on social justice upsurges of the 20th century, with emphasis on women in the civil rights and Black liberation movements. (Social Sciences)  
**Note:** Cross-listed with HIST 513, PAS 513, SCHG 513.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

WGST 520. Women's Personal Narratives  
3 Units  
**Prerequisite(s):** ENGL 102 or ENGL 105 or WGST 199; Junior standing.  
**Description:** Course examines issues such as race, class, religion, geography, and sexual orientation surrounding the writing/reading of women's personal narratives (e.g., diaries, letters, autobiographies, oral histories, biographies, and films) from the 19th and 20th centuries. (Humanities)  
**Note:** Cross-listed with ENGL 554.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
WGST 522. The Body in Popular Media - WR  3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): One WGST course or permission of instructor.
Description: Examines the relationship between culture and the body, focusing on how Western philosophy, as well as gender, race and class, have constructed popular images of and attitudes toward the body.
Note: Approved for the Arts & Sciences upper-level requirement in written communication (WR).
Note: Credit may not be earned for both WGST 522 (does not carry graduate credit) and WGST 622.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 523. Gender and Popular Music - WR  3 Units
Description: Course explores the way gender structures the production, distribution, and consumption of popular music, including variety of genres in the past and present, with attention to the intersectional roles of race, class, and sexuality. (Humanities)
Note: Approved for the Arts & Sciences upper-level requirement in written communication (WR).

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 525. Art and Trauma  3 Units
Prerequisite(s): ARTH 270 and ARTH 325, or permission of instructor.
Description: Representations of Trauma in the Visual Arts is an advanced exploratory seminar examining the changing relationships between trauma and its representation in the twentieth century. Beginning with the Holocaust, the course charts a trajectory from this most profound of collective traumas, to the refinement of clinical definitions of trauma (e.g., PTSD) in the wake of the Vietnam War, the development of trauma studies in the humanities in the 1990s, to the recent “pictorial turn” within scholarship on trauma. This historical framework will be brought to bear upon the dynamics of how trauma and visuality have been approached by scientists, scholars, and artists. Each week’s reading and viewing materials will offer students an example of historical or clinical account of trauma, a secondary or applied analysis, and its artist’s original work that responds to the particular traumatic event under consideration.
In this regard, students will be encouraged to negotiate the discursive relationships between history, theory, and practice.
Note: Cross-listed with ARTH 525.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 530. Feminism in Western Civilization, 1790-1920 - WR  3 Units
Description: Comparative analysis of feminist movements in the United States, Britain, and Europe, stressing intellectual background, social composition, goals and political strategies. (Social Sciences)
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
Note: Credit may not be received for WGST 530 or HIST 588 and WGST 630.
Note: Junior-standing recommended.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 531. Women in the Twentieth Century in Europe and the U.S. - WR  3 Units
Prerequisite(s): Junior standing.
Description: The history of women in Western society, including Europe and the U.S. in the twentieth century. Includes political, economic, social, and cultural developments. (Social Sciences)
Note: Cross-listed with HIST 583.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
Note: Credit may not be earned for WGST 531/HIST 583 and WGST 631.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 532. History of American Sexualities - WR  3 Units
Prerequisite(s): Junior standing.
Description: The course focuses on sexual behaviors and meanings in America from the colonial period to the late twentieth century and how sexual meanings impact people’s identities, choices, and social positions. The course also concerns the interaction of gender, race, and class. (Social Sciences)
Note: HIST 211 and HIST 212 is recommended.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
Note: Credit may not be earned for this course and HIST 589.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 533. Women in 19th-Century America - WR  3 Units
Prerequisite(s): ENGL 102 or ENGL 105, or the equivalent.
Description: Course focuses on material conditions, ideologies, and knowledge-systems that shaped American women’s lives in the 19th century, with attention to race, class, and regional differences. (Social Sciences)
Note: Cross-listed with HIST 506.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
Note: Credit may not be earned for both HIST 506 / WGST 533 and WGST 633.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 534. American Woman in Sports  3 Units
Description: The role of the American woman in sport. Examination of concepts about women, sport, and society in contemporary and historical perspectives. (Social Sciences)
Note: Cross-listed with SPAD 529.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
WGST 540. Women's Health in Africa - WR 3 Units
Prerequisite(s): Senior standing.
Description: Examination of population growth, early marriage, family size and cultural and religious beliefs on reproductive health of contemporary African women. (Social Sciences)
Note: Cross-listed with PAS 562.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
Note: Credit may not be earned for both WGST 540/PAS 562 and WGST 640/PAS 662.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 543. Black Women's Voices - WR 3 Units
Prerequisite(s): At least 6 credit hours in Social Science or Humanities or consent of faculty.
Description: Global synopsis of black women’s studies and social thoughts. Highlights roadblocks and bridges experienced. Captures race, gender, class and spatial dimensions. (Social Sciences)
Note: Cross-listed with PAS 542.
Note: Approved for the Arts & Sciences upper-level requirement in written communication (WR).
Note: Credit may not be earned for both WGST 543/PAS 542 and WGST 643/PAS 643.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 545. Southern Women: Black and White 3 Units
Term Typically Offered: Occasionally Offered
Description: Course focuses on questions of identity for southern women, black and white, by contrasting stereotypes and ideals with realities for these women in the slave, Jim Crow, and modern South. (Social Sciences)
Note: Cross-listed with PAS 545.
Note: Credit may not be earned for this course and WGST 645 or PAS 645.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 547. Language, Race, Class, and Gender 3 Units
Prerequisite(s): Junior standing.
Description: Course investigates the intersections of linguistic behavior with questions of race, class and gender. Students will gain an understanding of the multiple characteristics of communication. (Humanities)
Note: Cross-listed with PAS 547.
Note: Credit may not be earned for this course and PAS 547.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 556. Feminist Theory - WR 3 Units
Description: Survey of the history and scope of the feminist tradition with emphasis upon liberal, radical, Marxist, socialist, psychoanalytic, and postmodern approaches to feminist theory. (Social Sciences)
Note: Cross-listed with POLS 568.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
Note: Credit may not be earned for both WGST 556/POLS 568 and WGST 656/POLS 668.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 558. Women in Developing Countries - WR 3 Units
Description: Follows the progress of the international women's movement by focusing on the emergence of women leaders and their work in developing countries since the First World Conference on Women, 1975 to the present. (Social Sciences)
Note: Cross-listed with POLS 563.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 560. Feminist Philosophical Literature 3 Units
Prerequisite(s): Junior standing.
Description: Examination of central works by feminist philosophers in such sub-disciplines as ethics, political philosophy, and epistemology. (Humanities)
Note: Cross-listed with PHIL 518.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 571. Francophone Women Writers - WR 3 Units
Prerequisite(s): Faculty consent.
Description: Readings of literary and non-literary texts by women of the French-speaking world. (Humanities)
Note: Cross-listed with M L 506.
Note: Approved for the Arts & Sciences upper-level requirement in written communication (WR).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 582. Gender, Race and Culture in Health Care 3 Units
Prerequisite(s): A Philosophy course at 300-level or above, or consent of instructor.
Description: Examines ways social groupings and systems affect the kind of health care needed and the kind people receive. Addresses both biases and stereotypes, and empirical claims about biologically-based differences.
Note: Cross-listed with PHIL 582.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
WGST 584. Women in East Asian History  3 Units
Description: The history of women in China from ancient times to the twentieth century, with comparisons to women’s experiences in Japan, Korea, and Vietnam. (Social Sciences)
Note: Cross-listed with HIST 584.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 589. Independent Study: Women’s and Gender Studies: Humanities  1-3 Units
Prerequisite(s): Restricted to students who have a 3.0 cumulative GPA and have completed a minimum of 12 hours in WGST courses; permission of instructor.
Description: Provides opportunity for a student to do advanced interdisciplinary, humanities work on a Women’s and Gender Studies topic.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 590. Independent Study: Women’s and Gender Studies: Social Sciences  1-3 Units
Prerequisite(s): Restricted to students who have a 3.0 cumulative GPA and have completed a minimum of 12 hours in WGST courses; permission of instructor.
Description: Provides opportunity for a student to do advanced interdisciplinary, social sciences work on a Women’s and Gender Studies topic. Topics announced in Schedule of Courses.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 591. Topics in Women’s and Gender Studies: Social Sciences  3 Units
Term Typically Offered: Occasionally Offered
Description: Provides advanced study of a special topic related to women or gender from an interdisciplinary, social sciences perspective. Topics announced in Schedule of Courses.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 592. Topics in Women’s and Gender Studies: Social Sciences (WR)  3 Units
Description: Provides advanced study of a special topic related to women or gender from an interdisciplinary, social sciences perspective. Topics announced in Schedule of Courses.
Note: Approved for the General Education requirement in written communication (WR).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 593. Topics in Women’s and Gender Studies: Humanities  3 Units
Description: Provides advanced study of a special topic related to women or gender from an interdisciplinary, humanities perspective. Topics announced in Schedule of Courses.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

WGST 594. Topics in Women’s and Gender Studies: Humanities (WR)  3 Units
Description: Provides advanced study of a special topic related to women or gender from an interdisciplinary, humanities perspective. Topics announced in Schedule of Courses.
Note: Approved for the General Education requirement in written communication (WR).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Printing Tip: Right-click on the section title in the Bookmarks menu (left) of the PDF and click "Print Page(s)" to print only that section. You can also enter the page range in the "Pages to Print" section of the Print dialog.
The Graduate Catalog is applicable to students who enroll at the University beginning Summer 2018 through Spring 2019.

The Graduate Catalog is the official listing of the policies governing graduate education at the University of Louisville. This catalog documents policies and procedures set by the Graduate Council and is updated each academic year to reflect changes and updates to policy. While every effort has been made to make the catalog accurate as of the date of publication, the University of Louisville reserves the right to change programs of study, academic policies, academic requirements, fees, course information, procedures for the confirmation of degrees, or the announced academic calendar and related deadlines without prior notice.

Revised May 2018.

The University of Louisville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate, bachelor, master, specialist, doctoral, and first-professional degrees (DMD, JD, MD). Individuals who wish to contact the Commission on Colleges regarding the accreditation status of the university may write the Commission at:

Southern Association of Colleges and Schools
1866 Southern Lane
Decatur, Georgia 30033-4097
(404) 679-4500

The University of Louisville reserves the right to change programs of study, academic policies, academic requirements, fees, course information, procedures for the confirmation of degrees, or the announced academic calendar and related deadlines without prior notice.

The provisions of this publication do not constitute an express or implied contract between the University of Louisville and any member of the student body, faculty, or general public.

The University of Louisville is an equal-opportunity institution and does not discriminate against persons because of race, religion, sex, age, handicap, color, citizenship or national origin. If responses from the unit staff are unsatisfactory, inquiries or complaints about illegal discrimination including sexual harassment or handicap access can be made to the Affirmative Action director by calling (502) 852–6538.

The Redbook is the official statement of the organizational structure, the rules of governance and procedures, and university-wide policies of the University of Louisville. If there is any conflict between the policies, procedures or other statements contained within this catalog, The
LETTER FROM THE DEAN

Experience the excitement of discovery. Create new knowledge in your field of study. Learn the practical applications of theory from world-class faculty.

At the University of Louisville, we believe that a graduate program should change your work...and your life.

UofL is a metropolitan research university with an attractive main campus in Kentucky’s largest city and a Health Sciences Center in the downtown medical complex. Enrollment is more than 20,000, with 6,000 students pursuing graduate degrees.

Louisville is an exciting, vibrant city, centrally located within the United States. With lots of charm and much to see and do, from the cultural arts to sports, it is home to almost one million people from across the U.S. and around the world.

Paul DeMarco, PhD

Acting Vice Provost for Graduate Affairs
Acting Dean of the School of Interdisciplinary and Graduate Studies
MISSION STATEMENT OF THE UNIVERSITY OF LOUISVILLE

The University of Louisville pursues excellence and inclusiveness in its work to educate and serve its community through:

1. teaching diverse undergraduate, graduate, and professional students in order to develop engaged citizens, leaders, and scholars;
2. practicing and applying research, scholarship and creative activity; and
3. providing engaged service and outreach that improve the quality of life for local and global communities.

The University is committed to achieving preeminence as a nationally recognized metropolitan research university.

As adopted by the Board of Trustees of the University of Louisville, January 14, 2016
The University of Louisville can trace its history back to the establishment of the Jefferson Seminary in 1798.

During the early 19th century, the growing importance of water transportation, coupled with a strategic location at the falls of the Ohio River, made Louisville a commercial hub for the South and West. As the city's population and economy advanced, so did its institutions. In 1837 the Louisville Medical Institute opened for its first class, and the next year, the city created the Louisville Collegiate Institute. The two schools had no official connection, but they both manifested the city's dream of intellectual as well as mercantile leadership. In 1844 the Collegiate Institute inherited property from the now-defunct Seminary.

The Louisville Medical Institute attracted large enrollments and prospered financially, but the Collegiate Institute struggled to remain open. Proponents of grassroots democracy wanted to combine the schools and divert a portion of the medical school's resources to the college. They won a partial victory in 1846 when the General Assembly merged the Medical and Collegiate Institutes as the University of Louisville, but the new charter offered complete vindication to neither interest. It created a common board of trustees, but each division retained financial autonomy. The medical school continued to prosper, but as the liberal arts division struggled and failed to remain open, the newly added law school brought in a respectable number of students.

Most of the professors in the medical and law schools were drawn from the ranks of local physicians and attorneys who considered teaching a part-time vocation. By the 1880s and 1890s, however, the University felt some pressure from the educational reformers who not only believed schools should employ full-time instructors, but also advocated for well-enforced, national standards for academic training. In 1907, this trend contributed to the revival of the College of Arts and Sciences, which had been all but forgotten for most of the 19th century. As the university added new programs such as the Graduate School (1915), School of Dentistry (1918), Speed Scientific School (1925), Louisville Municipal College (1931), School of Music (1932), and Kent School of Social Work (1936), conformity to accreditation guidelines became increasingly important. Expanded academic programs and the adherence to higher educational standards led to the appointment of full-time administrators early in the 20th century.

World War II and the postwar era brought major changes to the University of Louisville. Shortly after the war, a movement began to close the all-black Louisville Municipal College and desegregate the University on all levels. This was accomplished in 1950 and 1951. The School of Business was established in 1953. Perhaps the most dramatic development of the postwar period was the movement of taxpaying citizens from the city to the suburbs. Since the University of Louisville was municipally-funded, this caused a damaging drain on the school's revenue. As early as 1965, a governor's task force suggested the possibility of the University of Louisville joining the state system of higher education, which it did in 1970.

Another major development occurred in 1994, when the Kentucky Council on Postsecondary Education designated University of Louisville as a research university, assigning it a statewide mission in medicine, dentistry, law and urban affairs.

In 1997, the state legislature revised the university's mission statement. University of Louisville was charged with becoming a "premier, nationally recognized metropolitan research university." The state also established the Research Challenge Trust Fund, which pumped more than $118 million into research at University of Louisville, helping the university attract and retain a number of nationally recognized researchers and their teams. The fund, also known as "Bucks for Brains," has helped University of Louisville attract almost $400 million in extramural funding, created 1,500 new jobs and had an economic impact of almost $850 million.

One of the oldest metropolitan universities in the United States, University of Louisville has a long history of dedication to the needs of the Louisville urban area. In 2007, the university reaffirmed that mission through implementation of its Signature Partnership initiative, which formalizes its commitment to improving the lives of residents of some of Louisville's most disadvantaged neighborhoods. University of Louisville faculty, staff and students now support the city through hundreds of programs and partnerships in the areas of health, economic development, education and social and human services.
ADMINISTRATION

Dr. Neeli Bendapudi, President, University of Louisville

Board of Trustees
In accordance with the statutory authority of the Commonwealth of Kentucky, the Board of Trustees of the University of Louisville exercises final jurisdiction over the university. It selects the President of the university; upon recommendation of the President, it makes all appointments to the faculty and all appointments of individuals in administrative capacities who serve at the pleasure of the Board.

The Board of Trustees adopts a budget annually for the ensuing year and grants all degrees conferred by the university.

More information on the Board of Trustees, including current membership can be found at the Board of Trustees website (http://louisville.edu/president/board-of-trustees).

ABOUT THE SCHOOL OF INTERDISCIPLINARY AND GRADUATE STUDIES

The legislative functions of the School of Interdisciplinary and Graduate Studies are vested in the Graduate Council, which consists of elected representatives of the Graduate Faculty. The Council establishes minimum guidelines and policies that maintain high standards for administering graduate education at the University of Louisville. The Dean of the School of Interdisciplinary and Graduate Studies serves as chair of this body and of the Graduate Faculty.

The dean and the dean’s staff are responsible for the administration of the rules and regulations of the School of Interdisciplinary and Graduate Studies and are expected to maintain and safeguard the standards and policies of the school as outlined by the Graduate Faculty and the Graduate Council.

Graduate students participate in the operation and decision-making process of the School of Interdisciplinary and Graduate Studies through the Graduate Student Association (louisville.edu/graduate/gsc)—to which all graduate students belong—and its executive committee, the Graduate Student Council, which consists of one elected representative from each graduate program. A representative of the Graduate Student Council serves as a voting member of the Graduate Council. Graduate students are actively sought as members of many of the standing committees of the School of Interdisciplinary and Graduate Studies, and they are urged to participate and become involved in the administration of the School of Interdisciplinary and Graduate Studies through these channels.
MISSION STATEMENT
OF THE SCHOOL OF
INTERDISCIPLINARY AND
GRADUATE STUDIES

The mission of The School of Interdisciplinary and Graduate Studies is to advocate and provide support for graduate education, graduate students, and interdisciplinary programs, and to promote the advancement of knowledge through the teaching and training of post-baccalaureate students. By fostering the spirit of inquiry and research in the members of its faculties, it not only strengthens undergraduate instruction but also advances knowledge. Through its graduate courses, it furnishes advanced preparation for those who are planning to become investigators or teachers in the social sciences, humanities, and natural sciences. It also partners with the academic units to support graduate students, financially and professionally, and help those units recruit, retain, and prepare students for successful careers.
APPLICATION AND ADMISSION

It is the applicant’s responsibility to consult the appropriate department, school or program for application deadlines and specific program requirements. The university reserves the right to change programs of study, academic requirements, tuition and fees, schedule of courses, the announced academic calendar and deadlines without prior notice.

Minimum Application Requirements for All Graduate Programs

- Application for graduate admission
- Application fee
- Official transcript(s) from all previous colleges and universities attended
- Letters of recommendation (at least 2) (check program requirements)
- Standardized Test Scores (check program requirements)

Some programs require additional materials, such as a personal statement, writing sample, etc. (consult specific program requirements in the graduate catalog).

Application for Admission

Apply online at louisville.edu/graduate/apply

Credentials should be sent to the address below:

University of Louisville
School of Interdisciplinary and Graduate Studies
Graduate Admissions
2211 South Brook Street, Houchens Building, Suite 105
Louisville, KY 40292

Programs have different deadlines and may require additional credentials or materials. Applicants should consult the pertinent program section of this catalog and check directly with the department.

The application and supporting documents become the property of the University of Louisville and will not be returned to the applicant or forwarded to another university.

If you do not enroll, your academic credentials will be retained in the School of Interdisciplinary and Graduate Studies for two years.

Application Fee

A non-refundable application processing fee is required. When applying online, the fee may be paid with a credit card or electronic check to CollegeNET (details are provided online at the time of application).

Students receiving public assistance may be exempt from the application fee and may request an application fee waiver with appropriate documentation.

Applications will not be processed until the application fee is received.

Transcripts

Official transcripts showing all degrees awarded and all undergraduate and graduate work completed at every regionally accredited college/university previously attended must be submitted. Transcripts must be sent directly from the college/university. Transcripts sent by applicants will be considered unofficial. The minimum requirement for admission is the baccalaureate degree or its equivalent from a regionally accredited institution. Students applying with a baccalaureate or an advanced degree from a nationally accredited institution will be considered at the discretion of the admitting unit with approval via a variance request to the Vice Provost for Graduate Affairs.

All transcripts that are not in English must be translated verbatim into English and must be notarized. Some programs may require international applicants to have transcripts evaluated by a credential evaluation service such as World Education Services (www.wes.org) or Educational Credential Evaluators (www.ece.org), prior to consideration. Please check directly with the admitting department.

1 Regional accrediting agencies include: Middle States Association of Colleges and Schools (MSA), North Central Association of Colleges and Schools (NCA-HLC), Northwest Commission on Colleges and Universities (NWCCU), New England Association of Schools and Colleges (NEASC-CIHE), Southern Association of Colleges and Schools (SACS), The Western Association of Schools and Colleges (WASC-ACSCU, WASC-ACCJC)

Test Scores

The Graduate Record Exam (GRE) is required for admission to most programs and for consideration for most fellowship and scholarship awards. Please check directly with the department regarding test requirements. The University of Louisville institution code for score reporting is 1838.

Letters of Recommendation

A minimum of two letters of recommendation are required; however, some graduate programs require more. Letters should be written by someone who can speak to the applicant’s academic and/or professional capabilities. Letters of recommendation may be sent via College Net (online application service), to gradadm@louisville.edu or by regular mail to the address listed above.

International Students

All international students shall comply with regulations of the U.S. Department of Immigration and Customs, its Student and Exchange Visitor Program and all related policies of the University of Louisville International Center.

All international students must be registered with the University of Louisville International Center and must present evidence of financial resources that are adequate to support their educational and living
expenses in the United States for the duration of their studies. Documentation showing that a University Fellowship or Graduate Assistantship has been awarded is normally considered evidence of adequate financial resources.

International students for whom English is not their primary language must show English language proficiency by demonstration of level of proficiency, specified by the program, on the TOEFL examination (www.toefl.org) or IELTS examination (www.ielts.org), or demonstration of an accredited degree awarded by an acceptable institution which uses English as the primary language of instruction. Scores must be sent to the School of Interdisciplinary and Graduate Studies, Graduate Admissions directly from the testing agencies. The school code is 1838.

International student services and programs are organized and administered by the International Student and Scholar Services (ISSS) staff, located in the International Center. The Office serves as an administrative, advising, and programming unit for all international students at the University of Louisville. The staff is trained to assist international students in solving problems, handle matters with immigration, and answer general questions about life in Louisville or in the United States.

Please refer to the International Center web page at: louisville.edu/internationalcenter/

Admissions

Upon receipt of the application for graduate studies, application fee and credentials, the graduate program will evaluate the application package and specify the admission status and any conditions of admission. The official admission letter will come from the graduate program or the enrollment unit Dean or designee.

Degree status – good standing: In order for a student to be recommended for admission without conditions to degree status in good standing, all admission credentials must have been received and evaluated. The applicant must have earned a minimum grade-point average as specified by the enrollment unit. Each applicant should consult the specific graduate program descriptions in this catalog to determine any additional admissions criteria or any more restrictive requirements for admission to this status.

Degree status - provisional: This status is intended for students whose application materials are incomplete (usually missing required credentials or letters), but who have submitted the application form and application fee. Students in provisional status must also meet the general academic requirements of their program. Students may not enroll for a second consecutive term in provisional status. Not all graduate programs allow admission on a provisional basis. A student admitted on a provisional basis has one semester to furnish any credentials missing at the time of admission.

Degree status - special conditions: This status is intended for students whose applications are complete, but whose academic background is below the minimum for their program. Students admitted in this status will be expected to meet certain criteria within a specific time-frame outlined by the admitting graduate program. A student admitted with an undergraduate grade point standing of less than the minimum of the enrollment unit may be subject to program limitations on the number of hours in which he/she may enroll for each semester. Students who do not meet any other departmental requirements outlined in the admission letter may be subject to academic dismissal from their program.

No applicant with a grade-point average of less than 2.50 will be admitted to a program of graduate study. Under unusual circumstances, programs that wish to admit students who do not meet this standard must submit a variance request to the Vice Provost for Graduate Affairs.

Non-degree status

Applicants who do not desire to seek an advanced degree but wish to take graduate course work may be permitted to enroll in non-degree status. Please note that not all programs will admit students to non-degree status. Application credentials must include a completed application for admission, application fee and an official transcript showing the award of a baccalaureate degree. No more than nine (9) credit hours of course work taken in a non-degree status may be applied to a graduate degree program with departmental approval, and no more than fifteen (15) credit hours may be accumulated while in non-degree status.

Visiting Students

A graduate student from another university or college may enroll for graduate course work as a visiting student at the University of Louisville with the approval of the graduate program director or department chair. The visiting student is responsible for having the home institution provide a letter certifying that the student is in good standing. A graduate application and fee are required and transcripts may also be required by some departments.

University of Louisville graduate students who attend another college or university as visiting students must have the permission of their department chair, program director or major advisor. The guidelines for the ‘Transfer of Credit’ stated in the graduate catalog apply to all credits earned as a visiting student. Visiting student status may be granted only to a student who is in good standing.

Graduate Admissions Hold

Graduate students admitted Provisional/Special Condition status will have a “Graduate Admissions Hold” placed on their academic record. This hold will be placed approximately one week prior to the beginning of registration on all current students whose status has not been changed to good standing. The hold will be placed by the School of Interdisciplinary and Graduate Studies.

Returning students who were admitted Provisionally, and/or with Special Conditions who wish to re-enroll will be evaluated to determine if their conditions were met. Upon submitting a request to re-enroll form to the Registrar’s office, the Registrar’s office will forward for review by the School of Interdisciplinary and Graduate Studies. If the student is not eligible to be changed to good standing, a “Graduate Admissions Hold” will be placed on the student’s academic record prior to the processing of the re-enrollment form.

Additional Considerations for Admission to Degree Status

A student admitted with an undergraduate grade point standing of less than the minimum of the enrollment unit may be subject to program limitations on the number of hours in which he/she may enroll for each semester. Students who do not meet any other departmental requirements outlined in the admission letter may be subject to academic dismissal from their program.

No applicant with a grade-point average of less than 2.50 will be admitted to a program of graduate study. Under unusual circumstances, programs that wish to admit students who do not meet this standard must submit a variance request to the Vice Provost for Graduate Affairs.
NEW GRADUATE STUDENT INFORMATION

Overview
The University of Louisville operates on a semester system that includes a Fall semester, Spring semester, and Summer semester with multiple terms. The university has a computerized admissions and registration system. Students are advised to include their full name and date of birth on all correspondence with the university to facilitate the identification of admission credentials and requests for information. Students who do not enroll for the semester for which they apply may call and ask that their enrollment date be changed to a future term. In some cases, applicants may be asked to reapply and resubmit credentials. The university holds credentials on applicants for a limited time.

Student Responsibility
It is the responsibility of the graduate student to become familiar with and observe all policies and requirements of the School of Interdisciplinary and Graduate Studies and of his or her particular degree program and department. Policies, procedures, and requirements are subject to change, and it is the responsibility of the graduate student to keep her/himself apprised of current regulations. All students must respond to official notices issued by administrative offices and instructors, whether these notices be posted on official bulletin boards, are sent through postal, or email. A student's status is not dependent upon a written notification but is a consequence of circumstances in the admission process and the student's academic performance. Written notification is simply a verification of status.

Graduate Credit
Courses listed in this catalog are offered for graduate credit. To receive graduate credit, a student must register for the course through the School of Interdisciplinary and Graduate Studies or through another graduate-level program, such as a masters or doctoral program. Students who take courses as post-baccalaureate non-degree students, may not receive graduate credit for them.

Prerequisites
Prerequisites for all courses include graduate status and the consent of the graduate advisor (for registration). Specific course prerequisites are indicated in the course listing (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm).
The policies and regulations described in this catalog cannot be superseded or invalidated by either oral or written agreement with faculty, staff, or administrators unless a variance is confirmed in writing by the Vice Provost for Graduate Affairs, in consultation with the Graduate Council.

Registration
Students may register for courses during the priority early registration period before the beginning of the semester. A student’s first opportunity is based on classification and alphabetic rotation. The early registration period is then followed by regular and late registration. The registration calendar for any term is published online by the office of the registrar. Initial registration and any later registration changes are usually completed by students through the registration link of the ULink online portal (https://ulink.louisville.edu).

Initial registration must be completed by the date announced by the registrar, typically the Friday of the first week of classes. Students may make adjustments to their course schedule until the end of the first week for regularly scheduled fall and spring courses. For summer courses and courses with atypical duration, the last date to adjust schedules is specified by the registrar in the official registration calendar. This last day to adjust schedules is referred to as the last day to drop/add.

Students may add courses to their schedules until the last day to drop/add. No signature or other authorization is required if the added course is open for enrollment, if students meet all course prerequisites, and if such additional courses do not raise the students’ credit hours for the term above the maximum allowed by the students’ enrollment unit or academic standing. If the addition increases the tuition cost for the semester, the additional payment must be settled with the university bursar by the last day to drop/add.

Students can place their names on the waitlist for a course that is closed. Students are automatically moved from the waitlist to registration in the course as spaces open until the end of the first week of classes. Students may add their names to the waitlist until the third day of classes for regularly scheduled fall and spring courses, and the first day of classes for summer courses.

Students may drop a course from their schedule until the last day of drop/add. Courses that are dropped during the regular registration period are not listed on the transcript. Students should consider how dropping a course will affect their progress toward their degree and their financial aid eligibility. Students who stop attending a class but fail to complete the drop process, regardless of the date when they stopped attending the course, will be given the grade of F for the course.

Students who wish to enroll in concurrent courses at another institution should consult their academic advisor before registering to secure a visiting student letter, and to ensure proper enrollment and recording of courses. Students in good standing who have earned a minimum of twelve hours may be able to cross-register at other universities in the Kentuckiana Metroversional consortium. Cross registration is permitted on a space-available basis at the discretion of the member institutions. The combined program of work in all institutions may not exceed the maximum course load permitted for students at the University of Louisville. Failure to follow these guidelines may result in loss of credit or in ineligibility to transfer the credits from the other schools toward the requirements for graduation.

The University of Louisville uses an online web registration system. The schedule of courses for each term may be reviewed at htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm.

Students must first contact their graduate advisor or graduate program director to discuss course selections. Students in good standing and admitted without conditions may proceed with the registration process. If, however, a student has been admitted with conditions, or is in probationary status, the student must contact the graduate program director regarding the implications of the admission status.

Full-Time Study
Full-time study for graduate students is defined as enrollment in:

1. Nine (9) credit hours during the Fall semester, OR
2. Nine (9) credit hours during the Spring semester, OR
3. Six (6) credit hours during the Summer semester, OR
4. In degree candidacy status.

Full-Time Study for University Fellows and Graduate Assistants
All University Fellows and Graduate Assistants receiving financial support must be enrolled as full-time students during the period for which they are receiving support.

Duration of Support
Graduate assistantships are awarded on an individual basis according to the needs of the department, professor or project. The number of years or semesters for which these appointments are renewable depends on the department. The university wide official maximums for this type of university sponsored financial support are typically six years for doctoral students, three for master’s students and four for master of fine arts students.
Workload Limitations for Graduate Assistants

Graduate assistants who are receiving a stipend, whether in the form of a University Fellowship, Externally Funded Fellowship, Graduate Research, Teaching or other Assistantship are limited to working 20 hours per week work on the projects designated by the stipend award. However, students may be eligible to work an additional 9 hours per week, with the possibility to earn income for the work, if certain conditions apply. The maximum additional time commitment is 9 hours per week, in addition to the work performed for the GA stipend. However, international students who have a F1 VISA are not eligible for this waiver, and are limited to working no more than 20 hours per week.

The Dean of the School of Interdisciplinary and Graduate Studies must approve requests for students to perform additional work. The Chair of the student’s department or the Graduate Program director must complete the 20 hour waiver form, which can be found at louisville.edu/graduate/forms/ga-waiver-request/. This form will be forwarded automatically to the School of Interdisciplinary and Graduate Studies. If the request is approved, the Office of Payroll and the person who initiated the request will be notified.

Continuous Enrollment

Continuous enrollment is defined as being registered in both Fall and Spring if registering for course work. If a student has been admitted to either masters or doctoral degree candidacy, continuous enrollment in candidacy status is required for the Fall, Spring and Summer terms (only one term of registration is required in summer terms). Students must be enrolled during the semester in which they wish to graduate.

Course Loads

Normally, the maximum number of credit hours that may be taken in a regular semester is 12. The maximum number of credit hours that may be taken in the Summer session (both terms) is 12, including research hours.

Overloads

A student who wishes to enroll in more than the maximum number of credit hours must petition the unit dean to obtain permission.

Auditing Courses

Auditing at the graduate-level is available only to students who are enrolled in a graduate program. A student who wishes to audit a course must obtain permission from the course instructor and the director of the program in which the student is enrolled using the proper form provided by the Office of the Registrar. Auditing a course will not satisfy a prerequisite for a graduate course or a degree requirement.

Transfer of Credit

Earned graduate credit may be transferred from regionally accredited institutions that offer advanced degrees. The number of semester hours transferable, upon request, is six (6). Up to six (6) additional transfer hours may be petitioned, provided that these additional hours are not credits earned by extension, thesis or practicum and provided also that the residency requirement of 24 semester hours is maintained by the addition of University of Louisville credits to the total program.

Course work taken more than three years prior to the student’s application to a graduate program will not normally be considered for transfer, however, such requests will be reviewed by the Vice Provost for Academic Affairs upon recommendation by the department chair and the unit dean.

The course work being considered for transfer must have been taken while the student was enrolled in an accredited graduate or professional school and must be evaluated for transfer by the director of the graduate program in which the student is seeking additional graduate work. Six (6) credit hours may be transferred from a previously earned master’s degree toward a doctoral degree or a second master’s degree, subject to the approval of the degree program and the unit dean. Hours earned toward a culminating experience such as a thesis, practicum, or internship shall not be transferable to the second master’s degree. Only courses in which the student earned grades of B or better will be considered for transfer. Hours and quality points earned at other institutions are not included in the calculation of a student’s grade point average.

Courses in which grades of P were earned must have the approval of the unit dean in order to be transferred.

Transfers of credit from constituent schools and colleges of the University of Louisville are not subject to the above limitations on transfers but require the recommendation of the department chair and the approval of the unit dean. Upon approval of the graduate program, students may apply the coursework from no more than one certificate program to a graduate degree program.

Satisfactory Progress

All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. Students who seek to return after such a period of time must contact the graduate program director. Based on the request of the graduate program, the unit dean will consider the student for readmission.

Satisfactory progress also requires maintaining the standards of academic and professional integrity expected in a particular discipline or program and, in some disciplines, may include demonstration of the ability to function as a professional practitioner. Failure to maintain these standards or demonstrate such abilities may result in the student’s termination from the program.

Degree Candidacy

Students enter Degree Candidacy upon completion of all course work, qualifying exams, required research credit hours and other co-curricular requirements. Students who are enrolled in degree candidacy are considered full-time students. While in Degree Candidacy, it is the responsibility of both student and mentor to maintain contact to ensure continuous progress towards the completion of the degree. In some cases, a master’s student may complete the requirements of a degree program without the need to enter Degree Candidacy.

Although students must complete all required courses before entering Degree Candidacy, they have the option of taking additional specialized courses, e.g., courses offered by visiting or new faculty, while in Degree Candidacy (in those cases payment of both the candidacy fee and the course tuition will be required).

When all other degree requirements are met, students may enroll in Degree Candidacy in order to meet the requirement that all students must be enrolled during the semester in which they wish to graduate.
Degree Programs must inform the Vice Provost of Academic Affairs when students have met all requirements and are ready to enter Degree Candidacy. Once a student is admitted to candidacy, enrollment in Degree Candidacy status must be continuously maintained year round (i.e. Fall, Spring, and Summer) until the degree is awarded. The only exception to this policy of continuous enrollment is if the unit dean and the Vice Provost of Academic Affairs have granted the student a formal leave of absence.

Once a student initially enrolls in Degree Candidacy, the Registrar will automatically enroll the student in Degree Candidacy until the student applies to graduate.

1. Failure to pay the candidacy fee will cancel a student's enrollment.
2. If a student has any type of hold on the account, the student will no longer be enrolled automatically in Degree Candidacy. To reestablish enrollment in Degree Candidacy, students will be required to pay the candidacy fee for each semester during which candidacy was voided and/or not maintained. To restore Degree Candidacy, the student must contact the Director of Graduate Studies in their degree program.

Time Limitations for Degree-Seekers
Master's students must complete the degree requirements within six (6) years of beginning the program of study. Doctoral students have four (4) years after passing the qualifying exams to finish all other degree requirements. While granting an extension of time is rare, requests for extension of time must be submitted in writing to the graduate program director of the student's department. Once reviewed by the department, the request is forwarded to the unit dean, and then to the Vice Provost for Academic Affairs with supporting documentation for review. Students must be considered in good standing for the request to be considered.

Academic Standing
Good Standing
A graduate student is in good standing as long as the graduate grade point average is 3.0 or higher on a 4-point scale. A student must be in good standing in order to receive a degree.

Academic Probation
Any student with a semester GPA below 3.0 will receive an academic warning from the School of Interdisciplinary and Graduate Studies. A notification will be sent to the student as well the student's graduate program. Should a student's cumulative GPA fall below 3.0, the student will be placed on probation until the student regains a 3.0 average (which is required to graduate). Ordinarily students are not permitted to continue on academic probation for more than one semester, but upon request of the student's graduate program, the unit dean may submit a variance request to the Vice Provost for Graduate Affairs to approve continuation of academic probation beyond a single semester. Students on academic probation for more than one semester risk dismissal from the graduate program.

Graduate programs have the prerogative to establish more stringent criteria for which students may be placed on academic probation.

Academic Dishonesty
Plagiarism, cheating and other forms of academic dishonesty are serious violations of academic conduct and may result in permanent dismissal. Students are expected to be familiar with the various forms of academic dishonesty as explained in the Code of Student Rights and Responsibilities. A plea of ignorance is not a defense against the charge of academic dishonesty.

Degree Requirements
Requirements for the Doctoral Degree

Special Considerations for Doctoral Studies
In addition to the particular rules of the various graduate programs as stated in their sections of this catalog, the following general rules apply to all doctoral degree programs.

The award of a doctoral degree indicates that a student has attained mastery of a field and has demonstrated the capacity to perform independent scholarly research. Accordingly, no specific minimum number of credit hours has been established for doctoral degree programs. However, ordinarily the equivalent of three years of full-time graduate study is a minimum.

The doctoral degree is not awarded solely upon completion of a curriculum of courses, even though the student has done superior work in them; rather, it is awarded in recognition of creative scholarship as demonstrated by a substantial contribution in the candidate's chosen field. Only students who offer promise of meeting this high standard will be accepted by a graduate program to begin work toward this degree. Doctoral degree programs typically have more restrictive criteria for admission than those for admission to a master's degree program. The prospective student should consult in person with the graduate program in which he/she wishes to major.

Program of Study
Each applicant for the doctorate is expected to take such courses as may be required for both a strong foundation in the field and the development of a specialization. The student's program will consist of a major field and such minor fields as the major professor, the student, the program faculty, and department chair may agree upon. This program may be modified at any time upon the recommendation of the major professor and approval of the department chair and the dean of the unit.

All courses offered by the University, at any level and in any school, shall be accessible to the doctoral student, subject to approval by the instructors.

Residency for Doctoral Students
To ensure that doctoral students have the opportunity to participate fully in the intellectual life and research atmosphere of the University, at least two years of study must be spent at the University of Louisville and at least one must be spent in full-time residency (except as indicated below). The two-year requirement allows students to build mentoring relationships with faculty members and accrue classroom and research experience over time, while the full-time residency requirement is designed to provide students with at least one year of immersive, intensive study.

According to the Council of Graduate Schools, residency advantages students in the following ways: “... fluency in the language and vocabulary of the [field of] specialization is enhanced by frequent and close association with other students in the same field; competence in the field is enhanced by close familiarity with the university's libraries; valuable experience is gained by attending and participating in both formal and informal seminars, colloquia, discussions led by specialists visiting from other campuses, laboratories, or governmental research centers.”
groups; and thesis or dissertation research is facilitated by frequent consultation with the advisor.

Full-time residency requires that a student be registered for a minimum of 18 credit hours within a twelve-month period. Registration for candidacy cannot be used to meet this requirement.

Alternative Residency Track
All doctoral students must meet the two-year enrollment requirement. Students enrolled in part-time doctoral work may substitute four terms of continuous enrollment (summer terms can be used to meet this requirement) for the full-time residency requirement.

Programs that allow part-time and/or off-site participation must provide a rationale to the Vice Provost for Graduate Affairs, indicating how they ensure that such students have access to an intensive and immersive educational experience. The rationale must be approved by the Vice Provost for Graduate Affairs and be on file in the School of Interdisciplinary and Graduate Studies.

Foreign Language Requirement
Foreign language proficiency is no longer a general requirement for graduate degrees. However, certain graduate programs may have established such requirements, which will be specified in their sections of this catalog.

Qualifying Examination and Candidacy
The applicant for a Doctor of Philosophy or Doctor of Education degree must pass a qualifying examination, oral or written, or both. Its purpose is to verify that the student has sufficient understanding of and competence in his/her field to become a candidate for the degree. This examination may be referred to by some programs as the preliminary, comprehensive, or candidacy examination. To be eligible for this examination, the student must have satisfactorily completed the major portion of the prescribed course work and must have met the foreign language requirement of the program. It is the student's responsibility to be aware of the program's policy on the consequences in the case of failure of all or part of the examination. A student who fails the examination may not be allowed to retake it more than once.

A doctoral degree student must have been admitted to candidacy not later than the end of the ninth month prior to the awarding of the degree, that is:

- August graduation - November 30 of preceding year
- December graduation - March 31 of same year
- May graduation - August 31 of preceding year

Although the prescribed course work may have been completed, the candidate must maintain an active registration status until the degree is awarded (see the catalog section on General Academics Policies and Requirements (p. 802)).

Time Limitation
The candidate must complete all other requirements for the doctoral degree within four calendar years after passing the qualifying examination. In exceptional cases, the Vice Provost for Graduate Affairs is empowered to grant limited extensions of this four-year period.

Dissertation
A dissertation is required of all candidates for the degree of Doctor of Philosophy or Doctor of Education. It is to be a scholarly achievement in research, and should demonstrate a thorough understanding of research techniques in the field of inquiry and the ability to conduct independent research.

The dissertation shall be read by a reading committee, chaired by the major professor, and appointed by the unit dean upon the recommendation of the chair of the major department. This committee shall consist of not fewer than four members, and must include one representative from outside the program. All members must be qualified to serve on the committee as specified by their Unit's Guidelines for Graduate Faculty. The dissertation must be approved by the committee and the chair of the major professor's department.

The final manuscript is submitted electronically to the School of Interdisciplinary and Graduate Studies through the Electronic Thesis or Dissertation Submission form. The final copy is submitted as a PDF. Along with the PDF the student is required to submit a hard copy of the signature page, which should be on white paper with original signatures and the student is required to complete and submit the Non-Exclusive License form.

Some programs may require students to submit a copy of the dissertation or signature page to the department; please check with your program director.

Standards for the Preparation of Thesis and Dissertations are available on the website of the School of Interdisciplinary and Graduate Studies. Alternate standards must be approved by the Vice Provost for Graduate Affairs if in conflict with this standard.

Final Oral Examination
The final oral examination is to be a defense of the dissertation and a demonstration of the candidate's mastery of his/her field. The examination will be given by a committee of Graduate Faculty members appointed by the unit dean upon recommendation of the chair of the major department. The committee will be composed of a minimum of four qualified graduate faculty members, one of whom must come from outside the student's program. The major professor and the remaining Committee members must be qualified to serve as specified by the unit's guidelines for graduate faculty. The examination committee for doctoral students in Interdisciplinary Studies will be approved by the Dean of the School of Interdisciplinary and Graduate Studies upon recommendation of the major professor.

The Dean of the School of Interdisciplinary and Graduate Studies shall notify all members of the Graduate Faculty at least one week in advance that they are invited to participate in the examination, but only members of the committee may vote. At the discretion of the major department, a portion of the examination may be written.

The examination must be taken at least fourteen days before the end of the semester in which the degree is to be granted. To be passed in this examination, the student may not receive more than one abstention or dissenting vote.
Requirements for the Master's Degree

The departmental announcements in this catalog should be consulted in all instances; however, the following rules apply to all master's degree programs.

Course Credit

A minimum total of 30 credit hours of graduate credit is required for the master's degree. At least 15 credit hours must be in courses of the major subject area, and the remaining hours in the program distributed as recommended and approved by the major department. At least one-half of the credits counted toward the degree (exclusive of thesis, practicum and internships) must be in courses open to graduate students only (600 level or above). A grade average of 3.0 or better must be maintained.

Residency for Master's Students

Masters students must take at least 24 credit hours of course work at the University of Louisville to satisfy the residency requirement for the master's degree.

Time Limitation

There is a time limit imposed, stipulating that credit earned more than six years prior to the completion of the degree may not be counted toward meeting its requirements. This time period may be extended upon recommendation of the student's department chair, unit dean and the approval of the Vice Provost for Academic Affairs.

Maintaining Candidacy

Refer to previous section entitled, General Academic Policies and Requirements, see subsection entitled Maintaining Candidacy.

Thesis

Students completing degree programs that include a thesis must submit the thesis to their major professor at least thirty days in advance of graduation (guidelines may be found on the web site of the School of Interdisciplinary and Graduate Studies).

Acceptance of the thesis shall be at the discretion of a special reading committee composed of the major professor and two other committee members. One member shall be from outside the program, and all three members must be qualified to serve on those capacities as specified by their Unit’s Guidelines for Graduate Faculty. The committee shall be approved by the unit dean upon recommendation of the chair of the major department. The committee shall complete its review of the thesis at least one week prior to the final oral examination.

The final manuscript is submitted electronically to the School of Interdisciplinary and Graduate Studies through the Electronic Thesis or Dissertation Submission form. The final copy is submitted as a PDF. Along with the PDF the student is required to submit a hard copy of the signature page, which should be on white paper with original signatures and the student is required to complete and submit the Non-Exclusive License form.

The thesis normally carries 3-6 credit hours of graduate credit, which is in addition to the 15 credit hour minimum taken within the major department. In certain departments, a professional paper or portfolio may be required in lieu of a thesis. For procedures in these instances, consult the Director of Graduate Studies or the chair of the department.

Final Oral Examination

The final oral examination shall be conducted by a committee of Graduate Faculty members recommended by the chair of the major department and appointed by the unit dean.

The examination must cover the materials presented in the thesis and may include the content of courses taken or other matters pertinent to the candidate’s admissibility to the master's degree. At the discretion of the graduate program, a portion of this examination may be written. The recommendation for the degree shall be determined by a simple majority of the committee members. The examination must be taken at least fourteen days before the end of the semester in which the degree is to be granted.

In the event of an unfavorable vote, the committee may refuse the candidate's admissibility to the master's degree, or it may recommend another examination with or without additional work.

Application for Degree

Degrees are awarded in August, December, and May. Candidates who expect to receive degrees on a particular award date must complete the application for degree on ULink (http://ulink.louisville.edu) before the deadline specified in the University calendar (see Schedule of Courses).

The University holds two commencement ceremonies each year. For specific information regarding the ceremonies, apparel, dates, etc. please visit the Commencement web-site: louisville.edu/commencement/

Each student who is required to submit a dissertation or thesis to fulfill degree requirements must follow the guidelines for the Preparation of Thesis and Dissertations, which is located on the website of the School of Interdisciplinary and Graduate Studies (louisville.edu/graduate/current-students/thesis-dissertation-information). Prior to submission of the final copy of a dissertation/thesis, students must contact the School of Interdisciplinary and Graduate Studies to schedule a review of the document.

Grades and Grading Policies

University Grade Point Average (GPA)

The GPA appearing on the University transcript at the end of each semester of enrollment will be the official GPA for determining academic standing. The GPA will be based upon all courses taken while the student is enrolled as a graduate student, including undergraduate courses. Courses taken at the 500-level and above will be counted as graduate courses. While possibly including undergraduate coursework, this transcript will determine the overall Graduate GPA. The program faculty and unit dean will monitor this Graduate GPA to ensure students maintain at least a 3.0 to remain in good standing.

Grading System

Graduate programs at University of Louisville utilize a plus/minus grading system.

The following is the grading scale:

<table>
<thead>
<tr>
<th>Grades</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.0</td>
</tr>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
</tr>
</tbody>
</table>
Changes of Grades
No changes of grades can be made without a request and explanation on the part of the faculty member giving the grade and the approval of the unit dean.

Missing Grades
All missing grades will be changed to failing grades one year after the completion of the semester in which the course was taken.

Repetition of Courses
A student who has received the grade of C (in a course that is a degree requirement), D or F may repeat that course upon the approval of the graduate program advisor and the unit dean. When a student repeats a course, the grade point average will be calculated on the basis of the last grade earned, although all previous grades will remain on the transcript.

Graduate Student Academic Grievance Procedure

Introduction
This procedure is designed to provide fair means of dealing with student complaints regarding a specific action or decision made by the faculty or a faculty member.

_Students who believe they have been treated unfairly, discriminated against, or have had their rights abridged may initiate a grievance._

(The Redbook [http://louisville.edu/provost/redbook](http://louisville.edu/provost/redbook), Section 6.8.1)

Preliminary Steps
To pursue a grievance concerning academic matters within the academic unit, the following steps of the grievance procedure should be observed:

1. The student should first discuss the matter with the person involved and attempt to resolve the grievance through informal discussion.
2. If there is no resolution, the student should discuss the matter with that person's supervisor or the person to whom such person reports, who should attempt to mediate a resolution.
3. If the student has not been able to obtain a resolution, he or she may request the Student Grievance Officer (S.G.O.) to attempt informal mediation of the problem.
4. If the matter has not been satisfactorily resolved through the informal process, the student shall submit a written statement of the grievance to the Unit Academic Grievance Committee through the Office of the Dean. The statement shall contain:
   a. A brief narrative of the condition giving rise to the grievance;
   b. Designation of the parties involved; and
   c. Statement of the remedy requested.

Committee Action
Upon receipt of the written statement, the Unit Academic Grievance Committee, or its representatives, shall:

1. Contact the student and the Student Grievance Officer to obtain assurance that all steps of the above informal process were completed and that those issues in the statement were discussed at all levels.
2. Notify the parties named in the statement of the grievance naming them; and send a copy of the statement to the named parties and to all committee members.
3. Notify the grievant and the respondent of the right to challenge committee members for cause, and request early notification of challenge(s) to expedite the grievance procedure. Included in this notification will be a list of the names of all current, regular committee members.

4. Meet within twenty working days after receiving the written statement of any grievance and recommend to the dean of the unit whether sufficient grounds exist to accept a case for hearing. The committee shall hear the case when the dean concurs. The committee shall notify, in writing, all persons directly involved as to the reasons for its recommendation.

5. The action of the grievance committee as to whether to grant a hearing when accepted by the dean of the unit shall be final and binding on all parties except when subject to the condition of appeal.

6. If a hearing will be held, notify in writing all the parties involved, including any witnesses, of the date, time and place of the hearing at least ten days prior to the hearing date (which shall be within 30 working days of receipt of the written grievance).

7. Request in writing from all parties involved any pertinent material deemed necessary for review by the committee prior to the hearing. These materials, and any additional materials either party chooses to submit, must be submitted to the committee not later than four days prior to the hearing. Any person named in a grievance may submit a written statement to the committee outlining issues from that person’s perspective.

8. Maintain confidentiality throughout the entire grievance process. All communications among the committee, the grievant(s), and the person(s) named in the statement of grievance will be confidential.

Hearing Process

All hearings conducted by the Unit Academic Grievance Committee shall be conducted confidentially in the following manner:

1. The grievant(s) and the respondent(s) must be present during the information-gathering portion of the hearing. Witnesses will be available and will be called when needed. The committee reserves the right to allow the presence of a secretary or a technical assistant.

2. All statements during the information-exchange phase of the hearing will be tape-recorded. This record will be preserved in the University Archives for a minimum of five years and shall be confidential.

3. Any committee member may question any of the participants at the hearing.

4. The grievant will present his or her statements and/or witnesses to the committee.

5. The respondent will have the opportunity to question the grievant(s) and the witnesses about their statements.

6. The respondent will present his or her statements and/or witnesses to the committee.

7. The grievant will have the opportunity to question the respondent(s) about their statements.

8. After all information is exchanged, all persons except the committee members and the recording secretary will leave the committee room. The grievant(s), the respondent(s), and the witnesses will continue to be available to the committee should further information be needed.

9. The committee will meet in closed session to decide upon its recommendation(s) to the dean.

10. The committee shall submit its report with recommendation(s) and reasons for the recommendation(s) to the grievant(s), the respondent(s), and the dean. If the grievance directly involves the dean, the report and recommendation(s) of the Unit Academic Grievance Committee shall be referred for decision to the appropriate academic vice president (now referred to as the University Provost).

11. The student’s grievance will not be included as part of the student’s record, unless it results in a change in student status or the student voluntarily inserts the information.

12. Until the grievance is resolved, the student may continue the natural academic progression through the academic unit, subject to the requirements of Article 6.6, “Academic Review, Advancement, Probation, and Dismissal of Students,” and Article 6.7, “Nonacademic Disciplinary Procedures,” of The Redbook.

Decision

The dean shall approve or reject the committee’s recommendation(s) within 28 days after receiving it (them). If the decision of the dean is not in accord with the committee’s recommendation(s), the dean shall state the reasons for that decision, in writing, to all persons directly involved in the grievance and to the committee. The dean shall then take appropriate action to implement his or her decision after the time for appeal has elapsed.

Rehearing

A grievance committee, within 21 days after delivery of its report, may be petitioned to reconsider its decision upon the basis of evidence of misrepresentation of materials, facts, or upon the basis of newly discovered evidence clearly not available at the original hearing.

Appeal

Any party to the grievance may appeal to the University Student Grievance Committee within 21 days from the date of the final decision of the dean if the dean’s decision does not concur with the recommendation of the grievance committee.

Leave of Absence

A student who has been accepted into a graduate program is expected to remain in continuous enrollment, either full-time or part-time, throughout his/her matriculation. Students who fail to enroll for a period of more than 12 months will be considered to have withdrawn from the program. Once a student enters candidacy, he/she must maintain continuous enrollment in degree candidacy (fall, spring, summer) and pay the appropriate candidacy fee.

However, if circumstances arise that may cause an interruption in graduate study a student may apply for a leave of absence by requesting such a leave from the unit dean. A requested leave cannot exceed one year; however, under extreme circumstances, a second, subsequent request may be granted by the Vice Provost for Graduate Affairs. Students must be considered in good standing for the request to be considered.

A student may not be enrolled in the university during a leave of absence. A student on a leave of absence is not required to pay tuition, fees, or candidacy fees, but is not entitled to any services from the university during the leave, including mentorship from faculty.

If a leave of absence is granted to a doctoral student in candidacy, the time limitation of completing all other requirements within four years after passing the qualifying examination shall be extended by the same time as the length of the leave. However, an appeal for an extension of this time limit, specifying the exact circumstances, can be included in the request for a leave or submitted as a variance request submitted to the
department for their review and recommendation to the unit dean; the final decision rests with the Vice Provost for Graduate Affairs.

No degree will be granted to a student on an official leave of absence. The student must re-enroll in the next term following the conclusion of the leave and be enrolled in the term in which a degree is granted. A leave of absence does not relieve a student from adherence to policies regarding residency and candidacy (except that the time limit for candidacy may be extended, as indicated in the previous paragraph).

Policies Governing Graduate Courses

Graduate Students Taking 500-Level Courses

Courses with numbers from 500 to 599 may be open to both advanced undergraduate and graduate students and can be taken by graduate students for graduate credit. Those numbered 600 and above are primarily for graduate students.

Graduate students who wish to receive graduate credit for 500-level courses must complete additional requirements (such as additional written work or oral presentations) that are more stringent than those required of undergraduates. These additional requirements for graduate credit must be specified in the course syllabi. The student's completion of graduate requirements must be verified in writing by the instructor if graduate credit is requested after the course is completed.

Not all 500-level courses are available for graduate credit. The student is advised to consult his/her department for information on any particular 500-level course.

Undergraduates Taking Graduate Courses

An undergraduate student with special permission of the unit dean and the instructor in the course may register in a 500-level course at the graduate level or in 600-level graduate courses. Such courses will satisfy requirements toward the undergraduate degree and therefore cannot be used for subsequent graduate credit. The student must be registered for at least one undergraduate course if requesting to enroll in a graduate course.

In rare cases, undergraduate students at the University of Louisville who are within six (6) semester hours of completing the baccalaureate requirements and who are enrolled in a graduate course may obtain graduate credit. This can only occur if the course has not been used to satisfy part of the baccalaureate requirements, and if the recommendation of the chairman of the department involved and the approval of the unit dean are obtained.

Accelerated Bachelor's/Master's Option

Undergraduate students enrolled in accelerated programs are eligible to register for graduate-level coursework. Students must apply for admission to the program no later than the end of the junior year to be eligible enroll in graduate coursework in their final year of the program.

The student may take a maximum of nine (9) credit hours for graduate credit, which will also apply to the requirements for the baccalaureate degree. Those nine (9) credit hours of graduate credit must be transferred to the student's graduate record after the student completes one semester as a graduate student. See actual degree program for further requirements.

Continuing Studies and Post-baccalaureate Students

Students enrolled through Continuing Studies are not eligible to enroll in graduate level courses.

Post-baccalaureate students who wish to take only graduate level courses should seek admission as a non-degree graduate student by applying through the School of Interdisciplinary and Graduate Studies. Students who wish to transfer coursework to a graduate degree must take the coursework as a non-degree graduate student or be admitted to a graduate degree program at the time of the request.
Student Awards

Programs may nominate graduate students for the following awards given at December and May commencement ceremonies. Those individuals who received their degrees in August must be nominated for consideration during the December commencement program.

Graduate Dean's Citation

Graduate Dean's Citations are awarded at each commencement to both masters and doctoral students recommended by their departments in recognition of superior accomplishment (e.g., publications, teaching excellence, and professional service) in their graduate studies beyond the achievement of a high grade point average.

Each graduate program may recommend up to 10 percent of its graduate students completing their degrees in August, December, and May of the academic year. Recommendations are to be based on the student's achievements both in their area of scholarship and outside the classroom. Nominations may be submitted to the Vice Provost for Graduate Affairs for the December and May commencements.

Alice Eaves Barns Award

This award is named in honor of Mrs. Alice Eaves Barns for her many years of outstanding service as a staff member of the former Graduate School, School of Interdisciplinary and Graduate Studies at the University of Louisville. This award recognizes a student who has displayed tenacity in the face of adversity while attaining excellence in both the classroom and outside endeavors. The award is given in recognition of outstanding achievement in a Master's Program. All students nominated for the Alice Eaves Barns award are automatically considered for a Graduate Dean's Citation.

Nominations may be submitted to the Vice Provost for Graduate Affairs for the December and May commencements.

The Virginia “Jenny” Madden Award for Graduate Student Leadership and Service

This award is named in honor of Virginia "Jenny" Madden for her many years of service to the former Graduate School, the School of Interdisciplinary and Graduate Studies, the Staff Senate, and the University of Louisville community. This award recognizes a master's degree recipient who exhibits leadership through service to the recipient's program, college, discipline, the University as a whole, and/or the community. The nomination letter must reference the student's contributions and the impact of those contributions on the communities served. All students nominated for the Virginia "Jenny" Madden award are automatically considered for a Graduate Dean’s Citation.

Nominations may be submitted to the Vice Provost for Graduate Affairs for the December and May commencements.

Guy Stevenson Award

The Guy Stevenson Award for Excellence in Graduate Studies honors a former dean of the former Graduate School, School of Interdisciplinary and Graduate Studies. The Stevenson Award is presented to a doctoral degree recipient who excels in scholarship, leadership, and other areas within their discipline. The recipient of this award will carry the School of Interdisciplinary and Graduate Studies banner at commencement ceremonies, and will also be a candidate for student commencement speaker; to be considered for the Stevenson Award, the student must be available for the ceremony. All students nominated for the Guy Stevenson award are automatically considered for a Graduate Dean’s Citation.

Nominations may be submitted to the Vice Provost for Graduate Affairs for the December and May commencements.

John Richard Binford Memorial Award

The John Richard Binford Memorial Award honors a former chairman of the Department of Psychology. Doctoral nominees for this award will be assessed in the same manner as those students considered for the Stevenson award. The recipient of this award is not required to attend commencement. All students nominated for the John Richard Binford Memorial award are automatically considered for a Graduate Dean’s Citation.

Nominations may be submitted to the Vice Provost for Graduate Affairs for the December and May commencements.

John M. Houchens Prize

The John M. Houchens Prize honors a former Registrar of the University. In the fall and spring of each year, doctoral dissertations are submitted to the School of Interdisciplinary and Graduate Studies for consideration. If one is deemed to be of special merit, a committee may recommend that its author be awarded the Houchens Prize. Only those students expected to complete their doctoral degree by the end of the current term (or August in the case of December consideration) are eligible for consideration of this award. All students nominated for the John M. Houchens prize are automatically considered for a Graduate Dean’s Citation.

Nominations may be submitted to the Vice Provost for Graduate Affairs for the December and May commencements.

Faculty Awards

Department chairs and directors of graduate programs and former graduate students and those graduating at the May ceremony may nominate a faculty member for the following awards given at the May ceremony.

Outstanding Mentor of a Doctoral Student

Mentor awards honor faculty members who are deemed to excel in one-on-one mentoring of master’s or doctoral students to the completion of their degrees; in other words, these awards are given to faculty who...
successfully direct theses or dissertations, supervise students in labs, oversee students’ internships or final professional papers.

**Provost’s Award for an Exemplary Director of Graduate Studies**

This award honors those who have graduate or professional student advising and/or administrative duties (as DGS) designated on their annual workload assignments and who excel at the work of advising graduate students regarding program requirements, career prospects, funding possibilities, and so on.
UNIVERSITY POLICIES AND PROCEDURES

Student Grievance Officer

The University of Louisville Student Grievance Officer is a tenured faculty member who is responsible for informing students of their rights and obligations under the University Student Grievance procedure and especially the deadlines that have been established.

The Grievance Officer will assist the student in efforts to achieve informal resolution in as many academic or non-academic complaints possible.

One of the main goals of the Student Grievance Officer is to establish an understanding among students, faculty, staff and administration when there is conflict.

Problems pertaining to grades, financial aid, University parking, housing, food services, registration, etc., may all be discussed with the Student Grievance Officer as a means of seeking direction for the pursuit of a resolution. Any aspect of the University that creates a problem for students is a matter of concern for the Student Grievance Officer.

This service is available to all students. Voicemail is available (502) 852-6293 but email (jhart01@louisville.edu) is the preferred method of contact.

Privacy of Student Records (FERPA)

The University of Louisville hereby notifies students concerning the Family Educational Rights and Privacy Act of 1974 (FERPA). This Act, with which the institution intends to comply fully, was designed to protect the privacy of educational records, to establish the right of students to inspect and review their education records, and to provide guidelines for the correction of inaccurate or misleading information. Students also have the right to file complaints with the Family Educational Rights and Privacy Act Office, Department of Education, concerning alleged failures by the institution to comply with the Act.

The University has adopted a policy which explains in detail the procedures to be used by the University for compliance with the provisions of the Act and the regulations adopted pursuant thereto. Copies of the policy can be obtained from the University Archives and Records Center, Ekstrom Library. Questions concerning the Family Educational Rights and Privacy Act may be referred to the Director, University Archives and Records Center or visit the website at: louisville.edu/library/archives/university/stupriv.

Drug-Free Schools and Campuses

Purpose and Goal

The University of Louisville is committed to protecting the safety, health and wellbeing of all students, faculty, and staff and other individuals in our workplace. As a recipient of federal grants and contracts, the university gives this notice to students, faculty, and staff that it is in compliance with the Drug-Free Workplace Act of 1988 (Pub. L. 100-690, Title V Subtitle D) and the Drug-Free Schools and Communities Act Amendment of 1989. Students, faculty and staff are herein notified of the standards of conduct that will be applicable while on university property, business, and/or at university-sponsored activities. This policy is incorporated and is a part of the official University of Louisville Policies and Procedures.

This policy recognizes that student, faculty, and staff involvement with alcohol and other drugs can be very disruptive, adversely affect the quality of work or academic performance of student, faculty, and staff, pose serious health risks to users and others, and have a negative impact on productivity and morale.

As a condition of employment or enrollment, the university requires that students, faculty, and staff adhere to a strict policy regarding the use and possession of drugs and alcohol. The university encourages students, faculty, and staff to voluntarily seek help with drug and alcohol problems.

Prohibited Behaviors

Under university regulations, federal law, state law, and, in some instances, local ordinance, students, faculty, and staff are prohibited from the unlawful possession, use, dispensation, distribution, or manufacture of illicit drugs on university property, on university business and/or at university-sponsored activities. Under this policy, students, faculty and staff are required to abide by state laws concerning alcoholic beverages.

Kentucky law (KRS 244.085: lrc.ky.gov/Statutes/statute.aspx?id=45137) states that, if one is under the age of 21, it is unlawful to:

- Possess or consume alcoholic beverages,
- Misrepresent one’s age for the purpose of purchasing alcoholic beverages, or
- Use a fake ID in an attempt to purchase alcoholic beverages.

It is unlawful for anyone of any age to:

- Procure any alcoholic beverages for anyone under 21 years of age,
- Drink or be intoxicated in a public place

(See Public Intoxication: lrc.ky.gov/Statutes/statute.aspx?id=19929)

University campuses and buildings are considered as public places for purposes of these laws, except for a facility licensed to serve alcoholic beverages, and a facility used as a private residence, unless university regulations state otherwise. Ordinances of the Greater Louisville area parallel the state laws.

The specifically defined standards of conduct, the disciplinary procedures, and the appropriate sanctions are detailed in the Code of
In addition, it is a violation of state law to operate a motor vehicle while under the influence of any substance that may impair one’s driving ability (drugs or alcoholic beverages).

Prescription and over-the-counter drugs are not prohibited when taken in standard dosage and/or according to a physician’s prescription. Any student, faculty, and staff taking prescribed or over-the-counter medications will be responsible for consulting the prescribing physician and/or pharmacist to ascertain whether the medication may interfere with job or academic performance.

The illegal or unauthorized use of prescription drugs is prohibited. It is a violation of our drug-free workplace to intentionally misuse and/or abuse prescription medications. Appropriate disciplinary action will be taken if job or academic performance deterioration and/or other accidents occur.

Consequences for Violating This Policy

Under university regulation, students who violate this standard of conduct are subject to student conduct action from a warning to expulsion from the University. Students who reside in university housing are subject to further conduct action that may vary from a warning to termination of their housing contract.

Notice of Drug-Related Conviction

In compliance with the Federal Drug-Free Workplace Act of 1988, any employee shall notify the immediate supervisor if the employee is convicted of a criminal drug offense occurring in the workplace or while on university business within five days of the conviction. The university shall take appropriate sanction and remedies in accordance within its policies. The provisions of this section are applicable to students who are employees of the university. If the employee is under a federal contract or grant, the university shall notify the contracting or granting agency of the conviction and of its actions. This section of this policy is also applicable to students who receive a Pell grant (federal grant).

Health Risks

The scope and impact of health risks from alcohol and drug use are both alarming and well documented, ranging from mood-altering to life-threatening, with consequences that extend beyond the individual to family, organizations and society at large. The university, therefore, conducts regular programs to educate its students, faculty, and staff that consumption and use of drugs may alter behavior, distort perception, impair thinking, impede judgment, and lead to physical or psychological dependence.

Alcohol and/or drug use may lead to the deterioration of physical health by causing or contributing to various health conditions including but not limited to fatigue, nausea, personal injury, insomnia, pathological organ damage, some forms of cancer, pancreatitis, heart attack, respiratory depression, birth defects, convulsions, coma, and even death. Alcohol and drug use may also result in deterioration of mental health by causing or contributing to various conditions such as increased aggression, hallucinations, depression, disorientation, and psychosis.

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increases the incidence of a variety of aggressive acts, including spouse and child abuse.

Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described. Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and intellectual disabilities. In addition, research indicates that children of alcoholic parents are at greater risk than other children of becoming alcoholics.

Training, Counseling, and Resources

The University of Louisville is committed to the overall health and well-being of students, faculty, and staff and encourages a compassionate university.

AlcoholEdu and Haven online prevention programs

AlcoholEdu alcohol prevention program and Haven sexual violence prevention program serve as starting points for ongoing campus prevention efforts. Every incoming undergraduate student is required to take AlcoholEdu (up to age 21) and Haven (all ages). Emails are sent to their UofL email account (beginning about 5 weeks before their first semester begins) to provide specific directions for logging on to AlcoholEdu and Haven. AlcoholEdu and Haven are two separate programs, each with two parts. There is no fee for either program.

Visit louisville.edu/campushealth/alcoholedu-haven for more information.

Kentucky Medical Amnesty Law

KRS 244.992 Medical amnesty for persons reporting an alcohol overdose:

(1) A person shall be immune from prosecution for the criminal offenses identified in subsection (2) of this section if:

(a) A law enforcement officer has contact with the person because the person:

1. Requests emergency medical assistance for himself or herself or another person;
2. Acts in concert with another person who requests emergency medical assistance; or
3. Appears to be in need of emergency medical assistance and is the individual for whom the request is made

Visit lrc.ky.gov/statutes/statute.aspx?id=42516 for full text.

Good Samaritan Consideration

The health and safety of our students is of the highest priority. At times, students may need immediate medical or other professional assistance. However, students may be reluctant to get help because of concerns that their own behavior may be a violation of the Code of Student...
Disability Resource Center
The Disability Resource Center coordinates services and programs for students and prospective students with disabilities. Accommodations and support services are individualized, depending on the needs of each student. Services and programs are designed to assure access for qualified students with disabilities to all programs and activities of the university.

Students are strongly encouraged to make early contact with the Disability Resource Center to assure adequate time to implement support services.

Please contact the Disability Resource Center at (502) 852-6938 or visit our webpage at louisville.edu/disability.

Americans with Disabilities Act
ADA Policy Statement University of Louisville
The University of Louisville is committed to providing equal opportunity for persons with disabilities in compliance with the Americans with Disabilities Act of 1990 (ADA), and Section 504 of the Rehabilitation Act of 1973 (504). The University’s 504/ADA Coordinator is responsible for all campus activities relevant to Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) of 1990. The University Affirmative Action Officer will monitor compliance and assist all unit heads in meeting their equal opportunity obligations. The University Disability Resource Center staff will assist the university community in fulfilling its responsibility by serving as an information resource center and coordinating support services for students with disabilities.

ADA and 504 Grievance Procedures University of Louisville
The following grievance procedure is being recommended to provide prompt and equitable resolution of complaints concerning ADA and Section 504 of the Rehabilitation Act of 1973.

The University of Louisville ADA Grievance Procedure is an internal grievance procedure providing for prompt and equitable resolution of complaints alleging any action prohibited by the U.S. Department of Justice regulations implementing Title II of the Americans with Disabilities Act. Title II states, in part, that "no otherwise qualified individual with a disability shall, solely by reason of such disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination" in programs or activities sponsored by an agency.

General information regarding ADA or 504 can be addressed to:

Director
Disability Resource Center
Robbins Hall Room 101
Phone: (502) 852-6938

Complaints should be addressed to the person who has been designated to coordinate ADA compliance efforts:

Director
Affirmative Action Office
Personnel Services Building
Phone: (502) 852-6538

1. A complaint should be filed in writing, contain the name and address of the person filing it, and briefly describe the alleged violation. Upon receipt of the written notice of complaint, the Director of Affirmative Action/Employee Relations or his/her designee shall acknowledge receipt within five workdays.

2. A complaint should be filed within 180 days after the complainant becomes aware of the alleged violation.

3. An investigation, as may be appropriate, shall follow a filing of complaint. The investigation shall be conducted by the Affirmative Action Office. This internal Complaint procedure contemplates an informal but thorough investigation, affording all interested persons and their representatives, if any, an opportunity to submit evidence relevant to a complaint.

4. A written determination regarding the investigation of the complaint and a description of the resolution, if any, shall be issued by the Affirmative Action Office.

5. Affirmative Action Office and a copy forwarded to the complainant no later than 60 days after its filing.

6. The Affirmative Action Office shall maintain the files and records relating to the complaints filed.

7. The complainants may request a reconsideration of the case in instances where he or she is dissatisfied with the resolution. The request for reconsideration should be made within 15 work days after receipt of the determination to the Affirmative Action Office.
8. The right of a person to a prompt and equitable resolution of the complaint filed hereunder shall not be impaired by the person’s pursuit of other remedies such as the filing of an ADA complaint with the responsible federal department or agency. Use of this grievance procedure is not a prerequisite to the pursuit of other remedies.

9. These rules shall be construed to protect the substantive rights of interested persons, to meet appropriate due process standards, and to assure that the University complies with the ADA and implementing regulations.

Code of Student Conduct

The University’s Code of Student Conduct (“The Code”) is the University’s policy regarding non-academic discipline of students and student organizations. Academic dishonesty is not covered by this Code, but rather falls within the authority of the individual academic units of the University. Students have the responsibility to follow all regulations outlined in this policy.

The primary purpose for the Code in the University setting is to respond to incidents of non-academic misconduct in a way that is developmentally sound and which creates an environment where all members of the academic community can live, work, and learn together. The Code is designed to provide educational guidance to those choosing to develop into good citizens and, at the same time, to respond appropriately to behavior which may be inconsistent with university policies.

Criminal and civil codes are undesirable models for student conduct codes. Unlike society, the University of Louisville is a voluntary association of scholars who demand and deserve a positive and special learning environment, as well as an approach for enforcing the community’s standards. The University of Louisville is a community dedicated to the principles of free expression in which diverse views are encouraged and embraced. Opinions that may be unpopular and/or contrary to the University’s values and objectives, but do not otherwise violate policy, will not be sanctioned.

The University’s Code of Student Conduct is set forth in writing in order to give students general notice of non-academic prohibited conduct. The Code should be read broadly and is not designed to define non-academic misconduct in exhaustive terms. The Vice Provost for Student Affairs or designee is the final authority in defining and interpreting the Code of Student Conduct and conduct procedures. The University reserves the right to amend the Code of Student Conduct at any time.

The Code can be found at louisville.edu/dos/students/codeofconduct or by contacting the Dean of Students Office in SAC W301 or by phone at (502) 852-5787.

Code of Student Rights and Responsibilities

The Code of Student Rights and Responsibilities is set forth in writing in order to provide students with general notice of their rights and responsibilities at the University of Louisville. Further rights and responsibilities are set forth in other University rules and policies, including the Code of Student Conduct, Student Handbook, Residence Hall contracts, graduate and undergraduate catalog, and academic unit websites. It is a student’s responsibility to be aware of all University rules and policies. Students should check with the Dean of Students Office and with their academic units if they have any questions about the purposes or intent of these policies.

The Code of Student Rights and Responsibilities can be found at louisville.edu/dos/students/studentrightsandresponsibilities.

Student Handbook

Other policies and information for students can be found in the Student Handbook, online at louisville.edu/dos/students/studentpoliciesandprocedures/student-handbook.

Student Advocacy and Support

The Student Advocate helps students navigate educational, personal, and other campus obstacles that impact successful completion of their academic goals. The Student Advocate links students with appropriate university and community resources, and collaborates with faculty and staff in the best interest of the students and follows through to bring efficient closure to student concerns.

There are times when students may experience a number of different issues that impact their ability to be academically successful such as illness, death of an immediate family member, accident, critical issues such as sexual assault, harassment, domestic violence or other emergency situations. The Student Advocate works with students and their families to resolve the issue by identifying options and strategies and offering information and guidance. During difficult times, students should be empowered with the resources to make informed decisions and take a proactive role in the problem resolution process.

The Student Advocate is located in the Dean of Students Office, SAC W301. Please call (502) 852-5787 to schedule an appointment with the Student Advocate.

Student Grievance Officer

The Student Grievance Officer is responsible for informing students of their rights and obligations under the University grievance procedure. The Student Grievance Officer will seek to resolve informally as many grievances as possible.

For assistance, please contact Dr. Joy Hart at joy.hart@louisville.edu or call (502) 852-6293.
SCHOLARSHIPS AND UNIVERSITY FELLOWSHIPS

Graduate Assistantships
Graduate teaching, research, and service assistantships are available to qualified students in most graduate programs. These assistantships provide tuition remission, health insurance, and a stipend that is adequate to cover basic living expenses.

Applicants who are interested in being considered for assistantships, should contact the chair or graduate advisor of the department to which they are applying for admission, stating their desire to be appointed as a graduate assistant. The award of an assistantship is competitive; students who hope to be considered should present credentials that are well above the minimum required for admission.

The purpose of a graduate assistantship is to provide experience and training that augment a student’s academic program. The department chair or graduate advisor will attempt to place a student in an assistantship believed to best serve the career training objective of the student. Although a student is free to make known a preference for a particular placement, the final decision is the prerogative of the department in which the student is enrolled.

The distribution of assistantships across departments may differ from year to year. Moreover, some departmental policies require that a student complete 9-18 graduate credit hours in the program before being eligible for an assistantship.

Diversity Assistantships/Scholarships
The School of Interdisciplinary and Graduate Studies is committed to providing financial support for the recruitment and retention of qualified, under-represented students. An award candidate must be admitted to the degree program (MS or PhD) and be nominated by the Department Chair. These assistantships include a monthly stipend, tuition remission and health insurance.

Resigning an Offer of Financial Support
As a member of the Council of Graduate Schools in the United States, the University of Louisville subscribes to the Resolution Regarding Scholars, Fellows, Trainees, and Graduate Assistants (http://cgsnet.org/april-15-resolution):

Acceptance of an offer of financial support (such as a graduate scholarship, fellowship, trainee-ship, or assistantship) for the next academic year by a prospective or enrolled graduate student completes an agreement that both student and the School of Interdisciplinary and Graduate Studies expect to honor. In that context, the conditions affecting such offers and their acceptance must be defined carefully and understood by all parties.

Students are under no obligation to respond to offers of financial support prior to April 15; earlier deadlines for acceptance of such offers violate the intent of this Resolution. In those instances in which a student accepts an offer before April 15, and subsequently desires to withdraw that acceptance, the student may submit in writing a resignation of the appointment at any time through April 15. However, an acceptance given or left in force after April 15 commits the student not to accept another appointment without first obtaining a written release from any previously accepted offer. It is further agreed by the institutions and organizations subscribing to the above Resolution that a copy of the Resolution or a link to the URL should accompany every scholarship, fellowship, traineeship, and assistantship offer.

University Fellowships
A limited number of University fellowships may be awarded to outstanding students in the doctoral programs. These carry a generous stipend, health insurance, and full tuition remission. Nominations are made each spring to the Dean of the School of Interdisciplinary and Graduate Studies by the chairs of departments granting the doctorates. Students do not directly apply to the School of Interdisciplinary and Graduate Studies for these awards. Students who wish to be considered for fellowships should abide by the graduate program’s deadline for submitting application materials.

Financial Aid and Financial Settlement

Office of Student Financial Aid
The Office of Student Financial Aid serves prospective students, current students, and their parents with financial aid questions and needs.

Website: louisville.edu/financialaid
E-mail: finaid@louisville.edu
Call center: (502) 852-5511
Campus location: 110 Houchens Building, Belknap Campus

Website
On the Student Financial Aid website (http://www.louisville.edu/financialaid), visitors can access the following:

- Term-specific information on aid disbursement, residual funds, and financial aid advances;
- Financial aid news and upcoming important dates;
- Aid application and processing instructions;
- Award sources and types;
- UofL and outside scholarship postings;
- Consumer information.

E-Mail Service Account
Send your e-mail questions to finaid@louisville.edu. For specific account information, current students must e-mail the office from their UofL e-mail account. E-mail responses typically occur within 3 business days.

Call Center
Contact the call center at (502) 852-5511 from 9:00 a.m. to 5:00 p.m. Monday through Friday. On Thursdays, the call center opens at 12:30 p.m.

This service is intended to assist prospective students, current students, and parents with their general financial aid questions. We ensure students’ privacy by not disclosing account-specific information. Current students should have their student ID number ready when calling.

Office Hours
The Student Financial Aid Office provides walk-in counseling to both current and prospective students Monday, Tuesday, Wednesday, and Friday from 9:00 a.m. until 5:00 p.m.
On Thursdays, the office and call center are open from 12:30 p.m. to 5:00 p.m.

Check the Student Financial Aid Office website (http://louisville.edu/financialaid) for special hours during the August and January class registration periods.

Continuing Registration

Tuition and fees are due on, or before, the designated due date for the semester. Payment may be made by cash, check, money order, charge card (MasterCard, Visa), or financial aid credit. Payments may be made by mail, by use of the deposit box located in the front entrance of the Houchens Building, or at the Office of the Bursar.

Failure to receive a Statement of Account will not relieve the student of the responsibility for making financial settlement by the designated due date. Continuing registrations which are not financially settled by the designated due date may have their course registration cancelled and/or be assessed financial penalties. The Continuing Registration designated due dates are listed in the current Schedule of Courses and on the Bursar’s web site at: ulink.louisville.edu (Tuition-Fees-Payment Options, Payment Options). Students may view their account via ULink. Financial statements are no longer sent to students via mail. All account information may be found on the students ULink.

Regular Registration

Students who register after Continuing Registration should be prepared to fully settle financial obligations by the last day to drop/add for the semester. Failure to fully settle financial obligations may result in course cancellation and/or financial penalties.

Senior Citizen Tuition Remission

The University offers tuition remission to individuals who are classified as residents of Kentucky and are at least 65 years of age on, or before, the first day of classes for the semester. Special costs, such as course fees and parking, are not covered by this program and are the financial responsibility of the student. Proof of age may be shown by presenting a driver’s license or other age verification document at the Office of the Bursar.

These individuals must secure permission of the School of Interdisciplinary and Graduate Studies in order to enroll in graduate-level courses. Normal admission processes must be followed in order to gain admission to a degree program.

Financial Penalties

Students whose accounts are not paid by the established semester deadlines may be subject to financial penalties. Students with unpaid account balances will have a Bursar Registration Hold placed on their student account. Students that have a Bursar Registration Hold become ineligible for further registration and transcripts will not be released until the student account is paid in full. Effective Spring 2015 a late payment fee of $100.00 may be assessed when student accounts are not paid by the last day to drop/add for the semester. A return payment fee of $25.00 may be assessed when payment is not honored by the bank on which it was drawn. If restitution is not made within 10 days of notification, the student may be subject to financial penalties and/or legal action.

Debtors who do not make satisfactory payment arrangements on their past due accounts may have their accounts placed with a billing service. If not paid through the billing service, the unpaid account may be forwarded to a collection agency. It is the policy of the University that unpaid accounts will be assessed the costs and expenses of collection, including attorney fees. Any E-check or Paper Check payment that is remitted on a Past Due by a previously enrolled student will be subject to a 21-day delay in lifting the related Bursar Registration Hold.

Withdrawal Policy

The effective withdrawal date is the date on which the withdrawal is processed in the Student Records System. This date is used in calculating any applicable tuition reduction.

Financial Aid Recipients

Determinations regarding refunds of resulting credit balances will be based on regulations governing the financial aid awarded to the student.

Federal regulations mandate that students have the right to cancel all or a portion of an EFT loan disbursement and have the loan proceeds returned to the lender. To request cancellation of all or a portion of your loan, contact the Financial Aid Office in writing:

Financial Aid Office
University of Louisville
Louisville, KY 40292

Financial Settlement Options

Due dates, payment information, payment plan options, and payment plan forms for specific semesters is updated regularly on the Bursar’s web site at: ulink.louisville.edu

Tuition-Fees-Payment Options: Any questions may be directed to the Bursar’s Office 1) by phone at (502) 852-6503 or 2) by email at bursar@louisville.edu.
SPECIAL FACILITIES AND SERVICES

University Libraries

The extensive library system at the University of Louisville is designed to support undergraduate and graduate research; broad, university scholarship; and student and faculty success.

To these ends, the University Libraries provide services ranging from materials check-outs, research assistance, interlibrary loans and course reserves to loans of laptops, camcorders and flash drives. The libraries also provide study spaces, meeting rooms and presentation spaces. They house UofL resources like the Writing Center, the Delphi Center, and the TILL. Ultimately, University Libraries serve as academic common spaces for all students, faculty, and staff.

The University Libraries consist of:

- Ekstrom (Main) Library,
- Archives and Special Collections,
- The Margaret Bridwell Art Library,
- The Louis Brandeis Law Library,
- The Dwight Anderson Memorial Music Library, and
- The Kornhauser Health Sciences Library.

The Libraries’ collections are extensive. Total holdings exceed 2.2 million printed volumes; subscriptions to both print and electronic journals surpass 90,000. E-books, microfilm, and other formats such as DVDs are also included in the collection. Most of these materials can be found using the library’s website: louisville.edu/library.

In addition, the Libraries subscribe to over 300 online information databases in a wide variety of subject areas.

Interlibrary loan services provide study and research materials not owned by the University of Louisville Libraries from collections of other libraries.

For more information about the university’s libraries go to louisville.edu/undergraduate/about/libraries/.

University Archives and Records Center

The University Archives is a research repository of national significance. It contains primary sources relating to the university, Louisville, and the nation. It attracts students, faculty, and scholars from Louisville, from elsewhere in the U.S., and from other countries. It collects, preserves, and makes available for research historical manuscripts, oral history interviews, and other primary research materials, and thus serves as a research laboratory for humanists, social scientists, and others. Its collections include nineteenth and twentieth-century records of area businesses, cultural organizations, social service agencies, and churches; personal papers of politicians, scholars, members of the Jewish and African-American communities, women, and other prominent and representative Louisvillians; and publications, papers, and photographs documenting the history of the university. Students with class projects, theses, or dissertations requiring primary sources are invited to consult this office.

Information Technology Services

The Office of Information Technology (IT) offers numerous direct technology, computing and printing solutions in support of University of Louisville’s teaching, research and service missions. Serving students, faculty and staff, IT maintains campus wired and wireless networks and delivers enterprise administrative and academic applications. More information concerning IT services can be found at louisville.edu/it.

The university’s most popular websites feature University of Louisville’s email and ULink services. Students can log into their email as part of the Windows Office 365 tools provided to enrolled students at louisville.edu/email. A secure portal to the university’s information and services, ULink, connects students, faculty and staff to all of the necessary campus and administrative environments.

IT runs an online technology store, iTechXpress, with discounted software and downloads, and links to competitively-priced computers for students, faculty and staff. Check it out online at: louisville.edu/it/iTechXpress.

IT’s HelpDesk assists the University of Louisville community daily with regard to technology questions and issues. The IT HelpDesk can be reached at (502) 852-7997 or louisville.edu/it/helpdesk for online assistance. Additionally, IT’s iTech Connect provides free face-to-face technology consulting for students, faculty and staff. Located in the lower level of the Miller IT Center on Belknap campus, iTech Connect can help troubleshoot various technology problems like wireless connections, antivirus protection and digital device management.

On each campus, multiple computing centers and labs provide access to academic software and the Internet. iTech Zone, in the lower level of the Miller IT Center, is a primary computing facility with individual workstations and collaborative work areas on the Belknap campus. At this location IT offers, through a partnership with REACH, peer tutoring on general computing essentials, Microsoft software and basic computer programing. Additional public workstations are located throughout University of Louisville in high-traffic locations for email and Internet access.

IT maintains the university's extensive networking, including a 40 gigabit campus backbone network and a high-speed intercampus fiber network. Telephone services are provided through a voice over IP system equipped with emergency alerts. The university has access to high-speed Internet service through a 10Gbps connection to Internet2, the Kentucky Regional Optical Network (KyRON) and a 2Gbps Internet link to TWTelecom. Wireless Internet service is universally available for University of Louisville students, faculty and staff and guests across all campuses.

International Center

The International Center is the university-wide clearinghouse of information and resources for UofL faculty, students, and researchers involved in academic exchanges, overseas “live and learn” opportunities, and academic research.

The International Center promotes energetically the internationalization efforts of the University. It provides advice and counsel to UofL faculty, students, and researchers traveling abroad and assistance to international students, faculty, and researchers coming to UofL for study or work.
Interested individuals can email the International Center intcent@louisville.edu or visit louisville.edu/internationalcenter.

**Campus Housing**

Campus Housing promotes a safe, convenient, inclusive and healthy living-learning environment, providing opportunities that engage students, facilitate student and faculty connections and encourage student success.

For information about on-campus and off-campus options, please contact the Campus Housing office via one of the following:

- Website: louisville.edu/housing/
- Phone: (502) 852-6636
- Email: oncampus@louisville.edu

**Counseling Center**

The mission of the Counseling Center is to provide services and programs that support the psychological well-being, holistic development, and retention of University of Louisville students. The Counseling Center provides short term individual, group, and couples counseling, outreach, urgent consultation, and psychological testing for currently enrolled students (psychiatric services are provided by Campus Health).

Our clients seek services for a variety of areas of concern, including psychological, personal/social, academic, and career issues.

There is a fee for psychological testing, but all other services are covered by your student fee. Services are confidential to the limits provided by law.

We are committed to diversity in the provision of services and in supporting the University community, while honoring the unique needs and concerns of individuals and traditionally underrepresented groups.

- **UofL Counseling Center**
  - Cardinal Station, 215 Central Ave, Suite 201 (Second floor)
  - louisville.edu/counseling
  - (502) 852-6585

There is free parking, and we are along the 94 Shuttle route.

The Center is open Monday—Friday from 8:00 am—5:00 pm, and we provide urgent consultations on a walk-in basis from 8:30—4:30.

We honor all University Holidays, early closings, and delayed starts, and are closed on Oaks Day.

For more information, including descriptions of our current groups and workshops, please call us or visit our website (http://louisville.edu/counseling).

**Campus Health Services**

**Student Medical and Psychiatric Services**

The Campus Health Service provides medical and psychiatric services to undergraduate, graduate and professional students. Services include primary care, psychiatric, travel medicine and nutritional consults as well as allergy injections, immunizations, sports physicians and diagnostic testing.

Although all students are encouraged to call for appointments, walk-in and same day appointments are generally available at both locations. Charges for medical services are applied to the student’s insurance and/or health fees. Students are responsible for any balance not covered by insurance or fees. Psychiatric services are covered through student fees.

There are two Campus Health Centers that serve health needs of our students. The centers are located at:

- **Belknap Campus Location**
  - Cardinal Station
  - 215 Central Ave. Suite 110
  - (502) 852-6479

- **Health Sciences Center Location**
  - Health Care Outpatient Center (HCOC)
  - 410 E. Chestnut St. Suite 110
  - (502) 852-6446

**Health Insurance and Health Fees**

All non-health professional students are charged the Primary Care Health Fee (PCHF) which can be waived with proof of health insurance. The fee entitles students to basic services at the health centers such as examinations and allergy injections. This fee is not health insurance and does not provide for specialty care, hospitalization, x-ray or laboratory services. The PCHF fee is can be waived with proof of health insurance or used as a supplement to the student’s insurance.

All students enrolled in a program of study that requires them to train in the University's Affiliated Hospitals such as the MD, DMD, Dental Hygiene, Audiology, and Speech Pathology programs are required to carry major medical insurance and pay a non-waivable Health Professionals Health Fee (HPHF). Students in these programs are charged for the university-sponsored insurance plan but may waive it with proof of alternate coverage. A university-sponsored student insurance plan which complies with the Affordable Care Act (ACA) is available for students to purchase.

For additional information about Campus Health Fees, contact the Insurance Advocate via email at stuins@louisville.edu or visit: louisville.edu/campushealth/information/fees/primary-care-health-fee

- **Campus Insurance Advocate**
  - Cardinal Station
  - 215 Central Ave. Suite 110
  - (502) 852-6519

**Office of Health Promotion and Education**

Campus Health Services Office of Health Promotion provides a variety of health education programming and services, which include yoga, stress/sleep management, free HIV and syphilis testing, sexual health workshops, healthy eating, cooking skills, smoking cessation, massage therapy, and physical fitness testing.

- **Office of Health Promotion and Education**
  - Student Activities Center
  - 2100 South Floyd Street, room W309
  - (502) 852-5429

For additional information about Campus Health Services Office of Health Promotion, visit louisville.edu/healthpromotion

**Student Life**

Housing and Residence Life, Intramural and Recreational Sports, Student Activities, Greek Life, Recognized Student Organizations, Student Government Association, ACCESS (Adult Services), Service...
Learning, Swain Student Activities Center Administration, Student Disciplinary Services, Counseling Center, Career Development Center, and International Service Learning Program.

**Disability Resource Center**

The Disability Resource Center coordinates services and programs for students and prospective students with disabilities. Accommodations and support services are individualized, depending on the needs of each student. Services and programs are designed to assure access for qualified students with disabilities to all programs and activities of the university.

Students are strongly encouraged to make early contact with the Disability Resource Center to assure adequate time to implement support services.

Please contact the Disability Resource Center at (502) 852–6938 or visit our webpage at louisville.edu/disability.
RESIDENCY POLICY

Residency

KRS 164.020(8) requires the Kentucky Council on Postsecondary Education (CPE) to determine tuition and approve the minimum qualifications for admission to a state postsecondary education institution and authorizes CPE to set different tuition amounts for residents of Kentucky and for nonresidents. 13 KAR 2:045, Determination of Residency Status for Admission and Tuition Assessment Purposes (p. 7) establishes the procedure and guidelines for determining the residency status of a student who is seeking admission to, or who is enrolled at, a state-supported postsecondary education institution.

Deadline for Filing Residency Appeals

An application for a review of a determination of residency status shall be filed in the Office of Student Services no later than 30 days after the first day of classes of the term for which a determination of residency status is requested. Academic calendars are available in the Schedule of Courses, the university website, and Offices of Admission. Pursuant to 13 KAR 2:045, Determination of Residency Status for Admission and Tuition Assessment Purposes (p. 7), an institution may set other deadlines for submission of other information required by the Institution in a determination of residency status.

For specific information regarding the filing of an application, please refer to the Council on Postsecondary Education document 13 KAR 2:045, Determination of Residency Status for Admission and Tuition Assessment Purposes. Copies of the policy document are available in the Office of Student Services and Offices of Admission.

An application for a review of a determination of residency status shall be submitted to the Registrar’s Office no later than thirty (30) calendar days after the first day of class of the semester for which a determination of residency status is required. Please use caution when mailing your appeal to ensure postmark on or before the deadline. Academic calendars are available in the Schedule of Courses, the university website, and Offices of Admission. Pursuant to 13 KAR 2:045, Determination of Residency Status for Admission and Tuition Assessment Purposes, an institution may set other deadlines for submission of additional information required by the Institution in a determination of residency status. Deadline dates are posted on the University's residency website louisville.edu/residency.

For specific information regarding the filing of an application, please refer to the Council on Postsecondary Education document 13 KAR 2:045, Determination of Residency Status for Admissions and Tuition Assessment Purposes. Copies of the policy document are available in the Office of Admission, Registrar’s Office, and printable from the university’s residency website.

Submit the completed, signed, and notarized affidavit with all accompanying documentation to:

Registrar’s Office
Houchens Building, Room LL31
University of Louisville
Louisville KY 40292

13 KAR 2:045.

Determination of residency status for admission and tuition assessment purposes.

STATUTORY AUTHORITY: KRS 164.020(8)

NECESSITY, FUNCTION, AND CONFORMITY: KRS 164.020(8) requires the Council on Postsecondary Education to determine tuition and approve the minimum qualifications for admission to a state postsecondary education institution and authorizes the Council to set different tuition amounts for residents of Kentucky and for nonresidents. This administrative regulation establishes the procedure and guidelines for determining the residency status of a student who is seeking admission to, or who is enrolled at, a state-supported postsecondary education institution.

Section 1. Definitions.

1. "Academic term" means a division of the school year during which a course of studies is offered, and includes a semester, quarter, or single consolidated summer term as defined by the institution.
2. "Continuous enrollment" means enrollment in a state-supported postsecondary education institution at the same degree level for consecutive terms, excluding summer term, since the beginning of the period for which continuous enrollment is claimed unless a sequence of continuous enrollment is broken due to extenuating circumstances beyond the student's control, such as serious personal illness or injury, or illness or death of a parent.
3. "Degree level" means enrollment in a course or program that could result in the award of a:
   a. Certificate, diploma, or other program award at an institution;
   b. Baccalaureate degree or lower, including enrollment in a course by a nondegree-seeking post baccalaureate student;
   c. Graduate degree or graduate certification other than a first-professional degree in law, medicine, dentistry, or "Pharm. D";
   d. Professional degree in law, medicine, dentistry, or "Pharm. D".
4. "Dependent person" means a person who cannot demonstrate financial independence from parents or persons other than a spouse and who does not meet the criteria for independence established in Section 5 of this administrative regulation.
5. "Determination of residency status" means the decision of a postsecondary education institution that results in the classification of a person as a Kentucky resident or as a nonresident for admission and tuition assessment purposes.
6. "Domicile" means a person's true, fixed, and permanent home and is the place where the person intends to remain indefinitely, and to which the person expects to return if absent without intending to establish a new domicile elsewhere.
7. "Full-time employment" means continuous employment for at least forty-eight (48) weeks at an average of at least thirty (30) hours per week.
8. "Independent person" means a person who demonstrates financial independence from parents or persons other than a spouse and who
meets the criteria for independence established in Section 5 of this administrative regulation.

9. "Institution" means an entity defined by KRS 164.001(12) if the type of institution is not expressly stated and includes the Kentucky Virtual University, the Council on Postsecondary Education, and the Kentucky Higher Education Assistance Authority.

10. "Kentucky resident" means a person determined by an institution for tuition purposes to be domiciled in, and a resident of, Kentucky as determined by this administrative regulation.

11. "Nonresident" means a person who:
   a. Is domiciled outside Kentucky;
   b. Currently maintains legal residence outside Kentucky; or
   c. Is not a Kentucky resident as determined by this administrative regulation.

12. "Parent" means one (1) of the following:
   a. A person’s father or mother; or
   b. A court-appointed legal guardian if:
      i. The guardianship is recognized by an appropriate court within the United States;
      ii. There was a relinquishment of the rights of the parents; and
      iii. The guardianship was not established primarily to confer Kentucky residency on the person.

13. "Preponderance of the evidence" means the greater weight of evidence or evidence that is more credible and convincing to the mind.

14. "Residence" means the place of abode of a person and the place where the person is physically present most of the time for a noneducational purpose in accordance with Section 3 of this administrative regulation.

15. "Student financial aid" means all forms of payments to a student if one (1) condition of receiving the payment is the enrollment of the student at an institution, and includes student employment by the institution or a graduate assistantship.

16. "Sustenance" means:
   a. Living expenses, such as room, board, maintenance, and transportation; and
   b. Educational expenses, such as tuition, fees, books, and supplies.

Section 2. Scope.

1. State-supported postsecondary education institutions were established and are maintained by the Commonwealth of Kentucky primarily for the benefit of qualified residents of Kentucky. The substantial commitment of public resources to postsecondary education is predicated on the proposition that the state benefits significantly from the existence of an educated citizenry. As a matter of policy, access to postsecondary education shall be provided so far as feasible at reasonable cost to a qualified individual who is domiciled in Kentucky and who is a resident of Kentucky.

2. In accordance with the duties established in KRS 164.020, the Council on Postsecondary Education may require a student who is neither domiciled in, nor a resident of, Kentucky to meet higher admission standards and to pay a higher level of tuition than resident students.

3. Unless otherwise indicated, this administrative regulation shall apply to all student residency determinations, regardless of circumstances, including residency determinations made by:
   a. The state-supported institutions for prospective and currently-enrolled students;
   b. The Southern Regional Education Board for contract spaces;
   c. Reciprocity agreements, if appropriate;
   d. The Kentucky Virtual University;
   e. Academic common market programs;
   f. The Kentucky Educational Excellence Scholarship Program; and
   g. Other state student financial aid programs, as appropriate.

Section 3. Determination of Residency Status; General Rules.

1. A determination of residency shall include:
   a. An initial determination of residency status by an institution:
      i. During the admission process;
      ii. Upon enrollment in an institution for a specific academic term; or
      iii. For admission into a specific academic program;
   b. A reconsideration of a determination of residency status by an institution based upon a changed circumstance; or
   c. A formal hearing conducted by an institution upon request of a student after other administrative procedures have been completed.

2. An initial determination of residency status shall be based upon:
   a. The facts in existence when the credentials established by an institution for admission for a specific academic term have been received and during the period of review by the institution;
   b. Information derived from admissions materials;
   c. If applicable, other materials required by an institution and consistent with this administrative regulation; and
   d. Other information available to the institution from any source.

3. An individual seeking a determination of Kentucky residency status shall demonstrate that status by a preponderance of the evidence.

4. A determination of residency status shall be based upon verifiable circumstances or actions.

5. Evidence and information cited as the basis for Kentucky domicile and residency shall accompany the application for a determination of residency status.

6. A student classified as a nonresident shall retain that status until the student is officially reclassified by an institution.

7. A student may apply for a review of a determination of residency status once for each academic term.

8. If an institution has information that a student’s residency status may be incorrect, the institution shall review and determine the student’s correct residency status.

9. If the Council on Postsecondary Education has information that an institution’s determination of residency status for a student may be incorrect, it may require the institution to review the circumstances and report the results of that review.

10. An institution shall impose a penalty or sanction against a student who gives incorrect or misleading information to an institutional official, including payment of nonresident tuition for each academic term for which resident tuition was assessed based on an improper determination of residency status. The penalty or sanction may also include:
    a. Student discipline by the institution through a policy written and disseminated to students; or
    b. Criminal prosecution.

Section 4. Presumptions Regarding Residency Status.

1. In making a determination of residency status, it shall be presumed that a person is a nonresident if:
Section 5. Determination of Whether a Student is Dependent or Independent.

1. In a determination of residency status, an institution shall first determine whether a student is dependent or independent. This provision shall be predicated on the assumption that a dependent person lacks the financial ability to live independently of the person upon whom the student is dependent, and therefore, lacks the ability to form the requisite intent to establish domicile. A determination that a student is independent shall be one (1) step in the overall determination of whether a student is or is not a resident of Kentucky.

2. In determining the dependent or independent status of a person, the following information shall be considered, as well as other relevant information available when the determination is made:
   a. Whether the person has been claimed as a dependent on the federal or state tax returns of a parent or other person for the year preceding the date of application for a determination of residency status; or
   b. Whether the person is no longer claimed by a parent or other person as a dependent or as an exemption for federal and state tax purposes; and
   c. Whether the person has financial earnings and resources independent of a person other than an independent spouse necessary to provide for the person’s own sustenance.

3. An individual who enrolls at an institution immediately following graduation from high school and remains enrolled shall be presumed to be a dependent person unless the contrary is evident from the information submitted.

4. Domicile may be inferred from the student’s permanent address, parent’s mailing address, or location of high school of graduation.

5. Marriage to an independent person domiciled in and who is a resident of Kentucky shall be a factor considered by an institution in determining whether a student is dependent or independent.

6. Financial assistance from, or a loan made by, a parent or family member other than an independent spouse, if used for sustenance of the student:
   a. Shall not be considered in establishing a student as independent; and
   b. Shall be a factor in establishing that a student is dependent.

Section 6. Effect of a Determination of Dependent Status on a Determination of Residence Status.

1. The effect of a determination that a person is dependent shall be:
   a. The domicile and residency of a dependent person shall be the same as either parent. The domicile and residency of the parent shall be determined in the same manner as the domicile and residency of an independent person; and
   b. The domicile and residency of a dependent person whose parents are divorced, separated, or otherwise living apart shall be Kentucky if either parent is domiciled in and is a resident of Kentucky, regardless of which parent has legal custody or is entitled to claim that person as a dependent pursuant to federal or Kentucky income tax provisions.

2. If the parent or parents of a dependent person are Kentucky residents and are domiciled in Kentucky, but subsequently move from the state:
   a. The dependent person shall be considered a resident of Kentucky while in continuous enrollment at the degree level in which currently enrolled; and
   b. The dependent person’s residency status shall be reassessed if continuous enrollment is broken or the current degree level is completed.

Section 7. Member or Former Member of Armed Forces of the United States, Spouse and Dependents; Effect on a Determination of Residency Status.

1. A member, spouse, or dependant of a member whose domicile and residency was Kentucky when inducted into the Armed Forces of the United States, and who maintains Kentucky as home of record and permanent address, shall be entitled to Kentucky residency status:
   a. During the member’s time of active service; or
   b. If the member returns to this state within six (6) months of the date of the member’s discharge from active duty.

2. A member of the armed services on active duty for more than thirty (30) days and who has a permanent duty station in Kentucky shall be classified as a Kentucky resident and shall be entitled to in-state tuition, as shall the spouse or a dependent child of the member.

3. A member, spouse, or dependent of a member shall not lose Kentucky residency status if the member is transferred on military orders while the member, spouse, or dependent requesting the status is in continuous enrollment at the degree level in which currently enrolled.

4. Membership in the National Guard or civilian employment at a military base alone shall not qualify a person for Kentucky residency status under the provisions of subsections (1) and (2) of this section. If a member of the Kentucky National Guard is on active duty status for a period of not less than thirty (30) days, the member shall be considered a Kentucky resident, as shall the spouse or a dependent child of the member.

5. A person eligible for benefits under the federal Post-9/11 Veterans Educational Assistance Act of 2008, 38 U.S.C. 3301-3325, or any other educational benefits provided under Title 38 of the United States Code shall be entitled to Kentucky resident status for purposes of tuition charged at state-supported institutions.

6. A person’s residency status established pursuant to this section shall be reassessed if the qualifying condition is terminated.
Section 8. Status of Nonresident Aliens; Visas and Immigration.

1. A person holding a permanent residency visa or classified as a political refugee shall establish domicile and residency in the same manner as another person.

2. A person holding a nonimmigrant visa with designation A, E, G, H-1, H-4 if accompanying a person with an H-1 visa, I, K, L, N, R, shall establish domicile and residency the same as another person.

3. An independent person holding a nonimmigrant visa with designation B, C, D, F, H-2, H-3, H-4 if accompanying a person with an H-2 or H-3 visa, J, M, O, P, Q, S, TD, or TN shall not be classified as a Kentucky resident because that person does not have the capacity to remain in Kentucky indefinitely and therefore cannot form the requisite intent necessary to establish domicile as defined in Section 1(6) of this administrative regulation.

4. A person shall be a Kentucky resident for the purpose of this administrative regulation if the person graduated from a Kentucky high school and:
   a. Is an undocumented alien;
   b. Holds a visa listed in subsections (2) or (3)(a) of this section; or
   c. Is a dependent of a person who holds a visa listed in subsections (2) or (3)(a) of this section.

5. Except as provided in paragraph (b) of this subsection, a person who has petitioned the federal government to reclassify visa status shall continue to be ineligible until the petition has been granted by the federal government.

Section 9. Beneficiaries of a Kentucky Educational Savings Plan Trust.

A beneficiary of a Kentucky Educational Savings Plan Trust shall be granted residency status if the beneficiary meets the requirements of KRS 164A.330(6).

Section 10. Criteria Used in a Determination of Residency Status.

1. A determination of Kentucky domicile and residency shall be based upon verifiable circumstances or actions.

b. A single fact shall not be paramount, and each situation shall be evaluated to identify those facts essential to the determination of domicile and residency.

c. A person shall not be determined to be a Kentucky resident by the performance of an act that is incidental to fulfilling an educational purpose or by an act performed as a matter of convenience.

d. Mere physical presence in Kentucky, including living with a relative or friend, shall not be sufficient evidence of domicile and residency.

e. A student or prospective student shall respond to all requests for information regarding domicile or residency requested by an institution.

2. The following facts, although not conclusive, shall have probative value in their entirety and shall be individually weighted, appropriate to the facts and circumstances in each determination of residency.

a. Acceptance of an offer of full-time employment or transfer to an employer in Kentucky or contiguous area while maintaining residence and domicile in Kentucky;

b. Continuous physical presence in Kentucky while in a nonstudent status for the twelve (12) months immediately preceding the start of the academic term for which a classification of Kentucky residency is sought;

c. i. Filing a Kentucky resident income tax return for the calendar year preceding the date of application for a change in residency status; or
   ii. Payment of Kentucky withholding taxes while employed during the calendar year for which a change in classification is sought;

d. Full-time employment of at least one (1) year while living in Kentucky;

e. Attendance as a full-time, nonresident student at an out-of-state institution based on a determination by that school that the person is a resident of Kentucky;

f. Abandonment of a former domicile or residence and establishing domicile and residency in Kentucky with application to or attendance at an institution following and incidental to the change in domicile and residency;

g. Obtaining licensing or certification for a professional and occupational purpose in Kentucky;

h. Payment of real property taxes in Kentucky;

i. Ownership of real property in Kentucky, if the property was used by the student as a residence preceding the date of application for a determination of residency status;

j. Marriage of an independent student to a person who was domiciled in and a resident of Kentucky prior to the marriage; and

k. The extent to which a student is dependent on student financial aid in order to provide basic sustenance.

3. Except as provided in subsection (4) of this section, the following facts, because of the ease and convenience in completing them, shall have limited probative value in a determination that a person is domiciled in and is a resident of Kentucky:

a. Kentucky automobile registration;

b. Kentucky driver’s license;

c. Registration as a Kentucky voter;
Section 12. Student Responsibilities.

1. A student shall report under the proper residency classification, which includes the following actions:
   a. Raising a question concerning residency classification;
   b. Making application for change of residency classification with the designated office or person at the institution; and
   c. Notifying the designated office or person at the institution immediately upon a change in residency.

2. If a student fails to notify an institutional official of a change in residency, an institutional official may investigate and evaluate the student's residency status.

3. a. If a student fails to provide, by the date specified by the institution, information required by an institution in a determination of residency status, the student shall be notified by the institution that the review has been canceled and that a determination has been made.
   b. Notification shall be made by registered mail, return receipt requested.
   c. Notification shall be made within ten (10) calendar days after the deadline for receipt of materials has passed.

4. a. The formal hearing conducted by an institution and the final recommended order shall be a final administrative action with no appeal to the Council on Postsecondary Education.
   b. A formal administrative hearing conducted by the Council on Postsecondary Education for residency determinations related to eligibility for the Academic Common Market and Regional Contract Programs shall be conducted pursuant to the provisions of KRS Chapter 13B and 13 KAR 2:070. The recommended order issued by the President of the Council shall be a final administrative action.

5. A student shall not be entitled to appeal a determination of residency status if the determination made by an institution is because a student has failed to meet published deadlines for the submission of information as set forth in subsection (3) of this section. A student may request a review of a determination of residency status in a subsequent academic term.

Section 13. Institutional Responsibilities.

Each institution shall:

1. Provide for an administrative appeals process that includes a residency appeals officer to consider student appeals of an initial residency determination and which shall include a provision of fourteen (14) days for the student to appeal the residency appeals officer's determination;

2. Establish a residency review committee to consider appeals of residency determinations by the residency appeals officer. The residency review committee shall make a determination of student residency status and notify the student in writing within forty-five (45) days after receipt of the student appeal;

3. Establish a formal hearing process as described in Section 14 of this administrative regulation; and

4. Establish written policies and procedures for administering the responsibilities established in subsections (1), (2), and (3) of this section and that are:
   a. Approved by the institution's governing board;
   b. Made available to all students; and
   c. Filed with the council.

1. A student who appeals a determination of residency by a residency review committee shall be granted a formal hearing by an institution if the request is made by a student in writing within fourteen (14) calendar days after notification of a determination by a residency review committee.

2. If a request for a formal hearing is received, an institution shall appoint a hearing officer to conduct a formal hearing. The hearing officer shall:
   a. Be a person not involved in determinations of residency at an institution except for formal hearings; and
   b. Not be an employee in the same organizational unit as the residency appeals officer.

3. An institution shall have written procedures for the conduct of a formal hearing that have been adopted by the board of trustees or regents, as appropriate, and that provide for:
   a. A hearing officer to make a recommendation on a residency appeal;
   b. Guarantees of due process to a student that include:
      i. The right of a student to be represented by legal counsel; and
      ii. The right of a student to present information and to present testimony and information in support of a claim of Kentucky residency; and
   c. A recommendation to be issued by the hearing officer.
   d. An institution's formal hearing procedures shall be filed with the Council on Postsecondary Education and shall be available to a student requesting a formal hearing.

Section 15. Cost of Formal Hearings.

1. An institution shall pay the cost for all residency determinations including the cost of a formal hearing.

2. A student shall pay for the cost of all legal representation in support of the student's claim of residency. (17 Ky.R. 2557; eff. 4-5-1991; Am. 22 Ky.R. 1656; 1988; eff. 5-16-1996; 23 Ky.R. 3380; 3797; 4099; eff.

Institutional Accreditation

The University of Louisville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate, bachelor, master, specialist, doctoral, and first-professional degrees (DMD, JD, MD).

Individuals who wish to contact the Commission on Colleges regarding the accreditation status of the university may do so at:

Southern Association of Colleges and Schools Commission on Colleges
1866 Southern Lane
Decatur, Georgia 30033-4097
or call (404) 679-4500

Professional Accreditations

Accountancy (C, BS, MAC): Association to Advance Collegiate Schools of Business (AACSB International) (http://www.aacsb.edu)

Art Therapy (MEd): (Expressive Therapies) American Art Therapy Association (http://arttherapy.org)

Audiology (AuD): Council on Academic Accreditation in Audiology and Speech-Language Pathology (http://caa.asha.org)

Business (Undergraduate and Graduate): Association to Advance Collegiate Schools of Business (AACSB International) (http://www.aacsb.edu)

Chemistry (BS): American Chemical Society (ACS) (http://www.acs.org/content/acs/en/about/governance/committees/training/acspapproved.html)

Clinical Psychology (PhD): American Psychological Association (APA) (http://www.apa.org)

Clinical Mental Health Counseling (MEd): Council for Accreditation of Counseling and Related Educational Programs (CACREP) (http://www.cacrep.org)

Computer Engineering and Computer Science (BS): Computing Accreditation Commission of ABET, Inc. (http://www.abet.org)

Counseling Psychology (PhD): American Psychological Association (APA) (http://www.apa.org)

Dental Hygiene (BS): Commission on Dental Accreditation of the American Dental Association (CODA) (http://www.ada.org/en/coda)

Dentistry (C, MSD, DMD): Commission on Dental Accreditation of the American Dental Association (CODA) (http://www.ada.org/en/coda)

Engineering (BS and MEng): Engineering Accreditation Commission of ABET, Inc. (http://www.abet.org)

(Bioengineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Industrial Engineering, Mechanical Engineering, Computer Engineering and Computer Science programs)

Exercise Physiology (MS)/Exercise Science (BS): Committee on Accreditation for the Exercise Sciences (CoAES) (http://www.coaes.org)

Family Therapy (MSSW): Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) (http://www.aamft.org/IMIS15/About/About_COAMFTE/Content/COAMFTE/COAMFTE.aspx)

Interior Design (BA): Council for Interior Design Accreditation (CIDA) (http://accredit-id.org)

Law: Section of Legal Education and Admissions to the Bar of the American Bar Association (ABA) (http://www.americanbar.org/aba.html), Association of American Law Schools (AALS) (http://www.aals.org)

Medicine (MD): Liaison Committee on Medical Education, a Joint Committee of the American Medical Association and the Association of American Medical Colleges (LCME) (http://lcme.org)

Music Therapy (BM): National Association of Schools of Music (NASM) (http://nasm.arts-accredit.org)

Nursing (BSN, MSN, PhD): Commission on Collegiate Nursing Education (CCNE) (http://www.aacn.nche.edu/ccne-accreditation)

Paralegal Studies (AA): Section on Paralegal Education of the American Bar Association (ABA) (http://apps.americanbar.org/legalservices/paralegals/directory)

Public Administration (MPA): National Association of Schools of Public Affairs and Administration (NASPAA) (http://www.naspaa.org)

Public Health (C, MS, MPH, PhD): Council on Education for Public Health (CEPH) (http://ceph.org)

School Counseling (MEd): Council for Accreditation of Counseling and Related Educational Programs (CACREP) (http://www.cacrep.org)

Speech-Language Pathology (MS): Council on Academic Accreditation in Audiology and Speech-Language Pathology (http://caa.asha.org)
Sport Administration (BS, MS): Commission on Sports Management Accreditation (COSMA) (http://www.cosmaweb.org)

Theatre Arts (BS, MFA): National Association of Schools of Theatre (NAST) (https://www.arts-accredit.org)

Urban Planning (MUP): Planning Accreditation Board (PAB) (http://www.planningaccreditationboard.org)

Other Accreditation/Recognition

Clinical Chemistry (post-doctoral): Commission on Accreditation in Clinical Chemistry (COMACC) (http://www.comacc.org/Pages/default.html)

Cooperative Education (Speed School): American Council for Cooperative Education (ACCE)

Continuing Medical Education: Accreditation Council for Continuing Medical Education (AACME) (http://www.accme.org)

Strength Conditioning-Exercise Science (BS)/Exercise Physiology (MS): National Strength and Conditioning Association (http://www.nsca.com)[NSCA] Education Recognition Program

Disclosures
State Authorization for Distance Education Activities
The University of Louisville seeks to deliver all of our online programs in every state. We work through the State Authorization Reciprocity Agreement (SARA) process and with states directly to ensure that when authorization or licensure is necessary, required approvals are obtained. SARA is a voluntary agreement that allows states and institutions to offer distance education in other participating states so long as the institution adheres to certain quality and consumer protection standards. More information on SARA can be found here (http://www.nc-sara.org).

Kentucky is a member of SARA and UofL is an approved SARA institution. Though SARA authorizes the University to offer its programs in member states, there is the possibility that other state requirements not covered by SARA (such as requirements from state licensing boards) could necessitate the restriction of certain programs in certain states. Please note that should you choose to enroll in a restricted program in a particular state, there may be restrictions that could affect you.

Examples could include:

- You may be unable to sit for local licensing in that state
- You may be ineligible for consumer protection in that state
- You may not be able to complete field placements (practicum, internship, clerkship, etc.) in that state. This could affect licensure or recognition of the degree to meet particular requirements in that state.

Therefore, if you decide to enroll in any of the University of Louisville’s restricted programs, or if you move during the course of your studies to a state where your program is restricted, please be aware that you are taking a risk that you may not be able to complete that program or use any of the credit earned in that program should you decide to pursue licensing in that field in that state. Please note that the risks listed above are not exhaustive. Please verify with your state’s professional licensing board that your plans are not impacted by these risks before enrolling in an online program.

For more information on online program availability in your state, please visit louisville.edu/online/About-Us/state-authorization-regulations.

For important consumer disclosures relating to such issues as professional licensure, please visit louisville.edu/online/About-Us/state-authorization-disclosures.

For more information and disclosures, please visit louisville.edu/online/About-Us/state-authorization-regulations.
PROGRAMS OF STUDY

Doctor of Audiology – AuD (p. 847)

Doctor of Nursing Practice (p. 1005) – DNP (p. 1005)

Doctor of Education – EdD
  • Educational Leadership and Organizational Development

Specialist in Education – EdS
  • Educational Administration - Instructional Leadership

Doctor of Philosophy – PhD
  • Anatomical Science and Neurobiology
  • Art History
  • Biochemistry and Molecular Genetics
  • Biology
  • Biostatistics
  • Chemical Engineering
  • Chemistry
  • Civil Engineering
  • Clinical Psychology
  • Computer Science and Engineering
  • Counseling and Personnel Services
  • Criminal Justice
  • Curriculum and Instruction
  • Educational Leadership and Organizational Development
  • Electrical Engineering
  • English Rhetoric and Composition
  • Entrepreneurship
  • Experimental Psychology
  • Humanities
  • Industrial Engineering
  • Interdisciplinary Studies
  • Interdisciplinary Studies: Specialization in Bioinformatics
  • Interdisciplinary Studies: Specialization in Translational Bioengineering

Master of Arts – MA
  • Anthropology
  • Art (Creative) and Art History
  • Communication
  • English
  • French, Language (p. 934) and Literature
  • Higher Education Administration
  • History
  • Humanities
  • Interdisciplinary Studies
  • Interdisciplinary Studies: Concentration in Bioethics and Medical Humanities (p. 960)
  • Interdisciplinary Studies: Concentration in Sustainability (p. 962)
  • Mathematics
  • Pan-African Studies
  • Political Science
  • Sociology
  • Spanish
  • Women’s and Gender Studies

Master of Accountancy – MAc (p. 834)

Master of Arts in Teaching – MAT
  • Art Education
  • Early Childhood Education (Interdisciplinary)
  • Early Elementary Education
  • Health and Physical Education
  • Middle School Education
  • Middle School Education - Alternative Certification (5-9)
  • Music Education
  • Secondary Education
  • Secondary Education - Alternative Certification (8-12)
• Special Education, Concentration in Moderate/Severe Disabilities (P-12)
• Special Education, Concentration in Moderate/Severe Disabilities (P-12) - Alternative Certification

Master of Business Administration – MBA (p. 867)

Master of Education – MEd
• Community Health
• Counseling and Personnel Services
• Instructional Technology
• Literacy
• Special Education
• Special Education (Non-Teaching)
• Teacher Leadership

Masters Engineering – MEng
• Bioengineering (p. 852)
• Chemical Engineering (p. 872)
• Civil Engineering (p. 881)
• Computer Engineering Computer Science (p. 892)
• Electrical Engineering (p. 919)
• Engineering Management (p. 925)
• Industrial Engineering (p. 950)
• Mechanical Engineering (p. 976)

Master of Fine Arts – MFA
• Studio Art and Design
• Theatre Arts

Master of Music – MM
• Music Composition
• Music History and Literature
• Music Performance
• Music Theory

Master of Music Education in Music Education – MME (p. 992)

Master of Public Administration – MPA (p. 1030)

Master of Public Health – MPH (p. 1032)

Master of Science – MS
• Anatomical Science and Neurobiology
• Biochemistry and Molecular Genetics
• Biology
• Biostatistics
• Business Analytics
• Chemical Engineering
• Chemistry
• Civil Engineering
• Communicative Disorders
• Computer Science
• Criminal Justice
• Electrical Engineering
• Epidemiology
• Exercise Physiology
• Geography, Applied (p. 935)
• Health Administration
• Health Data Analytics
• Human Resources and Organization Development
• Industrial Engineering
• Interdisciplinary Studies
• Interdisciplinary Studies: Concentration in Sustainability (p. 962)
• Mechanical Engineering
• Microbiology and Immunology
• Oral Biology
• Pharmacology and Toxicology
• Physics
• Physiology and Biophysics
• Sport Administration

Master of Science in Clinical Investigation Sciences – MSc (p. 886)

Master of Science in Dentistry (p. 910) – MSD (p. 910)

Master of Science in Nursing – MSN (p. 1001)

Master of Science in Social Work – MSSW (p. 1054)

Master of Urban Planning – MUP (p. 1082)

Graduate Certificates – CERT
• African-American Theatre (p. 835)
• Asian Studies (p. 846)
• Autism and Applied Behavior Analysis (p. 848)
• Biostatistics
• Clinical Investigative Sciences (p. 885)
• Cybersecurity (p. 908)
• Data Science (p. 909)
• Diversity Literacy (p. 912)
• Environmental Engineering (p. 929)
• Franchise Management (p. 940)
• Health Professions Education (p. 970)
• Latin American and Latino Studies (p. 980)
• Medieval and Renaissance Studies (p. 980)
• Pan-African Studies (p. 1009)
• Police Executive Leadership Development (p. 1025)
• Public History (p. 1048)
• Real Estate Development (p. 1049)
• Structural Engineering (p. 1073)
• Translation and Interpreting (p. 1078)
• Transportation Engineering (p. 1079)
• Women's and Gender Studies (p. 1084)

Programs for Certified Teachers (Rank 1)

• Certified School Counselors (p. 870)
• Elementary Education (p. 924)
• Middle Grades Education (p. 984)
• Secondary Education (p. 1051)
• School Social Work (p. 1049)
• Special Education - Advanced Practitioner (P-12) (p. 1069)

Endorsements for Certified Teachers

• Elementary Mathematics Specialist (P-5) (http://louisville.edu/education/degrees/endorsements)
• Gifted and Talented Education (P-12) (http://louisville.edu/education/degrees/endorsements)
• Instructional Computer Technology (P-12) (http://louisville.edu/education/degrees/endorsements)

Dual Degree Programs

A dual degree program is a formalized path of study that allows a student to pursue two different degrees at the same time, either at the same institution or at different institutions, and possibly complete them in less time than it would take to earn them separately. The two degrees may be in the same subject or in two different subjects; they may be at the same level (e.g., master's-master's) or at two different levels (e.g., doctoral-master's).

Students must meet the admission requirements for both degree programs. Other limitations or requirements may apply, depending on the program. Interested individuals may click on the links below for additional information.

Dual Dentistry-Graduate Degree Programs

- Combined Doctor of Dental Medicine and Master of Science (DMD/MS) (http://louisville.edu/dentistry/degrees/oralbiology/dmd-msob)
- Combined Doctor of Dental Medicine and Doctor of Philosophy (DMD/PhD) (http://louisville.edu/dentistry/degrees/oralbiology/dmd-Phd)

Dual Law-Graduate Degree Programs

- Combined Juris Doctor and Master of Arts in Humanities (JD/MA) (https://louisville.edu/law/academics/degree-programs/dual-degree-programs)
- Combined Juris Doctor and Master of Arts in Interdisciplinary Studies with a concentration in Bioethics and Medical Humanities (JD/MA) (https://louisville.edu/law/academics/degree-programs/dual-degree-programs)
- Combined Juris Doctor and Master of Arts in Pan-African Studies (JD/PhD) (http://louisville.edu/dentistry/degrees/oralbiology/dmd-Phd)
- Combined Juris Doctor and Master of Science in Clinical Investigation (MD/MSc) (http://louisville.edu/medschool/dualdegree/md-msc)
- Combined Juris Doctor and Master of Science in Divinity (JD/MDiv) (https://louisville.edu/law/academics/degree-programs/dual-degree-programs)

with Louisville Presbyterian Theological Seminary

Accountancy (MAC)

Masters of Accountancy (ACCYMAC)
Unit: College of Business (http://business.louisville.edu) (GB)
Department: Accountancy (http://louisville.edu/accountancy)
Program Webpage: business.louisville.edu/master-of-accountancy/

Program Information

The College of Business Master of Accountancy at the University of Louisville is offered once each year, with a new cohort starting in August. Admission to the Master of Accountancy program is highly competitive. The College of Business Master of Accountancy program requires completion of an undergraduate degree majoring in accounting, or completion of an accounting Certificate Program, or equivalent prior to admission. GMAT scores and letters of reference are required (the GMAT requirement may be waived if specified academic standards are met). The program is cohort-based and includes 30 credit hours of required coursework.

The Master of Accountancy is a 12-month cohort-based program. The program fee is $21,000. Application requirements include an undergraduate degree majoring in accounting or equivalent (with official university transcripts), a GMAT or GRE test result, two letters of reference, and an application fee. The GMAT requirement may be waived in certain circumstances, based on academic performance in an undergraduate degree program.

Admission Requirements

It is recommended that your application be submitted within 30 days of creating your account, thereby providing you sufficient time to focus on the Graduate Management Admission Test (GMAT). Contact the University of Louisville MBA Office with any questions via telephone (502) 852-7257 or email mba@louisville.edu.

- Create application account
  Visit UofMAC.com and click “APPLY NOW.”
- Two letters of recommendation
  Within the application, submit names and email addresses of your recommenders. They will receive an email invitation on your behalf. Your recommenders should speak to your character, academic aptitude, etc.
- Professional resume
  Within the application, upload your resume.
- Personal statement
  Within the application, attach a 1–2 page Word document describing your interest in the University of Louisville MAC program, why you selected the University of Louisville, your short and long term goals and any additional information you feel is relevant.
- Submit and pay application fee
- Official college transcript(s)
  Order an official college transcript from all colleges attended, including the degree granting institution.

Mail transcripts to:

  College of Business, MBA Office
University of Louisville
Louisville, KY 40292

E-Transcripts will be accepted from the institution only. Have these sent to mba@louisville.edu.

• **Graduate Management Admission Test (GMAT)**
  The admissions application includes a field in which you can provide your GMAT test date and/or scores. If you have not scheduled the GMAT, please visit www.mba.com for details. Once registered, notify the UofL MBA office by sending an email to mba@louisville.edu with Subject Line: GMAT Test Date. We recommend allocating 6-8 weeks of preparatory time and encourage you to attend the Free GMAT workshops offered monthly at the College of Business. Note: We will accept the GRE in lieu of the GMAT.

---

**International Applicants**
We welcome all international applicants. Please be aware there are documents required in addition to the above list. Visit business.louisville.edu/graduate-programs/grad-admissions/ and open the International Applicant Checklist

**African American Theatre (CERT)**

**Graduate Certificate in African American Theatre (AATHCAT)**
Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences) (GA)
Department: Theatre Arts
Program Webpage: louisville.edu/theatrearts/academics/graduate-studies/graduate-certificate-in-african-american-theatre

**Program Information**
The first (and only) graduate program in African American Theatre in the region.

Requires 15 hours of graduate credit: nine (9) hours in African American Theatre, three (3) hours of theatre-related Community Service, and three (3) hours of Electives.

Can be completed as a stand-alone program or in conjunction with another graduate program (any area).

The certificate program is specially designed for:

- Persons preparing for professional careers in the theatre arts
- Teachers, Government and Community Agency Professionals
- Individuals with a passion for theatre and performance from Africa and the African Diaspora
- Graduate students at the University of Louisville and other institutions

**Admission Requirements**

**Application for Admission**

- All candidates for admission to graduate programs must complete the online application form (http://louisville.edu/graduate/apply).
- Consult with your intended program for specific application deadlines.
- A new application must be received any time a student is beginning a graduate program, transferring graduate programs, changing from non-degree to degree-seeking status, or adding a dual or certificate program to an existing degree program.
- **Note:** The University of Louisville reserves the right to change programs of study, academic requirements, fees, schedules of courses, the announced academic calendar and deadlines without prior notice.

**Application Fee**

- A non-refundable application fee is required with the application form. Your application will not be forwarded to the department until
this fee is paid. Please note the following graduate application fee requirements: louisville.edu/graduate/futurestudents/application-directions

Transcripts
- Applicants for admission to a degree program must submit an official transcript from each college attended. All University of Louisville transcripts will automatically be submitted with the completion of an application. Transcripts must be sent directly from the school to the School of Interdisciplinary and Graduate Studies, Graduate Admissions, in order to be considered official.
- Applications to non-degree or certificate programs need only submit an official transcript certifying at least a bachelor’s degree.

Test Scores
- Applicants for admission to most graduate degree programs must take the general section of the Graduate Record Examination (GRE). Consult with your intended program for specific test requirements. GRE Information can be obtained from www.ets.org/gre (http://www.ets.org/gre) or 1-866-473-4373.
- Applicants applying as non-degree or visiting students are not required to submit test scores.

English Proficiency
- All applicants for whom English is a second language must also submit official TOEFL scores of 79 or higher on the internet-based test, 213 or higher on the computer-based test, or 550 or higher on the paper-based test for verification of English proficiency. English proficiency can also be met by submitting official IELTS scores of at least 6.5 overall band score from the academic module exam.
- Information concerning the TOEFL exam can be obtained from www.ets.org/toefl (http://www.ets.org/toefl) or 1-877-863-3546.
- Information concerning the IELTS exam can be obtained from www.ielts.org (http://www.ielts.org).
- Students holding a bachelor’s or advanced degree from an accredited institution in the United States may be exempt from this requirement.

Visiting Student Certification
- All visiting students must submit a Visiting Student Letter. The letter should verify that the student is in good standing in a graduate program, indicate the specific term for which the student has permission to enroll, list the approved courses to be taken, and be signed by the registrar or dean of the student’s home school. It must be sent via regular mail; faxed or emailed copies will not be accepted.
- Other than the application and the application fee, the Visiting Student letter is the only credential required of visiting students.

Recommendations
- Two letters of recommendation from persons familiar with the applicant’s academic work are required. There are programs that require more than two letters of recommendation. Please check with your department for additional requirements.
- Applicants applying for non-degree or visitor status are not required to submit letters of recommendation. Letter of Recommendation may be completed electronically via the online application (http://louisville.edu/graduate/apply).

Additional Requirements
- All credentials and/or communications submitted to the School of Interdisciplinary and Graduate Studies, Graduate Admissions should contain the student’s full name, Social Security Number or University of Louisville issued student ID, and date of birth. Lack of this information may cause processing to be delayed.

*Other elective approved by the Director of the AATP or Department Chair
**Course must be approved by the Director of the AATP or Department Chair

Anatomical Sciences and Neurobiology (MS)

Master of Science in Anatomical Science and Neurobiology (ASNBMS)
Unit: School of Medicine (http://louisville.edu/medicine) (GM)
Department: Anatomical Science and Neurobiology (http://louisville.edu/medicine/departments/anatomy)
Program Webpage: louisville.edu/medicine/departments/anatomy/graduateprograms

Program Information

Thesis Option
The thesis MS program is available to qualified individuals possessing a bachelor’s degree from an accredited college or university. No specific undergraduate major is required, although some science background is required.

The thesis MS degree is offered to students who want to continue their education in Anatomy and Neurobiology and offers the student the opportunity to improve his/her background for career development, such as for higher education programs such as a PhD program, Dental or Medical School.

Non-thesis Option
A terminal non-thesis Master of Science Degree in the Department of Anatomical Sciences and Neurobiology provides students with comprehensive training and teaching experience in Anatomy and Neurobiology. This program is designed to prepare students for a variety of career options. For example, students may complete this program to prepare for further professional training, or to qualify for teaching
positions. Students in the Human Anatomy and Neurobiology Degree (H.A.N.D.) option will complete part of the first year medical and/or dental school curriculum offered at the University of Louisville. They will also participate as a teaching assistant (TA) in two of these classes. The program can be completed in three or four semesters. Acceptance into the ASNB master’s thesis program does not guarantee a spot in the non-thesis H.A.N.D. program track.

