# TABLE OF CONTENTS

Undergraduate ........................................................................................................... 9

About the University of Louisville ................................................................................. 10
  Mission Statement .................................................................................................. 10
  Institutional and Professional Accreditation ......................................................... 11
  Leadership .............................................................................................................. 12
  History of the University ....................................................................................... 13
  Academic Calendar ............................................................................................... 14
  Academic Freedom ............................................................................................... 15
  Americans with Disabilities Act ........................................................................... 15
  Drug-Free Schools and Campuses ......................................................................... 17

Admission .................................................................................................................. 19
  Admission to the College of Arts and Sciences .................................................... 23
  Admission to the College of Business .................................................................. 26
  Admission to the Dental Hygiene Program ............................................................ 28
  Admission to the College of Education and Human Development ................... 29
  Admission to the Kent School of Social Work ....................................................... 30
  Admission to the School of Music ....................................................................... 32
  Admission to the School of Nursing ..................................................................... 36
  Admission to the School of Public Health and Information Sciences ............... 38
  Admission to the J.B. Speed School of Engineering ............................................ 40

Campus Maps ............................................................................................................ 42

Academic Support .................................................................................................... 43

Student Resources ................................................................................................... 45

Financial Information ............................................................................................... 51

University-Wide Academic Policies ........................................................................... 54

Course Registration Policies ....................................................................................... 54
  Academic Advising ............................................................................................... 58
  Alternative Coursework ......................................................................................... 59
  Auditing Courses ................................................................................................. 63
  Course Load ......................................................................................................... 64
  Pass/Fail ............................................................................................................... 65
  Registration ......................................................................................................... 65
  Repeating Courses .............................................................................................. 65
  Undergraduate and Graduate Courses .................................................................. 66
  Withdrawals ......................................................................................................... 66

Student Success Policies ........................................................................................... 67
  Academic Forgiveness ......................................................................................... 70
  Academic Fresh Start ......................................................................................... 70

Academic Standing .................................................................................................. 71
  Class Attendance ................................................................................................. 74
  Dean’s List and Scholars ....................................................................................... 74
  Final Examinations ............................................................................................... 74
  Grading ................................................................................................................. 75
  Incompletes ......................................................................................................... 75

Graduation Policies .................................................................................................. 76
  Catalog Year ......................................................................................................... 77
  General Education: Cardinal Core ....................................................................... 78
  Graduation and Degree Requirements ................................................................... 80
  Graduation with Academic Honors ....................................................................... 83
  Residency Requirements ...................................................................................... 84

Student Records, Rights and Responsibilities ......................................................... 85
  Academic Grievances ......................................................................................... 87
  Classification of Students .................................................................................... 87
  Code of Student Conduct ..................................................................................... 87
  Code of Student Rights and Responsibilities ....................................................... 88
  Religious Days and Observances ......................................................................... 88
  Student Records .................................................................................................. 89

Academic Unit Information ....................................................................................... 90

College of Arts and Sciences ..................................................................................... 90
  College of Business ............................................................................................. 95
  College of Education and Human Development ................................................ 98
  Continuing Studies ............................................................................................ 100
  J.B. Speed School of Engineering ....................................................................... 101
  Kent School of Social Work ................................................................................ 105
  School of Dentistry ............................................................................................. 107
  School of Music .................................................................................................. 109
  School of Nursing ............................................................................................... 114
  School of Public Health and Information Sciences ........................................... 117

Majors ....................................................................................................................... 119
  American Sign Language Interpreting Studies (BS) ........................................... 120
  Anthropology (BA) .............................................................................................. 122
  Art (BA) ............................................................................................................... 125
  Art - Fine Art (BFA) ............................................................................................ 127
  Art History (BA) .................................................................................................. 133
  Asian Studies (BA) .............................................................................................. 136
  Atmospheric Science (BS) .................................................................................. 138
  Bioengineering (BS) ............................................................................................ 140
  Biology (BA) ....................................................................................................... 143
  Biology (BS) ....................................................................................................... 146

Business Administration in Accountancy (BSBA) ...................................................... 151

UNDERGRADUATE

This catalog is applicable to students who enroll at the University of Louisville beginning Summer 2018 through Spring 2019. The University catalog is the official source for all degree program and academic requirements as well as institutional policies and procedures. It is the document of authority for all students. The program requirements listed in the catalog supersede any information which may be contained in the bulletin of any school or department.

« View previous versions (p. 791)

Revised May 2018.

The University of Louisville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate, bachelor, master, specialist, doctoral, and first-professional degrees (DMD, JD, MD). Individuals who wish to contact the Commission on Colleges regarding the accreditation status of the university may write the Commission at:

Southern Association of Colleges and Schools
1866 Southern Lane
Decatur, Georgia 30033-4097
(404) 679-4500

The University of Louisville reserves the right to change programs of study, academic policies, academic requirements, fees, course information, procedures for the confirmation of degrees, or the announced academic calendar and related deadlines without prior notice.

The provisions of this publication do not constitute an express or implied contract between the University of Louisville and any member of the student body, faculty, or general public.

The University of Louisville is an equal-opportunity institution and does not discriminate against persons because of race, religion, sex, age, handicap, color, citizenship or national origin. If responses from the unit staff are unsatisfactory, inquiries or complaints about illegal discrimination including sexual harassment or handicap access can be made to the Affirmative Action director by calling (502) 852-6538.

The Redbook is the official statement of the organizational structure, the rules of governance and procedures, and university-wide policies of the University of Louisville. If there is any conflict between the policies, procedures or other statements contained within this catalog, The Redbook shall govern. A copy of (http://louisville.edu/provost/redbook/contents.html) The Redbook is available electronically.

Additional policies and information covering students can be found in the Student Handbook (http://louisville.edu/dos/students/studentpoliciesandprocedures/student-handbook).

Admissions criteria for many of the colleges and schools are reviewed periodically. Students should contact their anticipated unit or the Office of Admissions for information on the requirements in effect at the time of admission.

Students should check with their academic advisor concerning the General Education Requirements in effect at the time of their admission.

ABOUT THE UNIVERSITY OF LOUISVILLE

The University of Louisville (UofL) is a state-supported research university located in the largest city in the Commonwealth of Kentucky. UofL was initially chartered in 1798 as one of the nation’s first urban institutions. Though grounded in a rich legacy, UofL is forward-thinking in its approach to teaching, research and service. As it focuses on the challenges and opportunities of the 21st century, the university advances the social and economic development of its community and its citizens. UofL enrolls more than 22,000 students and offers undergraduate degrees in over 50 fields of study, master’s degrees in over 70 areas, and doctoral degrees in over 35 disciplines. The university also is accredited to grant professional degrees in medicine, dentistry, and law.

UofL contributes significantly to the economic, cultural and intellectual life of the Louisville community, yet the magnitude of its achievements reach beyond Louisville into every corner of Kentucky and across the nation. Our network is over 130,000 strong, with alumni living all over the Commonwealth of Kentucky, the United States, and the World. UofL has trained about 30 percent of Kentucky’s physicians and attorneys and almost half of its dentists.

At UofL, students learn from faculty members who are experts in their subject areas. Nearly 93 percent of the 1,812 full-time faculty hold the highest degrees in their field. In addition to their classroom duties, UofL faculty are leading research projects funded at more than $147 million in federal, local, and private grants for Fiscal Year 2017 (source: UofL-Research-Innovation-Metrics).

Those same professors share the latest research, techniques, and knowledge with students in the classroom. Faculty and student researchers are aided by leading-edge computer systems and laboratories. They may also gather information from across the ages and around the world through the University Libraries system that offers more than 2.1 million volumes, 92,000 print and electronic journal titles journal subscriptions, and unique resources through its special collections and archives.

A diverse student body enriches the educational experience at UofL. Students of color represent almost 1 in 4 students and international students represent 5 percent of total enrollment. While Kentucky students account for the majority of the student population with over 40 percent coming from Jefferson County, almost one-quarter of UofL students are from other states. 458 campus organizations help students meet new friends, develop leadership skills and explore new interests.

Sports fans are also able to enjoy Division I men’s and women’s athletics; UofL is a proud member of the Atlantic Coast Conference (ACC).

UofL’s Belknap Campus is home to eight of its 12 academic schools and colleges: Arts and Sciences, Business, Education and Human Development, Engineering, Interdisciplinary and Graduate Studies, Law, Music, and Social Work.

The Health Sciences Campus, located in the city’s downtown medical complex, includes the schools of Medicine, Nursing, Dentistry, and Public Health, along with UofL Hospital.

Additional information about UofL can be found on the following pages:

• Mission Statement (p. 10)
• History of the University (p. 13)
• Institutional and Professional Accreditation (p. 11)
• Leadership (p. 12)
• Academic Freedom at the University (p. 15)
• Americans with Disabilities Act (p. 15)
• Drug-Free Schools and Campuses (p. 17)
• Academic Calendar (p. 14)

Mission Statement

The University of Louisville pursues excellence and inclusiveness in its work to educate and serve its community through:

1. teaching diverse undergraduate, graduate, and professional students in order to develop engaged citizens, leaders, and scholars;
2. practicing and applying research, scholarship and creative activity; and
3. providing engaged service and outreach that improve the quality of life for local and global communities.

The University is committed to achieving preeminence as a nationally recognized metropolitan research university.

As adopted by the Board of Trustees of the University of Louisville, January 14, 2016
Institutional Accreditation

The University of Louisville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate, bachelor, master, specialist, doctoral, and first-professional degrees (DMD, JD, MD).

Individuals who wish to contact the Commission on Colleges regarding the accreditation status of the university may do so at:

Southern Association of Colleges and Schools Commission on Colleges
1866 Southern Lane
Decatur, Georgia 30033-4097
or call (404) 679-4500

necessitate the restriction of certain programs in certain states. Please note that should you choose to enroll in a restricted program in a particular state, there may be restrictions that could affect you.

Examples could include:

- You may be unable to sit for local licensing in that state
- You may be ineligible for consumer protection in that state
- You may not be able to complete field placements (practicum, internship, clerkship, etc.) in that state. This could affect licensure or recognition of the degree to meet particular requirements in that state.

Therefore, if you decide to enroll in any of the University of Louisville’s restricted programs, or if you move during the course of your studies to a state where your program is restricted, please be aware that you are taking a risk that you may not be able to complete that program or use any of the credit earned in that program should you decide to pursue licensing in that field in that state. Please note that the risks listed above are not exhaustive. Please verify with your state’s professional licensing board that your plans are not impacted by these risks before enrolling in an online program.

For more information on online program availability in your state, please visit louisville.edu/online/About-Us/state-authorization-regulations.

For important consumer disclosures relating to such issues as professional licensure, please visit louisville.edu/online/About-Us/state-authorization-disclosures.

For more information and disclosures, please visit louisville.edu/online/About-Us/state-authorization-regulations.

Leadership

Dr. Neeli Bendapudi, President, University of Louisville

Board of Trustees

In accordance with the statutory authority of the Commonwealth of Kentucky, the Board of Trustees of the University of Louisville exercises final jurisdiction over the university. It selects the President of the university; upon recommendation of the President, it makes all appointments to the faculty and all appointments of individuals in administrative capacities who serve at the pleasure of the Board.

The Board of Trustees adopts a budget annually for the ensuing year and grants all degrees conferred by the university.

Leadership
More information on the Board of Trustees, including current membership can be found at the Board of Trustees website (http://louisville.edu/president/board-of-trustees).

**University of Louisville**

**History of the University**

The University of Louisville can trace its history back to the establishment of the Jefferson Seminary in 1798.

During the early 19th century, the growing importance of water transportation, coupled with a strategic location at the falls of the Ohio River, made Louisville a commercial hub for the South and West. As the city's population and economy advanced, so did its institutions. In 1837 the Louisville Medical Institute opened for its first class, and the next year, the city created the Louisville Collegiate Institute. The two schools had no official connection, but they both manifested the city's dream of intellectual as well as mercantile leadership. In 1844 the Collegiate Institute inherited property from the now-defunct Seminary.

The Louisville Medical Institute attracted large enrollments and prospered financially, but the Collegiate Institute struggled to remain open. Proponents of grassroots democracy wanted to combine the schools and divert a portion of the medical school's resources to the college. They won a partial victory in 1846 when the General Assembly merged the Medical and Collegiate Institutes as the University of Louisville, but the new charter offered complete vindication to neither interest. It created a common board of trustees, but each division retained financial autonomy. The medical school continued to prosper, but as the liberal arts division struggled and failed to remain open, the newly added law school brought in a respectable number of students.

Most of the professors in the medical and law schools were drawn from the ranks of local physicians and attorneys who considered teaching a part-time vocation. By the 1880s and 1890s, however, the University felt some pressure from the educational reformers who not only believed schools should employ full-time instructors, but also advocated for well-enforced, national standards for academic training. In 1907, this trend contributed to the revival of the College of Arts and Sciences, which had been all but forgotten for most of the 19th century. As the university added new programs such as the Graduate School (1915), School of Dentistry (1918), Speed Scientific School (1925), Louisville Municipal College (1931), School of Music (1932), and Kent School of Social Work (1936), conformity to accreditation guidelines became increasingly important. Expanded academic programs and the adherence to higher educational standards led to the appointment of full-time administrators early in the 20th century.

World War II and the postwar era brought major changes to the University of Louisville. Shortly after the war, a movement began to close the all-black Louisville Municipal College and desegregate the University on all levels. This was accomplished in 1950 and 1951. The School of Business was established in 1953. Perhaps the most dramatic development of the postwar period was the movement of taxing citizens from the city to
the suburbs. Since the University of Louisville was municipally-funded, this caused a damaging drain on the school's revenue. As early as 1965, a governor’s task force suggested the possibility of the University of Louisville joining the state system of higher education, which it did in 1970.

Another major development occurred in 1994, when the Kentucky Council on Postsecondary Education designated University of Louisville as a research university, assigning it a statewide mission in medicine, dentistry, law and urban affairs.

In 1997, the state legislature revised the university’s mission statement. University of Louisville was charged with becoming a “premier, nationally recognized metropolitan research university.” The state also established the Research Challenge Trust Fund, which pumped more than $118 million into research at University of Louisville, helping the university attract and retain a number of nationally recognized researchers and their teams. The fund, also known as “Bucks for Brains,” has helped University of Louisville attract almost $400 million in extramural funding, created 1,500 new jobs and had an economic impact of almost $850 million.

One of the oldest metropolitan universities in the United States, University of Louisville has a long history of dedication to the needs of the Louisville urban area. In 2007, the university reaffirmed that mission through implementation of its Signature Partnership initiative, which formalizes its commitment to improving the lives of residents of some of Louisville's most disadvantaged neighborhoods. University of Louisville faculty, staff and students now support the city through hundreds of programs and partnerships in the areas of health, economic development, education and social and human services.

The University reserves the right to change the announced academic calendar without prior notice.

Academic Freedom

Academic institutions in a democratic society exist for the pursuit of truth, the development and conservation of knowledge, the transmission of learning, and the enhancement of the general well-being of such society. Free inquiry and free expression are indispensable to the attainment of these goals. The University of Louisville is, therefore, committed to protecting the academic freedom of all members of the University community.

Freedom to learn and freedom to teach are inseparable facets of academic freedom. Students have a right to their own views on matters of opinion, rather than fact, and a right to express those views in appropriate ways without fear of arbitrary reaction or improper disclosure of such opinions outside the classroom.

Teachers are entitled to full freedom in research, publication, academic evaluation, and classroom expression. Academic freedom carries the corresponding responsibilities to be thoroughly prepared and well informed in their fields of knowledge and to be scrupulous in distinguishing between personal and professional judgments and between fact and opinion.

Membership in the academic community imposes on students, faculty, staff, administrators, and trustees of the University an obligation to adhere to standards of academic honesty, to respect the dignity of others, to acknowledge their right to express differing opinions, and to foster and defend intellectual honesty, freedom of inquiry and instruction, and free expression both on and off the campus.

Policy on Work-Restricted Religious Holy Days

Federal law and university policy (p. 88) prohibit discrimination on the basis of religious belief. It is the policy of the University of Louisville to accommodate students, faculty, and staff who observe religious work-restricted holy days. Students who observe work-restricted religious holy days must be allowed to do so without jeopardizing their academic standing in any course. Faculty are obliged to accommodate students’ request(s) for adjustments in coursework on the grounds of religious observance, provided that the student(s) make such request(s) in writing during the first two (2) weeks of term.

A calendar of typical work-restricted holy days is available through the Office of Diversity (http://louisville.edu/provost/diversity/policies.html). Information about specific holidays is also available by phone from the Office of the Provost at (502) 852-6153.

Source: University of Louisville Redbook, Section 2.5.1, approved July 1979.

Americans with Disabilities Act

Americans with Disabilities Act
Americans with Disabilities Act

The University of Louisville is committed to providing equal opportunity for persons with disabilities. This commitment includes complying with the Americans with Disabilities Act of 1990 (ADA) and Section 504 of the Rehabilitation Act of 1973.

In addition, all of the University’s websites and online courses will comply with the webpage design standards established by the World Wide Web Consortium (W3C). The University of Louisville strives to maintain a barrier-free, welcoming environment for all qualified persons with disabilities.

The university’s ADA Coordinator, oversees the University’s compliance with the ADA and Section 504, and assists unit heads in meeting their equal opportunity obligations. The ADA coordinator is locate in the Dean of Students suite in the SAC:

ADA Coordinator
Brian Bigelow
SAC-W301
(502) 852-5787

The Disability Resource Center staff (502 852-6938) will assist the University community by serving as an information resource center and coordinating support services for students with disabilities. No otherwise qualified individual with a disability shall, solely by reason of such disability, be excluded from participation in, be denied benefits of, or be subjected to discrimination in university programs. The President, Board of Trustees, Student Government, Faculty and Staff Senates affirm UofL’s long standing and continuing commitment to Equal Opportunity for persons with disabilities.

Formal Student ADA Complaint Procedure

The university has a continuing responsibility to monitor and maintain its compliance with the Americans with Disabilities Act of 1990 (ADA) and Section 504 of the Rehabilitation Act of 1973 (Section 504) and their implementing regulations. Internal student complaints alleging non-compliance with the ADA and/or Section 504 should follow the following procedure.

The university’s formal complaint procedure provides for prompt and equitable resolution of complaints.

Complaints should be directed to the UofL ADA Coordinator, Brian Bigelow, (502) 852-8757, or brian.bigelow@louisville.edu

Filing a formal complaint of disability discrimination

A complaint must be filed in writing with the Coordinator. The complaint should contain the name and address of the person filing it and a brief description of the alleged violation. Upon receipt of the written complaint, the Coordinator or his designee shall acknowledge receipt within five workdays.

A complaint should be filed within 180 days after the complainant becomes aware of the alleged violation; however, a complaint filed after that point may be investigated in accordance with this procedure as necessary, in the judgment of the ADA Coordinator, to ensure the university’s compliance with the ADA and/or Section 504.

An investigation, as may be appropriate, shall follow a filing of complaint. The Coordinator’s office shall conduct the investigation. This University complaint procedure involves an informal but thorough investigation, affording all interested persons and their representatives, if any, an opportunity to submit information relevant to a complaint. The Coordinator will complete the investigation within 45 days of the receipt of the complaint wherever practicable.

Following completion of the investigation, a written determination as to the validity of the complaint and a description of the resolution, if any, shall be issued by the Coordinator’s office and a copy forwarded to the complainant and any individually-named respondent within 60 days of the date the complaint was filed. Should extenuating circumstances (e.g., unavailability of key witnesses, family emergency of investigative staff, etc.) prevent completion of the investigation and determination process within 60 days, the complainant and any individually-named respondents will be timely notified in writing, and will be kept apprised of the status of the Coordinator’s handling of the complaint through resolution.

An Internal ADA complaint does not preclude other remedies.

The right of a person to a prompt and equitable resolution of the complaint filed hereunder shall not be impaired by the person’s pursuit of other remedies such as the filing of a discrimination complaint with the responsible federal department or agency. Use of this complaint procedure is not a prerequisite to the pursuit of other remedies, nor does one’s pursuit of outside remedies preclude one’s filing a complaint pursuant to this procedure.

These rules shall be construed to protect interested persons, to meet appropriate due process standards, and to assure that the university complies with the ADA, Section 504, and their implementing regulations.

Requests for reconsideration must present information showing that:

• The original determination applied the incorrect standard or applied the applicable standard incorrectly to the facts of the case; or
• New information that might affect the outcome of the determination but was not available to the Coordinator at the time of the original determination is now available and should be considered.

The Coordinator shall, barring extenuating circumstances that preclude a more timely response (in which case the complainant shall be updated as to the status of the reconsideration request), rule upon the request for reconsideration within 15 workdays after receipt of the request.
Drug-Free Schools and Campuses

Purpose and Goal
The University of Louisville is committed to protecting the safety, health and wellbeing of all students, faculty, and staff and other individuals in our workplace. As a recipient of federal grants and contracts, the university gives this notice to students, faculty, and staff that it is in compliance with the Drug-Free Workplace Act of 1988 (Pub. L. 100-690, Title V Subtitle D) and the Drug-Free Schools and Communities Act Amendment of 1989. Students, faculty and staff are herein notified of the standards of conduct that will be applicable while on university property, business, and/or at university-sponsored activities. This policy is incorporated and is a part of the official University of Louisville Policies and Procedures.

This policy recognizes that student, faculty, and staff involvement with alcohol and other drugs can be very disruptive, adversely affect the quality of work or academic performance of student, faculty, and staff, pose serious health risks to users and others, and have a negative impact on productivity and morale.

As a condition of employment or enrollment, the university requires that students, faculty, and staff adhere to a strict policy regarding the use and possession of drugs and alcohol. The university encourages students, faculty, and staff to voluntarily seek help with drug and alcohol problems.

Prohibited Behaviors
Under university regulations, federal law, state law, and, in some instances, local ordinance, students, faculty, and staff are prohibited from the unlawful possession, use, dispensation, distribution, or manufacture of illicit drugs on university property, on university business and/or at university-sponsored activities. Under this policy, students, faculty and staff are required to abide by state laws concerning alcoholic beverages.

Kentucky law (KRS 244.085: lrc.ky.gov/statutes/statute.aspx?id=45137 (http://www.lrc.ky.gov/statutes/statute.aspx?id=45137)) states that, if one is under the age of 21, it is unlawful to:

- Possess or consume alcoholic beverages,
- Misrepresent one's age for the purpose of purchasing alcoholic beverages, or
- Use a fake ID in an attempt to purchase alcoholic beverages.

It is unlawful for anyone of any age to:

- Procure any alcoholic beverages for anyone under 21 years of age,
- Drink or be intoxicated in a public place

University campuses and buildings are considered as public places for purposes of these laws, except for a facility licensed to serve alcoholic beverages, and a facility used as a private residence, unless university regulations state otherwise. Ordinances of the Greater Louisville area parallel the state laws.

The specifically defined standards of conduct, the disciplinary procedures, and the appropriate sanctions are detailed in the Code of Student Conduct (p. 87), Personnel Policies and Procedures (PER-5.01), Staff Handbook (Disciplinary Action, page 8.2) and The Redbook.

In addition, it is a violation of state law to operate a motor vehicle while under the influence of any substance that may impair one's driving ability (drugs or alcoholic beverages).

Prescription and over-the-counter drugs are not prohibited when taken in standard dosage and/or according to a physician's prescription. Any student, faculty, and staff taking prescribed or over-the-counter medications will be responsible for consulting the prescribing physician and/or pharmacist to ascertain whether the medication may interfere with job or academic performance.

The illegal or unauthorized use of prescription drugs is prohibited. It is a violation of our drug-free workplace to intentionally misuse and/or abuse prescription medications. Appropriate disciplinary action will be taken if job or academic performance deterioration and/or other accidents occur.

Consequences for Violating This Policy
Under university regulation, students who violate this standard of conduct are subject to student conduct action from a warning to expulsion from the University. Students who reside in university housing are subject to further conduct action that may vary from a warning to termination of their housing contract.

Notice of Drug-Related Conviction
In compliance with the Federal Drug-Free Workplace Act of 1988, any employee shall notify the immediate supervisor if the employee is convicted of a criminal drug offense occurring in the workplace or while on university business within five days of the conviction. The university shall take appropriate sanction and remedies in accordance within its policies. The provisions of this section are applicable to students who are employees of the university. If the employee is under a federal contract or grant, the university shall notify the contracting or granting agency of the conviction and of its actions. This section of this policy is also applicable to students who receive a Pell grant (federal grant).

Health Risks
The scope and impact of health risks from alcohol and drug use are both alarming and well documented, ranging from mood-altering to life-threatening, with consequences that extend beyond the individual to family, organizations and society at large. The university, therefore, conducts regular programs to educate its students, faculty, and staff that consumption and use of drugs may alter behavior, distort perception,
impact thinking, impede judgment, and lead to physical or psychological dependence.

Alcohol and/or drug use may lead to the deterioration of physical health by causing or contributing to various health conditions including but not limited to fatigue, nausea, personal injury, insomnia, pathological organ damage, some forms of cancer, pancreatitis, heart attack, respiratory depression, birth defects, convulsions, coma, and even death. Alcohol and drug use may also result in deterioration of mental health by causing or contributing to various conditions such as increased aggression, hallucinations, depression, disorientation, and psychosis.

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increases the incidence of a variety of aggressive acts, including spouse and child abuse.

Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person’s ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described. Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and intellectual disabilities. In addition, research indicates that children of alcoholic parents are at greater risk than other children of becoming alcoholics.

Training, Counseling, and Resources
The University of Louisville is committed to the overall health and well-being of students, faculty, and staff and encourages a compassionate university.

AlcoholEdu and Haven online prevention programs
AlcoholEdu alcohol prevention program and Haven sexual violence prevention program serve as starting points for ongoing campus prevention efforts. Every incoming undergraduate student is required to take AlcoholEdu (up to age 21) and Haven (all ages). Emails are sent to their UofL email account (beginning about 5 weeks before their first semester begins) to provide specific directions for logging on to AlcoholEdu and Haven. AlcoholEdu and Haven are two separate programs, each with two parts. There is no fee for either program.

Visit louisville.edu/campushealth/alcoholedu-haven for more information.

Kentucky Medical Amnesty Law
KRS 244.992 Medical amnesty for persons reporting an alcohol overdose:

1. Requests emergency medical assistance for himself or herself or another person;
2. Acts in concert with another person who requests emergency medical assistance; or
3. Appears to be in need of emergency medical assistance and is the individual for whom the request is made.

Visit louisville.edu/campushealth/alcoholedu-haven for more information.

1. Requests emergency medical assistance for himself or herself or another person;
2. Acts in concert with another person who requests emergency medical assistance; or
3. Appears to be in need of emergency medical assistance and is the individual for whom the request is made.

Good Samaritan Consideration
The health and safety of our students is of the highest priority. At times, students may need immediate medical or other professional assistance. However, students may be reluctant to get help because of concerns that their own behavior may be a violation of the Code of Student Conduct (p. 87). Although policy violations cannot be overlooked, the University will consider the positive impact of reporting an incident when determining the appropriate response for policy violations.

Continuous efforts are made to make students, faculty, and staff aware of programs that provide information and professional services on matters related to the abuse of alcohol and drugs.

The Building Resilience In Campus Community (BRICC) Coalition, Counseling Center, Health Promotion Office, The PEACC Center, and the University of Louisville Police Department provide a number of programs and workshops using a tiered approach: a) primary prevention in the form of awareness, skill-building, and risk-reduction for all students and b) targeted presentations for specific high-risk populations.

The University Counseling Center is committed to assisting students with their mental health, personal development, and academic development. Because substance use is often connected to other personal/psychological issues, students coming to the Counseling Center with alcohol and substance use concerns are provided with support, appropriate therapeutic interventions, and referrals when necessary.

- Building Resilience in Campus Community (BRICC) Coalition: (502) 852-3442; louisville.edu/bricc
- Campus Health Services: (502) 852-6479; louisville.edu/campushealth

Finally, the University of Louisville Police Department: (502) 852-7233; louisville.edu/police

The crux of our medical system is the person:
Admission Standards

The University of Louisville subscribes to a selective admission policy. Admission for freshman applicants is based on:

1. High school grades,
2. ACT or SAT scores, and
3. Successful completion of the required pre-college curriculum.

Enrollment in the freshman class is limited. Within the limits of space availability, the University will endeavor to accommodate all eligible applicants. However, the number of freshman applications exceeds the number of spaces available in the entering class. For this reason, the selective and competitive admission requirements may exceed the minimum eligibility requirement.

The University of Louisville's minimum eligibility admission policy requires any applicant to have graduated from an accredited high school or received a high school equivalency certificate, have completed the pre-college curriculum, possess a grade point average (GPA) of 2.5, and have achieved at least one of the following:

- The applicant has earned a composite ACT score of not less than 20 or an SAT-I score of not or less than 940 (CR+M); or
- The applicant has completed the UofL enhanced pre-college curriculum (PCC) with a minimum GPA of 2.5 on a 4.0 scale. The enhanced PCC consists of an additional two pre-college courses in mathematics, social studies, or science. These two courses may be taken in any combination within the three disciplines. The courses must be at or above the level of prescribed PCC; or
- The applicant ranks in the top 15% of the applicant's high school graduating class upon completing seven or eight semesters in high school.

Freshman applicants who do not meet the selection requirements may have their admission decisions deferred. Admission will be offered first to those applicants with the strongest records and offers will continue until the class is filled. Some factors that are considered during this review are: number and scope of college preparatory, honors and AP classes; strength of senior year schedule; and evidence of marked improvement over time in applicant's academic career. The overriding concern will always be for the student's potential to be successful in meeting the academic expectations at the University.

Students should refer to the individual academic unit admission policies, included in this catalog, for additional admission requirements. Students should be cautioned about the distinction between undergraduate and graduate classifications when applying for admission to the University. For fee purposes, determination of “undergraduate” or “graduate” is based on the school or enrollment unit to which a student is admitted, and not on the level of courses taken.

Minimum Admission Standards for Public Universities in Kentucky (Pre-College Curriculum)

Students who enter one of Kentucky's public universities are required to have completed high school or high school equivalency certificate, and the pre-college curriculum (PCC). These are minimum standards and each university may require additional preparation of its students. The pre-college curriculum is a total of 22 approved units or courses including four units of English, three units of social studies, three units of mathematics (algebra I and II and geometry), two units of foreign language (same language), one half unit of physical education and health, one unit of history and appreciation of visual, performing arts, and 5 credits (3 rigorous) electives.

Students who are non-resident, 21 years of age or older or international are exempt from the PCC requirements.

The University may grant admission by exception to a limited number of the applicants admitted as first-time freshmen. Students admitted by exception will be required to enroll in courses to immediately remedy pre-college curriculum deficiencies.

Additional information and the definition of approved units is available from the Office of Admissions or from guidance counselors or principals in Kentucky high schools.

Applying for Admission

Listed below are the admissions procedures for the various populations and classifications of students.

All admissions credentials for undergraduate students should be mailed to this address:

Office of Admissions
Department-AO
University of Louisville
Louisville, KY 40292

Entering Freshman Students

Application deadlines are as follows:

- Fall Term: February 15
- Spring Term: November 1
- Summer Term: April 1

First-time freshmen applications and credentials received after the application deadlines listed above will be reviewed on a space available basis.

Students who have never attended any college should seek admission by the following steps:

1. Submit the application online at louisville.edu/admissions/apply.
2. Pay the application fee (payable by credit card or electronic check).
3. Mail the university a copy of the high school transcript.
4. Request that test scores from ACT (the American College Testing Program) or SAT (College Board) be sent to the university if they are not posted on the high school transcript. Students will be notified of their admissibility to the university after receipt of this information.

**Early Admissions**

Students who apply for admission as a regular student, but do not plan to graduate from high school prior to enrolling in college, are considered early admissions applicants. In addition to submitting an application, high school transcript and ACT or SAT scores, early admissions applicants must submit a statement of motivation for beginning college prior to high school graduation, a letter of recommendation from their high school counselor, and a letter of endorsement from their parent/guardian. Early admissions applicants must also complete an interview with an admissions counselor.

**Transfer Students**

Transfer students are encouraged to apply earlier to allow ample time for evaluation of transcripts, advising, orientation, and registration.

Application Deadline: Transfer applications received at least six weeks prior to the beginning of a term will be given priority. Students transferring from another institution should take the following steps in seeking admission to the university:

1. Submit the application online at louisville.edu/admissions/apply and pay the application fee (payable by credit card or electronic check).
2. Request that the registrar of each institution previously attended forward to the university an official transcript of all work completed or in progress. Failure to declare previous attendance at another institution may result in disciplinary action.
3. Students transferring with fewer than 24 transferable semester hours are required to take the ACT or SAT test if they have not done so previously, and submit a high school transcript. Students with fewer than 24 transferable semester hours must meet the admissions requirements for both new freshmen and transfer students.

All transfer students to the University of Louisville are required to participate in the Transfer Orientation Program. There is a fee for the Transfer Program.

For further Orientation Program information, go to louisville.edu/newcards.

**Evaluation of Transfer Credit**

For admission as a transfer student, applicants must submit official transcripts from all regionally accredited post-secondary institutions previously attended. The University of Louisville will determine a transfer GPA based upon the coursework completed at previous institutions. The University of Louisville does not transfer in technical or developmental coursework. Courses completed on a quarter system (or another system not based on semester hours) will be converted to semester hours. A student is required to complete 30 of his/her last 36 semester hours at the University of Louisville.

Official transcripts showing all undergraduate work and degrees awarded at every regionally accredited college/university previously attended must be furnished by the degree-seeking applicant. Credits earned at another regionally accredited institution of higher education may be transferred to the University of Louisville. The Transfer Credit Practices report published by the American Association of Collegiate Registrars and Admissions Officers (AACRAO) will be the reference used for the evaluation of such credits.

Regional accrediting agencies include: Middle States Association of Colleges and Schools (MSA), North Central Association of Colleges and Schools (NCA-HLC), Northwest Commission on Colleges and Universities (NWCCU), New England Association of Schools and Colleges (NEASC-CIHE), Southern Association of Colleges and Schools (SACS), The Western Association of Schools and Colleges (WASC-ACSCU), and The Western Association of Schools and Colleges – Community and Junior Colleges (WASC-ACCJC).

Applicants with transfer credit from non-regionally accredited institutions may be considered for credit by petitioning for recognition of that credit. Applicants may petition for non-regionally accredited credit by completing the Undergraduate Transfer Credit Appeal Form form (http://louisville.edu/admissions/apply/transfer/services/course-credit/undergraduate-transfer-credit-appeal-form).

Undergraduate applicants who have attended post-secondary schools, colleges, universities, or professional institutions outside the United States must submit their academic records to Educational Credentials Evaluators, Inc. (ECE) or World Education Services, Inc. (WES) for a course-by-course evaluation. It is the applicant’s responsibility to submit credentials to ECE or WES and to pay all charges for the evaluation. Only evaluations submitted directly from ECE or WES are accepted.

**ULTRA: The University of Louisville Transfer Program**

The ULTRA program (http://louisville.edu/ultra) combines the commitment and resources of the University of Louisville (UofL), Jefferson Community and Technical Colleges (JCTC), the Kentucky Community and Technical College System (KCTCS) and Jefferson County Public Schools (JCPSC) so that all Kentucky students have access to a baccalaureate degree.

ULTRA is a service for students who choose, or who are advised by UofL Admissions, to begin their academic career at JCTC (or any KCTCS institution) before transferring to UofL to complete a Bachelor’s degree. These students are encouraged to complete an Associates’ degree before transfer, but may transfer after completing 24 college credit hours with a minimum cumulative GPA of 2.0 (GPA requirements for some degree programs may be higher). ULTRA is located on the JCTC campuses and provides transfer-specific advising and admissions for UofL degree programs, connections to UofL, mentoring and assistance with the transfer process. Students interested in ULTRA can learn more about programs, transfer coursework and opportunities by visiting louisville.edu/ultra or by calling (502) 213-4538.

JCTC and UofL also work collaboratively to address the needs of students who are admitted to UofL in good standing but who need some developmental coursework.

ultra@louisville.edu
Re-enrolling Students

If a student has a break in enrollment of two or more calendar years, that student must apply for readmission to an enrollment unit, and if admitted, will be subject to catalog requirements in effect at the time of readmission. Students who were not enrolled during the immediate past semester, but were enrolled within the last two calendar years, and who wish to continue in the school and program in which they were last registered are eligible to re-enroll. They need to complete the request to re-enroll form at the advising center of their academic unit or at the Registrar’s Office. Students completing the re-enrollment process are eligible for early registration for the term in which they wish to return. Students whose last enrollment status was visitor, high school visitor, suspended or who were dismissed, must reapply. Students last enrolled in University College, Allied Health or Transitional Studies must also reapply through the Office of Admissions since these units are no longer in existence.

Visitors

Visiting students are those individuals who are pursuing a degree from another institution, but who plan to enroll at the University of Louisville for one semester. Submit the application online at louisville.edu/admissions/apply and pay the application fee (payable by credit card or electronic check) for each semester you plan to attend.

Applicants to the Speed School of Engineering or College of Business must also include transcripts.

High School Visitors

A senior student who is presently enrolled in high school and who wants to take one or more college courses prior to graduating from high school will be considered a high school visitor. These students must submit an application, application fee, high school transcript, test scores (ACT, PSAT, or SAT), and a letter of recommendation from their high school counselor. Students who have not completed the first part of their junior year should contact the Office of Admissions for information concerning additional requirements for admission.

International Student Applicants

There are essentially three areas of concern for international applicants. They are:

1. Successful completion of a strong, quality academic program.
2. Proficiency in the English language.
3. Ability to demonstrate financial resources.

Students who are not U.S. citizens or immigrants will need to submit an admissions application to the Office of Admissions and financial documents to the International Center. The application provides information concerning the student’s academic background and educational goals. First-time freshmen applicants and transfer applicants with less than 24 hours are not required to submit ACT or SAT scores, unless applying to the School of Music or Speed School of Engineering. Applications should be received by the Office of Admissions well in advance of the desired enrollment date in order to allow adequate time for processing. International student applicants should refer to the following list of application priority deadlines:

- Fall Semester: May 1
  Term begins late August
- Spring Semester: November 1
  Term begins early January

When all required credentials have been submitted, the application will be reviewed by the Office of Admissions. Once an admissions decision has been made, the student will be notified.

International students applying to undergraduate programs will need to submit official transcripts of records from all secondary schools, universities, colleges, or professional schools attended. If official transcripts are not in English, you will also need to submit notarized English translations of your records. All post-secondary work must be submitted to Educational Credentials Evaluators, Inc. (ECE) or World Education Services, Inc. (WES) for a course-by-course evaluation. It is the applicant’s responsibility to pay all charges for the evaluation. An application for evaluation and a brochure describing ECE’s or WES’s procedures, services and fees is available upon request from the Office of Admissions.

Continuing Studies

Continuing Studies is a non-degree granting unit that admits adult students who want to take courses on a part-time basis for personal enrichment or professional development. Students can earn college credit, but are not admitted into a degree program. In order to be eligible to apply to Continuing Studies, students must be at least 22 years old and have a high school diploma or high school equivalency certificate issued by a state department of education.

Continuing Studies students may enroll for a maximum of 8 hours in any semester or summer session. Students are required to maintain a 2.0 grade point average. Continuing Studies students are not eligible to receive state or federal financial aid.

Students may remain in Continuing Studies until they accumulate 24 credit hours. Students with 24 credit hours must apply for admission and be accepted by a degree-granting unit of the University if they wish to continue their course work.

University Orientation Programs

All new freshmen to the University of Louisville are required to participate in the Summer Orientation program during the months of May, June and July. Orientation is a two-day overnight program where new students will have the opportunity to interact with other new and current students, meet with an academic advisor for one-on-one counseling and be introduced to faculty and staff from across campus. Information regarding summer orientation is sent via email in the March and April previous to your enrollment. Please note it is mandatory that new freshmen attend an orientation program. Students must register for summer orientation via the orientation website. There is a fee for summer orientation.

Students admitted as post-baccalaureates, visitors, readmits, or intra-university transfers are not required to attend an orientation program.

Post-Baccalaureate Admissions

Students who hold at least a bachelor’s degree and plan to enroll for undergraduate courses, but are not pursuing a second undergraduate degree are considered to be post-baccalaureate applicants. These students need to submit an official transcript certifying at least a bachelor’s degree, an application for admission and any applicable application fee.
Online Courses and Programs
Online learning at UofL provides convenient and flexible access to quality college education. You can earn a degree or certificate completely online or take online courses to supplement your current education and expand your horizons. You will experience the same high quality in an online course as you would on campus.

University of Louisville's online courses are delivered through a user-friendly online learning platform, Blackboard, that allows students and instructors to interact, network and collaborate on class assignments and team projects, exchange thoughts and ideas or share experiences.

Visit louisville.edu/online to learn more about our online programs. For a complete list of online courses available at UofL, visit hal.louisville.edu (select "Distance Education" in the location field). For current tuition rates for undergraduate and graduate online courses, visit louisville.edu/bursar (select "Tuition and Fees").

College Readiness Standards
Foreign Language Placement
The study of a foreign language is encouraged and required by some university majors. Students may choose to begin with the first semester in a new language or may choose to determine placement in language studies.

To determine placement, students may complete an online placement test in Spanish, French, German or Russian, available at all times (louisville.edu/modernlanguages/placement-exam). Language exams can be taken on any computer with an Internet connection.

The Office of Testing Services administers the placement tests for Latin only (louisville.edu/testing/foreign-language-placement).

First-time, first-year students must take a language exam before May 15 each academic year to register for a language course section during Freshman Summer Orientation. To receive course credit for foreign language, see the Extramural Examinations tab on the Alternative Coursework page (p. 59).

If a student has significant experience in a language other than Spanish, French, German, Russian or Latin, the student should contact the Department of Classical and Modern Languages for information on placement or exemption at (502) 852-6686. Information may also be found online at louisville.edu/modernlanguages/language-waivers/waiver-thought-testing.

Kentucky Administrative Regulation 13 KAR 2:02 (College Readiness Guidelines)
The Commonwealth of Kentucky has regulations for college readiness standards in writing, college reading, and mathematics. Admitted, degree-seeking students below 24 credit hours, and a GPA of at least a 2.00 on a 4.0 scale, who do not achieve the college readiness standards on the ACT sub-scores in writing, college reading, and mathematics or SAT equivalents or on the COMPASS or Next-Gen ACCUPLACER placement exams (reading and mathematics) are required by state mandate to complete interventions during their first college year.

Interventions may include the following:
- Enrollment in ENGL 101 and/or an appointment at the University Writing Center.
- GEN 105 which is a supplemented College Reading course linked to entry-level content courses.
- GEN 103 Supplemented, GEN 103 Regular, or GEN 104, or prerequisite JCTC Pathways developmental courses in mathematics (MAT 55).
- If students place into a JCTC Pathways mathematics course, they must continue to enroll each semester in mathematics and comply with the university's required sequence of courses including passing GEN 103 or GEN 104 before proceeding into a college-level mathematics course.
- Supplemented MATH 105 or Supplemented MATH 111.

College Writing Placement
The college readiness standard in writing is an ACT Writing sub-score of 18. Students with ACT Writing sub-scores below college readiness will register for ENGL 101 during their first college year.

If these students experience difficulty during ENGL 101, they will be encouraged to use the resources of the University Writing Center for supplemented support.

College Reading Placement
The state-wide, college readiness standard in college reading is an ACT Reading sub-score of 20. All first-year, degree-seeking students admitted with reading deficiencies are required to participate in placement testing and course registration as determined by their placement test results. Transfer students with 12 or more credit hours at the 100 level or above in general education courses with a 2.0 GPA are exempt from reading placement requirements.

Students with an ACT Reading sub-score of less than 20 (or an SAT Critical Reading score of less than 470) MUST take the Next-Gen ACCUPLACER exam. The exam serves as a second predictor of college reading readiness. Students who score less than 244 will be required to register for GEN 105 Special Topics in Supplemented College Reading. Advisors working with students are obliged to assist them in developing an individual schedule of classes that meets this state mandate and university requirement.

GEN 105 provides an intervention for college reading. Students who enroll in this course will receive 2 hours each week of supplemented instruction in college reading, critical thinking, and study strategies. Students receive 1 hour of college credit (elective credit only) for GEN 105. Students will receive 3 additional hours of college credit for successful completion of the general education course section in Biology, History, or Psychology linked to GEN 105.

Students enrolled in GEN 105 will attend the general education lecture course for 3 hours each week and will attend GEN 105 for 2 hours each week. Students will attend a total number of 5 hours of class each week for these linked courses.

Mathematics Placement
The college readiness standard in mathematics is an ACT Mathematics sub-score of 19. The university determines placement in all entry-level mathematics based on the highest ACT mathematics sub-score. If a student scores above an ACT Mathematics sub-score of 20 or higher, placement will be in a credit-bearing course.

Otherwise, the following sub-scores in mathematics determine placement:
- Students with ACT sub-score of 0–18 are required to complete the Next-Gen ACCUPLACER exam in mathematics. Placement
will result in Pathways MAT 55, GEN 103 (Supplemented or Regular), GEN 104, or an entry-level college mathematics course.

- Students with an ACT sub-score of 19–24, but less than the score required for a desired entry-level mathematics course, should complete the Next-Gen ACCUPLACER exam.

- All Engineering students, regardless of math score, will take the Algebra Readiness Exam (ARE) before Summer Orientation. The ARE is not used as a placement exam but is used to assess fundamental algebraic readiness in preparation for successful completion of the engineering calculus sequence.

Students with ACT sub-score of 25–26 who need MATH 205 have the following options: enroll in the prerequisite MATH 190 or complete the CLEP Pre-calculus exam.

Students with ACT sub-score of 21–22 whose majors require MATH 111 are strongly encouraged by their advisors to enroll in a Supplemented Section of MATH 111. If a section is unavailable, students are encouraged to enroll in GEN 104.

Students with ACT sub-score of 19 will initially be placed in Special Topics in College Mathematics, which is GEN 103 (for those needing MATH 105 for their major) or GEN 104 (for those needing MATH 107, MATH 109, MATH 111, MATH 112, or MATH 151). Students may take the Next-Gen ACCUPLACER for possible higher placement. Advisors working with students who have this sub-score are obliged to enroll students in the appropriate intervention course.

Placement and University Testing Services
All information regarding placement testing can be obtained from:

Office of Testing Services
Davidson Hall, Room 310
Louisville, KY 40292
(502) 852-6606
louisville.edu/testing

Students may direct questions and concerns to this office. Students are encouraged to visit the testing website at louisville.edu/testing/placement-testing-math-reading to obtain information on the options to complete placement testing. The math and/or reading Accuplacer exam may be taken at the Office of Testing Services on campus, remotely at another institution throughout the country, or virtually at home, 24/7 through a virtual testing company.

First-year students MUST complete all placement testing PRIOR to their Freshman Summer Orientation each year to enable registration for class during their session.

The Admissions Office notifies first-year students if placement testing is required in college reading and mathematics.

Speed School of Engineering Mathematics Placement:
Students admitted into the J.B. Speed School of Engineering are placed in the following math courses based on their ACT Math sub-score:

- Students with an ACT sub-score of less than 27 are required to start their studies in the ENGR 190 course.
- Students with an ACT sub-score 27 or above will start their studies in the ENGR 101 course.

Admission to the College of Arts and Sciences

Matriculation
Students are admitted to the College of Arts and Sciences on either a matriculated or non-matriculated basis. High school visitors, visiting students from other institutions, auditors, post-baccalaureate students, and students admitted as special students are considered non-matriculated. All other students are considered matriculated. Students planning to earn degrees from the College of Arts and Sciences must be matriculated in order for the credits they have earned to apply toward their degrees.

Students admitted on a non-matriculated basis will be notified by the Office of Admissions of their status and of the conditions of their enrollment at the time they are accepted. Students admitted on a matriculated basis remain matriculated until they graduate, transfer to another college, or are dismissed.

Transfer students who left their last institution in good standing and who have a standing of at least 2.0 on a 4.0 scale may, upon presentation of transcripts and satisfactory test scores (if applicable), request matriculation at the time of applying for admission.

Entering Arts & Science Freshmen Students
Admission for a normal course load is granted to students meeting the following requirements:

- Graduation from an accredited high school with a grade point average of 2.5 or better, or successful completion of the General Education Development (GED) tests.
- Completion of the State of Kentucky’s Pre-College Curriculum (detailed in the Admission section (p. 19) of this catalog).
- A composite ACT score at or above the national mean.
Persons with deficiencies in the above areas may be eligible for admission under certain conditions:

1. Exceptionally gifted students who have completed three years of high school may be admitted by action of the College’s Admissions and Appeals Committee, provided recommendations from high school counselors and teachers, previous academic records, test scores, and personal interviews indicate the ability to succeed in college-level work.

2. Students with pre-college curriculum deficiencies are, in general, not admissible if they lack two courses in one area or three courses overall. Exceptions are made if the student has a score of 22 (enhanced) or better on the appropriate ACT subtest. Other exceptions must be approved by the College’s Admissions and Appeals Committee. Students admitted by action of the Admissions and Appeals Committee will be required to enroll in courses to remove deficiencies in the areas noted. All deficiencies must be removed by the time the student completes twenty-four (24) semester hours of degree credit. Deficiencies may be removed by successfully completing courses outlined in the Pre-College Curriculum detailed in the Admission section (p. 19) of this catalog.

3. Students who have a high school grade point average between 2.25 and 2.49 may be admitted if the composite ACT score is 23 or above.

4. Students who have a composite ACT score of 18-19 may be admitted if the high school grade point average is 3.0-3.25 or above.

5. A student whose ACT College Reading score is lower than 20 or whose SAT I verbal score is lower than 470 must participate in the state-mandated Supplemented Study Program in College Reading. During the first semester of enrollment, such students must register for one section of a non-mathematics General Education course offered with a supplemented college reading course (GEN 105). Specific courses in the supplemented program vary each semester and will be listed in the Schedule of Courses.

6. Students who graduated from an unaccredited high school may be admitted upon satisfactory completion of such examinations as the College faculty may require. For further information, consult the Admissions Office.

**Conditional Admission**

Students who do not qualify for automatic admission or who cannot remedy deficiencies as prescribed in 1-5 above may be admitted in conditional status if they meet the university’s minimum admission standards.

1. Students admitted in conditional status whose ACT College Reading Scores are 18 or below or whose SAT I Verbal Scores are 430 or below, must participate in the state-mandated Supplemented Study Program in College Reading. During their first semester of enrollment, they must register for one section of a non-mathematics General Education course offered with supplemented study hours each week. Specific courses in the supplemented program vary each semester and will be listed in the Schedule of Courses.

2. Students admitted in conditional status must register for required developmental courses immediately following matriculation and must continue to do so until all deficiencies have been removed.

3. Students admitted in conditional status may register for a maximum of 14 credit hours of coursework in their first semester and 13 credit hours of coursework each semester thereafter until removed from conditional status. Not all courses are suitable for conditionally-admitted students and enrollment restrictions exist. Students should consult their academic advisor regarding courses for which they are eligible to enroll.

4. Students admitted in conditional status must be advised prior to registration each semester until removed from conditional status.

Students will be removed from conditional status when the following requirements have been met:

1. Successful completion of GEN 100 Student Success Center Orientation or GEN 101 Arts and Sciences Orientation;

2. Successful completion of all required developmental courses;

3. A grade point average of 2.0 or better on all college level courses; or

4. Completion of 24 degree applicable hours with a GPA of 2.0 or above.

Students not meeting the requirements for admission may be admitted on a non-matriculated basis as special students by consent of the Dean or by action of the Admissions and Appeals Committee. Special students must pay the regular fees. Special students may not become candidates for degrees except by subsequently satisfying the requirements for admission on a matriculated basis.

**High School Visitors**

The College offers qualified high school students the opportunity to earn college credits by enrolling in selected freshman-level courses (i.e., courses at the 100-0r 200-level). The program is open to high school seniors and, in exceptional cases, to juniors. In order to be admitted as a high school visitor, a student must submit an application, a high school transcript showing minimum grade point average of 3.0, test scores on the ACT or SAT in the top 70th percentile. and a recommendation letter from his or her high school counselor or principal. High school visitors may enroll in one or two courses each semester and may earn a maximum of 24 college credits. All grades earned by high school visitors will be recorded on an official university transcript.

**Transfer Students**

Students who seek admission to the College with credit for work taken at another institution or in another college or school of the University of Louisville are transfer students. Such applicants may be admitted in good standing, admitted in special status, or denied admission.

Admission in good standing requires:

- A grade point average of 2.0 or better on a 4.0 point scale based on all work attempted, excluding developmental courses (see "Transfer Students" in the Admission section (p. 19) of this catalog);
- Good standing at the institution of last attendance, including eligibility to return to that institution;
- Full disclosure of previous attendance in another school or college of this University and/or any other post-secondary institution.

Transfer students with fewer than twenty-four (24) acceptable credits must submit high school transcripts and ACT scores and must meet the requirements for freshmen.
Admission in Special Status
Transfer students not meeting the above criteria may be admitted only in special status by action of the Admissions and Appeals Committee. Such students are subject to the following guidelines:

- Remain in special status with limited load as specified by the Admissions and Appeals Committee for a minimum of 24 semester hours.
- Maintain a minimum 2.0 semester grade point average for the first 24 semester hours attempted in courses applicable to an Arts and Sciences degree.

A student will be removed from special status after 24 semester hours if his/her cumulative grade point average is 2.0 or above.

A transfer student admitted in special status will be suspended if his/her semester grade point average is lower than 2.0 at the end of any semester.

Students ineligible for admission in the College because of disciplinary action in another institution or another school of this University may be ruled eligible for admission to the College by the dean; students who violate the full disclosure requirement will be referred to the Admissions and Appeals Committee for determination of a mandatory withdrawal from the College for a period stipulated by the committee.

Additional Transfer Requirements
To be eligible for a degree from the College of Arts and Sciences, students transferring from a four-year institution must complete at least 30 hours of work applicable to the degree as a student enrolled in the College, including 30 of the final 36 hours and a minimum of 6 credits in the declared major. Students transferring course work from a two-year college are cautioned that a maximum of 60 semester hours of credit from a two-year college may be applied toward the minimum hours required for a baccalaureate degree. The remaining semester hours of the minimum 121 hours required for the baccalaureate degree must be completed at a four-year institution. If a student has earned more than 60 semester hours at a two-year institution, the additional work may, if equivalent, be applied toward fulfillment of general education or other requirements, but will not be applied toward earned hours.

Students must complete at least 50 semester hours of course work numbered 300 or higher. Work from a two-year or community college usually will not apply to this requirement. For this reason, students planning to transfer to this College from a community college or a two-year college are advised to complete the lower-level portion of the College’s General Education requirements and the foreign language series prior to transferring. Courses offered at the 300 level or higher at another institution may not be equivalent to College courses numbered 300 or higher. If a course is accepted in transfer at the 300, 400, or 500 level, however, it will be counted towards the 50 semester hour requirement mentioned above. Students who have transferred to the College should meet with an academic counselor of the Arts and Sciences Advising Center for assistance in evaluating their records for transfer credit.

Transfer Credit Evaluation
The College recognizes appropriate course work done at other accredited universities and colleges and accepts that work according to the principles set forth in the American Association of Collegiate Registrars and Admissions Officers Transfer Credit Practices and state law. Transfer work that is college-level, academic in nature, and earned at appropriately accredited institutions will be accepted as credit toward degree, consistent with policies in effect for resident students. Transfer students must be aware that majors and/or programs may require a minimum grade of a C or better for major admission and certain degree requirements.

Work graded on a pass/fail basis as “Pass” will not count toward fulfillment of general education requirements, the language requirement, or requirements specified in the student’s major program.

Courses that meet general education requirements may be transferred under course equivalencies established in the Office of Transfer Services. In cases where no equivalency is established, the Office of Transfer Services will direct students to the university academic department, school or college where similar courses are offered for evaluation of transfer credits. Students may also work with advisors in A&S to assist in this process.

Transfer students who wish to major in creative art will be required to submit portfolios before they can take 300-level creative art classes (consult the Department of Fine Arts (http://louisville.edu/art/Undergraduate)).

Foreign Students
Foreign students who have a secondary school record sufficient to predict college success and who demonstrate proficiency in the English language will be admitted to the College of Arts and Sciences. Refer to the Admission section (p. 19) of this catalog for more information about International student admission requirements.

Auditors
Persons not eligible for admission to the College, or not seeking admission for the purpose of taking courses for credit, may receive permission to take courses as auditors. All persons who audit classes must pay the regular fees. Persons whose enrollment in the College was limited to audited courses may not change to a credit basis for any course they are auditing unless they have reapplied for admission to the College and have been admitted prior to the deadline for change of status from audit to credit. Regularly-enrolled students may also enroll in classes as auditors. Permission of instructor is required to enroll as an auditor. Students may not enroll in audit status during the early registration period (See Auditing Courses (p. 63)).

Pre-Unit Students
Students seeking admission to another academic unit of the university who do not satisfy all of that unit’s entrance requirements may be admitted to the College of Arts and Sciences as a pre-unit student. Students admitted as pre-unit students are administratively housed in the College until they satisfy all of their intended academic unit’s intra-unit transfer requirements. Persons admitted as pre-unit students should consult their desired unit’s section of the catalog and/or website for more information about these transfer requirements. Pre-unit students are to be advised in A&S advising in accordance with College policy until they successfully transfer into another unit.
Admission to the College of Business

Students are admitted to the College of Business on either a degree-seeking or non-degree-seeking basis. High school visitors, visiting students from other institutions, auditors, post baccalaureate students, and students admitted as special students are considered non-degree seeking. They will be notified by the Office of Admissions of their status and of the conditions of their enrollment at the time they are accepted. All other students are considered degree-seeking.

Students planning to earn degrees from the College of Business must be degree-seeking in order for the credits they have earned to apply toward their degrees. Students remain in a degree-seeking status until they graduate, transfer to another college or university, or are suspended/dismissed.

Admission in Good Standing

If a student has less than 24 transferable credits from another accredited institution, they will be required to submit college transcripts, a final high school transcript, and ACT or SAT scores. In addition to meeting the 2.8 transfer college GPA, they must meet all new freshmen requirements for COB applicants with the following exception. Students meeting the high school GPA and composite ACT or SAT requirements, but not meeting the math score requirement can be admitted if they have successfully completed a college math class at the college algebra level or higher.