To be eligible to participate in the H.A.N.D. program and become a TA, students must earn a grade of B or better when taking the class the previous year. Entry into the H.A.N.D. program is competitive due to limited availability of open TA positions. While in the H.A.N.D. program, students must maintain a B average. At the end of the final semester in the H.A.N.D. program, each student must give a seminar presentation to the department regarding some aspect of their teaching experience (topic to be determined in consultation with the H.A.N.D. program student advisor). Following completion of the program, if students are admitted to the University of Louisville Medical or Dental School, they may be eligible to substitute electives for the first-year classes in which they served as a teaching assistant while in the H.A.N.D. program.

All degree programs require full-time study and it is expected that while participating in these programs, students will devote full-time effort toward completion of the degree requirements.

**Admission Requirements**

All students who wish to apply must submit an application to the School of Interdisciplinary and Graduate Studies, Graduate Admissions with the following documents:

1. A formal application (http://louisville.edu/graduate/apply) submitted to the School of Interdisciplinary and Graduate Studies.
2. Application fee.
3. A minimum of two letters of recommendation.
4. Official transcripts of all college work.
5. Official scores on the Graduate Record Examination (GRE) General Test and/or MCAT.
6. A brief statement of purpose describing your interests and career goals.
7. All international applicants whose native language is not English must submit Test of English as a Foreign Language (TOEFL) scores. Students holding a bachelor’s or advanced degree from an accredited institution in the United States are exempt from this requirement.

Program candidates are only admitted in the fall semester (orientation begins the first Monday in August). Review of applications begins mid-January and continues until all positions are filled. Admission into the program is competitive, and applicants are encouraged to submit their applications early.

**Requirements for the Thesis MS Degree**

Students should familiarize themselves with the general requirements for the master's degree as stated in the current University of Louisville Graduate Catalog. Briefly, a minimum of 30 credit hours is required for the master’s degree, of which 15 credit hours must be in courses of the major subject area.

At least one-half of the credits counted toward the degree must be 600-level courses or above. This does not include research credit hours. The department imposes the following additional requirements:

<table>
<thead>
<tr>
<th>Code</th>

</tr>
</tbody>
</table>

Electives (see notes below): varies

Minimum Total Hours: 30

1 Offered on a rotational basis

**Seminar**

Anatomy Seminar (ASNB 606, 1 credit hr) must be taken for credit each semester prior to candidacy.

**Electives**

Additional courses (electives) within ASNB or graduate level courses in other departments may be taken to achieve the minimum requirement of 30 credit hours. The student should consult with his/her advisor on the selection of the appropriate electives.

**Research Hours**

Research credit hours may be taken as Laboratory Rotation (ASNB 618), which is graded on a pass/fail basis, prior to choosing a mentor. Once a mentor is chosen, research hours are taken as Original Investigation (ASNB 619), in which students earn a letter grade.

**Candidacy**

After completion of all requirements (as outlined above), students enter Master’s Candidacy and must register for and maintain candidacy (MAST 600) until the successful defense of his/her thesis. This registration must be maintained year round (fall, spring and summer semesters) until the degree is awarded. Once a student registers for MAST 600, he/she may not register for additional courses. The statute of limitation for obtaining a Master’s degree is six years from the beginning of the program of study.

**Original Research**

Students will conduct this required research under the direction of a member or joint/associate member of the departmental faculty (hereafter known as the thesis advisor). Faculty reserve the right to decline accepting a student.

During the first year of enrollment, students are required to visit the laboratories of potential advisors to become acquainted with the faculty and the research opportunities available. Selection of an advisor and the initiation of a research project should be concluded prior to the end of the
first year, at which time a written agreement, signed by both the student and thesis advisor, will be filed with the Graduate Program Director.

**Thesis**

A thesis master of science degree requires more than the completion of a prescribed curriculum of course work, a written thesis based on original research, and a successful oral defense. By its nature, original research does not always achieve positive results within a specific period of time. Therefore, no specific time can be given for the successful completion of this degree. Note that students are advised to complete the majority of their course work in the first year so that adequate time is allotted in the second year to complete their research and thesis. Specifically, students will be required to engage full-time in research for the equivalent of two academic semesters and maintain steady and satisfactory progress. Faculty advisors submit Graduate Student Progress Reports biannually to the ASNB Graduate Program Committee for review.

**Reading Committee**

The composition requirements of, and specific deadlines related to, the Reading Committee appear in the Graduate Catalog. Briefly, the Reading Committee is composed of the student’s advisor and two other faculty, one of which is from a different department. All three must be members of the graduate faculty. This committee should be established shortly after the student and her/his advisor agree on a specific research project. To avoid unnecessary delays the student should regularly consult with her/his thesis advisor and committee members concerning the direction and progress of the research project. Once in Master’s candidacy, the student should meet with their committee at least once per semester.

**Thesis Defense**

The MS candidate will focus exclusively on completing their research projects and writing a thesis describing the results of their experiments. It is expected that the thesis should contain data sufficient for approximately one publishable manuscript. Upon completion of the thesis, the student will distribute a copy to each committee member. The committee will have two weeks to read the thesis and give approval to schedule a defense date or recommend changes that must be completed prior to scheduling a defense date. Once the thesis is approved by the committee, the student will schedule a thesis defense. The School of Interdisciplinary and Graduate Studies requires that an announcement of the defense be posted at least two weeks prior to the scheduled date. The defense will consist of an oral presentation (approximately 30 minutes in length) of the research completed during the student’s graduate training. Non-committee members in the audience will then ask questions. The general audience will then be dismissed and the student will defend his/her thesis before the committee. Completion of the MS degree will be determined by majority vote of the committee.

**Program Information**

Our philosophy is to encourage academic excellence in the neurosciences within a framework of structure-function relationships at the molecular, cellular, and systemic levels. We strive to prepare students with sufficient background depth to excel in high tech cutting-edge translational (applied) research environments and the more traditional multi-disciplinary academic setting. We provide students with innovative approaches to important issues in neuroscience research including development, organization, and plasticity. Our research interests range from sensory and motor systems to therapeutic strategies for spinal cord injuries. In all approaches, we strive to integrate the latest teaching modalities while maintaining the time-honored advantages of hands-on, laboratory-based instruction.

The degree program is available to qualified individuals possessing a bachelor’s degree from an accredited college or university. No specific undergraduate major is required, although some science background is required.

The PhD degree is offered to students who plan to pursue a career in research and/or teaching, in an academic institution or within the industry.

All degree programs require full-time study, and it is expected that while participating in these programs students will devote full-time effort toward completion of the degree requirements.

**Admission Requirements**

All students wishing to apply must submit an application to the School of Interdisciplinary and Graduate Studies, Graduate Admissions, with the following documents:

- A formal application submitted to the School of Interdisciplinary and Graduate Studies, Graduate Admissions (see website: louisville.edu/graduate/apply for forms and directions)
- Application fee
- A minimum of two letters of recommendation
- Official transcripts of all college work
- Official scores on the Graduate Record Examination (GRE) General Test
- A brief statement of purpose describing your interests and career goals
- All international applicants whose native language is not English must submit Test of English as a Foreign Language (TOEFL) scores. Students holding a bachelor’s or advanced degree from an accredited institution in the United States are exempt from this requirement

Program candidates are only admitted in the fall semester (orientation begins the first Monday in August). Review of applications begins mid-January and continues until all positions are filled. Admission into the program is competitive, and applicants are encouraged to submit their applications early. All applications are automatically considered for a fellowship, which provides a stipend and covers tuition and health insurance.

**Program Requirements**

All PhD students must complete the requirements for the non-thesis MS degree, after which they will be considered a PhD candidate.

A minimum of 30 credit hours is required for the master’s degree of which 15 credit hours must be in courses of the major subject area. At
least one-half of the credits counted toward the degree must be 600-level courses or above, excluding research credit hours. Courses with numbers from 500 to 599, open to both advanced undergraduate and graduate students, can be taken by graduate students for graduate credit (additional course requirements must be completed). In addition, up to 6 credit hours of earned graduate semester hours can be transferred upon request from other accredited institutions, as long as the coursework was taken within the past three years and a grade of B or better was earned (transferred grades do not get calculated in the student's GPA).

Listed elective coursework may be taken a) to reach the minimum 30 hours required for the master's degree component of the program or b) to enhance the student's program (i.e., in addition to the 30 required hours).

After completing the required master's-level coursework, students enroll in either MAST 600 Master's Degree Candidacy or DOCT 600 Doctoral Candidacy while completing additional program requirements.

<td></td>
</tr>
</tbody>
</table>

**Laboratory Rotations and Research Hours**

**Lab Rotations**

Each student will complete two rotations in different laboratories prior to the start of their third semester. Exceptions or the addition of a third rotation require approval from the ASNB Graduate Committee. The objectives of rotations in 2 labs are to expose the student to different approaches and areas of research and to assist the student in choosing a laboratory for dissertation research. For each rotation, the student will register for the 3 credit hour course Laboratory Rotation (ASNB 618) which is graded on a pass/fail basis. Once a student has completed a semester rotation in a given laboratory, an ASNB Rotation Report must be completed and submitted to the Graduate Program Director.

**Research Hours**

Once a mentor is chosen, research hours are taken as Original Research Hours.

**Advisory Committee**

The purpose of the advisory committee is to act as the primary guiding and assessment body for the student in a course of study and training through which they will acquire the knowledge and skills required to earn the degree of Doctor of Philosophy. The course of study and training will have components that are common for all students, but may have others that are tailored to the particular needs and/or desires of individual students.

The committee must have a minimum of five members. The Mentor (Principal Advisor) serves as chair. The majority of committee members must have a primary, joint or associate appointment in ASNB. At least one member must have a primary appointment in a department outside ASNB (this outside committee member must not have a joint appointment in ASNB) and can include a Graduate Faculty from another University. The student, in conjunction with the Mentor, should form a committee prior to the start of the second year. Once the committee is formed, the student will meet with the committee at least once per year. A Graduate Student Progress Report, completed by the Mentor, must be filed semi-annually (at the end of the fall and spring semesters) with the ASNB Graduate Program Director. Registration for courses is contingent on this filing.

**Qualifying Exam**

The purpose of the qualifying exam is to assure that the student has sufficient knowledge and skills to begin a research project. The exam will be taken within two terms (summer term included) after the successful completion of required coursework but no later than the Spring semester of Year 3.

Each member of the student’s Advisory Committee will prepare one question designed to assess the student’s ability to integrate course material, demonstrate critical thinking, and evaluate the literature related to the student’s area of interest. The student’s Mentor will submit all
the questions (minimum of five) to the Graduate Program Director. The ASNB Graduate Committee will review the questions and select three for distribution to the student. The student will have one week to complete two of the three questions (of their own choosing) and submit the answers electronically (pdf format) to the Graduate Program Director. The exam is "open-book" and must be written in the student's own words. The answers represent the student's unaided efforts and should NOT be edited or critiqued in any form by anyone other than the student, including the mentor, the student's committee, or other trainees in the program. The answer to each question should be no less than 10 pages and no more than 20 pages in length, double-spaced, not including references. The use of books and review articles is acceptable; however, a significant portion of the paper must be based on recent, primary sources in scientific journals.

The submitted answers will be evaluated by two members of the ASNB Graduate Committee plus one representative from the student's advisory committee, excluding the mentor. Each answer will be evaluated on a scale from 1 (poor) to 10 (outstanding) on mastery of basic background and conceptual material, familiarity with the literature in the field of study and critical thinking about the cited works and scientific question.

In order to pass the qualifying exam and continue in the PhD program, the student must:

1. Receive a minimum total score of at least 12 out of 20, and
2. Receive a score of at least 5 on each question.

A student who does not meet these passing requirements will have one chance for remediation. The remedial examination must be completed no later than 6 months after the student completed the original examination. The exam will again be comprised of answering two questions in the same format; the third question that had been submitted to the student by the ASNB Graduate Committee was not answered plus a new question. Failure after remediation will result in dismissal from the PhD program.

Upon successful completion of the exam, an evaluation form stating the outcome of the exam will be completed and signed by each committee member and will become a permanent part of the student's record. A passing grade indicates that the student has completed the requirements for an MS degree. At this point, the student becomes a doctoral candidate and must register for and maintain candidacy (DOCT 600) until the successful completion of his/her dissertation. This registration must be maintained year round (Fall, Spring, and Summer). The statute of limitation for obtaining a PhD degree at the University of Louisville is four years after passing the qualifying exam. University-wide official maximums for Fellowships and Graduate Assistantships are typically 6 years.

**Research Proposal**

The Research Proposal should be defended in the semester following successful completion of the Qualifying Exam but not later than the Fall semester of Year 4. Prior to writing the Research Proposal, the student will develop an outline of the proposed experiments in coordination with their Mentor and then present this outline to their committee. It is at this point, prior to writing the Research Proposal that the committee should recommend any changes in the research plan; for example, the number of experiments, reducing the difficulty of experiments, or introducing experiments that may be more appropriate for addressing the research question. Once the committee is satisfied with the proposed experiments, the student will write a Research Proposal in the following general format.*

- **Literature Review and Significance**: Section one will be an extensive literature review (similar to an expanded Background and Significance section of a National Institutes of Health grant proposal). This review should provide evidence that the student has a sufficient command of the background information relevant to the proposed research.
- **Specific Aims, Hypotheses, and Experiments**: This section will consist of a list of the proposed specific aims. Each Aim should include hypotheses to be tested and a brief description of the experiments that will be used to test these hypotheses.
- **Experimental Design and General Methods**: This section will consist of a detailed description of the experimental design as well as the methods that will be used to carry out the proposed experiments.
- **Expected Outcomes**: This section will describe the expected results and how they will be interpreted.
- **Potential Problems**: Upon completion of the research proposal, the student will distribute a copy to each committee member, who will have two weeks to read the proposal. Students must consider this two week reading period when preparing the document and scheduling the exam. The qualifying exam itself will be chaired by the student’s advisor. The exam will begin with an oral presentation, open to the public, in which the student will present an overview (approximately 40 min) of the research plan. The presentation will be followed by an oral defense to assess the student’s readiness to conduct the proposed research and their knowledge of background information relevant to the proposed research. Non-committee members in the audience will have an opportunity to ask questions first. The general audience will then be dismissed and the student will defend his/her proposal before the committee. Success or failure will be determined by majority vote of the committee. A student who fails the exam will have 2 months to retake the exam. Failure on the second attempt will result in dismissal from the program.

Upon successful completion of the exam, a Proposal Defense Evaluation Form stating the outcome of the exam will be completed and signed by each committee member and will become a permanent part of the student’s record.

* All eligible students are encouraged to submit (in coordination with their advisor) an application for a National Institutes of Health Predoctoral National Research Service Award (F31) or a National Science Foundation Predoctoral Award. Therefore, the Research Proposal may be submitted in the format of a relevant application with the exception that the background and significance section should be expanded to include a more extensive literature review than permitted by the NIH or NSF page limitations.

**Annual presentation of research progress**

PhD students who have completed their classwork (MS and PhD candidates) must present their research accomplishments annually. This presentation should be 30-50 minutes in length, and time and location of the presentation should be formally announced to the department faculty, staff and students at least one week prior to the planned presentation. Presentations at journal clubs are encouraged, but cannot be used as a substitute for the annual presentation requirement.
Teaching requirements
Each PhD candidate must serve as a teaching assistant (TA) in at least one ASNB core course. The specific course will be chosen, based on available TA slots, by the student and his/her advisory committee.

Dissertation Defense
With the exception of their training in teaching, the PhD candidate will focus exclusively on completing their research projects and writing a dissertation describing the results of their experiments. The candidate must complete all requirements for the degree of Doctor of Philosophy within four calendar years after passing the qualifying examination. It is expected that the dissertation should contain data sufficient for approximately three publishable manuscripts. Upon completion of a near final draft of their dissertation and prior to scheduling of their defense, the student must distribute a copy to each Dissertation Committee member. The committee will have two weeks to read a preliminary draft of the dissertation and give the approval to schedule a defense date or recommend major changes that need to be completed prior to scheduling a defense date.

Once the dissertation is approved to move forward by the committee, the student will schedule a Dissertation Defense and distribute an edited copy to each committee member. The School of Interdisciplinary and Graduate Studies requires that an announcement of the defense be made at least two weeks prior to the scheduled date. The defense will consist of a public oral presentation (approximately 45 minutes in length) of the research completed during the student’s graduate training. Non-committee members in the audience will be allowed to ask questions. The general audience will then be dismissed and the student will defend his/her dissertation before the committee. Upon completion, a written report stating the outcome of the defense will be completed by each committee member and will become a permanent part of the student’s record.

Approval by the majority of Dissertation Committee members will signify successful completion of the PhD degree.

Anthropology (MA)

Program Information
The Master of Arts (MA) in Anthropology at the University of Louisville is designed to enhance student knowledge of and skills in dealing with contemporary social issues facing a globalizing community and world from an anthropological perspective and to be able to locate these in the long progression of human history and within the body of social science theory. We expect our graduates to enter professions as skilled administrators, researchers, and leaders. Although students may focus heavily on evolutionary anthropology, archaeology, or cultural anthropology, this is a general, comprehensive masters program.

Anthropology is the queen of multidisciplinary work, and we see our students taking courses from and pursuing collaborations with colleagues in Humanities, Sociology, History, Women and Gender Studies, Pan-African Studies, Political Science, Art History, Biology, and the Kent School of Social Work. Students with little or no academic background in anthropology will be required to take some preparatory courses determined in consultation with the Anthropology Graduate Coordinator.

Admission Requirements
Applicants must complete/submit:

- Online graduate application for admission (http://graduate.louisville.edu/apply).
- A statement of interests covering relevant experience and aspirations. This letter is absolutely critical to your successful application, as it helps us assess where you might find common interests among Department faculty.
- GRE scores. Recommended: successful applicants report GRE scores averaging greater than the 50th percentile.
- Official transcripts. As stipulated by the School of Interdisciplinary and Graduate Studies, the minimum GPA for acceptance into the program is 3.0.
- Three letters of reference addressing the candidate’s readiness for graduate studies, academic abilities, and potential for success. One letter may be from an employer.
- Applicants may choose to submit a writing sample.

The Graduate Committee uses a holistic approach when evaluating graduate applications.

Program Requirements
The Master of Arts (MA) in Anthropology requires 30 credit hours at the graduate level. It comprises 24 credit hours of course work, plus 6 credit hours of thesis or internship. All students enrolled in the MA program are required to complete one of the following options:

In addition to the 9 credit hours of the 600-level core seminars, students take another 600-level course, 12 credit hours of topical electives at the 500 or 600 level, and 6 credit hours of thesis or internship hours.

Students may enroll in up to 9 credit hours in another department. Students may enroll in 500 level courses in another department with the permission of the Anthropology Director of Graduate Studies.

Courses taken at the 500 or 600 level as an undergraduate may be applied toward the MA in Anthropology on the condition that the student earned a grade of B or higher in the course and the course was taught at the graduate level. Graduate Coordinator approval is required.
Coursework earned as undergraduate and used to meet the requirements for the undergraduate degree may not be used for graduate credit.

Art (Creative) and Art History (MA)

Master of Arts in Art (Creative) and Art History (ART MA)
Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences/intro) (GA)
Department: Fine Arts (http://louisville.edu/art)
Program Webpage: louisville.edu/art/graduate

Program Information
Students may receive a Master of Arts degree in the Department of Fine Arts by completing 31 credit hours of graduate study divided between work in the Core Curriculum and work in one of the following three tracks of study: Art History, Critical and Curatorial Studies, or Studio Art.

Accelerated BA/MA in Art History
Art History majors who are considering pursuing a master's degree (MA) in Art History can speed up the process by applying some of their undergraduate credit hours toward a master's degree. Students accepted into the Accelerated BA/MA program take three 500-level courses (9 credit hours) as an undergraduate that apply toward both the bachelor's degree and the eventual master's degree.

Interested students should apply to the program during Junior year (i.e., when they have accumulated 60-90 hours of credit). Students must have at least a 3.0 university grade point average when they apply and must maintain a 3.0 once accepted. Once admitted to the accelerated BA/MA program, students are expected to maintain a full graduate load of 9 credit hours.

Once accepted into the program, students complete 9 hours of 500-level coursework during their final year of undergraduate studies. They then graduate with a bachelor's degree and move straight into the UofL MA program. Students in the accelerated program must meet all of the requirements for the MA, including completing at least 12 credit hours of their 31-hour program in 600-level courses.

Admission Requirements
To be considered for admission to the MA program, students must submit the following credentials:

- Application to the School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply)
- Transcripts of all colleges attended (undergraduate or graduate)
- Two letters of recommendation specific to the program
- Graduate Record Examination (GRE) scores

Concentration Requirements
All students must complete one of the following 15-credit hour concentrations in addition to the 16-credit hour program core (see Degree Requirements tab).

Concentration in Art History
Students in this concentration are expected to demonstrate competence in the history of art, equivalent to an undergraduate major.

Reading knowledge of one foreign language is required for the completion of the Art History concentration. This requirement should be met during the first year in the program, but must be met before enrolling for Thesis Guidance (ARTH 645/ARTH 646). Proficiency can be demonstrated in one of two ways:

1. Taking an examination administered by the department, scheduled in the fall and spring semesters; or
2. Completing the intermediate level of the language at the University of Louisville with a grade of B or better.

**Thesis Exhibition with Thesis Statement**

**Minimum Total Hours**

15

A minimum of 12 credit hours in the concentration, exclusive of Thesis Guidance, must be at the 600-level.

The concentration in Critical & Curatorial Studies will conclude with a thesis exhibition or curatorial project. The exhibition or curatorial project may be produced in cooperation with the university's galleries, the Speed Art Museum, or other appropriate institutions authorized by the department. It should be a culminating experience occurring in the final year of study.

To fulfill this requirement, the candidate must submit a prefatory project proposal with the approval of their graduate advisor, produce or implement the thesis practicum proposed, and appropriately document the exhibit or project. This documentation will include exhibition or project materials such as press releases, announcements, wall texts, brochures and/or catalog, and digital and/or photographic documentation of the exhibition or project as well as other corollary documentary materials. The thesis project will also include a written portion, in addition to the practicum and documentation, that will provide a narrative basis in critical theory and current professional curatorial practice detailing the planning, implementation, and documentation of the project. The written thesis will be submitted in conformity with the regulations governing the form and presentation of the written master’s thesis.

**Concentration in Studio Art**

Students admitted to this concentration are expected to have completed training equivalent to an undergraduate major.

<table>

</tr>
</tbody>
</table>

**Thesis Exhibition with Thesis Statement**

**Minimum Total Hours**

15

A minimum of 12 credit hours in the concentration, exclusive of Thesis Guidance, must be at the 600-level.

The Concentration in Studio Art will conclude with a thesis exhibition. The thesis exhibition, which must be authorized by the department, should take place during the candidate’s last semester of study.

To accompany this exhibition, the candidate must submit a catalog containing a prefatory statement written by the candidate, a properly documented list of works in the exhibition, and photographic reproductions of the work in one of the following forms:

- Black and white photographs,
- Color photographs, or
- Slides placed in plastic sleeves to be bound into the thesis.

The catalog will be submitted in conformity with the regulations governing the form and presentation of the written master’s thesis.
Art Education (MAT)

Master of Arts in Teaching in Art Education (EDARMAT)

Unit: College of Education and Human Development (http://louisville.edu/education) (GE)
Department: Middle and Secondary Education (http://louisville.edu/education/departments/mise)
Program Webpage: louisville.edu/education/degrees/mat-ae

Program Information

This program leads to Kentucky certification in Art Education, grades P-12.

Applicants to the program should have excellent academic credentials as well as successful experience working with children and/or adolescents.

Applicants should also have an undergraduate degree with a major in Fine Arts.

Admission Requirements

Candidates considering application to the MAT program should contact the MAT admissions counselor (teacher@louisville.edu) prior to applying for admission. Admission is competitive. Candidates who meet minimum academic requirements are not guaranteed admission to the program.

Candidates who meet the following criteria may be eligible to apply to the Master of Arts in Teaching program:

1. Application to School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply). This should be completed three to four weeks prior to the application deadline.
2. Minimum test scores as required by Education Professional Standards Board.
   Please note: when submitting test scores through ETS, use the general University of Louisville code, 1838.
3. Praxis II (http://louisville.edu/education/degrees/info/mat-mse-praxis-ii) Content Exam registration and/or scores.
4. Bachelor’s Degree from Accredited College or University (http://louisville.edu/education/degrees/info/bachelors) with a major in Art or appropriate prerequisite courses.
5. Minimum undergraduate degree GPA 2.75 (official transcripts http://louisville.edu/education/degrees/info/transcripts) required.
6. "C" or higher in English 102 and oral communication course.
7. TOEFL (http://louisville.edu/education/degrees/info/toefl)
8. Professional Statement
10. Three Letters of Recommendation (http://louisville.edu/education/degrees/info/lor)
11. Program Committee Acceptable Interview

Mid-Point Assessment

Prior to Student Teaching: Satisfactory dispositions assessment; No lower than 2.0 in art education methods/research class; Within 3 credit hours of meeting content requirements; and ECPY 607, and EDTP 602 passed; Satisfactory mid-point teacher performance assessment (TPA); Positive recommendation from Middle/Secondary Program Committee. Electronic documentation of 200 hours of diverse and approved field experiences.

Certification Assessment

After Student Teaching: Satisfactory dispositions assessment; All coursework completed with 3.0 cumulative GPA; 2.5 cumulative GPA in Art content/prerequisite course requirements; 2.0 or higher in each student teaching; Satisfactory certification teacher performance assessment (TPA); Passing scores on required PRAXIS content and PLT exams; Positive recommendation from Middle/Secondary Program Committee.

</table>

Minimum Total Credit Hours 36

1 Must be taken concurrently with Student Teaching
2 Can be taken at any point in the program; at least one must be at the 600 level

Degree Assessment

Satisfactory dispositions assessment; All program coursework with 3.0 cumulative GPA (and no more than a total of two “C’s” in degree courses); Satisfactory degree teacher performance assessment (TPA).

Degree Candidacy

Students not enrolled during the semester in which they intend to graduate must register for master's candidacy as outlined in the Graduate Catalog "Academic Policies, Procedures, and Requirements", under the section called academic policies and requirements.

Praxis Disclaimer

Teacher certification requirements are subject to change. Before registering for certification test(s), please refer to the Education Professional Standards Board (EPSB) website at www.epsb.ky.gov (http://www.epsb.ky.gov) or www.ets.org/praxis (http://www.ets.org/praxis) for current requirements.

Art History (PhD)

Doctor of Philosophy in Art History (ARTHPHD)
The PhD Program in Art History is not currently accepting applications for admission.

The Doctor of Philosophy in Art History provides advanced expertise in art history and prepares graduates for university-level teaching, curator positions at major museums, and independent research in the field. Students in this program select in-depth courses from the following areas: Ancient, Medieval, Byzantine, Islamic, Renaissance, Baroque, Modern, and Contemporary western, as well as Asian and Non-western art and architecture.

Admission Requirements

The PhD Program in Art History is not currently accepting applications for admission.

Program Requirements

Coursework required for the PhD in Art History includes completion of the MA degree plus 15 credit hours ARTH 500-level electives, 15 credit hours of ARTH 600-level electives, 6 credit hours of Dissertation Research, and 6 credit hours of graduate level electives outside the Art History Program, for a total of 72 credit hours. Additional 600-level courses may be substituted for 500-level.

Up to a total of 15 credit hours of 500- or 600-level electives outside Art History may be substituted for Art History electives of similar level provided they are appropriate and are approved in advance by the student's advisor.

Students are expected to take any courses necessary in preparation for scholarly research.

Students are required to demonstrate facility in two foreign languages, one of which must be relevant to the field of dissertation research (for example, Latin or Greek for ancient art). Some areas of Art History require that students have a mastery of epigraphy and paleography. Students in any field in which extensive language study is necessary in order to conduct research must concentrate on the relevant language or languages before taking the comprehensive exam.

Language proficiency is demonstrated in one of two ways:

1. Taking a proficiency examination administered by the department, scheduled in the fall and spring semesters. The proficiency exam is a one-hour translation examination with the use of a dictionary. Students are required to demonstrate intermediate level facility in the language.
2. Completing the intermediate level of the language course at the University of Louisville with a grade of B or better.

Through coursework, independent study, and directed readings, each student must prepare her/himself to pass a written comprehensive exam before admission to candidacy. Language requirements must have been met and all course work completed before a student may take the comprehensive exam.

After being admitted to candidacy, the student must write a dissertation and defend it in a final oral examination.

- Minimum 30 credit hours of coursework at the 500 and 600 level (exclusive of coursework earned for the MA degree)
- ARTH 743 and ARTH 744
- ARTH 745
- Comprehensive exam (upon completion of coursework and before beginning the dissertation)
- Dissertation prospectus
- Dissertation and defense

Students must continue to enroll for credit each Fall and Spring, including any semesters after coursework has been completed and before graduation. After completing minimum course requirements for the program, doctoral students must maintain continuous registration until the completion of the degree. Once enrolled in Doctoral Candidacy, students must maintain enrollment year round (Fall, Spring, and Summer semesters) until the completion of the degree.

A minimum GPA of 3.5 must be maintained in the PhD program.

The Art History faculty periodically review PhD students who have not yet advanced to candidacy and will discourage from further work those students whose progress and performance are deemed unsatisfactory.

Asian Studies (CERT)

Graduate Certificate in Asian Studies (ASSTCAS)

Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences) (GA)
Program Information

The Graduate Certificate in Asian Studies is a graduate-level interdisciplinary program housed in the College of Arts and Sciences. It allows students to learn more about the peoples of China, India, and Japan from the perspectives of art history, geography, history, religious studies, political science, sociology, and theatre arts. The fifteen credit hour program may be completed as a stand-alone program, or in conjunction with other graduate programs—for example, the MA in History or Political Science, or the PhD in Art History or Humanities.

Students take 15 credit hours in graduate courses with an Asian emphasis. At least three of the five required courses must be at the 600 level, and the five courses must be drawn from at least three of the following disciplines: Anthropology, Art History, Classical and Modern Languages, Geography, History, Humanities, Political Science, Sociology, Theatre Arts, or Women's and Gender Studies. A minimum of three (3) credit hours must be in the Division of Humanities (exclusive of language courses), and at least three (3) credit hours must be in the Division of Social Sciences.

To complete the Graduate Certificate, students also must demonstrate reading knowledge in one of the following: Chinese, Japanese, or another language designated as an Asian language by the Program Director.

With the approval of the Program Director, an internship in a community or local business may be substituted for three (3) credit hours of classwork. To be eligible for this substitution, the internship must involve work that is primarily connected with Asia or Asian-Americans in some way.

Admission Requirements

Interested students must have earned a baccalaureate or other undergraduate degree from an accredited college or university, and meet the criteria for admission to the School of Interdisciplinary and Graduate Studies at the University of Louisville (louisville.edu/graduate/apply).

Individuals wishing to pursue the graduate certificate in conjunction with a graduate degree program in another University of Louisville department should be admitted to that degree program before applying for admission to the Graduate Certificate Program in Asian Studies.

Program Requirements

Select five of the following (at least three of which must be at the 600 level)

Audiology (AuD)

Doctor of Audiology (AUDIAU)

Unit: School of Medicine (http://louisville.edu/medicine) (GM)
Department: Audiology (http://catalog.louisville.edu/graduate/programs-study/doctor-audiology/louisville.edu/medschool/audiology)
Program Webpage: louisville.edu/medschool/audiology/

Program Information

The Doctor of Audiology degree (AuD) is a four-year post-baccalaureate degree program leading to a professional degree conferred by the School of Interdisciplinary and Graduate Studies. The program is physically located within the Louisville Medical Center and administratively located in the Department of Otolaryngology-Head and Neck Surgery and Communicative Disorders in the University of Louisville School of Medicine. The faculty are committed to the clinical focus of the AuD degree and endeavor to bring real-world experiences to bear on the teaching environment. The faculty and staff of Audiology actively participate in the provision of clinical services in both hospital and private practice arenas.

Students benefit by working side by side with the faculty and staff in an active and dynamic medical environment. Students will be able to interact with faculty, residents and medical students from other disciplines such as Otolaryngology, speech pathology, and pediatrics, not only in the provision of clinical services but also in teaching and research endeavors.

Admission Requirements

Admission to the program will be for Fall term only, and applications must be received by January 1 of the application year.

Applicants should submit:

- All undergraduate transcripts
- GRE scores
- Three letters of recommendation
- A writing sample which can discuss your interest in the field of Audiology

Applicants must have a minimum GPA of 3.0 and minimum cumulative GRE score is required; average cumulative GRE scores for admitted students is 306 (as outlined by the Council of Academic Accreditation in Audiology and Speech Language Pathology). Admission to the program is based on a favorable review of application materials and an interview with the admissions committee. Applicants will be asked to demonstrate a knowledge of the field.

Please see the Doctor of Audiology Program website (http://louisville.edu/medicine/degrees/audiology) for more information.

Program Requirements

The Doctor of Audiology degree program has been designed to meet the content and experience guidelines developed over the past decade.
by numerous professional organizations and associations. Curricular content areas and competencies are outlined as follows.

The curriculum begins with the student spending a significant amount of time in the classroom with a minimum amount of time in the clinical environment. Over the course of the four years, the ratio of classroom to clinic time reverses, so that the last year consists of virtually full-time clinical environment. Over the course of the four years, the ratio of classroom to clinical experience. During the fourth year, students will be given options to choose from a variety of sites around the country.

### Autism and Applied Behavior Analysis (CERT)

**Graduate Certificate in Autism and Applied Behavior Analysis (AABACAA)**

- **Unit:** College of Education and Human Development (http://louisville.edu/education) (GE)
- **Department:** Special Education (http://louisville.edu/education/departments/sped)
- **Program Webpage:** louisville.edu/education/degrees/bcba-certificate

### Program Information

*This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs)*.

The University of Louisville’s Graduate Certificate in Autism and Applied Behavior Analysis provides practitioners with advanced knowledge in autism research and behavioral analytic approaches to skill development and the treatment of challenging behavior.

Students receive rigorous academic work within the program’s carefully designed course sequence that is taught by faculty with practical and research experience in autism and applied behavior analysis.

Upon completion of the program’s approved courses, students with an approved masters degree must complete a 1,500 hour practicum to be eligible to sit for the Board Certified Behavior Analyst Certification Exam. For more information on certification, go to bacb.com (http://www.bacb.com).

Certification in applied behavior analysis demonstrates a level of competency in research-based principles for education and the treatment of challenging behavior.

The reported increase in the number of children with autism suggests growth in the availability of positions for behavior analysts and schools and the community.

### Admission Requirements

The Behavior Analyst Certification Board, Inc.® has approved UofL’s course sequence as meeting the coursework requirements for eligibility to take the Board Certified Behavior Analyst Examination®. Applicants will
have to meet additional requirements to qualify. For more information on
certification, go to www.bacb.com (http://www.bacb.com).

Admission to the program requires a graduate application to the
School of Interdisciplinary and Graduate Studies (http://louisville.edu/
graduate/apply).

Applicants must also have the following:

• A bachelor’s or master’s degree in Special Education, Psychology,
  Speech Language Pathology, Occupational Therapy or Social Work
  from an accredited institution.
• A 2.75 overall GPA in the bachelor’s degree and/or a 3.0 overall GPA in
  the master’s degree and any additional graduate work; and
• Official transcripts.
• Professional certificate/license in a field related to autism (e.g.,
  Special Education, Psychology, Speech Language Pathology,
  Occupational Therapy or Social Work), current employment working
  with individuals impacted by autism, or availability to complete 10
  hours of fieldwork per week throughout the duration of the program.
• Three letters of recommendation related to the applicant’s work with
  individuals with autism.
• Grade of B-minus or higher in required prerequisite courses within the
  past three years (EDSP 644 and EDSP 570).
• Submission of GRE scores.
• Test of English as a Foreign Language (TOEFL) required of all foreign
  students from countries in which English is not the native language.

NOTE: Those intending to seek certification as a Board Certified Behavior
Analyst (BCBA) must hold a master’s degree in Education, Psychology, or
Behavior Analysis

Exit Requirements

Minimum Total Hours 18

Minimum of 15 hours in 600-level courses is required.
Transfer credits are not accepted to this certificate program.

All courses must be completed within four years of admission to the
program.

To complete the program, students must have a minimum of a 3.0
cumulative grade point average. No credit shall be accepted for carrying
a grade lower than B-minus.

Midpoint Assessment: Students who do not meet the midpoint
requirements may be exited from the program. A program faculty panel
will review individual cases and make a determination regarding the
student’s ability to remain in the program. Decisions of the program
faculty panel are final.

Exit Requirement: Completion of intervention project and presentation
with a rating of Satisfactory and grades of B- or higher in all certificate
courses.

Biochemistry and Molecular Genetics (MS)

Master of Science in Biochemistry and Molecular Genetics (BIOCMS)
Unit: School of Medicine (http://catalog.louisville.edu/graduate/
programs-study/master-science-biochemistry-molecular-biology/
louisville.edu/medschool) (GM)
Department: Biochemistry and Molecular Genetics (http://
catalog.louisville.edu/graduate/programs-study/master-science-
biochemistry-molecular-biology/louisville.edu/medschool/biochemistry)
Program Webpage: louisville.edu/medschool/biochemistry/

Program Information

The Master of Science in Biochemistry and Molecular Genetics program
is a two-to-three-year course of study designed for students interested in:

• A terminal master’s degree leading to jobs that do not require
  extensive research experience or credentials, e.g. pharmaceutical
  representatives, medical insurance providers, scientific writing;
• Preparation for professional school, e.g., medical or legal;
• Combined programs to form a hybrid or dual science/business or
  science/public health degrees, such as an MS/MBA or MS/MPH
  programs; and/or
• Gaining practical training in laboratory technique and analysis as the
  basis for a career in biotechnology or academic research.

As teachers and scientists, the faculty of the Department of Biochemistry
and Molecular Genetics subscribe to the following missions:
• Provide up-to-date and high-quality classroom and laboratory instruction in the discipline of biochemistry and molecular biology to students at the University.
• Conduct and publish research or other scholarship in areas that advance knowledge within the discipline, contribute to improving the human condition, and contribute to teaching.
• Train students and post-doctoral fellows in biochemical research.

Admission Requirements
All applications must be submitted online (louisville.edu/graduate/apply).

Only complete applications will be reviewed. A complete application must have all the following:
• Transcripts of all course work.
• The Graduate Record Examination (GRE) general test scores.
• At least two letters of recommendation, preferably from faculty in biology and/or chemistry.
• A personal statement of interest.

Selection Process
Applications will be reviewed by the Director of Graduate Studies and the Graduate Executive Committee of the Department. We use a holistic review process and use the GPA, GRE scores, and experience to select applicants we feel will be successful in our program.

Final decisions for admissions will be made in April-May of each year.

Program Requirements

<table>
<thead>

</table>

Students complete one of the following options: 16

**MS Thesis Option**
Electives (6 credits)
Ten (10) credits from the following:

BIOC 619 Research

BIOC 613 Biochemistry Laboratory

**MS Non-Thesis Option: Laboratory-Based**

BIOC 611 Advanced Techniques in Biochemistry and Molecular Biology

BIOC 613 Biochemistry Laboratory (12 credits)

**MS Non-Thesis Option: Course-Based**

Two from the following:

BIOC 680 Biomolecular Interactions

BIOC 675 Cancer Biology

BIOC 661 Molecular Mechanisms of Toxicology

Electives (inside or outside BIOC), 8+ credits

1 Laboratory work (BIOC 613) may be considered an elective to count towards the non-thesis, course-based degree option.

Thesis/Final Paper

**Thesis**
A MS research thesis is required for the thesis option. Students, with the consent of their committee, may choose between a traditional research thesis format or a thesis in which the methods and results sections are replaced by manuscripts ready for submission for publication in a refereed journal.

In either case, the thesis must conform to the School of Interdisciplinary and Graduate Studies’ Standards for Preparation of Theses and Dissertations (https://louisville.edu/graduate/current-students/thesis-dissertation-information).

**Paper**
A paper based on literature research or laboratory research (rotation research) is required for the non-thesis, lab option. The topic will be approved by the DGS and the paper evaluated by two faculty.

A paper based on literature research is required for the non-thesis, coursework option. The topic will be approved by the DGS and the paper evaluated by two faculty.

Biochemistry and Molecular Genetics (PhD)

Doctor of Philosophy in Biochemistry and Molecular Genetics (BIOPHD)
Unit: School of Medicine (http://louisville.edu/medicine) (GM)
Program Information

As teachers and scientists, the faculty of the Department of Biochemistry and Molecular Genetics subscribe to the following missions:

- Provide up-to-date and high-quality classroom and laboratory instruction in the discipline of biochemistry, molecular biology, and genetics to students at the University.
- Conduct and publish research or other scholarship in areas that advance knowledge within the discipline, contribute to improving the human condition.
- Train students and post-doctoral fellows in biochemical research.

Admission Requirements

Criteria and Mechanism for Selection

All applications must be submitted using the online application (http://louisville.edu/graduate/apply) form.

Doctoral students are admitted for Fall term only. Be sure to select Fall term for start date and BIOC for the program. Review of applications begins in December of each year and applications are reviewed on a rolling basis through March.

Criteria

The Biochemistry and Molecular Genetics department uses a holistic approach for reviewing applications and selecting candidates for interview. The applicant’s academic record, research experience, and letters of recommendation are closely evaluated. Competitive candidates have a strong background in biochemistry, chemistry, or biology with evidence of rigorous coursework. The GRE test is required and the scores are considered as part of academic profile. There is no requirement for a minimum GRE score. In addition, 1-2 page personal statement describing past educational, laboratory and relevant life experiences, as well as outlining professional goals after the degree program is required.

Competitive applicants have:

- A minimum undergraduate (and graduate) overall grade point average of 3.0 (4.0 system) with an average of 3.0 in science courses.
- Previous research experience
- Strong letters of recommendation

Selection

The Biochemistry and Molecular Genetics department Graduate Executive Committee (GEC) reviews applications on a rolling basis. Top candidates will be invited to interview with GEC by skype or in person. Select candidates will be invited to a recruitment weekend in February to visit the department and meet the faculty and students. Select candidates are nominated for Integrated Programs in Biomedical Sciences (IPIBS) Fellowship awards for qualified applicants. The department will notify applicants by email of their decision. All applicants who are accepted into the program must respond with their decision no later than April 15th. In the absence of a response, after April 15th the position in the program and financial support is no longer guaranteed and may be offered to another applicant. The Biochemistry and Molecular Genetics department accepts 4-6 students per year into the program. All students accepted into the Biochemistry and Molecular Genetics department PhD graduate program enter the IPIBS program (louisville.edu/medicine/ipibs/about).

All students accepted into the Biochemistry and Molecular Genetics department PhD graduate program enter The Integrated Programs in Biomedical Sciences (IPIBS) program (louisville.edu/medicine/ipibs/about).

Requirements for the PhD Degree in Biochemistry and Molecular Genetics

During PhD training students receive considerable guidance from their mentor, committee, and faculty members of the department. However, students need to recognize that individuals who pursue a biomedical graduate degree are expected to take full responsibility for their own scientific and professional development and to seek out and utilize all available resources for that goal.

Annual progress reports to document that a student is in good standing within the Biochemistry and Molecular Genetics department graduate program are required. The criteria for good standing in the graduate program are based on successful completion of milestones that indicate progression towards a degree. These milestones are the successful completion of:

1. All coursework with a minimum GPA of 3.0.
2. A minimum of two laboratory rotations.
3. Serve as a teaching assistant for one semester.
4. Two seminar presentations.
5. Exam 1 (PhD qualifying exam).
6. Exam 2a and 2b (approved research proposal and committee meeting).
7. Annual research conferences with committee meetings in years three and beyond.

To fulfill all requirements for the PhD degree a student must

2. Publish at minimum one first author manuscript.
3. Write and defend a doctoral dissertation that is acceptable by the dissertation committee and School of Interdisciplinary Graduate Studies.

Student Support

An IPIBS Fellowship will provide stipend support for the first 23 months. Support after the first 23 months is the responsibility of the individual student’s dissertation advisor. Students are also encouraged to seek extramural support.

Guidance for the Student

The Director of the Biochemistry and Molecular Genetics Graduate Program will serve as the first year advisor to all incoming graduate students until a dissertation advisor (mentor) is selected. During the first year, all students will meet with all available faculty to discuss research projects and complete a minimum of two laboratory rotations to help select a lab and mentor. After completion of lab rotations and before beginning the second year, the student will select a mentor, subject to the approval of the Graduate Executive Committee and the department chair.
QE Revision
All required coursework must be completed by the end of year two. Upon successful completion of all coursework the student moves into MS candidacy and is eligible for the PhD Qualifying Exam (QE). The purpose of the PhD Qualifying exam (Exam I) is to evaluate the student’s ability to interpret literature, develop a research plan, integrate material from the graduate curriculum, display core knowledge of biochemical principles, and orally defend his/her ideas. The format of the QE requires the student to write and orally defend a NIH-style fellowship proposal on a topic different from their own research, followed by a chalk-talk oral exam covering general biochemical/genetic principles covered in the curriculum. Upon successful completion of the QE, the student will be awarded a MS degree and move into doctoral candidacy. Within six months of passing the QE, a dissertation committee must be formed and approved by GEC and the department chair, and a committee meeting held to provide guidance on the student’s research (Exam IIa). A full research proposal must be completed and approved by the committee in Spring term of year three (Exam IIb).

Bioengineering (MEng)

Master of Engineering in Bioengineering (BE MEN)
Unit: Speed School of Engineering (http://louisville.edu/speed) (SP)
Department/Program Webpage: louisville.edu/speed/bioengineering/

Program Information

General Information
The Bachelor of Science in Bioengineering degree will provide a student with the basis to be able to complete the Master of Engineering (MEng) in Bioengineering degree. The Master of Engineering in Bioengineering degree is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

Since the Bioengineering MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Bioengineering bachelor degree program at Speed School. Students who earn an undergraduate degree at a school or university other than the University of Louisville pursue the MS degree instead of the MEng degree.

Major of Engineering Program Educational Objectives
Embodying the University, Speed School of Engineering and Department of Bioengineering missions of providing an excellent education through research, innovation and a rigorous curriculum, the Department of Bioengineering Master of Engineering degree program will produce graduates who:

1. Demonstrate advanced level academic expertise and practical engineering experience necessary to function as bioengineering professionals in a modern, ever-changing world. (Advanced Knowledge and Life-long Learning)
2. Display competence by being selected for employment by industrial, academic or government entities or further professional/graduate studies. (Career Opportunities)
3. Understand the broad, social, ethical and professional issues of contemporary engineering practice. (Awareness and Responsibility)

Master of Engineering Student Outcomes
In order to achieve these objectives, the Master of Engineering has the following outcomes set for its graduates.

Graduates will demonstrate:

1. An ability to apply Mathematics, Life Sciences, Physical Sciences, and Engineering to advanced bioengineering problems
2. An ability in proficiently designing and validating experiments, systems, components, or processes to meet desired needs
3. An ability for proficiently identifying, formulating, and solving advanced bioengineering problems
4. An ability for proficient contemporary technical and scientific comprehension and lifelong learning
5. An ability for proficient technical and scientific communication
6. An ability to use advanced techniques, skills, and modern engineering tools necessary for bioengineering practice

Residency
All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. A candidate for the Master of Engineering degree who does not register for credit hours must maintain active registration by paying a fee each semester for MEng residency until the degree is awarded (i.e., the candidate must maintain continuous registration, including summer terms, in Graduate Studies). Failure to pay the MEng residency fee will be cause to cancel a student's residency. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. In order to be restored to residency, the student must submit a new application, have the recommendation of the department chair, receive the approval of the Associate Dean and pay the fee for each of the semesters during which the residency was void.

Academic Performance
The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing is 3.00 for all academic work completed while in graduate studies.
2. Any student with a cumulative graduate GPA below 3.00 will be placed on academic warning. Students on academic warning are limited to enrollment for 13 credit hours in a fall or spring semester and 7 credit hours for summer terms.

Students who do not bring their cumulative graduate GPA back at or above a 3.00 in the semester immediately following Academic Warning, will be placed on Academic Probation for the next semester of enrollment. Students on probation are limited to enrollment for 13 credit hours in a fall or spring semester and 7 credit hours for summer terms. Any student who remains on academic probation for two consecutive terms may be considered for dismissal from the program.

3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.
5. A maximum of eight (8) hours of graduate level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses cannot have been used to also satisfy BS degree requirements.

Degree Requirements
The following degree requirements are mandatory of all master of engineering candidates:

1. The program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements.

Additionally, the program of study must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.
2. Master's degree students must take at least 24 credit hours of coursework at the University of Louisville to satisfy the residency requirement for the master's degree. A maximum of six (6) credit hours of graduate credit may be transferred from accredited institutions.
3. Students following the thesis option must follow the Procedures and Standards for Master of Engineering Theses. The guidelines are located online at louisville.edu/speed/academics/policies/mEngThesisGuidelines.
4. The total requirements must be completed within six years after admission into graduate studies. The time limit imposed by the rule may be extended in individual cases upon recommendation of the department chair and approval of the associate dean for academic and student affairs.
5. The MEng degree cannot be conferred prior to the BS degree.

Admission Standards
Since the Bioengineering MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Bioengineering bachelor degree program at Speed School.

The application form is available online at http://louisville.edu/speed/academics/forms/MEngGraduateStudiesApplication/

The requirements for admission or readmission to a master of engineering program are:

1. Submission of a completed MEng application for the field of specialization in which the student is earning a bachelor degree from the J.B. Speed School of Engineering. Students can be admitted to the MEng program with fewer than 13 credit hours of BS degree requirements remaining and no later than two years post-conferral of their baccalaureate degree;
2. Recommendation by the faculty and chair of the student’s department for admission or readmission to graduate studies;
3. Cumulative baccalaureate grade point average of 2.75. However, those students with cumulative baccalaureate grade-point averages from 2.50 to 2.75 may be admitted upon petition and approval of the chair and faculty of the department.

A student becomes a candidate for the master of engineering degree upon admission to graduate studies and initial registration as a graduate student.

Program Requirements
The Master of Engineering in Bioengineering degree requires the following over and above the Bachelor of Science in Bioengineering Degree

The Master of Engineering (MEng) degree must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the Master of Engineering degree must be completed with a 3.00 GPA or better for all academic work attempted in Graduate Studies.

A maximum of eight (8) credit hours of graduate-level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses cannot have been used to also satisfy BS degree requirements.

1 Electives must be chosen so that at least one-half of the total credits counted toward the degree, exclusive of thesis, are 600-level
2 BE Electives - A minimum of nine (9) credit hours and maximum of fifteen (15) credit hours of electives must be chosen from the approved list (see list below; all prerequisites must be satisfied)
3 The Technical Electives must be chosen from the following approved list. All prerequisites must be satisfied. Please note that all BE Electives can be counted toward Technical Electives. Only three (3) credit hours from EM and six (6) credit hours from BIOC, CHEM or MATH may be used towards degree requirements
4 For the thesis option, a student is required to select both an approved MEng thesis topic and the director and members of the thesis committee during the first term of Graduate Studies. The thesis director must give approval for enrollment in BE 697.

Biology (MS)

Master of Science in Biology (BiolMS)
Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences) (GA)
Department: Biology (http://louisville.edu/biology)
Program Webpage: louisville.edu/biology/graduate

Program Information

The degree program is available to qualified individuals possessing a bachelor's degree from an accredited college or university. A biology undergraduate major is preferred. However, other majors containing sufficient biology, chemistry and math may be acceptable. The Department of Biology offers master's degrees with programs of study tailored to the needs and interests of a diverse student population. Students may enroll on a full or part-time basis. The Department of Biology offers both thesis and non-thesis options. The thesis option is generally chosen by students with career goals which include a research emphasis. Students choosing this option take coursework and carry out an intensive independent research project under the supervision of a member of the Graduate Faculty, culminating in a written thesis based upon the research project. The non-thesis option is usually chosen by those who wish to advance their knowledge of biology but are not sure of a specific career goal or do not anticipate a research emphasis in their future.

Accelerated BA-BS/MS in Biology

Students who wish to pursue an accelerated non-thesis master’s degree in Biology (BA-BS/MS) will be allowed to apply up to nine (9) hours of coursework taken for graduate credit while enrolled as an undergraduate. An additional twenty-four (24) hours of graduate coursework will constitute the minimum number of credit hours for obtaining the non-thesis masters in the accelerated program.

Admission Requirements

Program admission requirements and application requirements can be viewed on the Department of Biology website at louisville.edu/biology. Questions can be addressed to or further information obtained from the Director of Graduate Studies, Dr. Perri K. Eason, at (502) 852-5936 or pkeaso01@louisville.edu.

The following requirements/standards apply to applicants to the MS program in the Department of Biology:

1. The applicant must have a baccalaureate degree with a major in Biology or an acceptable sub-discipline, with an undergraduate GPA of 3.0 or higher.
2. While there is no minimum requirement for GRE scores, competitive students usually have scores around the 50th percentile or better on the general GRE test (verbal + quantitative). MCAT or DAT test scores at similar percentiles are also acceptable.
3. For foreign students, a TOEFL score of 83 on the internet-based exam or at least 6.5 on the IELTS exam is required (students holding a baccalaureate or advanced degree from an accredited institution in the United States or other English-speaking country are exempt from this requirement).

Deadline for Completed Applications

- July 1 for Fall admission
- December 1 for Spring admission.

Application Materials

Applications will be complete when the following materials have been received (final action on applications will not be taken until complete):

Send to:

School of Interdisciplinary and Graduate Studies
Graduate Admissions
University of Louisville
Louisville, KY 40292

- A completed application form and fee
- One official transcript of all previous undergraduate and graduate coursework
- Official GRE, MCAT or DAT exam scores
- Two or more letters of recommendation from persons familiar with your academic performance and capabilities
- Official TOEFL or IELTS scores if required.

Send to:

Director of Graduate Studies, Department of Biology
• A completed Department Application Form

Available at louisville.edu/biology/graduate/graduate-program-application-information (this form is submitted electronically when completed).

Program Requirements

MS in Biology and Accelerated BA-BS/MS in Biology

Thesis option students are required to complete a minimum of 30 hours; non-thesis option students must complete a minimum of 33.

A minimum of 12 (thesis option) or 17 (non-thesis option) semester hours, exclusive of thesis credit, must be in courses at the 600 level. Students intending to seek a PhD degree later are advised to take as many of their courses as possible at the 600 level or above.

---

1 Courses to be selected by student's committee: one course from each of two (thesis option) or three (non-thesis option) Background Coursework categories.

Program Information

A broad range of courses are taught in most biological disciplines, although the department is focused in two major directions. Faculty in the Divisions of Molecular, Cellular, and Developmental Biology (MCD) and Evolution, Ecology and Behavioral Biology (EEB) have research interests in environmental microbiology, population and microbial genetics, developmental biology, plant and animal physiology, metabolism, plant and animal ecology, behavioral ecology, invertebrate zoology, and community and ecosystem ecology.

Students seeking the PhD Degree in Biology traditionally have a master's degree or its equivalent; however, students may enter the program with only the baccalaureate degree. Generally, the first year or two is spent in coursework, research is begun by the second year, and the thesis/dissertation completed in the final year.

Graduate Assistantships and Other Financial Support

Graduate Teaching Assistantships (GTA) are awarded by the Graduate Committee of the Department of Biology to meet the instructional needs of the Department and enhance and broaden the educational experience of doctoral students. All newly admitted students are automatically considered for this type of annual support, which includes a monthly stipend, tuition remission, and health insurance.

Financial support may also be available from individual faculty members who have research funding that supports graduate students as Graduate Research Assistants (GRA). The faculty members holding this support select students to fill these positions.

A small number of the most highly qualified accepted applicants will be nominated by the Department for University Fellowship awards, which carry a monthly stipend, tuition remission, and health insurance benefits. These students must meet qualifications set by the School of Interdisciplinary and Graduate Studies.

Admission Requirements

The following requirements must be met in order to be admitted to the PhD program in the Department of Biology:

1. The applicant must have a baccalaureate degree with a major in biology or an acceptable sub-discipline of biology.

2. The applicant must meet the following admissions standards:
   - Undergraduate GPA of 3.0 or higher
   - While there is no minimum requirement for GRE scores, competitive students usually have scores around the 50th percentile or better on the general GRE test (verbal + quantitative)
   - For foreign students, a TOEFL score of 83 on the internet-based exam or at least 6.5 on the IELTS exam (students holding a baccalaureate or advanced degree from an accredited institution in the United States are exempt from this requirement).

3. All applicants must review the research specialties of the departmental faculty to ensure that an area compatible with the student’s interest is available. Applicants for the PhD program must communicate with a member of the biology faculty prior to admission and receive agreement that the faculty member will serve as the major professor. No formal admission to the program can occur without the preliminary acceptance of a mentor. Faculty contact information is available at louisville.edu/biology/.

Biology (PhD)

Doctor of Philosophy in Biology (BIOLPHD)

Unit: College of Arts and Sciences (http://catalog.louisville.edu/graduate/programs-study/doctor-philosophy-biology/louisville.edu/artsandsciences) (GA)

Department: Biology (http://catalog.louisville.edu/graduate/programs-study/doctor-philosophy-biology/louisville.edu/biology)

Program Webpage: louisville.edu/biology/graduate
Your application will be complete when we have all of the following (final action on an application cannot be taken until all items have been received):

Send to the School of Interdisciplinary and Graduate Studies, Graduate Admissions, University of Louisville, Louisville, KY 40292:

- Completed application form and application fee;
- One official transcript of all previous undergraduate and graduate coursework;
- Official GRE, MCAT or DAT scores;
- Two or more letters of recommendation from persons familiar with your academic performance; and
- Official TOEFL or IELTS scores (international students).

Send to the Director of Graduate Studies, Department of Biology:

- Completed Biology Department Application Form, found at louisville.edu/biology/graduate/graduate-program-application-information (this is an electronic form sent when completed).

Deadline for completed applications:

- July 15 for Fall admission
- December 1 for Spring admission.

For full consideration for financial support, applications should be completed by January 15 for Fall admission.

1 Courses that cover the evolutionary history and/or phlogenetic relationships of molecules or organisms
2 Courses that discuss the biochemistry and molecular genetics of life or describe the cell as the structural and functional unit of life
3 Courses that discuss life processes at the level of the organism

Biostatistics (CERT)

Graduate Certificate in Biostatistics (BDSCCBS)
Unit: School of Public Health and Information Science (http://louisville.edu/sphis) (GH)
Department: Bioinformatics and Biostatistics (http://louisville.edu/sphis/departments/bioinformatics-biostatistics) Website: louisville.edu/sphis/departments/bioinformatics-biostatistics/academics/certificate

Program Information
The Department of Biostatistics offers a 15-credit hour certificate to deliver core biostatistics instruction to a wide spectrum of the industrial workforce. This program provides an ideal path for students and professionals seeking to enhance their data analytic and decision-making skills. In addition, individuals who are interested in the possibility of entering the MS program in Biostatistics can use this program as a stepping stone to the master’s degree.

Competencies
The core competencies of the Certificate in Biostatistics program include knowledge of basic Biostatistical methods, basic knowledge of data management and statistical computing and a preliminary exposure to research design.

- Analyze moderately complex research data using statistical methods involving common linear statistical models. [C4]*
- Manage data and conduct elementary statistical computing using SAS software. [C3]*
- Critique/design basic methods for moderately complex research problems [C6]*

Demonstration of the competencies is accomplished by successful completion of all certificate curriculum activities.

* Bracketed codes represent cognitive domain levels from Bloom’s Taxonomy

Faculty Advisor
On matriculation, each student is assigned a faculty advisor and is requested to meet at least once a semester (face-to-face or using a video conferencing tool) with his or her advisor. The faculty advisor works with the student to develop a program of study and serves as academic mentor and counselor on career and employment opportunities, professional development, and opportunities beyond the certificate.

Admission Requirements

- Graduate application (http://louisville.edu/graduate/apply) submitted to the School of Interdisciplinary and Graduate Studies
- Bachelor’s degree or its equivalent in basic sciences, economics, psychology, or in a closely related discipline from an accredited institution. The curriculum must contain a statistics or biostatistics course at the sophomore level or higher and at least two courses in basic sciences.
- Preferred minimum GPA is 2.75 on a 4.0 scale. Applicants with lower GPAs will be considered on a case-by-case basis.
- At least two letters of recommendation written within past twelve months, submitted as part of the application.
- Non-refundable application fee.
uniV e r s i t y o f
louisville

• Postsecondary transcripts. Transcripts from institutions outside of the United States may require a foreign credential evaluation.
• Proficiency in English language is a requirement and a key to the success in the program.

¹ Course requires the completion of the sequence PHST 680 - PHST 681, as a prerequisite.

Biostatistics (MS)

Master of Science in Biostatistics (BDSCMS)
Unit: School of Public Health and Information Sciences (https://louisville.edu/sphis) (GH) (https://louisville.edu/sphis)
Department: Bioinformatics and Biostatistics (http://louisville.edu/sphis/departments/bioinformatics-biostatistics)
Program Webpage: louisville.edu/sphis/departments/bioinformatics-biostatistics/academics/ms

Program Information
This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs/index/masters/master-of-science-in-biostatistics).

Biostatistics involves the development and application of statistical techniques to scientific research in health-related fields including medicine, nursing, and public health. Students in the Master of Science in Biostatistics program receive state-of-the-art training in the latest statistical methodologies with focus on the design of research studies, modern statistical data analysis in health sciences research, and research in Biostatistical methodology. In addition, students are provided with tools with which to develop evidence-based clinical and healthcare policies and guidelines.

Competency
Evaluate the biostatistics content of scientific and biomedical journal articles. C6
Analyze moderately complex research data using statistical methods involving common linear statistical models. C4
Manage data using spreadsheet and database software. C3
Demonstrate use of standard statistical and graphics computer packages, including SAS, R, Microsoft Excel, and SPSS. C3
Evaluate new statistical methods presented in the literature. C6
Investigate the history, theoretic underpinnings, current applications, and active areas of inquiry of biostatistics. C4
Apply principles and theorems of advanced biostatistical operations. C3

Superscript codes represent cognitive domain levels from Bloom’s Taxonomy.

Demonstration of the competencies is accomplished by successful completion of all MS curriculum activities.

Faculty Advisor
Upon admission to the MS program, the program director serves as the student’s faculty advisor until a mentor for the student’s independent study, practicum or thesis (as applicable) is identified. At this milestone, the mentor becomes the student’s faculty advisor.

Program of Study
Upon admission to the MS program, the program director, working with the student as faculty advisor, develops a program of study for the student, which requires agreement by the student and the academic dean. Changes to a student’s program of study, including coursework, milestones, and their anticipated timings, are made by the student’s faculty advisor, working with the student, and formally signed by the student, the faculty advisor, the program director, and, for selected changes, the academic dean. This flexibility allows adapting programs of study to differing student capabilities and interests.

Admission Requirements
The MS program is available to students who have completed an undergraduate degree in biostatistics, statistics, mathematics, or a related discipline and possess competency in college-level calculus, linear algebra, and statistics as evidenced by transcripts from postsecondary institutions attended.

The following are required for admission:

• Graduate application (http://louisville.edu/graduate/apply) submitted to the School of Interdisciplinary and Graduate Studies.
• Non-refundable application fee.
• At least two letters of recommendation written within past twelve months, submitted as part of the graduate application (http://louisville.edu/graduate/apply)
• GRE Scores are required and are considered in the context of other required components of the application. Students who have been successful in our programs in the past had a median [Q1, Q3] GRE Quantitative score at the 80th percentile.
• All postsecondary transcripts. Transcripts from institutions outside of the U.S.A. require a foreign credential evaluation.
• The minimum undergraduate grade point average that will be considered for unconditional acceptance and admission is 3.0
on a 4.0 scale. Applicants with a GPA of 2.75 or above may be considered for conditional admission based on the overall quality of the application. Contingencies placed on admission for such cases may vary by the student.

- A statement of purpose submitted to the department office, which must include desired degree program.
- International students for whom English is not their primary language must show English language proficiency by one of the following:
  - TOEFL examination score at or above 550 (paper based test and a 5.0 on the TWE test), 213 (computer based test), 79 (internet based test)
  - IELTS test score of 6.5 or higher
  - Successfully passing the exit examination for the advanced level of an Intensive English as a Second Language Program
  - Demonstration of a degree awarded from an institution with instruction primarily in English, as formally documented by an appropriate institutional official

**Program Requirements**

The MS program in biostatistics can be completed on one of three tracks/concentrations. The descriptions below are for students who have completed all prerequisite courses for required and elective courses included in each degree program.

- **The Standard Track** is a 30-credit hour, non-thesis curriculum that emphasizes a broad understanding of biostatistics and can be completed in three semesters by full-time students.
- **The Bioinformatics Track** is a 30-credit hour, non-thesis curriculum that is based on coursework in bioinformatics and biostatistics and can also be completed in three semesters by full-time students.
- **The Thesis Track** is a 36-hour curriculum that involves continuing beyond the required coursework for the Standard Track. Students pursue the preparation and defense of a master's thesis in an additional semester, during which the student enrolls for a thesis research course for no fewer than 6 credit hours.

The Thesis Track is generally recommended for students intending to pursue a PhD degree or wanting to pursue a research project that interests them. However, a master's thesis is a requirement for the Thesis Track only. A student who elects to pursue a thesis on the Thesis Track and subsequently does not successfully complete the thesis remains eligible for the award of degree under the Standard Track.

**Coursework Requirements**

1 PHPH 523 fulfills the accreditation requirement that all graduates from the School of Public Health and Information Science receive foundational instruction in public health. The two (2) credit hours for PHPH 523 do not accrue toward the 30 credit hours required for MS degree completion. Students with a prior degree and/or coursework in a public health field or substantial experience in the public health workforce may be relieved of this requirement, per approval of the Associate Dean for Academic Affairs.
PHST 662 Mathematical Statistics 3
PHST 681 Biostatistical Methods II 3
PHST 684 Categorical Data Analysis 3
PHST 625 Clinical Trials II 2

</tr>
</tbody>
</table>

Minimum Total Hours 30

1. PHPH 523 fulfills the accreditation requirement that all graduates from the School of Public Health and Information Science receive foundational instruction in public health. The two (2) credit hours for PHPH 523 do not accrue toward the 30 credit hours required for MS degree completion. Students with a prior degree and/or coursework in a public health field or substantial experience in the public health workforce may be relieved of this requirement, per approval of the Associate Dean for Academic Affairs.

2. Electives are chosen with the approval of a faculty advisor. Students are typically encouraged to select electives from among the following courses offered by the Department of Bioinformatics and Biostatistics:

### Bioinformatics Track Electives

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHST 603</td>
<td>Biostatistics Public Health Practicum I</td>
<td>1-2</td>
</tr>
<tr>
<td>PHST 620</td>
<td>Introduction to Statistical Computing</td>
<td>3</td>
</tr>
<tr>
<td>PHST 640</td>
<td>Statistical Methods for Research Design in Health Sciences</td>
<td>3</td>
</tr>
<tr>
<td>PHST 675</td>
<td>Independent Study in Biostatistics</td>
<td>1-3</td>
</tr>
<tr>
<td>PHST 682</td>
<td>Multivariate Statistical Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

Subject to the approval of a faculty advisor, students are also welcome to choose elective courses outside of the department in fields related to biostatistics, such as Mathematics, Epidemiology, and Computer Science. Students seeking to pursue elective coursework outside the department are responsible for ensuring they have met the prerequisites for these courses.

## Thesis Track Curriculum

The curriculum for the Thesis Track of the MS degree consists of additional thesis hours beyond the completion of the curriculum for the Standard Track. Students must declare to enroll in the Thesis Track at the competition of the spring semester of the first year for full-time students (the completion of at least 19 credit hours for part time students). Only after completion of the required 30 credit hours of coursework in the Standard Track curriculum, students electing to be in the Thesis Track enroll for a minimum of 6 credit hours of thesis research (PHST 666) in the spring semester of the second year, and typically write and defend a thesis by the end of that semester.

### Course Title Hours

</tr>
</tbody>
</table>

Minimum Total Hours 6

1. Students wishing to maintain full-time status may register for more than 6 credit hours of thesis or additional coursework.
Thesis

A student may apply to pursue preparation and defense of a master's thesis following completion of the required coursework. Pursuing an optional thesis requires permission of the program director. The thesis topic is approved by the major professor and thesis committee, chaired by the major professor. The student identifies a desired mentor to become his or her major professor, who is recommended by the program director and appointed by the academic dean. The major professor (or at least one when there are co-major professors) must be from the Department of Bioinformatics and Biostatistics. Following appointment, the major professor becomes the student's faculty advisor. Procedures for the thesis are given below.

Thesis Committee

Working with the major professor, the student identifies at least two or more desired committee members. Including the major professor, at least two members of the committee must be faculty in the Department of Bioinformatics and Biostatistics and at least one member must be from outside the department. The committee members are then recommended by the program director and appointed by the academic dean.

Thesis Preparation

The thesis is prepared in format according to the guidelines (http://louisville.edu/graduate/current-students/thesis-dissertation-information) established by the School of Interdisciplinary and Graduate Studies. It is the responsibility of each student to ensure that the readability and quality of writing in his/her thesis meets professional standards. Students are strongly encouraged to take advantage of the services offered by the University Writing Center (http://louisville.edu/writingcenter) when writing their theses. The services offered by the Writing Center are free to the student.

Thesis Approval

Final approval of the thesis is voted upon by the thesis committee after an oral defense of the thesis by the student. Students submit their theses to members of their committee two or more weeks prior to the date of the oral defense. Approval of the thesis is by majority vote of the committee after the oral defense.

Students are required by the School of Interdisciplinary and Graduate Studies to provide two weeks' notice when scheduling oral defenses (louisville.edu/graduate/forms/request-to-schedule-thesis-dissertation-final-oral-examination). This requirement permits those wanting to attend the oral defense adequate time to make arrangements for attending. Students must follow the below procedure for scheduling oral defenses:

1. Identify a date and time for the oral defense in consultation with the thesis advisor and members of the committee.
2. Request a room reservation for the oral defense through the Department's Administrative Assistant.
3. Notify the Department's Administrative Assistant of the date, time, and location of the oral defense as well as the title of the thesis. The Department's Administrative Assistant will circulate an announcement of the defense as well as notify the SPHIS Office of Student Services of the defense, who in turn notify School of Interdisciplinary and Graduate Studies.
4. Distribute technically and grammatically error-free copies of the thesis to all committee members at least two weeks prior to the defense date.

There are no exceptions to these requirements and students will not be permitted by the Department to schedule defenses with less than 2 weeks' notice. Students are expected to be aware of university deadlines for theses (louisville.edu/graduate/current-students/thesis-dissertation-information) and to ensure that the 2 weeks' notice requirement is fulfilled within these university deadlines. Students are strongly encouraged to allow for even greater than two weeks' notice to ensure that all deadlines and requirements are fulfilled.

Thesis Submission

The following steps must be taken to submit the final copy of the thesis electronically after oral defense and approval of the committee:

1. Final document must be converted to a PDF (following the guidelines as noted above) and sent to the School of Interdisciplinary and Graduate Studies and the department's administrative assistant.
2. Submit as advised by the School of Interdisciplinary and Graduate Studies through the ThinkIR repository. The directions on submission will be provided upon review of the thesis by the School of Interdisciplinary and Graduate Studies.
3. The signature page within the electronic version must have the names of the committee members typed under the signature line; the signatures cannot be scanned into the document.
4. Submit a signed signature page on white paper, with original signatures, to the School of Interdisciplinary and Graduate Studies.

An electronic copy of the thesis must be provided to the Department’s Administrative Assistant.

Biostatistics (PhD)

Doctor of Philosophy in Biostatistics (BDSCPPhDDBIO)
Unit: School of Public Health and Information Sciences (https://louisville.edu/sphis) (GH)
Department: Bioinformatics and Biostatistics (http://louisville.edu/sphis/departments/bioinformatics-biostatistics)
Program Webpage: louisville.edu/sphis/departments/bioinformatics-biostatistics/academics/phd

Program Information

Introduction

Biostatistics involves the development and application of statistical techniques to scientific research in health-related fields, including medicine, epidemiology, and public health. Students in the PhD program receive state-of-the-art training in the latest statistical methodology in order to tackle the challenges associated with the study design and data analysis of modern research conducted in the health sciences. The PhD program provides advanced training in biostatistical theory and methods, with the goal of enabling the student to carry out original research. In addition, students may elect to train with an emphasis in bioinformatics.

Bioinformatics requires the development and application of statistical methods for many of the areas covered by the field, including genomics, proteomics, statistical genetics, and metabolomics. Current biomedical research technologies generate high volumes of data that require extension of existing statistical methodologies and development of new methodologies in order to extract important information regarding biological processes. The emphasis on bioinformatics is designed to fulfill the expanding need for biostatisticians with advanced training in this area. Students in the bioinformatics emphasis gain a basic understanding of molecular and cellular biology, genetics, and
bioinformatics and an in-depth knowledge of statistical theory and methods. Graduates are able to carry out original statistical research in genomics, proteomics, metabolomics, and evolving areas of systems biology.

Students who complete the MS program in biostatistics with the Department of Bioinformatics and Biostatistics or who already possess the equivalent of an MS in statistics, biostatistics, or a related discipline may apply for admission to the PhD program.

**Competencies**

To graduate, a student must be able to demonstrate mastery of the following competencies:

<table>
<thead>
<tr>
<th>Competency</th>
<th>CE</th>
<th>SCP</th>
<th>Dsrt</th>
</tr>
</thead>
<tbody>
<tr>
<td>Read, interpret, and critically review the biostatistics content of scientific and biomedical journal articles</td>
<td>X</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Analyze moderately complex research data using statistical methods involving common linear statistical models</td>
<td>X</td>
<td>X</td>
<td></td>
</tr>
<tr>
<td>Analyze dichotomous, count, and time-to-event data using appropriate statistical methods, including logistic regression, log-linear models, Kaplan-Meier curves, and Cox proportional hazards models</td>
<td>X</td>
<td>X</td>
<td></td>
</tr>
<tr>
<td>Assist researchers in planning research studies, proposing and evaluating statistical methods and computing power analyses</td>
<td>X</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Write statistical methods sections for grant proposals, clinical trial protocols, and journal articles</td>
<td></td>
<td></td>
<td>X</td>
</tr>
<tr>
<td>Manage data using spreadsheet and database software</td>
<td>X</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Use standard statistical and graphics computer packages including SAS, R, and SPSS</td>
<td>X</td>
<td>X</td>
<td>X</td>
</tr>
<tr>
<td>Keep abreast of statistical methods literature to evaluate and utilize new statistical methods</td>
<td></td>
<td></td>
<td>X</td>
</tr>
<tr>
<td>Thoroughly understand the broad discipline of biostatistics, including its theoretic underpinnings, its history of development, current applications, and areas of active inquiry</td>
<td>X</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Understand advanced biostatistical operations</td>
<td>X</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Conduct independent research</td>
<td>X</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Advance the field of biostatistics through original research</td>
<td>X</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Students who elected to emphasize on bioinformatics must demonstrate the following additional competencies, many of which represent specialization of competencies cited above:
**Competency**

<table>
<thead>
<tr>
<th>Competency</th>
<th>CE</th>
<th>SCP</th>
<th>Dsrt</th>
</tr>
</thead>
<tbody>
<tr>
<td>Analyze high-throughput, biological data, such as microarrays, SNP chips, and mass spectrometer data, and understand the special statistical considerations that such data require</td>
<td>X</td>
<td>X</td>
<td></td>
</tr>
<tr>
<td>Retrieve and leverage various types of biological information from online repositories</td>
<td>X</td>
<td>X</td>
<td></td>
</tr>
<tr>
<td>Understand the basic biological principles that underlie our biological knowledge, and how the various forms of high-throughput data are used to address specific biological questions and expand our knowledge</td>
<td>X</td>
<td></td>
<td>X</td>
</tr>
<tr>
<td>Advance the field of statistics in bioinformatics through original research</td>
<td></td>
<td></td>
<td>X</td>
</tr>
</tbody>
</table>

*Key for demonstration (method):*
- CE = Comprehensive examinations
- SCP = Statistical consulting practicum
- Dsrt = Dissertation

**Curriculum**

The curriculum consists of a minimum of 34 credit hours of coursework and a doctoral dissertation. The student is eligible to sit for comprehensive examinations upon completion of required coursework. Upon passing the comprehensive examinations and completing required and elective coursework, the student enters candidacy to work on the dissertation. After the dissertation is submitted and approved, including an oral defense, the student is eligible to receive the PhD degree in Biostatistics.

Award of a degree from an accredited school of public health requires successful completion of the equivalent of three (3) semester-credit hours in each of:

- Instruction that introduces the students to the breadth of public health
- Instruction in epidemiology

Either or both of these requirements may be determined to have been met prior to matriculation by approval of the academic dean of a variance request submitted by the program director. The request for a variance in one or both requirements must be justified by one of: previous degrees received, such as an MPH or DrPH; previous coursework successfully completed; or extensive experience in the public health workforce. In the absence of a variance for a requirement, the student's program of study must include successfully completed coursework that satisfies the requirement. This coursework may be included in the program's required coursework; if not, the student must complete appropriate coursework on a co-curricular basis.

**Faculty Advisor**

Upon admission to the PhD program, each student is assigned to the graduate coordinator of the PhD program for course advising. The graduate coordinator assumes the role of faculty advisor until the student chooses a dissertation advisor at which point this responsibility shifts to the dissertation advisor. If it becomes clear that a PhD student will be working with a given faculty member prior to forming a dissertation committee, the student may request a change in course advisor by completing the form **Request to Change Academic Advisor**.

**Program of Study**

Upon admission to the PhD program, a program of study is developed for each student by the faculty advisor and approved by the program director and department chair. Students who did not complete the MS program in biostatistics with the Department of Bioinformatics and Biostatistics may be required to complete additional coursework normally offered in the MS program. Decisions regarding additional coursework are made by the student's assigned faculty advisor and such courses become part of the program of study. This approach gives maximum flexibility for addressing differing student qualifications and interests.

**Application Requirements**

The PhD program is available to students who are entering from the MS program or to students entering with a master's degree in biostatistics, statistics, decision science, or a related discipline.

The following are additionally required for admission:
- Graduate application (http://louisville.edu/graduate/apply)
- Non-refundable application fee
- At least two letters of recommendation written within past twelve months, which may be submitted with the Graduate application (http://louisville.edu/graduate/apply)
- GRE Scores are required and are considered in the context of other required components of the application. Students who have been successful in our programs in the past typically have a median [Q1, Q3] GRE Quantitative score at the 87th percentile.
- All postsecondary transcripts (may require foreign credential evaluation if not from an accredited U.S. institution)
- Statement of goals, including the desired emphasis, if any.
- International students for whom English is not their primary language must show English language proficiency by one of the following:
TOEFL examination score at or above 550 (paper based test and a 5.0 on the TWE test), 213 (computer based test), 79 (internet based test)
IELTS test score of 6.5 or higher
Successfully passing the exit examination for the advanced level of an Intensive English as a Second Language Program
Demonstration of a degree awarded from an institution with instruction primarily in English, as formally documented by an appropriate institutional official

Program Requirements
Completion of the required coursework is the prelude to sitting for the comprehensive examination. Successful completion of the comprehensive examination allows the student to enter doctoral candidacy. A doctoral candidate must then develop and successfully defend a dissertation proposal that describes an original and independent research project. Upon successful defense of the proposal, a student may then proceed to continue dissertation research. Upon successful completion of the research, defense of the dissertation, and demonstration of the required competencies listed below, a student is awarded the PhD degree.

Coursework
34 total credit hours
12 credit hours of required core coursework
22 credit hours of elective courses (vary based on area of emphasis)

The student may be required to take one or more prerequisite courses for an elective course if the student does not meet the prerequisites. These prerequisite courses become part of the program of study but are in addition to the number of coursework credit hours presented above. Enrollment in other courses such as PHPH 701 may be required to maintain academic status for funding purposes.

</tbody>
</table>
However, questions from any sources may appear that cover the same topics as listed in the syllabi of PHST 691, PHST 710, PHST 762, and PHST 781. Further, problems on the Computing section of the exam may draw on topics covered in PHST 691, PHST 762, and PHST 781. Each student receives a grade of either "pass" or "fail" for the entire comprehensive examination and each student must pass all four sections of the comprehensive examination to receive a "pass". Students that pass the exam will be eligible to enter doctoral candidacy upon completion of the remaining, second-year coursework. A failing grade indicates a deficiency in one or more areas, and a student with a grade of "fail" will have one opportunity to retake the full Comprehensive Examination (all four sections), typically in the following January. The results from a student's first attempt at the comprehensive exam will not be considered in the grading of the second attempt and will not factor into the determination of a pass or fail score for the second attempt at the exam. Students that fail to pass the examination on their second attempt will be dismissed from the program without any further consideration.

Neither scores nor graded copies of completed examinations will be shared with students. Students may review ungraded copies of their own completed comprehensive exams with the exam graders. The ungraded, completed copies will be held in the department office. Students will not be permitted to keep ungraded copies of the completed comprehensive exams.

**Special Notes on the Comprehensive Exam**

- For all the exams, the students will not have access to any course books, notes or any other materials (paper or electronic copies)
- Students will write programs and run code in the Bayesian and non-Bayesian computing examinations of the second day. These examinations will be given either in a computer lab in the SPHIS building or the students will be required to bring their own laptop to run the programs.
- The only materials which can be consulted for the second-day examination are R help menus locally available on the specific computer. Students will be asked ahead of time to upload all R packages needed to appear for the exam. Students will not be allowed to avail the internet by any means.
- Any suspected cheating on the Comprehensive Examination will be addressed according to university policies provided in Section 5 of Dean of Students document, Students Rights and Responsibilities (https://louisville.edu/dos/students/studentsrightsandresponsibilities). Additionally, students found guilty of academic dishonesty on the Comprehensive Examination will be expelled from the PhD program immediately.
- More than one faculty members will grade all the examinations.

**Dissertation**

In order to complete the degree, a candidate must submit and successfully defend a dissertation on a topic approved by his or her major professor and the dissertation committee. Dissertation work may be started following successful completion of doctoral comprehensive examinations.

**Dissertation Committee**

The dissertation committee is formed by the candidate's proposing a major professor (or principal advisor) and at least four other committee members. One member of the dissertation committee must be external.
to the Department of Bioinformatics and Biostatistics. The committee is appointed by the dean of the school upon the recommendation of the program director and chair of the department.

**Dissertation Proposal (Pre-Dissertation Essay)**

A dissertation proposal or pre-dissertation essay is submitted to the major professor and the dissertation committee. The proposal must be approved by a majority vote of the dissertation committee before the candidate undertakes further work on the dissertation.

The dissertation proposal is a typed document not exceeding 25 pages in length excluding topics (5) to (8), below. The following formatting is used: Times New Roman 12-point font, margins of 1 inch on all sides and 1.5-line spacing throughout the body of the document. The School of Interdisciplinary and Graduate Studies dissertation guidelines for citing references must be followed. The document is divided into the following sections and in the following sequence:

1. Introduction and Literature Reviews - general introduction to the area of proposed research and relevant literature reviews
2. Specific Aims and Significance - short section describing the specific aims of the proposed research and their potential importance in the field
3. Preliminary Results - summary of the research findings the student already has (e.g., simulation results) towards one or more of the specific aims. This is an important component of the proposal that demonstrates the feasibility of the proposed research by the student.
4. Research Plan - detailed description of the research towards the specific aims to be undertaken during the rest of the doctoral study period
5. References - complete references to all the cited literature. Journal names should not be abbreviated
6. Tables - including table headings
7. Figures - one figure per page
8. Appendix - copies (in PDF format) of published articles and preprints that are most relevant to the proposed research

**Dissertation Preparation**

The dissertation is to be prepared in format according to the guidelines established by the School of Interdisciplinary and Graduate Studies. These guidelines are located at louisville.edu/graduate/current-students/thesis-dissertation-information. It is the responsibility of each student to ensure that the readability and quality of writing in his/her thesis meets professional standards. Students are strongly encouraged to take advantage of the services offered by the University Writing Center (http://louisville.edu/writingcenter) when writing their theses. The services offered by the Writing Center are free to the student.

**Dissertation Approval**

Final approval of the dissertation is voted upon by the dissertation committee after an oral defense of the dissertation by the student. Students submit their dissertations to members of their committee two or more weeks prior to the date of the oral defense. Approval of the dissertation is by a majority vote of the committee after the oral defense.

Students are required by the School of Interdisciplinary and Graduate Studies to provide two weeks’ notice when scheduling oral defenses (louisville.edu/graduate/forms/request-to-schedule-thesis-dissertation-final-oral-examination). This requirement permits those wanting to attend the oral defense adequate time to make arrangements for attending. Students must follow the below procedure for scheduling oral defenses:

1. Identify a date and time for the oral defense in consultation with the dissertation advisor and members of the committee.
2. Request a room reservation for the oral defense through the Department's Administrative Assistant.
3. Notify the Department's Administrative Assistant of the date, time, and location of the oral defense as well as the title of the dissertation. The Department's Administrative Assistant will circulate an announcement of the defense as well as notify the SPHIS Office of Student Services of the defense, who in turn will notify the School of Interdisciplinary and Graduate Studies.
4. Distribute technically and grammatically error-free copies of the dissertation to all committee members at least two weeks prior to the defense date.

There are no exceptions to these requirements and students will not be permitted by the Department to schedule defenses with less than 2 weeks’ notice. Students are expected to be aware of university deadlines for dissertations (louisville.edu/graduate/current-students/thesis-dissertation-information) and to ensure that the 2 weeks’ notice requirement is fulfilled within these university deadlines. Students are strongly encouraged to allow for even greater than two weeks’ notice to ensure that all deadlines and requirements are fulfilled.

**Dissertation Submission**

The following steps must be taken to submit the final copy of the dissertation electronically after oral defense and approval of the committee:

1. Final document must be converted to a PDF (following the guidelines as noted above) and sent to the School of Interdisciplinary and Graduate Studies and the department's administrative assistant.
2. Submit as advised by the School of Interdisciplinary and Graduate Studies through the ThinkIR repository. The directions on submission will be provided upon review of the dissertation by the School of Interdisciplinary and Graduate Studies.
3. The signature page within the electronic version must have the names of your committee members typed under the signature line; the signatures cannot be scanned into the document.
4. Submit a signed signature page on white paper, with original signatures, to the School of Interdisciplinary and Graduate Studies, attention Courtney Kerr.

An electronic copy of the dissertation must be provided to the Department’s Administrative Assistant.

**Applying for a Degree**

Students are responsible for completing an “Application for Degree” form at the beginning of the semester in which they will defend their thesis or dissertation. Students may apply for their degree via ULink. The steps are as follows:

1. Log on to your ULink account.
2. Go to Student Services Page.
3. Scroll down and on the right of the screen you will find a column labeled “Registration”.
4. Under Registration click on the Degree Application link.
5. Follow the Prompts to complete your application for degree. Once completed, you will receive an e-mail confirmation of submission in your University e-mail.

Future deadline dates can be found on the Graduate Academic calendar (http://louisville.edu/calendars/academic/undergrad-grad).

For any questions or concerns students might have during the semester in which they plan to graduate, students’ best resource is the School of Interdisciplinary and Graduate Studies. The Department of Bioinformatics and Biostatistics faculty and staff are also here to advise and assist you with any questions you might have.

Business Administration (MBA)

Master of Business Administration (BA_MBA)

Unit: College of Business (http://business.louisville.edu) (GB)
Department: Business (http://business.louisville.edu/uoflmba)
Program Webpage: business.louisville.edu/uoflmba

Program Information

The College of Business Master of Business Administration at the University of Louisville is offered in multiple formats:

- Full-time MBA
- Professional (Part-time) MBA
- Integrative (Entrepreneurship) MBA
- Executive MBA
- Global MBA

Admission to MBA programs is highly competitive. All Master of Business Administration programs require completion of an undergraduate degree. GMAT scores and letters of reference requirements vary by program.

All programs are cohort-based vary in duration between 13 and 20 months, and in credit hour requirements between 42 and 48.

Admission Requirements

Applicants are more than their paperwork—which is why qualified candidates are invited for in-person interviews after all materials are received. Below is a checklist intended to help with the admissions process. It is recommended that your application be submitted within 30 days of creating your account, thereby providing you sufficient time to focus on the Graduate Management Admission Test (GMAT).

Contact the University of Louisville MBA Office with any questions via telephone (502) 852-7257 or email mba@louisville.edu.

Application Checklist

- Create application account
  - Visit UofLMBA.com (http://business.louisville.edu/uoflmba) and click "APPLY NOW."

- Two letters of recommendation
  - Within the application, submit names and email addresses of your recommenders. They will receive an email invitation on your behalf. Your recommenders should speak to your character, academic aptitude, etc.

- Professional resume

- Personal statement
  - Within the application, attach a 1-2 page Word document describing your interest in the UofL MBA program, why you selected the University of Louisville, your short and long term goals and any additional information you feel is relevant.

- Submit and pay application fee

- Official college transcript(s)
  - Order an official college transcript from all colleges attended, including the degree granting institution.

  Mail transcripts to:
  College of Business, MBA Office
  University of Louisville
  Louisville, KY 40292
  E-Transcripts will be accepted from the institution only. Have these sent to mba@louisville.edu.

- Graduate Management Admission Test (GMAT)
  - The admissions application includes a field in which you can provide your GMAT test date and/or scores. If you have not scheduled the GMAT, please visit www.mba.com (https://www.mba.com/us) for details. Once registered, notify the University of Louisville MBA office by sending an email to mba@louisville.edu with Subject Line: GMAT Test Date.
  - We recommend allocating 6-8 weeks of preparatory time and encourage you to attend the Free GMAT workshops offered monthly at the College of Business.
  - Note: We will accept the GRE in lieu of the GMAT.

International Applicants

We welcome all international applicants. Please be aware that there are documents required from international applicants that are in addition to the above list.

Visit business.louisville.edu/graduate-programs/grad-admissions/ and open the International Applicant Checklist

Full-time Master of Business Administration

The Full-time MBA is a 13-month cohort based program with two tracks: an internship track (48 credit hours); and a non-internship track (45 credit hours).

The program fee is $32,000. Application requirements include an undergraduate degree (with official university transcripts), a GMAT or GRE test result, two letters of reference, an interview, and a $50 application fee. Dual degree students in the University of Louisville School Law, Dentistry, or Medicine may be provided with a GMAT or GRE waiver.

Program Webpage: business.louisville.edu/uoflmba/
### Professional (Part-time) Master of Business Administration

The Part-time MBA is a 20-month cohort based 45 credit hour program. The program is delivered in two formats: a weekday evening format and a weekend format.

The program fee is $32,000. Application requirements include an undergraduate degree (with official university transcripts), a GMAT or GRE test result, two letters of reference, an interview, and a $50 application fee. Dual degree students in the University of Louisville School Law, Dentistry, or Medicine may be provided with a GMAT or GRE waiver.

### Integrative (Entrepreneurship) Master of Business Administration

The Integrative (Entrepreneurship) MBA is a part-time program that is 20 months long. It is a cohort based, 45-credit hour program.

The program fee is $32,000. Application requirements include an undergraduate degree (with official university transcripts), a GMAT or GRE test result, two letters of reference, an interview, and a $50 application fee. Dual degree students in the University of Louisville School Law, Dentistry, or Medicine may be provided with a GMAT or GRE waiver.

1. Spread multiple semesters
Executive Master of Business Administration

The Executive MBA is a 20-month, cohort-based, 46-credit hour program. It is a joint degree delivered in conjunction with the University of Kentucky. One-half of the courses are physically taught at each of the University of Louisville and the University of Kentucky. The program fee is $67,500. Application requirements include an undergraduate degree (with official university transcripts), two letters of reference, an employer letter of support (required due to program scheduling), an interview, and a $100 application fee.

Program Webpage: business.louisville.edu/uoflmba/

Global Master of Business Administration

The Global MBA is a 14-month, cohort-based, 42-credit hour program. The first semester consists of a one-month residency at the University of Louisville. Students study during the fall and spring semesters with our partner Adolf Würth at the Akademie Würth Business School in Germany. Students return to the University of Louisville for a final one-month summer residency.

The program fee is EUR 18,950. Application requirements include three years of business experience, a completed undergraduate degree, a TOEFL test score (a minimum is applied), two letters of reference, and health insurance covering instructional periods in the United States.

Business Analytics (MS)

Master of Science in Business Analytics
Unit: College of Business (http://business.louisville.edu) (GB)
Unit: Business (http://business.louisville.edu)
Program website (http://catalog.louisville.edu/graduate/programs-study/master-science-business-analytics/business.louisville.edu/msba)

Program Information
The Master of Science in Business Analytics (MSBA) is an accelerated, cohort-based 13-month, three-semester program. Students work both in teams and independently in completing the coursework.

The MSBA curriculum combines information systems technologies, data modeling, and analytics with business acumen and impactful communications to develop the skills necessary to become a successful business analyst with excellent potential for professional growth. The program is also designed and delivered in close collaboration with local businesses providing a strong business orientation, increasing your skill relevance in the marketplace upon graduation.

Admission Requirements
1. Completion of an application along with application fee
2. Provision of two letters of reference, a resume, and a personal statement
3. Completion of an undergraduate degree along with official transcripts
4. GMAT or GRE score: May be waived for applicants with significant work experience in the field of analytics or for applicants with significant academic exposure (e.g., major or minor) in a STEM or technical field

Program Requirements
The Master of Science in Business Analytics (MSBA) program—and the following proposed program curriculum—was approved by the Kentucky Council on Post-secondary Education in April 2018 for offer at the University of Louisville beginning in Fall 2018. Specific course information is preliminary, pending final institutional approvals.

Internship or Capstone
A competitive internship opportunity or capstone project is offered to students in the MSBA program as a requirement that brings real-world business experience to the MSBA program.

<table>
<thead>
<tr>

<td>Analytics Internship (Capstone, Terms 7 &amp; 8)</td>
<td>1</td>
</tr>
</tbody>
</table>

The internship is determined on a competitive basis and lasts 11-months. It is an innovative, unique partnership between the College of Business and the business community. Students access exceptional employment opportunities which provide real-world work experience in business settings. The benefits of an internship cannot be overstated. The salary helps offset some of the tuition requirements and the added workplace experience and improved resume credentials provide students a significant advantage upon graduation.

If a student already has employment or doesn’t want an internship, a capstone course is offered for the same credit hours. The capstone course provides students the opportunity to work with businesses to solve a real business problem. They gain experience with the analytical demands of real business situations.

Certified School Counselor (RANK1)
Rank 1 Program for Certified School Counselor (CPS RK1CSC)
Unit: College of Education and Human Development (http://louisville.edu/education) (GE)
Program Information

Rank 1 programs are not degree programs.

Rank 1 programs are planned graduate-level programs designed for Kentucky educators seeking rank change for salary purposes. They are recognized only in the state of Kentucky. By state regulation, Rank 1 status is sixty (60) semester hours of approved graduate credit, including a master’s degree.

Admission Requirements

Graduates of the University of Louisville MEd in Counseling and Personnel Services program, with a concentration School Guidance Counseling, are eligible to pursue this Rank 1 program.

Candidates who have completed a master’s degree in School Guidance Counseling from other institutions must provide documentation, before applying for admission, that they have completed the requirements leading to the provisional and standard certificates in Kentucky.

Students may apply to the program by first going to the School of Interdisciplinary and Graduate Studies website. Admission requirements include the following credentials:

- Official transcripts with a GPA of 2.75 in the bachelor’s degree and a GPA of 3.0 in the master’s degree
- Kentucky certification as a School Counselor
- For international students, TOEFL (students holding a baccalaureate or advanced degree from an accredited institution in the U.S. are exempt from this requirement.)

Applicants who have attended a college or university outside of the United States are also required to submit an evaluation of their transcript through either WES (World Education Services) or ECE (Educational Credential Evaluators). Please note that transcript evaluations can sometimes take several weeks.

Please have transcripts sent to:

School of Interdisciplinary and Graduate Studies
Graduate Admissions
University of Louisville
Louisville, KY 40292

If transcripts are sent electronically, please have them sent to the following email: gradadm@louisville.edu

Please contact the Director of Graduate Student Services in the Education Advising and Student Services Office for more information at (502) 852-5597.

or EDAP 639 Education Research in P-12 Setting

Advocacy (Professional Leader)

Leadership

Select one of the following:

- ECPY 605 Human Development
- ECPY 611 Learning Systems: Theory and Practice
- ECPY 640 Assessment Methods for Counselors
- EDAP 677 Developing Collaborative Groups: Facilitating, Coaching and Mentoring
- EDAP 730 Research in Infancy and Early Childhood
- ECPY 650 Group Process and Practice

Diversity

Select one of the following:

- EDAP 637 Using Assessment to Improve Student Achievement
- EDAP 638 Instructional Strategies for Diverse Learners
- EDAP 642 Literacy Learning and Cultural Differences
- EDSP 581 Introduction to Gifted Education
- ECPY 663 Multicultural and Diversity Issues

Area of Emphasis

Select at least 12 credit hours; may be chosen from courses above that are NOT taken to meet the Advocacy requirement

Electives

Select 9 credit hours from the following:

- EDAP 585 Introduction to Educational Technology: Integrating Technology into Instruction
- ECPY 601 Introduction to Clinical Mental Health Counseling
- ECPY 639 Prevention & Treatment of Substance Abuse
- ECPY 694 Graduate Seminar in Educational and Counseling Psychology
- ECPY 721 Advanced Counseling Seminar
- EDSP 540 Introduction to Exceptional Children
- EDSP 644 Applied Behavior Analysis

Prior Masters degree in School Counseling

The number of semester hours required to complete Rank 1

Minimum Total Hours

1 Independent Study or Directed Readings may be included as approved by faculty advisor; also courses in the Advocacy section may be used here as long as they have NOT been taken in the Advocacy or Area of Emphasis sections

2 If masters degree is more than 30 credit hours, indicate the number of hours student needs to complete Rank 1. It may be fewer than 30 credit hours.

Exit Requirement

A portfolio is required for successful completion of this program.

Notes

1. The candidate for Rank 1 should hold a School Counseling certificate and a master’s degree in School Counseling which includes the requirements leading to both provisional and standard licensure.
2. The Rank 1 classification shall require the completion of 60 semester hours of approved graduate level credit including a master’s degree.
3. Candidates will plan the Rank 1 program in consultation with a faculty advisor in the ECPY Department prior to enrolling in Rank 1 courses.
4. Of the total number of hours on the Rank 1 program, at least 15 credit hours beyond the master's degree must be taken at the University of Louisville. The remaining credit hours may be taken at the University of Louisville, or upon approval of the faculty advisor, at other institutions. There is no stipulation as to recency of completion of Rank 1 credit.
5. All coursework for Rank 1 must carry graduate credit, and no less than half must be earned in courses open only to graduate students.
6. An academic average of 3.0 is required on the course hours submitted for Rank 1, and no credit will be accepted for courses carrying a grade lower than C.
7. The resulting School Counseling certification will include grades P-12.
8. A portfolio is required for successful completion of this program.

**Chemical Engineering (MEng)**

**Master of Engineering in Chemical Engineering (CHE MEN)**
Unit: Speed School of Engineering (http://louisville.edu/speed) (SP) Department/Program Webpage: louisville.edu/speed/chemical

**Program Information**

**General Information**
The Bachelor of Science in Chemical Engineering degree will provide a student with the basis to be able to complete the Master of Engineering (MEng) in Chemical Engineering degree. The Master of Engineering in Chemical Engineering degree is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

Since the Chemical Engineering MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Chemical Engineering bachelor degree program at Speed School. Therefore, students who earn an undergraduate degree at a school or university other than the University of Louisville pursue the MS degree instead of the MEng degree.

**Master of Engineering Program Educational Objectives**
The purpose of the five-year Master of Engineering Program is to bring together the faculty, staff, and capital resources to meet the following program educational objectives:

1. Educate and train graduates with the academic background and practical experiences necessary to function as chemical engineering professionals at an advanced level in a modern, ever-changing world in accordance with the mission of the department
2. Produce graduates who demonstrate competence by being selected for employment by high level industrial, academic and government entities
3. Provide our graduates with the foundation for the development of a successful career and with the understanding that life-long learning is necessary to this development
4. Ensure that our graduates understand the broad societal, ethical and professional issues of the engineering profession

**Master of Engineering Student Outcomes**
In order to achieve these objectives, the Master of Engineering has the following outcomes set for its graduates. Graduates will demonstrate:

1. An ability to apply knowledge of mathematics, science and engineering to identify, formulate and solve advanced chemical engineering problems
2. An ability to design and conduct experiments demonstrating chemical engineering principles, as well as to analyze and interpret resulting data
3. An ability to design a system, component, or process relevant to chemical engineering practice to meet desired needs subject to realistic constraints such as economics, environmental compliance and sustainability, health and safety, manufacturability, and social, political, and ethical implications
4. An ability to function on multi-disciplinary or multi-functional teams
5. An ability to identify, formulate, and solve chemical engineering problems
6. Understanding of the professional and ethical responsibility of the practicing chemical engineer
7. An ability to communicate effectively in writing, orally, and via modern computer technology
8. The broad education necessary to understand the impact of chemical engineers and engineering solutions in a global, economic, environmental, and societal context
9. Recognition of the need for, and an ability to engage in life-long learning
10. a knowledge of contemporary issues, especially those pertinent to the practice of chemical engineering
11. an ability to use the techniques, skills, and modern engineering tools necessary for chemical engineering practice

**Residency**
All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. A candidate for the Master of Engineering degree who does not register for credit hours must maintain active registration by paying a fee each semester for MEng residency until the degree is awarded (i.e., the candidate must maintain continuous registration, including summer terms, in Graduate Studies). Failure to pay the MEng residency fee will be cause to cancel a student’s residency. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. In order to be restored to residency, the student must submit a new application, have the recommendation of the department chair, receive the approval of the Associate Dean and pay the fee for each of the semesters during which the residency was void.

**Academic Performance**
The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing is 3.00 for all academic work completed while in graduate studies.
2. Any student with a cumulative graduate GPA below 3.00 will be placed on academic warning. Students on academic warning are limited to enrollment for 13 credit hours in a fall or spring semester and 7 credit hours for summer terms.

Students who do not bring their cumulative graduate GPA back at or above a 3.00 in the semester immediately following Academic
Warning, will be placed on Academic Probation for the next semester of enrollment. Students on probation are limited to enrollment for 13 credit hours in a fall or spring semester and 7 credit hours for summer terms. Any student who remains in academic probation for two consecutive terms may be considered for dismissal from the program.

3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.

4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.

5. A maximum of eight (8) hours of graduate level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses cannot have been used to also satisfy BS degree requirements.

Degree Requirements
The following degree requirements are mandatory of all master of engineering candidates:

1. The program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the program of study must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.

2. Master’s degree students must take at least 24 credit hours of coursework at the University of Louisville to satisfy the residency requirement for the master’s degree. A maximum of six (6) credit hours of graduate credit may be transferred from accredited institutions.

3. Students following the thesis option must follow the Procedures and Standards for Master of Engineering Theses. The guidelines are located online at louisville.edu/speed/academics/policies/mEngThesisGuidelines.

4. The total requirements must be completed within six years after admission into graduate studies. The time limit imposed by the rule may be extended in individual cases upon recommendation of the department chair and approval of the associate dean for academic and student affairs.

5. The MEng degree cannot be conferred prior to the BS degree.

Admission Standards
Since the Chemical Engineering MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Chemical Engineering bachelor degree program at Speed School.

The application form is available online at louisville.edu/speed/academics/forms/MEngGraduateStudiesApplication.

The requirements for admission or readmission to a master of engineering program are:

1. Submission of a completed MEng application for the field of specialization in which the student is earning a bachelor degree from the J.B. Speed School of Engineering. Students can be admitted to the MEng program with fewer than 13 credit hours of BS degree requirements remaining and no later than two years post-conferral of their baccalaureate degree;

2. Recommendation by the faculty and chair of the student’s department for admission or readmission to graduate studies;

3. Cumulative baccalaureate grade point average of 2.75. However, those students with cumulative baccalaureate grade-point averages from 2.50 to 2.75 may be admitted upon petition and approval of the chair and faculty of the department.

A student becomes a candidate for the master of engineering degree upon admission to graduate studies and initial registration as a graduate student.

Program Requirements
The Master of Engineering in Chemical Engineering degree requires the following over and above the Bachelor of Science in Chemical Engineering Degree.

<table>

The Master of Engineering (MEng) degree must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the Master of Engineering degree must be completed with a 3.00 GPA or better for all academic work attempted in Graduate Studies.

A maximum of eight (8) credit hours of graduate-level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses cannot have been used to also satisfy BS degree requirements.

1. Electives must be chosen so that at least one-half of the total credits counted toward the degree, exclusive of thesis, are 600 level.

2. Technical Electives can be CHE or non-CHE courses. Non-CHE courses must be approved by the student’s research or academic advisor.

3. For the thesis alternative, a student is required to select both an approved MEng thesis topic and the director and members of the thesis committee during the first term of Graduate Studies. The thesis director must give approval for enrollment in CHE 697.
Chemical Engineering (MS)

Master of Science in Chemical Engineering (CHE MS)
Unit: Speed School of Engineering (http://louisville.edu/speed) (GS)
Department/Program Webpage: louisville.edu/speed/chemical

Program Information

General Information
The Master of Science (MS) in Chemical Engineering program is intended for persons having an accredited baccalaureate degree in chemical engineering, but also is available to those with other backgrounds. Applicants with other backgrounds should plan on taking additional undergraduate background coursework.

Students interested in the MS degree program should consult the Director of Graduate Studies in the Department of Chemical Engineering. The University of Louisville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (SACSCOC) to award master’s degrees.

Academic Performance
The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing and satisfaction of degree requirements is 3.00 for all academic work completed while in graduate studies.
2. Any student who does not satisfy the published performance criteria shall be placed in probationary status. Please review the Academic Standing Section (p. 802) within this catalog in regard to Academic Probation.
3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.

All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. Students who seek to return after such a period of time must contact the graduate program director.

Degree Requirements
The following degree requirements are mandatory of all Master of Science candidates:

1. The program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the program of study must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.
2. Master’s degree students must take at least 24 credit hours of course work at the University of Louisville to satisfy the residency requirement for the master's degree. A maximum of six (6) credit hours of graduate credit may be transferred from accredited institutions.
4. Students have six years after admission to the MS program to complete the degree.

The requirements for the Master of Science degree are discussed in more detail in the Degree Requirements (p. 804) section of this catalog.

Admission Standards
The admission standards for the Master of Science program in Chemical Engineering are as follows:

1. All admission applications for the program shall include:
   a. A completed application (http://louisville.edu/graduate/apply) for the School of Interdisciplinary and Graduate Studies,
   b. An application fee,
   c. Results from the Graduate Record Examination (GRE),
   d. At least two letters of recommendation, and
   e. Official transcript(s) for all previous post-secondary coursework. All transcripts not in English must be certified as authentic and translated verbatim into English.
2. The minimum requirement for admission is the baccalaureate degree or its equivalent from an accredited institution.
3. The successful applicant will typically have an undergraduate grade point average of 3.0 or above (on a 4.00 scale).
4. The successful applicant will typically have a GRE combined Verbal and Quantitative Reasoning score of 302 or above.
5. Admission in good standing shall be made only if all admission credentials have been received, evaluated and approved and all academic requirements met including a demonstration of adequate background in foundational subject material. A student may be admitted provisionally if academic requirements are met but application materials are incomplete (usually missing letters of recommendation or official transcripts and/or official score reports). Students have one semester to furnish any credentials missing at the time of admission and may not enroll for a second consecutive term in provisional status.
6. Any conditional acceptance shall be made on an individual basis and shall require a statement of the rationale for the exception, plans for monitoring progress and performance and stated success criteria. Such justification must be provided in writing and must be accepted by the program chair and the Speed School Associate Dean for Academic Affairs.
7. International students whose primary language is not English must show English language proficiency by either TOEFL/IELTS score or demonstration of a degree award from an acceptable English language institution. The successful applicant will typically have a total TOEFL score of 80 or higher or overall IELTS score of 6.5 or higher.

Program Requirements
The minimum curricular requirements for the MS/Master of Science degree program are shown in the table below. For those applicants who, in the opinion of the faculty, do not have a sufficient background, remedial work may be specified.
**Chemical Engineering (PhD)**

**Doctor of Philosophy in Chemical Engineering (CHE PHD)**

Unit: Speed School of Engineering (http://louisville.edu/speed) (GS)  
Department/Program Webpage: louisville.edu/speed/chemical

### Program Information

#### General Information

The PhD degree program is intended for persons having an accredited masters and/or baccalaureate degree in chemical engineering, but is also available to those with other backgrounds. Applicants with other backgrounds should plan on taking some undergraduate background course work. Students interested in the PhD degree program should consult the Director of Graduate Studies in the Department of Chemical Engineering. The University of Louisville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award doctoral degrees.

#### Academic Performance

The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing and satisfaction of degree requirements is 3.00 for all academic work completed while in graduate studies.
2. Any student who does not satisfy the published performance criteria shall be placed in probationary status. Please review the Academic Performance policies (p. 802) within this catalog in regard to Academic Probation.
3. Students receiving graduate assistantships (teaching, research, or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.

All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. Students who seek to return after such a period of time must contact the graduate program director. Students who seek to return after such a period of time must apply for readmission by completing a University of Louisville graduate application. If admitted, the student will be subject to catalog requirements in effect at the time of readmission.

### Degree Requirements

The award of a Doctor of Philosophy degree indicates that a student has attained mastery of a field and has demonstrated the capacity to perform independent scholarly research. The following degree requirements are mandatory of all doctoral candidates:

1. The Program of Study must be completed with a 3.00 GPA or better for all academic work attempted in Graduate Studies.
2. At least two years of study must be spent at the University of Louisville.
3. One year must be spent in full-time residency (a minimum of 18 credit hours within a 12-month period or four terms of continuous part-time enrollment).
4. The applicant for a Doctor of Philosophy degree must pass an oral and/or written qualifying examination.
5. Admission to candidacy must not be later than the end of the ninth month prior to the awarding of the degree. Students enter Doctoral Candidacy upon completion of all course work, qualifying exams, required research credit hours and other co-curricular requirements. Students who are enrolled in Doctoral Candidacy are considered full-time students. Enrollment in Doctoral Candidacy status must be continuously maintained year round (i.e., Fall, Spring, and Summer) until the degree is awarded.
6. A dissertation is required of all candidates.
7. All candidates must pass a final oral examination. This is to be a defense of the dissertation and a demonstration of the candidate's mastery of his/her field.
8. Ordinarily the equivalent of three years of full-time graduate study is a minimum. However, the candidate must complete all requirements for the degree within four calendar years after passing the qualifying examination.

The requirements for the Doctor of Philosophy degree are explained in more detail in the Degree Requirements section (p. 804) of this catalog.

**Minimum Total Hours**

31

1. Electives must be chosen so that at least one-half of the credits counted toward the degree, exclusive of thesis, are 600 level. At least 15 credit hours of coursework must be in Chemical Engineering/CHE.  
2. At least three (3) credit hours of Technical Electives must be from non-CHE courses, and the student's research advisor or academic advisor must approve non-CHE courses.
3. For the thesis option, a student is required to select both an approved MS thesis topic and the director and members of the thesis committee during the first term of Graduate Studies. The thesis director must give approval for enrollment in CHE 690.
Admission Standards

The admission standards for the PhD program in Chemical Engineering are as follows:

1. All admission applications for the program shall include:
   a. a completed application (http://louisville.edu/graduate/apply) for the School of Interdisciplinary and Graduate Studies,
   b. an application fee,
   c. results from the Graduate Record Examination (GRE),
   d. at least two letters of recommendation, and
   e. official transcript(s) for all previous post-secondary coursework. All transcripts not in English must be certified as authentic and translated verbatim into English.

2. The minimum requirement for admission is the baccalaureate degree or its equivalent from an accredited institution or current enrollment in an undergraduate Speed School program.

3. The minimum undergraduate grade point average that will be considered for unconditional acceptance and admission to the program is 3.00 (on a 4.00 scale).

4. The minimum GRE score that will be considered for unconditional acceptance and admission is a combined Verbal and Quantitative Reasoning score 302.

5. Admission in good standing shall be made only if all admission credentials have been received, evaluated and approved and all academic requirements met. A student may be admitted provisionally if academic requirements are met but application materials are incomplete (usually missing letters of recommendation or official transcripts and/or official score reports). Students have one semester to furnish any credentials missing at the time of admission and may not enroll for a second consecutive term in provisional status.

6. Any conditional acceptance shall be made on an individual basis and shall require a statement of the rationale for the exception, plans for monitoring progress and performance and stated success criteria. Such justification must be provided in writing and must be accepted by the program chair and the Speed School Associate Dean for Academic Affairs. This will allow consideration of special circumstances in which the potential for acceptable graduate performance has been clearly demonstrated by other means.

7. International students whose primary language is not English must show English language proficiency by either:
   a. total score of 80 or higher on the Test of English as a Foreign Language (TOEFL) Internet-based test or overall IELTS score of 6.5 or higher, or
   b. successfully completing the exit examination for the advanced level of Intensive English as a Second Language Program at the University of Louisville, or
   c. demonstration of a degree award from an acceptable English language institution.

Graduate Studies - PhD

The PhD program in Chemical Engineering is comprised of 54 credit hours beyond the baccalaureate degree in Chemical Engineering. A student entering the PhD program who already has a master’s degree in Chemical Engineering may have some of the credit hours for that degree counted towards the 54 hours. Remedial work may be specified for applicants who, in the opinion of the faculty, do not have sufficient background.

The normal minimum curricular requirements for the doctoral program are listed below. However, some exceptions are possible at the discretion of the faculty and the Graduate Advisor in unusual situations.

Minimum Total Hours 54

1 At least three (3) credit hours of Technical Electives must be from non-CHE courses, and the student’s research advisor or academic advisor must approve non-CHE courses.

Chemistry (MS)

Master of Science in Chemistry (CHEMMS)

Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences/intro) (GA)
Department: Chemistry (http://louisville.edu/chemistry)
Program Webpage: louisville.edu/chemistry/academics/graduate-studies

Program Information

The Department of Chemistry, in the College of Arts and Sciences, offers graduate programs leading to the MS (thesis and non-thesis options) and PhD degrees in chemistry with options in analytical chemistry, biochemistry, biomolecular structure and engineering, inorganic chemistry, organic chemistry, physical chemistry, and chemical physics.

The general requirements for admission to the School of Interdisciplinary and Graduate Studies, Graduate Admissions, for admission to candidacy, and for the master’s degree are stated in the General Information section of this catalog. The following additional provisions apply to the program leading to the Master of Science in Chemistry.

Program Requirements

The requirements for the Master of Science in Chemistry are as follows:

1. The general requirements as stated in the General Information section of this catalog.
2. Completion of course curriculum as described in the section on program requirements for the PhD degree.
3. Students with a native language other than English must show a proficiency in English. This requirement may be met with a grade of B in ENGL 101 (or equivalent) or an acceptable score on a standardized test (such as the TOEFL or Michigan test).
4. Registration in seminar course CHEM 695 for the first three semesters of graduate study and an acceptable presentation of a one-hour literature seminar on a topic of current chemical interest or related to the student’s area of research. This seminar must be presented no later than the third semester of graduate studies.
5. Completion of a written MS thesis and an oral defense for the thesis option or completion of an original research proposal (ORP) for the non-thesis option.
Admission Requirements

Students seeking a graduate degree in chemistry should meet the following requirements:

1. A BA or BS degree in chemistry or in a related field such as physics, engineering, or mathematics. It is expected that students will have obtained a background in chemistry equivalent to 36 credit hours of undergraduate coursework. Students planning to pursue graduate study in chemical physics may substitute some of the chemistry hours with advanced courses in physics or mathematics beyond those required for a BA or BS in chemistry. Students with inadequate preparation will be required to register for specific courses in the area of deficiency. Some of these courses, subject to approval by the department, may be accepted for graduate credit. Admission to graduate study in chemical physics is made on the recommendation of the entrance committee for that option.

2. A minimum quality point standing of 3.0 on a 4.0 scale.

3. Submission of Graduate Record Examination scores (students with successful admission generally obtain quantitative and verbal scores totaling 1000 or more with an analytical score of 2.5 or totaling 900 or more with an analytical score of 3.0).

4. Students with a native language other than English must show a proficiency in English. This requirement may be met with a grade of B or better in ENGL 101 (or equivalent) or an acceptable score on a standardized test (such as the TOEFL or Michigan test). A B-minus grade in ENGL 101 is unacceptable.

In individual cases, the conditional admission of a student who does not satisfactorily meet the above requirements may be recommended by the department to the School of Interdisciplinary and Graduate Studies. If admission is granted, that student will be subject to those conditions specified by the department or School of Interdisciplinary and Graduate Studies as being necessary to remedy the conditional admission.

Program Requirements

Master of Science (Thesis) in Chemistry

A minimum of 30 credit hours of graduate credit is required. At least 15 credit hours must be in chemistry courses. An overall GPA of 3.0 must be maintained.

Minimum Total Hours  

1 Enrollment in the chemistry research course for the first 3 semesters of graduate study is required.

Chemistry Requirements

1. Courses: Students must pass a minimum of six graduate courses from at least three of six divisions (or research areas) with a minimum grade of "C" in any one course. A "C-" grade is considered unacceptable. The areas are: Analytical Chemistry, Biochemistry, Inorganic Chemistry, Organic Chemistry, Physical Chemistry, and Physics. An overall GPA of 3.0 or greater is required by the School of Interdisciplinary and Graduate Studies. In addition, a GPA of 3.0 or greater is required in lecture courses by the department.

2. Mentor: The research mentor must be selected during the first semester. Students are required to interview a minimum of 3 chemistry faculty (more are recommended) and have them sign the Mentor Selection Form. The student may choose a mentor after obtaining 3 signatures. If the mentor agrees to accept the student, the mentor will initial the Mentor Selection Form and the student should submit it for final approval by the department Director of Graduate Studies.

3. Research: Research credit will be taken through courses CHEM 691 and CHEM 692 with the graduate mentor listed as the instructor.

4. Seminar: Enrollment in the chemistry research course CHEM 695 for the first three semesters of graduate study is required. The student must present a literature seminar related to their research or on a topic of current chemical interest in the second or third semester of his/her program (excluding summer).

5. Thesis Committee: The student will select his/her Thesis Committee in consultation with the research mentor during the first three semesters of study. The committee consists of the research mentor, a chemistry faculty in the same division, a chemistry faculty in a different division and a faculty member from a different department. Students must have each committee member sign the Thesis Committee Form and submit it the chemistry office.

6. Publication: Scientific publication is an important element of graduate education and research. Therefore, it is normally expected that a manuscript based on the student’s research would have been submitted to a peer-reviewed journal by the time of his/her thesis defense. The student’s contribution must be significant to both the scientific content and the manuscript drafting.

7. Thesis: A written thesis describing the research program is submitted within a minimum of seven days before the defense. The defense consists of a seminar open to the public on the thesis project followed by an oral examination with the Thesis Committee.

Master of Science (Non-Thesis) in Chemistry

A minimum total 30 credit hours of graduate credit is required. At least 15 credit hours must be in chemistry courses. An overall GPA of 3.0 must be maintained.

</tbody>
</table>

Minimum Total Hours  

1 Enrollment in the chemistry research course for the first 3 semesters of graduate study is required.

Note: Students in the PhD program will be awarded an MS degree (non-thesis) after successful completion of the Original Research Proposal and other previous requirements.

Chemistry Requirements

1. Courses: Students must pass a minimum of six graduate courses from at least three of six divisions (or research areas) with a minimum grade of C in any one course. A C-minus grade is considered unacceptable. The areas are: Analytical Chemistry, Biochemistry, Inorganic Chemistry, Organic Chemistry, Physical Chemistry, and Physics. An overall GPA of 3.0 or greater is required by the School of Interdisciplinary and Graduate Studies. In addition, a GPA of 3.0 or greater is required in lecture courses by the department.

2. Language: Students with a native language other than English must show a proficiency in English. This requirement may be met with a grade of B in ENGL 101 (or equivalent) or an acceptable score on a standardized test (such as the TOEFL or "Michigan test"). A B-minus in ENGL 101 is considered unacceptable.

3. Mentor: The research mentor must be selected during the first semester. Students are required to interview a minimum of 3 chemistry faculty (more are recommended) and have them sign the Mentor Selection Form. The student may choose a mentor after obtaining 3 signatures. If the mentor agrees to accept the student, the mentor will initial the Mentor Selection Form and the student should submit it for final approval by the department Director of Graduate Studies.

4. Research: Research credit will be taken through courses CHEM 691 and CHEM 692 with the graduate mentor listed as the instructor.

5. Research Proposal: The research proposal serves as the capstone project for the non-thesis MS degree. Students must develop, explain, and defend a research proposal. The proposal can be based on recent literature or the student’s research project (if applicable). The student’s mentor from the chemistry graduate faculty should oversee the proposal committee. The committee consists of the mentor plus two additional chemistry faculty selected by the student in consultation with the mentor.

Chemistry (PhD)

Doctor of Philosophy in Chemistry (CHEMPHD)

Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences/intro) (GA)
Department: Chemistry (http://louisville.edu/chemistry)
Program Webpage: louisville.edu/chemistry/academics/graduate-studies
Program Information

The Department of Chemistry offers graduate programs leading to the MS and PhD degrees in chemistry with options in analytical chemistry, biochemistry, biomolecular structure and engineering, inorganic chemistry, organic chemistry, physical chemistry, and chemical physics.

The general requirements for admission to the School of Interdisciplinary and Graduate Studies, for admission to candidacy, and for the doctoral degree are stated in the appropriate sections of this catalog. The following additional provisions apply to the programs leading to the Doctor of Philosophy in Chemistry.

Admission Requirements

Students seeking a graduate degree in chemistry should meet the following requirements:

1. A BA or BS degree in chemistry or in a related field such as physics, engineering, or mathematics. It is expected that students will have obtained a background in chemistry equivalent to 36 credit hours of undergraduate coursework. Students planning to pursue graduate study in chemical physics may substitute some of the chemistry hours with advanced courses in physics or mathematics beyond those required for a BA or BS in chemistry. Students with inadequate preparation will be required to register for specific courses in the area of deficiency. Some of these courses, subject to approval by the department, may be accepted for graduate credit. Admission to graduate study in chemical physics is made on the recommendation of the entrance committee for that option.
2. A minimum quality point standing of 3.0/4.0.
3. Submission of Graduate Record Examination scores (students with successful admission generally obtain quantitative and verbal scores totaling 1000 or more with an analytical score of 2.5 or totaling 900 or more with an analytical score of 3.0).

In individual cases, the conditional admission of a student who does not satisfactorily meet the above requirements may be recommended by the department to the School of Interdisciplinary and Graduate Studies. If admission is granted, that student will be subject to those conditions specified by the department or School of Interdisciplinary and Graduate Studies as being necessary to remedy the conditional admission.

Program Requirements

A minimum of 30 credit hours of graduate credit is required. At least 15 credit hours must be in chemistry courses. An overall GPA of 3.0 must be maintained. Other master’s degree details are included in the Degree Requirements section (p. 804) of this catalog. Details are given in the current "Graduate School Bulletin."

Courses

Students must pass a minimum of six graduate courses from at least three of six divisions (or research areas) with a minimum grade of C in any one course. A C-minus grade is considered unacceptable. The areas are: Analytical Chemistry, Biochemistry, Inorganic Chemistry, Organic Chemistry, Physical Chemistry, and Physics. For every A-minus grade or better that is received, students with an MS degree may waive one lecture course, up to a maximum of 2 courses.

An overall GPA of 3.0 or greater is required by the School of Interdisciplinary and Graduate Studies. In addition, a GPA of 3.0 or greater is required in lecture courses by the department.

Mentor

The research mentor must be selected during the first semester. Students are required to interview a minimum of 3 chemistry faculty (more are recommended) and have them sign the Mentor Selection Form. The student may choose a mentor after obtaining 3 signatures. If the mentor agrees to accept the student, the mentor will initial the Mentor Selection Form and the student should submit it for final approval by the department Director of Graduate Studies.

Seminar

Enrollment in the chemistry research course (CHEM 695) for the first three semesters of graduate study is required. The student must present a literature seminar related to their research or on a topic of current chemical interest in the second or third semester of his/her program (excluding summer).

Cumulative Exams

Students must complete a series of written cumulative examinations within their division designed to show broad knowledge in their chosen area. Cumulative exams begin in the second semester and are given the third week of January, February, March, September, October, and November. Each division will write a unique exam each month covering topics from undergraduate course content within that division, graduate-level content from the current and prior semester, and content from the current literature and/or departmental seminars. Exams are scored on a scale of 0–3 points in half-point increments. Students must score 2.0 or higher on at least 4 exams and accumulate 11 points within their research division by the end of the 9th consecutive exam to qualify for the PhD program. An absence from an exam, unless excused by the Director of Graduate Studies, is scored as 0 and constitutes an attempt.

Research

Research credit will be taken through courses CHEM 691 and CHEM 692 with the graduate mentor listed as the instructor.

Dissertation Committee

The student will select his/her Dissertation Committee in consultation with the research mentor during the first 4 semesters of study. The committee consists of the research mentor, a chemistry faculty in the same division, a chemistry faculty in a different division, and a faculty member from a different department. Students may add an additional chemistry faculty to the committee if they choose to. Students must have each committee member sign the Dissertation Committee Form and submit it to the chemistry office.

Minimum Total Hours 30

1 Enrollment in the chemistry research course for the first 3 semesters of graduate study is required.

Research Proposal (RP)

The research proposal (RP) must be completed by the end of the 5th semester (excluding summers) without exception. If it is not completed within the 5th semester, the student will not be in good standing and may be dismissed from the program. Evaluation of the RP is made by the student’s graduate advisory committee (dissertation committee), which is chaired by the research mentor. The RP is intended to demonstrate the student's ability to develop, explain, and defend a research idea that the student plans to conduct in the laboratory or on a completely original idea if desired. The proposal should present preliminary results from the student’s research and/or from the literature and develop one original hypothesis fully with an explanation of experimental details and expected results. The student should show how the hypothesis will be tested experimentally and provide plans for different outcomes. The student should also communicate the importance of the work and how it will provide new fundamental knowledge to the field, a solution to an important problem, or a potential application. Students are expected to demonstrate their originality, innovation and understanding of the scientific process. This requirement includes a written research proposal and an oral presentation/examination. The requirements of each are described below.

Written Research Proposal

The written RP is strictly limited to 6 pages (single-spaced, 1-inch margins) including figures, but not including references. Treat the written proposal as if you were actually submitting it as part of a job application or for funding. It should clearly and concisely present your proposed research and why it should be funded. This should include a brief summary and introduction to outline the problem, why it is important, and what progress others in the field have made. It should state a hypothesis that your planned work will test and specific aims of the research. The proposal may provide preliminary data from research or literature and should describe what will be done, why this system was selected, how it will be done, what are the expected results, how success will be determined, and what is the impact if successful. The new proposed work should take up the bulk of the written RP (3–4 pages). The proposal should be well referenced in the style of a major journal in your field. Carefully proofread your proposal and have a trusted friend proofread it as well. Typos, poor grammar, low-quality graphics, and "simple mistakes" detract from your scientific argument and make the work appear sloppy, disorganized, and of low quality. The written RP is to be revised at least once by the research advisor before being submitted to the committee at least one week prior to the oral presentation/examination. The committee may return unsatisfactory written proposals to the student and delay the oral examination until at least one week after an acceptable rewrite is received.

Oral Presentation/Examination

Treat the oral presentation/examination as if the written RP was submitted with a job application and you were called for an interview to present it. Do not assume that everyone knows the proposal as well as you, they don’t. It is your responsibility to present the proposed work in a clear and fluid manner to an audience that is not intimately familiar with your proposal. The presentation should be professional. Expect frequent interruptions during your presentation and be prepared to answer questions on your proposal, techniques related to it, and contributions of others in the field. The oral presentation can be given on PowerPoint, but with no more than 20 slides total (including any supplemental slides). A student failing the oral examination may repeat it only one time, at the discretion of the student’s graduate advisory committee.

The MS degree (non-thesis) will be awarded upon successful completion of the research proposal.

Research

Progress in research will be evaluated by the research mentor in consultation with the Dissertation Committee.

Research Seminar

A one-hour seminar on the student’s dissertation research project is to be given before the end of the 8th semester (excluding summers). This seminar does not require the student to enroll in CHEM 695, but the student should contact the CHEM 695 instructor to schedule a time and date for evaluation criteria. The seminar will be judged as pass/fail.

Publications

It is normally expected that prior to the Research Seminar, at least one manuscript based on the student’s research would have been submitted to a peer-reviewed journal. The student’s contribution must be substantial to both the scientific content and the drafting of the manuscript. At least one research article based on the student’s dissertation research must either be published or accepted for publication in a peer-reviewed journal before scheduling the PhD dissertation defense. It is highly recommended that the student distribute the published manuscript(s) and any submitted manuscripts to the members of her/his Dissertation Committee.

Dissertation

A written dissertation describing the research program is submitted a minimum of 14 days before the defense. The defense consists of a one-credit hour seminar followed by an oral examination with the Dissertation Committee.

Civil Engineering (MEng)

Master of Engineering in Civil Engineering (CE MEN)

Program Information

General Information

The Bachelor of Science in Civil Engineering degree will provide a student with the basis to be able to complete the Master of Engineering (MEng) in Civil Engineering degree. The Master of Engineering in Civil Engineering degree is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

Since the Civil Engineering MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Civil Engineering bachelor degree program at Speed School. Therefore, students who earn an undergraduate degree at a school or university other than the University of Louisville pursue the MS degree instead of the MEng degree.

Master of Engineering Program Educational Objectives

The purpose of the five-year Master of Engineering Program is to bring together the faculty, staff, and capital resources to meet the following program educational objectives:

1. In accordance with our mission statement, provide instruction and associated activities necessary for our graduates to grow from technical competency to professional proficiency
2. Foster an appreciation in our graduates for professional development and life-long learning
3. Provide an educational experience that inspires our graduates to exhibit leadership and team-building skills
4. Promote service by our graduates to the profession, and to society

Master of Engineering Student Outcomes

In order to achieve these objectives, the Master of Engineering has the following outcomes set for its graduates.

1. Develop in students an ability to apply knowledge from math, science and engineering
2. Develop an ability to organize and conduct laboratory and field work
3. Develop an ability to analyze and interpret data
4. Develop student competence in the design of systems, components, and processes to meet specific needs
5. Provide experience and guidance in working on teams, having a diverse technical makeup
6. Train students to identify, formulate, and solve engineering problems
7. Instill in students an understanding of professional and ethical responsibilities, both in education and in practice
8. Develop and practice effective oral communication
9. Develop and practice effective written and graphic communication
10. Provide a breadth of coursework and perspectives which create an understanding of the impact of engineering in society, both local and global
11. Create an awareness in students of the need for life-long learning, whether through formal education or via many other means
12. Expose students to contemporary issues pertinent to the practice of civil engineering
13. Through both instruction and practice, develop in students an ability to use the techniques, skills and modern engineering tools commonly used in civil engineering practice.

Residency
All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. A candidate for the Master of Engineering degree who does not register for credit hours must maintain active registration by paying a fee each semester for MEng residency until the degree is awarded (i.e., the candidate must maintain continuous registration, including summer terms, in Graduate Studies). Failure to pay the MEng residency fee will be cause to cancel a student’s residency. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. In order to be restored to residency, the student must submit a new application, have the recommendation of the department chair, receive the approval of the Associate Dean and pay the fee for each of the semesters during which the residency was void.

Academic Performance
The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing is 3.00 for all academic work completed while in graduate studies.
2. Any student with a cumulative graduate GPA below 3.00 will be placed on academic warning. Students on academic warning are limited to enrollment for 13 credit hours in a fall or spring semester and seven (7) credit hours for summer terms.

   Students who do not bring their cumulative graduate GPA back at or above a 3.00 in the semester immediately following Academic Warning, will be placed on Academic Probation for the next semester of enrollment. Students on probation are limited to enrollment for 13 credit hours in a fall or spring semester and seven (7) credit hours for summer terms. Any student who remains in academic probation for two consecutive terms may be considered for dismissal from the program.
3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.
5. A maximum of eight (8) hours of graduate level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses cannot have been used to also satisfy BS degree requirements.

Degree Requirements
The following degree requirements are mandatory of all master of engineering candidates:

1. The program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the program of study must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.
2. Master’s degree students must take at least 24 credit hours of coursework at the University of Louisville to satisfy the residency requirement for the master’s degree. A maximum of six (6) credit hours of graduate credit may be transferred from accredited institutions.
3. Students following the thesis option must follow the Procedures and Standards for Master of Engineering Theses. The guidelines are located online at louisville.edu/speed/academics/policies/mEngThesisGuidelines.
4. The total requirements must be completed within six years after admission into graduate studies. The time limit imposed by the rule may be extended in individual cases upon recommendation of the department chair and approval of the associate dean for academic and student affairs.
5. The MEng degree cannot be conferred prior to the BS degree.

Admission Standards
Since the Civil Engineering MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Civil Engineering bachelor degree program at Speed School.

The application form is available online at louisville.edu/speed/academics/forms/MEngGraduateStudiesApplication.

The requirements for admission or readmission to a master of engineering program are:

1. Submission of a completed MEng application for the field of specialization in which the student is earning a bachelor degree from the J.B. Speed School of Engineering. Students can be admitted to the MEng program with fewer than 13 credit hours of BS degree requirements remaining and no later than two years post conferral of their baccalaureate degree;
2. Recommendation by the faculty and chair of the student’s department for admission or readmission to graduate studies;
3. Cumulative baccalaureate grade point average of 2.75. However, those students with cumulative baccalaureate grade-point averages from 2.50 to 2.75 may be admitted upon petition and approval of the chair and faculty of the department.

A student becomes a candidate for the master of engineering degree upon admission to graduate studies and initial registration as a graduate student.

Program Requirements
The Master of Engineering in Civil Engineering degree requires the following over and above the Bachelor of Science in Civil Engineering Degree:

MEng Additional Coursework

The Master of Engineering (MEng) degree must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the Master of Engineering degree must be completed with a 3.00 GPA or better for all academic work attempted in Graduate Studies.

A maximum of eight (8) credit hours of graduate-level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses cannot have been used to also satisfy BS degree requirements.

1. Electives must be chosen so that at least one-half of the total credits counted toward the degree, exclusive of thesis, are 600-level. All courses must be at the 500 level or higher.
2. CEE Electives must be approved by the department.
3. Technical Electives can be CEE or non-CEE courses. Technical Electives must be approved by the department.
4. For the thesis option, a student is required to select both an approved MEng thesis topic and the director and members of the thesis committee during the first term of Graduate Studies. The thesis director must give approval for enrollment in CEE 697.

Civil Engineering (MS)

Master of Science in Civil Engineering (CE MS)
Unit: Speed School of Engineering (GS) (http://louisville.edu/speed)
Program Webpage: louisville.edu/speed/civil/

Program Information

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs/index/masters/master-of-science-in-civil-engineering).

The Master of Science (MS) degree program is intended for persons having an accredited baccalaureate degree in civil engineering, but is available to those with other backgrounds. Applicants with other backgrounds should plan on taking some undergraduate background coursework. Students interested in the MS degree program should consult the Director of Graduate Studies in the Department of Civil Engineering. The University of Louisville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award master's degrees.

Academic Performance

The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing and satisfaction of degree requirements is 3.00 for all academic work completed while in graduate studies.
2. Any student who does not satisfy the published performance criteria shall be placed in probationary status. Please review the Academic Standing Section (p. 802) within this catalog in regard to Academic Probation.
3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.

All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. Students who seek to return after such a period of time must contact the graduate program director.

Degree Requirements

The following degree requirements are mandatory of all Master of Science candidates:

1. The program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the program of study must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.
2. Masters students must take at least 24 credit hours of coursework at the University of Louisville to satisfy the residency requirement for the master's degree. A maximum of six (6) credit hours of graduate credit may be transferred from accredited institutions.
4. Student has six years after their admission to the MS program to complete their degree.

The requirements for the Master of Science degree are discussed in more detail in the Degree Requirements (p. 804) section of this catalog.

Admission Standards

The admission standards for the Master of Science program in Civil Engineering are as follows:

1. All admission applications for the program shall include:
   a. A completed application (http://louisville.edu/graduate/apply) for the School of Interdisciplinary and Graduate Studies,
   b. An application fee,
   c. Results from the Graduate Record Examination (GRE),
   d. At least two letters of recommendation, and
   e. Official transcript(s) for all previous post-secondary coursework. All transcripts not in English must be certified as authentic and translated verbatim into English.
2. The minimum requirement for admission is the baccalaureate degree or its equivalent from an accredited institution.
3. The successful applicant will typically have an undergraduate grade point average of 2.75 or above (on a 4.00 scale).
4. The successful applicant will typically have a GRE combined Verbal and Quantitative Reasoning score of 295 or above.
5. Admission in good standing shall be made only if all admission credentials have been received, evaluated and approved and all academic requirements met including a demonstration of adequate background in foundational subject material. A student may be admitted provisionally if academic requirements are met but application materials are incomplete (usually missing letters of recommendation or official transcripts and/or official score reports). Students have one semester to furnish any credentials missing at the
Students interested in the PhD degree program should consult the director of Graduate Studies in the Department of Civil Engineering. The University of Louisville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award doctoral degrees.

Academic Performance
The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing and satisfaction of degree requirements is 3.00 for all academic work completed while in graduate studies.
2. Any student who does not satisfy the published performance criteria shall be placed in probationary status. Please review the Academic Probation section (p. 802) within this catalog in regard to Academic Probation.
3. Students receiving graduate assistantships (teaching, research, or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.

Program Information
General Information
The PhD degree program is intended for persons having an accredited masters and/or baccalaureate degree in civil engineering, but is available to those with other backgrounds. Applicants with other backgrounds should plan on taking some undergraduate background course work. Students interested in the PhD degree program should consult the

Graduate Work
Remedial work may be specified for those applicants who, in the opinion of the faculty, do not have a sufficient background. The minimum curricular requirements for the master's degree program are:

The Master of Science degree must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements and all academic work attempted in Graduate Studies.

1 Electives must be chosen so that at least one-half of the credits counted toward the degree, exclusive of thesis, are 600-level; at least 15 credit hours of coursework must be in CEE.
2 Technical Electives can be CEE or non-CEE courses. Technical Electives must be approved by the department.
3 For the thesis option, a student is required to select both an approved MS thesis topic and the director and members of the thesis committee during the first term of Graduate Studies. The thesis director must give approval for enrollment in CEE 690.

Civil Engineering (PhD)
Doctor of Philosophy in Civil Engineering (CE PHD)
Unit: Speed School of Engineering (http://louisville.edu/speed) (GS) Department/Program Webpage: louisville.edu/speed/civil/

Degree Requirements
The award of a Doctor of Philosophy degree indicates that a student has attained mastery of a field and has demonstrated the capacity to perform independent scholarly research. The following degree requirements are mandatory of all doctoral candidates:

1. The Program of Study must be completed with a 3.00 GPA or better for all academic work attempted in Graduate Studies.
2. At least two years of study must be spent at the University of Louisville.
3. One year must be spent in full-time residency (a minimum of 18 credit hours within a 12-month period or four terms of continuous part-time enrollment).
4. The applicant for a Doctor of Philosophy degree must pass an oral and/or written qualifying examination.
5. Admission to candidacy must not be later than the end of the ninth month prior to the awarding of the degree. Students enter Doctoral Candidacy upon completion of all course work, qualifying exams, required research credit hours and other co-curricular requirements. Students who are enrolled in Doctoral Candidacy are considered full-time students. Enrollment in Doctoral Candidacy status must be continuously maintained year round (i.e. Fall, Spring, and Summer) until the degree is awarded.
6. A dissertation is required of all candidates.
7. All candidates must pass a final oral examination. This is to be a defense of the dissertation and a demonstration of the candidate’s mastery of his/her field.

8. Ordinarily the equivalent of three years of full-time graduate study is a minimum. However, the candidate must complete all requirements for the degree within four calendar years after passing the qualifying examination.

The requirements for the Doctor of Philosophy degree are explained in more detail in the Degree Requirements section (p. 804) of this catalog.

**Admission Standards**

The admission standards for the PhD program in Civil Engineering are as follows:

1. All admission applications for the program shall include:
   a. A completed application (http://louisville.edu/graduate/apply) for the School of Interdisciplinary and Graduate Studies,
   b. An application fee,
   c. Results from the Graduate Record Examination (GRE),
   d. At least two (2) letters of recommendation, and
   e. Official transcript(s) for all previous post-secondary coursework. All transcripts not in English must be certified as authentic and translated verbatim into English.

2. The minimum requirement for admission is the baccalaureate degree or its equivalent from an accredited institution or current enrollment in an undergraduate Speed School program.

3. The successful applicant will typically have an undergraduate grade point average of 3.00 or above (on a 4.00 scale).

4. The successful applicant will typically have a GRE combined Verbal and Quantitative Reasoning score of 295 or above.

5. Admission in good standing shall be made only if all admission credentials have been received, evaluated and approved and all academic requirements met including a demonstration of adequate background in foundational subject material. A student may be admitted provisionally if academic requirements are met but application materials are incomplete (usually missing letters of recommendation or official transcripts and/or official score reports). Students have one semester to furnish any credentials missing at the time of admission and may not enroll for a second consecutive term in provisional status.

6. Any conditional acceptance shall be made on an individual basis and shall require a statement of the rationale for the exception, plans for monitoring progress and performance and stated success criteria. Such justification must be provided in writing and must be accepted by the program chair and the Speed School Associate Dean for Academic Affairs.

7. International students whose primary language is not English must show English language proficiency by either TOEFL/IELTS score or demonstration of a degree award from an acceptable English language institution. The successful applicant will typically have a total TOEFL score of 80 or higher or overall IELTS score of 6.5 or higher.

**Program Requirements**

Normally, it is expected that the student will complete a master’s degree before being admitted to the PhD Program. However, qualified applicants may be admitted directly to the doctoral program after receiving a baccalaureate degree. These students will be required to complete an additional 30 credit hours of coursework at the 500 and 600 level under an individual plan developed in conjunction with the department’s Director of Graduate Studies. Also, remedial work may be specified for those applicants who, in the opinion of the faculty, do not have a sufficient background.

The minimum curricular requirements for the doctoral program are:

<table>

Minimum Total Hours 60

Candidates for the Doctor of Philosophy degree must have a minimum final cumulative grade point average of 3.00 for all academic work attempted in Graduate Studies.

¹ Technical electives can be CEE or non-CEE courses. Technical Electives must be approved by the department.

**Clinical Investigation Sciences (CERT)**

**Graduate Certificate in Clinical Investigation Sciences (CISCCCI)**

Unit: Public Health and Information Sciences (http://louisville.edu/sphis) (GH)
Program Webpage: louisville.edu/sphis/academics/clinical-investigation-sciences

**Program Information**

The Certificate in Clinical Investigation Sciences provides individuals with skills required for a career in a clinical research setting. The curriculum integrates biostatistical and epidemiologic methods. Students pursuing the Certificate take didactic courses while they engage in mentored and independent research that culminates in the preparation of a research paper.

The Certificate in Clinical Investigation Sciences requires completion of 15 credit hours.

**Competencies**

The successful student is able to:

- Address and discuss methods and issues of clinical epidemiology.
- Identify important clinical research questions and state as testable hypotheses.
- Apply the principles of data collection, monitoring, management and analysis within the context of a multidisciplinary team.
- Analyze human subject issues and perform and disseminate clinical research.

It is expected that prior to graduation, students in the program have demonstrated these competencies by completing the curriculum and successfully writing the research paper.
Admission Requirements
Applicants must have completed a baccalaureate degree from an accredited institution with a minimum of 3.0 GPA on a 4.0 scale. Applicants that have had research experience (e.g., research coordinator) or have completed a professional degree (e.g., DMD, DO, MD) are preferred.

Application requirements are submitted to the School of Interdisciplinary and Graduate Studies Graduate Admissions and include:

• Formal application
• Curriculum vitae
• Personal statement: a one-page essay that discusses the student’s background and his or her long-term goals in clinical research
• Application fee
• A minimum of two letters of recommendation
• Official transcripts of all postsecondary coursework
• Official scores on the Graduate Record Examination (GRE) General Test. This requirement may be waived for applicants that have a doctoral degree or who have four or more years of clinical research related experience.

For specific information about the degree program or the application process, students should contact Dr. Paul McKinney, Program Director, (502) 852-3019, or Winton Reynolds, Program Coordinator, (502) 852-1992.

The application for graduate programs at the University of Louisville can be found at: louisville.edu/graduate/apply

Curriculum
The typical progression through the Certificate curriculum is:

• Required Coursework (14 credit hours)
• Complete research paper (1 credit hour)

Minimum Total Hours 15

If a student chooses to pursue the Master of Science in Clinical Investigation Sciences degree at any time after enrolling in or completing the certificate program, then all coursework completed within the preceding five years with a grade of B or better may be applied towards the MSc in CIS degree.

PHPH 699 Mentored Research
Each student in the Certificate Program is required to prepare a research paper as part of the mentored research course. The research paper can be a literature review or a research project. Data collection is not required. The paper is to be submitted in completed form to the program coordinator at least two weeks before the end of the semester in which the candidate expects to graduate.

Clinical Investigation Sciences (MSc)

Master of Science in Clinical Investigation Sciences (CISCMSC)

Unit: Public Health and Information Sciences (http://louisville.edu/sphis) (GH)

Department: Clinical Investigation Sciences

Program Webpage: louisville.edu/sphis/academics/clinical-investigation-sciences

Program Information
The MSc in Clinical Investigation Sciences degree program provides physicians, dentists, nurses and other health professionals an opportunity to acquire the clinical research skills necessary for a career in an academic health center.

The MSc in Clinical Investigation Sciences curriculum integrates biostatistical and epidemiologic methods in a problem-based learning format with additional instruction in several other biomedical and public health topics. Students pursuing the master’s degree take didactic courses while they engage in mentored and independent research that culminates in the preparation of a professional paper.

Competencies
The successful student is able to:

• Access and critique the scientific literature.
• Address and discuss methods and issues of clinical epidemiology.
• Identify important clinical research questions and state as testable hypotheses.
• Develop collaborative clinical research studies in accordance with appropriate epidemiologic and biostatistical methodologies.
• Apply the principles of data collection, monitoring, management and analysis within the context of a multidisciplinary team.
• Disseminate study results to professional and lay audiences through oral and written communication.
• Analyze human subjects’ issues and apply ethical principles in performing and disseminating clinical research.
• Discuss and respond to the legal issues in new drug and device development.

It is expected that prior to graduation, students in the program have demonstrated these competencies by completing the curriculum, participating in a collaborative research project, and successfully writing and defending the professional paper.

Admission Requirements
Applicants must have completed a baccalaureate degree from an accredited institution with a minimum GPA of 3.0 on a 4.0 scale. Applicants that have had research experience (e.g., research coordinator) or have completed a professional doctoral degree (e.g., DMD, DO, MD) are preferred.

Application requirements are submitted to the School of Interdisciplinary and Graduate Studies Graduate Admissions and include:
Program Requirements

31 total credit hours of required coursework

- 19 credit hours of required coursework
- 9 credit hours of elective coursework
- 3 credit hours of mentored research

The following includes all required courses organized by the semester in which they are offered. Some courses are offered in alternating years (see below).

1 PHPH 523 is required of students who do not have a broad exposure to public health through experience or coursework. It is offered only in the Fall. Any student who waives out of the course must replace the two-semester hours with elective coursework.

2 PHPH 632 is offered every other spring semester on even numbered years (2018, 2020, 2022, etc.).

3 PHEP 614 and PHPH 601 are offered every other spring semester on odd numbered years (2019, 2021, 2023, etc.).
The committee schedules an oral examination of the candidate during which the student presents his or her professional paper and is asked to defend it and the supporting research. The professional paper is approved by a majority vote of the committee and by the program director.

Communication (MA)

Master of Arts in Communication (COMMMA)

Unit: College of Arts and Sciences (GA)
Department: Communications
Program Webpage: louisville.edu/communication

Program Information

The Master of Arts in Communication is a 37-credit hour program. It includes 22 credit hours of foundation and core courses, nine hours of electives, and a six (6)-credit hour thesis or non-thesis option. The non-thesis option includes a three (3)-credit hour practicum and an additional three (3)-credit hour elective course.

At least 19 of the 37 credit hours must be in courses at the 600 level.

Upon admission to the program, the student will work with the Director of Graduate Studies to establish a plan of study. After the second semester, students choosing the thesis option will select a mentor who will provide guidance for the thesis and selecting two additional faculty to serve on the thesis committee, one of whom must be outside the Department of Communication. Students choosing the non-thesis option will select a mentor who will provide guidance concerning the practicum and course selection. Students choosing the non-thesis option will take a written comprehensive exam administered by the Communication Department faculty.

Admission Requirements

Applicants need an undergraduate degree in Communication or a related discipline, a 3.0 GPA on a four-point scale, and official GRE scores. Conditional admission is possible for students with lower GRE scores and/or undergraduate GPA.

Application materials include:

- An official copy of university transcripts
- A writing sample
- A personal statement
- Three (3) letters of recommendation
- An application (http://louisville.edu/graduate/apply)
- Application fee

</tbody>
</table>
Experiential Component

The Master of Arts does not require an experiential component. However, students may choose to do a practicum in a private business, community organization, or government agency that deals with communication. Students may complete the practicum in two ways. A student may turn current work or volunteer experience into a research project, or a student not previously affiliated with the practicum site may develop a project useful to the organization. In both cases, the student will work with a Communication Department faculty member to shape the project and will write a formal paper dealing with the project. Students who choose the practicum will be applying knowledge acquired in Communication coursework directly to area needs, thus serving the community and helping to build stronger university/community ties.

Communicative Disorders (MS)

Master of Science in Communicative Disorders (CMDSMS)
Unit: School of Medicine (http://louisville.edu/medicine) (GM)
Department: Communicative Disorders
Program Webpage: louisville.edu/medschool/surgery/com-disorders/slp

Program Information
Speech-Language Pathology at the University of Louisville is a well-established program that provides challenging academic coursework and clinical experience to master's degree candidates. Communicative Disorders is a Division within the Department of Otolaryngology—Head and Neck Surgery and Communicative Disorders in the School of Medicine. The graduate program offers a unique opportunity to pursue a Master of Science degree to students with and without undergraduate degrees in speech-language pathology. The program includes two options or phases: the Preparatory Phase or the Core Phase.

Preparatory Phase
Applications from students without a background in speech-language pathology will be submitted automatically to the Preparatory Phase of the program. The Preparatory Phase is a full-time, seven-semester sequence, beginning each year in the Fall Semester.

Core Phase
Applications from students who currently hold a bachelor's degree in speech-language pathology will be submitted automatically to the Core Phase of the program. The Core Phase is a full-time, five-semester sequence beginning each year in the Fall Semester.

The Council on Academic Accreditation in Audiology and Speech Language Pathology (CAA) of the American Speech Language Hearing Association (ASHA) accredits the program. Graduating students will be eligible to apply for the Certificate of Clinical Competence by ASHA if all requirements are fulfilled.

The program has cooperative arrangements with more than thirty schools, agencies, hospitals, and practice groups in the Kentuckiana region.

Degree Requirements
Candidates for the Master of Science degree in speech pathology must complete at least 54 credit hours at the graduate level, exclusive of credits related to the completion of an (optional) master's thesis, courses
required to complete ASHA certification requirements, and/or coursework related to Kentucky State Teacher Certification.

Please refer to the section on Academic Standing (p. 802) in this catalog entitled “Academic Probation” concerning dismissal/retention in the program.

Pass/Fail Option
In general, students in Speech Pathology may not choose the pass/fail option. Certain courses may be offered with this option at the discretion of the faculty.

Comprehensive Exams
Students will complete an eight-hour written comprehensive examination (across two days) followed by a 45-minute oral comprehensive examination during their last semester of study. The completion and defense of a thesis/research project are encouraged but is optional. The aforementioned written and oral comprehensive exams are not required for thesis/research project students (outside of the defense of their research).

The comprehensive examinations-defense must be completed at least five weeks prior to the completion of the student's graduate program. The student is responsible for becoming familiar with the consequences of failure on the written or oral examinations. This information is available in the student academic policy manual.

Clinical Practicum
The American Speech Language Hearing Association requires a minimum of 400 clock hours of supervised clinical practicum in speech pathology to be eligible for certification. Twenty clock hours must be in the student’s minor area and 325 of the 400 hours must be at the graduate level. All students must have had 25 hours of observation. If they were obtained at the undergraduate level, they are not repeated. The student may spend the last 8 weeks of the program at a clinical site outside the Louisville area.

Certain prerequisites and standards apply to the clinical practicum component of the program, including minimum coursework requirements, mandatory readings, observations, case report formats, and grading criteria. This information is available in the program office and it is the student’s responsibility to become acquainted with these requirements prior to enrolling in clinical practicum.

Falling below a 3.0 average in practicum for two consecutive semesters will result in dismissal from the program. Practicum assignments are made at the faculty’s discretion and with the service needs of the clinic in mind. All practicum work done outside of the main program must be given prior approval by the clinical director.

Admission Requirements
The application deadline for the fall semester is always the preceding February 1st.

The Preparatory Phase and the Core Phase share the following admission criteria and application process, including the application form.

Admission Criteria
- Minimum undergraduate cumulative GPA of at least 3.0 (on a 4.0 scale)
- Successful applicants have a combined GRE score of 300 for Verbal and Quantitative sections using the new GRE conversion tables

Beginning November 1, 2011 (as outlined by the Council of Academic Accreditation in Audiology and Speech Language Pathology)
- IELTS Exam (if necessary) The Graduate Council supported and approved a minimum of 6.5 on the IELTS, International English Language Testing System, as way for graduate applicants to demonstrate English proficiency
- Three supportive letters of recommendation from two academic sources and one personal source. Please use the online recommendation form when completing the application for graduate admission supplied by the School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate), you can follow this link louisville.edu/graduate/apply
- A formal interview may be required of some applicants

Student, faculty, and staff in the program are treated in a nondiscriminatory manner without regard race, sex, age, color, national origin, ethnicity, creed, religion, disability, sexual orientation, gender, gender identity or expression, marital status, pregnancy, veteran status, or political affiliation. The institution and program comply with all applicable laws, regulations, and executive orders pertaining thereeto.

Prerequisite Coursework (http://louisville.edu/medicine/degrees/speechpathology/files/copy_of_RequiredPrerequisiteCoursework.pdf)
Applicants should also consult general graduate admissions and graduation requirements in the University of Louisville Graduate Catalog for further information.

Average Admissions Information
We are frequently asked about the credentials of students who have been admitted to our program. The class beginning Fall 2017 were admitted with the following credentials:

Core Students: MEAN GPA: 3.71 | MEAN GRE Score: 303 | MEAN QUANTITATIVE Score: 152 | MEAN VERBAL Score: 148 | MEAN WRITING Score: 4.0
Prep Students: MEAN GPA: 3.71 | MEAN GRE Score: 303 | MEAN QUANTITATIVE Score: 154 | MEAN VERBAL Score: 149 | MEAN WRITING Score: 4.4

Tuition Information
For more information on tuition at the University of Louisville louisville.edu/finance/bursar/tuition

How to Apply
The Preparatory Phase and the Core Phase use the same application form. Applications of students with Bachelor's degrees in speech-language pathology will automatically be considered for admission to the Core Phase of the program. Applications for students without Bachelor’s degrees in speech-language pathology will be considered for admission to the Preparatory Phase of the program.

Students apply to the program using the University of Louisville, School of Interdisciplinary and Graduate Studies, Graduate Admissions louisville.edu/graduate/apply.

Program Requirements
The graduate program offers a unique opportunity to pursue a Master of Science degree to
students with and without undergraduate degrees in speech-language pathology. The program includes two options or phases: phases. the Preparatory Phase or the Core Phase.

Preparatory Phase
Applications from students without a background in speech-language pathology will be submitted automatically to the Preparatory Phase of the program. The Preparatory Phase is a full-time, seven-semester sequence, beginning each year in the Fall Semester.

Core Phase
Applications from students who currently hold a bachelors’ degree in speech-language pathology will be submitted automatically to the Core Phase of the program. The Core Phase is a full-time, five-semester sequence beginning each year in the Fall Semester.

Program Webpage: louisville.edu/education/degrees/med-ch

Program Information

This program has been suspended to further enrollments. No new applications will be accepted.

Students generally pursue careers at worksites (plan and implement wellness programs to keep employees healthy and maintain a safe work environment), medical services (develop, implement and evaluate...
The University of Louisville

Health promotion programs in hospitals, HMOs, acute care clinics and long-term facilities) and communities (assess needs for health promotion programs, and deliver education programs at various sites in the community, including voluntary health agencies and government-based service programs).

The goal of the health education program is the development and preparation of individuals to be future leaders in a variety of urban settings including public and private corporations and government agencies in the area of health and human performance.

**Admission Requirements**

*This program has been suspended to further enrollments. No new applications will be accepted.*

All candidates must meet the requirements for admission to certain specific programs offered by the College of Education and Human Development. All students applying for a master’s program in education must submit Graduate Record Examination (GRE) scores. Successful applicants have received a combined score of 293 on the verbal and quantitative sections of the GRE and a 4.0 on the Analytical section is required for this program. Some programs may require a higher GRE score. Exit Requirements: Minimum of 3.0 GPA, and two of the following: portfolio, internship, exit exam, research project or thesis.

The Community Health Admissions Screening Committee requires the following materials:

- Transcripts of all undergraduate and graduate work. Minimum cumulative grade point average (GPA) of 2.75 overall.
- GRE scores.
- Test of English as a Foreign Language (TOEFL) score for international students from countries where English is not the native language (students holding a baccalaureate or advanced degree from an accredited institution in the U.S. are exempt from this requirement).
- Two letters of recommendation
- Formal Statement of Purpose

**Exit Requirements**

Student must also satisfactorily complete an exit exam and submit a portfolio of all Hallmark Assessments and internship materials.

**Computer Engineering and Computer Science (MEng)**

*Master of Engineering in Computer Engineering and Computer Science (CECSMEN)*

Unit: Speed School of Engineering (http://louisville.edu/speed) (SP)

Department/Program Webpage: louisville.edu/speed/computer/

**Program Information**

**General Information**

The Bachelor of Science in Computer Engineering and Computer Science degree will provide a student with the basis to be able to complete the Master of Engineering (MEng) in Computer Engineering and Computer Science degree. The Master of Engineering in Computer Engineering and Computer Science degree is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

Since the Computer Engineering and Computer Science MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Computer Engineering and Computer Science bachelor degree program at Speed School. Therefore, students who earn an undergraduate degree at a school or university other than the University of Louisville pursue the MS degree instead of the MEng degree.

**Master of Engineering Program Educational Objectives**

The purpose of the five-year Master of Engineering Program is to bring together the faculty, staff, and capital resources to meet the following program educational objectives:

1. Educate and train MEng graduates with the advanced level academic background and practical engineering experience necessary to function as computer engineering and computer science professionals in a modern, ever-changing world
2. Produce graduates who demonstrate competence by being selected for employment by industrial, academic, or government entities, or pursue further professional/graduate studies
3. Provide our graduates with the foundation for the development of a successful career and with the understanding that life-long learning is necessary to this development
4. Ensure that our graduates understand the broad social, ethical, and professional issues of contemporary engineering practice

**Master of Engineering Student Outcomes**

In order to achieve these objectives, the Master of Engineering has the following outcomes set for its graduates. Graduates will demonstrate:

1. An ability to apply knowledge of mathematics, science, and engineering in the field of computer engineering and computer science
2. An ability to design and conduct experiments, as well as to analyze and interpret data in the field of computer engineering and computer science
3. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and
sustainability in the field of computer engineering and computer science
4. An ability to function on multidisciplinary teams
5. An ability to identify, formulate and solve problems in the field of computer engineering and computer science
6. An understanding of professional and ethical responsibility in the field of computer engineering and computer science
7. An ability to communicate effectively
8. The broad education necessary to understand the impact of computer engineering and computer science in a global, economic, environmental, and societal context
9. A recognition of the need for and an ability to engage in life-long learning in the field of computer engineering and computer science
10. Knowledge of contemporary issues in the field of computer engineering and computer science
11. An ability to use the techniques, skills, and engineering tools for the practice of computer engineering and computer science

Residency
All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. A candidate for the Master of Engineering degree who does not register for credit hours must maintain active registration by paying a fee each semester for MEng residency until the degree is awarded (i.e., the candidate must maintain continuous registration, including summer terms, in Graduate Studies). Failure to pay the MEng residency fee will be cause to cancel a student’s residency. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. In order to be restored to residency, the student must submit a new application, have the recommendation of the department chair, receive the approval of the Associate Dean and pay the fee for each of the semesters during which the residency was void.

Academic Performance
The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing is 3.00 for all academic work completed while in graduate studies.
2. Any student with a cumulative graduate GPA below 3.00 will be placed on academic warning. Students on academic warning are limited to enrollment for 13 credit hours in a fall or spring semester and seven (7) credit hours for summer terms.

Students who do not bring their cumulative graduate GPA back at or above a 3.00 in the semester immediately following Academic Warning, will be placed on Academic Probation for the next semester of enrollment. Students on probation are limited to enrollment for 13 credit hours in a fall or spring semester and seven (7) credit hours for summer terms. Any student who remains in academic probation for two consecutive terms may be considered for dismissal from the program.

3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.

4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.
5. A maximum of eight (8) hours of graduate level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses cannot have been used to also satisfy BS degree requirements.

Degree Requirements
The following degree requirements are mandatory of all master of engineering candidates:

1. The program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the program of study must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.
2. Master’s degree students must take at least 24 credit hours of coursework at the University of Louisville to satisfy the residency requirement for the master’s degree. A maximum of six (6) credit hours of graduate credit may be transferred from accredited institutions.
3. Students following the thesis option must follow the Procedures and Standards for Master of Engineering Theses. The guidelines are located online at louisville.edu/speed/academics/policies/mEngThesisGuidelines.
4. The total requirements must be completed within six years after admission into graduate studies. The time limit imposed by the rule may be extended in individual cases upon recommendation of the department chair and approval of the associate dean for academic and student affairs.
5. The MEng degree cannot be conferred prior to the BS degree.

Admission Standards
Since the Computer Engineering and Computer Science MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Computer Engineering and Computer Science bachelor degree program at Speed School.

The application form is available online at louisville.edu/speed/academics/forms/MEngGraduateStudiesApplication.

The requirements for admission or readmission to a master of engineering program are:

1. Submission of a completed MEng application for the field of specialization in which the student is earning a bachelor degree from the J.B. Speed School of Engineering. Students can be admitted to the MEng program with fewer than 13 credit hours of BS degree requirements remaining and no later than two years post conferral of their baccalaureate degree;
2. Recommendation by the faculty and chair of the student’s department for admission or readmission to graduate studies;
3. Cumulative baccalaureate grade point average of 2.75. However, those students with cumulative baccalaureate grade-point averages from 2.50 to 2.75 may be admitted upon petition and approval of the chair and faculty of the department.
A student becomes a candidate for the master of engineering degree upon admission to graduate studies and initial registration as a graduate student.

**Program Requirements**

The Master of Engineering in Computer Engineering and Computer Science degree requires the following over and above the Bachelor of Science in Computer Engineering and Computer Science Degree.

**Non-Thesis Option:**

| CECS 696 | CECS Project | 3     |
| CECS Elective $^{1,2}$ | CECS Elective | 9     |

Minimum Total Hours: 30

The Master of Engineering degree must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the Master of Engineering degree must be completed with a 3.00 GPA or better for all academic work attempted in Graduate Studies.

A maximum of eight (8) credit hours of graduate-level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses cannot have been used to also satisfy BS degree requirements.

**Academic Performance**

The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing and satisfaction of degree requirements is 3.00 for all academic work completed while in graduate studies.
2. Any student who does not satisfy the published performance criteria shall be placed in probationary status. Please review the Academic Standing Section (p. 802) within this catalog in regard to Academic Probation.
3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.

All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. Students who seek to return after such a period of time must contact the graduate program director.

**Degree Requirements**

The following degree requirements are mandatory of all Master of Science candidates:

1. The program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the program of study must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.
2. Masters students must take at least 24 credit hours of coursework at the University of Louisville to satisfy the residency requirement for the master's degree. A maximum of six (6) credit hours of graduate credit may be transferred from accredited institutions.

4. Student has six years after their admission to the MS program to complete their degree.

The requirements for the Master of Science degree are discussed in more detail in the Degree Requirements (p. 804) section of this catalog.

**Admission Standards**

The admission standards for the Master of Science program in Computer Science are as follows:

1. All admission applications for the program shall include:
   a. A completed application (http://louisville.edu/graduate/apply) for the School of Interdisciplinary and Graduate Studies,
   b. An application fee,
   c. Results from the Graduate Record Examination (GRE),
   d. At least two letters of recommendation, and
   e. Official transcript(s) for all previous post-secondary coursework. All transcripts not in English must be certified as authentic and translated verbatim into English.

2. The minimum requirement for admission is the baccalaureate degree or its equivalent from an accredited institution.

3. The successful applicant will typically have an undergraduate grade point average of 2.75 or above (on a 4.00 scale).

4. The successful applicant will typically have a GRE combined Verbal and Quantitative Reasoning score of 295 or above.

5. Admission in good standing shall be made only if all admission credentials have been received, evaluated and approved and all academic requirements met including a demonstration of adequate background in a foundational subject material. A student may be admitted provisionally if academic requirements are met but application materials are incomplete (usually missing letters of recommendation or official transcripts and/or official score reports).

   Students have one semester to furnish any credentials missing at the time of admission and may not enroll for a second consecutive term unless approved by the program chair and the Speed School Associate Dean for Academic Affairs.

   Any conditional acceptance shall be made on an individual basis and shall require a statement of the rationale for the exception, plans for monitoring progress and performance and stated success criteria. Such justification must be provided in writing and must be accepted by the program chair and the Speed School Associate Dean for Academic Affairs.

7. International students whose primary language is not English must show English language proficiency by either TOEFL/IELTS score or demonstration of a degree award from an acceptable English language institution. The successful applicant will typically have a total TOEFL score of 80 or higher or overall IELTS score of 6.5 or higher.

**Program Requirements**

Remedial work may be specified for those applicants who, in the opinion of the faculty, do not have a sufficient background.

The minimum curricular requirements for the master’s program are:

<table>
<thead>
<tr>
<th>Code</th>

</table>

Minimum Total Hours 30

The Master of Science degree must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements and all academic work attempted in Graduate Studies.

1. One Foundations Course from the list below is required
2. Two Software Courses from the list below are required
3. Two Analytic Courses from the list below are required
4. Electives must be chosen so that at least one-half of the credits counted toward the degree, exclusive of thesis, are 600-level; at least 15 credit hours of coursework must be in CECS.
5. For the thesis option, a student is required to select both an approved MS thesis topic and the director and members of the thesis committee during the first term of Graduate Studies. The thesis director must give approval for enrollment in CECS 690.

Computer Science and Engineering (PhD)

Doctor of Philosophy in Computer Science and Engineering (CSE PHD)
Unit: Speed School of Engineering (https://louisville.edu/speed) (GS) Department: Computer Science and Engineering
Program Webpage (http://louisville.edu/speed/computer)

Program Information

General Information
The PhD degree program is intended for persons having an accredited master’s and/or baccalaureate degree in computer engineering, computer science, or electrical engineering, but is available to those with other backgrounds. Applicants with other backgrounds should plan on taking some undergraduate background coursework.

Students interested in the PhD degree program should consult the Director of Graduate Studies in the Department of Computer Engineering and Computer Science.

Academic Performance
The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing and satisfaction of degree requirements is 3.00 for all academic work completed while in graduate studies.
2. Any student who does not satisfy the published performance criteria shall be placed in probationary status. Please review the Academic Standing section (p. 802) within this catalog in regard to Academic Probation.
3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.

All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. Students who seek to return after such a period of time must contact the graduate program director. Students who seek to return after such a period of time must apply for readmission by completing a University of Louisville graduate application. If admitted, the student will be subject to catalog requirements in effect at the time of readmission.

Degree Requirements
The award of a Doctor of Philosophy degree indicates that a student has attained mastery of a field and has demonstrated the capacity to perform independent scholarly research. The following degree requirements are mandatory of all doctoral candidates:

1. The Program of Study must be completed with a 3.00 GPA or better for all academic work attempted in Graduate Studies.
2. At least two years of study must be spent at the University of Louisville.
3. One year must be spent in full-time residency (a minimum of 18 credit hours within a 12-month period or four terms of continuous part-time enrollment).
4. The applicant for a Doctor of Philosophy degree must pass an oral and/or written qualifying examination.
5. Admission to candidacy must not be later than the end of the ninth month prior to the awarding of the degree. Students enter Doctoral Candidacy upon completion of all coursework, qualifying exams, required research credit hours and other co-curricular requirements. Students who are enrolled in Doctoral Candidacy are considered full-time students. Enrollment in Doctoral Candidacy status must be continuously maintained year round (i.e. Fall, Spring, and Summer) until the degree is awarded.
6. A dissertation is required of all candidates.
7. All candidates must pass a final oral examination. This is to be a defense of the dissertation and a demonstration of the candidate's mastery of his/her field.
8. Ordinarily, the equivalent of three years of full-time graduate study is a minimum. However, the candidate must complete all requirements for the degree within four calendar years after passing the qualifying examination.

The requirements for the Doctor of Philosophy degree are explained in more detail in the Degree Requirements section (p. 804) of this catalog.

Admission Standards
The admission standards for the PhD program in Computer Science and Engineering are as follows:

1. All admission applications for the program shall include:
   a. A completed application (http://louisville.edu/graduate/apply) for the School of Interdisciplinary and Graduate Studies,
   b. An application fee,
   c. Results from the Graduate Record Examination (GRE),
   d. At least two letters of recommendation, and
   e. Official transcript(s) for all previous post-secondary coursework. All transcripts not in English must be certified as authentic and translated verbatim into English.
2. The minimum requirement for admission is the baccalaureate degree or its equivalent from an accredited institution or current enrollment in an undergraduate Speed School program.
3. The successful applicant will typically have an undergraduate grade point average of 3.00 or above (on a 4.00 scale).
4. The successful applicant will typically have a GRE combined Verbal and Quantitative Reasoning score of 295 or above.
5. Admission in good standing shall be made only if all admission credentials have been received, evaluated and approved and all academic requirements met including demonstration of adequate background in foundational subject material. A student may be admitted provisionally if academic requirements are met but application materials are incomplete (usually missing letters of recommendation or official transcripts and/or official score reports).
Students have one semester to furnish any credentials missing at the time of admission and may not enroll for a second consecutive term in provisional status.

6. Any conditional acceptance shall be made on an individual basis and shall require a statement of the rationale for the exception, plans for monitoring progress and performance and stated success criteria. Such justification must be provided in writing and must be accepted by the program chair and the Speed School Associate Dean for Academic Affairs.

7. International students whose primary language is not English must show English language proficiency by either TOEFL/IELTS score or demonstration of a degree award from an acceptable English language institution. The successful applicant will typically have a total TOEFL score of 80 or higher or overall IELTS score of 6.5 or higher.

Program Requirements

Normally, it is expected that the student will complete a master’s degree before being admitted to the PhD Program. However, qualified applicants may be admitted directly to the doctoral program after receiving a baccalaureate degree. These students will be required to complete an additional 30 credit hours of coursework at the 500 and 600 level under an individual plan developed in conjunction with the department’s Director of Graduate Studies.

Also, remedial work may be specified for any applicant who, in the opinion of the faculty, do not have a sufficient background.

The minimum curricular requirements for the doctoral program are:

<table>
<thead>
<tr>

1 Master’s Level Course Work and/or CECS Electives must be chosen so that 18 credit hours of courses are taken in the core areas. Two courses are required in each of two core areas and one course in each of the remaining two core areas. The approved courses for the four core areas are listed below.
Counseling and Personnel Services (MEd)

Master of Education in Counseling and Personnel Services (CPSMED)
Unit: College of Education and Human Development (http://louisville.edu/education)
Department: Counseling and Human Development
Program Webpage: louisville.edu/education/degrees/med-cps

Program Information
The MEd in Counseling and Personnel Services is designed to prepare prospective professionals in a variety of counseling areas:

- Art Therapy
- Clinical Mental Health Counseling
- College Student Personnel
- Counseling Psychology
- School Counseling and Guidance.

Theory and practice are critically important components of the program. Students are required to pursue a logical sequence of study that permits a well-balanced preparation in theory, research, and field experience.

Mission
The mission of the M.Ed. in Counseling and Personnel Services is to prepare scholar practitioners for counseling roles in which they contribute to society in a variety of professional positions. Our graduates support principles of social justice, fairness, and equity in their work; proactively promote the welfare of those they serve; and engage in a lifelong process of educational and professional renewal.

Admission Requirements
Prospective students must submit an online application for admission (https://louisville.edu/graduate/apply) to the School of Interdisciplinary and Graduate Studies.

- The minimum requirement for admission is the baccalaureate degree or its equivalent from an accredited institution. Minimum overall GPA of 2.75, or 2.75 on the last 60 undergraduate hours, is required. Applicants are required to submit all official transcripts from all colleges attended as verification of coursework and degree(s). Applicants who have attended a college or university outside of the United States are also required to submit an evaluation of their transcript through either WES (World Education Services) (http://wes.org) or ECE (Educational Credential Evaluators) (http://ece.org).

Please note that transcript evaluations can sometimes take several weeks.

Please have transcripts sent to:
School of Interdisciplinary and Graduate Studies
University of Louisville
Louisville, KY 40292

If transcripts are sent electronically, please have them sent to the following e-mail: gradadm@louisville.edu

- Each applicant is required to submit at least (2) letters of recommendation from individuals who can speak to the applicant’s academic and/or professional capabilities and potential. Please list the email addresses for two recommenders in the online application. Recommenders will receive instructions and forms that they will complete online.
- Prospective students must submit a professional goal statement [PDF] (http://louisville.edu/education/degrees/forms/med-cps-professional-goal-statement.pdf) not to exceed 750 words. Please upload the cover sheet (see link) along with your goal statement, to the online application.
- The Test of English as a Foreign Language (TOEFL) is required of all applicants from countries in which English is not the native language. Students holding a baccalaureate or advanced degree from an accredited institution in the United States are exempt from this requirement.
- Submission of GRE scores is required. Students may be admitted based upon the strength of the other components in their application package (undergraduate and graduate GPAs, letters of recommendation, professional goal statement, and work experience). Please note: when submitting GRE scores through ETS, have scores sent to the general University of Louisville code, 1838.

Applicants are encouraged to visit the website of the specialization area of interest below for further information about suggested GPA and GRE score requirements, application deadlines, and other specific information related to that specialization area.

Notes: ECPY 674 Practicum in School Counseling must be applied for by March 1 for Fall term and October 1 for Spring term.

1. Students must earn at least a B in ECPY 630 to be eligible to enroll in ECPY 674 Practicum in School Counseling
2. For school counseling certification, a grade of “B” or better is required in ECPY 674 and ECPY 684
3. All students must have liability insurance prior to taking practicum.
4. At any point after admission, the faculty reserve the right to review a student's fitness on the basis of personal characteristics, for continuing in the counseling or student personnel program. Such a review shall be initiated upon written recommendation of two faculty members and shall consist of a review of the student's academic result in a recommendation to the Dean for (1) continuation of the student in the program, (2) continuation for a specified provisional period with specific conditions for continuation thereafter, or (3) dismissal from the program.
5. The program requires the acceptable completion of a program portfolio.
6. The CEHD will be able to recommend the Provisional license and verify completion of coursework for the Standard license, for program completers. In addition, program completers must document at least one year of experience to the KY Education Professional Standards Board to be eligible for the Standard license.
7. Kentucky certified teachers who hold a Rank II will be eligible for a Rank I upon completion of this program.
8. This program must be totally completed and degree awarded to apply for a rank change with the state of Kentucky.

Exit Requirements: To complete the program, students must have a minimum 3.0 GPA. No credit shall be accepted for carrying a grade lower than “C.” This program requires the acceptable completion of a program portfolio.

### American Art Therapy Associate (AATA) Educational Standards

1. History and theory of art therapy
2. Techniques of practice in art therapy
3. Applications of art therapy with people in different treatment settings
4. Group work
5. Art therapy assessment
6. Ethical and legal issues of art therapy practice
7. Standards of practice in art therapy
8. Cultural and social diversity

### Kentucky Board of Licensed Professional Counselors Curriculum Guidelines: ³

1. The helping relationship, including counseling theory and practice
2. Human growth and development
3. Lifestyle and career development
4. Group dynamics, process, counseling, and consulting
5. Assessment, appraisal, and testing of individuals
6. Social and cultural foundations, including multicultural issues
7. Principles of etiology, diagnosis, treatment planning, and prevention of mental and emotional disorders and dysfunctional behavior
8. Research and evaluation
9. Professional orientation and ethics.

### Counseling and Personnel Services (PhD)

**Doctor of Philosophy of Education Counseling and Personnel Services (CPSPHD)**

Unit: College of Education and Human Development ([http://louisville.edu/education](http://louisville.edu/education)) (GE)
Department: Counseling & Human Development ([http://louisville.edu/education/departments/ecpy](http://louisville.edu/education/departments/ecpy))
Program Webpage: louisville.edu/education/degrees/phd-cps

### Program Information

The Doctor of Philosophy in Counseling and Personnel Services encompasses four specialization areas:

- College Student Personnel
- Counseling Psychology
- Counselor Education and Supervision
- Educational Psychology, Measurement, and Evaluation

The doctoral degree is granted in recognition of scholarly proficiency and distinctive achievement in a specific field/discipline. All candidates for a doctoral degree in the College of Education and Human Development must successfully complete qualifying exams and a dissertation/professional portfolio that clearly indicates the candidate has mastered and can exhibit/articulate the content knowledge, skills, and dispositions.
specific to their discipline, and can utilize appropriate research methodologies to contribute to the body of knowledge in their field.

**Distinctive Characteristics of Doctoral Programs in the College of Education and Human Development**

**Social Justice and Equity**
Doctoral students in our program build experience and expertise in the issues of social justice and equity which aligns with our metropolitan mission and focus on student achievement.

**Leadership**
Our doctoral students gain expertise in supervising and leading others to achieve organizational goals and missions, managing complex systems, addressing administrative issues and procedures, conducting research to enhance leadership and teaching others about the art of organizational leadership.

**Practical Experience**
The doctoral program contains practicums, internships, or embedded field experience that aligns with program and career goals. These mentored experiences may include teaching, research, administration or other appropriate areas.

**Scholarship/Research**
An emphasis on scholarship includes experience and mentorship in ethics, publications, presentation, grantsmanship, and other forms of creative activity. The research component is characterized by the development of vertical research teams: senior faculty, junior faculty, doctoral students, master’s students, and in some programs, undergraduate students, working together on research projects and research areas. These may be bolstered by partnerships with local school districts, businesses, or community agencies.

**Admission Requirements**
Prospective students must submit an online application for admission (http://louisville.edu/graduate/apply) to the School of Interdisciplinary and Graduate Studies. Additional requirements are listed below:

- A master’s degree, or its equivalent in a related field, is typically required. However, highly motivated applicants with a strong undergraduate record and a Bachelors degree may also be considered for admission. Applicants are required to submit official transcripts from all higher education institutions attended.
- Three letters of recommendation from individuals who can speak to the applicant’s academic and/or professional capabilities and potential.
- Test scores from the Graduate Record Exam General Test – Verbal, Quantitative, and Analytical Writing are required. Please note: When submitting GRE scores through ETS, have scores sent to the general University of Louisville code, 1838.
- The Test of English as a Foreign Language (TOEFL) is required of all students who completed a degree outside the United States from countries in which English is not the native language. Students holding a baccalaureate or advanced degree from an accredited institution in the United States are exempt from this requirement.
- A statement of professional goals appropriate to pursuing a PhD in the specific area of specialization is required. Applicants should submit a personal statement of approximately 1,500 words outlining their professional goals and how their research and professional interests might align with those of faculty in the department.
- An updated curriculum vitae (CV) or resume

Each application will be evaluated to determine the strength of all components (GRE, undergraduate and graduate GPAs, letters of recommendation, professional goal statement, and work experience) as predictors of successful completion of the program. Applicants are encouraged to visit the website of the specialization area of interest for further information about suggested GPA and GRE score requirements, application deadlines, and other specific information related to that specialization area.

- College Student Personnel
- Counseling Psychology
- Counselor Education and Supervision
- Educational Psychology, Measurement, and Evaluation

**Program Requirements**
The Doctor of Philosophy in Counseling and Personnel Services encompasses four specialization areas. For specific coursework, see Specialization Requirements section.

- College Student Personnel
- Counseling Psychology
- Counselor Education and Supervision
- Educational Psychology, Measurement, and Evaluation

All ECPY doctoral programs require courses in the following areas:

- **Specialty** – Specialty courses are designed to prepare the student for work within their selected professional field.
- **Research Methodology** – The research component prepares students to examine research within the professional area as well as contribute to the existing research.
- **Electives** – Elective courses are selected in concert with advisor and program committee with consideration to the student’s background, interests, and professional goals.

Each doctoral program will have additional requirements related to their program of study.

All candidates for a doctoral degree must successfully complete qualifying exams and a dissertation/professional portfolio that clearly indicates the candidate has mastered and can exhibit/articulate the content knowledge, skills and dispositions specific to their discipline, and can utilize appropriate research methodologies to contribute to the body of knowledge in their field.

**Specialization Requirements**

**Specialization in Counselor Education and Supervision**

Master’s Degree prerequisite + 60 credit hours minimum: The Student and Committee must develop courses, programs and experiences that clearly identify and address the specific themes of Leadership, Scholarship, Social Justice and Equity. These areas of emphasis must have descriptive competencies that the student should attain and the Committee can assess.
Specialization in Counseling Psychology

The Student and Committee must develop courses, programs, and experiences that clearly identify and address the specific themes of Leadership, Scholarship, Social Justice and Equity. These areas of emphasis must have descriptive competencies that the student should attain and the Committee can assess.

Specialization in Educational Psychology, Measurement, and Evaluation

The Educational Psychology, Measurement, and Evaluation (EPME) specialization requires a minimum of 90 graduate credit hours distributed in the following areas of study: specialty components, research methodology, and electives. Equivalent courses taken in a master’s program may be substituted for required courses with advisor and program committee approval.

At least 45 of the 90 hours must be earned at UofL. These 45 hours include 18 credit hours fulfilling residency and 12 credit hours required for dissertation research.

The Student and Committee must develop courses, programs and experiences that clearly identify and address the specific themes of Leadership, Scholarship, Social Justice and Equity. These areas of emphasis must have descriptive competencies that the student should attain and the Committee can assess.

Criminal Justice (MS)

Master of Science in Criminal Justice (JA MS)
Unit: College of Arts and Sciences (GA) (http://louisville.edu/artsandsciences)
Department: Criminal Justice (http://louisville.edu/justice/graduate-degree-programs/master-of-science-in-criminal-justice)
Program Webpage (https://louisville.edu/justice)

Program Information

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs/index/masters/master-of-science-in-criminal-justice).

The goals of the Department of Criminal Justice are for students to achieve a sound liberal arts education and a specialized understanding of the criminal justice system, criminal behavior, legal processes and the relationship of these phenomena to society.

Graduate studies in the Department of Criminal Justice provide students with advanced social and behavioral science skills as well as a detailed and thorough understanding of crime, criminal justice and related processes. Graduates of this program are prepared to continue advanced studies in criminal justice or other social sciences and to assume mid and upper-level leadership positions within criminal justice programs and agencies.

The interdisciplinary nature of the program maintains the dynamic posture that allowed this crime-related discipline to emerge and to mature quickly and successfully. Graduate students are given latitude in choosing elective courses in the Master of Science in Criminal Justice. Elective courses related to the student’s program of study are selected
from the resources of the entire University. Courses in social work, public administration, law, business, and the various departments of the College of Arts and Sciences are possible electives that the student and his or her advisor may consider. With proper selection, the electives can complement the core criminal justice courses and produce a balanced, interdisciplinary program which is tailored to meet specific professional and career goals.

The combination of the degree programs and the Southern Police Institute makes the program in Criminal Justice a unique blend of theory and practice. The Southern Police Institute is one of the oldest, most respected police management and administration educational programs in the United States.

Our programs are offered in two formats:

• evening courses on campus, and
• on-line via the internet

**General Requirements**

The general requirements for the Master of Science degree in Criminal Justice are the completion of at least 36 graduate credit hours. The completion of these credit hours may include either thesis or non-thesis option. The thesis option requires the completion of 30 semester hours of graduate level courses and a thesis for a total of 36 credit hours. The non-thesis professional paper option requires the completion of 33 semester hours of graduate courses plus a professional paper for a total of 36 credit hours. A cumulative 3.0 grade point average must be maintained for all graduate coursework, grades of “D” must be repeated. Students are advised to complete the Criminal Justice core courses prior to electives. Core or specific courses required for graduation total 15 credit hours with the remaining courses being electives. The composition of the list of elective courses will vary from student to student depending on the student’s undergraduate major, aspirations and background. Electives outside of our department must have approval from the Director of Graduate Studies.

The degree is offered in two formats, our traditional on-campus classes and also online. Students interested in either format should see the department website (http://louisville.edu/justice/graduate-degree-program) for more information.

Students may choose either format or a combination of both methods of delivery.

**Accelerated BS-MS in Criminal Justice**

The Accelerated BS-MS degree program in Criminal Justice is designed to allow an undergraduate student to earn graduate hours in Criminal Justice during Senior year. Students will be allowed to earn up to 9 hours that can be applied to both their undergraduate degree (BS) and their graduate degree (MS) in Criminal Justice.

These students could enroll in a combination of the following core courses from the MS program in Criminal Justice:

• CJ 621 The Criminal Justice System
• CJ 643 Theories of Crime and Delinquency
• CJ 649 Applied Statistics in Criminal Justice
• CJ 650 Research Methods

Students in the Accelerated BS-MS program in Criminal Justice may only apply their graduate credits earned as an undergraduate at UofL toward the degree program.

Students must apply during the first or second semester of the Junior year (usually when they have earned between 70-80 hours). Applicants must have at least a 3.0 GPA at the time of application.

**Admission Requirements**

Anyone seeking admission to the Master of Science in Criminal Justice degree program must submit an application to the School of Interdisciplinary and Graduate Studies that includes the following:

• Transcripts of all undergraduate and graduate work completed. The minimum requirement for admission is the Baccalaureate degree or its equivalent.
• Two letters of recommendation from individuals who can speak to the applicant’s academic or professional capabilities.
• Scores on the General Test Section of the Graduate Record Examination (GRE).
• An original essay identifying the applicant’s background, professional interests and goals. The essay should be 300-500 words and should allow the faculty to better understand the applicant’s motivation and the potential for graduate work.
• Completed application to the School of Interdisciplinary and Graduate Studies, Graduate Admissions, the University of Louisville at louisville.edu/graduate/apply/.
• Those applicants whose native language is not English and who do not hold a degree from a university where the language of instruction is English must also submit scores from the Test of English as a Foreign Language (TOEFL), with a minimum score of 80 on the Internet-based test (iBT) or 213 paper based test (PBT) or 550 (old test).

The Department of Criminal Justice is committed to providing an opportunity to a diverse range of students. The Department of Criminal Justice has adopted the Council of Graduate Schools recommendation for a holistic approach to our admission criteria. Successful applicants will typically have strong scores on the standardized tests, a strong undergraduate record, and excellent letters of recommendation that speak to the nominee’s scholarly ability and potential to succeed in a doctoral program. However, candidates may have other documented strengths that speak to the potential for success as evidenced by: prior research experience; exceptional community engagement or service; leadership experience; evidence of creativity or resilience; unique experiences or background that will contribute to our program.

The holistic review of applications allows our faculty to select the best students who fit the research areas offered within the department. Application information that highly influences the decision to offer admission includes the previous institution attended, research interests, grade point average, GRE scores, letters of recommendation, personal statements and resumes, and the experience, background or qualities that make the applicant eligible for admission.

**Degree Requirements**

A cumulative 3.0 grade point average must be maintained for all graduate coursework, grades of “D” must be repeated.
Students are advised to complete the Criminal Justice core courses prior to electives. Core or specific courses required for graduation total 15 credit hours with the remaining courses being electives or research.

**Criminal Justice (PhD)**

**Doctor of Philosophy in Criminal Justice (JA PHD)**

Unit: College of Arts and Sciences (GA)
Department: Criminal Justice
Program Webpage: louisville.edu/justice/

**Program Information**

The Department of Criminal Justice offers a Doctor of Philosophy in Criminal Justice. The PhD in Criminal Justice is a degree that prepares graduates for careers in academic (e.g., teaching and research) as well as public sector (e.g., research, policy analysis and development, planning, program development and evaluation) organizations.

The program consists of a core curriculum and electives that students may use to develop their particular areas of specialization. The core provides a broad orientation and the electives enable students to develop expertise in a particular field. The curriculum includes 54 credit hours: 18 credit hours of core courses, 18 credit hours of specialization courses, 6 credit hours of qualifying project, and 12 credit hours of dissertation research. Students qualify for official candidacy to the PhD by satisfactorily completing all course work and the qualifying project.

**Admission Requirements**

- Completed application form
- Transcripts of previous undergraduate and graduate study
- Graduate Record Examination (GRE) scores
- Three letters of recommendation
- Personal statement
- Writing sample
- Curriculum vitae (CV) or resume

Additionally, applicants must show evidence, on their transcript, of the completion of both graduate-level statistics and research methods courses. The Department of Criminal Justice has adopted the Council of Graduate Schools recommendation for a holistic approach to our admission criteria. Successful applicants will typically have strong scores on the standardized tests, a strong undergraduate and master’s
degree record, and excellent letters of recommendation that speak to the nominee's scholarly ability and potential to succeed in a doctoral program. However, candidates may have other documented strengths that speak to the potential for success as evidenced by: prior research experience; exceptional community engagement or service; leadership experience; evidence of creativity or resilience; unique experiences or background that will contribute to our program. The holistic review of applications allows our faculty to select the students who best fit the research areas offered within the department.

Those applicants whose native language is not English and who do not hold a degree from a university where the language of instruction is English must also submit scores from the Test of English as a Foreign Language (TOEFL), with a minimum score of 80 on the Internet-based test (iBT) or 213 paper-based test (PBT) or 550 (old test).

Both full and part-time study is permitted. Part-time students are required to meet residency requirements consisting of 4 continuous semesters of enrollment and participation in departmental activities offered to meet the need for scholarly integration and academic immersion in the program.

Curriculum and Instruction (PhD)

Doctor of Philosophy in Curriculum and Instruction (C&I PhD)

Unit: College of Education and Human Development (GE)
Department: Early Childhood and Elementary Education, Middle and Secondary Education, and Special Education
Program Webpage: louisville.edu/education/degrees/phd-ci

Program Information

The doctoral degree is granted in recognition of scholarly proficiency and distinctive achievement in a specific field/discipline. All candidates for a doctoral degree in the College of Education and Human Development must successfully complete qualifying exams and a dissertation/professional portfolio that clearly indicates the candidate has mastered and can exhibit/articulate the content knowledge, skills, and dispositions specific to their discipline and can utilize appropriate research methodologies to contribute to the body of knowledge in their field.

Areas of Emphasis within the Doctoral Program in Curriculum and Instruction

A master's degree in a related field is a required prerequisite to the Doctoral Program in Curriculum and Instruction. All students must meet competencies in research, teaching and teacher education, and stewardship of the profession. Students also choose one of the following areas of emphasis and develop knowledge specific to their discipline.

- The Languages, Literacies, Cultures, and Communities (L2C2) emphasis operates on the belief that languages, literacies, cultures, and communities are powerful, transformative, political, and multimodal. Faculty are committed to creating opportunities to think and investigate teaching and learning across the lifespan (both in and out of school settings) from a critical sociocultural perspective.

The L2C2 emphasis provides a wide variety of courses and experiences focused on theory, research, equity, and practice related to identities, diversity, oral and written language, and culture. This includes the study of reading and writing processes, culturally sustaining pedagogies, digital literacies, early childhood education, and discourse analysis, among many.

- The Science, Technology, Engineering, and Mathematics (STEM) program emphasis offers a wide variety of courses and experiences focused on theory, research, equity, and practice in STEM education.

By studying and engaging in research and teaching with nationally-recognized leaders in mathematics or science education, students develop expertise in 1) how P-20 students think and learn, 2) how educators facilitate that learning, and 3) how to conduct scholarly investigations to answer important STEM education questions.
The Special Education emphasis adheres to the principle of evidence-based practice. Faculty believe that all students can learn, regardless of ability or disability, and practice must be grounded in the best available scientific evidence.

Students in the Special Education emphasis will develop skills in generating new knowledge through conducting research so that they can add to the evidence base. They will also enhance their ability to synthesize existing evidence and translate research into practice by teaching preservice teachers, providing professional development in schools, and authoring practitioner-focused publications.

**Distinctive Characteristics of Doctoral Programs in the College of Education and Human Development**

**Social Justice and Equity**

Doctoral students in our program build experience and expertise in the issues of social justice and equity which aligns with our metropolitan mission and focus on student achievement.

**Leadership**

Our doctoral students gain expertise in supervising and leading others to achieve organizational goals and missions, managing complex systems, addressing administrative issues and procedures, conducting research to enhance leadership and teaching others about the art of organizational leadership.

**Practical Experience**

The doctoral program contains practicums, internships, or embedded field experience that aligns with program and career goals. These mentored experiences may include teaching, research, administration or other appropriate areas.

**Scholarship/Research**

An emphasis on scholarship includes experience and mentorship in ethics, publications, presentation, grantsmanship, and other forms of creative activity. The research component is characterized by the development of vertical research teams: senior faculty, junior faculty, doctoral students, master’s degree students, and in some programs, undergraduate students, working together on research projects and research areas. These may be bolstered by partnerships with local school districts, businesses, or community agencies.

**Admission Requirements**

**Application Deadlines**

There are four annual admission deadlines. Depending on specific individual goals and situations, different deadlines may be more relevant for you.

**Fall semester start, full-time status with Graduate Assistantship funding possibilities:**

- November 1

Graduate Assistantships (http://louisville.edu/education/financialaid/assistantships) (GA) and University Fellowships (http://louisville.edu/graduate/current-students/funding-opportunities/university-fellowships) are competitive and awarded to full-time students for the fall semester well in advance—as early as mid-January for Fellowships—and typically by late March or April for Graduate Assistantships. Applications for both should be submitted by the November 1 deadline.

Specify the subsequent fall semester as your intended start date on the application. Indicate interest in assistantships on your Statement of Purpose.

**Part-time doctoral student work or otherwise not interested in Graduate Assistantship funding:**

- November 1 - Spring semester start (or later semester as indicated on application)
- February 15 - Summer semester start (or later semester as indicated on application)
- May 1 - Fall and Late Summer semester start (or later semester as indicated on application)

Members of the Curriculum and Instruction PhD admissions committee evaluate all applications after the appropriate admission deadline. Admission decisions are made by the professional judgment of the admissions committee according to established criteria. Admission to the program is competitive and preference is given to applicants who have strong academic records, experiences, and abilities that show demonstrated excellence in professional performance and research potential. All applicants will be notified in writing regarding their admission; typically this notification occurs approximately three weeks after the admissions deadline.

To be considered for admission, all materials must be submitted prior to the admission committee’s review. If materials are incomplete, applicants will be notified and may submit again during the next review.

**Please note:** Application for admission consists of two parts:

1. Documents submitted to the University of Louisville for Graduate Admission, and
2. Materials submitted directly to the PhD Curriculum and Instruction program by the established deadline date.

See the Application Process Overview [PDF](http://louisville.edu/education/degrees/phd-ci/files/phd-ci-application-process-overview.pdf) document for details.

**Admission Materials**

- Graduate Application (online University of Louisville Graduate Application) (http://louisville.edu/graduate/apply)
- Three Letters of Recommendation [PDF](https://sharepoint.louisville.edu/sites/SIGS/Documents/grad-rec.pdf) (see Directions for Applying (https://louisville.edu/graduate/futuresstudents/application-directions) for more information). If you have recommendation letters on file from a previous University of Louisville program application, you will need three new letters of recommendation for this application that speak to your potential in a doctoral program. In addition to the standard University form linked above, please have these individuals submit letters with supporting details for the recommendation. At least one of the three recommendation letters you choose should come from someone familiar with the rigor and requirements of a doctoral program.
- GRE scores (required - see Directions for Applying for more information). The Curriculum & Instruction Doctoral Committee takes a holistic approach to the evaluation of applications, and while GRE scores are one part of the application package, they do not determine admission (i.e., very high scores do not guarantee admission, and low scores do not preclude admission). The holistic approach takes into account all aspects of a student’s application (written statement, letters of recommendation, transcripts, test scores), and faculty
evaluate those pieces of evidence against two broad concerns: (a) is the student prepared for doctoral study, and (b) is the student likely to successfully complete the doctoral program in Curriculum & Instruction?

Please note: when submitting GRE scores through ETS, have scores sent to the general University of Louisville code, 1838. Online Guide to taking the GRE (http://www.onlinecolleges.net/for-students/gre-test-guide)

• TOEFL scores for non-native speakers of English (if needed - see Directions for Applying for more information)
• Transcripts from each college you have attended other than the University of Louisville. Have all official non-University of Louisville transcripts sent to the Graduate school.
• Statement of Purpose [PDF] (http://louisville.edu/education/degrees/phd-ci/files/phd-ci-statement-of-purpose.pdf) To assist applicants with the process of crafting a strong Statement of Purpose, in addition to the directions on the Statement of Purpose document, an Annotated Exemplar of Statement of Purpose [PDF] (http://louisville.edu/education/degrees/files/phd-ci-annotated-exemplar-of-statement-of-purpose.pdf) is provided here for guidance. This document provides detailed annotated notes about the strengths of a particular example Statement of Purpose.
• Interview Guidelines and Advisor Signature [PDF] (http://louisville.edu/education/degrees/files/phd-ci-interview-guidelines-advisor-signature.pdf). The process of mutually identifying a faculty member who agrees to serve as your doctoral advisor includes an applicant-initiated two-way interview process. As noted on the linked form, faculty with whom you interview in the process of identifying an appropriate advisor are requested to submit input to the admissions committee – such input becomes a portion of the evidence with which the admissions committee will make an admission decision.
• Resume or Curriculum Vitae [PDF] (http://louisville.edu/education/degrees/files/phd-ci-resume-or-curriculum-vita.pdf)

Degree Requirements

Master's Degree Prerequisite + 60 Credit Hours PhD Coursework Minimum

The student and committee must develop courses, programs, and experiences that clearly identify and address the specific themes of Leadership, Scholarship, Social Justice, and Equity. These areas of emphasis must have descriptive competencies that the student should attain and the committee can assess.

Cybersecurity (CERT)

Graduate Certificate in Cybersecurity (NIS CNSSPO)

Unit: Speed School of Engineering (GS)

Department: Computer Engineering and Computer Science

Program Webpage (https://louisville.edu/speed/computer/graduate-studies/networkAndInfoSecurity)

Program Information

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs).

The graduate certificate in Cybersecurity is designed for advanced computer professionals who wish to strengthen their knowledge and skills in the fast-changing field of cybersecurity, as well as students majoring in disciplines other than Computer Engineering and Computer Science who want to gain knowledge and skills in cybersecurity.

The Cybersecurity graduate certificate program consists of 12 credit hours with two required courses from Computer Engineering and Computer Science department and two elective courses selected from a list of relevant elective courses in Computer Engineering and Computer Science department.

As networking technology continues to rapidly advance, so do new and sophisticated threats and attacks to the nation's information infrastructure. The Graduate Certificate in Cybersecurity from the University of Louisville will prepare you to respond to these challenges, training you to monitor and identify cybercriminals.

Admission Requirements

The admission standards for the Graduate Certificate program in Data Science are as follows:

1. All admission applications for the Graduate Certificate program shall include the following:
   a. Completed application (http://louisville.edu/graduate/futurestudents/apply-materials/application) for the School of Interdisciplinary and Graduate Studies,
   b. Application fee,
   c. Official transcript(s) for all previous post-secondary coursework.
      All transcripts not in English must be certified as authentic and translated verbatim into English.

2. The minimum requirement for admission is the baccalaureate degree or its equivalent from an accredited institution or current enrollment in an undergraduate Speed School program.

3. The successful applicant will typically have an undergraduate grade point average of 2.75 or above (on a 4.00 scale).

4. International students whose primary language is not English must show English language proficiency. Applicants must either submit an official TOEFL or IELTS score or demonstrate a degree award from an acceptable English language institution. The successful applicant
A total of 12 credit hours are required with 2 required courses and 2 elective courses.

Minimum Total Hours 12

**Data Science (CERT)**

**Graduate Certificate in Data Science (DTMGCDSMO)**

Unit: Speed School of Engineering (https://louisville.edu/speed) (GS)
Department: Computer Engineering and Computer Science

Students enrolling in this graduate certificate program will need to have sufficient background to be successful. Therefore, students must have completed the required course prerequisites, or have equivalent knowledge from courses taken at other universities, or from work experience. Prerequisites include courses (or equivalent) such as CECS 130, CECS 310, and CECS 503.

Students can enroll in a Graduate Certificate program either as a non-degree seeking student or as a student simultaneously enrolled in a graduate degree program and this graduate certificate program. Students who wish to earn a graduate degree must meet all admission criteria for the degree program.

All students enrolled in a graduate certificate program are expected to make steady and satisfactory progress toward the completion of the certificate. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the certificate program. Students who seek to return after such a period of time must contact the graduate program director.

**Program Requirements**

A total of 12 credit hours are required with 2 required courses and 2 elective courses.

**Certificate Requirements**

The following certificate requirements are mandatory for all Graduate Certificate candidates:

1. The Certificate Program of Study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy certificate requirements.
2. Graduate certificate students must take all certificate course work at the University of Louisville. No transfer credits will be accepted toward a graduate certificate.

**Program Information**

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs).

To address the need for trained professionals in the interdisciplinary field of data mining, the Department of Computer Engineering and Computer Science and the Department of Mathematics faculty have developed a joint certificate program in data mining. The certificate will consist of 18 credit hours, with three required courses from Computer Engineering and Computer Science and three elective courses selected from a list of relevant elective courses in Computer Engineering and Computer Science and Mathematics.

**Admission Requirements**

The admission standards for the Graduate Certificate program in Data Science are as follows:

1. All admission applications for the Graduate Certificate program shall include:
   a. A completed application (http://louisville.edu/graduate/apply) for the School of Interdisciplinary and Graduate Studies
   b. Application fee
   c. Official transcript(s) for all previous post-secondary coursework. All transcripts not in English must be certified as authentic and translated verbatim into English.
2. The minimum requirement for admission is the baccalaureate degree or its equivalent from an accredited institution or current enrollment in an undergraduate Speed School program.
3. The successful applicant will typically have an undergraduate grade point average of 2.75 or above (on a 4.00 scale).
4. International students whose primary language is not English must show English language proficiency. Applicants must either submit an official TOEFL or IELTS score, or demonstrate a degree award from an acceptable English language institution. The successful applicant will typically have a total TOEFL score of 80 or higher or an overall IELTS score of 6.5 or higher.

Students can enroll in a Graduate Certificate program either as a non-degree seeking student or as a student simultaneously enrolled in a graduate degree program and this graduate certificate program. Students who wish to earn a graduate degree must meet all admission criteria for the degree program.

All students enrolled in a graduate certificate program are expected to make steady and satisfactory progress toward the completion of the certificate. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the certificate program. Students who seek to return after such a period of time must contact the graduate program director.

**Certificate Requirements**

The following certificate requirements are mandatory of all Graduate Certificate candidates:

1. The Certificate Program of Study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy certificate requirements.
2. Graduate certificate students must take all certificate course work at the University of Louisville. No transfer credits will be accepted toward a graduate certificate.

Dentistry (MSD)

Master of Science in Dentistry (MSD)
Unit: School of Dentistry (https://louisville.edu/dentistry)
Program Webpage (https://louisville.edu/dentistry/residency)

Program Information

The School of Dentistry offers a program of study leading to the Master of Science Degree in Dentistry for postgraduate students/residents enrolled in Advanced Specialty Certificate Programs in Endodontics, Orthodontics, Pediatric Dentistry, Periodontics, and Prosthodontics.

The courses for the Master of Science in Dentistry will total 31 credit hours. The curriculum is at least 19 credit hours (11 core and 8 selective courses), plus credit for research and thesis/publication (minimum 12 hours). In addition, depending on the specific accreditation requirements of the specialty, either two or three years of clinical training are required.

The credit hours needed to complete the MSD and the certificate are listed below.

The School of Dentistry post-professional Master of Science in Dentistry with Specialty Certificate programs offer didactic and clinical training leading to certification in the specific dental specialty area. Completion of an accredited certificate program allows the student to be recognized by state boards of dentistry and by the respective specialty boards as eligible for specialty board examination and specialty dental licensure.

These programs help to develop skillful clinicians and researchers for careers in academic dentistry or private practice in the specialty areas of Endodontics, Orthodontics, Pediatric Dentistry, Periodontics and Prosthodontics. Excellent training in clinical dentistry, teaching skills, and the process and interpretation of biomedical research is essential to equip tomorrow's specialists with the proper scientific background to deal with the changes and challenges inherent in a profession undergoing rapid scientific advancement. These postgraduate students are exposed to a wide variety of clinical techniques by a group of highly qualified faculty with diverse training and varied backgrounds. The philosophy of the programs is that clinical excellence is based on technical proficiency, expert diagnostic skills and broad-based knowledge of the specific specialty literature.

The didactic portion of the curriculum explores the concepts, designs, regulation, interpretation, and presentation of modern biomedical research upon which the practice of modern Endodontics, Orthodontics, Pediatric Dentistry, Periodontics, or Prosthodontics is based.

The Master of Science in Dentistry trains students in research concepts allowing them to design and complete a clinical or basic science research project. As a part of this program, the student is guided to design a research project and write a research proposal including any informed consent and data collection forms. The student will then conduct the research project to completion. Federal regulations and University of Louisville policy require that all research involving human subjects or analysis of data gathered from human subjects, regardless of funding status, be reviewed and approved by the IRB prior to the implementation of any research activity. After completion of the research project, the student will present the research project in both oral and written form. The oral presentation (defense) includes a review of the literature relevant to the research project, analysis of all data using appropriate statistical tests, and comparison of the results of the project to similar research in the dental literature. The student will also write a thesis or a paper that is suitable for submission and publication in an appropriate peer-reviewed journal.

Students who are enrolled in Endodontics, Orthodontics, Pediatric Dentistry, Periodontics, or Prosthodontics will complete the requirements for the Master of Science in Dentistry in conjunction with the awarding of the specialty certificate.
Program Descriptions

MSD/Endodontics
Endodontics is the branch of dentistry which is concerned with the morphology, physiology, and pathology of the human dental pulp and tissues around the tooth root. Its study and practice encompass the basic and clinical sciences, including biology of the normal pulp, the etiology, diagnosis, prevention and treatment of diseases and injuries of the pulp and associated conditions occurring around the tooth root.

MSD/Orthodontics
Orthodontics is the dental specialty that includes the diagnosis, prevention, interception, and correction of malocclusion of the teeth, as well as neuromuscular and skeletal abnormalities of the developing or mature orofacial structures.

MSD/Pediatric Dentistry
Pediatric Dentistry is an age-defined specialty that provides both primary and comprehensive preventive and therapeutic oral health care for infants and children through adolescence, including those with special health care needs.

MSD/Periodontics
Periodontics is that specialty of dentistry which encompasses the prevention, diagnosis, and treatment of diseases of the supporting and surrounding tissues of the teeth or their substitutes and the maintenance of the health, function and esthetics of these structures and tissues.

MSD/Prosthodontics
Prosthodontics is the dental specialty pertaining to the diagnosis, treatment planning, rehabilitation and maintenance of the oral function, comfort, appearance and health of patients with clinical conditions associated with missing or deficient teeth and/or oral and maxillofacial tissues using biocompatible substitutes.

Admission Requirements
After acceptance into an Advanced Specialty Certificate Program in Endodontics, Orthodontics, Pediatric Dentistry, Periodontics or Prosthodontics, please complete the application form available online at louisville.edu/graduate/apply.

Admission Credentials
- Application submitted to the School of Interdisciplinary and Graduate Studies
- Application fee
- Official transcripts of all college coursework, including evidence of a baccalaureate degree
- Two (2) letters of recommendation
- TOEFL scores, if English is not the applicant’s native language

Program Requirements
All of the specialty programs will require 11 credit hours in the following courses:

MSD Core Coursework

Total Minimum Hours: 31

In addition to the completion of the core curriculum and the postgraduate research project, there are didactic and clinical courses required for the completion of the necessary hours needed for each certificate (see Overview tab).

Prerequisite: OIID 600 or consent of instructor. Selected areas will be investigated in depth, using one or more of a variety of formats, including lectures, seminars, tutorials, and research projects.
Diversity Literacy (CERT)

Graduate Certificate in Diversity Literacy (DILICDL)
Unit: College of Arts and Sciences (GA)
Department: Philosophy
Program Webpage (https://louisville.edu/philosophy/graduate-programs/copy_of_diversity-literacy-certificate)

Program Information

The Certificate in Diversity Literacy will provide a unique opportunity for students who have already earned bachelor’s degrees to enhance their knowledge and skills of the theory and practice of inclusion and equity, including what diversity means, what its personal and social effects are, and how it shapes lives, workplaces, and pedagogy. This knowledge base and skill set will allow, for example, educators to become more inclusive in their pedagogy, employees to work more effectively in multicultural teams, and managers to become better supervisors by better understanding their cultural assumptions and those of their employees.

Admission Requirements

Anyone who has earned a baccalaureate degree from an accredited college or university may apply.

The following materials will be necessary to complete an application:

- Official transcripts of prior undergraduate and graduate work;
- Two letters of recommendation;
- A 2-3 page essay describing the applicant’s interest in the program and how it will benefit her or his course of study and/or career path.

Program Requirements

The curriculum for this certificate consists of 18 total credit hours, structured as follows:

**Code** | **Title** | **Hours**
--- | --- | ---
PHIL 690 | Fundamentals of Diversity | 3
Electives in courses with a diversity focus (list of eligible electives is below) | 12
PHIL 691 | Capstone in Diversity Literacy | 3
Minimum Total Hours | 18

1. These electives must include at least 4 dimensions of diversity (race/ethnicity, gender, class, religion, disability, sexual identity, and language), and at least 1 must be in the humanities and 1 in the social sciences.

Eligible Electives

Special topics courses and courses from outside of the College of Arts and Sciences may be substituted with the approval of the Director.

Interdisciplinary Early Childhood Education (MAT)

Master of Arts in Teaching in Interdisciplinary Early Childhood Education (IECEMAT)

Unit: College of Education and Human Development (GE) (http://catalog.louisville.edu/graduate/programs-study/master-of-arts-in-teaching-in-interdisciplinary-early-childhood-education/louisville.edu/education)

Department: Early Childhood and Elementary Education (http://louisville.edu/education/departments/ecee)

Program Webpage: louisville.edu/education/degrees/mat-iece

Program Information

Interdisciplinary Early Childhood Education Birth to Primary Teacher Certification Program

The IECE program emphasizes in-depth academic preparation and field experiences that allow teachers to be knowledgeable about the field of early childhood/special education and to develop critical thinking and lifelong learning skills. The program emphasizes:

- Nurturing students as active agents in their own learning
- Authentic, performance-based assessment of teaching and learning
- Meeting the needs of all students
- Responding constructively to sociocultural differences among students

The program prepares students interested in working with children from birth to age 5 in a wide variety of settings—day care centers, public and private preschools, community programs, and clinics. This program gives students authentic experiences with infants, toddlers, and preschool children in the areas of curriculum development, typical and atypical child development, programs and services for children and their families, family involvement and intervention, screening and assessment, program administration, current topics, and practicum/action research.

The goals of this program include:

- IECE Teacher Certification
- Preparation of teachers for the education of typical and atypical children in different settings
- Provide background information on Kentucky Child Learning and Assessment Standards

Admission Requirements

Candidates who meet the following criteria may be eligible to apply to the Master of Arts in Teaching program:

1. Application to School of Interdisciplinary Studies (http://louisville.edu/graduate/apply). This should be completed three to four weeks prior to the application deadline.
2. Minimum test scores (http://louisville.edu/education/degrees/info/gre-mat) as required by EPSB. Please note: when submitting test scores through ETS, use the general University of Louisville code, 1838.
3. Bachelors degree (http://louisville.edu/education/degrees/info/bachelors) with minimum undergraduate degree GPA of 2.75 (official transcripts (http://louisville.edu/education/degrees/info/transcripts) required)
4. C or higher in ENGL 102 (or equivalent) and oral communication courses
5. TOEFL (http://louisville.edu/education/degrees/info/toefl)
6. Professional Statement (http://louisville.edu/education/degrees/info/mat-mse-professional-statement)
8. Three Letters of Recommendation (http://louisville.edu/education/degrees/info/lor)
9. Interview

Candidates considering applying to the MAT program should contact the Education Advising and Student Services office (teacher@louisville.edu) prior to applying for admission.

Admission is competitive. Candidates who meet minimum academic requirements are not guaranteed admission to the program.

Program Information

The MAT in Early Elementary Education enables graduate students to earn their initial teaching certificate for grades P-5 in Kentucky. Candidates learn to teach through instruction in pedagogy, child development, special education, gifted education, technology, and diversity. They develop their skills in field experiences in local area schools. The Early Elementary Education program emphasizes meeting the needs of the individual learner using best instructional practices in a standards-based environment. Through coursework and clinical field experiences, teacher education students become critical thinkers who are prepared to meet the demands of 21st-century elementary education.

Admission Requirements

Candidates who meet the following criteria may be eligible to apply to the Master of Arts in Teaching program. Candidates considering an application to the MAT program should contact the MAT admissions counselor (teacher@louisville.edu) prior to applying for admission. Admission is competitive. Candidates who meet minimum academic requirements are not guaranteed admission to the program.

1. Application to School of Interdisciplinary Studies (http://louisville.edu/graduate/apply). This should be completed three to four weeks prior to the application deadline.
2. Passing Test Scores (http://louisville.edu/education(degrees/info/gre-mat). Please note: when submitting test scores through ETS, use the general University of Louisville code, 1838.

Minimum Total Hours: 36

Certification Assessment: After Student Teaching: Satisfactory dispositions assessment; 2.0 or higher in student teaching; satisfactory certification work sample; passing scores on required PRAXIS exams; positive recommendation from ECEE program committee.

Degree Assessment: Satisfactory dispositions assessment, all program coursework with 3.0 cumulative GPA (and no more than a total of two grades of C) in degree courses, satisfactory degree work sample.

Degree Candidacy: If not enrolled during the semester in which you are graduating, you will need to register for degree candidacy as outlined in the Graduate Catalog (p. 802).

Praxis Disclaimer:

"Teacher certification requirements are subject to change. Before registering for certification test(s), please refer to the Education Professional Standards Board (EPSB) website at epsb.ky.gov (http://www.epsb.ky.gov) or ets.org/praxis/ky (http://www.ets.org/praxis/ky) for current requirements."

1. Advisor approval needed.
2. No lower than 2.0 in EDTP 641; successful completion of all courses listed above except EDSP 684; positive recommendation from program committee (including assessment of dispositions and mid-program teacher performance assessment); electronic documentation of 200 hours of diverse and approved field experiences.
The EdS (Education Specialist) degree in Educational Administration is a 30-credit hour, post-master’s degree program. It can lead to certification in principalship, or supervisor of instruction.

The EdS program is designed to prepare school leaders to engage in principalship, or supervisor of instruction.

The candidate's admission packet must demonstrate his/her skills and understanding of the following: ability to improve student achievement, leadership, and advanced knowledge of curriculum, instruction, and assessment. Candidates applying for admission are jointly screened by both the University of Louisville faculty and local school district personnel.

**Admission Requirements**

- Evidence of bachelor’s and master’s degrees
- Transcripts of all undergraduate and graduate work

**Admission to this Program**

- A 3.3 grade point average from the master’s degree program
- Signed copies of the following forms: Acceptable Use of Technology Agreement and Professional Code of Ethics for Kentucky School Personnel

**Degree Program Admission Requirements**

- Joint screening by ELEOD Department and local school district personnel
- A written rationale for pursuing the degree (limit of 1 page)
- A current resume
- Your philosophy of education (not to exceed 2 pages)
- Two written letters of recommendation attesting to the candidate's skills and understanding of (a) ability to improve student achievement, (b) leadership, (c) advanced knowledge of curriculum, instruction, and assessment. One must be from the current site supervisor.
- Three years of successful K-12 teaching experience in Kentucky or three years (1 year = 140 contract days) of successful K-12 teaching outside the state of Kentucky.

**Program Information**

The EdS (Education Specialist) degree in Educational Administration is a 30-credit hour, post-master’s degree program. It can lead to certification in principalship, or supervisor of instruction.

The EdS program is designed to prepare school leaders to engage staff, improve the instructional capacity of schools, and deal effectively with the educational challenges of the 21st century. The goal of the EdS program is to provide field experience, clinical practice, and conceptual and theoretical knowledge necessary for roles in instructional leadership. The Department of Educational Leadership, Evaluation, and Organizational Development maintains a strong collaboration with school districts in preparing exemplary P-12 school administrators.
Program Information

The doctoral degree is granted in recognition of scholarly proficiency and distinctive achievement in a specific field/discipline. All candidates for a doctoral degree in the College of Education and Human Development must successfully complete qualifying exams and a dissertation/professional portfolio that clearly indicates the candidate has mastered and can exhibit/articulate the content knowledge, skills and dispositions specific to their discipline, and can utilize appropriate research methodologies to contribute to the body of knowledge in their field.

Distinctive Characteristics of Doctoral Programs in the College of Education and Human Development

I. Social Justice and Equity

Doctoral students in our program build experience and expertise in the issues of social justice and equity which aligns with our metropolitan mission and focus on student achievement.

II. Leadership

Our doctoral students gain expertise in supervising and leading others to achieve organizational goals and missions, managing complex systems, addressing administrative issues and procedures, conducting research to enhance leadership and teaching others about the art of organizational leadership.

III. Practical Experience

The doctoral program contains practicums, internships, or embedded field experience that aligns with program and career goals. These mentored experiences may include teaching, research, administration or other appropriate areas.

IV. Scholarship/Research

An emphasis on scholarship includes experience and mentorship in ethics, publications, presentation, grantsmanship, and other forms of creative activity. The research component is characterized by the development of vertical research teams: senior faculty, junior faculty, doctoral students, master’s students, and in some programs, undergraduate students, working together on research projects and research areas. These may be bolstered by partnerships with local school districts, businesses, or community agencies.

Admission Requirements

Students apply for the EdD in ELOD each spring, with enrollment each fall. Priority application deadline is May 15 of each year.

Applicants must submit the following credentials to:

School of Interdisciplinary and Graduate Studies
Graduate Admissions
Houchens Building, Room 105
University of Louisville
Louisville, KY 40292

1. School of Interdisciplinary and Graduate Studies Application (even if currently enrolled in a University of Louisville program). Apply online at louisville.edu/graduate/apply

2. Official copies of all collegiate transcripts (undergraduate and graduate). Graduates of the University of Louisville need not provide a transcript. GPA of 3.50 required in graduate work.

3. Applicants submitting foreign transcripts (http://louisville.edu/education/degrees/info/transcripts) must submit transcript(s) to either the World Education Evaluation Service (WES) or Education

---

Degree Program Completion Requirements

A grade point average of 3.3 in all courses counting on this program

Successful completion of a capstone in ELFH 782 at the completion of Level 1

Successful completion of a program portfolio at the end of Level 2. Information about the portfolio is found in “Guidelines for Portfolio Completion Requirement,” available from your advisor

Certification requirements

The Education Professional Standards Board is responsible for issuing and renewing certificates for all Kentucky teachers and administrators. Candidates for principal certification must pass both the SLLA and the KYTP. These tests may be taken during the last semester of coursework for Level 1 Principal Certification. Current information about the Kentucky assessment program may be retrieved from epsb.ky.gov (http://www.epsb.ky.gov/mod/book/view.php?id=93).

Completion of three (3) years of full-time teaching experience

1 Satisfactory completion of hallmark/dispositions assessments in ELFH 633, ELFH 634, ELFH 635, and ELFH 636. Must maintain a GPA of 3.3.

2 Refer to program completion requirements for Level 1 prior to Level 2

3 TBD by student and advisor - may be a course leading to additional certification

4 Students in the EdS program will be required to complete an exit portfolio in their last semester of the program.

5 Completion of a Rank I program requires a minimum of 60 credit hours in approved program. For Rank I purposes approved graduate hours at the master’s level may be counted to reach 60 credit hours, though some of those hours may not count toward certification. Students seeking Rank I simultaneously with this certification program must complete the appropriate form with the advisor. The advisor must approve electives/unnamed courses.

Educational Leadership and Organizational Development (EdD)

Doctor of Education in Educational Leadership and Organizational Development (ELODEDD)

Unit: College of Education and Human Development (https://louisville.edu/education) (GE)

Department: Educational Leadership, Evaluation, and Organizational Development

Program Webpage (https://louisville.edu/education/degrees/edd-elod)
Program Requirements

Master’s degree prerequisite + 60 credit hours minimum

The Student and Program Committee must develop courses, programs and experiences that clearly identify and address the specific themes of Leadership, Scholarship, Social Justice and Equity. These areas of emphasis must have descriptive competencies that the student should attain and the Committee can assess.

The doctoral degree is granted in recognition of scholarly proficiency and distinctive achievement in a specific field/discipline. All candidates for a doctoral degree in the CEHD must successfully complete qualifying exams and a dissertation/professional portfolio that clearly indicates the candidate has mastered and can exhibit/articulate the content knowledge, skills and dispositions specific to their discipline and can utilize appropriate research methodologies to contribute to the body of knowledge in their field.

Minimum Total Hours 60

1 EdD students complete 33 hours of Specialty Component coursework and 27 hours of Research Methodology for a minimum total of 60 credit hours of eligible graduate work. Courses are selected with Program Committee Approval within program guidelines/framework.

2 Selected with Program Committee Approval within program guidelines/framework. Students have the opportunity to take courses in other disciplines. ELFH 600 may not be used to satisfy this requirement.

Educational Leadership and Organizational Development (PhD)

Doctor of Philosophy in Educational Leadership and Organizational Development (ELODPHD)

Unit: College of Education and Human Development (GE)

Department: Educational Leadership, Evaluation, and Organizational Development

Program Webpage (https://louisville.edu/education/degrees/phd-elod)

Program Information

The Doctor of Philosophy in Educational Leadership and Organizational Development encompasses five specialties:

- P-12 Administration
- Post-secondary Administration
- Sport administration
- Human Resource Development
- Evaluation

The doctoral degree is granted in recognition of scholarly proficiency and distinctive achievement in a specific field/discipline. All candidates for a doctoral degree in the College of Education and Human Development must successfully complete qualifying exams and a dissertation/professional portfolio that clearly indicates the candidate has mastered and can exhibit/articulate the content knowledge, skills and dispositions specific to their discipline and can utilize appropriate research methodologies to contribute to the body of knowledge in their field.

Distinctive Characteristics of Doctoral Programs in the College of Education and Human Development

Social Justice and Equity

Doctoral students in our program build experience and expertise in the issues of social justice and equity which aligns with our metropolitan mission and focus on student achievement.
Leadership

Our doctoral students gain expertise in supervising and leading others to achieve organizational goals and missions, managing complex systems, addressing administrative issues and procedures, conducting research to enhance leadership and teaching others about the art of organizational leadership.

Practical Experience

The doctoral program contains practicums, internships, or embedded field experience that aligns with program and career goals. These mentored experiences may include teaching, research, administration or other appropriate areas.

Scholarship/Research

An emphasis on scholarship includes experience and mentorship in ethics, publications, presentation, grantsmanship, and other forms of creative activity. The research component is characterized by the development of vertical research teams: senior faculty, junior faculty, doctoral students, master's students, and in some programs, undergraduate students, working together on research projects and research areas. These may be bolstered by partnerships with local school districts, businesses, or community agencies.

Admission Requirements

The following must be completed before your application will be considered:

1. Graduate Application (http://louisville.edu/graduate/apply) (even if currently enrolled in a University of Louisville program). All other application materials, except GRE Scores and online recommendation letters, should be sent to the address at the bottom of this page.

2. Resume or Curriculum Vitae. It is expected that applicants have prior academic and professional experience in their field of interest. The PhD program is intended for experienced professionals, holding relevant academic degrees and who are qualified to undertake advanced study at the doctoral level. It is important that the academic and professional experience of applicants match the educational focus of the program curriculum and the educational and professional orientation of the program faculty.

3. Recommendations. Using the School of Interdisciplinary and Graduate Studies on-line application, enter email addresses of three individuals familiar with your background to provide a letter of evaluation in addition to the Recommendation form (https://sharepoint.louisville.edu/sites/SIGS/Documents/grad-rec.pdf). It is recommended that at least one of the individuals be a former faculty member who is able to speak to your academic background.

4. Graduate Record Examination test scores (Verbal & Quantitative). Prepare a formal statement that describes 1) your detailed rationale for pursuing a doctoral degree and 2) your research interest(s). State which track of the PhD program for which you are applying. Discuss your interest in a doctoral study, indicating how your personal and professional goals, professional experiences, and commitment to education, learning, and research are congruent with a doctoral program in educational leadership and organization development. More specifically, relate your goals to a particular specialization(s). Include a clear statement about your research interest(s) and goals, and how this doctoral program will help you achieve those goals.

Admissions Committee members will expect a statement of at least 1,500 words. Please keep in mind that the statement of goals also serves as a sample of your writing ability and the committee will review it in this light.

Send ALL admission materials to:

University of Louisville
School of Interdisciplinary and Graduate Studies
Graduate Admissions
Houchens Bldg., Room 105
Louisville, KY 40292

The Admissions Committee takes a holistic approach to the evaluation of applications, and while GRE scores are one part of the application package, they do not determine admission (i.e., very high scores do not guarantee admission, and low scores do not preclude admission). The holistic approach takes into account all aspects of a candidate's application, as faculty try to determine if the candidate is prepared for the program, and if the candidate is likely to successfully complete the program.

Program Requirements

Master's degree prerequisite + 60 credit hours minimum: The Student and Committee must develop courses, programs and experiences that clearly identify and address the specific themes of Leadership, Scholarship, Social Justice and Equity. These areas of emphasis must have descriptive competencies that the student should attain and the Committee can assess.

5. TOEFL is required of students from countries where English is not the native language, and who have not completed a college level degree in the United States. It is the expectation of the Admissions Committee that applicants would have a minimum computer-based TOEFL score of 220 or a paper-based score of 560.

Electrical Engineering (MEng)

Master of Engineering in Electrical Engineering (EE MEN)
Unit: Speed School of Engineering (http://louisville.edu/speed) (SP)
Department/Program Webpage (https://louisville.edu/speed/electrical)

Program Information

General Information

The Bachelor of Science in Electrical Engineering degree will provide a student with the basis to be able to complete the Master of Engineering (MEng) in Electrical Engineering degree. The Master of Engineering in Electrical Engineering degree is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

Since the Electrical Engineering MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Electrical Engineering bachelor degree program at Speed School. Therefore, students who earn an undergraduate degree at a school or university other than the University of Louisville pursue the MS degree instead of the MEng degree.

Master of Engineering Program Educational Objectives

Graduates of the Master of Engineering program in the Electrical and Computer Engineering Department are expected within a few years of graduation to have:

1. Established themselves in successful and productive careers or advanced studies in electrical engineering or a related area, possess technical competency in electrical engineering, and are effective team members and effective communicators.

2. Demonstrated the ability to engage in lifelong learning in electrical engineering and related fields.

3. Acquired a sense of professionalism, with emphasis on professional ethics, an awareness of professional licensing, and participation in the affairs of the profession.

Master of Engineering Student Outcomes

In order to achieve these objectives, the Master of Engineering program in the Electrical and Computer Engineering Department has the following outcomes set for its graduates. Graduates will demonstrate:

1. The ability to design components, devices, and systems to meet specified needs in electrical engineering within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.

2. The ability to identify, formulate, and solve problems in electrical engineering.

3. The ability to use the techniques, skills, and tools of modern engineering effectively in the practice of electrical engineering.

Residency

All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. A candidate for the Master of Engineering degree who does not register for credit hours must maintain active registration by paying a fee each semester for MEng residency until the degree is awarded (i.e., the candidate must maintain continuous registration, including summer terms, in Graduate Studies). Failure to pay the MEng residency fee will be cause to cancel a student’s residency. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. In order to be restored to residency, the student must submit a new application, have the recommendation of the department chair, receive the approval of the Associate Dean and pay the fee for each of the semesters during which the residency was void.

Academic Performance

The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing is 3.00 for all academic work completed while in graduate studies.

2. Any student with a cumulative graduate GPA below 3.00 will be placed on academic warning. Students on academic warning are limited to enrollment for 13 credit hours in a fall or spring semester and seven (7) credit hours for summer terms.

Students who do not bring their cumulative graduate GPA back at or above a 3.00 in the semester immediately following Academic Warning, will be placed on Academic Probation for the next semester of enrollment. Students on probation are limited to enrollment for 13 credit hours in a fall or spring semester and seven (7) credit hours for summer terms. Any student who remains in academic probation for two consecutive terms may be considered for dismissal from the program.

3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.

5. A maximum of eight (8) hours of graduate level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses cannot have been used to also satisfy BS degree requirements.

**Degree Requirements**

The following degree requirements are mandatory of all master of engineering candidates:

1. The program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the program of study must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.

2. Master’s degree students must take at least 24 credit hours of coursework at the University of Louisville to satisfy the residency requirement for the master’s degree. A maximum of six (6) credit hours of graduate credit may be transferred from accredited institutions.

3. Students following the thesis option must follow the Procedures and Standards for Master of Engineering Theses. The guidelines are located online at louisville.edu/speed/academics/policies/mEngThesisGuidelines.

4. The total requirements must be completed within six years after admission into graduate studies. The time limit imposed by the rule may be extended in individual cases upon recommendation of the department chair and approval of the associate dean for academic and student affairs.

5. The MEng degree cannot be conferred prior to the BS degree.

**Admission Standards**

Since the Electrical Engineering MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Electrical Engineering bachelor degree program at Speed School.

The application form is available online at louisville.edu/speed/academics/forms/MEngGraduateStudiesApplication.

The requirements for admission or readmission to a master of engineering program are:

1. Submission of a completed MEng application for the field of specialization in which the student is earning a bachelor degree from the J.B. Speed School of Engineering. Students can be admitted to the MEng program with fewer than 13 credit hours of BS degree requirements remaining and no later than two years post conferral of their baccalaureate degree;

2. Recommendation by the faculty and chair of the student’s department for admission or readmission to graduate studies;

3. Cumulative baccalaureate grade point average of 2.75. However, those students with cumulative baccalaureate grade-point averages from 2.50 to 2.75 may be admitted upon petition and approval of the chair and faculty of the department.

A student becomes a candidate for the master of engineering degree upon admission to graduate studies and initial registration as a graduate student.

**Program Requirements**

The Master of Engineering in Electrical and Computer Engineering degree requires the following over and above the Bachelor of Science in Electrical and Computer Engineering Degree.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECE 510 &amp; ECE 511</td>

</table>

The Master of Engineering degree must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the Master of Engineering degree must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.

A maximum of eight (8) credit hours of graduate level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses cannot have been used to also satisfy BS degree requirements.

1 Electives must be chosen so that at least one-half of the credits counted toward the degree, exclusive of thesis or paper, are 600-level.

2 A minimum of twelve (12) hours must be classified as Design Electives. Design Electives must be chosen from the approved list of regular courses (see below).

3 ECE electives must be chosen from an approved list

4 ECE 697 Master of Engineering Thesis or Paper in Electrical Engineering is an elective for a total of 6 credit hours. For the thesis/paper option, a student is urged to select both an approved MEng thesis/paper topic and the director and members of the thesis/paper committee during the first term of graduate studies. The thesis/paper director must give approval for enrollment in ECE 697.

5 Technical electives can be ECE or non-ECE courses. Technical electives must be approved by the department. A maximum of six (6) hours of non-ECE courses will count toward the MEng degree. Non-ECE technical electives must be approved by the department.

**Electrical Engineering (MS)**

Master of Science in Electrical Engineering (EE MS)

Unit: Speed School of Engineering (http://louisville.edu/speed) (GS)

Department/Program Webpage (https://louisville.edu/speed/electrical)

--

**Program Information**

**General Information**

The MS degree program is intended for persons having an accredited baccalaureate degree in Electrical Engineering, but is available to those with other backgrounds. Applicants with other backgrounds should plan on taking some undergraduate background coursework.

Students interested in the MS degree program should consult the Director of Graduate Studies in the Department of Electrical and Computer Engineering. The University of Louisville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award master's degrees.

**Academic Performance**

The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing and satisfaction of degree requirements is 3.00 for all academic work completed while in graduate studies.
2. Any student who does not satisfy the published performance criteria shall be placed in probationary status. Please review the Academic Standing Section (p. 802) within this catalog in regard to Academic Probation.
3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.
All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. Students who seek to return after such a period of time must contact the graduate program director.

**Degree Requirements**

The following degree requirements are mandatory of all Master of Science candidates:

1. The program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the program of study must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.
2. Masters students must take at least 24 credit hours of coursework at the University of Louisville to satisfy the residency requirement for the master’s degree. A maximum of six (6) credit hours of graduate credit may be transferred from accredited institutions.
4. Student has six years after their admission to the MS program to complete their degree.

The requirements for the Master of Science degree are discussed in more detail in the Degree Requirements (p. 804) section of this catalog.

**Admission Standards**

The admission standards for the master of science program in electrical engineering are as follows:

1. All admission applications for the program shall include:
   - A completed application (http://louisville.edu/graduate/apply) for the School of Interdisciplinary and Graduate Studies,
   - An application fee,
   - Results from the Graduate Record Examination (GRE),
   - At least two letters of recommendation, and
   - Official transcript(s) for all previous post-secondary coursework.
   All transcripts not in English must be certified as authentic and translated verbatim into English.
2. The minimum requirement for admission is the baccalaureate degree or its equivalent from an accredited institution.
3. The successful applicant will typically have an undergraduate grade point average of 3.00 or above (on a 4.00 scale).
4. The successful applicant will typically have a GRE combined Verbal and Quantitative Reasoning score of 295 or above.
5. Admission in good standing shall be made only if all admission credentials have been received, evaluated and approved and all academic requirements met including a demonstration of adequate background in a foundational subject material.
6. A student may be admitted provisionally if academic requirements are met but application materials are incomplete (usually missing letters of recommendation or official transcripts and/or official score reports). Students have one semester to furnish any credentials missing at the time of admission and may not enroll for a second consecutive term in provisional status.
7. Any conditional acceptance shall be made on an individual basis and shall require a statement of the rationale for the exception, plans for monitoring progress and performance and stated success criteria. Such justification must be provided in writing and must be accepted by the program chair and the Speed school associate dean for academic affairs.

**Program Requirements**

Remedial work may be specified for those applicants who, in the opinion of the faculty, do not have a sufficient background. The minimum curricular requirements for the master’s program are:

<table>
<thead>
<tr>

Program Webpage (https://louisville.edu/speed/electrical)
Program Information

General Information

The PhD degree program is intended for persons having an accredited masters degree in electrical engineering. Students interested in the PhD degree program should consult the Director of Graduate Studies in the Department of Electrical and Computer Engineering. The University of Louisville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award doctoral degrees.

Academic Performance

The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing and satisfaction of degree requirements is 3.00 for all academic work completed while in graduate studies.
2. Any student who does not satisfy the published performance criteria shall be placed in probationary status. Please review the Academic Standing section (p. 802) within this catalog in regard to Academic Probation.
3. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.

All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. Students who seek to return after such a period of time must contact the graduate program director. Students who seek to return after such a period of time must apply for readmission by completing a University of Louisville graduate application. If admitted, the student will be subject to catalog requirements in effect at the time of readmission.

Degree Requirements

The award of a Doctor of Philosophy degree indicates that a student has attained mastery of a field and has demonstrated the capacity to perform independent scholarly research. The following degree requirements are mandatory of all doctoral candidates:

1. The Program of Study must be completed with a 3.00 GPA or better for all academic work attempted in Graduate Studies.
2. At least two years of study must be spent at the University of Louisville.
3. One year must be spent in full-time residency (a minimum of 18 credit hours within a 12-month period or four terms of continuous part-time enrollment).
4. The applicant for a Doctor of Philosophy degree must pass a qualifying examination and complete all course hours and research hours to be admitted into candidacy.
5. Admission to candidacy must not be later than the end of the ninth month prior to the awarding of the degree. Students who are enrolled in Doctoral Candidacy are considered full-time students. Enrollment in Doctoral Candidacy status must be continuously maintained year round (i.e. Fall, Spring, and Summer) until the degree is awarded.
6. A dissertation proposal defense is required of all candidates.
7. A dissertation is required of all candidates.
8. All candidates must pass a final oral examination. This is to be a defense of the dissertation and a demonstration of the candidate’s mastery of his/her field.
9. All candidates must have their research published in a peer-reviewed conference or journal.
10. Ordinarily, the equivalent of three years of full-time graduate study is a minimum. However, the candidate must complete all requirements for the degree within four calendar years after passing the qualifying examination.

The requirements for the Doctor of Philosophy degree are explained in more detail in the Degree Requirements section (p. 804) of this catalog.

Admission Standards

The admission standards for the PhD program in electrical engineering are as follows:

1. All admission applications for the program shall include:
   a. A completed application (http://louisville.edu/graduate/apply) for the School of Interdisciplinary and Graduate Studies
   b. An application fee
   c. Results from the Graduate Record Examination (GRE)
   d. At least two letters of recommendation
   e. Official transcript(s) for all previous post-secondary coursework.
      All transcripts not in English must be certified as authentic and translated verbatim into English.
2. The minimum degree requirement for admission is an accredited master’s degree in electrical engineering or closely related field.
3. The successful applicant will typically have an undergraduate grade point average of 3.00 or above (on a 4.00 scale).
4. The successful applicant will typically have a GRE combined Verbal and Quantitative Reasoning score of 295 or above.
5. Admission in good standing shall be made only if all admission credentials have been received, evaluated and approved and all academic requirements met including a demonstration of adequate background in a foundational subject material. A student may be admitted provisionally if academic requirements are met but application materials are incomplete (usually missing letters of recommendation or official transcripts and/or official score reports). Students have one semester to furnish any credentials missing at the time of admission and may not enroll for a second consecutive term in provisional status.
6. Any conditional acceptance shall be made on an individual basis and shall require a statement of the rationale for the exception, plans for monitoring progress and performance and stated success criteria. Such justification must be provided in writing and must be accepted by the ECE Associate Chair and the Speed School Associate Dean for Academic Affairs.
7. International students whose primary language is not English must show English language proficiency by either TOEFL/IELTS score or demonstration of a degree award from an acceptable English language institution. The successful applicant will typically have a total TOEFL score of 80 or higher or overall IELTS score of 6.5 or higher.

Program Requirements

It is expected that the student will complete a master’s degree before being admitted to the PhD Program.
The minimum curricular requirements for the doctoral program are:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Courses - Post Bac</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Approved Master's Level Course Work</td>
<td></td>
<td>30</td>

</tr>
</tbody>
</table>

Candidates for the Doctor of Philosophy degree must have a minimum final cumulative grade point average of 3.00 for all academic work attempted in Graduate Studies

Technical Electives can be ECE or non-ECE courses. Technical Electives must be approved by the department

### Elementary Education (RANK1)

**Rank 1 Program in Elementary Education Advanced Practitioner**

Unit: College of Education and Human Development (http://louisville.edu/education) (GE)

Department: Early Childhood and Elementary Education (http://louisville.edu/education/departments/ecee)

Program Webpage (https://louisville.edu/education/degrees/rank)

### Program Information

**Rank 1 programs are not degree programs.**

Rank 1 programs are planned graduate-level programs designed for Kentucky teachers seeking rank change for salary purposes. They are recognized only in the state of Kentucky. By state regulation, Rank 1 status is sixty (60) semester hours of approved graduate credit including a master’s degree.

Teachers who complete a Rank 1 program may obtain a Rank change for salary purposes in Kentucky. Through a Rank 1 program, teachers may increase their depth of knowledge in their teaching areas or in additional areas of certification, as appropriate.

### Admission Requirements

Students may apply to the program by first going to the School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply) website.

Admission requirements include the following credentials:

- Official transcripts with a GPA of 2.75 in the bachelor’s degree and a GPA of 3.0 in the master’s degree.
- Teaching certificate in Elementary Education and a master’s degree/
  Rank II
- TOEFL (Students holding a baccalaureate or advanced degree from an accredited institution in the U.S. are exempt from this requirement)
- Signed Professional Code of Ethics/Technology User Agreement

Applicants who have attended a college or university outside of the United States are also required to submit an evaluation of their transcript through either WES (World Education Services) (http://wes.org) or ECE (Educational Credential Evaluators) (http://ece.org). Please note that transcript evaluations can sometimes take several weeks.

Please have transcripts sent to:

**University of Louisville**

School of Interdisciplinary and Graduate Studies

Houchens Bldg. Room 105

Louisville, KY 40292

If transcripts are sent electronically, please have them sent to the following email: gradadm@louisville.edu.

</table>

Minimum of 15 credit hours in 600-level courses is required.

Up to 15 credit hours of graduate credit may be transferred to the Rank I program as long as the student will have completed 60 credit hours of approved graduate credit including a Masters degree at the end of the Rank I program. Transfer credit must be officially accepted by the advisor, and final acceptance is dependent upon receipt of official transcripts.

In the Rank 1 program, at least 15 credit hours of new graduate coursework must be taken at the University of Louisville.

To complete the program, a minimum grade point average of 3.0 is required. No credit shall be accepted for a grade lower than a B-minus.

#### Midpoint Requirement

Candidates are required to submit a mid-program performance assessment at the completion of 15 credit hours of coursework. The
faculty advisor will assess the candidate’s performance assessment, which must be at the Exemplary or Target level. The performance assessment must address content, classroom environment, teaching, assessment, and reflection, and include an artifact (such as a video) to document professional learning.

Exit Requirements
Hallmark Assessment Task for EDAP 681 or equivalent project that demonstrates proficiency in the Kentucky Teacher Performance Standards.

Engineering Management (MEng)

Master of Engineering in Engineering Management (EM MEN)
Unit: Speed School of Engineering (http://louisville.edu/speed) (SP)
Department: Industrial Engineering (http://louisville.edu/speed/industrial)
Program Webpage (https://louisville.edu/speed/industrial/gradStudies/mem)

Program Information
This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs/index/masters/master-of-engineering-in-engineering-management).

The Department of Industrial Engineering of the J.B. Speed School of Engineering offers an online program in Engineering Management. The program is designed to build upon the mathematical and analytical expertise gained from prior engineering or related scientific education as well as upon his or her professional experience gained in the course of active engineering employment. The University of Louisville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award master’s degrees.

Academic Performance
The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing is 3.00 for all academic work completed while in graduate studies.
2. Any student with a cumulative graduate GPA below 3.00 will be placed on academic warning. Students on academic warning are limited to enrollment for 13 credit hours in a fall or spring semester and 10 credit hours for summer terms.

Students who do not bring their cumulative graduate GPA back at or above a 3.00 in the semester immediately following Academic Warning, will be placed on Academic Probation for the next semester of enrollment. Students on probation are limited to enrollment for 13 credit hours in a fall or spring semester and 10 credit hours for summer terms. Any student who remains in probationary status for two consecutive terms may be considered for dismissal from the program.

3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.

4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.
5. A maximum of six hours of graduate level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses cannot have been used to also satisfy BS degree requirements.

All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. Students who seek to return after such a period of time must contact the graduate program director.

Degree Requirements
The following degree requirements are mandatory of all Master of Engineering candidates:

1. The program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the program of study must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.
2. Master’s students must take at least 24 credit hours of coursework at the University of Louisville to satisfy the residency requirement for the master’s degree. A maximum of six (6) credit hours of graduate credit may be transferred from accredited institutions.
3. The total requirements must be completed within six years after admission into graduate studies. The time limit imposed by the rule may be extended in individual cases upon recommendation of the department chair and approval of the associate dean for academic and student affairs.

Admission Standards
The admission standards for the MEng program in engineering management are as follows:

1. All admission applications for the program shall include:
   a. A completed application (http://louisville.edu/graduate/apply) for University of Louisville graduate admission
   b. Application fee
   c. A minimum of two letters of recommendation
   d. Official transcript(s) for all previous post-secondary coursework. All transcripts not in English must be certified as authentic and translated verbatim into English.
   e. International students whose primary language is not English must show English language proficiency by either:
   f. Total score of 80 or higher on the Test of English as a Foreign Language (TOEFL) Internet-based test or 6.5 or higher on the IELTS, or
   g. Successful completion of the exit examination for the advanced level of Intensive English as a Second Language Program at the University of Louisville, or
   h. Demonstration of a degree award from an acceptable English language institution

The minimum requirement for admission is the Bachelor of Science degree or its equivalent in engineering or related scientific field from an accredited institution. The minimum undergraduate grade point average
that will be considered for unconditional acceptance and admission to the program is 2.75 on a 4.00 scale.

Admission in good standing shall be made only if all admission credentials have been received, evaluated and approved and all academic requirements met. A student may be admitted provisionally if academic requirements are met but application materials are incomplete (usually missing letters of recommendation or official transcripts). Students have one semester to furnish any credentials missing at the time of admission and may not enroll for a second consecutive term in provisional status.

Any conditional acceptance shall be made on an individual basis and shall require a statement of the rationale for the exception, plans for monitoring progress and performance and stated success criteria. Such justification must be provided in writing and must be accepted by the program chair and the Speed School associate dean for academic affairs. This will allow consideration of special circumstances in which the potential for acceptable graduate performance has been clearly demonstrated by other means.

Program Requirements
The Master of Engineering in Engineering Management degree requires the following courses.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EM 613</td>
<td>Operations Management ²</td>
<td>3</td>
</tr>
<tr>
<td>EM 661</td>
<td>Engineering Statistics II</td>
<td>3</td>
</tr>
<tr>
<td>EM Electives ¹</td>
<td></td>
<td>15</td>
</tr>
<tr>
<td>Technical Electives ¹</td>
<td></td>
<td>9</td>
</tr>
<tr>
<td>Minimum Total Hours</td>
<td></td>
<td>30</td>
</tr>
</tbody>
</table>

Candidates for the Master of Engineering degree must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements.

Additionally, the master of engineering degree must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies. A maximum of six (6) credit hours of graduate level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses should not have been used to also satisfy BS degree requirements.

¹ Electives must be chosen so that at least one-half of the credits counted toward the degree, are 600-level. Technical Electives may be taken within or outside the Department and up to six (6) credit hours may be from Business Administration programs. All selections require the approval of the student’s faculty advisor.

² Students with a Bachelor’s degree in Industrial Engineering may replace EM 613 with any other EM Elective course.

English (MA)

Master of Arts in English (ENGLMA)
Unit: College of Arts and Sciences (GA)
Department: English
Program Webpage: louisville.edu/english/graduate/ma-in-english

Program Information
Mission Statement
The MA in English provides graduate training in literatures written in English, creative writing, and rhetoric and composition.

Goals for the MA are that students will:
1. Gain advanced knowledge of British, American, and other literary traditions, and
2. Write a thesis or culminating project in which they initiate and complete specialized research addressing a significant question in literary studies or rhetoric and composition, or produce a significant body of creative work.

Admission Requirements
MA with Graduate Teaching Assistant application: due January 5th

MA without Graduate Teaching Assistant application:
- Fall Semester: Due July 15th
- Spring Semester: Due December 1
- Summer Semester: Due April 15

All applicants should submit:
1. Online Graduate Application (http://louisville.edu/graduate/futurestudents/apply-materials/application)
2. Complete official transcripts of all college level work
3. Two academic letters of recommendation with discursive comments
4. Score report on the Graduate Record Examination General Test (from within the last 5 years)
5. Critical writing sample (~10 pages)
6. International students must also submit official reports of the TOEFL or IELTS examination
7. Creative writing sample (optional and in addition to the critical writing sample)
8. GTA Application (PDF) (http://louisville.edu/english/graduate/forms/ma-gta-application) (January 5th deadline only)
Program Requirements

The Master of Arts in English requires 30 credit hours of academic work at the graduate level. In addition to fulfilling the core requirements, students may take additional work in literary studies, creative writing, or rhetoric and composition. Students may take no more than three 500-level courses. Creative writing courses (including up to six credit hours of thesis guidance) may total no more than 15 credit hours. Students may count one elective outside the Department of English toward their degree upon approval by the director of graduate studies. Student must also demonstrate proficiency in one language other than English. Detailed requirement information can be found in the English Department Graduate Program Guidelines.

English Rhetoric and Composition (PhD)

Doctor of Philosophy in English Rhetoric and Composition (ERC PHD)

Unit: Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)

Department: English

Program Webpage (https://louisville.edu/english/graduate/ph-d-in-rhetoric-composition)

Program Information

Mission Statement

The PhD in Rhetoric and Composition provides graduate training in the history and theory of rhetoric; theory and empirical research in composition; an area of literary study; and the relation of rhetoric and composition to allied fields (e.g., critical theory, cultural studies, linguistics).

Goals for the PhD are that students will:

1. Gain specialized and current disciplinary knowledge;
2. Write a dissertation in which they initiate and complete specialized research that addresses an original and significant question in rhetoric and composition; and
3. Acquire experience and expertise as writing teachers.

Admission Requirements

Application Due: January 5 - fall admission only

All applicants should submit:
1. Online Graduate Application (http://louisville.edu/graduate/apply).
2. A written statement of no more than 1,000 words detailing the applicant’s professional goals in the field of rhetoric and composition.
3. Complete official transcripts of all college level work.
4. Three academic letters of recommendation.
5. Official scores on the Graduate Record Examination General Test (From within the last 5 years).
7. Application for Graduate Teaching Assistantship. (http://louisville.edu/english/graduate/forms/PhDGTAApplicationII.pdf)
8. International students must submit official scores of at least 600 (paper test) or 210 (computer test) on the TOEFL Examination; IELTS scores are also considered in lieu of the TOEFL.

Degree Requirements

All doctoral students are expected to complete a minimum of 45 graduate credit hours; demonstrate proficiency in one language other than English; successfully complete the Modern and Contemporary Rhetoric and Composition exam and the Specified Literature Area exam; complete and defend a dissertation; and participate in a year-long supervised teaching-internship. (Graduate teaching assistants automatically fulfill the professional requirement once they have completed one successful year as a graduate teaching assistant.)

More information on requirements can be found in the English Department Graduate Program Guidelines (http://louisville.edu/english/graduate/graduate-program-guidelines-2).

Graduate-level English courses beyond those listed may count towards requirements depending on the topics covered. Detailed course descriptions (http://louisville.edu/english/graduate/graduate-course-descriptions), available on the English Department website, will provide this information and can be discussed during advising with the director of graduate studies.

Entrepreneurship (PhD)

Doctor of Philosophy in Entrepreneurship (ENTRPHD)

Unit: College of Business (http://business.louisville.edu) (GB)
Department: Entrepreneurship (http://business.louisville.edu/eship)
Program Webpage (https://business.louisville.edu/entrepreneurshipphd)

Program Information

Admission to the program is highly competitive. It is based on an applicant’s past graduate and undergraduate school records, score on the graduate management admissions test (GMAT), prior experiences, a personal statement and letters of recommendation. Applicants are only admitted in fall semesters of odd years (2017, 2019, 2021 etc.).

No specific graduate or undergraduate major is required. However, an MBA is preferred. A student who does not have a master’s degree in business may be required to complete a set of courses equivalent to a “core” that is covered in an MBA program. Questions about prerequisites should be directed to the program director. This is a full-time program, requiring year-round study and a 20 hour/week paid research assistantship. Typically, students can finish their coursework in two years and the program in four-to-five years, subject to progress on a dissertation. Students generally take about 19 courses consisting of seminars and directed readings and/or research. A student’s curriculum choices are supervised and approved by an advisory committee.

All required courses are offered on a biennial basis in the Fall, Spring, and Summer semesters, along with a variety of elective courses.
Admission Requirements

Admission to the program is highly competitive. Applicants are only admitted in fall semesters of odd years (2017, 2019, 2021, etc.). This is a full-time program, requiring year-round study and a 20 hour/week paid research assistantship. Typically, students can finish their coursework in two years and the program in four-to-five years, subject to progress on a dissertation. Students generally take about 19 courses consisting of seminars and directed readings and/or research. A student's curriculum choices are supervised and approved by an advisory committee.

The following application materials are required:

- Official transcripts of all undergraduate and graduate work. An undergraduate degree is required. No specific graduate or undergraduate major is required. However, an MBA is preferred. A student who does not have a master's degree in business may be required to complete a set of courses covered in an MBA program.
- Official GMAT score. A GMAT score is required that is no more than two years old from date of application. A GRE score may be substituted for a GMAT score where GMAT testing is not available.
- Two letters of recommendation.
- Resume or CV.
- Personal statement about the applicant's interest in entrepreneurship research.
- Applicants with credentials from foreign universities must submit them for evaluation to one of the following services, which will issue a report that will become part of the applicant's application:
  - World Education Services www.wes.org (http://www.wes.org)
  - Education Credentials Evaluator ece.org (http://ece.org)
  - Applicants with a degree from a non-English speaking university or those for whom English is not their native language must submit a TOEFL score. ets.org/ibt/register.

All required courses are offered on a biennial basis in the fall, spring and summer semesters.

Program Requirements

The goal of the curriculum is to produce academic scholars who will present papers at professional conferences, publish papers in academic journals, and teach at the university level. We anticipate that students will be successful academics at leading universities. Because of this, students serve as research assistants during two of their four years in the program. Students teach during the last two years in the program.

After passing qualifying exams, required courses, and writing required papers, students proceed into candidacy and write their doctoral dissertations in their remaining years of the program.

The following are the current curriculum requirements for the Entrepreneurship PhD. Because the state of the knowledge in the field changes, both the content and sequencing of these course requirements may change in order to address topics of current interest. Faculty may change as well.

Applicants should contact the Program Director, Dr. James O. Fiet, at fiet@louisville.edu (fiet@louisville.edu) or (502) 645-2536, if they have questions about the curriculum requirements.

Environmental Engineering (CERT)

Graduate Certificate in Environmental Engineering (ENVCECEESP)
Unit: Speed School of Engineering (http://louisville.edu/speed) (GS)
Department: Civil and Environmental Engineering (http://louisville.edu/speed/civil)
Program Webpage (https://louisville.edu/speed/academics/programs/certificates)

Program Information

Students interested in increasing their knowledge of Environmental Engineering can take a series of courses and earn a certificate. The certificate program offers courses in the following disciplines:

- Civil and Environmental Engineering
- Chemistry
- Biology
- Mechanical Engineering
- Chemical Engineering

This is a certificate program, not a degree program. The Graduate Certificate in Environmental Engineering is awarded only with the completion of a graduate degree program (MEng, MS, or PhD) at Speed School of Engineering.
Admission Requirements

Admission to the Speed School of Engineering division of higher studies (MEng) or the graduate school (MS or PhD) in Engineering.

All admission applications for the graduate certificate program shall include the following:

- Application for the School of Interdisciplinary and Graduate Studies;
- Application fee;
- Official transcript(s) for all previous post-secondary coursework—all transcripts not in English must be certified as authentic and translated verbatim into English;
- A baccalaureate degree (or equivalent) from an accredited institution or current enrollment in an undergraduate Speed School program.

All students enrolled in a graduate certificate program are expected to make steady and satisfactory progress toward the completion of the certificate. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the certificate program. Students who seek to return after such a period of time must contact the graduate program director.

Certificate Requirements

The following certificate requirements are mandatory for all graduate certificate candidates:

1. The certificate program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy certificate requirements.
2. Completion of a graduate degree program at Speed School of Engineering (MEng, MS, or PhD).
3. Graduate certificate students must take all certificate coursework at the University of Louisville. No transfer credits will be accepted toward a graduate certificate.

</tr>
</tbody>
</table>

Minimum Total Hours: 12

*Students must complete 12 credit hours, with at least 6 hours at the 600 level. Courses are to be selected from the following lists. All prerequisites must be met. Graduate courses not shown in the lists below require approval from the Certificate Program Director.

Certificate courses do not constitute a degree program, but may be applied toward MEng, MS, or PhD degree requirements.

Other requirements

Completion of a graduate degree program at Speed School of Engineering (MEng, MS, or PhD).

Epidemiology (MS)

Master of Science in Epidemiology (EPIDMSE)

Unit: School of Public Health and Information Sciences (GH)
Department: Epidemiology
Program Webpage (https://louisville.edu/sphis/departments/epidemiology-population-health/academics)

Program Information

The Master of Science (MS) in Epidemiology program is designed to prepare students for the PhD program in Public Health Sciences with a concentration in Epidemiology. The MS in Epidemiology is offered by the Department of Epidemiology and Population Health.

Competencies

To graduate, students in the MS program in Epidemiology must maintain a GPA of 3.0 or higher and demonstrate the following competencies:

1. Mastery of the principles of epidemiologic, observational study design, including:
   - The merits and limitations of cross-sectional, retrospective and prospective designs
• Methods of disease surveillance and case ascertainment
• Methods of population-based sampling
• Sample size and statistical power calculation
• Issues in the measurement of exposure and disease transmission
• Identification and correct interpretation of potential biases in study design

2. Knowledge of the socioeconomic and geographic distribution, risk factors, and etiology of major acute, infectious and chronic morbidity and mortality.

3. Mastery of basic methods of analysis of epidemiologic data, including:
   • Measures of disease frequency, prevalence, and incidence
   • Methods for adjusting rates for age, gender, etc.
   • Measures of association, odds ratio, relative risk
   • Control of confounding and effect modification through stratification and statistical control
   • Modeling in multiple logistic regression
   • Principles of survival analysis
   • Correct interpretation of results with regard to issues of error, bias and criteria for causality

These competencies are demonstrated through the successful completion of the coursework and the design, execution, documentation, and presentation of the research for the student’s thesis.

Curriculum
The program is designed as a two-year program of coursework and thesis research and preparation. The student is expected to develop and plan his or her thesis research prior to the final semester in which the majority of the actual research is done.

Faculty Advisor
Upon admission to the MS program, each student is assigned a faculty advisor by the department chair or program director. Students and/or advisors who wish to change their assigned relationship must make a written request to the department chair or program director.

The student and his or her faculty advisor work together to develop a program of study that recognizes the student’s research interests and core elements of modern epidemiology and its breadth and multidisciplinary nature.

Admission Requirements
Students with a prior baccalaureate degree, or an advanced degree in an appropriate field of study, from a regionally accredited university or college are eligible for the MS program in Epidemiology.

Previous coursework in mathematics and/or statistics and biological or health sciences (for example, biology, biochemistry, anatomy, physiology, and/or microbiology) is strongly recommended. Applicants who are judged to not have sufficient prior coursework or experience in these areas may be required to take additional coursework.

The following are additional requirements for admission:
• Undergraduate GPA at least 3.0 on 4.0 scale
• Official GRE scores taken within the past five years. Score greater than the 50th percentile on each of the quantitative and verbal sections is recommended.
• If applicable, Test of English as a Foreign Language (TOEFL) score in at least 60th percentile.

Program Requirements
Degree requirements include required coursework in epidemiology, elective coursework in biostatistics and in public health sciences, and a thesis.

38 total credit hours:
• 14 credit hours of required coursework
• 15 credit hours of elective coursework
• 9 credit hours of thesis research

Minimum Total Hours: 38

Electives
Program requirements include five elective courses, of which at least one is in epidemiology (PHEP) and each of the remaining four in public health (PHxx). All epidemiology courses above PHEP-602 are pre-approved. All courses offered by other departments and programs in the school are also pre-approved elective courses in public health. Elective courses in epidemiology and biostatistics (PHST) are strongly encouraged.

Students may petition to take elective courses that are not pre-approved with approval of the student’s faculty advisor and the program director or chair of the department or designee.

Selection of electives is done by the student and his or her faculty advisor with approval of the program director or chair of the department.
Elective courses may require prerequisites or permission of the course instructor.

**Thesis**

A thesis is required of a candidate for the degree of Master of Science in Epidemiology. It is to be an original work of professional quality and the basis for one or more potentially publishable papers.

**Thesis Committee**

The thesis is read by a reading committee, chaired by the student’s faculty advisor, and appointed by the dean of the school upon the recommendation of the chair of the department. This committee consists of three members and must include one representative of an allied department. The thesis must be approved by the committee and the chair of the department.

**Thesis Proposal**

The thesis proposal is to be developed in written form and presented to the thesis committee for approval. The thesis topic is to be one or more of the following:

- Critical review of the contemporary epidemiologic literature on a specific disease, risk factor, or health related condition.
- Meta-analysis of results from several epidemiologic studies of a specific disease.
- Research report on analysis of collected data.
- Evaluation of epidemiologic statistical methodology.

**Thesis Preparation**

The thesis is to be prepared in format and binding according to the guidelines established by the School of Interdisciplinary and Graduate Studies, available at louisville.edu/graduate/current-students/thesis-dissertation-information.

**Thesis Approval**

The thesis is to be submitted in completed form to the chair of the thesis committee at least fifteen days before the end of the term in which the candidate expects to be graduated, and the candidate is not eligible for the final oral examination until the thesis has been accepted by the committee.

The thesis committee schedules an oral examination of the candidate. The thesis is approved by a majority vote of the committee.

**Thesis Submission**

The following steps must be taken to submit the final copy of the thesis electronically after oral defense and approval of the committee:

1. Final document must be converted to a PDF (following the guidelines as noted above) and sent to the School of Interdisciplinary and Graduate Studies and the department’s administrative assistant.
2. Submit as advised by the School of Interdisciplinary and Graduate Studies through the ThinkIR repository. The direction on submission will be provided upon review of the thesis by the School of Interdisciplinary and Graduate Studies.
3. The signature page within the electronic version must have the names of your committee members typed under the signature line; the signatures cannot be scanned into the document.
4. Submit a signed signature page on white paper, with original signatures, to the School of Interdisciplinary and Graduate Studies.

A copy of the final, signed thesis must also be deposited with the department office.

**Exercise Physiology (MS)**

**Master of Science in Exercise Physiology (EXP MS)**

Unit: College of Education and Human Development (http://louisville.edu/education) (GE)

Department: Health and Sport Sciences (http://louisville.edu/education/departments/hss)

Program Webpage (https://louisville.edu/education/degrees/ms-ep)

**Program Information**

**General Program Information**

Students who complete the Master of Science degree in Exercise Physiology are prepared to pursue a number of career options. Graduates from our program have continued their education by completing the PhD degree in fields such as exercise physiology, physiology, biochemistry, while others continue to the MD. Many students have pursued careers in allied health fields such as nursing and physical therapy as well as in such fields as aviation physiology, cardiac rehabilitation, corporate wellness, and ergonomics.

Because many of our students seek to work in the fields of cardiac rehabilitation and corporate wellness, the curriculum is structured to satisfy the preliminary requirements for certification as "exercise technologist" or "exercise specialist" as set by the American College of Sports Medicine. The curriculum provides students the necessary knowledge base and coursework to satisfy entrance into the certification process (which is under the control of the American College of Sports Medicine and requires both a written and practical exam).

**Admission Requirements**

Admission will be based on a holistic approach using minimum GPA and GRE requirements, prior coursework (including GPA in science classes), experience, three letters of recommendation, resume, and a personal statement explaining interest in the program and long term objectives.

A variety of undergraduate majors are acceptable, including exercise science, biology, chemistry, physiology, nursing, etc.

In addition, the student must complete the application (http://louisville.edu/graduate/apply) procedure as required by the School of Interdisciplinary and Graduate Studies. Students are recommended to have earned a grade-point average of at least 2.75 on a 4-point scale in their undergraduate program. Average GRE scores for successful student usually range from composite scores of 293-310 (Verbal and
Quantitative sections combined) and 4.0-4.5 on the Analytical section. Admission to the program is competitive.

**Degree Requirements**

MS in Exercise Physiology students choose from multiple degree options: 1) a Thesis Option; 2) a Non-Thesis, Clinical Option; 3) a concentration in Strength and Conditioning with a Thesis Option; and 4) a concentration in Strength and Conditioning, Non-Thesis Option.

New applications to the Thesis Option of the Strength and Conditioning concentration are not being accepted at this time.

**Thesis Option**

*(with prior Organic Chemistry)*

The MS thesis option requires a minimum of 42 credit hours of course work, which includes six (6) credit hours devoted to completion of the thesis. Students in this option are required to actively participate in all phases of research within the laboratory. The thesis program requires two full years of study including the summer between the first and second years. To complete the MS in Exercise Physiology, a minimum of 23 credit hours must be at the 600 level or above.

**Admission Requirements: Organic Chemistry with Lab**

**Non-Thesis Clinical Option**

The MS non-thesis option emphasizes the use of exercise as a clinical intervention. This option is heavily slanted toward improved cardiovascular health and cardiovascular rehabilitation through the use of exercise.

Students in this option must complete a minimum of 36 credit hours of course work. The non-thesis program requires two full years of study including the summer between the first and second years.

Franchise Management (CERT)

Graduate Certificate in Franchise Management
Unit: College of Business (https://business.louisville.edu)
Program Website (https://louisville.edu/online/programs/certificate-programs/franchise-management)

Program Information
This program can be completed entirely online (http://louisville.edu/online/programs/certificate-programs/franchise-management).

The Franchise Management Certificate is a 9-credit hour certificate that focuses on the unique skills and knowledge necessary to succeed as a franchisee—including acquiring, running, and growing franchise operations.

The curriculum was designed in close partnership with industry experts. The six accelerated, highly focused, 1.5-credit hour courses are designed for individuals who plan to become franchisees, as well as existing single-site franchisees who want to gain the skills and knowledge necessary to grow their franchise business.

The Franchise Management certificate can be taken in conjunction with the MBA program (p. 867). For students who are accepted into the MBA program, it will count towards fulfilling elective requirements in the MBA curriculum.

Admission Requirements
Students must have a bachelor’s degree from a regionally accredited university and a minimum undergraduate GPA of 2.0 to be admitted to the Franchise Management certificate program.

GMAT/GRE scores are not required for admission to the program.

Please note: Students who desire to complete an MBA in conjunction with the Franchise Management certificate must be separately admitted to the MBA program.

Minimum Total Hours 36-39

To complete the program, students must have a minimum of a 3.0 cumulative grade point average.

French, Language and Literature (MA)

Master of Arts in French Language and Literature (FRENMA)
Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences/intro) (GA)
Department: Classical and Modern Languages (http://louisville.edu/modernlanguages)
Program Webpage (https://louisville.edu/french)

Program Information

The MA program in French is not currently accepting applications for admission.