Transfer Students

Students who seek admission to the College with credit for work taken at another institution, or in another college or school in the University of Louisville, are transfer students. Such applicants may be admitted in good standing, in conditional status, or denied admission.
Admission in Conditional Status

Students who have a 2.8 university GPA, 24 or more transferable credits, and a B-minus or better in two of the three courses listed above can petition for admission on an exception basis. Students admitted under this petition process will be admitted in conditional status. Students admitted in conditional standing must be advised, and are restricted to 13 credit hours per semester. Students admitted in conditional standing must earn a 2.0 cumulative GPA following admission to avoid suspension as consistent with the COB policy on Academic Status. Students in conditional standing will become students in good standing when their University GPA is 2.0 or above after the next semester completed.

Other Applicants

Students whose last attendance at UofL resulted in academic suspension must petition for readmission. (See section covering College of Business policy on Academic Status.) Students ineligible for admission in the College because of disciplinary action in another institution or another school of this University may be ruled eligible for admission to the College by petitioning to the College of Business Undergraduate Studies Committee. Students who violate the full disclosure requirement will be referred to the COB Undergraduate Studies Committee for determination of a mandatory withdrawal from the College for a period stipulated by the committee.

Additional Transfer Requirements

To be eligible for a degree from the College of Business, students transferring must:

- Complete at least 30 of the final 36 semester hours applicable to the degree as a student enrolled in the University of Louisville.
- Complete a minimum of 12 credit hours in the declared major at UofL.
- Complete at least 50 hours of coursework numbered 300 or higher. Work from a two-year or community college will not apply to this requirement. For this reason, students planning to transfer to this College from a community college or two-year college are advised to complete only the lower level portion of the College’s general education requirements prior to transferring.
- Must earn a 2.0 University GPA and a 2.0 GPA in the major.

Students who have transferred to the College must meet with an academic advisor of the COB Reinhardt Academic Center for assistance in evaluating their records for transfer credit.

The College of Business recognizes appropriate coursework done at other accredited universities and colleges and accepts that work according to the principles set forth in the American Association of Collegiate Registrars and Admissions Officers Transfer Credit Practices Guide and state law. Transfer work that is college level, academic in nature, and earned at appropriately accredited institutions will be accepted and posted as credit earned (i.e., with no grade) consistent with policies in effect for resident students. Students must be aware that majors and/or programs may require a minimum of a B-minus or better for certain degree requirements. Students admitted to the COB from other fully accredited institutions will receive credit for academic courses, but the applicability of transfer credit toward a business degree will be determined by the COB Undergraduate Studies Committee. Courses will be evaluated not only based on content but also as to level. Course level is determined by lower division (numbered 100-299) and upper division (numbered 300-499). A transfer business course must have been taken at the same level as the equivalent course at the University of Louisville to meet degree requirements.

Courses that meet general education requirements may be transferred under course equivalencies established in the Office of Transfer Services. In cases where no equivalency is established, the Office of Transfer Services will direct students to the university academic department, school or college where similar courses are offered for evaluation of transfer credits.

Other Admissions

Visiting Students

Visiting students from other institutions who wish to take courses in the College of Business may enroll in non-degree seeking status and must follow the procedure outlined in this catalog (p. 19). Visiting students are not eligible for COB co-ops and must meet all prerequisite requirements.

College of Business students will be allowed to visit other colleges or universities only with written permission of the Reinhardt Academic Center (Frazier Hall, room 024).

Considerations include academic standing (students must be in good academic standing), residency requirement, course equivalency, and number of course credit hours. Total course load cannot exceed 18 hours. Failure to follow these guidelines may result in loss of credit.

Auditors

Persons not eligible for admission to the College, or not seeking admission for the purpose of taking courses for credit, may request permission to take courses as auditors. Permission of the instructor is required to enroll as an auditor. All persons who audit classes must pay the regular fees. Persons whose enrollment in the College was limited to audited courses may not change to a credit basis for any course they are auditing unless they have reapplied for admission to the College and have been admitted prior to the deadline for change of status from audit to credit. Regularly enrolled students may also enroll in classes as auditors. Students may not enroll in audit status during the early registration period.

- MATH 111 College Algebra - QR (or equivalent)
- ACCT 201 (or equivalent)
- Either ECON 201 or ECON 202 (or equivalent)
Admission to the Dental Hygiene Program

The School of Dentistry offers the Bachelor of Science in Dental Hygiene.

Admission into the Dental Hygiene program is a tiered process: Lower and Upper Division. Students apply to the Lower Division to complete general education and program pre-requisite courses on the Belknap Campus. Students apply to the Upper Division to complete the professional component of the Bachelor of Science Dental Hygiene Degree Program on the HSC Campus.

All applicants should refer to the information included in the University of Louisville catalog relative to general admission policies. Admission to the Lower Division does not guarantee admission to the Upper Division. Admission to the Upper Division is competitive.

Visit our website for more information at louisville.edu/dentistry/degrees/hygiene.

Admission Requirements

Admission to the Lower Division

Students may be admitted directly to the School of Dentistry’s Lower Division (pre-professional) if the minimum admission standards and university deadlines are met. Applications must be submitted to the Office of Undergraduate Admissions and are available online. Students admitted to the Lower Division may also qualify for the program’s Guaranteed Early Admission to the Professional Program. Information regarding early admission and general admission standards are found below.

Admission in Good Standing

To be admitted to the Lower Division in good standing, beginning freshmen and transfer applicants with less than 24 hours must meet the following requirements:

- Graduation from an accredited high school with a grade point average of 2.8 or higher, have a GED, or equivalent by petition (for example, home school education).
- Completion of the pre-college curriculum
- Composite ACT score of not less than 21 or 20 with a GPA of 3.0 or above

Intra-university Transfer Students

Students who have completed at least one semester in another school of the University with a grades point average of at least 2.8 and have a cumulative grade point average of 2.8 or above for all college coursework may apply for an intra-university transfer to the Lower Division Program in Dental Hygiene. They must complete an online change major application that can be found at louisville.edu/advising/students/change-major

Transfer Students

Transfer applicants with 24 hours or more must have a college grade point average of 2.8 or higher to be admitted to the Lower Division in good standing. There is no conditional admission for transfer students. Students transferring into the Lower Division must submit ACT or SAT scores when applying to the Upper Division.

Transfer Grade Acceptance

The University of Louisville recognizes appropriate course work completed at other accredited universities and colleges and accepts that work according to the principles set forth in the American Association of Collegiate Registrars and Admissions Officers Transfer Credit Practices and state law. Transfer work that is college-level, academic in nature, and earned at appropriately accredited institutions will be accepted and posted as credit earned (i.e., with no grade) and will be accepted as credit toward degree, consistent with program requirements in the Dental Hygiene Program. All graded transfer work, however, will be used to calculate GPA for Upper Division admission purposes.

Transfer Equivalency Determination

Courses that meet general education and program requirements may be transferred under course equivalencies established in the Office of Transfer Services. It is the student’s responsibility to read the catalog, student handbooks, and official notices (e.g., University of Louisville School of Dentistry Dental Hygiene Program webpage and emails) to be informed about credits, requirements, and to abide by the regulations of the University and the School of Dentistry.

Admission to the Upper Division

Admission to the Upper Division is competitive. Admission to the Lower Division does not guarantee admission to the Upper Division. To be considered for admission, applicants meeting the below minimum requirements may be eligible to apply. Advising to evaluate applicant readiness is encouraged for all students and required for freshman students. Students meeting the minimum academic requirements are not guaranteed admission to the program.

Course Requirements

- Minimum 2.8 cumulative GPA (based on all college courses completed at accredited post-secondary institutions, as listed on all official transcripts).
Additional Admission Requirements

- Dental Hygiene Professional Application through the ADEA Dental Hygiene Centralized Service (DHNAS), available online at adeadhcas.org (http://www.adeadhcas.org).
- Application deadline is January 15 and only complete applications, including all required materials, will be reviewed for admission.
- Required DHNAS materials include:
  - ACT/SAT Scores
  - Documentation of at least 12 hours of dental hygiene observation
  - Response to personal statement(s) addressed within application
  - Letters of recommendation submitted directly from recommender including two (2) from instructors, one of whom must be science, and one (1) from a personal/work/community reference.
  - Official transcripts from all previously attended institutions

University application requirements for admission:

1. Transfer students not currently enrolled in UofL must also complete the UofL undergraduate application, specifying dental hygiene (DHL) as a major selection (if admitted transfer students will be moved to DHL).
2. UofL students not enrolled in DHL must submit a change major form, specifying DHL for the designated Fall semester: louisville.edu/advising/students/change-major
3. UofL DHL students need only submit application through DHNAS.
4. TOEFL scores for applicants whose first language is not English. Because command of the English language is essential for successful professional school study, non-native English speaking applicants, regardless of citizenship, must demonstrate their English proficiency through the Test of English as a Foreign Language (TOEFL). Preference is given to candidates with a minimum score of 100 and with listening and speaking section scores at 26 or above. The institution code for submitting TOEFL scores to the UofL Office of Admissions is 5933. Students who have graduated from a high school in which English is the primary language and/or has completed a minimum of 30 credit hours in a fully accredited U.S. college or university qualify for a waiver of the TOEFL requirement.

Applicants must comply with the minimum technical standards (http://louisville.edu/dental/hygiene/admission/upper/Minimum%20Technical%20Standards%20Form.pdf) for admission and matriculation with or without accommodation and the immunization requirements for all Health Sciences students. Compliance with the immunization requirements for all Health Sciences students is mandatory.

Immunizations requirements have been established to safeguard the health and well-being of patients, students, and all health care workers and can be found at louisville.edu/campushealth/information/immunizations/health-professional-students.

---

Upper Division transfers from another Dental Hygiene Professional Program

The University of Louisville School of Dentistry considers Upper Division Dental Hygiene transfer students (coming from professional study in another dental hygiene program) on a case-by-case basis. Only individuals who are in good standing at their present dental hygiene school (or were in good standing when they left) are considered to be eligible as a transfer student. Upper Division transfers students will be required to meet with the program director for academic review and recommendation.

Admission Requirements

Students are admitted to the College of Education and Human Development on either a degree-seeking or non-degree seeking basis. High school visitors, visiting students from other institutions, auditors, and post baccalaureate students are considered non-degree seeking. Non-degree seeking students will be notified by the Office of Admissions of their status and of the conditions of their enrollment at the time they are accepted. All other students are considered degree-seeking.

Students planning to earn degrees from the College of Education and Human Development should submit an application for admission to the Undergraduate Admissions Office of the University. Students must apply for readmission if they do not enroll in classes for two or more years, and they must follow the catalog requirements in place at the time of readmission.

Students applying with less than 24 credit hours are admitted in good standing with the following:

- High school grade point average is 2.50 or above, or successful completion of the General Education Development (GED) tests
- Completion of the Kentucky Pre-College Curriculum
- ACT composite score of 21 or above
• (If college credit has been earned) a cumulative college grade point average (based on degree applicable credits) of 2.25 or above

Students applying with less than 24 credit hours who do not meet the above criteria may be admitted in conditional status subject to University admission guidelines for new Freshmen.

Note: Students who are 21 years of age or older are exempt from the Pre-College Curriculum requirements.

Students applying with 24 credit hours or more are admitted in good standing if their cumulative grade point average is 2.25 or above. Students admitted in conditional status may enroll in no more than 14 credit hours (10 credit hours in the summer). Students admitted in conditional status who earn a University of Louisville semester grade point average of 2.25 or above will be placed in good standing.

Admission in Special Status
Students whose cumulative college grade point average (based on degree applicable credits) is below 2.00 may petition the College of Education and Human Development Standards and Admissions Committee for consideration for admission in Special Status. Conditions for admission in special status and continuance in special status will be decided by the College of Education and Human Development Standards and Admissions Committee based upon a student’s academic background and circumstances.

Transfer Students
A student transferring from another institution should take the following steps in seeking admission:

1. Complete an undergraduate application and submit to the Admissions Office, University of Louisville, for admission to the College of Education and Human Development. Undergraduate applications are available online at: admissions.louisville.edu/ugrd.
2. Request that official transcripts from each institution previously attended be sent to the Admissions Office, University of Louisville. (A student who fails to declare previous attendance at another institution may be dismissed.)
3. Schedule an appointment with Education Advising and Student Services to have an official program prepared.

Additional Program Requirements
Organizational Leadership and Learning program
Applicants applying for admission to Organizational Leadership and Learning must meet the following criteria, in addition to the admission standards listed above.

Prior extensive and documented work experience, or equivalent experiences as determined by the program faculty, or technical coursework in a training area or occupation is required.

For the BS in Organizational Leadership and Learning with a track in Career and Technical Education the applicant must be employed as a vocational teacher. Work experience requires two of the four years to have occurred within the past five-year period.

Applications to the BS in Organizational Leadership and Learning with a track in Healthcare Leadership must have a 2.7 cumulative GPA in college level courses. Applicants who have a cumulative GPA below 2.7 may petition the College of Education and Human Development Standards and Admissions Committee for consideration for admission on a probationary status.

A minimum of 2,000 hours of supervised work experience in the occupation to be taught is required. For the BS in Organizational Leadership and Learning with a concentration in Career and Technical Education the applicant must be employed as vocational teacher. Work experience requires two of the four years to have occurred within the past five-year period.

Teacher Education programs
Students who plan to pursue an undergraduate teacher education program should meet with an academic advisor in the College of Education and Human Development to discuss the application process and admission to the program.

All candidates must submit a complete teacher education application to the College of Education and Human Development by the deadlines specified for each program. For more information: louisville.edu/education/degrees.

Admission to teacher education programs is competitive. The admissions committee will assess the qualifications of each applicant and his/her potential for success in the program.

Admission to the Kent School of Social Work

Oppenheimer Hall
University of Louisville
Louisville, KY 40292
Phone: (502) 852-6402
Email: bswkent@louisville.edu
Web: louisville.edu/kent

Admission Requirements
Persons interested in admission to the Kent School should contact the BSW Program. We encourage potential applicants to please consult the Kent Website at louisville.edu/kent/academics/bachelor-of-science-in-
Current UofL students must:

- Contact the BSW Program at bswkent@louisville.edu to declare Social Work as a major.
- Supply two letters of reference supporting the student’s application and providing information about character, maturity, stability, achievements, interactional skills and special qualities. These letters may come from professors, high school teachers, counselors, supervisors, professional social workers, and other professionals, but not from relatives of the student.
- Submit a 700–1000-word personal statement with the application. The personal statement (double-spaced, 12-point font) should address the following topics: a) your commitment to the goals, purposes, ethics and values of social work; and b) the intellectual and personal qualifications that will enable you to practice social work successfully.

Note: If there are gaps or deficiencies in your academic record, please address these in an addendum to your statement.

- A signed and dated Secondary Application Form including: the Statement of authenticity, Release and Waiver for admissions and student records, Ethical Standard of Behaviors, program plan selection, and if applicable transfer degree information.
- Current resume that includes the following information: any places of employment and volunteer experiences that you have had in the last 2 years including place of employment or volunteer activity, dates of employment or volunteer experience, job title or position held, description of job responsibilities.

If you have been convicted of a felony, please include a description of the circumstances and outcomes of the conviction. Please note that prior convictions for criminal offenses may preclude one's ability to be licensed as a social worker in many states. In addition, many practicum sites require background checks and periodic drug screenings. Any negative findings that affect agency placement may also prevent successful completion of the requirements for the degree. Applicants and students should consider these barriers in their educational planning.

Applications to the upper division are accepted based on the following deadlines:

- On-campus program: Priority Deadline: February 1st
- Online program: Priority Deadline: February 1st, final deadline: May 31st

Submit the above materials to:

BSW Admissions
Kent School of Social Work
Louisville, KY 40292
Email: bswkent@louisville.edu

Transfer Students

Transfer students must:

- Complete the application process for admissions to the University of Louisville. Applications for transfer student can be found at admissions.louisville.edu. This is a page of quick links for transfer students and also contains the link to the application. Make certain that you indicate Social Work as your major on this form.

If you have questions about this form, you may contact the University of Louisville Office of Admissions by phone—(502) 852-6531 or (800) 334-8635 ext. 8526531; mail—Office of Admissions, University of Louisville, Louisville, KY 40292; or email—admitme@louisville.edu.
• Submit a non-refundable application processing fee. Attach a personal check, money order or cashier’s check (U.S. dollars) payable to the University of Louisville to your completed application if you submit the hard copy application. If you apply on-line at the above website, you must also pay your application fee on-line with a credit card or check. Note: Paying your application fee with a check will delay the process for 8 days.

• Provide an official academic transcript from each college/university you have attended, including those at which you were enrolled for academic credit as a non-degree student and/or credits, which you transferred to another college. All transcripts must bear the official seal and signature of the institution attended. You must request these transcripts directly from the Registrar or appropriate officer of each institution. UofL transcripts are provided automatically for applicants who have attended UofL. Applicants must have earned 45 semester hours of college credit and have a minimum cumulative GPA of 2.5 on a four point scale.

• The Test of English as a Foreign Language (TOEFL) is required for applicants whose native language is not English. A test link to the TOEFL is available at louisville.edu/student/services/testing/index.html.

• International students may be required to have their transcripts evaluated by a credential evaluation service in the U.S. Two possible services include World Education Services, Inc., at wes.org (http://www.wes.org) and Educational Credential Evaluators at ece.org (https://www.ece.org). Students may be required to participate in a brief telephone interview as part of the admission process. When completing the I-20, students should note that they will be placed in a practicum as part of their education. Admitted students should visit the International Center when they arrive on campus to obtain the proper immigration documentation necessary to begin the practicum.

Transfer students must also submit additional documents to complete their application process. The additional documents include:

• Two letters of reference supporting the student’s application and providing information about character, maturity, stability, achievements, interactional skills and special qualities. These letters may come from professors, high school teachers, counselors, supervisors, professional social workers, and other professionals, but not from relatives of the student.

• Current resume that includes the following information: any places of employment and volunteer experiences that you have had in the last 2 years including place of employment or volunteer activity, dates of employment or volunteer experience, job title or position held, description of job responsibilities.

• A 700-1000 word personal statement (double-spaced, 12-point font) that addresses the following topics: a) your commitment to the goals and purposes of social work; b) the intellectual and personal qualifications that will enable you to practice social work successfully.

Note: If there are gaps or deficiencies in your academic record, please address these in an addendum to your statement.

Each applicant is required to add the following statement to the beginning of their personal statement accompanied by the applicant’s signature and date of the signature:

Academic dishonesty is prohibited at the University of Louisville. In keeping with this policy, I certify the material contained in this application is solely my work and that I have neither cheated nor plagiarized in its creation.

If you have been convicted of a felony, please include a description of the circumstances and outcomes of the conviction. Please note that prior convictions for criminal offenses may preclude one’s ability to be licensed as a social worker in many states. In addition, many practicum sites require background checks and periodic drug screenings. Any negative findings that affect agency placement may also prevent successful completion of the requirements for the degree. Applicants and students should consider these barriers in their educational planning.

Admission to the School of Music

School of Music
University of Louisville
Louisville, KY 40292
Phone: (502) 852-6907
Email: gomusic@louisville.edu
Web: louisville.edu/music
Social: Facebook (http://www.facebook.com/uoflmusic)

Admission Requirements

Every prospective School of Music student must successfully audition and submit the following before a formal admission recommendation is made:

1. A completed application for admission to the University of Louisville, including the application fee
2. A completed School of Music Application for Financial Aid (optional)
3. Official high school/college transcript
4. Scores from the American College Testing (ACT) Program (required for all full-time applicants who have earned fewer than 24 acceptable semester credit hours in a college or university)
5. Test of English as a Foreign Language (TOEFL). If English is not your native language, you must verify your English proficiency by submitting official, satisfactory scores (550 or higher for paper-based test, 213 or higher for computer-based test, or 79-80 on the internet-based test), or a score of 6.5 on the IELTS exam, or by successful completion of the Intensive English as a Second Language (IESL) program at the University of Louisville.

6. Name and contact information of two references, at least one of whom must be a music professional who has taught or directed the student (private teacher, high school teacher, ensemble director, etc.); the other may be another music professional or a high school teacher of a different subject.

7. Although each student must play or sing a performance audition for the School of Music, applicants to the BM program with emphasis in Composition must also submit a portfolio of work that includes the following: three or four samples of original compositions, along with recordings of the same works, if possible. Evidence of experience using various instrumental and/or vocal combinations is helpful.

8. In addition to the instrumental/voice audition, the successful music theory applicant will submit a portfolio containing three items: a) an essay of 500 words or more about a piece of music, which can be an analysis, a set of program notes, or a description of what you like about the piece; and b), one of the following: a composition (either stylistic or original; please send score and recording), a melody harmonization for four voices, a figured bass realization, or a 2-voice mixed species counterpoint example; and c), a short essay (100-200 words) detailing why you want to study music theory. Students who have questions about what to submit in the portfolio should feel free to ask questions before submitting.

9. Because the field of Music Therapy requires the therapist to sing to patients/clients, a demonstration of functional vocal ability must accompany the application of all non-voice principle majors. Applicants must submit a video recording of themselves singing two solo songs of contrasting styles. These songs do not need to be memorized, can be very simple, and may be accompanied by an instrument or sung a cappella. The video must be sent via YouTube for evaluation by the faculty. Please email the YouTube/video links to gomusic@louisville.edu by February 27.

Students admitted on probation/conditionally must be in good standing after one or two semesters (as indicated in the acceptance letter), or they will be dismissed and not allowed to continue pursuing a degree in music.

All recommendations are pending the student meeting minimum admission requirements of the School of Music (2.75 GPA and 21 ACT).

Note: Admission to Teacher Education requires 21 ACT. Students must apply to Teacher Education in the second semester of their sophomore year (February 1 application deadline). Failure to be admitted to Teacher Education will delay a student’s ability to take advanced classes in music education and teacher education.

**Prerequisite Training in Applied Music**

Audition requirements can be found at: louisville.edu/music/apply/undergraduate/audition-dates-requirements

Instrumental requirements: louisville.edu/music/apply/undergraduate/audition-dates-requirements/instrumental-undergraduate-audition-requirements

Jazz requirements: louisville.edu/music/apply/undergraduate/audition-dates-requirements/jazz-studies-undergraduate-audition-requirements

**All Applied Music Fields**

If the qualifying entrance examinations indicate that an entering student has not reached the minimum level of achievement in required music fields (or in certain theoretical courses), the student will be required to take appropriate courses without credit until the proper level is attained.

**INSTRUMENTAL (NON-JAZZ) UNDERGRADUATE AUDITION REQUIREMENTS**

**Bassoon**

All prospective bassoon students should be prepared to play 2-3 works of contrasting styles. You may be asked to play scales and to sight-read.

**Cello**

All prospective cello students should be prepared to play 2 or 3 contrasting pieces. Suggested repertoire consists of the following:

- a movement of a concerto;
- a movement of solo Bach;
- an etude; or
- a solo piece or sonata.

**Clarinet**

All prospective clarinet students should be prepared to play 2 works, or movements of works, of contrasting styles. Scales are not required, but you will be asked to sight-read.

**Double Bass**

All prospective bass students should be prepared to play 2-3 contrasting solo selections, standard orchestral excerpts, and major and minor scales. You may also be asked to sight-read.

**Euphonium**

All prospective euphonium students should be prepared to perform 2 or 3 selections in contrasting styles from solo literature or etudes. These selections should demonstrate both expressive and technical dimensions of the student’s playing. Major scales and sight reading may also be asked.

**Flute**

All prospective flute students should be prepared to play 2 pieces of contrasting styles for the audition, for a total of 8-10 minutes of music. You should be prepared to sight-read and play a few scales.

**French Horn**

All prospective horn students are required to play 2 pieces of contrasting styles, scales, and to sight-read.

**Guitar**

All prospective guitar students must display the following:

- completion of Aaron Shearer’s *Classic Guitar Technique, Vol. 1* or a comparable classic guitar method;
- preparation of at least 3 contrasting pieces preferably from different historical periods (i.e. Renaissance, Baroque, Classical/Romantic, 20th Century/Contemporary); one of the pieces should be etudes by
such composers as Aguado, Brouwer, Carcassi, Giuliani, Sor, Tárrega, or Villa-Lobos;
• knowledge of applicable technical studies: Giuliani’s 120 Right Hand Studies, Segovia’s Diatonic Major and Minor Scales, Carlevaro’s School of Guitar; and have sufficient sight-reading abilities.

Harp
All prospective harp students should be prepared to play 2 pieces of contrasting styles, for a total of 12-15 minutes of playing.

Oboe
All prospective oboe students should be prepared to play 2-3 works of contrasting styles, such as a Handel Sonata or pieces of comparable difficulty. Students may be asked to play scales and to sight-read.

Organ
To enter the four-year degree program in organ, the student should have completed sufficient piano study to be able to play Bach Inventions, Mozart sonatas, Beethoven sonatas, and compositions by Mendelssohn, Grieg, Schubert, and Schumann.

Percussion
Students should perform works in the following categories that accurately represent their current level of achievement. There may be possible sight-reading on all instruments (keyboards, timpani, snare drum).

Required:
• one 2-Mallet and/or 4-Mallet keyboard work (with or without piano accompaniment);
• two snare drum works (rudimentary and orchestral);
• one Timpani work (2, 3, or 4 Drums); and
• Snare Drum Rudiments.

Optional:
• one multiple percussion work; or
• Drum Set: various styles (Jazz, Bossa Nova, Afro, Cuban, etc.).

Piano
To be admitted as an undergraduate piano student, students should:
• be able to play all major and minor scales and arpeggios correctly at a moderately rapid tempo;
• have the skills to sight read compositions of moderate difficulty; and
• have already studied such compositions as Bach Inventions, classical sonatas, and works by such composers as Mendelssohn, Chopin, Schumann, Debussy, Bartok, and Kabalevsky.

At the audition, students will be expected to play three pieces of contrasting styles including:
• Bach Two or Three Part Invention or suite movement;
• Movement of a classical sonata; and
• Romantic, Impressionistic, or Twentieth/Twenty-first Century work.

They will also be asked to present:
• Scales and arpeggios in any major or minor key; and
• Sight reading of an intermediate level work.

Students must bring to the audition a Repertoire List including works studied in the past five years.

Saxophone
All prospective students should be prepared to play 2-3 works, or movements of works, of contrasting styles. Students may be asked to play major and minor scales and to sight-read.

Trombone
Tenor Trombone: proficiency in major scales, 2 octaves; 1 Rochut Melodious Etude; Morceau Symphonique by Guilmant or Concertino by David.

Bass Trombone: proficiency in major scales, 2 octaves; 1 Rochut Melodious Etude, Vol. 1; pick 1 solo from Patrick McCarty Sonata, Lebedev Sonata, or Telemann Fantasies.

Trumpet
All prospective students are required to play 2 pieces of contrasting styles, scales, and to sight-read.

Tuba
All prospective students should perform 2-3 selections in contrasting styles from solo literature or études. These selections should demonstrate both expressive and technical dimensions of the student’s playing. Major scales and sight-reading may also be asked.

Viola
All prospective students should be prepared to play:
• one 3 octave scale (the student may choose the key);
• one movement from the Bach Unaccompanied Cello Suites; and
• one movement from the standard viola literature that best demonstrates the student’s ability.

Violin
To enter the degree program in violin performance, the student should be able to perform:
• A movement of any Bach Sonata or Partita;
• A movement of any Mozart Concerto; and
• A movement of any Romantic Violin Concerto.

To enter any other degree program, the student should be prepared to perform:
• Two movements of contrasting styles, one of which should be a movement of unaccompanied Bach.

INSTRUMENTAL (JAZZ STUDIES) UNDERGRADUATE AUDITION REQUIREMENTS

Major Instrument Requirements
All scale and chord possibilities can be found in any Aebersold volume, Aebersold Summer Jazz Workshop handout, or contact the school for material. A jazz experience at University of Louisville is geared toward achieving a greater proficiency in ensemble playing. Your primary
performing opportunities will be in jazz ensemble and combo. Solo performance is a desirable goal and may also be studied.

All Instruments (except Drums, where noted)

Scales – All 12 keys in at least two octaves
- Major/Dominant/Minor (Dorian preferred)
- Blues scales (not for bass)

Chords/Arpeggios: Major/Dominant/Minor

Play the following: all selections can be found in Aebersold Volume 54 “Maiden Voyage”
- Blues in either Bb or F;
- A tune of your choice: melody and improvisation (good choices include Autumn Leaves, Summertime, Maiden Voyage, Satin Doll);
- A jazz transcription if possible by a master performer on your instrument; and
- Optional: a classical selection of your choice, length not important.

Sight-reading: Melody and improvise basic chord progression

Piano

One hand voicings
- Right hand guide tones/Left hand root
- Three and/or four notes rootless voicings (guides and one or two color tones) in either right or left hand

Sight-reading
- Basic chord progression: Right hand voicings/Left hand root
- Melody and improvisation with or without voicings

Guitar

Two voicings for all root position seventh chords (one voicing from sixth string and another off or fifth string)

Sight-reading
- Melody and improvise basic chord progression
- Comp through progression

Bass

- Sight-reading
- Basic chord progression
- Demonstrate: 2 beat/walking/Latin

Drum Set

- Demonstrate the following styles in either 32 or 12 bar form: Swing/ Bossa Nova/Rock (any style)/Afro-Cuban
- Be able to play time in either 32 or 12 bar form: 4/4, 3/4, 6/8
- Demonstrate the ability to play with brushes
- Trade: 8’s over a 32 bar tune/ 4’s over a 12 bar blues

VOICE UNDERGRADUATE AUDITION REQUIREMENTS

Be prepared to sing at least 2 songs in the classical style, from memory, in contrasting styles and moods. Usually this means one is in a moderate or slow tempo, which shows your ability to sustain good vocal tone, and one is in a livelier mood, which demonstrates articulation and vocal flexibility. The songs you choose should be memorized from printed music and must be accompanied by piano. Songs may have either English or foreign texts. You should get advice on appropriate selections and, if possible, vocal training from a competent and knowledgeable voice teacher in preparation for the audition.

In addition to singing 2 songs, you will be asked to sing at sight a short musical example. There may also be a tonal memory evaluation in which you will sing back a few brief sequences of intervals that have been played on the piano. These are diagnostic exercises that help in assessing your level of musical security and independence. Note: vocal auditions may be video recorded.

Community College Transfer Limits Policy

For bachelors’ degrees, students must present at least sixty (60) semester credit hours earned at four-year institutions. Students must also meet residency requirements.

Special Students

Students sixteen years of age or over who have not satisfied the requirements for admission as candidates for degrees may, by special consent of the Dean, be admitted upon payment of the regular fees. Such special students cannot become candidates for degrees until they have satisfied admission requirements for the degree desired.

Re-enrolling Students

If a student has a break in enrollment of two or more calendar years, that student must apply for readmission to the School of Music, and if admitted, will be subject to catalog requirements in effect at the time of readmission. Students who have not taken applied music for one or more calendar years must re-audition in their major applied area. Bachelor of Arts students who have completed their applied music requirements are exempt, unless they plan to continue applied music study.

Students who were not enrolled during the immediate past semester, but were enrolled within the last two calendar years, and who wish to continue in the school and program in which they were last registered, are eligible to re-enroll. They need to complete a re-enrollment form at the School of Music or the Registrar’s Office.

Students completing the re-enrollment process are eligible for early registration for the term in which they wish to return. Students whose last enrollment status was visitor, high school visitor, conditional, or who were dismissed, must reapply. Students last enrolled in University College or Transitional Studies must also reapply through the Office of Admissions since those units are no longer in existence.

Transfer Grade Acceptance

The University of Louisville recognizes appropriate course work done at other accredited universities and colleges and accepts that work according to the principles set forth in the American Association of Collegiate Registrars and Admissions Officers Transfer Credit Practices and state law.

Transfer work that is college-level, academic in nature, and earned at appropriately accredited institutions will be accepted and posted as credit earned (i.e., with no grade) and will be accepted as credit toward degree, consistent with policies in effect for resident students. Students must be aware that majors and/or programs may require a minimum of a C or better for certain degree requirements. Individual units or programs may set higher standards in accepting transfer grades, which supersede those indicated here.
The School of Music does not accept transfer grades below a C. No credit is transferred for applied music or theory. Advanced standing for applied music may be awarded at a jury. Advanced standing for theory is awarded by examination. Music history credits are evaluated for transfer by the Music History faculty. Recital Attendance credits may be transferred. Principal ensemble credits may be transferred, but not to exceed one per semester. Those with Recital Attendance transfer credits or documented ensemble experiences or courses will be evaluated on an individual basis by the Dean's Office.

Transfer Equivalency Determination
Transfer equivalencies are determined by the instructional unit or the "best fit" unit as determined by the Office of the University Provost. Courses that meet general education requirements may be transferred under course equivalencies established in the Office of Transfer Services. In cases where no equivalency is established, the Office of Transfer Services will direct students to the university academic department, school, or college where similar courses are offered for evaluation of transfer credits.

Admission to the School of Nursing

School of Nursing
Health Sciences Campus, K-Wing
555 South Floyd Street
Suite 3019
Louisville, Kentucky 40202

Phone: (502) 852-8300
Web: louisville.edu/nursing

Admission Requirements
The School of Nursing offers the Bachelor of Science in Nursing (BSN). There are two degree curricula available to pursue the BSN: a Traditional BSN and an RN to BSN. Students apply for a degree program based upon their previous academic background. To be eligible to apply to the RN-BSN program, students must be a licensed registered nurse.

Admission to the School of Nursing is a two-level process for the traditional degree program: lower division and upper division. Students must be admitted to the lower division of the degree program to be eligible to apply to the upper division of the degree program. Admission to the lower division does not guarantee admission to the upper division. Admission to the upper division of the degree program is competitive.

Admission to the Lower Division
Students may be admitted directly to the School of Nursing's lower division (pre-professional) if the minimum admission standards and university deadlines are met. Admission applications must be submitted to the Office of Undergraduate Admissions. Applications are available online through the university's website. Admission to the lower division (pre-professional) does not guarantee admission to the upper division (professional curriculum).

Freshmen and transfers with fewer than 24 hours of college credit

To apply to the lower division, applicants must:

- Submit an official high school transcript
- Submit all official transcripts from all outside college course work, if applicable
- Submit an ACT or SAT score.

All documents are submitted to the Office of Admissions. Mail to or request mailing to:

The Office of Admissions
Dept. AO
University of Louisville
Louisville, KY 40292.

Admission in good standing
To be admitted to the lower division in good standing, beginning freshmen and transfer applicants with less than 24 hours of college credit must meet the following requirements:

- Graduation from an accredited high school with a grade point average of a 2.8 (on a 4.0 scale) or higher, or have an appropriate GED score, or equivalent by petition (for example, home school education). 3.0 high school grade point average required, effective for fall 2018 admission
- Completion of the pre-college curriculum
- Composite ACT scores at or above 22
- Math ACT sub-score of 22
- Minimum college grade point average of 2.8, if applicable

Admission in conditional standing
Students with a composite ACT score of 22 and a minimum Math sub-score of 19 that meet admission requirements A and B (above) may be admitted in conditional standing. Students in conditional standing become students in good standing if their University of Louisville grade point average is 2.8 or above after completion of their 1st semester. The University Grade Point Average is based on all college-level undergraduate courses taken at the University of Louisville. Students will be placed on academic warning according to the academic warning, probation, and suspension standards if after completion of their 1st semester their University GPA is less than 2.8.

Transfer Students with more than 24 hours of college credit
Students must meet the admissions requirements for transfer students with more than 24 hours. To apply to the lower division, applicants must:

- Submit all official transcripts from all outside college course work to the Office of Admissions. Mail to or request mailing to:

The Office of Admissions
Dept. AO
University of Louisville
Louisville, KY 40292.
To apply to the upper division, a student must:

- Have a minimum cumulative college grade point average of 2.8 (on a 4 point scale) in all undergraduate college work.
- There is no conditional admission for transfer students.

University of Louisville Students Changing Majors

Students who have completed at least one semester in another school of the University of Louisville and have a minimum college grade point average of 2.8 may apply to the School of Nursing. They must complete an online change of major form that can be found on the university website. Students admitted through this process must be advised before registering for courses in their first semester in the nursing program.

Admission to the Upper Division

Traditional BSN Degree

Admission to the upper division is competitive.

Students that are admitted into the upper division professional nursing curriculum will be required to meet all clinical compliance requirements prior to entering any clinical facilities.

To be considered for admission, applicants must:

- Have completed the lower division (pre-professional) curriculum or be in the last semester of completion (see Degree Programs - Nursing).
- Have earned a minimum cumulative undergraduate grade point average of 2.8. The cumulative grade point average for admission to upper division nursing is calculated based on all course work completed at accredited postsecondary institutions. Transfer credit and transfer GPA is determined by the Office of Transfer Articulation in the Office of Undergraduate Admissions.
- Have earned a minimum lower division (pre-professional) program grade point average of 2.8. The lower division program grade point average is based on required lower division curriculum course work as determined by the nursing faculty. 3.0 minimum program GPA required, effective fall 2019.
- Earn a C or higher in required science, nutrition, nursing and English courses. Science courses must have been completed within the last 10 years. Students must submit an application for acceptance of sciences taken prior to the last 10 years to the School of Nursing Office of Student Services. Appropriate faculty and/or administrators will review the request. Consideration will only be given to those with experience in the science in which exception is being requested. Transfer credit for science courses taken prior to the last 10 years will be evaluated on an individual basis. There can be no outstanding incompletes prior to beginning nursing courses.

Applicants to the Traditional BSN program that have completed 45 or more semester credit hours of the required lower division coursework at University of Louisville and meet the minimum criteria for admission will have 0.2 points added to their program grade point average for ranking during review of upper division applications. Last semester for implementation of this policy is Spring 2019. Effective fall 2019, bonus will be awarded based on admission status as a first time University of Louisville freshman.

Applying to the Upper Division

To apply to the upper division, a student must:

- Submit a University of Louisville Undergraduate Application if new to UofL, or submit an online change of major form if already enrolled in a school other than the School of Nursing at UofL.
- Complete the Legal Questionnaire available on the School of Nursing website
- Submit a written essay, narrative, or short story describing your personal qualities and how they fit you for a career in nursing, your perception of the nursing field and what influenced you to select nursing as a career
- Submit a certified criminal background check. Details on the School of Nursing website.
- Complete the interview process (if requested).
- Applications and credentials must be received by the following deadlines:
  - May 1 for Fall admission - traditional program
  - September 15 for Spring admission - traditional program

NOTE: An unsatisfactory background check may prevent a student from being admitted into the program and/or licensed as a registered nurse. Questions regarding licensing should be addressed with the Kentucky Board of Nursing.

The appropriate undergraduate committees must evaluate applicants for acceptance to an upper division clinical cohort. The committee decision will be communicated to the applicant in writing. Admissions are contingent on successful completion of the lower division (pre-professional) curriculum. Accepted students will receive a letter of agreement stating the anticipated start date, the conditions for accepting the space, and consequences of failing to keep the space. Students are required to attend a mandatory orientation provided through the School of Nursing prior to registering for any upper division nursing courses. The letter of agreement must be signed and returned within 10 working days of receipt to assure a space in the upper division clinical cohort. All qualified students who meet admission criteria but are not accepted into the requested upper division clinical cohort due to space constraints should meet with their advisor.

Guaranteed Early Admission

The Guaranteed Early Admission (GEA) program is available to first year University of Louisville freshmen. Twenty spaces are reserved in upper division each academic year for first year, full time college freshmen, who enter the University of Louisville in the Fall semester. First year college freshmen apply upon completion of their first year of college for a guaranteed admission to a specific upper division cohort. These spaces are awarded based upon the student's competitive application. Transfer students are not eligible.

To be considered as a first year freshman for guaranteed admission to the upper division, an applicant must:

- Successfully complete NURS 101 (or equivalent) with a passing grade.
- Successfully complete the first year of full time coursework with a minimum 3.0 GPA.
- Completion of two required science courses (CHEM 105 and BIOL 102 or their equivalent) with minimum grades of B.

Application requirements:

- An essay of 500 words or less describing your interest in a career in nursing.
- School of Nursing Application for GEA available on SON website or from professional advisor.
- Deadline is May 1 each year.
To maintain GEA status:

- Accept a start date to begin upper division courses for a specific semester.
- Maintain a cumulative college GPA of 3.0 or higher each semester of enrollment in the lower division.

**Admission to RN-BSN Program**

Students may be admitted directly into the RN-BSN program if the admissions requirements are met.

To apply to the program, applicants must:

- Submit a University of Louisville undergraduate admissions application if you are a new student to UofL or submit a major change form if already enrolled in a school other than the School of Nursing at UofL.
- Submit all official college transcripts to the Office of Admissions. Mail to or request mailing to:

  **The Office of Admissions**
  Department AO
  University of Louisville
  Louisville, KY 40292.

- Have a cumulative grade point average of at least 2.5 on all college work.
- Have a Registered Nurse license (without restrictions).
- Earn a C or higher in required science, nursing and English courses. There can be no outstanding incompletes in courses prior to beginning nursing courses.
- May be required to submit a certified criminal background check. Details on the School of Nursing website.
- Undergraduate admissions deadlines may be obtained from the University of Louisville website at louisville.edu.
- Applicants are required to be advised by the School of Nursing academic advisor prior to registering for courses.

**Additional Transfer Student Information**

**Awarding of transfer credit**

A student may earn college credit through a variety of mechanisms. Therefore, students seeking advanced standing through transfer of credit should seek advice from the Office of Student Services, School of Nursing, as soon as possible. Individual evaluations include:

1. Courses from accredited colleges and universities.
2. Course descriptions and outlines.
3. CLEP examinations.
4. Advanced Placement examinations.
5. Portfolio documentation, RN-BSN program only. Students in the RN-BSN program will receive 30 college credits from the university after successful completion of the portfolio course.
6. General Education Block Certifications by accredited Kentucky institutions are recognized.
7. The School of Nursing has a ten-year limit on science courses. Transfer credit for science courses taken prior to the last 10 years will be evaluated on an individual basis.
8. Other transfer courses are evaluated on an individual basis for currency and equivalency to required courses in the nursing curriculum. Science, English, and nursing courses taken at another college or university must have been passed with a grade of C or better in order to be transferred into the nursing curriculum. Generally, only courses equivalent to pharmacology and pathophysiology can be transferred into the School of Nursing degree program.

**Transfer Policy for Students Transferring from Other Schools of Nursing**

Applicants transferring from other schools of nursing will submit complete course syllabi and appropriate supporting documents to the SON Office of Student Services. These documents must be submitted at least 6 weeks prior to the application deadline. Syllabi and supporting documents will be reviewed by selected SON faculty and Office of Student Services staff for the purpose of evaluating course equivalency to University of Louisville SON courses. Course equivalency must be confirmed prior to admissions. When courses are approved, they become the course of record for that academic year. Nursing courses that have been approved for equivalency will remain equivalent for varying periods of time depending on the course. Nursing courses must be satisfactorily completed at an NLN or CCNE accredited nursing program in order to be considered as equivalent and transfer into the upper division curriculum.

If a student has a previous nursing course failure, it will be considered the first failure by the University of Louisville SON. One additional failure of a nursing course at the University of Louisville SON will result in dismissal from the program.

A student who has previously failed 2 nursing courses at any school of nursing will not be eligible for admission to the University of Louisville SON’s Traditional BSN program. RN–BSN applicants who have failed 2 previous nursing courses at any school of nursing will be evaluated on an individual basis.

**Academic Bankruptcy & Forgiveness & Fresh Start**

Academic Bankruptcy and Forgiveness (p. 70) policies allow students who are returning to college after an absence of two or more years to request the adjustment of their records for one or more entire semesters of previous college work, provided certain criteria are met. View information on Academic Bankruptcy and Forgiveness (p. 70) and the new Fresh Start (p. 70) policy.

**International Student Applicants**

Please refer to the university guidelines printed in this catalog regarding International Student Applicants.

**Admission to the School of Public Health and Information Sciences**

Public Health Undergraduate Affairs
Admissions Requirements

Students are admitted to the School of Public Health and Information Sciences on either a degree seeking or non-degree seeking basis. High school visitors, visiting students from other institutions, auditors, post baccalaureate students, and continuing studies students are considered non-degree seeking. All other students are considered degree seeking. Applicants will be notified by the University's Office of Admissions of their status and of the conditions of their enrollment at the time they are accepted. Students planning to earn degrees from the School of Public Health and Information Sciences must be degree-seeking in order for the credits they have earned to apply toward their degrees. Students remain in a degree-seeking status until they graduate, transfer to another college or university, or are suspended/dismissed.

Freshman Students

Admission is granted to students meeting the following requirements:

Good Standing

One of:

- Graduation from accredited high school
- Successful completion of General Education Development (GED) tests

High school GPA of 2.5 or higher

Pre-college curriculum (PCC) GPA of 2.5 or higher (Note: pre-college curriculum (PCC) criterion are waived for applicants who are non-resident, 21 years of age or older, or international. PCC is described in Undergraduate Catalog, Admission to the University of Louisville (p. 19)).

One of:

- ACT/SAT score of 21/980 or higher
- ACT/SAT score of 19/940 or higher AND PCC GPA of 3.0 or higher (Note: Criterion is not available to applicants who are non-resident, 21 years of age or older, or international.)

Conditional Admission

Conditionally-admitted students have post-matriculation requirements and restrictions discussed below under Conditionally Admitted Students.

Above but with college GPA under 2.0 and one of:

- Only one college term taken
- Approved petition to Public Health Appeals Committee

Transfer Students with Fewer Than 24 Credit Hours

Good Standing

College GPA of 2.0 or higher

One of:

- Graduation from accredited high school
- Successful completion of General Education Development (GED) tests

High school GPA of 2.5 or higher

Pre-college curriculum (PCC) GPA of 2.5 or higher (Note: pre-college curriculum (PCC) criterion are waived for applicants who are non-resident, 21 years of age or older, or international. PCC is described in Undergraduate Catalog, Admission to the University of Louisville (p. 19)).

One of:

- ACT/SAT score of 21/980 or higher
- ACT/SAT score of 19/940 or higher AND PCC GPA of 3.0 or higher (Note: Criterion is not available to applicants who are non-resident, 21 years of age or older, or international.)

Conditional Admission

Conditionally-admitted students have post-matriculation requirements and restrictions discussed below under Conditionally Admitted Students.

Transfer Students with 24 Credit Hours or More

Good Standing

College GPA of 2.0 or higher

Conditional Admission

Conditionally-admitted students have post-matriculation requirements and restrictions discussed below under Conditionally Admitted Students.

Petition approved by Public Health Appeals Committee.

Post-Baccalaureate Students

Good standing

Degree posted

Kentucky Public Health Worker (not meeting criteria for any of the above categories)

Conditional Admission

Conditionally-admitted students have post-matriculation requirements and restrictions discussed below under Conditionally Admitted Students.

One of:
Students are admitted to the J.B. Speed School of Engineering by October 1 to enroll in the following Spring semester or May 15 to enroll in the following Fall semester.

In addition to the minimum grade requirements for Calculus I, General Chemistry I and Physics I, the Speed School of Engineering requires a minimum C-minus grade for any transferred course to be accepted as credit toward a degree. A transfer student must earn at least sixty semester hours applicable toward the baccalaureate degree at a fully accredited four-year college or university. Thirty of the last thirty-six semester hours must be earned at the University of Louisville and at least 25 percent of the degree program hours must be earned at University of Louisville.

Admission Status
Successful applicants who satisfy all Speed School requirements will be granted unconditional admission with a Good Standing status. If there is a deficiency in academic qualifications, successful applicants will be admitted to the College of Arts and Sciences in a pre-engineering curriculum.

Credit-by-Exam
A student who was conditionally admitted is required to:

- Register for no more than 13 credit hours of coursework in the first semester and each semester thereafter until removed from conditional status.
- Obtain approval of the student’s academic advisor regarding courses for which they are eligible to enroll prior to registration.

A student is removed from conditional status after meeting each of the following:

- Successful completion of PHPH 100 Majoring in Public Health
- Successful completion of any required developmental courses
- University GPA of 2.0 or higher

Admission to the J.B. Speed School of Engineering

J.B. Speed School of Engineering
J.B. Speed Building, Suite 221
University of Louisville
Louisville, Kentucky 40292

Phone: (502) 852-6281
Email: speed@louisville.edu
Web: louisville.edu/speed

Admission Requirements
Students apply for admission to the J.B. Speed School of Engineering by completing a University of Louisville undergraduate application. The application and detailed directions are located online at louisville.edu/admissions/apply.

Students are admitted to the School of Engineering on either a degree seeking or non-degree seeking basis. High school visitors, visiting students from other institutions, auditors, post baccalaureate students, and continuing studies students are considered non-degree seeking. All other students are considered degree seeking. Applicants will be notified by the University’s Office of Admissions of their status and of the conditions of their enrollment at the time they are accepted. Students planning to earn degrees from the School of Engineering must be degree seeking in order for the credits they have earned to apply toward their degrees. Students remain in a degree-seeking status until they graduate, transfer to another college or university, or are suspended/dismissed.

Freshmen Students
Admission requirements vary between the different schools in the university. A student is eligible for admission to the academic programs of the School of Engineering upon the basis of courses taken in high school, grade-point average, and test scores achieved on either the ACT or SAT. To be considered for unconditional admission to the J.B. Speed School of Engineering, entering freshman students should meet the following requirements.

- High School Curriculum Requirements: All schools require graduation from an accredited high school and completion of the Kentucky Pre-College Curriculum requirements. In addition, Speed School requires successful completion of the following courses in high school:
  - Calculus or pre-calculus
  - Chemistry
  - Physics
  - ACT composite, science and math scores of 25 OR SAT combined CR +M score of 1130 and math score of 590. A 3.0 GPA on a 4.0 scale OR
  - ACT composite, science and math scores of 24 OR SAT combined CR +M score of 1090 and math score of 560. A 3.5 GPA on a 4.0 scale

Transfer Students
Students with fewer than 24 transferable semester hours are considered in a similar fashion as freshman students and must meet the admissions requirements for new freshmen and have a minimum college grade point average of 2.8. Students with 24 hours or more transferable semester hours must have a 2.8 college grade point average and at least B-minus grades in each of the following courses: Calculus I (MATH 205 or equivalent), General Chemistry I (CHEM 201 or equivalent), and Physics I (PHYS 298 or equivalent).

Transfer students must be admitted to the J.B. Speed School of Engineering by October 1 to enroll in the following Spring semester or May 15 to enroll in the following Fall semester.
Good Standing

Freshman students (and transfer students with less than 24 hours) who satisfy all requirements will be granted unconditional admission into the Department of Engineering Fundamentals with a Good Standing status. After one year in engineering fundamentals qualified students will be accepted into their major department. Transfer students who have completed all courses required by engineering fundamentals will be admitted directly into their major department.

Arts & Sciences Pre-engineering

Applicants who do not meet high school curriculum requirements for Speed School or are below grade point average or test score requirements, but still satisfy university admission requirements, will be admitted to Arts and Sciences in a pre-engineering curriculum. The pre-engineering curriculum prepares students for the mathematics and sciences courses in the Speed School curriculum. Students who complete the pre-engineering curriculum with at least B-minus grades in MATH 205, CHEM 201, and PHYS 298 and have a cumulative grade point average above 2.8 will be considered for an intra-university transfer to Speed School.

Pre-engineering students must be admitted to the J.B. Speed School of Engineering by October 1 to enroll in the following Spring semester. A priority deadline of September 1 will afford students the best opportunity to register for available Spring courses.

Pre-engineering students must be admitted to the J.B. Speed School of Engineering by May 15 to enroll in the following Fall semester. A priority admission deadline of March 1 will afford students the best opportunity to register for available Fall courses.

Readmission

If a student has a break in enrollment of two or more calendar years, the student must apply for readmission by completing a University of Louisville undergraduate application. If admitted, the student will be subject to catalog requirements in effect at the time of readmission.

Non-degree Students

High school visitors, visiting students from other institutions, auditors, post baccalaureate students, and continuing studies students wishing to take courses offered by the School of Engineering must complete a University of Louisville undergraduate application. Upon admission, students may enroll in classes for which they have completed the prerequisites or by faculty permission. The credits earned by non-degree students typically will not apply towards program requirements if a student later becomes a degree seeking student.

Admission Requirements to Departmental Studies

A formal application for acceptance to departmental studies should be made during the semester in which the student will complete the core courses in engineering fundamentals. The application form, which indicates the student’s choice of specialization, is available from the engineering fundamentals advising office and should be returned to the office. Students are notified after semester grades are posted and qualifications are confirmed.

Acceptance into departmental studies is based upon requirements in effect when the student is admitted to engineering fundamentals. Current requirements are that a student must have a 2.25 grade point average (GPA) in the prescribed set of core courses. In addition, the student must be in good standing with the University, which requires an overall cumulative GPA of 2.25.
Campus Maps
Go to Campus Maps (http://louisville.edu/about/campuses.html) to view a current maps of all three (3) of the University of Louisville’s campuses.

Go to University Parking and Transportation Services (http://louisville.edu/parking/campus-maps) for information on UofL employee and student parking, as well as visitor parking.

Take a virtual tour (http://www.youvisit.com/tour/louisville) of the main, Belknap campus.
ACADEMIC SUPPORT

University Libraries

The extensive library system at the University of Louisville is designed to support undergraduate and graduate research; broad, university scholarship; and student and faculty success.

To these ends, the University Libraries provide services ranging from materials check-outs, research assistance, interlibrary loans and course reserves to loans of laptops, camcorders and flash drives. The libraries also provide study spaces, meeting rooms and presentation spaces. They house UofL resources like the Writing Center, the Delphi Center, and the TILL. Ultimately, University Libraries serve as academic common spaces for all students, faculty, and staff.

The University Libraries consist of:

- Ekstrom (Main) Library,
- Archives and Special Collections,
- The Margaret Bridwell Art Library,
- The Louis Brandeis Law Library,
- The Dwight Anderson Memorial Music Library, and
- The Kornhauser Health Sciences Library.

The Libraries’ collections are extensive. Total holdings exceed 2.2 million printed volumes; subscriptions to both print and electronic journals surpass 90,000. E-books, microfilm, and other formats such as DVDs are also included in the collection. Most of these materials can be found using the library’s website: louisville.edu/library.

In addition, the Libraries subscribe to over 300 online information databases in a wide variety of subject areas.

Interlibrary loan services provide study and research materials not owned by the University of Louisville Libraries from collections of other libraries.

For more information about the university’s libraries go to louisville.edu/undergraduate/about/libraries/.

Information Technology Services

The Office of Information Technology (IT) offers numerous direct technology, computing and printing solutions in support of University of Louisville’s teaching, research and service missions. Serving students, faculty and staff, IT maintains campus wired and wireless networks and delivers enterprise administrative and academic applications. More information concerning IT services can be found at louisville.edu/it.

The university’s most popular websites feature University of Louisville’s email and ULink services. Students can log into their email as part of the Windows Office 365 tools provided to enrolled students at louisville.edu/email. A secure portal to the university’s information and services, ULink, connects students, faculty and staff to all of the necessary campus and administrative environments.

IT runs an online technology store, iTech Express, with discounted software and downloads, and links to competitively-priced computers for students, faculty and staff. Check it out online at: louisville.edu/it/itechexpress.

IT’s HelpDesk assists the University of Louisville community daily with regard to technology questions and issues. The IT HelpDesk can be reached at (502) 852-7997 or louisville.edu/it/helpdesk for online assistance. Additionally, IT’s iTech Connect provides free face-to-face technology consulting for students, faculty and staff. Located in the lower level of the Miller IT Center on Belknap campus, iTech Connect can help troubleshoot various technology problems like wireless connections, antivirus protection and digital device management.

On each campus, multiple computing centers and labs provide access to academic software and the Internet. iTech Zone, in the lower level of the Miller IT Center, is a primary computing facility with individual workstations and collaborative work areas on the Belknap campus. At this location IT offers, through a partnership with REACH, peer tutoring on general computing essentials, Microsoft software and basic computer programming. Additional public workstations are located throughout University of Louisville in high-traffic locations for email and Internet access.

IT maintains the university’s extensive networking, including a 40 gigabit campus backbone network and a high-speed intercampus fiber network. Telephone services are provided through a voice over IP system equipped with emergency alerts. The university has access to high-speed Internet service through a 10Gbps connection to Internet2, the Kentucky Regional Optical Network (KyRON) and a 2Gbps Internet link to TWTelecom. Wireless Internet service is universally available for University of Louisville students, faculty and staff and guests across all campuses.

REACH (Resources for Academic Achievement)

Resources for Academic Achievement (REACH) is the university’s centralized academic support unit for undergraduate students. REACH conducts multiple services and programs from the Belknap Academic Classroom Building (BABC), Ekstrom Library, and the Miller Information Technology Building (MITC).

These academic support services and retention programs offer students the opportunity to better prepare and adapt to college life and to improve their academic skills and performance in college courses. REACH’s mission statement, values statement, goals, and annual reports are available at: reach.louisville.edu/about

The Learning Resource Center (BABC 248, 250)

Scheduled Tutoring offers students small group tutoring sessions each week for many 100-, 200-, and some 300-level courses. These sessions provide guided study and review of course material. Tutoring requests can be submitted online and appointments are scheduled for 60-minute recurring, weekly sessions. Online tutoring sessions are also available,
and scheduled drop-in hours are available for select science lab courses, select languages, and other courses.

Find more information at: reach.louisville.edu/tutoring/tutor-scheduled.html

**Supplemental Instruction (SI)** is a series of weekly review and discussion sessions attached to specific courses that are historically difficult for students. SI integrates *how to learn with what to learn*. SI sessions allow students to get extra help beyond the normal classroom. SI is voluntary and free, with sessions designed to assist small and large groups of students.

Find more information at: reach.louisville.edu/tutoring/tutor-SI.html

**Individual Tutoring** is available for students who have documented physical or learning disabilities and need accommodated tutoring sessions. Documentation must be provided to REACH from the Disability Resource Center at the time of a student’s request. Students receive individualized tutoring and additional tutoring time in scheduled onsite appointments each week.

Find more information at: reach.louisville.edu/tutoring/graduate/

**Language Conversation Tables** offer students conversation opportunities for practice in speaking a new language. Tables vary each semester, but may include Spanish, French, Arabic, ASL, German, and others. These sessions are useful, additional practice to prepare for the classroom and real-world scenarios.

Find more information at: reach.louisville.edu/tutoring/computer/

Special Topics in Supplemented College Reading (GEN 105) (BACB 248) is an intervention course for college readiness required by Kentucky state law for first-time, first-year and transfer students with less than 24 credit hours who are admitted to the university with identified college reading deficiencies. Students are required to register for a section of GEN 105 (1 credit hour) in their first college semester. All GEN 105 course sections require concurrent registration with a linked general education course in Biology, Psychology, or History.

Find more information at: reach.louisville.edu/courses/gen105.html

**The Hackademic Series**, available to all UoL students, are 50-minute workshops on key topics that impact students’ academic success. Topics always include college strategies, e.g., time management, note-taking, textbook reading, test-taking, preparing for finals, and becoming a disciplined student. The Hackademic Series is offered both online and on-site.

Find more information at: reach.louisville.edu/seminars/seminars.html

**The Math Resource Center (BACB 241)**

The Math Resource Center (MRC) offers drop-in tutoring to students enrolled in most 100 and 200 level university mathematics courses, Special Topics in College Mathematics courses (GEN 103 and GEN 104), and JCTC Pathways courses offered onsite at the university. Resources include knowledgeable tutors, a mini-computer lab for mathematics software and Web-based instruction, course textbooks, and solution manuals. The MRC also offers online tutoring appointments for select math courses.

Find more information at: reach.louisville.edu/tutoring/tutor-drop-in.html

**The Speed Calculus Preview Program** is a fee-based summer program designed for first-year engineering students. Students are referred to this program based on scores earned on the online Algebra Readiness Exam available to all admitted engineering students prior to their first fall semester. This program provides an advanced algebra review to help students prepare for calculus in the J.B. Speed School of Engineering.

Find more information at: reach.louisville.edu/summermath/speed-calculus-preview-program-1

**Special Topics in College Mathematics** (GEN 103/GEN 104) are intervention courses for college readiness required by KY state law for students who are admitted to the university with identified college mathematics deficiencies. Placement in Supplemented or Regular GEN 103 (for non-STEM majors) or GEN 104 (for STEM majors) is based on successful completion of a basic mathematics course (e.g., MAT 55 or MAT 65 in KCTCS), ACT or SAT Math subscore, or a placement test score that does not meet the requirement for the general-education MATH course for the student’s intended major. GEN 103 and GEN 104 are computer-based courses (one elective-credit hour each) that focus on algebra topics—such as linear equations and factoring—and utilize an online homework, tutorial, and assessment program. Successful completion of Supplemented or Regular GEN 103 and/or GEN 104 is required for entry to general-education mathematics courses.

Find more information at: reach.louisville.edu/courses/computer/

**Computer Resource Centers**

The Computer Resource Center (CRC) tutors help students understand the most common technologies used on campus, including Microsoft Office Suite products, Blackboard, ULink, email, wireless network access, password assistance, and basic computer operations. CRCs are located in Ekstrom Library and in the Miller Information Technology Center (MITC).

Tutoring and test review sessions are provided for College of Business courses in Computer Information Sciences (CIS 100 through 300) on topics in C# programming, MS Excel, and MS Access. The CRC also supports Speed School of Engineering courses in Computer Engineering and Computer Science (CECS) by assisting students with C, C++, and Java programming. No appointments needed.

Find more information at: reach.louisville.edu/tutoring/computer/
Americans with Disabilities Act

The University of Louisville is committed to providing equal opportunity for persons with disabilities. This commitment includes complying with the Americans with Disabilities Act of 1990 (ADA) and Section 504 of the Rehabilitation Act of 1973.

In addition, all of the University’s websites and online courses will comply with the webpage design standards established by the World Wide Web Consortium (W3C). The University of Louisville strives to maintain a barrier-free, welcoming environment for all qualified persons with disabilities.

The university’s ADA Coordinator, oversees the University’s compliance with the ADA and Section 504, and assists unit heads in meeting their equal opportunity obligations. The ADA coordinator is located in the Dean of Students suite in the SAC:

ADA Coordinator
Brian Bigelow
SAC-W301
(502) 852-5787

The Disability Resource Center staff (502 852-6938) will assist the University community by serving as an information resource center and coordinating support services for students with disabilities. No otherwise qualified individual with a disability shall, solely by reason of such disability, be excluded from participation in, be denied benefits of, or be subjected to discrimination in university programs. The President, Board of Trustees, Student Government, Faculty and Staff Senates affirm UofL’s long standing and continuing commitment to Equal Opportunity for Americans with Disabilities.

The university has a continuing responsibility to monitor and maintain its compliance with the Americans with Disabilities Act of 1990 (ADA) and Section 504 of the Rehabilitation Act of 1973 (Section 504) and their implementing regulations. Internal student complaints alleging non-compliance with the ADA and/or Section 504 should follow the following procedure.

The university’s formal complaint procedure provides for prompt and equitable resolution of complaints.

Complaints should be directed to the UofL ADA Coordinator, Brian Bigelow, (502) 852-8757, or brian.bigelow@louisville.edu

Filing a formal complaint of disability discrimination

A complaint must be filed in writing with the Coordinator. The complaint should contain the name and address of the person filing it and a brief description of the alleged violation. Upon receipt of the written complaint, the Coordinator or his designee shall acknowledge receipt within five workdays.

A complaint should be filed within 180 days after the complainant becomes aware of the alleged violation; however, a complaint filed after that point may be investigated in accordance with this procedure as necessary, in the judgment of the ADA Coordinator, to ensure the university’s compliance with the ADA and/or Section 504.

An investigation, as may be appropriate, shall follow a filing of complaint. The Coordinator’s office shall conduct the investigation. This University complaint procedure involves an informal but thorough investigation, affording all interested persons and their representatives, if any, an opportunity to submit information relevant to a complaint. The Coordinator will complete the investigation within 45 days of the receipt of the complaint wherever practicable.

Following completion of the investigation, a written determination as to the validity of the complaint and a description of the resolution, if any, shall be issued by the Coordinator’s office and a copy forwarded to the complainant and any individually-named respondent within 60 days of the date the complaint was filed. Should extenuating circumstances (e.g., unavailability of key witnesses, family emergency of investigative staff, etc.) prevent completion of the investigation and determination process within 60 days, the complainant and any individually-named respondents will be timely notified in writing, and will be kept apprised of the status of the Coordinator’s handling of the complaint through resolution. In all disputes arising under Section 504 or the ADA the proper standard of proof is preponderance of the information (i.e., more likely than not that the violation alleged in the complaint is true).

The Coordinator’s Office shall maintain the files and records relating to the complaints filed.

Requesting Reconsideration of a Determination

The complainant (and any individually named respondent, as appropriate) may request a reconsideration if dissatisfied with the Coordinator’s determination. The request for reconsideration should be made in written or electronic form within 15 workdays to the Coordinator’s Office.

Requests for reconsideration must present information showing that:

• The original determination applied the incorrect standard or applied the applicable standard incorrectly to the facts of the case; or

• New information that might affect the outcome of the determination but was not available to the Coordinator at the time of the original determination is now available and should be considered.

The Coordinator shall, barring extenuating circumstances that preclude a more timely response (in which case the complainant shall be updated as to the status of the reconsideration request), rule upon the request for reconsideration within 15 workdays after receipt of the request.

An Internal ADA complaint does not preclude other remedies.

The right of a person to a prompt and equitable resolution of the complaint filed hereunder shall not be impaired by the person’s pursuit of other remedies such as the filing of a discrimination complaint with the responsible federal department or agency. Use of this complaint procedure is not a prerequisite to the pursuit of other remedies, nor
All students enrolled in a program of study that requires them to train in the University’s Affiliated Hospitals such as the MD, DMD, Dental Hygiene, Audiology, and Speech Pathology programs are required to carry major medical insurance and pay a non-waivable Health Professionals Health Fee (HPHF). Students in these programs are charged for the university-sponsored insurance plan but may waive it with proof of alternate coverage. A university-sponsored student insurance plan which complies with the Affordable Care Act (ACA) is available for students to purchase.

For additional information about Campus Health Fees, contact the Insurance Advocate via email at stuins@louisville.edu or visit louisville.edu/campushealth/information/fees/primary-care-health-fee

**Campus Insurance Advocate**

**PEACC—Sexual Assault and Domestic Violence Program**
**Prevention, Education, and Advocacy on Campus and in the Community**
The PEACC Center believes that every student has the right to live, learn, and love free of violence and fear. PEACC provides services and programs that address power based personal violence such as dating violence, stalking and sexual assault. Students who have been directly impacted by personal violence can access free and confidential support, resources and referrals, and a survivor’s network. Services are confidential to the limits provided by law.

In addition, the PEACC Center aims to prevent power based personal violence by offering training, community discussions, art and activism projects, and awareness events like the Take Back the Night annual march and rally.

Email: oncampus@louisville.edu

Career Development Center
The Career Development Center at the University of Louisville assists University of Louisville students and alumni in the process of exploring, deciding, and managing their unique career goals during college and after graduation. Whether a freshman or senior, graduate student or alumnus, the earlier you become familiar with the Career Development Center the sooner you’ll be on your path to career success in today’s competitive workplace.

How Can We Help?
Our professional staff can meet with you one-on-one to help you choose a major and a potential career path. The Cards Career Navigator program delivers this assistance to first year students. The Career Decision Making course (GEN 201), a 1 credit-hour course for all majors, is available in the Fall/Spring semesters to assist with career decision-making.

Exploring Majors and Careers
The Career Development Center provides specific services to help you choose a major and a potential career path. The Cards Career Navigator program delivers this assistance to first year students. The Career Decision Making course (GEN 201), a 1 credit-hour course for all majors, is available in the Fall/Spring semesters to assist with career decision-making.

Resumes and Cover Letters
Resumes and cover letters are important documents for your job search that work together to help you secure an interview. We can help you develop a customized document that tells your career story on paper in an efficient way.

Job Search Using Cards Career Connection
Cards Career Connection powered by Handshake, a career development platform exclusively for UofL students and alumni, lists part-time jobs on and off campus, full-time, internships and co-ops, for all majors — both entry level and experienced. Visit louisville.edu/career and click “Find Jobs & Internships” or “Cards Career Connection” to login with your ULink ID and password.

Internships
Internships are essential “resume-building” experiences in today’s job market and help you to apply what you’ve learned in the classroom. The Career Development Center is here to help you find the opportunity that best fits you and your professional goals. Most experiences are paid and can even be applied toward academic credit.

Practice Interviewing
Great resumes get interviews and great interviews land jobs. Let us help you practice your interviewing skills, either in a personalized appointment or through our online video interviewing tool, Interview Stream.

Building Career Connections
It’s not just what you know, it’s also who you know. The Career Development Center can help you develop a strategy to expand your network based on connections with those you already know, professional associations relevant to your field and through a presence on social media sites like LinkedIn®.

Customized Presentations and Events
The Career Development Center can provide your class, registered student organization (RSO), Greek organization or class with a tailored presentation on valuable career topics such as resume and cover letter writing, interviewing skills, importance of internships, social media and professionalism and workshops for specific student populations. Visit our homepage, scroll to the bottom and click “Request a Workshop” at louisville.edu/career.

Graduate and Professional School
The Career Development Center can assist you with the selection and application process and help you develop the knowledge and skills needed to manage a successful grad or professional school application.

How to Get Started?
Make an appointment with an Assistant Director by calling (502) 852-6701 or by setting up an appointment online at louisville.edu/career.

Where are We Located?
University of Louisville Career Development Center
Houchens Building, Lower Level (LL 03)

or online at:

- twitter.com/UofLCareers (https://twitter.com/UofLCareers)

Counseling Center
The mission of the Counseling Center is to provide services and programs that support the psychological well-being, holistic development, and retention of University of Louisville students. The Counseling Center provides short term individual, group, and couples counseling, outreach, urgent consultation, and psychological testing for currently enrolled students (psychiatric services are provided by Campus Health).

Our clients seek services for a variety of areas of concern, including psychological, personal/social, academic, and career issues.
There is a fee for psychological testing, but all other services are covered by your student fee. Services are confidential to the limits provided by law.

We are committed to diversity in the provision of services and in supporting the University community, while honoring the unique needs and concerns of individuals and traditionally underrepresented groups.

The Disability Resource Center coordinates services and programs for students and prospective students with disabilities. Accommodations and support services are individualized, depending on the needs of each student. Services and programs are designed to assure access for qualified students with disabilities to all programs and activities of the university.

Students are strongly encouraged to make early contact with the Disability Resource Center to assure adequate time to implement support services.

Please contact the Disability Resource Center at (502) 852–6938 or visit our webpage at louisville.edu/disability.

Drug-Free Schools and Campuses

Purpose and Goal

The University of Louisville is committed to protecting the safety, health and wellbeing of all students, faculty, and staff and other individuals in our workplace. As a recipient of federal grants and contracts, the university gives this notice to students, faculty, and staff that it is in compliance with the Drug-Free Workplace Act of 1988 (Pub. L. 100-690, Title V Subtitle D) and the Drug-Free Schools and Communities Act Amendment of 1989. Students, faculty and staff are herein notified of the standards of conduct that will be applicable while on university property, business, and/or at university-sponsored activities. This policy is incorporated and is a part of the official University of Louisville Policies and Procedures.

This policy recognizes that student, faculty, and staff involvement with alcohol and other drugs can be very disruptive, adversely affect the quality of work or academic performance of student, faculty, and staff, pose serious health risks to users and others, and have a negative impact on productivity and morale.

As a condition of employment or enrollment, the university requires that students, faculty, and staff adhere to a strict policy regarding the use and possession of drugs and alcohol. The university encourages students, faculty, and staff to voluntarily seek help with drug and alcohol problems.

Prohibited Behaviors

Under university regulations, federal law, state law, and, in some instances, local ordinance, students, faculty, and staff are prohibited from the unlawful possession, use, dispensation, distribution, or manufacture of illicit drugs on university property, on university business and/or at university-sponsored activities. Under this policy, students, faculty and staff are required to abide by state laws concerning alcoholic beverages.

Kentucky law (KRS 244.085: lrc.ky.gov/Statutes/statute.aspx?id=45137) states that, if one is under the age of 21, it is unlawful to:

• Possess or consume alcoholic beverages,
• Misrepresent one's age for the purpose of purchasing alcoholic beverages, or
• Use a fake ID in an attempt to purchase alcoholic beverages.

It is unlawful for anyone of any age to:

• Procure any alcoholic beverages for anyone under 21 years of age,
• Drink or be intoxicated in a public place

University campuses and buildings are considered as public places for purposes of these laws, except for a facility licensed to serve alcoholic beverages, and a facility used as a private residence, unless university regulations state otherwise. Ordinances of the Greater Louisville area parallel the state laws.

The specifically defined standards of conduct, the disciplinary procedures, and the appropriate sanctions are detailed in the Code of Student Conduct (p. 87). Personnel Policies and Procedures (PER-5.01), Staff Handbook (Disciplinary Action, page 8.2) and The Redbook.

In addition, it is a violation of state law to operate a motor vehicle while under the influence of any substance that may impair one's driving ability (drugs or alcoholic beverages).

Prescription and over-the-counter drugs are not prohibited when taken in standard dosage and/or according to a physician's prescription. Any student, faculty, and staff taking prescribed or over-the-counter medications will be responsible for consulting the prescribing physician and/or pharmacist to ascertain whether the medication may interfere with job or academic performance.

The illegal or unauthorized use of prescription drugs is prohibited. It is a violation of our drug-free workplace to intentionally misuse and/or abuse prescription medications. Appropriate disciplinary action will be taken if job or academic performance deterioration and/or other accidents occur.

Consequences for Violating This Policy

Under university regulation, students who violate this standard of conduct are subject to student conduct action from a warning to
becoming alcoholics. That children of alcoholic parents are at greater risk than other children of abnormalities and intellectual disabilities. In addition, research indicates with fetal alcohol syndrome. These infants have irreversible physical Mothers who drink alcohol during pregnancy may give birth to infants alcohol, particularly when combined with poor nutrition, can also lead to consumption and use of drugs may alter behavior, distort perception, impair thinking, impede judgment, and lead to physical or psychological dependence.

Alcohol and/or drug use may lead to the deterioration of physical health by causing or contributing to various health conditions including but not limited to fatigue, nausea, personal injury, insomnia, pathological organ damage, some forms of cancer, pancreatitis, heart attack, respiratory depression, birth defects, convulsions, coma, and even death. Alcohol and drug use may also result in deterioration of mental health by causing or contributing to various conditions such as increased aggression, hallucinations, depression, disorientation, and psychosis.

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increases the incidence of a variety of aggressive acts, including spouse and child abuse.

Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person’s ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described. Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and intellectual disabilities. In addition, research indicates that children of alcoholic parents are at greater risk than other children of becoming alcoholics.

Training, Counseling, and Resources
The University of Louisville is committed to the overall health and well-being of students, faculty, and staff and encourages a compassionate university.

AlcoholEdu and Haven online prevention programs
AlcoholEdu alcohol prevention program and Haven sexual violence prevention program serve as starting points for ongoing campus prevention efforts. Every incoming undergraduate student is required to take AlcoholEdu (up to age 21) and Haven (all ages). Emails are sent to their UofL email account (beginning about 5 weeks before their first semester begins) to provide specific directions for logging on to AlcoholEdu and Haven. AlcoholEdu and Haven are two separate programs, each with two parts. There is no fee for either program.

Visit louisville.edu/campushealth/alcoholedu-haven for more information.

Kentucky Medical Amnesty Law
KRS 244.992 Medical amnesty for persons reporting an alcohol overdose:

1. Requests emergency medical assistance for himself or herself or another person;
2. Acts in concert with another person who requests emergency medical assistance; or
3. Appears to be in need of emergency medical assistance and is the individual for whom the request is made

See KRS 244.992 at lrc.ky.gov/statutes/statute.aspx?id=42516 for full text.

Good Samaritan Consideration
The health and safety of our students is of the highest priority. At times, students may need immediate medical or other professional assistance. However, students may be reluctant to get help because of concerns that their own behavior may be a violation of the Code of Student Conduct (p. 87). Although policy violations cannot be overlooked, the University will consider the positive impact of reporting an incident when determining the appropriate response for policy violations.

Continuous efforts are made to make students, faculty, and staff aware of programs that provide information and professional services on matters related to the abuse of alcohol and drugs.

The University Counseling Center and other university-related programs, each with two parts. There is no fee for either program.

Visit louisville.edu/campushealth/alcoholedu-haven for more information.

University of Louisville
with alcohol and substance use concerns are provided with support, appropriate therapeutic interventions, and referrals when necessary.

Find Your Fit (FYT)

Find Your Fit (FYF) is the university’s current Quality Enhancement Plan (QEP) as required by its accrediting agency, the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). FYF was launched in 2017 as an opportunity to foster a campus-wide conversation about student learning and success in the crucial second year of undergraduate studies. At the heart of this initiative is the design, implementation, and assessment of a new three-credit elective seminar, ECPY 302 Seminar on Personal and Academic Inquiry offered through the Department of Counseling and Human Development (ECPY), College of Education and Human Development.

This small seminar experience is designed for second-year undergraduate students who are undeclared, are pre-unit majors, or are in transition between majors. Students will explore an academic topic or theme of personal interest related to the seminar theme as they develop, complete and present their work on an original inquiry project. They will also engage in a variety of individualized and group activities to assist them in choosing a major and career path. Students will document their journeys and produce an Academic and Personal Plan in which they integrate their new knowledge and insights about the seminar topic, themselves, and their major and career trajectories.

Find Your Fit builds on the university’s prior QEP Ideas to Action (i2a, louisville.edu/ideastoaction), which focused on fostering students’ ability to think critically. The university has integrated key components of Ideas to Action into the undergraduate curriculum and experience. As we help our students “find their fit” academically and align their goals with a career path, UofL’s QEP project is poised to have long-term implications for how we support our students inside and outside the classroom.

For more information about FYF and ECPY 302, visit the Find Your Fit website: louisville.edu/findyourfit.

International Center

The International Center is the university-wide clearinghouse of information and resources for UofL faculty, students, and researchers involved in academic exchanges, overseas “live and learn” opportunities, and academic research.

The International Center promotes energetically the internationalization efforts of the University. It provides advice and counsel to UofL faculty, students, and researchers traveling abroad and assistance to international students, faculty, and researchers coming to UofL for study or work.

Interested individuals can email the International Center intcent@louisville.edu or visit louisville.edu/internationalcenter.

Off-Campus Student Services

The Student Involvement Department provides opportunities for students who reside off campus to become engaged and connected to the university community through various programs and services. Through student organizations, events, and services, off-campus students can fully participate in the university.

The off-campus student lounge in Davidson Hall, Room 105, and the Student Activities Center provide services and the “living room” areas for off-campus students. Whether enrolling in one class or embarking on a new career, these areas provide students with a friendly, supportive environment where they may come for information, advocacy or a place to study or relax.

For more information, stop by and see us in the Student Activities Center Room W310 or give us a call at (502) 852-6691.

Testing Services

This office serves as a national and university testing agency.

Office Location:

Testing Services
Davidson Hall, Room 310
Louisville, KY 40292

Campus testing includes: UofL faculty make-up exams; placement exams (Math/Reading); credit by exam (CLEP); Correspondence exams; and CIS 250. The ACT, SAT, and LSAT are also administered through Testing Services.

Testing Service’s Prometric center offers individual computerized exams such as GRE, Praxis, and TOEFL. Registration materials are available online at louisville.edu/testing.
FINANCIAL INFORMATION

Financial Settlement

Continuing Registration
Tuition and fees are due on, or before, the designated due date for the semester. Payment Due Dates are noted on the Bursar web page at louisville.edu/bursar. Payment may be made by cash, paper check, money order, or financial aid credit. All electronic check (ACH) or Credit Card payments (transaction fee applies) may only be remitted electronically via the web payment portal. Payments also may be made by mail, by use of the deposit box located in the front entrance of the Houchens Building, or at the Office of the Bursar.

For Payment Option information visit: louisville.edu/bursar

Failure to receive a Statement of Account will not relieve the student of the responsibility for making financial settlement by the designated due date. Registrations which are not financially settled by the designated due date will be placed on financial hold and affected students will not be permitted to add or swap classes until their student account is financially settled.

The due dates are listed in the current Registration Information newspaper and on the Bursar’s website louisville.edu/bursar (Payment Due Dates).

Regular Registration
Students should be prepared to fully settle financial obligations by the last day to drop/add for the semester. Failure to fully settle financial obligations may result in financial penalties.

Financial Settlement Options
Due dates, payment information, payment plan options, and payment plan forms for specific semesters are updated regularly on the Bursar’s website: louisville.edu/bursar.

Please address your questions to the Bursar’s Office by email at bursar@louisville.edu.

Financial Penalties
Students whose accounts are not paid by established semester deadlines may be subject to financial penalties. Students with unpaid account balances will be placed on Financial Hold by the Bursar’s Office. Students placed on Financial Hold become ineligible for further registration and transcripts will not be released until the student account is paid in full.

A late payment fee of $100.00 may be assessed when student accounts are not paid by the last day to drop/add.

A student whose payment is not honored by the bank on which it was drawn may be assessed a return payment fee. If restitution is not made within 10 days of notification, the student may be subject to course cancellation and/or legal action.

Debtors who do not make satisfactory payment arrangements on their past due accounts may have their accounts placed with a collection agency. Students will be responsible to reimburse the University for the fees of any collection agency, which may be based on a percentage of the delinquent account balance (to a maximum of 40 percent of the delinquent account balance), and will also be liable for all reasonable attorneys’ fees and costs and expenses incurred by the University in its collection efforts. The University of Louisville, or associated vendor partners, may also report to the credit bureau organization(s) any information regarding any unpaid obligation.

Withdrawal Policy
The effective withdrawal date is the date on which the withdrawal is processed in the Student Records System. This date is used in calculating any applicable tuition reduction.

Tuition Reduction
When a student officially withdraws from the University or from any course, or courses, for which hourly tuition rates apply, tuition and student activity fee charges will be adjusted according to the tuition reduction schedule printed in the Registration Information newspaper. The full amount of tuition/fee charges for the semester will be due unless the withdrawal occurs during the tuition reduction period. The tuition reduction schedule for each semester is available on the Bursar’s website: louisville.edu/bursar (Tuition Adjustment Schedule).

This policy applies to all tuition and student activity fees except for nonrefundable deposits. Course fees, special fees, and laboratory fees are reduced only with the 100% adjustment.

Financial Aid Recipients
Determinations regarding refunds of resulting credit balances will be based on regulations governing the financial aid awarded to the student. Federal regulations mandate that students have the right to cancel all or a portion of an EFT loan.

To request cancellation of all or a portion of your loan, contact the Financial Aid Office in writing:

Financial Aid Office
University of Louisville
Louisville, KY 40292

Office of Student Financial Aid
The Office of Student Financial Aid serves prospective students, current students, and their parents with financial aid questions and needs.

Website: louisville.edu/financialaid
E-mail: finaid@louisville.edu
Call center: (502) 852-5511
Campus location: 110 Houchens Building, Belknap Campus
Website
On the Student Financial Aid website (http://www.louisville.edu/financialaid), visitors can access the following:

- Term-specific information on aid disbursement, residual funds, and financial aid advances;
- Financial aid news and upcoming important dates;
- Aid application and processing instructions;
- Award sources and types;
- UofL and outside scholarship postings;
- Consumer information.

E-Mail Service Account
Send your e-mail questions to finaid@louisville.edu. For specific account information, current students must e-mail the office from their UofL e-mail account. E-mail responses typically occur within 3 business days.

Call Center
Contact the call center at (502) 852-5511 from 9:00 a.m. to 5:00 p.m. Monday through Friday. On Thursdays, the call center opens at 12:30 p.m.

This service is intended to assist prospective students, current students, and parents with their general financial aid questions. We ensure students' privacy by not disclosing account-specific information. Current students should have their student ID number ready when calling.

Office Hours
The Student Financial Aid Office provides walk-in counseling to both current and prospective students Monday, Tuesday, Wednesday, and Friday from 9:00 a.m. until 5:00 p.m.

On Thursdays, the office and call center are open from 12:30 p.m. to 5:00 p.m.

Check the Student Financial Aid Office website (http://louisville.edu/financialaid) for special hours during the August and January class registration periods.

Residency for Tuition Purposes
Initial Determination and Deadline to Appeal
The initial determination of residency status is made during the admission process. A status may be appealed by filing an affidavit and documentation with the Registrar's office no later than 30 calendar days after the first day of classes of the term for which a determination of residency status is requested. Academic calendars are available on the university web site and with the Offices of Admission.

Pursuant to the residency regulation, 13 KAR 2:045 (http://www.lrc.ky.gov/kar/013/002/045.pdf), an institution may set other deadlines for submission of other information required by the institution in a determination of residency status. Information packets are available from the residency website (http://www.louisville.edu/residency).

Applications for Change in Residency Status and Appeals
Application for change in residency classification for purpose of tuition and fee assessment by a student enrolled in or an applicant to a program at the University of Louisville ("University") shall be made in writing to the residency appeals officer for initial consideration along with such information forms as the residency appeals officer may specify. The application for a change in residency classification must be filed no later than thirty (30) calendar days after the first day of classes of the academic term for which the change is requested. Appeals of residency determinations shall be based on administrative regulations promulgated by the Kentucky Council on Postsecondary Education. A written appeal of the decision of the residency appeals officer must be postmarked no later than fourteen calendar days from the date of receipt of notification of the residency appeals officer's written decision.

The Residency Review Committee is appointed by the executive vice president and provost (or designee) and shall be composed of four faculty and/or staff members and one student. The chairperson shall be elected by the committee. The faculty and/or staff members normally shall have staggered two-year appointments; the student member shall have a one-year appointment. The committee shall have authority to establish procedural rules and schedule meetings. A quorum shall consist of three members, and a quorum shall be necessary for committee action.

The Residency Review Committee shall consider appeals from applicants whose initial request for change in residency status has been denied by the residency appeals officer based upon the applicant's written appeal and the file in that matter to the extent provided by the Family Educational Rights and Privacy Act, 1974 (FERPA). The applicant shall be notified in writing as to the committee's decision.

If the decision of the committee is adverse to the applicant, the applicant may request a formal hearing by submitting a written request to the executive vice president and provost (or designee). This request must be postmarked no later than fourteen (14) calendar days from the date of receipt of notification of the committee's written decision.

The executive vice president and provost (or designee) shall appoint a hearing officer from outside the University to preside over formal residency hearings. Formal hearings shall be arranged based on a timely request from the applicant. The formal hearing shall provide for due process, including notice of hearing, examination of the information on which the University decision is based, and the right of an applicant to be represented by legal counsel and to present information and testimony in support of a claim of Kentucky residency. Hearing procedures will be consistent with 13 KAR 2:045 (http://www.lrc.ky.gov/kar/013/002/045.pdf).

The hearing officer shall make a report with findings of fact and a recommendation to the executive vice president and provost (or designee) with a copy to the applicant. The executive vice president and provost (or designee) will decide the appeal on the record on behalf of the University and the Board of Trustees and will notify the applicant in writing within thirty days of receipt of the hearing officer's report. In the event the decision of the executive vice president and provost (or designee) is not in accord with the recommendation and findings of the hearing officer's report, a written explanation will be provided to the applicant.

Council on Postsecondary Education Administrative Regulation
Relates to: KRS Chapter 13B, 164.020, 164.030, 164A.330(6).

Necessity, Function, And Conformity
KRS 164.020(8) requires the Council on Postsecondary Education to determine tuition and approve the minimum qualifications for admission
to a state-supported postsecondary education institution and authorizes
the council to set different tuition amounts for residents of Kentucky
and for nonresidents. This administrative regulation establishes the
procedure and guidelines for determining the residency status of a
student who is seeking admission to, or who is enrolled at, a state-
supported post-secondary education institution.
UNIVERSITY-WIDE ACADEMIC POLICIES

Clinking on the links listed below allows access to pages detailing broader areas of academic policy as well as individual pages devoted to specific policies.

These policies are effective August 20, 2018 (Fall 2018 semester). Students enrolled in a term before this effective date should consult with an advisor in their enrollment unit (http://louisville.edu/advising/centers) if they feel that they are disadvantaged by any change from 2017-18 policies.

Previous catalogs are available via the archive page of this catalog (p. 791). Reference copies of the university catalog are maintained by University Libraries, the university registrar, the Student Government Association (SGA) Office, the student grievance officer, and the Dean of Students/Vice Provost for Student Affairs.

Reference copies of the university catalog are maintained by University Libraries, the university registrar, the Student Government Association (SGA) Office, the student grievance officer, and the Dean of Students/Vice Provost for Student Affairs.

**Academic Advising**

Academic Advising at the University of Louisville is an on-going, intentional, educational partnership dedicated to student academic success. More information about academic advising can be found within the University Wide Policies section (p. 54) of this Undergraduate Catalog.

**Flight Plan**

Flight Plan is a university-wide initiative that assists students in staying on course to graduate in four years or in the timeframe of their choice. Students learn about majors and how they connect to careers and then select a Flight Plan that meets their interests and their level of skills. Academic progress toward degree completion is monitored and students not meeting the published milestones for their Flight Plan must meet with an academic advisor to develop a plan to get back on course or select a different Flight Plan.

More information about Flight Plan can be found at louisville.edu/flightplan.

**Athletic Academic Services**

This office provides academic support for all students involved in the University’s intercollegiate athletic programs. The academic performance of all student-athletes is monitored during the semester as well as their progress toward graduation. A liaison is maintained with the faculty through close collaboration with the Committee on Academic Performance (CAP) and Faculty Athletic Representative (FAR) – Elaine.Wise@louisville.edu.

Services offered include academic counseling, tutoring, objective based study hall, career services, computer services, accommodative learning services for student-athletes with learning challenges, and referral to other university offices to ensure that student-athletes are informed about other available resources. The office also advises several Registered Student Organizations which provide opportunities for student-athletes to get involved on campus and in the community. Additional information can be found online at UofLsports.com/school-bio/lou-academic-services.html (http://www.uoflsports.com/school-bio/lou-academic-services.html).

**Auditing Courses**

Audited courses do not earn credit, although the transcript will indicate that the course was taken as an audit. Because audit status is offered only on a space available basis, students may not register for a class in an audit status during early registration, nor may a student change from graded to audit status during that period. Students may register for classes in audit status during regular registration and then only with the written approval of the instructor of the course. Not all instructors allow auditors. Work expectations of auditors can vary across courses and instructors, and the specific work expectations that will warrant the audit designation on the transcript should be confirmed with the instructor facilitating the course. Auditors who do not fulfill the work expectations may be withdrawn from the course with a grade of W noted on the transcript.

Students who have registered in audit status will not receive credit for the course unless their registration has been changed officially from audit to credit by the published deadline for such a change. Students are allowed to change from audit to grade status or from grade status to audit status at any time from the beginning of regular registration through the last day to add a class with approval from the course instructor. Students are advised that such approval is the instructor’s prerogative, subject to completion of course prerequisites, and that audit status may have implications for financial aid eligibility. Any change of status must be submitted on a Drop/Add and Grade Type Change Form and turned in to the Registrar’s Office by the deadline. Students admitted to the unit as Auditors are not eligible to take courses for credit and may not change their class registration from audit to credit.

Students are cautioned that auditing a class cannot substitute for taking the course for credit if that course is part of the credit hour requirement for graduation, including both college-wide and major requirements. Any required course taken as audit must be retaken for credit in order to be counted toward a degree. Students are advised to consult with their academic advisor to determine if registration in audit status is appropriate. Students may enroll for credit in any course which was taken for audit, in a semester subsequent to the semester when the course was
Course Loads

Students may need to prove full-time/half-time status in order to be eligible for dependent insurance and to defer repayment of some loans, among other reasons. Definitions of full-time/half-time may be changed as required by federal government regulations for financial aid recipients. Students will be certified as full-time if registered for 12 or more hours in any semester, including summer. Cooperative internships also qualify for full-time status in some units. For half-time status, students must be registered for a minimum of 6 hours during any semester, including summer.

All baccalaureate degree programs require at least 120 credit hours, but more may be required in some programs. A typical schedule in the fall and spring semesters is 15 semester hours, but again varies by semester and program, ranging from 12 to 18 hours. Some programs also have planned summer loads.

Students in good standing typically may take no more than 18 hours in the fall and spring semesters. Students are also limited to 18 hours total for the summer semester, with limits of 4 hours in the three-week summer session and 7 hours during each five-week summer session. Under special circumstances, students who have completed a minimum of 30 hours at U of L and who have a cumulative grade point average of at least 3.0 may request permission through their advising center to take an overload. Overload approvals vary by unit. Typically, there are no overloads for summer. Permissions are handled by procedures determined by the Dean’s Office in each unit, and some units may accept petitions for course overloads above those listed above.

Students on academic warning or probation and students admitted in conditional status are limited to 13 hours during the fall and spring semesters and to a total of 10 semester hours during the summer sessions.

Pass/Fail

Undergraduate students in good academic standing may enroll in one undergraduate course each semester on a pass/fail basis, provided that the course is not used to meet a general education requirement, a programmatic requirement, a prerequisite requirement for admission to a degree program, or a foreign language requirement for a degree program. If the course is letter-graded, the instructor’s agreement (signature) must be secured by students for pass/fail grading to be applied to the course, and the student’s enrollment unit must approve the request. Courses completed on a pass/fail basis will not be assigned any quality points, but credit will be given if the grade assigned is a P. If the grade assigned is F, it will be calculated as such in the student’s grade point average. No changes from letter grade to pass/fail, or vice versa, may be made after the University’s deadline to withdraw from a course. No letter-grade equivalent for a P grade will be assigned or reported. This policy will not apply to courses taught only on a pass-fail basis, such as some internship and field experience courses.

Registration

Students may register for courses during the priority early registration period before the beginning of the semester. A student’s first opportunity is based on classification and alphabetic rotation. The early registration period is then followed by regular and late registration. The registration calendar for any term is published online by the office of the registrar. Initial registration and any later registration changes are usually completed by students through the registration link of the ULink online portal.

Initial registration must be completed by the date announced by the registrar, typically the Friday of the first week of classes. Students may make adjustments to their course schedule until the end of the first week for regularly scheduled fall and spring courses. For summer courses and courses with atypical duration, the last date to adjust schedules is specified by the registrar in the official registration calendar. This last day to adjust schedules is referred to as the last day to drop/add.

Students may add courses to their schedules until the last day to drop/add. No signature or other authorization is required if the added course is open for enrollment, if students meet all course prerequisites, and if such additional courses do not raise the students’ credit hours for the term above the maximum allowed by the students’ enrollment unit or academic standing. If the addition increases the tuition cost for the semester, the additional payment must be settled with the university bursar by the last day to drop/add.

Students can place their names on the waitlist for a course that is closed. Students are automatically moved from the waitlist to registration in the course as spaces open until the end of the first week of classes. Students may add their names to the waitlist until the third day of classes for regularly scheduled fall and spring courses, and the first day of classes for summer courses.

Students may drop a course from their schedule until the last day of drop/add. Courses that are dropped during the regular registration period are not listed on the transcript. Students should consider how dropping a course will affect their Flight Plan status, their progress toward their degree and their financial aid eligibility. Students who stop attending a class but fail to complete the drop process, regardless of the date when they stopped attending the course, will be given the grade of F for the course.

Students who wish to enroll in concurrent courses at another institution should consult their academic advisor before registration to secure a visiting student letter, and to ensure proper enrollment and recording of courses. Students in good standing who have earned a minimum of twelve hours may be able to cross register at other universities in the Kentuckiana Metroversity consortium. Cross registration is permitted on a space-available basis at the discretion of the member institutions. The combined program of work in all institutions may not exceed the maximum course load permitted for students at the University of Louisville. Failure to follow these guidelines may result in loss of credit or in ineligibility to transfer the credits from the other schools toward the requirements for graduation.

Repeating Courses

Students are allowed to repeat a course only once, with the most recent grade counting for grade point average calculation and towards degree requirements. Students are advised to weigh carefully the trade-off between 1) possibly improving their academic standing by repeating a course and earning a higher grade, and 2) the investment of time and money in repeating courses.
Students may petition to repeat a course more than once through a process determined by each academic unit.

Although all grades are displayed on the official transcript, repeated courses cannot receive double credit in hours required for the degree and count only once toward graduation.

Students may only receive federal and state financial aid funds one time for retaking previously passed coursework. Students should speak with a financial aid advisor about the impact on financial aid before making the decision to repeat a course that was previously passed.

Undergraduate and Graduate Courses

University of Louisville undergraduate students typically take courses at the 100 through 400 level. Courses numbered below the 100 level are not used in calculations of earned hours or the university grade point average. Courses numbered at the 100 and 200 level are primarily for freshmen and sophomores, and such courses generally contain introductory or basic material. Courses numbered at the 300 and 400 level are primarily for juniors and seniors, and such courses generally contain advanced undergraduate material.

Courses at the 500 level may be open to both advanced undergraduate and graduate students. Courses numbered at the 600 level and above are for graduate students only. Undergraduate students requesting to enroll in a 600-level course may do so only with special permission of the instructor in the course and the unit dean, and they must be registered for at least one undergraduate course. Such graduate level courses will satisfy requirements toward the undergraduate degree and therefore cannot be used for subsequent graduate credit.

In rare cases, undergraduate students at the University of Louisville who are within six (6) semester hours of completing the baccalaureate requirements and who are enrolled in a graduate course may obtain graduate credit at the University of Louisville. This can only occur if the course has not been used to satisfy part of the baccalaureate requirements, and if the chair of the department involved and the unit dean approve. Students who have applied and been accepted into an accelerated master’s program may take a maximum of nine hours of graduate level courses as an undergraduate to satisfy master degree requirements. Those nine credit hours of graduate credit are transferred to the students’ University of Louisville graduate record after students complete one semester as a graduate student.

Students must have completed the proper prerequisites to register for any course. It is the student’s responsibility to know the prerequisites for a course by checking the course description section of the online university undergraduate catalog. While some of these courses are open to all students enrolled in the University of Louisville, many are restricted to students in certain programs.

The dean’s office in each unit reserves the right to administratively withdraw students from courses based on academic policies.

The units also reserve the right to cancel without prior notice any courses listed in the Schedule of Classes, and to cancel any course that does not have an adequate enrollment at a reasonable time during the registration period for the semester. The university attempts to provide all courses required for graduation frequently enough to ensure that no student’s degree will be delayed by course unavailability, but the university cannot guarantee that such delay will not occur.

Withdrawals

Students may withdraw from courses after the drop/add period up until the withdrawal deadline. A grade of W (withdrawal) will be posted to students’ transcripts. The hours count as attempted hours but do not count as earned hours, and the grade will have no effect on the students’ grade point averages. Students withdraw by using the registration link of the ULink online portal. No signature or other authorization is required if the change is made by the withdrawal deadline, but students should consult with academic and/or financial aid advisors to understand how withdrawing from a course will affect their Flight Plan status, their progress toward their degree and their financial aid eligibility.

The withdrawal deadline for each semester is specified in the official registration calendar. The deadline typically occurs shortly after mid-term. Students who stop attending class without withdrawing will be given the grade of F for the course.

Students who make a complete withdrawal from all courses for a particular semester should contact their academic advisor to seek alternative solutions and/or to improve the possibility of returning to the university at a later date. A complete withdrawal must be processed in accordance with the procedures established by the academic unit.

In exceptional circumstances, students may petition for a late withdrawal after the withdrawal deadline. Students who intend to continue in other courses during the semester must petition the course instructional unit (the academic unit in which the course is taught). Students who intend to withdraw from all courses for which they are registered (late complete withdrawal) must petition their enrollment unit (the academic unit in which they are enrolled for their degree work). Proper documentation of the exceptional circumstances must accompany the petition for a late complete withdrawal. The enrollment unit shall request and consider all instructors’ recommendations in deciding on the petition for a late complete withdrawal. Students should contact the advising office in the appropriate unit for guidance in the petition process.

Students may request and be considered for a compassionate withdrawal when extraordinary circumstances prevent students from continuing in classes or completing academic requirements. If students are gravely incapacitated, the request may come from the student’s spouse, family or legal surrogate. The Office of the Dean of Students will gather necessary documentation to show that the situation is incapacitating. Such situations cover both physical and mental health issues, serious illness or injury, and extraordinary personal reasons. The Office of the Dean of Students will review and evaluate the compassionate withdrawal request and take follow-up action to refer the case to the appropriate officer (e.g., unit dean) for review and decision. The Office of the Dean of Students will coordinate the process with the unit dean’s designee.

An academic withdrawal does not remove a student’s financial responsibility for his/her educational expenses. Students are responsible for payment of any outstanding charges including, but not limited to tuition, fees, parking, housing and other expenses, after the academic withdrawal is granted. The Office of the Dean of Students will assist with the identification and completion of all necessary business processes.

The effective withdrawal date is the date on which the withdrawal is processed in the student records system. This date is used in calculating any applicable tuition reduction. When students officially withdraw from any course or courses for which hourly rates apply, tuition will be adjusted at the following ratios for regularly scheduled fall and spring classes:
Drop during the first week of semester............................. 0% charge / 100% credit
Withdrawal during second or third week of semester....... 50% charge / 50% credit
Withdrawal during fourth week of semester..................... 75% charge / 25% credit
Withdrawal after fourth week of semester........................ 100% charge/ 0% credit

Summer courses and some fall and spring semester courses vary in length and the percentage of refunds is modified. Refund deadlines for special terms and courses are listed in the online Registration Information. Course fees (as opposed to tuition) are refundable only with 100% credit.

Academic Advising

University Policies: Academic Advising
Each undergraduate unit at the university has full-time academic advisors available to assist students in planning the completion of their degree program and in navigating UofL resources. Some of the units at the University offer faculty advising and mentoring as well.

While academic advisors will make every effort to guide students throughout their education, students are ultimately responsible for developing a familiarity with and adhering to university, unit, and departmental policies and procedures. Students are expected to meet regularly with an advisor who will assist them with staying on their four-, five- or six-year Flight Plan (http://louisville.edu/flightplan) for graduation.

More information about academic advising and resources, including links to the unit advising centers, can be found at the Undergraduate Advising website (http://louisville.edu/advising).

Academic advising assists students with, among other things, the following:
- Choosing a major and developing a four-, five- or six-year Flight Plan (http://louisville.edu/flightplan) for graduation.
- Selecting appropriate courses and making schedule changes.
- Navigating course repeats and withdrawals.
- Addressing academic difficulties in coursework and issues related to academic standing.
- Advising on campus resources.
- Filing leave of absence requests.
- Processing transfer credit evaluations and degree audits.

Students may not register for classes until their advising requirement has been satisfied. The following categories of students are required to meet with an advisor each semester in order to register for courses:
- Freshmen with less than 24 earned credit hours applicable to the degree.
- Transfer students (external and internal) upon initial admission and in their first semester.
- Students who are on academic warning and probation.
- Students who have a break in enrollment of two or more consecutive years.
- Students who are undecided.
- Students who are seeking admission into another enrollment unit.
- Students who have missed program milestones.
- Students who are required to be advised by individual academic units.

Visiting and post-baccalaureate students are not required to meet with an advisor in order to register for courses in the subsequent semester.

Unit-Specific Policies: Academic Advising
In addition to the university-wide policies regarding Academic Advising, students may be subject to the unit-specific requirements listed below.

More information about academic advising and resources, including links to the unit advising centers, can be found at the Undergraduate Advising website (http://louisville.edu/advising).

College of Arts & Sciences
In addition to the university requirements, academic advising is required for the following students enrolled in the College of Arts & Sciences:
- All students with fewer than 30 earned hours,
- Returning students who have sat out for a period of one semester or longer, and
- Students with 45 or more earned hours who have not formally applied for and been accepted into a major program.

Visiting students and post-baccalaureate students are not subject to the advising requirement. Students for whom advising is required will not be permitted to register for courses until completion of the advising requirement has been entered into the enrollment system.

Students who have been accepted to a major are highly encouraged to meet with faculty in their field of study. The College of Arts & Sciences also provides pre-professional advising for students interested in careers in law and in health-related fields.

College of Business
All business students are recommended to schedule an appointment with their advisor at the Reinhardt Academic Center periodically; Equine majors must contact the advisor within that discipline.

College of Education and Human Development
All students entering degree and/or teacher certification programs must schedule an appointment to meet with an academic counselor in Education Advising and Student Services to have an official program
sheet prepared. This includes both internal and external transfer students who have been admitted to the College of Education and Human Development as well as new freshmen.

School of Music
Advising is required for all music students until they have completed all prerequisites for Upper Division courses. (See the Upper Division statement in the School of Music Unit Section and in the music degrees outlined in the undergraduate catalog.) Students will be blocked from registration for classes until the advising requirement has been satisfied.

School of Nursing
Freshmen and transfer students with less than 28 hours are required to be advised prior to registration. All new students are required to be advised regardless of credit hours.

School of Public Health and Information Sciences
A student is assigned an academic advisor on matriculation and is required to meet with that advisor every semester. The student is responsible for scheduling these required advisory meetings.

Speed School of Engineering
All BS and MEng students are required to be advised by their academic counselor each semester. Students will be unable to register for classes until cleared by an academic counselor.

Alternative Coursework
In addition to the traditional course offerings, the University of Louisville may award academic credit through alternative means. Such opportunities do not require the customary classroom attendance and participation and include extramural examinations, conference work, independent studies, internships, cooperative education, field experiences, and clinical rotations. Each of these experiences requires the approval of the enrollment unit and not all are available in every unit, so students should consult with the advising office for availability and requirements.

The most common alternatives for earning credit outside of traditional coursework are independent study and internships:

Independent Studies
Many units offer independent study courses, which provide the opportunity for the student, under the supervision of a sponsoring faculty member, to pursue individualized study related to research or practice that is not included in regular courses in the curriculum. Students must present a written plan to their department that includes the purpose, rationale, activities planned, and expected learning outcomes, and the plan must be approved by the instructor, department chair, and unit dean and submitted to the registrar. A title for this individualized study course will be assigned by the supervising faculty member and will appear on the student’s academic record.

Before applying for an independent study, students should have at least 30 semester hours and a 3.0 GPA.

Internships, Cooperative Education, Field Experiences, Clinical Rotations
These courses give students the opportunity to earn academic credit for workplace experiences that support the educational goals of the student’s academic discipline. Students should consult with their academic advisor to determine the requirements within their units. Approved opportunities range from full- to part-time, temporary to permanent, paid to non-paid.

In some programs, internships, cooperative education, field experiences, and clinical rotations are required to satisfy degree requirements.

Unit-Specific Policies
In addition to the university-wide policies regarding Alternative Coursework, students may be subject to the unit-specific requirements listed below.

College of Arts and Sciences
Conference Work
Conference work refers to completion of course requirements through satisfactory performance on all regularly scheduled writing assignments and examinations, including the final examination. Students enrolled for conference work are excused from regular class attendance. However, the following requirements apply:

- The instructor excuses the students from all participation except for the writing assignments and examinations;
- The waiver must be given at the beginning of the semester;
- The students must be enrolled for credit in the courses; and
- The students must pay the regular fees for credit courses.

Students who satisfactorily complete the requirements for conference work receive the same semester hours as though they attended the class regularly, and their grade will be determined by performance on the writing assignments and examinations.

Credit by Examination
Extra-curricular examinations allow students to fulfill course requirements by meeting criteria established and evaluated by a special examining committee. These examinations are customarily taken
The requirements for such an examination are:

- Students must first obtain the approval of the chair of the department in which they propose to earn credit through examination, specifying why credit by examination would be justified in their programs.
- Students must obtain an application for credit by examination from the College Advising Center and return the completed form to the Center.
- Students must pay one half the regular fees for the course.
- A faculty committee must agree to serve as examiners. The committee will consist of a regular instructor for the course, who chairs the committee, and two additional examiners, one of whom must be from outside the Division.
- Students must take both a written and an oral examination.
- Students must submit to the chair of the committee any evidence of achievement, in addition to the written and the oral examinations, which the chair requires.
- Students must be enrolled concurrently in the College for a minimum of 6 semester hours of regular course work.

Credits earned by conference work or by examination are counted in the student's regular load, which must not exceed 17 semester hours per semester. (See Course Load).

Cooperative Internships
The College will award academic credit for eligible work experiences that qualify under the College's Internship Policy. To qualify for enrollment in a cooperative internship course for credit, each student is required to present:

- Either 45 credit hours, including 9 in the unit in which credit is sought, or 60 credit hours, including 6 in the unit in which credit is sought;
- A minimum grade point average of 2.5 for all coursework taken; and
- A completed Application for Enrollment in Cooperative Internship Form.

Transfer students must have completed one full semester of work (i.e., 12 hours) at the University of Louisville.

A maximum of twelve credits of Internship (including hours earned in GEN 301) may apply toward the 121 hours required for the degree.

For information about internships, contact the chair of the department of the major.

Independent Study
Students may, with permission of the Departmental or Divisional Chair and the Dean, register for Independent Study in a particular department. The student must have an overall grade point average of 3.0, a grade point average of 3.5 in the department, and at least 18 semester hours’ credit in that department unless otherwise waived by the department. Independent Study consists of a minor research project conducted under the direction of a faculty member. Students obtain forms for Independent Study from their department. The completed forms with required signatures must be turned in at registration. Credits earned through Independent Study are counted in the regular load, which must not exceed 18 credit hours per semester.

College of Business
Awarding of Credit for Non-Traditional Work
The College of Business does not award credit for work experience, noncredit courses or internships, independent studies, or co-ops taken at another academic institution.

Correspondence Courses
The College of Business does not offer courses by correspondence, nor does it grant credit for business courses taken by correspondence. Students who wish to take correspondence courses to fulfill the Arts and Sciences requirements for their program should contact the College of Business, Reinhardt Academic Center.

Cooperative Education
The COB faculty and employers structure individually appropriate practical experiences that build professional competence, apply academic principles, and help evaluate career options.

COB majors may earn either three (3) or six (6) hours of academic credit through the Co-op program, as specified in each major's Degree Program section of this catalog. One hour of academic credit is given for each 75 hours of approved work. Students can be considered full-time during a semester in which they are registered for three (3) Co-op credit hours. Students register for credit during the semester in which the majority of the work takes place. Start dates for COB Co-op are flexible. Co-op evaluations are graded on a Pass/Fail basis. Deadlines for each semester are posted in the COB Ulmer Career Management Center.

Under certain circumstances a student may be eligible to take an approved internship or Co-op for no academic credit. Such an internship or Co-op will appear on the transcript without any academic credit. Contact the Ulmer Career Center for details.

All majors are encouraged to plan in advance for Co-op, which is typically taken during the junior and/or senior years. Computer Information Systems majors register for Co-op as a graduation requirement and usually work full-time for six (6) months prior to graduation.

International students must validate work authorization eligibility through the International Center prior to working with the COB Ulmer Career Management Center.

Approved COB Co-op may be paid or non-paid. Students may work full-time, alternating semesters of Co-op with semesters of campus academics. Or, students may work part-time, in order to parallel workplace and classroom experiences. Employment arrangements are between students and employers while the COB provides structure, guidance, and evaluation for educational components. Program requirements include the following:

- Be enrolled in good standing in the College of Business
- Maintain a 2.0 cumulative university GPA
- Have completed prerequisite courses established by each major area of study.
- Work in positions that are approved for credit in the educational discipline of the student's major. These positions must be current level-appropriate experiences that can be characterized as new learning and/or new responsibilities. Credit is not given for past
employment experience or continuing employment that does not offer new employment challenges.

Apply for COB Co-op on the Ulmer Career Center website: business.louisville.edu/careers.

Business minors (other than Management) do not have the option for Co-op credit.

College of Education & Human Development

Course by Conference
Under certain circumstances, a student may complete a course on an individual basis with an instructor. This is called a course by conference. Course by conference forms are available in the Education Advising and Student Services office. Signatures of the instructor, department chairperson, and dean are required on the form.

Independent Study
Credit may be earned by independent study with the permission of the dean, department chairperson, and instructor. Independent study forms are available in the Education Advising and Student Services office.

Statement on Student Teaching/Field Experience
In all phases of the Developmental Teacher Preparation Model, candidates participating in field and clinical experiences must abide by all policies, rules, and regulations of the University and the assigned school. Failure to abide by standards of conduct and performance established by the faculty may result in removal from the program. Electronic documentation of 200 hours of diverse and approved field experiences is required prior to student teaching.

Student teaching requires a minimum 15-week clinical experience in school setting(s) related to the teaching certificate a teacher candidate is seeking. Teacher candidates work with a cooperating teacher and University supervisor participating in the work of teaching. Evaluation is based on Kentucky Teacher Performance Standards and Professional Code of Ethics.

Speed School of Engineering

Independent Study Courses
Engineering students should have at least 30-semester hours and a 2.5 GPA before applying for an independent study. Students must obtain approval from the instructor, department chair, and Associate Dean for Academic Affairs.

Cooperative Education
The principal purpose of the J.B. Speed School of Engineering is to give the student a thorough, well-balanced training in engineering and applied science as preparation for entry into the profession of engineering. The Engineering Office of Co-op and Career Development assists each student in obtaining a suitable cooperative work assignment in their chosen industry or research field, at locations throughout the US and occasionally abroad. During each co-op assignment, students work full-time and receive a salary from their employer.

Engineering Cooperative Education
In order to qualify for the Bachelor of Science degree, students must successfully complete three engineering co-ops.

Eligibility for Co-op
Co-op eligibility is dependent upon the student’s admission to an academic department, being in good academic standing within Speed School, and upon completion of pre- and co-requisites for the Co-op Seminar (288) and co-op rotations (289, 389, 489). Students must be enrolled in the Co-op Seminar (288) in a semester preceding their first cooperative work assignment. In addition, transfer students must have completed at least one semester of full-time coursework in Speed School including the Co-op Seminar (288) before their first co-op.

A student may lose their eligibility for co-op for any of the following reasons:

• Academic Warning or Probation,
• Disciplinary Probation,
• Employer Termination,
• Unauthorized Change of Co-op Employer,
• Actions that reflect negatively on the J.B. Speed School of Engineering,
• Unprofessional conduct (not attending scheduled interviews, not responding to Co-op office enquiries, etc.), or
• Unsatisfactory Co-op Employer Performance Review.

If a student loses their Co-op eligibility, they must submit a petition to re-enter Co-op.

Student Responsibilities
Students will alternate Co-ops with semesters of full-time class work.

Students are required to register for the Co-op prior to the beginning of each work term.

Students are expected to work the dates of Co-op designated by the Engineering Office of Co-op and Career Development Office.

Unless specifically approved by the Co-op coordinator, all Co-op work terms will be conducted with the same employer and in alternating semesters.

Students are employees of the company or organization while they are on Co-op and are subject to employer rules and regulations. Students are expected to maintain the highest performance and behavioral standards while on Co-op.

If a student is terminated from cooperative employment or otherwise disciplined for any reason, it must be immediately reported by the student to the Co-op coordinator. A student who is terminated for any reason other than the employer’s business conditions will receive an F grade in Co-op and, in addition, may be subject to academic sanctions as well as disciplinary action in accordance with the Code of Student Conduct.

The university is not liable for any accident or injury involving a Co-op student. However, it is the responsibility of the student to see that any serious accident or injury is reported, at the earliest opportunity, to the Co-op coordinator. A student who is terminated for any reason, it must be immediately reported by the student to the Co-op coordinator. Students are required to sign and abide by the policies and procedures set forth in the Cooperative Education Student Agreement provided in the Co-op seminar.

Salary
In general, students are classified as temporary full-time employees and are paid on an hourly basis while on Co-op. Pay rates vary according to employer and location.

Length of Employment
In order to be eligible to receive the Bachelor of Science degree, all candidates must have completed three cooperative semesters.
Course Enrollment During Co-op
In general, academic coursework is not allowed during the Co-op work period. In some instances, with approval, a student may enroll for academic coursework not exceeding four semester hours during any Co-op period. Approval will be given only for academic coursework that is taken outside normal working hours (8:00 – 5:00) and which does not interfere with the co-op work assignment. Permission to take a course must be obtained prior to the beginning of the co-op period. Request forms are available from the Engineering Office of Student Success.