The mission of the Master of Arts in French, Language and Literature is to provide students who would like to explore professional opportunities in teaching, translation, international affairs, etc. or pursue their studies at the doctoral level, with an in-depth knowledge of the French language and the cultures of the French-speaking world, as part of a multidisciplinary approach to French Studies grounded in literature, linguistics, cultural studies and media studies.

Program Information

The Master of Arts in French Language and Literature requires 30 credit hours of academic work at the graduate level.

- It is possible to complete this program as part of a joint BA/MA program in French.
- Students must consult with the Director of Graduate Studies in French to take courses in place of the required courses listed below.
- Students must complete a minimum of 24 credit hours at the University of Louisville.
- As part of their graduate program, students are expected to spend at least one month in a French-speaking country, which they traditionally do during the summer between their first and second years. Modern Language Fund grants are available to assist students with the cost of their in-country study or work experience. Students can fulfill the requirement by participating in the long-standing summer Work-Exchange Program the University of Louisville has with our sister city of Montpellier, France. After consultation with the Director of Graduate Studies in French, it may be possible to find an appropriate substitution for this requirement.

Accelerated BA/MA Program

Students who wish to pursue an accelerated non-thesis master’s degree will be allowed to apply up to nine (9) credit hours of undergraduate coursework, taken for graduate credit, toward their graduate degree. An additional 21 credit hours of graduate coursework taken in addition will constitute the minimum number of credit hours for obtaining the non-thesis master’s in the accelerated BA/MA program.

Additional requirements and admission information can be found by clicking on the Admissions tab above.

Admission Procedures

Admission is on a rotating basis. Students must submit the following:

- Graduate admission application (http://louisville.edu/graduate/apply)
- Application fee
• Transcripts from all colleges/universities where undergraduate and/or graduate credit was earned
• Two letters of recommendation

GRE exam scores are NOT required for admission into the Master of Arts in French, Language and Literature (they are, however, required by the School for Interdisciplinary and Graduate Studies for the awarding of funded assistantships). We support holistic admission procedures.

Students may begin the program in fall (preferably), spring or summer.

### Accelerated BA/MA Program

Students who wish to pursue an accelerated non-thesis Master’s degree will be allowed to apply up to nine (9) credit hours of undergraduate coursework, 
*taken for graduate credit*, toward their graduate degree. An additional 21 credit hours of graduate coursework taken in addition will constitute the minimum number of credit hours for obtaining the non-thesis Master’s in the accelerated BA/MA program. The guidelines for this combined program are as follows:

1. Prior to applying for admission into the program, students must consult with both the French Undergraduate Advisor and the Director of Graduate Studies in French. They will then submit their application (http://louisville.edu/graduate/futurestudents/apply-materials) through the School of Interdisciplinary and Graduate Studies. It is strongly recommended that at least one of the supporting letters submitted with the application be from a French faculty member.

2. Students must:
   a. Apply for admission to this program no later than the end of the Junior year (a total of 90-degree applicable hours) and,
   b. Have completed FREN 320, FREN 321, FREN 322 with grades of 'B' or better.

3. The application will be reviewed by the French faculty. A 3.35 cumulative grade point average will be required for admission to the program.

4. Students may take a maximum of nine (9) credit hours for graduate credit, which will also count toward the requirements for the baccalaureate (BA) degree in French. The nine (9) credit hours must be from the following list: FREN 522, FREN 523, FREN 524, FREN 531, and FREN 552.

5. Students who enroll in the accelerated program will be non-thesis students and must adhere to all policies pertaining to Graduate Students in the Department of Classical and Modern Languages.

The MA in French, Language and Literature offers a thesis and a non-thesis option. All students are required to take FREN 611 and FREN 699; it is recommended that students take FREN 611 during their first semester in the program and FREN 699 during their last semester in the program.

Students who choose the thesis option will be required to take complete a minimum of six (6) courses selected from the rubrics below and three to six (3-6) credit hours of thesis credit (FREN 690). At least one course must be taken from each of the rubrics. Students who choose the non-thesis option will take a minimum of eight (8) courses with at least one course from each of the rubrics below. Students must earn a minimum of 30 credit hours to complete the degree.

Students may, with permission of the Director of Graduate Studies in French, supplement their program of study with occasional coursework in disciplines related to their area of French specialization.

1. Students who select the thesis option will complete 3-6 credit hours of FREN 690 and take one or two additional graduate French courses selected from the rubrics above. Students in the non-thesis option will complete 9 additional credit hours of FREN graduate course work selected from the rubrics above.

2. FREN 506, FREN 531, FREN 551, FREN 561, FREN 562, FREN 655, FREN 670, and FREN 680 are course numbers used for electives in the French program

### Geography, Applied (MS)

**Master of Science in Applied Geography (AGEOMS)**
Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences) (GA)
Department: Geography and Geosciences (http://louisville.edu/geogeo)
Program Webpage (http://louisville.edu/geogeo/graduate)

**Program Information**

The Master of Science in Applied Geography is designed to provide students with the analytical skills and background knowledge needed to solve real-world problems with geographic dimensions. Graduate students experience a nucleated body of coursework designed to foster and support the theoretical knowledge and advanced skill sets demanded for the professional and academic/research fields. Coupled with the enhanced level of course content, quantitative, qualitative and spatial data analysis applications, and the departmental emphasis upon critical reasoning, effective writing and communication skills, graduates will be capable and prepared for effective integration into a broad diversity of professional fields.

Our course offerings and faculty research areas include geographic information systems (GIS), remote sensing, climatology and meteorology, urban and regional studies, quantitative and qualitative methods, medical geography, globalization, glaciology, hydrology and water resources, geomorphology, glaciology, transportation and location analysis, border security, land use/land cover change and the geography of food and race.

Geographic information systems (GIS) proficiency is required for all students. If not attained at the undergraduate level or in a job-related environment, students will be required to take GEOG 558 in addition to the coursework listed as program requirements. The department has state-of-the-art computer facilities with GIS and remote sensing software.

The program offers both thesis and non-thesis options. Students who choose the non-thesis option are required to take a written comprehensive exam near the end of their course of study. Students may attend either full- or part-time.

**Admission Requirements**

Students from geography and related fields are encouraged to apply.

All applicants must have completed a BA or BS with a cumulative grade point average of 3.0 and successful students have a combined score of at least 1000 on the GRE. Applicants must submit two (2) letters of recommendation addressing candidate skills and readiness for graduate study, as well as a letter of intent outlining educational goals.

All materials must be submitted to the School of Interdisciplinary and Graduate Studies: louisville.edu/graduate/apply.

**Program Requirements**

The Master of Science in Applied Geography is a 36-credit hour program with both a thesis and a non-thesis option.

Geographic information systems (GIS) proficiency is required for all students. If not attained at the undergraduate level or in a job-related environment, students will be required to take GEOG 558 in addition to the coursework requirements listed below.

**Thesis Option**

</tr>
</tbody>
</table>

**Minimum Total Hours**

After the second semester, each thesis student will choose a thesis advisor and two other faculty members for a thesis committee.

Non-thesis students will choose a three-member advising committee to administer and evaluate the comprehensive exam.

1. GEOG 600, GEOG 640, GEOG 656 and GEOG 660 are prerequisites to GEOG 641.
2. Up to two courses used to satisfy the elective requirement may be from outside the department.

**Health Administration (MS)**

**Master of Science in Health Administration (HEADMS)**

Unit: School of Public Health and Information Sciences (https://louisville.edu/sphis) (GH)

**Program Information**

Healthcare management is a broad field serving one of the largest and most essential industry segments in the United States and Canada. Management is needed in multiple aspects of the industry which include: hospitals, nursing homes, physician’s offices, pharmaceutical and device manufacturers, consulting, government and public policy, and many more.

The Department of Health Management and Systems Sciences (HMSS) offers the Master of Science in Health Administration degree for students with no healthcare experience (Evening Track MSHA) and a modified curriculum for working mid-career executives (Executive Track MSHA). Evening track students may be enrolled full or part-time. Executive track students must be enrolled full-time (cohort model). As major policy reforms propel widespread disruption across the entire
health care delivery system, HMSS recognizes the need to train and further educate a broad cadre of skilled leaders and managers to meet immediate and critical organizational and system-wide challenges.

**Competencies**

The Program will use the University of Louisville’s Population Health Leadership (PHL) Competency Model. This competency model is a modified version of the National Center for Health Care Leadership (NCHL) competency model (nchl.org (http://www.nchl.org)).

For a complete listing of the competencies for this program, please click here (http://louisville.edu/sphis/departments/health-management-systems-sciences/academics-1/ms-in-health-administration) to visit the MSHA web page for the School of Public Health and Information Sciences

**Curriculum**

The curriculum has 3 main components beginning with an exploration of broad principles and key influencers of leading healthcare organizations, moving to an examination of evidence-based and data-driven frameworks for strategic leadership and effective management of healthcare organizations and issues, and then to an analysis of the external health care and policy environments that impact population and community healthcare management.

**Faculty Advisor**

On matriculation, each student is assigned a faculty advisor and is requested to meet at least twice each semester with his or her advisor. The faculty advisor serves as academic practicum advisor, academic mentor, and counselor on career and employment opportunities, professional development, and opportunities beyond graduate school.

**Admission Requirements**

The Department of Health Management and Systems Sciences (HMSS) offers the Master of Science in Health Administration degree for students with no healthcare experience (evening track) and a modified curriculum for working mid-career executives (executive track).

Prospective students must have a bachelor’s degree from an accredited institution or its equivalent. It is recommended that applying students have a minimum undergraduate GPA of 3.0 on a 4.0 scale.

Prospective students must also submit:

- Resume or curriculum vitae (CV)
- One-page personal statement written by the applicant that is a clear, substantive description of his or her goals in public health and health care management, noting any professional or research experience.
- Three letters of recommendation written within the last twelve months.
- International applicants: Foreign credential evaluation of all degrees from non-U.S. institutions. Please contact the MSHA program prior to completing this requirement.
- Admission interviews by the HMSS Health Leadership Committee are required and are in addition to your application for admission. An interview provides the HMSS Health Leadership Committee an additional source of information and perspective about your potential fit for the University of Louisville.

If applicable, Test of English as a Foreign Language (TOEFL) exam with a minimum score of 90; passing the exit examination for the advanced level of the Intensive English as a Second Language Program at the University of Louisville; or a degree from an accredited U.S. institution (this requires provisional admission with evaluation of English language competency).

**Evening track admissions**

Students entering the MSHA evening track must have less than five years of working experience.

Prospective students must submit test scores from any of the following: GRE, GMAT, MCAT, LSAT, or DAT. Scores must be no more than 4 years old. The requirement is waived if an applicant has a terminal degree from a U.S. institution or has obtained and can provide a copy of the Confirmation of ECFMG® Certification (Educational Commission for Foreign Medical Graduates).

**Executive track admissions**

Students entering the MSHA executive track must have a minimum of five years working experience. Preference will be given to students with healthcare-related work experience.

There is no test score requirement.

**Performance within curriculum for both tracks**

Students in the Program must maintain a minimum 3.0 GPA in coursework.

**Program Requirements**

Students must successfully complete the 57-credit hour curriculum, earn a grade of B or above in the MSHA Capstone Course, and have an overall 3.0 GPA in coursework in order to graduate from the program.

All courses within the curriculum are required and there are no electives. Students within both the evening and executive tracks take the same courses except for PHMS 686, which is required for the evening track only, and PHMS 691, which is required for the executive track only.

**Evening Track Requirements**

**Education Plan**

The evening track is designed so that students can work as full-time employees and attend evening classes. The practicum course, PHMS 686 MSHA Practicum, is designed to expose students new to the health management field to working conditions in healthcare organizations between their first and second year in the Program.

### Executive Track Requirements

**Education Plan**
The overall guiding philosophy for the executive track in the MSHA curriculum design is that the Program will only meet once a month and that a hybrid method of content delivery (synchronous and asynchronous) will be used so that the mid-career executives can proceed working in their current jobs while in the Program. The MSHA executive track substitutes the practicum with the course PHMS 691 *Current Topics in Health Administration*. This course allows students to consider and discuss the current, real-time challenges facing the healthcare industry. Since the executive track students have management experience, the practicum is not required.

### Health and Physical Education (MAT)

**Master of Arts in Teaching Health and Physical Education (HPEDMAT)**

- **Unit**: College of Education and Human Development ([https://louisville.edu/education](https://louisville.edu/education)) (GE)
- **Department**: Teaching and Learning; Health and Sport Sciences
- **Program Webpage**: ([https://louisville.edu/education/degrees/mat-hpe](https://louisville.edu/education/degrees/mat-hpe))

**Program Information**

The Master of Arts in Health and Physical Education degree provides Kentucky certification in grades P-12.

The Departments of Teaching and Learning and Health and Sport Sciences are committed to the highest standards of professional preparation. Our programs have sought and received national accreditation from the Council for the Accreditation of Educator Preparation. Graduates of initial teacher certification programs at the University of Louisville begin their teaching careers secure in the knowledge that they have been prepared for the real world of classrooms through a rigorous teacher preparation program.

The degree offers school-based methods in the fall semester (August-December) in health and physical education for grades P-12. During the spring semester candidates complete 15 weeks of student teaching at both the elementary and secondary levels, a weekly seminar class and a reading and writing across the curriculum course. The program’s schedule coincides with that of the public schools. Candidates progress through the program in a cohort group. The program is full-time and classes are offered only during the day.

**Admission Requirements**

Candidates who meet the following criteria may be eligible to apply to the Master of Arts in Teaching program. Candidates considering application to the MAT program should contact the MAT admissions counselor (teacher@louisville.edu) prior to applying for admission. UofL undergraduate students, with a major in Health and Human Performance - Physical Education Teacher Preparation, should direct questions to Dr. Carla Vidoni at carla.vidoni@louisville.edu.

Admission is competitive. Candidates who meet minimum academic requirements are not guaranteed admission to the program.

1. Application to School of Interdisciplinary and Graduate Studies/ MAT Program ([http://louisville.edu/graduate/apply](http://louisville.edu/graduate/apply)). This should be completed three to four weeks prior to the application deadline.
2. Passing Test Scores (http://louisville.edu/education/degrees/info/gre-mat)
   
   Please note: when submitting test scores through ETS, use the general University of Louisville code, 1838.

3. Praxis II Content Exam(s) (http://louisville.edu/education/degrees/info/mat-hpe-praxis-ii)

4. Bachelor’s Degree from Accredited College or University (http://louisville.edu/education/degrees/info/bachelors) with a Minimum 2.75 Grade Point Average (official transcripts (http://louisville.edu/education/degrees/info/transcripts) required). If you are a current UofL student, you do not need to submit transcripts.

5. Prerequisite Course Requirements (http://louisville.edu/education/degrees/info/mat-hpe-prereq)

6. Grade of C or higher in Oral Communication Course

7. Grade of C or higher in ENGL 102

8. TOEFL (http://louisville.edu/education/degrees/info/toefl)

9. Professional (http://louisville.edu/education/degrees/info/mat-mse-professional-statement) Statement

10. 3 Letters of Recommendation (http://louisville.edu/education/degrees/info/lor)

11. Acceptable interview

Minimum Total Hours 30

1 Prior to student teaching: All content methods classes listed above passed with a cumulative 3.0 GPA; positive recommendation from the Health and Physical Education Program Committee (includes assessment and mid-point portfolio); electronic documentation of 200 hours of diverse and approved field experiences.

2 These courses are the exit requirements for this program. Includes teacher certification in P-12 health and physical education

**Certification Assessment:** After student teaching: Satisfactory dispositions assessment; all program course work completed with 2.5 cumulative GPA; 2.5 cumulative GPA in content course requirements; 2.0 GPA or higher in each student teaching; satisfactory certification portfolio; passing scores on PRAXIS content and PLT exams; positive recommendation from Health and Physical Education Program Committee.

---

**Degree Assessment:** Satisfactory dispositions assessment; all program course work with 3.0 cumulative GPA (and no more than a total of two grades of C in degree courses); satisfactory degree portfolio.

**Degree Candidacy:** Students not enrolled during the semester in which they intend to graduate must register for degree candidacy as outlined in the Graduate Catalog (p. 802).

**Praxis Disclaimer:** Teacher certification requirements are subject to change. Before registering for certification test(s), please refer to the Education Professional Standards Board (EPSB) website at www.epsb.ky.gov (http://www.epsb.ky.gov) or www.ets.org/praxis/ky (https://www.ets.org/praxis/ky) for current requirements.

---

**Health Data Analytics (MS)**

**Master of Science in Health Data Analytics (HEDAMS)**

Unit: School of Public Health and Information Sciences (https://louisville.edu/sphis) (GH)

The Kentucky Council on Postsecondary Education has approved this program to be offered at the University of Louisville. The intended first term for enrollments currently is Fall 2019. Interested individuals should contact the Department of Health Management and Systems Sciences for more information.

---

**Program Information**

The Master of Science in Health Data Analytics program will educate and trains public health graduate students in data analytics using the most recently developed techniques for Big Data, data mining, and algorithmic analysis.

**Competencies**

The MS in Data Analytics Program focuses on four key competencies:

1. Public health knowledge
2. Data warehouse development for health data analytics
3. Health data analytics
4. Translation of data analytics into actionable knowledge

---

**Curriculum**

The curriculum has four main components:

1. Public health foundations
2. Principles of data warehouse construction (i.e., creating Big Data from little data)
3. Advanced analytics (i.e., Big Data analytics, data mining)
4. Master’s thesis based on original research using health data

---

**Admission Requirements**

The Kentucky Council on Postsecondary Education has approved this program to be offered at the University of Louisville. The intended first term for enrollments currently is Fall 2019. Interested individuals should contact the Department of Health Management and Systems Sciences for more information.
The MS program is available to students who have completed an undergraduate degree in biostatistics, statistics, mathematics, computer science or a related discipline and have competency in college-level calculus, statistics, regression analysis, as evidenced by transcripts from postsecondary institutions attended by the applicant.

This program is available to both part-time and full-time students; however, the part-time student must be cognizant that courses are offered on an alternating basis, usually every two years. Part-time students must pursue the recommended course sequence as courses are available.

The following are additional requirements for admission:

- Graduate application submitted to the School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply)
- Non-refundable application fee
- At least two letters of recommendation written within past twelve months, submitted via the Graduate School website
- Students are asked to submit a current curriculum vitae (CV)
- Submission of GRE Quantitative section score to the School of Interdisciplinary and Graduate Studies
- All postsecondary transcripts (requires foreign credential evaluation if not from accredited U.S. institution)
- Statement of goals (i.e., general research interests)
- Admission interviews by the HMSS Health Leadership Committee are required and are in addition to your application for admission. An interview provides the HMSS Health Leadership Committee an additional source of information and perspective about your potential fit for the University of Louisville.
- If candidate’s primary language is not English, one of the following:
  - Test of English as a Foreign Language (TOEFL) exam with a minimum score of 250 (after conversion for test type)
  - Passing the exit examination for the advanced level of the Intensive English as a Second Language Program at the University of Louisville
- Degree from an accredited U.S. institution

Retention and Completion

On matriculation, each student is assigned a faculty advisor and is requested to meet at least twice each semester with his or her advisor. The faculty advisor works with the student to develop a program of study and serves as academic mentor and counselor on career and employment opportunities, professional development, and opportunities beyond graduate school.

Program Requirements

The Kentucky Council on Postsecondary Education has approved this program to be offered at the University of Louisville. The intended first term for enrollments currently is Fall 2019. Interested individuals should contact the Department of Health Management and Systems Sciences for more information.

There are 41 total credit hours in this curriculum, broken down as follows:

- 35 credit hours of required coursework
- 3 credit hours of thesis research
- 3 credit hours of project management (practicum/internship)

To graduate, students must successfully complete the 41 credit hour curriculum and thesis, and have an overall 3.0 GPA in program coursework. All courses within the curriculum are required and there are no electives.

Health Professions Education (CERT)

Graduate Certificate in Health Professions Education (HPEDCHP)

Unit: College of Education and Human Development; School of Medicine
Department: Educational Leadership, Evaluation, and Organizational Development

Program Webpage (https://louisville.edu/education/degrees/gc-hpe)

Program Information

The certificate in Health Professions Education (CHP) is offered through a partnership between the College of Education and Human Development and the School of Medicine. The program is designed specifically for faculty, future faculty, residents and graduate students in the health sciences including medicine, nursing, dentistry, public health, clinical and allied health professions. The program includes four graduate-level credit courses (12 total credit hours), and the certificate is an academic credential offered through the University of Louisville School of Interdisciplinary and Graduate Studies.

All courses are part of the College of Education and Human Development graduate curriculum and may be applied to other degree programs such as a master’s degree. Each course is grounded on the plan for the corresponding course taught in the College of Education and Human Development but is focused primarily for healthcare educators. For example, instructional techniques include working not only in the classroom but also in clinical settings. Class projects are designed for the healthcare environment.

Program courses follow the Belknap Campus semester schedule but meet on the Health Sciences Campus. Courses are taught in the evening and are web-enhanced with approximately one-third of weekly work assignments completed online.
Program Purpose: To promote effective clinical teaching and student instruction in a variety of health science center settings and to develop skill in designing education research for presentation and publication.

Admission Requirements
The HROD Admissions Committee requires the following materials:

- Complete the online application to the School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply).
- Transcripts of all undergraduate and graduate work. Unconditional admission requires a minimum cumulative grade point average (GPA) of 3.0 for all coursework taken AND a minimum GPA of 2.75 for coursework at the undergraduate degree-granting institution.
- For applicants without a terminal degree (e.g., MD, DDS, PhD), GRE scores must be submitted. Please note: when submitting GRE scores through ETS, have scores sent using the general University of Louisville code, 1838.
- Test of English as a Foreign Language (TOEFL) score for international students from countries where English is not the native language. Students holding a baccalaureate or advanced degree from an accredited institution in the United States are exempt from this requirement.
- Two letters of recommendation. If you have studied at a college or university in the last five years, the admissions committee prefers to see at least one letter from a faculty member. Other references can include work supervisors. Personal references (e.g., family, friends) are not accepted.
- Goal Statement Sheet [PDF] (http://louisville.edu/education/degrees/files/goal-statement2012.pdf). The Admissions Committee evaluates applications based on how an applicant’s goals, professional experiences, and commitment to education are an appropriate fit with this program.
- Current Resume

Admission is competitive. Meeting the GRE and GPA minimums do not guarantee acceptance into the program.

Higher Education Administration (MA)

Master of Arts in Higher Education Administration (HED MA)
Unit: College of Education and Human Development (GE) (http://louisville.edu/education)
Department: Educational Leadership, Evaluation, and Organizational Development (http://louisville.edu/education/departments/elfh)

Program Webpage (https://louisville.edu/education/degrees/ma-he)

Program Information
This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs/masters/master-of-arts-in-higher-education).

The Master’s in Higher Education Administration Degree program at UofL is designed to provide individuals with the knowledge and skills necessary to pursue a career in university and college settings. Our nationally recognized faculty apply their expertise as scholars and practitioners to connect classroom knowledge directly to real-world experiences.

Admission Requirements

- **Graduate School Application:** Complete the online application to the School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply).
- **Official transcripts of all undergraduate and graduate work.** Unconditional admission requires a minimum degree grade point average (GPA) of 2.75. Applicants who have attended a college or university outside of the United States are also required to submit an evaluation of their transcript through either WES (World Education Services) (http://wes.org) or ECE (Educational Credential Evaluators) (http://ece.org). Please note that transcript evaluations can sometimes take several weeks.

  Please have transcripts sent to:
  
  School of Interdisciplinary and Graduate Studies
  
  University of Louisville
  
  Louisville, KY 40292
  
  If transcripts are sent electronically, please have them sent to the following e-mail: gradadm@louisville.edu

  - GRE scores (waived if undergraduate cumulative GPA is 3.0 or higher or completion of a master’s degree with a 3.5 cumulative GPA or higher)
  - Two letters of recommendation
  - Resume
  - Professional goals statement

Students may be recommended for conditional admission upon recommendation of the program faculty.

Meeting the GPA and GRE requirements does not guarantee admission to the program.

Department committee reviews application materials and makes recommendation to School of Interdisciplinary and Graduate Studies.

**History (MA)**

Master of Arts in History (HISTMA)
Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences/intro) (GA)
Department: History (http://louisville.edu/history)
Program Webpage (https://louisville.edu/history/graduate-studies)

Program Information
The Master of Arts program in History provides advanced training in historical theory, investigation, and writing. Among other things, it prepares students for further graduate studies in history, employment in educational institutions or in public history, and careers in law and government.

The varied specialties of our faculty, combined with the structure of the program, allow our students to acquire a worldwide vision of history. In addition to completing a set of core courses, all students are required to select a Major Field in Americas, World, or Public History.

Accelerated BA/MA in History Program
Undergraduate History majors who are already thinking about pursuing an MA in history can speed up the process by applying some of their undergraduate credit hours toward a master’s degree. Students take three graduate-level courses/nine hours (either 500-level with the additional graduate-level assignments, or 600-level) while still an undergraduate, and then have those credits apply both toward the undergraduate degree and towards an eventual master’s degree from UofL.

Interested students should:
1. Complete an application for admission to the History Department’s Master of Arts program (including GRE scores, transcripts, two letters of recommendation, and a statement of purpose) no later than the end of their junior year.
2. Have a minimum overall grade point average (GPA) of 3.35, a history GPA of 3.35, and meet all other requirements for admission to the History Department’s Master of Arts program (including at least 21 hours of history courses).

Students must retain a 3.35 GPA in history during their senior year to remain in the program. Once admitted to the accelerated BA/MA program and starting the graduate work, students are expected to maintain a full graduate load of 9 credit hours.

Admission Requirements
Applicants to the MA program in History should have:

- A minimum undergraduate GPA of 3.0 on a 4.0 point scale (a GPA based on a 3.0 scale will be converted to a 4.0 scale)
- 21 undergraduate credit hours in history, with a minimum GPA of 3.0.
- Successful students have a combined score of at least 300 on the Verbal and Quantitative sections of the Graduate Record Examination (GRE).

Students with an undergraduate GPA of between 2.5 and 2.99 may be accepted conditionally into the program at the discretion of the Director of Graduate Studies, provided they meet all other requirements for admission. Conditional admission requires that the student maintain a GPA of 3.0 in the first 9 credit hours of graduate coursework.

Students with fewer than 21 undergraduate credit hours in history will be required to take additional history courses to bring their total undergraduate hours up to the required number.

Non-Degree Students
At the discretion of the Director of Graduate Studies, non-degree students may be admitted to pursue graduate coursework.

Admission Materials
Applicants must submit the following materials to the University of Louisville School of Interdisciplinary and Graduate Studies, Graduate Admissions:

- A completed graduate application; application fee (available online at louisville.edu/graduate/apply)
- Official transcripts, verifying the receipt of a BA from an accredited institution
- Scores from the Graduate Record Examination
- At least two letters of recommendation from individuals familiar with the applicant’s academic and/or professional capabilities and potential
- A writing sample of no more than 15 double-spaced pages
- A statement of purpose, not to exceed 500 words, outlining in reasonably specific terms, the applicant’s academic and career objectives and how they can be advanced through graduate work in our program. The statement should also indicate the applicant’s intended area(s) of interest, preparation for this field of study, and, if possible, the departmental faculty with whom the applicant wishes to study.

Deadlines:
Applications for Fall semester: February 15 *
Applications for Spring semester: December 1

* February 15 is the deadline for all students who want to be considered for available fellowships, assistantships, and internships. Students who do not intend to apply for these funding sources may submit their applications until May 15. For a list of the graduate assistantships, scholarships, fellowships, and internships, see louisville.edu/history/graduate-studies/funding Applications for these awards are normally due on February 15.

Program Requirements
All graduate students are required to take the Core Courses (15 credit hours in total) along with approved Major Field courses.

</tbody>
</table>
Completion of 30 credit hours of coursework, 15 credit hours in the required Core Courses and 15 credit hours in the student's chosen Major Field. The thesis must be in the Major Field. Following an oral defense, it must be approved by a thesis committee consisting of the thesis director and at least two other faculty members, one of whom must come from the History Department. The committee requires prior approval by the Department Chair and the Academic Unit.

Examination Option

Completion of 33 credit hours of coursework, 15 credit hours in the required Core Courses and 18 credit hours in the student's chosen Major Field. The exam consists of two written examinations, one covering the competencies addressed in the Core Courses and one in the Major Field, and an oral examination. A committee will evaluate the written and oral examinations on their content and the relevant areas of history. The committee will consist of three faculty members, normally the two faculty members who administer the examinations and a third faculty member who may be in the Department of History. The committee requires approval by the Department Chair and the Academic Unit.

Accelerated BA/MA

This program allows a history major to use a maximum of 6 credit hours of graduate coursework towards both a BA and an MA. After completing the undergraduate program and receiving a BA, the student will enter the graduate program and complete the remaining requirements for the MA.

To be considered for admission to the accelerated program, students must:

- Have a minimum overall grade point average (GPA) of 3.0 and a minimum GPA of 3.35 in history
- Complete an application for admission to the graduate program (including GRE scores and at least two recommendations) no later than the end of the junior year (see details on Admission tab)

In addition, students must retain a GPA of 3.35 in history (have a B+ in graduate history courses) during their senior year to remain in the program.

In general, students will work with Associate or Full Professors as their academic advisors. To work with an Assistant Professor, students will have to receive approval from the faculty member and the Director of Graduate Studies.

Human Resources and Organization Development (MS)

Master of Science in Human Resources and Organization Development (HRODMS)

Unit: College of Education and Human Development (GE) (http://louisville.edu/education)
Department: Educational Leadership, Evaluation, and Organizational Development (http://louisville.edu/education/departments/eleod)
Program Webpage (http://catalog.louisville.edu/education/degrees/ms-hrod)

Program Description

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs/index/masters/master-of-science-in-human-resources-and-organization-development).

This program educates professionals who lead workplace performance, development, and learning through discovery and critical inquiry. Students and graduates work in corporations, government agencies, health-care organizations, the military, non-profit organizations, education institutions, and community-based groups.

The program has four concentrations which emphasize various aspects of this field:

- Health Professions Education - Education, learning, leadership, and organization change for health-care settings.
- Human Resource Leadership - Strategic and tactical human resource leadership for generalists and specialists.
- Workplace Learning and Performance - Learning, training, performance improvement, and instructional design in organizational settings.
- Career and Technical Education - Performance development and learning in career and technical education through discovery and critical inquiry.
The concentrations in Workplace Learning and Performance (WLP) and Human Resource Leadership (HRL) have been suspended to further enrollments, effective spring 2019. No new applications will be accepted for those concentrations.

Admission Requirements
The HROD Admissions Committee requires the following materials to make a decision about admission:

- **Graduate School Application:** Complete the online application to the School of Interdisciplinary and Graduate Studies (http://graduate.louisville.edu/apply).
- **Official transcripts of all undergraduate and graduate work.** Unconditional admission requires a minimum cumulative grade point average (GPA) of 3.0 for all coursework taken. Applicants who have attended a college or university outside of the United States are also required to submit an evaluation of their transcript through either WES (World Education Services) (http://wes.org) or ECE (Educational Credential Evaluators) (http://ece.org). Please note that transcript evaluations can sometimes take several weeks.

Please have transcripts sent to:
School of Interdisciplinary and Graduate Studies
University of Louisville
Louisville, KY 40292

If transcripts are sent electronically, please have them sent to the following e-mail: gradadmm@louisville.edu

- **GRE Scores (required for some):** For applicants with less than a 3.0 GPA in the last 60 hours of undergraduate work and no terminal degree (e.g., M.D., D.D.S., Ph.D.), you must submit GRE scores. Please note: When submitting GRE scores through ETS, have scores sent to the general University of Louisville code, 1838.
- **Test of English as a Foreign Language (TOEFL):** For international students from countries where English is not the native language. Students holding a baccalaureate or advanced degree from an accredited institution in the U.S. are exempt from this requirement.
- **Two letters of recommendation.** If you have studied at a college or university in the last five years, the admissions committee prefers to see at least one letter from a faculty member. Other references can include work supervisors. Personal references (e.g. family, friends) are not accepted.
- **Goal Statement Sheet [PDF].** The Admissions Committee evaluates applications based on how an applicant’s goals, professional experiences, and commitment to education are an appropriate fit with this program.
- **Current Resume**

Admission is competitive. Meeting the GRE and GPA minimums does not guarantee that prospective students will be accepted into the program.

Program Requirements
The program requires 11 courses, either 33 hours (portfolio/fieldwork option) or 36 hours (thesis option).

The curriculum in all four concentrations is centered around five program goals:

- Investigate Gap
- Produce Interventions
- Implement and Lead Change
- Evaluate Outcomes
- Integrate Foundational Knowledge and Skills

### Concentrations

#### Concentration in Human Professions Education

**Program Purpose:** To prepare professionals who lead performance, development, and learning in the health professions through discovery and critical inquiry. Students may also apply for the health professions education certificate after completion of the 12 credit hour concentration in health professions education.

Humanities (MA)

Master of Arts in Humanities (HUMMA)
Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)
Department: Comparative Humanities
Program Webpage (https://louisville.edu/humanities/graduate/ma)

Program Information
The MA in Humanities is an interdisciplinary, comparative, and globally-oriented master's program offered by the Department of Comparative Humanities in the College of Arts and Sciences. It is designed for students who seek to integrate two disciplines in the arts and humanities, and/or historical periods, with community enrichment. The MA in Humanities can be undertaken as an intensive two-year program, but there is the possibility of a part-time schedule for students with full-time jobs.

A minimum of 15 credit hours must be at the 600 level, excluding HUM 655. In addition to the coursework requirements listed above, some students may need to satisfy the foreign language competency requirement.

Specific coursework information can be found on the Degree Requirements tab.

Areas of Concentration
The MA in Humanities offers three areas of concentration:
- Interdisciplinary Humanities
- Linguistics
- Civic Leadership

Accelerated BA/MA in Humanities
Students who wish to pursue an accelerated Masters degree will be allowed to apply to the Baccalaureate degree up to 9 credit hours of coursework taken for graduate credit. 21 credit hours of graduate coursework, in addition, will constitute the minimum number of credit hours for obtaining the MA. The guidelines for the Accelerated (BA/MA in Humanities) are as follows:
- Students must apply no later than the end of the junior year for admission to the accelerated program.
- A minimum overall grade point average and major grade point average of 3.35 will be required for admission to and for retention in the program.
- Students must complete the GRE and fill out the Humanities Division application for the accelerated BA/MA in Humanities.
- Students may take a maximum of 9 credit hours for graduate credit, which will also apply to the requirements for the baccalaureate degree in Humanities.
- The accelerated BA/MA in Humanities will be offered for the Interdisciplinary Humanities Concentration and for the Linguistics Concentration, but not for the Concentration in Humanities and Civic Leadership.
- Students who enroll in the accelerated BA/MA in Humanities may elect the thesis or non-thesis option, whichever is appropriate to the concentration and course of study.
- All students in the program will take either HUM 609 or HUM 610 to fulfill the Methodology requirement.
- All requirements remain the same, including the foreign language requirement.

Admission Requirements
Regular admission to the MA in Humanities occurs twice yearly, for entry during the fall and spring semesters. The official deadline for Fall admission is January 15 for the following fall. The official deadline for Spring admission is July 15 for the following spring.

All applicants must have completed a BA in an appropriate field of study prior to beginning the program.

Applications should consist of the following:
- Online Graduate Application for Admission louisville.edu/graduate/apply
- Payment of Application fee
- A statement of intent (about 1000 words) focusing on the research interests or the applicant's professional goals
- A scholarly or creative writing sample (5,000-10,000 words)
- Official transcripts of all undergraduate and graduate-level work
- Graduate Record Examination (GRE) General Test scores
Interdisciplinary Humanities concentration must satisfy a foreign language competency requirement and complete a final oral defense of a thesis or Directed Study Project.

</tr>
</tbody>
</table>

Minimum Total Hours 30

In addition to the course work requirements listed above, students in two of the three concentrations need to satisfy a foreign language competency requirement.

1 Concentration credit hours vary depending on whether students opt for a Thesis or a Directed Study Project.
2 Thesis option students take 6 credit hours of HUM 645; Directed Study Project option students take 3 credit hours of HUM 655.

Program Requirements

Concentrations

These concentrations are designed to provide students with a broad grasp of the Arts and Humanities with special strengths in selected areas such as Linguistics and Civic Leadership.

In each track, students take a minimum of eight or nine classes and either write and defend a thesis or produce and defend a Directed Study Project as a final product.

Each concentration requires a minimum of 30 credit hours, with a minimum of 15 credit hours at the 600 level (excluding HUM 655).

Beyond the course work requirements outlined below, students in two of the three concentrations need additional credits to satisfy the foreign language competency requirement.

Interdisciplinary Humanities (formerly "Traditional" track)

Students in this track can combine the study of two disciplines or focus on the culture of a particular historical period. The cultural periods included are: Ancient, Medieval and Renaissance, Early Modern, and Modern

In addition to the course work listed below, MA students in the Interdisciplinary Humanities concentration must satisfy a foreign language competency requirement and complete a final oral defense of a thesis or Directed Study Project.

<td>Directed Study Project</td>
<td>3</td>
</tr>
</tbody>
</table>

Minimum Total Hours 30

A minimum of 15 credit hours for the degree must be at the 600 level (excluding HUM 655).

Civic Leadership

Students in this track are professionals; have completed another professional degree program; or are enrolled in the Joint JD/MAH (http://louisville.edu/humanities/graduate/ma/accelerated/jd-ma) or MAH/MBA (http://louisville.edu/humanities/graduate/ma/accelerated/dual-mba-ma-concentration-in-civic-leadership) Programs. They can combine the study of Civic Leadership with a discipline or a focus on the culture of a particular historical period. The cultural periods included are: Ancient, Medieval and Renaissance, Early Modern (17th and 18th c.), or Modern studies.

Students without one of the Humanities 591-596 sequence in their undergraduate coursework may be required to take one of these as part of their core area course work.

A minimum of 15 credit hours for the degree must be at the 600 level (excluding HUM 655).

1 Core Areas to be selected from the following: Art History, Literature, Classical and Modern Languages, Music History, Philosophy, Religious Studies, Theatre Arts; or in one of the following Cultural Areas: Ancient, Medieval/Renaissance, Early Modern (17th and 18th c.), or Modern studies.

2 Must be approved by advisor

**Linguistics**

Students in this track combine in a unique way the study of the interdisciplinary humanities with a specialized concentration in linguistics. Students take three core courses and then a minimum of two additional 600-level linguistics courses. Along with our Humanities faculty, students are able to study with linguists in the adjacent departments of Classical and Modern Languages, English, Philosophy, and Psychology.

In addition to the course work listed below, MA students in the Linguistics concentration must satisfy a foreign language competency requirement and complete a final oral defense of a Directed Study Project.

1 Students with no prior undergraduate linguistics coursework are encouraged to audit or enroll on a pass/fail (P/F) basis in LING 325. These credits will not apply to the hours needed to complete the MA degree.

2 Under direction of Linguistics affiliated faculty

3 Core Areas to be selected from the following: Art History, Literature, Classical and Modern Languages, Music History, Philosophy, Religious Studies, Theatre Arts; or in one of the following Cultural Areas: Ancient, Medieval/Renaissance, Early Modern (17th and 18th c.), or Modern studies.

**Humanities (PhD)**

Established in 2003, the University of Louisville's Doctoral Program in Humanities is a four-year course of study providing rigorous interdisciplinary training in the Humanities.

Administratively housed in the Department of Comparative Humanities, its faculty belongs to many departments across the university. Our students have the possibility to work with research-active scholars, artists, and writers across the Humanities, the Social Sciences, Studio Arts, Medicine, Law, and more.

The program was redesigned in 2013 in order to increase its focus on theoretical and global perspectives with the goal to produce top-level scholars and artists not only for the academic profession, but for innovative careers well beyond the academy.

**Program Information**

**Program Options**

The Program currently offers two specialized career tracks:

- The traditional, yet innovative, Culture, Criticism, and Contemporary Thought (C3T): for scholars oriented toward the academy, museums,
and other institutions and organizations employing doctoral degree recipients.

- The unique Public Arts and Letters (PAL): for artists and writers across fields wishing to produce works of literature, art, music, opera, performance, film, etc. that is grounded in and informed by intensive scholarship.

**Admission Requirements**

Admission to the Humanities PhD Program is exclusively for the fall semester of each academic year.

All materials must be received by January 15 for the following fall. No late applications will be accepted.

All applicants must have completed an appropriate master’s degree (MA, MFA, MDiv, or other) prior to beginning the program.

All applicants must also have fulfilled all requirements of the School of Interdisciplinary and Graduate Studies.

**Application requirements include:**

- Online Graduate Application for Admission (http://louisville.edu/graduate/apply)
- Graduate Application fee
- A current curriculum vitae
- A statement of intent (about 1000 words) focusing on the research interests and the applicant’s professional goals
- A scholarly or creative writing sample
- Official transcripts of all undergraduate- and graduate-level work
- Graduate Record Examination (GRE) General Test scores. **NOTE:** GRE scores are required; however, the Humanities Graduate Admissions Committee will do a holistic review of all the application material presented by the applicant in order to make a final decision.
- Three letters of recommendation from former professors or colleagues attesting to capability for doctoral-level work
- If applicable, proof of English proficiency

**Program Requirements**

In addition to the coursework outlined below, students are required to demonstrate basic proficiency in two classical and/or modern languages, or advanced proficiency in one (in addition to English).

It also is strongly recommended that students orient completion of specialization coursework toward a specific discipline, and supplement required coursework with elective courses in that discipline.

**Program Information**

**General Information**

The Bachelor of Science in Industrial Engineering degree will provide a student with the basis to be able to complete the Master of Engineering (MEng) in Industrial Engineering degree. The Master of Engineering in Industrial Engineering degree is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

Since the Industrial Engineering MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Industrial Engineering bachelor degree program at Speed School. Therefore, students who earn an undergraduate degree at a school or university other than the University of Louisville pursue the MS degree instead of the MEng degree.

**Master of Engineering Program Educational Objectives**

The objectives of the five-year Master of Engineering Program are to produce ethically responsible graduates who are:

1. Successful in the professional practice of industrial engineering
2. Effective communicators and team players, and, involved in professional service and lifelong learning

**Master of Engineering Student Outcomes**

In order to achieve these objectives, the Master of Engineering has the following outcomes set for its graduates:

Graduates will demonstrate:

1. An ability to apply knowledge of mathematics, science, and engineering
2. An ability to design and conduct experiments, as well as to analyze and interpret data
3. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
4. An ability to function on multi-disciplinary teams
5. An ability to identify, formulate, and solve engineering problems
6. An understanding of professional and ethical responsibility
7. An ability to communicate effectively
8. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
Degree Requirements
The following degree requirements are mandatory of all master of engineering candidates:

1. The program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the program of study must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.

2. Master’s degree students must take at least 24 credit hours of coursework at the University of Louisville to satisfy the residency requirement for the master’s degree. A maximum of six (6) credit hours of graduate credit may be transferred from accredited institutions.

3. Students following the thesis option must follow the Procedures and Standards for Master of Engineering Theses. The guidelines are located online at louisville.edu/speed/academics/policies/mEngThesisGuidelines.

4. The total requirements must be completed within six years after admission into graduate studies. The time limit imposed by the rule may be extended in individual cases upon recommendation of the department chair and approval of the associate dean for academic and student affairs.

5. The MEng degree cannot be conferred prior to the BS degree.

Admission Standards
Since the Industrial Engineering MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Industrial Engineering bachelor degree program at Speed School.

The application form is available online at louisville.edu/speed/academics/forms/MEngGraduateStudiesApplication.

The requirements for admission or readmission to a master of engineering program are:

1. Submission of a completed MEng application for the field of specialization in which the student is earning a bachelor degree from the J.B. Speed School of Engineering. Students can be admitted to the MEng program with fewer than 13 credit hours of BS degree requirements remaining and no later than two years post conferral of their baccalaureate degree;

2. Recommendation by the faculty and chair of the student’s department for admission or readmission to graduate studies;

3. Cumulative baccalaureate grade point average of 2.75. However, those students with cumulative baccalaureate grade-point averages from 2.50 to 2.75 may be admitted upon petition and approval of the chair and faculty of the department.

A student becomes a candidate for the master of engineering degree upon admission to graduate studies and initial registration as a graduate student.

Program Requirements
The Master of Engineering in Industrial Engineering degree requires the following over and above the Bachelor of Science in Industrial Engineering Degree.
The J.B. Speed School of Engineering has established the following academic performance policies:

1. The minimum grade point average requirement for good standing and satisfaction of degree requirements is 3.00 for all academic work completed while in graduate studies.
2. Any student who does not satisfy the published performance criteria shall be placed in probationary status. Please review the Academic Standing Section (p. 802) within this catalog in regard to Academic Probation.
3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.

All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. Students who seek to return after such a period of time must contact the graduate program director.

Degree Requirements

The following degree requirements are mandatory of all Master of Science candidates:

1. The program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the program of study must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.
2. Master’s degree students must take at least 24 credit hours of coursework at the University of Louisville to satisfy the residency requirement for the master’s degree. A maximum of six (6) credit hours of graduate credit may be transferred from accredited institutions.
4. Student has six years after their admission to the MS program to complete their degree.

The requirements for the Master of Science degree are discussed in more detail in the Degree Requirements (p. 804) section of this catalog.

Admission Standards

The admission standards for the master of science program in industrial engineering are as follows:

1. All admission applications for the program shall include:
   a. A completed application (http://louisville.edu/graduate/futurestudents/apply-materials/application) for the School of Interdisciplinary and Graduate Studies,
   b. An application fee,
   c. Results from the Graduate Record Examination (GRE),
   d. At least two letters of recommendation, and
   e. Official transcript(s) for all previous post-secondary coursework.
      All transcripts not in English must be certified as authentic and translated verbatim into English.
2. The minimum requirement for admission is the baccalaureate degree or its equivalent from an accredited institution.
3. The successful applicant will typically have an undergraduate grade point average of 2.75 or above (on a 4.00 scale).
4. The successful applicant will typically have a GRE Combined Verbal and Quantitative Reasoning score of 300 or above.
5. Admission in good standing shall be made only if all admission credentials have been received, evaluated and approved and all academic requirements met including a demonstration of adequate background in a foundational subject material. A student may be admitted provisionally if academic requirements are met but application materials are incomplete (usually missing letters of recommendation or official transcripts and/or official score reports). Students have one semester to furnish any credentials missing at the time of admission and may not enroll for a second consecutive term in provisional status.
6. Any conditional acceptance shall be made on an individual basis and shall require a statement of the rationale for the exception, plans for monitoring progress and performance and stated success criteria. Such justification must be provided in writing and must be accepted by the program chair and the Speed School associate dean for academic affairs.
7. International students whose primary language is not English must show English language proficiency by either TOEFL/IELTS score or demonstration of a degree award from an acceptable English language institution. The successful applicant will typically have a total TOEFL score of 80 or higher or overall IELTS score of 6.5 or higher.

Program Requirements
Requirements: Remedial work may be specified for those applicants who, in the opinion of the faculty, do not have a sufficient background. The minimum curricular requirements for the master’s program are:

Minimum Total Hours: 30

The master of science degree must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the master of science degree must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.

1. For the thesis option, a student is required to select both an approved MS thesis topic and the director and members of the thesis committee. The thesis director must give approval for enrollment in IE 690.

Industrial Engineering (PhD)

Doctor of Philosophy in Industrial Engineering (IE PHD)

Unit: Speed School of Engineering (http://louisville.edu/speed) (GS)

Department/Program Webpage: louisville.edu/speed/industrial/

Program Information

General Information

The PhD degree program is intended for persons having an accredited master’s and/or baccalaureate degree in Industrial Engineering, but is available to those with other backgrounds. Applicants with other backgrounds should plan on taking some undergraduate background coursework. Students interested in the PhD degree program should consult the Director of Graduate Studies in the Department of Industrial Engineering. The University of Louisville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award doctoral degrees.

Academic Performance

The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing and satisfaction of degree requirements is 3.00 for all academic work completed while in graduate studies.
2. Any student who does not satisfy the published performance criteria shall be placed in probationary status. Please review the Academic Standing section (p. 802) within this catalog in regard to Academic Probation.
3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.

All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. Students who seek to return after such a period of time must contact the graduate program director. Students who seek to return after such a period of time must apply for readmission by completing a University of Louisville graduate application. If admitted, the student will be subject to catalog requirements in effect at the time of readmission.

Degree Requirements

The award of a Doctor of Philosophy degree indicates that a student has attained mastery of a field and has demonstrated the capacity to perform independent scholarly research. The following degree requirements are mandatory of all doctoral candidates:
Admission Standards

The admission standards for the PhD program in industrial engineering are as follows:

1. All admission applications for the program shall include:
   a. A completed application (http://louisville.edu/graduate/apply) for the School of Interdisciplinary and Graduate Studies,
   b. An application fee,
   c. Results from the Graduate Record Examination (GRE),
   d. At least two letters of recommendation, and
   e. Official transcript(s) for all previous post-secondary coursework. All transcripts not in English must be certified as authentic and translated verbatim into English.

2. The minimum requirement for admission is the baccalaureate degree or its equivalent from an accredited institution or current enrollment in an undergraduate Speed School program.

3. The successful applicant will typically have an undergraduate grade point average of 3.00 or above (on a 4.00 scale).

4. The successful applicant will typically have a GRE Combined Verbal and Quantitative Reasoning score of 305 or above.

5. Admission in good standing shall be made only if all admission credentials have been received, evaluated and approved and all academic requirements met including a demonstration of adequate background in a foundational subject material. A student may be admitted provisionally if academic requirements are met but application materials are incomplete (usually missing letters of recommendation or official transcripts and/or official score reports). Students have one semester to furnish any credentials missing at the time of admission and may not enroll for a second consecutive term in provisional status.

6. Any conditional acceptance shall be made on an individual basis and shall require a statement of the rationale for the exception, plans for monitoring progress and performance and stated success criteria. Such justification must be provided in writing and must be accepted by the program chair and the Speed School associate dean for academic affairs.

7. International students whose primary language is not English must show English language proficiency by either TOEFL/IELTS score or demonstration of a degree award from an acceptable English language institution. The successful applicant will typically have a total TOEFL score of 80 or higher or overall IELTS score of 6.5 or higher.

Program Requirements

Normally, it is expected that the student will complete a master’s degree before being admitted to the PhD Program. However, qualified applicants may be admitted directly to the doctoral program after receiving a baccalaureate degree. These students will be required to complete an additional 30 credit hours of coursework at the 500 and 600 level under an individual plan developed in conjunction with the department’s Director of Graduate Studies. Also, remedial work may be specified for those applicants who, in the opinion of the faculty, do not have a sufficient background.

The minimum curricular requirements for the doctoral program are:

<table>

1 Master’s-Level Coursework and/or IE Electives must be chosen so that nine (9) credit hours of core courses are taken. The core courses are listed below. IE 515, IE 516, IE 563
2 All electives must be approved by the department

Candidates for the Doctor of Philosophy degree must have a minimum final cumulative grade point average of 3.00 for all academic coursework attempted in Graduate Studies.

Instructional Technology (MEd)

Master of Education in Instructional Technology (IT MED)

Unit: College of Education and Human Development (GE)
Department: Middle and Secondary Education Department
Program Webpage: louisville.edu/education/degrees/med-it

Program Information

This program is designed for Rank II Kentucky certified teachers who would like to earn a master’s degree, pursue Rank I status and complete the endorsement for Instructional Computer Technology. The MEd in Instructional Technology was designed in collaboration with P-12 classroom teachers, district specialists, and university faculty for preparing school and district Technology Coordinators. The program leads to an Instructional Computer Technology endorsement (grades P-12) and satisfies the following student outcomes:
• Prepares candidates to be a technology-using teacher of students, as well as a Technology Coordinator for a school or district
• Meets the International Society for Technology in Education Standards (ISTE)
• Emphasizes a compendium of skills required for students to be competitive and successful in a global and digital world
• Prepares candidates to work with P-12 students
• Is taught by recognized faculty in collaboration with practitioners
• Focuses on meeting the needs of diverse learners
• Places the classroom and school as the focus of course discussions and assessments

If you are not a P-12 teacher but are interested in instructional technology, Industry IT certifications, instructional design, and state-of-the-art training development for military, government, and private industry, go to BS Workforce Leadership (http://louisville.edu/education/degrees/bs-wl) and /or MS Human Resource and Organizational Development (http://louisville.edu/education/degrees/ms-hrod).

Please note that certified teachers must have a master’s degree/Rank II status prior to admission to this program.

Admission Requirements
• Admission to the School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply)/MEd in Instructional Computer Technology program
• Official transcripts with a GPA of 2.75 in the Bachelor’s degree and a 3.0 GPA or higher for graduate work.
• Applicants who have attended a college or university outside of the United States are also required to submit an evaluation of their transcript through either WES (World Education Services) (http://wes.org) or ECE (Educational Credential Evaluators) (http://ece.org). Please note that transcript evaluations can sometimes take several weeks.
• Acceptable scores on the GRE; Please note: when submitting GRE scores through ETS, have scores sent to the general University of Louisville code, 1838.
• Two letters of recommendation
• Kentucky teaching certificate and Rank I
• Personal statement
• Signed Professional Code of Ethics/Technology User Agreement
• TOEFL is required of all students from countries in which English is not the native language; students holding a baccalaureate or advanced degree from an accredited institution in the U.S. are exempt from this requirement).

Please note: when submitting GRE scores through ETS, have scores sent to the general University of Louisville code, 1838.

Mid-point Assessment: Completion of 15 credit hours and at least half of ISTE Technology Standards met within Teacher Performance Assessment; scored Target or Exemplary on all advanced rubrics including dispositions assessment, and minimum 3.0 GPA.

Degree Assessment:
Successful completion of all required courses and all ISTE Technology Standards met within Teacher Performance Assessment; scored Target or Exemplary on all advanced rubrics including dispositions assessment; Minimum 3.0 cumulative GPA with no more than two grades of C.

1 Denotes Courses that are required for the endorsement.
2 Denotes course that must be taken in the last 6 credit hours of program study.

Interdisciplinary Studies (MA)
Master of Arts in Interdisciplinary Studies (IS MA)
Unit: School of Interdisciplinary and Graduate Studies (https://louisville.edu/graduate) (GI)

Program Information
The Master of Arts degree in Interdisciplinary Studies provides a mechanism for accommodating the interests of students and faculty in areas in which the faculty expertise is not confined to a department or individual academic unit. It permits students to establish individualized programs and groups of faculty to establish interdisciplinary tracks.

Individually-Designed Programs of Study
An individual interested in exploring advanced studies in a field that transcends established academic/institutional boundaries may design a program of study in consultation with faculty and the Associate Dean for Interdisciplinary Studies. A program for this degree must involve at least two academic departments/units and it must cross traditional disciplinary organizational structures and programmatic lines of study. An individual interested in this program will need to develop a general proposal that can be reviewed by faculty who, in turn, must agree that they will participate in the program if approved. Before agreeing to participate in the supervision of an interdisciplinary M.A. student, faculty must obtain the consent of their departmental chair or dean.

During the initial semester, the specific curricular requirements of the program must be worked out with a supervisory committee consisting of a chair and at least two additional faculty members representing at least two different departments or programs. Before the end of the first semester, the proposed program of study should be submitted to the School of Interdisciplinary and Graduate Studies for review. Students will be admitted to the School of Interdisciplinary and Graduate Studies on a conditional basis, allowing them to take courses as a non-degree student until the proposed program of study receives full approval. Students will be fully admitted to the School of Interdisciplinary and Graduate Studies after the interdisciplinary program proposal is approved.

**Interdisciplinary Tracks of Study: Interdisciplinary MA Concentrations**

Faculty may propose interdisciplinary tracks of study that will form the basis for suitable areas of concentration to train students. The track must meet the criteria outlined above in terms of minimum credit hours and the distribution of coursework across disciplinary lines. Proposed areas of concentration and interdisciplinary tracks of study will be subject to approval by the following academic bodies:

1. Unit Curriculum and Budget Committees
2. Graduate Council
3. Faculty Senate
4. Provost

The development of an interdisciplinary track is the responsibility of the faculty, but the Associate Dean for Interdisciplinary Studies will provide assistance and guidance. Participating faculty must have the consent of their departmental chair or dean to participate in an Interdisciplinary Track.

Requests for further information or assistance should be addressed to:

**Associate Dean for Interdisciplinary Studies**
School of Interdisciplinary and Graduate Studies
Houchens Building, Suite 105
University of Louisville
Louisville, Kentucky 40292
Phone: (502) 852-6495
Email: graduate@louisville.edu

**Admission Requirements**

Applicants for individualized interdisciplinary master’s programs must present complete admission credentials in order to be formally admitted by one of their constituent departments. Such formal admission must be recommended by at least one department or program offering degrees through the School of Interdisciplinary and Graduate Studies before the student may register for course work. The required credentials are:

1. The application for admission, specifying which departments the student expects to comprise the program;
2. Transcripts showing all undergraduate and graduate course work and all degrees earned;
3. Scores on the Graduate Record Examination General Test;
4. Three letters of recommendation;
5. TOEFL score if the applicant’s native language is not English and he/she has not earned a degree from a university or college in the U.S.;
6. A written statement of career objectives and rationale for the interdisciplinary research objective.

All these credentials must be sent to the Office of Graduate Admissions, University of Louisville, for distribution to the appropriate offices.

Only upon receipt of a letter of admission from the Office of Graduate Admissions may the applicant enroll for course work. There is no guarantee, however, that the desired degree program will be approved. Admission will be conditional until the program proposal has been submitted and approved by the School of Interdisciplinary and Graduate Studies. During the initial semester, the curricular requirements of the program must be worked out with a supervisory committee of at least three faculty members. The chair, as well as the majority of the committee, must be members of the Graduate Faculty.

All departments or programs in which the student proposes to take more than 3 hours of graduate course work must offer degrees through the School of Interdisciplinary and Graduate Studies; and, before submitting a program proposal, the student must have the permission of the department or program to take those courses.

**Program Proposal**

In addition to the above stipulations regarding constituent departments or programs, each interdisciplinary degree program must meet specific criteria as follows:

1. An overall minimum of 30 semester hours at 500 or 600 level.
2. A thesis (maximum of 6 hours for thesis in a 30-hour program) or six (6) additional hours of 600- level courses for non-thesis. Interdisciplinary students must enroll in GS 699 for thesis credit.
3. At least one-half of the non-thesis, non-practicum, non-internship credit hours must be at the 600 level.
4. A minimum of 6 hours of 600-level course work must be taken in each of at least two departments or programs offering degrees through the School of Interdisciplinary and Graduate Studies.
5. No single department or program may offer more than half the total number of credit hours required by the program.
6. Exclusive of thesis credit, no more than 6 hours may be taken in courses of the independent-study or practicum type; such course work may not be counted toward criteria specified in 3 or 4.
7. Courses designated as fulfilling degree requirements must be offered with sufficient frequency to permit the student to complete degree requirements within a reasonable time (two years for a 30-hour program).
8. The proposed curriculum must be submitted on the appropriate form, with approval signatures of at least three graduate faculty members.
9. Requests for approval of substitutions or alternate courses must be submitted in writing to the Associate Dean for Interdisciplinary Studies in the School of Interdisciplinary and Graduate Studies.

**Program Requirements**

Curriculum will be determined during the development of each individual student’s program proposal for the individually-designed programs. For an Interdisciplinary Track program, a core of faculty may propose a curriculum that will form the basis for an area of concentration.

Each interdisciplinary degree program must meet specific criteria, as follows:
Interdisciplinary Studies (MS)

Master of Science in Interdisciplinary Studies (IE MS)

Unit: School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate) (GI)

Program Information

The Master of Science degree in Interdisciplinary Studies provides a mechanism for accommodating the interests of students and faculty in areas in which the faculty expertise is not confined to a department or individual academic unit. It permits students to establish individualized programs and groups of faculty to establish interdisciplinary tracks.

Individually-Designed Programs of Study

An individual interested in exploring advanced studies in a field that transcends established academic/institutional boundaries may design a program of study in consultation with faculty and the Associate Dean for Interdisciplinary Studies. A program for this degree must involve at least two academic departments/units and it must cross traditional disciplinary organizational structures and programmatic lines of study. An individual interested in this program will need to develop a general proposal that can be reviewed by faculty who, in turn, must agree that they will participate in the program if approved. Before agreeing to participate in the supervision of an interdisciplinary MS student, faculty must obtain the consent of their departmental chair or dean.

During the initial semester, the specific curricular requirements of the program must be worked out with a supervisory committee consisting of a chair and at least two additional faculty members representing at least two different departments or programs. Before the end of the first semester, the proposed program of study should be submitted to the School of Interdisciplinary and Graduate Studies for review. Students will be admitted to the School of Interdisciplinary and Graduate Studies on a conditional basis, allowing them to take courses as a non-degree student, until the proposed program of study receives full approval. Students will be fully admitted to the School of Interdisciplinary and Graduate Studies after the interdisciplinary program proposal is approved.

Interdisciplinary Tracks of Study: Interdisciplinary MS Concentrations

Faculty may propose interdisciplinary tracks of study that will form the basis for suitable areas of concentration to train students. The track must meet the criteria outlined above in terms of minimum credit hours and the distribution of coursework across disciplinary lines. Proposed areas of concentration and interdisciplinary tracks of study will be subject to approval by the following academic bodies:

1. Unit Curriculum and Budget Committees
2. Graduate Council
3. Faculty Senate
4. Provost

The development of an interdisciplinary track is the responsibility of the faculty, but the Associate Dean for Interdisciplinary Studies will provide assistance and guidance. Participating faculty must have the consent of their departmental chair or dean to participate in an Interdisciplinary Track.

Requests for further information or assistance should be addressed to:

Associate Dean for Interdisciplinary Studies
School of Interdisciplinary and Graduate Studies
Houchens Building, Suite 105
University of Louisville
Louisville, Kentucky 40292
Phone: (502) 852-6495
Email: graduate@louisville.edu

Admission Requirements

Applicants for individualized interdisciplinary master’s programs must present complete admission credentials in order to be formally admitted by one of their constituent departments. Such formal admission must be recommended by at least one department or program offering degrees through the School of Interdisciplinary and Graduate Studies before the student may register for course work.

The required credentials are:

1. The application for admission, specifying which departments the student expects to comprise the program
2. Transcripts showing all undergraduate and graduate course work and all degrees earned
3. Scores on the Graduate Record Examination General Test
4. Three letters of recommendation
5. TOEFL score if the applicant’s native language is not English and he/she has not earned a degree from a university or college in the U.S.
6. A written statement of career objectives and rationale for the interdisciplinary research objective

All these credentials must be sent to the School of Interdisciplinary and Graduate Studies, Graduate Admissions, University of Louisville, for distribution to the appropriate offices.

Only upon receipt of a letter of admission from the School of Interdisciplinary and Graduate Studies, Graduate Admissions may the applicant enroll for course work. There is no guarantee, however, that the
desired degree program will be approved. Admission will be conditional until the program proposal has been submitted and approved by the School of Interdisciplinary and Graduate Studies. During the initial semester, the curricular requirements of the program must be worked out with a supervisory committee of at least three faculty members. The chair, as well as the majority of the committee, must be members of the Graduate Faculty.

All departments or programs in which the student proposes to take more than 3 hours of graduate course work must offer degrees through the School of Interdisciplinary and Graduate Studies and, before submitting a program proposal, the student must have the permission of the department or program to take those courses.

Program Proposal
In addition to the above stipulations regarding constituent departments or programs, each interdisciplinary degree program must meet specific criteria as follows:

1. An overall minimum of 30 credit hours at the 500 or 600 level.
2. A thesis (maximum of 6 credit hours for a thesis in a 30 credit hour program) or six (6) additional credit hours of 600-level courses for non-thesis. Interdisciplinary students must enroll in GS 699 for thesis credit.
3. At least one-half of the non-thesis, non-practicum, non-internship credit hours must be at the 600 level.
4. A minimum of 6 credit hours of 600-level course work must be taken in each of at least two departments or programs offering degrees through the School of Interdisciplinary and Graduate Studies.
5. No single department or program may offer more than half the total number of credit hours required by the program.
6. Exclusive of thesis credit, no more than 6 credit hours may be taken in courses of the independent-study or practicum type such course work may not be counted toward criteria specified in 3 or 4.
7. Courses designated as fulfilling degree requirements must be offered with sufficient frequency to permit the student to complete degree requirements within a reasonable time (two years for a 30 credit hour program).
8. The proposed curriculum must be submitted on the appropriate form, with approval signatures of at least three graduate faculty members.
9. Requests for approval of substitutions or alternate courses must be submitted in writing to the Associate Dean for Interdisciplinary Studies in the School of Interdisciplinary and Graduate Studies.

Interdisciplinary Studies (PhD)

Doctor of Philosophy in Interdisciplinary Studies (IS PHD)
Unit: School of Interdisciplinary and Graduate Studies (https://louisville.edu/graduate) (GI)
Department: Interdisciplinary Studies
Program Webpage: louisville.edu/graduate

Program Information

The Interdisciplinary PhD program provides a mechanism for accommodating the interests of students and faculty in areas in which the faculty expertise is not confined to a department or individual academic unit. It permits students to establish individualized programs and groups of faculty to establish interdisciplinary tracks.

Individually-Designed Programs of Study

An individual interested in exploring advanced studies in a field that transcends established academic/institutional boundaries may design a program of study in consultation with a faculty steering committee and the Director of the Interdisciplinary Studies Program. A program proposal must involve coursework and faculty from at least two academic departments or units and it must cross traditional disciplinary organizational structures and programmatic lines of study.

An individual interested in this program must first identify faculty willing to serve on a steering committee, which will be composed of the primary mentor and at least two additional faculty representing at least two different departments or units. Before agreeing to participate in the supervision of an interdisciplinary PhD student, faculty must obtain the consent of their departmental chair or dean.

The student will work with the steering committee to develop an Interdisciplinary Program of Study which must be submitted to the Graduate Council for review and approval before the student is allowed

Program Requirements

A curriculum will be determined during the development of each individual student’s program proposal for the individually-designed programs. For an Interdisciplinary Track program, a core of faculty may propose a curriculum that will form the basis for an area of concentration.

Each interdisciplinary degree program must meet specific criteria as follows:

1. An overall minimum of 30 credit hours at the 500 or 600 level.
2. A thesis (maximum of 6 credit hours for a thesis in a 30 credit hour program) or six (6) additional credit hours of 600-level courses for non-thesis. Interdisciplinary students must enroll in GS 699 for thesis credit.
3. At least one-half of the non-thesis, non-practicum, non-internship credit hours must be at the 600 level.
4. A minimum of 6 credit hours of 600-level course work must be taken in each of at least two departments or programs offering degrees through the School of Interdisciplinary and Graduate Studies.
5. No single department or program may offer more than half the total number of credit hours required by the program.
6. Exclusive of thesis credit, no more than 6 credit hours may be taken in courses of the independent-study or practicum type such course work may not be counted toward criteria specified in 3 or 4.
7. Courses designated as fulfilling degree requirements must be offered with sufficient frequency to permit the student to complete degree requirements within a reasonable time (two years for a 30 credit hour program).
8. The proposed curriculum must be submitted on the appropriate form, with approval signatures of at least three graduate faculty members.
9. Requests for approval of substitutions or alternate courses must be submitted in writing to the Associate Dean for Interdisciplinary Studies in the School of Interdisciplinary and Graduate Studies.
to matriculate. The Program of Study must justify the need for an interdisciplinary program and address the potential for career placement upon degree completion. The proposal must contain a curriculum plan and a description of the qualifying exam required to advance to candidacy.

**Interdisciplinary Tracks of Study: Interdisciplinary PhD Concentrations**

Faculty may propose interdisciplinary tracks of study that will form the basis for suitable areas of concentration to train students. The track must meet the criteria outlined above in terms of minimum credit hours and the distribution of coursework across disciplinary lines. Proposed areas of concentration and interdisciplinary tracks of study will be subject to approval by the following academic bodies:

1. Unit Curriculum and Budget Committees
2. Graduate Council
3. Faculty Senate
4. Provost

The development of an interdisciplinary track is the responsibility of the faculty, but the Associate Dean for Interdisciplinary Studies will provide assistance and guidance. Participating faculty must have the consent of their departmental chair or dean to participate in an Interdisciplinary Track. Students in a track of study must choose a primary mentor, but may have co-mentors.

Requests for further information or assistance should be addressed to:

**Associate Dean for Interdisciplinary Studies**
**School of Interdisciplinary and Graduate Studies**
Houchens Building, Suite 105
University of Louisville
Louisville, Kentucky 40292
Phone: (502) 852-6495
Email: graduate@louisville.edu

**Admission Requirements**

Applicants for interdisciplinary doctoral programs must present complete admission credentials and have an approved program of study in order to be formally admitted by the School of Interdisciplinary and Graduate Studies.

The required credentials are:

1. A 3.25 grade point average.
2. Scores at or above the 60th percentile on the Quantitative, Verbal, Critical Thinking and Analytical portions of the Graduate Record Exam.
3. Proof of a Baccalaureate Degree and official transcripts of all undergraduate and graduate coursework.
4. International students for whom English is not their primary language must show English language proficiency by one of the following:
   a. TOEFL examination score at or above 550 (paper based test) and a 5.0 on the TWE test, 213 (computer based test), 79 (internet based test)
   b. IELTS test score of 6.5 or higher
   c. Successfully completing the exit examination for the advanced level of the Intensive English as a Second Language Program at the University of Louisville;
   d. Demonstration of a degree awarded by an acceptable English-language institution.
5. Three letters of recommendation from individuals who are able to comment on the student's academic abilities and potential for success in graduate studies.

**Design of Interdisciplinary Degrees**

In addition to established School of Interdisciplinary and Graduate Studies policies and requirements, each Interdisciplinary PhD Program will be required to meet specific criteria as follows:

1. The curriculum must include coursework representing each of the disciplinary areas in the interdisciplinary degree program. An overall minimum of 36 credit hours of graduate level coursework is required, but may be higher to reflect the standards for doctoral study in the disciplines represented in the interdisciplinary degree program.
2. Each program must be designed so that it is not dominated by a single department's offerings. A minimum of six credit hours of 600-level course work must be taken in each of at least two different departments or programs offering graduate degrees.
3. The curriculum plan must include coursework that provides training in research methodology deemed suitable to the interdisciplinary nature of the program.
4. A dissertation involving original research that crosses established disciplinary lines is required.
5. Faculty serving on committees and as mentors in the Interdisciplinary Studies PhD Program must have a doctorate degree or substantial evidence of relevant experience and must hold membership in the Graduate Faculty of a unit.
6. A student's primary mentor must meet their unit's minimum guidelines for directing doctoral dissertations. If a student's mentor has not directed a dissertation in the past, the student must also have a co-mentor who has previous experience directing dissertations.

**Program Requirements**

Curriculum will be determined by a student's steering committee during the development of each individual's program proposal. For an Interdisciplinary Track, a core of faculty may propose a curriculum that will form the basis for an area of concentration.

In addition to established School of Interdisciplinary and Graduate Studies policies and requirements, each Interdisciplinary PhD Program will be required to meet specific criteria as follows:

1. The curriculum must include coursework representing each of the disciplinary areas in the interdisciplinary degree program. An overall minimum of 36 credit hours of graduate level coursework is required, but may be higher to reflect the standards for doctoral study in the disciplines represented in the interdisciplinary degree program.
2. Each program must be designed so that it is not dominated by a single department's offerings. A minimum of six credit hours of 600-level course work must be taken in each of at least two different departments or programs offering graduate degrees.
3. The curriculum plan must include coursework that provides training in research methodology deemed suitable to the interdisciplinary nature of the program.
4. A dissertation involving original research that crosses established disciplinary lines is required.
5. Faculty serving on committees and as mentors in the Interdisciplinary Studies PhD Program must have a doctorate degree or substantial evidence of relevant experience and must hold membership in the Graduate Faculty of a unit.

6. A student’s primary mentor must meet their unit’s minimum guidelines for directing doctoral dissertations. If a student’s mentor has not directed a dissertation in the past, the student must also have a co-mentor who has previous experience directing dissertations.

**Interdisciplinary Studies: Concentration in Bioethics and Medical Humanities (MA)**

Master of Arts in Interdisciplinary Studies, concentration in Bioethics and Medical Humanities (IS BMH)

Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences)

Department: Philosophy (http://louisville.edu/philosophy); Bioethics and Medical Humanities

Program Webpage: louisville.edu/bioethicsma

**Program Information**

The Bioethics and Medical Humanities concentration is a special track within the UofL interdisciplinary master’s program. It is overseen by the Department of Philosophy and the College of Arts & Sciences.

Bioethics is an inherently interdisciplinary field, located principally at the intersection of philosophy, the law, and the health care professions, such as clinical medicine and nursing, but drawing as well from social science disciplines as diverse as sociology, clinical psychology, and social work. The aim of the program is to provide students with the skills necessary to work in their chosen field from an enriched ethical knowledge base. Students will be exposed to the philosophical underpinnings of health care ethics as well as real-time clinical moral decision-making. This program examines concepts of race, gender, and culture as well to incorporate an ethically sound appreciation of difference and diversity.

The master’s degree in Bioethics and Medical Humanities provides professional enhancement and resources for the following groups of students:

- Current healthcare and bioscience practitioners or faculty
- Current or future members of ethics committees
- Seminary faculty or students with an interest in healthcare chaplaincy
- Dual-Degree students who wish to distinguish themselves with expertise in bioethics for their future professional, educational, and scholarly pursuits in medicine, dentistry, law, nursing, social work, or other fields
- Post-Baccalaureate students during their transition from undergraduate to professional or PhD programs

**Admission Requirements**

- Application (http://louisville.edu/graduate/apply) (online version preferred since it allows students to upload all other required materials)
- Application fee
- Transcripts from all previous academic work
- Standardized test scores: GRE, MCAT or LSAT preferred. Other scores may be accepted with prior approval. Applicants who have completed Master’s or Doctoral level degrees are exempt from this requirement.
- Two recent letters of recommendation
- The should come from those familiar with the applicant’s academic work or life long learning and speak to your ability to complete graduate level education. Discursive letters preferred.
- Curriculum vitae (CV) or resume
- Personal statement
- Your personal statement should address the question: “Why have you decided to pursue a concentration in Bioethics or Medical Humanities?” and should be between 2–4 double-spaced pages (500 - 1000 words).

Additionally, we reserve the right to request additional materials as required. For example, current employees of the university are expected to provide a letter of support from their direct supervisor.

Individuals who can’t use the online application or need to send supplemental materials can email Graduate Admissions (gradadm@louisville.edu) or mail materials (marked with applicant name, date of birth and either your university issued ID number or your social security ID number) to:

School of Interdisciplinary and Graduate Studies
Graduate Admissions
105 Houchens Building
University of Louisville
Louisville KY 40292

**Program Requirements**

The Bioethics and Medical Humanities concentration is a 33-credit hour MA program, consisting of seven required core courses and four electives. The core courses provide essential grounding in ethical theory and the foundations of bioethics, current controversies in health care ethics, and the social and political context of health care decision-making; participation in hospital rounds emphasizes the practical realities of clinical ethics, and a capstone seminar integrates program courses with each other and with students’ experience in the health care professions. Electives from the Schools of Law, Medicine, Public Health, and Social Work, as well as from the Arts and Sciences departments of History, Pan-African Studies, Philosophy, Political Science, Psychological and Brain Sciences, Sociology, and Women’s and Gender Studies diversify and allow customization of the program.

For more details about courses or electives please refer to the posted curriculum at louisville.edu/bioethicsma/curriculum.

**Coursework**

The degree requires 21 credit hours (7 classes) of core courses and 12 credit hours (4 classes) of electives:

<table>

</table>
Elective Courses
In addition to the core classes, 12 credit hours of electives (typically, four classes) are required for the MA. Courses must be at the 500- or 600-level. Of these four electives, one must address Social Context, one Health Care Policy and Law and the remaining two must be relevant to the degree but are not otherwise restricted. Students are encouraged to browse the entire university catalog for elective courses relevant to the degree and their interests.

All electives with prerequisites require permission of instructor to enroll. Other courses may be allowed on a case-by-case basis. Students are encouraged to find interesting electives and submit the class information for approval.

Other courses may be allowed on a case-by-case basis. We encourage our students to find interesting electives and submit the class information for approval.

Most students will complete the degree requirements after two years of full-time coursework, though motivated students are welcome to complete the hours in four consecutive semesters instead. Additionally, the program has the flexibility to allow for part-time students to take up to six years to complete the degree. And for those who are pursuing a Bioethics concentration in their bachelor’s work, there is an accelerated option that allows them to complete up to 9 credit hours towards the master’s degree while an undergraduate.

For sample schedules please refer to our curriculum plans at louisville.edu/bioethicsma/curriculum-1/sample-curriculum-plans

Interdisciplinary Studies: Concentration in Sustainability (MA/MS)

Master of Arts/Master of Science in Interdisciplinary Studies, concentration in Sustainability (IS MA SUS/IS MS SUS)

Unit: School of Interdisciplinary and Graduate Studies (https://louisville.edu/graduate) (GI)

Program Information

The large-scale goal of the Master of Interdisciplinary Studies in Sustainability Degree programs (both MA and MS degree programs are available) is to prepare students to address complex regional, state, national and global challenges posed by the intersection of human exponential growth and increasingly limited resources that support society.

The exponentially rising demands that human populations make on natural resources and ecological systems that supply us with energy, food, water, and many other ecosystem services will be further threatened by climate change and the pollution of air, soil, and water. Continued reliance on a “business as usual” approach to the economic production and consumption of goods and services, often characterized by the stresses it places on The Commons and by a disregard for environmental and social justice, now threatens the ability of the natural world to absorb our collective impact, erodes our collective security, and polarizes our societies. Substantial changes in social contracts, economic systems, as well as individual and institutional behaviors will be needed to provide more sustainable, healthy and secure societies. National, regional and local experimentation is needed to find solutions to societal challenges.

This Master of Interdisciplinary Studies in Sustainability program is an initiative of the University of Louisville’s Sustainability Council which seeks to integrate sustainability into everything that goes on at UofL. Students in the program are encouraged to contribute to the Sustainability Council’s efforts to explore sustainable solutions for UofL and our community. More information about the UofL Sustainability Council can be found on their website at louisville.edu/sustainability

Admission Requirements

Applicants must have a bachelor’s degree (any major is acceptable), and provide a completed application form, a transcript of all undergraduate course work, scores for the Graduate Record Examination (GRE), a statement of purpose, and three letters of recommendation. The GRE code for the University of Louisville is 1838.

Admission is competitive. The minimum requirements for unconditional admission are the baccalaureate degree or its equivalent from an accredited institution, an undergraduate grade point average of 3.0 on a 4.0 scale, and competitive scores on all sub-tests of the Graduate Record Exam.

Those applicants whose native language is not English and who do not hold a degree from a university where the language of instruction is English, must complete the Test of English as a Foreign Language (TOEFL) with a score of at least 79 on the internet-based test or the International English Language Testing System (IELTS), with a minimum score of 6.5.

Application Deadlines

The program maintains a rolling admissions policy. The deadlines include:

- **Fall semester:** July 15
- **Spring semester:** November 15
- **Summer semester:** April 15

Application Materials

The following materials must be submitted to the School of Interdisciplinary and Graduate Studies at graduate.louisville.edu/apply/:

1. Application Form
2. Application Fee
3. Transcript(s): Transcripts of your college records from all of the schools you have attended must be submitted to the School of Interdisciplinary and Graduate Studies, Graduate Admissions. Students must have earned an undergraduate degree from an accredited college or university.*
4. Graduate Record Exam (GRE): The GRE is required for an application to the PhD program to be reviewed. The Program requires only the general sections of the GRE (Verbal, Quantitative, and Analytical Writing). Scores should be directly reported to the university using the University of Louisville institution code of 1838. Those for whom English is not their native language must also submit TOEFL scores.*
5. Three Recommendation Letters: Three letters of recommendation from academic sources are required and
must be submitted online to the School of Interdisciplinary and Graduate Studies, Graduate Admissions.

The committee for reviewing student applications will consist of faculty currently serving on the Sustainability Council’s Education Committee.

For answers to commonly asked questions by applicants, please review the Frequently Asked Questions page of the Graduate School website.

*There are additional requirements for international students. These requirements are listed at louisville.edu/graduate/futurestudents/international-applicants/international-students.

**Program Requirements**

**Required Course**

<td>33</td>
</tr>
</tbody>
</table>

Students will work with their academic committees to select the core and elective courses needed. It is strongly recommended that a student’s committee distribute elective courses such that at least 3 or 4 credit hours are in an area other than that of the student’s home department. Other courses may be acceptable with the program director’s approval.

Twelve hours of Guided Electives must be taken in one of the following Core Areas:

**Built Environment**

<table>
<thead>
<tr>

Interdisciplinary Studies: Specialization in Bioinformatics (PhD)

Doctor of Philosophy in Interdisciplinary Studies, specialization in Bioinformatics (IS_PHDINF)
Unit: School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate) (GI)
Program Webpage (https://bioinformatics.louisville.edu/phd)

Program Information
The Interdisciplinary PhD Program in Bioinformatics (the Bioinformatics Program) trains students in bioinformatics for careers in research, education, and industry. Bioinformatics is a broad and diverse domain, ranging from management of biological research databases to computational approaches to biomedical modeling and data analysis. The Bioinformatics Program focuses on those aspects of bioinformatics that reflect the research interests and experience of the Program’s faculty. These include basic research in biostatistical methodology, computer science and mathematical modeling with applications to biochemistry, cell biology, and molecular biology. The following areas have been identified and named by the Bioinformatics Program faculty to represent the focus application areas of the Program:

- Biomedical and Natural Sciences
- Computational Sciences
- Mathematics and Statistics

Students in the Bioinformatics Program specialize in one of the three focus application areas and graduate with cutting-edge expertise in this area and working knowledge in the other two focus application areas.

To earn the Doctor of Philosophy in Interdisciplinary Studies: Concentration in Bioinformatics, a student is required to successfully complete the following:

- Core coursework in the focus application areas
- Required coursework in the student’s area of specialization
- Elective courses in the student’s area of specialization
- Qualifying examination
- Dissertation
- Presentation and defense of a dissertation

Upon successful completion of the written and oral portions of the qualifying examination, the examination committee will recommend acceptance into PhD candidacy. Successful completion of the dissertation and its presentation and defense is established by the approval of the student’s dissertation committee and the approval of the chair of the sponsoring department and the program chair.

Admission Requirements
Applicants for interdisciplinary doctoral programs must present complete admission credentials and have an approved program of study in order to be formally admitted by the School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply).

- A 3.25 grade point average.
- Competitive scores on the Quantitative, Verbal, Critical Thinking and Analytical portions of the Graduate Record Exam (GRE).
- Proof of a Baccalaureate Degree and official transcripts of all undergraduate and graduate course work.
- International students for whom English is not their primary language must show English language proficiency by one of the following:
  - TOEFL examination score at or above 550 (paper based test) and a 5.0 on the TWE test, 213 (computer based test), 79 (internet based test)
  - IELTS test score of 6.5 or higher
- Successfully completing the exit examination for the advanced level of the Intensive English as a Second Language Program at the University of Louisville
- Demonstration of a degree award from an acceptable English language institution.
- Three letters of recommendation from individuals who are able to comment on the student’s academic abilities and a potential for success in graduate studies.

Programs of Study
Course requirements for the Interdisciplinary PhD Degree Program in Bioinformatics consist of 16 core credit hours (that will be conditional based upon focus area) and 21 credit hours derived from a combination of required courses from a chosen focus area and electives from each of the three focus areas. Students with an appropriate background in the biomedical and natural sciences may petition to substitute a course in either the Computational Sciences or Mathematics and Statistics focus for the core course BIOC 545 and a corresponding course in either the Computational Sciences or Mathematics and Statistics, thus maintaining 16 core credit hours. Following acceptance into a focus area, students will be required to complete three courses totaling at least nine hours from the declared focus area. At least four additional elective courses (12 credit hours) will be selected from available elective courses, with the provision that two elective courses must be selected in each of the other two focus areas. The Program of Study will be determined by the student and approved by both an advisor residing in a declared focus area department and the Executive Committee. The following tables list the required courses for the core as well as the required and elective courses in each of the focus areas. Students must accumulate at least nine (9) credit hours of dissertation.

Good standing requires that the student maintain a minimum 3.0 grade point average. Upon successful completion of the written and oral portions of the qualifying examination, the examination committee will recommend acceptance into PhD candidacy. Successful completion of the dissertation and its presentation and defense is established by the approval of the student’s dissertation committee and the approval of the chair of the sponsoring department and the program chair.

1. Credit only for one: CHEM 645/BIOC 645, CHEM 647/BIOC 647. Students may take either the CHEM 645/BIOC 645 or CHEM 647/BIOC 647 sequence but are not allowed to take the sequence CHEM 645/BIOC 647 or CHEM 647/BIOC 645.

2. CHEM 645 may be substituted. Students may take either the BIOC 545/BIOC 547 or CHEM 645/CHEM 647 sequence but are not allowed to take the sequence BIOC 545/CHEM 647 or CHEM 645/BIOC 547.

3. Students with an appropriate background in the biomedical and natural sciences may petition to substitute a course in either the Computational Sciences or Mathematics and Statistics focus.

4. Courses selected with approval of advisor and the Executive Committee.

5. At least one elective course must be selected from each of the other two focus areas other than the student’s primary focus area.

---

### Interdisciplinary Studies: Specialization in Translational Bioengineering (PhD)

**Doctor of Philosophy in Interdisciplinary Studies, specialization in Translational Bioengineering (IS_PHDTBE)**

Unit: School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate) (GI)

Program Webpage: (https://louisville.edu/translational-bioengineering)

**Program Information**

The Interdisciplinary Studies in Translational Bioengineering (ISSTTBE) PhD program is designed to provide multidisciplinary training in translational bioengineering preparing students to lead research and development in academia, industry and governmental agencies and/or to advance bioengineering technologies through start-up companies as entrepreneurs or within established biomedical companies. This program is a collaborative effort between J.B. Speed School of Engineering, the School of Medicine, the School of Dentistry, and the College of Business.

In this PhD program, students will have the opportunity to pursue graduate-level training in one of three tracks:

- Traditional Bioengineering Research
- Clinical Translational Research
Applicants must submit:

- A statement as to how the PhD ISSTBE will allow them to fulfill their career goals as identified by their focus area of interest
- Official Graduate Record Exam (GRE) verbal, quantitative, and writing assessment-analytical scores. Competitive scores on the verbal and quantitative sections will be required for admission.
- Students whose native language is non-English or degree is from a non-US accredited institution are required to submit TOEFL scores (administered by the Educational Testing Service). A minimum TOEFL score of 79 or higher on the internet-based test or 550 or higher on the paper-based test is required. Alternatively, a minimum of 6.5 on the International English Language Testing System will be accepted.

Admission Requirements

The School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply) has rigorous standards for admission into doctoral programs, and those standards apply to the ISSTBE PhD program as well. Applicants must meet School of Interdisciplinary and Graduate Studies admission requirements along with additional Program requirements. Applicants must, as a minimum, have completed a bachelor’s degree in Engineering or Medical Physics from an accredited program with a 3.25 cumulative grade point average to be considered for admission.

The ideal applicant will have completed a master’s degree in engineering (MS or MEng) at the time of application.

Applicants must submit:

1. Official transcripts of all college-level courses
2. Three letters of recommendation
3. A written statement by the applicant describing previous experience related to bioengineering
4. A statement as to how the PhD ISSTBE will allow them to fulfill their career goals as identified by their focus area of interest
5. Official Graduate Record Exam (GRE) verbal, quantitative, and writing assessment-analytical scores. Competitive scores on the verbal and quantitative sections will be required for admission.
6. Students whose native language is non-English or degree is from a non-US accredited institution are required to submit TOEFL scores (administered by the Educational Testing Service). A minimum TOEFL score of 79 or higher on the internet-based test or 550 or higher on the paper-based test is required. Alternatively, a minimum of 6.5 on the International English Language Testing System will be accepted.

Program Requirements

To earn the Doctor of Philosophy in Interdisciplinary Studies with a specialization in Translational Bioengineering (ISSTBE), students are required to successfully complete the following:

- 47 credit hours of course work beyond their bachelor’s degree (18 Core credit hours, 9 Concentration credit hours, 20 Specialization credit hours)
- Participate in the Bioengineering Seminar Series (75 percent attendance rate and 1 presentation/term as a Doctoral Candidate)
- Pass the Comprehensive Examination
- Successfully defend a dissertation (15 credit hours)
- Submit two or more peer-reviewed journal papers representing their original dissertation research

Students must also choose one of the following concentration areas:

- Bioelectronics and Biomedical Devices
- Bioimaging and Biocomputational Modeling
- Biomechanics and Rehabilitation
- Molecular and Tissue Engineering

Students will initially be assigned an advisor to aid in course selection, to identify a primary research mentor and to choose a laboratory where they will conduct their research. Dissertation committee members will be assembled from participating faculty in the Schools of Engineering, Dentistry or Medicine, or the College of Business, representing opportunities to conduct research within a broad range of bioengineering topics and/or develop technology for a wide variety of clinical applications. Students who successfully complete the program will demonstrate excellence in designing and conducting research leading to an intellectual contribution to the field, demonstrate in-depth knowledge of their concentration area and associated scientific literature, have an understanding of the clinical relevance and ethical implications of their research, have the ability to critically analyze, evaluate and interpret research methods and findings, and have the ability to effectively communicate knowledge of their concentration area.
Specialization Area Elective Coursework (see below) 20
Dissertation 15
Minimum Total Hours 62

Specialization Area Guided Electives

Courses in Specialization must be unique from those taken to fulfill the Concentration Requirement, and must follow either Track A, B or C below. Students must work with their advisor to establish a Plan of Study for Specialization Courses. All Specialization courses must be approved by the student’s advisor prior to registration.

Track A
Traditional Bioengineering Research PhD: 18 hours from those listed below with a minimum of 6 hours in engineering courses + Teaching Practicum (2 credits)

Track B
Clinical-Translation Research PhD: 12 hours from list below designated as BIOC, ASNB, PSYC, BIOL, MBIO, OBIO, OBIO or EXP; remaining 6 hours from BE, CECS, ECE, IE, or ME + Clinical Practicum (2 hours).

Track C
Advancing Bioengineering Technologies through Entrepreneurship PhD: Nucleus Lean LaunchIT Start Up Course (3 hours), plus 12 credits from list below designated as ENTR or IMBA; remaining 6 credits from BE, CECS, ECE, IE, or ME + Clinical Practicum (2 hours).

Dissertation Committee

By the end of the first semester, it is expected that the student has identified their Dissertation Chair. After the first year of study, the student (under the guidance of his or her advisor) must select a Dissertation Committee of five or more persons, for approval by the Program Director. The committee must consist of the student’s advisor from the Department of Bioengineering (who will act as the Dissertation Committee Chair), at least two additional faculty members from within the Department of Bioengineering, at least one faculty member from a partnering School or College, and at least one additional faculty member from outside the Department of Bioengineering.

Qualifying Examination

The PhD Qualifying Examination will be offered once per year and is to be taken by students upon completion of Core courses (with the exception of Bioengineering Seminar credits) and Concentration Area courses. The Qualifying Examination includes written and oral components. The written portion of the exam gauges student competency in fundamental bioengineering topics covered in their courses. ISSTBE affiliated faculty will submit and grade questions in their respective areas of expertise for the written portion of the Qualifying Examination. The oral portion of the examination is a formal presentation comprised of the student’s critique of a peer-reviewed journal paper selected from the student’s area of concentration, delivered to the ISSTBE Program Director and a subset of faculty with expertise in the respective concentration having Graduate
Faculty status. Students are allowed no more than two opportunities to take the Qualifying Examination (oral or written components).

**Comprehensive Examination**

To qualify for candidacy, students must pass the Qualifying Examination, maintain a minimum GPA of 3.0 and pass the Comprehensive Examination. The Comprehensive Examination requires the student to prepare a written dissertation research proposal (following an external funding agency format) that is presented, defended and approved by their Dissertation Committee. The Dissertation Committee approval constitutes passing both the written and oral portions of the Comprehensive Examination. The written portion is comprised of the student's dissertation document and the oral portion consists of the student's presentation and defense of their dissertation, including response to questions posed by their Dissertation Committee and public attendees. The Dissertation Committee will grade written and oral performance on the Comprehensive Examination separately as a Pass, Conditional Pass, or Fail. Students receiving a Conditional Pass must satisfactorily meet conditions set forth by the Dissertation Committee in order to receive a passing grade. Students receiving a failing grade on either or both portions of the Comprehensive Examination will be permitted to repeat the respective portion(s) once.

Students must meet with their Dissertation Committee at least once per year during the remainder of their PhD program, culminating in the Dissertation Defense.

**Interdisciplinary Studies: Specialization in Translational Neuroscience (PhD)**

Doctor of Philosophy in Interdisciplinary Studies, specialization in Translational Neuroscience (IS_PHDSTN)

Unit: School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate) (GI)

Program Webpage (https://louisville.edu/translational-neuroscience)

**Program Information**

The Interdisciplinary Program in Translational Neuroscience (IPTN) is a PhD program designed to provide broad training in neuroscience to prepare students for careers in academic, clinical and translational research involving the nervous system including disease, trauma, and developmental disorders.

Students will be assigned advisors initially to help them with course selection, choosing laboratories to rotate in and finding research mentors. Committee members will be assembled from the participating professors/lecturers representing a broad range of both basic and clinical Neuroscience. Individualized curricula will emphasize basic genetic, molecular, cellular, and/or systems mechanisms that underlie a wide range of neurological and neuropsychiatric diseases and disorders.

Areas of focus include:

- Spinal cord injury, motor systems, and rehabilitation
- Vision, retina, and visual pathways
- Sensory systems, autonomic nervous system, and pain
- Developmental neurobiology
- Behavioral & cognitive neuroscience
- Neuropharmacology and neurochemistry

**Admission Requirements**

1. Application to the School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply)
2. 3.25 grade point average
3. Competitive scores on the Quantitative, Verbal, and Critical Thinking and Analytical portions of the Graduate Record Exam (GRE) are most successful
4. Three letters of recommendation from individuals who are able to comment on the student's academic abilities and potential for success in graduate studies
5. Proof of a Baccalaureate Degree and official transcripts of all undergraduate and graduate course work
6. International students for whom English is not their primary language must show English language proficiency by one of the following:
   a. TOEFL examination score at or above 550 (paper-based test and a 5.0 on the TWE test), 213 (computer-based test), or 79 (internet-based test/iBT)
   b. IELTS test score of 6.5 or higher
   c. Demonstration of a degree award from an acceptable English language institution
   d. Successfully completing the exit examination for the advanced level of the Intensive English as a Second Language Program at the University of Louisville (Intensive ESL offered prior to Spring 2017).

**Program Requirements**

To earn the Doctor of Philosophy in Interdisciplinary Studies: Specialization in Translational Neuroscience, a student is required to successfully complete the following:

- Core Courses
- Other required and elective courses as approved
- Qualifying examination
- Laboratory Rotations
- Original Investigation
- Dissertation and defense

**Coursework**

Laboratory Rotations

It is recommended that each student will complete two rotations in different laboratories prior to the start of his/her third semester. The rotations will expose the student to different approaches and areas of research and will help the student to choose a laboratory for his/her dissertation research. Rotations will count as a 3 credit course (GS 699 Interdisciplinary Research). Rotations are graded on a pass/fail basis and a brief written rotation reports will be expected from each host investigator indicating a pass or fail grade.

Mentor and Advisory Committee

Once a student selects a mentor, he or she will form an Advisory Committee consisting of the mentor plus four additional members of the program faculty. The faculty members composing the Advisory Committee will represent a minimum of three different participating departments and include at least one faculty member with primary clinical expertise relevant to the student’s research area. The Advisory Committee may be reformulated with the permission of the Executive Committee as the student progresses towards completion of the degree.

Research Hours

Upon completion of the mandatory course work, laboratory rotations and mentor selection, research hours are taken as Original Investigation (GS 699 Interdisciplinary Research) until and after the student enters candidacy by successfully completing his/her Research Proposal and Qualifying exam.

Research Proposal and Qualifying Examination

Upon completion of course work, each student is required to prepare a Research Proposal that will be presented and defended before the end of the fall semester of year 3. The Research Proposal will consist of an NIH F31 format grant proposal that describes the student's planned research.

Preparation and defense of the proposal will consist of the following steps:

1. Develop a specific aims page and outline of the proposed experiments and present this aims page to the Advisory Committee for approval.
2. Based on the approved specific aims page and outline, prepare a Research Proposal in the F31 format.
3. Distribute the Research Proposal to the Advisory Committee at least two weeks before the presentation and defense.
4. Present the proposal in a 30-40 minute seminar, plus a question and answer period, attended by all the members of the Advisory Committee and other faculty/trainees from representative departments.
5. Appropriately answer any questions from the committee members regarding the proposal and defense.
6. Appropriately answer one written question from each committee member presented to the student during the question/answer period of the proposal presentation. These questions should be prepared by each committee member prior to the defense and should be designed to explore the various clinical/translational/basic science aspects of the proposed work and the underlying biological concepts. Each committee member will indicate on the document if the student answers the member’s question appropriately. If not, the student will be given two weeks to prepare a 1-2 page written answer that will be submitted, along with the question, to that committee member. The committee member will submit both the question and answer to the mentor indicating whether or not the student’s answer was appropriate and sufficient.

Overall success or failure will be determined by majority vote of the committee.

A student who fails the Research Proposal and Qualifying Examination will have 2 months to prepare for a second presentation with written questions that will be presented to the committee only. Failure on the second attempt will result in a recommendation of dismissal from the program. Upon successful completion, a Proposal Defense/Qualifying Examination form will be filled out by the mentor stating the outcome and will be signed by each member of the Advisory Committee. This evaluation form will become part of the student’s permanent academic record.

Annual Presentations

Each student who has completed class work is required to give a research update presentation to either the home department of the mentor or as part of the research update seminar series for the Kentucky Spinal Cord Injury Research Center. Notification of the seminar should be dispersed to the entire Neuroscience community.

Dissertation Defense

The candidate must complete all requirements for the degree of Doctor of Philosophy within four calendar years after passing the qualifying examination. The dissertation should contain data sufficient for approximately three publishable manuscripts. Upon completion of a draft of the student’s dissertation and prior to scheduling of his/her defense, the student must distribute a copy to each Advisory Committee member. The committee will have two weeks to read and approve the completed draft of the dissertation or recommend major changes that need to be completed prior to scheduling a defense date.
Once the dissertation is approved by the committee, the student will schedule a Dissertation Defense and distribute an edited copy to each committee member. The School of Interdisciplinary and Graduate Studies requires that an announcement of the defense be made at least two weeks prior to the scheduled date. The defense will consist of a public oral presentation (approximately 45 minutes in length) of the research completed during the student's graduate training. Noncommittee members in the audience will be allowed to ask questions. The general audience will then be dismissed and the student will defend the dissertation before the committee. Upon completion, a written report stating the outcome of the defense will be completed by each committee member and will become a permanent part of the student’s record.

Approval by the majority of Advisory Committee members will signify successful completion of the PhD degree.

Latin American and Latino Studies (CERT)

Graduate Certificate in Latin American and Latino Studies (LAS CLA)
Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences) (GA)
Department: Latin American and Latino Studies (http://louisville.edu/latinamericanstudies)

Program Information

The Graduate Certificate in Latin American and Latino Studies (LALS) is an interdisciplinary program, involving multiple departments within the College of Arts and Sciences, which provides a specialized concentration focusing on Latin America and Latinos in the United States. This program, housed within the College of Arts and Sciences, offers students a wide range of course options that examine Latin American societies from the perspective of their history, social structure, economic and political structures, literature, art, and culture.

The fifteen-hour program may be completed as a stand-alone program or in conjunction with other graduate programs.

Admissions Requirements

Applicants need to have completed an undergraduate baccalaureate degree granted by a United States institution of higher education or its equivalent in another country. To be accepted into the LALS Graduate Certificate Program, students must meet the standard criteria for general admission to the University of Louisville School of Interdisciplinary and Graduate Studies, and supply all standard documentation required for admission.

Students wishing to pursue the graduate certificate in conjunction with a graduate degree program in another University of Louisville department should first apply and be admitted to the degree program before applying for admission to the LALS Graduate Certificate Program. The Director of the Latin American and Latino Studies Program will interview each student as part of the application process and an Admissions Committee will review applications and decide if a student may be recommended to the LALS Graduate Certificate Program.

Program Requirements

The graduate certificate in Latin American and Latino Studies requires at least 15 hours of graduate-level coursework. Three of the five required courses must be taken at the 600 level or above. Coursework toward the graduate certificate in LALS may also count toward the student’s graduate degree.

Students also must meet a minimum language requirement of three hours of previous coursework in Spanish or Portuguese at the 200 level or above, or demonstrate equivalent language proficiency.

Four (4) courses with a substantial Latin American content from at least three different disciplines

These may include the following disciplines but could include others if a course is offered with a substantial Latin American content: Anthropology, Art History, History, Humanities, Linguistics, Modern Languages, Pan-African Studies, Political Science, Portuguese, and Spanish, and Women's and Gender Studies. 1, 2

Minimum Total Hours 15

A single course may satisfy more than one requirement.

1 Students may not apply 500-level courses taken for undergraduate credit to the LALS graduate certificate.
2 Substitutions may be made at the discretion of the Director of Latin American and Latino Studies. Additional courses with substantial Latin American content, which are not listed below, may also be taken to fulfill the requirements for the LALS Graduate Certificate. This list is updated regularly on the LALS Website: louisville.edu/latinamericanstudies

Literacy (MEd)

Master of Education in Literacy (LITEMED)
Unit: College of Education and Human Development (http://louisville.edu/education) (GE)
Department: Advanced Education Programs (Early Childhood and Elementary Education (http://louisville.edu/education/departments/ecee), Middle and Secondary Education (http://louisville.edu/education/departments/mise))
Program Webpage (https://%20louisville.edu/education/degrees/med-re)

Program Information

The MEd in Literacy with Literacy Specialist P-12 Endorsement is designed for certified teachers who plan to seek a master’s degree. The program was designed in collaboration with P-12 classroom teachers, district specialists, and university faculty for preparing reading specialists/literacy coaches. The program leads to a Kentucky “Literacy Specialist P-12” endorsement.

Program highlights include:

- Prepares candidates to become reading specialists (work with students who are struggling readers) as well as literacy coaches (work with adults to advance literacy school-wide)
• Meets the International Literacy Association Standards for Reading Professionals (2010)
• Has a strong emphasis on the balance among knowledge, skills, and strategies
• Prepares candidates to work with students in literacy from birth through grade 12
• Uses the Kentucky Academic Standards as a guide
• Is taught by nationally recognized faculty in collaboration with practitioners
• Focuses on meeting the needs of diverse learners
• Emphasizes coaching and mentoring colleagues
• Places students’ classrooms and schools as the focus of course discussions and assessment

Admission Requirements
• Admission to School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply)/MEd in Literacy program
• Kentucky teaching certificate and at least one year teaching experience
• Signed Professional Code of Ethics/Technology User Agreement
• Official transcripts with a GPA of 2.75 in the undergraduate degree and a 3.0 GPA or higher for graduate work
• Applicants who have attended a college or university outside of the United States are also required to submit an evaluation of their transcript through either WES (World Education Services) (http://wes.org) or ECE (Educational Credential Evaluators) (http://ece.org).

Please note: transcript evaluations can sometimes take several weeks.
• Acceptable GRE scores.
• TOEFL is required of all students from countries in which English is not the native language (students holding a baccalaureate or advanced degree from an accredited institution in the United States are exempt from this requirement).

Please note: When submitting GRE scores through ETS, have scores sent to the general University of Louisville code, 1838.
• Two letters of recommendation
• A professional statement

Minimum Total Credit Hours 36

Degree Assessment
Successful completion of all required coursework; completed IRA Standards Teacher Performance Assessment; Scored Exemplary or Target on Rubrics for Advanced Candidates; minimum 3.0 GPA; no grade lower than C and no more than two grades of C in coursework.

Certification Assessment
Passing score on appropriate PRAXIS exam(s); minimum three years teaching experience is required for the Literacy Specialist Endorsement.

Degree Candidacy
Students not enrolled during the semester in which they intend to graduate must register for degree candidacy as outlined in the Graduate Catalog (p. 802).

Mathematics (MA)

Master of Arts in Mathematics (MATHMA)

Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences/intro) (GA)
Department: Mathematics (https://louisville.edu/math)
Program Webpage (https://louisville.edu/math/graduate)

Program Information
The University of Louisville Department of Mathematics is a research-oriented department that prides itself on delivering first-rate graduate instruction. There is a broad range of courses and ample opportunities to interact with faculty. The Department also maintains an active colloquium series with talks given by visiting mathematicians, statisticians and scientists.

Appropriate preparation for a Master of Arts in Mathematics is undergraduate coursework equivalent to a major in mathematics from an accredited university. This should include a one-year course in either analysis or abstract algebra, equivalent to MATH 501-MATH 502 and MATH 521-MATH 522 at the University of Louisville. Candidates who have not taken both must complete them by the end of the second year of their MA program.

Accelerated BA/BS-MA Option in Mathematics
Students must apply for admission to the program no later than the end of the junior year and must have completed MATH 205, MATH 206, MATH 301, and MATH 325, or equivalent courses, prior to application.
Applicants must have a minimum overall GPA of 3.5, and minimum GPA of 3.66 in mathematics courses. As part of the combined degree, students must complete MATH 405 and at least four (4) of the following: MATH 501, MATH 502, MATH 521, MATH 522, MATH 561, MATH 562, or MATH 581, including at least one sequence from among these courses.

The student may take a maximum of nine (9) credit hours for graduate credit, which will also apply to the requirements for the baccalaureate degree in Mathematics. All 600-level courses numbered 689 or below qualify, as do 500-level courses when completed in accord with the stipulations for graduate credit outlined in the syllabus.

**Admission Requirements**

Complete applications require the following:

1. Complete application form (http://louisville.edu/graduate/apply) along with paid application fee.
2. Cover letter to math department including any information you believe will help process your application. Please indicate in this letter whether you are interested in a GTA position, for example.
3. Transcripts (an official copy for each undergraduate institution attended. UofL transcripts are automatically submitted).
5. Recent (within three years) GRE scores (only the general exam is required).
6. All applicants for whom English is a second language must also submit official TOEFL scores of 79 or higher on the internet-based test, 213 or higher on the computer-based test, or 550 or higher on the paper-based test for verification of English proficiency. English proficiency can also be met by submitting official IELTS scores of at least 6.5 overall band score from the academic module exam.

**Degree Requirements**

1. Candidates must complete a program of study approved by the department. All courses (maximum of 12 credit hours total) taken outside the Department of Mathematics must have prior departmental approval.
2. All students must complete a minimum of 30 credit hours of non-thesis graduate credit, including at least 15 credit hours in the Department of Mathematics. Non-Thesis Option students must complete at least one full-year sequence in Mathematics (MATH) courses numbered 601–689. Thesis Option students are required to complete at least two full-year sequences in Mathematics (MATH) courses numbered 601–689.
3. Students must satisfy one of the following three requirements:
   - **Master’s Level Examination Option:** Pass written examination in three areas of mathematics chosen from a list prepared by the department. At most, two attempts are allowed. Examinations will be approved and administered by the departmental Graduate Studies Committee.
   - **Thesis Option:** Write a thesis on an advanced topic in the mathematical sciences. A total of two full-year sequences among courses numbered 601 through 689 must be completed.
   - **PhD Qualifier Option:** Pass two qualifier examinations for the departmental PhD Program. These examinations need not be taken together and each may be attempted at most twice.
4. Students choosing the Thesis Option must pass a final oral examination described under Requirements for the Master’s Degree (p. 804).

Minimum Total Hours 30

1. All courses taken outside the Department of Mathematics must have prior departmental approval.

---

36x308

Apply online at this location: louisville.edu/graduate/apply
The PhD program in Applied and Industrial Mathematics offers a blend of advanced mathematical and statistical knowledge with the experience to apply that knowledge. Students completing the program have a unique perspective from which they can see the whole of mathematics integrated with applied and industrial needs. A broad and rigorous mathematical core combined with customized application electives and an industrial internship prepares students with life-long career skills in teaching, research, and industry.

**Prerequisites**

Undergraduate coursework equivalent to a major in mathematics from an accredited university. This should include at least a one-year course in either analysis or abstract algebra, equivalent to MATH 501-MATH 502 and MATH 521-MATH 522 at the University of Louisville.

Candidates who have not taken both must complete the second in their program.

**Dual Degree Program in Applied and Industrial Mathematics (PhD) and Biostatistics (MS)**

Dual degrees in Biostatistics and Applied and Industrial Mathematics are offered by the College of Arts and Sciences and the School of Public Health and Information Sciences. Upon completion of the program, students will receive a PhD in Applied and Industrial Mathematics and a Master of Science in Biostatistics.

**Admission Requirements**

Interested applicants should have completed undergraduate coursework equivalent to a major in mathematics from an accredited university. This should include at least a one-year course in either analysis or abstract algebra, equivalent to MATH 501-MATH 502 and MATH 521-MATH 522 at the University of Louisville.

Candidates who have not taken both sequences must complete the second in their program.

Prospective students can apply online at louisville.edu/graduate/futurestudents/apply-materials/application. Complete applications require the following:

1. Application form along with paid application fee
2. Cover letter to Mathematics department including any information you believe will help process your application. Please indicate in this letter whether you are interested in a GTA position, for example
3. Transcripts (an official copy for each undergraduate institution attended. University of Louisville transcripts are automatically submitted)
4. At least two (2) letters of recommendation
5. Recent (within three years) GRE scores (only the general exam is required)
6. All applicants for whom English is a second language must also submit official TOEFL scores of 79 or higher on the internet-based test, 213 or higher on the computer-based test, or 550 or higher on the paper-based test for verification of English proficiency. English proficiency can also be met by submitting official IELTS scores of at least 6.5 overall band score from the academic module exam.

For full consideration please submit complete applications by:

- Spring admission deadline: November 1st.
- Fall admission deadline: March 1st.
Late applications will be considered.

**Dual Degree Program in Applied and Industrial Mathematics and Biostatistics Application Procedure**

To be admitted to the program, the student is required to apply to and be accepted by both the Department of Mathematics and the Department of Bioinformatics and Biostatistics. A student seeking admission into this program must submit letters to both the Department of Mathematics and the Department of Bioinformatics and Biostatistics stating the intent to take advantage of the dual degree program, as well as their choice of the thesis or non-thesis option for the MS in Biostatistics. Students must submit two (2) recent letters of recommendation with their letter of intent. Applicants will receive written notification stating whether their admission request has been approved or disapproved.

Students currently enrolled in the PhD in Applied and Industrial Mathematics program will need to submit complete application materials to the Department of Bioinformatics and Biostatistics for admission to the MS component of the dual degree, as well as notify his/her advisor in the Department of Mathematics of the intention to enter into the dual degree program. Letters of recommendation for admission to the MS program can be taken from the letters of recommendation written for admission to the PhD program, provided they have been written sufficiently recently.

**Program Requirements**

**Doctor of Philosophy in Applied and Industrial Mathematics**

All students admitted to the program must complete the following coursework (or their approved equivalent) and other degree requirements:

<table>
<thead>
<tr>
<th>Code</th>

</tbody>
</table>

**Additional Topics and Area of Specialization**

In addition to the core, an application area of 18 credit hours will be required. The courses may be in a department outside Mathematics. They will be chosen in consultation with the student's advisory committee.

**Dual Degree Program in Applied and Industrial Mathematics (PhD) and Biostatistics (MS)**

**Required Courses**

The required courses for the dual degree program consist of all non-overlapping core courses for both the PhD in Applied, as well as the course requirements for the MS in Biostatistics. Courses taken to satisfy the Biostatistics component of the dual degree program can be applied to these 18 credit hours of electives which are required for the PhD in Applied and Industrial Mathematics.

Students currently enrolled in the PhD in Applied and Industrial Mathematics program will need to submit complete application materials to the Department of Bioinformatics and Biostatistics for admission to the MS component of the dual degree, as well as notify his/her advisor in the Department of Mathematics of the intention to enter into the dual degree program (see Admissions tab).

</tbody>
</table>

**Qualifying Examinations**

Students must pass three written examinations. Two of these will be chosen from the areas of Algebra, Combinatorics and Real Analysis. The third will be chosen from the areas of Mathematical Modeling, Mathematical Statistics and Probability. Normally, these will be taken within a year of completion of the core coursework. These examinations need not be taken together and each may be attempted at most twice.

**Industrial Internship**

Each student, with prior approval of the Graduate Studies Director, has to complete an internship in an appropriate industrial or governmental setting, or have equivalent experience.

**Computing Project**

Each student must complete an approved computer project related to the student's area of concentration.

**Candidacy Examination**

Each student must pass an oral examination in the chosen area of concentration. Usually, at most two attempts at passing this examination will be permitted. Students who wish to make a third attempt must petition the Graduate Studies Committee of the department for permissions to do so.

**Dissertation**

12 to 18 credit hours: A doctoral dissertation is required of each student.
ELECTIVE/APPLICATION AREA COURSES

18 credit hours of Application Area courses are chosen in consultation with a student’s advisory committee. These courses can be outside of the Department of Mathematics. Courses taken to satisfy the Biostatistics component of the dual degree program can be approved to satisfy these 18 credit hours.

INDUSTRIAL INTERNSHIP

Each student, with prior approval of the Graduate Studies Director and the Industrial Internship Director, has to complete an internship in an appropriate industrial or governmental setting, or have equivalent experience. The Industrial Internship required by the Department of Mathematics and the Master’s Project or Thesis required for the MS can be satisfied by a single internship and technical report which simultaneously satisfies the requirements for both degrees. Specifically, the internship must both focus on biostatistics so that it satisfies the Project or Thesis, and contain advanced mathematical content so that it satisfies the Industrial Internship. Likewise, the technical report must meet two requirements: it must satisfy the requirements for a Master’s Project report or Master’s Thesis for the MS degree and it must be written at an advanced mathematical level expected Industrial Internship. Students should enroll in the Master’s Project (PHST 675) or Master’s Thesis (PHST 666) courses during or shortly after completion of the Industrial Internship to take advantage of the combined Industrial Internship and Master’s Project/Thesis.

Dual-degree students will not be permitted to enroll in the Master’s Project (PHST 675) or Master’s Thesis (PHST 666) courses until at least 2 qualifying examinations toward the PhD in Applied and Industrial Mathematics have been completed.

OTHER REQUIREMENTS

Students must pass qualifying examinations, complete an approved computing project, and pass a candidacy examination as detailed in the catalog entry for the PhD in Applied and Industrial Mathematics.

DISSERTATION

(12-18 credit hours): In order for the student to fulfill the PhD requirements, the student must satisfy both the qualifying examination and dissertation requirements for the PhD in Applied and Industrial Mathematics. Failure to complete these requirements will not jeopardize the MS degree if all its requirements have been satisfactorily completed.

MS in Biostatistics

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Core Course Requirements</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Select one of the following sequences: 1</td>
<td>6</td>
</tr>
</tbody>
</table>
Special Considerations: Students who have already completed a master’s degree in the Department of Mathematics

To preserve the spirit of a dual degree, such students need to complete 36 credit hours of courses as required for the MS in Biostatistics-Decision Science. Six (6) credit hours of the previous master's degree coursework can be applied to this requirement. The remaining semester hours must be chosen from the list of not covered by core courses approved electives for the Department of Bioinformatics and Biostatistics, with preference given to courses in the Departments of Mathematics and Bioinformatics and Biostatistics. Combined Industrial Internship, Practicum and Master’s Thesis cannot be replaced by a previous master's thesis. This requirement must be satisfied as previously described, meeting the specifications of both departments.

Master of Engineering (MEng)

Master of Engineering in Mechanical Engineering (ME MEN)
Unit: Speed School of Engineering (http://louisville.edu/speed) (SP)
Department/Program Webpage: louisville.edu/speed/mechanical/

Program Information

General Information

The Bachelor of Science in Mechanical Engineering degree will provide a student with the basis to be able to complete the Master of Engineering (MEng) in Mechanical Engineering degree. The Master of Engineering in Mechanical Engineering degree is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

Since the Mechanical Engineering MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Mechanical Engineering bachelor degree program at Speed School. Therefore, students who earn an undergraduate degree at a school or university other than the University of Louisville pursue the MS degree instead of the MEng degree.

Master of Engineering Program Educational Objectives

The purpose of the five-year Master of Engineering Program is to bring together the faculty, staff, and capital resources to meet the following program educational objectives:

1. Succeed as practicing mechanical engineers in government, industry, academia, and other economic sectors.
2. Use their knowledge and skills in mathematics, science, engineering, and other disciplines to identify, define, and solve problems, and to anticipate the global, societal, and environmental impact of their solutions.
3. Understand the importance of professional licensure, and act upon that understanding by pursuing registration.
4. Comply with professional ethics codes, practice sustainable engineering, undertake professional development, and engage in lifelong technical learning.
5. Display skills in teamwork, communication, critical thinking, and leadership.
6. Demonstrate an engineering knowledge base of greater depth and breadth than that expected of baccalaureate-only graduates, helping them understand and influence contemporary technological issues as engineering innovators and managers.

Master of Engineering Student Outcomes

In order to achieve these objectives, the Master of Engineering has developed an outcomes set for its graduates.

Graduates will demonstrate:

1. The ability to apply knowledge of mathematics, science, and engineering to the solution of problems encountered in mechanical engineering practice.
2. An ability to design and conduct experiments assessing phenomena encountered during mechanical engineering practice, along with the ability to analyze and interpret the resulting data.
3. An ability to design mechanical engineering systems, components, or processes that meet specified requirements.
4. An ability to function on multidisciplinary teams in both leadership roles and as an individual contributor.
5. The ability to identify and describe mechanical engineering problems, formulate constraints, devise and assess alternative approaches, and implement an optimal solution that satisfies specified performance, cost, time, and safety requirements.
6. A solid understanding of professional and ethical responsibility in the field of mechanical engineering, as well as a record of adherence to those standards during academic coursework and cooperative education internships.
7. The ability to communicate effectively in writing, during interpersonal discussions, and through formal multimedia presentations, along with the ability to use these skills within the context of mechanical engineering practice.
8. An understanding of the impact of mechanical engineering solutions in a global and societal context.
9. An understanding of the need for, and an ability to engage in lifelong learning.
10. A knowledge of contemporary issues, along with a knowledge of how such issues influence technology evolution and implementation.
11. An ability to use the techniques, skills, and modern engineering tools necessary for the practice of mechanical engineering.
12. An ability to apply masters-level knowledge in a specialized area related to mechanical engineering.

Residency

All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. A candidate for the Master of Engineering degree who does not register for credit hours must maintain active registration by paying a fee each semester for MEng residency until the degree is awarded (i.e., the candidate must maintain continuous registration, including summer terms, in Graduate Studies). Failure to pay the MEng residency fee will be cause to cancel a student's residency. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. In order to be restored to residency, the student must submit a new application, have the recommendation of the department chair, receive the approval of the Associate Dean and pay the fee for each of the semesters during which the residency was void.

Academic Performance

The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing is 3.00 for all academic work completed while in graduate studies.
2. Any student with a cumulative graduate GPA below 3.00 will be placed on academic warning. Students on academic warning are limited to enrollment for 13 credit hours in a fall or spring semester and seven (7) credit hours for summer terms.

   Students who do not bring their cumulative graduate GPA back at or above a 3.00 in the semester immediately following Academic Warning, will be placed on Academic Probation for the next semester of enrollment. Students on probation are limited to enrollment for 13 credit hours in a fall or spring semester and seven (7) credit hours for summer terms. Any student who remains in academic probation for two consecutive terms may be considered for dismissal from the program.

3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.

4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.

5. A maximum of eight (8) hours of graduate level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses cannot have been used to also satisfy BS degree requirements.

**Degree Requirements**

The following degree requirements are mandatory of all master of engineering candidates:

1. The program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the program of study must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.

2. Master’s degree students must take at least 24 credit hours of coursework at the University of Louisville to satisfy the residency requirement for the master’s degree. A maximum of six (6) credit hours of graduate credit may be transferred from accredited institutions.

3. Students following the thesis option must follow the Procedures and Standards for Master of Engineering Theses. The guidelines are located online at louisville.edu/speed/academics/forms/MEngThesisGuidelines.

4. The total requirements must be completed within six years after admission into graduate studies. The time limit imposed by the rule may be extended in individual cases upon recommendation of the department chair and approval of the associate dean for academic and student affairs.

5. The MEng degree cannot be conferred prior to the BS degree.

**Admission Standards**

Since the Mechanical Engineering MEng is accredited as part of a five-year program with one-year of co-op experience, it is only available for students who have matriculated through the Mechanical Engineering bachelor degree program at Speed School.

The application form is available online at louisville.edu/speed/academics/forms/MEngGraduateStudiesApplication.

The requirements for admission or readmission to a master of engineering program are:

1. Submission of a completed MEng application for the field of specialization in which the student is earning a bachelor degree from the J.B. Speed School of Engineering. Students can be admitted to the MEng program with fewer than 13 credit hours of BS degree requirements remaining and no later than two years post conferral of their baccalaureate degree;  

2. Recommendation by the faculty and chair of the student’s department for admission or readmission to graduate studies;  

3. Cumulative baccalaureate grade point average of 2.75. However, those students with cumulative baccalaureate grade-point averages from 2.50 to 2.75 may be admitted upon petition and approval of the chair and faculty of the department.

A student becomes a candidate for the master of engineering degree upon admission to graduate studies and initial registration as a graduate student.

**Program Requirements**

The Master of Engineering in Mechanical Engineering degree requires the following over and above the Bachelor of Science in Mechanical Engineering Degree.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ME Electives 1,2</td>

</tbody>
</table>

The Master of Engineering degree must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements. Additionally, the Master of Engineering degree must be completed with a 3.00 GPA or better for all academic work attempted in graduate studies.

A maximum of eight (8) credit hours of graduate level courses taken as an undergraduate may be used to satisfy MEng degree requirements; these courses cannot have been used to also satisfy BS degree requirements.

1. Electives must be chosen so that at least one-half of the total credits counted toward the degree, exclusive of thesis, are 600-level
2. ME Electives must be approved by the department.
3. Technical Electives can be ME or non-ME courses. Technical Electives must be approved by the student’s research advisor or the ME Director of Graduate Studies.
For the thesis option, a student is required to select both an approved 
MEng thesis topic and the director and members of the thesis 
committee during the first term of Graduate Studies. The thesis 
director must give approval for enrollment in ME 697.

Mechanical Engineering (MS)

Master of Science in Mechanical Engineering (ME MS)

Unit: Speed School of Engineering (http://louisville.edu/speed) (GS)

Department/Program Webpage: louisville.edu/speed/mechanical/

Program Information

The Master of Science (MS) degree program is intended for persons 
having an accredited baccalaureate degree in mechanical engineering 
but is available to those with other backgrounds. Applicants with other 
backgrounds should plan on taking some undergraduate background 
coursework. Students interested in the MS degree program should 
consult the Director of Graduate Studies in the Department of Mechanical 
Engineering. The University of Louisville is accredited by the Commission 
on Colleges of the Southern Association of Colleges and Schools to 
award master’s degrees.

Academic Performance

The J.B. Speed School of Engineering has established the following 
performance policies:

1. The minimum grade point average requirement for good standing 
   and satisfaction of degree requirements is 3.00 for all academic work 
   completed while in graduate studies.
2. Any student who does not satisfy the published performance criteria 
   shall be placed in probationary status. Please review the Academic 
   Standing Section (p. 802) within this catalog in regard to Academic 
   Probation.
3. Students receiving graduate assistantships (teaching, research or 
   service) shall be provided adequate training and shall be required to 
   understand and adhere to University policies related to these areas. 
   The performance of teaching, research and service duties by such 
   students shall be periodically evaluated. Students with teaching 
   assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet 
   other requirements as outlined in the admission letter, program 
   requirements or the university catalog may be subject to academic 
   dismissal from their programs.

All graduate students are expected to make steady and satisfactory 
progress toward the completion of degrees. Students who are not 
enrolled for a period of more than 12 months will be considered to have 
withdrawn from the program. Students who seek to return after such a 
period of time must contact the graduate program director.

Degree Requirements

The following degree requirements are mandatory of all Master of 
Science candidates:

1. The program of study must be completed with a 3.00 GPA or better 
   for all graduate courses used to satisfy degree requirements. 
   Additionally, the program of study must be completed with a 3.00 GPA 
   or better for all academic work attempted in graduate studies.
2. Masters students must take at least 24 credit hours of coursework 
at the University of Louisville to satisfy the residency requirement for 
the master’s degree. A maximum of six (6) credit hours of graduate 
credit may be transferred from accredited institutions.
3. Students following the Thesis Option must follow the Guidelines 
for the Preparation of a Thesis or Dissertation [pdf] (https:// 
sharepoint.louisville.edu/sites/SIGS/Documents/Thesis_Dissertation 
%20Guidelines.pdf)
4. Student has six years after their admission to the MS program to 
complete their degree.

The requirements for the Master of Science degree are discussed in more 
detail in the Degree Requirements (p. 804) section of this catalog.

Admission Standards

The admission standards for the master of science program in 
mechanical engineering are as follows:

1. All admission applications for the program shall include:
   a. A completed application (http://louisville.edu/graduate/apply) for 
      the School of Interdisciplinary and Graduate Studies,
   b. An application fee,
   c. Results from the Graduate Record Examination (GRE),
   d. At least two letters of recommendation, and
   e. Official transcript(s) for all previous post-secondary coursework. 
      All transcripts not in English must be certified as authentic and 
      translated verbatim into English.
2. The minimum requirement for admission is the baccalaureate degree 
or its equivalent from an accredited institution.
3. The successful applicant will typically have an undergraduate grade 
point average of 2.75 or above (on a 4.00 scale).
4. The successful applicant will typically have a GRE combined Verbal 
and Quantitative Reasoning score of 302 or above.
5. Admission in good standing shall be made only if all admission 
   credentials have been received, evaluated and approved and all 
   academic requirements met including a demonstration of adequate 
   background in foundational subject material. A student may be 
   admitted provisionally if academic requirements are met but 
   application materials are incomplete (usually missing letters of 
   recommendation or official transcripts and/or official score reports). 
   Students have one semester to furnish any credentials missing at the 
time of admission and may not enroll for a second consecutive term 
in provisional status.
6. Any conditional acceptance shall be made on an individual basis and 
shall require a statement of the rationale for the exception, plans for 
monitoring progress and performance and stated success criteria. 
Such justification must be provided in writing and must be accepted 
by the program chair and the Speed School Associate Dean for 
Academic Affairs.
7. International students whose primary language is not English must 
show English language proficiency by either TOEFL/IELTS score 
or demonstration of a degree award from an acceptable English 
language institution. The successful applicant will typically have 
a total TOEFL score of 80 or higher or overall IELTS score of 6.5 or 
higher.

Program Requirements

Remedial work may be specified for those applicants who, in the opinion 
of the faculty, do not have a sufficient background.
The minimum curricular requirements for the master’s degree program are:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ME Electives 1</td>
<td></td>
<td>15</td>
</tr>
<tr>
<td>Technical Electives 1,2</td>
<td></td>
<td>9</td>
</tr>
</tbody>
</table>

Select one of the following:

<table>
<thead>
<tr>
<th>Thesis Option</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ME 690 Master of Science Thesis in Mechanical Engineering</td>
<td>6</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Non-Thesis Option</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ME Electives 2</td>
<td>15</td>
</tr>
</tbody>
</table>

Minimum Total Hours 30

The master of science degree must be completed with a 3.00 GPA or better for all graduate courses used to satisfy degree requirements and all academic work attempted in graduate studies.

1. Electives must be chosen so that at least one-half of the credits counted toward the degree, exclusive of thesis, are 600-level; at least 15 credit hours of coursework must be in ME.
2. Technical Electives can be ME or non-ME courses. Technical Electives must be approved by the department.
3. For the thesis option, a student is required to select both an approved MS thesis topic and the director and members of the thesis committee during the first term of Graduate Studies. The thesis director must give approval for enrollment in ME 690.

### Mechanical Engineering (PhD)

**Doctor of Philosophy in Mechanical Engineering (ME PHD)**

Unit: Speed School of Engineering (http://louisville.edu/speed) (GS)

**Department/Program Webpage:** louisville.edu/speed/mechanical/

**Program Information**

The PhD degree program is intended for persons having an accredited masters and/or baccalaureate degree in mechanical engineering but is available to those with other backgrounds. Applicants with other backgrounds should plan on taking some undergraduate background coursework. Students interested in the PhD degree program should consult the Director of Graduate Studies in the Department of Mechanical Engineering. The University of Louisville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award doctoral degrees.

**Academic Performance**

The J.B. Speed School of Engineering has established the following performance policies:

1. The minimum grade point average requirement for good standing and satisfaction of degree requirements is 3.00 for all academic work completed while in graduate studies.
2. Any student who does not satisfy the published performance criteria shall be placed in probationary status. Please review the Academic Standing section (p. 802) within this catalog in regard to Academic Probation.
3. Students receiving graduate assistantships (teaching, research or service) shall be provided adequate training and shall be required to understand and adhere to University policies related to these areas. The performance of teaching, research and service duties by such students shall be periodically evaluated. Students with teaching assistantships shall be evaluated annually.
4. Students who fail to meet performance goals or who do not meet other requirements as outlined in the admission letter, program requirements or the university catalog may be subject to academic dismissal from their programs.

All graduate students are expected to make steady and satisfactory progress toward the completion of degrees. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the program. Students who seek to return after such a period of time must contact the graduate program director. Students who seek to return after such a period of time must apply for readmission by completing a University of Louisville graduate application. If admitted, the student will be subject to catalog requirements in effect at the time of readmission.

**Degree Requirements**

The award of a Doctor of Philosophy degree indicates that a student has attained mastery of a field and has demonstrated the capacity to perform independent scholarly research. The following degree requirements are mandatory of all doctoral candidates:

1. The Program of Study must be completed with a 3.00 GPA or better for all academic work attempted in Graduate Studies.
2. At least two years of study must be spent at the University of Louisville.
3. One year must be spent in full-time residency (a minimum of 18 credit hours within a 12-month period) or four terms of continuous part-time enrollment.
4. The applicant for a Doctor of Philosophy degree must pass an oral and/or written qualifying examination.
5. Admission to candidacy must not be later than the end of the ninth month prior to the awarding of the degree. Students enter Doctoral Candidacy upon completion of all coursework, qualifying exams, required research credit hours and other co-curricular requirements. Students who are enrolled in Doctoral Candidacy are considered full-time students. Enrollment in Doctoral Candidacy status must be continuously maintained year round (i.e. Fall, Spring, and Summer semesters) until the degree is awarded.
6. A dissertation is required of all candidates.
7. All candidates must pass a final oral examination. This is to be a defense of the dissertation and a demonstration of the candidate’s mastery of his/her field.
8. Ordinarily, the equivalent of three years of full-time graduate study is a minimum. However, the candidate must complete all requirements for the degree within four calendar years after passing the qualifying examination.

The requirements for the Doctor of Philosophy degree are explained in more detail in the Degree Requirements section (p. 804) of this catalog.

**Admission Standards**

The admission standards for the PhD program in mechanical engineering are as follows:

1. All admission applications for the program shall include:
   a. A completed application (http://louisville.edu/graduate/apply) for the School of Interdisciplinary and Graduate Studies,
   b. An application fee,
The minimum requirement for admission is a baccalaureate degree or its equivalent from an accredited institution or current enrollment in an undergraduate Speed School program.

3. International students whose primary language is not English must show English language proficiency by either TOEFL/IELTS score or demonstration of a degree award from an acceptable English language institution. The successful applicant will typically have a total TOEFL score of 80 or higher or overall IELTS score of 6.5 or higher.

The successful applicant will typically have an undergraduate grade point average of 3.00 or above and a graduate grade point average of 3.25 or above (on a 4.0 scale) and a GRE Combined Verbal and Quantitative Reasoning score of 302 or above.

Admission in good standing shall be made only if all admission credentials have been received, evaluated and approved and all academic requirements met including a demonstration of adequate background in a foundational subject material. A student may be admitted provisionally if academic requirements are met but application materials are incomplete (usually missing letters of recommendation or official transcripts and/or official score reports). Students have one semester to furnish any credentials missing at the time of admission and may not enroll for a second consecutive term in provisional status.

Any conditional acceptance shall be made on an individual basis and shall require a statement of the rationale for the exception, plans for monitoring progress and performance and stated success criteria. Such justification must be provided in writing and must be accepted by the program chair and the Speed School associate dean for academic affairs.

**Program Requirements**

Normally, it is expected that the student will complete a master’s degree before being admitted to the PhD program. However, qualified applicants may be admitted directly to the doctoral program after receiving a baccalaureate degree. These students will be required to complete an additional 30 credit hours of coursework at the 500 and 600 level under an individual plan developed in conjunction with the department’s Director of Graduate Studies. Also, remedial work may be specified for those applicants who, in the opinion of the faculty, do not have a sufficient background.

The minimum curricular requirements for the doctoral program are:

</tr>
</tbody>
</table>

Candidates for the doctor of philosophy degree must have a minimum final cumulative grade point average of 3.00 for all academic work attempted in graduate studies.

1 Technical Electives can be ME or non-ME courses. Technical Electives must be approved by the department. Students are allowed to take at most six (6) hours of Independent Study (ME 588/ME 688) as part of the 30 credit hours of coursework.

**Medieval and Renaissance Studies (CERT)**

**Graduate Certificate of Medieval and Renaissance Studies (MRSTCMR)**

- **Unit:** College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)
- **Department:** History (https://louisville.edu/history)
- **Program Webpage:** (http://louisville.edu/medieval/the-graduate-certificate-in-medieval-and-renaissance-studies)

**Program Information**

The Graduate Certificate in Medieval and Renaissance Studies is designed for students who wish to pursue their interest in pre-modern and early modern culture in a supportive, interdisciplinary, and intellectually stimulating environment.