Evaluation and Academic Credit
Co-op students are graded on a pass/fail basis and earn one semester hour of credit for each completed co-op, for a total of three semester hours. At the conclusion of a co-op semester, each student is evaluated by the appropriate employer representative. The report will be reviewed and approved by the co-op coordinator and faculty in the student’s major department.

Advanced Standing Credit
Advanced Standing credit for co-op may be awarded upon approval of the department chair, the Director of Co-op and Career Development and the Associate Dean for Academic Affairs. Students who performed full-time work of a technical nature before entering Speed School and students who have had military experience are eligible. A letter is required from the employer verifying the dates and the nature of the employment. In the case of military experience, veterans may submit a copy of their separation form in lieu of the employer’s letter. Students who participate in ROTC or military summer camp may receive credit for one co-op (1 hour).

Forms for advanced standing credit are available from the Engineering Office of Co-op and Career Development. Part-time work or work performed subsequent to entering Speed School will not qualify for advanced standing credit. If the work, however, was comparable to a co-op assignment and was performed during a semester in which the student was enrolled for no more than four semester hours, then the student may be eligible, upon approval, for back registration. The student must pay tuition for the one credit hour of coursework, as well as the co-op course fee, and will be expected to fulfill normal course requirements for co-op, including submission of a co-op report and employer evaluation.

Employment Opportunities
Securing a co-op position is affected by general economic conditions and particular employer specifications. Therefore, the University cannot guarantee employment. However, every effort will be made to assist students in finding cooperative assignments appropriate to their specialization and personal preference. Students who obtain their own co-op employment must have the approval of the cooperative education coordinator and are subject to the policies and procedures stated herein and the Cooperative Education Student Agreement.

Waiver Policy
When a student experiences extreme difficulty in obtaining a suitable co-op position, that student may seek an administrative waiver from the department chair and the Director of Career Development. Waiver recipients are required to complete a minimum of three semester hours of additional courses for each cooperative period waived. The three semester hours must be in addition to courses required for the baccalaureate degree and must be approved by the department chair.

International Students Exemption
A student who holds a student visa is exempt from the mandatory cooperative education requirement. Student visa holders are required to complete a minimum of three semester hours of additional courses for each co-op. The three semester hours must be in addition to courses required for the baccalaureate degree and must be approved by the department chair.

Graduate Career Employment
Graduating students and alumni should register with the Engineering Co-op and Career Development Office for job search assistance. On-campus interviews, individual counseling, and group information sessions are conducted throughout the year.

Extramural Examinations
Advanced Placement Examinations of the College Board
In accordance with Kentucky Senate Bill 74 (lrc.state.ky.us/recarch/02rs/sb74.htm), the University of Louisville awards credit for scores of 3 on all Advanced Placement Examinations of the College Board. A higher score may be required to receive credit for specific courses within certain disciplines. Elective credit will be awarded for Advanced Placement Examinations not listed or for scores of 3 when a higher score is required for specific course credit. Scores should be submitted to the Office of Admissions as soon as they are available.

College-Level Examination Program of the College Board
UofL awards credit on the basis of the College Level Examination Program (CLEP) administered by the College Board. CLEP examinations may be taken at any national test center, including the University of Louisville Testing Service. Prior arrangements with the testing center must be made, and there is a fee for the general examination and for each subject examination. A CLEP Bulletin of Information for candidates may be obtained from most testing centers, or by writing the following address:

CLEP
Box 1821
Princeton, New Jersey 08540.

Scores obtained should be sent to the Office of Admissions.

International Baccalaureate
The university awards academic credit to entering freshmen who have completed the International Baccalaureate (IB) Program. Credit will be awarded through AP credit and the College-Level Examination Program of the College Board. Areas of study, the amount of credit allowed, and minimum scores are determined by the Office of Admissions. Credit earned through CLEP does not count as credit earned in residence at the University of Louisville. For more information go to louisville.edu/admissions/apply/test-credit/ap-credit
awarded for most IB Higher or Standard Level exams completed with a 5 or higher.

Scores and course equivalencies (http://louisville.edu/admissions/apply/test-credit/ib-credit) are available from the Office of Admissions.

For more information go to louisville.edu/admissions/apply/test-credit/ib-credit

**Foreign Language Advanced Standing**

Students who wish to continue the study of a foreign language begun in high school must take placement examinations in order to be placed at the appropriate level. To receive university credit for language study completed at the high school level, the placement examination is required before attempting university language study.

The placement exam is administered online and can be completed at modernlanguages.louisville.edu/spanishfrenchexam.php.

The placement tests may not be used to earn credit if the student already has received college- or university-level credit in that language elsewhere or has enrolled in a course in that language at this university.

When a student places into a course numbered higher than 121, credit toward graduation will be awarded for those elementary or intermediate courses by-passed only if the student completes successfully the language class into which s/he is placed.

A student placing in the 300 level will receive 12 hours of P/Pass credit for courses numbered 121, 122, 123, or 221 (depending on the language) upon successful completion of a 300-level class in the language. Any credit earned by placement testing will be posted on the student’s record only after completion of a regular semester of full-time study (or 12 semester hours) at the University of Louisville. Students should not enroll for credit in a course they have successfully bypassed through examination.

A student who has earned college credit for work done in high school may choose whether to use that credit or the credit earned through the placement examination program described above. These regulations also apply to Metroversity students.

For foreign students whose previous academic work has been in a language other than English, the foreign language requirement for graduation will be waived automatically. No credit will be granted for 100- or 200-level language courses to any student for whom that course is his/her native language. Students may obtain credit for courses in linguistics, culture or literature numbered 300 or above in their native language by exam or by taking the courses.

For information about placement examinations in American Sign Language, contact:

**Coordinator of the Interpreter Training Program**

300 Robbins Hall
Louisville, KY 40292
(502) 852-4607

---

1 Eighteen hours of credit by placement are available in Spanish for students who test into SPAN courses 321, 322, or 355.

### Auditing Courses

Audited courses do not earn credit, although the transcript will indicate that the course was taken as an audit. Because audit status is offered only on a space-available basis, students may not register for a class in an audit status during early registration, nor may a student change from graded to audit status during that period.

Students may register for classes in audit status during regular registration and then only with the written approval of the instructor of the course. Not all instructors allow auditors. Work expectations of auditors can vary across courses and instructors, and the specific work expectations that will warrant the audit designation on the transcript should be confirmed with the instructor facilitating the course. Auditors who do not fulfill the work expectations may be withdrawn from the course with a grade of W noted on the transcript.

Students who have registered in audit status will not receive credit for the course unless their registration has been changed officially from audit to credit by the published deadline for such a change. Students are allowed to change from audit to grade status or from grade status to audit status at any time from the beginning of regular registration through the last day to add a class with approval from the course instructor. Students are advised that such approval is the instructor’s prerogative, subject to completion of course prerequisites, and that audit status may have implications for financial aid eligibility.

Any change of status must be submitted on a Drop/Add and Grade Type Change Form and turned in to the Registrar’s Office by the deadline. Students admitted to the unit as Auditors are not eligible to take courses for credit and may not change their class registration from audit to credit.

Students are cautioned that auditing a class cannot substitute for taking the course for credit if that course is part of the credit hour requirement for graduation, including both college-wide and major requirements. Any required course taken as audit must be retaken for credit in order to be counted toward a degree. Students are advised to consult with their academic advisor to determine if registration in audit status is appropriate. Students may enroll for credit in any course which was taken for audit, in a semester subsequent to the semester when the course was audited, provided those students have been admitted to the unit on a basis that confers eligibility to take courses for credit. If students take a course for both audit and credit, the transcript will show both entries.
Course Load

University Policies: Course Load
Students may need to prove full-time/half-time status in order to be eligible for dependent insurance and to defer repayment of some loans, among other reasons. Definitions of full-time/half-time may be changed as required by federal government regulations for financial aid recipients.

Students will be certified as full-time if registered for 12 or more hours in any semester, including summer. Cooperative internships also qualify for full-time status in some units. For half-time status, students must be registered for a minimum of 6 hours during any semester, including summer.

All baccalaureate degree programs at UofL require at least 120 credit hours, but more may be required in some programs. A typical schedule in the fall and spring semesters is 15 semester hours, but, again, varies by semester and program, ranging from 12 to 18 hours. Some programs also have planned summer loads.

Students in good standing typically may take no more than 18 hours in the fall and spring semesters. For the summer semester, the total number of hours a student may take varies from unit to unit, with limits of 4 hours in the three-week summer session and 7 hours during each five-week summer session. Under special circumstances, students who have completed a minimum of 30 hours at UofL and who have a cumulative grade point average of at least 3.0 may request permission through their advising center to take an overload. Overload approvals vary by unit. Typically, there are no overloads for summer. Permissions are handled by procedures determined by the Dean's office in each unit, and some units may accept petitions for course overloads above those listed above.

Students on academic warning or probation and students admitted in conditional status are limited to 13 hours during the fall and spring semesters and to a total of 12 semester hours during the summer session.

Unit-Specific Policies
In addition to the university-wide policies regarding Course Load, students may be subject to the unit-specific requirements listed below.

College of Arts and Sciences
Students with less than 30 hours at UofL and a cumulative grade point average of at least 3.5 may petition to take more than 18 hours. Students with a 3.0 grade point average at the University of Louisville may petition to take up to nine hours in a five-week session, but are still limited to a maximum of 18 hours in the summer semester.

College of Business
Full-time status in the COB can also be met by being registered for 3 credit hours of approved COB Co-op in a given semester. Co-op credit hours count toward the total hours taken. All COB students considering COB Co-op should evaluate course loads in terms of individual needs and plan accordingly with the assistance of an academic advisor. Other academic course load during a Co-op semester should be severely limited. Students should check with their financial aid lending institution when considering the impact of COB Co-op on financial planning for semesters involving co-op work.

Students on academic warning and probation are also restricted to no more than one course per summer term.

Note: The College of Business reserves the right to administratively withdraw students from courses based on academic policies.

College of Education & Human Development
The maximum load for the summer semester is 15 semester hours.

Kent School of Social Work
The maximum load in summer sessions is 3 semester hours for the first term and 6 semester hours in the second and third terms. Students should note that the Kent summer term, if taking social work electives, extends across all three summer terms and should work with their advisor to determine their summer load.

Students on academic warning and probation and students admitted on limited load are limited to 13 hours during the fall and spring semesters and to a total of 12 semester hours during the summer session.

School of Music
Overload students in the School of Music may not exceed 20 credit hours per semester. A petition will be required for each semester of overload request.

School of Music students on probation are limited to a maximum of 14 credit hours per semester and students admitted in conditional status to a maximum of 14 credit hours. No overloads will be approved while a student remains in such status. Summer session enrollments will be limited to a maximum of 4 credit hours for three-week terms and 7 credit hours for five-week terms.

Speed School of Engineering
Students may take a maximum of 18 credit hours each fall and spring semester and 13 credit hours in the summer term. In special circumstances during fall and spring semesters, students may register for 19 credit hours with permission from the Associate Dean for Academic and Student Affairs.

Students on either academic warning or academic probation status are limited to no more than 13 credit hours during fall and spring semesters and 7 credit hours during the summer term.
Pass/Fail

Undergraduate students in good academic standing may enroll in one undergraduate course each semester on a pass/fail basis, provided that the course is not used to meet a general education requirement, a programmatic requirement, a prerequisite requirement for admission to a degree program, or a foreign language requirement for a degree program. If the course is letter-graded, the instructor’s agreement (signature) must be secured by students for pass/fail grading to be applied to the course, and the student’s enrollment unit must approve the request.

Courses completed on a pass/fail basis will not be assigned any quality points, but credit will be given if the grade assigned is a P. If the grade assigned is F it will be calculated as such in the student’s grade point average.

No changes from letter grade to pass/fail, or vice versa, may be made after the university deadline to withdraw from a course.

No letter-grade equivalent for a P grade will be assigned or reported. This policy will not apply to courses taught only on a pass-fail basis, such as some internship and field experience courses.

Registration

Students may register for courses during the priority early registration period before the beginning of the semester. A student’s first opportunity is based on classification and alphabetic rotation. The early registration period is then followed by regular and late registration. The registration calendar for any term is published online by the office of the registrar.

Initial registration and any later registration changes are usually completed by students through the registration link of the ULink online portal (https://ulink.louisville.edu).

Initial registration must be completed by the date announced by the registrar, typically the Friday of the first week of classes. Students may make adjustments to their course schedule until the end of the first week for regularly scheduled fall and spring courses. For summer courses and courses with atypical duration, the last date to adjust schedules is specified by the registrar in the official registration calendar. This last day to adjust schedules is referred to as the last day to drop/add.

Students may add courses to their schedules until the last day to drop/add. No signature or other authorization is required if the added course is open for enrollment, if students meet all course prerequisites, and if such additional courses do not raise the students’ credit/hours for the term above the maximum allowed by the students’ enrollment unit or academic standing. If the addition increases the tuition cost for the semester, the additional payment must be settled with the university bursar by the last day to drop/add.

Students can place their names on the waitlist for a course that is closed. Students are automatically moved from the waitlist to registration in the course as spaces open until the end of the first week of classes.

Students may add their names to the waitlist until the third day of classes for regularly scheduled fall and spring courses, and the first day of classes for summer courses.

Students may drop a course from their schedule until the last day of drop/add. Courses that are dropped during the regular registration period are not listed on the transcript. Students should consider how dropping a course will affect their progress toward their degree and their financial aid eligibility. Students who stop attending a class but fail to complete the drop process, regardless of the date when they stopped attending the course, will be given the grade of F for the course.

Students who wish to enroll in concurrent courses at another institution should consult their academic advisor before registration to secure a visiting student letter, and to ensure proper enrollment and recording of courses. Students in good standing who have earned a minimum of twelve hours may be able to cross-register at other universities in the Kentuckiana Metroversity consortium. Cross registration is permitted on a space-available basis at the discretion of the member institutions. The combined program of work in all institutions may not exceed the maximum course load permitted for students at the University of Louisville. Failure to follow these guidelines may result in loss of credit or in ineligibility to transfer the credits from the other schools toward the requirements for graduation.

Repeating Courses

Students are allowed to repeat a course only once, with the most recent grade counting for grade point average calculation and towards degree requirements. Students are advised to weigh carefully the tradeoff between 1) possibly improving their academic standing by repeating a
course and earning a higher grade, and 2) the investment of time and money in repeating courses.

Students may petition to repeat a course more than once through a process determined by each academic unit.

Although all grades are displayed on the official transcript, repeated courses cannot receive double credit in hours required for the degree and count only once toward graduation.

Students may only receive federal and state financial aid funds one time for retaking previously passed coursework. Students should speak with a financial aid advisor about the impact on financial aid before making the decision to repeat a course that was previously passed.

Undergraduate and Graduate Courses

Course Numbering
University of Louisville undergraduate students typically take courses at the 100 through 400 level. Courses numbered below the 100 level are not used in calculations of earned hours or the university grade point average. Courses numbered at the 100 and 200 level are primarily for freshmen and sophomores, and such courses generally contain introductory or basic material. Courses numbered at the 300 and 400 level are primarily for juniors and seniors, and such courses generally contain advanced undergraduate material.

Courses at the 500 level may be open to both advanced undergraduate and graduate students. Courses numbered at the 600 level and above are for graduate students only. Undergraduate students requesting to enroll in a 600 level course may do so only with special permission of the instructor in the course and the unit dean, and they must be registered for at least one undergraduate course. Such graduate level courses will satisfy requirements toward the undergraduate degree and therefore cannot be used for subsequent graduate credit.

Graduate Credit
In rare cases, undergraduate students at the University of Louisville who are within six (6) semester hours of completing the baccalaureate requirements and who are enrolled in a graduate course may obtain graduate credit at the University of Louisville. This can only occur if the course has not been used to satisfy part of the baccalaureate requirements, and if the chair of the department involved and the unit dean approve. Students who have applied and been accepted into an accelerated master’s program may take a maximum of nine hours of graduate level courses as an undergraduate to satisfy master degree requirements. Those nine credit hours of graduate credit are transferred to the students’ University of Louisville graduate record after students complete one semester as a graduate student.

Prerequisites
Students must have completed the proper prerequisites to register for any course. It is the student’s responsibility to know the prerequisites for a course by checking the course description section of the online university undergraduate catalog. While some of these courses are open to all students enrolled in the University of Louisville, many are restricted to students in certain programs.

Administrative Withdrawal and Course Cancellations
The dean’s office in each unit reserves the right to administratively withdraw students from courses based on academic policies.

The units also reserve the right to cancel without prior notice any courses listed in the Schedule of Classes, and to cancel any course that does not have an adequate enrollment at a reasonable time during the registration period for the semester. The university attempts to provide all courses required for graduation frequently enough to ensure that no student’s degree will be delayed by course unavailability, but the university cannot guarantee that such delay will not occur.

Withdrawals

Students may withdraw from courses after the drop/add period up until the withdrawal deadline. A grade of W (withdrawal) will be posted to students’ transcripts. The hours count as attempted hours but do not count as earned hours, and the grade will have no effect on the students’ grade point averages. Students withdraw by using the registration link of the ULink online portal. No signature or other authorization is required if the change is made by the withdrawal deadline, but students should consult with academic and/or financial aid advisors to understand how withdrawing from a course will affect their academic plan status, their progress toward their degree, and their financial aid eligibility.

The withdrawal deadline for each semester is specified in the official registration calendar. The deadline typically occurs shortly after mid-term. Students who stop attending class without withdrawing will be given the grade of F for the course.

Students who make a complete withdrawal from all courses for a particular semester should contact their academic advisor to seek alternative solutions and/or to improve the possibility of returning to the university at a later date. A complete withdrawal must be processed in accordance with the procedures established by the academic unit.

In exceptional circumstances, students may petition for a late withdrawal after the withdrawal deadline. Students who intend to continue in other
courses during the semester must petition the course *instructional unit* (the academic unit in which the course is taught). Students who intend to withdraw from all courses for which they are registered (*late complete withdrawal*) must petition their *enrollment unit* (the academic unit in which they are enrolled for their degree work). Proper documentation of the exceptional circumstances must accompany the petition for a late complete withdrawal. The enrollment unit shall request and consider all instructors’ recommendations in deciding on the petition for a late complete withdrawal. Students should contact the advising office in the appropriate unit for guidance in the petition process.

**Compassionate Withdrawal**

Students may request and be considered for a *compassionate withdrawal* when extraordinary circumstances prevent students from continuing in classes or completing academic requirements. If students are gravely incapacitated, the request may come from the student’s spouse, family or legal surrogate. The office of the dean of students will gather necessary documentation to show that the situation is incapacitating. Such situations cover both physical and mental health issues, serious illness or injury, and extraordinary personal reasons. The office of the dean of students will review and evaluate the compassionate withdrawal request and take follow-up action to refer the case to the appropriate officer (e.g., unit dean) for review and decision.

The Office of the Dean of Students will coordinate the process with the unit dean's designee. An academic withdrawal does not remove a student’s financial responsibility for his/her educational expenses. Students are responsible for payment of any outstanding charges including, but not limited to tuition, fees, parking, housing and other expenses, after the academic withdrawal is granted. The Office of the Dean of Students will assist with the identification and completion of all necessary business processes.

**Withdrawal Effective Date**

The effective withdrawal date is the date on which the withdrawal is processed in the student records system. This date is used in calculating any applicable tuition reduction. When students officially withdraw from any course or courses for which hourly rates apply, tuition will be adjusted at the following ratios for regularly scheduled fall and spring classes:

- Drop during the first week of semester.......................... 0% charge/100% credit
- Withdrawal during second or third week of semester........ 50% charge/50% credit
- Withdrawal during fourth week of semester...................... 75% charge/25% credit
- Withdrawal after fourth week of semester....................... 100% charge/0% credit

Summer courses and some fall and spring semester courses vary in length and the percentage of refunds is modified. Refund deadlines for special terms and courses are listed in the online Registration Information. Course fees (as opposed to tuition) are refundable only with 100% credit.

**Student Success Policies**

Information on policies related to student success at the University of Louisville can be found on this page or by clicking on the following links to topic-specific pages:

- Academic Forgiveness (p. 70)
- Academic Fresh Start (p. 70)
- Academic Standing (p. 71)
- Class Attendance (p. 74)
- Dean’s List and Scholars (p. 74)
- Final Examinations (p. 74)
- Grading (p. 75)
- Incompletes (p. 75)

*These policies are effective August 20, 2018 (Fall 2018 semester).* Students enrolled in a term before this effective date should consult with an advisor in their enrollment unit (http://louisville.edu/advising/centers) if they feel that they are disadvantaged by any change from 2017-18 policies.

Previous catalogs are available via the archive page of this catalog (p. 791). Reference copies of the university catalog are maintained by University Libraries, the university registrar, the Student Government Association (SGA) Office, the student grievance officer, and the Dean of Students/Vice Provost for Student Affairs.

**Academic Forgiveness**

Academic Forgiveness allows currently enrolled students or students who are eligible to re-enroll without seeking readmission to request the adjustment of their records for one or more continuous entire semesters of previous college work. If the appropriate committee within the students’ enrollment unit or the unit in which they seek to re-enroll finds there are extenuating circumstances that warrant such action, the committee may rule the students eligible for academic forgiveness. The committee will approve petitions only if future academic success seems plausible, with the expectation that such forgiveness should typically have a positive effect on persistence toward eventual graduation.

Forgiveness will only be applied to the record after the successful completion of at least 12 hours after the last term for which forgiveness is to be requested. The 12 hours should be in degree applicable courses with the necessary semester grade point average designated by their enrollment unit. After these 12 hours have been attempted, students may petition the appropriate committee for academic forgiveness, designating the semester or consecutive sequence of semesters to which the forgiveness process is to apply. If approved, all course grades and
credit hours for the forgiven semesters will be voided. Students may not
be granted academic forgiveness more than once.

The voided grades and credit hours will not be considered for degree
requirements or quality-point computations, but will remain on the
students’ transcript. Academic actions, such as probation or dismissal,
recorded at the end of the voided terms, will also remain. While forgiven
course grades are removed from the calculation, the course work
does remain a part of the students’ permanent record and the forgiven
work may be considered for financial aid, NCAA purposes, and may be
evaluated if applying for honors or graduate study.

Academic forgiveness is an internal policy. The University of Louisville
cannot guarantee how the work will be viewed by another university
should students choose to transfer. Students considering this option are
strongly encouraged to consult with their academic advisor for guidance.

Academic Fresh Start
Students who are re-admitted to the university after an absence of two
or more years may request a Fresh Start. Students must take at least
30 hours of course work at the University after re-admission and before
graduation for Fresh Start to be applicable. Students are eligible for only
one Fresh Start. Students who have earned a baccalaureate degree from
the University are not eligible for Fresh Start.

If the Fresh Start is approved by the university, students resume an
academic program with no cumulative grade point average from the prior
enrollment. All courses taken remain on the permanent record. Courses
with passing grades are counted for credit and may be used to satisfy
program requirements.

Students may be required to retake courses from academic terms
covered by Fresh Start if the content-currency or major-GPA rules of a
degree program, department or unit so dictate. Students will be notified
at the time of readmission of any additional requirements to be fulfilled in
remedying these conditions.

Although Fresh Start affects cumulative grade point average, it has
no impact on earned and attempted hours. All courses taken at the
university will still be used for financial aid. Financial aid recipients will
still have to adhere to the Satisfactory Academic Progress (SAP) policy
administered by the Student Financial Aid Office. Students who are
granted a Fresh Start are not automatically cleared of any SAP issues.
If interested in submitting a SAP appeal, students should contact the
Student Financial Aid Office.

Courses taken under the repeat-to-replace option during the period
covered by a Fresh Start will not be counted against the maximum
repeats allowed under university policy. Financial aid for repeat courses
is calculated according to federal regulations.

For the purposes of scholastic action and advising, students are initially
assigned to the same academic standing as when they last attended the
university. Thereafter, students are subject to the conditions of probation,
suspension and dismissal that govern all students. GPA calculations
for graduation honors follow the rules established by the students’
enrollment unit.

Academic Standing
Decisions involving academic warning, probation, suspension, dismissal
and readmission are made by each academic unit. These decisions are
based on the university’s undergraduate grade point average (UGPA) and
the program grade point average (PGPA). The unit notifies students after
the end of each semester if their status changes. Notifications of such
academic actions are officially made through the student’s university
e-mail account.

Undergraduate students are in good standing when they have a
cumulative UGPA of at least 2.00 and a cumulative PGPA greater than
the program requirement. Each unit determines their own program
requirements.

After the first 12 degree-applicable semester hours at the University,
students who have either a cumulative UGPA below 2.00, or a cumulative
PGPA below the program requirement, will be placed on academic
warning. Such students will be notified and strongly encouraged to seek
assistance from their advising center.

In any semester subsequent to an academic warning, students whose
cumulative UGPA falls below 2.00, or cumulative PGPA falls below
the program requirement, will be placed on academic probation for
the next semester of enrollment. Academic probation is considered
a serious warning that students are making unsatisfactory progress
toward completion of the academic requirements for a particular degree
program. Students on academic probation may be ineligible to hold
office in campus organizations, to go out on co-op, internship, or clinical
assignments, or to represent the school or the University in any official
capacity.

Students on academic probation shall be removed from that standing
at the end of the first subsequent semester in which they achieve a
cumulative UGPA of at least 2.00 and a cumulative PGPA greater than
the program requirement. Such students will return to good standing.
Students on academic probation shall be placed on academic suspension
at the end of the first subsequent semester in which their semester UGPA
falls below 2.00, or semester PGPA falls below the program requirement.

Students on academic suspension are not permitted to enroll for at
least one program semester. During this period, individuals should
seriously reexamine their previous accomplishments in terms of their
chosen career objectives. After one semester, students who believe
that a reasonable opportunity for future successful performance exists
may petition the unit’s committee for re-admittance. The petition must
be received no later than July 1 for readmission for the fall semester,
November 1 for the spring semester, and May 1 for the summer terms.
Students who are granted reinstatement will be readmitted on academic
probation. Readmission of suspended students is not guaranteed.

Students will not be reinstated more than twice; the third suspension
is an academic dismissal. Students academically dismissed can only
return through special permission from the enrollment unit. Students
who are suspended or dismissed are eligible to apply for admission to
another unit and may be admitted if they meet minimum unit admission
standards. Students admitted to another unit may not enroll in any
courses in the unit from which they were dismissed, with the exception
of courses needed to complete general education or other degree
requirements offered only by the unit from which they were dismissed.

Class Attendance
The academy requires student participation in the learning process,
measurement of student progress, and the fulfillment of basic course
requirements. Faculty members will provide students in their classes with
clear syllabi, including attendance requirements and dates for required
measurements or field experiences. Attendance policies should allow excused absences for university-sanctioned events. Although each college, school, or academic unit of the University of Louisville creates its own regulations concerning class attendance, all units hold students responsible for materials covered, lectures given, papers due, exams scheduled, or other evaluative measures administered.

Because the university recognizes that educational experiences extend beyond the classroom and campus, faculty must be flexible with students acting as official representatives of the university or participating in university-sanctioned events or activities that require absence from class. A university-sanctioned event or activity shall be one in which a student represents the university to external constituencies in academic or extra-curricular activities. These include but are not limited to student government congresses, intercollegiate athletic and debate contests, music competitions, academic meetings, and conferences. The deans, the student government association, or faculty sponsors of recognized student organizations may petition the provost to designate other specific events as university-sanctioned.

When students’ participation in university-sanctioned events or activities requires them to be absent from a class (or classes) during which an examination or other measurement of academic progress is scheduled, faculty will provide students with opportunities to be evaluated at other times and by comparable alternative evaluation methods within a reasonable period of time before or after the absence. Students are responsible for material covered or work assigned in any class for which they have been provided an excused absence.

**Dean’s List and Scholars**

Students who complete twelve or more graded credits in one semester are eligible for the Dean’s List and designation as a Dean’s Scholar. The following distinctions are made:

- **Dean’s List**.............. UGPA 3.5 and above, with no grades of I, X, U, or C-minus or below
- **Dean’s Scholar**......... UGPA = 4.0, with no grades of I, X, or U

Developmental courses (courses below 100 level) and grades of P are not prohibited in Dean’s List or Dean’s Scholar qualifications but cannot be used to meet the graded-credits minimum requirement. Any petitions arising from unusual circumstances (such as part-time status) should be filed with the students’ advising center within two weeks of the beginning of the next term of enrollment.

**Final Examinations**

Comprehensive final examinations may be administered only on the date and time prescribed in the online university final exam schedule. Comprehensive examinations may not be given on the last regular day of class or during the reading period. Examinations which cover a limited portion of the course work may be given during the last regular class period. Students must be notified of the type of examinations to be given in the course as well as each examination’s percentage of the course grade. This information, along with scheduled dates and times, should be included in the course syllabus.

The comprehensive final examination in a course should be given as scheduled and not at other times, even if the faculty member and all students in a course agree to such a change. However, students who have more than two exams in one calendar day, or two examinations at the same time, may reschedule. Students should contact the instructors as early in the semester as possible, no less than one week prior to the last class meeting, to resolve any scheduling issues. If a resolution cannot be reached, students should contact their advising center. The dean’s office is responsible for enforcing the final exam policy and resolving any conflicts or issues.

**Grading**

The university awards letter grades that are translated into quality points to determine a grade point average. The “+/-” grading system may be used by instructors to help students understand their performance more accurately. Under this system, quality points are assigned as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>C-</td>
<td>1.7</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>D-</td>
<td>0.7</td>
</tr>
<tr>
<td>F</td>
<td>0.0</td>
</tr>
</tbody>
</table>

The grade A+ is given for extraordinary work and appears on the transcript with the “plus” qualification, but it awards no additional quality points. The grade F means not passing and earns neither semester hours toward graduation nor quality points; however, the number of semester hours attempted is computed into the point standing, so that an F has a negative effect on the point standing. All missing grades change to failing grades one year after the completion of the semester in which the course was taken.

Other letter grades, all of which do not enter into the point standing, include the following:

- **AU** means Audit.
- **I** means Incomplete Work.
- **P** means Passing.
- **S and U** mean Satisfactory and Unsatisfactory.
- **W** means Withdraw.
- **X** means No Basis for Grade.

For a course taken on a pass-fail basis a grade P is given for achievement equivalent to the standards for the grades A through D in the same course and earns the designated number of semester hours toward graduation. For courses using S and U, an S will earn semester hours, but those hours may not be counted toward the minimum number of hours required for graduation or a degree. The grade X is available only for graduate level courses for which the work is not yet finished due to the nature of the study.

The university’s undergraduate grade point average (UGPA) is determined by dividing the total number of quality points earned by the total number of semester hours attempted with earned grades. The UGPA takes into account all undergraduate course work taken at the university, except that courses numbered below the 100 level will not be used in the earned hours or UGPA calculations. Grades and quality points earned at other institutions are also not incorporated into the UGPA.

A program GPA is calculated by including only those courses used to satisfy degree requirements. Courses for which transfer credit has been awarded at another institution are not included in the determination of the program GPA.
Incompletes

Students unable to complete course work because of conditions beyond their control may be granted the grade I, which stands for Incomplete, so that the work can be completed after the end of the semester. Such conditions include hospitalizations, death in immediate family, and prolonged sickness. The grade I may not be used solely to extend the available time in a semester for students who fall behind for reasons under their control.

The grade I may be assigned at the discretion of the course instructor if all of the following conditions are met:

The majority of the course work was completed prior to the end of the semester;
The student is in good standing to pass the course upon successful completion of the remaining work;
The final portion of the course work could not be completed for reasons beyond the student’s control.

If requested to do so, the student must supply the instructor with documentation of the extenuating circumstances. The instructor is encouraged to provide to the student a written statement of the expectations and requirements for completing the course work.

Students must complete the course work no later than the last day of classes for the next regular fall or spring semester. If the work is completed by the deadline, the instructor submits a change of grade from I to the letter grade earned. The change of grade form must be submitted by the instructor to the registrar’s office by the last day to submit grades for the semester when the student’s completed coursework was due. Failure of the student to complete the work by the deadline will result in an automatic change of grade from I to F unless the dean’s office grants an extension.

Students may not graduate with an I grade on the transcript. Students with an incomplete should not register again for the course. An I carries no quality points until it is changed to a letter grade.

Academic Forgiveness

Academic Forgiveness allows currently enrolled students or students who are eligible to re-enroll without seeking readmission to request the adjustment of their records for one or more continuous entire semesters of previous college work. If the appropriate committee within the students’ enrollment unit or the unit in which they seek to re-enroll finds there are extenuating circumstances that warrant such action, the committee may rule the students eligible for academic forgiveness. The committee will approve petitions only if future academic success seems plausible, with the expectation that such forgiveness should typically have a positive effect on persistence toward eventual graduation.

Forgiveness will only be applied to the record after the successful completion of at least 12 hours after the last term for which forgiveness is to be requested. The 12 hours should be in degree applicable courses with the necessary semester grade point average designated by their enrollment unit. After these 12 hours have been attempted, students may petition the appropriate committee for academic forgiveness, designating the semester or consecutive sequence of semesters to which the forgiveness process is to apply. If approved, all course grades and credit hours for the forgiven semesters will be voided. Students may not be granted academic forgiveness more than once.

The voided grades and credit hours will not be considered for degree requirements or quality-point computations, but will remain on the students’ transcript. Academic actions, such as probation or dismissal, recorded at the end of the voided terms, will also remain. While forgiven course grades are removed from the calculation, the course work does remain a part of the students’ permanent record and the forgiven work may be considered for financial aid, NCAA purposes, and may be evaluated if applying for honors or graduate study.

Academic forgiveness is an internal policy. The University of Louisville cannot guarantee how the work will be viewed by another university should students choose to transfer. Students considering this option are strongly encouraged to consult with their academic advisor for guidance.

Academic Fresh Start

Students who are re-admitted to the university after an absence of two or more years may apply for a Fresh Start (http://louisville.edu/admissions/apply/transfer/admissions/app-resources/fresh-start-application), i.e., may request that the university reset the student’s cumulative grade point average and hours earned during the period of previous residency.

Students must take at least 30 hours of coursework at the University after re-admission and before graduation for Fresh Start to be applicable. Students are eligible for only one Fresh Start. Students who have earned a baccalaureate degree from the University are not eligible for Fresh Start.

If the Fresh Start is approved by the university, students resume an academic program with no cumulative grade point average from the prior enrollment. All courses taken remain on the permanent record. Courses with passing grades are counted for credit and may be used to satisfy program requirements.
Students may be required to retake courses from academic terms covered by Fresh Start if the content-currency or major-GPA rules of a degree program, department or unit so dictate. Students will be notified at the time of readmission of any additional requirements to be fulfilled in remedying these conditions.

Although Fresh Start affects cumulative grade point average, it has no impact on earned and attempted hours. All courses taken at the university will still be used for financial aid. Financial aid recipients will still have to adhere to the Satisfactory Academic Progress (SAP) policy administered by the Student Financial Aid Office. Students who are granted a Fresh Start are not automatically cleared of any SAP issues. If interested in submitting a SAP appeal, students should contact the Student Financial Aid Office.

Courses taken under the repeat-to-replace option during the period covered by a Fresh Start will not be counted against the maximum repeats allowed under university policy. Financial aid for repeat courses is calculated according to federal regulations.

For the purposes of scholastic action and advising, students are initially assigned to the same academic standing as when they last attended the university. Thereafter, students are subject to the conditions of probation, suspension and dismissal that govern all students. GPA calculations for graduation honors follow the rules established by the students’ enrollment unit.

**Academic Standing**

**University Policies: Academic Standing**

Decisions involving academic warning, probation, suspension, dismissal and readmission are made by each academic unit. These decisions are based on the university’s undergraduate grade point average (UGPA) and the program grade point average (PGPA). The unit notifies students after the end of each semester if their status changes. Notifications of such academic actions are officially made through the student’s university email account.

Undergraduate students are in good standing when they have a cumulative UGPA of at least 2.00 and a cumulative PGPA greater than the program requirement. Each unit determines their own program requirements.

**Academic Warning, Academic Probation, and Academic Suspension**

After the first 12 degree-applicable semester hours at the University, students who have either a cumulative UGPA below 2.00, or a cumulative PGPA below the program requirement, will be placed on academic warning. Such students will be notified and strongly encouraged to seek assistance from their advising center.

In any semester subsequent to an academic warning, students whose cumulative UGPA falls below 2.00, or cumulative PGPA falls below the program requirement, will be placed on academic probation for the next semester of enrollment. Academic probation is considered a serious warning that students are making unsatisfactory progress toward completion of the academic requirements for a particular degree program. Students on academic probation may be ineligible to hold office in campus organizations, to go out on co-op, internship, or clinical assignments, or to represent the school or the University in any official capacity.

Students on academic probation shall be removed from that standing at the end of the first subsequent semester in which they achieve a cumulative UGPA of at least 2.00 and a cumulative PGPA greater than the program requirement. Such students will return to good standing. Students on academic probation shall be placed on academic suspension at the end of the first subsequent semester in which their semester UGPA falls below 2.00, or semester PGPA falls below the program requirement.

Students on academic suspension are not permitted to enroll for at least one program semester and must withdraw from any courses for the semester in which the suspension is applied. During this period, individuals should seriously reexamine their previous accomplishments in terms of their chosen career objectives.

**Readmission/Reinstatement**

After one semester, students who believe that a reasonable opportunity for future successful performance exists may petition the unit’s committee for re-admittance. The petition must be received no later than July 1 for readmission for the fall semester, November 1 for the spring semester, and May 1 for the summer terms. Students who are granted reinstatement will be readmitted on academic probation. Readmission of suspended students is not guaranteed.

Students will not be reinstated more than twice; the third suspension is an academic dismissal. Students academically dismissed can only return through special permission from the enrollment unit.

Students who are suspended or dismissed are eligible to apply for admission to another unit and may be admitted if they meet minimum unit admission standards. Students admitted to another unit may not enroll in any courses in the unit from which they were dismissed, with the exception of courses needed to complete general education or other degree requirements offered only by the unit from which they were dismissed.

**Unit-Specific Policies**

In addition to the university-wide policies regarding Academic Standing, students may be subject to the unit-specific requirements listed below.

**College of Arts and Sciences**

*Warning, Probation, Suspension, and Readmission*

Students on Academic Warning are limited to enrollment for 13 credit hours in a fall or spring semester and 10 credit hours for the summer terms.

The enrollment of students on Academic Probation will continue to be limited to a maximum of 13 semester hours in a fall or spring semester.
and 10 credit hours for the summer terms. Students on probation also may be subject to specified course registration requirements, or other actions deemed appropriate by the College. Students who are admitted to the College conditionally who have a grade point average below 2.0 at the end of their first semester of enrollment at the University of Louisville will be placed on Academic Probation.

Students on Academic Suspension and will be required to sit out at least one semester: students suspended after a fall semester must sit out the following spring semester; students suspended after a spring semester must sit out the following summer and fall semesters; and students suspended after a summer semester must sit out the following fall semester. Students must sit out at least one calendar year after any subsequent suspension.

College of Education and Human Development

Academic Probation Policy

CEHD students on Academic Probation may enroll in no more than 13 semester hours in a semester (10 hours during the summer).

Students on Academic Probation must earn a 2.5 grade point average (based on degree applicable credits) in the academic probation semester to continue on Academic Probation.

Students on Academic Probation whose cumulative grade point average is below 2.25 (based on degree applicable credits) will be placed on Academic Suspension and will be required to sit out at least one semester (summer terms excluded). Courses taken at another institution during a suspension semester may not be used if students are readmitted to the College of Education and Human Development.

Dismissal Policy

Students who are suspended the third time from the College of Education and Human Development are academically dismissed. A student who has been dismissed from the College of Education and Human Development may apply for readmission after one full year. If a dismissed student is admitted to any other college or university during that year, credits earned will not apply toward a degree granted by the College of Education and Human Development.

Kent School of Social Work

Lower Division: A cumulative GPA of 2.5 or above is required to remain in Good Standing. If a student's cumulative GPA falls below 2.5, then the student will be given a warning and will be required to meet with the BSW Program Manager for planning and oversight. If in the following semester the student's cumulative GPA remains less than a 2.5, the student will be placed on probation and an academic review will be required. A cumulative GPA of 2.5 or above in the following semester will be required to return to Good Standing. Students will be placed on suspension following probation if the cumulative GPA remains below 2.5.

Kent students must sit out at least one semester excluding summer when suspended. The student may apply to another unit.

No student will be reinstated more than once with Kent School and no more than twice with UofL. A third suspension is an academic dismissal from UofL. A written petition is required for readmission, which is not guaranteed.

Upper Division: Upper Division students will be placed on suspension following probation if cumulative GPA remains below 2.5 for three consecutive semesters.

The Associate Dean for Academic Affairs' Office will notify students at the end of each semester if academic reviews are needed, based on their GPA. Apart from reviews based on GPA, any faculty person may recommend a review for any students who are perceived to be in academic difficulty or who appear to have engaged in inappropriate conduct in violation of the National Association of Social Workers Code of Ethics, or the Code of Students Rights and Responsibilities.

If a student earns an F in a non-social work course or is on academic warning, the student is required to attend two meetings with the student advisor or BSW Program Manager, (one before mid-term to talk about strategies; one after mid-term). These meetings will not constitute academic reviews and will be documented using existing procedures for documentation of undergraduate advising sessions.

School of Music

The School of Music follows university-wide policies, except that students are in good standing when they have a minimum cumulative grade point average of 2.5.

Undergraduate students on Academic Probation are:
School of Nursing

Lower Division Progression

For Lower Division Traditional BSN program students, the School of Nursing follows university-wide policies, except that students are in good standing when they have a minimum university cumulative grade point average of 2.8.

Pathophysiology and Pharmacology

Students in the Traditional BSN Program must satisfactorily complete NURS 338 Lifespan Pathophysiology and NURS 395 Nursing Pharmacotherapeutics with a grade of C or better in order to progress to the upper division clinical cohort. If students do not satisfactorily complete both NURS 338 and NURS 395 they must retake them to be eligible to reapply to upper division to compete for an upper division clinical space.

Failure to satisfactorily complete both courses results in dismissal from the program.

Students who do not pass the following classes will be dismissed from the program:

- BIOL 260
- BIOL 261
- BIOL 262

Upper Division Progression

Students admitted to the Upper Division of Nursing must earn a C or above in all nursing courses. Good standing in the Upper Division for the Traditional BSN program is a minimum cumulative university GPA of 2.5. RN-BSN students must maintain a minimum cumulative university GPA of 2.0.

Students admitted to the Upper Division are allowed to repeat a nursing course only one time. Students who earn a grade below C in two Nursing (NURS) courses numbered 300 or above, or a second attempt at a nursing course will be dismissed from the program. This includes the required Pharmacology and Pathophysiology courses taken in Lower Division. For example, if a student fails NURS 338 in lower division and then fails an additional course numbered 300 or higher in upper division, this is two nursing failures and the student will be dismissed from the program.

A student who wishes to repeat a nursing course should submit a Permit to Repeat Course form to the Office of Student Services, School of Nursing for approval. Once permission is granted, the student will be allowed to repeat the course on a space available basis.

If suspended from the program, students must meet with their advisor to revise their program of study, determine remediation, request re-enrollment on a space available basis, and plan to submit an Admissions Petition and official UofL Undergraduate application to the Office of Admissions in accordance with University guidelines. Re-admission is not guaranteed.

If dismissed from the program, the student has the right to file a petition to be allowed to remain in the program. If the petition to be allowed to remain in the program is denied, dismissal from the program is permanent. For petition deadlines please call the Office of Student Services at (502) 852-1196.

Speed School of Engineering

A program GPA is calculated by including only those courses used to satisfy degree requirements. Courses for which transfer credit has been awarded are not included in either GPA calculation.

Students have the responsibility to know their current status. The University routinely notifies students when their status changes, but such notification may not be possible before the beginning of the semester.

Good Standing

The Speed School of Engineering follows university-wide policies, except that students are in good standing when they have a minimum cumulative university GPA and PGPA of 2.25.

Academic Warning

Students on Academic Warning are limited to enrollment for 13 credit hours (7 credit hours during the Speed School summer term). A student placed on Academic Warning will have the following semester to raise the cumulative university GPA to at least 2.25. If that does not occur, the student will then be placed on Academic Probation.

Academic Probation

In any semester subsequent to that described in Academic Warning above, an undergraduate student who has less than a 2.25 cumulative university GPA will be placed on Academic Probation for the next semester in which the student enrolls. Students on Academic Probation are notified that their achievement is below expectations and are subject to course and/or credit hour limitations. During a semester on Academic Probation, no student may enroll in more than 13 credit hours (7 credit hours during the Speed School summer term). Students on Academic Probation will have their records evaluated at the end of the probationary semester with one of the following outcomes:

- Students whose cumulative university GPA and semester GPA are both at or above 2.25 will be restored to good standing in the Speed School.
• Students whose cumulative university GPA is still below 2.25 but who earned a semester GPA of at least 2.5 will be maintained on probation.

• Students whose cumulative university GPA is still below 2.25, and who earned a semester GPA at or above 2.25 but below 2.5, may petition for continuation on probation. The petition describing the student’s plan of action to return to good standing must be submitted to the school’s Standards and Admissions Committee. Students who do not submit a petition will be placed on Academic Suspension.

• Students whose cumulative university GPA and semester GPA are both below 2.25 will be placed on Academic Suspension and will be required to sit out at least one semester.

Class Attendance

The academy requires student participation in the learning process, measurement of student progress, and the fulfillment of basic course requirements. Faculty members will provide students in their classes with clear syllabi, including attendance requirements and dates for required measurements or field experiences. Attendance policies should allow excused absences for university-sanctioned events. Although each college, school, or academic unit of the University of Louisville creates its own regulations concerning class attendance, all units hold students responsible for materials covered, lectures given, papers due, exams scheduled, or other evaluative measures administered.

Because the university recognizes that educational experiences extend beyond the classroom and campus, faculty must be flexible with students acting as official representatives of the university or participating in university-sanctioned events or activities that require absence from class. A university sanctioned event or activity shall be one in which a student represents the university to external constituencies in academic or extra-curricular activities. These include but are not limited to student government congresses, intercollegiate athletic and debate contests, music competitions, academic meetings, and conferences. The deans, the student government association, or faculty sponsors of recognized student organizations may petition the provost to designate other specific events as university-sanctioned.

When students’ participation in university-sanctioned events or activities requires them to be absent from a class (or classes) during which an examination or other measurement of academic progress is scheduled, faculty will provide students with opportunities to be evaluated at other times and by comparable alternative evaluation methods within a reasonable period of time before or after the absence. Students are responsible for material covered or work assigned in any class for which they have been provided an excused absence.

Dean’s List and Scholars

Students who complete twelve or more graded credits in one semester are eligible for the Dean’s List and designation as a Dean’s Scholar. The following distinctions are made:

• Dean’s List................. UGPA of 3.5 and above, with no grades of I, X, U, or C-minus or below
• Dean’s Scholar.......... UGPA equal to 4.0, with no grades of I, X, or U

Developmental courses (courses below 100 level) and grades of P are not prohibited in Dean’s List or Dean’s Scholar qualifications but cannot be used to meet the graded-credits minimum requirement. Any petitions arising from unusual circumstances (such as part-time status) should be filed with the students’ advising center within two weeks of the beginning of the next term of enrollment.

Final Examinations

Comprehensive final examinations may be administered only on the date and time prescribed in the online university final exam schedule.

Comprehensive examinations may not be given on the last regular day of class or during the reading period. Examinations which cover a limited portion of the coursework may be given during the last regular class period. Students must be notified of the type of examinations to be given in the course as well as each examination’s percentage of the course grade. This information, along with scheduled dates and times, should be included in the course syllabus.

The comprehensive final examination in a course should be given as scheduled and not at other times, even if the faculty member and all students in a course agree to such a change. However, students who
have more than two exams in one calendar day, or two examinations at the same time, may reschedule. Students should contact the instructors as early in the semester as possible, no less than one week prior to the last class meeting, to resolve any scheduling issues.

If a resolution cannot be reached, students should contact their advising center. The dean's office is responsible for enforcing the final exam policy and resolving any conflicts or issues.

### Grading

The university awards letter grades that are translated into quality points to determine a grade point average. The "+/-" grading system may be used by instructors to help students understand their performance more accurately. Under this system, quality points are assigned as follows:

<table>
<thead>
<tr>
<th>Grades</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.3</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>C-</td>
<td>1.7</td>
</tr>
<tr>
<td>D+</td>
<td>1.3</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>D-</td>
<td>0.7</td>
</tr>
<tr>
<td>F</td>
<td>0.0</td>
</tr>
</tbody>
</table>

The grade A+ is given for extraordinary work and appears on the transcript with the "plus" qualification, but it awards no additional quality points. The grade F means not passing and earns neither semester hours toward graduation nor quality points; however, the number of semester hours attempted is computed into the point standing, so that an F has a negative effect on the point standing. All missing grades change to failing grades one year after the completion of the semester in which the course was taken.

Other letter grades, all of which do not enter into the point standing, include the following:

- **AU** means Audit.
- **I** means Incomplete Work.
- **P** means Passing.

### S and U mean Satisfactory and Unsatisfactory.

### W means Withdrew.

### X means No Basis for Grade.

For a course taken on a pass-fail basis a grade P is given for achievement equivalent to the standards for the grades A through D in the same course and earns the designated number of semester hours toward graduation. For courses using S and U, an S will earn semester hours, but those hours may not be counted toward the minimum number of hours required for graduation or a degree. The grade X is available only for graduate level courses for which the work is not yet finished due to the nature of the study.

The university's undergraduate grade point average (UGPA) is determined by dividing the total number of quality points earned by the total number of semester hours attempted with earned grades. The UGPA takes into account all undergraduate course work taken at the university, except that courses numbered below the 100 level will not be used in the earned hours or UGPA calculations. Grades and quality points earned at other institutions are also not incorporated into the UGPA.

A program GPA is calculated by including only those courses used to satisfy degree requirements. Courses for which transfer credit has been awarded are not included in the calculation. The program GPA is used for determination of honors and satisfaction of degree requirements.

### Incompletes

Students unable to complete course work because of conditions beyond their control may be granted the grade I, which stands for Incomplete, so that the work can be completed after the end of the semester. Such conditions include hospitalizations, death in immediate family, and prolonged sickness. The grade I may not be used solely to extend the available time in a semester for students who fall behind for reasons under their control.

The grade I may be assigned at the discretion of the course instructor if all of the following conditions are met:

- The majority of the course work was completed prior to the end of the semester;
- The student is in good standing to pass the course upon successful completion of the remaining work;
- The final portion of the course work could not be completed for reasons beyond the student's control.

If requested to do so, the student must supply the instructor with documentation of the extenuating circumstances. The instructor
is encouraged to provide to the student a written statement of the expectations and requirements for completing the course work.

Students must complete the course work no later than the last day of classes for the next regular fall or spring semester. If the work is completed by the deadline, the instructor submits a change of grade from I to the letter grade earned. The change of grade form must be submitted by the instructor to the registrar’s office by the last day to submit grades for the semester when the student’s completed coursework was due. Failure of the student to complete the work by the deadline will result in an automatic change of grade from I to F unless the dean’s office grants an extension.

Students may not graduate with an I grade on the transcript. Students with an incomplete should not register again for the course. An I carries no quality points until it is changed to a letter grade.

Graduation Policies

Information on policies related to degree requirements and graduation at the University of Louisville can be found on this page or by clicking on the following links to topic-specific pages:

- Catalog Year (p. 77)
- General Education: Cardinal Core Requirements (p. 78)
- Graduation and Degree Requirements (p. 80)
- Graduation with Academic Honors (p. 83)
- Residency Requirements (p. 84)

These policies are effective August 20, 2018 (Fall 2018 semester). Students enrolled in a term before this effective date should consult with an advisor in their enrollment unit (http://louisville.edu/advising/centers) if they feel that they are disadvantaged by any change from 2017-18 policies.

Previous catalogs are available via the archive page of this catalog (p. 791). Reference copies of the university catalog are maintained by University Libraries, the university registrar, the Student Government Association (SGA) Office, the student grievance officer, and the Dean of Students/Vice Provost for Student Affairs.

Catalog Year

The university issues a catalog annually before the summer term, and the degree requirements stated in the annual issue apply to all students who matriculate during that year. These requirements constitute the “catalog year” for those students and set their degree requirements as long as they are enrolled without a break of more than two calendar years. In other cases, a student may elect to follow the requirements of a later catalog year. The student’s advisor will assist in identifying the need and benefit of such an election. The advisor must record this election in the student’s permanent record.

Students may petition for a variance from the stated degree requirements of their catalog year. Any variance must be approved by the dean or unit advising director (for unit and major degree requirements) or the provost (for general education or Cardinal Core requirements).

Students readmitted after an absence of two or more calendar years must reapply for admission. If readmitted, they are subject to the catalog year requirements in force at the time of their readmission.

Note: The degree requirements for students enrolled before summer 2018 have been migrated to the university’s updated General Education program, Cardinal Core, with provision for differences between the old general-education program and the Cardinal Core.

General Education: Cardinal Core Requirements

Beginning in summer 2018, all students are required to meet the requirements of the Cardinal Core general education program. Students who matriculated to the university before summer 2018 should consult with their advisors about transitioning from the previous general education program to Cardinal Core.

The Cardinal Core program at the University of Louisville prepares students to do the advanced work needed for their baccalaureate degrees and prepares them to contribute to society throughout their lives through their professional work and civic engagement. The program emphasizes the development of key intellectual skills relevant to any career path: critical thinking, quantitative reasoning, effective communication, and the understanding of historical, social, and cultural diversity. Students will develop skills and acquire knowledge in the content areas of arts and humanities, historical perspectives, oral communication, quantitative reasoning, social and behavioral sciences, natural sciences, written communication, and the competency area of diversity in the United States and globally. Upon completion of the program, students will be prepared to analyze complex problems and evaluate possible courses of action in an environment characterized by diversity and the need for sustainable solutions.

For detailed information, please refer to the General Education: Cardinal Core (http://catalog.louisville.edu/undergraduate/general-education-requirements) page in this catalog.

Graduation and Degree Requirements

The conferring of degrees by the University of Louisville is conditional upon completion of all requirements in the opinion of the unit faculty and dean, regardless of the students’ participation in commencement. Students are strongly urged to run preliminary degree audits on a regular basis so that possible deficiencies in degree requirements can be identified early.

The baccalaureate degree (Bachelor’s of Arts, Fine Arts, Music, or Science) is the undergraduate degree offered by UofL. It is awarded to students who have completed both university-wide requirements and the requirements of the selected degree program. The following university-wide requirements apply to all baccalaureate degrees; the student must:

- Complete an online degree application by the specified date at the beginning of the semester of graduation.
Minimum criteria for honors are as follows:

- Complete an application for and be accepted for admission into a major program.
- Satisfy all Cardinal Core requirements.
- Complete all required courses and program requirements listed in the degree program section of this catalog.
- Have a cumulative university GPA of at least 2.00, or higher if specified by the program.
- Have a cumulative program GPA of at least 2.00, or higher if specified by the program.
- Complete a minimum of 120 hours applicable to the program, or more if required by the program.
- Complete at least 60 hours at an accredited four-year institution.
- Complete at least 25-percent of the total credit hours required for the degree in residence at the University of Louisville.
- Complete 30 of the last 36 hours in residence at the University of Louisville.
- Have neither missing nor outstanding I or X grades.
- Satisfy any additional requirements specified by the major program and unit.
- Be discharged of all financial obligations to the University.
- Be formally recommended for the baccalaureate degree by the unit faculty and dean and approved by the Board of Trustees.

To be awarded a second bachelor's degree, students must earn a minimum of thirty additional semester hours in the program. For students pursuing two degrees simultaneously, these thirty hours will be added to the minimum total of semester hours needed for the degree requiring the least number of hours.

Students who want to take a minor must apply for admission to the minor program after acceptance into a major program. The coursework requirements for a minor are prescribed by a department or unit and consist of at least 18 semester hours. Satisfactory completion of coursework required for a minor will be certified as completion of the minor, and will be shown on the student's transcript only if the student's application has been accepted by the department or program offering the minor. Most minor programs are open to students from all units.

Graduation with Academic Honors

Baccalaureate degree students who have earned a minimum of 60 hours of degree credit in residence at the University of Louisville will be eligible for consideration to graduate with honors. Students who have re-entered the university under the fresh-start policy must have earned at least 60 credit hours since their return to be considered for academic honors.

Commencement programs will list eligible students as a Candidate for Honors based on their having earned both undergraduate and program grade point averages of 3.5 or higher prior to the semester preceding graduation. Final determination of a student's eligibility to graduate with academic honors will be based on the student's standing upon completion of the degree. The name of the honor is decided by the unit.

Minimum criteria for honors are as follows:

- Cum Laude or Honors: 3.50 undergraduate and program grade point averages
- Magna Cum Laude or High Honors: 3.75 undergraduate and program grade point averages
- Summa Cum Laude or Highest Honors: 3.90 undergraduate and program grade point averages

Requirements for graduation with academic honors are determined by each academic unit. In addition to the minimum criteria, units may specify additional requirements for grade point averages and additional work such as honors projects or honors theses. Students should consult their advisor concerning eligibility and requirements for graduation with academic honors. The dean's office will make any final decisions concerning eligibility.

Students who were admitted to the University Honors program may be eligible to graduate as an Honors Scholar. Students who complete the necessary coursework with the required GPA will earn the designation of University Honors Scholar on both their transcript and diploma. Students who earn this distinction are awarded a medal and recognized at an awards ceremony prior to university commencement.

Residency Requirements

Students earning baccalaureate degrees are required to complete at least 25 percent of the total credit hours required for the degree (including Cardinal Core credit hours) at the University of Louisville. Students earning baccalaureate degrees are also required to complete 30 of their last 36 semester hours at the University of Louisville. Students earning associate degrees are required to complete a minimum of 15 of their last 18 semester hours at the University of Louisville. Additionally, transfer students must take a minimum of 12 credit hours in their major at the University.

Catalog Year

The university issues a catalog annually before the summer term, and the degree requirements stated in the annual issue apply to all students who matriculate during that year. These requirements constitute the "catalog year" for those students and set their degree requirements as long as they are enrolled without a break of more than two calendar years. In other cases, a student may elect to follow the requirements of a later catalog year. The student's advisor will assist in identifying the need and benefit of such an election. The advisor must record this election in the student's permanent record.

Students may petition for a variance from the stated degree requirements of their catalog year. Any variance must be approved by the dean or unit advising director (for unit and major degree requirements) or the provost (for general education or Cardinal Core requirements).
Students readmitted after an absence of two or more calendar years must reapply for admission. If readmitted, they are subject to the catalog year requirements in force at the time of their readmission.

**Note:** The degree requirements for students enrolled before summer 2018 have been migrated to the university’s updated General Education program, Cardinal Core, with provision for differences between the old general-education program and the Cardinal Core.

**General Education: Cardinal Core Requirements**

**Cardinal Core Overview**

Beginning in summer 2018, all students are required to meet the requirements of the Cardinal Core program. Students who matriculated to the university before summer 2018 should consult with their advisors about transitioning from the previous general education program to Cardinal Core.

The Cardinal Core program at the University of Louisville prepares students to do the advanced work needed for their baccalaureate degrees and prepares them to contribute to society throughout their lives through their professional work and civic engagement. The program emphasizes the development of key intellectual skills relevant to any career path: critical thinking, quantitative reasoning, effective communication, and the understanding of historical, social, and cultural diversity.

Students develop skills and acquire knowledge in the content areas of arts and humanities, historical perspectives, oral communication, quantitative reasoning, social and behavioral sciences, natural sciences, written communication, and the competency area of diversity in the United States and globally. Upon completion of the program, students are prepared to analyze complex problems and evaluate possible courses of action in an environment characterized by diversity and the need for sustainable solutions.

Students should demonstrate proficiency (through coursework or external credit) in the three skills areas (written communication, oral communication, and quantitative reasoning) before completing the first 30 degree-applicable credit hours earned at the University of Louisville. Within 60 hours, the student should have completed 21 hours of Cardinal Core courses.

The Cardinal Core program requires a minimum of 31 credit hours from approved course categories as outlined in the table below. Students must complete a minimum of 12 hours in the skills courses, a minimum of 19 hours in the disciplinary perspectives courses, and within the 31 hours, students must accumulate 6 hours in diversity credit.

This requirement does not add hours to the total Cardinal Core Program. Diversity requirements will be met by taking courses in other Cardinal Core categories that also carry the D1 or D2 designation.

Total Hours Required: 31

1. Students must take at least 2 courses from different disciplines to satisfy the Arts & Humanities (AH) requirement.
2. Students must take at least 2 courses from different disciplines—with a minimum of 3 hours in Historical Perspectives (SBH) coursework—to satisfy the Social & Behavioral Sciences (SB) and Historical Perspectives (SBH) requirement.
3. Students must take a lecture and lab in a single discipline and an additional 3 hours in a second discipline to satisfy the Natural Sciences (S, SL, B) requirement.
4. If met by taking courses in other content areas that also carry the D1 or D2 designation, the Diversity requirements add no additional hours to the overall requirements of the Cardinal Core program.

For a list of approved Cardinal Core courses, please visit the Cardinal Core website (http://louisville.edu/provost/ger).

### Cardinal Core Content Areas

#### Written Communication

Written communication is the ability to develop and express ideas, opinions, and information in appropriate written forms. To fulfill this requirement, students will complete a substantial amount of writing, including several texts that go through the writing process.

**Requirement:** 6 hours (WC). The first 3 hours must be a writing course in or credit approved by the Department of English.

#### Oral Communication

Oral communication is the ability to convey ideas, emotions, and information through speech.

**Requirement:** 3 hours (OC)

#### Quantitative Reasoning

Quantitative reasoning is concerned with solving real-world problems through mathematical methods.
Components in Diversity

Requirement: 3 hours in quantitative reasoning (QR)

Disability Resource Center Assistance with QR Requirement
A student who believes that his or her inability to complete a course that fulfills the quantitative reasoning Cardinal Core requirement is a result of a disability should contact the Disability Resource Center (DRC), which will outline the process for documenting such a disability, explain what courses can be substituted if a disability is diagnosed, and will make clear to the student that such a substitution will make it impossible to take classes for which Cardinal Core quantitative reasoning courses are prerequisite, thus greatly limiting the majors the student can elect. All such courses of action must be approved by the provost.

Arts and Humanities
Arts and humanities are concerned with understanding of art, music, theatre, literature, philosophy, and religious thought.

Requirement: 6 hours in the arts and/or humanities (AH), with at least two courses from different disciplines.

Social and Behavioral Sciences
Social and behavioral sciences are concerned with understanding human behavior, human interactions, human environment, and the related social structures and forms.

Requirement: 6 hours (SB): At least two courses from different disciplines and 3 hours must be in Historical Perspective (SBH).

Natural Sciences
Natural sciences are concerned with understanding the laws of nature and the physical world.

Requirement: 7 hours: lecture (S) and lab (SL) or combined lecture and lab (B) in a single discipline; an additional 3 hours in a second discipline.

Competency in Diversity
Diversity refers to the difference that differences make. All courses in diversity will examine the ways in which components of identity and social and material stratification positively or negatively affect life experiences, opportunities, and sense of belonging in national or global contexts.

Students must take 6 hours in diversity, with 3 hours in U.S. diversity (D1) and 3 hours in global diversity (D2). The diversity requirements will be met by taking courses in other Cardinal Core categories that also carry the D1 or D2 designation. This requirement, therefore, does not add hours to the total Cardinal Core program.

- U.S. Diversity
Courses in U.S. diversity (D1) will broaden students’ understanding of how the experiences and opportunities of individuals and groups in the United States are shaped by the various historical, cultural and social structures and processes of stratification. These courses will center on race, socio-economic status, and gender, and/or their interactions with other social demographics.

Requirement: 3 hours

- Global Diversity
Courses in global diversity (D2) will broaden students’ understanding of how the experiences and opportunities of individuals and/or groups in non-U.S. societies are shaped by the various historical, cultural and social structures and processes of stratification locally or globally.

Requirement: 3 hours

Petitions for Diversity (D) Credit
Students may receive one diversity credit by petitioning the Cardinal Core Curriculum Committee under the following claims.

- Diversity (D) Credit for Study Abroad Courses
Students may petition for diversity (D) credit for coursework undertaken as part of a study-abroad program prior to participation. Courses not previously approved for Cardinal Core credit will not be accepted for diversity (D) credit even if they are part of a university-approved study-abroad program. Petitions must be submitted to the committee through the Cardinal Core website.

Information on submitting a petition for transfer credit is available on the Cardinal Core website (http://louisville.edu/provost/ger/diversity).

- Diversity (D) Credit for Military Experience
A student may petition the Cardinal Core Curriculum Committee to evaluate transfer courses identified by the Admissions Office as not equivalent to any existing approved diversity (D) course. The student requesting the evaluation must provide a catalog course description and a syllabus of the course.

Information on submitting a petition for transfer credit is available on the Cardinal Core website (http://louisville.edu/provost/ger/diversity).

- Diversity (D) Credit for Military Experience
A student may petition for diversity (D) credit based on military experience. The petition must include an essay identifying which form of diversity (D) credit is requested, describing and explaining how the experience met the learning outcomes of the diversity (D) competency.

Petitions must be submitted to the committee. Detailed instructions are available on the Cardinal Core website (http://louisville.edu/provost/ger/diversity).

Only one diversity credit (D1 or D2) may be earned by petition.

Cardinal Core Guidelines
These rules provide guidelines and available options for student course selection for completion of the Cardinal Core (general education) requirements (effective summer 2018). In alignment with university policy, the requirements, rules, policies, and the associated course listing for Cardinal Core in this catalog are for summer 2018 through spring 2019 and apply to all students enrolled in the university during this period.
Questions concerning these guidelines can be addressed to gecc@louisville.edu for the consideration of the committee.

**Course Substitutions and Appeals**

Students, departments, and units may not attempt to substitute for a Cardinal Core approved course any University of Louisville course not on the Cardinal Core approved list. The Cardinal Core Curriculum Committee will not accept any appeal for such consideration.

**Transfer Students and Cardinal Core**

**Kentucky General Education Transfer Policy**

Students who transfer between Kentucky’s public institutions of higher education may qualify for certification of coursework meeting the Kentucky General Education Transfer Policy.

**General Education Category Certified**

Students who have completed some but not all of the five categories in the core component will be “category certified” for purposes of transfer. Individuals in this situation must fulfill all of the remaining general education requirements of the receiving institution that have not been satisfied through category certification. Students will still be required to complete 6 hours in courses designated diversity (D), with 3 hours in U.S. diversity (D1) and 3 hours in global diversity (D2).

**Statewide General Education Core Categories**

**General Education Core Certified**

Students who have completed all of the categories – the core component – with a minimum of 30 unduplicated credit hours will be “core certified” for purposes of transfer. A student admitted to the university as core certified is considered to have met all general education requirements of the institution with the exception of the Diversity competency. Students will still be required to complete 6 hours in courses designated diversity (D), with 3 hours in U.S. diversity (D1) and 3 hours in global diversity (D2).

**General Education Fully Certified**

Students who have completed a general education program, with a minimum of 30 unduplicated semester credit hours or the equivalent (may include an approved SACS justification for fewer hours) which includes the core component and all additional institutional-specific general education courses, will be “General Education Fully Certified” for purposes of transfer. If the receiving institution’s general education program requires a sum of hours that is less than the total the student has taken at the sending institution, the excess hours will be accepted for transfer by the receiving institution and evaluated for application toward degree requirements. There may be graduation requirements beyond general education requirements that a student will need to complete (e.g., senior year capstone experiences).

**AA/AS Credit for General Education**

Students who graduate from Kentucky public institutions with AA or AS degrees will be deemed to be General Education Fully Certified. Other students who present the transcript for an AA (Associate of Arts) and/or an AS (Associate of Science) degree from a regionally-accredited institution (not included in the Kentucky Public Transfer Policy) will be considered for General Education Core Certification. Transcripts for such consideration must show completion of at least one transferable course in each of the Cardinal Core content areas at the University of Louisville: Written Communication, Oral Communication, Quantitative Reasoning, Arts and Humanities, Social and Behavioral Sciences (including Historical Perspective), and Natural Sciences.

**General Education Requirements for Second-degree Students**

For students already holding a baccalaureate degree but in residence to complete a second baccalaureate, the Cardinal Core requirements shall be considered fulfilled by the first baccalaureate degree.

**Cardinal Core Assessment**

Assessment of student learning outcomes is a national expectation in higher education and the expectations are calls for increased accountability. The Cardinal Core Curriculum Committee (CCCC) will conduct a systematic assessment of the Cardinal Core program for achievement of the student learning outcomes. In particular, the university-wide general education assessment program evaluates student performance in the key intellectual skills of the Cardinal Core program: critical thinking, quantitative reasoning, effective communication, and the understanding of historical, social, and cultural diversity. This process evaluates the effectiveness of the general education program and recommends changes for its improvement, as required by the Southern Association of Colleges and Schools (SACS) accreditation principles.

**Graduation and Degree Requirements**

**University Policies: Graduation and Degree Requirements**

The conferring of degrees by the University of Louisville is conditional upon completion of all requirements in the opinion of the unit faculty and dean, regardless of the students’ participation in commencement.

Students are strongly urged to run preliminary degree audits on a regular basis so that possible deficiencies in degree requirements can be identified early.

**Bachelor’s Degree Requirements**

The baccalaureate degree (arts, fine arts, and science) is the undergraduate degree offered by the university. It is awarded to students who have completed both university-wide requirements and the requirements of the selected degree program. The following university-wide requirements apply to all baccalaureate degrees. The student must:

- Complete an online degree application by the specified date at the beginning of the semester of graduation.
• Complete an application for and be accepted for admission into a major program.
• Satisfy all Cardinal Core requirements.
• Complete all required courses and program requirements listed in the degree program section of this catalog.
• Have a cumulative university GPA of at least 2.00, or higher if specified by the program.
• Have a cumulative program GPA of at least 2.00, or higher if specified by the program.
• Complete a minimum of 120 hours applicable to the program, or more if required by the program.
• Complete at least 60 hours at an accredited four-year institution.
• Complete at least 25% of the total credit hours required for the degree in residence at the University of Louisville.
• Complete 30 of the last 36 hours in residence at the University of Louisville.
• Have neither missing nor outstanding I or X grades.
• Satisfy any additional requirements specified by the major program and unit.
• Be formally recommended for the baccalaureate degree by the unit faculty and dean and approved by the Board of Trustees.

Second Baccalaureates
To be awarded a second bachelor’s degree, students must earn a minimum of thirty additional semester hours in the program. For students pursuing two degrees simultaneously, these thirty hours will be added to the minimum total of semester hours needed for the degree requiring the least number of hours.

Minors
Students who want to take a minor must apply for admission to the minor program after acceptance into a major program. The course work requirements for a minor are prescribed by a department or unit and consist of at least 18 semester hours. Most minor programs are open to students from all units.

Satisfactory completion of course work required for a minor will be certified as completion of the minor, and will be shown on the student’s transcript only if the student’s application has been accepted by the department or program offering the minor.

Unit-Specific Policies
In addition to the university-wide policies regarding Graduation and Degree Requirements, students may be subject to the unit-specific requirements listed below.

College of Arts and Sciences
Minimum Hours
Each student must earn a minimum of 121 semester hours of credit (unless a higher minimum is specified in a program of study). At least 50 of the total semester hours, whether required or elective, must be earned in courses numbered 300 or higher. A student who earns duplicate credit for courses will be required to complete more hours.

Maximum Hours in Major
No more than 40 hours of courses that count in the major field may be applied toward graduation by candidates for the BA degree. No more than 60 hours in the major field may be applied toward graduation by candidates for the BS degree. No more than 80 hours in Fine Art (courses designated ART and ARTH) may be applied toward the BFA in Fine Arts.

Departmental Learning Outcomes Assessment
Completion of a baccalaureate degree also requires students to submit work to the department of the major for the department’s Learning Outcomes Measurement. Details about the specific requirements and deadlines of an individual department are available in the department office. Students are advised to make themselves aware of these requirements as early as possible in their academic careers.

Requirements for Minors
The course work requirements for a minor consist of 18-23 semester hours. A maximum of 3 hours of pass-fail work may be applied. Students may elect a major and a minor in the same department only if there is more than one degree program in that department and if the major and minor are in two different programs of the department. Students who elect a minor and a major in the same department are cautioned that no more than 40 hours of courses with the same departmental designation that count in the major may be applied toward the 121 hours minimum for a BA degree and no more than 60 hours with the same departmental designation may be applied toward the 121 hours minimum for a BS degree. Students also are cautioned that completion of the major, which is required for all degrees, and completion of the minor, which is optional, may require the student to complete more than the 121 semester hours minimum required for a baccalaureate degree. Courses required for the minor may be used to fulfill other degree requirements.

College of Business
Minimum Hours
Required hours exclude non-academic credits (all remedial course work including Reading, English, and Math courses numbered 100 or below). Students pursuing a second bachelor’s degree must be admitted to the College of Business in degree status, must earn a minimum of 30 hours beyond their last degree and fulfill all program and GPA requirements of the second degree.

Upper-Level Hours
At least 48 of the total semester hours, whether required or elective, must be earned in courses numbered 300 or higher. Note that the number of the course, not the student’s classification, determines whether or not a course is senior-level.

College of Education & Human Development
The baccalaureate degrees offered by the College of Education and Human Development include minimum requirements for completion and graduation.

Organizational Leadership and Learning
The following requirements apply to the BS degree in Organizational Leadership and Learning:
• At least 50 of the hours for the degree must be upper-level hours (300 level and above).
• 2.25 overall grade point average and 2.50 grade point average in the major.
• University policy mandating that 30 of the last 36 hours must be taken in residence does not apply to distance education students or active-duty military personnel in the OLL program.
• A grade of C or better is required in all professional education courses. C-minus is not acceptable.

• Students admitted to the OLL Healthcare Leadership track must maintain a 2.7 overall grade point average as well as a 3.3 grade point average in the major. Students are required to earn a B+ or better in each major course. For additional policies regarding this Competency-Based Education program: Organizational Leadership and Learning with a Track in Healthcare Leadership (BS).

Health and Human Performance
Students must complete at least 45 of the credit hours for the degree at the University of Louisville with a minimum cumulative university grade point average of 2.25. Students must have completed HSS 184 and HSS 320 with a grade of B-minus or higher and HSS 202 with a grade of C or higher.

Sport Administration
Students must complete at least 45 of the credit hours for the degree at the University of Louisville with a minimum cumulative university grade point average of 2.50. Students must have completed SPAD 281 and SPAD 284 with a grade of C or better (C-minus will not be accepted). Students must not have earned any grades of D in SPAD courses required for the major.

The minimum requirements for completion of the degree are:

• A total of 123 hours with at least 50 upper-level hours (300-level and above)
• 2.25 overall grade point average

Early Elementary Education
The following degree requirements apply to the BS degree in Early Elementary Education:

• A minimum total of 125 hours with at least 50 upper-level hours (300-level and above)
• 2.75 overall grade point average
• 3.0 grade point average in program education courses
• Satisfactory work sample

Middle/Secondary Education
The following degree requirements apply to the BS degree in Middle/Secondary Education:

• A minimum total of 125 hours with at least 50 upper-level hours (300-level and above)
• 2.50 grade point average in content area.
• 3.0 grade point average in program education courses.
• Satisfactory teacher performance assessment (TPA)

Please note that students must be formally admitted to the teacher education program for Early Elementary or Middle/Secondary Education. Please contact Education Advising and Student Services for further information.

Requirements for Minors

A grade point average of 2.50 is required to earn the Exercise Science minor. A grade point average of 2.25 is required to earn the Sport Administration minor. No grades of D are allowed in any coursework used to complete any HSS minor.

Application for Teacher Certification
Students seeking teacher certification upon completion of degree and/or program requirements, must apply through the College of Education Advising and Student Services office to the Kentucky Professional Standards Board to receive the teaching certificate. Consult Education Advising and Student Services office for information.

Kent School of Social Work
Kent students participating in commencement will receive a generic letter stating that they have met the requirements of the BSW degree. This letter is an official letter that can be given to employers, for possible employment benefits. Students not attending commencement will NOT receive such a letter. Official degrees take up to six weeks to show on student transcripts. No personal letters for licensure or employment purposes can be given to students. These letters can also not be given before commencement due to specific university restrictions. Students should plan licensure exams or employment dates to accommodate this six-week delay after commencement to get an official transcript showing a degree.

School of Music
Minimum Hours and Point Standing
To be recommended for a degree or minor in Music, the student must have completed the prescribed number of hours in the courses taken and must have a 2.5 grade point average.

School of Nursing
A candidate for the Bachelor of Science in Nursing in the traditional BSN program must have satisfactory completion of the required BSN courses with a minimum undergraduate cumulative and program grade point average of 2.5; a minimum university GPA of 2.0 in all coursework is required. A minimum letter grade of C is required in all nursing courses (NURS).

A candidate for the Bachelor of Science in Nursing in the RN-BSN program must have satisfactory completion of the required BSN courses and earned a minimum university and program grade point average of 2.0. A minimum letter grade of C is required in all nursing courses (NURS).

J.B. Speed School of Engineering
Graduation and Degree Requirements
Degree requirements for all BS degrees granted by the J.B. Speed School of Engineering will be based upon the course requirements that are in effect at the time of admission to the School of Engineering. If an applicant has been admitted several times, the degree requirements in effect at the most recent time of admission will apply.

The following graduation and degree requirements apply to all BS engineering degrees. The student must:
• Have credit for each of the three cooperative education work terms
• Have a cumulative university GPA of at least 2.25 and have a cumulative program GPA of at least 2.25

Second Bachelor’s Degree
In addition to the requirements set by the university, satisfaction of the requirements for co-op must have approval of both departments.

Graduation with Academic Honors

University Policies: Graduation with Academic Honors

Baccalaureate degree students who have earned a minimum of 60 hours of degree credit in residence at the University of Louisville will be eligible for consideration to graduate with honors. Students who have re-entered the university under the fresh-start policy must have earned at least 60 credit hours since their return to be considered for academic honors.

Commencement programs will list eligible students as “Candidates for Honors” based on their having earned both undergraduate and program grade point averages of 3.5 or higher prior to the semester preceding graduation. Final determination of a student’s eligibility to graduate with academic honors will be based on the student’s standing upon completion of the degree. The name of the honor is decided by the unit.

Minimum criteria for honors are as follows:

• Cum Laude or Honors: 3.50 undergraduate and program grade point averages
• Magna Cum Laude or High Honors: 3.75 undergraduate and program grade point averages
• Summa Cum Laude or Highest Honors: 3.90 undergraduate and program grade point averages.

Requirements for graduation with academic honors are determined by each academic unit. In addition to the minimum criteria, units may specify additional requirements for grade point averages and additional work such as honors projects or honors theses. Students should consult their advisor concerning eligibility and requirements for graduation with academic honors. The dean’s office will make any final decisions concerning eligibility.

Students who were admitted to the University Honors program may be eligible to graduate as an Honors Scholar. Students who complete the necessary coursework with the required GPA will earn the designation of University Honors Scholar on both their transcript and diploma. Students who earn this distinction are awarded a medal and recognized at an awards ceremony prior to university commencement.

Unit-Specific Policies

In addition to the university-wide policies regarding Graduation with Academic Honors, students may be subject to the unit-specific requirements listed below.

College of Arts & Sciences

In determining eligibility for graduation with College Honors, the College takes into consideration not only the university cumulative grade point average (which must be at least 3.5), but also an “expanded cumulative grade point average” which is calculated only for the purpose of determining eligibility for graduation with College Honors.

The “expanded grade point average” is calculated based on grades earned in all college-level work. In the case of repeated courses, both the original grade and credit hours and the replacement grade and credit hours will be included in the calculation. Similarly, grades and credit hours excluded from the university grade point average through application of the academic bankruptcy provision and the Fresh Start program will be included in determining a student’s expanded grade point average. In the case of work done at other institutions, all grades and credit hours in all degree-applicable courses will be included in determining a student’s expanded grade point average.

Students should consult their advisor with any questions concerning eligibility and requirements for graduation with College Honors.

The minimum grade point average requirements for graduation with College Honors are:

Cum Laude: 3.50
Magna Cum Laude: 3.75 with no College honors thesis; 3.65 with College honors thesis
Summa Cum Laude: 3.75 with College honors thesis

All senior honors theses must be approved by the College of Arts & Sciences’ Honors Thesis Committee.

Further information about the requirements to graduate magna cum laude or summa cum laude—including eligibility, deadlines for the proposal, the completed project, and the defense of the project—can be found on the University Honors Program website (http://louisville.edu/honors).

College of Business

Students pursuing a double major must have the appropriate minimum GPAs in both majors to receive their degree with honors, high honors, or highest honors.

Alternatively, students may graduate with Highest Honors with a thesis project and the following GPA requirements: 1) a minimum of 3.75 University and program GPA at the beginning of the semester in which the student plans to graduate, and 2) the 3.75 minimum university and program GPA must be maintained through the final semester prior to graduation. With this path, students must write a thesis in their major, according to the following procedures:
1. Prior to the beginning of the student’s final semester, he or she must contact the discipline Department Chair and initiate a request to be a candidate for graduation with highest honors.

2. The Chair will establish an Honors Committee of three faculty members. In consultation with the Honors Committee, the Chair will prepare a schedule of activities to help the candidate complete the thesis in a timely manner.

3. The Honors Committee will consult with the candidate and agree on a topic. The candidate will prepare the thesis according to the general requirements set up by the Honors Committee.

4. The candidate will submit the final draft of the thesis by the deadline set out in the initial schedule of activities. The Honors Committee will review the thesis on the basis of grammatical accuracy, substantive contribution, and response to the Committee’s input. If the Committee chooses, it may conduct an oral examination of the candidate.

5. After reviewing the thesis, the Honors Committee will forward a positive or negative recommendation and a copy of the thesis to the Chair. To be acceptable, the thesis must be approved by all three members of the Honors Committee with the concurrence of the Chair. A candidate may appeal a negative decision to the COB Undergraduate Studies Committee. The thesis, along with the recommendations of the Honors Committee and Chair, will be forwarded to the Associate Dean for Undergraduate Programs no less than three weeks before the end of the semester in which the candidate is to graduate. It will be retained there in either a public or confidential file, as designated by the candidate. The discipline advisor will also be notified of the decision as the responsible party for notifying the Registrar’s Office.

**Honors Scholar in Business**

To graduate as an Honors Scholar in Business, a COB student must complete at least 24 hours of honors courses with at least 18 hours in the COB; at least 12 hours at the 300 level or above; and at least two upper-level seminar courses (or one seminar plus a senior thesis), at least one of which must be non-business. The student’s final university GPA must be 3.5 or higher.

**College of Education & Human Development**

In order to be eligible to receive a degree with the distinction of Cum Laude, Magna Cum Laude or Summa Cum Laude, a student must earn:

- **Cum Laude**: 3.50 university and program GPA
- **Magna Cum Laude**: 3.75 university and program GPA
- **Summa Cum Laude**: 3.90 university and program GPA and Honors project as outlined below.

In order for a student to be eligible to receive a degree with the distinction of Summa Cum Laude, the student must have the recommendation of the major program faculty indicating an outstanding level of competence in the various phases of field experience as well as in all academic work.

“Program GPA” is defined as follows:

- HSS degrees: all degree-applicable HSS and SPAD courses
- Teaching and Learning degrees: all degree-applicable EDTP and EDSP courses

Only credit earned at the University of Louisville will be used in calculating grade point averages used in decisions regarding honors.

**Guidelines for Graduating Summa Cum Laude**

Students intending to graduate with the distinction of Summa Cum Laude must submit a proposal and present a final paper or project based on the guidelines developed by the College of Education and Human Development Honors and Scholarship Committee. The proposal must be approved by the Committee according to the following schedule:

- **May degree applicant**: Prior to September 30
- **August degree applicant**: Prior to October 15
- **December degree applicant**: Prior to March 30

Detailed guidelines and forms are available at louisville.edu/education/advising/graduate-with-honors.

Each student must select a faculty sponsor for assistance and guidance in preparing the proposal and the final project/paper. The final project/paper must be approved by the Honors and Scholarship Committee according to the following schedule:

- **May degree applicant**: Prior to March 31
- **August degree applicant**: Prior to April 30
- **December degree applicant**: Prior to November 30

**Speed School of Engineering**

In order to be eligible to graduate with Honors, High Honors, or Highest Honors, students must have completed at least one-half of the credit hours required in their undergraduate degree program while enrolled in the J.B. Speed School of Engineering.

**Residency Requirements**

Students earning baccalaureate degrees are required to complete at least 25 percent of the total credit hours required for the degree (including Cardinal Core credit hours) at the University of Louisville. Students earning baccalaureate degrees are also required to complete 30 of their last 36 semester hours at the University of Louisville.

Students earning associate degrees are required to complete a minimum of 15 of their last 18 semester hours at the University of Louisville.
Additionally, transfer students must take a minimum of 12 credit hours in their major at the University of Louisville.

Student Records, Rights and Responsibilities

Information on policies related to student records, student rights and student responsibilities at the University of Louisville can be found on this page or by clicking on the following links to topic-specific pages:

- Academic Grievances (p. 87)
- Classification of Students (p. 87)
- Code of Student Conduct (p. 87)
- Code of Student Rights and Responsibilities (p. 88)
- Religious Days and Observances (p. 88)
- Student Records (p. 89)

These policies are effective August 20, 2018 (Fall 2018 semester). Students enrolled in a term before this effective date should consult with an advisor in their enrollment unit (http://louisville.edu/advising/centers) if they feel that they are disadvantaged by any change from 2017-18 policies.

Previous catalogs are available via the archive page of this catalog (p. 791). Reference copies of the university catalog are maintained by University Libraries, the university registrar, the Student Government Association (SGA) Office, the student grievance officer, and the Dean of Students/Vice Provost for Student Affairs.

Student Rights

Academic Grievances

The academic grievance procedure is designed to provide fair means of dealing with student complaints regarding a specific action or decision made by the faculty or a faculty member:

“Students who believe they have been treated unfairly, discriminated against, or have had their rights abridged may initiate a grievance”

(The Redbook, Section 6.8.1).

Detailed information on how to submit and pursue a grievance can be found on the Office of the Provost website: louisville.edu/provost/redbook.

Classification of Students

Undergraduate students are admitted to an undergraduate enrollment unit and classified as follows:

Full-time students: students who are registered for 12 or more semester hours in a regular school session.

Part-time students: students who are registered for fewer than 12 semester hours in a regular school session.

Regular students: students who have satisfied the admissions requirements for the academic unit in which they are enrolled.

Special students: students who do not satisfy the admissions requirements for the academic unit in which they are enrolled, but who are admitted by special consent.

Visiting students: students regularly enrolled in other institutions who desire to register in one of the academic units of the University for one semester. Visiting students must be in good standing in their regular college or university.

Post-baccalaureate: students holding baccalaureate degrees and taking further undergraduate work.

Auditors: students enrolled in a class or classes on a noncredit basis.

Freshmen: students who have fewer than 30 semester hours of credit.

Sophomores: students who have 30 or more, but fewer than 60 semester hours of credit.

Juniors: students who have 60 or more, but fewer than 90 semester hours of credit.

Seniors: students who have 90 or more semester hours of credit but have not received baccalaureate degrees.

Student Rights and Responsibilities

Code of Student Conduct

The University’s Code of Student Conduct is the University’s policy regarding non-academic discipline of students and student organizations. Academic discipline of students is not covered by the Code, but rather falls within the authority of the individual academic units of the University.

Students are responsible for reading and abiding by the Code of Student Conduct.

The Code of Student Conduct can be found on the Dean of Students website: louisville.edu/dos/students/codeofconduct.

Code of Student Rights and Responsibilities

The Code of Student Rights and Responsibilities is set forth in writing in order to give students general notice of certain of their rights and responsibilities at the University of Louisville. Further rights and responsibilities are set forth in other University rules and policies, including the Code of Student Conduct, Residence Hall contracts, and academic unit bulletins. It is the students’ responsibility to be aware of all University rules and policies; students should check with the Office for Student Life and with their academic units if they have any questions about the purposes or intent of these policies.

The Code of Student Rights and Responsibilities contains statements regarding the following:
• Admission and Financial Aid
• Class Rights and Responsibilities
• Academic Dishonesty
• Discipline Procedures for Academic Dishonesty
• Campus Expressions
• The Student Press
• University Facilities
• Use of University Name and Insignia
• Campus Residence Facilities
• Student Records
• Campus Organizations
• Promulgation of University Rules Affecting Students

The Code of Student Rights and Responsibilities can be found on the Dean of Students website: louisville.edu/dos/students/studentrightsandresponsibilities.

Work-Restricted Religious Observances/Holy Days
Federal law and university policy prohibit discrimination on the basis of religious belief. It is the policy of the University of Louisville to accommodate students, faculty, and staff who observe religious work-restricted holy days.

Students who observe work-restricted religious holy days must be allowed to do so without jeopardizing their academic standing in any course. Faculty are obliged to accommodate students’ request(s) for adjustments in coursework on the grounds of religious observance, provided that the student(s) make such request(s) in writing during the first two (2) weeks of the term.

Deans and department chairs must investigate and resolve student complaints arising from alleged faculty failure to make reasonable accommodations under these guidelines.

Faculty and staff supervisors are directed to accommodate requests for absence for work-restricted religious holy days, unless it would cause an undue hardship. Further, whether the holy days are work-restricted or not, supervisors of faculty and staff should be sensitive to requests for accommodations.

Definition of Religious Observance/Work-restricted Holy Day
A recognized denominational sacred or holy day that is observed by persons or groups who are required—through a set or system of religious beliefs, laws/doctrines, tenets, canons or theology—to restrict or limit work and/or physical or mental activity directed toward the production or accomplishment of something; toil; labor.

This definition may include academic endeavors (e.g., examinations, classroom activities and research, or out-of-classroom learning experiences).

There is a distinction between religious holy days, sectarian holidays, and ethnic holidays and festivals which are routinely celebrated in the United States of America—e.g., Christmas, Thanksgiving, New Year’s Day—and religious work-restricted holy days which are based upon religious tenets, laws, and/or doctrine—e.g., Yom Kippur, portions of Ramadan, or a work-restricted Sabbath.

Individuals who observe and/or follow these religious work-restricted holy days are not permitted to engage in day-to-day occupations, work, or attend school, including taking examinations or performing other routine commitments. Observances/practices vary from culture to culture within and across denominations.

While there are no work-restricted holy days within the Christian faith by tenet, Easter and Christmas often are considered to be non-work days by custom.

Student Records
Privacy of Student Records (FERPA)
The University of Louisville hereby notifies students concerning the Family Educational Rights and Privacy Act of 1974. This act, with which the institution intends to comply fully, was designed to protect the privacy of educational records, to establish the right of students to inspect and review their educational records and to provide guidelines for the correction of inaccurate or misleading information. Students also have the right to file complaints with the Family Educational Rights and Privacy Act Office, Department of Education, concerning alleged failures by the institution to comply with the act.

The University has adopted a policy which explains the procedures to be used by the university for compliance with the provisions of the act and the regulations adopted pursuant thereto. Copies of the policy and other FERPA information can be obtained online at louisville.edu/library/archives/stupriv. Questions concerning the Family Educational Rights and Privacy Act may be referred to the Director, University Archives and Records Center, Ekstrom Library.

Student Information System
The Student Information System is the electronic system that is used to register students and record their grades. It is from this system that transcripts are produced for students completing coursework at the university beginning with the 1982 fall semester.

Change of Address
Students requiring address changes during and between terms can make the adjustments via the web through Ulink. Under the heading “Personal Information”, select “home and mailing addresses”, then select “edit.”

Students may also go directly to the registrar’s office, room 31, Houchens building, and submit their new address in person. Address changes will also be accepted by calling the registrar’s office at (502) 852–6522. Verification of student personal identification number will be required.

Email Notification
The university will use the university email system to remind students of some academic and financial deadlines as well as notification of canceled courses. Students are expected to check campus email regularly and are responsible for the information conveyed through university email.
Academic Grievances

The academic grievance procedure is designed to provide fair means of dealing with student complaints regarding a specific action or decision made by the faculty or a faculty member:

“Students who believe they have been treated unfairly, discriminated against, or have had their rights abridged may initiate a grievance.”

The Redbook, Section 6.8.1

Detailed information on how to submit and pursue a grievance can be found on the Dean of Students website (http://louisville.edu/dos/help/studentgrievance).

Classification of Students

Undergraduate students are admitted to an undergraduate enrollment unit and classified as follows:

- **Full-time students**: students who are registered for 12 or more semester hours in a regular school session.
- **Part-time students**: students who are registered for fewer than 12 semester hours in a regular school session.
- **Regular students**: students who have satisfied the admissions requirements for the academic unit in which they are enrolled.
- **Special students**: students who do not satisfy the admissions requirements for the academic unit in which they are enrolled, but who are admitted by special consent.
- **Visiting students**: students regularly enrolled in other institutions who desire to register in one of the academic units of the University for one semester. Visiting students must be in good standing in their regular college or university.
- **Post-baccalaureate**: students holding baccalaureate degrees and taking further undergraduate work.
- **Auditors**: students enrolled in a class or classes on a noncredit basis.
- **Freshmen**: students who have fewer than 30 semester hours of credit.
- **Sophomores**: students who have 30 or more, but fewer than 60 semester hours of credit.
- **Juniors**: students who have 60 or more, but fewer than 90 semester hours of credit.
- **Seniors**: students who have 90 or more semester hours of credit but have not received baccalaureate degrees.

Code of Student Conduct

The University's Code of Student Conduct ("The Code") is the University's policy regarding non-academic discipline of students and student organizations. Academic dishonesty is not covered by this Code, but rather falls within the authority of the individual academic units of the University. Students have the responsibility to follow all regulations outlined in this policy.

The primary purpose for the Code in the University setting is to respond to incidents of non-academic misconduct in a way that is developmentally sound and which creates an environment where all members of the academic community can live, work, and learn together. The Code is designed to provide educational guidance to those choosing to develop into good citizens and, at the same time, to respond appropriately to behavior which may be inconsistent with university policies.

Criminal and civil codes are undesirable models for student conduct codes. Unlike society, the University of Louisville is a voluntary association of scholars who demand and deserve a positive and special learning environment, as well as an approach for enforcing the community’s standards. The University of Louisville is a community dedicated to the principles of free expression in which diverse views are encouraged and embraced. Opinions that may be unpopular and/or contrary to the University’s values and objectives, but do not otherwise violate policy, will not be sanctioned.

The University's Code of Student Conduct is set forth in writing in order to give students general notice of non-academic prohibited conduct. The Code should be read broadly and is not designed to define non-academic misconduct in exhaustive terms. The Vice Provost for Student Affairs or designee is the final authority in defining and interpreting the Code of
The Code of Student Rights and Responsibilities is set forth in writing in order to provide students with general notice of their rights and responsibilities at the University of Louisville. Further rights and responsibilities are set forth in other University rules and policies, including the Code of Student Conduct, Student Handbook, Residence Hall contracts, graduate and undergraduate catalog, and academic unit websites. It is a student's responsibility to be aware of all University rules and policies. Students should check with the Dean of Students Office and with their academic units if they have any questions about the purposes or intent of these policies.

The Code of Student Rights and Responsibilities can be found at louisville.edu/dos/students/studentrightsandresponsibilities.

Student Handbook
Other policies and information for students can be found in the Student Handbook, online at louisville.edu/dos/students/studentpoliciesandprocedures/student-handbook.

Student Advocacy and Support
The Student Advocate helps students navigate educational, personal, and other campus obstacles that impact successful completion of their academic goals. The Student Advocate links students with appropriate university and community resources, and collaborates with faculty and staff in the best interest of the students and follows through to bring efficient closure to student concerns.

There are times when students may experience a number of different issues that impact their ability to be academically successful such as illness, death of an immediate family member, accident, critical issues such as sexual assault, harassment, domestic violence or other emergency situations. The Student Advocate works with students and their families to resolve the issue by identifying options and strategies and offering information and guidance. During difficult times, students should be empowered with the resources to make informed decisions and take a proactive role in the problem resolution process.

The Student Advocate is located in the Dean of Students Office, SAC W301. Please call (502) 852-5787 to schedule an appointment with the Student Advocate.

Student Grievance Officer
The Student Grievance Officer is responsible for informing students of their rights and obligations under the University grievance procedure. The Student Grievance Officer will seek to resolve informally as many grievances as possible.

For assistance, please contact Dr. Joy Hart at joy.hart@louisville.edu or call (502) 852-6293.

Religious Days and Observances

Work-Restricted Religious Observances/Holy Days
Federal law and university policy prohibit discrimination on the basis of religious belief. It is the policy of the University of Louisville to accommodate students, faculty, and staff who observe religious work-restricted holy days.

Students who observe work-restricted religious holy days must be allowed to do so without jeopardizing their academic standing in any course. Faculty are obliged to accommodate students’ request(s) for adjustments in coursework on the grounds of religious observance, provided that the student(s) make such request(s) in writing during the first two (2) weeks of the term.

Deans and department chairs must investigate and resolve student complaints arising from alleged faculty failure to make reasonable accommodations under these guidelines.

Faculty and staff supervisors are directed to accommodate requests for absence for work-restricted religious holy days, unless it would cause an undue hardship. Further, whether the holy days are work-restricted or not, supervisors of faculty and staff should be sensitive to requests for accommodations.

Definition of Religious Observance/Work-restricted Holy Day
A recognized denominational sacred or holy day that is observed by persons or groups who are required—through a set or system of religious beliefs, laws/doctrines, tenets, canons or theology—to restrict or limit work and/or physical or mental activity directed toward the production or accomplishment of something; toil, labor.
This definition may include academic endeavors (e.g., examinations, classroom activities and research, or out-of-classroom learning experiences).

There is a distinction between religious holy days, sectarian holidays, and ethnic holidays and festivals which are routinely celebrated in the United States of America—e.g., Christmas, Thanksgiving, New Year’s Day—and religious work-restricted holy days which are based upon religious tenets, laws, and/or doctrine—e.g., Yom Kippur, portions of Ramadan, or a work-restricted Sabbath.

Individuals who observe and/or follow these religious work-restricted holy days are not permitted to engage in day-to-day occupations, work, or attend school, including taking examinations or performing other routine commitments. Observances/practices vary from culture to culture within and across denominations.

While there are no work-restricted holy days within the Christian faith by tenet, Easter and Christmas often are considered to be non-work days by custom.

### Student Records

### Privacy of Student Records (FERPA)

The University of Louisville hereby notifies students concerning the Family Educational Rights and Privacy Act (FERPA) of 1974. This act, with which the institution intends to comply fully, was designed to protect the privacy of educational records, to establish the right of students to inspect and review their education records, and to provide guidelines for the correction of inaccurate or misleading information. Students also have the right to file complaints with the Family Educational Rights and Privacy Act Office, Department of Education, concerning alleged failures by the institution to comply with the act.

The University has adopted a policy which explains the procedures to be used by the university for compliance with the provisions of the act and the regulations adopted pursuant thereto. Copies of the policy and other FERPA information can be obtained online at library.louisville.edu/archives/ferpa.

Questions concerning the Family Educational Rights and Privacy Act may be referred to the Director, University Archives and Records Center, Ekstrom Library.

### Student Information System

The Student Information System is the electronic system that is used to register students and record their grades. It is from this system that transcripts are produced for students completing coursework at the university beginning with the 1982 fall semester.
The University of Louisville has nine colleges and schools that offer degree programs at the undergraduate level:

- College of Arts and Sciences (p. 90)
- College of Business (p. 95)
- College of Education and Human Development (p. 98)
- J.B. Speed School of Engineering (p. 101)
- Kent School of Social Work (p. 105)
- School of Dentistry (p. 107)
- School of Music (p. 109)
- School of Nursing (p. 114)
- School of Public Health and Information Sciences (p. 117)

The Schools of Interdisciplinary and Graduate Studies, Law, and Medicine offer credentials only at the graduate and/or professional levels.

**About the College**

A college of arts and sciences is central to the fulfillment of the purposes of higher education. Undergraduate study in a liberal arts college is designed to develop the whole person through the free inquiry that trains the mind for critical analysis and aesthetic appreciation. A liberal education begins with introductory studies in the natural sciences, social sciences, and humanities; its end is the development of the intellect to its full potential. Liberal education is a lifelong endeavor, and the goal of a college of arts and sciences is to ensure that the opportunities exist for a substantial beginning to this process.

The College of Arts and Sciences (http://louisville.edu/a-s) of the University of Louisville is founded on these traditional principles, interwoven with the special role of an urban university. As the college which offers the most comprehensive undergraduate programs and selected graduate programs, the College of Arts and Sciences has an integral role in the fulfillment of the university’s mission by integrating urban-related courses within the foundation of a liberal education.

The theoretical and practical knowledge in the College’s baccalaureate programs is generally regarded as excellent preparation for many careers that do not require professional or advanced degrees and is the academic foundation for most students who enter master’s and doctoral graduate programs. The College provides the liberal arts academic base for students who later attend the professional schools. In addition to the undergraduate curriculum, most departments in the College offer programs leading to the master’s degree and twelve departments offer doctoral degrees.

A university is expected to advance the theories and application of knowledge. This expectation is fulfilled primarily by the creative research of its faculty. This creativity is related directly to the role of teacher, for it ensures that the College’s students learn from enthusiastic and excellent faculty members who advocate the principle of lifelong inquiry.

The College’s allegiance to the traditions of a liberal education does not end with the preservation of its history or its traditional programs. The vitality of the College is found in its continuing re-examination of itself, and in its willingness to change when change would further the welfare of its students, its faculty, and its community.

**Structure**

The College of Arts and Sciences has a division of humanities, a division of natural sciences, and a division of social sciences. These divisions represent the disciplines which collectively make up the liberal arts and sciences. Each division contains departments which offer programs in specific disciplines. In addition to these departments, the College has a number of interdisciplinary programs which involve faculty and coursework from several disciplines.

**Arts & Sciences Administration**

The complete and up-to-date list of Arts & Sciences leadership is located on the Arts & Sciences website at louisville.edu/artsandsciences/about/deans-staff.

**Faculty and Departmental Information**

The complete and up-to-date list of departments (http://louisville.edu/artsandsciences/about/structure-and-divisions) can be found on the Arts & Sciences website.

**Advising Services**

Please see the section of the catalog related to Academic Advising. To determine if you have an advising hold, please check your ULink account, under the student services tab, and click on the “holds” link.

**Information for Students**

**Academic Bankruptcy and Forgiveness & Fresh Start**

Academic Bankruptcy and Forgiveness (p. 70) policies allow students who are returning to college after an absence of two or more years to request the adjustment of their records for one or more entire semesters of previous college work, provided certain criteria are met. View information on Academic Bankruptcy and Forgiveness (p. 70) and the Fresh Start (p. 70) policy.

**Student Discipline and Grievance Policies**

It is the student’s responsibility to read the catalog and official announcements, to be informed about his/her own grades, credits, degree requirements, and quality points, and to abide by the regulations of the University and the College.

**Official Notices**

All students must respond to official notices issued by administrative officers and instructors, whether these notices be posted on official bulletin boards or sent through electronic or postal mail. Failure to comply with this regulation may lead to suspension from the College.

**Academic Grievance Procedure**

The College of Arts and Sciences follows the procedures for academic grievance as stated in this catalog and as published in The Redbook, Chapter 6, Article 8 (http://louisville.edu/provost/redbook/chap6.html#ART68). Any student considering filing such a grievance must consult with the Arts and Sciences Advising Center (louisville.edu/artsandsciences/advising/) for advice and information.

**Statement of Academic Discipline**

In accordance with The Code of Student Rights and Responsibilities (louisville.edu/dos/students/code-of-student-conduct.html), academic dishonesty is prohibited at the University of Louisville. Both faculty and students thought it important to express clearly, in advance, the standards to which the College adheres. The Statement of Academic Discipline printed below is the result of their effort and serves as the College’s official statement.

Questions which do arise are reviewed by a joint student-faculty committee, which advises the student and faculty concerned. The student’s rights to review and appeal are scrupulously observed, and minutes of all meetings are confidential.

I. Introduction

As members of the academic community, both students and faculty are expected to recognize and to uphold standards of intellectual integrity. The College assumes as a minimum standard of conduct in academic matters that the student is honest; credit for courses is given
and received on the assumption and condition that all work submitted represents the student’s own efforts.

Unfortunately, cheating and plagiarism do occur. The pressure for grades is often great, and opportunities for dishonesty exist. Nevertheless, both the ideals of scholarship and the need for practices which are fair to all students demand that all dishonest work be rejected as a basis for academic credit. The definitions and guidelines given below are intended to clarify the standards by which academic work is to be measured.

II. Definitions
Cheating on examinations consists of any of the following: 1) borrowing someone’s answers; 2) providing answers to someone; 3) using unauthorized materials during the examinations.

Except when otherwise explicitly stated by the instructor, examination questions shall become public property after they have been given.

Plagiarism, in submitting individual work for academic evaluation, means simply to borrow someone’s ideas without citing the source, and to use them as one’s own. It is a particular type of cheating. Plagiarism in this sense is not limited to the use of direct quotations without citation; a paraphrase is indebted to the author’s ideas just as a direct quotation is. Nor is plagiarism limited to the use of published materials; borrowing from the written or oral work of others without citation is equally dishonest. On the other hand, in every area of learning there is a body of knowledge which belongs to the public domain. Guidance and experience may be necessary in order to distinguish where the requirement to cite a source no longer applies. The instructor or perhaps a style manual may be helpful in resolving questions about what should be cited.

III. Guidelines for Instructors
Instructors have at least two roles to play in maintaining proper standards of academic conduct: to assist their students in recognizing the way in which general standards apply in the context of a particular course or discipline, and to take practical steps to prevent cheating and detect it when it occurs. Specific guidelines should be followed:

• That instructors take the time to inform students of the standards of conduct expected of them with regard to assignments and examinations.
• That practical measures be taken to minimize opportunities for dishonesty; e.g., adequate proctoring, the use of alternate forms of an examination if seating is crowded.
• The practice of giving identical examinations to different classes, whether separated in time by ten minutes or by a semester, invites cheating. When there are good reasons for such repetition, appropriate security precautions should be taken.
• The repeated assignment of the same material for papers or homework invites plagiarism. When assignments are repeated, students should be informed that the unauthorized reliance on earlier papers is forbidden and that the instructor has effective means of detecting same.
• That the instructor specifies with regard to assignments the degree to which students may confer and cooperate in achieving answers.
• The College does not operate on an honor system. If within a particular class an instructor wishes to institute such a system, the students should be clearly informed of their responsibilities.

IV. Guidelines for Students
Recognizing his/her responsibility as a member of the academic community, the student should strive to maintain intrinsically honest academic conduct. The student must seek to avoid any action which would compromise academic integrity. To ensure both the fact and the appearance of proper conduct, the student should follow these basic guidelines:

• During examinations, the student must be careful to do nothing that can be construed as cheating. The student shall follow carefully all directions given by the instructor with regard to taking tests and completing assignments.
• The instructor’s request to keep test questions private shall be honored by the student.
• If the student is aware of practices by the instructor which are conducive to cheating, or of acts of cheating by students, he/she may convey this information either to any member of the student-faculty review committee (see section "V. Procedures") or directly to the instructor.

• Learning the proper methods of documentation and scholarship is also the student’s responsibility. Such knowledge will help avoid committing plagiarism unwittingly.

V. Procedures
As evidence of the seriousness with which the College regards these matters, a student-faculty review committee, the Student Grievance and Academic Discipline Committee, has been established to assist in dealing with violators. The Student Grievance and Academic Discipline Committee also exists to protect the student’s right to a fair and impartial hearing. To ensure its effectiveness, the faculty should view it as the primary channel through which such problems can be resolved. The faculty member who believes a problem of cheating or plagiarism exists should first confront the student or students involved and attempt to resolve the matter. A report of the facts of the case and any decision which was made should be sent by the professor to the Dean or his/her designee. During this initial encounter the faculty member should inform the student of his/her right to appeal an unfavorable decision to the committee. The faculty member has the authority to address and sanction dishonest acts as most appropriate for the course and type of dishonesty that occurred. If it is determined during the reporting process that the student has previously violated this policy, the committee will be convened to review the incident and a statement from the student. The committee will then recommend to the Dean whether the faculty member has issued a fair sanction, further disciplinary action should occur, or if a hearing with the individual student should be held. Subsequent offenses may result in a recommendation to the Dean to suspend or dismiss the individual from the College. All final actions taken by the Dean that result from faculty or committee recommendations shall be entered in the student’s record. This committee is comprised of three students, selected by a nominating committee of the Student Council and/or of the Graduate Network in Arts and Sciences; three faculty members, representing the three divisions of the College, elected by the faculty; and a representative of the Office of the Dean of the College, ex officio.

Written statements shall be made by both parties and made available to both parties and the committee prior to any oral testimony. Any refutations may be made in writing or orally at the hearing. Evidence not submitted in the original written statements will not normally be accepted at the oral hearing.

All evidence in writing before the committee in a case shall be available to the principals. The committee shall hear such cases as come before it and allow the student to speak on his or her own behalf and to present evidence and witnesses. Further, the burden of proof rests with the person making the charge.
The committee may adopt additional principles or procedures as seem appropriate. Such changes, however, should be presented to the faculty for approval.

Any student who believes the processing or final disposition of a charge of academic dishonesty was unfair may initiate a grievance under the Academic Grievance Procedure as outlined in this catalog.

Students should be aware that all recorded instances of Academic Misconduct are retained by the Dean's Office for five years after the time the student separates from the university. Should it be requested, this information will be provided to any graduate or professional school to which the student applies.

**Code of Faculty Responsibilities**

1.0 Applicability
This code shall apply to all faculty members associated with the College of Arts and Sciences of the University of Louisville and to all graduate students and other personnel having teaching or research assignments in that school, hereinafter referred to as the teaching and research personnel.

2.0 Responsibilities
The teaching and research personnel of the College of Arts and Sciences hereby subscribe to the following specific responsibilities:

2.1 General Relations

2.11. The teaching and research personnel shall respect the rights of all members of the University community to pursue their academic and administrative activities, provided these activities do not contravene academic freedom. They retain the right to criticize and seek revision of these activities.

2.12. They shall respect the rights of all members of the University community to free and orderly expression.

2.13. They shall respect the right of any member of the University community to privacy and confidentiality. This right guarantees freedom against violation without consent of assigned physical premises, such as carrels and office space; and also against nonphysical transgressions, such as the unwarranted, improper or false disclosure of a person's political, religious or social views or activities.

2.14. They shall respect the student's right of confidentiality regarding grades.

2.15. They shall respect the rights of all persons of the University community to be free from sexual harassment.*

2.2 Student Relations

2.21. The teaching and research personnel shall uphold the student academic rights as set forth in the Student Bill of Rights adopted by the College on March 1, 1971.

2.22. They shall make known, in writing, as soon as possible during the first week of instruction, their expectations for the course as to assignments, methods of evaluation, and student course participation.

2.23. They shall present the subject matter of a course as published in the catalog, and shall avoid the persistent intrusion of material which has no relation to the subject.

2.24. They shall meet classes as scheduled in accordance with university regulations. Absences caused by illness, emergencies, personal responsibilities, or religious observances are excusable but must be reported to the Department Chair, in advance, if possible. Absences owing to professional obligations such as attendance at scholarly meetings or occasional professional service are excusable absences which nevertheless require prior notification of the Department Chair. In the case of anticipated absences, a qualified substitute, or provisions for additional assignments or alternate activity should be arranged.

2.25. They shall make themselves available for advising students by observing posted office hours, and by allowing students to arrange for appointments at other mutually convenient times.

2.26. They shall learn the academic requirements and various degree programs of the University affecting students whom they advise.

2.27. They shall arrange for appropriate interaction and communication with graduate students in the direction of their theses.

2.28. They shall provide students with an evaluation of their completed work within a reasonable period of time, and allow them access to their own papers, quizzes, and examinations.

2.29. They shall give final examinations, when these are required as part of the evaluation of the student, in accordance with schedules and procedures adopted by the College.

2.30. They shall give due acknowledgement to students who contribute to faculty efforts toward professional or personal advancement.

2.31. They shall respect the student's right to decline participation as a research subject in, or to withdraw from, a particular experiment without prejudice to his/her grade. Alternate experiences or exercises shall be provided to assure the equivalent in educational value to those students who wish not to participate as research subjects. Departments which use human subjects in experiments shall adhere to such code of ethics as are established within their respective professions.

Specifically:

2.31.1. Experimenters shall inform human subjects about the nature of each particular experiment so that they can make an informed choice to participate or not.

2.31.2. Experimenters shall keep the results of an experiment and the identity of the human subjects, who participate in it, separate, and the latter, confidential.

2.32. Teaching and research personnel shall respect the rights of all students to be free from sexual harassment.*

* Sexual harassment is here used as defined by current university policy.

College of Business

The College of Business was founded in 1953. Our business degree programs are accredited by AACSB International - The Association to Advance Collegiate Schools of Business. Our accountancy program is one of a select group with additional AACSB accreditation. Our equine industry program is the only one in the world housed in an AACSB accredited college. Our Global MBA, offered in partnership with Akademie Wuerth Business School in Germany, is accredited by the Foundation for International Business Administration Accreditation (FIBAA).

Louisville is a great place to study business, because it's where most business in Kentucky happens. Our students, graduates and faculty interact with businesses in Louisville, elsewhere in Kentucky and the United States, as well as in Europe, Asia-Pacific and Central America—all regions where we have graduates. Our Louisville campus includes students from more than 100 countries, almost all 50 states and all 120 Kentucky counties.

Each year we serve approximately 1900 undergraduate students and 300 graduate students with about 80 full-time faculty. We are nationally recognized as a metropolitan research institution and the leading entrepreneurial business college in the region.

We educate future corporate, public and non-profit sector leaders, and entrepreneurs determined to start their own business or help re-invent an existing corporation. Many of our graduates stay in this region and help it prosper; others are spread across the nation and the world.

Our students have access to a great variety of grants, scholarships and financial aid, including scholarships for international travel.

To enhance teaching and learning, our students and faculty also have access to highly sophisticated university-based telecommunications and computer information systems.

The modern, well-furnished College of Business building is located on University of Louisville’s Belknap Campus near the downtown business district. It houses comfortable, technologically advanced classrooms, a large auditorium, a variety of attractive meeting rooms and advising services, including the Ulmer Career Management Center, whose advanced career services are available to College of Business students and alumni for life.

Many of our graduate and undergraduate programs are highly ranked in national and international listings of excellence. See the current rankings at the College of Business website: business.louisville.edu/rankings/

Or, please see our full website louisville.edu/business for a complete listing of our ratings, accreditation, and other noteworthy achievements.

About the Program

Advising Services

The College of Business employs a staff of professional advisors in the Reinhardt Academic Center (http://louisville.edu/advising/centers/business) to assist students in the development of meaningful educational plans. We take our mission very seriously. We are committed to helping you in the development of a rewarding program of study and a challenging educational plan.
We encourage you to take responsibility for your own learning, and are available to assist you in appropriate course selection, interpreting policies and procedures and monitoring your academic performance and progress toward degree completion. At the end of your coursework, we will conduct a degree check verifying that all program requirements have been completed—and then on to graduation! The academic counselors at the advising center are also available to refer you to appropriate university resources including tutoring, counseling and career services.

**Academic Bankruptcy & Fresh Start**

Academic Bankruptcy and Fresh Start policies allow students to request the adjustment of their records for one or more entire semesters of previous college work, provided certain criteria are met. Students should see the Academic Bankruptcy and the Fresh Start (p. 70) policy.

**Student Academic Rights and Responsibilities**

Every student is expected to be thoroughly familiar with the University's Code of Student Rights and Responsibilities and Student Conduct (p. 85).

Every student is responsible for reading the academic policies in the Undergraduate Catalog and official announcements of the College of Business and for abiding by such regulations. Specifically, every student is responsible for knowing the grade point averages and program requirements needed for graduation. Students are encouraged to see a COB academic advisor to clarify any questions or concerns.

Along with preparing for and attending class, each student has the responsibility to promote high academic standards. Students are expected to cooperate in all classes with faculty members to achieve an optimal learning environment. Inappropriate classroom behavior may result in the student being withdrawn from the course, and potentially assigned academic penalties. Inappropriate classroom behavior will be dealt with in the same manner as academic dishonesty.