**Admission Requirements**

**Language Proficiency**

Demonstration of language proficiency by completing a graduate level language course or passing a language competency exam while enrolled in the program (the latter typically involves translating an intermediate 350-500 word passage using a dictionary over 3 hours).

The Graduate Certificate in Medieval and Renaissance Studies can be completed on its own OR in conjunction with another graduate degree.

- Hold a bachelor’s degree from an accredited college or university;
- Complete the University of Louisville, School of Interdisciplinary and Graduate Studies, Graduate Admissions application at louisville.edu/graduate/apply
- Schedule an interview with the program director, Dr. Andrew Rabin (http://louisville.edu/cgi-bin/uofl.mail?name=andrew.rabin), Department of English, University of Louisville, Louisville, KY 40292 (502) 852-1722

**Program Requirements**

1. **A total of 18 credit hours** in courses approved for graduate credit in accordance with the policies of the School of Interdisciplinary and Graduate Studies.

2. Nine (9) credit hours from the list of "Approved Medieval and Renaissance Courses" must be taken in the student’s home department. These credit hours may also count towards the student’s graduate degree. In cases where the student’s home department does not offer a sufficient number of medieval and renaissance courses, the student may develop an alternative course of study with the approval of the program director.

3. Nine (9) credit hours from the list of "Approved Medieval and Renaissance Courses" must be taken outside of the student’s home department. These credits must be distributed as follows: three (3) credit hours from the list of courses designated by the program as "History and Culture Courses"; three (3) credit hours from the list of courses designated by the program as "Textual Studies Courses"; three (3) credit hours from the list of courses designated...

Microbiology and Immunology (MS)

Master of Science in Microbiology and Immunology (MBIOMS)

Department/Program: Microbiology and Immunology (http://louisville.edu/medicine/departments/microbiology/degrees)

Program Information

The Department of Microbiology and Immunology, in the School of Medicine, offers a program of study leading to the degree of Master of Science. The MS program includes training in a broad range of research areas using state-of-the-art immunological, microbiological, and molecular technologies.

Admission Requirements

For admission to the MS program, the applicant must have attained a BS or BA degree with a minimum grade-point average of 3.0 (on a 4.0 point scale). All applicants accepted into the Master’s Program must be self-supporting, as financial assistance is not available. In addition, the following should be submitted online directly to the School of Interdisciplinary and Graduate Studies, Graduate Admissions: louisville.edu/graduate/apply/

- A completed application form and application fee
- Official scores of the General Test Section of the Graduate Record Examination and the TOEFL (when applicable)
- Three letters of recommendation
- A brief statement of purpose describing interests and career goals
- A current resume or curriculum vitae
- A letter of scientific support from a Department of Microbiology and Immunology faculty member (faculty agreement to mentor student in lab)
- Official transcripts of all undergraduate and graduate course work (mailed to School of Interdisciplinary and Graduate Studies)

The applicant must meet the other general requirements of the School of Interdisciplinary and Graduate Studies as outlined in the General
Information section of this catalog. The application deadline is March 1st each year. Submission prior to March 1 is strongly encouraged in order to ensure that all required materials (especially letters of reference) are received by the deadline. The applicant is expected to have completed the following undergraduate courses prior to admission to the graduate program: Introductory biology, Organic chemistry, Physics, introductory calculus, and Biochemistry.

Prospective students may be invited for a personal interview with members of the admissions committee and departmental faculty as part of the application process.

</table>

Minimum Total Hours 30

1. If MBIO 601 is taken as a Required Course then MBIO 602 can be taken as an elective. Likewise, if MBIO 602 is taken as a Required Course then MBIO 601 can be taken as an elective.

2. Additional courses outside of the department can be taken as electives in consultation with the research advisor and director of graduate studies.

**Research Advisor and Project**

Students in the MS thesis option program are required to obtain a Research Advisor before being admitted to the program. Students should form a Thesis Committee and decide upon a research project early in the second semester of graduate study. The student, in consultation with her/his Advisor, should form a Thesis Committee of at least three (3) faculty members. The Thesis Committee will consist of two graduate faculty members with primary appointments in the Department of Microbiology and Immunology and a third graduate faculty member with primary status in another department. One of the two faculty members with primary appointments in the Department of Microbiology and Immunology will serve as Co-Advisor, if the Research Advisor does not have a primary appointment in the Department of Microbiology and Immunology. The Thesis Committee may consist of more than three faculty members, however a majority of the faculty on the Thesis Committee must have primary appointments in the Department of Microbiology and Immunology. Selection of the Research Advisor and formation of the Thesis Committee must be approved by the Associate Dean for Graduate Education in the School of Medicine.

**Evaluation of Student’s Progress**

The Thesis Committee will meet at least annually to evaluate the student’s progress. Students are expected to maintain satisfactory progress in his/her research project each semester. Students may proceed to degree candidacy provided they have successfully maintained an overall and program GPA of 3.0 or higher (with a grade no lower than a B-minus in any MBIO course), Pass grades in all required courses with Pass/Fail (P/F) grading, and successful completion of all required coursework. It is anticipated the student will complete the degree program at the end of the second year of study.

**Master’s Thesis Examination**

Students are required to write and defend a master’s degree thesis. The thesis must be a work of sufficient quality to demonstrate the student’s ability to participate effectively on a research project. Following preliminary review and approval by the Research Advisor, the thesis should be distributed to the Thesis Committee members, and a written request submitted to the School of Interdisciplinary and Graduate Studies, at least two weeks prior to the scheduled date of the final oral exam. The final oral defense/exam will be preceded by a research seminar open to all graduate faculty members, students and other interested persons. The oral exam will be administered by the Thesis Committee. A signed unbound copy of the thesis must be delivered to the School of Interdisciplinary and Graduate Studies by the published deadline date. (http://louisville.edu/registrar/registration-information/special-dates) To satisfactorily pass the thesis defense, a majority of the committee members must approve it.

Guidelines and requirements concerning the thesis and final oral examination are set forth on the School of Interdisciplinary and Graduate Studies website (https://louisville.edu/graduate/current-students).

Microbiology and Immunology (PhD)

Doctor of Philosophy in Microbiology and Immunology (MBIOPHD)
Unit: School of Medicine (http://louisville.edu/medicine) (GM)
Program Webpage (https://louisville.edu/medschool/microbiology)

Program Information
The Department of Microbiology and Immunology, in the School of Medicine, offers a program of study leading to the degree of Doctor of Philosophy. The PhD program includes training in a broad range of research areas using state-of-the-art immunological, microbiological, and molecular technologies. A competitive stipend, health care benefits, a full waiver of tuition and fees are provided to all applicants accepted into the PhD Program.

Admission Requirements
For admission to the PhD program, the applicant must have attained a BS or BA degree with a minimum grade-point average of 3.0 (on a 4.0 point scale). In addition, the following should be submitted online directly to the School of Interdisciplinary and Graduate Studies, Graduate Admissions: louisville.edu/graduate/apply

- A completed application form and application fee
- Official scores of the General Test Section of the Graduate Record Examination and the TOEFL (when applicable)
- Three letters of recommendation
- A brief statement of purpose describing interests and career goals
- A current resume or curriculum vitae
- Official transcripts of all undergraduate and graduate coursework (mailed to the School of Interdisciplinary and Graduate Studies, Graduate Admissions)

The applicant must meet the other general requirements of the School of Interdisciplinary and Graduate Studies as outlined in the General Information section of this catalog. The application deadline is March 1 each year. Submission prior to March 1 is strongly encouraged in order to ensure that all required materials (especially letters of reference) are received by the deadline.

The applicant is expected to have completed the following undergraduate courses prior to admission to the PhD program (one semester of each):

- Introductory biology
- Organic chemistry
- Introductory calculus
- Biochemistry

Minimum Total Hours 31

Note: Students enrolled in the MD/PhD Joint Degree Program, who have completed step I of NBME, will have satisfied all of the required course requirements except seminar, Research Ethics, Research Methods, and research. Three electives will be required. They will be required to satisfactorily complete the Qualifying Exam and successfully defend a dissertation research project, in addition to attending all journal club sessions and seminars.

Qualifying Examination

Upon successful completion of the required coursework, maintaining a minimum 3.0 GPA, and upon the recommendation of the advisor or chair, the student may take the PhD Qualifying Examination. The Qualifying Examination will consist of a written research proposal outside of his/her area of primary research and oral defense of the project. Three to five faculty with expertise in the area of the proposal will be selected by the Curriculum Committee to serve as the Examinating Committee. The student may enter degree candidacy upon receipt of satisfactory judgment from the Examining Committee and successful completion of the final semester of coursework.

Selection of a Research Advisor, Dissertation Committee and Research Proposal

Selection of the Research Advisor and specific research area is one of the most important decisions of the student's entire graduate training program and is a joint decision by the student and faculty member. Students must select a Research Advisor for their dissertation research by the end of their first year. Selection of the Research Advisor and formation of the Dissertation Committee must be approved by the Department Chair and the Dean of the School of Medicine (or their designees). The potential advisor must agree, in writing, to provide stipend and candidacy fee support from his/her research funds, following fellowship support. Upon approval of the Research Advisor, the student will formally decide upon a dissertation research project. The student and Research Advisor will form a Dissertation Committee with five (5) graduate faculty members. The committee will be composed of the advisor, three faculty members of the Department of Microbiology and Immunology, and one additional graduate faculty member from another department. If the advisor does not have a primary appointment in the Department of Microbiology and Immunology, one of the three other departmental members with a primary appointment in the department must serve as Co-Advisor. The Chairman of the Department may serve as an ex-officio member of the committee.

The committee will meet regularly to evaluate progress of the research (at least once per year). The student will also be required to present a research seminar to the department annually on this progress. When the dissertation research is completed, the committee will conduct the final oral examination in accordance with the guidelines in the General Information section of this catalog.

Middle Grades Education (RANK1)

Rank 1 Program in Middle Grades Education (MSEDRK1MAP)

Unit: College of Education and Human Development (https://louisville.edu/education) (GE)

Department: Advanced Teacher Certification Programs

Program Webpage (https://louisville.edu/education/degrees/rank)

Program Information

**Rank 1 programs are not degree programs.**

Rank 1 programs are planned graduate level programs designed for Kentucky teachers seeking rank change for salary purposes. They are recognized only in the state of Kentucky. By state regulation, Rank 1 status is sixty (60) semester hours of approved graduate credit including a master's degree.

Teachers who complete a Rank 1 program may obtain a Rank change for salary purposes in Kentucky. Through a Rank 1 program, teachers may increase their depth of knowledge in their teaching areas or in additional areas of certification, as appropriate.

Admissions Requirements

Students may apply to the program by first going to the School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply) website. Admission requirements include the following credentials:

- Official transcripts with a GPA of 2.75 in the Bachelor's degree and a GPA of 3.0 in the master’s degree.
- Applicants who have attended a college or university outside of the United States are also required to submit an evaluation of
their transcript through either World Education Services (http://wes.org) (WES) or Educational Credential Evaluator (http://ece.org) (ECE). Please note that transcript evaluations can sometimes take several weeks.

- TOEFL (Students holding a baccalaureate or advanced degree from an accredited institution in the U.S. are exempt from this requirement.)
- Teaching certificate in Middle Grades Education and a master's degree/Rank II
- Signed Professional Code of Ethics/Technology User Agreement

Please have transcripts sent to:

University of Louisville
School of Interdisciplinary and Graduate Studies
Houchens Building Room 105
Louisville, KY 40292

If transcripts are sent electronically, please have them sent to the following e-mail: gradadm@louisville.edu.

### Middle School Education (MAT)

#### Master of Arts in Teaching in Middle School Education (MSED MAT)
Unit: College of Education and Human Development (http://catalog.louisville.edu/graduate/programs-study/master-of-arts-in-teaching-in-middle-school-education/louisville.edu/education)(GE)
Department: Middle and Secondary Education (http://louisville.edu/education/departments/mse)
Program Webpage (https://louisville.edu/education/degrees/mat-mse)

#### Program Information
The MAT in Middle School Education enables graduate students to earn their initial teaching certification for Kentucky in the content areas of English, Mathematics, Science or Social Studies, grades 5-9. Teacher candidates learn to teach through instruction in pedagogy, child development, special education, technology, and diversity. The program integrates field experiences that align both with program studies and professional education career goals.

#### Early Start Program
The Master of Arts in Teaching program in conjunction with the undergraduate programs in Chemistry, Biology, and Mathematics offers a comprehensive and professionally-focused program leading to an additional degree of MAT Middle or Secondary Education. This early start program enables superior students to receive two degrees within five years. A total of 149-152 credits are required for the dual degrees: 122-125 credits of coursework devoted toward the baccalaureate degree and 36 credits toward the MAT, with nine hours double-counted. This program will be available for students who are entering their junior year. They may take graduate level courses in the College of Education and Human Development (CEHD) in their 4th year of study.

The current qualifications for the joint degree program have been agreed upon by discipline faculty from the Colleges of Arts and Sciences and Education and Human Development. The criteria vary by
Admission Requirements

Candidates who meet the following criteria may be eligible to apply to the Master of Arts in Teaching program. Candidates considering application to the MAT program should contact the Education Advising and Student Services office (teacher@louisville.edu) prior to applying for admission.

Admission is competitive. Candidates who meet minimum academic requirements are not guaranteed admission to the program.

Applicants must complete/satisfy the following:

1. Application to School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply). This should be completed three to four weeks prior to the application deadline.

2. Minimum test scores (http://louisville.edu/education/degrees/info/grad-mat) as required by EPSB. Please note: when submitting test scores through ETS, use the general University of Louisville code, 1838.

3. Praxis II (http://louisville.edu/education/degrees/info/mat-mse-praxis-ii) Content Exam registration and/or scores.

4. Bachelor's degree from Accredited College or University (http://louisville.edu/education/degrees/info/bachelors) with major in content area or appropriate prerequisite courses and a minimum 2.75 Grade Point Average (official transcripts required).

5. Grade of C or higher in ENGL 102 (or equivalent).

6. C or higher in oral communication course.

7. TOEFL (http://louisville.edu/education/degrees/info/toefl).

11. Acceptable interview.

Minimum Total Hours 36

Degree Assessment: Satisfactory dispositions assessment; all program coursework completed with 3.0 cumulative GPA (and no more than a total of two grades of C in degree courses); satisfactory teacher performance assessment (TPA).

Degree Candidacy: Students not enrolled during the semester in which they intend to graduate must register for degree candidacy as outlined in the Graduate Catalog (p. 802).

Praxis Disclaimer: Teacher certification requirements are subject to change. Before registering for certification test(s), please refer to the Education Professional Standards Board (EPSB) website at epsb.ky.gov (http://www.epsb.ky.gov) or ets.org/praxis/ky (http://www.ets.org/praxis/ky) for current requirements.

1. Prior to Student Teaching: Satisfactory dispositions assessment; no lower than 2.0 GPA in content methods class; within 3 credits of meeting content requirements. ECPY 607 and EDTP 501, and content method course passed; satisfactory mid-point teacher performance assessment (TPA); positive recommendation from Middle/Secondary Program Committee; electronic documentation of 200 hours of diverse and approved field experiences.

2. Can be taken at any point in the program.

3. Must be taken concurrently with student teaching.

4. Must be taken concurrently.

The Alternative Certification program is designed to assist local school districts in meeting the demand for qualified teachers in high need content areas. The program provides candidates with an opportunity to pursue initial teacher certification while working as a full-time teacher on a temporary provisional license.

Employment is not required for initial acceptance to the program. However, candidates must be employed in a Kentucky-accredited school by the start of the school year in order to continue in the program. This program is a two-year, 30-credit hour program resulting in initial teacher certification and a Master of Arts in Teaching (MAT) degree.

### Admission Requirements

Candidates who meet the following criteria may be eligible to apply to the Master of Arts in Teaching, Alternative Certification program:

1. Application to School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply). This should be completed three to four weeks prior to the application deadline.
2. Minimum Test Scores (http://louisville.edu/education/degrees/info/gre-mat) as required by EPSB
   
   Please note: when submitting test scores through ETS, use the general University of Louisville code, 1838.
3. Passing scores on content Praxis II Exam(s) (http://louisville.edu/education/degrees/info/mat-ac-praxis-ii)
4. Bachelor’s Degree (http://louisville.edu/education/degrees/info/bachelors) from Accredited College or University with a major in content area and a minimum 2.75 Grade Point Average (official transcripts (http://louisville.edu/education/degrees/info/transcripts) required)
5. Prerequisite Course Requirements (http://louisville.edu/education/degrees/info/mat-mse-prereq) – Applicants may apply to the program with up to six credit hours of content remaining to complete.
6. Grade of C or higher in ENGL 102 (or equivalent)
7. Grade of C or higher in oral communication course
8. TOEFL (http://louisville.edu/education/degrees/info/托福) – Applicants must have a TOEFL score of 550 or higher
10. Three Letters of Recommendation (http://louisville.edu/education/degrees/info/or)
11. Experience working with diverse groups of children/adolescents
12. Acceptable interview

Candidates considering application to the MAT program should contact the Education Advising and Student Services office (teacher@louisville.edu) prior to applying for admission.

Admission is competitive. Candidates who meet minimum academic requirements are not guaranteed admission to the program.

### Program Information

The Alternative Certification program is designed to assist local school districts in meeting the demand for qualified teachers in high need content areas. The program provides candidates with an opportunity to pursue initial teacher certification while working as a full-time teacher on a temporary provisional license.
The Master of Music Composition (MM) degree (http://louisville.edu/music/academics/degrees-majors/master-of-music-degrees) at UofL is a two-year program of study designed to further the expertise and experience of students who have already completed an undergraduate degree in music composition (or its equivalent). While most students who are admitted into the MM Composition program have received undergraduate degrees in music composition, students without an undergraduate degree in music composition may be accepted in the MM composition program if they 1) demonstrate compositional skills and experience approximately equivalent to an undergraduate degree in composition, and 2) hold a Bachelor of Music degree or its equivalent.

General Information Regarding Academic Policies

1. Detailed curricular and program offerings, including specific requirements and provisions for degree programs, are published in the university catalog. Students will be provided with copies of the "Handbook for Graduate Studies in Music", the "Guidelines for Preparation for the Graduate Music History Entrance Examination," and "Guidelines for Preparation for the Graduate Music Theory Entrance Examination." These documents are also available on the School of Music website at louisville.edu/music/.

2. Students will be required to address any deficiencies revealed by entrance examinations in courses taken within the first two semesters of study. Credit toward the degree is not granted for review coursework.

3. All students are required to complete Bibliography and Research Methods (MUS 607) by the end of the second semester of study (part-time students by the completion of 15 hours of graduate study). Upon satisfactory completion of requirements stated in Handbook sections B.2 and B.3, students will be considered in good standing.

4. Students will complete a project appropriate to the field of study as defined by the faculty of their program. The completion of this project (public recital, thesis, professional paper) normally takes place in the last semester of graduate study. Preparation and presentation of a recital must follow the guidelines in the "Handbook for Graduate Studies in Music" and the preparation of a thesis must follow the "Guidelines for the Preparation and Processing of Theses" issued by the School of Interdisciplinary and Graduate Studies. The preparation of a thesis in music composition must also follow the "School of Music Thesis Formatting Guidelines for MM in Composition" available at louisville.edu/music/academics/areas-of-study/music-composition/documents/ULCompThesisGuidelines.pdf.

5. In order to graduate, a student must be in good standing with a minimum cumulative grade point average of 3.0. No more than six (6) hours with any C or C+ grade will be accepted toward a degree, and no grade below a B-minus will be accepted for a course in the student's major subject area. Hours earned beyond the minimum in any curricular areas apply only to that area and cannot be assigned to another area in order to satisfy required credit. At least one-half of the total hours in graduate courses must be at the 600 level.

Any exceptions to the program of study must be approved by the Graduate Studies Committee. A student whose cumulative GPA falls below 3.0, or who fails to satisfy the published performance criteria,
will be placed on probation. Students are ordinarily not permitted to continue on probation for more than one semester.

6. When all coursework and projects have been satisfactorily completed, the student becomes a candidate for the degree and is approved to take the graduate oral examination. A candidate who fails the oral examination at the end of one semester may not be given a second one before the end of the following semester. A candidate who fails the second oral examination will not be granted the degree of MM or MME from the University of Louisville.

7. Upon request, a maximum of six (6) credit hours of earned graduate credit with a minimum grade of B may be transferred from accredited institutions that offer advanced degrees. Credit for applied music will not be transferred, but advanced standing may be awarded at a jury. Ensemble credits appropriate to the student’s degree program may be considered for transfer, but not to exceed one (1) credit hour per semester. Music history and music theory credits will be evaluated for transfer by the Director of Graduate Studies and the respective faculty. Transfer of more than six (6) credit hours may be requested provided that they are not earned by extension, or as thesis or practicum hours, and that the residency requirement of 24 semester hours is maintained by the addition of University of Louisville credits to the total program. Transfer of graduate hours within the University of Louisville toward a graduate degree in music may be requested provided that the minimum residence requirement of 24 credit hours is maintained.

8. Students receiving a graduate assistantship (teaching, research, or service) will be provided with adequate training and will be required to adhere to university policies. Performance of duties in research and service by graduate assistants will be periodically evaluated. Students with teaching assistantships will be evaluated each semester.

9. Part-time students (with the exception of those in the MME degree program) must participate in one ensemble for every 18 hours of completed coursework. If part-time study precludes completing ensemble degree requirements, other coursework may be substituted.

**Admission Requirements**

1. Applications for admission to a graduate program require the following:
   a. Completed application and application fee
   b. Official transcripts for all previous post-secondary course work (all transcripts not in English must be certified as authentic and translated verbatim into English)
   c. At least two letters of recommendation
   d. Scores from the General Test Section of the Graduate Record Examination (GRE) that must be submitted prior to the beginning of study.

2. Applications to specific degree programs require evidence of preparation for advanced study as follows:
   a. In performance, an acceptable audition
   b. In academic specializations (music composition, music history, music theory), a portfolio of work appropriate to the field of study
   c. In music education, evidence of classroom teaching experience

3. Applicants whose primary language is not English must show English language proficiency in one of the following ways:
   a. Minimum TOEFL examination score of 550 on the paper-based test, 213 on the computer-based test, or 79-80 on the internet-based test
   b. Successful completion of the exit examination for the advanced level of the Intensive English as a Second Language Program at the University of Louisville
   c. Documentation of the award of a degree from a recognized English language institution.

4. Applicants must possess a baccalaureate degree from an accredited institution in the area to be pursued in advanced studies, or they must present evidence of equivalent preparation.

5. Applicants must have a minimum cumulative undergraduate grade point average of 2.75 on a 4-point scale.

Applicants who meet the requirements listed in items 1-5 will be considered for conditional admission for graduate study at the School of Music. For additional entrance requirements specific to the degree of interest, consult the section relevant to the degree program below. Entrance examinations in music history, theory and, if appropriate, jazz, will be administered before the first term of study. The School of Music provides guidelines to assist in preparing for the entrance examinations. Any exception to the above expectations will be evaluated individually and will require a statement indicating criteria to be met in a specified time frame with provisions for monitoring progress and performance.

**Prerequisites**

1. Bachelor of Music degree or equivalent.

2. A demonstration, by examination, of skills and capacities in the following fields:
   a. Written, aural, and keyboard harmony
   b. Melodic, harmonic, and rhythmic dictation
   c. Elementary counterpoint
   d. History and literature of music, and analytic understanding of musical forms and genres

3. Evidence of preparation for advanced work in the area, as follows:
   a. Applicants for the track in Music Composition must submit original works to indicate ability and technical facility in the field of composition. Students should also have a thorough and practical knowledge of piano, as well as a thorough knowledge in the areas of string, brass, woodwind, and percussion instruments.
   b. GRE scores

**Music Education (MAT)**

**Master of Arts in Teaching in Music Education (EDMUMAT)**

Unit: College of Education and Human Development (http://louisville.edu/education) (GE)

Department: Middle and Secondary Education (http://louisville.edu/education/degrees/teacher)

Program Webpage (https://louisville.edu/education/degrees/mat-me)

**Program Information**

The MAT in Music Education program enables graduate students to earn their initial teaching certification for Kentucky, grades P-12. The teacher candidates learn to teach through instruction in pedagogy, child development, special education, technology, and diversity.

The Department of Teaching and Learning is committed to the highest standards of professional preparation. Our programs have sought and received national accreditation from the National Council for Accreditation of Teacher Education.

Graduates of initial teacher certification programs at the University of Louisville begin their teaching careers secure in the knowledge that they have been prepared for the real world of classrooms through a rigorous teacher preparation program.

The School of Music provides each student with a copy of the “Handbook for Graduate Music Students.” Students are expected to read the Music Handbook and the Graduate Catalog and to follow regulations and procedures regarding their specific degree program at the University of Louisville.

**Admission Requirements**

Candidates to initial teacher certification programs are required to submit credentials supporting their academic ability, creativity and collaboration, communication and critical thinking skills, positive disposition, and commitment to the teaching profession. These credentials include test scores, transcripts, writing samples, and letters of recommendation which support the candidate’s ability to succeed in a rigorous teacher education program. Competitive candidates will be invited to a formal, faculty interview (http://louisville.edu/education/degrees/info/interview).

Candidates for admission should review the following which outlines the expectations of the teaching profession:

1. Professional Code of Ethics for Kentucky School Personnel [PDF] (http://louisville.edu/education/degrees/forms/Ethics%20Technology%20Forms%20August%202008.pdf)
2. CEHD Acceptable Use of Technology Agreement [PDF] (http://louisville.edu/education/degrees/forms/Ethics%20Technology%20Forms%20August%202008.pdf)
3. Character and Fitness Questionnaire [PDF] (http://louisville.edu/education/degrees/forms/character-fitness-questionnaire.pdf)
4. Professional Dispositions Rubric [PDF] (http://louisville.edu/education/degrees/forms/dispositions-rubric.pdf)
5. Diversity Rubric [PDF] (http://louisville.edu/education/degrees/forms/diversity-rubric.pdf)
6. Effective Written Communication Rubric [PDF] (http://louisville.edu/education/degrees/forms/effective-written-communication-rubric.pdf)

Application

Questions about the application should be directed to teacher@louisville.edu. Candidates will be notified via e-mail regarding the admission decision no later than six weeks after the application deadline. Applicants who are selected for admission will receive information about a mandatory orientation session.

Application Deadlines

University of Louisville Music Education students applying for the MAT program should have already applied and been accepted, to the College of Education and Human Development teacher education program. The teacher education admission deadline occurs February 1 each year and the application is typically submitted in the Spring semester of the sophomore year. For more information about this process, please click on the "how to apply" tab at louisville.edu/education/degrees/bme.

All students must be admitted to teacher education to enroll in MUED coursework.

University of Louisville undergraduate students who plan to pursue the MAT program will submit an online graduate application during the last semester of their senior year. Please see Admission Criteria below. Application deadline: March 1st for Fall admission.

Admission Criteria for application to the MAT program

Candidates who meet the following criteria may be eligible to apply to the Master of Arts in Teaching program. Candidates considering applying to the MAT program should contact Dr. Robert Amchin—(502) 852-0536—prior to applying for admission. Admission is competitive. Candidates who meet minimum academic requirements are not guaranteed admission to the program.

1. Application to Graduate School (http://graduate.louisville.edu/apply)
2. Passing Test Scores (http://louisville.edu/education/degrees/info/gre-mat) (GRE, PRAXIS, PRAXIS I)
   Please note: when submitting test scores through ETS, use the general University of Louisville code, 1838.
3. PRAXIS II exams (official scores or registration ticket) (http://louisville.edu/education/degrees/info/mat-mse-praxis-ii)
4. Bachelor’s Degree from Accredited College or University (http://louisville.edu/education/degrees/info/bachelors) with a minimum 2.75 Grade Point Average (University of Louisville students are not required to submit a UofL transcript)
5. Prerequisite Course Requirements (http://louisville.edu/education/degrees/info/mat-me-prereq)

6. Letters of Recommendation (http://louisville.edu/education/degrees/info/lof) (Letters submitted previously with teacher education application may be used).
7. Professional Writing Requirements (http://louisville.edu/education/degrees/info/mat-mse-professional-statement) (Professional Writing Requirements submitted previously with teacher education application may be used).
8. Tuberculosis (TB) Skin Test Result Form [PDF] (http://louisville.edu/education/degrees/forms/tb_testform.pdf) (send completed form directly to teacher@louisville.edu)

Need help preparing for the GRE or Praxis II exams? Sign up for a GRE or Praxis II Information Sessions (http://louisville.edu/education/admissions/testing).

Program Requirements

Prerequisites

Completion of the pre-teacher education courses: ECPY 507/ECPY 607 Learning Theory and Human Growth and Development, EDTP 502/EDTP 602 Exploring Teaching within the Socio-Cultural Context of P-12 Schools, and MUED 556 Special Methods in Secondary Teaching; appropriate bachelor’s degree or specific music education content required. For specific admission requirements, contact the School of Music.

Minimum Total Hours: 30

1. Electronic documentation of 200 hours of diverse and approved field experiences required prior to student teaching.

Certification Exit Assessment

B-minus or better in student teaching; satisfactory portfolio; passing score on Praxis, all certification and degree coursework competed with a 3.0 cumulative GPA; 2.5 GPA in the content area.
Degree Exit Assessment
B-minus or better in each student teaching placement, certification exit requirements plus a satisfactorily updated portfolio, and a 3.0 GPA overall.

Degree Candidacy
If not enrolled during the semester in which you are graduating, you must register for degree candidacy as outlined in the graduate catalog (see General Policies, Procedures and Requirements (p. 802)).

Praxis Disclaimer
"Teacher certification requirements are subject to change. Before registering for certification test(s), please refer to the Education Professional Standards Board (EPSB) website at epsb.ky.gov (http://www.epsb.ky.gov) or ets.org/praxis/ky (http://www.ets.org/praxis/ky) for current requirements."

Music Education (MME)

Master of Music Education in Music Education (MUEDMME)
Unit: School of Music (http://louisville.edu/music/) (GU)
Program Website (https://louisville.edu/music/academics/areas-of-study/music-education)

Program Information
The Master of Music Education (MME) program allows an applied music minor in an instrument, voice, or conducting. Each degree program has specific prerequisites, entrance requirements, and programmatic expectations that are described in the relevant section of the catalog.

General Information Regarding Academic Policies
1. Detailed curricular and program offerings, including specific requirements and provisions for degree programs, are published in the university catalog. Students will be provided with copies of the "Handbook for Graduate Studies in Music", the "Guidelines for Preparation for the Graduate Music History Entrance Examination," and "Guidelines for Preparation for the Graduate Music Theory Entrance Examination." These documents are also available on the School of Music website: louisville.edu/music/.

2. Students will be required to address any deficiencies revealed by entrance examinations in courses taken within the first two semesters of study. Credit toward the degree is not granted for review coursework.

3. All students are required to complete Bibliography and Research Methods (MUS 607) by the end of the second semester of study (part-time students by the completion of 15 hours of graduate study). Upon satisfactory completion of requirements stated in Handbook sections B.2 and B.3, students will be considered in good standing.

4. Students will complete a project appropriate to the field of study as defined by the faculty of their program. The completion of this project (public recital, thesis, professional paper) normally takes place in the last semester of graduate study. Preparation and presentation of a recital must follow the guidelines in the "Handbook for Graduate Studies in Music" and the preparation of a thesis must follow the "Guidelines for the Preparation and Processing of Theses" issued by the School of Interdisciplinary and Graduate Studies. The preparation of a thesis in music composition must also follow the "School of Music Thesis Formatting Guidelines for MM in Composition" available at louisville.edu/music/academics/areas-of-study/music-composition/documents/ULCompThesisGuidelines.pdf.

5. In order to graduate, a student must be in good standing with a minimum cumulative grade point average of 3.0. No more than six (6) hours with any C or C+ grade will be accepted toward a degree, and no grade below a B-minus will be accepted for a course in the student’s major subject area. Hours earned beyond the minimum in any curricular areas apply only to that area and cannot be assigned to another area in order to satisfy required credit. At least one-half of the total hours in graduate courses must be at the 600 level. Any exceptions to the program of study must be approved by the Graduate Studies Committee. A student whose cumulative GPA falls below 3.0, or who fails to satisfy the published performance criteria, will be placed on probation. Students are ordinarily not permitted to continue on probation for more than one semester.

6. When all coursework and projects have been satisfactorily completed, the student becomes a candidate for the degree and is approved to take the graduate oral examination. A candidate who fails the oral examination at the end of one semester may not be given a second one before the end of the following semester. A candidate who fails the second oral examination will not be granted the degree of MM or MME from the University of Louisville.

7. Upon request, a maximum of six (6) credit hours of earned graduate credit with a minimum grade of B may be transferred from accredited institutions that offer advanced degrees. Credit for applied music will not be transferred, but advanced standing may be awarded at a jury. Ensemble credits appropriate to the student’s degree program may be considered for transfer, but not to exceed one (1) credit hour per semester. Music history and music theory credits will be evaluated for transfer by the Director of Graduate Studies and the respective faculty. Transfer of more than six (6) credit hours may be requested provided that they are not earned by extension, or as thesis or practicum hours, and that the residency requirement of 24 semester hours is maintained by the addition of University of Louisville credits to the total program. Transfer of graduate hours within the University of Louisville toward a graduate degree in music may be requested provided that the minimum residence requirement of 24 credit hours is maintained.

8. Students receiving a graduate assistantship (teaching, research, or service) will be provided with adequate training and will be required to adhere to university policies. Performance of duties in research and service by graduate assistants will be periodically evaluated. Students with teaching assistantships will be evaluated each semester.

9. Part-time students (with the exception of those in the MME degree program) must participate in one ensemble for every 18 hours of completed coursework. If part-time study precludes completing ensemble degree requirements, other coursework may be substituted.

Admission Requirements
1. Applications for admission to a graduate program require the following:
   a. A completed application;
   b. An application fee;
   c. Official transcripts for all previous post-secondary course work (all transcripts not in English must be certified as authentic and translated verbatim into English);
   d. At least two letters of recommendation;
   e. Scores from the General Test Section of the Graduate Record Examination (GRE) that must be submitted prior to the beginning of study.
2. Applications to specific degree programs require evidence of preparation for advanced study as follows:
   a. In performance, an acceptable audition;
   b. In academic specializations (music composition, music history, music theory), a portfolio of work appropriate to the field of study;
   c. In music education, evidence of classroom teaching experience.

3. Applicants whose primary language is not English must show English language proficiency in one of the following ways:
   a. A minimum TOEFL examination score of 550 on the paper-based test, 213 on the computer-based test, or 79-80 on the internet-based test;
   b. Successful completion of the exit examination for the advanced level of the Intensive English as a Second Language Program at the University of Louisville;
   c. Documentation of the award of a degree from a recognized English language institution.

4. Applicants must possess a baccalaureate degree from an accredited institution in the area to be pursued in advanced studies, or they must present evidence of equivalent preparation.

5. Applicants must have a minimum cumulative undergraduate grade point average of 2.75 on a 4-point scale.

Applicants who meet the requirements listed in items 1-5 will be considered for conditional admission for graduate study at the School of Music. For additional entrance requirements specific to the degree of interest, see below.

Entrance examinations in music history, theory and, if appropriate, jazz, will be administered before the first term of study. The School of Music provides guidelines to assist in preparing for the entrance examinations.

Any exception to the above expectations will be evaluated individually and will require a statement indicating criteria to be met in a specified time frame with provisions for monitoring progress and performance. Justification must be provided in writing and must be accepted by the faculty of the student’s proposed program, the Director of Graduate Studies, and the Dean of the School of Music.

Students who fail to meet performance standards or who do not meet other requirements as outlined in the letter of admission, program of study, or the catalog of the University of Louisville are subject to dismissal from their programs.

Prerequisites

1. Bachelor of Music degree or equivalent
2. Classroom teaching experience (exclusive of practice teaching and prior to, or concurrent with, graduate study)
3. Demonstration, by examination, of skills and capacities in the following fields:
   a. Written, aural, and keyboard harmony
   b. Melodic, harmonic, and rhythmic dictation
   c. Elementary counterpoint
   d. History and literature of music, and analytic understanding of musical forms and genres

Minimum Total Hours: 30

Other Requirements

It is recommended that full-time MME students enroll in ensembles during their degree program.

All students must pass an oral examination after all course work is completed.

1. These courses may be satisfied by passing the entrance examinations in these areas.
2. Students are required to prepare either a thesis (4 semester hours of credit) or a professional paper (without credit). In the latter case, 4 hours of coursework will be determined by the student and graduate advisor in order to achieve the 30-hour minimum requirement.

Music History and Literature (MM)

Master of Music in Music History and Literature (MUSIMM MUH)

Unit: School of Music (http://louisville.edu/music) (GU)
Program Webpage (https://louisville.edu/music/academics/areas-of-study/music-history)

Program Information

The School of Music offers training toward two specific graduate degrees in music: Master of Music requiring a minimum of 36 credit hours of graduate credit, and Master of Music Education requiring 30 hours. All programs require a minimum of 24 credit hours of residence at the University of Louisville. Major subjects in the Master of Music curriculum are music performance with concentrations in choral, wind, or orchestral conducting; instrumental, piano, or vocal performance; music theory; jazz performance or jazz composition and arranging; piano, string, or wind band pedagogy; music history; music theory; and music composition. The Master of Music Education program allows an applied music minor in an instrument, voice, or conducting. Each degree program has specific prerequisites, entrance requirements, and programmatic expectations that are described in the relevant section of the catalog.

The MM in Music History program, a two-year course of study, is particularly suitable for those who wish to explore further both the
content and the methodologies by which the history of music may be critiqued and investigated. Applicants must have an undergraduate degree in music or its equivalent. Graduate students in music history undertake a series of seminars and complete a thesis under faculty supervision, as well as satisfy a foreign language requirement and a final oral examination. Past graduates in music history from the University of Louisville have made careers as musicologists, music librarians, arts administrators, and music critics.

**General Information Regarding Academic Policies**

1. Detailed curricular and program offerings, including specific requirements and provisions for degree programs, are published in the university catalog. Students will be provided with copies of the "Handbook for Graduate Studies in Music", the "Guidelines for Preparation for the Graduate Music History Entrance Examination," and "Guidelines for Preparation for the Graduate Music Theory Entrance Examination." These documents are also available on the School of Music website: louisville.edu/music/.

2. Students will be required to address any deficiencies revealed by entrance examinations in courses taken within the first two semesters of study. Credit toward the degree is not granted for review coursework.

3. All students are required to complete MUS 607 Bibliography and Research Methods by the end of the second semester of study (part-time students by the completion of 15 hours of graduate study). Upon satisfactory completion of requirements stated in Handbook sections B.2 and B.3, students will be considered in good standing.

4. Students will complete a project appropriate to the field of study as defined by the faculty of their program. The completion of this project (public recital, thesis, professional paper) normally takes place in the last semester of graduate study. Preparation and presentation of a recital must follow the guidelines in the "Handbook for Graduate Studies in Music" and the preparation of a thesis must follow the "Guidelines for the Preparation and Processing of Theses" issued by the School of Interdisciplinary and Graduate Studies. The preparation of a thesis in music composition must also follow the "School of Music Thesis Formatting Guidelines for MM in Composition" available at louisville.edu/musicacademics/areas-of-study/music-composition/documents/ULCCompThesisGuidelines.pdf.

5. In order to graduate, a student must be in good standing with a minimum cumulative grade point average of 3.0. No more than six (6) hours with any C or C+ grade will be accepted toward a degree, and no grade below a B-minus will be accepted for a course in the student’s major subject area. Hours earned beyond the minimum in any curricular areas apply only to that area and cannot be assigned to another area in order to satisfy required credit. At least one-half of the total hours in graduate courses must be at the 600 level. Any exceptions to the program of study must be approved by the Graduate Studies Committee. A student whose cumulative GPA falls below 3.0, or who fails to satisfy the published performance criteria, will be placed on probation. Students are ordinarily not permitted to continue on probation for more than one semester.

6. When all coursework and projects have been satisfactorily completed, the student becomes a candidate for the degree and is approved to take the graduate oral examination. A candidate who fails the oral examination at the end of one semester may not be given a second one before the end of the following semester. A candidate who fails the second oral examination will not be granted the degree of MM or MME from the University of Louisville.

7. Upon request, a maximum of six (6) credit hours of earned graduate credit with a minimum grade of B may be transferred from accredited institutions that offer advanced degrees. Credit for applied music will not be transferred, but advanced standing may be awarded at a jury. Ensemble credits appropriate to the student’s degree program may be considered for transfer, but not to exceed one (1) credit hour per semester. Music history and music theory credits will be evaluated for transfer by the Director of Graduate Studies and the respective faculty. Transfer of more than six (6) credit hours may be requested provided that they are not earned by extension, or as thesis or practicum hours, and that the residency requirement of 24 semester hours is maintained by the addition of University of Louisville credits to the total program. Transfer of graduate hours within the University of Louisville toward a graduate degree in music may be requested provided that the minimum residence requirement of 24 credit hours is maintained.

8. Students receiving a graduate assistantship (teaching, research, or service) will be provided with adequate training and will be required to adhere to university policies. Performance of duties in research and service by graduate assistants will be periodically evaluated. Students with teaching assistantships will be evaluated each semester.

9. Part-time students (with the exception of those in the MME degree program) must participate in one ensemble for every 18 hours of completed coursework. If part-time study precludes completing ensemble degree requirements, other coursework may be substituted.

**Admission Requirements**

1. Applications for admission to a graduate program require the following:
   a. Completed application and application fee
   b. Official transcripts for all previous post-secondary course work (all transcripts not in English must be certified as authentic and translated verbatim into English)
   c. At least two letters of recommendation
   d. Scores from the General Test Section of the Graduate Record Examination (GRE) that must be submitted prior to the beginning of study.

2. Applications to specific degree programs require evidence of preparation for advanced study as follows:
   a. In performance, an acceptable audition
   b. In academic specializations (music composition, music history, music theory), a portfolio of work appropriate to the field of study
   c. In music education, evidence of classroom teaching experience

3. Applicants whose primary language is not English must show English language proficiency in one of the following ways:
   a. Minimum TOEFL examination score of 550 on the paper-based test, 213 on the computer-based test, or 79-80 on the internet-based test
   b. Successful completion of the exit examination for the advanced level of the Intensive English as a Second Language Program at the University of Louisville
   c. Documentation of the award of a degree from a recognized English language institution.

4. Applicants must possess a baccalaureate degree from an accredited institution in the area to be pursued in advanced studies, or they must present evidence of equivalent preparation.

5. Applicants must have a minimum cumulative undergraduate grade point average of 2.75 on a 4-point scale.
Applicants who meet the requirements listed in items 1-5 will be considered for conditional admission for graduate study at the School of Music. For additional entrance requirements specific to the degree of interest, consult the section relevant to the degree program below.

Entrance examinations in music history, theory, and, if appropriate, jazz, will be administered before the first term of study. The School of Music provides guidelines to assist in preparing for the entrance examinations.

Any exception to the above expectations will be evaluated individually and will require a statement indicating criteria to be met in a specified time frame with provisions for monitoring progress and performance. Justification must be provided in writing and must be accepted by the faculty of the student’s proposed program, the Director of Graduate Studies, and the Dean of the School of Music. Students who fail to meet performance standards or who do not meet other requirements as outlined in the letter of admission, program of study, or the catalog of the University of Louisville are subject to dismissal from their programs.

Prerequisites

1. Bachelor of Music degree or equivalent.
2. A demonstration, by examination, of skills and capacities in the following fields:
   a. Written, aural, and keyboard harmony;
   b. Melodic, harmonic, and rhythmic dictation;
   c. Elementary counterpoint; and
   d. History and literature of music, and analytic understanding of musical forms and genres.
3. Evidence of preparation for advanced work in the area, as follows:
   a. Applicants for the track in music history must submit a paper to the music history faculty demonstrating ability to write efficiently and to do elementary research.
   b. In addition, applicants must complete the entrance examination in music history with an average score of no less than seventy (70) for admission to the music history curriculum. Before admission to candidacy, students in music history are required to take GERM 121, GERM 122, and GERM 123 and pass each semester with a minimum grade of B. Students with prior knowledge of German can satisfy any or every part of this requirement by passing the proficiency exam(s) administered by the Department of German.
   c. GRE scores

Music Performance (MM)

Master of Music in Music Performance

Unit: School of Music (https://louisville.edu/music) (GU)
Program Webpage (https://louisville.edu/music/academics/areas-of-study/instrumental-vocal-performance)

Program Information

The School of Music offers training toward two specific graduate degrees in music: Master of Music (MM) requiring a minimum of 36 credit hours of graduate credit, and Master of Music Education (MME) requiring 30 credit hours. All programs require a minimum of 24 credit hours of residence at the University of Louisville. Major subjects in the Master of Music curriculum are music performance with concentrations in choral, wind, or orchestral conducting; instrumental, piano, or vocal performance; jazz performance or jazz composition and arranging; piano, string, or wind band pedagogy; music history; music theory; and music composition. The Master of Music Education program allows an applied music minor in an instrument, voice, or conducting. Each degree program has specific prerequisites, entrance requirements, and programmatic expectations that are described in the relevant section of the catalog.

The Department of Performance Studies is dedicated to the development of the musical and technical abilities of the music student through classical performance training on the individual performance instruments. The department offers training in voice and in the brass, wind, percussion, string and keyboard instruments, as well as conducting. The lessons are presented in a one-on-one, nurturing environment. The faculty members are all active performers. A student’s mastery of a major performance instrument is an extremely important component of advanced musical training, and opportunities for performance experience are provided through various venues. The faculty also coach chamber music and teach courses regarding the literature for and pedagogy of their various instruments.

General Information Regarding Academic Policies

1. Detailed curricular and program offerings, including specific requirements and provisions for degree programs, are published in the university catalog. Students will be provided with copies of the "Handbook for Graduate Studies in Music," the "Guidelines for Preparation for the Graduate Music History Entrance Examination," and "Guidelines for Preparation for the Graduate Music Theory..."
2. Students will be required to address any deficiencies revealed by entrance examinations in courses taken within the first two semesters of study. Credit toward the degree is not granted for review coursework.

3. All students are required to complete Bibliography and Research Methods (MUS 607) by the end of the second semester of study (part-time students by the completion of 15 hours of graduate study). Upon satisfactory completion of requirements stated in Handbook sections B.2 and B.3, students will be considered in good standing.

4. Students will complete a project appropriate to the field of study as defined by the faculty of their program. The completion of this project (public recital, thesis, professional paper) normally takes place in the last semester of graduate study. Preparation and presentation of a recital must follow the guidelines in the "Handbook for Graduate Studies in Music" and the preparation of a thesis must follow the "Guidelines for the Preparation and Processing of Theses" issued by the School of Interdisciplinary and Graduate Studies. The preparation of a thesis in music composition must also follow the "School of Music Thesis Formatting Guidelines for MM in Composition" available at louisville.edu/music/academics/areas-of-study/music-composition/documents/ULCompThesisGuidelines.pdf.

5. In order to graduate, a student must be in good standing with a minimum cumulative grade point average of 3.0. No more than six (6) hours with any C or C+ grade will be accepted toward a degree, and no grade below a B-minus will be accepted for a course in the student’s major subject area. Hours earned beyond the minimum in any curricular areas apply only to that area and cannot be assigned to another area in order to satisfy required credit. At least one-half of the total hours in graduate courses must be at the 600 level. Any exceptions to the program of study must be approved by the Graduate Studies Committee. A student whose cumulative GPA falls below 3.0, or who fails to satisfy the published performance criteria, will be placed on probation. Students are ordinarily not permitted to continue on probation for more than one semester.

6. When all coursework and projects have been satisfactorily completed, the student becomes a candidate for the degree and is approved to take the graduate oral examination. A candidate who fails the oral examination at the end of one semester may not be given a second one before the end of the following semester. A candidate who fails the second oral examination will not be granted the degree of MM or MME from the University of Louisville.

7. Upon request, a maximum of six (6) credit hours of earned graduate credit with a minimum grade of B may be transferred from accredited institutions that offer advanced degrees. Credit for applied music will not be transferred, but advanced standing may be awarded at a jury. Ensemble credits appropriate to the student's degree program may be considered for transfer, but not to exceed one (1) credit hour per semester. Music history and music theory credits will be evaluated for transfer by the Director of Graduate Studies and the respective faculty. Transfer of more than six (6) credit hours may be requested provided that they are not earned by extension, or as thesis or practicum hours, and that the residency requirement of 24 semester hours is maintained by the addition of University of Louisville credits to the total program. Transfer of graduate hours within the University of Louisville toward a graduate degree in music may be requested provided that the minimum residence requirement of 24 credit hours is maintained.

Minimum Total Hours 36

Other Requirements

All students must pass an oral examination after all course work is completed.

1 These courses may be satisfied by passing the entrance examinations in these areas.

2 For students in the Concentration in Jazz, Jazz Theory (MUS 539-02) is recommended. For students in the Concentration in Jazz Composition and Arranging, MUS 654 is required and Jazz Theory (MUS 539-02) is recommended.

3 The applied course numbers for the degree concentrations are as follows: Choral Conducting: MUS 601, MUS 602, MUS 659, MUS 660. (Students may substitute additional semesters of MUS 659 and MUS 660 for MUS 601 and MUS 602 at the discretion of the Director of Choral Activities). Orchestral/Wind Conducting/Wind Band Pedagogy/Piano Pedagogy/String Pedagogy: MUS 601, MUS 602, MUS 611, MUS 612. Jazz Performance: MUS 605, MUS 606, MUS 615, MUS 616. Students enrolled for applied jazz composition and arranging may not also get credit for MUS 656 or MUS 657. Instrumental/Organ/Piano/Vocal Performance: MUS 603, MUS 604.

4 Taken concurrently with final semester of applied study. Performance and pedagogy degree recitals are expected to show a performer’s musical maturity and versatility. A degree recital program must be approved by the student’s applied instructor. Minimum recital lengths will be determined by the appropriate area faculty and indicated on all applied syllabi.

### Concentration in Jazz Performance

Other Requirements
Students are expected to present a public recital that comprises no less than sixty (60) minutes of music and follows the guidelines governing public recitals.

### Concentration in Jazz Composition and Arranging

Other Requirements
Students are expected to present a public recital that comprises no less than sixty (60) minutes of music and follows the guidelines governing public recitals.

### Concentration in Piano Pedagogy

Other Requirements
Students are required to present a sixty-minute lecture-demonstration recital that focuses on pedagogical aspects of selected works, includes a minimum of thirty minutes of memorized solo repertoire, and follows the guidelines governing public recitals.

### Concentration in Piano Performance

Other Requirements
Students are expected to present a public recital that comprises no less than sixty (60) minutes of music and follows the guidelines governing public recitals.

### Concentration in Vocal Performance

Other Requirements
Students are expected to present a public recital that comprises no less than sixty (60) minutes of music and follows the guidelines governing public recitals.
Other Requirements

Students are expected to present a public recital that comprises no less than sixty (60) minutes of music and follows the guidelines governing public recitals.

1. Must be taken in the semester of the graduate degree recital.
2. May include such courses as pedagogy, literature, the student’s principal applied instrument, instrumental conducting, or a maximum of two additional ensemble credits.
3. One two-credit-hour course required of all orchestral conducting majors, the second two-credit-hour course optional depending on the individual needs of the student in consultation with their advisor. If the student only needs two credits of choral, they will be required to have two additional music electives.
4. To be chosen from courses in music theory, literature, the student’s principal applied instrument, or a maximum of two additional ensemble credits.
5. In comparing degree programs, please note that among universities, many times ensembles are required, but without credit. Our required ensembles are included in the number of required degree hours. New Music Ensemble is acceptable for the concentration in String Pedagogy.
6. Up to two additional ensemble credits are acceptable.
7. To be chosen from pedagogy, literature, research methods, learning themes, the student’s principal applied instrument, a maximum of two semesters of functional applied study, or a maximum of two additional ensemble credits if performing on a secondary instrument.
8. To be chosen from pedagogy, literature, the student’s principal applied instrument, a maximum of two semesters of functional applied study, or a maximum of two additional ensemble credits.
9. Students are encouraged to choose courses in literature or pedagogy; up to two additional ensemble credits are acceptable.
10. A student may substitute two additional Jazz Combo courses for one of the Jazz Ensemble courses.
11. Applied Jazz or Ensemble will not meet this requirement; applied study in a secondary area is acceptable.
12. Must include Organ Literature and Church Music Literature; additional Applied Organ or Ensemble will not meet this requirement. Applied study in a secondary area is acceptable.
13. At least three semesters of ensemble to be chosen from Piano Ensemble or New Music Ensemble.
14. Additional Applied Piano or Ensemble will not meet this requirement; applied study in a secondary area is acceptable.
15. Suggested ensembles include Opera Theatre and New Music Ensemble.
16. Additional Applied Voice or Ensemble will not meet this requirement; applied study in a secondary area is acceptable.

Music Theory (MM)

Master of Music in Music Theory (MUSTMM)

Unit: School of Music (http://louisville.edu/music) (GU)
Applications for admission to a graduate program require the following:

a. A completed application;
b. An application fee;
c. Official transcripts for all previous post-secondary course work (all transcripts not in English must be certified as authentic and translated verbatim into English);
d. At least two letters of recommendation;
e. Scores from the General Test Section of the Graduate Record Examination (GRE) that must be submitted prior to the beginning of study.

Applications to specific degree programs require evidence of preparation for advanced study as follows:

a. In performance, an acceptable audition;
b. In academic specializations (music composition, music history, music theory), a portfolio of work appropriate to the field of study;
c. In music education, evidence of classroom teaching experience.

Applicants whose primary language is not English must show English language proficiency in one of the following ways:

a. A minimum TOEFL examination score of 550 on the paper-based test, 213 on the computer-based test, or 79-80 on the internet-based test;
b. Successful completion of the exit examination for the advanced level of the Intensive English as a Second Language Program at the University of Louisville;
c. Documentation of the award of a degree from a recognized English language institution.

Applicants must possess a baccalaureate degree from an accredited institution in the area to be pursued in advanced studies, or they must present evidence of equivalent preparation.

Applicants must have a minimum cumulative undergraduate grade point average of 2.75 on a 4-point scale.

Entrance examinations in music history, theory and, if appropriate, jazz, will be administered before the first term of study. The School of Music provides guidelines to assist in preparing for the entrance examinations.

Any exception to the above expectations will be evaluated individually and will require a statement indicating criteria to be met in a specified time frame with provisions for monitoring progress and performance. Justification must be provided in writing and must be accepted by the faculty of the student’s proposed program, the Director of Graduate Studies, and the Dean of the School of Music.

Students who fail to meet performance standards or who do not meet other requirements as outlined in the letter of admission, program of study, or the catalog of the University of Louisville are subject to dismissal from their programs.

**Concentration Requirements (see tab)**  14

**Minimum Total Hours**  36

### Other Requirements

All students must pass an oral examination after all course work is completed.

¹ These courses may be satisfied by passing the entrance examinations in these areas.
Nursing will be charged instructional and clinical fees. These fees cover all graduate students enrolled in clinical programs in the School of Clinical Laboratory Fee. A student who is unsafe in a clinical area or research setting is subject to removal from clinical admission to the program. Students who receive more than one C+ or below in the required program curriculum will be dismissed. Repeating Nursing Courses are subject to cancellation due to insufficient enrollment. Preceptorship/clinical experiences are scheduled on any day of the week based on availability of clinical sites and preceptors. Limited evening and weekend preceptorship experiences may be available. Preceptorship experiences throughout the state are also possible but not guaranteed. The office of the Associate Dean for Graduate Programs oversees student placement with preceptors, in collaboration with the Clinical Placement Coordinator and course faculty.

Late Complete Withdrawal after the Deadline
Upon proper documentation of extreme circumstances, decision for approval of late complete withdrawals may be made by the Associate Dean for Graduate Programs. Late complete withdrawals are those requested after the deadline has passed and before the instructor has assigned a grade.

Student Health Services Requirements
Each student must comply with the current student health policy of the Health Sciences Center. All costs associated with compliance are the responsibility of the student. Because of contractual agreements with agencies and the changing needs of society, this policy is updated periodically. The current health policies are listed below. It is the responsibility of the student to maintain his/her health in order to ensure safety for other students and clients. If faculty or the agency deems that any student creates a health risk, the student may be excluded from the clinical experience and/or the program.

Clinical Requirements
Detailed information is provided at student orientations and is provided in the School of Nursing Student Handbook.

Repeating Nursing Courses
MSN students who receive a grade of C+ or below in a required program course at UofL must repeat the course. Students who receive more than one C+ or below in the required MSN curriculum will be dismissed from the program. Students are allowed to repeat a course on a space-available basis.

Probation and Dismissal
If the cumulative grade point average falls below 3.0, the student will be placed on academic probation for the next regular semester. If the cumulative grade point average is not raised to a minimum of 3.0 by the end of the probation semester, the student will be dismissed from the program. The dismissal will be reflected on the student's transcript. If a student wishes to continue at the university, he/she must apply and be accepted to another unit in order to continue to enroll in classes.

Program-Specific Academic Policies
Academic Progress in the Graduate Program
Satisfactory academic progress in a program involves maintaining the academic and professional standards expected in a particular discipline or program and may include a demonstration of the ability to function as a professional practitioner. Failure to maintain these standards or demonstrate such abilities may result in the termination of the student's admission to the program.

Removal From Clinical
A student who is unsafe in a clinical area or research setting is subject to academic action including dismissal from the program.

Clinical Laboratory Fee
All graduate students enrolled in clinical programs in the School of Nursing will be charged instructional and clinical fees. These fees cover costs associated with clinical laboratory instruction, including clinical laboratory supplies, clinical equipment, support of simulation equipment, preceptor placement coordination and clinical visitations.

Course Offerings
Course offerings are subject to cancellation due to insufficient enrollment. Preceptorship/clinical experiences are scheduled on any day of the week based on availability of clinical sites and preceptors. Limited evening and weekend preceptorship experiences may be available. Preceptorship experiences throughout the state are also possible but not guaranteed. The office of the Associate Dean for Graduate Programs oversees student placement with preceptors, in collaboration with the Clinical Placement Coordinator and course faculty.

Late Complete Withdrawal after the Deadline
Upon proper documentation of extreme circumstances, decision for approval of late complete withdrawals may be made by the Associate Dean for Graduate Programs. Late complete withdrawals are those requested after the deadline has passed and before the instructor has assigned a grade.

Student Health Services Requirements
Each student must comply with the current student health policy of the Health Sciences Center. All costs associated with compliance are the responsibility of the student. Because of contractual agreements with agencies and the changing needs of society, this policy is updated periodically. The current health policies are listed below. It is the responsibility of the student to maintain his/her health in order to ensure safety for other students and clients. If faculty or the agency deems that any student creates a health risk, the student may be excluded from the clinical experience and/or the program.

Note: Health policies are constantly under review by faculty based on CDC changing requirements and community expectations. Students will be notified of any policy changes, and compliance will be required.

Clinical Requirements
Detailed information is provided at student orientations and is provided in the School of Nursing Student Handbook.

Repeating Nursing Courses
MSN students who receive a grade of C+ or below in a required program course at UofL must repeat the course. Students who receive more than one C+ or below in the required MSN curriculum will be dismissed from the program. Students are allowed to repeat a course on a space-available basis.

Probation and Dismissal
If the cumulative grade point average falls below 3.0, the student will be placed on academic probation for the next regular semester. If the cumulative grade point average is not raised to a minimum of 3.0 by the end of the probation semester, the student will be dismissed from the program. The dismissal will be reflected on the student's transcript. If a student wishes to continue at the university, he/she must apply and be accepted to another unit in order to continue to enroll in classes.
Permission for Visiting Student Status at Another Institution

Students may apply for visiting student status should they wish to enroll in a nursing course at another institution while a student at the University of Louisville. If the course is being taken to apply toward the University of Louisville degree requirements, it is the student’s responsibility to check with OSS to confirm the equivalency of the course before they enroll. Students must provide OSS with the most recent copy of the course syllabus so that University of Louisville faculty can evaluate the course for equivalency. Once the equivalency status of the course has been determined, the applying student will be sent a letter of permission for visiting student status. Students are responsible for requesting that an official transcript be sent to the University’s Registrar’s Office upon completion of any transfer work.

Admissions Policies—MSN/School of Nursing

Students may be admitted into the Master of Science in Nursing (MSN) program for the Master’s Entry into Professional Nursing (MEPN) for a summer term only. The Master’s Entry into Professional Nursing (MEPN) is a graduate program for entry into practice, not advanced practice.

The Master of Science in Nursing, Certificate in Health Professions Education, admits for a fall term only.

Application Deadlines for Degree-Seeking Students

- Summer Semester for MSN/MEPN: October 15th
- Fall Semester for MSN, with Certificate in Health Professions Education: February 1st

Criteria for Admission to the Master of Science in Nursing

A holistic review process is used when considering applications for admission to the master’s program. The holistic review considers multiple criteria for admissions, such as: the applicant’s professional goals, academic capabilities, grade point averages, and quality of interview.

To be considered for admission to Degree Status, the following items must be submitted:

To the School of Interdisciplinary and Graduate Studies

- Completed University of Louisville Graduate Admissions Application, including an application fee (application available online at: louisville.edu/graduate/apply)
- Official transcripts representing all college coursework with a cumulative grade point average of at least 3.0 on a 4.0 scale. A bachelor’s degree must be earned from a regionally accredited institution. Students in the health professions education concentration must have a bachelor of science in nursing from a regionally and CCNE, ACEN, or NLN accredited institution.
- Applicants who have attended a college or university outside the United States are also required to submit an evaluation of their transcript through World Education Services (WES) (http://wes.org) or Educational Credential Evaluators (ECE) (http://ece.org). Please note that transcript evaluations can sometimes take several weeks.
- Two references from individuals who can speak to your academic and/or professional nursing capabilities and potential. Each person providing a reference for you must complete the University of Louisville, School of Interdisciplinary and Graduate Studies, Graduate Admission recommendation form (available online at: louisville.edu/graduate/apply)
- Submit a goal statement, 500 words or less, explaining your reasons for seeking the program, including short and long term professional goals. Describe how past educational, work, and/or life experiences have prepared you for this next step in the career. Upload on the admission application.
- Resume, upload on the admission application. For MSN, Certificate program include your RN license number on your resume.
- Verification of licensure from the Board of Nursing required for the MSN, Certificate. Upload on the admission application.
- Proof of English Proficiency: International students for whom English is not their primary language must show English language proficiency by 1) demonstration of a degree awarded from an acceptable English language institution or 2) acceptable examinations: TOEFL; International English Language Testing System (IELTS); successful completion of the exit examination for the advanced level of the intensive English as a Second Language Program. Recommended test scores are available on the University International Student website.

To the School of Nursing, Office of Student Services

- Completed Legal Questionnaire (available online at: louisville.edu/nursing)
- Criminal background check submitted through CertifiedBackground.com
- An interview with faculty may be required.

Students who do not meet admission requirements may contact the University of Louisville School of Nursing Office of Student Services for an advising appointment.

Conditional Admission to MSN Degree Program:

Students who do not meet these admission requirements may be considered for admission in conditional status.

Applications will not be considered for Full or Conditional Degree status unless all application materials are available to the review committee by the application deadline.

Criteria for Admission in Visiting Student Status to the Graduate Nursing Program:

Students admitted as visiting students are non-degree. Students admitted in non-degree status may not be eligible for some financial aid sources. Visiting students from other schools may apply each semester for non-degree status by submitting the following:

To the School of Interdisciplinary and Graduate Studies

- Graduate Admissions Application including an application fee.
- A letter of good standing from student’s home school or transcripts from graduate school in which the student is currently enrolled verifying a grade point average of 3.0 or higher.

Important Note: All applicants, regardless of their application status, are required to submit official transcripts for all college work completed. An
application fee is required of all applicants regardless of where previous degrees were earned.

The Master of Science in Nursing Curriculum

The faculty have moved to decrease barriers, provide a climate responsive to individual student needs, and to move towards graduating the most well-prepared practitioners in the Kentuckiana area. With the University of Louisville mission directed toward research, teaching, practice, and service, the School of Nursing is well situated to be the premier graduate program in the metropolitan area.

Master's Entry into Professional Nursing

The Master's Entry into Professional Nursing (MEPN) is designed for individuals with a baccalaureate degree in another area who want to pursue a career in nursing. The program provides the student with a general foundation in nursing with additional skills in the application of evidence based practice and leadership. Upon completion of the program, the student receives both Bachelor of Science in Nursing and Master of Science in Nursing Degrees.

Students are eligible to take the National Council Licensure Examination (NCLEX-RN) for registered nursing licensure. This is not an advanced practice registered nursing program. Prerequisites must be completed, or in progress, before being considered for admittance into the graduate program.

To ensure appropriate preparation for the program, the following prerequisites are required: Chemistry, Nutrition, Lifespan Developmental Psychology, Microbiology with lab, two semesters of Anatomy and Physiology with lab, Pathophysiology, Pharmacology. A minimum grade of C is required in all prerequisite courses. Students must consult with the program advisor for appropriate equivalencies.

Unit: School of Nursing (http://louisville.edu/nursing) (GN) Program Webpage (https://%20louisville.edu/nursing/academics/phd)

Program Information

The Doctor of Philosophy in Nursing is designed to prepare nurse scientists to assume a variety of roles in education, research, leadership, and health policy. The program prepares nurse scientists to:

- Generate knowledge, test interventions and evaluate outcomes to reduce risks of illness/disability and promote quality of life;
- Collaborate with other disciplines to improve the delivery of healthcare;
- Assume research, leadership, executive, public policy and/or teaching roles; and,
- Affect health policy through the application of scientific knowledge.

Two progression options are offered: 1) BSN to PhD and 2) MSN to PhD. BSN to PhD students complete the first year of coursework at the master’s level and then continue on to the doctoral-level work without earning a master’s degree. The MSN to PhD students will enter directly into doctoral coursework.
The PhD in Nursing consists of at least 55 credit hours of coursework beyond the baccalaureate degree or 40 credit hours beyond a master’s degree plus dissertation credit hours. Full or part-time programs of study are available; however, full-time study is recommended to allow students to devote themselves entirely to the program and immerse themselves in the life of a scholar.

Assistantships
A PhD Graduate Student Assistantship is a financial award to a full-time PhD student for the period of one year. To be eligible for the award the student must be admitted to the PhD degree program or be a continuing PhD student. For the full year, the award includes tuition, health insurance, and a monthly stipend. The student is required to maintain full-time study during the award period and participate for 20 hours/week in a Research Assistant or Teaching Assistant role in the School of Nursing. These activities serve to augment and enrich the student’s academic program. The student will be assigned by the Associate Dean for Graduate Programs to either research or teaching and will coordinate their experience. Descriptions of activities are available for each type of assistantship. Assistantships are awarded on a competitive basis. Assistantship support is limited to a maximum of five years for BSN-PhD students and four years for MSN-PhD students.

Program Policies
Residency Requirement
In order that the student may be assured of an opportunity to utilize the educational facilities properly and to participate in the intellectual life and research atmosphere of the university, at least two years of study must be completed at the University of Louisville and at least one must be spent in full-time residency.

To be considered in full-time residency for one year, a student must be registered for 18, or more, credit hours in a 12 month period.

Repeating Nursing Courses
PhD students who receive a grade of C+ or below in a required PhD program course at UofL must repeat the course. Students who receive more than one C+ or below in their required PhD curriculum will be dismissed from the program. Students are allowed to repeat a course on a space available basis.

Student Health Services Requirements
Each student must comply with the current student health policy of the Health Sciences Center. All costs associated with compliance are the responsibility of the student. Because of contractual agreements with agencies and the changing needs of society, this policy is updated periodically. It is the responsibility of the student to maintain his/her health in order to ensure safety for other students and research subjects. If faculty or the agency deems that any student creates a health risk, the student may be excluded from the research or clinical area and/or the program.

Individual health care facilities, used as research or clinical sites by the School of Nursing, may have additional requirements. In this event, the student is required to comply with any additional requirements of that facility.

Health policies are constantly under review by faculty based on CDC changing requirements and community expectations. Students will be notified of any policy changes, and compliance will be required.

Clinical Compliance Requirements
Students will receive a copy of the Clinical Health Requirements at new student Orientation. Details are also provided in the School of Nursing PhD Student Handbook. Students must turn in all requirements prior to enrolling in any research methods course at the doctoral level. Noncompliance with any health or clinical requirement may preclude the student from participating in courses/research and/or be grounds for dismissal.

Admissions Criteria
Application deadline for fall semester admission is January 15th. Completed applications received after the January 15th deadline may be considered on a space available basis.

The holistic review process is used when considering applications for admission to the PhD Program in Nursing. The holistic review considers multiple criteria for admission, including: the applicant’s professional career goals, academic capabilities, GPA, GRE scores, research interest, RN license, area of expertise, community engagement and potential for a scholarly career in nursing.

Applicants should submit the following items to:

School of Interdisciplinary and Graduate Studies
Graduate Admissions
University of Louisville
Louisville, KY 40292

1. University of Louisville Graduate Application and application fee. Online submission is preferred: louisville.edu/graduate/apply.

The online version of the Graduate Application lists codes for the Nursing PhD program. If you are submitting a hard copy application form, please use the following codes:

• NURSPHDMSN- for students who have completed Master’s of Nursing degrees
• NURSPHDBSN- for students who have completed only the Bachelor of Science in Nursing Degrees.

2. Transcripts

• If BSN applicant: Official transcripts representing all college coursework with a recommended undergraduate cumulative grade point average of at least 3.0 on a 4.0 scale. Must verify completion of an accredited baccalaureate program in nursing. A bachelor’s degree must be earned from a regionally accredited institution. BSN program must have been accredited by CCNE or NLN.

• If MSN applicant: Official transcripts representing all college coursework with a recommended graduate cumulative grade point average of at least 3.25 on a 4.0 scale. Must verify completion of an accredited master’s program in nursing. MSN program must have been accredited by CCNE or NLN.

Applicants who have attended a college or university outside the United States are also required to submit an evaluation of their transcript through World Education Services (WES) or Educational Credential Evaluators (ECE). Please note that transcript evaluations can sometimes take several weeks.

3. Graduate Records Examination (GRE). Successful candidates generally have an Analytical score of 4.0 or higher. Recommended scores on the GRE are 156 verbal, 146 quantitative and 4 on the analytical writing score.
4. **Proof of English Proficiency.** International students for whom English is not their primary language must show English language proficiency by 1) demonstration of a degree awarded from an acceptable English language institution or 2) acceptable examinations: TOEFL; International English Language Testing System (IELTS); successful completion of the exit examination for the advanced level of the intensive English as a Second Language Program. Recommended test scores are available on the University International Student website.

5. **Three (3) Letters of Recommendation.** Recommendations from individuals who can speak of academic and/or professional capabilities and potential. Recommendations should be chosen from among: former faculty members, current or immediate past employers, or other nursing/health professionals.

This is done through the School of Interdisciplinary and Graduate Studies recommendation form (available online at louisville.edu/graduate/apply). Recommendation forms must have been completed within the last year.

6. **A Current Curriculum Vitae (CV) or Resume.** Include nursing license number on resume. International students need to be licensed as registered nurses in their country of origin, if licensure is available. If direct patient care activities are provided, a Kentucky RN licensure prior to December in their first year of study must be obtained.

7. **A written statement** of career goals, area(s) of expertise, research interest, and reasons for pursuing doctoral studies. Maximum three pages; double spaced; 12 point font.

Submit the following items to:

Office of Student Services  
School of Nursing  
University of Louisville  
Louisville, KY 40292

1. **School of Nursing Legal Questionnaire,** available at louisville.edu/nursing
2. **Personal Interview** with School of Nursing faculty will be required.
3. **Criminal Background Check** required. Information is available on website and through the School of Nursing, Office of Student Services.

Applicants accepted into the MSN-PhD program are strongly advised to have completed a three credit masters level statistics course (applied descriptive and inferential statistics) with a grade of B (3.0) or higher within five years before the date of enrollment.

Applicants who wish to take a refresher course will be advised of available statistics courses to take in the summer prior to beginning fall PhD coursework in statistics.

## Program Requirements

BSN students will complete 15 credit hours of required master’s-level courses.

## Nursing Practice (DNP)

**Doctor of Nursing Practice (NURSDNPPNP)**

Unit: School of Nursing (https://louisville.edu/nursing) (GN)

Program Webpage (https://louisville.edu/nursing/academics/dnp)

**Program Information**

The Doctor of Nursing Practice is designed to prepare nurse leaders in the clinical and systems arena to meet the challenges of today’s healthcare environment. The DNP is focused on developing the advanced practice knowledge and skills to improve health outcomes of individuals or populations through direct care, management of care, administration of organizations, and implementation of health policy. The University of Louisville offers both the BSN-DNP and the MSN-DNP options. The BSN-DNP requires a minimum of three years of full-time study. The last two years of the program include 1,000 clinical and project hours. The MSN-DNP is designed for advanced practice nurses and focuses on leadership for population health. A minimum of two years of part-time study is required. Clinical hours vary depending on previous masters preparation. Students must provide documentation of previous clinical hours and complete a minimum of 330 project hours, for a total of 1,000 hours.
Specialties Available

- Adult Gerontology Acute Care
- Adult Gerontology Primary Care
- Family
- Neonatal
- Psychiatric/Mental Health

Program Academic Policies

Academic Progress in the Graduate Program

Satisfactory academic progress in a program involves maintaining the academic and professional standards expected in a particular discipline or program and many include a demonstration of the ability to function as a professional practitioner. Failure to maintain these standards or demonstrate such abilities may result in the termination of the student’s admission to the program.

Time Limitations for Degree-Seekers

Students must complete the degree requirements within six (6) years of beginning the program of study.

Removal from Clinical

A student who is unsafe in a clinical area or research setting is subject to academic action including dismissal from the program.

Course Offerings

Course offerings are subject to cancellation due to insufficient enrollment. Preceptorship/clinical experiences are scheduled on any day of the week based on availability of clinical sites and preceptors. Limited evening and weekend preceptorship experiences may be available. Preceptorship experiences throughout the state are also possible but not guaranteed. The office of the Associate Dean for Graduate Programs oversees student placement with preceptors, in collaboration with the Clinical Placement Coordinator and course faculty.

Late Complete Withdrawal after the Deadline

Upon proper documentation of extreme circumstances, a decision for approval of late complete withdrawals may be made by the Associate Dean for Graduate Programs. Late complete withdrawals are those requested after the deadline has passed and before the instructor has assigned a grade.

Students may not withdraw from any course after the published deadline in the online Schedule of Courses without the approval of the Associate Dean for Graduate Programs. This is granted only because of illness or conditions beyond the student’s control. The grade report would reflect a grade of W.

Student Health Services Requirements

Each student must comply with the current student health policy of the Health Sciences Center. All costs associated with the compliance are the responsibility of the student. Because of contractual Agreements with agencies and the changing needs of society, this policy is updated periodically. The current health policies are listed below. It is the responsibility of the student to maintain his/her health in order to ensure safety for other students and clients. If faculty or the agency deems that any student creates a health risk, the student may be excluded from the clinical experience and/or the program.

Note: Health policies are constantly under review by faculty based on CDC changing requirements and community expectations. Students will be notified of any policy changes, and compliance will be required.

Clinical Requirements

Before beginning the first clinical course in the DNP program, students must be in clinical compliance. Detailed information is provided at student orientations, the School of Nursing Graduate Student Handbook and is available through the School of Nursing, Office of Student Services.

Repeating Nursing Courses

DNP students who receive a grade of C+ or below in a required DNP program course at UofL must repeat the course. Students who receive more than one C+ or below in their required DNP curriculum will be dismissed from the program. Students are allowed to repeat a course on a space-available basis.

Probation and Dismissal

If the cumulative grade point average falls below 3.0, the student will be placed on academic probation for the next regular semester. If the cumulative grade point average is not raised to a minimum of 3.0 by the end of the probation semester, the student will be dismissed from the program. The dismissal will be reflected on the student’s transcript. If a student wishes to continue at the university, he/she must apply and be accepted to another unit in order to continue to enroll in classes.

Admissions Criteria

Application deadline for fall admissions is February 1, with Fall semester admissions only.

A holistic review process is used when considering applications for admission to the DNP program. The holistic review considers multiple criteria for admission, including: the applicant’s professional career goals, academic capabilities, GPA, work experience, certifications, leadership and community engagement.

To be considered for admission to the Doctor of Nursing Practice program, the following items must be submitted:

To the School of Interdisciplinary and Graduate Studies

1. Completed Graduate Admission Application including an application fee.
2. Transcripts
3. Three letters of recommendation from individuals chosen from among: former faculty, current or immediate past employer, or other nursing/health professional who can speak of academic and/or professional nursing capabilities and potential. At least one recommendation should be from a nurse. These letters should accompany the Letter of Evaluation form required by the School of Interdisciplinary and Graduate Studies.
4. Goal Statement that discusses career goals, areas of expertise, and reasons for pursuing a Doctor of Nursing Practice. Maximum of 3 pages; double spaced; 12-point font.
5. Resume including your RN license number. Include RN verification of licensure from the Board of Nursing.
6. Proof of English Proficiency. International students for whom English is not their primary language must show English language proficiency by 1) demonstration of a degree awarded from an acceptable English language institution or 2) acceptable examinations: TOEFL;
International English Language Testing System (IELTS); successful completion of the exit examination for the advanced level of the intensive English as a Second Language Program. Recommended test scores are available on the University International Student website.

**BSN-DNP applicants**: Official transcripts representing all college coursework from regionally accredited schools with a recommended cumulative undergraduate grade point average of at least 3.0 on 4.0 scale. Completion of an accredited (by NLN, CCNE or ACEN) baccalaureate program in nursing must be verified. Bachelor’s degree from a regionally accredited university is required.

**MSN-DNP applicants**: Official transcripts representing all college coursework with cumulative graduate and undergraduate grade point averages of at least 3.25 on 4.0 scale. Completion of an accredited (by NLN, CCNE or ACEN) graduate and undergraduate programs in nursing must be verified. Bachelor’s degree from a regionally accredited university is required.

Applicants who have attended a college or university outside the United States are also required to submit an evaluation of their transcript through World Education Services (WES) (http://wes.org) or Educational Credential Evaluators (ECE) (http://ece.org). Please note that transcript evaluations can sometimes take several weeks.

**To the School of Nursing, Office of Student Services**
1. Completed online Legal Questionnaire
2. A Certified Background Check
3. A personal interview may be required.

Neonatal specialty requires a minimum of one year of work experience in a Level III or Level IV NICU prior to admission. Work experience recommended prior to the first DNP clinical course in all other specialties.

Oral Biology (MS)

Master of Science in Oral Biology (OBIOMS)
Unit: School of Dentistry (http://louisville.edu/dentistry) (GD)
Program Webpage (https://louisville.edu/dentistry/degrees/oralbiology/msob)

Program Information
The School of Dentistry (http://louisville.edu/dentistry/degrees/oralbiology) offers a research-based program leading to the Master of Science degree in Oral Biology (http://louisville.edu/dentistry/degrees/oralbiology/msob). The program is directed toward an in-depth understanding of the biology of the oral cavity and processes leading to disease, including the interactions between oral and systemic health. Students obtain the scientific knowledge and biomedical skills required to perform contemporary dental research. This is a research-based degree for which each student completes a thesis project under the guidance of a faculty mentor. Research projects include basic, clinical, and translational studies.

The MS in Oral Biology offers training important to persons wishing to pursue a career in either academic or clinical dentistry or to enter the biotechnology sector or advance to a PhD. The program is available to students wishing to obtain only the MS in Oral Biology degree, as well as to students currently enrolled in the DMD degree program wishing to earn a dual degree (DMD/MS), and persons who have previously earned a DMD or MD (or equivalent) degree, including international applicants. See louisville.edu/dentistry/degrees/oralbiology .

Areas for research training include: molecular, cellular and craniofacial biology; craniomaxillofacial diagnostic imaging; neural crest-related craniofacial and cardiovascular disorders; regulation of gene transcription; oral microbiology and immunology; cellular mechanisms of salivary gland secretion; birth defects; infection control; protein glycosylation; protein expression and trafficking; periodontology; dental materials science; orthodontics; endodontics; prosthdontics; and
health services research related to dentistry. Developmental biology, oral microbiology, and innate immunology are particular strengths of the program.

A minimum of 30 credit hours is needed for the MS degree. Requirements for the degree include courses in introductory and advanced oral biology and in data analysis, participation in seminars, development of a biomedical research project, and a thesis.

Individualized programs are developed by students working with their thesis advisor and graduate committee. The graduate committee also approves proposed thesis research, reviews the thesis research, reviews the thesis for acceptance, and administers a final oral examination. Additional important information about the program is available in the Oral Biology Program Guide (http://louisville.edu/dentistry/degrees/oralbiology/msob/curriculum).

**Admission Requirements**

Information about application process is at Louisville/oralbiology/msob/admissions (http://louisville.edu/dentistry/degrees/oralbiology/msob/admissions). Application for the program is online at louisville.edu/graduate/apply/. There is a non-refundable application fee. Applications are not processed until the application fee is received and all required application materials have been received by the School of Interdisciplinary and Graduate Studies, Graduate Admissions.

Credentials listed below should be sent to the School of Interdisciplinary and Graduate Studies, Graduate Admissions, by the following admission deadlines for complete applications:

- **June 5** for Fall
- **November 1** for Spring

Applications that are not complete by the deadline may not be reviewed in time for registration.

Students currently enrolled in the DMD degree program who wish to also apply to the MS degree in Oral Biology program should meet with the Program Director or Director of Student Affairs to determine a timeline for making an application.

**Admission Credentials**

(See Oral Biology Program Guide (http://louisville.edu/dentistry/degrees/oralbiology/msob/admissions))

- Application and application fee
- Transcripts of all college coursework, including evidence of a baccalaureate degree
- Graduate Record Examination scores or acceptable scores on the DAT or National Boards Dental Exam (NBDE)
- Two letters of recommendation which document your research experience or academic ability
- A personal statement of research experience or interest in research, and your career goals
- TOEFL scores, if English is not applicant’s native language

**Program Requirements**

The **minimum** requirement for the MSOB degree is **30 semester hours**. At least one-half of the credits counting toward the degree (exclusive of thesis) must be in courses open to graduate students only (600 level or above).

**Pan-African Studies (CERT)**

**Graduate Certificate in Pan-African Studies (PAS CPA)**

Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences/intro/ (GA))

Department/Program Website: Pan-African Studies (http://louisville.edu/panafricanstudies)

**Program Information**

The Department of Pan-African Studies (PAS) fosters the multidisciplinary study of the societies and cultures of Africa and persons of African ancestry past and present, throughout the world. To this end, PAS offers an extensive program of study, including undergraduate major
and minor and, ultimately, graduate programs focusing on Africa and the Diaspora. This program of study seeks to:

1. Give students a broad understanding of the history, societies, and cultures of the African world;
2. Equip students to apply Pan-Africanist scholarship to the analysis of and engagement with contemporary social and cultural issues;
3. Engage in the interrogation of prior research and build new scholarship that reflects the perspectives and experiences of people from the African Diaspora;
4. Prepare students for the workforce or for graduate work in Pan-African Studies and/or related fields;
5. Add an inter-cultural dimension to other academic programs.

Fifteen faculty members hold full or joint appointments in the Department of Pan-African Studies with areas of specialization that include art, religion, music, communications, literature, popular culture, history, anthropology, education, sociology and political science of the African world.

As scholars, the faculty of the Department contributes to the creation of new knowledge and the development of new methodologies emerging from Pan-African experiences and formulations of meaning. The Department is committed to sharing this knowledge through teaching and research, and applying it through service in the local, state, regional, national and international communities. PAS aspires, as its ultimate goal, to become a Department of national and international distinction.

Admission Requirements

Admission to the graduate certificate in Pan-African Studies is open, potentially, to any student who has completed at a minimum baccalaureate degree. Post-baccalaureate students wishing to pursue the certificate outside the framework of a graduate degree program must apply for admission through and meet the general requirements for admission to the School of Interdisciplinary and Graduate Studies. These requirements include the submission of:

- An official transcript reflecting previous degrees earned
- At least two letters of recommendation
- Graduate Record Examination (GRE) scores of the General Test Section

If resource limitations necessitate the imposition of restrictions, the PAS Graduate Programs Committee will select students based on the following criteria: 1) undergraduate record; 2) letters of recommendation; 3) personal interview; and 4) GRE scores.

Graduate students wishing to pursue the certificate program in Pan-African Studies in conjunction with a graduate degree must meet the requirements for admission to that degree program and should then apply for the certificate program by consulting the PAS Director of Graduate Studies after admission. Depending on the structure of the degree program, coursework toward the certificate may be either additional hours beyond those required for the degree or elective hours toward the degree or a combination of the two. The PAS Director of Graduate Studies shall then inform the student’s degree program chair and work to coordinate the completion of degree and graduate certificate program requirements.

Courses must be approved for graduate credit in accordance with the policies of the Graduate School. Students may not apply 500-level courses taken for undergraduate credit.

At least 3 hours must be at the 600 level.

Coursework toward the Graduate Certificate in Pan-African Studies may also count toward the student’s graduate degree.

1 Substitutions must be approved by the Director of Graduate Studies.
2 For students pursuing graduate degrees, at least one course must be outside of the department in which the student is pursuing the degree. Substitutions must be approved by the Director of Graduate Studies.

Pan-African Studies (MA)

Master of Arts in Pan-African Studies (PAS MA)
Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)
Department: Pan-African Studies (https://louisville.edu/panafricanstudies)

Program Information

The Master of Arts in Pan-African Studies program provides an opportunity for structured graduate study in the multi-disciplinary field of Pan-African Studies. Students will have the option of choosing between two concentrations:

- African American Studies
- African Diaspora Studies

These broad concentration areas reflect sub-disciplines within the larger field of Pan-African Studies and will enable students to focus more intensively on their particular area(s) of interest. Students must
successfully complete 33 hours of graduate level courses of which 5 courses must be at the 600 level. Each student also must complete a thesis.

The Pan-African Studies Department offers courses that may be applied toward graduate degrees in other areas. Students must obtain their program advisor’s permission before enrolling in these courses. Students who are interested in more information on these courses should contact the department’s Director of Graduate Studies (DGS).

Admission Requirements
The Pan-African Studies Graduate Studies Committee only considers applications for the Fall semester. The deadline for applications is January 15.

Students applying for admission to the Master of Arts in Pan-African Studies program must meet the following standards:

• Minimum 3.00 undergraduate cumulative grade point average
• Submission of an official transcript reflecting previous degree earned
• Three letters of recommendation
• Graduate Record Examination (GRE); successful students usually have a minimum combined score of 300
• Submission of a personal statement
• Submission of a current CV
• Online Application (http://louisville.edu/graduate/apply)
• Writing Sample

Concentration Area 12

Select a concentration area:

African American Studies

PAS courses for graduate credit focusing on African Americans distributed as follows:

Histories (3 credits)
Cultural Studies (3 credits)
Social Studies (3 credits)
Any PAS area focusing on African Americans (3 credits)

OR

African and Diaspora Studies

PAS courses for graduate credit focusing on Africa and/or the Diaspora, distributed as follows:

Historical Studies (3 credits)
Cultural Studies (3 credits)
Social Studies (3 credits)
Any PAS area focusing on Africa and/or the Diaspora (3 credits)

Thesis
PAS 604 Thesis 3

Elective
Elective in Related Field (with advisor’s approval) 3

Minimum Total Hours 33

A student may be approved to transfer up to six (6) credit hours from another university or UofL graduate program or up to nine (9) credit hours from the UofL Pan-African Studies graduate certificate program. Courses must be graded B or higher, cross-listed with PAS, and taken at graduate level.

Pan-African Studies (PhD)

Doctor of Philosophy in Pan-African Studies (PAS PHD)
Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)
Department: Pan-African Studies (https://louisville.edu/panafricanstudies)

Program Information

The PhD program in Pan-African Studies trains professional researchers at the highest level in one or more of the traditional disciplines as well as focusing on two substantive areas: African American or African Diaspora Studies.

The expertise of the present core and affiliated faculty to the Department of Pan-African Studies is spread across African American and African Diaspora history, philosophy, sociology, political science, linguistics, religion, education, social work, literature, law, geography, psychology, art, music, anthropology, women’s and gender studies. This amalgam of interdisciplinary subjects makes the department a highly active research and teaching unit that is well positioned to offer a degree of Doctor of Philosophy in Pan-African Studies.

The PhD is designed to educate students with the knowledge, analytic abilities, and professional development skills important for both academic and non-academic careers. Since fall of 2012, the program has been open to all students regardless of race/ethnicity, gender, religion, sexual preference, or nationality. Graduates are employable in public and private corporations in areas of education and research, public policy, cultural heritage and public history, programs that deal with human rights and social inequality, economics and trade.

Admission Requirements
To be admitted students must have the following:

• Advanced competency in research skills, as evidenced by completion of a master’s degree thesis or other independent research project,

Based on this structure students will take at least five courses in a specific discipline at the end of the first two years. These include one in research strategy, one in intellectual approaches, two electives, and at least one course cross-listed with PAS. These courses can also be in another area study such as Women’s and Gender Studies, Latin American/Latino Studies, etc.

Students may transfer six (6) credit hours from a previously earned master’s degree toward the PhD, subject to the approval of the degree program and the Unit Dean. Students with a PAS MA degree will be allowed to transfer a maximum of 12 credit hours to the PhD. In both cases, students must petition for additional credit hours. Only courses in which the student earned grades of B or better will be considered for transfer.

1 Four (4) courses in one of two tracks: African American Studies or the African Diaspora and within a historical, social or cultural field. At least one of these must be cross-listed.

University of Louisville
Courses from this area are potential teaching/research fields. They could be cross-listed with other departments and must be discipline/subject based. For example, a PhD student interested in history of the "Slave Trade," will study this as a history class with possible specialization in the "Atlantic Slavery" or "African Slavery" or "Comparative Slavery," etc. Upon graduation, the student can compete favorably for jobs in traditional History Departments as well as Black Studies Departments.

The two elective courses could be taken outside the PAS as part of the student’s potential teaching fields.

Pharmacology and Toxicology (MS)

Master of Science in Pharmacology and Toxicology (PHTXMS)
Unit: School of Medicine (http://louisville.edu/medicine) (GM)
Department/Program Webpage (https://louisville.edu/medicine/departments/pharmacology)

Program Information

The Department of Pharmacology and Toxicology is committed to academic excellence and to the attainment of regional, national, and international recognition for the quality of its educational, research, and service activities. The Department Strategic Plan includes five broad objectives:

- Provide instruction in pharmacology and toxicology of the highest quality for the education and preparation of medical, dental, nursing, and other health care professional students. Emphasis will be placed on the fundamental principles necessary for life-long learning and the essential knowledge required for rational, effective, and safe use of drug therapy.
- Advance biomedical knowledge through active contribution to high-quality research and other scholarly activities, particularly in pharmacology and toxicology and other areas of focus within the University of Louisville Strategic Plan.
- Provide high-quality research and educational experiences in pharmacology and toxicology for the education and training of future biomedical scientists who can provide and advance biomedical knowledge for the education and training of future biomedical scientists who can provide and advance biomedical knowledge.
- Provide instruction of the highest quality in pharmacology and toxicology for the education and training of future biomedical scientists who can provide and advance biomedical knowledge, research, and service.
- Provide instruction of the highest quality in pharmacology and toxicology that is appropriate for students at the undergraduate, graduate, and postgraduate levels.
- Provide high-quality service to the School of Medicine, the Health Sciences Center, the University, the people of Louisville and the surrounding region, the Commonwealth of Kentucky, professional organizations, the nation, and the world.

Goals of the Program

The Department of Pharmacology and Toxicology is dedicated to advancing biomedical knowledge through active contribution to high-quality research in pharmacology and toxicology and to providing high-quality research and educational experiences for the education and training of future biomedical scientists who advance biomedical education, research, and service.

Admission Requirements

For the Department of Pharmacology and Toxicology, complete guidelines are given below.

Application Forms

All candidates for admission to graduate programs at the University of Louisville must complete the application form found at louisville.edu/graduate/apply/.

This may be completed online or may be submitted via mail to:

Office of Interdisciplinary and Graduate Studies
Houchens Bldg, Rm 105
University of Louisville
Louisville, KY 40292
United States of America

Applications are received at any time for starting dates of approximately August 1. All credentials and/or communications should be submitted to the Office of Interdisciplinary and Graduate Studies, Graduate Admissions and should contain the student’s full name and Social Security Number or University of Louisville issued student ID. Lack of Social Security Number may cause processing to be delayed. Applications received by January 1 are assured of full consideration for that year. Admission on a conditional basis is a possibility in rare, special cases, even though application materials are incomplete. Please contact the department (phtxapps@louisville.edu) for additional information.

Application Fee

A non-refundable application fee is required with the application form. An application will not be forwarded to the department until this fee is paid. A check or money order should be made payable to the “University of Louisville.”

Transcripts

Applicants for admission to a degree program must submit an official transcript from each college attended. All University of Louisville transcripts will automatically be submitted with completion of an application. All applications are considered on an individual basis. Normally, a successful applicant will have an undergraduate GPA of 3.00 or higher and will have successfully completed sufficient coursework in biology, chemistry and mathematics.

Test Scores

Applicants normally must take the general section of the Graduate Record Examination (GRE). There is no absolute cutoff score for acceptance. Each case is decided on the totality of its merits. At the discretion of the department, MCAT or other entrance examination scores may be accepted in place of the GRE. Information can be obtained from:

- University of Louisville Testing Center, or
- Graduate Record Examination Educational Testing Service Box 955 Princeton, NJ 08541, or
- gre.org/ (http://www.gre.org)

The GRE Advanced Test in a discipline is not required, but if available will be used in admissions and placement decisions.

NOTE: GRE Institution Code is R1838-University of Louisville. The GRE major codes are 0216 - Pharmacology or 0219 - Toxicology.

Statement of Experience and Professional Goals

At the time of application, a two to three page typed statement should be sent to introduce the student to the faculty of the Department, describing
past educational, laboratory and relevant life experiences, as well as outlining professional goals after the degree program.

This statement can be sent electronically to gradadm@louisville.edu (jcstat01@louisville.edu) or via mail to:

School of Interdisciplinary and Graduate Studies
Graduate Admissions
Houchens Bldg, Rm 105
University of Louisville
Louisville, KY 40292
United States of America

English Proficiency
All applicants for whom English is a second language must also submit official TOEFL scores of 79 or higher on the internet-based test or 550 or higher on the paper-based test for verification of English proficiency. Students holding a bachelor’s or advanced degree from an accredited institution in the United States are exempt from this requirement.

Information concerning the TOEFL exam can be obtained from: University Testing Center, or Test of English as a Foreign Language PO Box 6151 Princeton, NJ 08541 USA or toefl.org (http://www.toefl.org) The institutional code of UofL for TOEFL is 1838. The TOEFL department code is 30 (other biological sciences.)

Personal Interview
Whenever possible, a personal interview, either in person or via telephone will be held before final offer and acceptance of a position in the MS program.

Letters of Recommendation
Three letters of recommendation from persons familiar with the applicant’s research and/or academic work are required. These recommendations will ideally include a letter attached to the recommendation form (pdf form (http://graduate.louisville.edu/admissions/grad-rec.pdf)), or may be completed electronically via the online application (http://graduate.louisville.edu/apply).

International Student Applicants
In addition to satisfying the appropriate credential requirements, applicants may be required to provide the following documents.

• Applicants who attended college outside the US must submit verbatim notarized English translations of all academic records and credentials.

Financial Aid
The Department normally provides no funds for such support of master’s degree students.

Residency Policy
Residency status for students is determined in the School of Interdisciplinary and Graduate Studies, Graduate Admissions. The status is determined according to the policy on classification of students for fee assessment purposes at state-supported institutions of higher education. Except as provided in the guidelines, it is presumed that a resident has remained in the state in a non-student status for the twelve months immediately preceding the last date for enrollment in the institution.

The domicile of an unemancipated person, as defined in the guidelines, is that of his/her parent. The domicile of a married person is determined by the provisions of the guidelines independent of the residence of the spouse. Copies of the guidelines and appropriate forms for requesting change of residence classification may be obtained from the Office of Student Services.

Indiana Tuition Reciprocity
The University of Louisville is participating in an Indiana Tuition Reciprocity Program for residents of Clark, Crawford, Floyd, Harrison or Scott Counties who have been admitted directly into an approved graduate program. Eligible participants are required to notify the Admissions Office prior to their first enrollment and the Registrar’s Office after their first enrollment of any changes in residency status (e.g., if they no longer live in one of the eligible counties, or are no longer in an eligible program). The university reserves the right to further investigate and require documentation of eligibility for tuition reciprocity.

For Military Personnel
If an applicant, spouse or parent (if dependent) is currently stationed in Kentucky on military active duty for one or more years, please attach a copy of the military orders, a lease or mortgage showing Kentucky address and a military dependent identification card if appropriate. If the applicant is a Kentucky resident but has been in the military and has been recently discharged, please send a copy of the military discharge papers (DD-214).

International Students on Immigrant/ Permanent Resident Status
If currently on an immigrant/ permanent resident status, it will be necessary to submit a copy of an immigration/ permanent resident card, both sides, for review of possible residency classification for tuition purposes.

• Transcripts must be evaluated by a credential evaluation service such as World Education Services (wes.org (http://www.wes.org)) or Educational Credential Evaluators (www.ece.org (http://www.ece.org)) for admission.
• If on a Visa that requires an I-20 or IAP-66, the applicant is required to complete an Application Supplement/Financial Declaration form and submit appropriate financial documentation.

The University of Louisville reserves the right to change programs of study, academic requirements, fees, schedules of courses, the announced academic calendar and deadlines without prior notice.

Program Requirements
The Master of Science in Pharmacology and Toxicology program is a 1.5+ year course of study culminating in the presentation and defense of a master’s thesis. The master’s thesis may be based on laboratory research, a “dry” library-based research project, or a combination of the two.

The MS curriculum is designed for:

1. Individuals interested in a terminal master’s degree who do not require extensive research experience or credentials, e.g., pharmaceutical representatives, medical insurance providers, medico-legal professionals

2. Pairing with other programs to form hybrid or dual science/business or public health degrees, such as an MS/MBA or MS/MPH programs

3. Individuals interested in progressing through management ranks in Pharmacology or biotech businesses
4. The basis for a scientific writing career, when coupled with extensive scientific writing experience or electives
5. The basis for a career in biotechnology, when combined with theoretical and practical training in laboratory analysis

### Pharmacology and Toxicology (PhD)

**Doctor of Philosophy in Pharmacology and Toxicology (PHTXPHD)**

Unit: School of Medicine (http://louisville.edu/medicine) (GM)
Department/Program Webpage (https://louisville.edu/medicine/departments/pharmacology)

### Program Information

The Department of Pharmacology and Toxicology is committed to academic excellence and to the attainment of regional, national, and international recognition for the quality of its educational, research, and service activities. The Department Strategic Plan focuses accomplishment of five broad objectives:

- Providing instruction in pharmacology and toxicology of the highest quality for the education and preparation of medical, dental, nursing, and other health care professional students. Emphasis will be placed on the fundamental principles necessary for life-long learning and the essential knowledge required for rational, effective, and safe use of drug therapy.
- Advancing biomedical knowledge through active contribution to high-quality research and other scholarly activities, particularly in pharmacology and toxicology and other areas of focus within the University of Louisville 2020 Strategic Plan.
- Providing high-quality research and educational experiences in pharmacology and toxicology for the education and training of future biomedical scientists who can provide and advance biomedical education, research, and service.
- Providing instruction of the highest quality in pharmacology and toxicology that is appropriate for students at the undergraduate, graduate, and postgraduate levels.
- Providing high-quality service to the School of Medicine, the Health Sciences Center, the University, the people of Louisville and the surrounding region, the Commonwealth of Kentucky, professional organizations, the nation, and the world.

### Goals of the Program

The Department of Pharmacology and Toxicology is dedicated to advancing biomedical knowledge through active contribution to high-quality research in pharmacology and toxicology and to providing high-quality research and educational experiences for the education and training of future biomedical scientists who advance biomedical education, research, and service.

### Student Financial Support

Students accepted into the PhD program will be considered for an IPIBS graduate student fellowship. The fellowship pays an annual stipend of $25,000 in addition to payment of student tuition and health insurance. The Department also houses a NIEHS-funded T32 environmental health sciences training program (https://louisville.edu/medicine/departments/pharmacology/research/program-description) which provides stipend support for selected students.

Since all PhD students and candidates are considered to be full-time students, they generally are not permitted to seek outside employment while enrolled in the doctoral program. In cases where financial aid is limited and additional support is essential, students needing outside employment must apply in writing for departmental faculty approval. The faculty must also approve any change in employment, as well as approving continued outside employment on an annual basis.

The University of Louisville reserves the right to change programs of study, academic requirements, fees, schedules of courses, the announced academic calendar and deadlines without prior notice.

### Admission Requirements

For the Department of Pharmacology and Toxicology complete guidelines are given below:

1. Application forms. All candidates for admission to graduate programs at the University of Louisville must complete the application form found at louisville.edu/graduate/apply. This must be completed online.
Applications are received at any time for starting dates of
approximately August 1, however, for full consideration for IPIBS
fellowships, applications should be received by December 1 of the
prior calendar year. All credentials and/or communications should
be submitted to the School of Interdisciplinary and Graduate Studies,
Graduate Admissions and should contain the student's full name and
Social Security Number or University of Louisville issued student ID.
Lack of Social Security Number may cause processing to be delayed.
Admission on a conditional basis is a possibility in rare, special
cases, even though application materials are incomplete. Please contact (phlxapps@louisville.edu) the department for additional
information.

2. Application Fee. An application will not be forwarded to the
department until this fee is paid. A check or money order should be
made payable to the "University of Louisville."

3. Transcripts. Applicants for admission to a degree program must
submit an official transcript from each college attended. All University
of Louisville transcripts will automatically be submitted with
completion of an application. All applications are considered on
an individual basis. Normally, a successful applicant will have an
undergraduate GPA of 3.00 or higher and will have successfully
completed sufficient coursework in biology, chemistry and
mathematics.

4. Test Scores. Applicants normally must take the general section
of the Graduate Record Examination (GRE). There is no absolute cutoff
score for acceptance. However, competitive applicants usually score
above the 50th percentile. Each case is decided on the totality of its
merits. At the discretion of the department, MCAT or other entrance
examination scores may be accepted in place of the GRE. Information
can be obtained from:
• University of Louisville Testing Center, or
• Graduate Record Examination Educational Testing Service Box
  955 Princeton, NJ 08541, or
• www.gre.org (http://www.gre.org)
  The GRE Advanced Test in a discipline is not required, but if
available will be used in admissions and placement decisions.
Note: GRE Institution Code is R1838-University of Louisville. The
GRE major codes are 0216 - Pharmacology or 0219 - Toxicology.

5. Statement of Experience and Professional Goals. At the time of
application, a two to three page typed statement should be sent to
introduce the student to the faculty of the Department, describing
past educational, laboratory and relevant life experiences, as well as
outlining professional goals after the degree program. This statement
can be sent electronically to gradadm@louisville.edu or via mail to:

School of Interdisciplinary and Graduate Studies
Graduate Admissions
Houchens Bldg, Suite 105
University of Louisville
Louisville, KY 40292
United States of America

6. English Proficiency. All applicants for whom English is a second
language must also submit official TOEFL scores of 79 or higher on
the internet-based test or 550 or higher on the paper-based test for
verification of English proficiency. Students holding a bachelor's or
advanced degree from an accredited institution in the United States
are exempt from this requirement. Information concerning the TOEFL
exam can be obtained from: University Testing Center, or Test of
English as a Foreign Language PO Box 6151 Princeton, NJ 08541 USA
or toefl.org (http://www.toefl.org) The institutional code of UofL for
TOEFL is 1838. The TOEFL department code is 30 (other biological
sciences.)

7. Personal Interview. Whenever possible, a personal interview, either in
person or via telephone will be held before final offer and acceptance of
a position in the PhD program.

8. Letters of Recommendation. Three (3) letters of recommendation
from persons familiar with the applicant's research and/or academic
work are required. These recommendations will ideally include a
letter attached to the recommendation form or may be completed
electronically via the online application (http://louisville.edu/
graduate/apply).

9. International Student Applicants. In addition to satisfying the
appropriate credential requirements, applicants may be required to
provide the following documents.
• Applicants who attended college outside the US must submit
  verbatim notarized English translations of all academic records
  and credentials.
• Transcripts must be evaluated by a credential evaluation
  service such as World Education Services (wes.org (http://
  www.wes.org)) or Educational Credential Evaluators (ece.org
  (http://www.ece.org)) for admission.
• If on a Visa that requires an I-20 or IAP-66, the applicant is
  required to complete an Application Supplement/Financial
  Declaration form (louisville.edu/internationalcenter/isss/current-
  f1-j1-students/forms-and-documents) and submit appropriate
  financial documentation.

10. Financial Aid. All applicants to the PhD program of the Department
of Pharmacology and Toxicology are automatically considered
for financial aid upon admission. Typically, such aid consists of a
stipend, tuition remission, and a health insurance benefit.

11. Residency Policy. Residency status for students is determined by
the School of Interdisciplinary and Graduate Studies, Graduate
Admissions. The status is determined according to the policy on
classification of students for fee assessment purposes at state-
supported institutions of higher education. Except as provided in the
guidelines, it is presumed that a resident has remained in the state in
a non-student status for the twelve months immediately preceding
the last date for enrollment in the institution.

The domicile of an unmarried person, as defined in the guidelines,
is that of his/her parent. The domicile of a married person is determined
by the provisions of the guidelines independent of the residence of the
spouse. Copies of the guidelines and appropriate forms for requesting
a change of residence classification may be obtained from the Office of
Student Services.

Indiana Tuition Reciprocity
The University of Louisville is participating in an Indiana Tuition
Reciprocity Program for residents of Clark, Floyd, Harrison or Scott Counties who have been admitted directly into an approved
graduate program. Eligible participants are required to notify the
Admissions Office prior to their first enrollment and the Registrar's Office
after their first enrollment of any changes in residency status. [e.g. if they
no longer live in one of the eligible counties, or are no longer in an eligible
program.] The University reserves the right to further investigate and
require documentation of eligibility for tuition reciprocity.

For Military Personnel
If an applicant, spouse or parent (if dependent) is currently stationed in
Kentucky on military active duty for one or more years, please attach
a copy of the military orders, a lease or mortgage showing Kentucky
address and a military dependent identification card if appropriate. If the applicant is a Kentucky resident but has been in the military and has been recently discharged, please send a copy of the military discharge papers (DD-214).

International Students on Immigrant/ Permanent Resident Status
If currently on an immigrant/ permanent resident status, it will be necessary to submit a copy of an immigration/ permanent resident card, both sides, for review of possible residency classification for tuition purposes.

</table>
Specific requirements for the MS degree in Physics are as follows:

**Program Requirements**

- Mathematics course work through differential equations. (MATH 405 or equivalent).
- Submission of the (general) Graduate Record Examination scores.

For general information concerning admission to the graduate programs at the University of Louisville consult the application directions at louisville.edu/graduate/apply.

**Program Admission Procedure**

Admission into the Physics MS program is competitive. The application procedure is as follows:

- Submit a completed graduate application to the University of Louisville School of Interdisciplinary and Graduate Studies, Graduate Admissions together with the required application fee. Applications may be submitted online at louisville.edu/graduate/apply. Admitted students are most commonly accepted to begin their program of studies in the Fall semester (which starts in late August). However, programs beginning in the Spring semester (which begins in early January) can be arranged. There is no formal application deadline, but to ensure full consideration for Fall entry applications should be received no later than February 1.

- Official transcripts from each university or college attended must be submitted to the School of Interdisciplinary and Graduate Studies, Graduate Admissions.

- Take the general section of the Graduate Record Examination and arrange for the official score to be sent to the School of Interdisciplinary and Graduate Studies, Graduate Admissions.

- Arrange for at least two letters of recommendation to be sent to the School of Interdisciplinary and Graduate Studies, Graduate Admissions. These letters should be written by persons familiar with the applicant's academic work. Please use the recommendation form found at louisville.edu/graduate/apply or complete the relevant section in the online application so that your letter writers will receive an email request to submit their recommendation electronically.

- All applicants, whose native language is not English, are required to achieve a TOEFL score greater than 79 on the internet-based test. Students holding a bachelor's degree from an accredited institution in the United States are exempt from this requirement.

In individual cases, the department may recommend conditional admission of a student who does not satisfactorily meet the above requirements. If admission is granted, that student will be subject to those conditions specified by the Department of Physics and Astronomy, the College of Arts and Sciences and the School of Interdisciplinary and Graduate Studies as being necessary to remedy the conditional admission.

**Thesis Option**

Specific requirements for the MS degree in Physics are as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 605</td>
<td>Theoretical Mechanics</td>
<td>3</td>
</tr>
<tr>

<tr>
<td>PHYS 555</td>
<td>Elementary Quantum Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 498</td>
<td>Undergraduate Research</td>
<td>3</td>
</tr>
</tbody>
</table>

Minimum Total Hours: 32

Graduate requirements for the five-year BS/MS program are identical to the standard MS program (thesis and non-thesis option) except that the physics electives must include PHYS 542 and PHYS 556.
Physics (PhD)

Doctor of Philosophy in Physics (PHYSPHD)
Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences/intro) (GA)
Department/Program: Physics (http://www.physics.louisville.edu)

Program Information
Mission Statement
The Doctor of Philosophy degree in Physics will prepare students for research-oriented careers in government, industry, and academia.

General Information
The PhD is typically a five-year degree program available to qualified individuals possessing a bachelor's degree in Physics from an accredited college or university. Students with a bachelor's degree in other related subjects—e.g. Mathematics, Chemistry and Engineering—also will be considered.

The first two years of the program are very similar to the non-thesis MS program. Under normal circumstances, PhD students will meet the requirements for the MS degree after two years of study. The remaining three years will be dedicated primarily to research leading to the required dissertation.

Graduate Assistantships
For the first two years of the program, qualified students will be considered for Graduate Teaching Assistantships (GTAs). As part of the educational experience, GTAs perform certain undergraduate teaching responsibilities in exchange for a stipend and full tuition remission. In most cases, support for the remaining three years of study is via Graduate Research Assistantships (GRAs) provided by extramural faculty research funding.

Admission Requirements
Departmental requirements for admission are as follows:

- A baccalaureate degree with at least 24 credit hours in Physics, or the equivalent.
- A minimum quality-point standing of 3.0 (base 4.0) in physics courses.
- Mathematics coursework through differential equations. (MATH 405 or equivalent).
- Submission of the (general) Graduate Record Examination (general) scores. The Physics subject GRE is preferred, but not required.

For general information concerning admission to graduate programs at the University of Louisville consult the application directions at louisville.edu/graduate/apply.

Program Admission Procedure
Admission into the Physics PhD program is competitive. The application procedure is as follows:

- Submit a completed graduate application to the University of Louisville, School of Interdisciplinary and Graduate Studies, Graduate Admissions together with the relevant application fee. Applications may be submitted online at louisville.edu/graduate/apply. Admitted students are most commonly accepted to begin their program of studies in the Fall semester (which starts in late August). However, programs beginning in the Spring semester (which begins in early January) can be arranged.

There is no formal application deadline, but to ensure full consideration for Fall entry applications should be received no later than February 1.

- Official transcripts from each university or college attended must be submitted to the School of Interdisciplinary and Graduate Studies, Graduate Admissions.
- Take the general section of the Graduate Record Examination and arrange for the official score to be sent to the School of Interdisciplinary and Graduate Studies, Graduate Admissions (the Physics subject GRE is recommended, but not required).
- Arrange for at least two letters of recommendation to be sent to the School of Interdisciplinary and Graduate Studies, Graduate Admissions. Persons familiar with the applicant’s academic work should write these letters. Please use the recommendation form found at louisville.edu/graduate/apply or complete the relevant section in the online application so that your letter writers will receive an email request to submit their recommendation electronically.

- All applicants whose native language is not English are required to achieve a TOEFL score greater than 79 on the internet-based test. Students holding a bachelor’s degree from an accredited institution in the United States are exempt from this requirement.

In individual cases, the department may recommend conditional admission of a student who does not satisfactorily meet the above requirements. If admission is granted, that student will be subject to those conditions specified by the Department of Physics and Astronomy, the College of Arts and Sciences and the School of Interdisciplinary and Graduate Studies as being necessary to remedy the conditional admission.

Program Requirements
General requirements for the PhD degree are set forth in the Degree Requirements (p. 804) section of the graduate catalog. Specific requirements for the PhD degree in physics are as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>

</tbody>
</table>

Electives 1 9
Dissertation 6
PHYS 699 Research

Minimum Total Hours 36

1 Each student is required to take nine (9) credit hours of elective courses. Courses outside the department are acceptable if approved by the student’s thesis advisor and the department Graduate Program Director.
Qualifying Examination
In order to demonstrate proficiency in knowledge of Physics and the ability to apply that knowledge, students will be required to pass a qualifying exam. The qualifying exam will have a written and oral component.

Written Component
To satisfy the written component, the student will take a written exam composed of members of the faculty of the department. The exam will cover basic and intermediate problems in the areas of mechanics, electricity and magnetism, quantum mechanics, thermal physics, and special topics in contemporary physics. It will be administered twice yearly with advance notice, typically in September and January. Students are required to pass all areas of the exam. For full-time students, this must normally be achieved by the end of their fourth semester and in all cases by the end of their sixth semester. Special arrangements may be made for part-time students. A total of four attempts at the exam will be permitted. Once a subject area part of the exam is passed, that part does not need to be retaken. Under certain circumstances, in order to confirm their familiarity with a particular subject, a student may be extended the opportunity to take an oral examination in that subject.

Oral Component
To satisfy the oral component the student must pass an oral exam, in the form of a presentation to the PhD committee of his or her proposed research. The student is expected to take the exam before the end of their sixth semester as a graduate student. The test may be taken at most two times and must be passed by the end of the sixth semester.

Candidacy
Having passed both parts of the qualifying examination the student will register for degree candidacy and continue with their dissertation research.

Dissertation
A doctoral dissertation is required of each student.

Physiology (MS)

Master of Science in Physiology and Biophysics (PHZBMS)
Unit: School of Medicine (http://louisville.edu/medicine) (GM)
Department/Program Webpage (https://louisville.edu/medschool/physiology)

Program Information

General Procedures and Requirements for the Degree of Master of Science in the Department of Physiology

Program Overview and Objectives
The Department of Physiology is located in the Health Sciences Center of the University of Louisville which provides our graduate students with an active and intellectually stimulating environment. Our Graduate Program offers a Master of Science degree to provide several career options:

1. To develop competence in directed research for advanced technical positions in industry, government, and university medical research laboratories;
2. To prepare students with a good general knowledge of human physiology to enable them to communicate physiological concepts to future students; and
3. To explore the possibility of a future career as an independent scientist in medically-related research.
4. To enhance student credentials for admission to and performance in professional health care programs.

Minimal Requirements for the Master’s Degree
The typical Master of Science (MS) Graduate Program includes a directed research emphasis and consists of thirty (30) credit hours typically over a twelve-month period (3 semesters) to include the following: 18 credit hours of basic medical sciences coursework and at least 12 credit hours of electives.

Advisor Selection
The Director of Graduate Studies will meet with the new student to discuss the academic and research interests. The Director of Graduate Studies will serve as a Temporary Advisor until a Permanent Advisor is selected.

During the first semester of their graduate study, beginning graduate students will visit research laboratories in which they have an interest. First-year students must select a principal advisor. The selection process involves approval by the student, the Principal Advisor, the Director of Graduate Studies, and the Department Chair.

Admission Requirements
The University of Louisville graduate catalog gives a general description of admission procedures. Application information can be found on the School of Interdisciplinary and Graduate Studies website (louisville.edu/graduate/apply). The following application items must be submitted to the School of Interdisciplinary and Graduate Studies, Graduate Admissions at the University of Louisville:

1. One official transcript of the applicant’s previous work for each college or university that has been previously attended
2. Two letters of recommendation from people who are well acquainted with the applicant’s previous academic work.
3. Applicants must forward scores from the Analytical, Verbal and Quantitative portions of the Graduate Record Examination (GRE). Satisfactory MCAT, DAT, OAT or similar test scores may also be accepted in lieu of the GRE.
4. TOEFL Examination scores for foreign students from non-English speaking countries.
5. A non-refundable application fee to the University of Louisville.

Applicants must state in a letter to the Department but submitted to the School of Interdisciplinary and Graduate Studies (referred to as the Personal Statement in the application materials), why they desire a MS degree in this Department of Physiology.

Successful applicants generally demonstrate the following:

1. A cumulative undergraduate grade point average that is usually 2.80 or higher on a scale of 4.00 (A=4, B=3, etc.)
2. A Graduate Record Examination Score which usually averages at the 40th percentile or higher in the verbal, quantitative and analytical sections. Satisfactory MCAT scores will also be accepted in lieu of the GRE.

In the case of a foreign applicant from a non-English speaking country, the applicant must achieve a TOEFL Examination score >85 on the internet exam.
Procedures for Determining Admissions

Two committees will control student admission into the Department Graduate Programs: The Graduate Program Executive Committee (GPEC) and the Graduate Admission Committee (GAC). The GPEC will recommend students to be interviewed based upon a dossier of information obtained from the School of Interdisciplinary and Graduate Studies, Graduate Admissions. The GAC will conduct student interviews and vote on admission as representatives of the entire faculty of the Department.

Structure of Admission Committees
The GPEC will consist of the Director of Graduate Admissions, the Director of Graduate Studies, and one other Departmental faculty member, all of whom are appointed by the Departmental Chair for staggered five-year terms.

The GAC will be composed of three tenured or tenure-track Department faculty members and members of GPEC, for a total membership of six. The full-time faculty of the Department will elect the three faculty representatives to GAC for staggered three-year terms.

Functions of the Admission Committees
The GPEC evaluates all requests for admission into the Program. The Director of Admissions will create a dossier of information on applicants that complete the application process. This dossier will be derived from PeopleSoft and OnBase databases. A completed applicant dossier (i.e., all application material) will be submitted to GPEC for evaluation. The GPEC will determine if an applicant should be voted on by the entire admissions committee, interviewed prior to determination of a vote, or not eligible for the program.

Student admission will require a simple majority recommendation from GAC. The recommendation of GAC is forwarded to the Director of Graduate Admissions. Completion of the admission process is accomplished by submission of a Referral Form to SIGS and delivery of the GPEC Report and complete dossier on admitted students to the Departmental Office. The Referral Form will initiate an acceptance or denial letter to the student. The GPEC Report and the complete dossier becomes the Department File on the admitted student and are transferred to the Director of Graduate Studies.

When an applicant is accepted into the Department Graduate Program, the Department Chair will send a letter of acceptance. The prospective student will be required to provide a letter indicating their acceptance of admission to the Department Graduate Program.

Program Requirements
At least 30 credit hours beyond the Baccalaureate Degree are required for the degree of Master of Science. A maximum of 6 credit hours may be credited from post-baccalaureate work in other professional or graduate degree programs.

Minimum Course Requirements
The typical MS program must include the following courses taken on a grade basis:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHZB 605</td>
<td>Systemic Physiology I</td>
<td>10</td>
</tr>
<tr>
<td>PHZB 606 &amp; PHZB 607</td>
<td>Systemic Physiology II</td>
<td></td>
</tr>
<tr>
<td>BIOC 645</td>
<td>Advanced Biochemistry I</td>
<td>4</td>
</tr>
<tr>
<td>BIOC 647</td>
<td>Advanced Biochemistry II</td>
<td>4</td>
</tr>
</tbody>
</table>

Electives
All electives must be graduate levels courses.

Electives may include but are not limited to:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHZB 625</td>
<td>Experimental Physiology Methods</td>
<td>1</td>

</table>

Other Potential Graduate Elective Course Areas:

- Communications
- Sociology
- Psychology
- Biostatistics
- Public Health
- Pharmacology
- Oral Biology

Physiology (PhD)

Doctor of Philosophy in Physiology and Biophysics (PHZBPHD)
Unit: School of Medicine (http://louisville.edu/medicine) (GM)
Department/Program Webpage (https://louisville.edu/medicine/ departments/physiology)

Program Information
Program Overview and Objectives
The Department of Physiology is located in the Health Sciences Center of the University of Louisville, which provides an active and intellectually stimulating environment and a wide variety of course options. The graduate program permits studies in related disciplines, such as anatomy,
Admission to the PhD program in the Department of Physiology requires:

- A genuine interest in graduate work and the desire for a significant independent research career in the health sciences
- A cumulative undergraduate grade point average that is usually 3.00 or higher on a scale of 4.00
- A graduate record exam score (or equivalent) which is usually 50th percentile or higher as an average of the verbal, quantitative, and analytical sections; verbal + quantitative combined score above 1000 is required for admission to School of Medicine graduate programs
- International students for whom English is not their primary language must show English language proficiency by demonstration of proficiency on the TOEFL examination (defined as 213 or higher on the computer-based test; >85 on the internet exam) or by successfully completing the exit examination for the advanced level of the Intensive English as a Second Language Program at the University of Louisville or by demonstration of a degree award from an acceptable English language institution

Admission Procedures

The Department attempts to hold a personal interview with all qualified applicants. Typically, this interview will be with two to four Department faculty members. If the applicant cannot come for an interview, then consideration of the application without the interview or, in some cases, a telephone interview will be conducted.

Two committees will control student admission into the Department Graduate Programs: The Graduate Program Executive Committee (GPEC) and the Graduate Admission Committee (GAC). The GPEC will recommend students to be interviewed based upon a dossier of information obtained from the Admission Office of the School of Interdisciplinary and Graduate Studies (SIGS). The GAC will conduct the personal interview with the student and recommend students to be interviewed based upon a dossier of information obtained from the Admission Office of the School of Interdisciplinary and Graduate Studies (SIGS). The GAC will conduct
student interviews and vote on admission as representatives of the entire faculty of the Department

Structure of Admission Committees
The GPEC will consist of the Director of Graduate Admissions, the Director of Graduate Studies, and one other Departmental faculty member, all of whom are appointed by the Department Chair for staggered five-year terms.

The GAC will be composed of three tenured or tenure-track Department faculty members and members of GPEC, for a total membership of six. The full-time faculty of the Department will elect the three faculty representatives to GAC for staggered three-year terms.

Functions of the Admission Committees
The GPEC evaluates all requests for admission into the Program. The Director of Admissions will create a dossier of information on applicants that complete the application process. This dossier will be derived from PeopleSoft and OnBase databases. A completed applicant dossier (i.e., all application material indicated above) will be submitted to GPEC for evaluation. The GPEC will determine if the student’s qualifications warrant a Departmental interview. If a simple majority of GPEC support further consideration of the applicant, interviews will be arranged by the Director of Graduate Admissions. The applicant will be interviewed by:

• At least one member of the GPEC
• The Department Chair or the Chair’s designated representative
• Two to three members of the GAC.

If the applicant cannot come for an interview, then consideration of the application will proceed without the interview, or in some cases, by telephone interview.

The Director of Graduate Admissions will create a summary of the applicant’s academic background and interview results (i.e., the GPEC Report). This document and the complete dossier will serve as a basis for admission or denial. The GAC considers the GPEC Report and complete dossier and votes on the admissibility of each applicant. Student admission will require a simple majority recommendation from GAC. The recommendation of GAC is forwarded to the Director of Graduate Admissions. Completion of the admission process is accomplished by submission of a Referral Form to SIGS and delivery of the GPEC Report and a complete dossier on admitted students to the Departmental Office. The Referral Form will initiate an acceptance or denial letter to the student. The GPEC Report and the complete dossier becomes the Department File on the admitted student and are transferred to the Director of Graduate Studies.

When an applicant is accepted into the Department Graduate Program, The Department Chair will send a letter of acceptance. The prospective student must provide a letter indicating their acceptance of admission to the Department Graduate Program. The Department will submit credentials to the Graduate Affairs for approval by the Associate Dean of Graduate and Postdoctoral Studies.

Program Requirements
Minimum Course Requirements
The University of Louisville PhD degree does not require a specific number of hours of academic credit. However, the Department requires that a minimum of two consecutive semesters (9 credit hours in the Fall or Spring semesters and/or 6 credit hours in the Summer) to be taken to fulfill the full time one-year doctoral residency requirement at the University of Louisville. With the approval of the Dean of the School of Medicine (or his/her designee), a maximum of 12 credit hours of this requirement may be credited for post-baccalaureate work from other professional or graduate degree programs.

By the end of the Program, the student also must demonstrate the ability to conduct independent research.

The required program of academic studies must include (if not completed with a grade of B or better prior to admission to the Department) the following courses:

Minimum Total Hours: 32

A student must have at least a 3.00 accumulated GPA (on a 4.0 scale) in order to take the PhD Qualifying Examination and to qualify for the PhD degree. In general, a student with a GPA of less than 3.00 after two consecutive semesters (excluding summer sessions) will require a two-thirds majority vote of the Departmental faculty to continue in the PhD Program. The student must not have received more than 6 credit hours of a grade of C in required courses.

For Departmental purposes, passing grades in pass/fail graded courses will not be included in the GPA calculation; however, a failing grade in a pass/fail graded course will be included in the GPA calculation at zero quality points per credit hour. Students will not be allowed to graduate with failing grades on their transcript.

Minimum Requirements for the Doctor of Philosophy Degree in Physiology and Biophysics
The PhD degree is designed for the student who wishes a professional life that involves original, independent research and who desires knowledge that will permit competent advanced teaching in a physiology area. The PhD degree requires that the student reach a high level of creativity and expertise. Therefore, mere completion of a prescribed number of courses is not adequate for receipt of the doctoral degree. All PhD students are expected to make steady and satisfactory progress toward the completion of the degree.

To document the satisfactory progress of the PhD students, each Advisory Committee must hold at least two mandatory, semi-annual meetings and report on the student’s progress (presentations,
The PhD Qualifying Examination

Before the PhD Qualifying Examination may be taken, the student must have completed the Minimum Course Requirements listed above with a GPA of at least a 3.0. It would normally be expected that the student would take the PhD Qualifying Examination by the end of five semesters of graduate studies. If the student has not taken the PhD Qualifying Examination by the end of the second year, a letter of justification for the delay must be submitted by the Principal Advisor to the Department Chair.

A PhD Qualifying Examination must be passed by the applicant in order to be admitted to PhD candidacy. The Qualifying Examination Committee will be comprised of members of the student’s Advisory Committee. The membership must be approved by the Director of Graduate Studies and the Department Chair. A passing recommendation shall not involve more than one negative vote of this Committee. If the student does not pass the Qualifying Examination, one additional retake will be allowed if approved by a majority vote of the Departmental faculty.

The purpose of the PhD Qualifying Examination is to test the student's independent use and depth of core physiology through its application to the student proposed research. This examination shall consist of a written research proposal outlining the dissertation research and an oral examination of the student’s depth of current understanding of the basic physiological concepts underlying the proposed research. The student will receive the Master of Science Degree in Physiology and Biophysics, upon satisfactory completion of the Qualifying Exam.

Maintenance of Graduate Status

A candidate for the PhD degree who has completed all residency requirements, all of the approved required program of academic studies, and passed the Qualifying Examination may register for DOCT 600 Doctoral Candidacy to maintain doctoral candidacy until the degree is awarded. Continuous registration in this status is required. Semiannual progress meetings will continue to be expected. To complete the PhD degree, the student must continue to make satisfactory progress during the candidacy period. In order to be eligible to receive the PhD degree, the student must have been admitted to candidacy and registered for doctoral candidacy for the two consecutive semesters prior to the awarding of the degree.

Dissertation

The dissertation shall represent a scholarly achievement which embodies results of independent research and which demonstrates a thorough understanding of research concepts in the field of inquiry. The completed dissertation must be in the appropriate format as required by the School of Interdisciplinary and Graduate Studies and must be approved by a Dissertation Reading Committee (the Candidate’s Advisory Committee). Then, at least two weeks before the scheduled dissertation defense and at least 30 days before the expected date of graduation, the dissertation shall be submitted to the Dissertation Defense Committee. The Dissertation Defense Committee, selected by the Principal Advisor, must have been approved previously by the Director of Graduate Studies, the Department Chair, and by the Dean of School of Medicine (or his designee) (see section IIC). The accepted dissertation, must be submitted electronically, one signed signature page signed by the Dissertation Defense Committee, must be deposited with the School of Interdisciplinary and Graduate Studies by the published deadline (louisville.edu/graduate/current-students/thesis-dissertation-information) and one copy must be given to the Department Chair before graduation. The copy for the Department Chair may be electronic.

Dissertation Defense

The dissertation defense is an oral defense of the dissertation and a demonstration of mastery of the candidate's research field. The defense is administered by the Dissertation Defense Committee. The defense of the dissertation is a public examination and the School of Interdisciplinary and Graduate Studies will notify all faculty members that they are invited to the Dissertation Defense, but only members of the Dissertation Defense Committee will vote on the student’s performance. For the student to pass the Dissertation Defense, the vote of the Dissertation Defense Committee may not include more than one negative vote. The Dissertation Defense must take place at least 14 days before the end of the semester in which the degree is anticipated.

The Department will not approve the granting of the PhD degree until the student has submitted at least one first-authored manuscript on the dissertation research and one co-authored manuscript for publication in a refereed journal. The manuscript and the choice of a journal must be approved by the Principal Advisor before manuscript submission.

In any case, where the Departmental requirements are less restrictive than those described in the School of Medicine Minimal Guidelines for Graduate Education, the School of Medicine guidelines will apply.

Exceptions

1. The above are statements of minimum Departmental requirements. However, it is recognized that there could be special and unusual cases in which rare exceptions should be allowed. The student and advisor should consult with the Department Chair if an exception is desired.

2. In the above guidelines, the Director of Graduate Studies has considerable responsibility for program quality. To avoid any possibility of a potential conflict of interest, the Department Chair (or designee) will fulfill the role of Director of Graduate Studies for any PhD or MS student who has the Director of Graduate Studies as their Principal Advisor.

Dissertation Defense: If more research/dissertation time is needed, the clinician will continue to register as DOCT 600 until completed, and dissertation defended.

**Police Executive Leadership Development (CERT)**

Graduate Certificate in Police Executive Leadership Development (CPELCPL)

Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences/intro) (GA)

Department: Criminal Justice (http://louisville.edu/justice)

Program Webpage (https://louisville.edu/spi)

**Program Information**

The Southern Police Institute is a division of the Department of Criminal Justice (https://louisville.edu/justice), College of Arts and Sciences (http://louisville.edu/artsandsciences), University of Louisville. It is an advanced education and training institute whose mission is to enhance the professional development of law enforcement practitioners. We accomplish this mission by providing educational and career development programs that are designed to challenge and to prepare law enforcement practitioners for the demands of today and tomorrow. The Southern Police Institute consistently is ranked among the top law enforcement educational and training schools in the nation.

Since the creation of the Southern Police Institute in 1951, its program of instruction has been grounded in the belief that law enforcement is a demanding activity requiring the highest level of professional preparation. The Southern Police Institute was established by its founders to provide a place where that preparation can be undertaken. The present faculty
and staff dedicate themselves to this mission and continue to maintain the standards of excellence established by our founders. They are uniquely qualified as researchers, consultants, teachers, and former law enforcement practitioners to guide and to direct the educational needs of today’s law enforcement professionals.

**Admission Requirements**

Applicants must meet the standards for conditional admission to the Master of Science in Criminal Justice, including an earned bachelor’s degree and appropriate letters of recommendation. They must also achieve a qualifying score on the Southern Police Institute’s admission examination and be recommended by the Chief Executive Officer of their supporting agency. Applications are reviewed for eligibility by the Southern Police Institute’s faculty who are members of the University’s Graduate Faculty and the Department of Criminal Justice.

The curriculum of the Administrative Officers Course (AOC) of the Southern Police Institute may be taken only by students regularly enrolled in the Institute.

**Program Requirements**

The curriculum of the Administrative Officers Course (AOC) of the Southern Police Institute may be taken only by students regularly enrolled in the Institute.

Minimum Total Hours 12

The Southern Police Institute offers (two) twelve-week courses annually.

**Political Science (MA)**

The MA is designed to allow a student to pursue a degree either full or part time. Most graduate-level courses are offered in the evening. The MA is oriented toward those who wish to pursue advanced training in political science or a position in the public, private, or non-profit sector.

**Accelerated BA-BS/MA**

The Department of Political Science also offers its undergraduate majors an opportunity to earn both a BA (or BS) degree and an MA degree at an accelerated pace. This program allows students to complete one semester (9 credit hours) of graduate coursework while enrolled as undergraduate students. Typically, students finish their MA degrees within three semesters of completing their undergraduate degrees.

Applicants must meet the general requirements for admission to the School of Interdisciplinary and Graduate Studies and must submit an application to the Department of Political Science. Applicants should have an undergraduate major or minor in social science or have sufficient alternative preparation in the social sciences.

**Joint MA/JD Program**

The Department of Political Science offers a joint MA/JD program in partnership with the Brandeis School of Law. This program allows the student to obtain the MA and JD degrees in a four-year course of study. For additional information, see the law school website (http://louisville.edu/law/academics/degree-programs/dual-degree-programs).

**Admission Requirements**

Admission into the MA program is competitive. The procedures for admission into the MA program are as follows:

1. Submit a completed graduate application and application fee to the School of Interdisciplinary and Graduate Studies, Graduate Admissions. Application for admission must be made by July 15 for the Fall semester and November 15 for the Spring semester.
2. Forward official transcripts verifying the receipt of a baccalaureate degree from an accredited institution to the School of Interdisciplinary and Graduate Studies, Graduate Admissions. An applicant must hold a BA or BS (or foreign equivalent) before admission to the program can be granted. Applicants selected for the program have generally earned a 3.0 undergraduate GPA overall or a 3.2 undergraduate GPA in the last 60 credit hours or the equivalent.
3. Send scores from the Graduate Records Examination (GRE) to the School of Interdisciplinary and Graduate Studies, Graduate Admissions. The GRE is designed to measure general aptitude for graduate study. Successful applicants selected for the program generally present a Verbal score of at least 153, a Quantitative score of at least 144, and an Analytical score of at least 4.0.
4. Provide two letters of recommendation from individuals familiar with the applicant’s academic performance. Professional letters from employers are acceptable only when a substantial time has elapsed since the applicant has attended an academic institution.
5. A written personal statement is required. This statement should detail the applicant’s educational and professional experiences and goals and relate these goals to the pursuit of graduate study in political science at the University of Louisville. The statement should be approximately 400-500 words in length.
6. International applicants are required to take the TOEFL examination if English is not the native language. Applicants who have not scored 550 or higher on the TOEFL may choose to apply to the
Students are encouraged to take advantage of the unique strengths of the Department of Political Science when planning their course of study. In particular, the Department enjoys strong complements of faculty in three areas: International Studies, American Politics, and Digital Politics.

The International Studies field includes the comparative study of various regions and nations throughout the world as well as the study of relations among nations and other global actors. Areas of faculty expertise include the politics of Africa, Latin America, the Middle East, East Asia, Europe, and the former Soviet Union, development, political economy, revolution, leadership, environment, civil-military relations, foreign policy, defense and security, international organizations, and international law.

The American Politics field includes the study of the American governmental institutions that formulate public policy and the study of the administration of public policy. Areas of faculty expertise include the presidency, Congress, the judiciary, federalism, public administration, public law, the electoral process, social policy, housing policy, urban policy, environmental policy, and economic development policy.

The Digital Politics field focuses on the intersection of information technology and politics and includes an applied component, providing students with training and experiences useful to their career pursuits. Areas of study include e-government initiatives, social media advocacy and narrative strategies for non-profit organizations, and online political campaigns.

Students may select from one of three options for their graduate studies: 1) the general MA in Political Science (thesis), 2) the general MA in Political Science (non-thesis), or 3) the MA in Political Science with a concentration in Digital Politics (non-thesis). The curriculum for these options is described below.

**Minimum Total Hours** 36

^ New course offerings in Digital Politics will first be offered under the POLS 507 designation before formal applications for new courses are submitted. Students may take POLS 507 more than once as long as the topic is different with each offering.

² Must be at the 600 level. Up to 3 credit hours may be independent study credit.

Intensive English as a Second Language (IESL) Program. Successful completion of this program or passing the Exit Examination in the advanced level of IESL will be considered adequate proof of the English proficiency required for course work in the MA program.

The Department may accept applicants who do not meet these requirements on a conditional basis if sufficient additional evidence of promise of success in the graduate program can be shown. No student will be admitted unconditionally until all materials listed above have been received.

You may apply to the School of Interdisciplinary and Graduate Studies, Graduate Admissions online at louisville.edu/graduate/apply.
Psychology - Clinical (PhD)

Doctor of Philosophy in Psychology - Clinical (CPSYPHD)
Unit: College of Arts and Sciences (http://louisville.edu/artsandsciences/intro) (GA)
Program Webpage (http://louisville.edu/psychology/graduate/clinical)

Program Information

Mission Statement
The mission of the Clinical Psychology Doctoral Program at the University of Louisville is to produce scientist-practitioners who are:
• Competent to conduct and evaluate research;
• Competent in implementing research-supported practice;
• Ethical and professional in their relationships with clients, students, and colleagues; and
• Prepared to be professionals in a diverse world.

General Information
The Department of Psychological and Brain Sciences, in the College of Arts and Sciences, offers PhD programs in Experimental Psychology and Clinical Psychology. We do not offer any terminal master's degree programs in our department.

The Clinical Psychology PhD program usually requires four years of full-time coursework, research, and clinical activities. Each student must also complete a one-year approved internship. Students are required to complete a Master’s Research Portfolio. After completion of the Master’s Portfolio, students write the preliminary examination and then move on to dissertation work. A dissertation proposal must be defended before a student may apply for an internship.

Financial support for graduate students in the PhD program is available in the form of teaching and research assistantships, University Fellowships, and placements in community service settings.

Accreditation
The Clinical Psychology PhD program is fully accredited by the American Psychological Association, Office of Program Consultation and Accreditation:

Office of Program Consultation and Accreditation
750 First Street, NE
Washington, DC 20002-4242
Phone: (202) 336-5979
Fax: (202) 336-5978

Admission Requirements
The Clinical Psychology PhD Program application deadline is December 1.

Completed graduate application should be submitted to the University of Louisville, School of Interdisciplinary and Graduate Studies, Graduate Admissions (online at louisville.edu/graduate/apply) or call the School of Interdisciplinary and Graduate Studies, Graduate Admissions at (502) 852-3101 for more information.

Our PhD programs admit students to begin in the fall semester, with a usual start date of July 1. Applicants must provide the following:

1. The Graduate Record Examination (GRE) General Test. Those for whom English is not their native language must also submit TOEFL scores.
2. Transcripts of college records from all schools attended must be submitted to the School of Interdisciplinary and Graduate Studies, Graduate Admissions. Students must have earned an undergraduate degree from an accredited college or university.
3. Three letters of recommendation from academic sources are required and must be submitted to the School of Interdisciplinary and Graduate Studies, Graduate Admissions.

Application materials are available online, louisville.edu/psychology/doctorate. For additional information, contact Maggie Leahy, (502) 852-4364.

The Clinical Psychology PhD curriculum contains 2 basic sets of core courses: department/general core and clinical core. The curriculum closely follows guidelines for accreditation established and maintained by the American Psychological Association’s Office of Program Consultation and Accreditation (http://www.apa.org/ed/accreditation).

Research Training
Students in our program get extensive training in research. From their first day of the program to the last, students are actively involved in research. A student's specific graduate training experience will depend in part on whom the student chooses as a graduate mentor and the student's specialized area of interest. Faculty mentors for the Experimental Psychology program are listed on the graduate program website (http://louisville.edu/psychology/graduate/experimental). Areas of specialized training are:

- Cognition
- Development
- Visual and Auditory Sciences
- Neuroscience

Curriculum
Our curriculum is designed to be flexible and meet the needs of individual students in our program. Students in our program take classes in two of four core areas of psychology (selected by student and mentor), two statistics courses (required of all students in our program), and five electives or specialized seminars on special topics (selected by student and mentor). Additionally, first-year students attend a proseminar on Research Methods in the fall semester, in which Experimental Psychology faculty teaches students about the research methods used in their labs. Students also develop their own presentation skills in a weekly Brown Bag seminar held in both the fall and spring semesters. Finally, students in our program complete a Master's Research Portfolio (typically right after the 2nd year), a Preliminary Exam (typically in their 3rd year), and a Dissertation.

Professional Development
Professional development is an important piece of our program. Graduate students in our program are highly encouraged to publish, present their research, attend research conferences, and gain teaching experience either as a GTA or instructor of record. They are also encouraged to take advantage of the Graduate Schools' PLAN workshops, academies, and resources (http://louisville.edu/graduate/plan), which are designed to help graduate students develop their professional skills. Their programs are geared toward students who want to develop their teaching, grant writing, publishing, community engagement, and entrepreneurial skills, just to name a few.

The department offers an intellectually enriching environment with a departmental Colloquium Series (http://louisville.edu/psychology/research/colloquium-series), the Experimental Psychology Brown Bag (http://louisville.edu/psychology/graduate/experimental/brown-bag-series), and the Clinical Psychology Colloquium and Professional Development Series. The department also hosts the Grawemeyer Award in Psychology (http://louisville.edu/psychology/about/copy_of_grawemeyer-award), a large monetary award given annually to a psychologist with a creative, influential idea in psychology.

Financial Support
Financial support for graduate students in the Experimental Psychology PhD program is available in the form of research assistantships, teaching assistantships, and University Fellowships. Most forms of support are for 12 months and include a stipend ($22,000 per year), full tuition, and health insurance.
Admission Requirements

We take a holistic approach to reviewing prospective student applications. Applicants who are admitted to our program typically possess the following qualifications, but they are not required:

- Undergraduate GPAs of 3.0 or higher
- GRE Verbal and Quantitative scores in the 50th percentile or higher
- Strong letters of recommendation that speak to the applicant’s scholarly ability and potential to succeed in a doctoral program
- A match between the applicant’s and faculty mentor’s research interests
- A psychology or neuroscience major

All applicants will be considered without discrimination on the basis of differences in age, ethnic or racial background, gender, physical abilities, sexual orientation or preference, or social background. Our program values diversity and has accepted applicants that vary on the above characteristics.

For more information, please visit our program’s Application Instructions (http://louisville.edu/psychology/graduate/experimental/apply) page.

Minimum Total Hours: 60

1. Students who take more than two of the Program Core courses listed above may count the additional core courses as electives.
2. In this weekly 50-minute proseminar, faculty will rotate giving presentations on the research methods used in their labs and research areas.
3. The weekly 50-minute Brown Bag provides a forum for students and faculty to present completed or ongoing research.
4. Students are required to register for PSYC 605 Independent Study (Research) with the student’s graduate research mentor every semester until the Preliminary Examination is successfully completed.
5. Upon passing the preliminary examination, students must maintain continuous enrollment at UofL until receiving their degree in one of two ways:
   1. Enrolling in classes and/or PSYC 701 (Dissertation Research), or
   2. Enrolling in DOCT 600 Doctoral Candidacy.

Master of Science in Experimental Psychology

Students are required to earn a Master of Science in Experimental Psychology. To earn the MS degree, with an approval of the student’s mentor, the student will prepare a portfolio of written work featuring research efforts and training primarily undertaken as a graduate student in the program at the University of Louisville. The portfolio should demonstrate scope and quality of research commensurate with the degree. The portfolio is typically completed in or after the summer of the 2nd year and must be approved by the student’s Master’s Portfolio Committee.

After approval of the MS portfolio and completion of 45 credit hours of graduate study, including the Statistics and Program Core, the student is awarded the Master of Science degree.

Preliminary Examination

The Preliminary Examination consists of an original written review and critique of a research area. The Preliminary Examination will be evaluated based on the breadth of knowledge, integration of literature, critical thinking, and quality of scientific writing. Students will plan the preliminary examination in collaboration with their mentors and Preliminary Examination Committees. The Preliminary Examination is typically completed by the end of the third year of training.

Dissertation

An original research project conducted and described in a report (the doctoral dissertation) by the student. The dissertation is conducted in consultation with a faculty committee and must be approved by the committee.

Public Administration (MPA)

Master of Public Administration (PADMMPA)

Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)
Department: Urban and Public Administration (https://louisville.edu/upa)
Program Webpage (https://louisville.edu/upa/programs/mpa)

Program Information

General Information

The Master of Public Administration Program at the University of Louisville is central to the University’s urban/metropolitan mission. The academic curriculum provides students with a solid foundation in public and nonprofit administration and prepares graduates for placement and advancement in public, private and nonprofit sector careers. The MPA faculty also advances knowledge in the field of public administration through their theoretical and applied research. The MPA is
fully accredited by the National Association of Schools of Public Affairs and Administration.

The MPA requires 42 credit hours for completion. A student can enroll on either a part-time or full-time basis. Classes are offered in formats and at times that accommodate students who work full time. Traditional classes are offered Monday through Thursday, one evening a week, from 5:30 until 8:15 PM. Hybrid-distance courses have fewer classroom meetings. Some courses are offered entirely online.

The program includes faculty from various disciplines and is aimed at providing recent college graduates, public sector practitioners, and persons in related fields with a mix of theoretical knowledge and applied skills. The degree program is available to qualified individuals holding a bachelor’s degree from an accredited college or university. No specific undergraduate major is required; however, coursework in economics and political science at the undergraduate level is helpful.

MUP/MA Programs
The Master in Public Administration Program offers joint degree programs with the Master in Urban Planning and the Master of Arts in Art (Creative) and Art History (Concentration in Critical and Curatorial Studies). For more information about the two dual programs please go to the program webpage (https://louisville.edu/upa/programs/mpa/mpa-ma).

Admission Requirements
The procedures for admission to the MPA program are as follows:

1. Submit a completed graduate application to the University of Louisville, School of Interdisciplinary and Graduate Studies, Graduate Admissions (louisville.edu/graduate/apply). Program candidates may be admitted for fall, spring or summer semesters.

2. Official transcripts verifying the receipt of a baccalaureate degree from an accredited institution must be submitted to the School of Interdisciplinary and Graduate Studies, Graduate Admissions.

3. The Graduate Record Exam (GRE) is required. An admission decision will not be made without the GRE scores. See web www.gre.org (http://www.gre.org) for further information about the GRE or call (800) GRE-CALL, (800) 473-2255.

4. A written personal statement is required. The statement should indicate why the applicant wishes to pursue the MPA degree.

5. Two letters of recommendation are required. Normally, at least one letter should be from someone who can comment on the applicant’s academic performance.

6. International applicants are required to take the TOEFL examination if English is not their native language. Applicants who have not scored 550 or higher on the TOEFL (210 or higher on the computer-based version) may choose to apply to the Intensive English as a Second Language (IESL) Program. Successful completion of this program or passing the Exit Examination in the advanced level of IESL will constitute proof of English proficiency.

Program Requirements
The MPA requires 42 credit hours for completion: a core curriculum of 24 credit hours, including 6 credit hours of practicum internship or thesis; 12 credit hours from one of the THREE concentration areas; and 6 credit hours of electives.

#### MPA Concentrations
Students can choose one of three concentrations offered in the Program. A total of 12 credit hours is required for each concentration. Students may select among the recommended courses listed under each concentration. Students may substitute a course not listed with permission from the Director.

Minimum Total Hours 12

MPA students may choose 6 credit hours of elective credits from among all PADM (Public Administration) or PLAN (Planning) courses.

One of the elective courses must be denoted as a methods course. For a list of all electives and identification of those courses that count as a methods course, consult the Student Guide available at the MPA home page: louisville.edu/upa/programs/mpa.
Concentrations are offered in each of the following areas of public health. Each concentration is designed to develop the competencies needed by a public health worker in the corresponding area. The learning objectives for courses offered in each concentration are mapped to these targeted foundational CEPH competencies and the MPH Foundational Competencies published by the Council on Education for Public Health (CEPH 2016). The MPH program has adopted the foundational competencies that are relevant to the specific competencies developed for that concentration.

The learning objectives for each course in the MPH curriculum are mapped to the specific competencies developed for that concentration. If a candidate's primary language is not English, one of the following is required:

- Recommended minimum GPA of 3.0 on a 4.0 scale
- Passing an advanced level Intensive English as a Second Language program
- Degree from an accredited U.S. institution (requires provisional admission with evaluation of English language competency and

### Public Health (MPH)

**Master of Public Health (PH MPH)**

Unit: School of Public Health and Information Sciences (https://louisville.edu/sphis) (GH)

Program Webpage (http://catalog.louisville.edu/graduate/programs-study/master-public-health/louisville.edu/sphis/academics/mph-program)

**Program Information**

**Introduction**

The Master of Public Health (MPH) degree program is designed to graduate students with skills in the core competencies in public health and additional competencies in one of the following concentrations: biostatistics, environmental and occupational health, epidemiology, population health management, health policy, health promotion and behavior, or global public health.

Graduates of the MPH program are prepared for positions in the public health workforce, in health-related industries, and in academic organizations and for further professional or academic education.

**Competencies**

The MPH program has adopted the foundational competencies published by the Council on Education for Public Health (CEPH 2016 MPH Foundational Competencies (https://storage.googleapis.com/media.ceph.org/wp_assets/2016.Criteria.pdf)) and each MPH concentration has developed concentration-specific competencies.

The learning objectives for each course in the MPH curriculum are mapped to these targeted foundational CEPH competencies and the learning objectives for courses offered in each concentration are mapped to the specific competencies developed for that concentration.

**Concentrations**

Concentrations are offered in each of the following areas of public health. Each concentration is designed to develop the competencies needed by a public health worker in the corresponding area.

Students are encouraged to declare their concentration at the time of application, though applications from students that do not declare a concentration are also accepted. For students declaring concentrations, the faculty in each concentration reviews applicants for acceptance. Applications from students that do not declare a concentration are reviewed for acceptance by the MPH Program Director.

Requirements for declaring concentrations in the MPH program after matriculation are:

- Undeclared students will need to identify to a concentration prior to November 15 of their first semester.
- The student must be in good standing in the MPH program.
- Any undeclared student will first meet with the department chair or director of the concentration prior to declaring that concentration to determine if there are any additional criteria for admission to that concentration.

**Accreditation**

The School of Public Health and Information Sciences is accredited by the Council on Education for Public Health (CEPH). For more information, see the School's accreditation webpage (http://louisville.edu/sphis/accreditation).

**Admission Requirements**

The ideal candidate for admission to the MPH program has received the equivalent of a bachelor’s degree or higher, can comprehend and communicate effectively in English, has the recommendations of at least three persons in a health-related or advanced education field, has performed satisfactorily on one or more standardized test, and is interested in pursuing a career in public health or a related field.

The requirements for admission to the MPH program are:

- Bachelor's degree from an accredited institution or its equivalent
- Recommended minimum GPA of 3.0 on a 4.0 scale
- If a candidate's primary language is not English, one of the following:
  - Test of English as a Foreign Language (TOEFL) exam with a minimum score of 90 (after conversion for test type)
  - Passing an advanced level Intensive English as a Second Language program.
- Degree from an accredited U.S. institution (requires provisional admission with evaluation of English language competency and

potential requirement to pass an advanced level Intensive English as a Second Language program)

Applicants must apply through the Centralized Application Service for Public Health (SOPHAS) at SOPHAS.org (http://WWW.SOPHAS.org).

Students graduating from the University of Louisville and planning to attend the MPH program can apply directly to the School of Public Health and Information Sciences.

An application is considered after the following requirements have been received:

• Three letters of recommendation written within the last twelve months.
• Official transcripts of all degrees.
• One-page personal statement written by the applicant that is a clear, substantive description of his or her goals in public health, noting any professional or research experience.
• Official score from any of the following standardized tests: GRE*, MCAT, DAT, GMAT, or LSAT.
• International applicants: Foreign credential evaluation of all degrees from non-U.S. institutions. Please contact the MPH program prior to completing this requirement.
• Students applying with a concentration in Health Policy must be interviewed by the HMSS Health Leadership Committee.

* The GRE requirement may be waived for applicants to the MPH Program who have four or more years of public health-related experience. Each department determines what constitutes such experience for their discipline. Applicants interested in applying for a GRE waiver should contact the relevant department.

For information on the application process, please contact:

MPH Program
School of Public Health and Information Sciences
University of Louisville
485 East Gray Street
Louisville, KY 40202
sphismph@louisville.edu
Phone: (502) 852-3289
Fax: (502) 852-3294

Faculty Advisor
On matriculation, each student is assigned a faculty advisor and is requested to meet at least twice each semester with his or her advisor. If a student is admitted to a specific concentration that Department will assign a specific faculty advisor. If students are admitted to the Global Health MPH or as undeclared, the MPH program director will serve as their advisor. Undeclared students admitted to a specific concentration by the end of the first semester will be assigned a faculty advisor from the Department that houses that concentration. For Global Health students, a faculty advisor from the Global Health faculty will be assigned by the end of the first semester.

The faculty advisor serves as academic practicum advisor, academic mentor, and counselor on career and employment opportunities, professional development, and opportunities beyond graduate school.

Program Requirements
The MPH curriculum consists of core courses, concentration courses in one of the areas of public health, completion of a practicum experience, and completion of an integrating experience. The core courses are generally completed prior to taking concentration courses, the integration experience, and the practicum.

Full-time students are expected to complete the program and graduate in two years. Part-time students are required to complete the program and graduate within six years.

Coursework
42-48 total credit hours:

• 15 credit hours of core courses
• 3 credit hours of practicum experience
• 3 credit hours of integrating experience
• 21-27 credit hours of concentration coursework

Students must successfully complete core, concentration, practicum, and integrating experience coursework with a minimum GPA of 3.0.

### Epidemiology Concentration

Students concentrating in the MPH Epidemiology Program will be required to fulfill a minimum of 48 credit hours including the following:

15 credit hours of MPH core coursework
3 credit hours of Practicum
3 credit hours of Integrating Experience
24 credit hours of required courses in Epidemiology
3 credit hours (maximum) of either a) an epidemiology selective or b) an independent study (i.e., PHEP 666)²

### Global Public Health Concentration - Maternal and Child Health Emphasis

48 total credit hours, made up of the following:

15 credit hours of MPH core coursework
15 credit hours of Global MPH concentration courses
3 credit hours of practicum experience

² PHEP 666 Masters Independent Study in Epidemiology and Population Health may be taken as an optional course for MPH Epi-concentration students who wish to supplement their learning experience via independent research with a faculty member. Enrollment is limited to 3 credit hours for an MPH student.

*Availability subject to coordination with Global Health Concentration. Non-epidemiology courses also may be selected pending program and instructor permissions; all courses offered by SPHIS are pre-approved by the program, with the exception of those required for the MS or PhD in Epidemiology (PHEP 618, PHEP 621, PHEP 622, PHEP 623, PHEP 648, PHEP 649, PHEP 701, PHEP 702, PHEP 750, PHEP 778) for which both program and instructor permission will be required for enrollment.
Health Policy Concentration

48 total hours, made up of the following:

- 15 credit hours of MPH core coursework
- 3 credit hours of Practicum
- 3 credit hours of Integrating Experience
- 27 credit hours of required courses in Health Policy

Course Title Hours

*Other elective can be any SPHIS course for which the student meets the prerequisites or other another relevant course approved by the student’s academic advisor.

Public Health Sciences: Specialization in Environmental Health (PhD)

Doctor of Philosophy in Public Health Sciences specialization in Environmental Health (PHSCPHDENV)
Unit: School of Public Health and Information Sciences (http://louisville.edu/sphis) (GH)
Department: Environmental and Occupational Health Sciences (http://louisville.edu/sphis/departments/environmental-occupational-health-sciences)
Program Webpage (https://louisville.edu/sphis/academics)

Program Information
The specialization in Environmental Health for the PhD in Public Health Sciences is designed to provide scholars with the tools to conduct in-depth research and provide advanced instruction in the discipline of environmental health at the college and university level. It also prepares researchers for governmental, private, and voluntary organizations involved in environmental protection and the prevention of disease and injury. In addition to understanding advanced concepts of environmental health, industrial hygiene, and toxicology, graduates of this specialization are expected to develop skills that enable them to identify and define questions of environmental and occupational health importance, design research studies to address these questions, and to complete a program of research that demonstrates abilities as an independent investigator.

Competencies
To graduate, a student in the Specialization in Environmental Health PhD program must demonstrate the following competencies*:

<table>
<thead>
<tr>
<th>Competency</th>
<th>CE</th>
<th>SCP</th>
<th>Dsrt</th>
</tr>
</thead>
<tbody>
<tr>
<td>In depth knowledge of the history of environmental health</td>
<td>Passing qualifying examination</td>
<td>Successful completion and defense of dissertation</td>
<td></td>
</tr>
<tr>
<td>Mastery of experimental study designs and the ability to identify optimal designs for specific hypotheses.</td>
<td>Successful development, conduct, completion and defense of the dissertation</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Ability to critically evaluate published environmental health research.</td>
<td>Successful development, conduct, completion and defense of the dissertation</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Expertise in one or more environmental health specialty such as risk assessment, environmental management, environmental and occupational toxicology

Practical knowledge of issues in research management including: 1) Formation and leadership of multidisciplinary teams. 2) Staffing, budgeting, tracking. 3) Subject recruitment and retention. 4) Data quality control and data safety management. 5) Funding mechanisms and grantsmanship. 6) Research ethics and regulations.

Professional quality peer-review, oral and poster presentation, report, grant, and manuscript writing

*Key for demonstration (method):
CE = Comprehensive examinations
SCP = Statistical consulting practicum
Dsrt = Dissertation

Faculty Advisor
Upon admission to the PhD specialization, each student is assigned a faculty advisor who works with the student to develop a program of study. The program of study recognizes core elements of environmental health as well as its breadth and multidisciplinary nature. At the PhD level, this requires the selection of courses directly relevant to environmental health, such as biostatistics, epidemiology, molecular genetics, behavioral science, health policy/management, systems sciences, or other relevant areas of study.
Program of Study

Each doctoral student, in consultation with his or her academic advisor and the department chair, plans a program of study that uniquely fits the student’s career goals. The design of a doctoral program of study that reflects each student’s professional skills and research interest is the primary organizing principle of the proposed program.

The PhD specialization in environmental health is designed as a 39-credit hour program plus dissertation. Additional hours may be needed for completion of the specialization program.

Admission Requirements

An applicant who has satisfactorily completed an appropriate degree with a concentration in environmental health or an advanced degree (MD, DVM, PhD and DO) may be eligible for admission to the PhD in Public Health Environmental Health Specialization pending evaluation of appropriate training, experience, or coursework. The previous graduate work by such an applicant is reviewed on a case-by-case basis, and the applicant, if admitted, may be required to take additional coursework prior to completing the minimum 39 credit hours required for post-master’s doctoral work.

The following are additionally required for admission:

- Undergraduate and Graduate GPA>3.0 on 4.0 scale
- GRE test scores. May be waived if applicant has a doctoral degree from an accredited U.S. institution.
- If applicable, Test of English as a Foreign Language (TOEFL) score>60th percentile

Program Requirements

The PhD specialization in Environmental Health is designed as a 39-credit hour program plus dissertation. Additional hours may be needed for completion of the specialization program.

The emphasis in doctoral training goes beyond accumulating course credit. Completion of the coursework is the prelude to sitting for the qualifying examination. Successful passage of the qualifying examination allows the student to enter doctoral candidacy. A doctoral candidate must then successfully develop and defend a dissertation proposal that describes an original and independent research project. Upon successful defense of the proposal, a student may then proceed to dissertation research. Upon successful completion of the research, defense of the dissertation, and demonstration of the required competencies, a student is awarded the PhD degree.

</tbody>
</table>

Electives

As a part of the approved program of study, a student has the option to select 12 credit hours of elective coursework. Courses directly relevant to environmental health are preferred, including, but not limited to, biostatistics, bioinformatics, epidemiology, medical geography, molecular or population genetics, toxicology, microbiology, health services research, outcomes research, and health promotion and behavior. Courses may be selected from those offered within the School of Public Health and Information Sciences, other departments within the university, or from sources outside the university with permission and acceptance of credit by the program and dean.

Because the need for specific research methods and statistics skills varies by research topic, requirements in these areas are difficult to define explicitly for all students. The student’s program of study utilizes electives to provide the student with the courses needed in his or her particular case.

A student may petition to take courses not on this list with the approval of the instructor and the chair of the department. The student must provide a written rationale for the choices of elective coursework in his or her program of study.

Qualifying Examination
Upon completion of the majority of the required coursework for the PhD (typically after the second year of coursework), the student is eligible to sit for the doctoral qualifying examination. The timing and eligibility for the qualifying examination is determined by the student's faculty advisor and department chair. Students must take the exam within three months of the completion of all courses for the PhD program. A student who does not successfully complete the exam may be required to take additional or remedial coursework. The student is allowed one opportunity to retake the exam no more than six months after the initial exam and at a date mutually agreed upon by the faculty and student. Successful completion of the examination admits the student to doctoral candidacy (DOCT 600) until the completion of their dissertation.

Dissertation
A dissertation is required of a candidate for the degree of Doctor of Philosophy in Public Health Sciences with a Specialization in Environmental Health. It is to be a scholarly achievement in research and should demonstrate a thorough understanding of research techniques in environmental health and the ability to conduct independent research. The dissertation must follow the guidelines of the School of Interdisciplinary and Graduate Studies located at louisville.edu/graduate/current-students/thesis-dissertation-information.

Dissertation Committee
The dissertation shall be reviewed by a reading committee, chaired by the student's faculty advisor, and appointed by the dean upon the advice of the chair of the department. If faculty advisor is from an allied department, the EOHS department chair will co-chair the committee. This committee shall consist of a minimum of four members, and must include one representative of an allied department or school. The dissertation must be approved by the committee and the chair of the department.

Dissertation Proposal
A student who successfully completes the qualifying exam must submit a written dissertation proposal to all members of the dissertation committee. The student is then orally examined on the dissertation proposal.

Dissertation Preparation
The dissertation is to be prepared in format and binding according to the guidelines established by the School of Interdisciplinary and Graduate Studies, available at louisville.edu/graduate/current-students/thesis-dissertation-information.

Dissertation Approval
The dissertation is to be submitted in completed form to the chair of the department at least thirty days before the end of the term in which the candidate expects to be graduated. The candidate is not eligible for final examination until the dissertation has been accepted by the committee and chair. The dissertation committee schedules an oral defense by the candidate and notifies the School of Interdisciplinary and Graduate Studies using the form available at louisville.edu/graduate/current-students/thesis-dissertation-information. The time and place for the defense is published by the School of Interdisciplinary and Graduate Studies to the general academic community, members of which are free to attend the defense. The dissertation is approved by a majority vote of the committee and the concurrence of the department chair.

Dissertation Submission
The following steps must be taken to submit the final copy of the dissertation electronically after oral defense and approval of the committee:

1. Final document must be converted to a PDF (following the guidelines as noted above) and sent to the School of Interdisciplinary and Graduate Studies and the department's administrative assistant.
2. Submit as advised by the School of Interdisciplinary and Graduate Studies through the ThinkIR repository. The directions on submission will be provided upon review of the dissertation by the School of Interdisciplinary and Graduate Studies.
3. The signature page within the electronic version must have the names of your committee members typed under the signature line; the signatures cannot be scanned into the document.
4. Submit a signed signature page on white paper, with original signatures, to the School of Interdisciplinary and Graduate Studies.

Public Health Sciences: Specialization in Epidemiology (PhD)
Doctor of Philosophy in Public Health Sciences specialization in Epidemiology (PHSCPHDEPI)
Unit: School of Public Health and Information Sciences (http://louisville.edu/sphis) (GH)
Department: Epidemiology and Population Health (http://louisville.edu/sphis/departments/epidemiology-population-health)
Program Webpage (https://louisville.edu/sphis/academics)

Program Information

The specialization in Epidemiology in the PhD program in Public Health Sciences is designed to develop academic researchers in population-based epidemiology.

Competencies

To graduate, students in the PhD specialization in Epidemiology must demonstrate the following competencies in addition to those for the MS degree:

- In-depth knowledge of the history and philosophy of epidemiology
- Mastery of experimental and observational study designs and the ability to identify optimal designs for specific hypotheses
- Ability to develop and apply:
  - Questionnaires
  - Biomarkers for health status, exposure, and susceptibility
- Mastery of multivariable analytic methods for evaluating risk and prognosis
- Ability to critically evaluate the published epidemiologic research
- Expertise in one or more epidemiologic specialties such as nutritional, molecular, clinical, genetic, cancer, or chronic disease epidemiology
- Practical knowledge of issues in research management including:
  - Formation and leadership of multidisciplinary teams
  - Staffing, budgeting, tracking
  - Subject recruitment and retention
  - Data quality control and data safety management
  - Funding mechanisms and grantsmanship
  - Research ethics and regulations
  - Professional quality peer-review, oral and poster presentation, report, grant, and manuscript writing
  - Mentoring of junior peers
  - Development, conduct, completion and defense of a dissertation on an original research project

Competencies are demonstrated by passage of the proficiency and candidacy examinations, by successful mentoring of master's students or doctoral students not yet in candidacy, and by successful completion and defense of the dissertation.

Faculty Advisor

Upon admission to the specialization, each student is assigned a faculty advisor who works with the student to develop a program of study.

Program of Study

The program of study recognizes core elements of modern epidemiology as well as its breadth and multidisciplinary nature. This requires the selection of a minor field of specialization, such as biostatistics, environmental science, molecular genetics, behavioral science, health management and systems sciences, clinical research, or another relevant area of study, and the completion of at least six (6) credit hours of coursework in this field.

Admission Requirements

Students who have satisfactorily completed the MS degree in Epidemiology are eligible for the PhD specialization in Epidemiology. Students with a master's degree in a related discipline or an advanced degree (for example, MD, PhD, DO) may be accepted also pending evaluation of appropriate training, experience, and coursework. Previous coursework in mathematics and/or statistics and biological or health sciences (for example, biology, biochemistry, anatomy, physiology, microbiology) is strongly recommended.

Students completing the MSc in Clinical Investigation Sciences or MPH with an Epidemiology specialization may be required to complete additional coursework to be accepted into the Epidemiology PhD specialization.

In order to submit an application to one of the School of Public Health and Information Sciences (SPHIS) degree programs, you must apply to the School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply).

Program Requirements

The PhD specialization in Epidemiology is designed to consist of 49 to 50 credit hours of coursework over a minimum of two years plus one to four years for completion of the dissertation. The coursework is organized into two blocks of 25/26 and 24 credit hours. Completion of the first block of coursework is prerequisite for sitting for the proficiency examination. After passing the proficiency examination, the student can proceed with the second block of coursework. Successful completion of the second block is prerequisite to sitting for the candidacy examination.

After passing the candidacy examination, the student is admitted to doctoral candidacy. A doctoral candidate must then successfully develop and defend a dissertation proposal that describes an original and independent research project. Upon successful defense of the proposal, the student may then proceed to dissertation research. Upon successful completion of the research, oral defense of the dissertation, and demonstration of the required competencies listed above, the student is awarded the PhD degree.

The coursework outlined below represents an ideal sequence for a full-time student. A part-time student may need to deviate from this sequence. As part of the first block, a student is expected to complete required courses in basic and advanced epidemiologic methods that cover core areas including study design, research management, and statistical analysis; the survey course in disease biology and pathophysiology; and a minimum of six (6) credit hours of epidemiology seminars. The student must pass the proficiency examination before proceeding to minor electives and individual studies in the second block, which must include an additional three (3) credit hours of epidemiology seminars. Exceptions may be granted upon approval by the student's advisor and the department chair.

Minor Elective Requirement

As a part of the approved program of study, the student is required to complete 6 credit hours of coursework in a minor field of specialization. Areas directly relevant to the science of epidemiology are preferred, including, but not limited to, biostatistics, bioinformatics, medical geography, molecular or population genetics, environmental health, toxicology, microbiology, health management, health promotion and behavioral science, and clinical research. These courses may be selected from ones offered within the school, other departments within the university, or from sources outside the university with permission and acceptance of credit by the school and university.

Minor courses should be chosen by the student in consultation with his or her advisor and the respective course directors. Students may petition to take courses not on this list with approval of the instructor, program director, and the chair of the Department of Epidemiology and Population Health. The student must provide a written rationale for the choice of minor coursework in the program of study. The following is a partial list of approved minor courses. Some courses may have prerequisites, and the student is expected to either meet these or obtain permission from the instructor before registering.

Students who have completed the MS degree and have been accepted to the PhD program will advance to Block 2 of the PhD curriculum upon matriculation.

1 Epidemiology Content Course electives consist of courses specialized in either an exposure or disease category and offerings will vary from semester to semester based upon faculty workloads and student programs of study.

2 A minimum of 25 credit hours of coursework is required before taking the Proficiency Exam.

3 Biostatistics electives for PhD students should be restricted to advanced courses such as Categorical Data Analysis, Survival Analysis, Longitudinal Data Analysis, Bioinformatics, etc.

4 A minimum of 49 credit hours of coursework is required before taking the Candidacy Exam.
epidemiologic methods; specialized knowledge pertaining to the minor field of specialization; disease biology and pathophysiology, which may be tailored to the student’s special area of interest; and knowledge of the research process. Successful passage of the candidacy examination admits the student to doctoral candidacy. A student who does not successfully pass the candidacy examination may be required to take additional or remedial coursework and is allowed a second opportunity to pass the exam. Failing the candidacy examination the second time results in dismissal from the program.

**Dissertation**

A dissertation is required of every candidate for the degree of Doctor of Philosophy in Public Health Sciences with a specialization in Epidemiology. The dissertation is a scholarly achievement in research and presents an original contribution to knowledge. It should demonstrate a thorough understanding of research techniques in epidemiology and the ability to conduct independent research. The following sections summarize the basic requirements for the dissertation committee, dissertation proposal, and defense. Additional details are available in the department's document "Student Advising, Thesis and Dissertation Committees."

**Dissertation Committee**

The dissertation is read by a dissertation committee, chaired by the student’s faculty advisor and appointed by the Dean of the school on the recommendation of the program director and chair of the department. The committee consists of at least four members and must include one representative of an allied department. The dissertation must be approved by the committee and the chair of the department.

**Dissertation Proposal**

After successful completion of the qualifying examination, a doctoral candidate must submit a written dissertation proposal to the members of the dissertation committee. The candidate is then orally examined on the dissertation proposal.

**Dissertation Preparation**

The dissertation is prepared with the format and binding according to the guidelines of the School of Interdisciplinary and Graduate Studies, available at louisville.edu/graduate/current-students/thesis-dissertation-information.

**Dissertation Approval**

The dissertation is submitted in completed form to the chair of the department at least thirty days before the end of the term in which the candidate expects to be graduated, and the candidate is not eligible for final examination until the dissertation has been received by the committee and chair.

The dissertation committee schedules an oral defense by the candidate. The time and place for the defense is published to the general academic community, members of which are free to attend the defense. The dissertation is approved by a majority vote of the committee and the concurrence of the department chair.

**Dissertation Submission**

The following steps must be taken to submit the final copy of the dissertation electronically after oral defense and approval of the committee:

1. Final document must be converted to a PDF (following the guidelines as noted above) and sent to the School of Interdisciplinary and Graduate Studies and the department's administrative assistant.

2. Submit as advised by the School of Interdisciplinary and Graduate Studies through the ThinkIR repository. The directions on submission will be provided upon review of the dissertation by the School of Interdisciplinary and Graduate Studies.

3. The signature page within the electronic version must have the names of your committee members typed under the signature line; the signatures cannot be scanned into the document.

4. Submit a signed signature page on white paper, with original signatures, to the School of Interdisciplinary and Graduate Studies.

A copy of the final, signed dissertation must also be deposited with the department office.

**Public Health Sciences: Specialization in Health Management and Policy (PhD)**

**Doctor of Philosophy in Public Health Sciences specialization in Health Management and Policy (PHSCPHDHMP)**

Unit: School of Public Health and Information Sciences (http://louisville.edu/sphis) (GH)

Department: Health Management and Systems Sciences (http://louisville.edu/sphis/departments/health-management-systems-sciences) (HMSS)

Program Webpage (https://louisville.edu/sphis/academics)

**Program Information**

The specialization in Public Health Management and Policy is designed to prepare graduates for careers as researchers and teachers involved in the efforts to protect and promote the health and well-being of communities and populations. It provides graduates with the knowledge and skills necessary to attain academic positions involving scholarly research and instruction in the disciplines of public health management and key policy and management positions in governmental as well as private and voluntary organizations. In addition to an in-depth understanding of the infrastructure and context of Public Health Management and Policy, graduates of this specialization are expected to be able to identify issues and questions of importance with regard to the management of the resources of public health and to design and carry out a program of research designed to address these issues and questions. Graduates should be able to demonstrate abilities as an independent investigator as well as a team collaborator.

**Competencies**

To graduate, a student in the PhD specialization in Public Health Management and Policy must demonstrate the following competencies:

1. In-depth knowledge of the history of public health, health management, and health services research.

2. Mastery of experimental research study designs, including qualitative as well as quantitative, and the ability to identify optimal designs for specific hypotheses.

3. Ability to critically evaluate published research related to health management and health services research.

4. Expertise in one or more health services research specialties such as health policy, organization theory, long-term care policy, health economics, etc.

5. Practical knowledge of issues in research management including:
The minimum required documentation for full admission must include:

48 credit hours required for post-master's doctoral work. 
Required to take additional coursework prior to completing the minimum 
reviewed on a case-by-case basis, and the applicant, if admitted, may be 
evaluated on the basis of appropriateness of previous coursework, 
policy specialization. Applicants already holding an advanced degree 
(U.S. institution or has obtained an Educational Commission for 
Foreign Medical Graduates (ECFMG) certificate. 
Three (3) letters of recommendation from individuals who have 
direct knowledge and experience with the applicant’s academic or 
professional work experience. 
Official TOEFL score if applicant's native language is not English and 
applicant has no degree from accredited U.S. institution. 
Foreign credential evaluation for each degree not from an accredited 
U.S. institution 
Admission interviews by the PhD Committee are required and are in 
addition to your application for admission. An interview provides the 
PhD Committee an additional source of information and perspective 
about your potential fit for the University of Louisville. 
The following are recommended criteria for admission:

- Undergraduate and graduate GPA each ≥ 3.0 on 4.0 scale 
- GRE performance recommended in 50th percentile or above for verbal 
  and quantitative scores (Comparable scores on the MCAT or DAT are 
  considered.) 
- If applicable, Test of English as a Foreign Language (TOEFL) score in 
  60th percentile or above

Program Requirements
Forty-eight (48) total credit hours: 30 credit hours of required 
coursework, 3 credit hours of public health management seminars, and 
15 credit hours within an emphasis area. Some required or emphasis 
area courses may require additional credit hours in prerequisite courses 
not already taken by the student. The specific coursework for a student 
is established with the student’s individualized program of study. The 
design of a doctoral program of study that reflects each student’s 
professional skills and research interest is the primary organizing 
principle of the proposed program. 
The emphasis in doctoral training goes beyond accumulating course 
credit. Completion of the coursework is the prelude to sitting for 
the qualifying examination. Successful passage of the qualifying 
examination allows the student to enter doctoral candidacy. A doctoral 
candidate must then successfully develop and present to the HMSS 
PhD Committee a preliminary dissertation proposal (PDP) that describes 
the dissertation committee, what the student wishes to accomplish 
with the dissertation, and an original and independent research project 
in the prescribed format. Once the PDP is approved by the HMSS PhD 
Committee, the student may schedule the proposal defense. Upon 
successful defense of the proposal, a student may then proceed to 
dissertation research. 
Upon successful completion of the research, defense of the dissertation, 
and demonstration of the required competencies listed below, a student 
is awarded the PhD degree.

HMSS PhD Seminars

A student in the PhD specialization in Health Management and Policy is required to complete at least three (3) credit hours in the HMSS PhD Seminar (PHMS 751, PHMS 752, PHMS 753). These group courses are jointly taught by the faculty of the department and are designed to provide a collegial experience that provides an opportunity to integrate learning from other courses, discuss hot topics, brainstorm about research ideas, and acquire professional skills in scientific manuscript and grant writing, oral and poster presentations, grantmanship, and peer review.

Emphasis Area

As a part of the approved program of study, a student is able to select 15 credit hours of elective coursework that is structured around a specific area within public health. For example, students could choose to do an emphasis area in long-term care policy, population health, global health, etc. Courses may be selected from those offered within the school, other schools or colleges within the university, or from sources outside the university with permission and acceptance of credit by the school and university.

Emphasis areas need to be submitted by each student by the end of the second semester in the Program. Because some courses are only offered every other year, the student and the faculty advisor must plan the emphasis area sequence as soon as reasonably possible.

All emphasis areas need to be first approved by a student’s advisor and then presented to the HMSS PhD Committee for approval. The HMSS PhD Committee will review the chosen courses and confirm that they contribute to an overall expertise within the emphasis area designated by the student. The student must provide a written rationale for the choices of elective coursework in his or her emphasis area. These can be tweaked and changed while the student is in the program. However, these changes must also be approved by the HMSS PhD Committee.

Qualifying Examination

Upon completion of the required coursework (a minimum of 30 credit hours not including 15 credit hours of emphasis area coursework) and public health management seminars (3 credit hours total) for the PhD, the student is eligible to sit for the qualifying examination. The components of the qualifying exam focus on the subject matter drawn from foundation courses and health management research methods. The timing and eligibility for the qualifying exams are determined by the student’s faculty advisor and the HMSS PhD Committee. Successful completion of the exam admits the student to doctoral candidacy. A student who does not successfully complete the exam may be required to take additional or remedial coursework and is allowed one opportunity to retake the exam. After admission into candidacy, the student will still be responsible for completing the additional 15 credit hours of required emphasis area coursework.

Dissertation

A dissertation is required of a candidate for the degree of Doctor of Philosophy in Public Health Sciences with a specialization in Public Health Management and Policy. It is to be a scholarly achievement in research and should demonstrate a thorough understanding of research techniques in health management and the ability to conduct independent research. All dissertations use a three-paper format.

Dissertation Committee

The dissertation shall be read by a reading committee, chaired by the student’s faculty advisor, and appointed by the dean of the school upon the advice of HMSS PhD Committee. This committee shall consist of at
least four members and must include one representative of an external department. The dissertation must be approved by the committee and the chair of the department.

The composition of the dissertation committee must be reviewed and approved by the HMSS PhD Committee. This is done as part of the preliminary dissertation proposal (PDP) process.

**Preliminary Dissertation Proposal**

The Preliminary Dissertation Proposal (PDP) process involves a student (1) forming the dissertation committee; (2) writing a preliminary dissertation proposal using the PDP format; (3) submitting the PDP to an outside reviewer for comment (the HMSS PhD Committee will identify the outside reviewer); (4) the dissertation chair will present the PDP to the HMSS PhD Committee; and (5) the HMSS PhD Committee will provide feedback and approve the PDP to move to the proposal defense stage. Students may not move to the proposal defense stage without HMSS PhD Committee approval of the PDP.

The PDP uses the AHRQ (NIH) research proposal format. This is the general outline students should follow when constructing a PDP.

Total page limit: 10 pages, single-spaced, or 20 pages, double-spaced

**Sections**

1. Coversheet and Student Letter (3 pages, single-spaced, or 6 pages, double-spaced)
   - a. Project Title
   - b. Student’s Name
   - c. Chair of committee, committee members, and GSR – provide each member’s area of expertise related to the dissertation. Put line next to each name for signature of approval.
   - d. Areas of knowledge – identify areas of knowledge (content and methods) necessary for successful completion of a dissertation. Discuss how these have been met or will be met through courses, independent study, etc.
   - e. Student letter – should discuss career goals, background, and interest in health services research, and the anticipated manner in which the proposed dissertation will contribute to career goals. List source of funding for research.

2. Specific Aims (1 page, single spaced, or 2 pages, double-spaced)
   - Also list specific hypotheses for each aim. If desired, the overall purpose of this line of investigation may be mentioned in order to indicate the long-term importance of the specific aim being sought through this study.

3. Research Strategy (6 pages, single spaced, or 12 pages, double-spaced) – Section III’s format may be tailored to meet the needs of the specific study being proposed. It could be organized for the study as a whole, for each specific aim, or for each paper to be written. However, the following sub-headings usually apply (major methods should be referenced).
   - a. Significance – Explain the importance of the problem or critical barrier to progress in the field that the proposed project addresses. Explain how the proposed project will advance the field and improve scientific knowledge, technical capability, and/or clinical practice in one or more broad fields. Describe how the concepts, methods, technologies, treatments, services, or preventative interventions that drive this field will be changed if the proposed aims are achieved.
   - b. Innovation – Explain how the application challenges and seeks to shift current research or clinical practice paradigms. Describe any novel theoretical concepts, approaches, or methodologies, instrumentation or interventions to be developed or used, and any advantage over existing methodologies, instrumentation, or interventions. Explain any refinements, improvements, or new applications of theoretical concepts, approaches or methodologies, instrumentation, or interventions.
   - c. Approach - Describe the overall strategy, methodology, and analyses to be used to accomplish the specific aims of the project. Include how the data will be collected, analyzed, and interpreted as well as any resource sharing plans as appropriate. Discuss the potential difficulties and limitations of the proposed procedures and alternative approaches to achieve the aims. As part of this section, provide a tentative sequence or timetable for the project.

   Use this section to provide an account of the student’s or committee’s preliminary studies pertinent to the proposed study, summarizing methods and preliminary findings. Relevant publications or manuscripts may be attached in the Appendix. If there are no preliminary studies, please indicate so in a sentence.

4. Protection of Human Subjects (louisville.edu/research/humansubjects)
5. AHRQ Priority Populations
6. References Cited
7. Appendix
   - a. Survey instrument, if applicable

**Dissertation Proposal**

Once approved by the HMSS PhD Committee, the candidate will submit a written dissertation proposal to all members of the dissertation committee. The candidate is then orally examined on the dissertation proposal at a time scheduled by the candidate in consultation with the committee chair and full dissertation committee.

The dissertation is to be prepared in format according to the guidelines of the School of Interdisciplinary and Graduate Studies. The guidelines can be reviewed at the following link: louisville.edu/graduate/current-students/thesis-dissertation-information/thesis-dissertation-guidelines-1. HMSS PhD students do a three-paper dissertation.

**Three-Paper Dissertation Guidelines**

Students will write a three-paper dissertation. The dissertation will include a brief introduction to each of two papers and how they fit together (roughly 10 pages). The research questions submitted and approved within the dissertation proposal will define the subject matter for each of the papers in the dissertation.

Prior to the dissertation defense, at least one of the three papers in the dissertation must be submitted for review to a reputable peer-reviewed journal that is agreed upon by the doctoral candidate’s dissertation committee. The remaining two papers must be of high enough quality that the dissertation committee feels that they can be submitted to a reputable journal, although they do not need to be submitted prior to the dissertation defense.

Each paper must report on original scholarship and address the research questions in the dissertation proposal. One of the papers may consist of a literature synthesis which leads to specification of a conceptual framework for addressing a research question or questions.

Prior to the dissertation defense, the student must specify a target peer-reviewed journal for each and format each according to the chosen
journal’s formatting rules. Each paper is expected to conform to the length requirements for the chosen peer-reviewed journal (typically 25-30 pages in length). Co-authors for each paper should be acknowledged in a “Statement of Contributors” but not included as authors in the dissertation itself. They can be listed as authors when the papers are submitted for publication, but not as authors in the dissertation itself.

The following information is in the current guidelines, please review and advise if you have additional questions or concerns. The information is as follows:

**Published Work**

With the approval of your adviser and your thesis or dissertation committee, you may include part or all of the content of manuscripts published in or accepted for publication by scholarly journals and proceedings as chapters in your thesis or dissertation. If you choose this option, you must:

1. Be a primary author—i.e., lead author—of the articles (i.e., a person principally involved in the data selection or collection, the data analysis or interpretation, and the writing of the papers).
2. Obtain the needed copyright clearance from the publisher—i.e., a letter granting permission to include the journal article in your thesis or dissertation.
3. Include a proper citation to the work, either a footnote or a citation in the reference section of the thesis or dissertation.
4. Format the work so that it conforms to the requirements as specified in “Guidelines for the Preparation and Processing of Theses and Dissertations” (The Guidelines). In other words, the journal publication cannot simply be pasted into the thesis or dissertation in its published format.

The content and format of each paper included may be similar to or the same as what you submit to the journal/proceedings, except the content must comply with the formatting requirements as outlined in The Guidelines. The bibliography or reference section of each article must become part of the final Reference Section in the thesis and dissertation, as stipulated in The Guidelines. There should be only one abstract and one list of acknowledgments for the thesis or dissertation.

If the publisher grants permission for the publication to be used, the publisher will give instructions on how the approval should be documented in the thesis/dissertation. The publisher’s official notice of approval must be formatted accordingly and added as an Appendix. Permission to use previously published material in a thesis or dissertation doesn’t necessarily give the student permission to sell that material. The student may need to put a restriction on the sale and availability of his/her work according to the publisher’s guidelines.

**Dissertation Approval**

The dissertation is to be submitted in completed form to the chair of the department at least thirty days before the end of the term in which the candidate expects to be graduated, and the candidate is not eligible for final defense until the dissertation has been accepted by the committee and chair.

The doctoral candidate will prepare a dissertation document that will include:

1. An introduction of at least 10 pages that summarizes the three papers.
2. The papers themselves (refer to Published Work above).
3. A synthesis section at the end that addresses the implications for practice and research, in non-technical terms, to the extent not addressed in the separate papers.
4. Any additional material, as appendices, that would not usually be part of a journal article (e.g. a survey instrument) but which the dissertation committee deems relevant.
5. Statement of contributions: a statement specifying his/her role and those of others in selecting study questions, designing analyses, identifying appropriate methods, analyzing the data, and writing and reviewing the papers. This statement will be signed by each contributor named.
6. Dissemination plan: this will specify the target peer-reviewed journal for each of the three papers. For each paper that has not been submitted for publication, the student is required to obtain a signature from a faculty member with experience publishing or reviewing for the target journal (or similar ones). The faculty member will sign a statement to the effect that in his/her opinion, the paper is potentially publishable in the journal selected (these signatures will be required by the conclusion of the dissertation defense).

The oral defense is scheduled by the dissertation committee and doctoral candidate. The time and place for the defense is published to the general academic community, members of which are free to attend the defense. The dissertation is approved by a majority vote of the committee and the concurrence of the department chair.

**Evaluation by Dissertation Committee**

Dissertations will be evaluated by the dissertation committee using the following criteria:

- **Extent of the student’s contribution:** The committee should be persuaded that the student played the primary role in the formulation and write-up of the research for all three papers. For example, if a faculty member provided the data, selected the methodology and directed the analyses, the student’s role may not meet the required standard of independence.

- **Eventual publication of the three papers:** The committee should only approve the dissertation if it feels that the three papers are potentially publishable, that is, ready for submission to peer-reviewed journals. Faculty endorsement of the Dissemination Plan will be relevant for this.

- **Papers published before the final defense are acceptable as described below:** In some cases, one or more of the papers may have already been accepted or published by a peer-reviewed journal at the time of the defense. While this satisfies the publication criterion, the committee will still need to evaluate the paper(s) in light of the other criteria, and the paper(s) will need to be reformatted to meet SIGS requirements.

**Dissertation Distribution**

The following steps must be taken to submit the final copy of the thesis electronically after oral defense and approval of the committee:

1. Final document must be converted to a PDF (following the guidelines as noted above) and sent to the School of Interdisciplinary and Graduate Studies.
2. Submit to the School of Interdisciplinary and Graduate Studies as advised by the School of Interdisciplinary and Graduate Studies Thesis/Dissertation Information webpage: louisville.edu/graduate/
The typical progression through the health promotion curriculum is:

1. Program of Study (year 1)
2. Required and elective coursework of 48 credit hours (years 1 and 2)
3. Qualifying examination (year 2)
4. Candidacy
5. Dissertation research and preparation (within 4 years of entering candidacy)
6. Oral examination/dissertation defense

Faculty Advisor
The Director of the PhD program will assign advisors for each doctoral student. Upon matriculation in the program, each student will meet with his or her assigned advisor and develop a program of study, which will include courses in public health theory and principles, research design, and statistics as well as selected cognate courses. The program of study will identify a set of courses for the development of competencies in areas of public health knowledge that are relevant to the student’s area of interest. The program of study may be modified as the student’s needs change or course availability is altered.

Admission Requirements
Applicants should have a minimum GPA of 3.0 on a 4.0 scale and, in most cases, should have completed a master’s or other graduate degree related to the theme of the doctoral program. Applicants who have a master’s degree in a different discipline may be admitted with the stipulation that they complete foundation coursework during their enrollment for the doctoral degree. This coursework is in addition to the outlined curriculum and is negotiated with the student's academic advisor on a case-by-case basis.

- The formal application, curriculum vitae, personal statement, application fee, at least two letters of recommendation, official transcripts of all college work, and official scores on the Graduate Record Examination (GRE) General Test must be submitted to the School of Interdisciplinary and Graduate Studies, Graduate Admissions, louisville.edu/graduate/apply
- The personal statement should be a one-to-two page essay which discusses the student's background in health promotion, why the student is attracted to the field, and how the degree helps the student reach his or her career goals.
- In addition, prior work experience relevant to the health promotion discipline is also considered as a factor in acceptance into the program.
- International students are required to submit TOEFL scores and a foreign credential evaluation of their transcripts. These are required no later than thirty days before the first day of classes of the semester in which the applicant plans to enroll.

For specific information about the degree specialization or the application process, students should contact the Director of the PhD Program, Dr. Muriel Harris, at muriel.harris@louisville.edu or (502) 852-4061, or the Department Chair, Dr. Richard Wilson, at richard.wilson@louisville.edu or (502) 852-3443.

Program Requirements
Upon matriculation in the program, each student meets with his or her assigned advisor and develops a program of study that includes courses in research design and statistics as well as selected cognate courses.
The program of study may be modified as the student’s needs change or course availability is altered.

If a student has not had sufficient exposure to epidemiology prior to matriculation, he or she is required to take a course in epidemiology as part of the program of study. In addition, the program of study includes development of competencies in other areas of public health knowledge that are relevant to the student’s area of interest.

Curriculum

Students with a Master of Public Health (MPH) and those with master’s degrees from other disciplines may be admitted to the PhD program. For those students entering from other disciplines, leveling courses will be required. The leveling courses include the MPH core courses, and they must be completed prior to beginning courses in the student’s PhD degree plan.

The PhD curriculum consists of a minimum of 48 credit hours, at least one semester of teaching, and a dissertation. The degree plan consists of the following:

- Foundational Requirements (15-18 credit hours)
  - Epidemiological Methods (3 credit hours)
  - Theory, Approaches, Planning, & Interventions (6-9 credit hours)
  - Advanced Evaluation (3 credit hours)
  - Policy & Politics (3 credit hours)
- Methods & Statistical Analysis (18-24 credit hours)
  - Advanced Biostatistics (3 credit hours)
  - Measurement (3 credit hours)
  - Quantitative Research Methods (3-9 credit hours)
  - Qualitative Research Methods (3-9 credit hours)
- Teaching (3 credit hours)
- Cognate Area of Study (12-15 credit hours)—determined by faculty advisor
- Dissertation

Practice

Undergraduate/Graduate Teaching Experience
Qualifying Examination

Upon completion of all formal course work, typically at the end of the second year of coursework, students will take a written Qualifying Exam to demonstrate their ability to synthesize and apply concepts from those courses. Results will be given to students within six weeks of completion of the exam. The exam will be evaluated on a pass/fail basis; students who do not pass the exam on their first attempt will be given time to prepare to sit for the exam one additional time. The retake of the exam must be attempted within six months at a regularly scheduled exam date (February, July or October) following the first attempt at the discretion of the specialization and in consultation with the student. If a student fails to pass on the second attempt, the student will be dropped from the program. Once the qualifying exam is successfully completed, students will be admitted to candidacy for the doctoral degree.

Dissertation

A dissertation, based on original research conducted by the student, is required of a candidate for the degree of Doctor of Philosophy in Public Health Sciences with a specialization in Health Promotion. The dissertation is to be a scholarly achievement that demonstrates the student's ability to conduct independent research and a thorough understanding of research principles, concepts, and techniques in health promotion. The dissertation must follow the guidelines of the School of Interdisciplinary and Graduate Studies located at louisville.edu/graduate/current-students/thesis-dissertation-information.

Dissertation Committee

The student's dissertation research will be guided by, and the final product approved by a Dissertation Committee. The Chair of the Committee, who must come from within the department, will be appointed by the Dean of the School of Public Health and Information Sciences upon the advice of the Chair of the Department of Health Promotion and Behavioral Sciences.

The Dissertation Committee shall consist of at least four members to a maximum of six members. The Chair of the Committee and at least one other committee member must be from the department. Additional members should be from outside of the department or school. Students are encouraged to meet with their committee chair regarding prospective committee members who will mentor them throughout this process. A committee member must have a doctoral degree, be credentialed to teach graduate-level courses relevant to the degree, and have recent involvement in research, scholarship, or creative activity within the previous five years. The Dean of Academic Affairs at SPHIS must approve the members to serve on the committee. The Committee will subsequently be approved by the School of Public Health and Information Sciences.

Dissertation Proposal

The student will work with the Dissertation Committee, and especially with the Chair throughout the process of preparing their Dissertation Proposal. The student will schedule meetings to present their dissertation proposal for approval once it has been review by members of the committee. The final oral defense of the dissertation must be completed within four years of entering candidacy after passing the Qualifying Exam.

Dissertation Defense

Once the student has completed work on the dissertation, the student will schedule a date with his/her Dissertation Committee for the final oral examination during which the student will defend the dissertation. The dissertation must be approved by the committee and the Chair of the Department by majority vote before it can be submitted to the School of Interdisciplinary and Graduate Studies. The defense is a public event to which members of the University community will be invited as well as those the student worked with on the project.

Dissertation Preparation

The dissertation copy must follow the guidelines of the School of Interdisciplinary and Graduate Studies located at louisville.edu/graduate/current-students/thesis-dissertation-information.

Dissertation Submission

The following steps must be taken to submit the final copy of the dissertation electronically after oral defense and approval of the committee:

1. Final document must be converted to a PDF (following the guidelines as noted above) and sent to the School of Interdisciplinary and Graduate Studies and the department's administrative assistant.
2. Submit as advised by the School of Interdisciplinary and Graduate Studies through the ThinkIR repository.
3. The signature page within the electronic version must have the names of your committee members typed under the signature line; the signatures cannot be scanned into the document.
4. Submit a signed signature page on white paper, with original signatures, to the School of Interdisciplinary and Graduate Studies.

Public History (CERT)

Graduate Certificate in Public History (PHISCHI)

Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)
Department: History (http://louisville.edu/history)
Program Webpage (http://louisville.edu/history/graduate-studies/graduate-certificate-in-public-history)

Program Information

The graduate certificate in Public History is a specialized program of study that trains students for careers in museums, archives, historical interpretation, and historic preservation. Students may pursue the certificate either in combination with a Master of Arts in History (or a closely related field) or as an independent credential.

Students enrolled in the program take seminars in history and electives in history and related fields. All students are required to complete an internship at a historical institution.

Admission Requirements

Students seeking the certificate as a stand-alone program should apply at louisville.edu/graduate/apply. Create an account. When asked to
choose a program, select "Graduate - non-degree." On the next page, select "College of Arts and Sciences," then "Public History (CHI)."

The following materials are required for the certificate program:

- Two letters of recommendation
- Undergraduate transcripts
- GRE scores
- Personal statement of interest in public history (500 words)
- Application fee

History MA students who wish to enroll in the certificate program must complete the online application (see link above) and submit:

- A letter of recommendation from a UofL faculty member
- A personal statement of interest in public history.

All materials from applications for the MA program will also be considered.

**Program Requirements**

<td>6</td>
</tr>
<tr>
<td></td>
<td>Two public history electives at the 500 level or above</td>
<td>6</td>
</tr>
</tbody>
</table>

**Minimum Total Hours**

Students in the MA program in History may apply up to six (6) credit hours from the degree program toward the Public History certificate.

Sample of public history electives:

- HIST 607 Oral History
- HIST 610 Introduction to Historic Preservation
- ARTH 647 Introduction to Critical and Curatorial Studies I and ARTH 648 Critical and Curatorial Studies II
- PADM 609 Nonprofit Management

**Real Estate Development (CERT)**

**Graduate Certificate in Real Estate Development (RED CRE)**

Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)

Department: Urban and Public Affairs (https://louisville.edu/upa)

Program Webpage (http://catalog.louisville.edu/graduate/programs-study/graduate-certificate-real-estate-development/louisville.edu/upa/programs/gcred)

**Program Information**

The Department of Urban and Public Affairs offers a Graduate Certificate in Real Estate Development designed to equip graduates with the skills needed to make better real estate decisions with respect to investment considerations and site analysis and planning. The program will be particularly attractive to Urban Planning students desiring to work in the private sector; however, the program will also be appealing to students enrolled in other graduate programs at the university or who wish to complete the certificate on a stand-alone basis.

The program may be completed in conjunction with the Master of Urban Planning program without the need to take any additional coursework beyond what is required for the MUP program. For MUP students, the certificate courses satisfy the requirements for the specialization in Housing and Community Development.

**Admission Requirements**

Applicants must have a bachelor’s degree (any major is acceptable), and provide a completed application form, a transcript of all undergraduate work, and two letters of recommendation.

Admission is competitive and generally requires a minimum undergraduate GPA of 3.00. Those applicants whose native language is not English and who do not hold a degree from a university where the language of instruction is English must complete the Test of English as a Foreign Language (TOEFL) with a score of at least 78 on the internet-based test.

**Program Requirements**

The program requires 18 credit hours, and may be completed in one year as a full-time student or up to four years as a part-time student. Courses may be waived by the Program Coordinator based on previous study; however, substitute course work will be required.

The following 3 credit hour courses are required:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PLAN 605</td>
<td>Land Use &amp; Planning Law</td>
<td>3</td>
</tr>
<tr>
<td>PLAN 614</td>
<td>Real Estate Market Analysis</td>
<td>3</td>
</tr>
<tr>
<td>PLAN 631</td>
<td>Real Estate Principles</td>
<td>3</td>
</tr>
<tr>
<td>PLAN 633</td>
<td>Real Estate Development</td>
<td>3</td>
</tr>
<tr>
<td>PLAN 634</td>
<td>Real Estate Finance and Investment</td>
<td>3</td>
</tr>
<tr>
<td>PLAN 636</td>
<td>Site Planning</td>
<td>3</td>
</tr>
</tbody>
</table>

**Minimum Total Hours**

Generally, PLAN 631 should be completed prior to PLAN 634 and PLAN 633. PLAN 633, which serves as a capstone course for the program, should be taken in the final semester or year of study.

Although the program does not require an internship, students who are also in the MUP program may wish to complete the required planning internship by working in a real estate development firm.

**School Social Work (RANK1)**

**Rank 1 Program in School Social Work (SW_RK1)**

Unit: College of Education and Human Development (https://louisville.edu/education) (GE)

Department: Special Education (https://louisville.edu/education/departments/sped)

Program Webpage (https://louisville.edu/education/degrees/rank)

**Program Information**

*Rank 1 programs are not degree programs.*

The Rank 1 program in School Social Work includes the School Social Work Specialization. It is designed for the Advanced Practitioner P-12.

Rank 1 programs are planned graduate level programs designed for Kentucky teachers seeking rank change for salary purposes. They are recognized only in the state of Kentucky. By state regulation, Rank 1
status is sixty (60) credit hours of approved graduate credit including a master’s degree.

Admission Requirements

Students in this Rank-1 program are required to satisfy/provide the following:

- Admission to School of Interdisciplinary and Graduate Studies
- Signed Professional Code of Ethics/Technology User Agreement
- Completion of Official Program along with School Social Work Specialization program sheet.

Students may apply to the program by first going to the School of Interdisciplinary and Graduate Studies (http://graduate.louisville.edu/sigs/apply) website. Admission requirements include the following credentials:

- Teaching certificate
- TOEFL (Students holding a baccalaureate or advanced degree from an accredited institution in the U.S. are exempt from this requirement.)
- There may be additional admission requirements, depending on the Rank I program that you select. Please contact the Teaching and Learning Department for specific information.
- Official transcripts with a GPA of 2.75 in the Bachelor’s degree and a GPA of 3.0 in the Master’s degree.
- Applicants who have attended a college or university outside of the United States are also required to submit an evaluation of their transcript through either WES (World Education Services) (http://wes.org) or ECE (Educational Credential Evaluators) (http://ece.org). Please note that transcript evaluations can sometimes take several weeks.

Please have transcripts sent to:

School of Interdisciplinary and Graduate Studies
Graduate Admissions
University of Louisville
Louisville, KY 40292

If transcripts are sent electronically, please have them sent to gradadm@louisville.edu.

Minimum Total Hours 33

Exit Requirements

Hallmark Assessment Task for EDSP 669 or equivalent project that demonstrates proficiency in the Advanced-Level Kentucky Teacher Standards.

Course project must address all of the Advanced-Level Kentucky Teacher Standards. Successful completion of portfolio.

Additional Requirements

A minimum of 15 credit hours of 600-level courses is required. Up to 15 credit hours of graduate credit may be transferred to the Rank I program, as long as the student will have completed 60 credit hours of approved graduate credit.

Including a master’s degree at the end of the Rank I program: transfer credit must be officially accepted by the advisor and final acceptance is dependent upon receipt of official transcripts.

In the Rank I program at least 15 credit hours of new graduate coursework must be taken at the University of Louisville.
To complete the program, students must have a minimum 3.0 cumulative grade point average. No credit shall be accepted for carrying a grade lower than a B-minus.

Some courses are required for students completing the School Social Work Specialization and Rank I program.

This degree program sheet must be accompanied by a signed School Social Work specialization program sheet as well.

1 One of these courses in the Diversity section must be completed for School Social Work Specialization
2 Courses are required for students completing the School Social Work Specialization and Rank I program.

Secondary Education (RANK1)

Rank 1 Program in Secondary Education (SE RK1SAP)
Unit: College of Education and Human Development (https://louisville.edu/education) (GE)
Department: Middle and Secondary Education Department (https://louisville.edu/education/departments/mise)
Program Webpage (https://louisville.edu/education/degrees/rank)

Program Information

Rank 1 programs are not degree programs.

Rank 1 programs are planned, graduate-level programs designed for Kentucky teachers seeking rank change for salary purposes. They are recognized only in the state of Kentucky. By state regulation, Rank 1 status is sixty (60) hours of approved graduate credit including a master’s degree.

Teachers who complete a Rank 1 program may obtain a Rank change for salary purposes in Kentucky. Through a Rank 1 program, teachers may increase their depth of knowledge in their teaching areas or in additional areas of certification, as appropriate.

Admissions Requirements

Students may apply to the program by first going to the School of Interdisciplinary and Graduate Studies (http://graduate.louisville.edu/sigs/apply) web site.

Admission requirements include the following credentials:

- Official transcripts with a GPA of 2.75 in the Bachelor’s degree and a GPA of 3.0 in the master’s degree.
- Applicants who have attended a college or university outside of the United States are also required to submit an evaluation of their transcript through either WES (World Education Services) (http://wes.org) or ECE (Educational Credential Evaluators) (http://ece.org). Please note that transcript evaluations can sometimes take several weeks.
- TOEFL (Students holding a baccalaureate or advanced degree from an accredited institution in the U.S. are exempt from this requirement.)
- Teaching certificate in grades 8-12, P-12, or 5-12 and a master’s degree/Rank II
- Signed Professional Code of Ethics/Technology User Agreement

Please have transcripts sent to:

| Minimum Total Hours | 30 |

Minimum of 15 credit hours in 600-level courses is required.

Up to 15 credit hours of graduate credit may be transferred to the Rank 1 program, as long as the student will have completed 60 credit hours of approved graduate credit including a master’s degree at the end of the Rank 1 program. Transfer credit must be officially accepted by the advisor and final acceptance is dependent upon receipt of official transcripts.

In the Rank 1 program, at least 15 credit hours of new graduate coursework must be taken at the University of Louisville.

To complete the program, students must have a minimum 3.0 cumulative grade point average. No grade lower than B-minus will be accepted.

Midpoint Requirement

Candidates are required to submit a mid-point performance assessment at the completion of 15 credit hours of coursework. The faculty advisor
will assess the candidate’s performance assessment, which must be at the exemplary or target level. The performance assessment must address content, classroom environment, teaching, assessing, and reflection, through an artifact (such as a video), to document professional learning.

Exit Requirements: Hallmark Assessment Task to be completed in EDAP 681 or equivalent project that demonstrates proficiency in the Kentucky Academic Standards.

Secondary Education (MAT)

Master of Arts in Teaching in Secondary Education (SE MAT)
Unit: College of Education and Human Development (https://louisville.edu/education) (GE)
Department: Middle and Secondary Education (https://louisville.edu/education/departments/mise)
Program Webpage (http://catalog.louisville.edu/graduate/programs-study/master-arts-teaching-secondary-education/louisville.edu/education/degrees/mat-se)

Program Information

The Master of Arts in Teaching (MAT) degree in Secondary Education leads to certification in:

- Biology
- Chemistry
- Earth & Space Science
- English
- Mathematics
- Physics
- Social Studies Education (grades 8-12)
- Business Education (grades 5-12)
- World Language Education (Spanish and French) (grades P-12)

Admission Requirements

Candidates considering application to the MAT program should contact the Education Advising and Student Services office (teacher@louisville.edu) prior to applying for admission.

Candidates who meet the following criteria may be eligible to apply to the Master of Arts in Teaching program:

1. Application to School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply). This should be completed three to four weeks prior to the application deadline.
2. Minimum Test Scores (http://louisville.edu/education/degrees/info/gre-mat) as required by EPSB
   Please note: when submitting test scores through ETS, use the general University of Louisville code, 1838.
3. Praxis II (http://louisville.edu/education/degrees/info/mat-mse-praxis-ii) Content Exam registration and/or scores
4. Bachelor’s Degree from Accredited College or University (http://louisville.edu/education/degrees/info/bachelors) with major in content area with a minimum 2.75 Grade Point Average (official transcripts required)
5. Prerequisite Course Requirements (http://louisville.edu/education/degrees/info/mat-mse-prereq)
6. "C" or higher in English 102
7. "C" or better in oral communication course
8. TOEFL (http://louisville.edu/education/degrees/info/toefl)
9. Professional (http://louisville.edu/education/degrees/info/mat-mse-professional-statement)
10. 3 Letters of Recommendation (http://louisville.edu/education/degrees/info/lor)
12. Acceptable interview

Admission is competitive. Candidates who meet minimum academic requirements are not guaranteed admission to the program.

**Mid-Point Assessment**

1. Must be taken concurrently with student teaching
2. Can be taken at any point in the program

**Degree Candidacy**

Students not enrolled during the semester in which they intend to graduate must register for degree candidacy as outlined in the Graduate Catalog (p. 802).

**Praxis Disclaimer**

Teacher certification requirements are subject to change. Before registering for certification test(s), please refer to the Education Professional Standards Board (EPSB) website at epsb.ky.gov (http://www.epsb.ky.gov) or ets.org/praxis/ky (http://www.ets.org/praxis/ky) for current requirements.

**Secondary Education - Alternative Certification 8-12 (MAT)**

Master of Arts in Alternative Route to 8-12 Certification in Secondary Education (SE MAT)

Unit: College of Education and Human Development (https://louisville.edu/education) (GE)

Department: Teaching Health and Physical Education

Program Webpage (https://louisville.edu/education/degrees/mat-ac)

**Program Information**

The Alternative Certification program is designed to assist the local school districts in meeting the demand for qualified teachers in high need content areas. The program provides candidates with an opportunity to pursue initial teacher certification while working as a full-time teacher on a temporary provisional certificate.

Employment is not required for initial acceptance to this program. However, candidates must be employed in a Kentucky-accredited school by the start of the school year in order to continue in the program. This program is a two-year, 30-credit hour program resulting in initial teacher certification and a Master of Arts in Teaching degree.

**Certification Assessment: After Student Teaching**

Satisfactory dispositions assessment; all certification course work completed with 2.5 cumulative GPA; 2.5 cumulative GPA in content course requirements; 2.0 or higher in student teaching; satisfactory certification teacher performance assessment (TPA); passing scores on PRAXIS content and PLT exams; positive recommendation from Middle/Secondary Program Committee.

**Degree Assessment**

Satisfactory dispositions assessment; all program course work completed with 3.0 cumulative GPA (and no more than a total of two C grades in degree courses); satisfactory certification teacher performance assessment (TPA).

EDTP 678  Supporting the Second Year Alternative Certification Teacher I  3
EDTP 679  Supporting the Second Year Alternative Certification Teacher II  3

Minimum Total Hours  30

Certification Assessment: Satisfactory dispositions assessment; satisfactory certification teacher performance assessment (TPA); passing score on 8-12 PLT Praxis exam; must pass KTIP.

Degree Assessment: Satisfactory dispositions assessment; all program coursework with 3.0 cumulative GPA (and no more than a total of two grades of C in degree courses); satisfactory Alternative Certification degree teacher performance assessment (TPA).

Degree Candidacy: Students who are not enrolled during the semester in which they are graduating must register for degree candidacy as outlined in the Graduate Catalog, under the section called academic policies and requirements.

Praxis Disclaimer: Teacher certification requirements are subject to change. Before registering for the test(s), please refer to the Education Professional Standards Board (EPSB) website at epsb.ky.gov (http://www.epsb.ky.gov) or ets.org/praxis/ky (http://www.ets.org/praxis/ky) for current requirements.

1 Completion of all courses listed above; satisfactory dispositions assessment; no lower than 2.0 GPA in content methods class(es); 2.0 or higher GPA in Practicum for Alternative Certification; 2.50 cumulative GPA in content course requirements; passing scores on 8-12 PLT Praxis exam; satisfactory mid-point teacher performance assessment (TPA); positive recommendation from Middle/Secondary Program Committee.

Social Work (MSSW)

Master of Science in Social Work (SW MSW)
Unit: Kent School of Social Work (GK) (http://louisville.edu/kent)
Department: Social Work (http://louisville.edu/kent)
Program Webpage (https://louisville.edu/kent/academics/master-of-science-in-social-work)

Program Information
This program has degree options that can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs/masters/master-of-science-in-social-work).

Accreditation of the MSSW
The Master of Science in Social Work program is accredited by the Council on Social Work Education (CSWE). The Master of Science in Social Work, concentration in Couple and Family Therapy program is accredited by the Commission on Accreditation for Marriage and Family Education.

General Information
The Kent School of Social Work seeks to prepare well-qualified social workers who practice from a strong professional value-base to serve the metropolitan mission of the university. Our graduates promote social justice through their practices with diverse client systems. In the context of a research institution, the Kent School is committed to knowledge development that informs social work practice, recognizing the importance of interdisciplinary collaboration to solve complex social problems.

Social work is a profession concerned with the prevention and amelioration of social problems and the enhancement of the quality of human life. Social workers achieve these goals through direct practice with individuals, families, groups, and community organizations; advocacy; social planning; social policy analysis and formulation; research; and administration. Social work practice helps people mobilize their resources to deal with present circumstances and to enlarge their prospects for the future. Since problems of the individual cannot be seen in any meaningful way in isolation from the broad social and community context in which they occur, social work also takes a leadership role in bringing about institutional and social change.

MSSW Dual Degree Programs (not available to online students)
The Kent School also offers joint degrees with the Brandeis School of Law at the University of Louisville (MSSW/JD), the Louisville Presbyterian Seminary (MSSW/MDiv), the Department of Pan-African Studies at the University of Louisville (MSSW/MA) and the Department of Women’s and Gender Studies at the University of Louisville (MSSW/MA) and the Department of Philosophy/Medical Humanities and Bioethics (MSSW/MA). Applications must be submitted independently to each academic unit/institution. In general, these programs require that the student take additional coursework, take the three MSSW electives in the other degree program and take a targeted advanced practicum that has the focus of and is approved by the other degree program.

For more complete descriptions of these programs, please refer to the prospective students link at the Kent School website: louisville.edu/kent.

MSSW/Master in Divinity
The joint MSSW/MDiv program recognizes the value of professional education in two interrelated fields and encourages students who have an interest in both ministry and social work to pursue these degrees simultaneously. A student may enter the dual degree program from social work or theology.

MSSW/Juris Doctor
The dual MSSW/JD program recognizes the value of interdisciplinary study and encourages students having an interest in both social work and law to pursue these degrees simultaneously. Social workers and lawyers often seek to address identical or related societal concerns, albeit from different perspectives; understanding both disciplines enhances one’s effectiveness in both professional capacities. Law courses strengthen the social worker’s understanding of legal doctrine.
and structures that have an impact on social institutions and human conditions; social work courses help lawyers to better understand human behavior, conflict resolution and social welfare institutions.

**MSSW/MA in Pan-African Studies**

The dual MSSW/MA in Pan-African studies program recognizes the value of professional education in two interrelated fields and encourages students who have an interest in both Pan-African Studies and Social Work to pursue these degrees simultaneously. Social workers and Pan-African studies scholars often seek to address identical or related societal concerns, albeit from different perspectives; understanding both disciplines enhances one's effectiveness in both the analysis of and engagement with contemporary social and cultural issues. Pan-African Studies courses strengthen the social worker's understanding of the historical foundations for policies and structures that have an impact on social institutions and human conditions; social work courses help Pan-African scholars or activists to better understand human behavior, conflict resolution and social welfare institutions. A Pan-African Studies and Social Work combination provides the tools of social change for a historic problem of racial injustice.

**MSSW/MA in Women's and Gender Studies**

The dual MSSW/MA in Women's and Gender Studies program recognizes the value of professional education in two interrelated fields and encourages students who have an interest in both Women's and Gender Studies and Social Work to pursue these degrees simultaneously. Social workers and Women's and Gender Studies scholars often seek to address identical or related societal concerns, albeit from different perspectives; understanding both disciplines enhances one's effectiveness in both the analysis of and engagement with contemporary social and cultural issues. Women's and Gender Studies courses strengthen the social worker's understanding of the historical foundations for policies and structures that have an impact on social institutions and human conditions; social work courses help Women's and Gender Studies scholars or activists to better understand human behavior, conflict resolution and social welfare institutions. A Women's and Gender Studies and Social Work combination provides the tools of social change for a historic problem of gender inequality and injustice.

**MSSW/MA in Bioethics and Medical Humanities**

The dual MSSW/MA in Bioethics and Medical Humanities degree program focuses on providing our social work graduates a contextual experience within the interdisciplinary fields that comprise bioethics in addition to the development of social work skills. Bioethics is an inherently interdisciplinary field, located principally at the intersection of philosophy, the law, and the health care professions, such as clinical medicine and nursing, but drawing as well from social science disciplines as diverse as sociology, clinical psychology, and social work. In addition to any career options presented by the MSSW, degree holders may then participate in hospital ethics committees, teach medical ethics and humanities, or be prepared for future doctoral-level work in medical ethics and humanities.

**MSSW Concentrations**

The Kent School offers the opportunity to earn a concentration in Couple and Family Therapy, School Social Work, Alcohol and Drug Counseling, Gerontology, Mental Health, Psychosocial Oncology or Military Social Work while obtaining the MSSW degree. In general, these programs require the student to take prescribed electives specific to the concentration, take a targeted advanced practicum, and participate in an integrative seminar or supervision with the concentration cohort. With the exception of the CFT concentration, students are only eligible to apply to concentrations when they are applying for their advanced year of the program.

For a complete description of the following concentrations, please refer to the prospective students link at the Kent School website: louisville.edu/kent

**Couple and Family Therapy Concentration (CFT, formerly MFT) --not available to online students**

Students may complete the Concentration in Couple and Family Therapy program as part of the MSSW degree. The program prepares students for clinical practice with families in the context of their communities, particularly those families who are disadvantaged and/or typically underserved. Completion of the program prepares students for licensure as a couple and family therapist in Kentucky and for clinical membership in the American Association for Marriage and Family Therapy. The MSSW-CFT concentration requires 21 graduate credit hours in addition to the 60 credit hours required for the MSSW.

Only a limited amount of students can be admitted to this concentration; for more information on application specifics, prospective students should access the program's website: louisville.edu/kent/academics/concentrations/couple-and-family-therapy.

**School Social Work Concentration --not available to online students**

MSSW students who want to practice social work in a school setting can earn a school social work concentration within the Kent School master’s curriculum. Students who select this concentration learn how to help children and families overcome barriers to learning through home intervention. Those who complete the concentration meet the Kentucky Council on Teacher Education’s requirements for certification as a school social worker. Students are eligible to apply only when applying to the 30-credit hour advanced standing program or if in the 60-credit hour program, during the December before their advanced year of the program.

**Alcohol and Drug Counselor Concentration**

Substance abuse is widely recognized as one of the top health problems in the USA and is attracting increasing attention and funding. However, there is an identified shortage of qualified addiction counselors--and students who prepare themselves for a career in chemical dependency can hope to gain immediate employment after graduation, and possibly before. In this regard, students should be aware of a professional certification, the Certified Alcohol and Drug Counselor (CADC) certification, that is valued by addiction treatment agencies with comparable respect and compensation as the Licensed Clinical Social Work (LCSW) qualification. For those who are interested in initiating their careers in a clinical substance abuse treatment setting, they can begin to fulfill specialized requirements of the CADC certification while completing normal requirements of the MSSW program. The Kent School's alcohol and drug concentration will 1) satisfy many of the requirements of the CADC program, 2) teach specialized knowledge and skills, 3) provide formal recognition of students’ specialized knowledge, 4) position students for employment and advancement in a broad array of specialized substance abuse roles, and 5) include specialized faculty mentoring and suggestions on finding employment.

Students are eligible to apply only when applying to the 30-credit hour advanced standing program or if in the 60-credit hour program, during the December before their advanced year of the program.
Gerontology Concentration
The nation’s burgeoning aging population is increasing the demand for well-trained and competent social workers to respond to the needs of older adults and their families. The US Department of Labor reports that geriatric social work is one of the most rapidly growing occupations, with the promise of job security. Start-up funding for this concentration was provided by the John A. Hartford Foundation, the New York Academy of Medicine and Social Work Leadership Institute, through a nationally known Practicum Partnership Program centered on competency-focused leadership education and rotation field practicums with community experts. Kent School was one of a handful of programs nationwide selected to be a part of this exciting initiative.

Mental Health Concentration
The mental health concentration prepares students to enter into the mental health field by focusing on theoretical perspectives regarding the course and etiology of mental illness, diagnostic and assessment skills, evidence-based approaches, knowledge of mental health services, policies, and programs in the context of social work practice and values. Students complete their advanced practicum rotation in a mental health setting providing the opportunity to build collaborative and interdisciplinary skills and professional identity by integrating knowledge with an intricate understanding of mental health practice, policy and service delivery.

Students are eligible to apply only when applying to the 30-credit hour advanced standing program or if in the 60-credit hour program, during the December before their advanced year of the program.

Psychosocial Oncology Concentration
The Kent School of Social Work offers the first concentration in psychosocial oncology in the nation. The high rate of cancer on local, national, and global levels and the potential shortage of oncology social workers are creating the demand for skilled practitioners. Responding to the growing need for social workers who are trained in cancer care, this program will prepare students with the knowledge and skills for meeting the psychosocial health needs of persons with cancer and their families. Students will learn how to apply skills such as assessment, counseling, palliative care, program planning and evaluation in cancer care settings. Our students work in a variety of health settings in the full range of care for cancer patients.

Students are eligible to apply only when applying to the 30-credit hour advanced standing program or if in the 60 credit hour program, during the December before their advanced year of the program.

MSSW Admission Requirements
Admission to the Kent School of Social Work MSSW program is competitive. The selection process includes an evaluation of each applicant’s demonstrated and potential abilities as a student, practitioner and leader in the social work field. Applicants should utilize the MSSW Application Checklist to ensure that all application requirements are met and relevant deadlines are met which can be found on the MSSW Admissions page of Kent’s website louisville.edu/kent. Attending an MSSW prospective student session is beneficial and will likely assist applicants in strengthening their application. Please consult the Kent School website for a list of scheduled prospective student sessions.

An undergraduate GPA of 3.0 is recommended for consideration to the MSSW program.

Applicants to the MSSW program must meet the following requirements:

1. A bachelor’s degree from a regionally accredited institution of higher learning
2. A minimum of 27 credit hours in the social sciences, i.e., communications (6), natural sciences (3), humanities (9), and social sciences (9)

The application file is complete when all of the following are received by the School of Interdisciplinary and Graduate Studies, Graduate Admissions:

1. Graduate Admission application. Application forms are available online at louisville.edu/graduate/apply and a non-refundable application processing fee. It is suggested that you apply online at the above website and pay your application with a credit card or electronic check. If you submit a hard copy application, attach a personal check, money order or cashier’s check payable to the University of Louisville. Note: Paying your application fee with a check will delay the process for 8 days.

2. Official academic transcripts are required from every college/university you have attended, including those at which you were enrolled for academic credit as a non-degree student and/or credits which you transferred to another college. All transcripts must bear the official seal and signature of the institution attended. You must request these transcripts directly from the Registrar or appropriate officer of each institution and ask that they send them directly to Graduate Admissions, University of Louisville, Louisville, KY 40292. If you are a University of Louisville graduate, your UofL transcript will be provided automatically, with no request needed from you. Applicants with a cumulative grade point average less than 2.75 are required to submit an acceptable Miller Analogies Test (MAT) score or an acceptable Graduate Record Exam (GRE) score with their application. Dates of MAT tests and test links to the GRE are available at louisville.edu/testing.
3. Advanced Standing Admissions: Applicants who obtained a BSW within the last 7 years from an undergraduate social work program accredited or in candidacy by CSWE with a cumulative GPA of 3.00 and a social work GPA of 3.25 may be eligible to apply to the Advanced Standing 30 credit hour program. BSW applicants with less than a cumulative 3.0 GPA and a social work GPA of less than 3.25 will rarely be considered for the 30 credit hour program and will rarely be allowed to transfer social work coursework from their undergraduate degree toward their MSSW degree. Additionally, if an Advanced Standing applicant received a grade of C or lower in any social work foundation courses as a BSW, they may be asked to retake these courses by the Admissions Committee as a condition of admission. Applicants who wish to be considered for 30 credit hour Advanced Standing program must submit their BSW Final Practicum Field Evaluation (or a fall final evaluation if currently in the BSW program) and 1 of their 3 letters of recommendation must be from their Director of Field Education, on-site practicum supervisor or practicum seminar instructor. If applying to a concentration, the concentration essay must be submitted at the time of application as well by the early December deadline.

4. Writing Samples - Writing samples should answer both #1 and #2 prompts separately, be double-spaced and in 12pt Times New Roman font, and have page numbers. If possible, please save your Writing Sample as a PDF prior to submitting.

1. Analyze a social problem and discuss the scope of the problem, populations affected, the causes and consequences of the problem, as well as strategies for addressing the problem. Please cite references and limit the essay to 1 ½ pages. Note: essays are subject to plagiarism software review.

2. The NASW Code of Ethics (https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English) includes the following statement: “Social workers treat each person in a caring and respectful fashion, mindful of individual differences and cultural and ethnic diversity. Social workers promote clients’ socially responsible self-determination. Social workers seek to enhance clients’ capacity and opportunity to change and to address their own needs. Social workers are cognizant of their dual responsibility to clients and to the broader society. They seek to resolve conflicts between clients’ interests and the broader society’s interests in a socially responsible manner consistent with the values, ethical principles, and ethical standards of the profession.”

Discuss how your personal values and beliefs are or are not compatible with this professional standard. How will you reconcile any conflicts between your personal values and the requirement of the profession? Please limit this essay to 1 ½ pages.

3. For Advanced Standing Students (30 credit hour) applying to a concentration: Write a separate 2-3 page essay following the Writing Sample that discusses your interest in the concentration, past experience, need for professional development, and how it will further your educational goals.

5. CFT concentration applicants (on-campus applicants only): Please see additional essay requirements on the CFT section of Kent's website (https://louisville.edu/kent/academics/couple-and-family-therapy) and email danette.baker@louisville.edu (Danette.Baker@louisville.edu) with questions.

6. MSSW Agreements Packet that is completed and signed which includes the following agreements:
   a. Academic Dishonesty Statement
   b. Release and Waiver
   c. Ethical Standards of Behavior Agreement
   d. Personal Commitment and Synchronous Class Agreement
   e. Technology Agreement
   f. Practicum Agreement
   g. Title IX and Clery Act Acknowledgment
   h. SONIA Practicum Site Authorization All forms must be completed and signed (electronic signature is acceptable).
   i. All forms must be completed and signed (electronic signature is acceptable). Agreements Packet can be found here: www.louisville.edu/kent in the MSSW Admissions section. It should be emailed to gradadm@louisville.edu

7. Resume: Please include current/past employment as well as volunteer and service roles served. This can be emailed to gradadm@louisville.edu after you have submitted your online application.

8. Addendum to Writing Sample: Submit an Addendum if you if there are gaps or deficiencies in your academic record or if you have ever had an academic review, please explain (recommended for all applicants with a GPA of 3.0 or less)

9. Three recommendation letters: List email addresses of three (3) recommenders in Section VII of the graduate application. Recommendation forms will be emailed automatically to the recommenders only after the application fee is paid or waived. The printable form is shown as “Letter of Evaluation (PDF)” is available at louisville.edu/graduate/apply.

   • One recommendation form must be from a former professor. Applicants who have not been enrolled in classes within the past five (5) years must substitute a professional reference.
   • Recommendation forms must be submitted from persons who have been directly responsible for supervising your human service related work/volunteer experience, other professional experience or academic performance.
   • Personal recommendations will not be accepted. These include co-workers, mentors, advisers, friends, clergy, personal therapists, etc.

Concentrations: If you wish to be considered for the Couple and Family Therapy, School Social Work, Gerontology, Mental Health, Alcohol & Drug Counseling, Psychosocial Oncology and Military concentrations, please check the prospective students link at our website louisville.edu/kent for any additional admission procedures, documents, and deadlines necessary for consideration for admission to a particular concentration. Admission to these programs follows admission to Kent School but is not automatic. 30-credit hour Advanced Standing students will apply at the point of application while 60-credit hour students will apply the December before their advanced year in the program, with the exception of the CFT program. CFT concentration students will apply at the point of application to the MSSW program. Students accepted into the MSSW Online program are not eligible for the Couple Family and Therapy or School Social Work concentrations as they are campus only programs.

Dual Degrees: If you wish to be considered for any of the dual degree programs, you must also complete the other unit’s application process.
Students accepted into the ONLINE MSSW program are not eligible for dual degrees.

**International students:** All MSSW candidates who completed their undergraduate degrees outside of the US are required to have their transcripts evaluated by the credential services World Education Services at wes.org (http://www.wes.org) or Educational Credential Evaluators at ece.org (http://www.ece.org). Any candidate may be required to participate in a brief telephone interview as part of the admissions process. Candidates who are required to complete an I-20 form should note that they will be placed in a practicum program as part of their education. Admitted students to the on-campus program should contact UofL’s International Center to determine if any other immigration documentation is necessary to begin practicum at louisville.edu/internationalcenter.

ALL candidates for whom English is not their primary language must:

- show English proficiency by demonstration of a specified level of proficiency on the TOEFL exam or IELTS examination or by providing an official transcript from an acceptable English language institution
- Minimum TOEFL scores: 550 on the paper-based exam or 213 on the computer-based TOEFL or a score of 79-80 on Internet-based TOEFL is required. More information on TOEFL at www.ets.org/toefl (http://www.ets.org/toefl).
- Minimum IELTS score: 6.5 for more information review www.ielts.org (http://catalog.louisville.edu/graduate/programs-study/master-science-social-work/www.ielts.org)

MSSW Online US Citizens Living Abroad & Outside of Kentucky:
Applicants who live outside of the US will need to consult with Kent’s Director of Field Education, Lynetta Mathis, in advance of applying to the MSSW program to ensure the feasibility of meeting the practicum placement requirements in accordance with CSWE policies at lynetta.mathis@louisville.edu (martha.a.fuller@louisville.edu). A qualified practicum supervisor must be readily available (e.g., the supervisor has an MSSW/MSW degree from a CSWE accredited institution or similar CSWE type accreditation) and/or the applicant must participate in identifying a qualified practicum supervisor with the support of the Field Education Office. Both applicants outside of the US and outside of Kentucky must be willing to participate in the process of identifying a qualified practicum supervisor with the support of the Field Education Office. MSSW Online applicants in rural areas must consider that they may be required to travel to their practicum placements if no qualifying practicums are available in their local area.

Kent School reserves the right to request additional supportive material from persons acquainted with the applicant’s academic and/or practice capabilities.

All of the above materials must be received in the School of Interdisciplinary and Graduate Studies, Graduate Admissions by one of the deadlines listed below in the year in which you hope to begin coursework.

**MSSW Admission Deadlines**
The final deadline varies as explained below, but because entry into the program is highly competitive, applicants are encouraged to submit their applications early to ensure a space. All admissions materials must be received in the School of Interdisciplinary and Graduate Studies, Graduate Admissions by the listed date in order for an applicant to be considered for admission by a particular deadline. Earlier applicants have more practicum placement and MSSW curriculum plan options.

Kent School deadlines for admission are classified as follows:

**December 15: Concentration Deadline/Out of State Online Student Deadline**
Applicants who must meet this deadline:

- 81-credit hour MSSW-Couple and Family Therapy concentration applicants (not available to online students)
- 30-credit hour applicants who wish to apply to a concentration (CFT and School Social Work are not available to Online students)
- Out of State Online Program applicants who wish to have a curriculum plan with a practicum placement their first year of the program

**February 28: Early Bird Deadline**
Applicants who must meet this deadline:

- 30- and 60-credit hour applicants who wish to start in the Summer
- Concentration applicants may be considered on a case by case basis if space allows and an appropriate practicum is available
- Out of state online applicants may be considered if an appropriate practicum is available or if willing to consider a curriculum plan that delays practicum until the second year

**May 30: Traditional Deadline**
Applicants who must meet this deadline:

- 30-credit hour and 60-credit hour campus applicants who wish to start in the fall, any curriculum plan
- 30-credit hour and 60-hour online applicants who wish to start in the fall and are willing to select plans that delay practicum placements until the following year.

**September 30: Spring Admissions Deadline**
Applicants who must meet this deadline:

- 30-credit hour applicants who wish to start in the spring
- 60-credit hour applicants who wish to start in the spring on a 3-year curriculum plan

Exceptions to deadlines

- Applications after December 15 for 30-credit hour concentrations (on campus and online) and the 81-credit hour MSSW-CFT concentration (on campus only) will only be considered if space in the concentration is available AND if an appropriate practicum site is readily available.
- Applications submitted after May 30 will be considered on a case by case basis if space allows and ONLY if the applicant is willing to choose a curriculum plan that delays practicum until the following year. (Plans C-F for 60-credit hour, and Plans EE/FF for 30-credit hour; 30-credit hour applicants at this stage must also be working at a social service agency to be eligible for these plans in order to execute the year-long research project).
Program Requirements

The MSSW program offers a variety of both 60-hour and 30-hour Advanced Standing (for qualified BSW applicants) curriculum plans, including options for full-time, part-time, weekend and online classes. Both the Foundation and Advanced coursework years include a 16-hour/week field practicum.

There are opportunities to specialize in Alcohol and Drug Counseling, Couple and Family Therapy, Gerontology, Mental Health, Military Social Work, Psychosocial Oncology, and School Social Work, while obtaining your MSSW.

For specialization/concentration coursework requirements, please refer to the Concentration Requirements tab.

MSSW 60-Credit Hour Regular Program

Students who are admitted and do not have a Council on Social Work Education (CSWE)-accredited Bachelor of Social Work degree enter the 60-hour regular program. This program can be completed in different ways in which the shortest period is 2 years and the longest period is 4 years. Specific plans are outlined under Curriculum Plans on the Kent School website. The next listing provides a basic description of the courses needed to complete this program (all courses are 3 credit hours each):

MSSW 30-Credit Hour Advanced Standing Program

Students holding a CSWE-accredited Bachelor of Social Work degree with a cumulative grade point average of 3.00 and a 3.25 cumulative GPA in all social work foundation courses and who have demonstrated good academic performance in their social work courses may be enrolled in the 30-credit hour advanced standing Program.

This program equates to completing the 30-hour advanced portion of the 60-credit hour program. No academic credit is given for life or work experience. Advanced Standing is limited to applicants who have earned BSW degrees within the last 7 years, at the time of enrollment in the Kent School. This program can be completed in different ways in which the shortest period is 1 year and the longest period is 2 years.

Specific plans are outlined under Curriculum Plans on the Kent School website, www.louisville.edu/kent. The next listing provides a basic description of the courses needed to complete this program (all courses are 3 credit hours each):

Specialization Practicum Seminar
Couple and Family Therapy

The Couple & Family Therapy (CFT, formerly Marriage & Family Therapy/ MFT) program of study is dedicated to developing professionals in CFT (MFT) to work with at-risk individuals & families within their community contexts. The CFT program was the first, and is currently one of only two, programs accredited by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) offering combined training in M/CFT and Social Work.

MSSW-CFT students complete coursework, practicum hours and supervision necessary for licensure as Licensed Marriage and Family Therapists in the state of Kentucky, in addition to being eligible to pursue licensure as Licensed Clinical Social Workers. The CFT coursework requires two calendar years to complete and begins in the summer of the first CFT year. The MSSW-CFT curriculum meets course requirements for Kentucky licensure and clinical membership in the American Association for Marriage and Family Therapy (AAMFT). CFT coursework focuses on theoretical foundations, practical application, ethics, integration of research, theory and practice and supervised clinical practice.

### Social Work (PhD)

**Doctor of Philosophy in Social Work (SW PHD)**

Unit: Kent School of Social Work (https://louisville.edu/kent) (GK)

Department: Social Work

Program Webpage (https://louisville.edu/kent/academics/doctor-of-philosophy-in-social-work)

### Program Information

The PhD program in social work at the Kent School of Social Work, a joint program with the University of Kentucky’s College of Social Work, prepares academically motivated master’s level social workers to take on teaching, research, administrative, and policy analysis positions.

The program focuses on building research, teaching, and analytic competencies through courses on social (work) theories, advanced research design and analysis, teaching, ethics, special topics seminars, guided research practicums and independent studies.

Students have the opportunity to collaborate with a diverse group of nationally recognized faculty within the school and university with expertise in the areas of social and child welfare, child & family well-being, gerontology, health & mental health, justice & criminality, school social work, substance abuse and international social work.

Along with coursework, students are guided in developing expertise in an area of social sciences research. Areas of research have included an examination of social and health disparities, social work interventions, predictors and risk factors for substance abuse, long-term effects of maltreatment and trauma, and evaluation of training programs, to name just a few.

Students are also mentored and supported on becoming a faculty member, and balancing research, teaching, and service as they prepare for their future career.

Graduates of our program have gone on to work as faculty members in schools of social work nationally and internationally as well as in a variety of other research, administrative and policy positions.

### Admission Requirements

To apply to the doctoral program in social work send the following materials by January 5 to:

**School of Interdisciplinary and Graduate Studies**

**Graduate Admissions**

University of Louisville

Houchens Bldg., Rm 105

Louisville, KY 40292

1. Completed Graduate Admissions Application (http://louisville.edu/graduate/apply)
2. Application for Admission to the UofL PhD in Social Work Program (http://louisville.edu/graduate/apply)
3. Official transcripts from each college/university attended, and documentation of the receipt of a master’s degree in Social Work, e.g. MSW, MSSW, from a CSWE accredited program or international equivalent.
4. Official report of GRE scores
5. Three recommendations (at least two from academicians)
6. Application fee
7. A current resume
8. A sample of scholarly writing

9. A personal statement of career goals, research interests, and reasons for pursuing doctoral studies (no more than 3 pages).

**The admission process involves the following:**
- Review of application materials by the doctoral admissions committee
- Admission committee interviews with those recommended
- Recommendation to the School of Interdisciplinary and Graduate Studies

Students are expected to hold a master’s degrees in Social Work—i.e., MSW, MSSW—from programs accredited by the Council on Social Work Education (CSWE), or international equivalents. Two years of full-time post-master’s degree experience is advised.

**Doctoral Comprehensive Examination**

The purpose of the comprehensive exam is to provide a format in which students can demonstrate their abilities to apply and integrate the whole of their educational experiences by adequately addressing complex questions pertinent to social work’s current and developing a knowledge base, and their individual research areas.

A student is eligible to take the comprehensive exam upon successful completion of 50 credit hours of core and individualized course work. Students are expected to provide answers that integrate knowledge from all required courses.

Following the passage of the comprehensive exam, students are admitted to candidacy status.

**Doctoral Dissertation**

After admission to candidacy, students proceed to propose, complete and defend their dissertations. The dissertation must represent independent research and should be based on original research questions or hypotheses.

This process includes a) a concept paper, b) a formal proposal, and c) conducting the research and writing the dissertation. Dissertation committees have at least five members, one of whom is from the University of Kentucky.

**Sociology (MA)**

**Master of Arts in Sociology (SOCIMA)**

Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)

Department: Sociology (https://louisville.edu/sociology)

**Program Information**

The Department of Sociology, in the College of Arts and Sciences, offers graduate training leading to the master of arts in sociology and seeks to provide graduate education at the highest standards, introducing students to the current state of sociological knowledge and methods through quality classroom instruction, faculty-student collaboration, and independent student research and practical learning opportunities.

The program is designed to prepare students for the pursuit of a PhD in sociology or for moving directly into the workforce for a career in government, nonprofits, or the private sector.

**Accelerated BA-BS/MA in Sociology**

The Department of Sociology offers an accelerated master’s degree program, which is designed to allow motivated undergraduates the opportunity to earn graduate credit hours in sociology during their senior year. As undergraduates, accelerated students may earn between 6-9 credit hours (taking 2-3 graduate level courses), which are applied toward both the undergraduate degree as well as the graduate degree, allowing students to begin the graduate program in sociology with credits already applied toward their MA degree.

The graduate courses taken during the student’s senior year will depend on the courses the student has remaining to complete his/her undergraduate degree in sociology. The undergraduate advisor works individually with accelerated students regarding their course schedules.

**NOTE:** Students in the accelerated program in sociology may only apply their graduate credits earned as an undergraduate toward the graduate degree in sociology at UofL.

To be admitted to the program, a student must have: an undergraduate GPA of 3.35 or better at the time of application and satisfactory GRE scores (see Admissions tab for more information).

**Admissions Requirements**

Applicants are examined holistically using the following information in the admissions decisions: GRE scores, GPA, quality of the undergraduate program from which the applicant graduated, two academic letters of recommendation, a personal statement, and possibly an interview with the candidate.

The Department of Sociology is committed to fostering diversity by considering factors such as race, ethnicity, gender, sexuality, age, and social class in its graduate and undergraduate programs, as such, background factors and circumstances will be considered when reviewing applications.
While the Graduate Admissions Committee does not base admission solely on meeting—or not meeting—certain criteria, chances of admission are improved with the following:

- Undergraduate GPA of 3.2;
- Verbal and quantitative GRE (http://louisville.edu/lifelonglearning/test-preparation.html) scores;
- Previous undergraduate course work in statistics, methods, and theory*; and
- International students should also have either (a) a TOEFL score of at least 550 (on the paper-based test), 213 (on computer-based test) or 79-80 (on the internet-based test), or (b) a IELTS score of at least 6.5.

*Students may be allowed to make up deficiencies or use equivalent undergraduate courses for these prerequisites. Students who have completed similar courses in these areas may be asked to provide both the course syllabus and completed course work to determine equivalency. Students should contact Dr. Jonetta Weber (jonettaweber@louisville.edu) to discuss any questions regarding these prerequisites.

In exceptional cases, students not qualified for regular admission may be conditionally admitted by action of the Graduate Admissions Committee.

We encourage anyone interested in our graduate program to apply, regardless of GRE scores or grade point averages from undergraduate work or previous graduate work. When making our admission decisions, we holistically consider GRE scores and GPAs alongside personal statements and letters of recommendation (and other materials), knowing that low GRE/GPA numbers can be offset by other personal strengths. We do, however, prefer individuals with undergraduate GPAs of 3.2 or above, and (if applicable) graduate degree GPAs of 3.5 or above.

We encourage anyone who is considering applying to our graduate program to visit our department and meet with our faculty members and current graduate students.

Program Admission Procedure

All applicants must submit to the School of Interdisciplinary and Graduate Studies, Graduate Admissions:

- A graduate application (http://louisville.edu/graduate/futurestudents/apply-materials/application)
- Official copies of transcripts from all colleges attended (students with a foreign transcript must submit an evaluation of the transcript from World Education Services (www.WES.org) or Educational Credentials Evaluators (www.ECE.org) in the form of a discursive letter of recommendation and completion of the Letter of Evaluation form (https://sharepoint.louisville.edu/sites/SIGS/Documents/Grad-rec.pdf)
- Two references (preferably from sociology instructors) in the form of a discursive letter of recommendation
- GRE scores (GRE scores should be no older than five years unless a graduate degree has been earned within the last five years)
- A curriculum vitae or resume
- For international students, TOEFL or IELTS scores.

Applicants must also submit to Dr. Jonetta Weber (jonettaweber@louisville.edu) a personal statement (~500-750 words) addressing the questions below and giving the Sociology Departments Admissions Committee a basis for evaluating the student's interest in and ability to complete the program:

- What are your professional or occupational objectives, and how do you envision the department's program fitting into those objectives?
- What areas of sociology do you find especially interesting for study and/or research, and with which sociology faculty might you be interested in working?

Application Deadlines and Graduate Assistantships

The Sociology Department has available annually a limited number of graduate assistantships.

The application deadline for students not seeking funding is June 1 for fall admission and November 1 for spring admission. (Late applications may be considered on an individual basis.) The Department of Sociology does not admit students during the summer session.

The application deadline for students seeking funding (in the form of a graduate assistantship) is January 5 of the preceding year for fall admission and October 1 for spring admission. The materials must also be accompanied by a letter of interest (a) indicating that the applicant wishes to be considered for an assistantship, and (b) elaborating why the applicant feels that s/he would be a good candidate for an assistantship.

Accelerated BA-BS/MA in Sociology Application Procedure

Students must apply during the first or second semester of Junior year (i.e., when they have earned between 70-80 hours) by submitting the following to the Graduate Admissions Office:

- 6 (http://louisville.edu/graduate/futurestudents/apply-materials/application) graduate application (http://louisville.edu/graduate/futurestudents/apply-materials/application)
- Two references (preferably from sociology instructors) in the form of a discursive letter of recommendation and completion of the Letter of Evaluation form (https://sharepoint.louisville.edu/sites/SIGS/Documents/Grad-rec.pdf)
- GRE scores.

Applicants must also submit to the Department of Sociology responses to the Sociology Graduate Admissions Questionnaire (below).

Responses should be of sufficient length to give the Graduate Admissions Committee a basis for evaluating the student's interest in and ability to complete the program, and provide a sample of the student's writing. Responses can be submitted in four separate essays or combined in one longer essay.

Admissions Questionnaire

1. Please explain your reasons for applying to the accelerated master's program in sociology. What are your professional or occupational objectives (including any study beyond the master of arts in sociology)? How does this department's program fit into those objectives?
2. What areas of sociology do you find especially interesting for study and/or research?
3. What positions of responsibility, if any, have you had, and what, specifically, do you believe you have gained from such experience? Positions may include not only employment, but offices held in organizations, volunteer work, etc.
4. Please summarize what you believe to be your most important accomplishments to date, including those in the academic or occupational areas.

Minimum Total Hours: 34

**Sociology, Applied (PhD)**

**Doctor of Philosophy in Applied Sociology (ASCPHD)**

Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)

Department: Sociology (https://louisville.edu/sociology)

Program Webpage (https://louisville.edu/sociology/graduate-studies/phd-in-applied-sociology)

**Program Information**

The Department of Sociology offers a PhD in Applied Sociology, which is focused on training professional researchers at the highest level to follow the discipline’s focus on bringing scientific understandings to the study of social issues and problems. Training is designed to prepare students for both academic careers and meeting the growing demand for applied sociologists who are qualified to address directly the problems facing not only our state but also our nation and the world.

**Admissions Requirements**

Applicants are examined holistically using the following information in the admissions decisions: GRE scores, GPA, quality of the program from which the applicant graduated, three academic letters of recommendation, a personal statement, and an interview with the candidate.

The Department of Sociology is committed to fostering diversity by considering factors such as race, ethnicity, gender, sexuality, age, and social class in its graduate and undergraduate programs; as such, background factors and circumstances will be considered when reviewing applications.

While the Graduate Admissions Committee does not base admission solely on meeting—or not meeting—certain criteria, as a guideline, chances of admission are improved with the following:

- Graduate GPA of 3.5;
- Combined verbal/quantitative GRE score;
- Previous graduate course work in statistics, methods, and theory*;
- Completed thesis (or original independent work of research from another accredited graduate program); and

* International students should also have either a) TOEFL score of at least 550 (on the paper-based test), 213 (on computer-based test) or b) 79-80 (on the internet-based test) or an IELTS score of at least 6.5.

*Students may be allowed to make up deficiencies or use equivalent graduate courses regarding these prerequisites. Students who have completed similar courses in these areas may be asked to provide both the course syllabus and completed course work to determine equivalency. Students should contact Dr. Jonetta Weber (http://louisville.edu/cgi-bin/uofl.mail?name=jonettawebber) to discuss any questions regarding these prerequisites.

In exceptional cases, students not qualified for regular admission may be conditionally admitted by action of the Doctoral Admissions Committee.

We encourage anyone interested in our graduate program to apply, regardless of GRE scores or grade point averages from undergraduate work or previous graduate work. When making our admission decisions, we holistically consider GRE scores and GPAs alongside personal statements and letters of recommendation (and other materials), knowing that low GRE/GPA numbers can be offset by other personal strengths. We do, however, prefer individuals with undergraduate GPAs of 3.2 or above, and (if applicable) graduate degree GPAs of 3.5 or above.

We encourage anyone who is considering applying to our graduate program to visit our department and meet with our faculty members and current graduate students.

**Application Deadline**

The deadline for applications for admission to the fall semester is June 1 and November 1 for the spring semester. (Late applications may be considered on an individual basis.) The Department of Sociology does not admit students during the summer session.

Students interested in being considered for a doctoral assistantship (http://louisville.edu/sociology/academic-programs/doctoral/doctoral-assistantships.html) must submit their application materials (along with a letter of interest a) indicating that they wish to be considered for an assistantship and b) elaborating why they feel they would be a good candidate for an assistantship) by January 5 for the fall semester and October 1 for the spring semester.

**Application Materials**

Applicants must submit to the Graduate Admissions Office:

- A graduate application (http://louisville.edu/graduate/futurestudents/apply-materials/application)
- Official copies of transcripts from all colleges attended (students with a foreign transcript must submit an evaluation of the transcript from World Education Services (www.WES.org (http://www.wes.org)) or Educational Credentials Evaluators (www.ECE.org (http://www.ece.org))
- Three references (preferably from former instructors, and in sociology, if possible) in the form of a discursive letter of recommendation and completion of the UofL Letter of Evaluation form (http://louisville.edu/graduate/futurestudents/apply-materials/application))
- A curriculum vitae (CV)
The Master of Arts in Spanish at the University of Louisville offers broad-based coverage of fields in Hispanic studies, including literary/cultural studies, Spanish linguistics, and translation/interpretation. Through a combination of core courses taught exclusively in Spanish, electives taken either in Spanish or in contiguous programs of study, and faculty-directed research, students develop mastery in one of these fields, preparing themselves for greater competitiveness in doctoral programs in Hispanic studies or Spanish linguistics; more effective service to the Hispanic community; and/or increased cultural competence in the global workplace.

### Program Information

The Master of Arts in Spanish at the University of Louisville offers broad-based coverage of fields in Hispanic studies, including literary/cultural studies, Spanish linguistics, and translation/interpretation. Through a combination of core courses taught exclusively in Spanish, electives taken either in Spanish or in contiguous programs of study, and faculty-directed research, students develop mastery in one of these fields, preparing themselves for greater competitiveness in doctoral programs in Hispanic studies or Spanish linguistics; more effective service to the Hispanic community; and/or increased cultural competence in the global workplace.

### Admission Requirements

A prerequisite for admission to the Spanish MA is advanced proficiency in Spanish (speaking, aural comprehension, reading, and writing) and significant previous study of the Spanish language and Hispanic literature and cultures. Applicants who do not hold a BA in Spanish or the equivalent by their intended start date may be required to take remedial coursework to make up for any deficiencies.

Applications are considered throughout the academic year for admission in fall, spring, or summer, although priority will be given to applications received at least six weeks prior to the intended start date. The Director of Graduate Studies in Spanish reviews applications and, in consultation with the Spanish graduate faculty, makes all admission decisions. In rare cases, applicants may be admitted on a conditional basis even though application materials are incomplete.

The complete application includes:

- School of Interdisciplinary and Graduate Studies application and application fee.
- Transcripts from all accredited institutions where undergraduate and/or graduate credit was earned (submitted directly to the School of Interdisciplinary and Graduate Studies by the institution). Minimum GPA required for undergraduate work: 3.0 on a four-point scale.
- Two letters of evaluation (submitted directly to the School of Interdisciplinary and Graduate Studies by the evaluators). Detailed comments should accompany the evaluation form and address specifically the applicant’s proficiency in both Spanish and English, preparation in Hispanic studies, and potential to do graduate work.
- A personal statement of 400-500 words, written in Spanish, discussing how the MA in Spanish relates to the applicant’s professional or personal goals.

### Spanish (MA)

**Master of Arts in Spanish (SPANMA)**

Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)

Department: Classical and Modern Languages (https://louisville.edu/modernlanguages)

Program Webpage (https://louisville.edu/spanish)

The combined BA/MA program is an accelerated option for motivated and highly prepared undergraduates at the University of Louisville who wish to prepare themselves for the global economy, a multicultural community, and a changing workplace through the study of language, culture, linguistics, translation, and interpreting. Students admitted to the program may apply up to nine (9) credit hours of graduate coursework towards both the BA in Spanish and the MA in Spanish. After completing the undergraduate program and receiving the BA, the student will enter the graduate program and complete the remaining requirements for the MA.

To be considered for admission to the accelerated program, students must:

- Have a minimum overall grade point average (GPA) of 3.35.
- Complete an application for admission to the Spanish BA/MA (including two letters of evaluation) no later than the end of the junior year.

To be considered for admission to the accelerated program, students must:

- Have a minimum overall grade point average (GPA) of 3.35.
- Complete an application for admission to the Spanish BA/MA (including two letters of evaluation) no later than the end of the junior year.

Full details are available on the program website.

### Accelerated BA/MA in Spanish

The combined BA/MA program is an accelerated option for motivated and highly prepared undergraduates at the University of Louisville who wish to prepare themselves for the global economy, a multicultural community, and a changing workplace through the study of language, culture, linguistics, translation, and interpreting. Students admitted to the program may apply up to nine (9) credit hours of graduate coursework towards both the BA in Spanish and the MA in Spanish. After completing the undergraduate program and receiving the BA, the student will enter the graduate program and complete the remaining requirements for the MA.

To be considered for admission to the accelerated program, students must:

- Have a minimum overall grade point average (GPA) of 3.35.
- Complete an application for admission to the Spanish BA/MA (including two letters of evaluation) no later than the end of the junior year.

Full details are available on the program website.
• A sample of academic writing of at least five pages, preferably a research paper written as part of the requirements for a university-level course. (May be in English or Spanish.)
• TOEFL scores (for applicants for whom English is a second language).
  Minimum required: 79 or higher on the internet-based test, 213 or higher on the computer-based test, or 550 or higher on the paper-based test (applicants holding a bachelor's or advanced degree from an accredited institution in the United States are exempt from this requirement).

NOTE: While submission of GRE scores is not required for admission to the Spanish MA program, it is strongly recommended for applicants who wish to be considered for a graduate teaching assistantship or other university-awarded fellowship.

All application materials should be submitted to:

School of Interdisciplinary and Graduate Studies
Graduate Admissions
Houchens Building, Suite 105
Louisville, KY 40292

or submitted via the online application at louisville.edu/graduate/apply.

**Admission in non-degree status**

Applicants who do not seek the Spanish MA but wish to take graduate course work in Spanish may apply for admission in non-degree status. Application credentials must include the application form, application fee, and an official transcript showing the award of a baccalaureate degree. Should a non-degree student be admitted at a later date into the degree program, up to nine (9) credit hours of coursework taken in non-degree status may be applied to the degree with departmental approval. No more than 15 credit hours may be accumulated while in non-degree status.

**Graduate Teaching Assistantships**

Graduate teaching assistantships most often take the form of a one-year appointment awarded to students just beginning the Spanish MA program (renewable for a second year if the student remains in good standing). GTAs are expected to perform a variety of duties (including teaching) in conjunction with a full-time load of nine (9) credit hours per semester, completing their degree at the end of their second year.

Exceptionally, the program awards one-year assistantships to current Spanish MA students who will have completed 18 credit hours of graduate credit by the start date of the appointment. Such GTAs are assigned immediately to teach basic language and are expected to complete their degree by the end of the appointment year.

Competition for graduate teaching assistantships takes place in the spring, with appointments beginning in fall of the next academic year. Applicants to the Spanish MA program who wish to be considered for a graduate teaching assistantship must submit a separate graduate teaching assistantship application (available on the program webpage) in conjunction with their application for admission to the Spanish MA. For full consideration, all application materials must be submitted by February 28.

**Accelerated BA/MA in Spanish**

To be considered for admission to the accelerated program, students must:

• Have a minimum overall grade point average (GPA) of 3.35.
• Complete an application for admission to the Spanish BA/MA (including two letters of evaluation) no later than the end of the junior year.

Full details are available on the program website.

**Program Requirements**

The MA in Spanish requires 30 credit hours of academic coursework at the graduate level, of which at least 18 credit hours must be taken at the 600-level. Upon approval of the Director of Graduate Studies, up to six (6) credit hours of graduate-level coursework taken at another institution or through an accredited study abroad program may be applied toward the degree.

Students must take SPAN 611 Introduction to Methods and Research in Hispanic Studies within the first year of their admission to the program.

In their final semester, all students are required to complete a Directed Research Project under the direction of a faculty mentor and present their findings in a public forum.

**Directed Research Project**

Minimum Total Hours 30

Students enrolled in the Spanish MA program may count up to 12 credit hours of coursework for the Translation and Interpreting Certificate program (p. 1078) toward their MA degree requirements.

**Special Education, Non-Teaching (MEd)**

**Master of Education in Special Education (SPE MED)**

Unit: College of Education and Human Development (GE) (http://louisville.edu/education)
Department: Special Education (http://louisville.edu/education/departments/sped)
Program Webpage (http://louisville.edu/education/degrees/med-se)

**Program Information**

This program is not designed to lead to teacher certification.

The non-teaching master's degree in Special Education is designed to advance the knowledge and expertise of professionals who are delivering services for children and adolescents with disabilities through
comprehensive-care centers, institutions, hospitals, clinics, day care centers, preschools, and community programs.

**Admission Requirements**

Admission requirements for this program include the following:

- Application to the School of Interdisciplinary and Graduate Studies ([http://louisville.edu/graduate/apply](http://louisville.edu/graduate/apply))
- Official transcripts with a 2.75 minimum GPA in the Bachelor's degree and a 3.0 or higher GPA for graduate work
- Two letters of recommendation
- Official GRE scores
- Personal statement
- Current Resume

Candidates who earned a baccalaureate (and/or advanced) degree outside the U.S., and whose native language is not English, also must submit official TOEFL scores that meet minimum criteria, and must submit an evaluated transcript from WES (World Education Services) or ECE (Educational Credential Evaluators).

Special Education (MEd)

Master of Education in Special Education (SPEMED)
Unit: College of Education and Human Development (http://louisville.edu/education) (GE) (http://louisville.edu/education)
Department: Special Education (http://louisville.edu/education/departments/sped)
Program Webpage (https://louisville.edu/education/degrees/med-se)

Program Information

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs/index/masters/master-of-education-in-special-education).

The MEd in Special Education with a concentration in Learning and Behavior Disorders, or Moderate and Severe Disabilities, is designed for the Kentucky certified teacher to add certification. Bachelor’s-level certified teachers may use the program to add certification in LBD or MSD, and complete the required Rank II/master’s degree. Teachers who have already earned a master’s degree may use the program to add certification and complete the Rank I.

Learning and Behavior Disorders
Through the MEd in Special Education with a concentration in Learning and Behavior Disorders program, teachers increase their knowledge and expertise in teaching students with Behavior Disorders, Learning Disabilities, Mild Mental Disabilities, and Orthopedic Impairments at all grade levels from kindergarten through high school.

Moderate and Severe Disabilities
The MEd in Special Education with a concentration in Moderate and Severe Disabilities program prepares candidates to teach students with intellectual disabilities that impede academic achievement and adaptive behavior skills (e.g., communication, social behavior, and daily living activities).

Elementary teachers work primarily with beginning or remedial skills in academic content (English language arts, math, science, and social studies) and adaptive behaviors. Middle Grades and Secondary teachers address these skills in addition to preparing students to transition to vocations or to post-secondary education.

---|---
EDSP 647 | Teaching Mathematics to Students with Disabilities
EDSP 512 | Methods for Students with Learning and Behavior Disorders
EDSP 516 | Assessment Procedures for Students with Learning & Behavior Disorders
EDSP 675 | Characteristics, Needs, and Responses to Students with EBD
EDSP 518 | Teaching Reading Special Education P-12 or EDSP 650 Advanced Applied Behavior Analysis

Minimum Total Hours | 36

**Midpoint Assessment**: Cumulative GPA of 3.0 or higher; grade no lower than B- in all coursework; Exemplary or Target performance on all Hallmark Assessment Tasks; scored Exemplary or Target performance on all Advanced Program rubrics.

**Exit Assessment**: Cumulative GPA of 3.0 or higher; grade no lower than B- in all coursework; scored Exemplary or Target performance on all Hallmark Assessment Tasks; scored Exemplary or Target performance on all Advanced Program rubrics; positive recommendation from the Special Education Program Committee.

**Degree Candidacy**: Students not enrolled during the semester in which they intend to graduate must register for degree candidacy as outlined in the Graduate Catalog (p. 802).

Successful completion of appropriate PRAXIS Exams is required for Learning and Behavior Disorders teacher certification.

**PRAXIS Disclaimer**:

"Teacher certification requirements are subject to change. Before registering for PRAXIS test(s), please refer to the Education Professional Standards Board (EPSB) website at epsb.ky.gov (http://www.epsb.ky.gov) or ets.org/praxis (http://www.ets.org/praxis/ky?WT.ac=praxishome_states_150414) for current requirements."

1 Course is required for certification.

**Special Education - Advanced Practitioner P-12 (RANK1)**

Rank 1 Program in Special Education - Advanced Practitioner P-12 (SPE RK1)

Unit: College of Education and Human Developments (GE)
Department: Special Education
Program Information

Rank 1 programs are not degree programs.

Rank 1 programs are planned graduate level programs designed for Kentucky teachers seeking rank change for salary purposes. They are recognized only in the state of Kentucky. By state regulation, Rank 1 status is 60 credit hours of approved graduate credit including a master's degree.

Admission Requirements

- Application to School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply)
- Official transcripts with a minimum 2.75 GPA in the Bachelors degree and 3.0 GPA or higher for graduate work
- Kentucky teaching certificate
- Master's degree/Rank II
- Signed Professional Code of Ethics/Technology User Agreement form

Candidates who earned a baccalaureate (and/or advanced) degree outside the U.S., and whose native language is not English, must submit official TOEFL scores that meet minimum criteria, and must submit an evaluated transcript from WES (World Education Services) or ECE (Educational Credential Evaluators).

Minimum Total Hours 30

**Midpoint Requirement:** Candidates are required to submit a mid-program performance assessment to their faculty advisor at the completion of 15 credit hours of coursework. The faculty advisor will assess the candidate's performance, which must be at the exemplary or target level. The performance assessment must address content, classroom environment, teaching, assessing, and reflection, and an artifact such as a video, to document professional learning.

**Exit Requirement:** Project that demonstrates exemplary or target in all of the Kentucky Teacher Performance Standards.

A Minimum of 15 credit hours in 600-level courses is required. Up to 15 hours of graduate credit may be transferred to the Rank 1 program, as long as the student will have completed 60 hours of approved graduate credit including a master's degree at the end of the Rank 1 program. Transfer credit must be officially accepted by the advisor and final acceptance is dependent upon receipt of official transcripts.

In the Rank 1 program, at least 15 credit hours of new graduate coursework must be taken at the University of Louisville.

To complete the program, students must have a minimum 3.0 grade point average. No credit shall be accepted for carrying a grade lower than B-minus.

**Special Education, Concentration in Moderate/Severe Disabilities P-12 (MAT)**

Master of Arts in Teaching in Special Education Concentration in Moderate/Severe Disabilities P-12 (SPE MATMSD)

Unit: College of Education and Human Development (https://louisville.edu/education) (GE)

Department: Special Education

Program Webpage (http://louisville.edu/education/degrees/mat-se-msd)

**Program Information**

This program leads to Kentucky certification for Moderate and Severe Disabilities, grades P-12. Applicants to the program should have excellent academic credentials as well as successful experience working with children and/or adults with Moderate and Severe Disabilities (MSD). Completion of this degree/licensure program will lead to certification as an MSD teacher only (not an Elementary, Middle or Secondary content area teacher).

Students must complete weekly field hours in school or community placements that serve individuals with moderate and severe disabilities. Prior to the end of the program a 12-week student teaching placement must be successfully completed.
Admission Requirements

Candidates who meet the following criteria may be eligible to apply to the Master of Arts in Teaching program:

1. Application to School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply). This should be completed three to four weeks prior to the application deadline.
2. Minimum Test Scores (http://louisville.edu/education/degrees/info/gre-mat) as required by the Kentucky Education Professional Standards Board. Please note: when submitting test scores through ETS, use the general University of Louisville code, 1838.
3. Bachelor’s Degree from Accredited College or University (http://louisville.edu/education/degrees/info/bachelors) with a Minimum 2.75 Grade Point Average (official transcripts (http://louisville.edu/education/degrees/info/transcripts) required)
4. Grade of C or better in ENGL 102, or equivalent
5. Grade of C or better in oral communication course
6. TOEFL (http://louisville.edu/education/degrees/info/toefl)
7. Professional (http://louisville.edu/education/degrees/info/mat-se-professional-statement) Writing Requirements
8. Three Letters of Recommendation (http://louisville.edu/education/degrees/info/lor)
9. Acceptable interview

Questions about admission should be directed to teacher@louisville.edu. Admission is competitive. Candidates who meet minimum academic requirements are not guaranteed admission to the program.

Sport Administration (MS)

Master of Science in Sport Administration (SPADMS)
Unit: College of Education and Human Development (https://louisville.edu/education) (GE)
Department: Health and Sport Sciences (https://louisville.edu/education/departments/hss)
Program Webpage (http://catalog.louisville.edu/graduate/programs-study/master-science-sport-administration/louisville.edu/education/degrees/ms-sa)
Program Information

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs).

The Master of Science in Sport Administration is accredited by the Commission on Sport Management Accreditation (COSMA).

The College of Education and Human Development’s Sport Administration (SPAD) program at the University of Louisville prepares students for a variety of management positions in the sport industry. The goals of the faculty and the program are to create an active learning environment for each student and to encourage students to demonstrate a commitment to education, community involvement, and their fellow students. A strong foundation in education, community service, peer networks, and alumni networks is invaluable to students as they prepare to enter the sport industry. Exceptional theoretical and practical knowledge gained through the Sports Administration Program will also provide students with the foundation to become the next generation of leaders, decision makers, and managers in the sport industry.

Admission Requirements

Admission will be based on a holistic approach using the following:

- GPA and GRE scores
- Prior course work
- Experience
- Two (2) letters of recommendation
- Resume
- A personal statement explaining interest in the program and long-term objectives

In addition, the student must complete the application procedure as required by the School of Interdisciplinary and Graduate Studies.

Students are recommended to have earned a grade-point average of at least 2.75 on a 4.0-point scale. Successful students in the MS in Sport Administration program average a combined (verbal and quantitative) GRE score of 300 and a 4.0-4.5 on the Analytical section.

Admission to the program is competitive.

Structural Engineering (CERT)

Graduate Certificate in Structural Engineering (STENCSE)

Unit: Speed School of Engineering (https://louisville.edu/speed) (GS)
Department: Civil & Environmental Engineering (https://louisville.edu/speed/co-opCareerDev/students/engineeringDisciplines/CE)
Program Webpage (https://louisville.edu/online/programs/certificate-programs/structural-engineering)

Program Information

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs).

The Civil and Environmental Engineering Department at the J.B. Speed School of Engineering offers an online graduate certificate program in structural engineering to help professionals gain expertise in the field. This certificate provides an excellent opportunity for professionals with a BS in Civil Engineering degree who:

- May have received a job assignment that requires knowledge in structural engineering
- May have fundamental knowledge in Civil Engineering but may need additional skills and formal education in the field of structural engineering
- May need a credential alternative to a full master’s degree
- May want to save time and money by choosing to complete a certificate program

The graduate certificate in structural engineering is comprised of 4 courses (3 required core courses and 1 elective) for a total of 12 credit hours. The online program can be completed within one year.

Credits earned may be applied to the Master of Science in Civil Engineering. Students must apply and be admitted to the master’s degree program separately.

Admission Requirements

The admission standards for the Graduate Certificate program in Structural Engineering are as follows:

1. All admission applications for the Graduate Certificate program shall include:
   a. A completed application (http://louisville.edu/graduate/apply) for the School of Interdisciplinary and Graduate Studies,
   b. An application fee,
   c. Official transcript(s) for all previous post-secondary coursework. All transcripts not in English must be certified as authentic and translated verbatim into English.

2. The minimum requirement for admission is the baccalaureate degree in Civil Engineering or its equivalent from an accredited institution.

3. The successful applicant will typically have an undergraduate grade point average of 2.75 or above (on a 4.00 scale).

4. International students whose primary language is not English must show English language proficiency. Applicants must either submit an
official TOEFL or IELTS score or demonstrate a degree award from an acceptable English language institution. The successful applicant will typically have a total TOEFL score of 80 or higher or an overall IELTS score of 6.5 or higher.

Students can enroll in a Graduate Certificate program either as a non-degree seeking student or as a student simultaneously enrolled in a graduate degree program and this graduate certificate program. Students who wish to earn a graduate degree must meet all admission criteria for the degree program.

All students enrolled in a graduate certificate program are expected to make steady and satisfactory progress toward the completion of the certificate. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the certificate program. Students who seek to return after such a period of time must contact the graduate program director.

Certificate Requirements

The following certificate requirements are mandatory for all Graduate Certificate candidates:

1. The Certificate Program of Study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy certificate requirements.
2. Graduate certificate students must take all certificate course work at the University of Louisville. No transfer credits will be accepted toward a graduate certificate.

Minimum Total Hours 12

The Certificate Program of Study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy certificate requirements.

Graduate certificate students must take all certificate course work at the University of Louisville. No transfer credits will be accepted toward a graduate certificate.