**Academic Dishonesty**

The COB has a strong policy of academic discipline for action against students who commit academic dishonesty or conduct themselves inappropriately in the classroom. A proven case of academic dishonesty will normally result in the student being denied admission to or dismissed from the COB.

Academic dishonesty is defined by the Code of Student Conduct. Its definition pertains to but is not limited to cheating, fabrication, falsification, multiple submission, plagiarism, and complicity. It is the student’s responsibility to maintain high standards of ethical conduct, and intellectual integrity and to be familiar with the definition of academic dishonesty.

As evidence of the seriousness with which the COB regards these matters, academic dishonesty allegations are handled in accordance with COB Procedures for Dealing with Academic Dishonesty.

**Procedures for Dealing with Academic Dishonesty**

1. When an academically dishonest event is discovered, it is the faculty member’s responsibility to determine the appropriate course of action, the associated academic penalty, and to inform the student in a timely fashion of the academic dishonesty allegation. It is the faculty member’s responsibility to determine the academic penalty and if an informal or a formal course of action is required. Academic penalties are imposed by the faculty member. The severity of academic penalty is commensurate with the academically dishonest event, and include penalties such as:
   a. Resubmission of an alternative assignment or test
   b. F-grade on the assignment/test
   c. F for the course grade

2. In cases where an academically dishonest event is deemed inadvertent or inconsequential, the faculty member may choose to resolve the academically dishonest event informally with the student. The informal discourse between the faculty member and the student should address the seriousness in how the COB views academic dishonesty, inform the student that it is their responsibility to know what constitutes academic dishonesty, and inform the student that any future academic dishonesty will not be tolerated. Academic penalties in this case should not have a material impact on the student’s final grade in the class.

3. In cases where an academically dishonest event requires a material academic penalty, such as assigning an F for a major assignment/test, the faculty member may resolve the matter directly with the student. In this case within a timely and reasonable period, the faculty member must inform the student of the academic dishonesty allegation and present to the student a letter stating the allegation, documenting any associated evidence, and detailing the academic penalty. The faculty member must inform the student that the letter will be placed on permanent file in the COB’s Dean’s Office, and that any subsequent academic dishonesty will likely result in administrative penalties, (see 4f). If the student agrees to the terms of the letter as evidenced by the student’s signature on the letter, the faculty member shall forward a copy of the letter to the Department Chair. The Department Chair will deliver the letter to the Dean’s Office and review the academic dishonesty file to determine if the student has committed any previous acts that may require further administrative penalties. The Department Chair shall report to the Dean of the COB if further action is needed.

4. When procedures outlined in the preceding paragraph are inappropriate, insufficient or unacceptable to either the faculty member or the student the following formal procedures provide due process.

   a. Except under extraordinary circumstances, within ten school days of informing the student of the alleged academic dishonesty event, the faculty member will prepare a written statement that describes and documents the academic dishonesty allegation. The statement must include all supporting evidence, and the faculty member’s recommended academic penalties. The faculty member’s statement is to be submitted to the Faculty Co-Chair of the Undergraduate Studies Committee, (hereafter referred to as Co-Chair).

   b. Except under extraordinary circumstances, within fifteen school days of receiving the faculty member’s statement, the Co-chair will provide to the student through registered mail a letter detailing the academic dishonesty allegation. This correspondence will include notice that a hearing to investigate the academic dishonesty allegation is to be scheduled at the earliest possible convenience for all persons involved.

   c. The hearing will be organized and administered by the Co-chair. The Co-chair will appoint a hearing committee, which will consist of the Co-chair plus two COB faculty members
that are currently serving on the Undergraduate Studies Committee. The student may be assisted at the hearing by an academic student advisor of his/her choosing. A request for student advisor assistance must be made through written communication to the Co-chair.
d. The student may waive the right to the hearing by admitting to the charge of academic dishonesty in a signed written statement delivered to the Co-chair of the Undergraduate Studies Committee prior to the date of the hearing.
e. At the hearing, the faculty member and the student will each be provided an opportunity to present oral testimony, written evidence, and any other evidence. The burden of establishing the student’s guilt is the responsibility of the faculty member making the allegation.
f. Except under extraordinary circumstances, within fifteen school days of the hearing, the hearing committee will render a decision on the academic dishonesty allegation and produce a written report of its findings. The Co-chair will notify the student and faculty member in writing of the hearing committee’s findings. If the student is found to be guilty of the allegation, academic penalties will be imposed, and if appropriate, administrative penalties will be recommended. The hearing committee’s decisions on academic penalties are final. All guilty findings will be placed on file under academic dishonesty events with the COB Dean’s Office. In the case of a guilty finding the Co-chair will review the file of academic dishonesty events to determine if this is a first or a repeat offense. A repeat offense will likely result in a recommendation for administrative penalties. Administrative penalties in the case of suspension or expulsion from the COB are imposed by the Dean of the COB, or by the Provost in the case of suspension or expulsion from the University.
g. In the case of recommended administrative penalties, the Dean of the COB shall review the hearing committee’s report and issue a decision regarding imposing COB administrative penalties and whether any University-wide penalties will be recommended to the Provost. Except under extraordinary circumstances, within 15 school days of receiving the hearing committee’s report, the Dean of the COB shall notify the student, the faculty member originating the academic dishonesty allegation, and the Co-chair of the hearing committee of its decision. The Dean of the COB shall forward any recommended University-wide penalties to the Provost.
h. If the student fails to appear before the hearing committee, the hearing will be held in the student’s absence and a final decision rendered. If the faculty member making the allegation of academic dishonesty fails to appear, the charges will be dropped. Unforeseen and uncontrollable events that prevent an individual’s appearance at the hearing will be considered prior to making a final decision.
i. i. In the case where multiple students are involved with the academic dishonesty allegation, each student will be dealt with individually, but the composition of the hearing committee will remain the same for all students involved with the alleged event. j. Any student who believes the processing or final disposition of a charge of academic dishonesty was unfair may initiate a grievance under the

Student Grievances

Students who wish to pursue grievances of any kind may consult with the Student Grievance Officer or the Associate Dean for Undergraduate Programs in the College of Business who will apprise the student of the policies and procedures regarding grievances. Detailed information on how to submit and pursue a grievance can be found on the Dean of Students website (http://louisville.edu/dos/help/studentgrievance).

College of Education and Human Development

The College of Education and Human Development (CEHD), established in 1968 as the School of Education, is a college whose mission is to promote and strengthen the professional development of individuals concerned with education and human resource development in a variety of urban settings such as schools, colleges and universities, private and corporate organizations, and government agencies. This is done by conducting research, providing service, and preparing teachers, administrators, training and development specialists, and professionals in sport management, mental and physical health, and student affairs. In 2000, the name was changed to the College of Education and Human Development, to more accurately reflect the College’s mission and programs. As an urban institution, the College is particularly concerned with improving the education and quality of life for persons of all ethnic and cultural backgrounds. The administration, faculty, and staff are committed to working with other university personnel and practitioners in carrying out this mission.

As one of five Commonwealth Centers of Excellence and the only one in education, the College of Education and Human Development offers programs, which are:

- Based upon established knowledge bases that incorporate urban and global perspectives as well as current understanding of best professional practice;
- Consistent with the philosophical standards and ethical practices of relevant professional associations;
- Available to qualified individuals without regard to ethnicity, age, religion, gender, sexual orientation, disability, or national origin;
- Future oriented and open to change on the basis of inquiry and experimentation as well as the needs and expectations of those we serve;
- Rooted in the assumption that members of our faculty and staff are continuing learners who model the practices they teach, including the use of current information technologies; focused upon collaborative approaches to address the concerns of those we serve.

Structure

The College of Education and Human Development provides courses and other experiences designed to prepare professionals in school and non-school settings. It offers curricula leading to the Bachelor of Science degree in early elementary education, middle and secondary education, health and human performance, sport administration, and organizational leadership and learning.

The College of Education and Human Development also offers minors in exercise science, sport administration, and wellness coaching to support the degree programs of students both within the College of Education and Human Development and those pursuing a degree through another college at the University.

College of Education and Human Development Administration

The complete and up-to-date list of Education leadership and administration is located on the CEHD website at louisville.edu/education/about/administration.html.

Faculty and Departmental Information

The complete and up-to-date list of departments and faculty is located on the CEHD website at cehddirectory.louisville.edu.

Academic Advising

Education Advising and Student Services (EASS) is located in Room 140 of the Porter Education Building and is open Monday through Friday, 8:00 am to 5:00 pm. EASS provides prospective and current students with excellent academic advising, consistent and accurate program information, and services related to registration, financial aid, and admissions.

Please call (502) 852-5597 or email edadvise@louisville.edu to schedule an undergraduate advising appointment, to ask questions concerning enrollment and student services, or information regarding application to one of many programs offered by the College of Education and Human Development.

About the Programs

Academic Grievance Procedure

The College of Education and Human Development follows the procedures for academic grievances (p. 87) found in this catalog and as published in The Redbook, Chapter 6, Article 8. Any student considering filing such a grievance should consult with the Student Grievance Officer or the Assistant Dean for Student Services of the College of Education and Human Development, who will apprise the student of the policies and procedures regarding grievances.

Students of the College of Education & Human Development can contact Assistant Dean of Student Services, Dr. Margaret Pentecost (http://louisville.edu/cgi-bin/uofl.mail?margaret.pentecost), (502) 852-2628, for questions, concerns, and reports of student conduct, complaints, and grievances.
Statement of Policy and Procedures with Respect to Academic Integrity

A primary goal of the College of Education and Human Development is to educate men and women who will serve the education community with competence and integrity. To this end, the faculty considers academic honesty on the part of students of paramount importance. At another level, the trust existing between faculty and students must not be tainted with suspicion of dishonesty. Academic dishonesty is defined in the Code of Student Rights and Responsibilities. In the event that a student believes the following procedures for handling allegations of academic dishonesty have resulted in an injustice, that student may seek counsel from the Student Grievance Officer.

Procedures for Dealing with Breaches of Academic Integrity

1. A faculty member who believes that a student has committed an act of academic dishonesty shall, after checking with the clearinghouse to determine if the student has been found guilty of such acts previously, prepare a written statement that specifies the charge and that proposes the penalties to be imposed on the student. The proposed penalties shall be described as either:
   a. Academic penalties, which are penalties associated with the class in question, such as resubmission of or alternate assignments, F on the assignment, F for the course, etc.; or
   b. Administrative penalties, which are suggested penalties to be imposed by the Dean or Provost, such as suspension or expulsion from the College of Education and Human Development or the University.

2. The faculty member shall meet with the student in person and in private, at which time the faculty member shall:
   a. explain the basis for the allegation;
   b. give the student a copy of the written statement of the charge and proposed penalties; and
   c. give the student a copy of these procedures.

3. The student shall either admit or deny the charge of academic dishonesty in writing no later than one week after the meeting with the faculty member. If the student does not meet this deadline, the student will be deemed to have denied the charge.

4. If the student admits the charge, any proposed academic penalties shall be implemented by the faculty member. The faculty member shall then forward the Statement of Charges and proposed administrative penalties, if any, the student’s admission of guilt, and a statement of the academic penalties imposed, if any, to the Dean.

The Dean shall review the documents and shall issue a decision, within 15 school days, regarding whether any administrative sanctions shall be imposed on the student by the College of Education and Human Development, and whether any University-wide administrative sanctions will be recommended to the Provost. The Dean shall notify the student, the faculty member, the department chair, and the Associate Dean of this decision. The Dean shall forward any recommended University-wide administrative sanctions to the Provost.

5. If the student denies the charge, the faculty member shall forward the statement of the charge and proposed penalties to the department chair, or, if the department chair is the faculty member making the allegation, to the Associate Dean. The department chair or the Associate Dean shall schedule a hearing.

Notice of the hearing shall either be hand-delivered or sent by Registered U.S. Postal Service to the student, at the address listed with the Registrar’s Office, and to the faculty member via inter-office mail. The notice should be sent at least 10 school days prior to the hearing. The notice should state the time, date and place of the hearing and contain a copy of the original statement of the allegations.

At the hearing, the professor and the student will each be provided an opportunity to present oral testimony and written evidence. The burden of establishing the student’s guilt rests with the professor, who must do so by a preponderance of the evidence. A student may be assisted at the hearing by an advisor of his/her choosing. However, that person will not be permitted to speak on behalf of the student at the hearing. If the student fails to appear after proper notice, the hearing will be held in the student’s absence and a final decision rendered.

After the hearing, the chair or the Associate Dean, as appropriate, will render a decision. Decisions of academic penalties will be final. Additional administrative-penalties recommended will be forwarded to the Dean with all materials submitted at the hearing, including a brief, written statement of reasons for the finding.

The Dean will consider the recommendation. Within 10 school days, the Dean will make a decision and notify the student, the professor, and the department chair or Associate Dean of the final action taken in the case. Notice of the decision will also be sent to the Office of the Provost. If the Dean’s decision is not timely, the recommendation is voided and the action is dismissed.

Instructional Modification

Students with disabilities, who need reasonable modifications to complete assignments successfully and otherwise satisfy course criteria, are encouraged to meet with the instructor as early in the course as possible to identify and plan specific accommodations. Students may be asked to supply a letter from the Disability Resource Center or other documentation, which will assist in planning modifications.

Diversity

Diversity is a shared vision for our efforts in preparing teachers, administrators, school counselors and other professionals. Students will be encouraged to investigate and gain a current perspective of diversity issues (race, ethnicity, language, religion, culture, socioeconomic status, gender, sexual identity, disability, ability, age, national origin, geographic location, military status, etc.) related to their chosen fields. Students will also have the opportunity to examine critically how diversity issues apply to and affect philosophical positions, sociological issues, and current events in a variety of areas. Students will examine their belief systems and be encouraged to reexamine and develop more grounded beliefs and practices regarding diversity.

Student Teaching/Field Experiences

In all phases of the Developmental Teacher Preparation Model, candidates participating in field and clinical experiences must abide by all policies, rules, and regulations of the University and the assigned school. Failure to abide by standards of conduct and performance established by the faculty may result in the removal from the program. Student teaching requires a minimum 15-week clinical experience in school setting(s) related to the teaching certificate a teacher candidate is seeking. Teacher candidates work with a cooperating teacher and University Supervisor participating in the work of teaching. Placement
in student teaching is contingent upon the applicant's successful completion of required program coursework and assessments, and faculty recommendation. Evaluation is based on Kentucky Teacher Standards and Professional Code of Ethics.

**Academic Bankruptcy & Forgiveness & Fresh Start**

Academic Bankruptcy and Forgiveness policies allow students who are returning to college after an absence of two or more years to request the adjustment of their records for one or more entire semesters of previous college work, provided certain criteria are met. Additional information on Academic Bankruptcy and Forgiveness (p. 67) and the Fresh Start (p. 67) policies can be found in this catalog.

**Continuing Studies**

**About the Program**

Continuing Studies is a non-degree granting unit that admits adult students who want to take courses on a part-time basis for personal enrichment or professional development. Students can earn college credit, but are not admitted into a degree program.

Continuing Studies students may enroll for a maximum of 8 hours in any semester or summer session. Students are required to maintain a 2.0 grade point average. Continuing Studies students are not eligible to receive state or federal financial aid.

Students may remain in Continuing Studies until they accumulate 24 credit hours. Students with 24 credit hours must apply for admission and be accepted by a degree-granting unit of the university if they wish to continue their course work.

**Admissions Policies**

In order to be admitted to Continuing Studies, applicants must complete an Application for Undergraduate Admission and submit an application fee. Transcripts and ACT scores are not required. However, post-baccalaureate students who wish to take prerequisite courses for a graduate-level program will need to submit a transcript to verify their status.

Continuing Studies students must meet the following criteria unless they petition the Continuing Studies Office for exception:

- Applicants must be at least 22 years old, unless the applicant will be on active military duty.
- Applicants must self-report that they have a high school diploma or high school equivalency certificate issued by the State Department of Education.
- Applicants with previous college work must self-report that they have not been dismissed from their last attended institution of higher education.
- Applicants for whom English is a second language must offer proof of English proficiency.

**Placement Tests**

Continuing Studies students may take placement tests to determine the correct level of coursework. Placement tests are available in Math and Foreign Language. CLEP (College Level Examination Program) exams may be used to gain course credit.

The placement tests and CLEP exams are scheduled through:

**The Testing Center**
310 Davidson Hall
(502) 852-6606

Students with learning or other disabilities that may interfere with placement test accuracy should contact the Disability Resource Center (902) 852-6938.

**Transfer Credits**

Transfer credits are formally evaluated only when students are accepted into a degree-granting unit.

**Enrollment**

Students must be admitted to UofL and registered for classes by the end of the first day of classes. Continuing Studies students may enroll for a maximum of 8 hours in any semester or summer session. Students must have a grade point average of 2.0 or better to remain in good standing. Students may enroll in undergraduate classes for which they have completed the prerequisites or by faculty permission.

Students with 24 credit hours must apply for admission and be accepted by a degree-granting unit if they wish to continue their course work. Units will determine which of a student's previously earned credits will apply to a particular degree or major.

Students who wish to audit courses can register for classes before the deadline and then have the audit form signed by the professor and taken directly to the Registrar's office to change the class from graded to audit.

Post-Baccalaureate students who wish to take a graduate class must get approval from the School of Interdisciplinary and Graduate Studies; interested individuals should call (502) 852-6495 for details.

**University Grade Point Average**

The University of Louisville calculates a University Grade Point Average, which becomes the standard measure of performance and the official university calculation upon which academic decisions are made. The University Grade Point Average is determined at the undergraduate level, and is based upon all undergraduate course work taken at the University of Louisville.
Courses numbered below the 100 level (000-099) will not be used in the earned hours or University Grade Point Average calculation.

Continuing Studies students must follow the instructional unit’s policies concerning adding or withdrawing from classes, pass/fail grading, incompletes, and audits.

Academic bankruptcy is not available to Continuing Studies students.

Academic Standing
Students in good standing must maintain a 2.0 cumulative Grade Point Average (GPA) in all coursework taken while enrolled in Continuing Studies.

Failure to attain a 2.0 GPA after the first semester results in Academic Warning and a restriction to an enrollment of 6 semester hours. Failure to attain a 2.0 GPA after two semesters results in Academic Probation and a restriction to an enrollment of 3 semester hours. Academic support is available for students on Academic Probation.

In any subsequent semester, a student whose Grade Point Average falls below 2.0 will be suspended from Continuing Studies.

Period Out
Students suspended from Continuing Studies after a fall semester must sit out the following spring semester; students suspended after a spring semester must sit out the following summer and fall semesters; and students suspended after a summer semester must sit out the following fall semester.

Readmission
Students suspended from Continuing Studies may appeal to the Office of Admissions for readmission after the appropriate period out. Readmission may also require assessment of the student’s academic potential and readiness to return.

To apply for readmission, students must complete both an application for admission and a petition form, available on the Office of Admissions website. High school credentials and college transcripts may also be requested for review. The forms must be returned to the office at least one month before the first day of classes for the semester for which readmission is requested.

Note: Courses taken at another institution while suspended from Continuing Studies may not be accepted for transfer credit.

Normal and Maximum Course Loads
The maximum load for each semester is 8 credit hours. Students with superior scholastic records and/or extenuating situations (e.g., Vocational Rehabilitation, 4C’s, or Military/GI Bill) may petition for an overload permission to take additional hours.

Federal Veterans Educational Benefits
Students are eligible for benefits while enrolled in Continuing Studies. Contact the Veteran Affairs Coordinator in the Registrar’s Office at (502) 852-0998 for details.

Financial Aid
Continuing Studies students are not eligible for State or Federal Financial Aid.

Additional Information
For more information regarding Continuing Studies, go to: louisville.edu/admissions/apply/cs

1 Credits earned after summer 1998

J.B. Speed School of Engineering
J.B. Speed Building, Suite 221
University of Louisville
Louisville, KY 40292

Phone: (502) 852-6281
Email: speed@louisville.edu
Web: louisville.edu/speed

About
The mission of the J.B. Speed School of Engineering is to serve the university, the Commonwealth of Kentucky, and the engineering profession by providing high quality educational programs to all students; engaging in research and scholarship that will extend knowledge; and assisting the economic development of the regional, state, and national economies through technology transfer.

The Speed Scientific School was established as part of the University of Louisville in September 1924 as a result of a $250,000 endowment from the James Breckenridge Speed Foundation. James Breckenridge Speed (1844–1912) was a descendant of the prominent Speed family and an industrial pioneer in the City of Louisville. An illustrious business leader, he oversaw the establishment of Louisville’s street railway system, developed and operated large coal interests in Kentucky and was president of the Louisville Cement Company and the Ohio Valley Telephone Company. These industries, in which he maintained an active interest until his death in 1912, were a nucleus around which the City of Louisville and its greater metropolitan area grew to their present industrial stature. It is fitting that his memory be perpetuated in an engineering school bearing his name.

A pioneer class of 72 students started in Fall 1925 in chemical, civil, electrical, and mechanical engineering. The newly renovated Brigman Hall served as the main engineering building until 1942. Upon its inception, the Speed Scientific School offered a four-year Bachelor of Science degree based on a quarter plan, with alternating quarters of coursework and cooperative industry experience in the sophomore and junior years. To this day, the cooperative education program has been a mainstay of the curriculum and Speed School remains as one of the few engineering schools with a mandatory program.
The engineering campus continued to grow through the generosity of Dr. William S. Speed and Mrs. Olive Speed Sackett, the children of James Breckenridge Speed and benefactors of his foundation, and Mrs. Virginia Speed, his wife. They made additional grants toward the erection of the James B. Speed Building (1942), Frederic M. Sackett Hall (1948), and William S. Speed Hall (1958). The Institute of Industrial Research (1946) was also constructed during this period and was later renovated to become the Laura Kersey Library, named after the first Speed School librarian. Kersey Library was again renovated in 2009 and is now the Guthrie Center for Engineering.

The Speed School campus continued its growth on the south side of Eastern Parkway. The Chemical Engineering Building was built in 1967 and renamed in 1975 to honor Robert C. Ernst, who served as the third Dean of Speed School. The Vogt Building, a computerized engineering design center, was built in 1989 to honor Henry Vogt, whose family continues to play an important role in Speed School. Speed School then spread to the other side of Eastern Parkway with the construction of the New Academic Building in 1996. This building was later dedicated to Paul B. Lutz, an outstanding engineering faculty member and benefactor. Lutz Hall houses several research labs and centers and is home to the bioengineering program, the newest of the degree programs. In the 1970s the school had also added degree programs in computer engineering and industrial engineering. The newest addition to the Speed campus is the Shumaker Research Building (2006), housing a world-class cleanroom facility and numerous engineering research efforts.

In 2004, the J.B. Speed Scientific School officially changed its name to the J.B. Speed School of Engineering, reflecting its emphasis on engineering. It is also simply referred to as Speed School by those familiar with the school.

A formal definition of engineering was approved in 1979 by the Engineers Council for Professional Development, now known as the Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org), the accrediting board for engineering and technology programs. This definition still applies today:

“Engineering is the profession in which knowledge of the mathematical and natural sciences gained by study, experience, and practice is applied with judgment to develop ways to utilize, economically, the materials and forces of nature for the benefit of mankind.”

Students of engineering should graduate with knowledge of engineering sciences and design, experience working in teams, have strong written and oral communication skills, and be well-versed on the impact of solutions in a global, economic, environmental, and social context. In particular, engineers have a duty to society to understand and abide by their discipline’s Codes of Ethics. The preamble of the National Society of Professional Engineers (NSPE) Code of Ethics for Engineers states:

“Engineering is an important and learned profession. As members of this profession, engineers are expected to exhibit the highest standards of honesty and integrity.

Engineering has a direct and vital impact on the quality of life for all people. Accordingly, the services provided by engineers require honesty, impartiality, fairness, and equity, and must be dedicated to the protection of the public health, safety, and welfare. Engineers must perform under a standard of professional behavior that requires adherence to the highest principles of ethical conduct.”

Structure

The engineering programs are structured such that students will complete a program consisting of two semesters in Engineering Fundamentals, nine or ten semesters in Departmental Studies to complete the Bachelor of Science degree, followed by a fifth year in Graduate Studies for the Master of Engineering degree. To complete the program in five years, Speed School students have a full course load during the summer semesters. The curriculum is designed as an integrated five-year program, with a cooperative education component, culminating in the Master of Engineering (MEng) degree. The Bachelor of Science and Master of Engineering programs are both accredited by the Engineering Accreditation Commission of ABET (http://www.abet.org).

The Engineering Fundamentals Department teaches engineering mathematics courses and other introductory engineering courses. The department focuses on creating a positive and supportive environment that helps students succeed in their studies and finalize their selection of engineering major. Departmental faculty strive to achieve excellence in teaching while introducing students to the engineering profession and providing them with fundamental engineering skills through a common set of core courses that begin in the freshman year. The department houses Speed School’s Center for Teaching and Learning Engineering that fosters the development, evaluation and adoption of innovative teaching methods, both traditional and technology enabled.

Speed School Administration

The complete and up-to-date list of Speed leadership is located on the Speed website at louisville.edu/speed/about/administration.

Faculty and Departmental Information

The complete and up-to-date lists of departments and faculty also are located on the Speed School website (http://louisville.edu/speed).

Advising Services

Upon admittance to the J.B. Speed School of Engineering, students will be assigned an academic counselor. The academic counselors introduce students to a range of services provided by the J.B. Speed School of Engineering and will guide and support students as they advance through the engineering curriculum. The J. B. Speed School of Engineering staffs professional academic counselors dedicated to:

• Assisting students in selecting appropriate required and elective courses
• Helping students determine choice of major
• Assisting students who are experiencing academic difficulties in their courses
• Maintaining complete and accurate files on each advisee in order to monitor progress toward career goals
• Assisting students to identify opportunities for engagement

All BS students are required to be advised by their academic counselor each semester. Students will be unable to register for classes until cleared by their academic counselor. Academic counselors are located in the Engineering Office of Student Success, located in the lower level of the J.B. Speed Building.

For further information about academic advising in the School of Engineering, call (502) 852-8084 or email the Advising Office (http://louisville.edu/cgi-bin/uofl.mail?name=ssadvise).
About the Programs

The engineering programs of the University of Louisville are offered through the J.B. Speed School of Engineering. The typical undergraduate program of study covers a period of four calendar years spanning eleven semesters, which includes three summer semesters. Study includes both academic course work and cooperative work experience with industry, wherein a student is provided with conditions similar to those encountered in engineering practice.

Upon successful completion of undergraduate study and cooperative education, the student receives the Bachelor of Science degree in one of seven areas of specialization (see Programs of Study tab).

Students completing requirements for the Bachelor of Science degree at the J.B. Speed School of Engineering and achieving the required grade point average are encouraged to complete the requirements for the Master of Engineering (MEng) degree if the professional practice of engineering is a career objective. The five-year MEng program at the University of Louisville includes one year of graduate study beyond the four years of undergraduate studies.

Additionally, the Kentucky State Board of Licensure for Professional Engineers and Land Surveyors allows a student of the J.B. Speed School of Engineering who has completed 105 semester hours in an engineering curriculum to sit for the Fundamentals of Engineering examination as part of the requirements for registration as a Professional Engineer in Kentucky.

Students with a Bachelor of Science degree from another accredited program who come to the J.B. Speed School of Engineering to pursue an advanced degree normally enter into a Master of Science (MS) or doctoral (PhD) program. In addition to the previously mentioned seven areas of specialization, a master’s program in Engineering Management is also offered by the Industrial Engineering Department. The Master of Science and Doctor of Philosophy degrees are available in all areas of specialization except for bioengineering which offers a PhD in Interdisciplinary Studies: Specialization in Translational Bioengineering. Information about these degrees and other advanced degrees awarded by the University of Louisville may be obtained from the Graduate Catalog.

The conferring of degrees by the University of Louisville is conditioned upon timely completion of all requirements in the opinion of the Dean and faculty and issuance of appropriate formal documents by the Registrar, regardless of participation in commencement.

Accreditation

The agency responsible for the accreditation of educational programs leading to degrees in engineering is the Engineering Accreditation Commission of ABET (http://www.abet.org), originally known as the Accreditation Board for Engineering and Technology. The purpose of accreditation is to identify those institutions which offer professional programs in engineering and demonstrate that the programs meet specified criteria. Accreditation of engineering programs began in 1932 and the University of Louisville’s engineering programs have been continuously accredited from this time.

All accredited engineering programs must demonstrate that their students attain the following Student Outcomes:

- An ability to apply knowledge of mathematics, science, and engineering
- An ability to design and conduct experiments, as well as to analyze and interpret data
- An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- An ability to function on multidisciplinary teams
- An ability to identify, formulate, and solve engineering problems
- An understanding of professional and ethical responsibility
- An ability to communicate effectively
- The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
- A recognition of the need for, and an ability to engage in life-long learning
- A knowledge of contemporary issues
- An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice

All undergraduate Speed School programs demonstrate that these outcomes are attained through an assessment process documented with the Engineering Accreditation Commission of ABET (http://www.abet.org).

The University of Louisville is currently the only university in the country with programs having both baccalaureate- and master’s-level accreditation. The accredited programs are the Bachelor of Science (BS) and Master of Engineering (MEng) programs in Bioengineering, Chemical Engineering, Civil Engineering, Computer Engineering and Computer Science, Electrical Engineering, Industrial Engineering, and Mechanical Engineering.

Code of Student Conduct

The Code of Student Conduct is the University’s policy regarding non-academic discipline of students. The general responsibility for non-academic discipline of all students enrolled in the University of Louisville shall be vested in the Office of the Vice President for Student Affairs. The Dean of Students Office has been delegated the
responsibility of administering the Code of Student Conduct. The Code of Student Conduct is available online at louisville.edu/dos/students/codeofconduct.

**Code of Student Rights and Responsibilities**

The Code of Student Rights and Responsibilities is set forth in writing in order to give students general notice of certain of their rights and responsibilities at the University of Louisville. Further rights and responsibilities are set forth in other University rules and policies, including the Code of Student Conduct and academic unit bulletins. The Code of Student Rights and responsibilities is available online at louisville.edu/dos/students/studentrightsandresponsibilities.

**Student Classroom Conduct**

Students are expected to cooperate with all instructors to achieve an optimal learning environment. Conduct that disrupts such an environment will be dealt with and may result in the student being withdrawn from the course and/or facing additional academic penalties.

**Academic Dishonesty**

A primary goal of the School of Engineering is to educate men and women who will serve the engineering community with competence and integrity. Academic dishonesty is a serious offense at the J.B. Speed School of Engineering because it undermines the bonds of trust and honesty between members of the community and defrauds those who may eventually depend upon our knowledge and integrity. Students are expected to recognize and to uphold standards of intellectual integrity. The School of Engineering assumes, as a minimum standard of conduct in academic matters, that the student is honest; credit for courses is given and received on the assumption and condition that all work submitted represents the student’s own efforts. Academic dishonesty is defined in the Code of Student Rights and Responsibilities. It is the student’s responsibility to become familiar with the Code.

In accordance with The Code of Student Rights and Responsibilities, academic dishonesty is prohibited at the University of Louisville.

An instructor who believes a student has committed an act of academic dishonesty will notify the student. This notification will include an explanation of the basis for the allegation and the academic penalties. Academic penalties are penalties associated with the class in question, such as resubmission of alternate assignment, F on the assignment, F for the course, etc. The student will have 10 school days to notify the instructor whether the student accepts or does not accept the academic penalties. Failure to notify the instructor within 10 school days will result in the actions detailed in step 2 below.

If the student accepts the instructor's academic penalties or the student fails to notify the instructor within 10 school days, the following actions will occur:

- The instructor implements the academic penalties.
- The instructor notifies the department chair and SSoE Associate Dean of Academic Affairs of the incident and imposed penalties within 10 school days of receiving the student’s notification of accepting the penalties.
- The SSoE Associate Dean for Academic Affairs will review the documents within 10 school days of receipt and issue a decision regarding whether any administrative sanctions will be imposed on the student by the J.B. Speed School of Engineering, and whether any University-wide sanctions will be recommended to the Provost. Administrative penalties may include suspension or expulsion from the J.B. Speed School of Engineering or the University of Louisville. The Dean will notify the student, the instructor and the Department Chair of this decision. The Dean will forward any recommended University-wide sanctions to the Provost.

If the student does not accept the instructor’s academic penalties, the following actions will occur:

- The department chair, or if the department chair is the instructor making the allegation, the SSoE Associate Dean of Academic Affairs will meet with the student in a timely manner.
- At the meeting, the student will be provided an opportunity to present oral testimony and written evidence. The burden of establishing the student’s guilt rests with the instructor, who must do so by a preponderance of the evidence. After the meeting, the department chair or the Associate Dean, as appropriate, will render a decision within 10 school days of meeting with the student and submit written documentation of the incident and decision to the SSoE Associate Dean of Academic Affairs.

- If the student fails to appear at the meeting a final decision will be rendered by the department chair or SSoE Associate Dean of Academic Affairs.
- The SSoE Associate Dean for Academic Affairs will review the documents within 10 school days of receipt and issue a decision regarding whether any administrative sanctions will be imposed on the student by the J.B. Speed School of Engineering, and whether any University-wide sanctions will be recommended to the Provost.

Administrative penalties that may include suspension or expulsion from the J.B. Speed School of Engineering or the University of Louisville. The Dean will notify the student, the instructor and the Department Chair of this decision. The Dean will forward any recommended University-wide sanctions to the Provost.

Any student who believes the processing or final disposition of a charge of academic dishonesty was unfair may initiate a grievance under the Academic Grievance Procedure. The J.B. Speed School of Engineering follows the procedures for academic grievance as published in The Redbook, Chapter Six, Article Eight (http://www.louisville.edu/provost/redbook).

**Student Complaints**

If a student has a complaint about courses, grades, deficiencies, or decisions made by faculty members, advisors, department chairs, directors, etc., they should use the procedure outlined below.

- The student should first discuss the matter with the person involved and attempt to resolve the complaint through informal discussion.
- If there is no resolution, the student should discuss the matter with that person’s supervisor or immediate superior in the department or office, who should attempt to mediate a resolution.
- If there is no resolution as the result of these discussions, the student should write to the appropriate department chair or director specifying the nature of the concern, with a copy of the letter to the Associate Dean for Academic and Student Affairs.
- If the student is unable to obtain a resolution through these procedures, he or she may request the Student Grievance Office to attempt informal mediation of the problem.

A student wishing to file a formal complaint should do so with the Dean of Students Office. See procedure here: louisville.edu/dos/help/student-complaint-procedure.
Social work is a profession concerned with the prevention and amelioration of social problems and the enhancement of the quality of human life. Social workers achieve these goals through direct practice with individuals, families, groups, and community organizations; advocacy; social planning; social policy analysis and formulation; research; and administration. Social work practice helps people mobilize their resources to deal with present circumstances and to enlarge their prospects for the future. Since problems of meaningful way in isolation from the broad social and community context in which they occur, social work also takes a leadership role in bringing about institutional and social change.

**Structure**

The School provides a broad-based education for college or university graduates wishing to continue their studies and for professionals returning to school to enhance their skills. The Bachelor of Social Work (BSW) degree program is designed to prepare students for entry into the profession as generalist practitioners. The Master of Science in Social Work (MSSW) degree program is designed to help students achieve their maximum potential through a carefully structured curriculum of foundation and advanced course work. Preparation for leadership in advanced professional practice is a vital part of the School's curriculum.

Bachelors of social work programs, under the accreditation banner of the Council on Social Work Education (CSWE), are directed in matters of curriculum to promote the knowledge, values and skills of the profession. At the baccalaureate level, students are prepared for entry into the profession as generalist practitioners. Guided by program mission and goals, the generalist model is built upon a conceptual framework that includes relevant theories and knowledge to build practice skills. The professional level courses at the junior and senior year level are grounded in the liberal arts and carefully integrate that knowledge into the learning of professional content. The Educational Policy and Accreditation Standards of CSWE establish the base of program learning expectations.

**Goal I (Curriculum):** To ensure that graduates will be prepared at the foundation level to practice social work that is framed by a generalist practice base, and an ability to understand social problems at multiple levels.

The program objectives derive directly from the Educational Policy (3.0) of CSWE in preparing students for practice at the generalist level and also for providing a firm foundation for those who seek graduate educational opportunities in social work. To meet those requirements, the Kent School has established the following program objectives that will frame the assessment of learning that obtains to the BSW Program.

Students who graduate from the BSW Program will demonstrate the ability to:

- Objective 1: Apply critical thinking skills within the context of professional social work practice.
- Objective 2: Understand the value base of the profession and its ethical standards and principles, and practice accordingly.
- Objective 3: Practice without discrimination and with respect, knowledge, and skills related to clients’ age, class, color, culture, disability, ethnicity, family structure, gender, marital status, national origin, race, religion, sex, and sexual orientation.
- Objective 4: Understand the forms and mechanisms of oppression and discrimination and apply strategies of advocacy and social change that advance social and economic justice.
- Objective 5: Understand and interpret the history of the social work profession and its contemporary structures and issues.
- Objective 6: Apply the knowledge and skills of a generalist social work practice with systems of all sizes.
- Objective 7: Use theoretical frameworks supported by empirical evidence to understand individual development and behavior across the life span and the interactions among individuals and between individuals and families, groups, organizations, and communities.
- Objective 8: Analyze, formulate, and influence social policies.
• Objective 9: Evaluate research studies, apply research findings to practice, and evaluate their own practice interventions.
• Objective 10: Use communication skills differentially across client populations, colleagues, and communities.
• Objective 11: Use supervision and consultation appropriate to social work practice.
• Objective 12: Function within the structure of organizations and service delivery systems and seek necessary organizational change.

Goal II (Curriculum): To prepare students for advanced graduate work in social work.

• Objective: The Kent School will prepare students with a quality education that will support their admission to and successful completion of graduate social work degrees.

Goal III (School's relationship with the community): To build collaboration and partnerships for community building and problem solving:

• Objective: The Kent School will provide professional expertise in the community in partnership with agencies and institutions to build a stronger community in the metropolitan region of Louisville.

Goal III (Overall program goal): To contribute to the development of new social work knowledge through scholarship and research.

• Objective: The Kent School will develop research and scholarship that adds to the knowledge base of the social work profession.

About the Program

The Kent School Curriculum is designed to enhance students’ ability to help them and the diverse client systems they work with to make decisions that contribute to the quality and health of these client systems and that will promote social justice. It is designed to graduate social workers who think critically about what they do, why they do it, and what outcomes they hope will result from the social work practice they do.

Critical thinking is defined as “the intellectual disciplined process of actively and skillfully conceptualizing, applying, analyzing, synthesizing, and/or evaluating information gathered from, or generated by, observation, experience, reflection, reasoning, or communication, as a guide to belief or action” (Scriven & Paul, 2004). Critical thinking includes specific skills such as problem-solving and the ability to integrate knowledge from multiple disciplines and theories of human behavior. Throughout the curriculum, there is an emphasis on critical reflection, or appraisal of various points of view no matter what the source. The curriculum draws heavily on social science knowledge and integrates this with problem-solving phases such as assessment, intervention, and evaluation. In this respect, the curriculum is designed to teach students to access, integrate, and assess practice and policy related research to solve social problems and to work towards social justice. When critical thinking skills are used effectively, it leads to transparency and promotes social change, particularly with and on behalf of vulnerable and oppressed individuals and groups of people.

In the foundation curriculum, students are introduced to critical thinking. They are guided by faculty to develop critical thinking skills throughout all the foundation level courses. The BSW curriculum promotes a generalist perspective in which the simultaneous impact of many systemic levels (individuals, families, groups, organizations, and communities) on clients’ lives is critically analyzed and recognized. The curriculum builds upon a liberal arts base that fosters an understanding of society as a complex organization of diverse people and ideas. Social problems are understood as occurring within the nexus of culture, conflict, development, ecology, and systems and as such, efforts to help or intervene must include consideration of these forces. Students will be able to critically identify and assess social problems, specifically attending to 1) how such problems are maintained, 2) how they impact the quality of people’s life, 3) cultural sensitivity and appreciation of marginalized people, and 4) how to actively promote social and economic justice. In the foundational year, the focus is on the development of critical thinking skills in all the areas mentioned. The BSW curriculum is to prepare students for generalist practice; that is to develop knowledge and skills for entry level professional social work practice that recognizes the importance of multi-level systemic intervention.

Academic Misconduct

It is expected that a student in the Kent School of Social Work will refrain from plagiarism and cheating. Plagiarism and cheating are serious breaches of academic conduct and may result in permanent dismissal. Each student is advised to become familiar with the various forms of academic dishonesty as explained in the Code of Student Rights and Responsibilities. A plea of ignorance is not acceptable as a defense against the charge of academic dishonesty.

Multiple Submission

The submission of substantial portions of the same academic work, including oral reports, for credit more than once may be considered plagiarism without prior authorization by the teacher.

Student Conduct Policies

Students entering the Kent School of Social Work, by their formal acceptance into the School, agree to abide by The Code of Ethics of the National Association of Social Workers (https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English) and the Code of Student Conduct of the University of Louisville.

The NASW Code of Ethics provides guidelines for the professional conduct of social workers. Since the profession is directed by a commitment to core values, the Code provides for conduct related to principles of service, social justice, dignity and worth of the individual, the importance of human relationships, integrity, and competence. These values and the standards inherent in them provide a context for expected behavior during the period of enrollment in the educational programs of the Kent School of Social Work, and for the development of lifelong professional standards. Issues of concern related to this area are referred to the Academic and Professional Standards Review Committee.

Dismissed Students

If the Academic and Professional Standards Review Committee decide to dismiss a student from Kent School and if this dismissal is approved by the Dean, students will only be allowed to return to Kent School in rare cases. Students who wish to return must write an appeal letter to the BSW Director, stating their reasons why they think they can return to Kent School to complete their studies.

Advising Services

The Kent School of Social Work Advising and Student Services strives to provide students with excellent academic advising, consistent and accurate program information, and services related to registration, financial aid, and admissions.

Our office is located in Oppenheimer Hall. Please call for an undergraduate advising appointment, questions concerning enrollment and student services, or information regarding application to the BSW
Kent School Administration
The complete and up-to-date list of Kent School leadership is located on the Kent School website at louisville.edu/kent/.

Faculty and Departmental Information

About the School of Dentistry
Offering outstanding clinical education, pioneering simulation education and technology, and leading biomedical research, the University of Louisville School of Dentistry (ULSD) continues its quest to provide quality education and unique opportunities. The philosophy of the school is to consider students partners in learning and to provide them with the knowledge and skills to meet the challenges of today's dental profession.

The School of Dentistry is a state-supported institution located within the University Health Sciences Center (HSC) in downtown Louisville (metropolitan area population of more than one million). Founded in 1887, the school is housed in a building that opened in 1970 as part of the HSC campus. Total renovation of the clinics and classrooms, including state-of-the-art technology, was completed in 2011. The School of Dentistry houses clinical care services for community members as well as education for students within the same structure.

The School of Dentistry offers degrees at the undergraduate, graduate and professional levels. The undergraduate Bachelor of Science in Dental Hygiene program is unique in being offered through a School of Dentistry, where students learn alongside their future peers in the dental field.

About the Dental Hygiene Program
The Office of Dental Student Affairs is available to assist students in planning their academic program and to provide students with information regarding policies, procedures, and general information.

It is the student’s responsibility to be knowledgeable of the policies and procedures, and to take the initiative in seeking help and advice. Students are encouraged to contact the office whenever they have a question, a problem, concern.

Name/Address Changes
It is the student’s responsibility to update any change in name, address, or telephone number. The student may complete a name/address change through the ULink option available from the UofL website or in the Registrar’s Office on Belknap Campus or by calling that office at (502) 852-6522.

Minimum Technical Standards
The University of Louisville School of Dentistry is committed to the principle of diversity in all areas. In that spirit, admission to the School is open to all qualified individuals and complies with section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (1993).

The School recognizes the award of a Bachelor of Science in Dental Hygiene degree carries with it the full authority of the institution and communicates to those who might seek the services of the bearer that he or she is competent to practice dentistry. This degree is unique in that the graduate is prepared and, upon licensure, is allowed to practice all disciplines of the dental profession. This requires that the student acquire didactic knowledge as well as learning skills and attitudes essential to the profession and agreed upon by the faculty as requisite for the practice of dentistry. The student requires both cognitive and technical skills to negotiate the curriculum.

The School is aware of the unique nature of the dental curriculum. Applicants must possess the skills and abilities that will allow them to successfully complete the course of study and receive the full benefit of the education. In the process the student is required to manage or perform treatment on the patients of the School. The School has the responsibility of ensuring the well-being of patients. This includes the completion of treatment safely and within an acceptable amount of time. With this in mind, the student must be able to meet the following technical standards with or without accommodation:

• Motor Skills
• Sensory/Observation
• Communication
• Cognitive
• Behavioral
• Immunizations

Disability Statement
Students with disabilities who need reasonable modifications to successfully complete assignments and satisfy other course criteria
are encouraged to meet with the course instructor as early as possible to identify and plan specific accommodations. Students may be asked to supply a letter from the Disability Resource Center or other documentation which will assist in modification planning.

**Student Conduct Policies**
The University of Louisville expects its students and student organizations to conduct themselves according to generally accepted moral and social standards and to respect the rights and privileges of others. Students who enroll in the University of Louisville dental hygiene program are subject to the rules and regulations of the University.

**Ethical Violations**
The dental hygiene program expects high ethical standards. As future professionals, students should exhibit appropriate professional ethical behavior in all academic and clinical matters.

A student may be dismissed from the program due to unethical conduct. A formal procedure has been established to review cases where a student is accused of unethical behavior.

**Drug Use Prohibited**
In accordance with the statutes of the Commonwealth of Kentucky, the possession, use or distribution of hallucinogenic and/or illegal drugs will not be tolerated on University property. Infractions will result in disciplinary action by the University which may lead to suspension or dismissal from the dental hygiene program.

**Student Rights**
Students who believe they have been treated unfairly, discriminated against, or have had their rights abridged may initiate a grievance in accordance with procedures established in the University's Redbook. Students would first seek to have the matter resolved through informal discussion and through administrative channels. Information about processing a grievance may be obtained from the School of Dentistry's associate dean for academic affairs.

**Student Health Policy**
Each student must comply with the current health policy of the School of Dentistry. Because of contractual agreements with agencies and the changing needs of society, this policy is updated periodically. The current health policies are published in the School of Dentistry Dental Hygiene Undergraduate Student Handbook. It is the responsibility of the student to maintain his or her health in order to ensure safety for other students and patients. If faculty or the agency deem that any student creates a health or safety risk, the student may be excluded from the clinical experience and/or program.

**Liability and Health Insurance**
All upper division dental hygiene students are required to submit proof of health care insurance coverage. Students can be covered under the University's student health insurance coverage. If students carry their own coverage, they can waive the University student health coverage by completing the online waiver form.

Liability/malpractice insurance is provided for all ULSD upper division students during their intern and extern experiences, including AHEC.

**Immunization Requirements**
All students are to comply with the University of Louisville Health Sciences Center immunizations requirements. Those requirements are distributed to students prior to matriculation.

Policies and procedures for immunization, testing, and post exposure incidents have been developed to comply with Occupational Safety and Health Administration (OSHA), Centers for Disease Control (CDC), American Dental Association (ADA), American Dental Hygienists’ Association (ADHA), and extramural site recommendations or policies. Dental hygiene students, in the course of their clinical responsibilities, have exposure to blood, blood products, tissue, secretions, or body fluids of patients potentially containing hepatitis B (HBV) and are at risk for HBV as well as other infectious diseases. The following immunizations require documentation prior to matriculation and must be submitted on the Immunization Reporting Form to the Office of Clinical Affairs prior to the first day of class: measles, mumps, rubella, tetanus-diphtheria-pertussis, varicella, hepatitis-B (series must be initiated-first and second doses), and tuberculin skin test. A tuberculin skin test is required on a yearly basis for all students. All students must maintain compliance with the University of Louisville Health Sciences immunization and testing requirements. Students must be in compliance with immunization and testing prior to contact with patients in the clinical areas. Any student not in compliance will not be allowed in the clinical areas.

Students are strongly advised to consider latex allergy testing prior to matriculation if there is a medical history indicating latex sensitivity.

**Transportation**
Students are responsible for providing their own transportation to and from clinical sites as needed. Students are not allowed to provide transportation for patients.

**Policy on Clinical Attire**
The University of Louisville School of Dentistry expects the student entering the professional clinical/academic program to present a neat, clean, and professional attired appearance. The current policy is published in the School of Dentistry Student Clinic Manual and is updated periodically. All students must maintain compliance with the current policy. Final evaluation of student compliance with the dress code will rest with the Office of Clinic Affairs and the program faculty and director.

**Academic Achievement Committee**
The Dental Hygiene Academic Achievement Committee Guidelines (DH-AAC Guidelines) have been developed by the dental hygiene faculty of the School of Dentistry to provide students and faculty with pertinent information about the academic and professional standards of the School and about the process and procedures used to review student performance. Admitted upper division students are provided these guidelines, updated annually, via Blackboard.

Academic bankruptcy and forgiveness policies allow students who are returning to college after an absence of two or more years to request the adjustment of their records for one or more entire semesters of previous college work, provided certain criteria are met. View information on academic bankruptcy and forgiveness and the new Fresh Start policy in the academic policies section of this catalog.
Advising Services

Lower Division Advising

All dental hygiene students are encouraged to meet with an advisor to seek support and referral information as needed. The academic counselor for the dental hygiene program has office hours on both the Belknap and HSC campuses. Students may call (502) 852-5081 for an appointment on either campus.

Freshmen students and transfers with less than 30 credit hours earned are required to be advised prior to registration. Students on conditional, warning or probationary status must also be advised prior to registering for courses. Students who are out of sequence in their program of study must meet with their advisor to revise their program of study.

Upper Division Advising

Academic advising is available to upper division students through the program advisor, program faculty, and the School of Dentistry academic support counselor.

School of Music

While pursuing their studies, students are exposed to a full schedule of concerts and recitals by world-renown artists and performers.

The School of Music, founded in 1932, has been located on the Belknap Campus since 1980 in a building which was designed and built specifically for music. It contains two recital halls, a 15,000 square-foot music library, forty-four teaching studios, seventy-six practice rooms, and three dance studios.

Music Administration

The complete and up-to-date list of Music leadership is located on the Music website at louisville.edu/music.

Faculty & Departmental Information

The complete and up-to-date lists of departments and faculty also are located on the School of Music website.

Advising Services

All School of Music students are advised by the Academic Counselor who assists with registration, monitors progress in courses required for their major, and reviews progress made toward completion of Upper Division course prerequisites.

Advising is required for all music students until they have completed all prerequisites for Upper Division courses (see the Upper Division Assessment on following section of this document; the Upper Division Assessment can also be found in each degree plan in the degree section of the catalog). Students will be blocked from registration for classes until the advising requirement has been satisfied.

About the Program

The officials and instructors of the School of Music do not assume the responsibility of notifying students concerning the regulations of the School of Music or their particular status in regard to credits, requirements, or quality points. They are more than willing to inform them at any time they request the information. It is the responsibility of students to inform themselves in regard to grades, credits, requirements, quality points, and the regulations applying to students in the School of Music. The schedules, fees, and regulations specified are subject to change without notice. Any email communication with students will be on their university email only. Students must be responsible and check their university email on a daily basis.

Enrollment

In order to take music courses, students must be enrolled in the School of Music or have permission of the instructor.

Official notices

Students must respond to official notices issued by administrative boards or sent by individual letters. Failure to comply may lead to suspension from the school. During the semester, an instructor shall notify each student whose work is below the grade of C and shall report his/her name to the Dean.

Music Fees

All School of Music majors are charged a Student Music Fee each semester, pro-rated for part-time students. This fee helps to offset expenditures exclusively related to music majors including, but not limited to accompanists, technology and infrastructure, student activities, and student tickets to concerts. Of direct benefit to music students is...
the access to four, one-hour services each semester with a staff piano accompanist, the availability of half-hour, secondary instrument applied music lessons on a space available/permission of secondary and major teachers for four semesters, and free tickets provided to Louisville Ballet, Chamber Music Society, Kentucky Opera, Speed Concert Series, and Louisville Orchestra Classics events. Music minors and non-music majors approved to take applied lessons within the School of Music will be charged a Non-Music Major Applied Lesson Fee.

Music Requirements

Electives

Music electives in any Bachelor of Music degree should be chosen from courses in Music History, Music Theory/Composition, Music Education, Music Literature, Music Pedagogy, Music Therapy, Jazz, a secondary applied area, or a non-required ensemble. Courses beyond the degree requirement in the student's major applied area in the required major ensemble(s) are not appropriate.

For the Bachelor of Arts degree, in addition to the electives listed for the Bachelor of Music, applied music courses beyond the required four semesters are acceptable as music electives. MUH courses will not be accepted as music electives. School of Music students may count up to two one-hour Physical Education courses toward the general elective requirement.

Applied Music Lesson Credit

All full-time students pursuing a professional degree in music (with the exception of Music Therapy and Composition majors) will receive a one-hour private lesson per week in their major applied music subject, regardless of the number of credit hours allowed for the course. Music Therapy majors are required to take 8 credits of study on their principal instrument. This can be done in 4 semesters of 1-hour lessons at 2 credits each, 8 semesters of half-hour lessons at 1 credit each, or a combination of the two. Composition majors take 4 semesters of 2-credit lessons and 4 semesters of 1-credit lessons. Students enrolled in the BA degree program will receive a minimum of a half-hour lesson per week in applied music for four semesters. In general, applied music courses require one hour of daily practice for each hour of credit.

Applied Music Teacher Assignment

Each entering student will be assigned to an applied music instructor. If the student prefers to choose his/her own teacher, every effort will be made to accommodate those students who wish to choose their own teachers. If, for any reason, a student desires to change applied music teachers, the student's request will be considered by the Concentration Coordinator in consultation with the Department Chair. In the event that the Concentration Coordinator is the student's current applied teacher, the Department Chair will appoint another faculty member from the Concentration to consider the request.

Applied Music Grade Requirements

A student pursuing a degree in music who does not receive a grade of C-minus or above on their instrument or voice at the end of any semester must repeat that level. If a grade of C-minus or above is not received at the end of the next semester's study, the student will not be allowed to continue study in the School of Music. Exceptions to this rule must be by written notice of faculty action.

Attendance at Area Meetings

Attendance is required at all Area Meetings for students in the area. These are usually not weekly events, but held a few announced times during the semester. Non-area meeting weeks are reserved for studio master classes during that time.

Public Performance

Students are encouraged to be active in public performance and should consult their applied teacher in preparing for their performances.

Student Performance Requirement

Students taking applied lessons for 2 or 4 credit hours must perform at least once per semester in a public forum after receiving credit for their first semester of applied study. Such performances may be of the following types: convocation, area recital, major opera role, full or half solo recital, solo performance with a major ensemble, or other performance sanctioned in advance by the student's instructor. Each performance must be included on the Repertory Record form submitted at the applied exam.

Applied Music Jury Examinations

Students requesting credit for applied music study, with the exception of Functional Study, shall be examined by a committee of the faculty at the end of each grading period. The means of assessment for Functional Study will be determined by the applied faculty member and clearly indicated in the syllabus. This includes students studying at the Functional or Secondary levels. Literature presented for examination may not be repeated in whole or in part at a subsequent examination. An exception may occur in areas that require a self-prepared work on the jury. In such cases, a self-prepared work presented at a jury may be repeated on a second jury if the work has been studied in detail at a later date with the teacher.

For the sophomore evaluation applied examination (students registered for MUS 202, MUS 204, MUS 206, MUS 212, MUS 214), each student must perform eleven minutes of music consisting of a minimum of three pieces of varying styles. If the length of the selected works will not allow three pieces to be heard within the allotted time, the student should consult with the applied teacher to select appropriate cuts or stopping points. If a composition has an accompaniment, it must be performed with accompaniment. At least one of the pieces on the jury must be with accompaniment (with the exception of keyboard instruments, guitar, and harp).

Faculty may grade their own students on all applied exams, including the Sophomore Applied Examinations Examination.

Final Applied Grade

The applied instructor may set their own grading policy for the applied lesson but the weight of the jury grade should be no less than 30 percent and no more than 50 percent of the student's final grade. Criteria for the applied lesson grade during the semester of the recital will be determined by the applied instructor and stated on the syllabus.

Advanced-Standing Credit

Advanced-standing credit in any applied music subject (piano, voice, organ, guitar, band, or orchestral instruments) or in music theory will be granted only by examination, and then only after the student has satisfactorily pursued advanced work in that subject for one semester.

Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements
and standards of the review are established by the faculty and include credit for Theory IV (MUS 242) or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music and New Media; MUS 361-01 Music Literature; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance, with “S” for 4 semesters; Ensemble Participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105 and 3 additional General Education/Cardinal Core courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies, music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the Undergraduate Student Handbook.

Participation in ensembles
The following are the guidelines by which undergraduate music students participate in ensembles:

1) All full-time undergraduate music majors are required to participate each semester in the principal ensemble designated for their primary instrument:
   • Strings: Symphony Orchestra
   • Woodwind, brass, or percussion: Symphonic Band, Concert Band, Wind Ensemble, Wind Symphony, Marching Band*
   • Voice: Collegiate Chorale, University Chorus*
   • Keyboard/Guitar: Any of the above dependent upon qualifications and/or interests*
   • Jazz: Jazz Ensemble, Jazz Lab, Jazz Repertory Ensemble, Vocal Jazz Ensemble*  

* Specific ensemble assignment is solely dependent on the result of the ensemble audition.

Note: The principal ensemble is the only ensemble that can fulfill the ensemble requirement for each degree program.

Full-time students who fail to enroll for a major ensemble each semester will be in violation of the catalog and subject to academic action. A student who fails to register for the appropriate ensemble during a semester will be placed on immediate Academic Warning. If the student has failed to resolve the ensemble registration by the end of the semester, the student will be placed on Academic Probation. A student who fails to register for the appropriate ensemble in a second consecutive semester will, if the ensemble has not been added by the end of the first week of classes, be placed on immediate Academic Suspension.

2) For all part-time students, participation in a principal ensemble must keep pace with the number of hours accumulated. For each 15 hours completed, at least one credit hour must be in ensemble.

3) Full-time non-degree (special) students must participate in an appropriate principal ensemble. Part-time non-degree students are not required to do so.