Studio Art and Design (MFA)

Master of Fine Arts in Studio Art and Design (SAD MFA)
Unit: College of Arts and Sciences (GA)
Department: Fine Arts
Program Webpage (http://louisville.edu/art)

Program Information

The 60-credit hour MFA curriculum is structured according to guidelines established by the College Art Association of America (CAA). The professionally compliant curriculum, rigorous admissions and evaluation standards, quality and variety of courses, and the faculty mentoring structure will ensure that students accomplish the program objectives.

The MFA curriculum is rigorous and professional. The program is highly selective to allow students generous access to program faculty and resources. The graduate faculty provides students with individual attention, respects students’ individual directions, and challenges students to explore new avenues of artistic discovery.

Drawing from the diverse expertise of an outstanding faculty, students in the MFA program may choose to focus in one medium or explore and combine a variety of media. Courses are offered in ceramics, drawing, fibers, glass, painting, photography, printmaking, sculpture, graphic design, mixed media, and new media.

Admission Requirements

Successful applicants will have a superior academic background and a strong commitment to art. MFA students are expected to have a thorough understanding of the principles of form, proficiency in various media and technical skills, as well as a fluency in language and discourse in the historic and contemporary contexts.

The minimum requirement for admission is an undergraduate degree in studio art from an accredited college or university with a minimum of 48 credit hours of undergraduate work in studio courses and 12 credit hours in art history courses. A BFA in Studio Art is recommended. Applicants must have a minimum undergraduate grade point average of 3.0 on a 4.0 scale. Applicants must present a portfolio of work which shows technical and conceptual competency and demonstrates the promise necessary to succeed.

Students who do not meet the minimum credit requirements in undergraduate level courses (such as those who have completed a BA rather than a BFA degree) will be required to address any deficiencies by taking undergraduate courses before admitted to the program. These courses will not count toward the requirements for the MFA degree. Students must maintain a 3.0 GPA in all coursework, including undergraduate courses taken to remove deficiencies.

Application Requirements

1. Applicants to the MFA program must fulfill the general admission requirements of the College of Arts and Sciences. To meet the College of Arts and Sciences requirements applicants must hold a bachelor’s degree from an accredited institution with a grade point average of 3.0 on a 4.0 scale and have completed an undergraduate major or the equivalent in the intended field of study.
2. Applicants must submit the following to the School of Interdisciplinary and Graduate Studies, Graduate Admissions, at the University of Louisville (louisville.edu/graduate/apply):
   a. An Application for School of Interdisciplinary and Graduate Studies, Graduate Admission
   b. An application processing fee
   c. At least two letters of recommendation specific to the program
   d. And official transcripts of all college work.
Program Requirements

The MFA program requires a minimum total of 60 credit hours (31 of which must be at the 600 level).

Upon entering the MFA program, the student will select an advisor/mentor with whom he/she will develop a plan of study. In consultation with this mentor, the student will select courses that follow this plan and ensure timely progress toward graduation. The instructor of each course will evaluate the student’s level of achievement and progress in that particular class. Additionally, the student’s progress will be reviewed and evaluated in each of the four required seminar courses. Each student's faculty mentor will, on a regular basis, review the progress of the students they are supervising and provide the information necessary for the Director of Graduate Studies for Studio Art and Design program to provide an annual review for the School of Interdisciplinary and Graduate Studies.

Upon completion of the first year and a minimum of 18 credit hours, and again upon completion of the second year and a minimum of 36 credit hours, the student will undergo an MFA Review where their progress will be evaluated by a committee comprised of a minimum of three members of the faculty. The MFA student’s faculty mentor will serve as chair of the committee. Students who receive a favorable evaluation will be allowed to continue in the program and prepare a body of artwork for their thesis exhibition. Students who do not pass an MFA Review will be re-evaluated in the following semester. Students who receive two unsatisfactory evaluations may be recommended for dismissal.

Each MFA candidate will work closely with his/her mentor to develop a body of work for thesis and exhibition. During the last semester of study, the student must demonstrate artistic accomplishments through a thesis body of work for thesis and exhibition. During the last semester of study, the student must demonstrate artistic accomplishments through a thesis.

Program Information

This program can be completed in a traditional classroom format or entirely online.

Satisfactory progress toward the degree requires successfully performing a number of activities, including regular enrollment in graduate courses, a consistent satisfaction of course requirements within given time limits, and maintenance of an appropriate grade point average (minimum 3.0).

Teacher Leadership (MEd)

Master of Education in Teacher Leadership (LEADMED)

Unit: College of Education and Human Development (GE) (http://louisville.edu/education)

Program Webpage (https://louisville.edu/education/degrees/med-tl)

Program Information

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs/index/masters/master-of-education-in-teacher-leadership).

The Master of Education in Teacher Leadership at the University of Louisville was created in collaboration with P-12 classroom teachers, school district specialists, university faculty and school administrators to enhance the skills, knowledge and expertise of the Rank III certified Kentucky teacher, who has earned a bachelor's degree and wants to build his or her capacity to be a leader in the classroom, school and district.

This program may be taken online, face-to-face, or as a hybrid.

Concentration Areas

The curriculum provides opportunities for customization including endorsements, concentrations, or certificates within the program. Concentration options include:
Applicants must also submit the following:

- Admission online program must first submit the 
  - Admission Requirements

- Program Highlights
  - Individualized to meet professional goals
  - Based on three levels of leadership development
  - Specialized courses specific to content areas and grade levels
  - Preparation pathway to National Board Application
  - Courses taught by nationally recognized faculty
  - Focused on meeting needs of diverse learners
  - Emphasizes coaching and mentoring
  - Places your classroom and school as the focus of course discussions and assessments

- Concentration coursework is selected by the student in consultation with the faculty advisor.

Admission Requirements
Applicants to the Master of Education in Teacher Leadership online program must first submit the Online Graduate Application for Admission through the School of Interdisciplinary and Graduate Studies (http://graduate.louisville.edu/apply).

Applicants must also submit the following:

- Online Graduate Application for Admission (http://louisville.edu/graduate/futurestudents/apply-materials/application)
- Application fee (non-refundable)
- Valid Kentucky Teaching Certificate or Statement of Eligibility for candidates outside Kentucky (http://louisville.edu/online/programs/masters/master-of-education-in-teacher-leadership/apply/#outky).
  - If you are certified in Kentucky, please indicate that on your application. You are not required to submit this documentation as we have access through the Education Professional Standards Board.
  - If you are certified in another state, please read the Out of State Students – please list the email addresses for two recommenders in the online application. Recruiters will receive instructions and forms that they will complete online.

- Two letters of recommendation – please list the email addresses for two recommenders in the online application. Each essay should be double-spaced (Times New Roman 12 point font) and no more than three pages

  Essay #1
  In what ways has your cultural heritage and background influenced the way you teach, and impacted your interactions with others who come from a different cultural background? Describe an example of an injustice or inequity that you witnessed, experienced, or became aware of during teaching - and your response at that time. Then, explain how you would respond if it occurred again. Finally, explain how you support respect for diversity in your classroom, and how you demonstrate a commitment to social justice and equity when teaching.

  Essay #2
  Please review the Professional Dispositions Rubric [PDF] (http://louisville.edu/education/degrees/forms/dispositions-rubric.pdf) and consider how you would evaluate your areas of strength as well as those for potential growth in each of the categories. In your essay, please identify three categories that you would rate yourself as “target” or “exemplary” and explain why. Then, identify one area for professional growth, and explain how you envision this program supporting your growth in this area.

- GRE scores – not required for those with a 2.75 minimum undergraduate GPA
  - If your cumulative GPA is below 2.75, please email gedadm@louisville.edu regarding GRE minimum scores requirements.

- Official transcripts for any undergraduate work (minimum GPA of 2.75 preferred) and any graduate work (minimum GPA of 3.0 preferred)

Please have transcripts sent to:
School of Interdisciplinary and Graduate Studies
University of Louisville
Louisville, KY 40292

For electronic transcripts, please have them sent to: gedadm@louisville.edu

Note: Meeting GRE score and/or GPA minimums does not guarantee admission to the program.

Out of State Students – Out-of-state prospects who have teacher certification should be advised that we cannot guarantee the program will meet licensure, salary, advancement or other requirements in their state. As part of the admission process, we will require a written statement confirming their interest in the program for personal development and they understand the program is designed to meet Kentucky certification requirements only. For more information, please contact our academic advisor at betty.hampton@louisville.edu.

International Students – Applicants who have attended a college or university outside of the United States are also required to submit an evaluation of their transcript through either WES (World Education Services (http://wes.org)) or ECE (Educational Credential Evaluators (http://ece.org)). Please note that transcript evaluations can sometimes take several weeks.

- TOEFL – required of all foreign students from countries in which English is not the native language.
• Students who hold a baccalaureate or advanced degree from an accredited institution in the U.S. are exempt from this requirement.

**Enrollment Requirements** – Upon admission to the program, students will be assigned a faculty advisor and will work collaboratively with that advisor to complete any additional requirements needed before enrolling.

Concentration Courses 1

Elective 0-3

**Teacher Leadership - Level III**

EDAP 677 | Developing Collaborative Groups: Facilitating, Coaching and Mentoring | 3     |

EDAP 681 | Teacher Leadership in Practice                 | 3     |

Minimum Total Hours 30

1 Concentration coursework is selected in consultation with the student’s faculty advisor.

Minimum of 18 credit hours in 600-level courses is required.

Transfer credit must be officially accepted by the advisor (maximum of 6 credit hours); final acceptance is dependent upon receipt of official transcripts.

A maximum of 9 credit hours taken in non-degree status can be applied toward a master’s degree (upon approval of advisor).

All courses must be completed within 6 years of admission to the program.

**Exit Assessment:** Successful completion of all required coursework; scored Exemplary or Target on Rubrics for Advanced Candidates including dispositions assessment; minimum 3.0 GPA with no grade lower than C.

**Degree Candidacy**

Students not enrolled during the semester in which they intend to graduate must register for degree candidacy as outlined in the Graduate Catalog (p. 802).

**Theatre Arts (MFA)**

**Master of Fine Arts in Theatre Arts (TA MFA)**

Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)
Department: Fine Arts (http://louisville.edu/arts)
Program Webpage (http://louisville.edu/theatrearts)

**Program Information**

The Theatre Arts department fosters creativity, collaboration, discipline, and artistry. It embraces the theatre as a means of creative expression, cultural understanding, and social development. All students are exposed
to the diversity of multicultural theatre. The African American Theatre Program, founded in 1993, is integral to the department. 

In addition to the MFA in Theatre Arts, a Graduate Certificate in African American Theatre (p. 835) also is offered.

Admission Requirements

- Evidence of a Bachelor’s Degree and 2.75 cumulative grade point average (GPA).
- Audition at the University of Louisville or at a regional or national conference site
- Transcripts of all undergraduate and graduate work
- General Test score on the Graduate Record Examination
- Two letters of recommendation
- Personal Statement
- Writing Sample
- Department committee reviews application materials and makes a recommendation to the School of Interdisciplinary and Graduate Studies
- All applicants are automatically considered for Graduate Teaching or Research Assistantships that include full tuition, stipend, and health insurance for the academic year (August–May).

Program Requirements

MFA Candidates must complete the following course requirements. Students are paired with a faculty advisor and graduate committee to review their progress at the end of each semester, evaluating coursework, professionalism, performance projects, and any GTA responsibilities.

Translation and Interpreting (CERT)

Graduate Certificate in Translation and Interpreting (TRANCTR)
Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)
Department: Modern Languages (https://louisville.edu/modernlanguages)

Program Information

The Graduate Certificate in Translation and Interpreting focuses on translation and interpreting as a field of both professional practice and academic study. Some of the topics covered include: comparative grammar and professional writing skills; culture, literature, history and theory; professional ethics, skills and practices; translation technologies, terminology and project management; and translation and interpreting in specialized domains (medicine, law, education and social services).

</tbody>
</table>

Admission Requirements

Applicants to the Graduate Certificate in Translation and Interpreting must demonstrate advanced proficiency in both Spanish and English. Prerequisites for admission include an undergraduate/baccalaureate degree granted by an institution of higher education or its equivalent (where Spanish or English is the language of instruction). Students must meet the standard criteria for general admission to the University of Louisville’s School for Interdisciplinary and Graduate Studies, and supply all standard documentation required for admission.

Those wishing to pursue the graduate certificate in conjunction with a graduate degree program should first apply and be admitted to the degree program before applying for admission to the Graduate Certificate in Translation and Interpreting.

For admission to the certificate program the following should be submitted to the School of Interdisciplinary and Graduate Studies:

- School of Interdisciplinary and Graduate Studies application (http://louisville.edu/graduate/apply) and application fee.
- Transcripts from all accredited institutions where undergraduate and/or graduate credit was earned. Minimum GPA required for undergraduate work: 3.0 on a four-point scale (all University of Louisville transcripts will be submitted automatically with completion of an application for graduate study).
- Two letters of evaluation (submitted directly to the School of Interdisciplinary and Graduate Studies by the evaluators). Detailed comments should accompany the evaluation form and address specifically the applicant’s proficiency in both Spanish and English and potential to do graduate work.
- TOEFL iBT scores (applicants for whom English is a second language). Minimum required: 85, though evaluators will give special weight to the reading and writing scores. Applicants holding a bachelor’s or advanced degree from an accredited institution in the United States are exempt from this requirement.
• ACTFL scores Writing Test (applicants for whom Spanish is a second language). Minimum required: Advanced High. Applicants who have successfully completed graduate coursework in Spanish are exempt from this requirement.
• A personal statement of 1-2 pages (written in the applicant’s second language) discussing how the Graduate Certificate in Translation relates to the applicant’s professional or personal goals. Specify which areas of translation are of most interest and detail relevant experience.
• A Curriculum Vitae detailing experience relevant to language proficiency and especially to translation.

Complete applications to the Graduate Certificate in Translation and Interpreting are considered throughout the academic year, although priority will be given to applications received at least six weeks prior to the intended start date. The Director of the Graduate Certificate in Translation and Interpreting reviews applications and, in consultation with the graduate faculty, makes all admission decisions. In some cases, applicants may be admitted on a conditional basis even though application materials are incomplete.

All application materials should be submitted to:

School of Interdisciplinary and Graduate Studies
Graduate Admissions
Houchens Building, Suite 105
Louisville, KY 40292

or submitted via the online application at louisville.edu/graduate/apply.

Program Requirements
The Certificate in Translation and Interpreting requires completion of a minimum of five classes 1 (for a total of 15 credit hours) at the graduate level.

Minimum Total Hours 15

Coursework taken in fulfillment of requirements for the Graduate Certificate in Translation and Interpreting may in some cases count towards degree requirements in a program of graduate study (consult the Director of Graduate Studies in the particular degree program).

For students enrolled in the Spanish MA program (p. 1066), up to 12 credit hours of certificate coursework may count toward MA degree requirements.

1 Students may be required to take additional coursework (e.g., SPAN 544) to make up for language proficiency deficiencies.
2 Upon completion of at least nine (9) credit hours, students will engage in an internship or directed study, SPAN 669/TRPR 669, under the supervision of a member of the TRPR faculty (three (3) credit hours).

Transportation Engineering (CERT)
Graduate Certificate in Transportation Engineering (TRENCTE)
Unit: Speed School of Engineering (https://louisville.edu/speed) (GS)
Department: Civil Engineering and Environmental Engineering (https://louisville.edu/speed/civil)
Program Webpage (https://louisville.edu/online/programs/certificate-programs/transportation-engineering)

Program Information
This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs).

The Civil and Environmental Engineering Department at the J.B. Speed School of Engineering offers an online graduate certificate program to help professionals gain proficiencies in the field of transportation engineering. This certificate provides an excellent educational opportunity for engineers with a BS in Civil Engineering who:

• May have received a job assignment that requires knowledge in transportation engineering;
• May have fundamental knowledge in civil engineering but may need additional skills and formal education in the field of transportation engineering;
• May need an alternative to a full master’s degree; or
• May want to save time and money by choosing to complete a certificate program.

The Graduate Certificate in Transportation Engineering program is comprised of 4 courses (3 required core courses and 1 elective) for a total of 12 credit hours. The online program can be completed within one year.

Credits earned may be applied to a master’s degree in Civil Engineering. Students must apply and be admitted to the master’s degree program separately.

Admission Standards
The admission standards for the Graduate Certificate program in Transportation Engineering are as follows:

1. All admission applications for the Graduate Certificate program must include:
   • A completed application (http://louisville.edu/graduate/apply) for the School of Interdisciplinary and Graduate Studies,
   • An application fee, and
2. The minimum requirement for admission is a baccalaureate degree in Civil Engineering or its equivalent from an accredited institution.

3. The successful applicant will typically have an undergraduate grade point average of 2.75 or above (on a 4.00 scale).

4. International students whose primary language is not English must show English language proficiency. Applicants must either submit an official TOEFL or IELTS score, or demonstrate a degree award from an acceptable English language institution. The successful applicant will typically have a total TOEFL score of 80 or higher or an overall IELTS score of 6.5 or higher.

Students can enroll in a Graduate Certificate program either as a non-degree seeking student or as a student simultaneously enrolled in a graduate degree program and this graduate certificate program. Students who wish to earn a graduate degree must meet all admission criteria for the degree program.

All students enrolled in a graduate certificate program are expected to make steady and satisfactory progress toward the completion of the certificate. Students who are not enrolled for a period of more than 12 months will be considered to have withdrawn from the certificate program. Students who seek to return after such a period of time must contact the graduate program director.

</tbody>
</table>

Students will choose one of the following:

- CEE 665 Pavement Design
- CEE 663 Advanced Traffic Operations
- CEE 662 Airport Planning & Design
- CEE 660 Transportation Planning and Urban Development
- CEE 661 Environmental Analysis of Transportation Systems
- CEE 694 Special Topics in Civil Engineering

Minimum Total Hours 12

The certificate program of study must be completed with a 3.00 GPA or better for all graduate courses used to satisfy certificate requirements.

Graduate certificate students must take all certificate course work at the University of Louisville. No transfer credits will be accepted toward a Transportation Engineering graduate certificate.

**Urban and Public Affairs (PhD)**

The PhD program prepares students for careers as professors, researchers, and public servants in the fields of Urban Policy and Administration and Urbanism and Sustainable Development Planning.

Students are required to complete 48 credit hours of study. This requires a sequence of core courses consisting of 18 credit hours. Students must complete 18 credit hours in an area of specialization including at least three required courses. Two field specializations are offered: Urbanism and Sustainable Development Planning and Urban Policy and Administration. Twelve (12) credit hours of dissertation research are also required. Students must pass a qualifying examination before commencing formal dissertation work. Students should consult the Program Guidelines for details.

### Academic Policies

**Waivers And Prerequisites**

Students who have recently and satisfactorily completed equivalent courses elsewhere may request that up to nine (9) credit hours of coursework count towards their 48 credit hours of required PhD study. Students who are not prepared for advanced study or do not hold the prerequisites for a particular course will be required to complete remedial work. Such courses do not count toward degree credit. Students should consult the Program’s Student Guide (http://louisville.edu/upa/programs/phd) for details.

**Dismissal and Academic Standing**

Any student with a grade point standing below 3.0, or experiencing similar academic problems, will be placed on probation by the School of Interdisciplinary and Graduate Studies. Students are ordinarily not permitted to continue on academic probation for more than one semester. Students not rectifying these academic problems after one semester will be recommended for dismissal if academic problems are not corrected after one semester. In addition, students receiving more than two grades below a B-minus in any graduate-level course (600 level or above) will be dismissed from the program. No grade below a C-minus will be counted towards the fulfillment of degree requirements. The Program Director will review the performance of students each semester to ensure students are making satisfactory progress. Students not making satisfactory progress are subject to dismissal from the program.
Students who do not complete all program requirements within four years of reaching doctoral candidacy status ordinarily will be dismissed from the program.

Qualifying (Comprehensive) Exam
To qualify for PhD candidacy, students must satisfactorily complete a Comprehensive (or Qualifying) Examination. Students must sit for this exam as soon as they are eligible. The Comprehensive (Qualifying) Examination is held in May each year.

Consult with the Program Director and refer to the Program’s Student Guide (http://louisville.edu/upa/programs/phd) for details about the examination.

Admission Requirements
The suggested requirements for the admission to the Urban and Public Affairs doctoral program are as follows:

• Bachelor’s degree with at least a 3.0 GPA (on 4.0 scale);
• Master’s degree with at least a 3.5 GPA (on a 4.0 scale);
• GRE scores: Verbal/Quantitative/Analytical. Minimum level of proficiency required (for PhD work) in all three areas.
• TOEFL: Applicants whose native language is not English and who do not hold a degree from a university where the language of instruction is English must also submit scores from the Test of English as a Foreign Language, with a (normal) minimum score (in the range) of 100 on the internet-based test, or the International English Language Testing System (IELTS), with a (normal) minimum score of 7.5.
• A personal interview with members of the PhD Admissions Committee also may be required for applicants not fully satisfying (normal) admissions requirements. Interviews will be conducted in-person when feasible or via internet video when in-person interviews are not feasible.

Applications must include:

• All transcripts from all institutions attended;
• Supplemental application (available from department web site);
• At least two letters of recommendation (from former professors).

The program gives preference to applicants who intend to study full-time and who can be supported with financial aid (i.e., a Graduate Research Assistantship or a Fellowship).

A few (exceptionally qualified) part-time students may be admitted if they can demonstrate they have very flexible schedules and can attend daytime courses and fully participate in program and department functions.

Students should consult the Program’s Student Guide (http://louisville.edu/upa/programs/phd) for additional details and requirements.

Deadlines
Fall Admissions Deadline: July 15 (before February 1 for a University Fellowship or a Graduate Assistantship)
Spring Admissions Deadline: November 15
Summer Admissions Deadline: April 15

Program Requirements
The PhD in Urban and Public Affairs consists of 48 credit hours of study including:

• 18 credit hours of core courses,
• 18 credit hours in a field specialization, and
• 12 credit hours of dissertation research.

After completing all required coursework, including 12 credit hours of dissertation research, and passing the qualifying exam, each student is required to maintain continuous enrollment in DOCT 600 Doctoral Candidacy until he or she graduates.

Workshops
Students must complete workshops satisfactorily. Workshop will be convened by the PhD director and will normally meet 3-5 times a semester.
Dissertation Research Workshop: Students who have recently advanced to candidacy will present dissertation proposal ideas to other students and interested faculty.

Professional Development Workshop: Topics may include: academic publishing, undergraduate teaching, and the academic job market, among others.

1. UPA 606 and UPA 608 require a grade of a full B or better (not a B-minus) to demonstrate proficiency. Students may repeat either of these courses only once.

2. Prior to enrolling in UPA 608, students with limited statistical training may be required to take PADM 601/PLAN 602. However, this course will not count toward the degree program’s 48 credit hour requirement.

3. Other relevant courses can be substituted by approval of Program Director.

4. Electives must be approved by the Program Director.

5. Can be waived; see Student Guide (http://louisville.edu/upa/programs/phd).

Urban Planning (MUP)

Master of Urban Planning (URPLMUP)

Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)

Department: Urban and Public Affairs (https://louisville.edu/upa)

Program Webpage (https://louisville.edu/upa/programs/mup)

Program Information

Fully accredited by the Planning Accreditation Board (PAB) and ranked #23 nationally according in Planning Educators in the 2012 Planetizen guide, the Master of Urban Planning Program strives to play an important role in the University of Louisville’s urban/metropolitan mission by creating the best possible learning environment for the student whose goal is to become a planning practitioner, by advancing the state of knowledge in the planning field through faculty research, and by bringing that knowledge to bear on the challenges facing the community.

The Department of Urban and Public Affairs offers a Master of Urban Planning (MUP) degree in cooperation with the Department of Geography and Geosciences. The MUP Program prepares students to work in a wide variety of fields, including land use and environmental planning, urban design, historic preservation, transportation planning, open space planning, housing planning, economic development planning, real estate development, and the development of geographic information systems. With the continuing expansion of Louisville and the nation’s other metropolitan areas, urban planning is one of the leading professional fields in terms of demand and job satisfaction, according to surveys by Jobs Rated Almanac and the Encyclopedia of Careers and Vocational Guidance.

Students can specialize in one or two of four areas: land use and environmental planning; administration of planning organizations; housing and community development; and spatial analysis for planning. Students have the opportunity to benefit from working on real planning problems through the required internship and studio courses. Studio courses are taught at the Urban Design Studio, located in downtown Louisville and operated by the MUP Program.

The degree requires 48 credit hours (two years of full-time study or the equivalent in part-time study), although up to six (6) credit hours of relevant graduate course work may be transferred into the program. Students may enroll on a part-time or full-time basis. Classes are held in the evenings and on weekends to meet the scheduling needs of persons holding full-time jobs.

Admission Requirements

Applicants must hold a bachelor’s degree (any major is acceptable), must have taken the Graduate Record Examination (GRE), and must submit two letters of reference (at least one from someone familiar with the applicant’s academic abilities) and a statement of purpose.

Admission is competitive; successful candidates have received minimum scores of 144 quantitative and 153 verbal GRE and a minimum undergraduate GPA of 3.0 (B).

An application form can be obtained at the program website (http://louisville.edu/upa/programs/mup). All required application materials must first be submitted to the School of Interdisciplinary and Graduate Studies (http://louisville.edu/graduate/apply). Those materials will then be forwarded to the MUP Program for review by the Admissions Committee.

The program will notify the applicant of the Committee’s decision.

Juris Doctor/Master of Urban Planning Dual Degree Program

The Brandeis School of Law will allow students in the dual degree program to apply nine (9) credit hours of approved courses in urban planning as electives toward the JD degree. The Brandeis School of Law will accept each of these urban planning courses on a pass/fail
basis, provided that the student earn at least a B (3.0) in the course. The following MUP courses are approved to be counted as electives toward the JD degree:

Any other MUP course approved by the Associate Dean of Student Life at the Brandeis School of Law, upon individual petition by a dual-degree student.

The urban planning program will allow students in the dual degree program to apply nine (9) credit hours of approved courses in law as electives toward the MUP degree. The urban planning program will accept each of these law courses on a pass/fail basis, provided that the student earn at least a "C" (2.0) in the course. The following JD courses are approved to be counted as electives toward the MUP degree:

- LAW 862 ADMINISTRATIVE LAW
- LAW 841 Energy Law
- LAW 931 Environmental Law
- LAW 820 Constitutional Law II
- LAW 807 PROPERTY II
- LAW 902 Real Estate Transactions
- LAW 839 Water Resources Law and Policy
- Any other JD course approved by the Director of the MUP Program in the School of Urban and Public Affairs, upon individual petition by a dual-degree student.

In addition to the above cross-application of urban planning credits toward the JD degree and of law credits toward the MUP degree, students in the dual degree program shall be required to take UPA 678/PADM 688 Land Use and Planning Law, a 3-credit hour interdisciplinary course cross-listed in both law and urban planning. Land Use and Planning Law (PADM 688) shall count as a three (3) credit hour graded elective toward the JD degree, and likewise shall count as a three (3) credit hour graded elective toward the MUP degree. To receive MUP credit, the student must earn at least a B (3.0) in the course.

### Concentration Requirements

The courses available for each concentration are as follows. Elective and advanced coursework includes 9 credits in an area of concentration (with 3 credits being one required class for the concentration, e.g., PLAN 607 Land Use Planning).

1. Course required for specialization area/concentration

Women's and Gender Studies (CERT)

Graduate Certificate in Women's and Gender Studies (WGSTNON)
Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)
Department: Women's and Gender Studies (https://louisville.edu/wgs)
Program Webpage (https://louisville.edu/wgs/graduate-studies/graduate-certificate.html)

Program Information
The Women's and Gender Studies graduate certificate is a 15-credit hour program for students who have completed a BS or BA degree in any field. Students with no prior coursework in Women's and Gender Studies may be required to take classes in preparation for admission to the certificate program.

Admission Requirements
Admission to the graduate certificate in Women's and Gender Studies is open to any student who has completed a BA or BS degree with a 3.0 overall GPA. Students may pursue the certificate outside the framework of a graduate degree program or in conjunction with a graduate degree program in another University of Louisville department.

Students wishing to pursue the certificate must apply for admission to the School of Interdisciplinary and Graduate Studies by:

1. Completing a School of Interdisciplinary and Graduate Studies application form (https://louisville.edu/graduate/apply) and submitting the application fee, and
2. Submitting an official transcript reflecting previous degrees earned.

Students must also send directly to Women's and Gender Studies a one-to-two page letter of intent, describing how the Women's and Gender Studies graduate certificate will further their personal or professional goals.

Students wishing to pursue the graduate certificate in conjunction with a graduate degree program in another University of Louisville department should first apply and be admitted to the degree program before applying for admission to the Women's and Gender Studies graduate certificate program.

Program Requirements

1. Students must complete a total of 15 credit hours in courses approved for graduate credit in accordance with the policies of the School of Interdisciplinary and Graduate Studies, approved by the Women's and Gender Studies director of graduate studies.
2. One course among the 15 credit hours must be WGST 601, WGST 602, or WGST 603.
3. At least two courses must be at the 600-level.
4. Courses must be chosen from both humanities and social sciences disciplines, with consultation of Women's and Gender Studies director of graduate studies.
5. Students pursuing the Women's and Gender Studies certificate in conjunction with a graduate degree program must take at least one course outside of the department in which the student is pursuing the degree.
6. A single course may satisfy more than one requirement.
7. Coursework toward the graduate certificate in Women's and Gender Studies may also count toward the student's graduate degree.

Women's and Gender Studies (MA)

Master of Arts in Women's and Gender Studies (WGSTMA)
Unit: College of Arts and Sciences (https://louisville.edu/artsandsciences) (GA)
Department: Women's and Gender Studies (https://louisville.edu/wgs)

Program Information

MA in Women's and Gender Studies

The Women's and Gender Studies Master of Arts degree program is open to qualified individuals with a bachelor’s degree from an accredited college or university. Any undergraduate major is acceptable for admission; however, students without some Women's and Gender Studies background may be required to take preparatory courses before beginning the MA curriculum or in addition to the MA curriculum.

The 37-credit hour interdisciplinary degree program is organized around a 19-credit hour core of two introductory seminars, a one-credit research/writing course, and a selection of courses in four areas. In addition to the core, students complete a concentration area and either a thesis or culminating project.

Faculty in the Women's and Gender Studies Department, as well as faculty in other departments of the university, offer courses in the MA program.

The Women's and Gender Studies MA may be completed in four semesters (fall/spring). Most courses are offered in late afternoon or evening. Limited summer offerings are also available.

Accelerated BA-BS/MA in Women's and Gender Studies

Women's and Gender Studies majors who are already thinking about pursuing an MA in Women's and Gender Studies can speed up the process by applying some of their undergraduate credit hours toward a master's degree. The basic idea is to take three graduate-level courses/nine hours (either 500-level with the additional graduate-level assignments, or 600-level) while still an undergraduate, and then have those credits apply both toward the undergraduate degree and towards an eventual master's degree from UofL.

Students in the accelerated Master of Arts in Women's and Gender Studies program may take a maximum of nine hours for graduate credit, which will also apply to the requirements for the baccalaureate degree. To be considered for admission to the Accelerated Master of Arts in Women's and Gender Studies program, students must:

- Complete an application for admission to the Women's and Gender Studies Department's Master of Arts program (including GRE scores, transcripts, two letters of recommendation, a statement of purpose, and a writing sample) no later than the end of their junior year.
- Have a minimum overall grade point average (GPA) of 3.35, a Women's and Gender Studies GPA of 3.35, and meet all other requirements for admission to the Women's and Gender Studies Department's Master of Arts program.

Students must retain a 3.35 GPA in Women's and Gender Studies during their senior year to remain in the program. Once admitted to the accelerated BA/MA program and starting the graduate work, students are expected to maintain a full graduate load of 9 credit hours.

Students in the accelerated BA/MA program must meet all of the MA requirements including receiving at least 18 of their 36-hour program in 600-level, courses.

Dual MSSW/MA in Social Work and Women's and Gender Studies

The dual Master of Science in Social Work/Master of Arts in Women's and Gender Studies program recognizes the value of professional education in two interrelated fields and encourages students who have an interest in both Women's and Gender Studies and Social Work to pursue these degrees simultaneously. Social workers and Women's and Gender Studies scholars often seek to address identical or related societal concerns, albeit from different perspectives; understanding both disciplines enhances one's effectiveness in both the analysis of and engagement
with contemporary social and cultural issues. Women’s and Gender Studies courses strengthen the social worker’s understanding of the historical foundations for policies and structures that have an impact on social institutions and human conditions; Social Work courses help Women’s and Gender Studies scholars or activists to better understand human behavior, conflict resolution and social welfare institutions. A Women’s and Gender Studies and Social Work combination provides the tools of social change for an historic problem of gender inequality and injustice.

The curriculum leading to a dual degree is a 79-credit hour program which combines credits in Women’s and Gender Studies and the Kent School of Social Work. Students take the core curriculum in both programs, but substitute elective hours with MA and MSSW hours. In addition, the Kent School has tailored its second year-long practicum to focus on issues of gender and women, adding that content and experience for the student.

Students must apply and be admitted to both programs in order to pursue the dual degree.

Admission Requirements

Students wishing to be admitted to the MA in Women’s and Gender Studies must meet the following requirements for admission:

1. Students must meet the admission criteria established by the School of Interdisciplinary and Graduate Studies (submit a complete application, submit official transcripts verifying the receipt of a baccalaureate degree from an accredited institution, and pay application fee).
2. Students must have a 3.0 GPA in undergraduate work. Provisional admission is possible for students who do not meet this requirement.
3. Students must submit two letters of recommendation (submitted to the School of Interdisciplinary and Graduate Studies). Letters of recommendation must be current (written within the last year), and letter writers must be familiar with the applicant’s academic preparation for graduate study. Members of the WGS Graduate Admissions Committee may not be letter writers.
4. Students must submit GRE scores to UofL. GRE scores will be one of many factors used in evaluating students for admission.
5. Students must submit one academic writing sample of at least five pages (a paper written as part of the requirements of a university or college course), which should be mailed directly to the Department of Women’s & Gender Studies. The Graduate Admissions Committee will determine whether the student has the necessary level of competence in written communication to enter the MA program.
6. Students must submit a personal statement of one-two pages discussing how the MA in Women’s & Gender Studies relates to the student’s professional or personal goals (mail directly to the Department of Women’s & Gender Studies).

Any undergraduate major is acceptable for admission; however, students without Women’s and Gender Studies background may be required to take preparatory courses before beginning the MA curriculum or in addition to the MA curriculum. This will be determined by the Graduate Admissions Committee.

Up to six (6) hours of graduate-level A- or B-graded work in Women’s and Gender Studies done at another institution may be applied toward the student’s UofL degree, upon approval of the director.

Students enrolled in the UK or WKU graduate certificate programs may transfer up to 12 hours of graduate-level A- or B-graded work, upon approval of the director.

Students must maintain a 3.0 average in order to be in good standing.

Students must apply and be admitted to both programs in order to pursue the dual MSSW/MA degree program. Admission requirements for the Kent School of Social Work (p. 1054) can be found on the MSSW page.

Program Requirements

The MA curriculum includes:

- 18 hours of core courses;
- 9 hours in a concentration;
- a thesis or non-thesis option; and
- three to nine hours of electives, depending on whether the thesis is chosen.

At least 18 of the 36 hours must be in courses at the 600 level.

**Minimum Total Hours** 37

Up to six (6) hours of graduate-level, A- or B-graded grade work in Women's and Gender Studies done at another institution may be applied toward the student's UofL degree, upon approval of the director.

Students enrolled in the UK or WKU graduate certificate programs may transfer up to 12 hours of graduate-level A-or B-graded work, upon approval of the director.

Students must maintain a 3.0 average in order to be in good standing.

[^1]: As approved by the director of graduate studies
Graduate Course Index

The course index lists courses currently active at the University of Louisville. Not all courses are offered in any given academic term. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm).

500-level courses often are listed for both graduate and undergraduate students, but offerings may vary and students are responsible for ensuring that they enroll in a course that is applicable to their particular academic programs.

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Specific information can be found on the Office of the Bursar website (http://louisville.edu/bursar/tuitionfee).

Courses By Subject Code

A
- Accounting (ACCT) (p. 1089)
- Anatomical Sciences and Neurobiology (ASNB) (p. 1090)
- Anthropology (ANTH) (p. 1093)
- Art (Studio) (ART) (p. 1096)
- Art History (ARTH) (p. 1101)
- Asian Studies (AST) (p. 1105)
- Audiology (AUDI) (p. 1106)

B
- Biochemistry (BIOC) (p. 1109)
- Bioengineering (BE) (p. 1111)
- Bioethics (BETH) (p. 1114)
- Biology (BIOL) (p. 1115)
- Business Analytics (MSBA) (p. 1120)

C
- Chemical Engineering (CHE) (p. 1121)
- Chemistry (CHEM) (p. 1125)
- Chinese (CHNS) (p. 1129)
- Civil and Environmental Engineering (CEE) (p. 1129)
- Commercial Law (CLAW) (p. 1133)
- Communication (COMM) (p. 1133)
- Communicative Disorders (CMDS) (p. 1135)

D
- Doctoral Candidacy (DOCT) (p. 1149)

E
- Economics (ECON) (p. 1149)
- Education: Advanced Practitioner (EDAP) (p. 1158)
- Education: Teacher Preparation (EDTP) (p. 1166)
- Education: Leadership, Foundations & Human Resource (ELFH) (p. 1150)
- Education: Special Education (EDSP) (p. 1171)
- Educational and Counseling Psychology (ECPY) (p. 1177)
- Electrical and Computer Engineering (ECE) (p. 1185)
- Engineering Management (EM) (p. 1192)
- English (ENGL) (p. 1194)
- Entrepreneurship (ENTR) (p. 1203)
- Executive Master of Business Administration (EMBA) (p. 1205)
- Exercise Physiology (EXP) (p. 1206)

F
- Finance (FIN) (p. 1208)
- Franchise Management (FRAN) (p. 1209)
- French (FREN) (p. 1209)

G
- Geography (GEOG) (p. 1211)
- Geosciences (GEOS) (p. 1214)
- German (GERM) (p. 1214)
- Graduate Interdisciplinary (GS) (p. 1215)

H
- Health and Sport Sciences (HSS) (p. 1215)
- Healthcare Administration (HADM) (p. 1219)
- History (HIST) (p. 1220)
- Humanities (HUM) (p. 1227)

I
- Industrial Engineering (IE) (p. 1232)
- Integrative Master of Business Administration (IMBA) (p. 1235)

L
- Latin American and Latino Studies (LALS) (p. 1237)
- Linguistics (LING) (p. 1238)

M
- Management (MGMT) (p. 1240)
- Marketing (MKT) (p. 1241)
- Master of Accountancy (MAC) (p. 1241)
- Master of Business Administration (MBA) (p. 1243)
Accounting (ACCT)

ACCT 500. Fundamentals of Accounting 3 Units
**Description:** Fundamental principles of accounting needed by the manager. Topics include the assumptions of accounting, recording and reporting transactions; interpretation of data for decision-making purposes.

**Note:** Fulfills a Foundation Core requirement only.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ACCT 526. Finance and Accounting Applications in Logistics and Distribution 3 Units
**Prerequisite(s):** MKT 525.
**Description:** Fundamental principles of accounting and finance as applied to logistics and distribution as needed by managers.

**Note:** This course does not fulfill credit for MBA.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ACCT 611. Cost and Operations Management 3 Units
**Prerequisite(s):** Admittance to the Master of Accountancy Program.
**Description:** An integrated course using traditional and innovative cost accounting and production management techniques and concepts to analyze decisions necessary to produce goods and provide service.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ACCT 615. Advanced Financial and Governmental Accounting 3 Units
**Prerequisite(s):** Admittance to the Master of Accountancy program.
**Description:** Coverage of financial reporting rules and processes for business combinations and governmental and not-for-profit organizations from both a reporting and decision-making perspective.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ACCT 620. Management Control Systems 3 Units
**Term Typically Offered:** Occasionally Offered
**Prerequisite(s):** MBA 625.
**Description:** Uses of accounting systems in aiding management control. Transfer pricing, managed costs, cost centers, performance centers, investment centers, activity based management.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ACCT 631. Federal Taxation 3 Units
**Prerequisite(s):** Admittance to the Master of Accountancy Program.
**Description:** Focus is on the individual taxpayer. Coverage includes federal income tax of the individual, income taxation of estates and trusts, retirement and family tax planning, and the estate and gift tax.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ACCT 641. Financial Accounting and Professionalism 3 Units
Prerequisite(s): Admittance to the Master of Accountancy Program.
Description: Covers the standard setting process for generally accepted accounting principles. Includes application of GAAP to create financial statements. Additional focus on the ethical and professional expectations of the CPA.
For class offerings for a specific term, refer to the Schedule of Classes.

ACCT 651. Auditing and Systems 6 Units
Prerequisite(s): Admittance to the Master of Accountancy Program.
Description: Focuses on the design, implementation and documentation of accounting information systems. Emphasis also placed on the internal control system and proper audit trails.
For class offerings for a specific term, refer to the Schedule of Classes.

ACCT 655. Special Topics in Accounting 3 Units
Prerequisite(s): Admittance to the Master of Accountancy Program.
Description: Explores a variety of topics in accounting, auditing, or taxation.
For class offerings for a specific term, refer to the Schedule of Classes.

ACCT 661. Enterprise Resource Planning Systems 3 Units
Prerequisite(s): CIS 610 and CIS 615, or admittance to the Masters of Accountancy Program.
Description: Focuses on the features of an ERP system, the implementation of ERP systems, and internal control issues related to ERP systems. The use of ERP systems in conjunction with electronic commerce will be featured.
For class offerings for a specific term, refer to the Schedule of Classes.

ACCT 680. Special Topics in Accounting 1-6 Units
Description: An advanced study of one or more selected topics or issues related to the study of Accounting.
For class offerings for a specific term, refer to the Schedule of Classes.

ACCT 698. Research Seminar in Accounting 1-3 Units
Prerequisite(s): MBA 625 and permission of the Director of the School of Accountancy.
For class offerings for a specific term, refer to the Schedule of Classes.

Anatomical Sciences and Neurobiology (ASNB)

ASNB 502. Fundamentals of Neuroscience 3 Units
Term Typically Offered: Fall Only
Prerequisite(s): PSYC 355 or permission of instructor.
Description: Basics of cellular and systems neuroscience are taught through a combination of lectures and laboratories. Topics include: electrical potentials in the nervous system, synaptic transmission, somatosensory pathways, special senses (vision, hearing, balance, taste, and smell), eye movements, motor systems and higher functions (language, sleep and wakefulness, cognition, emotion and memory).
Note: Credit may not be earned in both ASNB 502 and ASNB 602.

For class offerings for a specific term, refer to the Schedule of Classes.

ASNB 510. Gross Anatomy for Students of Physical Therapy 3 Units
Term Typically Offered: Summer Only
Description: Lectures and laboratory dissection of regions required for students of Physical Therapy.
Note: Limited to students of the Bellarmine University Physical Therapy program.
Note: Limited to 40 students maximum.

For class offerings for a specific term, refer to the Schedule of Classes.

ASNB 601. Gross Anatomy 6.5 Units
Prerequisite(s): Permission from course director at least two weeks before beginning of course.
Description: Primarily a laboratory course. Major emphasis is upon cadaver dissection, but lectures, group discussions, informal laboratory conferences, demonstrations, X-ray presentations are frequent. Correlation of function with structure is stressed in all areas. See Medical School Freshman Schedule for time.
For class offerings for a specific term, refer to the Schedule of Classes.

ASNB 602. Fundamentals of Neuroscience 4 Units
Description: Basics of cellular and systems neuroscience are taught through a combination of lectures, laboratories, and independent study. Lectures concurrent with ASNB 502; one added lecture hour each week covers advanced topics through recent article readings and discussion. Topics covered include: electrical potentials in the nervous system, synaptic transmission, somatosensory pathways, special senses (vision, hearing, balance, taste, and smell), eye movements, motor systems, and higher functions (language, sleep and wakefulness, cognition, emotion and memory).
Note: Credit may not be earned for both ASNB 502 and ASNB 602.

For class offerings for a specific term, refer to the Schedule of Classes.
ASNB 603. Microscopic Anatomy 5 Units
Prerequisite(s): Permission from course director at least two weeks before beginning of course.
Description: Presented as an integrated study of cells, basic tissues, and organ system. The classical light microscopic approaches are supplemented by information derived from electron microscopy.
Note: Cross-listed with ASNB 803.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ASNB 605. Human Embryology 3 Units
Prerequisite(s): Permission from course director at least two weeks before beginning of course.
Description: The 2012 embryology course is trying to emphasize the clinical aspect of embryology and to allow students to better understand the importance of this particular pre-clinical subject in their medical education. The embryology material is divided into 7 modules, organized by anatomical systems. Although embryology course runs over 8 weeks period, as much as possible, we tried to match your embryology material with the gross anatomy and histology. Modules contain: descriptive developmental anatomy lectures, clinical lectures.
Note: Cross-listed with IDEP 865.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ASNB 606. Anatomy Seminar 1 Unit
Description: Presentations and discussions of individual research or topics of current anatomical interest throughout the year.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ASNB 607. Neuroanatomy 3 Units
Prerequisite(s): Consent of course director at least 2 weeks before course begins.
Description: Anatomy of the nervous system (brain and spinal cord) is taught through a combination of self study, lectures and laboratories.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ASNB 608. Neural Systems 4 Units
Prerequisite(s): ASNB 607 or consent of course director at least 2 weeks before course begins.
Description: Topics covered include: electrical potentials in the nervous system, synaptic transmission, somatosensory pathways, special senses (vision, hearing, balance, taste, smell), eye movements, motor systems, higher functions (language, sleep and wakefulness, learning and memory). Emphasis is placed on clinical relevance.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ASNB 610. Neuroscience Methods 1-2 Units
Grading Basis: Pass/Fail
Prerequisite(s): ASNB 502 or 602, or consent of the Course Director.
Description: The primary goal of the Methods course is to provide graduate students with the framework to become familiar with key tools and techniques used in neuroscience research. One method will be learned per credit hour in a laboratory of the students choosing. By the end of the semester, each student will generate a written step-by-step protocol of the technique learned along with a two page description (double-spaced) of the method and its use.
Note: Cross-listed with BIOC 610, MBIO 610, PHTX 610, and PHXB 610.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ASNB 611. Methods in Neurobiology 3 Units
Prerequisite(s): Consent of instructor.
Description: An introduction to the methods used to study the nervous system through a combination of didactic sessions and demonstration and/or hands-on experiences. Topics may include cell and tract labelling, electrophysiology, protein blotting and immunohistochemistry, cell culture microscopy, and basic molecular biology.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ASNB 612. Cellular Electrophysiology 3 Units
Prerequisite(s): Consent of the instructor.
Description: To provide graduate students in the neurosciences with a solid foundation in electrophysiology, so they can apply electrophysiological concepts and methods to their research activities.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ASNB 614. Molecular Neuroscience 4 Units
Prerequisite(s): Consent of instructor.
Description: Structure and function of the nervous system from a molecular perspective. Includes description of membrane proteins, channels and receptors in neurons and glia. Discussion of the role of such molecular structures in the nervous system.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ASNB 616. Special Projects in Anatomy 1-15 Units
Prerequisite(s): Permission from instructor at least two weeks before beginning of course.
Description: This course, to be arranged to fit individual needs, is intended primarily to accommodate students with special backgrounds in anatomy; it may also be offered for others who have special needs for other advanced training. May be offered each quarter. Schedule to be arranged.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

</table>

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ANTH 507. Space, Place and Culture 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): Graduate status, or consent of instructor.
Description: This course is organized around the question of how culture is spatially distributed. How are specific spaces and places constructed, connected, and interpreted through cultural practices? For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 508. History of Anthropology - CUE, WR 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): Senior status, and 18 hours of Anthropology credits.
Description: Class explores the range of questions anthropologists pose and their historical context; how and why are human groups constructed and how are they similar to and different from one another.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
Note: Anthropology graduate students cannot enroll in this class.
Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 509. Archaeological Theory and Methods - WR 3 Units
Prerequisite(s): Junior or senior status, and 18 hours of Anthropology credits.
Description: Archaeological theory and methods emphasizing basic practices and procedures in research skills and writing in archaeology.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
Note: Anthropology graduate students cannot enroll in this class.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 511. Ethnographic Methods - WR 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): Junior or senior status, and 18 hours of Anthropology credits.
Description: Explores the range of qualitative research methods and techniques. Emphasis is on designing and developing a research project and conducting ethnographic fieldwork.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
Note: Anthropology graduate students cannot enroll in this class.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 517. Anthropology of China 3 Units
Term Typically Offered: Fall Only
Prerequisite(s): Graduate standing or permission of the instructor.
Description: It is widely acknowledged that China is a rising power in the global political economy. However, with the coexistence of tradition and modernity, the nature of Chinese culture and society remains heavily debated. This course explores a wide range of topics and issues that constitute the socio-cultural fabric of contemporary mainland Chinese society. These topics include, but are not limited to, family, gender, ethnicity, religion, education, politics, and economics. Our investigation will focus on two broad themes: 1) the unity and diversity of Chinese society, and 2) the continuity and change that took place from late traditional China to the present. The goal of this course includes learning various aspects of Chinese culture and society, studying diverse anthropological approaches to the study of China, and examining the political dimensions of representation.
Note: Cross-listed with AST 517.
Note: Students may not receive credit for this course and ANTH 317 or AST 317.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 522. Ecology, Politics and Culture 3 Units
Description: This course examines the relations between ecology, economic system, culture, ideology and power relations. The focus moves back and forth between theoretical synthesis and case studies. The case studies are both ethnographic and historical. A few of the themes treated in detail: the role of religious ritual in regulating certain environments; the mutual influences of ecology and political economy in the making of "the Third World"; the local and global politics of national parks; combined and uneven development. Stress is laid on political ecology as a complex, shifting, analytical framework. Questions of sustainability weave in and out of the proceedings. Also emphasized: the story of ecological analysis over the last seventy years is a story about changing relations between anthropology and other social sciences. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 526. Archaeology as Practice 3 Units
Prerequisite(s): ANTH 204.
Description: This course focuses on the analytical techniques that archaeologists use to study the past. Students will learn the practice of archaeology emphasizing modern methods of survey, excavation and analysis used to investigate the past. By the end of the course, students will have learned how to construct their own research plan, collect and analyze their data and draw inferences about the past.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ANTH 528. Animals and Humans  3 Units
Description: This course explores the complex and often contradictory ways that humans interact with animals. We cover a range of topics emerging from a multidisciplinary perspective including the origins of hunting and domestication: modern animal economies; cross-cultural attitudes toward animals; symbolic representations of animals in art, literature, religion and folklore; animals as companions; and the status of animals, both wild and domestic, in contemporary society. Students will gain a broad, cross-cultural perspective on the relationship humans have with the rest of the animal kingdom, focused mainly on other mammals. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 529. Zooarchaeology  3 Units
Prerequisite(s): Graduate student status.
Description: The course will provide basic instruction in the identification of animal remains commonly recovered from archaeological sites. It will follow a taphonomic approach to zooarchaeology with an emphasis on understanding and interpreting the formation of archaeological faunal assemblages. The course examines approaches to using bone data to construct and investigate archaeological questions. Students will engage in hands-on identification and interpretation of animal remains commonly found in archaeological sites.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 530. Human Impacts on Past Environments  3 Units
Prerequisite(s): Graduate status, or consent of instructor.
Description: This course is about the archaeological and paleoecological record of past human impacts on Earth. We will explore a number of concepts regarding socio-natural systems including land degradation, perception, resilience and sustainability. The course will provide a background for understanding the ways archaeologists and paleoecologists reconstruct past environments and recognize human impacts. We will examine a number of global case studies and discuss the possible lessons for current and future decision-making in human land-use.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 531. Anthropology of Water  3 Units
Description: Explores the political ecology of water from prehistory to present; integrates the archaeological and historical record with contemporary examples of water management; emphasis on privatization, globalization, and health.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 535. Nutritional Anthropology  3 Units
Description: This course provides students with a broad overview of topics in nutritional anthropology; an area of study that is highly multidisciplinary. Students will learn to critically think about the impact of culture concerning the current understanding of nutrition in a biocultural context. The course will range over nutritional aspects of human evolution, federal perspectives on nutrition, aspects of nutritional epidemiology, food and ethnicity, food and self, and obesity as culture bound syndrome.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 540. Health and Civilization  3 Units
Prerequisite(s): Graduate status, or consent of instructor.
Description: Explores biological strategies of human adaptation to different environments from an evolutionary emphasis on plasticity of human evolutionary responses.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 549. Modes of Consciousness  3 Units
Term Typically Offered: Occasionally Offered
Description: This course is devoted to examining how consciousness mediates between humans and the wider material world. While all of the concepts central to anthropology and the other social sciences—culture, society, evolution, history, mind, politics, economics—are premised in consciousness, the premise receives attention only sporadically. The attention that has been paid reveals that consciousness is not uniform. It has various modes. Thus the course focuses on these.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 552. Special Topics in Cultural Anthropology  3 Units
Prerequisite(s): Consent of instructor.
Description: An examination of one or more specific areas of social-cultural anthropology. Details announced each semester.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 556. Special Topics in Biological Anthropology  1-3 Units
Description: An examination of one or more specific areas of biological anthropology. Details announced each semester.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 564. Special Topics in Archaeology  1-3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): ANTH 202 and ANTH 204.
Description: An examination of specific areas of archaeology. Details announced each semester.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 578. Lithic Technology  3 Units
Prerequisite(s): One introductory course in ANTH 201, ANTH 202, ANTH 203, or ANTH 204.
Description: This course provides an introduction to the study of stone tool technology. Topics to be covered include broad examination of major changes in stone tool technology during the course of human prehistory (~3.3 million - 10,000 years ago), analytical approaches commonly employed by archaeologists to interpret the lithic record, and experiential learning through knapping and lab exercises. In addition to the hands-on exercises, the course material is supported by films, and readings from the textbooks, and journal articles. Students are required to submit a literature based term paper focusing on ethnographic or archaeological case studies that incorporate lithic datasets.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ANTH 579. Ceramic Analysis  
**Description:** Pottery is abundant in many archaeological sites, and the study of pottery has a long history in archaeology. Analysis and interpretation of ceramics has been used by archaeologists to accomplish varied ends: to establish a time scale, to document interconnections between different areas, sites or groups of people, and to suggest what activities were carried out at particular sites. Archaeologists also use ceramics as a basis to understand the organization of ceramic production itself as an important activity. The varied means that archaeologists use to bridge the gap between the recovery of ceramics and their interpretation is the focus of this course.  
For class offerings for a specific term, refer to the Schedule of Classes ([link](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm))

**Prerequisite(s):** Consent of instructor, or department chair.

**Units:** 3

ANTH 601. Special Topics in Anthropology  
**Prerequisite(s):** Consent of instructor, or department chair.  
**Description:** Outlines vary as to area of expertise of instructors; objectives aim at the maximum of staff utilization and meeting program needs within the University which call for studies in anthropology as that discipline interrelates with other special knowledge.  
**Note:** Students may take the course as often as topics vary, up to 6 hours.  
For class offerings for a specific term, refer to the Schedule of Classes ([link](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm))

**Prerequisite(s):** Consent of instructor, or department chair.

**Units:** 3

ANTH 607. Emergence of Human Culture  
**Prerequisite(s):** Graduate status.  
**Description:** Traces of the origins and development of human culture; focus on technology, social organization, language, food acquisition and sharing, religion and art in both Old and New World.  
For class offerings for a specific term, refer to the Schedule of Classes ([link](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm))

**Prerequisite(s):** Graduate status.

**Units:** 3

ANTH 608. Social and Cultural Theory  
**Prerequisite(s):** Graduate status.  
**Description:** Examination of how social and cultural theorists construct accounts of human existence that complement and diverge from one another.  
For class offerings for a specific term, refer to the Schedule of Classes ([link](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm))

**Prerequisite(s):** Graduate status.

**Units:** 3

ANTH 609. Research Design: Archaeology  
**Prerequisite(s):** Graduate status.  
**Description:** Basic practices and procedures in research skills and writing in archaeology; focus on preparing grant proposals; publications and oral presentations.  
For class offerings for a specific term, refer to the Schedule of Classes ([link](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm))

**Prerequisite(s):** Graduate status and consent of instructor.

**Units:** 3

ANTH 610. Research Design: Biological Anthropology  
**Prerequisite(s):** Graduate status and consent of instructor.  
**Description:** Review of methods, models, and theory from seminal papers and new research in anthropological genetics.  
For class offerings for a specific term, refer to the Schedule of Classes ([link](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm))

**Prerequisite(s):** Graduate status.

**Units:** 3

ANTH 611. Research Design: Socio-Cultural Anthropology  
**Prerequisite(s):** Graduate status.  
**Description:** Course focuses on developing a substantive research project in cultural anthropology; students will integrate a literature review, theoretical and methodological approaches, and data collection strategies to produce a research proposal.  
For class offerings for a specific term, refer to the Schedule of Classes ([link](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm))

**Prerequisite(s):** Graduate status.

**Units:** 3

ANTH 612. Seminar: Contemporary Issues in Anthropology  
**Prerequisite(s):** Graduate status.  
**Description:** Team taught course focused on the intertwined contributions of anthropology, biological and cultural anthropology to understandings of theory and method in anthropology. Themes will vary year to year.  
For class offerings for a specific term, refer to the Schedule of Classes ([link](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm))

**Prerequisite(s):** Graduate status.

**Units:** 3

ANTH 622. Anthropology of Violence  
**Prerequisite(s):** Graduate status.  
**Description:** Seminar on anthropological approaches to the study of violence and human suffering, including political, structural, domestic, and criminal violence. Case studies come from different regions of the world.  
For class offerings for a specific term, refer to the Schedule of Classes ([link](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm))

**Prerequisite(s):** Graduate status.

**Units:** 3

ANTH 624. Black Cultural Traditions  
**Prerequisite(s):** Graduate status.  
**Description:** Intensive and interdisciplinary approach to production of African-based traditions in the Diaspora; explores sociocultural implications of African-based literacy and arts.  
For class offerings for a specific term, refer to the Schedule of Classes ([link](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm))

**Prerequisite(s):** Graduate status.

**Units:** 3

ANTH 625. Globalization, Transnationalism, and Anthropology  
**Prerequisite(s):** Graduate status.  
**Description:** Focus on globalization at the local level; how it bears on identities and how subjects construct identities in transnational spaces.  
For class offerings for a specific term, refer to the Schedule of Classes ([link](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm))

**Prerequisite(s):** Graduate status.

**Units:** 3

ANTH 626. Food Justice  
**Prerequisite(s):** Graduate status or consent of instructor.  
**Description:** This course explores the political, economic, cultural dimensions of hunger, food security, and food justice globally and locally. The concept of food justice has been deployed to capture consumption-based inequalities in access to tasty and nutritious food. The course considers not only justice in terms of dietary and culinary consumption but also such matters as land rights, intellectual patrimonies, migrant farm labor, restaurant working conditions, the concentration of grocery chains, food regulation, international trade rules related to agricultural commodities, and the environmental impacts of farming. The course concludes with a look at transnational efforts to build more just and sustainable food systems.  
For class offerings for a specific term, refer to the Schedule of Classes ([link](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm))

**Prerequisite(s):** Graduate status or consent of instructor.

**Units:** 3
ANTH 627. Political Economy and Culture 3 Units
**Prerequisite(s):** Graduate status.
**Description:** Examines how anthropologists have used concepts and methods derived from political economy to understand markets, production, power, and cultural practices.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 640. Linguistic Anthropology 3 Units
**Prerequisite(s):** Permission from instructor.
**Description:** This course provides an introduction to the field of linguistic anthropology. Topics include: the semiotic properties of human language; principles of linguistic and cultural categorization; language use in social interaction; markers of social identity and relationship; registers of social conduct; the textual organization of discourse; the role of discourse in the formulation of norms, and the institutionalization of modes of conduct.
**Note:** Cross-listed with LING 640.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 650. Health and Disease: A Bio-Cultural Approach 3 Units
**Prerequisite(s):** Graduate student.
**Description:** Focus on the adaptations that made us human and may not fit as well at the present; how human biology and evolution were and are shaped by lifestyles, health, and disease.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 651. Seminar in Biological Anthropology 3 Units
**Prerequisite(s):** Graduate status and ANTH 202.
**Description:** Discusses current issues and debates in biological anthropology; discuss selected papers that have made a fundamental contribution to understanding human evolution.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 653. Human Molecular Evolutionary Genetics 3 Units
**Prerequisite(s):** Graduate status and consent of instructor.
**Description:** Introduction to population genetics theory and a review of the peopling of the world as conceptualized using both molecular and anthropometric data.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 662. Special Topics in Cultural Anthropology 3 Units
**Prerequisite(s):** Consent of instructor.
**Description:** An examination of one or more specific areas of social-cultural anthropology.
**Note:** Details announced each semester.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 663. Special Topics in Biological Anthropology 1-3 Units
**Description:** An examination of one or more specific areas of biological anthropology.
**Note:** Details announced each semester.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 670. Independent Study (Reading) 1-6 Units
**Prerequisite(s):** Graduate status.
**Description:** Intensive reading course under the supervision of a faculty member.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 671. Independent Study (Research) 1-6 Units
**Prerequisite(s):** Graduate status.
**Description:** Intensive research course under the supervision of a faculty member.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 672. Thesis 1-6 Units
**Prerequisite(s):** Graduate status.
**Description:** Reading, research, and writing of thesis under the supervision of a faculty member.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ANTH 673. Internship 1-6 Units
**Prerequisite(s):** Graduate status.
**Description:** Internship in a social service, governmental, or NGO under the supervision of a faculty member. A substantial paper related to the internship is required.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**Art (Studio) (ART)**

ART 504. Directed Study in Painting 1-3 Units
**Prerequisite(s):** ART 502 and BFA Candidacy; or faculty consent.
**Description:** A focused, in-depth exploration of self-generated problems in painting.
**Note:** May be repeated up to a maximum of 12 credit hours.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ART 506. Themes and Concepts in Drawing 3 Units
**Prerequisite(s):** ART 305 and BFA Candidacy; or faculty consent.
**Description:** Individual problems stressing development of personal imagery and concepts and optional media and approaches. Coursework may include work from nude models.
**Note:** Formally taught as Advanced Drawing Concepts.
**Note:** May be repeated to a maximum of 12 hours.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ART 507. Directed Study in Drawing 1-3 Units
Prerequisite(s): ART 505 or ART 506; and BFA Candidacy; or faculty consent.
Description: Experimentation on individual problems in drawing.
Note: May be repeated to a maximum of 12 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ART 508. Art Education Methods and Research I 3 Units
Prerequisite(s): Fine Arts majors only.
Description: Art education methods and current research readings to satisfy Kentucky certification requirements for teachers of art in grades K-12.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ART 509. Anatomy & Life Drawing 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): ART 305 and BFA candidacy; or faculty consent.
Description: The study of human anatomy for the artist as visual structural form with emphasis on skeletal system, and movement; muscle system, and surface features. Course work may include drawing from nude models.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ART 510. Design for Visualizing Data and Information 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): ART 351 or faculty consent.
Description: Exploration of the design and production of a variety of formats (charts, tables, maps, diagrams) and challenges (presenting the information in a visually engaging way with accuracy and integrity); targeting a variety of audiences. Emphasis is placed on both the thinking and the making that goes into a successfully designed data visualization.

Note: This course satisfies an elective for completion of the BFA in Graphic Design.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ART 512. Directed Study in Glass 1-3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): ART 511 and BFA Candidacy; or faculty consent.
Description: Experimentation on individual problems in Glass. Emphasis is placed on realization and execution of ideas.

Note: May be repeated up to 12 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ART 518. Art Education Methods and Research II 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): Fine Arts majors only.
Description: Art education methods and current research readings to satisfy Kentucky certification requirements for teachers in grades 7-12.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ART 523. Directed Study in Sculpture 1-3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): ART 521 and BFA Candidacy; or faculty consent.
Description: Experimentation on individual problems in sculpture.

Note: May be repeated to a maximum of 12 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ART 534. Directed Study in Ceramics 1-3 Units
Prerequisite(s): ART 531 and BFA Candidacy; or faculty consent.
Description: Experimentation on individual problems in clay and ceramics.

Note: May be repeated up to a maximum of 12 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ART 543. Directed Study in Printmaking 1-3 Units
Prerequisite(s): ART 541 and BFA Candidacy; or faculty consent.
Description: Experimentation on individual problems in printmaking.

Note: Formerly ART 527.

Note: May be repeated to a maximum of 12 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ART 551. Lighting and View Camera 3 Units
Term Typically Offered: Spring Only
Prerequisite(s): ART 351 or faculty consent.
Description: Exploration of black and white photography emphasizing techniques and processes as well as conceptual problem solving.

Note: Formerly taught as Photography Techniques and Processes.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ART 552. Color Imaging 3 Units
Term Typically Offered: Fall Only
Prerequisite(s): ART 351 or faculty consent.
Description: Exploration of color photography concepts and digital media utilizing photographic principles and techniques.

Note: Formerly Color Photography.

Note: May be repeated to a maximum of 6 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ART 554. Alternative and Historic Photographic Processes 3 Units
Term Typically Offered: Fall Only
Prerequisite(s): ART 351 or Faculty Consent.
Description: Exploration of historic and alternative methods of photographic image making. Students will gain an understanding of historic photographic principles in a historic context.

Note: May be repeated to a maximum of 6 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ART 555. Directed Study in Photography  1-3 Units  
**Term Typically Offered:** Fall, Spring  
**Prerequisite(s):** ART 351, BFA Candidacy, or faculty consent.  
**Description:** Experimentation on individual problems in photography.  
**Note:** May be repeated to a maximum of 12 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**ART 556. Experimental Photography**  3 Units  
**Term Typically Offered:** Occasionally Offered  
**Prerequisite(s):** ART 351; or faculty consent.  
**Description:** Experimentation with historic and alternative photographic methods of image making.  
**Note:** May be repeated up to 6 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**ART 557. Advanced Photography**  3 Units  
**Term Typically Offered:** Spring Only  
**Prerequisite(s):** ART 551 and ART 552, or faculty consent.  
**Description:** Working in a variety of photographic media including color, black and white, and alternative processes, students develop a personal portfolio and understanding of contemporary issues in photography.  
**Note:** Formerly taught as ART 553.  
**Note:** May be repeated to a maximum of 6 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**ART 571. Special Problems in Studio Art**  1-3 Units  
**Prerequisite(s):**ART 581 or ART 582; and BFA Candidacy; or faculty consent.  
**Description:** Advanced exploration of a particular theme, medium or combination of media outside the scope of established departmental curriculum, with emphasis on individual problems.  
**Note:** May be repeated with different subtitles to a maximum of 12 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**ART 584. Directed Study in Fiber and Mixed Media Art**  1-3 Units  
**Prerequisite(s):** ART 581 or ART 582; and BFA Candidacy; or faculty consent.  
**Description:** Experimentation on individual problems in fiber and mixed media art.  
**Note:** May be repeated to a maximum of 12 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**ART 585. Book Art Concepts**  3 Units  
**Prerequisite(s):** BFA candidacy or faculty consent.  
**Description:** An introduction to traditional and non-traditional book arts with focus on the construction of traditional book forms such as folded bindings, Japanese stab bindings, portfolios, as well as types of multi-signature bindings. Emphasis will be placed on the book as an art form incorporating concept, design, content, and craft.  
**Note:** May be repeated to a maximum of 12 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**ART 590. Special Problems in Studio Art**  3 Units  
**Prerequisite(s):** BFA Candidacy or faculty consent.  
**Description:** Advanced exploration of a particular theme, medium or combination of media outside the scope of established departmental curriculum, with emphasis on individual problems.  
**Note:** May be repeated with different subtitles to a maximum of 12 hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**ART 595. Independent Study**  1-3 Units  
**Prerequisite(s):** Minimum grade point average of 3.0 overall, and minimum grade point average of 3.5 in the department, and at least 18 semester hours credit in the department.  
**Description:** Advanced exploration of a particular theme, medium or combination of media outside the scope of established departmental curriculum, with emphasis on individual problems.  
**Grading Basis:** Pass/Fail  
**Prerequisite(s):** Graduate standing.  
**Description:** Reports, critiques, presentations and discussions on personal research and current topics in the visual arts.  
**Note:** Cross-listed with ARTH 600 and CCS 600.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**ART 600. Graduate Seminar**  1 Unit  
**Grading Basis:** Pass/Fail  
**Prerequisite(s):** Graduate standing.  
**Description:** Reports, critiques, presentations and discussions on personal research and current topics in the visual arts.  
**Note:** Cross-listed with ARTH 600 and CCS 600.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**ART 601. Workshop in Painting**  3 Units  
**Prerequisite(s):** Four semesters of undergraduate painting.  
**Description:** Concentrated study in advanced contemporary painting problems, with strong emphasis on independent visual thought.  
**Note:** May be repeated, but no more than 18 hours can be credited to MA.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ART 651. Workshop in Photography
Prerequisite(s): Four semesters of undergraduate photography, and consent of instructor.
Description: Concentrated study of photographic techniques and theory leading to independent visual thought.
Note: May be repeated, but no more than 18 hours can be counted toward a MA.

For class offerings for a specific term, refer to the Schedule of Classes.

ART 652. Professional Practice in Photography
Prerequisite(s): MFA standing, or faculty consent.
Description: Individual research and professional practice in photography.
Note: May be repeated but no more than 18 hours may be applied to MFA.

For class offerings for a specific term, refer to the Schedule of Classes.

ART 672. Professional Practice in Graphic Design
Term Typically Offered: Occasionally Offered
Prerequisite(s): MFA Standing or faculty consent.
Description: Individual research and professional practice in graphic design.
Note: May be repeated but no more than 18 hours may be applied to MFA.

For class offerings for a specific term, refer to the Schedule of Classes.

ART 681. Workshop in Fiber/Mixed Media
Prerequisite(s): Consent of instructor.
Description: Concentrated study of fiber problems and techniques with emphasis on development of student's individual direction.
Note: May be repeated, but no more than 18 hours can be credited to MA.

For class offerings for a specific term, refer to the Schedule of Classes.

ART 683. Professional Practice in Fiber/Mixed Media
Prerequisite(s): MFA standing or faculty consent.
Description: Individual research and professional practice in fiber/mixed media.
Note: May be repeated but no more than 18 hours may be applied to MFA.

For class offerings for a specific term, refer to the Schedule of Classes.

ART 690. MFA Projects: Studio
Term Typically Offered: Fall Only
Prerequisite(s): MFA Standing or faculty consent.
Description: Offered in the fall semester by a member of the studio faculty in an appropriate studio space or workspace; this course provides an opportunity for MFA candidates to develop their work in the studio with guidance and input from studio faculty and peers. The primary components of the curriculum are supervised studio work, group critiques, and individual meetings. This course is required in semesters 1, 3, and 5 for students enrolled in the MFA program; and may be taken as an elective in semesters 2, 4, and 6, if desired.

Note: No more than 18 hours may be applied to MFA.

For class offerings for a specific term, refer to the Schedule of Classes.

ART 691. Professional Practice in Studio Art
Term Typically Offered: Fall, Spring
Prerequisite(s): MFA standing or faculty consent.
Description: Interdisciplinary investigation in advanced contemporary visual problems leading to independent visual thought.
Note: May be repeated, but no more than 18 hours may be counted toward MFA.

Note: Formerly taught as Workshop in Studio Art.

For class offerings for a specific term, refer to the Schedule of Classes.

ART 692. Art, Thinking & Social Change
Prerequisite(s): MFA standing or faculty consent.
Description: Studio art course that integrates aesthetics, critical theories and practice of art. Students will think creatively to produce artwork that transcends the confines of mediums, to reflect upon philosophical issues, to critique historical and current events, and to examine the boundary between aesthetics and ethics.

For class offerings for a specific term, refer to the Schedule of Classes.

ART 693. MFA Seminar I
Prerequisite(s): MFA Standing or faculty consent.
Description: Reports, critiques, presentations, discussions on current topics in the visual arts.
Note: MFA Seminar I to be taken in the second semester.

For class offerings for a specific term, refer to the Schedule of Classes.

ART 694. MFA Seminar II
Prerequisite(s): MFA Standing or faculty consent.
Description: Reports, critiques, presentations, and discussions on current topics in the visual arts.
Note: MFA Seminar II to be taken in the third semester.

For class offerings for a specific term, refer to the Schedule of Classes.
ART 695. MFA Seminar III
Prerequisite(s): MFA standing or faculty consent.
Description: Reports, critiques, presentations, and discussions on current topics in the visual arts.
Note: MFA Seminar III to be taken in the fourth semester.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 501. Advanced History and Issues of Graphic Design
3 Units
Term Typically Offered: Fall Only
Prerequisite(s): BFA Graphic Design Candidacy or faculty consent.
Description: The themes, styles, expressions, technologies and artists that contributed to contemporary graphic design, with special consideration on the period from 1800 to the present.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 521. Studies in Modern Art
3 Units
Prerequisite(s): One 300-level course in Modern Art or consent of instructor.
Description: Reconstruction and interpretations of modern artistic aspirations through study of sources and documents by artists, critics and historians.
Note: May be used to satisfy the Period/Area 2 - after-1750 requirement.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 523. History of Performance Art
3 Units
Prerequisite(s): ARTH 270 and ARTH 325; or permission of instructor; or graduate standing.
Description: History of Performance Art is designed as an advanced upper-level seminar that investigates the international, historical developments in Performance Art after World War II. It considers the experimental strategies and ideological aims of visual artists who used their bodies as the primary vehicle of expression, information, communication, and social change. Performance Art has had the dubious distinction of being the most censored art medium, and since the 1960s artists have been continually arrested and fined for their work. This is a highly significant social fact, one that draws attention to Performance Art's particularly disruptive aesthetic codes and materials-emphasizing presentation over representation; intersubjective, human bodies over inanimate objects; and temporarily over spatiality.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 524. Installation Art
3 Units
Prerequisite(s): ARTH 270 and ARTH 325; or permission of instructor; or graduate standing.
Description: Installation Art is an advanced exploratory seminar that investigates a contemporary art form as well as a thorny art-historical problem: the term "installation" now functions both as a loose descriptor for a myriad of contemporary artworks (having supplanted terms such as Assemblage and Environment) independent of medium and context, as well as a general and comprehensive art-historical genre-a circumstance that has its own compelling historical development. As a course, Installation Art is designed so that students can grapple with a central issue for contemporary art—the definition of a burgeoning critical term for art history.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 506. Studies in Contemporary Art
3 Units
Prerequisite(s): ARTH 320, or ARTH 321, or ARTH 325 or or ARTH 326, or permission of the instructor.
Description: An advanced-level seminar on special topics in contemporary art.
Note: May be used to satisfy the Period 2/Area - after-1750 requirement.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ARTH 531. Studies in Asian Art 3 Units
Prerequisite(s): One 300-level course in Asian Art, or consent of instructor.
Description: Selected topics that examine the development of art and architecture in the context of the social and cultural history of China and Japan.
Note: Cross-listed with AST 531.
Note: May be used to satisfy the Period/Area 3 - Non-Western requirement.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 541. Theories & Methods of Art History 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): Permission of the instructor.
Description: Theories & Methods of Art History introduces students to various art historical and interdisciplinary theoretical perspectives and methodological approaches that have shaped the understanding, interpretation, and production of visual art and culture in the nineteenth century to the present. The course will explore these theories and methods as specific fields of inquiry (discourses as such) through the study of primary texts, secondary or applied texts, artists' writings and artworks.
Note: May be used to satisfy an ARTH elective for the BA in Art History.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 542. Special Topics 3 Units
Prerequisite(s): Permission of the instructor.
Description: Content to be indicated in schedule of courses.
Note: May be taken with four different subtitles to a maximum of 12 hours.
Note: Satisfaction of curricular requirement determined by individual course content.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 543. Independent Study 1-3 Units
Prerequisite(s): Minimum grade point average of 3.0 overall, and minimum grade point average of 3.5 in the department, and at least 18 semester hours credit in the department, or consent of instructor.
Description: Topic and content to be determined in consultation with instructor.
Note: Satisfaction of curricular requirement determined by individual course content.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 544. Pan-African Art: Form and Content 3 Units
Prerequisite(s): Permission of the instructor.
Description: Similarities and differences in African-American folk art, Caribbean folk art, and traditional African art.
Note: Cross-listed with PAS 581.
Note: May be used to satisfy the Period/Area 3 - Non-Western requirement.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 547. Introduction to Critical and Curatorial Studies I 3 Units
Prerequisite(s): Consent of instructor.
Description: An introduction to curatorial practice of the last 30 years. Focusing on the curator's increasingly prominent role in the reception and synthesis of contemporary art, the course explores developments in exhibition design in terms of art production, international exchange, globalization, and critical theory.
Note: Cross-listed with CCS 547.
Note: A student may only receive credit for only one of the courses: ARTH 547, CCS 547, ARTH 647, CCS 647.
Note: Formerly Museum Methods I.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 548. Critical and Curatorial Studies II 3 Units
Prerequisite(s): ARTH 547, or CCS 547, or ARTH 647, or CCS 647, or consent of instructor.
Description: This seminar is structured as a curatorial practicum. Students work with the professor to develop and produce an exhibition from the university's print collection. Throughout the semester, weekly readings and presentations focus on contemporary exhibition practice as well as on the theoretical and critical concerns undergirding the student's developing exhibition.
Note: Cross-listed with CCS 548.
Note: A student may receive credit for only one of the following courses: ARTH 548, ARTH 648, CCS 548 and CCS 648.
Note: Formerly taught as Museum Methods II.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 549. Contemporary Trends in African-American Art 3 Units
Prerequisite(s): One 300-level art history course or faculty consent.
Description: Survey of contemporary African American art since the 1960s into current trends today. Examination of contemporary paintings, sculpture, fabric art, folk art, public art, and installation art.
Note: Cross-listed with PAS 509.
Note: Undergraduate credit may not be earned for this course and ARTH 349 and ARTH 329.
Note: May be used to satisfy the Period 3/Area - Non-Western requirement.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ARTH 551. Studies in Ancient Art 3 Units  
**Prerequisite(s):** ARTH 351, or ARTH 353, or consent of instructor.  
**Description:** Selected topics in ancient art and architecture.  
**Note:** May be used to satisfy the Period/Area 1 - Pre-1750 requirement.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

ARTH 552. Ancient Painting 3 Units  
**Prerequisite(s):** ARTH 351, or ARTH 353, or consent of instructor.  
**Description:** A study of mural painting from the ancient cultures of Egypt, the Aegean, Greece and Italy.  
**Note:** May be used to satisfy the Period/Area 1 - Pre-1750 requirement.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

ARTH 553. Ancient Cities 3 Units  
**Prerequisite(s):** ARTH 351, or ARTH 353, or consent of instructor.  
**Description:** A study of the development of the city in the Mediterranean region from prehistoric times to the late Roman Empire.  
**Note:** May be used to satisfy the Period/Area 1 - Pre-1750 requirement.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

ARTH 561. Studies in Medieval Art 3 Units  
**Prerequisite(s):** One 300-level course in Medieval art or architecture, or consent of instructor.  
**Description:** Studies in the art and architecture of the Middle Ages emphasizing a synthesis of the arts in a particular period or place.  
**Note:** May be used to satisfy the Period/Area 1 - Pre-1750 requirement.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

ARTH 571. Studies in Renaissance Art 3 Units  
**Prerequisite(s):** One 300-level course in Renaissance art, or consent of instructor.  
**Description:** Study of a major phase of painting or sculpture, fifteenth or sixteenth century, in Italy or Northern Europe, with emphasis on sources and development of style.  
**Note:** May be used to satisfy the Period/Area 1 - Pre-1750 requirement.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

ARTH 581. Studies in Baroque Art 3 Units  
**Prerequisite(s):** ARTH 381 or consent of instructor.  
**Description:** Study of one of the leading artists of the seventeenth and eighteenth centuries, such as Bernini, Borromini, Tiepolo, Velazquez, Rembrandt, Rubens, or Watteau.  
**Note:** May be used to satisfy the Period/Area 1 - Pre-1750 requirement.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

ARTH 593. Studies in Modern Architecture 3 Units  
**Prerequisite(s):** One 300-level course in Modern architecture, or consent of instructor.  
**Description:** Principal forms and theories of urban and building design in relation to social forces in modern Europe and America.  
**Note:** May be used to satisfy the Period/Area 2 - after-1750 requirement.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

ARTH 595. Studies in American Art 3 Units  
**Prerequisite(s):** Consent of instructor.  
**Description:** A study of mural painting from the ancient cultures of Egypt, the Aegean, Greece and Italy.  
**Note:** May be used to satisfy the Period/Area 1 - Pre-1750 requirement.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

ARTH 597. Studies in Photographic History 3 Units  
**Prerequisite(s):** Consent of instructor.  
**Description:** The aesthetic development of photography, with emphasis on U.S. photographers and contemporary issues relevant to the medium.  
**Note:** May be used to satisfy the Period/Area 2 - after-1750 requirement.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

ARTH 599. Graduate Seminar 1 Unit  
**Grading Basis:** Pass/Fail  
**Prerequisite(s):** Graduate standing.  
**Description:** Reports, critiques, presentations and discussions on personal research and current topics in visual arts.  
**Note:** Cross-listed with ART 600 and CCS 600.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

ARTH 621. Topics in Modern Art 3 Units  
**Prerequisite(s):** Consent of instructor.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

ARTH 623. History of Performance Art 3 Units  
**Prerequisite(s):** Graduate standing.  
**Description:** Consideration of investigation of experimental strategies and ideological aims of visual artists who used their bodies as the primary vehicle of expression, information, communication, and social change. Performance Art has had the dubious distinction of being the most censored art medium, and since the 1960’s artists have been continually arrested and fined for their work. This is a highly significant social fact, one that draws attention to Performance Art’s particularly disruptive aesthetic codes and materials, emphasizing presentation over representation; intersubjective, human bodies over inanimate objects; and temporality over spatiality.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ARTH 624. Installation Art
Prerequisite(s): Graduate standing.
Description: An advanced exploratory seminar that investigates a contemporary art form as well as a thorny art-historical problem: the term “installation” now functions both as a loose descriptor for a myriad of contemporary artworks (having supplanted terms such as Assemblage and Environment) independent of medium and context, as well as a general and comprehensive art-historical genre—a circumstance that has its own compelling historical development. The course is designed so that students can grapple with a central issue for contemporary art—the definition of a burgeoning critical term for art history.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 625. Representations of Trauma in the Visual Arts
Prerequisite(s): Graduate standing.
Description: This seminar examines the changing relationships between trauma and its representation in the twentieth century. Beginning with the Holocaust, the course charts a trajectory from this most profound of collective traumas, to the refinement of clinical definitions of trauma (e.g., PTSD) in the wake of the Vietnam War, to the development of trauma studies in the humanities in the 1990s, to the recent “pictorial turn” within scholarship on trauma. This historical framework will be brought to bear upon the dynamics of how trauma and visuality have been approached by scientists, scholars, and artists.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 626. Topics in Contemporary Art
Prerequisite(s): Permission of instructor.
Description: An advanced-level seminar on special topics in contemporary art.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 631. Topics in Asian Art
Prerequisite(s): Restricted to graduate students or consent of instructor.
Description: Advanced study on selected topics in Asian art and architecture.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 641. Seminar in Art History
Prerequisite(s): Consent of instructor.
Description: Exploration of core problems in iconography, formal analysis, criticism, or historiography.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 642. Theories & Methods of Art History
Prerequisite(s): Graduate standing, or permission of the instructor.
Description: Introduces students to various art historical and interdisciplinary theoretical perspectives and methodological approaches that have shaped the understanding, interpretation, and production of visual art and culture from the nineteenth century to the present. The course will explore these theories and methods as specific fields of inquiry (discourses as such) through the study of primary texts, secondary or applied texts, artists’ writings and artworks.
Note: This course is required for completion of all graduate degrees in the Department of Fine Arts (MA, MFA, PhD).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 643. Independent Study
Prerequisite(s): Consent of instructor.
Description: Credit according to achievement.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 644. Independent Study
Prerequisite(s): Consent of instructor.
Description: Credit according to achievement.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 645. Thesis Guidance
Grading Basis: Pass/Fail
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 646. Thesis Guidance
Grading Basis: Pass/Fail
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 647. Introduction to Critical and Curatorial Studies I
Prerequisite(s): Consent of instructor.
Description: An introduction to curatorial practice of the last 30 years. Focusing on the curator’s increasingly prominent role in the reception and synthesis of contemporary art, the course explores developments in exhibition design in terms of art production, international exchange, globalization, and critical theory.
Note: Cross-listed with CCS 647.
Note: A student may only receive credit for only one of the following courses: ARTH 547, CCS 547, ARTH 647, CCS 647.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ARTH 648. Critical and Curatorial Studies II 3 Units
Prerequisite(s): ARTH 547, or CCS 547, or ARTH 647, or CCS 647, or consent of instructor.
Description: This seminar is structured as a curatorial practicum. Students work with the professor to develop and produce an exhibition from the university’s print collection. Throughout the semester, weekly readings and presentations focus on contemporary exhibition practice as well as on the theoretical and critical concerns undergirding the student’s developing exhibition.
Note: Cross-listed with CCS 648.
Note: A student may receive credit for only one of the following courses: ARTH 548, ARTH 648, CCS 548 and CCS 648.
Note: Formerly taught as Museum Methods II.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 651. Topics in Ancient Art 3 Units
Prerequisite(s): Consent of instructor.
Description: Advanced study on selected topics in ancient art and architecture.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 661. Topics in Medieval Art 3 Units
Prerequisite(s): Consent of instructor.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 671. Topics in Renaissance Art 3 Units
Prerequisite(s): Consent of instructor.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 681. Topics in Baroque Art 3 Units
Prerequisite(s): Consent of instructor.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 693. Topics in Modern Architecture 3 Units
Prerequisite(s): Consent of instructor.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 695. Topics in American Art 3 Units
Prerequisite(s): Consent of instructor.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 699. Topics in Urban History 3 Units
Prerequisite(s): Consent of instructor.
Description: Advanced research in urban history from an architectural standpoint.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 743. Directed Reading for Comprehensive Exams (Major) 2-12 Units
Grading Basis: Pass/Fail
Prerequisite(s): Completion of coursework for the PhD.
Description: To be taken by doctoral students who have completed all coursework and are preparing for the major comprehensive exam.
Note: May be repeated up to 12 hours but only 2 hours count towards degree requirements.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 744. Directed Readings for Comprehensive Exams (Minor) 1-9 Units
Grading Basis: Pass/Fail
Prerequisite(s): Completion of all coursework for the PhD.
Description: To be taken by doctoral students who have completed all coursework and are preparing for the minor comprehensive exam.
Note: May be repeated up to 9 hours but only 1 hour counts toward degree requirements.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ARTH 745. Dissertation Research 1-12 Units
Grading Basis: Pass/Fail
Prerequisite(s): Permission of dissertation director.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Asian Studies (AST)

AST 500. Topics in Asian Studies-Humanities 3 Units
Description: Selected topics in Asian studies from a humanities perspective.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AST 501. Topics in Asian Studies-Social Sciences 3 Units
Description: Selected topics in Asian studies from a social science perspective.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
AST 517. Anthropology of China 3 Units
Term Typically Offered: Fall Only
Prerequisite(s): Graduate standing or permission of the instructor.
Description: The creation of modern nation-states in China, Japan, and Korea from 1840 to 1945.
Note: Cross-listed with HIST 598.

For class offerings for a specific term, refer to the Schedule of Classes.

AST 531. Studies in Asian Art 3 Units
Prerequisite(s): One 300-level course in Asian art, or consent of instructor.
Description: Select topics that examine the development of art and architecture in the context of social and cultural history of China and Japan.
Note: Cross-listed with ARTH 531.

For class offerings for a specific term, refer to the Schedule of Classes.

AST 598. Nationalism and Modernity in East Asia 3 Units
Description: The creation of modern nation-states in China, Japan, and Korea from 1840 to 1945.
Note: Cross-listed with HIST 598.

For class offerings for a specific term, refer to the Schedule of Classes.

AST 641. Clash of Civilizations in the 21st Century 3 Units
Description: This course examines three major civilizations (Western, Islam, and Chinese) and their roles in international relations in the 21st century.
Note: Cross-listed with POLS 641.

For class offerings for a specific term, refer to the Schedule of Classes.

Audiology (AUDI)

AUDI 600. Anatomy and Physiology of Hearing 3 Units
Description: Intensive study of the gross aspects of anatomy associated with normal hearing, including the peripheral and central auditory system.
For class offerings for a specific term, refer to the Schedule of Classes.

AUDI 604. Essential Techniques in Audiometry for Pediatrics and Adults 3 Units
Description: The epidemiology of hearing loss. Basic tests of auditory function including pure tone audiometry, speech audiometry and immittance. Focus on both pediatric and adult aspects of testing, with additional topics related to newborn testing. Principles of masking and pathologic correlates of hearing loss discussed.
For class offerings for a specific term, refer to the Schedule of Classes.

AUDI 605. Introduction to Audiological Techniques and Rehabilitation 1-3 Units
Description: This course provides an introduction to the evaluation, screening and habilitation/rehabilitation of adults and children with hearing impairment. Topics include tests of auditory function, effects of auditory pathology, and amplification.
For class offerings for a specific term, refer to the Schedule of Classes.

AUDI 606. Acoustics and Speech Acoustics 3 Units
Description: Study of sound and its measurement. Relationship of sound to human hearing. Speech acoustics and perception of speech.
For class offerings for a specific term, refer to the Schedule of Classes.

AUDI 608. Auditory Anatomy & Physiology II 3 Units
Description: Structure and function of the central auditory system with an emphasis on electrophysiologic assessment of cortical and subcortical pathways for clinical purposes.
For class offerings for a specific term, refer to the Schedule of Classes.

AUDI 610. Clinical Clerkship I 1 Unit
Description: A two-semester sequence of directed observation in the audiology clinic. Participation in interviewing patients, eliciting a complete history, preparing written technical reports and record keeping. Includes observations during the first semester. 1 credit hour each semester.
For class offerings for a specific term, refer to the Schedule of Classes.

AUDI 612. Pathology of the Auditory-Vestibular System 3 Units
For class offerings for a specific term, refer to the Schedule of Classes.

AUDI 614. Clinical Techniques in Audiology I 1 Unit
Description: Part one of a two-semester sequence of directed laboratory exercises. Laboratory exercises will give students hands-on experience with clinical techniques designed to evaluate hearing.
For class offerings for a specific term, refer to the Schedule of Classes.
AUDI 615. Clinical Techniques in Audiology II  
**Description:** Part two of a two-semester sequence of directed laboratory exercises. Laboratory exercises will give students hands-on experience with clinical techniques designed to evaluate hearing. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 616. Genetics and Hearing Loss  
**Description:** Fundamentals of genetics, modes of inheritance, genetic syndromes affecting the auditory system, ethical implications of genetic testing. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 618. Instrumentation and Electronics in Audiology  
**Description:** Basics of electronic circuitry, especially in audiometric instrumentation and amplification systems. Includes instrumentation calibration, trouble-shooting and repair. Analog, analog-digital hybrid, and digital signal processing. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 619. Audiologic Counseling & Patient Communication  
**Description:** An exploration of the communication and counseling relationship between student clinician and patient. Students will have an opportunity to develop and refine effective communication and counseling via interaction with standardized patients and personal reflection. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 620. Clinical Clerkship II  
**Description:** A three-semester sequence of introductory level clinical audiology under the aegis of an experienced clinician. Mastery of basic skills such as threshold determination for pure tones and speech stimuli, masking, auditory discrimination measurements, tympanometry, and calibration. 2 credit hours each semester. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 621. Audiologic Rehabilitation  
**Description:** Management strategies for hearing loss beyond the hearing aid. Topics include auditory training, speech reading, communication repair strategies, counseling, adjustment to hearing aids, assistive listening devices and cochlear implants. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 622. Electrophysiologic Techniques in Audiology  
**Description:** Principles of biological potentials, signal averaging, amplification and filtering. Clinical utility of the brainstem auditory evoked response with attention to diagnostic techniques and peripheral hearing assessment. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 623. Audiologic Electrophysiology II  
**Description:** Clinical acquisition of middle and late auditory evoked potentials with applications for both diagnostic and rehabilitative ideology. Equal emphasis is placed on acquisition and interpretation of those evoked responses. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 624. Amplification Technology  
**Description:** Principles of amplification electronics, electroacoustics and acoustics in audiologic (re)habilitation. Real ear measurements. ANSI specifications. Earmold acoustics. Modifying acoustical parameters. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 625. Audiologic Counseling  
**Prerequisite(s):** Students in Doctor of Audiology Program.  
**Description:** Review of the complex psychosocial and emotional aspects arising within families in the presence of both pediatric and adult hearing loss. Examination of counseling approaches for "non-professional" counseling. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 626. Assessment and Management of Vestibular Disorders  
**Description:** Study of the contribution of the vestibular system to balance and orientation. Technologies and procedures for assessing the dizzy patient. Management of vestibular disorders. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 628. Differential Diagnosis in Audiology  
**Description:** Interpreting the audiologic test battery. Integrating audiologic test results with other diagnostic procedures (i.e., radiologic, neurologic, pathologic, etc). Advanced concepts in test construction, delivery and interpretation. Using test results to plan remediation. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 629. Cochlear Implants and other Implantable Hearing Devices  
**Description:** Comprehensive Study of cochlear implantation, BAHA and middle ear implantation including: general anatomy, device components, patient selection and evaluation, speech coding strategies, mapping, programming, troubleshooting, and verification. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 630. Amplification Selection and Fitting  
**Description:** Determining candidacy and benefit from amplification. Selecting appropriate amplification systems and options including assistive listening devices and implantable technologies. Review of current technologies and their clinical efficacy. Introduction to the business aspects of hearing aid dispensing. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
AUDI 632. Professional Issues in Audiology 2 Units
Description: Overview of the social, political, ethical, and economic climate in hearing health care delivery. Interprofessional relationships and responsibilities. Licensure and certification.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 634. Electrophysiologic Techniques in Audiology II 1 Unit
Description: This course introduces brain imaging techniques for cognitive brain research in Audiology with a focus on late auditory event-related potentials (ERP’s). The course will focus on four main areas: 1) theory; 2) experimental design; 3) data collection, analysis, and interpretation; and 4) the use of late potentials in audiological practice. Basic tutorials on EEG and ERP software packages will include ASA and EEGLAB.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 635. Audiology Internship 4 Units
Description: A three-semester sequence of supervised patient care in a variety of sites closely associated with the university. Student clinicians will assume increasing responsibility for the full range of basic and intermediate level audiologic procedures and interpretation. 4 credits each semester.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 636. Pediatric Audiology 2 Units
Description: Hearing disorders and audiologic techniques in the pediatric population. Topics include identification audiometry (screening protocols), childhood aural pathologies and treatment options, behavioral audiometry, and current management options.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 638. Educational Audiology 3 Units
Description: Overview of current management options for the (re)habilitation of children with hearing loss, including: educational issues, amplification, FM systems, classroom listening systems and counseling.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 640. Special Topics in Audiology 1-3 Units
Description: An elective course designed to focus on specific topics in audiology. Subject matter to be determined by the faculty and students. May be repeated to a limit of 6 credits.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 642. Gerontologic Audiology 3 Units
Description: N
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 646. Medical Audiology 3 Units
Description: Intensive study of the medical correlates of hearing impairment including medical/surgical intervention, pharmacology. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 648. Hearing Science I 3 Units
Description: This course is the first in a two-course sequence in hearing science. It will survey contemporary theory and research in audition, with emphasis on modern mathematical and psychophysical methods. Major topics will include the anatomy and physiology of the auditory system, measurement and control of sound, auditory signal analysis, and basic auditory abilities such as detection, discrimination, and masking.
Note: Cross-listed with PSYC 646.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 650. Research Methods 3 Units
Description: Students will design a clinical research project through: a critical review of the literature, determination of appropriate research design, and a statistical review. Students will prepare an application for the Human Studies Protection Program Office.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 652. Prevention of Hearing Loss 2 Units
Description: Focuses on the effect of noise on the auditory system, noise measurement and abatement, hearing conservation programming, OSHA standards, etc. The medical-legal aspects of hearing impairment.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 654. Advanced Auditory Processing 3 Units
Term Typically Offered: Spring Only
Description: Special study of the central auditory nervous system with attention to normal and disordered auditory function past the auditory periphery (e.g., linguistic, cognitive, and suprathreshold deficit consideration). Assessment and current strategies for management of auditory processing disorders.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 656. Practice Management in Audiology 3 Units
Description: Organizing, managing and expanding an audiologic practice. Determining costs and fees, accounts management, quality assurance, third-party reimbursement, contracting for services, demographic trends, business and professional ethics, professional liability, marketing, certification and licensure.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
AUDI 660. Investigation in Audiologic Practice 1-3 Units
Description: Directed course in which students investigate specific clinical problems in audiology. Will include research on a topic of clinical or professional interest. Investigation eventuates in a publishable paper. May be repeated to a maximum of 9 credits.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 670. Clinical Externship 9 Units
Description: A 3-semester sequence of advanced clinical practicum under the direction of a faculty member or preceptor in an external practicum. Each externship is custom-tailored to the interests of the trainee. May involve relocation or travel. 8 credits each semester.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 679. Independent Study in Audiology 1-6 Units
Prerequisite(s): Requires consent of instructor in order to register.
Description: Individualized course with topics determined by student and instructor. May be repeated.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

AUDI 680. Special Topics in Audiology 1-3 Units
Term Typically Offered: Fall Only
Description: Discussion covering current ideas in audiology as they relate to clinical practice and research. An emphasis is placed on contemporary and/or advanced topics relevant for the more experienced student.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Biochemistry (BIOC)

BIOC 545. Biochemistry I 3 Units
Description: Chemistry of amino acids, peptides, proteins, nucleotides and nucleic acids; methods of analysis and laboratory synthesis; nucleotides; RNA, DNA and protein biosynthesis.
Note: Credit may not be earned in both BIOC 545 and BIOC 645.
Note: Credit may not be applied toward an advanced degree in Chemistry.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 547. Biochemistry II 3 Units
Prerequisite(s): BIOC 545.
Description: Cellular metabolism of carbohydrates, lipids, amino acids and biomembrane phenomena, enzyme properties, kinetics, and control mechanisms; ligand binding.
Note: Credit may not be earned in both BIOC 547 and BIOC 647.
Note: Credit may not be applied toward an advanced degree in Chemistry.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 603. Special Topics in Biochemistry 1-4 Units
Prerequisite(s): BIOC 645 and BIOC 647 (or concurrently), or consent of instructor.
Description: Arranged to fit individual needs on topics of current interest or to receive some advanced training or conduct research project.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 606. Biochemistry Seminar 1 Unit
Description: Both Fall and Spring semesters.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 611. Advanced Techniques in Biochemistry and Molecular Biology 4 Units
Prerequisite(s): BIOC 645 or equivalent; restricted to Biochemistry & Molecular Genetics graduate students.
Description: An introduction to modern biochemical and molecular biology methods in lecture and laboratory format. Methodologies covered include: DNA cloning and sequencing, RNA isolation and quantitative PCR, bioinformatics analysis, transfection and RNA knockdown approaches, immunoprecipitations and protein detection, and enzyme characterization.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 613. Biochemistry Laboratory 2-4 Units
Grading Basis: Pass/Fail
Description: The course will consist of participation in the research programs of two laboratories in the department. A half-semester will be devoted to each laboratory. Pass/Fail grading.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 619. Research 1-15 Units
Grading Basis: Pass/Fail
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 620. Scientific Method and Grant Writing 2 Units
Term Typically Offered: Spring Only
Prerequisite(s): Restricted to students in the Biochemistry and Molecular Genetics graduate programs; permission of course director.
Description: This objective of this course is to introduce students to the fundamentals of grantsmanship. The topics incorporate all aspects for grant application process as well as overview of the scientific method, generation of hypotheses, and research design. Student-directed learning is a major component for this course with the summative event being completion of a grant proposal. A reiterative writing process for proposal development will be ongoing throughout the course.
Note: May be repeated once for up to 4 credits.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
BIOC 630. Responsible Conduct of Research: Survival Skills and Research Ethics 1-4 Units
Grading Basis: Pass/Fail
Description: The topics covered include 11 areas of Research Compliance training mandated by the NIH for training grants and focuses on contemporary research ethics in biomedical sciences.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 640. Principles of Biochemistry 5 Units
Prerequisite(s): Consent of instructor.
Description: Covers general aspects of biochemistry with special emphasis given to areas applicable to dentistry. Topics include protein structure and function; chemistry and metabolism of carbohydrates, lipids, amino acids, and nucleotides; molecular genetics; nutritional biochemistry; calcification; and molecular endocrinology. Clinical conferences key to current lecture topics are presented by clinical faculty. Spring.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 645. Advanced Biochemistry I 4 Units
Description: Chemistry of amino acids, peptides, proteins, nucleotides and nucleic acids; methods of analysis and laboratory synthesis; nucleotides; RNA, DNA and protein biosynthesis.
Note: Credit may not be earned in both BIOC 545 and BIOC 645.
Note: Credit may not be applied toward an advanced degree in Chemistry.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 647. Advanced Biochemistry II 4 Units
Prerequisite(s): BIOC 645.
Description: Cellular metabolism of carbohydrates, lipids, amino acids and nucleotides; enzyme properties, kinetics, and control mechanisms, ligand binding; biomembrane phenomena.
Note: Credit may not be earned in both BIOC 547 and BIOC 647.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 660. Molecular Biology and Genetics 4 Units
Prerequisite(s): BIOC 645 and BIOC 647 or consent of course director.
Description: This course examines the fundamental principles of genetics and molecular biology as they apply to molecular and cellular processes. Topics include: Mendelian, population, and quantitative genetics; epigenetics; bioinformatics; mechanisms controlling transcriptional and post-transcriptional regulation of gene expression: RNA and miRNA biology; and protein synthesis and regulation. An emphasis will be on reading and critiquing current literature.
Note: Crosslisted with BIOL 668.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 664. Biomedical Research Data Analysis Methods 1 Unit
Grading Basis: Pass/Fail
Term Typically Offered: Summer Only
Prerequisite(s): Currently enrolled graduate students in good standing.
Description: A lecture and discussion course designed for graduate students desiring to learn the basic statistical methods and data presentation approaches that are used in biomedical research.
Note: This course requires permission from the instructor.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 667. Cancer Biology 4 Units
Prerequisite(s): BIOC 545 or BIOC 645 or equivalents.
Description: A comprehensive course on cancer biology with emphasis on molecular mechanisms and research. Topics will include: the public health impact of cancer, molecular mechanisms of carcinogenesis and metastasis, host-tumor interactions, current and future molecular therapies and prevention, apoptosis, tumor immunology, cancer genetics and genomics, prevention, metabolism in cancer cells, signal transduction, cell cycle, and oncogenes and tumor suppressor genes. There will also be clinical-based lectures.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 668. Molecular Mechanisms of Toxicology 3 Units
Prerequisite(s): BIOC 668 or approval by course directors or program directors.
Description: Molecular interactions of drugs and toxicants on cellular processes; including foreign compound metabolism, signal transduction, cell cycle, DNA repair/DNA replication are covered and put in context.
Note: Crosslisted with PHTX 661.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 670. Biomedical Research Data Analysis Methods 1 Unit
Grading Basis: Pass/Fail
Term Typically Offered: Summer Only
Prerequisite(s): Currently enrolled graduate students in good standing.
Description: A lecture and discussion course designed for graduate students desiring to learn the basic statistical methods and data presentation approaches that are used in biomedical research.
Note: This course requires permission from the instructor.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOC 662. Biomolecular Interactions 2 Units
Prerequisite(s): BIOC 645 and BIOC 647 or equivalents.
Description: This course examines techniques used to characterize biomolecules and their interactions including surface plasmon resonance, equilibrium dialysis, microcalorimetry, analytical ultracentrifugation, dynamic light scattering and absorption fluorescence and circular dichroism spectrosopies.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

<th>Prerequisite(s)</th>
<th>Description</th>
<th>Consent of Instructor.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>BE 500. Special Topics in Bioengineering</strong></td>
<td>3</td>
<td>Fall, Spring, Summer</td>
<td>BE 420.</td>
<td>This course will be devoted to topics that usually are not treated in detail in the general curriculum. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td><strong>BE 522. Biomedical Acoustics</strong></td>
<td>3</td>
<td>Spring Only</td>
<td>BE 420.</td>
<td>An introduction to the fundamental principles of physical acoustics with an emphasis on biomedical applications. Major concepts covered include (i) acoustic wave physics, (ii) transducers, and (iii) ultrasound imaging. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td><strong>BE 540. Machine Learning in Medicine</strong></td>
<td>3</td>
<td>Spring Only</td>
<td>BE 420.</td>
<td>Topics: 1) fundamentals of medical data, 2) application of machine learning models &amp; algorithms to medicine, 3) learning from data &amp; classification of disorders, and 4) overview of health data, collection with sensors, body area networks, brain Image data and other publicly available medical applications data. Students will learn about machine learning applications to real world medical data through examples and reading papers. Students are expected to work on a team project and write technical reports. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td><strong>BE 551. Gene and Drug Delivery</strong></td>
<td>3</td>
<td>Fall Only</td>
<td>BE 354 and BE 450, or graduate standing.</td>
<td>This course covers advanced topics of gene and drug delivery, including the physiological barriers and challenges to delivery. Biomaterials used in delivery, considerations for specificity of drug/gene targeting, nanoscale delivery vehicles, the delivery of biologies and vaccines, and intracellular delivery. In addition, this course integrates literature and discussion regarding specific platform design and delivery considerations against cancer, viral, and bacterial applications. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td><strong>BE 552. Introduction to Tissue Engineering</strong></td>
<td>3</td>
<td>Spring Only</td>
<td>CHEM 341, BE 354, BE 359, and BE 450.</td>
<td>Design, development and clinical application of tissue engineered components, including blood vessels, bone, cartilage, pancreas, liver and skin, for use in the human body. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td><strong>BE 553. Nanoscale Bioengineering: Application and Methodology of Nanobiomaterials in Bioengineering</strong></td>
<td>3</td>
<td>Fall, Spring, Summer</td>
<td>BE 450 or BE 453 or permission of department chair.</td>
<td>An introduction to the fundamental principles of nanobiomedical materials with a focus on (i) synthetic methodologies of tailored nanobiomaterials (physical, chemical and electrochemical), (ii) nanobiomaterial characterization using advanced analytical, microscopic and spectroscopic techniques, and (iii) therapeutic and diagnostic applications. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td><strong>BE 581. Advanced Computer Aided Design and Manufacturing for Bioengineers</strong></td>
<td>3</td>
<td>Fall Only</td>
<td>BE 340 or by permission of Department Chair.</td>
<td>An introduction to the engineering design and manufacturing processes for bioengineering applications with an emphasis on the use of modern computer-based analysis, design and presentation tools as well as manufacturing techniques such as casting, machining, forming and assembly for polymer and metal-based materials. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td><strong>BE 593. Independent Study in Bioengineering</strong></td>
<td>1-4</td>
<td>Fall, Spring, Summer</td>
<td>Faculty consent.</td>
<td>A theoretical or experimental investigation of a problem area related to Bioengineering. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td><strong>BE 600. Advanced Topics in Bioengineering</strong></td>
<td>1-6</td>
<td>Fall, Spring, Summer</td>
<td>Graduate/Professional Standing in Bioengineering or Consent of Instructor.</td>
<td>An advanced course in bioengineering topics not covered by regularly scheduled courses. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td><strong>BE 601. Bioengineering Doctoral Seminar</strong></td>
<td>1</td>
<td>Fall, Spring, Summer</td>
<td>Admission to PhD in Interdisciplinary Studies with a Specialization in Translational Bioengineering.</td>
<td>Current research topics in the field of translational bioengineering will be presented and discussed. Sessions will include guest speakers, student presentations on research projects with interaction and feedback from students and faculty, and critical discussion of scientific literature. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
</tbody>
</table>
BE 602. Graduate Internship in Bioengineering 2 Units
Grading Basis: Pass/Fail
Prerequisite(s): Admission to Graduate Study and Chair Permission.
Description: This course provides the structure and focus for the graduate internship field assignment to ensure that the assignment is appropriate and consistent with the intern's graduate course of study and professional development.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BE 603. Bioengineering Research Ethics 2 Units
Prerequisite(s): Admission to the PhD in interdisciplinary Studies with a Specialization in Translational Bioengineering or by permission of Department Chair.
Description: Complex ethical issues facing bioengineers will be addressed, including conflicts of interest, patient rights, protection, beneficence and confidentiality, equitable allocation of scarce health resources, research misconduct, animal experimentation, and clinical trails for new medical devices.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BE 605. Tissue & Molecular Biology Techniques Laboratory 3 Units
Term Typically Offered: Summer Only
Prerequisite(s): BE 359 or equivalent.
Description: Introduces students to techniques used in tissue and molecular biology laboratories including cell and tissue culture, cell assays, cell and tissue imaging techniques and sterilization techniques.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BE 611. Cardiovascular Dynamics 3 Units
Prerequisite(s): Graduate or professional standing in Bioengineering.
Description: Review of basic cardiovascular physiology. Application of basic engineering principles, including electrical and mechanical analog models to describe cardiovascular function and data acquisition and analysis techniques to develop medical devices and instrumentation.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BE 621. Bioinstrumentation 4 Units
Term Typically Offered: Fall Only
Prerequisite(s): Graduate/Professional Standing; and BE 354 and BE 423 or equivalent(s); or consent of instructor.
Description: Analysis and design of Bioinstrumentation. Basic circuitry, electronics and laboratory techniques including sensors, transducers, biopotentials, amplifiers, measurement and safety.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BE 630. Biomechanical Computer Modeling and Simulation of Human Movement 3 Units
Prerequisite(s): Graduate/professional standing; BE 354 or equivalent.
Description: Development and application of musculoskeletal computer modeling and simulation techniques to analyze human movement biomechanics.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BE 639. Injury Biomechanics 3 Units
Prerequisite(s): ME 649 or BE 354 or equivalent, or permission of the instructor.
Note: Cross-listed with ME 639.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BE 640. Computational Methods for Medical Image Analysis 3 Units
Prerequisite(s): BE 420.
Description: This course covers the theory of stochastic and geometric models of medical imaging, including spatial interaction models, intensity models, and geometric shape models. The emphasis is on understanding the underlying mathematics in a practical sense.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BE 650. Advanced Biomaterials 3 Units
Prerequisite(s): BE 450 or consent of instructor.
Description: Advanced topics on the use of biomaterials, and their performance, in reconstructive surgery. Specifically skin, nerve, bone, and soft tissue regeneration utilized for burn patients, cancer patients, and trauma patients.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BE 654. Advanced Physiology for Engineers 3 Units
Prerequisite(s): BE 354.
Description: This course provides an in-depth view of the fundamental principles of how biochemistry and physiology are integrated. Emphasis is placed on the physiologic mechanisms for feedback control of physiologic function in humans.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BE 658. Rehabilitation Engineering and Assistive Technology 3 Units
Prerequisite(s): ME 649 or BE 354 or equivalent or permission of instructor.
Description: Introduction to rehabilitation engineering and assistive technology. Medical aspects of disability, assistive technology applications and current rehabilitation research.
Note: Cross-listed with ME 658.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BE 668. Translational Bioengineering teaching Practicum 2 Units
Prerequisite(s): Admission to Translational Bioengineering PhD program and permission of course instructor.
Description: A guided learning experience in inquiry-based instructional techniques and best practices in engineering education that includes field experience as a graduate instructor.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
**BE 680. Bio-Micro**  
3 Units  
**Prerequisite(s):** Graduate/Professional standing and ECE 543, or instructor’s permission.  
**Description:** Application of microtechnology principles to the biomedical field in areas that include tissue engineering, lab-on-a-chip, biosensors, drug delivery, etc. Application-specific criteria supporting the need for miniaturization.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**BE 681. Biomedical Microfluidics**  
3 Units  
**Description:** Provides students with an overview of microfluidics and device design considerations, introduce commonly used fabrication techniques to accomplish design, fabrication and validation of a device for an application in cell or molecular biology.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**BE 683. Artificial Organs**  
3 Units  
**Term Typically Offered:** Spring Only  
**Prerequisite(s):** Graduate/professional standing in bioengineering.  
**Description:** Bioengineering design of artificial organ replacement systems and their clinical usage. Commercially available systems analyzed for mass transfer efficiency; biomechanics and hemodynamics; and size and efficiency of the device.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**BE 685. Modeling of Biological Phenomena**  
3 Units  
**Term Typically Offered:** Summer Only  
**Prerequisite(s):** Graduate/professional standing in Bioengineering, BE 359 and BE 354 or equivalent(s).  
**Description:** Current research topics in the field of translational bioengineering will be presented and discussed. Sessions will include guest speakers, student presentations on research projects with interaction and feedback from students and faculty, and critical discussion of scientific literature.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**BE 691. Bioengineering Non-thesis Design/Research Project**  
3 Units  
**Term Typically Offered:** Summer Only  
**Prerequisite(s):** Graduate/Professional standing in bioengineering, BE 491, and BE 497.  
**Description:** Design or research project involving a literature search, project planning, design objectives, fabrication and/or experimentation, analysis, technical report writing, and oral presentation under a faculty member’s guidance. Final technical report is required to be presented orally to course instructor and faculty mentor for graded evaluation.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**BE 692. Bioengineering Clinical Rotation**  
2 Units  
**Prerequisite(s):** Successful completion of Translational Bioengineering qualifying exam, permission of advisor and program director, and HIPAA certified.  
**Description:** Students will observe day to day clinical activities associated with patient care by participating in clinical rounds and/or scheduled specialty clinics led by residents, fellow and/or clinical faculty. Exposure to the clinical setting will allow students to gain an understanding of concepts such as patient history, disorder/disease presentation, diagnostics, clinical decision making, treatment modalities, disease management, procedures and clinical outcomes. Students must work with their PhD advisor and the ISSTBE-PhD Program Director to identify clinical rotation opportunities in specialty areas of interest within the Schools of Medicine or Dentistry.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**BE 693. Independent Study in Bioengineering**  
1-6 Units  
**Prerequisite(s):** Faculty consent.  
**Description:** An advanced theoretical or experimental investigation of a problem area related to Bioengineering.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**BE 695. Bioengineering Research Design & Methods**  
3 Units  
**Term Typically Offered:** Spring Only  
**Prerequisite(s):** Graduate/Professional standing.  
**Description:** Focus on study designs & methodologies and their appropriate application. Emphasis placed on development of specific aims, testable hypotheses, and interpretation and communication of research findings. Data analysis concerns and strategies for parametric and non-parametric applications will be addressed using SPSS. Students will learn to communicate scientific methodologies and findings, and to interpret their  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**BE 697. Master of Engineering Thesis in Bioengineering**  
1-6 Units  
**Prerequisite(s):** Graduate/Professional standing in bioengineering.  
**Description:** Original design or research activity in a bioengineering discipline, under the direction of a faculty member. A written thesis must be presented to a faculty committee and defended.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**BE 698. MS Thesis in Bioengineering**  
1-6 Units  
**Term Typically Offered:** Fall, Spring, Summer  
**Prerequisite(s):** Graduate or Professional school standing and permission of Department Chair.  
**Description:** Experimental or design-based thesis research performed as part of Master of Science degree requirements. A written thesis is required to be presented and defended orally and submitted to the faculty for approval.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
BE 699. Dissertation Research 3-15 Units
Prerequisite(s): Successful completion of the Translational Bioengineering PhD qualifying exam.
Description: Original research activity in an appropriate translational bioengineering discipline, under the direction of a graduate faculty member affiliated with PhD in Interdisciplinary Studies with a Specialization in Translational Bioengineering (ISSTBE PHD). For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BE 700. Dissertation Research-Translational Bioengineering 1-15 Units
Grading Basis: Pass/Fail
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): Dissertation director approval.
Description: Program director approval for initial credits. Original research activity in bioengineering under the direction of a Bioengineering graduate faculty member. Permission of program director required to register for initial credits. Permission of dissertation director required. A written dissertation must be submitted to a dissertation examination committee. The dissertation must also be orally defended. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Bioethics (BETH)

BETH 601. Independent Study in Bioethics: 1-3 Units
Prerequisite(s): Consent of instructor.
Description: Independent study in Bioethics. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BETH 605. Selected Topics in Bioethics 3 Units
Prerequisite(s): To be determined by instructor, in the light of the topic chosen for that semester.
Description: Selected topics in Bioethics (variable content). For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BETH 621. Ethical Theory 3 Units
Prerequisite(s): Admission into the Bioethics MA program, or consent of instructor.
Description: Recent developments in ethical theory, such as examination of the status of moral facts, moral realism, impartiality and personal attachments, or moral agency.
Note: Cross-listed with PHIL 521, PHIL 621.

BETH 680. Foundations of Bioethics 3 Units
Prerequisite(s): Admission into Bioethics MA program, or consent of instructor.
Description: Grounding in the major theories and methods of bioethical decision-making, including contemporary controversies about the role of theory, principles, cases, narrative, and virtues.
Note: Cross-listed with PHIL 680, PHIL 580.

BETH 681. Current Controversies in Health Care Ethics 3 Units
Prerequisite(s): Admission into Bioethics MA program, or consent of instructor.
Description: Topics in health care ethics currently attracting the most attention in both professional and public discussions. A variety of viewpoints on the topics will be considered.
Note: Cross-listed with PHIL 681, PHIL 581.

BETH 682. Gender, Race and Culture in Health Care 3 Units
Prerequisite(s): Admission into Bioethics MA program, or consent of instructor.
Description: Examines ways social groupings and systems affect the kind of health care needed and the kind people receive. Addresses both biases and stereotypes, and empirical claims about biologically-based differences.
Note: Cross-listed with PHIL 682 & WGST 682, PHIL 582 & WGST 582.

BETH 683. Health Care, Justice, and Community 3 Units
Prerequisite(s): Admission into the Bioethics MA program, or consent of instructor.
Description: Examines theories of justice and equality as they apply to issues in health care delivery, considers explanations for why disparities exist, and explores practical ways that communities have addressed inequalities.
Note: Cross-listed with PHIL 683, PHIL 583.

BETH 684. Clinical Ethics 3 Units
Prerequisite(s): Admission into the Bioethics MA Program, or consent of instructor.
Description: Application of ethical principles, virtues, and cases in the context of clinical care, with a practical approach toward ethics, consultation and conflict resolution.
Note: Cross-listed with PHIL 684.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
BETH 685. Integrative Bioethics: Self and Other in Theory and Practice 3 Units
Grading Basis: Pass/Fail
Prerequisite(s): Admission to Bioethics MA program, or consent of instructor.
Description: Capstone for Bioethics MA program in form of collaborative seminar. Students produce a culminating project, whose development and final formal presentation they share with their peers and community.
Note: Cross-listed with PHIL 685.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Biology (BIOL)

BIOL 501. Independent Study 1-3 Units
Prerequisite(s): Faculty consent, minimum cumulative GPA of 3.0, and completion of biology core.
Description: Independent study in a selected subject area with a student-selected faculty member.
Note: No more than 6 hours of Undergraduate Research (BIOL 404, BIOL 405 or BIOL 406 WR) or Independent Study (BIOL 501, BIOL 502 or BIOL 504 WR) may be used to meet the minimum in Biology for the BA or BS.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 502. Independent Study 1-3 Units
Prerequisite(s): Faculty consent, minimum cumulative GPA of 3.0, and completion of biology core.
Description: Independent study in a selected subject area with a student-selected faculty member.
Note: No more than 6 hours of Undergraduate Research (BIOL 404, BIOL 405 or BIOL 406 WR) or Independent Study (BIOL 501, BIOL 502 or BIOL 504 WR) may be used to meet the minimum in Biology for the BA or BS.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 512. Endocrinology 3 Units
Prerequisite(s): BIOL 465.
Description: Chemical regulation in animals.
Note: Credit may not be earned in both BIOL 512 and BIOL 612.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 519. Ichthyology 3 Units
Prerequisite(s): BIOL 363.
Description: Introduction to anatomy, physiology, ecology, distribution, economic importance, and classification of major groups and representative local species of fish.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 522. Aquatic Ecology 4 Units
Prerequisite(s): BIOL 363.
Description: Ecological processes in aquatic environments with primary emphasis on lakes and reservoirs.
Note: Credit may not be earned in both BIOL 522 and BIOL 622.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 542. Gene Structure and Function - WR 3 Units
Prerequisite(s): BIOL 330 or equivalent, or consent of instructor.
Description: Advanced topics in genetics of prokaryotes and eukaryotes, including chromosome structure and function, and gene regulation.
Note: Approved for the Arts & Sciences upper-level requirement in written communication (WR).
Note: Credit may not be earned for both BIOL 542 and BIOL 642.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 548. Experimental Design and Analysis - CUE 3 Units
Prerequisite(s): BIOL 350 or BIOL 651.
Description: Move principles of sound experimental design, analysis and presentation from recognition to active vocabulary. Students completing the course can serve as statistical consultants for moderately complex statistical designs.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 560. Ecology of Urban and Suburban Landscapes 3 Units
Prerequisite(s): BIOL 363 or GEOS 365.
Description: Effects of cities and suburban sprawl on air and water chemistry, microclimate, fragmented landscapes, and responses of biotic and human communities to these conditions that degrade or promote urban resilience, adaptation and sustainability.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
BIOL 562. Ecosystems Ecology 3 Units
**Prerequisite(s):** BIOL 363; an advanced ecology course recommended.
**Description:** The transformations of matter and energy that link plant, animal and geochemical cycles. Implications for resource management also discussed.
**Note:** Credit may not be earned in both BIOL 562 and BIOL 662.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 563. Population and Community Ecology 3 Units
**Prerequisite(s):** BIOL 363.
**Description:** Introduction to population dynamics and species interactions in aquatic and terrestrial ecosystems. Review of underlying ecological theory and its applications for conserving biodiversity.
**Note:** Credit may not be earned in both BIOL 563 and BIOL 663.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 567. Conservation Biology 3 Units
**Prerequisite(s):** BIOL 363 or permission of instructor.
**Description:** This course provides an overview of theory and practice of conservation. Topics include biodiversity, habitat loss, the effects of habitat changes on populations, and the design and establishment of reserves. Among other things, students will learn: 1) key terms and concepts related to biodiversity, 2) significant threats to biodiversity and efforts to mitigate them, and 3) practical and socioeconomic elements of conservation biology.
**Note:** Credit may not be earned for both BIOL 567 and BIOL 667.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 569. Evolution 3 Units
**Prerequisite(s):** BIOL 363.
**Description:** Offers a comprehensive overview of evolution and provides students with a review of issues that make up this critical discipline.
**Note:** Credit may not be earned in both BIOL 569 and BIOL 669.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 571. Selected Topics 3 Units
**Term Typically Offered:** Occasionally Offered
**Description:** Contents to be indicated in schedule of courses. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 593. Experimental Cell Biology for Teachers 3 Units
**Prerequisite(s):** BIOL 240, BIOL 242, BIOL 244, BIOL 329, BIOL 330, and BIOL 331 or equivalent; or consent of instructor.
**Description:** Lecture and lab activities focused on inquiry-based investigations at the cellular level suitable for secondary school classroom.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 594. Experimental Botany for Teachers 3 Units
**Prerequisite(s):** BIOL 240, BIOL 242, BIOL 244, BIOL 329, BIOL 330, BIOL 331 or equivalent, or consent of instructor.
**Description:** This course is designed for pre-service and classroom teachers of the life sciences from elementary through high school. To increase teachers’ abilities to teach sciences, especially botany, using inquiry-oriented strategies.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 600. Graduate Seminar I 1 Unit
**Prerequisite(s):** Graduate status.
**Description:** Covers professional development for graduate students in all fields of biology. Topics include both time management, how to collect and record data, data management, communication with advisor and advisory committee, finding a research question, grant proposals and funding, scientific ethics, use of graphics, writing and reviewing scientific papers, and careers and interviews. Each student will write a short grant proposal, review a scientific paper, and make a short oral presentation.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 601. Graduate Seminar II 1 Unit
**Prerequisite(s):** Graduate status.
**Description:** Focuses on developing presentation skills for graduate students in all fields of biology. We will also discuss how to evaluate presentations. Each student will make a presentation on research in their area of interest and will respond to audience questions. Students will provide written feedback to each other on their presentations.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 610. Advanced Behavioral Ecology 4 Units
**Prerequisite(s):** BIOL 363.
**Description:** Evolution of behavioral adaptations for survival and reproduction; topics will include foraging, aggression, mate choice, mating strategies, and sociality.
**Note:** Credit may not be earned for both BIOL 510 and BIOL 610.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 611. Advanced Behavioral Endocrinology 4 Units
**Prerequisite(s):** Graduate standing.
**Description:** Interactions of hormones, brain and behavior. Lecture concurrent with Biology 511; more advanced material through requirement of independent study or research project.
**Note:** Credit may not be earned in both BIOL 511 and BIOL 611.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
BIOL 612. Advanced Endocrinology 4 Units
Prerequisite(s): BIOL 465.
Description: Chemical regulation in animals, primarily mammals. Lectures concurrent with BIOL 512; more advanced material through requirement of independent study or research project.
Note: Credit may not be earned in both BIOL 512 and BIOL 612.

BIOL 614. Advanced Ornithology 4 Units
Prerequisite(s): Consent of instructor.
Description: Evolution, morphology, diversity, ecology and behavior of birds. Lab stresses field identification of birds. Lecture concurrent with BIOL 514; more advanced material through requirement of independent study or research project.
Note: Credit may not be earned in both BIOL 514 and BIOL 614.

BIOL 615. Advanced Environmental Physiology 4 Units
Prerequisite(s): BIOL 465 or consent of instructor.
Description: Comparative biological and biochemical mechanisms of adaptation to ecological and environmental extremes in eukaryotic organisms. Lectures concurrent with BIOL 515; more advanced material through requirement of independent study or research project.
Note: Credit may not be earned in both BIOL 515 and BIOL 615.

BIOL 619. Environmental Entomology 3 Units
Prerequisite(s): BIOL 382, or consent of instructor.
Description: Advanced topics in insect systematics, ecology, and applied entomology.

BIOL 622. Advanced Aquatic Ecology 5 Units
Prerequisite(s): BIOL 363.
Description: Ecological processes in aquatic environments with primary emphasis on lakes and reservoirs. Lectures concurrent with BIOL 522; more advanced material through requirement of independent study or research project.
Note: Credit may not be earned in both BIOL 522 and BIOL 622.

BIOL 633. Advanced Physiological Plant Ecology 5 Units
Prerequisite(s): BIOL 523 and BIOL 563.
Description: A study of chemical, physical, and biological processes involved in plant ecology. Lectures concurrent with BIOL 533; more advanced material through requirement of independent study or research project.
Note: Credit may not be earned in both BIOL 533 and BIOL 633.

BIOL 635. Advanced Chemical Ecology 4 Units
Term Typically Offered: Spring Only
Description: This course will explore the remarkable world of chemical ecology. Where ecological outcomes between or among individuals are influenced or determined directly or indirectly by chemicals produced by individuals. A key focus will be the chemical ecology of plants. Though we will also explore chemical ecology in animals as well. Considerable ecological information is derived from chemicals produced by organisms both to other members of the same species or to a different species, and affect both natural and sexual selection. We will use an interactive discussion/seminar-style to interrogate the primary literature for current knowledge of how chemical cues influence a diverse array of ecological interactions. From the African savannas to galling insects in our own backyard. Students will have flexibility to choose their own research topics to pursue focused critical thinking and hypothesis generation. Discussions will span a range of disciplines including genetics, molecular biology, biochemistry, natural products, ecology, and evolution. Graduate students will be required to write a publication-quality review paper or meta analysis on a topic related to chemical ecology.
Note: Students may not receive credit for both BIOL 435 and BIOL 635.

BIOL 640. Advanced Intermediary Metabolism 4 Units
Prerequisite(s): BIOL 329 and CHEM 342.
Description: An advanced study of methods of metabolic pathways including synthesis of macromolecules (proteins, nucleic acids, lipids, carbohydrates), mechanisms of metabolic control and utilization of metabolic intermediates.
Note: Credit may not be earned in both BIOL 540 and BIOL 640.

BIOL 641. Advanced Medicinal Plant Biochemistry 4 Units
Prerequisite(s): BIOL 640 or consent of instructor.
Description: An advanced detailed study of biosynthesis and bioactivity of specialized plant metabolites (secondary metabolites). Topics will include aspects of general plant metabolism as well as specialized metabolism pathways (alkaloids, terpenes, and phenolics) and will include a survey of approaches as they relate to discovery of bioactive plant metabolites and a review of known plant metabolites used to treat human diseases/disorders.