4) Music Therapy equivalency students holding a degree in music (or with a bachelor’s degree in a different field, but whose transcripts indicate that they have taken eight ensembles), are not required to take an ensemble.

5) Under no circumstances will participation in amateur, semiprofessional, or professional organizations outside the University be substituted for the University requirement.

6) After achieving Upper Division status, the student may petition to have a different major ensemble substituted for the designated principal ensemble. The petition must be made prior to the ensemble auditions for the semester during which the substitution will take place. Petitions for Fall semester substitutions will be due by April 21st of the preceding semester. Petitions for Spring semester substitutions will be due by October 21st of the preceding semester. The petition will be considered by the Ensemble Directors’ Committee, and the student will be notified of the committee’s decision prior to ensemble auditions.

Note: Substitution for principal ensembles is considered an exception to the guidelines for ensemble participation. Petitions must be submitted for each semester of substitution.

7) Wind brass percussion principals enrolled in the Bachelor of Music (Pre-Certification-Instrumental) or Bachelor of Music in Music Education degree programs are required to fulfill two years of ensemble performance in the Marching Band. Entering students will be expected to fulfill this requirement during the freshman and sophomore years. Transfer students will be required to fulfill a minimum of one year. A second year may be required based upon evaluation of the transcript. Woodwind, brass and percussion principals are also recommended to complete one semester of a major jazz ensemble.

Major ensembles: The following ensembles are designated as major ensembles with students eligible for one (1) hour of credit for participation. They are open to all qualified students of the University after consultation with the director.

• Black Diamond Choir
• Collegiate Chorale
• Community Band
• Concert Band
• Jazz Ensemble
• Jazz Lab
• Jazz Repertory Ensemble
• New Music Ensemble
• Early Music Ensemble
• Marching Band (Fall only)
• Opera Theatre
• Pep Band (Spring only)
• Singing Cardsmen
• Symphony Orchestra
• Symphonic Band
• University Chorus
• Vocal Jazz Ensembles
The grade will be determined as follows:

- Attend 12 or more = S (Satisfactory)
- Attend 9-11 = I (Incomplete)
- Attend less than 9 = U ( Unsatisfactory)

The grade of I (Incomplete) must be made up the following semester by attending double the number of recitals/concerts missed to attain the grade of S. If the Incomplete is not made up the following semester, the Incomplete will lapse to the grade of U and the entire semester of Recital Attendance must be repeated to earn the required credit. No petitions will be considered.

Designated recitals and concerts include the following:

- Thursday convocations—students may count a maximum of 7 (seven) Thursday convocations per semester toward their Recital Attendance requirement.
- Faculty recitals
- Senior or master’s degree recitals
- School of Music concerts given by the school’s major ensembles (Symphony Orchestra, Symphonic Band, Early Music Ensemble, Opera Theater, Collegiate Chorale, New Music Ensemble, Jazz Ensemble, Jazz Repertory Ensemble or Vocal Jazz Ensemble, Concert Band, Wind Symphony, Wind Ensemble, University Chorus)
- A maximum of four concerts given by the school’s minor ensembles (Piano/String/Woodwind/Brass/Chamber Ensembles, Jazz Combo, Clarinet/Flute/Guitar/Harp/Horn/Irish Music/Percussion/Historical Brass/Saxophone/TECHLA/Trombone/Trumpet/Tuba-Euphonium Ensembles, Community Band, Opera Workshop)
- Student composer concerts
- One musicale per semester sponsored by Delta Omicron
- One musicale per semester sponsored by Phi Mu Alpha
- Guest artist recitals
- New Music Festival

A minimum of 2 and maximum of 4 of the 12 required recital attendance credits must be obtained by attending live professional concerts outside those presented exclusively by University of Louisville faculty and students. These attendance credits may come from any of the following: Louisville Orchestra, Kentucky Opera, Louisville Ballet, Chamber Music Society of Louisville, Choral Arts Society, Kentucky Center Chamber Players, Hattie Bishop Speed Endowed Series, Ceruti Chamber Players, the Louisville Jazz Society, and all concerts for which the student music fee provides student tickets.

Students are also encouraged to attend other live professional concerts, including those outside the Louisville area, and performances given in conjunction with professional conferences such as ACDA, KMEA, CBDNA, CODA, and MTOUL. The instructor of record may approve credit for such concerts upon written request by the student or a faculty member.

In order to receive credit for these concerts, a student must submit a ticket stub (except in the case of a free concert) and program to the Instructor of Record for MUS 97. The student’s name and ID number must be clearly written on the ticket stub and program submitted, and the ticket stub and program must be submitted within one week of the performance date.

Students may not receive recital attendance credit for convocations or other performances in which they participate as a performer.

**Public Recitals**

School of Music students may schedule recitals any day when the recital halls are free and the building is open, provided they have the approval of their instructor and the necessary signatures of appropriate faculty for grading when applicable. Before a student schedules a recital, the
student must obtain a syllabus from the applied teacher. The syllabus will outline the following steps:

**Guidelines for Senior and Graduate Performance Degree Recitals**

1. A completed Recital Reservation Form, along with payment of recital fees, must be submitted to the Facilities Coordinator, within two weeks of the time a recital date is tentatively reserved, or the date will be released. This form must include:
   a. The applied teacher's signature
   b. The names and signatures of all performers (except for composition recitals)
   c. The names and signatures of the recital committee.
   d. The specific repertoire.
      i. Performance and pedagogy degree recitals are expected to show the performer's musical maturity and versatility. A degree recital program must be approved by the student's applied instructor. Minimum recital lengths will be determined by the appropriate area faculty and indicated on all applied syllabi.
      ii. For composition degree recitals, all works must be by the student presenting the recital. Performance time must be a minimum of 50 minutes.
      iii. Practicums by Master of Music candidates in conducting must be a minimum of 30 minutes. In some cases, it may be necessary to consider a conducting practicum a cumulative effort including performances from more than one concert, with a minimum of 30 minutes of music.

2. The recital committee shall consist of a minimum of three faculty members:
   a. The student's applied teacher
   b. An additional faculty member from the student's applied area.
   c. A faculty member from a different concentration in either department.

   At least one member of a graduate recital committee must be a Senior Member of the Graduate Faculty. The committee will hear the recital and grade it.

3. Recital Approval Process:
   a. For performance and pedagogy degree recitals, a recital hearing will be required at least four weeks in advance of the recital date, to be heard by the applied teacher plus two other faculty members. The student, in consultation with the applied teacher, is responsible for arranging the hearing. The student must bring a Recital Hearing Form and a listing of the recital program to the hearing. After the hearing, the applied teacher will immediately submit the completed form to the Academic Counselor to confirm the recital date.
   b. For composition degree recitals, the student must show all scores and parts to the private teacher and one other composition faculty member, who will verify that all necessary materials are complete and of an acceptable quality for rehearsal and performance. This review committee must sign the Composition Recital Approval Form, which must include the names of all performers, at least four weeks in advance of the recital date. The student is responsible for obtaining the necessary signatures by the designated date, and the private teacher is responsible for submitting the form to the Academic Counselor to confirm the recital date.
   c. For conducting practicums, the hearing shall consist of attendance at rehearsal(s) of the ensemble(s) preparing the practicum by the applied teacher plus two other faculty members between one and three weeks in advance of the recital date. The student, in consultation with the applied teacher, is responsible for disseminating a rehearsal schedule to members of the hearing committee. The student must bring a Recital Hearing Form and a listing of the recital program to the rehearsal(s). After the hearing, the applied teacher will immediately submit the completed form to the Academic Counselor to confirm the recital date.

4. All students presenting degree recitals are required to write program notes, except students presenting junior recitals. Piano Pedagogy students using the lecture recital option may substitute an appropriate hand-out. For vocal works, the program must also include the original texts and English translations. Program notes must be reviewed at least five weeks before the recital date by the applied teacher and one other faculty member. The program notes must receive approval by both reviewers (on the Program Information Sheet) before being submitted for printing.

5. At least three weeks in advance of the recital date, the student must submit a completed Program Information Sheet, with the appropriate signatures, along with a complete recital program and approved program notes (including texts and translations for vocal works), to the Publications and Media Relations Office for printing. The student must submit the recital program and program notes electronically, in the format specified by the Publications and Media Relations office, along with a typed hard copy.

6. The student must be enrolled in applied lessons (or conducting seminar for conducting practicums) during the semester in which the recital is presented.

7. The student is guaranteed at least three hours of rehearsal in the appropriate recital hall.

**Guidelines for Instrumental and Piano Performance Junior Degree Recitals**

1. A junior recital for the Instrumental Performance degree should be approximately 30 minutes in length and include two or more works by different composers and represent a diversity of styles.

2. The recital committee shall consist of a minimum of three faculty members:
   a. The student's applied teacher
   b. An additional faculty member from the student's applied area.
   c. A faculty member who may be from the student's applied area or from an outside area.

3. A completed Recital Reservation Form, along with payment of recital fees, must be submitted to the Facilities Coordinator, within two weeks of the time a recital date is tentatively reserved, or the date will be released. This form must include:
   a. The applied teacher's signature
   b. The names and signatures of all performers
   c. The names and signatures of the recital committee, if one is required
   d. The specific repertoire

4. At least three weeks in advance of the recital, the student must:
   a. Submit a Recital Approval Form, signed by the applied teacher, to the Academic Counselor to confirm the date
   b. Submit a completed Program Information Sheet with the applied teacher's signature, along with a complete recital program, to the Publications and Media Relations Office, along with a typed hard copy.
5. If the student wishes to include program notes (not required for instrumental performance junior degree recitals), they must also be submitted electronically, along with a typed hard copy at least three weeks in advance of the recital. All program notes must be approved by the applied teacher.

6. The student must be enrolled in applied lessons during the semester in which the recital is presented.

7. The student is guaranteed at least three hours of rehearsal in the appropriate recital hall.

**Guidelines for Non-Degree Recitals**

1. A non-degree recital may be a full recital (performance time must be a minimum of 50 minutes) or a shared recital (each participant’s performance time must be a minimum of 25 minutes).

2. A completed Recital Reservation Form, along with payment of recital fees, must be submitted to the Facilities Coordinator within two weeks of the time a recital date is tentatively reserved, or the date will be released. This form must include:
   a. The applied teacher’s signature
   b. The names and signatures of all performers
   c. The specific repertoire.

3. At least three weeks in advance of the recital, the student must:
   a. Submit a Recital Approval Form, signed by the applied teacher, to the Academic Counselor to confirm the recital date
   b. Submit a completed Program Information Sheet with the applied teacher’s signature, along with a complete recital program, to the Publications and Media Relations Office for printing. The student must submit the recital program electronically in the format specified by the Publications and Media Relations Office, along with a typed hard copy.

4. If the student wishes to include program notes (not required for non-degree recitals), they must also be submitted electronically, along with a typed hard copy at least three weeks in advance of the recital. All program notes must be approved by the applied teacher.

5. The student must be enrolled in applied lessons during the semester in which the recital is presented.

6. The student is guaranteed at least three hours of rehearsal in the appropriate recital hall.

**Additional Guidelines For All Recitals**

1. A required recital of a minimum of 30 minutes of music may take the place of the jury at the end of the semester in which the recital is given. In semesters involving the Sophomore Exam, whether such substitution be allowed will be determined by the applied area.

2. Such recitals must be announced and open to the general public. Unless prior approval is granted by the faculty of the applied area, such recitals must be at the School of Music.

3. Students may refer to the Recital Guidelines Packets (http://louisville.edu/music/resources/current-students/recital-form-packets) (available online or in the Dean’s Office) for recital-related procedures including date/hall reservations, deadlines, hearing and recital committee personnel, and recital fees.

**Teaching**

Students wishing to teach should confer with their applied teacher.

Note: Teaching in the Music Building is strictly prohibited except under the auspices of the Community Music Program or collegiate programs of the School of Music.

---

**Academic Bankruptcy & Forgiveness & Fresh Start**

Academic Bankruptcy and Forgiveness (http://louisville.edu/registrar/registration-information/bankruptcy) policies allow students who are returning to college after an absence of two or more years to request the adjustment of their records for one or more entire semesters of previous college work, provided certain criteria are met. View information on Academic Bankruptcy and Forgiveness (http://louisville.edu/registrar/registration-information/bankruptcy) and the new Fresh Start (http://louisville.edu/admissions/apply/transfer/admissions/app-resources/fresh-start) policy.

**School of Nursing**

Health Sciences Campus, K-Wing
555 South Floyd Street, Suite 3019
University of Louisville
Louisville, KY 40202
Phone: (502) 852-8300
Web: louisville.edu/nursing

**About the School of Nursing**

The University of Louisville’s School of Nursing is an essential partner of a research intensive academic health science center in a nationally recognized University serving a metropolitan community.

The School of Nursing is a community in which faculty, staff and students collaborate to promote excellence in the profession of nursing.
This is accomplished through research and scholarship that inform undergraduate and graduate education, support evidence-based practice and foster advances in nursing science. Students are prepared to demonstrate excellence in nursing science, practice and leadership in a variety of settings for the benefit of clients across the lifespan and to meet the evolving health care needs of society. As a citizen of the larger community, the emphasis of the School of Nursing is to address the complex health needs of diverse and dynamic populations through nursing education, research, scholarship and service.

**Structure**
As you enter our school lobby in the K building on the first floor, you will be welcomed into a renovated three-floor school occupied by very talented and dedicated nursing faculty, staff and students. The second floor includes two renovated classrooms and our Red and Black student lounge. Students can take advantage of wireless capability throughout the building.

The third floor is the administrative suite, undergraduate and practice faculty offices. It houses five clinical practice suites that use state-of-the-art technology to capture both video and audio student learning on high fidelity patient simulators and electronic health records. It is a site where graduate nurse practitioner students learn to conduct a thorough health assessment to better identify systemic diseases. These students are definitely job ready through digital and inter-professional learning.

The fourth floor houses a well-staffed Research Office through our graduate research assistants, a doctoral student lounge and offices for graduate faculty; those who work in this area are developing the school’s research engine in nursing care of disease management and life transitions. The top floor of the school includes a 155-seat auditorium created to provide a venue to broadcast throughout the state as well as national and regional nursing leaders’ presentations.

**Administration**
The complete and up-to-date list of Nursing School leadership is located on the Nursing website at louisville.edu/nursing.

**Faculty**
The complete and up-to-date list of faculty is located on the Nursing website at louisville.edu/nursing/directory.

**Advising Services**
The Office of Student Services (OSS) is available to assist students in planning their academic program and to provide students with information regarding policies, procedures, and general information. The office is located in Rooms 3063-3066 in the K Wing Building on the Health Science Campus. Office hours are 8:30 am to 5:00 pm Monday through Friday. The phone number is (502) 852-1196.

Additional advising office hours are available on the Belknap Campus during the fall and spring semesters. Advising offices are located in the HSC Advising/Studio Arts Bldg.

**Undergraduate Program Information**
The following links are to the Nursing BSN catalog pages listing degree requirements and Flight Plan information (http://louisville.edu/flightplan):

- Nursing BSN (Pre-Licensure Program) (p. 342)
- Nursing BSN (RN-BSN Program) (p. 341)

### About the Programs
Students admitted to the Upper Division of all BSN programs, will be required to meet specific conditions as outlined in their offer of admissions and acceptance.

### Clinical Requirements
Before beginning the first clinical course for any BSN program, students must be in compliance with the following clinical requirements:

- Valid RN license with no restrictions for students in RN-BSN program
- Submit documentation of CPR certification (Adult, Child and Infant).
- Submit proof of student nurse liability insurance coverage
- Submit required immunization records and proof of health insurance coverage to the Campus Health Services Office (call (502) 852-6446 for additional current information on requirements)
- Complete HIPAA training
- Submit proof of completion of Blood-borne Pathogen training
- Additional requirements of clinical agencies may be required
- Negative drug test screening
- Completion of a Medicaid approved Certified Nursing Assistant course.

Additional clinical compliance requirements are published in the School of Nursing Student Handbook. It is the student’s responsibility to read the catalog, student handbooks, and official notices (e.g., School of Nursing web page, Blackboard, mailings) to be informed about grades, credits, and requirements, and to abide by the regulations of the University of Louisville and the School of Nursing. This handbook is available to students upon admission to the Upper Division and is updated annually.

### Removal from Clinical
A student may not participate in clinical sections assigned to nursing units or small agencies where the student currently works or previously has worked for pay, or in which the student has been hospitalized, without permission from the appropriate instructor. Any student participating in a clinical section addressed by this policy may be removed from that section at the request of the agency or the instructor. Every effort will be made to accommodate the student in other clinical sections of the courses. A student who is unsafe in the clinical area may be dismissed from the program.

### Returning to Clinicals following an Absence
Students who are not enrolled in nursing clinical courses for two or more consecutive semesters will need to have an Administrative Program Review to determine their currency of content and skills prior to returning to the clinical setting. The program review will be conducted by the Dean’s designee.

### Health Services Fee
On April 26, 1999, the University of Louisville’s Board of Trustees approved a Health Services Fee. Every HSC student will be assessed the Health Services Fee each semester. Service provided by the fee:

- All pathogen exposure (TB and needle stick) to include outside labs, x-ray, and medications
- All visits to the Student Health Services

Mental Health Services Medications, lab, or X-ray costs that might be associated with these visits are not covered by the fee.
Clinical Laboratory Fee
The UofL Board of Trustees approved instructional and clinical fees for nursing courses numbered 300 and all upper division courses effective Fall 2012. The purpose of the fees is to support the maintenance and operational expenses associated with providing clinical instruction.

Transportation
Students are individually responsible for arranging their own transportation to the clinical sites or other outside clinical experiences. Absence from class or scheduled clinical experiences due to transportation problems is not acceptable. Carpool arrangements will not be part of the decision making process when clinical assignments are made.

Student Paper and Assignments
Student papers/assignments may be displayed as student examples for course files and accreditation purposes. Identifying student information will be removed in the event of such usage. Student work used for any other purposes will require permission from the student(s) prior to faculty use.

Technical Standards for Performance
Technical standards, distinguished from academic standards, consists of the minimum physical, cognitive, and emotional requirements for the full participation in the nursing educational programs. The nature of professional nursing education is to prepare practitioners to interact with clients and provide safe, competent nursing care. It is the responsibility of the faculty to regularly assess all individual student performance and abilities in relation to both the academic and technical standards of the program. Fitness for the profession will be based on an individualized assessment of the student’s abilities to achieve an array of competencies essential for safe nursing practice.

Physical attributes
Students must have functional use of the somatic senses and the senses of vision and hearing. Students must have the ability to observe through visual, auditory, and somatic senses. Students must have adequate motor capabilities to safely perform required diagnostic and therapeutic maneuvers and procedures.

Communication Skills
Students must possess basic communication skills upon which to base the development of client oriented professional communication.

Cognitive Functioning
Students must possess the cognitive abilities required to receive information, categorize, analyze, and manipulate data essential to the care of clients. Students must have the ability to make decisions quickly, and to function effectively on a regular and predictable schedule.

Social and Behavioral Functioning
Students must possess social patterns of behavior consistent with safe and ethical practice with individual clients, families and groups of people. Students must have the mental control to handle emotions that might affect practice performance.

Minimum Grade Requirements
Students must earn a grade of "C" or above in the following courses (or their equivalents):

<table>

Anatomy and Physiology Completion Requirement
The School of Nursing highly recommends that students complete the two semesters of anatomy and physiology with a lab at the same institution prior to admission into the upper division curriculum (BIOL 260, BIOL 261, BIOL 262). Transfer courses must be officially evaluated and determined equivalent to the University of Louisville’s anatomy and physiology courses.

Student Grievance Policies
Representatives from administration and faculty serve on the School of Nursing’s BSN/MSN Academic Affairs Committee. This committee reviews academic policies related to undergraduate nursing students. Student representatives have full voting rights except on confidential matters involving other students; in these cases the student representatives are excused. Students wishing to petition a School of Nursing policy should contact an Academic Advisor concerning procedure, students’ rights and responsibilities, and appropriate steps to take for resolution within the unit. University of Louisville also has a Student Academic Grievance Policy designed to provide fair means of dealing with student complaints regarding a specific action or decision made by the faculty as a whole, a faculty member, or the unit. Students who believe they have been treated unfairly, discriminated against, or have had their rights abridged may initiate a grievance which shall be processed in accordance with the Student Academic Grievance Procedure (p. 87) pursuant to The Redbook. (See University of Louisville Student Handbook for more information.)

Student Petitions
Any student wanting to be exempted from a School of Nursing policy should make an appointment with an academic advisor and, if necessary, to file a petition. The academic advisor will submit the request to the Dean or dean’s designee who will make the decision or determine if an appropriate undergraduate faculty committee should hear the petition.

After hearing the petition, the committee makes a recommendation to the dean, who makes the final decision. A student may not petition to a committee for a change of grade in a course. However, the student may petition to the Committee regarding the fairness in which a grade was calculated. The Committee does not have the authority to recommend grade changes.

Academic Dishonesty Policy
The term “academic dishonesty” means obtaining or seeking to obtain an unfair academic advantage for oneself or for any other student; it includes lying, cheating, stealing, or engaging in otherwise dishonest conduct in the course or related to any academic exercise (Code of Student Rights and Responsibilities, University of Louisville). According
to the Code of Student Rights and Responsibilities at the University of Louisville, academic dishonesty is prohibited at the University. Academic dishonesty is a serious offense because it diminishes the quality of scholarship, makes accurate evaluation of student progress impossible, and defrauds those in society who must ultimately depend upon the knowledge and integrity of the institution and its students and faculty. Academic dishonesty includes, but is not limited to, cheating, fabrication, falsification, plagiarism, multiple submission, and complicity in academic dishonesty (Code of Student Rights and Responsibilities).

After identifying suspected academic dishonesty occurring in any academic program at the University of Louisville School of Nursing, the following steps will be taken:

1. A meeting to discuss the suspected academic dishonesty will occur with the faculty member, the course coordinator/leader, and the student(s). This meeting should take place, if possible, within 10 working days after identification of the suspected academic dishonesty.

2. The faculty member in collaboration with the course coordinator/leader will provide a letter to the Dean or his/her designee, if possible, within five working days of completion of investigation of the academic dishonesty. The faculty member's letter shall include:
   a. A detailed description of the academic dishonesty;
   b. Copies of supportive material; and
   c. A recommendation commensurate with the seriousness and circumstances of the academic dishonesty.

3. The Dean or his/her designee will schedule a meeting with the involved parties prior to making a decision.

4. The Dean or his/her designee will respond in writing to the faculty member by accepting or modifying the recommendation, if possible, within five working days of receipt of the recommendation.

5. The Dean or his/her designee will send a letter to the student(s) regarding the outcomes of the investigation and/or consequences, if possible, within five working days of notifying the faculty member of his/her written recommendation. Copies of this letter will be sent to the student's Office of Student Services advisor and the Dean of the School of Nursing. The letter to the student(s) shall include a copy of this procedure.

All records and documents obtained, prepared or related to the investigation and disposition of a charge of academic dishonesty will be maintained in the student’s Office of Student Services file.

Disability Statement

Students with disabilities, who need reasonable modifications to successfully complete assignments and otherwise satisfy course criteria, are encouraged to meet with the instructor as early as possible to identify and plan specific accommodations. If determined necessary, students will be directed to the Disability Resource Center. Any identified modification(s) deemed necessary must be documented in writing by the Disability Resource Center and provided to the School of Nursing. The Disability Resource Center must re-evaluate and provide documentation each semester.

About

The School of Public Health and Information Sciences officially reopened as a University of Louisville unit in September 2002. In December 2008, the school moved to its newly renovated home on East Gray Street across from the Louisville Metro Department of Public Health and Wellness.

The original School of Public Health at University of Louisville was formed in 1919, making it one of the first schools of public health in the United States. Funding for the development of the school came from a $30,000 contribution by the Kentucky State Board of Health. The school was housed on the third floor of the Kentucky Board of Health Building at the corner of 6th and Main Streets. The primary focus of the school was the training of health officers and public health nurses to deal with welfare work in poor communities. The school was deactivated in 1924.

The School of Public Health and Information Sciences is a distinctive school of public health, positioned to protect the public’s health in the 21st century by identifying emerging health threats and risks, monitoring health factors and status, understanding how people seek and respond to health information and preparing responses to events that can affect the public’s health.

While we embrace the traditional tasks and roles of public health specialists, we recognize that protecting the public’s health today requires much more. It requires a new approach that integrates how information about the public’s health is acquired, evaluated, acted on and disseminated, and how these affect the public and its health. It requires preparing our students for careers in the 21st century by using 21st century knowledge and techniques.
Public Health Administration
The complete and up-to-date list of the School of Public Health leadership is located on the Public Health website at louisville.edu/sphis/administration.

American Sign Language Interpreting Studies (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in American Sign Language Interpreting Studies (ASLIBS)

Unit: College of Arts and Sciences (http://www.louisville.edu/a-s)
Department: Classical and Modern Languages (http://louisville.edu/modernlanguages)

Program Information

UofL’s American Sign Language Interpreting Studies (ASLIBS) program provides students the training needed to function as qualified interpreters. This includes learning ASL, understanding the basics of ASL linguistics, Deaf history and culture, and the fundamentals of the interpreting process. We emphasize communicative and cultural competency as well as critical thinking abilities that can be used in both academic and non-academic careers.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

1 Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.
**Departmental Admission Requirements**

Admission to BS in ASLIS not automatic. Entry requires functional fluency in ASL and basic interpreting competencies; a minimum overall GPA of 2.25 and a minimum GPA of 3.0 in ASL and ITP courses. The final exam in ITP 220 also serves as part of the ASLIS screening process for entry into the major. Once accepted into the major, students need to work closely with their advisor. Seniors are required to complete roughly 450 hours in an advanced interpreting practicum. For more details, contact the Department.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Anthropology (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Anthropology (ANTHBA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: Anthropology (http://louisville.edu/anthropology)

Program Information

The Anthropology major at the University of Louisville includes 200-level and 300-level courses in Archaeology, Biological Anthropology, and Cultural Anthropology; a Methods course in one sub-discipline; ANTH 475, which enables majors to apply Anthropology in real-world situations; and ANTH 508, the capstone course that provides a fundamental understanding of the ideas that underlie Anthropology.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

3 May be incorporated into other degree requirements
4 15 hours must be at the 300-level or above.
5 Students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.
### Program Information

The Bachelor of Arts (BA) in Art program is a mixed-media degree primarily intended for art students who wish to receive a broad experience in studio practice within the context of a liberal arts education.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

#### Minimum Total Hours: 121

1. Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

### Specific coursework information can be found on the Degree Requirements tab.

### Departmental Admission Requirements

All students wishing to major in the Department of Fine Arts specializing in studio art must complete and submit a separate “Application for Admission” to the department. Admission is selective and enrollments may be limited. Studio art courses may be restricted to majors only. Enrolled University of Louisville students may obtain an application and apply through the department’s offices. Incoming and transfer students must be accepted by the University first, and then apply for admission to the department. Students are expected to meet the minimum overall grade point standards for the College of Arts & Sciences. In addition, a grade of D in any department course at the 300 level or above may not be used to fulfill a departmental requirement.

### General Education Requirements

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

**To create either report:**

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

---

**Art - Fine Art (BFA)**

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Fine Arts in Art (ART BFA)**

Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)  
Department: Fine Arts (http://louisville.edu/art)

**Program Information**

The Department of Fine Arts and the Hite Art Institute offers the Bachelor of Fine Arts (BFA) degree, which is primarily intended for professionally oriented art students and those planning to pursue graduate work in studio arts. The BFA provides the opportunity for students to go into more depth in a chosen area. There are four tracks in the BFA Program:

- **2D Studios** (http://louisville.edu/art/Undergraduate/bfa-in-art-or-design/bfa-2d-studios)  
  Drawing, Painting, Photography, Printmaking
- **3D Studios** (http://louisville.edu/art/Undergraduate/bfa-in-art-or-design/bfa-3d-studios)  
  Ceramics, Fiber Arts/Mixed Media, Glass, Sculpture
- **Graphic Design** (http://louisville.edu/art/Undergraduate/bfa-in-art-or-design/cad.html)
- **Interior Design** (http://louisville.edu/art/Undergraduate/bfa-in-art-or-design/bfa-in-interior-design)

The 2D and 3D Studio tracks allow students to customize their degree to either focus primarily on a specific studio area or to work cross-media taking courses in several studio areas:

- Graphic Design (http://louisville.edu/art/Undergraduate/bfa-in-art-or-design/cad.html)
- Interior Design (http://louisville.edu/art/Undergraduate/bfa-in-art-or-design/bfa-in-interior-design)

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Departmental Admission Requirements

The BFA degree is primarily intended for professionally oriented art students and for those planning to pursue graduate work in the studio arts.

Admission is selective, and enrollments may be limited. Enrolled University of Louisville students may apply for admission to the BFA program upon completion of the Foundation Program and the introductory course to the area of track, with a minimum grade point average of 3.0 in department (studio art and art history) courses and a cumulative grade point average of 2.25. Once admitted, students must maintain an overall grade point average of 2.25 or above and a 3.0 or above in department courses to remain enrolled in the BFA program.

Students who do not meet the GPA requirements will be placed on departmental probation and given one semester in which to raise their GPA. If unable to meet the GPA requirements within that time frame, students will be returned to the BA program in Studio Art. If removed, students may reapply to the BFA program once the GPA requirements have been met.

Upon admission to the BFA Program, students and faculty will complete and sign a BFA Student/Mentor Contract outlining the progress expected toward completion of the degree. If at any point during the student’s study the mentor deems the student’s progress and/or ability to meet his/her obligations as a student in the BFA program unsatisfactory that mentor has the right to resign his/her post as mentor. In this instance a student must seek another mentor or transfer back into the BA program in Studio Art. If a student requests a different mentor and no faculty mentor has the right to resign his/her post as mentor. In this instance a student must seek another mentor or transfer back into the BA program in Studio Art. If removed, students may reapply to the BFA program once the GPA requirements have been met.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For the BFA candidate in 2D or 3D studios, this includes a committee review of the candidate’s work one semester prior to graduation and participation in the BFA exhibition held during the semester of graduation. For the BFA candidate in Graphic Design or Interior Design, this includes participation in the professional portfolio review at the end of their professional practice course.

General Education Requirements

The following courses are required by the program and satisfy the respective General Education Requirement(s):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARTH 250</td>
<td>Ancient Through Medieval Art - AH</td>
<td></td>
</tr>
<tr>
<td>or ARTH 270</td>
<td>Renaissance Through Modern Art - AH</td>
<td></td>
</tr>
<tr>
<td>or ARTH 290</td>
<td>Survey of Asian Art - AH, D2</td>
<td></td>
</tr>
</tbody>
</table>

*All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

College/School Requirements

<table>
<thead>
<tr>

General Education Requirements

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education Requirements (<a href="http://catalog.louisville.edu/undergraduate/general-education-requirements">http://catalog.louisville.edu/undergraduate/general-education-requirements</a>)</td>
<td>31</td>
<td></td>
</tr>
</tbody>
</table>
60 hours minimum Art/Art History total for Interior Design and Graphic Design tracks; 61 hours minimum total for 2D Studios and 3D Studios tracks. At least 50 of the total minimum hours required must be at the 300 level or above.

A grade of C- or better is required in all 300 and 500-level courses in the major.

In addition to courses counting towards General Education; 6 hours must be at 300 level or above.

May be incorporated into other degree requirements.

Students planning to study Graphic Design must take ART 205. Students planning to study Interior Design may select from ART 205 or ART 206.

Students planning to study Interior Design may select from ART 205 or ART 206. Students planning to study 2D Studios or 3D Studios may select from ART 206 or ART 207.

Students planning to study 2D Studios or 3D Studios may select from ART 206 or ART 207.

Fulfills General Education AH requirement.

BFA Graphic Design students must take ARTH 301 and a 300-level elective. BFA Interior Design students must take ARTH 347. BFA 2D Studios and 3D Studios must take 6 elective hours at the 300-level.

BFA Graphic Design students must take ART 361 and ART 362; BFA Graphic Design students must take ART 371 and a 300-level elective. BFA 2D Studios and 3D Studios must take 6 elective hours at the 300-level.

BFA Graphic Design and BFA Interior Design students may have elective hours. Students who fulfill general education requirements with courses in the major or supporting courses may have electives. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements may need to be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements may require additional hours to complete the degree requirements or decrease the listed electives.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Art History (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Art History (ARTHBA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s) Department: Fine Art (http://louisville.edu/art/s) (http://louisville.edu/art)

Program Information
The Department of Fine Arts offers the Bachelor of Arts (BA) in Art History. Art History introduces students to the history and appreciation of the visual arts. The Art History BA provides students with an in-depth understanding of the history of art, architecture, and visual culture—their production, circulation, and reception—while teaching them to interrogate visuality more broadly.

For the undergraduate wishing to major in Art History, the program provides study in the areas of:

- Ancient
- Medieval, Byzantine, Islamic
- Renaissance, Baroque
- Modern, Contemporary Western
- Asian and Non-western art and architecture

Courses are also offered in curatorial studies, historic interiors, the history of drawing and prints, the history of photography, and the history of graphic design.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

</table>

1 Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BA/MA in Art History
Art History majors who are considering pursuing a master's degree (MA) in Art History can speed up the process by applying some of their undergraduate credit hours toward a master's degree. Students accepted into the Accelerated BA/MA program take three 500-level courses (9 credit hours) as an undergraduate that apply toward both the bachelor's degree and the eventual master's degree.

Interested students should apply to the program during Junior year (i.e., when they have accumulated 60-90 hours of credit). Students must have at least a 3.0 university grade point average when they apply and must maintain a 3.0 once accepted. Once admitted to the accelerated BA/MA program, students are expected to maintain a full graduate load of 9 credit hours.

Once accepted into the program, students complete 9 hours of 500-level coursework during their final year of undergraduate studies. They then graduate with a bachelor's degree and move straight into the UofL MA program. Students in the accelerated program must meet all of the requirements for the MA, including completing at least 12 credit hours of their 31-hour program in 600-level courses.

Departmental Admission Requirements
All students wishing to major in Art History must complete and submit a separate Application for Admission form to the department. Enrolled University of Louisville students may obtain an application and apply through the department’s offices. Incoming and transfer students must
be accepted by the University first, and then apply for admission to the department.

**Accelerated BA/MA in Art History**

Interested students apply to the accelerated program no later than the end of Junior year (i.e., before completing 90 hours of credit). To be considered for admission, a student must:

- Have a minimum university GPA of 3.0
- Complete an application for admission to the graduate program
- Supply GRE scores, transcripts, a statement of purpose, writing sample, and two (2) letters of recommendation

**General Education Requirements**

</tbody>
</table>

The following courses are required by the program and can satisfy the respective General Education Requirement:

- ARTH 250 Ancient Through Medieval Art - AH
- ARTH 270 Renaissance Through Modern Art - AH
- ARTH 290 Survey of Asian Art - AH, D2

*All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

- ARTH 326 International Trends in Contemporary Art
- ARTH 343 African-American Art to 1920
- ARTH 344 African-American Art 1920 to Present
- ARTH 391 Nineteenth-Century Art
- ARTH 393 Nineteenth-Century Architecture
- ARTH 394 Twentieth-Century Architecture
- ARTH 395 American Art I
- ARTH 396 American Art II
- ARTH 397 History of Photography
- ARTH 398 History of Landscape Architecture
- ARTH 526 Studies in Contemporary Art
- ARTH 593 Studies in Modern Architecture
- ARTH 595 Studies in American Art
- ARTH 597 Studies in Photographic History

**Non-Western**

Select one of the following:

- ARTH 331 Chinese Art
- ARTH 335 Twentieth Century Chinese Artists and Architects - AH, D2
- ARTH 337 Eastern Asia Landscape Art
- ARTH 339 Architecture and Gardens in China and Japan
- ARTH 341 African Art: A Survey
- ARTH 365 Mexican Art and Architecture
- ARTH 531 Studies in Asian Art

**Two (2) 300+ electives in Art History**

6

**Two (2) 500-level electives in Art History**

6

**Supporting Courses**

Select one of the following:

- HUM 591 Perspectives on Ancient Culture - WR
- HUM 592 Perspectives on Medieval Culture - WR
- HUM 593 Perspectives on Early Modern Culture - WR
Courses in Humanities disciplines other than Art or Art History, at 300 level or above must be at the 300 level and 12 hours must be at the 500 level.

Minimum Electives 6
Minimum Total Hours 68

Only 40 hours in the major department may be applied toward the Bachelor of Arts degree.

Courses in studio art are calculated in the 40 hours allowed for art history majors.

At least 50 of the total minimum hours required must be at the 300 level or above.

Students are expected to meet the minimum overall grade point standards for the College of Arts & Sciences. In addition, a grade of D in any department course at the 300 level or above may not be used to fulfill a departmental requirement. A grade of C-minus or better is required in all 300- and 500-level courses in the major.

Asian Studies (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Asian Studies (ASST BA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Program: Asian Studies (http://louisville.edu/asianstudies)

Program Information

Asia is the home of 60 percent of the world's population. China and Japan are the second and third largest economies in the world, and India has also experienced very rapid economic growth in the last three decades. Asia has some of the world's most ancient civilizations in the world, such as the Chinese civilization and the Indian civilization.

The Bachelor of Arts in Asian Studies program at UofL is an undergraduate-level interdisciplinary program in the College of Arts and Sciences.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

**To create either report:**

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

### Atmospheric Science (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Science in Atmospheric Science (ATMSBS)**

Unit: College of Arts and Sciences (http://www.louisville.edu/a-s)
Department: Physics (http://louisville.edu/atmosphericscience) and Astronomy (http://louisville.edu/atmosphericscience)

### Program Information

Atmospheric Science is an ever-changing field that continues to grow in scope and knowledge.

There are several universities across the U.S. with undergraduate Atmospheric Science programs, but few with the Louisville area's various and ever-changing climate patterns. Louisville has seen snow on the ground one day—and 70 degrees the next; hurricane force winds; ice storm damage; major tornado outbreaks...along with everything in between. The rich weather history of Louisville makes UofL a perfect place to study the atmosphere and its processes.
The University of Louisville sits in the center of one of the densest populations of professional meteorologists in the world. The National Weather Service (NWS) Weather Forecast Office (WFO) in Louisville is just minutes away from campus, and affords students many volunteer internship and research opportunities. The United Parcel Service (UPS) has its global meteorology group based in Louisville, with a shadow program for students.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

### Degree Summary

Bioengineering (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).
Program Information

Bioengineering is a relatively new engineering discipline when compared to the long-standing traditions of other fields of engineering. A bioengineer uses traditional engineering skills and tools to analyze and solve problems in biology and medicine. Bioengineers interact with biologists, biochemists, physicians, physiologists, and therapists to design, develop and manufacture instruments, devices, and software, or to develop new procedures to solve clinical problems.

The Bachelor of Science in Bioengineering degree is designed to provide students with a rigorous education grounded in basic mathematics and sciences traditional to all engineering programs, but focuses additionally on chemistry, biology and physiology, and the opportunity to gain practical experience within the biomedical or bioengineering industry. In the early part of their academic program, students are exposed to fundamentals of engineering and design in mechanical and electrical engineering before proceeding to core Bioengineering classes.

1 Some courses required in this degree program satisfy multiple requirements. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements and/or Track tabs for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Acceptance into a Department requires that a student have a 2.25 GPA in the prescribed set of courses totaling 31 semester hours in Engineering Fundamentals. In addition, the student must be in overall good standing (university GPA ≥ 2.25).

Students specializing in Bioengineering will complete a program consisting of two semesters in Engineering Fundamentals and a further period of study in the Department of Bioengineering – nine semesters in Departmental Studies to complete the Bachelor of Science degree, followed by a fifth year in Graduate Studies for the Master of Engineering degree. This curriculum is designed as an integrated five-year program, with a cooperative education component, culminating in the Master of Engineering degree.

The Bachelor of Science and Master of Engineering programs are both accredited by the Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org).

1. This course is a General Education requirement for the program; see [http://louisville.edu/provost/ger/](http://louisville.edu/provost/ger/) for the listing, by academic year, of AH/D1/D2/SB/SH Electives which satisfy the University-wide General Education requirements. Note that the 12-hour total for the AH/D1/D2/SB/SH electives assumes the use of double counting of D1/D2 with another category.
2. Students completing ENGL 105 in lieu of ENGL 101 and ENGL 102 satisfy the General Education and Engineering Fundamentals requirements for Written Communication. However, an additional 3-hr Written Communication (WC) course is needed to satisfy program credit hour requirements. A current list of acceptable WC courses is at [louisville.edu/speed/academics/advising](http://louisville.edu/speed/academics/advising).
3. Acceptance into a Department requires that a student have a 2.25 GPA in the prescribed set of courses totaling 31 semester hours in Engineering Fundamentals. In addition, the student must be in good standing with the university (university GPA ≥ 2.25).
4. A student is allowed to accumulate no more than two D+ or lower grades in BE prefixed courses (including BE approved elective courses) to graduate with a baccalaureate degree. If a student accumulates any D+ or lower grade, it is strongly recommended that the course be repeated to earn a better grade before proceeding to the next course in the sequence. If a student accumulates a third D+ or lower grade, the student is required to repeat the course to earn a better grade.
5. A maximum of 1 non-BE course can be taken as an elective. Students must meet all course prerequisites. The courses chosen to fulfill this elective requirement cannot be used to satisfy any other program or degree requirements.
6. Candidates for the Bachelor of Science degree must be in Good Standing (university GPA ≥ 2.25) and must attain a grade point average of at least 2.25 for all courses used to satisfy degree requirements.
Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Biology (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Biology (BIO LABA)
Unit: College of Arts (http://www.louisville.edu/a-s) and Sciences (AS) Department: Biology (http://louisville.edu/biology)

Program Information

There are two undergraduate degree programs offered in the Biology Department, a Bachelor of Arts in Biology and a Bachelor of Science in Biology.

The BA degree is a more general degree than the BS. It is a liberal arts degree designed for those students who desire a broad education in a variety of disciplines. This degree requires more foreign language and social science and/or humanities courses than the BS degree. It is a good degree for students interested in taking a diversity of courses outside the sciences. This degree is also suitable for someone planning to be a teacher. A student planning on applying to professional schools can do so with this degree, as long as the student takes all the prerequisites for admission to the desired program.
Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

1 Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BA-BS/MS in Biology

Students who wish to pursue an accelerated non-thesis master’s degree in Biology (BA-BS/MS) will be allowed to apply up to nine (9) hours of coursework taken for graduate credit while enrolled as an undergraduate. An additional twenty-four (24) hours of graduate coursework will constitute the minimum number of credit hours for obtaining the non-thesis masters in the accelerated program.

Early Start Program (Jointly with the College of Education and Human Development)

The Master of Arts in Teaching program in conjunction with the undergraduate programs in Chemistry, Biology, and Mathematics offers a comprehensive and professionally-focused program leading to an additional degree of MAT Middle or Secondary Education. This early start program enables superior students to receive two degrees within five years. A total of 148 credits are required for the dual degrees: 121 credits of coursework devoted toward the baccalaureate degree and 36 credits toward the MAT, with nine hours double-counted. This program will be available for students who are entering their junior year. They may take graduate level courses in the College of Education and Human Development (CEHD) in their 4th year of study.

The current qualifications for the joint degree program have been agreed upon by discipline faculty from the Colleges of Arts and Sciences and Education and Human Development. The criteria vary by discipline. Students enrolling in the accelerated program will be non-thesis students and must adhere to all policies pertaining to Graduate Students. All interested students must submit an application to the College of Education and Human Development (CEHD) MAT program and meet the admission criteria.

Departmental Admission Requirements

Admission to the BA in Biology requires completion of BIOL 240, BIOL 242 and BIOL 244 with a grade of C or better; completion of MATH 111 with a grade of C or better OR placement into a mathematics course above the level of MATH 111 on the basis of either the University of Louisville mathematics placement examination or ACT/SAT score; and a minimum overall grade point average of 2.0.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

1 Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree.
2 Completion of the intermediate level of a single foreign language
3 In addition to courses counted toward General Education; 6 hours must be at 300 level or above
4 May be incorporated into other degree requirements
5 BIOL 102, BIOL 104, BIOL 257, BIOL 258, BIOL 260, BIOL 261, BIOL 262 and BIOL 263 may not count toward electives in the major. A maximum of 6 hours of undergraduate research or independent study may count toward the major. Students should take all BIOL electives at the 300 level or above.
6 Or advisor-approved statistics course
7 At least 5 hours should be at the 300 level or higher. Students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.

Only 40 hours in the major department may be applied toward the Bachelor of Arts Degree.

At least 50 of the total minimum hours required must be at the 300 level or above.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

### Biology (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Science in Biology (BIOBLS CEL; BIOBLS ECO; BIOBLS GEN)**

Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)

Department: Biology (http://www.louisville.edu/a-s/biology)

#### Program Information

There are two undergraduate degree programs offered in the Biology Department, a Bachelor of Arts (BA) in Biology and a Bachelor of Science (BS) in Biology.

Bachelor of Science degrees are designed so that students get a particularly strong background in their area of interest in biology, cell/physiology, or ecology, but still have some flexibility to take courses of interest. Compared to the BA degree, the BS degree requires more science, both in biology and in another field (physics or geosciences), a specific calculus course, and one less course in a foreign language.

Each of the tracks in the BS degree also requires courses specific to the field of interest. BS degrees are valuable for students wanting to find employment in a biological field without further formal education, for students planning to attend graduate or professional school, and for students who hope to become teachers.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

</tbody>
</table>

1. Some courses required in this degree program may satisfy multiple requirements. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements and Track tabs for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

### Accelerated BA-BS/MS in Biology

Students who wish to pursue an accelerated non-thesis master’s degree in Biology (BA-BS/MS) will be allowed to apply up to nine (9) hours of coursework taken for graduate credit while enrolled as an undergraduate. An additional twenty-four (24) hours of graduate coursework will constitute the minimum number of credit hours for obtaining the non-thesis masters in the accelerated program.

### Early Start Program (Jointly with the College of Education and Human Development)

The Master of Arts in Teaching program in conjunction with the undergraduate programs in Chemistry, Biology, and Mathematics offers a comprehensive and professionally-focused program leading to an additional degree of MAT Middle or Secondary Education. This early start program enables superior students to receive two degrees within five years. A total of 148 credits are required for the dual degrees: 121 credits of coursework devoted toward the baccalaureate degree and 36 credits toward the MAT, with nine hours double-counted. This program will be available for students who are entering their junior year. They may take graduate level courses in the College of Education and Human Development (CEHD) in their 4th year of study.

The current qualifications for the joint degree program have been agreed upon by discipline faculty from the Colleges of Arts and Sciences and Education and Human Development. The criteria vary by
discipline. Students enrolling in the accelerated program will be non-
thesis students and must adhere to all policies pertaining to Graduate
Students. All interested students must submit an application to the
College of Education and Human Development (CEHD) MAT program and
meet the admission criteria.

Departmental Admission Requirements
Admission to the Bachelor of Science in Biology requires the following:

• Completion of BIOL 240, BIOL 242 and BIOL 244 with a grade of C or
better
• Completion of MATH 111 with a grade of C or better OR placement
into a mathematics course above the level of MATH 111 on the
basis of either the University of Louisville mathematics placement
examination or ACT/SAT score
• A minimum overall grade point average (GPA) of 2.0.

The Application for Major form can be found on the Arts & Sciences
Advising Center website: louisville.edu/artsandsciences/advising/apply.

General Education Requirements

*All degrees require the completion of the University-wide General
Education Program (link provided above). To complete the degree in
the minimum number of hours listed on the Overview tab, some hours
from the General Education Requirements must be satisfied by courses
defined by the unit and/or program. If additional hours taken within the
program also satisfy General Education requirements, students may need
to take additional electives to satisfy the minimum hours required for the
degree.

Completion of the second semester of a single foreign language;
hours will vary depending on language taken

1 Completion of the second semester of a single foreign language;
hours will vary depending on language taken

2 In addition to courses counted toward General Education

3 May be incorporated into other degree requirements

4 Fulfills General Education requirement.

Note: BIOL 102, BIOL 257, BIOL 258, BIOL 260, BIOL 261, BIOL 262 and BIOL 263, may not count toward electives in the major.
A maximum of 6 hours of undergraduate research or independent
study may count toward the major.

5 No electives are initially required in this program, however, students
who fulfill Quantitative Reasoning and Natural Science General
Education requirements with courses in the major or supporting
courses may have elective hours.
**BS in Biology Tracks**

**Track in Genetics/Subcellular (BIOLBS GEN)**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>

</table>

**Track Requirements**

Select 3-4 hours from the following:

- BIOL 404 Undergraduate Research - CUE
- BIOL 406 Undergraduate Research (WR) - CUE, WR
- BIOL 416 Biotechnology Methods - WR
- BIOL 415 Biology of the Cell - CUE, WR
- or BIOL 542 Gene Structure and Function - WR
- BIOL 540 Intermediary Metabolism
- or CHEM 445 Survey of Biochemistry

Select one of the following:

- BIOL 357 General Microbiology
- & BIOL 358 Microbiology Laboratory
- BIOL 400 Histology
- BIOL 443 Developmental Biology - CUE, WR
- BIOL 465 Principles of Physiology

**Supporting Courses**

Select one of the following sequences:

- 6-8
  - PHYS 221 Fundamentals of Physics I - S
  - & PHYS 222 Fundamentals of Physics II - S
  - & PHYS 223 Fundamentals of Physics Lab I - SL
  - & PHYS 224 Fundamentals of Physics Laboratory II - SL
  - or GEOS 301 Geology for Scientists and Engineers
  - or GEOS 367 Geomorphology

AND select one from the following:

- GEOG 355 Introduction to Remote Sensing
- GEOG 558 Introduction to Geographic Information Systems
- GEOS 363 Climate Science
- GEOS 365 Biogeography

**Minimum Total Hours**

23-27

**Track in Ecology (BIOLBS ECO)**

**Ecology Core Curriculum:**

- BIOL 401 Advanced Ecology
- BIOL 562 Ecosystems Ecology
- BIOL 563 Population and Community Ecology

Select at least one course from each of the following three categories:

**Plant Ecology**

- BIOL 300 Plant Biology - WR
- BIOL 304 Plant Taxonomy & Ecology - WR
- BIOL 435 Chemical Ecology - WR

**Animal Ecology**

- BIOL 308 Vertebrate Zoology
- BIOL 310 Animal Behavior
- BIOL 382 Entomology
- BIOL 514 Ornithology
- BIOL 515 Environmental Physiology

**Systems and Evolutionary Ecology**

- BIOL 372 Evolutionary Ecology of Disease
- BIOL 440 Global Change Ecology - CUE
- BIOL 560 Ecology of Urban and Suburban Landscapes
- BIOL 567 Conservation Biology

Select two additional courses from any of the three categories above

6

Biology electives at the 300 level or above

6

**Supporting Courses**

Select any two of the following options:

- 6-7
  - CHEM 342 Organic Chemistry II
  - & CHEM 344 Organic Chemistry Laboratory II
**Flight Plan**

---

**Notes:**
- Additional courses may be required to complete a degree.
- Some courses may have prerequisites that need to be met.
- Students are encouraged to consult with an academic advisor for specific course selection and planning.
- The list above is not exhaustive and may not include all potential courses available within the program.
### Business Administration in Accountancy (BSBA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Science in Business Administration in Accountancy (ACCYBSB)**

Unit: Business (BU) (http://www.louisville.edu/business)

Department: Accountancy (http://business.louisville.edu/accountancy)

#### Program Information

The mission of the School of Accountancy is to meet the needs of our metropolitan and regional constituents by providing flexible and varied learning experiences to enable our students to succeed in their careers; by producing scholarly works to disseminate knowledge to the business and academic communities and to enrich the learning experiences of our students; and by using our expertise to serve the community, the university, and the accounting profession.

The University of Louisville Accountancy Program is separately accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

¹ To complete the degree in the **minimum number of hours** listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements tab for specific coursework.

² College/School Requirements includes 6 hours of required courses that also cover General Education requirements.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Admission to the College of Business (p. 26) ensures admission to the BSB in Accountancy.

General Education Requirements

General Education Requirements (http://catalog.louisville.edu/undergraduate/general-education-requirements)¹

The following courses are required by the program and can satisfy the respective General Education Requirement:

- MATH 180 Elements of Calculus - QR
- or MATH 205 Calculus I - QR
- ECON 201 Principles of Microeconomics - SB
- or ECON 202 Principles of Macroeconomics - SB

All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

Accountancy Electives

Select one of the following: 3

- ACCT 353 | Accounting for Not-For-Profit Organizations | 3 |
- ACCT 401 | Advanced Accounting Problems          |       |
- ACCT 415 | Advanced Taxation                     |       |
- ACCT 420 | Advanced Managerial Cost Accounting   |       |
- Co-op in Accounting ⁶ |       | 3 |

Business Electives (not Accounting) 12

General Electives (Electives total assumes use of College requirements to satisfy General Education requirements)

Minimum Total Hours 42

Transfer students must take a minimum of 12 credit hours in their major within the College of Business.

Six hours of cultural diversity courses are required and may be incorporated within the degree program.

Culminating Undergraduate Experience (Graduation requirement)

Requirement fulfilled by completing:

- ACCT 411 | Advanced Accounting Information Systems - CUE | 3 |

¹ College/School Requirements include six hours of the General Education (3 hours Quantitative Reasoning and 3 hours Social & Behavioral Sciences). A courses satisfying the General Education Oral Communication requirement (COMM 111, COMM 112 or HON 214) are required as prerequisite for BUS 301, but is not included in the required coursework.

² If MATH 205 is taken, there will be 4 total hours of math, reducing the amount of elective credit required to complete the degree.

³ Completes Quantitative Reasoning General Education requirement

⁴ Completes 3 hours of Social & Behavioral Sciences General Education requirement.

⁵ The following will also meet the statistics requirement: MATH 109, PSYC 301, SOC 301, CJ 326

⁶ Co-op may be taken over more than one semester. No more than 3 credit hours may count towards the degree. Co-op hours may not be combined with other academic hours.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

**Business Administration in Computer Information Systems (BSBA)**

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Science in Business Administration in Computer Information Systems (CIS BSB)**

Unit: Business (BU) (http://business.louisville.edu)  
Department: Computer Information Systems (http://business.louisville.edu/cis)
Program Information

The primary mission of the degree program of the Computer Information Systems Department is to prepare the students to become the information technology professionals of the future for Louisville and the immediate region with curriculum that reflects the state of the art in information technology theory and practice.

1 To complete the degree in the **minimum number of hours** listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements tab for specific coursework.

2 College/School Requirements total includes 6 hours of required courses that also cover General Education requirements.

3 Program/major requirements include 15 hours in the track.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Admission to the College of Business (p. 26) ensures admission to the BSBA in Computer Information Systems.

1 College/School Requirements include six hours of the General Education (3 hours Quantitative Reasoning and 3 hours Social & Behavioral Sciences). A course that satisfies the General Education Oral Communication requirement (COMM 111, COMM 112 or HON 214) is required as prerequisite for BUS 301, but not included in the program requirements. Students who select PHIL 222 to satisfy the Ethics requirement will also satisfy 3 hours of the Arts & humanities requirement, and may require additional electives to complete the hours required for the degree.

2 If MATH 205 is taken, there will be 4 total hours of math, which may reduce the number of elective hours required to complete the degree.

3 Completes Quantitative Reasoning General Education requirement.

4 Completes 3 hours of Social & Behavioral Sciences General Education requirement.

5 The following will also meet the statistics requirement: MATH 109, PSYC 301, SOC 301, CJ 326

6 Co-operative Education is a curriculum requirement for six (6) months full time employment for six (6) hours of credit. Pass/Fail credit is given for approved COB co-op work experiences.

### Business Administration in Equine Business (BSBA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Science in Business Administration in Equine Business (EQINBSB)**

- Unit: Business (BU) (http://www.louisville.edu/business)
- Department: Equine (http://business.louisville.edu/equine)

---

### Program Information

The mission of the Equine Business Discipline is to motivate students and professionals in the industry to read, think and question; encourage development of the analytical, entrepreneurial, and management skills needed by the equine industry; inspire enthusiasm, develop leadership; respond to the equine industry’s dramatically changing economic environment by undertaking rigorous, meaningful research; disseminate to the industry through publications, seminars, workshops or state-of-the-art technology, research results and accumulated knowledge, and other business related skills.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.
To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements tab for specific coursework.

College/School Requirements total includes 6 hours of required courses that also cover General Education requirements. See Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements
Admission to the College of Business (p. 26) ensures admission to the BSB in Equine Business

*See table below for potential EQIN elective courses.
1. College/School Requirements include six hours of General Education (3 hours Quantitative Reasoning and 3 hours Social & Behavioral Sciences). A course satisfying the General Education Oral Communication requirement (COMM 111, COMM 112, COMM 115, HON 214, POLS 111, or WGST 203) is a prerequisite for BUS 301 but not included in the total hours for the degree. Students who take PHIL 222 to satisfy the Ethics requirement will also satisfy 3 hours of the Arts & Humanities requirement and may need additional electives to satisfy the total hours for the degree.

2. If MATH 205 is taken, there will be 4 total hours of math, which may reduce the electives required for the degree.

3. Completes Quantitative Reasoning General Education requirement (MATH 109, PSYC 301, SOC 301, CJ 326).

4. The following will also meet the statistics requirement: MATH 109, PSYC 301, or Calculus (MATH 205 is taken, there will be 4 total hours of math, which may reduce the electives required for the degree).

5. EQIN 398 Co-op in Equine II in Equine (2.0 GPA, effective Spring 2018); optional course

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

### To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)
University of Louisville

Business Administration in Finance (BSBA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Business Administration in Finance (FIN BSB)
Unit: Business (BU) (http://business.louisville.edu)
Department: Finance (http://business.louisville.edu/finance)

Program Information

The objective of the Finance major program is to provide our students with a competitive edge in their professional financial and managerial careers. Our majors are prepared, upon graduation to apply critical thinking and problem solving skills, either individually or in teams, in order to creatively and ethically solve problems in a global marketplace.

</tbody>
</table>

1 To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements tab for specific coursework.

2 College/School Requirements include 6 hours of courses that also cover General Education requirements. See the Degree Requirements tab for details.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Admission to the College of Business (p. 26) ensures admission to the BSB in Finance.