BIOL 642. Advanced Gene Structure and Function 4 Units
Prerequisite(s): BIOL 330 or equivalent.
Description: Advanced topics in genetics of prokaryotes and eukaryotes, including chromosome structure and function, and gene regulation. Lectures concurrent with BIOL 542; more advanced material through requirement of independent study or research project.
Note: Credit may not be earned in both BIOL 542 and BIOL 642.
BIOL 643. Advanced Developmental Biology 4 Units
Description: Developmental biology is the study of how multicellular organisms process from a single cell to their adult forms. This simple statement, however, belies the incredible complexity of the process, which involves the coordinated actions and interactions of tens of thousands of genes, millions of molecular signals, and, in humans and other large mammals, tens of trillions of cells. This course highlights critical themes in animal development, including cell division; cell differentiation; and morphogenesis, and covers specific topics such as developmental anatomy; embryo development; axis formation, organ, tissue, and limb development; and cell-cell communication. The course also briefly addresses the similarities and differences in developmental strategies among animals and other multicellular organisms.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 644. Global Change Ecology 4 Units
Description: Human causes of global-scale changes in climate, air and water resources, and biodiversity, and impacts on people; approaches to addressing these problems that promote sustainable societies. Graduate students will attend lectures with undergraduates taking BIOL 440 but will be expected to attend weekly discussions of primary literature and course material. In addition, graduate students will be expected to write a literature review on a topic relevant to the course subject matter.
Note: Cross-listed with BIOL 440.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 648. Advanced Experimental Design and Analysis 4 Units
Prerequisite(s): BIOL 350 or BIOL 651 or permission of instructor.
Description: Move principles of sound experimental design, analysis and presentation from recognition to active vocabulary. Students completing the course can serve as statistical consultants for moderately complex statistical designs.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 650. Advanced Biostatistics 4 Units
Prerequisite(s): MATH 180 or MATH 205; an introductory course in statistics; or consent of instructor.
Description: Application of statistical methods commonly used in life sciences, with emphasis on interpretation of experimental data. Lectures concurrent with BIOL 550; more advanced material through requirement of independent study or research project.
Note: Credit may not be earned in both BIOL 550 and BIOL 650.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 651. Advanced Biostatistics II 3 Units
Prerequisite(s): BIOL 650.
Description: Advanced biostatistics involves interpretation of experimental data using statistical software. Topics include experimental design and ANOVA, ANCOVA, MANOVA, logistic analysis, logistic regression, and log linear models.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 652. Advanced Evolutionary Medicine 4 Units
Prerequisite(s): BIOL 669.
Description: In-depth analyses at the interface of evolutionary biology and the health sciences using readings from the primary literature. Format involves lectures, discussion, and a library-based research project. Lecture concurrent with BIOL 552; more advanced material through requirement of independent study or research project.
Note: Credit may not be earned in both BIOL 552 and BIOL 652.
Note: BIOL 552 does not carry graduate credit.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 653. Advanced Chronic Disease Biology 4 Units
Prerequisite(s): BIOL 669.
Description: The course will cover the biological bases of chronic disease, with an emphasis on the mechanisms of disease causation and the evolution of these mechanisms.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 655. Advanced Microbial Ecology 4 Units
Prerequisite(s): BIOL 357 or BIOL 485 or consent of instructor.
Description: Interrelationships between microorganisms and their environments. Lecture concurrent with BIOL 555; more advanced material through requirement of independent study or research project for students enrolling in BIOL 655.
Note: Credit may not be earned in both BIOL 555 and BIOL 655.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 660. Advanced Ecology of Urban and Suburban Landscapes 4 Units
Description: Effects of cities and suburban sprawl on air and water chemistry, microclimate, fragmented landscapes, and responses of biotic and human communities to these conditions that degrade or promote urban resilience, adaptation and sustainability.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 662. Advanced Ecosystems Ecology 4 Units
Description: The transformations of matter and energy that link plant, animal and geochemical cycles. Lectures concurrent with BIOL 562; more advanced material through requirement of independent study or research for students enrolling in BIOL 662.
Note: Credit may not be earned in both BIOL 562 and BIOL 662.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
BIOL 663. Advanced Population and Community Ecology 4 Units
Prerequisite(s): BIOL 363.
Description: Introduction to population dynamics and species interactions in aquatic and terrestrial ecosystems. Review of underlying ecological theory and its applications for conserving biodiversity. Lecture concurrent with BIOL 563; more advanced material through requirement of independent study or research project.
Note: Credit may not be earned in both BIOL 563 and BIOL 663.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 664. Research Methods in Ecology 3 Units
Prerequisite(s): BIOL 401 and BIOL 402.
Description: Introduction to experimental design, data collection and quantitative analyses. Field and laboratory research, statistical tools and critical evaluation data.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 667. Advanced Conservation Biology 4 Units
Prerequisite(s): BIOL 363 or permission of instructor.
Description: This course provides an overview of the theory and practice of biological conservation. Topics include biodiversity, habitat loss, the effects of habitat changes on populations, and the design and establishment of reserves. Among other things, students will learn: 1) key terms and concepts related to biodiversity, 2) significant threats to biodiversity and efforts to mitigate them, and 3) practical and socioeconomic elements of conservation biology.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 668. Advanced Entomology 4 Units
Prerequisite(s): BIOL 651 or an equivalent.
Description: Examination of morphology, physiology, behavior, evolution and ecology of the major groups of insects. A collection of common insect families is required. The laboratory will include observations on live and preserved animals and possible field trips. Students will learn to: 1) use terms and concepts that describe the diversity of insects, 2) compare and contrast major insect groups with respect to structure and function, and 3) collect and prepare museum-quality specimens for scientific study. A project involving the student’s interest in a particular group of insects and formal paper are required.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 669. Advanced Evolution 4 Units
Prerequisite(s): BIOL 363.
Description: Offers a comprehensive overview of evolution and provides students with a review of issues that make up this critical discipline. Lecture concurrent with BIOL 569; more advanced material through requirement of independent study or research project.
Note: Credit may not be earned in both BIOL 569 and BIOL 669.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

BIOL 670. Thesis Research 1-6 Units
Grading Basis: Pass/Fail
Prerequisite(s): Consent of major professor.
Description: Research on MS thesis project. Grade shall be deferred by the major professor until evaluation of the thesis by the student's committee.
Note: Graded on pass-fail basis by the examining committee.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
**BiOL 691. Independent Research** 1-6 Units  
**Prerequisite(s):** Consent of instructor.  
**Description:** Independent field or laboratory research on a problem not related to thesis or dissertation.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**BiOL 692. Independent Study** 1-6 Units  
**Prerequisite(s):** Consent of instructor.  
**Description:** Independent library research on a problem not related to the thesis or dissertation.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**BiOL 700. Dissertation Research** 1-9 Units  
**Grading Basis:** Pass/Fail  
**Prerequisite(s):** Consent of major professor.  
**Description:** Research on dissertation project. Grade shall be deferred by the major professor until evaluation of the dissertation by the student's committee.  
**Note:** Graded on a pass-fail basis by the examining committee until evaluation of the dissertation by the student's committee.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**Business Analytics (MSBA)**

**MSBA 600. Master of Science in Business Analytics** 0 Units  
**Description:** Master of Science in Business Analytics - billing course  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**MSBA 605. Programming for Analytics** 1.5 Units  
**Term Typically Offered:** Fall Only  
**Prerequisite(s):** Admission to MSBA degree program.  
**Description:** This course introduces essential general programming concepts and techniques to a data analytics audience with no prior programming experience. Students will learn the aspects of programming that can support business analytics with hands on programming including accessing data, creating informative data graphics, writing functions, debugging, and organizing code. Examples are drawn from the problems and programming patterns often encountered in data analysis. It will use a common analytics programming language such as Python.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**MSBA 610. Linear Algebra** 1.5 Units  
**Term Typically Offered:** Fall Only  
**Prerequisite(s):** Admission to MSBA degree program.  
**Description:** This course introduces students to the fundamentals of linear algebra with major topics involving elimination and LU-factorization, dimension, rank, and nullspace, linear mappings, orthogonality, least squares, eigentheory, diagonalizability, and systems of linear differential equations.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**MSBA 615. Introduction to Statistical Packages** 1.5 Units  
**Term Typically Offered:** Fall Only  
**Prerequisite(s):** Admission to MSBA degree program.  
**Description:** This course provides an intensive, hands-on introduction to the R programming language. The student will learn the fundamental skills required to acquire, manage, transform, manipulate, and visualize data in a computing environment that fosters reproducibility.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**MSBA 620. Data Analytics I** 3 Units  
**Term Typically Offered:** Fall Only  
**Description:** This course provides comprehensive understanding of analytical fundamentals. Students will learn business problems, the types of data required to address problems, and solution estimation. Students will learn how to setup and test the efficacy of a business strategy by setting up experiments, analyzing data, and making business decisions. The course will provide a basic understanding of some advanced analytical techniques.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**MSBA 625. Storytelling with Data** 3 Units  
**Term Typically Offered:** Fall Only  
**Prerequisite(s):** Admission to MSBA degree program.  
**Description:** This course is a data visualization and business presentations course specifically designed for professionals in the field of business analytics. Throughout the semester, you will develop your ability to organize, visualize, and present data driven messages that are professional, clear, concise, and persuasive. By the end of the course, you will enhance your ability to communicate with and about data in multiple business and professional contexts: formal individual presentations, team-based presentations, and informal one-on-one and small group interactions.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**MSBA 630. Data Management** 3 Units  
**Term Typically Offered:** Fall Only  
**Prerequisite(s):** Admission to MSBA degree program.  
**Description:** This course provides an introduction to issues, principles, and technologies of modeling and using organizational data. It covers concepts and skills for developing, accessing, and administering relational databases, and formulating and executing complex queries. It also discusses the role of data management technologies and practices in an organizational setting and how such technologies and practices may impact business strategy, business processes, and organizational structure. This course has a strong hands-on component. The course will make extensive use of a leading relational database management software and structured query language (SQL).  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
MSBA 635. Data Analytics II 3 Units
Term Typically Offered: Spring Only
Description: This course builds on the MSBA 620 course by introducing more advanced topics in analytics. This course challenges and teaches students how to use powerful statistical tools (e.g., SmartPLS, SAS, and SPAA) to handle data that come in a variety of forms and sizes in more complex, less structured business situations. Students will participate in extensive hands-on work solving realistic business problems. This course may guide students with handling advanced regression analysis that deals with real-life models and interaction variables, time series analysis, and topics such as PLS path modeling. After taking this course, students should: (1) Approach business problems data analytically, (2) Think systematically whether and how data can help make better informed decisions; (3) Be able to interact competently with business analytical tools; and (4) Have had hands-on experience mining data. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

MSBA 640. Decision Models 3 Units
Term Typically Offered: Spring Only
Description: This course trains students to turn real-world problems into mathematical and spreadsheet models and to use such models to make better managerial decisions. This is a hands-on course that focuses on modeling business problems, turning them into spreadsheet models and using tools like Solver to obtain solutions to these managerial problems. The course focuses on two classes of models, optimization and simulation. The application areas are diverse and they originate from problems in finance, marketing and operations. We cover problems such as how to optimize a supply chain and how to price products when faced with demand uncertainty. Topics covered include linear and integer programming, nonlinear programming and evolutionary solver, simulation and optimization, multi-period linear programming and Monte Carlo simulation. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

MSBA 645. Data Mining 3 Units
Term Typically Offered: Spring Only
Description: Data mining draws on statistics, artificial intelligence and machine learning to discover novel, interesting and actionable relationships and patterns in large and complex data sets. This course will introduce the student to the fundamentals of data mining, including methodology, data preparation, commonly used predictive models, supervised and unsupervised learning, model comparison and evaluation, and mining of unstructured data such as text. While the emphasis is on solving realistic business problems, the course will also provide a brief background for the various models and techniques introduced in the course. The course follows a learn-by-doing approach in which the students will complete assignments using real world data sets. A leading data-mining tool such as SAS Enterprise Miner will be used extensively in this course. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

MSBA 650. Data Analytics III 3 Units
Term Typically Offered: Spring Only
Description: The course presents advance business analytics using R. The concepts learned in this class should help you identify opportunities in which business analytics can be used to improve performance and support important decisions. It will teach you important tools that can be used to transform data into high-impact business decisions. Lastly, it should make you alert to the ways that analytics can be used and misused within an organization. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

MSBA 655. Special Topics: Marketing Analytics 1.5 Units
Term Typically Offered: Spring Only
Description: The use and analysis of data to guide marketing decisions is the focus of this course. The course will focus marketing metrics, their estimation, and use. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

MSBA 685. Analytics Internship 1 Unit
Term Typically Offered: Spring Only
Description: The academic objective of the internship program in the Master of Science in Business Analytics program is to provide enrolled students with an opportunity for hands-on business experience where they can apply classroom knowledge in a real-world setting and bring the experiences gained during their internship employment into the classroom. The internship is expected to nominally last for 11 months. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

MSBA 690. Analytics Capstone 3 Units
Term Typically Offered: Spring Only
Description: Each student assists (as a team member) an organization in the Louisville area to improve some aspects of its business analytics operations. The students develop project in conjunction with key business executive and work to investigate and then create recommended courses of action. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Chemical Engineering (CHE)

CHE 502. Biochemical Engineering 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): CHE 433 (or concurrent) and CHE 441 (or concurrent).
Description: Engineering principles related to operations involving biological processes, e.g., fermentation. Basic microbiology and biochemistry, biochemical reaction mechanisms, kinetics, rate processes, and separation techniques. Applications to foods, pharmaceuticals, and waste treatment, including system design. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CHE 503. Fundamentals of Engineering Examination Review 2 Units
Grading Basis: Pass/Fail
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): 4th-year standing.
Description: Review of topics covered on eight-hour NCEE
Fundamentals of Engineering examination. Not to be counted towards meeting the requirements for a degree.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 509. Environmental Processes and Systems 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CEE 309 or CHE 401.
Description: This course examines scientific and engineering aspects of environmental problems, stressing important issues, existing technical solutions and new solutions. The course presents engineering approaches to natural systems and describes techniques to treat/eliminate environmental problems.
Note: Cross-listed with CEE 509.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 520. Modeling and Transport Phenomena 3 Units
Term Typically Offered: Spring Only
Prerequisite(s): CHE 433 and CHE 441.
Description: An introduction to the interrelationship of momentum, heat and mass transport focusing on the development of the equations of change through the use of shell balances and their relation to earlier courses in fluids, heat and mass transfer. Some focus will be placed on this using material in the modeling of basic chemical engineering systems.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 532. Advanced Material Science 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): 90 or more credit hours.
Description: Advanced study of materials science. Topics may include the electronic and atomic structure of materials; properties characterized by electron motion; properties associated with atomic motion; applications and synthesis of fundamentals to several real problems; science of thin films; or other topics selected by the instructor.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 533. Chemical Engineering Safety and Health 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): 90 or more credit hours.
Description: Overview of regulations and industrial practices, emphasizing chemical hazards, including: industrial hygiene, toxicology, controls and hazards analysis. Safety considerations in process design.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 534. Industrial Waste Management 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): 90 or more credit hours.
Description: A survey of regulations, generation, control and management of industrial wastes and environmental hazards: airborne, aqueous, solids and hazardous wastes. Course includes guest speakers, site visits and a term project. Design of waste treatment facilities.
Note: Cross-listed with CEE 534.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 535. Pollution Prevention 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): 90 or more credit hours.
Description: Multimedia pollution prevention and waste minimization of hazardous and non-hazardous wastes and emissions: toxics use reduction; source reduction; reuse, reclamation and recycling; product life-cycle analysis; economic evaluation; assessments; planning and management.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 550. Kinetics of Polymer Reactions 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CHE 441 and CHEM 341.
Description: Kinetic expressions are developed for several polymer reaction mechanisms including chain, step, ionic and emulsion reactions; copolymerization; polymer reaction engineering; molecular weight distributions; structural considerations; design considerations.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 551. Polymer Science 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CHEM 341.
Description: Introduction to polymer science and engineering. Polymer synthesis, kinetics, structure, and properties; commercial polymers; polymer processing; equipment design.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 562. Process Control Laboratory 1 Unit
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CHE 461.
Description: A laboratory course demonstrating computer simulation and the characteristics of sensing and control devices and their interactions when incorporated into process control systems.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CHE 572. Plant Process and Project Design - CUE
Term Typically Offered: Spring Only
Prerequisite(s): CHE 471.
Description: The design and economic evaluation of a chemical plant, from process definition and flow sheet construction to a cash position diagram and measures of profitability.
Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 574. Techniques of Research
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): 90 or more credit hours.
Description: The design, analysis, and interpretation of experimental results to obtain the desired information within reasonable constraints of time and expense. Testing predictions and making reliable decisions utilizing graphical, numerical, and statistical techniques.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 581. Chemical Vapor Deposition and Processing
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CHE 253, CHE 441 and CHE 435 or the consent of the instructor.
Description: Theoretical and experimental concepts involved with chemical vapor deposition and processing of advanced and nanomaterials.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 593. Independent Study in Chemical Engineering
Term Typically Offered: Fall, Spring, Summer
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 594. Special Topics in Chemical Engineering
Term Typically Offered: Fall, Spring, Summer
Description: An examination of one or more specific areas of Chemical Engineering. Details announced each semester.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 595. Master of Engineering Seminar in Chemical Engineering
Grading Basis: Pass/Fail
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): Fifth-year standing.
Description: Presentation and/or discussion of topics of current interest. This course is available to students enrolled in the professional school, division of higher studies or the Graduate School.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 602. Graduate Internship in Chemical Engineering
Grading Basis: Pass/Fail
Prerequisite(s): Student must be admitted for Graduate Study, and a sponsored member of the Graduate Intern Program.
Description: Supervised professional experience in industry at the graduate level. This course provides the structure and focus for the graduate intern field assignment to ensure that the assignment is appropriate and consistent with the intern's graduate course of study and professional development. May be repeated for credit.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 603. Tissue Engineering
Prerequisite(s): Graduate/Professional School standing and BIOL 329, or consent of instructor.
Description: This is an advanced elective course to satisfy the requirements for a graduate level degree in chemical engineering. This course presents an introduction to tissue engineering with an emphasis on the role of biomaterials and bioreactor design.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 610. Advanced Thermodynamics
Description: A comprehensive study of physical and chemical equilibrium, with special emphasis on nonideality.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 612. Nonequilibrium Thermodynamics
Description: The extension of classical thermodynamics to include systems in which transport processes are taking place. Examples from the areas of engineering, chemistry, and biological systems are examined.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 620. Transport Phenomena I
Description: An integrated study of momentum, thermal energy, and mass transport by molecular and convective mechanisms, with and without generation, for steady-state and unsteady-state conditions, in laminar, boundary-layer, or turbulent flow. Molecular theories of transport properties.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 621. Transport Phenomena II
Prerequisite(s): CHE 620.
Description: Consideration of advanced theories and applications of transport properties as related to heat, mass, and momentum transfer.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CHE 624. Introduction to Rheology 3 Units  
**Description:** Principles and applications of the rheology of polymeric materials. Kinematics of shear and extensional flows. Properties of polymer melts; experimental rheometry. Property predictions based on a variety of generalized Newtonian, linear viscoelastic, co-rotational, and co-deformational models.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 631. Homogeneous Fluid Dynamics 3 Units  
**Description:** Advanced study of momentum transfer in homogeneous fluids. Conservation of matter, momentum, and mechanical energy; ideal flow, creeping flow, laminar flow, turbulent flow, and boundary layer approximations; non-Newtonian fluids.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 632. Heterogeneous Flow 3 Units  
**Description:** Analysis of two-phase flows of gases, liquids, and solids. Single-particle and multiparticle systems, fluidized beds, bubble beds, drop beds; slug flow, annular flow.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 633. Heat Transfer 3 Units  
**Description:** Advanced problems in the fields of conductive and convective heat transfer.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 637. Advanced Stagewise Processes 3 Units  
**Description:** Methods of calculations for complex binary and multicomponent mixtures. Consideration is also given to the design of equipment for these separations.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 638. Advanced Absorption 3 Units  
**Description:** An examination of absorption as a portion of general mass transfer phenomena. Theoretical and generalized relationships are applied to industrial problems of design.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 640. Chemical Kinetics and Catalysis 3 Units  
**Description:** A study of catalytic reaction mechanisms and solid catalysts with applications to cracking, reforming, hydrotreatment of fuels, synthesis gas conversion and partial oxidation reactions. Design of catalysts and catalytic reactors for specific applications.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 641. Advanced Reactor Design 3 Units  
**Description:** Reactor design and performance with emphasis on non-ideal behavior. Includes study of non-isothermal, non-ideal flow homogeneous and heterogeneous reactors. Introduction to heterogeneous catalysis and biochemical reactors. Extensive application of digital computers.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 650. Membrane Separations 3 Units  
**Description:** Qualitative and quantitative description of membrane separation processes including reverse osmosis and ultrafiltration; membrane synthesis; industrial applications including wastewater treatment, continuous systems, liquid membranes and gas separations. Design of membranes, membrane modules and membrane separation processes.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 653. Polymer Processing 3 Units  
**Description:** Introduction to polymer melt rheology. Simple model flows. Analysis, modeling, design and control of polymer melt processes such as extrusion, calendering, fiber spinning, film blowing, injection molding, and blow molding.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 654. Engineering Properties of Polymers 3 Units  
**Description:** The relationships between molecular structure, measurable properties, and design requirements for polymeric materials. Molecular topology; morphology; rheology; mechanical, thermal, electrical, optical, and chemical properties; design and economic considerations in engineering applications.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 660. Optimization in Control Systems 3 Units  
**Description:** Theory of optimization will be studied and applied to the solution of control problems. Both steady-state and dynamic optimization topics will be considered.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 661. Control of Dynamic Processes 3 Units  
**Description:** A combined laboratory and seminar course involving advanced process-control experiments and simulation procedures with the necessary concomitant discussion.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 662. Advanced Process Control 3 Units  
**Description:** Advanced control system design and implementation; feedforward, cascade, adaptive, multivariable, and constraint control systems; computer process control.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CHE 663. Distillation Dynamics and Control 3 Units
Description: Multicomponent calculations and design of distillation units. Automatic control of these units, sensitivity analysis in control strategy, and dynamic mathematical modeling and simulation of the columns and accessories, including design considerations.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 671. Bioseparation 3 Units
Prerequisite(s): ENGR 205 or Graduate/Professional School standing or consent of instructor.
Description: This course introduces the basic concept, theory, and applications of bioseparations.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 686. Chemical Engineering Analysis 3 Units
Description: Mathematical modeling of chemical engineering phenomena leading to total and partial differential equations requiring solution by use of series, transforms, and digital computer techniques. Applications to design and analysis of chemical engineering processes.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 690. Master of Science Thesis in Chemical Engineering 1-6 Units
Description: Experimental and/or theoretical research to be presented in thesis for degree requirement.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 693. Advanced Research in Chemical Engineering 1-15 Units
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 694. Special Topics in Chemical Engineering 1-6 Units
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 695. Chemical Engineering Seminar 1 Unit
Grading Basis: Pass/Fail
Prerequisite(s): Graduate standing.
Description: Presentation and/or discussion of topics of current interest.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 696. Independent Study in Chemical Engineering 1-6 Units
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 697. Master of Engineering Thesis in Chemical Engineering 1-6 Units
Prerequisite(s): Graduate/Professional School standing.
Description: A candidate for the Master of Engineering degree, specializing in the field of Chemical Engineering, is required to perform a study, design, or investigation under the direction of a faculty member. A written dissertation is required to be presented and defended orally and submitted to the faculty for approval. This course must be repeated for a minimum total of 6 semester hour credits to satisfy minimum M.Eng. requirements.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 698. Engineering Project Fundamentals I 3 Units
Prerequisite(s): Graduate/Professional School standing.
Description: This is the first of a two course sequence to satisfy the project requirement for the Master of Engineering degree (non-thesis option). This course sequence presents the fundamentals of research proposal writing including literature and background investigation, feasibility evaluation and written and oral communication.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHE 699. Engineering Project Fundamentals II 3 Units
Prerequisite(s): Graduate/Professional School standing and CHE 698.
Description: This is the second of a two course sequence to satisfy the project requirement for the Master of Engineering degree (non thesis option). This course sequence presents the fundamentals of business plan development including literature and background investigation, feasibility evaluation and written and oral communication.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Chemistry (CHEM)

CHEM 503. Special Topics in Chemistry 1-3 Units
Prerequisite(s): As required by topic.
Description: An examination of one or more specified areas of Chemistry. Details announced each semester.
Note: Not applicable toward graduate degree in chemistry.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 550. Group Theory and its Chemical Applications 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): One year of physical chemistry.
Description: Elementary group theory; the use of group theory to treat symmetry; application to atomic structure, molecular structure, spectroscopy, and reaction mechanisms.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CHEM 557. Bio-Organic Phenomena 3 Units
Term Typically Offered: Spring Only
Prerequisite(s): One year of organic chemistry.
Description: Special topics in the biological chemistry area: e.g., chemical carcinogenesis; diet and cancer; food chemistry and polypeptides; proteins; carbohydrates; enzymes; hormone chemistry.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 591. Chemistry for Teachers I 3 Units
Prerequisite(s): For graduate education majors; must have experience in teaching chemistry principles in elementary, middle, or secondary schools.
Description: Teaching pre-college chemistry with emphasis on curriculum content, laboratory procedures, and process skills.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 620. Optical Spectrochemical Methods of Analysis 3 Units
Prerequisite(s): CHEM 527.
Description: Principles, instrumentation, and applications of atomic and molecular spectroscopic techniques used in the IR, VIS, and UV spectral regions.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 621. Electroanalytical Chemistry 3 Units
Prerequisite(s): CHEM 527.
Description: Principles of modern voltammetric and potentiometric methods of chemical analysis including fundamental theory, instrumentation, and applications.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 622. Analytical Separations 3 Units
Prerequisite(s): CHEM 527.
Description: Survey of major instrumental separation methods in chemistry and biochemistry with an emphasis on modern chromatographic techniques.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 625. Advanced Analytical Chemistry 3 Units
Prerequisite(s): CHEM 527.
Description: A survey of theoretical and practical aspects of modern methods of analysis.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 626. Special Topics in Analytical Chemistry 1-3 Units
Prerequisite(s): CHEM 528 and CHEM 529, or consent of instructor.
Description: Recent developments in selected areas of Analytical Chemistry.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 628. Special Topics in Synthesis and Analysis 1 Unit
Prerequisite(s): Completion of, or coregistration in, CHEM 528, or consent of instructor.
Description: Current topics in high resolution NMR, mass spectrometry and organic synthesis.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 630. Advanced Topics in Chemical Analysis 1 Unit
Prerequisite(s): Completion of, or co-registration in, CHEM 529, or consent of instructor.
Description: A discovery-based approach to the solution of advanced problems in chemical analysis with an emphasis on separations, electrochemistry and X-ray crystallography.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 632. Chemical Education for Secondary Teachers 4 Units
Prerequisite(s): BS, BA, or minor in Chemistry, or consent of instructor.
Description: In-depth examination of chemistry content for secondary teachers as aligned with national and state standards. Inquiry-based laboratory and diverse assessment of core concepts will be developed.
Note: Does not count toward an advanced degree in Chemistry.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 645. Advanced Biochemistry I 4 Units
Prerequisite(s): CHEM 342.
Description: Chemistry of amino acids, peptides, proteins, nucleotides and nucleic acids; methods of analysis and laboratory synthesis; enzyme properties, kinetics, ligand binding.
Note: Lectures concurrent with CHEM 545; one added lecture hour each week covers advanced topics.
Note: Credit may not be earned in both CHEM 545 and CHEM 645.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 647. Advanced Biochemistry II 4 Units
Description: Cellular metabolism of carbohydrates, lipids, amino acids and nucleotides; biomembrane phenomena; RNA, DNA and protein synthesis. Lectures concurrent with CHEM 547; one added lecture hour each week covers advanced topics.
Note: Credit may not be earned in both CHEM 547 and CHEM 647.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Prerequisite(s): CHEM 647, BIOG 645, or consent of instructor.
Description: Integration of global metabolic functions with protein and gene-level regulations. Analytical approaches to enable such integration.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CHEM 651. Independent Study 1-3 Units
Description: Credit according to achievement; limited to 3 hours per semester
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 652. Independent Study 1-3 Units
Description: Credit according to achievement; limited to 3 hours per semester
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 653. Main Group Chemistry 3 Units
Prerequisite(s): CHEM 515.
Description: Survey of the descriptive chemistry of the main group elements and topics of current interest in main group chemistry such as bonding theories, reaction mechanisms, electronic materials, and catalytic materials.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 654. Advanced Coordination Chemistry 3 Units
Prerequisite(s): CHEM 515.
Description: Survey of structure, bonding, and reactivity of the transition metal complexes. Covers topics such as organometallic and bioinorganic chemistry, group theory, and magnetism.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 655. Special Topics in Inorganic Chemistry 1-3 Units
Prerequisite(s): CHEM 515.
Description: Current problems in inorganic chemistry.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 656. Special Topics in Inorganic Chemistry 1-3 Units
Prerequisite(s): CHEM 515.
Description: Current problems in inorganic chemistry.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 659. Solid State Chemistry 3 Units
Prerequisite(s): CHEM 515 or equivalent course in organic chemistry.
Description: Course content will include the synthesis methods, characterization and properties of solid-state materials. Various techniques of preparation of solid-state materials as well as advantages and disadvantages of each method are discussed. The main properties of interest are structural properties, magnetism and charge transport in solid state. Basic principles as well as methods of investigation and characterization of these properties will be discussed in this course.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 660. Advanced Physical Chemistry 3 Units
Prerequisite(s): One year of physical chemistry, one semester of atomic and molecular physics.
Description: Introduction to quantum chemistry.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 661. Chemical Thermodynamics 3 Units
Prerequisite(s): One year of physical chemistry.
Description: Advanced discussion of the principles of thermodynamics including an introduction to statistical thermodynamics; applications to chemical systems.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 665. Special Topics in Physical Chemistry 1-3 Units
Prerequisite(s): CHEM 515.
Description: One year each of organic and physical chemistry.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 666. Special Topics in Physical Chemistry 1-3 Units
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 667. Reaction Kinetics 3 Units
Prerequisite(s): One year of physical chemistry.
Description: Theory of the rate of chemical reactions; methods of studying reaction rates; reaction energetics; reactions in solution; chain reactions and inference of mechanism from rate studies.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 668. Electrochemistry 3 Units
Prerequisite(s): Consent of instructor.
Description: A thermodynamic and kinetic study of electrochemical phenomena, including electrical conductivity, electrophoresis, electrode potentials, and electrode processes.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 670. Chemistry of Heterocyclic Compounds and Alkaloids 3 Units
Prerequisite(s): One year each of organic and physical chemistry.
Description: Structures, reactivities, activities, and synthesis of heterocyclic systems including natural products and their uses in medicine.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 671. Advanced Polymer Chemistry 3 Units
Prerequisite(s): One year each of organic and physical chemistry.
Description: Polymer characterization, physical properties and structure. Conformational changes, elasticity, relaxation phenomena, size and chain distributions; application of microscopy, spectroscopy, magnetic resonance, and diffraction to polymers; liquid crystals.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CHEM 672. Quantum Chemistry  
**Prerequisite(s):** CHEM 561 or CHEM 660.  
**Description:** Principles of quantum theory with applications to chemistry; and advanced treatment of atomic and molecular structure including Slater-Condon methods for atoms and LCAO-MO-SCF methods for molecules; introduction to ab initio methods.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 675. Special Topics in Organic Chemistry  
**Prerequisite(s):** One year of organic chemistry.  
**Description:** Current problems in organic chemistry; organometallic chemistry; free radical reactions; carbohydrates and nucleosides; peptides.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 677. Mechanisms and Theory in Organic Chemistry  
**Prerequisite(s):** Two semesters of undergraduate organic chemistry.  
**Description:** This course focuses on the mechanism and theory of classical and contemporary organic reactions, including acid and base catalysis, pericyclic reactions, metal-mediated reactions and radical and photochemical reactions.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 678. Advanced Organic Chemistry: General Survey  
**Prerequisite(s):** One year each of organic and physical chemistry.  
**Description:** First semester (CHEM 678): an introduction to advanced physical organic chemistry, linear free energy relationship, kinetics, isotope effects and spectroscopic techniques as used in the interpretation of reaction mechanisms. Second semester (CHEM 679): an introduction to advanced organic chemistry emphasizing reactions and synthesis, and including spectral applications.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 679. Advanced Organic Synthesis  
**Prerequisite(s):** one year each of organic and physical chemistry.  
**Description:** An introduction to advanced organic chemistry emphasizing modern synthesis reagents, reactions and their mechanisms.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 681. Modern Biochemistry I  
**Prerequisite(s):** One year each of organic and physical chemistry or consent of instructor.  
**Description:** Chemistry and physical properties of proteins, other biopolymers; enzymatic reaction mechanisms and kinetics; bioenergetics.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 682. Modern Biochemistry II  
**Prerequisite(s):** CHEM 681 or consent of instructor.  
**Description:** Carbohydrate, lipid, protein, and nucleic acid metabolism; endocrine control of metabolism and physiological activities.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 684. Biophysical Chemistry  
**Prerequisite(s):** CHEM 462 (or equivalent) and CHEM 545/645, or consent of instructor.  
**Description:** Basis theory and practical applications of modern biophysical methods; spectroscopy, hydrodynamics, thermodynamics, kinetics, and computational methods applied to protein and nucleic acid systems.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 685. Special Topics in Biochemistry  
**Prerequisite(s):** CHEM 561 or CHEM 660.  
**Description:** Recent developments in selected areas of Biochemistry.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 686. Special Topics in Organic Chemistry  
**Prerequisite(s):** CHEM 561 or CHEM 660.  
**Description:** One year each of organic and physical chemistry.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 687. Molecular Spectroscopy  
**Prerequisite(s):** CHEM 561 or CHEM 660.  
**Description:** Molecular structure and interactions as determined by spectroscopic investigation. Rotational, vibrational and electronic spectroscopy as determined by ultraviolet, visible, infrared, microwave and radio frequency methods. Fundamental theory and experimental methods.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 688. X-Ray Crystallography and Its Application to Molecular Structure  
**Prerequisite(s):** CHEM 561 or CHEM 660.  
**Description:** Crystal structure analysis. Topics include: symmetry, space groups, data collection, structure solution and refinement, structural analysis and presentation of scientific results.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 691. Research  
**Prerequisite(s):** 30 semester hours of undergraduate chemistry.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CHEM 692. Research  
**Prerequisite(s):** 30 semester hours of undergraduate chemistry.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CHEM 695. Seminar 1-3 Units
Grading Basis: Pass/Fail
Description: Required of all graduate students during residency. Students present one oral and one research seminar by the end of the 3rd semester; participate/attend in department seminar.
Note: Maximum credit allowed is 3 semester hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Chinese (CHNS)

CHNS 551. Special Topics 3 Units
Prerequisite(s): CHNS 456 (or equivalent), or permission of the instructor.
Description: The course aims at bridging the gap between students advanced skills of spoken Chinese and their understanding of the complexity of advanced written Chinese.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Civil and Environmental Engineering (CEE)

CEE 503. Fundamentals of Engineering Exam Review 2 Units
Grading Basis: Pass/Fail
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CEE 421, CEE 422, and CEE 452.
Description: Review of topics covered on eight-hour NCEEES Fundamentals of Engineering examination. Not to be counted towards meeting the requirements for a degree.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 520. Design of Structural Systems 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CEE 450.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 522. Fundamentals of Prestressed Concrete 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CEE 322 and CEE 421.
Description: Introduction to pre-tensioned and post-tensioned prestressed concrete. Design of precast concrete slabs, buildings, and bridges in accordance with ACI specifications and the Prestressed Concrete Institute (PCI) recommended practices. Application of computer programs for member analysis and design.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 523. Timber Design 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CEE 254 or consent of instructor.
Description: Concepts of Structural Timber design will be taught. The properties of wood materials will be reviewed and the procedures for the design of typical timber components will be presented. In addition to course assignments, and tests, required of all students, students taking this course for graduate credit will be required to complete a group design of a simple building.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 530. Construction Materials 3 Units
Term Typically Offered: Spring Only
Prerequisite(s): CEE 254 and CEE 255.
Description: Properties of construction materials such as cement, concrete, asphalt, and structural elastomers. Design of Portland cement concrete and asphaltic concrete mixes.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 532. Experimental Stress Analysis 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CEE 530.
Description: Fundamentals of experimental stress analysis, brittle coating, photoelastic coating, and electrical strain gage techniques, strain measurements under static and dynamic loading.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 552. Earth Pressures and Retaining Structures 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CEE 450.
Description: Earth pressure calculation: theory and practice. Design techniques for retaining walls, reinforced earth and soil nailing.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 560. Traffic Engineering 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CEE 460.
Description: Examines characteristics of the vehicle, the driver, and the traffic stream. Highway and intersection capacity, theory of traffic flow, parking, traffic safety.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 562. Geometric Design of Highways 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): CEE 460.
Description: The concepts of geometric design for rural and urban highways, utilizing proprietary design software are introduced and applied.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CEE 563. GPS Theory and Application  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): CEE 460.  
Description: This course is designed to give the student an overview of the use of Global Positioning Systems in surveying and engineering applications. Elements of coordinate systems, map projections, GPS principles of operation, mapping, boundary, and construction surveys will be covered.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

CEE 565. GIS Applications to Transportation  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): CEE 460.  
Description: Introduces an overview and application of current methods of implementing GIS solutions to highway data analysis and planning studies.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

CEE 570. Applied Hydraulics  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): CEE 572.  
Description: Application of basic principles of hydraulic engineering to analysis of flow in floodways, through bridge openings, culverts, and spillways. Analysis of stable channel design is also considered. Commonly used computer programs are utilized to design structures in floodways.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

CEE 571. Applied Hydrology  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): CEE 572.  
Description: Introduction to hydrologic systems; modeling runoff from watersheds using lumped and distributed methods; stormwater management and design; hydrologic and hydraulic routing including kinematic wave routing; computer rainfall-runoff simulation models. A hydrologic design project will be assigned to all students; special assignments dealing with hydrologic processes will be assigned to MS degree students.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

CEE 572. Open Channel Hydraulics  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): CEE 370.  
Description: Application of basic principles of hydraulics to open channel flow. Theory and analysis of critical, uniform, and gradually varied flow and computer analysis. Select topics in rapidly varied and unsteady flow. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

CEE 573. Groundwater Hydrology  
Term Typically Offered: Occasionally Offered  
Prerequisite(s): CEE 450 and CEE 470.  
Description: Fundamental concepts of fluid flow and soil properties; theory of groundwater movement; mechanics of well flow; groundwater contaminant transport.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

CEE 590. Current Topics in Civil Engineering  
Term Typically Offered: Occasionally Offered  
Prerequisite(s): Consent of instructor.  
Description: An examination of one or more topics in Civil Engineering. Details announced each semester.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

CEE 604. Interaction of Soils and Structures  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): CEE 421, CEE 422, and CEE 452.  
Description: Response of foundation materials to applied static and dynamic loads. Foundation design procedures based upon consideration of soil-structure interaction.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

CEE 620. Advanced Mechanics of Solids  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): By permission of Department Chair.  
Description: Analysis of stress and strain. Topics include theories of failure, unsymmetric bending, curved beams, shear center, torsion, beams on elastic foundations, beams with combined axial and lateral loads, thick-wall cylinders, rotating disc, introduction to elastic stability. Students from other departments will need to get permission from CEE department chair.  
Note: Cross-listed with ME 620.  
Note: This class is for CEE students.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

CEE 621. Finite Element Analysis for Structural Engineers  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): Introduction to the finite element method (FEM) and its application to structural engineering. Topics include displacement and variational base one-, two-, and three-dimensional element formulation, introductory elasticity, isoparametric elements, interpolation methods, numeric integration, geometric and material nonlinearity. Emphasis on FEM program development.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

CEE 623. Advanced Structural Engineering  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): Design of earthquake resistant steel, concrete, and masonry structures. Introduction to time history, modal analysis and pushover analysis. Model code seismic design provisions. Ductility concepts.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CEE 625. Structural Dynamics 3 Units
Prerequisite(s): CEE 322.
Description: Dynamic analysis of structural systems including dynamic response by modal superposition, step integration, response spectrum frequency analysis. Computer applications.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 626. Masonry Design 3 Units
Prerequisite(s): CEE 421.
Description: Concepts of masonry design will be taught. The properties of masonry materials will be reviewed and the procedures for the design of typical masonry components will be presented.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 627. Non-Destructive Testing 3 Units
Prerequisite(s): Graduate/Professional standing.
Description: Introduce different non-destructive testing methods for quality evaluation of concrete. Penetration resistance methods, resonant frequency methods, ultra-sonic pulse velocity, maturity technique will be covered. Ground penetrating radar.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 650. Measurement of Soil Properties 3 Units
Prerequisite(s): CEE 450.
Description: Laboratory testing of soil mechanical properties; index testing; testing for permeability, compressibility, and shear strength.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 652. Advanced Earth Pressure and Retaining Structures 3 Units
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 653. Design of Earth Structures 3 Units
Prerequisite(s): CEE 450.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 654. Rock Mechanics 3 Units
Prerequisite(s): CEE 450.
Description: Physical properties of intact rock; mechanical properties of rock masses, emphasis on practical applications. Rock blasting. Tunneling.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 660. Transportation Planning and Urban Development 3 Units
Prerequisite(s): CEE 460.
Description: Focuses on the principles of transportation planning in the urban environment, including land use planning, with emphasis on the orderly development of the transportation system.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 661. Environmental Analysis of Transportation Systems 3 Units
Description: An examination of the various impacts that transportation systems and projects may have on the natural and human environment. A detailed review and application of transportation noise analysis.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 662. Airport Planning & Design 3 Units
Prerequisite(s): CEE 460.
Description: The principles of location, planning, design, and evaluation of airports are examined from the engineering perspective. In addition, laws and regulations concerning airports and the aviation system are thoroughly studied.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 663. Advanced Traffic Operations 3 Units
Description: A continuation of CEE 560, with an emphasis on mathematical and computer techniques to solve traffic problems.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 664. Fundamentals of Intelligent Transportation Systems 3 Units
Description: Examines the elements of traffic flow theory, incident/emergency management, dynamic route guidance, in-vehicle systems, and traffic signal systems.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 665. Pavement Design 3 Units
Prerequisite(s): CEE 450 and CEE 460.
Description: Design of flexible and rigid pavements, base courses, and subgrades. Effects of loading on pavement life. Investigation of pavement distress and rehabilitation. Introduction to pavement management systems.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 670. Advanced Hydraulics 3 Units
Prerequisite(s): CEE 370.
Description: Dimensional analysis; integral form of the equations of motion; shear stress distribution; turbulence and boundary layer theory; concepts in particle drag and settling.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CEE 671. Stochastic Processes in Hydrology 3 Units
Description: Basic concepts and classification of stochastic processes with emphasis on hydrologic systems; analysis of hydrologic time series; models for stationary hydrologic stochastic processes.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 672. Statistical Methods in Water Resources 3 Units
Prerequisite(s): IE 360.
Description: Applications of advanced concepts of probability and statistics in hydrology and water resources including frequency analysis and regionalization; parameter estimation; analysis of variance and multiple regression techniques.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 673. Advanced Hydrology 3 Units
Prerequisite(s): CEE 470 and IE 360.
Description: Advanced concepts for studying hydrologic processes; theory of linear hydrologic systems; conceptual models for modeling watershed rainfall-runoff response including geomorphological approaches.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 674. Water Resources Systems 3 Units
Description: Application of systems analysis techniques in the planning and design of water resources projects; mathematical optimization; simulation and risk-based decision-making.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 675. Surface Water Quality Modeling 3 Units
Prerequisite(s): Consent of instructor.
Description: Modeling, design and control of water quality in river, lake, and estuary systems; dissolved oxygen and toxic substance models; and lake eutrophication.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 676. Sediment Transport and River Mechanics 3 Units
Prerequisite(s): CEE 370.
Description: Sediment transport theory; overland erosion; alluvial streams; analysis, prediction, and control of river characteristics; local scour at river structures.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 677. Groundwater Modeling 3 Units
Description: Mathematical and numerical modeling of groundwater and pollution transport.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 680. Civil Engineering Capstone Design 3 Units
Prerequisite(s): Restricted to CEE Master of Engineering students (SP).
Description: A capstone Civil & Environmental Engineering course to include elements of geotechnical, structural, transportation, and water resources engineering in a comprehensive design project.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 681. Green Engineering & Sustainable Design 3 Units
Description: Understand the origins and applicability of sustainable design and green engineering. Ultimately, be able to apply fundamental engineering concepts to these practices.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 690. Master of Science Thesis in Civil Engineering 1-6 Units
Prerequisite(s): Graduate/professional school standing.
Description: Experimental and/or theoretical research to be presented in thesis for degree requirement.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 693. Independent Study in Civil Engineering 1-6 Units
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 694. Special Topics in Civil Engineering 1-6 Units
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 697. Master of Engineering Thesis in Civil Engineering 1-6 Units
Prerequisite(s): Graduate/professional school standing.
Description: A candidate for the Master of Engineering degree, specializing in the field of civil engineering, is required to perform a study, design, or investigation under the direction of a faculty member. A written thesis is required to be presented and defended orally and submitted to the faculty for approval.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 698. Civil Engineering PhD Seminar 3 Units
Grading Basis: Pass/Fail
Prerequisite(s): Permission of the chair.
Description: Current literature in the field of civil engineering; extensive student presentations on research projects with interaction and feedback from students and faculty; guest speakers.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CEE 699. Civil Engineering PhD Research 1-18 Units
Prerequisite(s): Permission of dissertation director.
Description: Original research activity in an appropriate civil engineering discipline, under the direction of a Civil Engineering graduate faculty member.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
COMM 513. History of Communication - WR
Description: Examination of the history of communication both as a set of practices and as a subject of academic inquiry.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).

COMM 600. Practicum
Prerequisite(s): Consent of instructor.
Description: Practical work in speech.
Note: Pass/Fail grading.

COMM 600. Computer-Mediated Communication - WR
Term Typically Offered: Occasionally Offered
Description: Conceptual analysis and practical use of computer networks with an emphasis on the social and cultural dimensions of this type of human communication.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
<th>Prerequisite(s)</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMM 601</td>
<td>Professional Seminar in Communication</td>
<td>1</td>
<td>Graduate standing</td>
<td>Overview of the communication discipline and introduction to the academic study of communication. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>COMM 603</td>
<td>Communication Pedagogy</td>
<td>3</td>
<td></td>
<td>An introduction to teaching college-level in Communication. Applies various theories of communication to nature of interactions between students and teachers. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>COMM 605</td>
<td>Communication Theory &amp; Practice</td>
<td>3</td>
<td>Graduate standing</td>
<td>Seminar studies theories and empirical research in persuasion, social interaction, and group decision-making and offers applied problems that require public presentations by seminar participants. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>COMM 610</td>
<td>Problems of Public Discourse</td>
<td>3</td>
<td>Consent of instructor</td>
<td>Surveys the chief theories and disputes about public discourse, public knowledge, and decision-making. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>COMM 616</td>
<td>Qualitative Communication Research</td>
<td>3</td>
<td>Graduate standing</td>
<td>Seminar studies theories and empirical research in qualitative research in the field of communication. Methods include interviewing, participant observation, unobstructive observation, historical/archival methods, narrative and ethnography. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>COMM 617</td>
<td>Quantitative Methods in Communication</td>
<td>3</td>
<td></td>
<td>Instruction in procedures used to systematically and mathematically measure difference between groups and relationships between variables among various communication populations. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>COMM 620</td>
<td>Organizational Communication</td>
<td>3</td>
<td>Consent of instructor</td>
<td>Theoretical and applied studies of communication within organizations and between organizations and their publics. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>COMM 625</td>
<td>Personality and Communication</td>
<td>3</td>
<td>Graduate standing</td>
<td>Exploration of individual differences in communication processes, such as argumentativeness, shyness, persuasiveness, and leadership. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>COMM 630</td>
<td>Communication and Multiculturalism</td>
<td>3</td>
<td>Consent of instructor</td>
<td>Explores the influence of race, nationality, and/or gender on the communication practices of individuals and their institutions. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>COMM 640</td>
<td>Communication in Social Service</td>
<td>3</td>
<td>Consent of instructor</td>
<td>Studies public communication campaigns, e.g., health information and policy campaigns. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>COMM 650</td>
<td>Corporate Communication</td>
<td>3</td>
<td>Graduate standing</td>
<td>Study of the nature, strengths, and weaknesses of empirical research in organizational communication and application of these findings to analysis, diagnosis, and remedy or communication problems in specific organizations. Focus is primarily on case studies and in-community &quot;practicum&quot; consulting project. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>COMM 651</td>
<td>Conflict Management</td>
<td>3</td>
<td></td>
<td>Uses role playing and case studies in community organizations to assist students in developing the skills needed for managing conflict. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>COMM 653</td>
<td>Integrated Marketing Communication Campaigns</td>
<td>3</td>
<td></td>
<td>Study of integrated advertising, public relations, and sales promotions. Course culminates with students preparing integrated marketing plans for local clients. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>COMM 654</td>
<td>Public Relations and Crisis Management</td>
<td>3</td>
<td></td>
<td>Examines problems of planning and implementing public relations strategies for crisis management. The organizations studied include corporations, agencies, educational and government institutions, and non-profits. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
</tbody>
</table>
COMM 660. Selected Topics in Mass Media 3 Units
Prerequisite(s): Graduate standing.
Description: Examination of topics specific to the study of mass media not covered in other courses.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

COMM 670. Directed Readings in Communication 3 Units
Prerequisite(s): Graduate standing.
Description: Faculty supervised readings on special topics in communication theory, research and practice.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

COMM 675. Risk Communication 3 Units
Prerequisite(s): Graduate standing.
Description: Examines the study of risk communication across various contexts (e.g., health, environmental). Focuses on the role of messages in shaping risk perception, evaluation, and behavior.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

COMM 690. Special Topics 3 Units
Description: Examination of topics not covered in regularly-scheduled courses.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

COMM 698. Thesis 1-6 Units
Prerequisite(s): Graduate standing.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Communicative Disorders (CMDS)

CMDS 563. Clinical Phonetics 3 Units
Prerequisite(s): Must be at least a Junior or Senior undergraduate student to register.
Description: The International Phonetic Alphabet and other symbol systems are utilized in transcription of speech sounds. A description of speech sounds in terms of acoustics and physiologic dimensions. Special emphasis on speech disorders and dialects.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 564. Normal Speech and Language Development 4 Units
Prerequisite(s): Must be at least a Junior or Senior undergraduate student to register.
Description: CMDS 564 reviews normal development of language and speech across the lifespan including syntax, semantics, morphology, pragmatics, and phonology. An overview of dialectical, cultural, and bilingual aspects are discussed as well as basic language sampling and analysis procedures.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 567. Functional Neuroanatomy 3 Units
Term Typically Offered: Fall Only
Prerequisite(s): Restricted to graduate students only.
Description: An overview of general neuroanatomy and neuroanatomical principles applied to communication and communicative disorders including hearing, speech, language, cognition, swallowing, and emotion.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 569. Special Topics 3 Units
Prerequisite(s): Must be at least a Junior or Senior undergraduate student to register.
Description: Examination of topics not covered in regularly-scheduled courses.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 570. Clinical Observation in Speech Pathology and Audiology 1 Unit
Grading Basis: Pass/Fail
Prerequisite(s): Restricted to graduate students only.
Description: Observations in speech pathology and audiology. Additional observations may be assigned to introduce students to the variety of practicum opportunities available in the program. Pass/fail grading.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 571. Functional Neuroanatomy 3 Units
Term Typically Offered: Fall Only
Prerequisite(s): Restricted to graduate students only.
Description: An overview of general neuroanatomy and neuroanatomical principles applied to communication and communicative disorders including hearing, speech, language, cognition, swallowing, and emotion.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 572. Anatomy and Physiology for Communication Sciences 4 Units
Prerequisite(s): Must be at least a Junior or Senior undergraduate student to register.
Description: The International Phonetic Alphabet and other symbol systems are utilized in transcription of speech sounds. A description of speech sounds in terms of acoustics and physiologic dimensions. Special emphasis on speech disorders and dialects.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 560. Research Methods in Speech-Language Pathology 2 Units
Prerequisite(s): Must be at least a Junior or Senior undergraduate student to register.
Description: This course will introduce speech-language pathology graduate students to the various aspects of research including: where to find journal articles, how to read journal articles, basic statistical approaches, and research design. The course will include guest speakers from clinical and basic sciences and expose students to the plethora of research careers.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 602. Speech Sound Disorders 3 Units
Prerequisite(s): CMDS 563.
Description: This course covers the study of vowel and consonant characteristics; sequence of development of phonology and articulation; and procedures for diagnosing and treating phonological and articulation disorders.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 660. CMDS Independent Study 1-5 Units
Prerequisite(s): Permission of instructor.
Description: Individualized course with topics to be determined by the instructor. May be repeated.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

<th>Corequisite(s)</th>
<th>Description</th>
<th>Term Typically Offered</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMDS 610</td>
<td>Topics in Audiology and Aural Rehabilitation</td>
<td>1</td>
<td></td>
<td></td>
<td>Study of clinical aspects of conventional audiology, patient management, and aural rehabilitation therapy.</td>
<td></td>
</tr>
<tr>
<td>CMDS 611</td>
<td>Practicum in Speech Pathology</td>
<td>1-5</td>
<td>CMDS 563.</td>
<td>CMDS 564.</td>
<td>Diagnostic and therapeutic contact with individuals who exhibit communication disorders. Practicum obligations include treatment planning, report writing and patient/parent counseling.</td>
<td></td>
</tr>
<tr>
<td>CMDS 612</td>
<td>Early Childhood Language Assessment &amp; Intervention</td>
<td>3</td>
<td>CMDS 564.</td>
<td></td>
<td>This course covers early childhood language assessment and intervention - including phonology - for infants, toddlers and preschool-aged children. Emphasis is placed on typical development as well as disordered populations.</td>
<td></td>
</tr>
<tr>
<td>CMDS 618</td>
<td>Counseling and Interviewing</td>
<td>3</td>
<td></td>
<td></td>
<td>An online course that reviews the speech-language pathologists’ roles and responsibilities related to the techniques associated with counseling patients and their families. The course will review contemporary theories of counseling and will provide strategies for interviewing and reporting results.</td>
<td></td>
</tr>
<tr>
<td>CMDS 620</td>
<td>Motor Speech Disorders</td>
<td>3</td>
<td>CMDS 572.</td>
<td></td>
<td>Description: Motor speech disorders are speech disorders resulting from neurological damage that affects the motor control of speech muscles or motor programming/planning of speech movements. The most common motor speech disorders are dysarthria and acquired apraxia of speech. This course will cover diagnosis and treatment.</td>
<td></td>
</tr>
<tr>
<td>CMDS 630</td>
<td>Aural Rehabilitation for the Speech-Language Pathologist</td>
<td>3</td>
<td>AUDI 605 and CMDS 572.</td>
<td></td>
<td>This course provides an overview of the various hearing impaired habilitative/rehabilitative programs/techniques for pediatric through geriatric populations. Topics may include: speech/language development for children with impaired hearing; physiology and psychosocial impact of hearing loss in older adulthood; cochlear implants; educational management for children with impaired hearing; an overview of hearing aids; and assistive listening devices.</td>
<td></td>
</tr>
<tr>
<td>CMDS 651</td>
<td>Audiology II</td>
<td>4</td>
<td>CMDS 572 and CMDS 604.</td>
<td></td>
<td>Study of diagnostic techniques in the differential diagnosis of etiologies and pathologies related to hearing loss in both children and adults.</td>
<td></td>
</tr>
<tr>
<td>CMDS 652</td>
<td>School-Age Language Assessment and Intervention</td>
<td>3</td>
<td>CMDS 564.</td>
<td></td>
<td>This course covers school-age language assessment and intervention - including phonology - for school-age children and adolescents. Emphasis is placed on typical development as well as disordered populations and emphasizes phonological and pragmatic aspects of language along with semantics, morphology and syntax.</td>
<td></td>
</tr>
<tr>
<td>CMDS 653</td>
<td>Hearing Conservation</td>
<td>2</td>
<td>CMDS 604.</td>
<td></td>
<td>Methods: Methods of detection, prevention and monitoring of hearing in special populations, particularly those exposed in the industrial work place. Topics include federal regulations and the effect of noise on humans.</td>
<td></td>
</tr>
<tr>
<td>CMDS 654</td>
<td>Evoked Potentials in Audiology</td>
<td>2</td>
<td>CMDS 604.</td>
<td></td>
<td>Principles of electrophysiology as applied to assessment of the auditory system. Includes brainstem auditory evoked potentials, electrocochleography, middle latency potentials, long latency potentials, hearing assessment, retro-cochlear evaluation and intro-operative monitoring.</td>
<td></td>
</tr>
<tr>
<td>CMDS 655</td>
<td>Audiology III</td>
<td>3</td>
<td></td>
<td></td>
<td>For class offerings for a specific term, refer to the Schedule of Classes.</td>
<td></td>
</tr>
<tr>
<td>CMDS 658</td>
<td>Interprofessional Education and Practice</td>
<td>1</td>
<td></td>
<td></td>
<td>This course reviews the speech-language pathologist’ roles/responsibilities when collaborating with other professionals in medical and/or educational settings. The course emphasizes learning about, from, and with other professionals in order to deliver the highest quality of care across settings.</td>
<td>Fall Only</td>
</tr>
</tbody>
</table>
CMDS 663. Voice Disorders 3 Units
Prerequisite(s): CMDS 572.
Description: Study of abnormalities of voice production including dysphonia, psychogenic disturbance, and resonance imbalance. Incorporates laboratory demonstrations and exercises to develop skills using the following technologies: video stroboscopy, videofluoroscopy for VPI, manometry, the Visi-pitch, etc.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 665. Fluency Disorders 3 Units
Description: Examines fluency disorders of children and adults. Reviews the literature on etiology and theories of dysfluency. Assessment procedures and therapeutic management are discussed. Includes a review of current technological applications.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 667. Aphasia 3 Units
Prerequisite(s): CMDS 620.
Description: Historical review of the neurological basis of language processing. Emphasis on the speech and language disorders, diagnosis and remediation of patients experiencing right and left cerebral vascular accidents.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 668. Professional Issues in Audiology and Speech Pathology 3 Units
Description: Survey of social, political, business and professional issues in health care delivery related to communicative disorders. Other topics include: curriculum vitae preparation, professional interviews, professional liabilities, contracts, and funding sources, quality assurance mechanism, etc. Pass-fail grading only.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 669. Cognitive-Communication Disorders 3 Units
Prerequisite(s): CMDS 620 and CMDS 572.
Description: This course focuses on the cognitive-communication disorders that may result from dementia, neurological disorders, metabolic and drug-induced delirium and traumatic brain injury.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 670. Advanced Concepts in Amplification 3 Units
Prerequisite(s): CMDS 630.
Description: Trends and developments in amplification technology and applications. Implantable devices (including cochlear implants), automatic signal processing, digital amplification, programmable and multi-channel instruments, vibro-tactile aids, etc.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 672. Assessment of the Vestibular System and Its Disorders 2 Units
Prerequisite(s): CMDS 651.
Description: Review of the interactive balance mechanisms: vestibular, oculomotor and proprioceptive systems. Technologies and procedures for assessing and quantifying disorders of equilibrium.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 690. Dysphagia 3 Units
Prerequisite(s): CMDS 572.
Description: Evaluation and treatment of pediatric and adult patients with swallowing disorders. Specific emphasis on bedside dysphagia evaluations, modified barium swallow procedures, FEES, assistive devices, treatment techniques, and diet modifications.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 694. Pediatric Feeding and Swallowing 3 Units
Prerequisite(s): CMDS 690.
Description: This course will focus on pediatric feeding and swallowing disorders from a whole body perspective. The course will cover typical feeding development, characteristics and ramifications of atypical feeding development, underlying diagnoses that may contribute to feeding problems, assessment, and treatment techniques from infancy through adolescence.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 695. Special Topics: Functional Neuroanatomy 3 Units
Term Typically Offered: Fall Only
Description: CMDS 695 provides an in-depth study of special areas or novel topics in speech-language pathology practice.
Note: May be repeated up to two times with different subtitles/topics.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 696. Augmentative/Alternative Communication 3 Units
Prerequisite(s): CMDS 652.
Description: Provides exposure to the area of augmentative/alternative communication (AAC). Topics include functional dimensions of AAC systems; symbol systems; transmission techniques; and intervention strategies.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CMDS 699. Research Project 1-3 Units
Description: This course is the equivalent of a master's level thesis. The student will complete a research project that is suitable for future publication. The project is composed of developing a research question, completing a thorough review of the literature, developing the methodology to implement and conduct research, analyzing the data, and formulating conclusions, and need for future research. The completed project will be submitted to an appropriate journal for publication.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
Computer Engineering & Computer Science (CECS)

CECS 503. Survey of Computer Engineering and Computer Science
3 Units

Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CECS 130.
Description: Introduction to foundations of computer engineering and computer science for non-majors. Emphasis on C++ programming language, data structures and algorithms, and operating systems fundamentals. This course cannot be used to meet degree requirements for any CECS/CS/CSE degree.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 504. Automata Theory
3 Units

Term Typically Offered: Fall, Spring
Prerequisite(s): CECS 310.
Description: Finite state machines and their application to engineering problems including modeling the behavior of discrete systems. Topics include theory of computing, formal language theory, and applications of cellular automata. Engineering models of digital computer hardware are covered and related to software design.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 506. Modeling and Analysis of Engineering Systems
3 Units

Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): ENGR 330.
Description: Representation of engineering systems, Fourier analysis, z-transforms, frequency response, state-space analysis, stability, an introduction to the basic theory of filter design; and demonstrated concepts to CAS.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 510. Computer Design
3 Units

Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): ECE 210.
Corequisite(s): ECE 511.
Description: Review of logic design and elementary computer organization. Design of the central processing unit, memory, control, and input-output portions of a computer. The VHDL hardware design language will be used.

Note: Cross-listed with ECE 510.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 516. Fundamentals of Computer Communications and Networks
3 Units

Term Typically Offered: Spring Only
Prerequisite(s): ECE 360 or IE 360, and CECS 412.
Description: Data communications: The exchange of data between devices is covered. The key aspects of transmission interfacing, link control, and multiplexing are examined. Data communication networking: Examines the internal mechanisms by which communication networks provide a data transfer service for attached devices.

Note: Cross-listed with ECE 518.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 522. Performance Evaluation of Computer Systems
3 Units

Term Typically Offered: Fall Only
Prerequisite(s): IE 360 and CECS 420.
Description: A study of approaches to the evaluation of computer systems. Measurement techniques and evaluation techniques are treated in detail with attention to existing commercial hardware and software monitors and simulators.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 525. Microcomputer Design
4 Units

Term Typically Offered: Fall, Spring
Prerequisite(s): ECE 412 or CECS 412 or consent of instructor.
Description: Design and construction of microcomputers with microprocessors and digital integrated circuits. Breadboarding, hardware design, and software design are emphasized. The class is separated into groups, and each group designs, breadboards, and tests a complete microcomputer system, including interfaces to peripheral devices.

Note: Cross-listed with ECE 516.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 528. Game Design and Programming
3 Units

Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): CECS 302.
Description: This course will provide an overview of Multimedia and Game programming, and teach basic computer game design techniques using state-of-art game engines.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 530. Design of Compilers
3 Units

Term Typically Offered: Spring, Summer
Prerequisite(s): CECS 420.
Description: Engineering descriptions of algorithmic language. Study of syntax, semantics, ambiguities, procedures, replication, iterations, and recursion in the language. Engineering design of a compiler.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CECS 535. Introduction to Databases
Term Typically Offered: Fall, Spring
Prerequisite(s): CECS 302 or equivalent.
Description: Course covers basics of database design, SQL, query processing, and optimization, transactions. The emphasis will be placed on Engineering design and implementation of relational systems. A written project is required.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 536. Data Management and Analysis
Term Typically Offered: Fall, Spring, Summer
Description: The goal of the course is to teach, to the students who are not Computer Science majors, the basic skills needed to organize, assess and analyze data sets. The course discusses a variety of tools (file systems, database systems, and the R environment) as well as a series of basic tasks, from generating metadata to basic filtering, organizing and enrichment of data sets. This course contributes to develop analysis, modeling and problem-solving skills.
Note: This course is intended for non-CECS majors.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 540. Object Oriented Information Technology
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): Graduate standing.
Description: Survey of design and development of object oriented software. Software architectures, development environments, graphical user interfaces, and networks of distributed objects. Software design project required.
Note: CECS students cannot receive credit for CECS 440 and 540.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 542. Computer Control and Real Time Programming
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): ECE 412 or CECS 412.
Description: Programmable Logic Controllers, Human Machine interfaces, SCADA, state machines, sensors, and actuators. Study of industrial algorithms, open/closed loop real-time control and schematics.
Note: Cross-listed with ECE 517.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 545. Artificial Intelligence
Term Typically Offered: Fall Only
Prerequisite(s): CECS 302 and CECS 310.
Description: This course introduces the use of predicate calculus logic, heuristic search, and knowledge representations for solving engineering and computer science problems. The course includes coverage of rule-based expert systems, intelligent agents, and machine learning.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 550. Software Engineering
Term Typically Offered: Fall, Spring
Prerequisite(s): CECS 420.
Description: Engineering methods applied to the life-cycle issues in the team-oriented development of large software systems including issues of software processes, metrics, testing and quality. Documentation of the project and an oral presentation are required.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 562. Introduction to Cryptography
Term Typically Offered: Summer Only
Prerequisite(s): CECS 310 and IE 360.
Description: This course gives a historical introduction to cryptography and the science of secret codes. The first part covers substitution ciphers, transposition ciphers, Vigenere cipher and more complex polyalphabetic substitutions including those created by rotor machines. The second part describes block cipher schemes such as Data Encryption Standard (DES). Public key encryption is the subject of the final part including RSA, Knapsack codes, and Diffie-Hellman key exchange.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 564. Information Security
Term Typically Offered: Summer Only
Prerequisite(s): CECS 311 and CECS 420.
Description: Technical, legal, and policy issues associated with information security. Authentication, trusted computer systems, information encryption, biometrics, computer forensics, and privacy issues. Written and verbal reports are required.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 566. Computer Forensics
Term Typically Offered: Fall Only
Prerequisite(s): CECS 311, CECS 420, and CECS 566, or consent of instructor.
Description: Course examines legal, legal, administrative, technical and scientific issues in computer forensics, network forensics, information security and trusted systems. Course requires class participation, laboratory projects, writing and oral presentations.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CECS 570. Mobile Device Program  
**Term Typically Offered:** Fall, Summer  
**Prerequisite(s):** CECS 220 or equivalent.  
**Description:** This course covers the basic concepts in designing and implementing applications running on Apple's iOS and Google's Android operating systems. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 590. Special Topics in Computer Engineering and Computer Science  
**Term Typically Offered:** Spring Only  
**Description:** Devoted to topics which usually are not treated in detail in the general courses. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 593. Independent Study in Computer Engineering and Computer Science  
**Term Typically Offered:** Fall, Spring, Summer  
**Description:** Opportunity for the student, under the supervision of a sponsoring faculty member, to pursue individualized study related to research or practice that is not included in regular courses in the curriculum.  
**Note:** Chair Approval is required.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)  

CECS 596. CECS Capstone Design - CUE  
**Term Typically Offered:** Fall, Spring  
**Prerequisite(s):** CECS 525 (or concurrently) and CECS 550 (or concurrently); Senior standing.  
**Description:** This course requires solving a real-world design problem in computer engineering. It used hardware and software design methods and tools learned in previous coursework emphasizing teamwork, written, and oral communication.  
**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 608. Advanced Design of Operating Systems  
**Term Typically Offered:** Spring Only  
**Prerequisite(s):** CECS 420.  
**Description:** Formal study of algorithms arising in the engineering design of operating systems. Models will be designed and analyzed as to performance measures and optimality. Topics include management protection, security, concurrency, and resource allocation. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 609. Multimedia Processing  
**Term Typically Offered:** Spring Only  
**Prerequisite(s):** CECS 302 or consent of instructor.  
**Description:** This course aims to provide a broad introduction of multimedia representation, encoding/compression, storage, and communication. It covers multimedia standards such as JPEG, H.261, and MPEG. It also aims to provide an experience with the use, integration, and content-based indexing and retrieval of audio, image, video, and textual sources for some multimedia applications and services. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 611. Computer Architecture  
**Prerequisite(s):** CECS 510, CECS 525, ECE 510, ECE 516 or equivalent.  
**Description:** This course will provide in-depth exposure to advanced topics in computer architecture. The emphasis on studying and analyzing fundamental issues in computer architecture design and their impact on performance. Course topics include performance measurements; ISA; memory hierarchy design and cache memory; advanced pipelining; and advanced computer structures for instruction-level parallelism, instruction scheduling, data-level parallelism, and thread-level parallelism.  
**Note:** Cross-listed with ECE 611.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 613. Network Security  
**Prerequisite(s):** CECS 516.  
**Description:** This course provides basic knowledge and understanding of network security and vulnerability. The course also examines the internal mechanisms of various attacks and possible protection. Class participation, lab work, team projects, writing, and oral presentations will be integral components of the course.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 617. Mobile Computing  
**Prerequisite(s):** CECS 516.  
**Description:** Mobile communication and computing concepts, and related software development. Internal mechanisms by which mobile communication networks provide data transfer service for attached devices. Architecture of ad hoc networks and related protocols. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CECS 619. Design and Analysis of Computer Algorithms  3 Units  
Prerequisite(s): CECS 310 and IE 360.  
Description: This course covers the interrelationship between algorithmic statements, data structures, and computational complexity of computer programs. Algorithms are presented for a number of computer science and engineering applications including graph problems, string matching, dynamic programming, transitive closure, and convolution. The properties of NP-complete problems are introduced. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 620. Combinatorial Optimization and Modern Heuristics  3 Units  
Prerequisite(s): CECS 419 or equivalent.  
Description: Combinatorial Optimization and Modern Heuristics presents classical and modern search and optimization concepts, methods, and applications. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 621. Web Mining for E-Commerce and Information Retrieval  3 Units  
Prerequisite(s): CECS 419 or equivalent.  
Description: Fundamentals of knowledge discovery in semi-structured/unstructured data with emphasis on the World Wide Web: Web usage, content, and structure mining, applications to personalization, e-commerce, information retrieval, text mining. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 622. Simulation and Modeling of Discrete Systems  3 Units  
Prerequisite(s): IE 360.  
Description: Engineering design of simulation languages and simulators, discrete stochastic systems, issues in large scale simulation studies and engineering evaluation methods. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 625. Parallel Programming  3 Units  
Prerequisite(s): CECS 419 or equivalent.  
Description: This course will provide an overview of parallel computation and algorithms, and teach basic parallel programming techniques. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 627. Digital Image Processing  3 Units  
Prerequisite(s): CECS 506, or ECE 420, or faculty consent.  
Description: A course that surveys basic concepts in image processing and pattern recognition. Topics included are: contrast and edge enhancement, histogram modification, image segmentation, feature extraction, statistical classifiers. Design problems involving computer implementation of algorithms are used extensively. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 628. Computer Graphics  3 Units  
Prerequisite(s): CECS 302.  
Description: This course presents an introduction to computer graphics hardware and interactive engineering computer graphics techniques. Topics include engineering computer-aided design, graphics hardware (display processors and displays, hardcopy output devices, input devices), graphics standards and graphical kernel system, graphic object representation and transformation, interaction techniques, and three-dimensional graphics. Hardware graphics options are discussed and used. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 629. Distributed System Design  3 Units  
Prerequisite(s): CECS 420.  
Description: This course covers general concepts in the design and implementation of distributed systems, visiting topics in cluster computing, supercomputing, grid computing, and cloud computing. The course is composed of two building blocks: 1) distributing computing models including MPI and MapReduce programming, and 2) distributed storage techniques including networked, parallel, and distributed file systems. Our readings and discussions of research papers will help us understand general approaches to design, implement, and evaluate real distributed systems as well as identify open research problems. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 630. Advanced Databases  3 Units  
Term Typically Offered: Spring Only  
Prerequisite(s): CECS 535 or consent of instructor.  
Description: Object-relational databases; handling of complex types, XML and text in relational databases. NoSQL databases: data models and query languages. Data warehousing: design and implementation, query processing and optimization. Big Data: cluster computing, MapReduce and extensions, advanced analytical databases, distributed query processing. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 631. Database Security  3 Units  
Prerequisite(s): CECS 535 or consent of instructor.  
Description: This course covers basic issues in the field Security for database systems. Topics include Security Architecture, Administration of Users and Password Policies, Database Application Security Models, Virtual Private Databases and Label Based Access Control, Database Auditing Models, and Application Data Auditing. The course contributes to the following ABET goals: written communication, and contains heavy coverage of the following ABET goals: Knowledge of contemporary issues in the field of computer engineering and computer science. The understanding of professional and ethical responsibility in the field of computer engineering and computer science. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
### CECS 632. Data Mining
**Prerequisite(s):** IE 360 and CECS 535.  
**Description:** Data mining concepts, methodologies, and techniques, including statistical and fuzzy inference, cluster analysis, artificial neural networks, and genetic algorithms, rule association and decision trees, N-dimensional visualization, Web and text mining, and advanced topics.  
For class offerings for a specific term, refer to the Schedule of Classes [here](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

### CECS 633. Computer Vision
**Prerequisite(s):** CECS 627 or ECE 618 or consent of instructor.  
**Description:** Review of elementary pattern recognition and image processing: extension to advanced topics in computer vision, such as three-dimensional vision and perception, syntactic pattern recognition, motion, texture, and color vision applications.  
For class offerings for a specific term, refer to the Schedule of Classes [here](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

### CECS 640. Internet Application Design and Development
**Prerequisite(s):** CECS 220.  
**Description:** This course covers software design and development issues encountered in designing internet applications. Topics are HTML5 and CSS, HTTP and Servlet, JDBC, JSP Programming, Custom Tags and Java Bean, Connection Pooling, Web Application Architecture and Design, The Presentation Tier, The Business Logic Tier, The Persistence Tier, and Web Services.  
For class offerings for a specific term, refer to the Schedule of Classes [here](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

### CECS 641. Medical Imaging Systems
**Prerequisite(s):** ECE 618 or ECE 555.  
**Description:** Focuses on the foundations of modern medical imaging. Topics include: X-ray generation and X-ray/tissue interactions, projection X-ray imaging, image reconstruction from projections, X-ray CT, MRI, nuclear medicine, SPECT, PET and Ultrasound.  
**Note:** Cross-listed with ECE 641.  
For class offerings for a specific term, refer to the Schedule of Classes [here](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

### CECS 696. CECS Project
**Prerequisite(s):** Graduate standing in CECS.  
**Description:** Independent design or experimental project in Computer Engineering and Computer Science. Written and verbal reports required. Reports must include literature, speech, experimental methodology, design details, implementation details, test results, conclusions, and references. Verbal reports will be presented at a specified date each semester.  
For class offerings for a specific term, refer to the Schedule of Classes [here](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 697. Master of Engineering Thesis in Computer Engineering and Computer Science 1-8 Units
Prerequisite(s): Graduate/Professional standing.
Description: A candidate for the Master of Engineering degree, specializing in the field of Computer Engineering and Computer Science, is required to perform a study, design, or investigation under the direction of a faculty member. A written dissertation is required to be presented and defended orally and submitted to the faculty for approval.
Note: This course may be repeated for a maximum total of eight semester hours.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 790. Special Topics in Computer Science & Engineering 1-6 Units
Description: Devoted to advanced topics that are not treated in the general courses. Topics will be announced in the Schedule of Courses.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 795. CECS Seminar 1-4 Units
Description: Seminar in Computer Science & Engineering
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 796. Independent Study in Computer Science & Engineering 1-6 Units
Prerequisite(s): Consent of advisor.
Description: Opportunity for the student, under the supervision of a sponsoring faculty member, to pursue individualized study related to research or practice that is not included in regular courses in the curriculum.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CECS 799. Dissertation Research 1-24 Units
Prerequisite(s): Consent of advisor.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CIS Information Systems (CIS)

CIS 500. Computer Concepts for Managers 1.5 Units
Grading Basis: Pass/Fail
Prerequisite(s): ISDP 154 and ISDP 155; CIS 300.
Description: Fundamentals of application based software including spreadsheet, data manipulation and reporting, presentation graphics, and public network access.
Note: Pass/fail grading.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CIS 610. eBusiness Models 3 Units
Prerequisite(s): MBA 668.
Description: Discussion of business concepts and strategic opportunities surrounding the emergence of eBusiness. Understanding how the Internet impacts existing business models and how these models are adapted for the digital economy.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CIS 615. Internet Systems and Tools for eBusiness 3 Units
Prerequisite(s): CIS 610 (or concurrently); CIS 675 or MBA 668.
Description: Discussion and use of Internet technologies and tools. Typical products (e.g., B2B and CRM) are evaluated to determine how they may be used to align with eBusiness strategic goals.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CIS 620. eBusiness Practicum 3 Units
Prerequisite(s): CIS 610, CIS 615, CIS 675 or MBA 668.
Description: Application of digital economy concepts and Internet technologies to an eBusiness project. Teams will create an eBusiness model, develop system requirements, and implement web prototypes of the proposed solution.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CIS 655. Computer Ethics and Social Issues 3 Units
Description: In-depth examination of the ethical and social aspects of computing. Topics include responsibilities for computer professionals, organizational and work transformation, privacy, social interaction in electronic forums, policy and other current issues. Case studies, in-class discussion, and position papers will be used extensively.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CIS 680. Special Topics in CIS 1-6 Units
Description: An advanced study of one or more selected topics on issues related to the study of Computer Information Systems.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CIS 698. Research Seminar in CIS 1-6 Units
Prerequisite(s): Permission of departmental chair.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Criminal Justice (CJ)

CJ 500. Crime and Criminal Justice in the Cinema 3 Units
Prerequisite(s): Senior standing.
Description: This course examines media representations of the criminal justice system in historical context and with global perspective to show the congruence and disparities between popular film and reality.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CJ 505. International Terrorism
Term Typically Offered: Occasionally Offered
Description: Investigation of international terrorism and terrorist organizations, focusing on causes, operations, organization, funding, threats and futures. Biological, chemical, nuclear and cyberspace terrorism are explored. Features of the impact of the media on terrorism, counter-terrorism, use of technology and prevention.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 507. Crime Prevention Through Environmental Design
Description: Introduction to the concept of Crime Prevention Through Environmental Design (CPTED). Emphasis will be placed on opportunity theories of crime and their application as well as means through which crime can be prevented using the built environment to reduced crime opportunity.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 509. Crime Analysis
Description: Crime analysis is a fairly new topic in criminal justice education. This course provides students with an opportunity to apply theory to crime data while learning introductory techniques of crime analysis and mapping.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 516. Juvenile Justice Issues
Description: An interdisciplinary seminar. Focuses on issues pertinent to the criminal justice system that reflect conflicting perspectives. This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 517. Gangs in America
Description: One of the main purposes of this course is to examine one of the most polarizing, difficult to research topics in Criminal Justice: Gangs. By exploring these dynamics and connections, the course will address the history, research, legislation, and policy implications related to Gangs, and the criminal justice system's response to Gangs. This course is divided into four points: 1) Defining Gangs, and the Historical Perspective of Gangs 2) Theoretical Basis of Gangs and Gang Involvement 3) Current Gang Trends, and 4) Gang Prevention/ Intervention.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 519. Domestic and Family Violence
Description: A course addressing issues relating to family violence, includes examination of partner abuse, child abuse, and elder abuse throughout the life-course.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 520. Capital Punishment - WR
Term Typically Offered: Occasionally Offered
Prerequisite(s): Senior standing or consent of instructor.
Description: Seminar of issues related to the death penalty, including: constitutional questions, the effect of death row incarceration, and public attitudes toward the death penalty. Research on Kentucky will be featured.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 521. White Collar Crime - WR
Term Typically Offered: Occasionally Offered
Prerequisite(s): CJ 200 and CJ 305, or consent of instructor.
Description: A study of white collar and occupational crime. Course will focus on the concept, theoretical explanations, the extent and nature of various types of white collar and occupational crime in both public and private sectors.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 522. Serial Murder
Term Typically Offered: Occasionally Offered
Prerequisite(s): Senior standing or consent of instructor.
Description: Examination of serial murder in the United States. Topics include serial murder and its relation to race and gender; the myth of serial murder; the media and serial murder and profiling.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 523. Race and Gender Issues in Criminal Justice - WR
Term Typically Offered: Occasionally Offered
Prerequisite(s): Junior standing or consent of faculty.
Description: This course will study the dynamics of racial discrimination and racial disparity in the U.S. and how it affects the criminal justice system.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 530. Intro to Homeland Security
Term Typically Offered: Occasionally Offered
Description: This course outlines the philosophy, purpose, and rationale for a separate governmental agency whose primary mission is focusing on homeland security. This course will also examine issues related to international and domestic terrorism and their effect(s) on trends in homeland security.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CJ 531. Covert Operations in Policing  3 Units
Description: This course is an introduction to intelligence in policing and law enforcement with an emphasis on three key topics: 1) Developing awareness and understanding of human intelligence (HUMINT) as a primary means of collecting information required to develop intelligence for solving, predicting, and hindering crime & criminal behavior. 2) Developing skills in selecting and using analytical tools used by law enforcement intelligence and crime analysts: association and activities matrices, link analysis diagrams, social network analysis, pattern wheel analysis, mind mapping, concept map, and others. 3) Understand the critical role of planning in law enforcement and the relationship between planning, operations and intelligence.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 576. Managing Organizational Performance  3 Units
Prerequisite(s): Consent of department chair.
Description: Examination of factors affecting the management of organizational performance. Designed to help participants develop conceptual diagnostic and problem solving skills required of strategic managers in contemporary law enforcement organizations. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 578. Criminal Justice Leadership - WR  3 Units
Description: Through the use of lectures and case studies (films), participants will be provided with a cognitive understanding of leadership that emphasizes the study of leadership models and theories. Study and evaluation of various leadership styles and processes.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 580. International Service Learning: Criminal Justice Seminar  3 Units
Prerequisite(s): Approval of program director.
Description: Study of criminology and criminal justice with a cross cultural perspective. Comparative criminal justice research regarding particular problems and issues in the host country will be conducted and examined. Travel outside the U.S. required.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 596. Seminar in Criminal Justice  3 Units
Description: An interdisciplinary seminar. Focuses on issues pertinent to the criminal justice system that reflect conflicting perspectives.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 597. Ethics in Criminal Justice - WR  3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): Senior standing or consent of instructor.
Description: A study of the need for ethics in criminal justice. The aims of ethics, ethical theories, ethical issues related to law making, law breaking and law enforcement.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 602. Criminal Justice History  3 Units
Description: A study of the historical development of criminal justice agencies in the United States. The origin and influence of various European concepts of criminal justice and how they relate to past and present ideas in the United States.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 605. Police and Society  3 Units
Description: An examination of the police function as a component of the political system in the United States. The manner in which police give substance to the political system and are formed by it in turn. The interaction of the police with other governmental institutions in the political system.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 606. Personnel Management in the Criminal Justice System  3 Units
Description: Focus is on contemporary personnel management problems confronting agencies in the criminal justice system. Both the historical and the theoretical developments of personnel management are analyzed. Alternatives to current management procedures and systems are presented.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 607. Seminar in Law and Justice  3 Units
Description: Study of the premises, theories and research in the study of the relationship between law, society and justice. Emphasis is on the classics as well as selected modern and contemporary research.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 609. Economic Analysis of Crime  3 Units
Description: A study of the economic scope of crime. The role of illegal gambling, loan sharking, labor racketeering, and legitimate business infiltration. The cost of crimes against property. The economic characteristic of high crime jurisdictions. Preventive programs and their costs.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CJ 610. Theoretical Foundation of Corrections 3 Units
Description: A study of the psychological, sociological, political, and economic factors which contributed to the concept of corrections. The evolution of correctional thought and its role in contemporary and future reforms.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 611. Critical Issues in Corrections 3 Units
Description: In-depth examination of contemporary issues in sentencing and corrections in our society. Particular emphasis will be given to best practices: recent policies and programs that have been developed to enhance the effectiveness and efficiency of sentencing and corrections within our society.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 612. Criminal Justice Administration: Police 3 Units
Description: An examination of the functions of police in society; principles of law enforcement organizations, administration, policy formulation, and management of personnel; statutory limitations on authority and jurisdiction.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 613. Advanced Comparative Criminal Justice 3 Units
Description: In-depth examination of international legal systems and their related criminal justice systems including analysis of patterns of international crime and global criminal justice issues.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 614. Seminar in Policing 3 Units
Description: In-depth examination of contemporary issues facing police in our society. Particular emphasis will be given to police innovation: recent policies and programs that have been developed to enhance the police function of crime prevention (societal protection) and community relations (service).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 621. The Criminal Justice System 3 Units
Description: A study of the criminal justice system in the United States. A systems approach to the study of criminal justice and the interrelationships of the various components of the system. Social and political issues related to the criminal justice system are examined in depth.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 625. Legal Aspects of Criminal Justice Management 3 Units
Description: Examination of the legal issues within criminal justice management, the effects of constitutional provisions, statutes, ordinances, and judicial decisions on justice administration. A discussion of the legal aspects of selection, promotion, assignment, and termination of justice employees.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 626. Emergency Management 3 Units
Description: This course is an overview of emergency management in the United States and will focus on the four phases of the emergency management process: mitigation, preparedness, response and recovery.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 627. Computer and Cyber Crime 3 Units
Description: This course examines advanced legal, policy and technical issues of computer, digital and electronic crime, including issues with digital & computational forensics, information security and privacy. Class participation, writing and oral presentations will be integral components of the course.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 630. Critical Infrastructure Protection and Resilience 3 Units
Description: This course will address U.S. key infrastructures and assets, potential threats to these, their major vulnerabilities, methods used to assess these vulnerabilities and current U.S. policy pertaining to infrastructure and asset protection.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 643. Theories of Crime and Delinquency 3 Units
Description: A study of the psychological and sociological factors involved in criminal and delinquent behavior. The relationship of theory to the prevention and control of crime, treatment of offenders and administration of respective criminal justice agencies.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 644. Seminar in Juvenile Justice 3 Units
Description: Theoretical and empirical study of the etiology, distribution and extent of delinquency; problems involved in measuring delinquency; role of the police, courts and legal statutes; critical examination of treatment and prevention programs.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 649. Applied Statistics in Criminal Justice 3 Units
Description: Focuses on the use of statistical techniques in criminal justice. Emphasis on the application and interpretation of the statistics. Utilization of statistical application computer systems.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 650. Research Methods 3 Units
Description: The application of quantitative and qualitative analyses in criminal justice research. The concepts of validity, hypothesis, reliability, measurement, sampling, quasi-experimental construction, errors in reasoning, and statistics and approaches to the problems of the conduct of stringent and useful research.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Units</th>
<th>Prerequisite(s)</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CJ 652</td>
<td>Constitutional Issues in Criminal Justice</td>
<td>3</td>
<td>CJ 625 or instructor consent.</td>
<td>An in depth study of the US Constitution and US Supreme Court including history, structure and application of Constitutional rights and privileges. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>CJ 653</td>
<td>Communities and Crime</td>
<td>3</td>
<td></td>
<td>This course explores community-level theory and research within criminology. We will trace the development of community-level criminological theory and research from the work of Shaw and McKay to the work of contemporary scholars. Our tracing of this development will involve exploration of theoretical and methodological issues such as: the conceptualization and measurement of social disorganization, structural versus cultural effects in community models, social versus physical environmental effects, the role of community disorder in community crime models, the role of fear in community crime models, macro-level interactions within community-level models of crime, and use of theoretical integration and multi-level models in community crime research. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>CJ 655</td>
<td>International Perspectives on Violence</td>
<td>3</td>
<td></td>
<td>The course will discuss violence as a global phenomenon and will attempt to determine what is universal and what varies when cross-cultural comparisons of violent criminal behavior are made. In addition, the course will focus on the effects of globalization on the criminal justice field and will discuss important issues related to international crime, international law, and international law enforcement. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>CJ 656</td>
<td>Crime Mapping</td>
<td>3</td>
<td></td>
<td>This course will investigate theories, concepts, principles, and tools involved in better understanding crime incidents and crime patterns. Included will be weekly lab work following step-by-step tutorials that will provide students with a working knowledge of mapping software. Analyzing and interpreting a high-frequency Louisville crime problem and identifying police-based crime prevention techniques from the literature will be the subject of a final research project. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>CJ 657</td>
<td>Directed Studies/Readings</td>
<td>3</td>
<td>Consent of chair and instructor.</td>
<td>Independent study or research project under the direction of a member of the faculty. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>CJ 665</td>
<td>Special Topics in Justice and Criminology</td>
<td>3</td>
<td></td>
<td>Study of contemporary issues concerning the philosophy, management, and operations of criminal justice agencies. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>CJ 670</td>
<td>Professional Paper</td>
<td>3</td>
<td>Consent of chair.</td>
<td>Preparation of a paper of publishable quality based on research under the direction of a faculty member. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>CJ 699</td>
<td>Thesis</td>
<td>3</td>
<td>Consent of chair.</td>
<td>For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>CJ 703</td>
<td>Criminal Justice System Planning</td>
<td>3</td>
<td></td>
<td>Overview of planning theory, techniques and strategies within the criminal justice system. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>CJ 740</td>
<td>Seminar in Crime Prevention and Social Control</td>
<td>3</td>
<td>Consent of instructor.</td>
<td>Study of the history, theory and practice of crime prevention and social control. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>CJ 745</td>
<td>Advanced Criminal Behavior</td>
<td>3</td>
<td></td>
<td>Advanced study of various theoretical perspectives in the study of crime, criminal behavior and criminal justice. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>CJ 746</td>
<td>Seminar in Criminal Justice Program Planning &amp; Evaluation</td>
<td>3</td>
<td>Restricted to doctoral students.</td>
<td>Prerequisite(s): Restricted to doctoral students. Description: This course features: an introduction to the theory and practice of criminal justice planning, their strengths and weaknesses, the application of social scientific research methods to determine the effectiveness of criminal justice programs, analysis of reports of evaluative research and the preparation and analysis of evaluation research reports. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
<tr>
<td>CJ 747</td>
<td>Advanced Statistical Analysis in Criminal Justice</td>
<td>3</td>
<td>Consent of chair.</td>
<td>In-depth analysis of logic and uses of advanced research methods. Emphasis will be given to the use of quantitative research techniques, fundamentals, and perspectives of modern statistical techniques used in criminal justice research. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
</tr>
</tbody>
</table>
CJ 750. Field Research in Criminal Justice 3 Units
Description: Development of expertise in understanding, planning, conducting and evaluating qualitative research methodologies. Special attention will be given to applying data collection and analysis techniques to social science investigations of crime and criminal justice processes.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 751. Advanced Statistical Computer Applications for Criminal Justice 3 Units
Description: The study of advanced statistical computer applications for research within criminal justice.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 752. Advanced Research Methods in Criminal Justice 3 Units
Description: Research methods used in the analysis of criminal justice research. Quantitative and qualitative techniques, experimental and quasi-experimental design, data sources in the public sector, the use of data bases in the development and implementation of criminal justice evaluation.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 795. Criminal Justice Qualifying Project 3-6 Units
Prerequisite(s): Completion of CJ PhD core curriculum; doctoral students only.
Description: Analysis of qualitative or quantitative data set and production of a manuscript suitable for publication.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 798. Mentored Research in Criminal Justice 1-3 Units
Description: Independent research project conducted under the guidance of and in collaboration with a member of the Justice Administration research faculty.
Note: May be repeated for a maximum of six hours.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CJ 799. Dissertation Research in Criminal Justice 1-12 Units
Description: Dissertation research project under the direction of faculty committee.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

Critical and Curatorial Studies (CCS)

CCS 547. Introduction to Critical and Curatorial Studies I 3 Units
Prerequisite(s): Consent of instructor.
Description: An introduction to curatorial practice of the last 30 years. Focusing on the curator’s increasingly prominent role in the reception and synthesis of contemporary art, the course explores developments in exhibition design in terms of art production, international exchange, globalization, and critical theory.
Note: Cross-listed with ARTH 547.
Note: A student may receive credit for only one of the courses: ARTH 547, CCS 547, ARTH 647, CCS 647.
Note: Formerly Museum Methods I.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CCS 548. Critical and Curatorial Studies II 3 Units
Prerequisite(s): ARTH 547, or CCS 547, or ARTH 647, or CCS 647, or consent of instructor.
Description: This seminar is structured as a curatorial practicum. Students work with the professor to develop and produce an exhibition from the university’s print collection. Throughout the semester, weekly readings and presentations focus on contemporary exhibition practice as well as on the theoretical and critical concerns undergirding the student’s developing exhibition.
Note: Cross-listed with ARTH 548.
Note: A student may receive credit for only one of the following courses: ARTH 548, ARTH 648, CCS 548 and CCS 648.
Note: Formerly taught as Museum Methods II.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CCS 600. Graduate Seminar 1 Unit
Grading Basis: Pass/Fail
Prerequisite(s): Graduate standing.
Description: Reports, critiques, presentations and discussions on personal research and current topics in visual arts.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CCS 643. Independent Study 1-3 Units
Prerequisite(s): Consent of instructor.
Description: Opportunity for the student, under the supervision of a sponsoring faculty member, to pursue individualized study related to research or practice that is not included in regular courses in the curriculum. Credit according to achievement.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CCS 645. Thesis Guidance 3 Units
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
CCS 646. Topics in Curatorial Studies 1-3 Units
Prerequisite(s): Consent of instructor.
Description: Advanced study on selected topics in Critical and Curatorial Studies.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

CCS 647. Introduction to Critical and Curatorial Studies I 3 Units
Prerequisite(s): Consent of instructor.
Description: An introduction to curatorial practice of the last 30 years. Focusing on the curator’s increasingly prominent role in the reception and synthesis of contemporary art, the course explores developments in exhibition design in terms of art production, international exchange, globalization, and critical theory.
Note: A student may only receive credit for only one of the courses: ARTH 547, CCS 547, ARTH 647, CCS 647.
Note: Cross-listed with ARTH 647.
Note: Formerly Topics in Curatorial Studies.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ECON 500. Foundations of Economics 3 Units
Prerequisite(s): Consent of instructor.
Description: Survey of supply and demand analysis, cost and production, and price determination in different market organizations. Analysis of GOP, unemployment, inflation, and economic growth.
Note: Cross-listed with PLAN 500.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ECON 605. Urban Economics 3 Units
Prerequisite(s): PLAN 500, ECON 600, or consent of instructor.
Description: Application of economic theory to urban policy issues including metropolitan development and job creation, poverty, crime, transportation, environment, spatial structure, and other issues.
Note: Cross-listed with PADM 640, UPA 603, and PLAN 603.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ECON 620. Economic Conditions and Forecasting 3 Units
Prerequisite(s): ECON 600 or ECON 605 or UPA 603 or PLAN 603 or PADM 640.
Description: Develops quantitative tools for the analysis and forecasting of economic phenomena. Both structural and time series models are presented. Basic econometric methods are used to fit models and evaluate their forecasting properties.
Note: Cross-listed with PLAN 628 and UPA 624.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PADM 640. Urban Economics 3 Units
Prerequisite(s): ECON 500.
Description: The theories and principles of taxation, the economic impact of different taxes, the public debt, and fiscal policy are discussed. Taxation of the business firm is also discussed.
Note: Cross-listed with UPA 646.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ECON 644. Health Economics 3 Units
Prerequisite(s): ECON 500 and elementary calculus.
Description: Examines health care issues by applying microeconomic theory. Particular emphasis on health insurance, managed care, health care production, and physician services.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ECON 650. Macroeconomic Theory 3 Units
Prerequisite(s): ECON 500 and elementary calculus.
Description: Aggregate income and employment theory. Classical and Keynesian models; monetary and fiscal policy; the theory of growth and cycles.
Note: Cross-listed with UPA 625.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ECON 660. Microeconomic Theory  3 Units
Prerequisite(s): ECON 500 or PLAN 500.
Description: A thorough examination of the theory of household and firm. Determination of price under different market structures.
Note: Cross-listed with UPA 625.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ECON 680. Special Topics in Economics  1-6 Units
Description: An advanced study of one or more selected topics or issues related to the study of Economics.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ECON 698. Research Seminar in Economics  1-3 Units
Prerequisite(s): One 600-level economics course and permission of the departmental chair.
Description: Topics vary by semester.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 501. Independent Study: Training or Technical Education  1-3 Units
Term Typically Offered: Occasionally Offered
Description: Provides Training and Development students with course credit for special investigation into areas not currently subsumed in existing courses.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 510. Teaching Career and Technical Education  3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): Admission to the College of Education and Human Development.
Description: A study of teaching practices as they apply to beginning teachers. Emphasis on practical procedures needed to succeed in teaching.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 515. Supervised Staff-Industry Exchange  1-3 Units
Prerequisite(s): Career & Technical Education Teacher Certification.
Description: Provides essential improvement experience for the occupational education teacher through placement in occupationally oriented job situations which are evaluated to assist the teacher in implementing new skills and updating techniques in the classroom.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 574. Using Productivity Tools  3 Units
Description: Overview of applications of microcomputers and electronic media systems for instruction and management. Emphasis is placed upon use of general purpose integrated computer software. Current issues involving technology use for training/instruction and work/ classroom/school management will be the focus for the course.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 578. Workplace and Information Ethics  3 Units
Term Typically Offered: Occasionally Offered
Description: Study and application of ethical perspectives at individual group, organizational, and societal levels, as they apply to leadership in workplaces and management of organizational information. Includes examination of social responsibility.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 600. Introduction to Research Methods and Statistics  3 Units
Description: Critical examination of research in education. Emphasis given to historical, empirical, and experimental methods of research; to techniques of research design and statistical analysis; and to skills in writing reviews and critiques of research literature.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 601. Applied Statistics  3 Units
Prerequisite(s): ELFH 600 or equivalent with faculty advisor’s approval.
Description: Examination of statistical methods, including sampling, estimation, testing of hypotheses, correlation and regression analysis. Some attention paid to non-parametric tests.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 602. Survey Research and Attitude Measurement  3 Units
Prerequisite(s): ELFH 601.
Description: Techniques for construction of evaluation instruments. Special attention given to surveys and questionnaires, sampling and scaling of attitudes and opinions.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 603. Administrative Leadership in a Reform Environment  3 Units
Description: In this reform environment leaders will learn about leading schools within an integrated policy and governance framework from the federal, state, and district perspectives. Particular attention will be paid to the Kentucky Education Reform Act of 1990.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 604. Instructional Leadership and Supervision  3 Units
Description: Examines concept of school culture, supervision skills and approaches, observation instruments, and action models for instructional supervision. This course takes a proactive, school success approach to school administration.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ELFH 605. Leadership in HROD 3 Units
Description: Study of the modern theories of leadership, management, and leadership development. Applied overview of the key concepts and principles of leadership and leadership development.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 606. Program Evaluation 3 Units
Description: Examines the theories, techniques, methods, and program evaluation models currently used in assessing the effectiveness of learning programs and products in educational and other organizational settings.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 607. Principles of Educational Leadership 3 Units
Description: Examines concepts, analytical tools, case material, and organizational theories from the public, business, and educational administration sectors.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 608. K-12 Leadership 3 Units
Description: Examination of critical responsibilities of K-12 educational leaders, including building and system administrators and supervisors, through guided observations outside of class (30% of course time) and through in-class activities (70% of course time). Emphasizes on processes and skills required in the context of reform in Kentucky and in the nation.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 609. Internship in Educational Leadership 1-6 Units
Grading Basis: Pass/Fail
Description: Field-based, monitored leadership application activities augmented by seminars which assemble interns for reflection and informed discussions. The student will have the opportunity to "learn-by-doing" administrative work. Emphasis is upon elements of the Education Reform Act of 1990 and its implementation. Pass/Fail grading.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 610. Collaboration and Communication for Effective Leadership 3 Units
Description: A lecture-laboratory course to build student awareness and skills for effective collaborative leadership, communication, decision-making, community relations, and group management.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 611. Strategic Human Resources 3 Units
Description: Examination of key concepts and principles of strategic human resource management, with special emphasis on the role of HR within the organization. Essential foundational knowledge and skills essential for HR professionals and managers.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 612. Talent Acquisition and Management 3 Units
Description: Theories and techniques of key human resource management functions of HR planning and selection. A systems approach is used to explore HR planning as the managing of supply and demand for labor internal and external to the organization. Multiple strategies are examined for measuring predicted job performance to effectively plan, recruit, and select employees.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 613. Administration and Supervision in Special Education 3 Units
Description: The development, coordination, administration, and supervision of special services for exceptional children.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 614. Program and Organization Evaluation 3 Units
Description: Examines program and organization evaluation with emphasis on principles of planning, information systems, evaluation, and decision making.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 615. Human Resource Development Internship 2-8 Units
Description: Supervised professional work experience in activities related to the student's program objectives. Designed to provide experience not possible in the classroom setting.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 616. HROD Integrative Capstone 3 Units
Description: Culminating experience that requires integration of research, theory, and practice of human resources and organization development through a fieldwork experience, program portfolio/systematic reflection on past work, and integrative content seminar.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 617. Evidence Based Research in HROD 3 Units
Description: Use and application of evidence-based research in Human Resources and Organizational Development. Emphasis on applying research to organizational decision-making. Includes accessing, interpreting, critiquing, and synthesizing research.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 620. Legal Issues in P-12 Education 3 Units
Description: Examination of constitutional and statutory provisions and court decisions affecting educational leadership in P-12 education.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
UNIVERSITY OF LOUISVILLE

ELFH 622. Educational Resource Management in P-12 Education 3 Units
Description: Study of resources, practices and procedures of finance and economics as related to P-12 education. Provides investigation of specific and current educational finance issues affecting educational institutions.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 623. Special Problems in Leading Instructional Improvements 1-6 Units
Prerequisite(s): Consent of instructor.
Description: Provides skills for persons engaged in instructional leadership who desire to investigate and/or develop specific functional programs for the purpose of improving instruction.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 624. Global Human Resources Development 3 Units
Term Typically Offered: Summer Only
Prerequisite(s): Application to the CEHD International Learning Program.
Description: Leadership and human resources development processes at the individual, group, organizational, and global levels are examined from a cross-cultural perceptive. Emphasis in placed on the assessment, challenge, and support activities constructive to developing global leadership skills and awareness in a variety of organizational and cultural contexts.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 625. History of American Education 3 Units
Description: Examination of the function of educational processes in the context of American political, economic, and social history.
Note: Cross-listed with HIST 625.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 629. Youth and Adults with Special Needs in Career and Technical Education 3 Units
Description: Emphasis on integrating instructional and/or management activities to assist disadvantaged and handicapped persons enrolled in occupational education programs.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 630. The School in the American Social Order 3 Units
Description: Examination of the school as a social institution, with emphasis on the interrelationship of the school with other social, political, and economic organizations.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 631. Performance Management and Rewards 3 Units
Description: Theories and techniques of the key human resource functions of performance management, benefits, and compensation. Focus on using performance management and total rewards to achieve individual and organizational performance.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 632. Ethics and Social Responsibility in the Workplace and Education 3 Units
Description: To identify moral and ethical issues in the workplace and education by applying critical thinking and analysis processes to ethical dilemmas.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 633. Organizational Structures and Operations 3 Units
Description: In this course candidates learn the four functions of operational vision and mission, school improvement planning and implementation, functions, procedures and structures, and legal frameworks.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 634. P-12 Leadership for Curriculum, Instruction, & Assessment 3 Units
Description: In this course candidates learn to fulfill education leaders’ responsibilities for planning, implementing, monitoring, and evaluating assessment, curriculum, and instruction.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 635. P-12 Human Resources: Securing and Developing Staff 3 Units
Description: In this course candidates learn the four functions of securing and developing staff; staff selection, personnel evaluation, work conditions and environment, and professional development.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 636. Shaping School Culture and Community 3 Units
Description: In this course candidates develop collaborative leadership skills and knowledge about school culture, learning communities for students and staff, and professional ethics.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 637. Leveraging Community Systems and Resources 3 Units
Description: In this course candidates learn the functions for identifying, engaging, and deploying resident resources in the service of supporting student learning outcomes. Fifteen hours of community service is required.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ELFH 639. Management: Creating Sustainable Systems 3 Units
Prerequisite(s): ELFH 649.
Description: This course focuses on the responsibilities of the school district superintendent with an emphasis on managerial leadership. Students must be admitted to the Superintendent Certification Program prior to enrollment. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 640. Developing a Philosophy of Education 3 Units
Description: Study of philosophic assumptions and principles governing the American school and the application of these assumptions and principles to practical problems of learning, teaching, and administration. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 641. Graduate Seminar: Leadership, Foundations and Human Resource Education 1-4 Units
Description: Detailed discussion of new and emerging themes in Leadership, Foundations and Human Resource Education. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 649. District Leadership: The Contemporary Superintendent 3 Units
Prerequisite(s): Applied to the superintendent certification program.
Description: This course focuses on the responsibilities of the school district superintendent, with an emphasis on the development and growth of the superintendent student in the area of strategic leadership as it relates to continuous school improvement. Students must have applied to the Superintendent Certification Program prior to enrollment. ELFH 649 is intended to be the first course in a four-course sequence for the Superintendent certification. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 659. Planning 3 Units
Description: Focuses on the development of planning, implementation, and leadership skills needed to direct strategic decision-making. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 660. Diversity and Inclusion 3 Units
Term Typically Offered: Fall, Spring
Description: Focuses on concepts of diversity and inclusion in organizations, and the changing demographics of our society, especially related to race and culture, gender, age, disability, sexual orientation and socio economic status. This course emphasizes the implications of these factors for effective management in human resources and organizations in general. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 661. Adult & Organizational Learning 3 Units
Description: Psychology applied to adult learning and organizational settings. Examines learning from both individual/team and organizational levels. Utilization of theories to increase individual and organizational performance through sustained and effective learning. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 662. Organizational Analysis 3 Units
Description: Examination of the process and techniques used to conduct an organizational analysis in order to identify societal, organizational, departmental and individual performance needs. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 663. Methods of Facilitation 3 Units
Description: Development of the presentation skills needed to conduct training programs in non-school settings. Focus placed upon the difference between teaching and facilitation of adult learning. This course is required for the Master of Science in Human Resource and Organization Development. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 664. Organizational Change and Consulting 3 Units
Description: Study of the organization as a system, how organizations change, and the role of the internal or external consultant in facilitating change. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 665. Foundations of Health Professions Education 3 Units
Prerequisite(s): Enrollment limited to students in a Health Professions Education graduate program (academic plan codes HRODMS HPE and HLTHCNP).
Description: This course provides a solid foundation to the profession of health education through a focus on professional roles and responsibilities, ethics and cultural competence, leadership and collaboration, and the adult learner. Additionally, as an introduction to the profession, this course includes an overview of teaching and learning in health professions education, instructional strategies, assessment, evidence-based practice and research. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 666. Program Development & Assessment in Higher Education 3 Units
Description: Analysis and application of organizational/situational analysis and needs, and organizational responses through program design, development, implementation, student assessment measurements, and evaluation. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ELFH 667. Instructional Planning for Student Learning and Achievement 3 Units
Prerequisite(s): ELFH 649 and ELFH 639.
Description: This course focuses on the responsibilities of the school district superintendent as they relate to instructional leadership. This is the third in a four-course sequence for those seeking superintendent certification. Students must be admitted to the Superintendent Certification Program prior to enrollment, and it is desirable for students to have completed ELFH 649 and ELFH 639 prior to enrollment in this course.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 668. Academic Advising 3 Units
Description: Focuses on the history, foundation, and professional practices of academic advising as an essential component of student persistence and success at postsecondary institutions.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 670. Instructional Strategies 3 Units
Description: In this course, we will focus on what scholarly research can tell us about why we set up learning experiences the way that we do, as well as how we can apply these research findings in the contexts and situations where you are interacting with students. We will also examine the roadblocks that arise in implementing research-based plans and practices, and practice problem-solving to work around these roadblocks.
We will also explore ways to critique and evaluate instructional plans and interactions, as well as ways of using these critiques and evaluations to improve instructional design, teaching, and learning.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 671. Performance Improvement 3 Units
Description: Provides knowledge and skills to move from analysis of performance problems to identifying, selecting, and developing interventions that improve performance of individuals, groups, and organizations to achieve organizational goals.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 672. Instructional Design and Development 3 Units
Description: Emphasizes systematic processes for the design and development of instruction with application to education and training. Current theory and research on instructional design and development, in accordance with principles of teaching and learning.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 673. e-Learning Design and Development 3 Units
Prerequisite(s): ELFH 672 or equivalent instructional design skills.
Description: Techniques and tools for designing, developing, and delivering e-Learning.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 674. Advanced Leadership Theory 3 Units
Description: Participants will explore and develop an understanding of both classical and contemporary leadership theory. Theory and research will be integrated as a means to better understand the emergence of leadership, its practice as an art, and its application in contemporary practice within organizational settings. Critical perspectives on the topic will be discussed and reflected upon. Deep understanding of theory and practice will be covered.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 675. Teaching and Learning in Health Professions Education 3 Units
Prerequisite(s): Enrollment limited to students in a Health Professions Education graduate program (academic plan codes HRODMS HPE and HLTHCHP).
Description: This course introduces the principles and theories of teaching and learning within health professions education. Within a health context, this course will cover planning and preparing to teach, student motivation and engagement, and assessing the teaching-learning environment.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 676. Instructional Strategies in Health Professions Education 3 Units
Prerequisite(s): Enrollment limited to students in a Health Professions Education graduate program (academic plan codes HRODMS HPE and HLTHCHP).
Description: This course is designed to facilitate understanding of instructional strategies and their effective application in the classroom and clinical settings. Through a hands-on approach to learning, participants will learn to apply effective strategies that stimulate critical thinking and creativity, and promote cooperative learning. Teaching methods to be covered include presentation and facilitation skills, teaching at the bedside, appropriate use of instructional technology, and assessment of teaching effectiveness.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 677. Technical Support Skills 3 Units
Prerequisite(s): Ability to use word processor software and e-mail.
Description: Overview of the evaluation, purchase, installation and ongoing management and maintenance of computer systems and related software for instruction and staff productivity.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 678. American College and University 3 Units
Description: Examination of historical development of the American college, community college, and university, including major ideas and concepts underlying these developments and major problems affecting present institutions of higher learning.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ELFH 679. Systems for Change: Continuous School Improvement, A Clinical Practicum 3 Units
Grading Basis: Pass/Fail
Prerequisite(s): ELFH 639, ELFH 649, and ELFH 667.
Description: This course requires students to further explore the multiple dimensions of the superintendent, including responsibilities related to culturally responsive leadership, external development leadership, and micropolitical leadership. This is the final course in the four course sequence leading to certification as superintendent. Students must be admitted to the program. This course is designed as a clinical practicum with the majority of time spent working in a school district with a mentoring superintendent on the culminating capstone experience. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 680. Legal Issues in Postsecondary Education 3 Units
Description: Examination of constitutional and statutory provisions and court decisions affecting educational leadership in post secondary education.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 681. The Philosophy of Higher Education 3 Units
Description: This course focuses on analyzing competing philosophies of higher education, with the purpose of helping students construct consistent sets of beliefs about values in higher education as a guide to administrative and academic decisions. The study of higher education requires philosophical context, which will help you understand other coursework as well as your daily practice, work, and life. The central purpose of this course is to provide a philosophical grounding, which will help you comprehend higher education today. Philosophy does not have discrete answers and issues are continuously debated; however, it is possible to truly appreciate and understand your other coursework. Being aware of the philosophies undergirding higher education decisions and policies makes an individual able to critique, analyze, and understand these decisions better.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 682. The Organization and Administration of Higher Educational Institutions 3 Units
Description: Exploration of organizational and administrative theory as related to colleges and universities and assessment of the roles of major administrative units of the institution. Purpose is to aid students seeking to become college or university administrators or faculty members.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 683. College Teaching 3 Units
Description: This course introduces common theories of teaching and learning as students analyze elements of effective teaching; explore concepts such as critical thinking and metacognition; and consider learning assessment. Students receive support for (re)turning to the classroom as learners and develop a personal teaching philosophy.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 684. Educational Resource Management in Postsecondary Education 3 Units
Description: Study of resources, practices and procedures of finance and economics as related to post-secondary education. Provides investigation of specific and current educational finance issues affecting educational institutions.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 685. Evidence-based Practice in HPE 3 Units
Prerequisite(s): Enrollment limited to students in a Health Professions Education graduate program (academic plan codes HRODMS HPE and HLTHCHP)
Description: Through a clinical model, this course covers evidence-based decision-making as it applies to assessment of teaching effectiveness, action research, scholarly research, and program evaluation. Coursework will be tailored to the interests and current role of the learner and culminate in a scholarly project where learners will demonstrate competence in evidence-based decision-making and Health Professions Education competencies.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 686. The Two-Year College 3 Units
Description: Analysis of the groups which mold and shape the two-year college as an institution; consideration of the three major adaptive responses of the college as an organization, administration, curriculum and instruction, and student personnel services; and analysis of fundamental issues facing the two-year college as it seeks to adapt to the social, educational, and economic needs of society.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 687. Education Policy & Equity 3 Units
Description: This course explores the policy making process, stages of implementation, and analysis of education policies. Federal and state-based policies across the P-20 education spectrum will be covered.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 688. Supervised Experience in Higher Education 3 Units
Description: This graduate-level course is designed to provide a guided, hands-on practical application and demonstration of professional knowledge and competencies in postsecondary administration.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ELFH 689. Special Problems in Educational Leadership 1-6 Units
Description: Provides skills for persons engaged in educational leadership who desire to explore specific functional techniques for the purpose of improving administration and management.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ELFH 690. Professional Project in Higher Education 1-6 Units
Grading Basis: Pass/Fail
Description: The internship in higher education is designed to provide you with the opportunity to integrate cognitive learning (coursework from the higher education program) with relevant practical experiences in an area of postsecondary administration. For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 691. Graduate Independent Study 1-3 Units
Description: By arrangement with dean and advisor.
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 692. Independent Study in Leadership 1-3 Units
Description: By arrangement with advisor and consent of dean.
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 693. College Students in the United States 3 Units
Description: An introduction to the nature and characteristics of college students in the United States, educational outcomes and effects of the undergraduate experience, and factors that promote and inhibit college student success. For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 694. Diversity in Higher Education 3 Units
Description: The purpose of this course is to explore the relationships among major forms of diversity (e.g., religion, class, race, ethnicity, gender, ability, age, sexual orientation, nationality, nativism) and higher education. Specifically, students will consider how diversity has shaped and continues to impact various higher education domains (e.g., history, students, faculty, organization and governance, policy) and how leaders within higher education institutions can be positive change agents regarding the diversity agenda. We will consider how diversity has shaped higher education institutions as well as how individuals and groups have influenced higher education institutions. Particular attention will be paid to issues of power, oppression, (dis-)privilege, equity, and educational attainment. For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 695. Globalization & Higher Education 3 Units
Description: The purpose of this course is to introduce students to definitions of globalization and related concepts, such as internationalization, internationalism, and transnationalism. Moreover, this course will help students educate themselves about the impacts of globalization on higher education, particularly the practice of higher education administration in the United States. For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 696. Independent Study: HRE or IT 1-3 Units
Description: By arrangement with dean and advisor.
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 697. Organizational Improvement in Higher Education 3 Units
Description: This graduate-level course explores the processes of organizational improvement in higher education, the actors who contribute to such improvements, and the challenges to improvement. For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 698. Supervised Readings 1-3 Units
Description: By arrangement with advisor and consent of dean.
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 699. Thesis or Professional Paper 1-6 Units
Description: Culminating paper for masters degree (as per program plan), by arrangement with advisor.
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 700. Research Concepts and Design 3 Units
Prerequisite(s): ELFH 601 or consent of instructor.
Description: Explores the logic of inquiry and examines and critiques a wide variety of research approaches. Students develop at least two approaches to researching a specific topic. For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 701. Intermediate Applied Statistics 3 Units
Prerequisite(s): ELFH 601.
Description: Covers two intermediate statistics, analysis of variance and multiple regression as general data analytic techniques in applied research. Includes some programming and data processing. For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 702. Applied Multiple Regression 3 Units
Prerequisite(s): ELFH 701.
Description: Applications of multiple regression as a general data analysis technique in educational and behavioral sciences. SPSS for Windows is used extensively. For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 703. Multivariate Educational Statistics 3 Units
Prerequisite(s): ELFH 601, ELFH 701 and ELFH 702.
Description: Examines multivariate statistical methods used by educational researchers, including multiple regression, multivariate analysis of variance, and factor analysis. Computer software packages are extensively used. For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 704. Qualitative Field Research Methods 3 Units
Description: Provides opportunities to design and critique field studies in educational and social settings and to practice techniques used to collect and analyze qualitative. Additional time required outside class for observations and interviews. For class offerings for a specific term, refer to the Schedule of Classes.

<td>ELFH 711</td>
<td>UofL / WKU Cooperative Program</td>
<td>1-15</td>
<td></td>
<td>Provides research skills for intensive investigation of specific, current legal issues affecting the operation of educational institutions. Seminars are held periodically under the direction of the University Coordinator. Pass/Fail grading. For class offerings for a specific term, refer to the Schedule of Classes.</td>
</tr>
<tr>
<td>ELFH 715</td>
<td>Advanced Organizational Theory</td>
<td>3</td>
<td></td>
<td>Focus is on integrating the various theories of organizations and management into an overarching general systems theory. For class offerings for a specific term, refer to the Schedule of Classes.</td>
</tr>
<tr>
<td>ELFH 720</td>
<td>Advanced Internship in Leadership</td>
<td>1-6</td>
<td>Prerequisite(s): Admission to a program in Administration or Supervision</td>
<td>Provides on-the-job learning and professional development experiences for future administrative and supervisory personnel. Seminars are held periodically under the direction of the University Coordinator. Pass/Fail grading. For class offerings for a specific term, refer to the Schedule of Classes.</td>
</tr>
<tr>
<td>ELFH 723</td>
<td>Seminar in Legal Issues</td>
<td>3</td>
<td>Prerequisite(s): ELFH 620 or ELFH 680.</td>
<td>Provides research skills for intensive investigation of specific, current legal issues affecting the operation of educational institutions. For class offerings for a specific term, refer to the Schedule of Classes.</td>
</tr>
<tr>
<td>ELFH 730</td>
<td>Foundations of Urban Educational Policy</td>
<td>3</td>
<td>Prerequisite(s): Admission to doctoral program or consent of instructor.</td>
<td>An examination of urban educational policy from philosophical, social, historical, psychological, and legal points of view. For class offerings for a specific term, refer to the Schedule of Classes.</td>
</tr>
<tr>
<td>ELFH 735</td>
<td>Doctoral Seminar in HRE and IT</td>
<td>1-3</td>
<td>Prerequisite(s): Admission to doctoral program or consent of the</td>
<td>It is designed to expose students to the work of other doctoral students, faculty members, and other research professionals in human resource development. For class offerings for a specific term, refer to the Schedule of Classes.</td>
</tr>
<tr>
<td>ELFH 740</td>
<td>Advanced Internship in HRE and IT</td>
<td>2-6</td>
<td>Prerequisite(s): Doctoral student with an emphasis in human resource development and consent of advisor.</td>
<td>Provides on-the-job learning experiences for future human resource development. For class offerings for a specific term, refer to the Schedule of Classes.</td>
</tr>
<tr>
<td>ELFH 750</td>
<td>Doctoral Seminar in Educational Evaluation</td>
<td>3</td>
<td>Prerequisite(s): ELFH 606; PhD or EdD students or by consent of instructor.</td>
<td>Covers advanced topics in educational evaluation. Discussion of policy issues and quantitative and qualitative methods. For class offerings for a specific term, refer to the Schedule of Classes.</td>
</tr>
<tr>
<td>ELFH 760</td>
<td>Doctoral Internship in Educational Evaluation</td>
<td>3-6</td>
<td>Prerequisite(s): PhD or EdD students in the evaluation specialty area, and</td>
<td>Provides on-the-job learning experiences for future educational evaluators. For class offerings for a specific term, refer to the Schedule of Classes.</td>
</tr>
<tr>
<td>ELFH 764</td>
<td>Structural Equation Modeling</td>
<td>3</td>
<td></td>
<td>This course focuses on basic concepts, applications, and interpretations of structural equation models. Students should have a thorough understanding of multiple regression analysis. Exposure to EFA and ANOVA is recommended.</td>
</tr>
<tr>
<td>ELFH 765</td>
<td>Hierarchical Linear Modeling</td>
<td>3</td>
<td></td>
<td>This course focuses on the analysis and interpretation of organizational and longitudinal data using hierarchical linear modeling. Students taking this course should have a strong background in multiple regression.</td>
</tr>
</tbody>
</table>

**Note:** Cross-listed with EDAP 764 and ECPY 764.
ELFH 777. Capstone for Doctor of Education Degree in Educational Leadership and Organizational Development 1-15 Units
Prerequisite(s): Passing EdD comprehensive examinations.
Description: Provides a culminating assignment for Doctor of Education students. Consists of a group project designed to integrate theories and tools learned throughout the program.
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 780. Problem Analysis in Educational Leadership I 3 Units
Prerequisite(s): ELFH 601, ELFH 700, and Research/Statistics Course.
Description: Doctoral level study of approaches to analyzing and solving contemporary problems encountered by educational administrators and leaders in such administrative areas as: personnel recruitment and selection, law, budgeting and finance, staff development, operational and strategic planning, policy formulation, diversity and multiculturalism, instructional leadership, and acquisition and use of technology for administrative purposes.
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 781. Problem Analysis in Educational Leadership II 3 Units
Prerequisite(s): ELFH 780.
Description: Doctoral level study and application of approaches for investigating research-based and practice-based problems in educational administration and leadership. Extends expertise gained in EDAD 780 through analysis and application of problem solving and analytical approaches to administrative problem areas selected by the student. The problem areas addressed may include but are not limited to: budgeting and finance, staff development, operational and strategic planning, law, educational policies, policy formulation, diversity and multiculturalism, instructional leadership, and acquisition and use of technology for administrative purposes.
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 782. Reflective Practice for School Leaders 3 Units
Description: Examines the complex realities of practicing school administration in public, independent and parochial schools by integrating action research projects with principal theories of administering schools.
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 789. Advanced Research Design 3 Units
Term Typically Offered: Summer Only
Prerequisite(s): ELFH 701; ELFH 600 or EDAP 639, or permission of instructor.
Description: Discussion of quantitative research methods and their application to the design of a study. Emphasis on designs for causal inferences about the effects of an intervention on outcomes variables, especially quasi-experimental designs.
Note: Cross-listed with ECPS 789, EDAP 789, HSS 789.
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 790. Problems in Urban Education and Society 3 Units
Prerequisite(s): Twelve hours in Urban Studies component of doctoral program including ELFH 730, restricted to doctoral students or consent of instructor.
Description: Culminating course in Urban Studies component of EdD; with guidance from the instructor, students select and explore a problem that enables them to apply their course of study to some aspect of the urban environment.
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 795. Doctoral Research 1-15 Units
Prerequisite(s): Passing doctoral comprehensive exams.
Description: Examination and admission to candidacy for the doctoral degree.
Note: Cross-listed with ECPS 795, EDSP 795, EDAD 795.
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 796. Research Literature 1-6 Units
Prerequisite(s): Consent of instructor.
Description: For post-master’s students/candidates only.
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 798. Billing course EdD Practitioner 0 Units
Description: Billing course EdD Practitioner
For class offerings for a specific term, refer to the Schedule of Classes.

ELFH 799. Professional Paper 1-5 Units
Description: For EdS candidates only.
For class offerings for a specific term, refer to the Schedule of Classes.

Education: Advanced Practitioner (EDAP)

EDAP 510. Special Topics in Instruction 3 Units
For class offerings for a specific term, refer to the Schedule of Classes.

EDAP 511. Reading and Writing in Content Areas 3 Units
Prerequisite(s): 12 hours in education or psychology, or consent of instructor.
Description: A comparison of the developmental and remedial reader at the middle and secondary levels, with emphasis on developing instructional strategies, materials, and programs in middle and secondary content areas.
For class offerings for a specific term, refer to the Schedule of Classes.
EDAP 518. Survey of Linguistics for Educators  
Term Typically Offered: Occasionally Offered  
Description: This course is a survey of both the theoretical and applied aspects of Linguistics. This is not an in-depth exploration of single-topic in the field of Linguistics but rather, a course designed to introduce students to the discipline of linguistics, especially those who are classroom educators. This course serves to introduce students to aspects of theoretical linguistics (phonology, morphology, syntax, semantics, and pragmatics, L1 & L2 acquisition) and explore various aspects of applied linguistics (Sociolinguistics, Linguistic Anthropology, English Language Learners). This course will encourage students to think critically about language and its use and apply the theoretical aspects of linguistics in a way that informs best practices. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 521. Teaching English Learners in the Classroom  
3 Units  
Description: A focus on strategies for working effectively with English learners and their families by teachers in P-12 classrooms. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 525. World Englishes  
3 Units  
Prerequisite(s): EDAP 518 (or concurrently).  
Description: Exploring the historical, social, and political contexts of the discipline of World Englishes. Topics such as language standardization, the internationalization of English, and challenges of teaching and testing of English as an international language will be discussed. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 530. Language, Society & Power  
3 Units  
Prerequisite(s): EDAP 518 (or concurrently).  
Description: Exploring the intersection of language and culture by challenging students to think critically about language and culture and the impact of both across ages, genders, social classes, ethnicities, and personal identities. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 535. Teaching English as an International Language  
3 Units  
Term Typically Offered: Occasionally Offered  
Prerequisite(s): EDAP 518 or permission of the ESL program coordinator.  
Description: May take concurrently with EDAP 518. This course will introduce students to the theoretical construct and practical consideration of teaching English overseas. It necessarily assumes English language teaching is an activity infused with social and political implications. By providing a theoretical construct as the course platform, the course will explore the roles of teachers and learners, the context of curricula, and the choice of methodology to reflect the cultural values of teaching English in an international setting. This course will be added as an additional option to the ESL endorsement program sheet; not as an additional program requirement. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 540. Teaching Adolescent Readers  
3 Units  
Description: Examines active reading processes, instructional strategies, and appropriate adolescent literature for teaching both the developmental and the remedial reader in secondary language arts.  
Note: Cross-listed with EDTP 540.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 542. Teaching Gifted Students in the Regular Classroom  
3 Units  
Description: Introduction to the nature and needs of gifted, talented, and creative children in K-12 classrooms, ways to meet these needs, and ways to increase gifted behaviors in a greater number of children than those already identified. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 585. Introduction to Educational Technology: Integrating Technology into Instruction  
3 Units  
Term Typically Offered: Occasionally Offered  
Description: Develop a skill base in using and critically evaluating the usefulness, validity, and viability of instructional technologies appropriate for use in the P-12 classroom. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 587. Teaching and Learning Online  
3 Units  
Description: This course is designed to help students actively explore multiple and varied ways to use online tools and resources to support learning in P-12 and higher education contexts. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 590. Teacher Institute on African-American Issues  
3 Units  
Description: An introduction to Pan-African Studies focusing on multicultural educational strategies for public school educators.  
Note: Cross-listed with PAS 529.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 591. Survey of African History and Culture for Teachers  
3 Units  
Description: An intensive survey of the history and culture of Africa (to 1600) for teachers.  
Note: Cross-listed with PAS 530.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 592. Survey of African-American History and Culture for Teachers  
3 Units  
Description: An intensive survey of the history and culture of African Americans for teachers.  
Note: Cross-listed with PAS 531.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
EDAP 596. Seminar in Elementary Education 1-4 Units
Description: The investigation of special problems in education.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 597. Seminar in Elementary Education 1-4 Units
Description: The investigation of special problems in education.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 601. Teaching with Emerging Technologies 3 Units
Description: Provides a thorough working knowledge of philosophy and pedagogy found in the Foxfire approach, a learner-centered approach to classrooms. Prepares teachers at all levels to articulate, accept as valuable, and begin to develop the skills necessary to implement the eleven core practices of the Foxfire approach. Designed for teachers of children grades K-12.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 603. The Foxfire Approach to Teaching 3 Units
Description: Provides a thorough working knowledge of philosophy and pedagogy found in the Foxfire approach, a learner-centered approach to classrooms. Prepares teachers at all levels to articulate, accept as valuable, and begin to develop the skills necessary to implement the eleven core practices of the Foxfire approach. Designed for teachers of children grades K-12.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 604. Special Problems or Field Experience in Curriculum Development 3 Units
Description: Intensive study in a current problem in an area of curriculum development or curriculum construction.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 605. Action Research for Classroom Teachers 3 Units
Grading Basis: Pass/Fail
Description: Involves teachers in identifying questions about their own teaching and classroom situations, developing research methods appropriate for addressing those questions, and conducting a classroom-based study. Pass/Fail only.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 606. Orientation and Readings 3 Units
Prerequisite(s): Admission to the MEd Program.
Description: Read, discuss and write about current literature related to the key Program Concepts within discipline specific fields as well as across content areas, and develop a well-designed research study. Goals and themes of the program will be studied. Students will investigate the literature base supporting the overarching concept of the program: Teaching for Knowledge, Leadership and Change: Enabling Success for All Learners.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 608. Integrated Thematic Units 3 Units
Description: Enables participants to design units integrating several disciplines around an appropriate theme in ways that are appropriate for a diverse group of students.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 610. Literacy Research & Theory 3 Units
Prerequisite(s): 12 hours in education, to include one introductory course in the teaching of reading.
Description: An advanced course in reading instruction providing an intensive analysis of current research in the theories and strategies of teaching in the elementary, middle or secondary level.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 611. Innovation and Leadership in Teaching 3 Units
Description: A study of methods of integrating mathematics, writing, and technology. Participants will work with children in a camp-like setting.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 612. Louisville Writing Project 1-6 Units
Term Typically Offered: Fall, Spring, Summer
Description: LWP is a year-long program aimed at improvement of writing instruction at all levels. It focuses on teacher as writer, as inquirer, and as instructional leader. LWP involves an intensive multi-week workshop as well as follow-up leadership and action research activities during the academic year.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 614. Supporting Struggling Readers and Writers K-12 3 Units
Prerequisite(s): One basic course on the teaching of reading and writing.
Description: Addresses the needs of teachers who work with students who have not learned to be fluent, eager and effective readers and writers. Focuses development of literacy concepts that define, support, keep flexible literacy skills.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 615. Measurement and Diagnosis of Literacy 3 Units
Prerequisite(s): EDAP 610.
Description: An introduction to diagnostic concepts in reading, with an emphasis on screening instruments, materials, and tutoring procedures.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 618. Capstone Practicum in Literacy: Reading Specialist 3 Units
Prerequisite(s): EDAP 639, EDAP 610, and EDAP 614.
Description: Supervised internship providing for analysis and refinement of assessment and instruction practices in reading. Settings determined with pupil consultation.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
**EDAP 619. Environmental Education Institute: The Study of Rural and Urban Watersheds**  
**Description:** Using a watershed as the focus, this course will examine the impact people have on the environment. Through field trips, community speakers, individual and group research, the students will document the aesthetic, cultural and ecological aspects of a watershed. Participants in the course will be able to use the approach modeled in the course with their students on any watershed.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 620. Introduction to Teaching Elementary Mathematics Education**  
**Description:** An investigation of trends, learning theories, instructional activities, and manipulative materials applicable to mathematics education in the elementary school.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 621. Advanced Methods for Teaching Elementary Mathematics**  
**Prerequisite(s):** A course in teaching elementary mathematics.  
**Description:** An advanced course investigating trends, learning theories, instructional activities, and manipulative materials applicable to mathematics education in the elementary school.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 622. Assessment and Instruction in Mathematics Education**  
**Prerequisite(s):** EDAP 620 or EDAP 621 or consent of instructor.  
**Description:** A study of methods for assessing students' knowledge and ability in mathematics, and of instructional strategies for increasing students' knowledge and ability in mathematics.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 623. Integrating Mathematics with Other Content Areas**  
**Description:** An investigation of theories, methods, and materials for integrating mathematics with other content areas. Content areas may vary.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 624. Curriculum Theory**  
**Prerequisite(s):** Admission to the MEd program.  
**Description:** Study of significant curriculum theories as they relate to American schooling historically and today. While primarily an opportunity for exploring theory and philosophy of curriculum, students will be encouraged to link theory to practice.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 625. Social and Ethical Development in Teaching**  
**Description:** Study of theoretical and practical constructs that foster caring and integration of children's and adolescents' intellectual, ethical, and social development in the classrooms.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 626. Critical Diversity Readings in Education**  
**Term Typically Offered:** Occasionally Offered  
**Description:** Extends the principles of diversity, equity, and advocacy. Builds upon the historical, sociological, and philosophical foundations of multicultural education using critical theories to explore texts and further discussions of diversity.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 627. Kentucky Institute for Arts in Education**  
**Grading Basis:** Pass/Fail  
**Description:** Kentucky Institute for Arts in Education is a two week course designed to provide participants with hands-on experience in dance/movement, drama, music, visual art and creative writing.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 628. Kentucky Institute for Arts in Education**  
**Grading Basis:** Pass/Fail  
**Description:** Kentucky Institute for Arts in Education is a two week course designed to provide participants with hands-on experience in dance/movement, drama, music, visual art and creative writing.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 629. Teaching Mathematics with Technology**  
**Description:** Focuses on using technology as a tool in the teaching of mathematics in elementary and middle school.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 630. Theories of Child Development**  
**Description:** Analysis and comparison of psychoanalytic, cognitive behavioral perspectives of child development. Traces growth and development of children 0-12 years as the foundation for curriculum development.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 633. Advanced Curriculum and Methods in Early Childhood Special Education**  
**Prerequisite(s):** Admission to Teacher Education.  
**Description:** Explores early childhood models, strategies, and materials appropriate for use with children with special needs.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 635. Administration and Consultations: Day Care and Early Childhood Education**  
**Prerequisite(s):** Admission to Teacher Education.  
**Description:** Explores the responsibilities of the day care or early childhood director and the early childhood consultant.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

**EDAP 636. Advanced Reading Methods P-12**  
**Description:** This course addresses knowledge and implementation of research-based reading methods appropriate for preschool through secondary students, with an emphasis on developing skillful and strategic lifelong readers. Concepts from the course will be applied in P-12 through required field experience.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
EDAP 637. Using Assessment to Improve Student Achievement 3 Units  
**Description:** Addresses knowledge and implementation of assessment concepts, methods of analyzing various types of student achievement data, and planning and implementation of appropriate instruction and interventions for diverse learners.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 638. Instructional Strategies for Diverse Learners 3 Units  
**Description:** Investigation of differentiated, culturally relevant instructional strategies and materials to improve and manage instruction while integrating technology-enhanced practices to meet the needs of diverse learners in the 21st century.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 639. Education Research in P-12 Setting 3 Units  
**Description:** Analysis of research in education relative to methodology and current research efforts in the field. Consideration given to understanding research design and the reading of research studies.

**Note:** Cross-listed with EDSP 639.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 640. Cognitive Coaching 3 Units  
**Description:** Addresses the advanced knowledge, skills, and dispositions needed for teachers involved in coaching and/or mentoring relationships. The focus will be on using Cognitive Coaching to support reflective, self-directed teachers.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 641. Literacy Leadership and School-Wide Planning 3 Units  
**Prerequisite(s):** EDAP 610, EDAP 639, EDAP 614, and EDAP 615.  
**Description:** Addresses teacher literacy leadership, including the role of the reading specialist/literacy coach, professional development techniques, using data for school literacy improvement, and developing school community and family literacy partnerships.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 642. Literacy Learning and Cultural Differences 3 Units  
**Description:** Explores the current knowledge base and theoretical frameworks used to explain differential achievement rates between students of diverse cultural, ethnic, and linguistic backgrounds.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 644. Reading/Writing Workshop: Using Children's Literature to Empower Readers and Writers K-12 3 Units  
**Prerequisite(s):** Preservice course in literacy or consent of instructor.  
**Description:** Students experience the workshop approach to teach writing and create passion for literacy, learning about writers' sketch notebooks, using writings of exceptional authors, creating community that fosters risk-taking and critical thinking, and integrating the arts.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 645. Advanced Studies of Children's Literature 3 Units  
**Prerequisite(s):** Previous undergraduate language arts/literature course or permission of instructor.

**Description:** Explores literature available for preschool through 8th grade; studies the role of literature in child development and curriculum; identifies trends and issues; and develops evaluative criteria.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 646. Advanced Methods: Number and Algebra 3 Units  
**Prerequisite(s):** Successful completion of an Elementary Mathematics Methods course.

**Description:** This course is designed to take an in-depth look at the teaching and learning of rational numbers and algebra. The focus is on mathematics and strategies to teach and support the Common Core Standards in Mathematics.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 647. Advanced Methods: Geometry and Data 3 Units  
**Prerequisite(s):** Successful completion of Elementary Mathematics Methods course.

**Description:** This course is designed to take an in-depth look at the teaching and learning of geometry and data. This course will focus on curriculum design and leadership.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 649. Using Literacies and Tools to Learn: Inquiry in the Classroom 3 Units

**Description:** Examines the theoretical underpinnings and practical implementation of inquiry-based learning by creating an intensive inquiry experience/curriculum for students. By "living" the curriculum, students will come to understand how inquiry experiences are initiated and maintained, how to merge them with curriculum "have to's," and how to integrate real world resources in meaningful ways for learners.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 651. Expanding Classroom Walls: Forests, Parks, and Backyards 3 Units

**Description:** Provides information and experience needed to effectively teach the life and earth science concepts and strategies found in a forest or park setting to classroom learning.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 652. Workshop in Science Education 1-6 Units

**Description:** A workshop dealing with materials and techniques in teaching science; includes development and evaluation of innovative and practical service projects using teaching strategies.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
EDAP 653. Instructional Procedures in Science: Zoos 3 Units
Description: Provides background information and experience needed to effectively teach animal adaptation, animal endangerment, diversity of lifestyle and the application of these learnings to classroom instruction. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 657. Exploring Environmental Education in the Context of an Informal Learning Setting: Zoo 3 Units
Description: In this course, we will explore the application of the basic content of life sciences topics such as taxonomy, animal behavior (adaptations), biodiversity and conservation issues to the K-12 classroom. Students will explore real life applications to life sciences that apply to environmental education with the aim to inspire conservation action. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 660. Social Studies in the Elementary School 3 Units
Prerequisite(s): EDTP 322 or EDTP 606 or consent of instructor.
Description: An advanced course in teaching social studies; appraisal of materials and newly developed social studies program use of effective teaching techniques; analysis of relevant research studies. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

EDAP 661. Special Topics in Assessment 3 Units
Description: Examines alternative approaches to assessing instruction and learning in science classrooms. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