General Education Requirements

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>General Education Requirements (<a href="http://catalog.louisville.edu/undergraduate/general-education-requirements">http://catalog.louisville.edu/undergraduate/general-education-requirements</a>)</td>

</tr>
</thead>
<tbody>
<tr>
<td>FIN 475 Capstone Seminar in Finance - CUE</td>
<td></td>
<td></td>
<td>1</td>
</tr>
</tbody>
</table>

1. College/School Requirements include six hours of the General Education (3 hours Quantitative Reasoning and 3 hours Social & Behavioral Sciences). A course satisfying the General Education Oral Communication requirement (COMM 111, COMM 112 or HON 214) is a prerequisite for BUS 301, but not included in the degree requirements. Students who select PHIL 222 to satisfy the Ethics requirement will also satisfy 3 hours of the Arts & Humanities requirement, which may require additional electives to complete the degree.

2. Completes Quantitative Reasoning General Education requirements.

3. For students with strong high school mathematics backgrounds, and for students who intend to pursue graduate work in finance, MATH 205 and MATH 206 is recommended. MATH 206 may be taken as a General Elective.

4. If MATH 205/MATH 206 is taken, there will be 4-8 total hours of math, reducing the General Elective hours required to complete the degree.

5. Completes 3 hours of Social & Behavioral Sciences General Education requirements.

6. The following will also meet the statistics requirement: MATH 109, PSYC 301, SOC 301, CJ 326.

7. Co-operative Education is an elective curriculum option for up to six (6) hours of credit. Three hours of Co-op credit may count as the finance elective. If a student take a second 3-hour Co-op class, then it would count as a General Elective. Pass/Fail credit is given for approved COB co-op work experiences. Participation in the COB Co-op program is encouraged to strengthen the BSBA degree for enhanced student marketability.

Business Administration in Marketing (BSBA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Business Administration in Marketing (MKT BSB)
Unit: Business (BU) (http://business.louisville.edu)
Department: Marketing (http://business.louisville.edu/marketing)

Program Information
The purpose of the Department of Marketing is to be an intellectual force that benefits our constituents in the local, regional, national, and global community through our creative and entrepreneurial teaching, research, and service activities. Our constituents include: students, employers, alumni, the university community, public and private sector organizations, and professional and academic marketing groups. The Undergraduate Major and Minor in Marketing are specifically designed to prepare our students for the several career options available in Marketing and to enable them to succeed in the global marketplace.

4 Completes 3 hours of Social & Behavioral Sciences.
5 The following will also meet the statistics requirement: MATH 109, PSYC 301, SOC 301, CJ 326
6 Marketing majors are allowed to take up to six (6) co-op credits in the program as part of Marketing electives. These include MKT 397, MKT 398 and/or MKT 399. Pass/Fail credit is given for approved College of Business co-op work experiences.

Transfer students must take a minimum of 12 credit hours in their major within the College of Business.

Six hours of cultural diversity courses are required and may be incorporated within the degree program.

**NOTE:** All prerequisites must be followed.

Program Information

The Department of Economics provides a thorough education in economics to undergraduate students of the University for those with majors and minors in the department as well as students from other academic programs. A primary departmental objective is promoting the understanding of the economy through economic analysis of industry, non-profit institutions, and government at the micro- and macroeconomic levels. Students develop comprehension, reasoning, and quantitative skills through their study of domestic and global economic issues.

1 To complete the degree in the **minimum number of hours** listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements tab for specific coursework.

2 College/School Requirements includes 6 hours of required courses that also cover General Education requirements.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Admission to the College of Business (p. 26) ensures admission to the BS in Economics.

General Education Requirements

</thead>
<tbody>
<tr>
<td>General Education Requirements (<a href="http://catalog.louisville.edu/undergraduate/general-education-requirements">http://catalog.louisville.edu/undergraduate/general-education-requirements</a>)</td>
<td>31</td>
<td></td>
</tr>
</tbody>
</table>

The following courses are required by the program and can satisfy the respective General Education Requirement.

- MATH 180 Elements of Calculus - QR
- or MATH 205 Calculus I - QR
- ECON 201 Principles of Microeconomics - SB
- or ECON 202 Principles of Macroeconomics - SB

All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Business Economics (BUECBSE)

Unit: College of Business (BU) (http://www.louisville.edu/business)
Department: Economics (http://business.louisville.edu/economics)
Program/Major Requirements

**Economics Breadth**
- **ECON 301** Intermediate Microeconomics 3
- **ECON 302** Intermediate Macroeconomics 3
- **ECON 475** Senior Economics Seminar - CUE 3

**Electives in Economics** 15
**Electives in Business or Economics** 15
**Arts and Sciences Electives** 2 18

**Minimum Total Hours** 57

All course prerequisites must be followed.

Transfer students must take a minimum of 12 credit hours in the major within the College of Business.

Six hours of cultural diversity courses are required and may be incorporated within the degree program.

**Code** | **Title** | **Hours**
--- | --- | ---
ECON 475 | Senior Economics Seminar - CUE | 3

Culminating Undergraduate Experience (Graduation requirement)

**Requirement fulfilled by completing:**
- **ECON 475** Senior Economics Seminar - CUE

College/School Requirements include six hours of the General Education (3 hours Quantitative Reasoning and 3 hours Social & Behavioral Sciences). General Education Oral Communication courses (COMM 111, COMM 112 or HON 214) are not program requirements, but are required as prerequisite for BUS 301.

2 MATH 205 or MATH 180 must be taken as a required math course for all Economic majors. Their prerequisite(s) may be used as Arts and Sciences elective(s).

3 Completes Quantitative Reasoning General Education.

4 Completes 3 hours of Social & Behavioral Sciences.

5 The following also will meet the statistics requirement: MATH 109, PSYC 301, SOC 301, CJ 326

6 Students who satisfy General Education Requirements by courses defined by the program may require additional electives to complete the minimum hours for the degree.

Chemical Engineering (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Chemical Engineering (CHE BCH)
Unit: Speed School of Engineering (http://louisville.edu/speed/chemical)

Department: Chemical Engineering (https://louisville.edu/speed/chemical)

Program Information

Students specializing in Chemical Engineering will complete a program consisting of two semesters in Engineering Fundamentals and a further period of study in the Department of Chemical Engineering to complete the Bachelor of Science degree, followed by a fifth year in Graduate Studies for the Master of Engineering degree. This curriculum is designed as an integrated five-year program, with a cooperative education component, culminating in the Master of Engineering degree.

Degree Summary

</tbody>
</table>

1. Some courses required in this degree program satisfy multiple requirements. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements and/or Track tabs for specific coursework.

2. Any one course of PHIL 222, PHIL 225, PHIL 321, PHIL 323, or PHIL 328 satisfies the ChE Department Ethics Elective requirement. However, only PHIL 222 also counts for General Education content requirement in Arts and Humanities (AH).

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Acceptance into a Department requires that a student have a 2.25 GPA in the prescribed set of courses totaling 32 semester hours in Engineering Fundamentals. In addition, the student must be in good standing (university GPA ≥ 2.25).
PHIL 222 Contemporary Ethical Problems - AH (optional, see note below)  

All degrees require the completion of the University-wide General Education Program (link provided above). To complete the degree in the minimum number of hours listed on the Overview tab, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program.

While any one course of PHIL 222, PHIL 225, PHIL 321, PHIL 323, or PHIL 328 satisfies the CHE Department Ethics Elective requirement, only PHIL 222 also counts for the General Education content requirement in Arts and Humanities (AH).

CHEM 300-level or higher non-required CHE course

1. This course is a General Education requirement for the program; see louisville.edu/provost/ger/ for the listing, by academic year, of AH/ D1/D2/SB/SBH Electives which satisfy the University-wide General Education requirements.

2. Students completing ENGL 105 in lieu of ENGL 101 and ENGL 102 satisfy the General Education and Engineering Fundamentals requirements for Written Communication. However, an additional 3-hr Written Communication (WC) course is needed to satisfy program credit hour requirements. A current list of acceptable WC courses is at louisville.edu/speed/academics/advising.

3. Acceptance into a Department requires that a student have a 2.25 GPA in the prescribed set of courses totaling 32 semester hours in Engineering Fundamentals. In addition, the student must be in good standing (university GPA ≥ 2.25). In order to meet departmental graduation requirements a student may accumulate no more than two D grades in CHE-prefixed courses. Any additional D grades beyond two must be repeated, in accordance with policies on course repetition. If a student accumulates more than one D in any one year of the program, it is strongly recommended that one or more of those courses be repeated to earn a better grade before proceeding to the next course in the sequence. For this policy, grades of D-minus, D, or D+ are all considered to be D grades. Note also a student who accumulates more than one D in a CHE course will not be permitted to enter Graduate Studies to pursue the MEng degree program until any courses with D grades in excess of one are repeated and a better grade earned.

4. An undergraduate student must receive permission from the department chair in order to enroll in a 600-level course. The course chosen to fulfill this elective requirement cannot be used to satisfy any other program or degree requirements. Note that while some courses are acceptable as either Science or Advanced Chemistry Electives, a single course cannot be used to meet both requirements as the curriculum requires that these two electives constitute a combined total of six (6) credit hours.

5. The course chosen to fulfill this elective requirement cannot be used to satisfy other program or degree requirements. Note that while some courses are acceptable as either Science or Advanced Chemistry Electives, a single course cannot be used to meet both requirements as the curriculum requires that these two electives constitute a combined total of six (6) credit hours.

6. Any course of PHIL 222, PHIL 225, PHIL 321, PHIL 323, or PHIL 328 satisfies the ChE Department Ethics Elective requirement. However, only PHIL 222 also counts for the General Education content requirement in Arts and Humanities (AH).

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Chemistry (BA)
This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Chemistry (CHM BA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s) Department: Chemistry (http://louisville.edu/chemistry)

Program Information
The BA degree in chemistry is designed for students who want a more general education than is possible in the BS curriculum, while at the same time receiving a substantial background in chemistry. For several related fields, this program offers a broad pre-professional education.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

1. Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.
Specific coursework information can be found on the Degree Requirements tab.

**Early Start Program (Jointly with the College of Education and Human Development)**

The Master of Arts in Teaching program in conjunction with the undergraduate programs in Chemistry, Biology, and Mathematics offers a comprehensive and professionally-focused program leading to an additional degree of MAT Middle or Secondary Education. This early start program enables superior students to receive two degrees within five years. A total of 148 credits are required for the dual degrees: 121 credits of coursework devoted toward the baccalaureate degree and 36 credits toward the MAT, with nine hours double-counted. This program will be available for students who are entering their junior year. They may take graduate level courses in the College of Education and Human Development (CEHD) in their 4th year of study.

The current qualifications for the joint degree program have been agreed upon by discipline faculty from the Colleges of Arts and Sciences and Education and Human Development. The criteria vary by discipline. Students enrolling in the accelerated program will be non-thesis students and must adhere to all policies pertaining to Graduate Students. All interested students must submit an application to the College of Education and Human Development (CEHD) MAT program and meet the admission criteria.

**Departmental Admission Requirements**

Admission to the major in Chemistry requires completion of CHEM 202 (or equivalent course from another institution) with a grade of C or better. The Application for Major form can be found on the A&S Advising Center web site: http://louisville.edu/artsandsciences/advising/apply.

**General Education Requirements**

The following courses are required by the program and can satisfy the respective General Education Requirement:

- CHEM 201 General Chemistry I - S
- CHEM 207 Introduction to Chemical Analysis I - SL
- MATH 205 Calculus I - QR
- PHYS 221 Fundamentals of Physics I - S

*All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

Chemistry (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 17).

Bachelor of Science in Chemistry (CHM BS)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s) Department: Chemistry (http://louisville.edu/chemistry)

Program Information
The BS in Chemistry degree program is designed to prepare professional chemists for industrial, governmental, academic, and research positions. This curriculum meets approved requirements for professional training.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on “View my Academic Advisement Report” to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on “Create a What-if Advisement Report.”

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Civil Engineering (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Civil Engineering (CE BCE)
Unit: Speed School of Engineering (SS) (http://speed.louisville.edu/cms/content.php)
Department: Civil Engineering (https://louisville.edu/speed/civil)

Program Information
Students specializing in Civil Engineering will complete a program consisting of two semesters in Engineering Fundamentals and a further period of study in the Department of Civil & Environmental Engineering - nine semesters in Departmental Studies to complete the Bachelor of Science degree, followed by a fifth year in Graduate Studies for the Master of Engineering degree. This curriculum is designed as an integrated five-year program, with a cooperative education component, culminating in the Master of Engineering degree.

Some courses required in this degree program satisfy multiple requirements. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements and/or Track tabs for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements
Acceptance into a Department requires that a student have a 2.25 GPA in the prescribed set of courses totaling 27 semester hours in Engineering Fundamentals. In addition, the student must be in good standing (university GPA ≥ 2.25).

1. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements.

2. This course is a General Education requirement for the program; see louisville.edu/provost/get/ for the listing, by academic year, of AH/ D1/D2/SB/SBH Electives which satisfy the University-wide General Education requirements.

3. Students completing ENGL 105 in lieu of ENGL 101 and ENGL 102 satisfy the General Education and Engineering Fundamentals requirements for Written Communication. However, an additional 3-hr honors Written Communication (WC) course is needed to satisfy program credit hour requirements. A current list of acceptable WC courses is at louisville.edu/speed/academics/advising.

4. Acceptance into a Department requires that a student have a 2.25 GPA in the prescribed set of courses totaling 27 semester hours in Engineering Fundamentals. In addition, the student must be in good standing with (university GPA ≥ 2.25).
Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

**Communication (BA)**

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Communication (COMMBA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s) Department: Communication (http://comm.louisville.edu/department)

**Program Information**

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs).

The Department of Communication offers both a Bachelor of Arts degree and a Bachelor of Science degree in Communication.

A Bachelor of Arts degree and a Bachelor of Science degree are equally valued. Both offer the students who earn them the opportunity to continue their education at the master's degree level if they are so inclined. But, the two tracks do tend to hone different strengths. The coursework required for a Bachelor of Arts degree generally allows students to sharpen their oral and written communication skills. The demands of a Bachelor of Science degree include sharpening basic Communication skills as well as developing analytical skills relevant to Communication in a more in-depth manner.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

**Degree Summary**

Program/Major Requirements

Minimum Total Hours: 121

1. Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

2. 3 hours of College/School requirement is satisfied in Natural Science requirement in Program/Major supporting coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Admission to the BA in Communication requires:

1. Completion of COMM 201 with a minimum grade of C
2. A minimum cumulative grade point average of 2.0
3. A minimum grade point average of 2.0 on courses in the major

The application for major form can be found on the Arts and Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply

</table>

The following courses are required by the program and can satisfy the respective General Education Requirement:

- COMM 201 Introduction to Communication - SB

Some other courses approved as options for satisfying program requirements (e.g., MATH 109) may also satisfy General Education requirements.

¹All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

Social Science electives (other than Communication) with 12 hours at the 300 level or above

Minimum Electives

Minimum Total Hours

Only 40 hours in the major department may be applied toward the Bachelor of Arts degree. COMM 111, COMM 112, and COMM 115 are not counted in computing the 40 hours for a Communication major.

3 hours of College/School requirement is satisfied in Natural Science requirement in Program/Major supporting coursework.

At least 50 of the total minimum hours required must be at the 300 level or above.

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu/psp/psp/EMPLOYEE/EMPL/h/?tab=L_STUDENT_SERVICES) Once you're logged into your ULink account, click on the Student Services tab, then click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area. To create a What-if report, click on "Create a What-if Advisement Report."

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

Communication (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Communication (COMMBS)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s) Department: Communication (http://comm.louisville.edu/department)

Program Information

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs).

The Department of Communication offers both a Bachelor of Arts and a Bachelor of Science degree in Communication.

A Bachelor of Arts degree and a Bachelor of Science degree are equally valued. Both offer the students who earn them the opportunity to continue their education at the master’s degree level if they are so inclined. But, the two tracks do tend to hone different strengths. The coursework required for a Bachelor of Arts degree generally allows students to sharpen their oral and written communication skills. The demands of a Bachelor of Science degree include sharpening basic Communication skills as well as developing analytical skills relevant to Communication in a more in-depth manner.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs/index/bachelors/bachelor-of-science-in-communication).

Minimum Total Hours 121

1 Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

2 Includes 9-11 hours of electives

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Admission to the BS program in Communication requires:

1. Completion of COMM 201 with a minimum grade of C;
2. A minimum cumulative grade point average of 2.5; and
3. A minimum grade point average of 2.0 on courses in the major.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

### Computer Engineering and Computer Science (BS)

This program was approved for students entering the university in the Summer 2018—Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Science in Computer Engineering and Computer Science (CECSBCC)**

Unit: Speed School of Engineering (SS) (http://louisville.edu/speed)
Department: Computer Engineering and Computer Science (http://louisville.edu/speed/computer)

### Program Information

Students specializing in Computer Engineering & Computer Science will complete a program consisting of two semesters in Engineering Fundamentals and a further period of study in the Department of Computer Engineering & Computer Science - nine semesters in Departmental Studies to complete the Bachelor of Science degree, followed by a fifth year in Graduate Studies for the Master of Engineering degree. This curriculum includes a cooperative education component.

### Degree Summary

<td></td>
</tr>
</tbody>
</table>

All degrees require the completion of the University-wide General Education Program (link provided above). To complete the degree in the minimum number of hours listed on the Overview tab, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program.

### General Education Requirements

The following courses are required by the program and satisfy the respective General Education Requirement(s):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGR 101</td>
<td>Engineering Analysis I - QR</td>
<td>2</td>
</tr>
<tr>
<td>ENGL 101</td>
<td>Introduction to College Writing - WC</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 102</td>
<td>Intermediate College Writing - WC</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 201</td>
<td>General Chemistry I - S</td>
<td>3</td>
</tr>
<tr>
<td>COMM 111</td>
<td>Introduction to Public Speaking - OC</td>
<td>3</td>
</tr>
<tr>
<td>or COMM 112</td>
<td>Business and Professional Speaking - OC</td>
<td></td>
</tr>
<tr>
<td>HIST 101</td>
<td>History of Civilizations I - D2, SBH</td>
<td>3</td>
</tr>
</tbody>
</table>

Some courses required in this degree program satisfy multiple requirements. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements and Track tabs for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

### Departmental Admission Requirements

Acceptance into a Department requires that a student have a 2.25 GPA in the prescribed set of courses totaling 30 semester hours in Engineering Fundamentals. In addition, the student must be in good standing (university GPA ≥ 2.25).

### College/School Requirements

Select one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 101</td>
<td>History of Civilizations I - D2, SBH</td>
<td>3</td>
</tr>
</tbody>
</table>
Candidates for the Bachelor of Science degree must be in good standing (university GPA ≥ 2.25) and must attain a grade point average of at least 2.25 for all courses used to satisfy degree requirements.

**Criminal Justice (BS)**

![Criminal Justice](https://www.louisville.edu/justice)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Science in Criminal Justice (JA BS)**

Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)  
Department: Criminal Justice (http://louisville.edu/justice)

**Program Information**

*This program can be completed in a traditional classroom format or entirely online* (http://louisville.edu/online/programs).

The Bachelor of Science in Criminal Justice program is designed to prepare students for a career in the criminal justice system or for further education through a graduate program. Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Program/Major Requirements 1
Minimum Total Hours 121

1 Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BS-MS in Criminal Justice

The Accelerated BS-MS degree program in Criminal Justice is designed to allow an undergraduate student to earn graduate hours in Criminal Justice during Senior year. Students will be allowed to earn up to 9 hours that can be applied to both their undergraduate degree (BS) and their graduate degree (MS) in Criminal Justice.

These students could enroll in a combination of the following core courses from the MS program in Criminal Justice:

- CJ 621 The Criminal Justice System
- CJ 643 Theories of Crime and Delinquency
- CJ 649 Applied Statistics in Criminal Justice
- CJ 650 Research Methods

Students in the Accelerated BS-MS program in Criminal Justice may only apply their graduate credits earned as an undergraduate at UofL toward the degree program.

Students must apply during the first or second semester of the Junior year (usually when they have earned between 70-80 hours). Applicants must have at least a 3.0 GPA at the time of application.

Departmental Admission Requirements

There are no specific admission requirements for this degree plan.

The application for major form can be found on the A&S Advising Center web site: louisville.edu/artsandsciences/advising/apply.

Accelerated BS-MS in Criminal Justice

Students apply during the first or second semester of the Junior year (usually when they have earned between 70-80 hours), and must have a 3.0 GPA at the time of application.

Applicants must submit the following to the Graduate Admissions Office:

- A formal graduate application for admission to the School of Interdisciplinary & Graduate Studies, University of Louisville (http://louisville.edu/graduate)
- Application fee
- Two (2) letters of recommendation from individuals who can speak to the applicant’s academic or professional capabilities
- Scores on the General Test Section of the Graduate Record Examination (GRE)
- An original essay identifying the applicant’s background, professional interest and goals and the applicant’s motivation an potential for graduate work

</tbody>
</table>

The following courses are required by the program and can satisfy the respective General Education Requirement:

- CJ 200 Crime and Justice in the United States - SB (or CJ 201 or CJ 202)
- CJ 326 Quantitative Analysis - QR

*All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

Course | Title | Hours
--- | --- | ---

**Year 1**

Fall
- GEN 100 | Student Success Center Orientation or GEN 101 or Arts and Sciences Orientation | 1
- ENGL 101 | Introduction to College Writing - WC | 3
- CJ 200 | Crime and Justice in the United States - SB | 3
- General Education: Cardinal Core Natural Sciences - S | 3
- Foreign Language (students who take 3 credits will require additional elective credits) | 3-4
- General Elective | 3

**Year 2**

Fall
- CJ 202 | Corrections in the United States - SB | 3
- CJ 305 | Criminal Behavior | 3
- General Education: Cardinal Core Arts & Humanities US Diversity - AHD1 | 3
- General Education: Cardinal Core Natural Sciences with Lab - B | 4
- Foreign Language (students who take 3 credits will require additional elective credits) | 3-4

**Year 3**

Fall
- CJ 306 | Criminal Procedure | 3
- CJ 325 | Research Design | 3
- General Elective | 3
- General Elective | 3
- Humanities or Natural Science Elective | 3

**Year 4**

Fall
- CJ 326 | Quantitative Analysis - QR | 3
- CJ 360 | Juvenile Justice | 3
- Criminal Justice Elective | 3
- Humanities or Natural Science Elective | 3
- WR Elective | 3

1. Completion of the second semester of a single foreign language; hours will vary depending on language taken
2. In addition to courses counted toward General Education
3. May be incorporated into other degree requirements
4. Fulfills General Education requirement.
5. Fulfills WR requirement.
6. Criminal Justice electives must be from approved departmental list at the 300 level or above. A minimum of 15 hours must be in Criminal Justice, but may not exceed 30 hours
7. Students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.
Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Criminal Justice with a 3+3 Track to Law (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Criminal Justice with a 3+3 Track (JA BS 3+3)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: Criminal Justice (http://louisville.edu/justice)

Program Information
The College of Arts & Sciences and the Louis D. Brandeis School of Law have joined forces to create a 3+3 Accelerated Law programs that allow eligible students in the College of Arts & Sciences to begin law school in their senior year of undergraduate study. Students substitute undergraduate major requirements with the first 30 hours of law school, earning an undergraduate degree after their first year of law school and a Juris Doctor (JD) degree two years later.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Degree Summary

</tr>
</tbody>
</table>

1 Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements
There are no specific admission requirements for this degree plan, however a 3.5 GPA is recommended by the School of Law (see below).

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Admission to Law School

Admission to the 3+3 track does not guarantee admission to the law school. Students seeking admission to law school must complete a law school application and satisfy all of Brandeis’ admissions requirements, including its median GPA and LSAT expectations.

It is recommended that students planning to pursue this track have a minimum cumulative GPA of 3.5.

For more information on Brandeis and its admissions requirements, please contact the law school’s Office of Admissions. The office can also arrange for you to visit the law school and to sit in on a class.

Brandeis School of Law Office of Admissions (http://louisville.edu/law/admissions)

General Education Requirements

## Dental Hygiene (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Science in Dental Hygiene (DHU BS)**

Unit: School of Dentistry (SD)  
Program: Dental Hygiene  
(http://louisville.edu/dentistry/degrees/hygiene)

### Program Information

The Bachelor of Science in Dental Hygiene program is a four-year program with a Lower and Upper Division. Students complete the lower division requirements on the Belknap campus and then apply for competitive admission to the Dental Hygiene Upper Division which is housed in the School of Dentistry on the Health Sciences Center Campus.

Because the program is housed within a school of dentistry, hygiene students learn their skills in a context that emphasizes their important place in the dental health team.

</tbody>
</table>
Upper Division Professional Curriculum 66
Minimum Total Hours 120

Some courses required in this degree program satisfy multiple requirements. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements
Admission into the Dental Hygiene program is a tiered process: Lower and Upper Division. Students apply to the Lower Division to complete general education and program pre-requisite courses on the Belknap Campus. Students apply to the Upper Division to complete the professional component of the Bachelor of Science Dental Hygiene Degree Program on the HSC Campus.

Admission to the Lower Division does not guarantee admission to the Upper Division. Admission to the Upper Division is competitive.

Please refer to catalog pages containing admissions details for the Dental Hygiene program (p. 28).

Minimum Total Hours | 120-121

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

---

**Early Elementary Education (BS)**

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Science in Early Elementary Education (ERED BS)**
Unit: College of Education and Human Development (ED) (http://www.louisville.edu/edu)
Department: Early Childhood and Elementary Education (ECEE) (http://louisville.edu/education/departments/ecee)

**Program Information**

The BS in Early Elementary Education is designed to fulfill the requirements for Kentucky certification grades P-5, which includes Kindergarten. Early Elementary Education teachers are responsible for teaching a variety of subjects. Teacher education candidates must be able to demonstrate proficiency in the general areas of English, Mathematics, Science, and Social Sciences as well as the Arts and Humanities.

**Degree Summary**

</tbody>
</table>

Some courses required in this degree program may satisfy multiple requirements. To complete the degree in the **minimum number of hours** listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements and Track tabs for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

**Departmental Admission Requirements**

Admission to the Bachelor of Science in Early Elementary Education program requires the following:

- A minimum of 45 semester hours with a 2.75 or higher overall GPA
- B-minus or better in all EDTP and EDSP courses
- C or better in MATH 151 and MATH 152.
- Minimum test scores as required by the Education Professional Standards Board
- C or better in ENGL 102 (or equivalent) and in Oral Communication course
- Completion of Pre-Professional Courses
- Any other requirements as outlined in Application.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

**Economics (BA)**

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Arts in Economics (EC BA)**
Unit: College of Business (BU) (http://www.louisville.edu/business)
Department: Economics (http://business.louisville.edu/economics)

**Program Information**

The Department of Economics provides a thorough education in economics to UofL undergraduate students with majors and minors in the department as well as students from other academic programs. A primary departmental objective is promoting the understanding of the economy through economic analysis of industry, non-profit institutions, and government at the micro- and macroeconomic levels. Students develop comprehension, reasoning, and quantitative skills through their study of domestic and global economic issues.

Foreign Language: 12

Humanities or Natural Science (6 hours - 300+ Level): 9

Social Sciences (6 hours - 300+ Level): 12

Minimum Total Hours: 53

To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements (or decrease the indicated electives). See the Degree Requirements tab for specific coursework.

College/School Requirements total includes 6 hours of required courses that also satisfy General Education hours requirements.

Specific coursework information can be found on the Degree Requirements tab.

**Departmental Admission Requirements**

Admission to the College of Business (p. 26) ensures admission to the BA in Economics.

**General Education Requirements**

<table>

Electrical Engineering (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Electrical Engineering (EE BEE)
Unit: Speed School of Engineering (SS) (http://louisville.edu/speed)
Department: Electrical & Computer Engineering (http://louisville.edu/speed/electrical)

Program Information

Students specializing in Electrical Engineering will complete a program consisting of two semesters in Engineering Fundamentals and a further period of study in the Department of Electrical & Computer Engineering—nine semesters in Departmental Studies—to complete the Bachelor of Science degree, followed by a fifth year in Graduate Studies for the Master of Engineering degree. This curriculum is designed as an integrated five-year program, with a cooperative education component, culminating in the Master of Engineering degree.

Degree Summary

1 Some courses required in this degree program satisfy multiple requirements. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements and/or Track tabs for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Acceptance into a Department requires that a student have a 2.25 GPA in the prescribed set of courses totaling 30 semester hours in Engineering Fundamentals. In addition, the student must be in good standing (university GPA ≥ 2.25).

General Education Requirements

<table>
<thead>

</tbody>
</table>

The following courses are required by the program and satisfy the respective General Education Requirement(s):

- ENGR 101 Engineering Analysis I - QR
- ENGL 101 Introduction to College Writing - WC
- ENGL 102 Intermediate College Writing - WC
- CHEM 201 General Chemistry I - S
- PHYS 298 Introductory Mechanics, Heat and Sound - S
- COMM 111 Introduction to Public Speaking - OC
- or COMM 11 Business and Professional Speaking - OC
- CHEM 207 Introduction to Chemical Analysis I - SL

All degrees require the completion of the University-wide General Education Program (link provided above). To complete the degree in the minimum number of hours listed on the Overview tab, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements.

English (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in English (ENGLBA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: English (http://louisville.edu/english)

Program Information
The program for English majors is designed to lay a foundation for careers in writing, teaching, scholarship, and research, as well as for many other types of position in the business and professional world where skills in communication, creative, critical, or analytical writing, public relations, editorial skills, advertising, or the like are required.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements
Admission to the BA in English requires completion of ENGL 101 and ENGL 102 OR ENGL 105 or approved substitute; a minimum cumulative grade point average of 2.0; and a minimum grade point average of 2.0 in courses in the major.

The Application for Major form can be found on the Arts & Sciences Advising Center web site: louisville.edu/artsandsciences/advising/apply.

**Culminating Undergraduate Experience (Graduation requirement)**

Requirement fulfilled by completing one of the following:

- ENGL 506 Teaching of Writing - CUE, WR
- ENGL 507 The Teaching of Creative Writing - CUE, WR
- ENGL 541 Studies in Old and Middle English Literature - CUE
- ENGL 542 Studies in Tudor and Elizabethan Literature - CUE
- ENGL 543 Studies in Stuart and Commonwealth Literature - CUE
- ENGL 544 Studies in Restoration and Eighteenth-Century British Literature - CUE
- ENGL 545 Studies in British Literature of the Romantic Period - CUE
- ENGL 546 Studies in British Literature of the Victorian Period - CUE
- ENGL 547 Studies in Modern British and/or Irish Literature - CUE
- ENGL 548 Studies in Contemporary British and/or Irish Literature - CUE
- ENGL 549 Studies in Post-Colonial and/or Ethnic Literature - CUE
- ENGL 550 Studies in African American Literature - CUE
- ENGL 552 Special Topics in Literature in English
- ENGL 554 Women's Personal Narratives - CUE
- ENGL 555 Cooperative Internship in English Studies - CUE
- ENGL 561 Chaucer - CUE
- ENGL 562 Shakespeare - CUE
- ENGL 563 Milton - CUE
- ENGL 564 Selected Figures in American Literature - CUE
- ENGL 567 Post-Colonial Voices: Writing Experience in African Literature - CUE, WR
- ENGL 571 Studies in American Literature to 1865 - CUE
- ENGL 572 Studies in American Literature, 1865-1910 - CUE
- ENGL 573 Studies in American Literature, 1910-1960 - CUE
- ENGL 574 Studies in American Literature, 1960 - CUE
- ENGL 575 Genre Studies in African-American Literature - CUE
- ENGL 577 The Harlem Renaissance - CUE
- ENGL 581 Studies in Renaissance Drama - CUE
- ENGL 586 Studies in American Drama - CUE
- ENGL 591 History of Criticism: Plato to the New Criticism - CUE
- ENGL 595 Studies in Literature and Science - CUE
- ENGL 599 Advanced Studies in English - CUE, WR

1. Completion of the intermediate level of a single foreign language
2. In addition to courses counted toward General Education; 6 hours must be at 300 level or above
3. May be incorporated into other degree requirements
4. Major must not include more than 9 hours of creative or expository writing (ENGL 300 and ENGL 310 are not included in this category).
5. Students planning to major in English are strongly encouraged to take ENGL 300 in the first semester after completion of ENGL 102 or ENGL 105.
6. ENGL 300 and ENGL 310 do not count toward 300-level electives.

**NOTE:** Historical Distribution: Majors must complete a minimum of one course in each of the following historical periods:
- Pre-1700 literature: 1700-1900 literature: Post-1900 literature. This requirement may be met by any selection of courses from the groups below. Consult course descriptions for information on the time-period to which a specific course applies.

Only 40 hours in the major department may be applied toward the Bachelor of Arts degree. Courses in freshman composition (ENGL 101, ENGL 102, and ENGL 105) and ENGL 202 are not counted in computing the 40 hours for an English major.

At least 50 of the total minimum hours required must be at the 300 level or above.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

**French (BA)**

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Arts in French (FREN BA)**

Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)  
Department: Classical and Modern Languages (http://modernlanguages.louisville.edu)

**Program Information**

Beyond France, there are more than 50 countries in the world, spread over five continents, where French is regularly used in government, business and, of course, in everyday life.

The French program at UofL offers a wide range of classes from beginning French to classes in literature, culture, media, linguistics and film.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

### Accelerated BA/MA Program in French

Students interested in completing both the BA and the MA in French can do so in a combined program, which will allow them to apply up to nine (9) hours of undergraduate coursework taken at the 500-level towards the graduate degree. An additional twenty-one (21) hours of graduate coursework taken in addition will constitute the minimum number of credit hours for obtaining the non-thesis MA in French.

Full-time students working diligently will be able to obtain their MA in three semesters (summer not included) instead of four.

Program/coursework taken in addition will constitute the minimum number of coursework taken in addition will constitute the minimum number of credit hours for obtaining the non-thesis MA in French.

Students interested in completing both the BA and the MA in French can do so in a combined program, which will allow them to apply up to nine (9) hours of undergraduate coursework taken at the 500-level towards the graduate degree. An additional twenty-one (21) hours of graduate coursework taken in addition will constitute the minimum number of credit hours for obtaining the non-thesis MA in French.

Full-time students working diligently will be able to obtain their MA in three semesters (summer not included) instead of four.

The guidelines for this combined program are as follows:

1. Prior to applying for admission into the program, students must consult with the French Undergraduate advisor and the Director of Graduate Studies in French. They will then submit their application through the School of Interdisciplinary and Graduate Studies (http://graduate.louisville.edu/sigs/apply). It is strongly recommended that at least one of the supporting letters submitted with the application be from a French faculty member.

2. Students must:
   - a. Apply for admission to this program no later than the end of the Junior year (a total of 90 degree applicable hours)
   - b. Must have completed FREN 320, FREN 321, and FREN 322 with grades of B or better

3. Application will be reviewed by the French faculty. A 3.35 overall grade point average will be required for admission to the program.

4. Students may take a maximum of nine (9) hours for graduate credit, which will also apply to the requirements for the baccalaureate degree in French. The nine hours must be taken from the following list: FREN 523, FREN 524, FREN 531, and FREN 552.

5. Students who enroll in the accelerated program will be non-thesis students and must adhere to all policies pertaining to Graduate Studies in the Department of Classical and Modern Languages.

### Departmental Admission Requirements

Admission to the BA in French requires a minimum cumulative grade point average of 2.0 and a minimum grade point average of 2.0 on courses in the major.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Electives in Humanities disciplines, other than French, at 300 level or above 6
Minimum Electives: 23
Minimum Total Hours: 68

No more than 40 hours in French may be applied toward the Bachelor of Arts degree.

FREN 121-FREN 123 do not count toward the 40 hour maximum in French.

At least 50 of the total minimum hours required must be at the 300 level or above.

Completion of the intermediate level of a single foreign language

Additional 3 hours of Arts and Sciences programmatic requirement in Natural Sciences or Social Sciences is met in supporting coursework.

In addition to courses counted toward General Education; 6 hours must be at the 300 level or above

May be incorporated into other degree requirements

Fulfills WR requirement.

Majors in one foreign language may count courses at the 300 level or above in another foreign language toward this requirement.

Students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)
Geography, Applied (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Applied Geography (GEOGBS)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: Geography (http://louisville.edu/geography)

Program Information
Geographers investigate the character and possible associations between a subject and its environment. The Department of Geography and Geosciences educates students to view the world in a spatial and time-dependent context to determine relationships between people and their immediate and global environment.

The department offers Bachelor of Science degrees in four different concentrations:

- Environmental Analysis: designed for students who are interested in the environment and environmental sustainability.
- Geospatial Technologies: designed for students who are interested in developing geospatial technologies like GIS and remote sensing.
- Human and Cultural Dynamics: designed for students interested in the forces that shape human environments like population trends, sustainable development, ethnic and racial segregation, globalization and geopolitics.
- Urban Analysis: designed for students interested in the various processes that shape urban environments.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements
There are no specific admission requirements for this degree plan. The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Health and Human Performance (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Health and Human Performance (HHP BS)
Unit: College of Education and Human Development (http://www.louisville.edu/edu)
Department: Health & Sports Sciences (HSS) (http://louisville.edu/education/departments/hss)

Program Requirements
All students completing the Bachelor of Science degree in Health and Human Performance must complete the core classes, program requirements, and at least one track, along with appropriate related and supporting courses.

The core provides students with a background in the social, physiological and historical knowledge needed for specialized study in health and physical education. The track enables students to develop the professional knowledge, skills and dispositions to be effective professionals in teaching and related fields. Extensive school-based fieldwork experiences are integrated into the curriculum.

The goal of the degree program is to assist students in acquiring the skills, knowledge and dispositions to become effective and committed health and physical education teachers.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)
Some courses required in this degree program may satisfy multiple requirements. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements or reduce the number of available electives within a track. See the Degree Requirements and Track tabs for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

### Departmental Admission Requirements

Students must have completed a minimum of 45 credit hours and must have earned a minimum cumulative UofL grade point average of 2.25.

Students must have completed HSS 184 and HSS 320 with a grade of B-minus or higher, and HSS 202 with a grade of C or higher.

### General Education Requirements

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>General Education Requirements (<a href="http://catalog.louisville.edu/undergraduate/general-education-requirements">http://catalog.louisville.edu/undergraduate/general-education-requirements</a>)</td>
<td>31</td>
</tr>
</tbody>
</table>

The following course is required by the program and should be taken to fulfill the respective General Education Requirement:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HSS 293</td>
<td>Social and Psychological Dimensions of Physical Activity - SB</td>
<td></td>
</tr>
</tbody>
</table>

All degrees require the completion of the University-wide General Education Program (link provided above). To complete the degree in the minimum number of hours listed on the Overview tab, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program.

### College/School Requirements

</tbody>
</table>

Minimum Total Hours 88-90

A minimum of 123 hours with an overall GPA of 2.25 is required.

A minimum of 50 hours at the 300-level are required.

No grades of D will be accepted in HSS courses used to meet program core or track requirements.

1. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements (or decrease the listed electives).

2. BIOL 260 may be substituted

3. HSS 387 is required for the track in Exercise Science. HSS 310 is required for tracks in Physical Education Teacher Preparation and School Health Education, and Youth Sport Development.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."
Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

History (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in History (HISTBA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: History (http://louisville.edu/history)

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Program Information
The University of Louisville Department of History offers a comprehensive undergraduate program. Our course offerings include an extensive array of classes covering American, South American, European, African, South Asian, and Asian history. Courses are taught by an internationally recognized faculty. Students who choose to pursue a history major or minor receive extensive, one-on-one advising with the department’s faculty.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Accelerated BA/MA in History Program

History majors who are already thinking about pursuing an MA in history can speed up the process by applying some of their undergraduate credit hours toward a master’s degree. Students take three graduate level courses/nine hours (either 500-level with the additional graduate level assignments, or 600-level) while still an undergraduate, and then have those credits apply both toward the undergraduate degree and towards an eventual master’s degree from UofL.

Interested students should:

1. Complete an application for admission to the History Department’s Master of Arts program (including GRE scores, transcripts, two letters of recommendation, and a statement of purpose) no later than the end of their junior year.
2. Have a minimum overall grade point average (GPA) of 3.35, a history GPA of 3.35, and meet all other requirements for admission to the History Department’s Master of Arts program (including at least 21 hours of history courses).

Students must retain a 3.35 GPA in history during their senior year to remain in the program. Once admitted to the accelerated BA/MA program and starting the graduate work, students are expected to maintain a full graduate load of 9 credit hours.

Departmental Admission Requirements

Admission to the BA in History requires a minimum cumulative grade point average of 2.0 and a minimum grade point average of 2.0 on courses in the major.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Accelerated BA/MA in History Program

Interested students should apply for entry into the accelerated program no later than the end of their Junior year.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

History with 3+3 Track to Law (BA)
This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in History with a 3+3 Track to Law (HISTBA 3+3)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: History (http://louisville.edu/history)

Program Information
The College of Arts & Sciences and the Louis D. Brandeis School of Law have joined forces to create 3+3 Accelerated Law programs that allow eligible students in the College of Arts & Sciences to begin law school in their senior year of undergraduate study. Students substitute undergraduate major requirements with the first 30 hours of law school, earning an undergraduate degree after their first year of law school and a Juris Doctor (JD) degree two years later.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Degree Summary

<td>22</td>
</tr>
<tr>
<td></td>
<td>Program/Major Requirements</td>
<td>69</td>
</tr>
<tr>
<td></td>
<td>Minimum Total Hours</td>
<td>122</td>
</tr>
</tbody>
</table>

1 Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements
Admission to the BA in History requires a minimum cumulative grade point average of 2.0 and a minimum grade point average of 2.0 on courses in the major. A 3.5 GPA is recommended by the School of Law (see below).

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Admission to Law School
Admission to the 3+3 track does not guarantee admission to the law school. Students seeking admission to law school must complete a law school application and satisfy all of Brandeis’ admissions requirements, including its median GPA and LSAT expectations.

It is recommended that students planning to pursue this track have a minimum cumulative GPA of 3.5.

For more information on Brandeis and its admissions requirements, please contact the law school’s Office of Admissions. The office can also arrange for you to visit the law school and to sit in on a class.

Brandeis School of Law Office of Admissions (http://louisville.edu/law/admissions)

General Education Requirements

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>General Education Requirements (<a href="http://catalog.louisville.edu/undergraduate/general-education-requirements">http://catalog.louisville.edu/undergraduate/general-education-requirements</a>)</td>
<td>31</td>
</tr>
</tbody>
</table>

The following courses are required by the program and can satisfy the respective General Education Requirement:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 101</td>
<td>History of Civilizations I - D2, SBH (additional required courses also satisfy the SBH &amp; D2 requirements)</td>
<td>4</td>
</tr>
<tr>
<td>HIST 211</td>
<td>American History I - D1, SBH (additional required courses also satisfy the SBH &amp; D1 requirements)</td>
<td>6</td>
</tr>
</tbody>
</table>

Courses above satisfy the SBH, D1 and D2 requirements; students will need to complete an additional course designated SB or SBH to complete the Social & Behavioral Sciences Requirement.

*All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

Humanities (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Humanities (HUM BA)

Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: Comparative Humanities (http://louisville.edu/humanities)
Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Program Information

The Department of Comparative Humanities facilitates the discovery, synthesis and application of ideas across disciplines. The department serves as an umbrella for collaborative efforts among the disciplines. The department offers a program as well as interdisciplinary humanities courses that encourage students to examine texts, creative expression and ideas within a cultural context. Students also explore the implication of their studies by learning to shape their own perceptions, ideas and values. Department advisers and professors work with each humanities major to create individualized programs that reflect the student’s goals and interests.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BA/MA in Humanities

Students who wish to pursue an accelerated master’s degree will be allowed to apply to the baccalaureate degree up to 9 credit hours of coursework taken for graduate credit. Twenty-one (21) additional credit hours of graduate coursework will constitute the minimum number of credit hours for obtaining the MA.

Students must apply no later than the end of the junior year for admission to the accelerated program. A minimum overall grade point average and major grade point average of 3.35 will be required for admission to and for retention in the program.

The guidelines for the Accelerated BA/MA in Humanities are as follows:

- Student may take a maximum of 9 credit hours for graduate credit, which will also apply to the requirements for the baccalaureate degree in Humanities.
- The accelerated BA/MA in Humanities will be offered for the Interdisciplinary Humanities Concentration and for the Linguistics Concentration, but not for the Concentration in Humanities and Civic Leadership.
- Students who enroll in the accelerated BA/MA in Humanities may elect the thesis or non-thesis option, which ever is appropriate to the concentration and course of study.
- All students in the program will take either HUM 609 or HUM 610 to fulfill the Methodology requirement.
- All requirements remain the same, including the foreign language requirement.

Departmental Admission Requirements

Admission to the BA in Humanities requires completion of 15 semester hours and a minimum cumulative grade point average of 2.0.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Accelerated BA/MA in Humanities

- Students must apply no later than the end of the junior year for admission to the accelerated program.
- A minimum overall grade point average and major grade point average of 3.35 will be required for admission to and for retention in the program.
- Student must complete the GRE and fill out the Humanities Division application for the accelerated BA/MA in Humanities.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Individualized Major (Liberal Studies) (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts Individualized Major (LBSTBA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: Liberal Studies (http://louisville.edu/liberalstudies)

Program Information
The Individualized Major (formerly Liberal Studies) program offers eligible students an opportunity to design an individualized major, through a multi-disciplinary curriculum. Once the student has identified a goal or interest, the Liberal Studies Program advisor offers guidance in creating a personalized degree program.

Completion of this degree requires work to be submitted for the program’s Learning Outcomes Measurement.

</tr>
</tbody>
</table>

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements
Eligibility criteria and information regarding admission into the major may be found at louisville.edu/liberalstudies/prospective-majors/admission-to-liberal-studies.

Requirements include the completion of 45 credit hours and a minimum 2.75 cumulative grade point average on all college work. Proposals must be approved by the program director prior to admission into the major.

General Education Requirements

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>

</thead>
<tbody>
<tr>
<td></td>
<td>General Education Requirements (<a href="http://catalog.louisville.edu/undergraduate/general-education-requirements">http://catalog.louisville.edu/undergraduate/general-education-requirements</a>)</td>
<td>31</td>
</tr>
</tbody>
</table>

All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

<td></td>
</tr>
<tr>
<td></td>
<td>LBST 401  Senior Capstone Project - CUE</td>
<td></td>
</tr>
</tbody>
</table>

1. Completion of the intermediate level of a single foreign language
2. May be incorporated into other degree requirements
3. Fulfills one WR requirement
4. General Education courses may not be counted in the concentrations, except in cases where a General Education requirement course is a departmental requirement for completion of the minor.
5. General Education courses may not be cross-counted for the concentrations, except in cases where a General Education course is a departmental requirement for completion of the minor. (e.g., PSYC 201 may count, in an Individualized Major curriculum, toward the General Education SB requirement and also within a Psychology minor).
6. Students identifying Middle Grades Education as their goal may substitute a state-approved "Teaching Field" for the department minor. If two teaching fields are selected, a third concentration is unnecessary. See program advisor for additional information.
7. Students pursuing an Individualized Major may include course credits from University of Louisville units outside the College of Arts and Sciences. These include the Schools of Business, Education and Human Development, Engineering, Law, Music, Nursing, Public Health and Information Sciences and Social Work. No more than 30 hours earned outside the College of Arts and Sciences may be applied to the Individualized Major.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

**To create either report:**

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."
Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Industrial Engineering (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Industrial Engineering (IE BIE)
Unit: Speed School of Engineering (SS) (http://louisville.edu/speed)
Department: Industrial Engineering (http://louisville.edu/speed/industrial)

Program Information
Students specializing in Industrial Engineering will complete a program consisting of two semesters in Engineering Fundamentals and a further period of study in the Department of Industrial Engineering—ten semesters in Departmental Studies—to complete the Bachelor of Science degree, followed by a fifth year in Graduate Studies for the Master of Engineering degree. This curriculum is designed as an integrated five-year program, with a cooperative education component, culminating in the Master of Engineering degree.

General Education Requirements

The following courses are required by the program and satisfy the respective General Education Requirement(s):

- **ENGR 101** Engineering Analysis I - QR
- **ENGL 101** Introduction to College Writing - WC
- **ENGL 102** Intermediate College Writing - WC
- **CHEM 201** General Chemistry I - S
- **CHEM 207** Introduction to Chemical Analysis I - SL
- **PHYS 298** Introductory Mechanics, Heat and Sound - S
- **COMM 112** Business and Professional Speaking - OC

All degrees require the completion of the University-wide General Education Program (link provided above). To complete the degree in the **minimum number of hours** listed on the Overview tab, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements.

¹ Some courses required in this degree program satisfy multiple requirements. To complete the degree in the **minimum number of hours listed**, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements and/or Track tabs for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Acceptance into a Department requires that a student have a 2.25 GPA in the prescribed set of courses totaling 30 semester hours in Engineering Fundamentals. In addition, the student must be in good standing (university GPA ≥ 2.25).

Minimum Total Hours 38

A student may accumulate no more than two D-minus, D, or D+ grades in IE prefixed courses to graduate with a baccalaureate degree. For any additional D-minus, D, or D+ grades beyond two, the student must repeat the course to earn a better grade.

Candidates for the Bachelor of Science degree must be in good standing with the university (university GPA ≥ 2.25). For any additional D-minus, D, or D+ grades beyond two, the student must repeat the course to earn a better grade.

To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements.

This course is a General Education requirement for the program; see louisville.edu/provost/ger/ for the listing, by academic year, of AH/D1/D2/SB/SBH Electives which satisfy the University-wide General Education requirements.

Students completing ENGL 105 in lieu of ENGL 101 and ENGL 102 satisfy the General Education and Engineering Fundamentals requirements for Written Communication. However, an additional 3-hr Written Communication (WC) course is needed to satisfy program credit hour requirements. A current list of acceptable WC courses is at louisville.edu/speed/academics/advising.

Acceptance into a Department requires that a student have a 2.25 GPA in the prescribed set of courses totaling 30 semester hours in Engineering Fundamentals. In addition, the student must be in good standing with the university (university GPA ≥ 2.25).

### Latin American and Latino Studies (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Arts in Latin American and Latino Studies (LALSBA)**

Unit: College of Arts and Sciences (AS) ([http://www.louisville.edu/a-s](http://www.louisville.edu/a-s))

Program: Latin American and Latino Studies ([http://louisville.edu/latinamericanstudies](http://louisville.edu/latinamericanstudies))

### Program Information

Latin American and Latino Studies at the University of Louisville is an interdisciplinary program that promotes an understanding and appreciation for the diverse cultures of Latin America and Latino communities in the United States, with the ultimate objective of preparing students to become engaged citizens in our global society.

Completion of this degree requires work to be submitted for the program’s Learning Outcomes Measurement. For details, contact the LALS Director.

### Degree Summary

</tr>
</tbody>
</table>

1. Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

### Degree Audit

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

**To create either report:**

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. ([https://ulink.louisville.edu](https://ulink.louisville.edu))

### Departmental Admission Requirements

Admission to the BA in Latin American and Latino Studies requires a minimum cumulative grade point average of 2.0 and a minimum grade point average of 2.0 on courses in the major.

The Application for Major form can be found on the Arts & Sciences Advising Center website: [louisville.edu/artsandsciences/advising/apply](http://louisville.edu/artsandsciences/advising/apply).
## General Education Requirements

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>General Education Requirements (<a href="http://catalog.louisville.edu/undergraduate/general-education-requirements">link</a>)</td>
<td>31</td>
</tr>
</tbody>
</table>

The following courses are required by the program and can satisfy the respective General Education Requirement:

- LALS 310 Introduction to Latin American Studies - D2, SB
- LALS 311 Introduction to Latino Studies - D1, SB

LALS 310 and LALS 311 satisfy 3 hours of SB requirement as well as the D1 & D2 requirements. Certain approved electives (e.g. COMM 350 or TA 365) may also satisfy general education requirements.

All degrees require the completion of the University-wide General Education Program ([link provided above](http://catalog.louisville.edu/undergraduate/general-education-requirements)). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

**Flight Plan**

**Year 1**

**Fall**

- GEN 100  
  1. Student Success Center Orientation
  or GEN 101
  2. or Arts and Sciences Orientation
- ENGL 101  
  3. Introduction to College Writing - WC
- General Education: Cardinal Core Quantitative Reasoning - QR
- Spanish or Portuguese Language I
- General Elective

**Year 2**

**Fall**

- General Education: Cardinal Core Arts & Humanities - AH
- General Education: Cardinal Core Social & Behavioral Sciences Historical Perspective - SBH
- General Education: Cardinal Core Oral Communication - OC

---

1. Completion of the intermediate level of a single foreign language
2. In addition to courses counted toward General Education; 6 hours must be at 300 level or above
3. May be incorporated into other degree requirements
4. Fulfills WR requirement
5. 6 of the 9 hours must be at the 300 level or above
6. Students also completing a second major in any of the areas listed below may use no more than 6 hours in that Department to fulfill this LALS requirement.
7. Select three courses from above not used to meet the Humanities or Social Science requirements.
8. Other than LALS courses, in addition to courses used to complete the College Programmatic Requirements.
9. Substitutions may be approved by the LALS Director. Consult the LALS Advisor about Special Topics Courses and Independent Studies that may fulfill requirements for the major. Special Topics Courses that may have LALS content include:
10. Students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.

Bachelor of Arts in Mathematics (MATHBA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: Mathematics (http://www.math.louisville.edu)

The Bachelor of Arts in Mathematics is designed for students wishing to obtain a broad yet substantial background in mathematics as well as general education. The Bachelor of Arts covers a wide variety of topics such as algebra, geometry, and probability. This breadth is particularly well-suited for students preparing for secondary certification in mathematics.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

1 Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BA/BS-MA Option in Mathematics

Students must apply for admission to the program no later than the end of the junior year and must have completed MATH 205, MATH 206, MATH 301, and MATH 325, or equivalent courses, prior to application.

Applicants must have a minimum overall GPA of 3.5, and minimum GPA of 3.66 in mathematics courses. As part of the combined degree, students must complete MATH 405 and at least four (4) of the following: MATH 501, MATH 502, MATH 521, MATH 522, MATH 561, MATH 562,
Early Start Program (Jointly with the College of Education and Human Development)

The Master of Arts in Teaching program in conjunction with the undergraduate programs in Chemistry, Biology, and Mathematics offers a comprehensive and professionally-focused program leading to an additional degree of MAT Middle or Secondary Education. This early start program enables superior students to receive two degrees within five years. A total of 148 credits are required for the dual degrees: 121 credits of coursework devoted toward the baccalaureate degree and 36 credits toward the MAT, with nine hours double-counted. This program will be available for students who are entering their junior year. They may take graduate level courses in the College of Education and Human Development (CEHD) MAT program in their 4th year of study.

The current qualifications for the joint degree program have been agreed upon by discipline faculty from the Colleges of Arts and Sciences and Education and Human Development. The criteria vary by discipline. Students enrolling in the accelerated program will be non-thesis students and must adhere to all policies pertaining to Graduate Students. All interested students must submit an application to the College of Education and Human Development (CEHD) MAT program and meet the admission criteria.

Departmental Admission Requirements

Admission to the BA in Mathematics requires the following:

- enrollment in a mathematics course beyond MATH 205;
- a minimum cumulative grade point average of 2.0; and
- a minimum grade point average of 2.0 on all courses in the major.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Accelerated BA/BS-MA Option in Mathematics

Students must apply for admission to the program no later than the end of the junior year and must have completed MATH 205, MATH 206, MATH 301, and MATH 325, or equivalent courses, prior to application.

Mathematics electives chosen in consultation with departmental advisor

Supporting Courses

Select one of the following sequences: 7-10

**Sequence One:**

- PHYS 295 Introductory Laboratories I - SL
- PHYS 296 Introductory Laboratories II - SL
- PHYS 298 Introductory Mechanics, Heat and Sound - S
- PHYS 299 Introductory Electricity, Magnetism and Light

**Sequence Two:**

- CHEM 201 General Chemistry I - S
- CHEM 202 General Chemistry II - S
- CHEM 207 Introduction to Chemical Analysis I - SL
- CHEM 208 Introduction to Chemical Analysis II - SL
- CHEM 209 Introduction to Chemical Analysis III

**Sequence Three:**

- BIOL 240 Unity of Life - S
University of Louisville

BIOL 242  Diversity of Life
BIOL 244  Principles of Biology Laboratory - SL 4

Elective in second science discipline 3
Electives in Natural Sciences, other than Mathematics 5-8

Electives
Minimum Electives 5 14
Minimum Total Hours 68

Only 40 hours in the major department may be applied toward the Bachelor of Arts degree.

Mathematics courses at the 100 level do not count toward hours in the major.

At least 50 of the total minimum hours required must be at the 300 level or above.

A minimum of 9 hours in courses numbered 311 or higher must be successfully completed in the Department of Mathematics at the University of Louisville.

</tbody>
</table>

1. Completion of the intermediate level of a single foreign language
2. In addition to courses counted toward General Education; 6 hours must be at 300 level or above
3. May be incorporated into other degree requirements
4. Fulfills General Education requirement.
5. Students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.

Flight Plan

Course | Title                                               | Hours |
-------|-----------------------------------------------------|-------|

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."
Click here to run a Degree Audit report, or create a What-if report. ([https://ulink.louisville.edu](https://ulink.louisville.edu))

Mathematics (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Mathematics (MATHBS)
Unit: College of Arts and Sciences (AS) ([http://www.louisville.edu/a-s](http://www.louisville.edu/a-s))
Department: Mathematics ([http://www.math.louisville.edu](http://www.math.louisville.edu))

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

1. Some courses required in this degree program satisfy multiple requirements. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements and/or Track tabs for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

### Accelerated BA/BS-MA Option in Mathematics

Students must apply for admission to the program no later than the end of the junior year and must have completed MATH 205, MATH 206, MATH 301, and MATH 325, or equivalent courses, prior to application.

Applicants must have a minimum overall GPA of 3.5, and minimum GPA of 3.66 in mathematics courses. As part of the combined degree, students must complete MATH 405 and at least four (4) of the following: MATH 501, MATH 502, MATH 521, MATH 522, MATH 561, MATH 562, or MATH 581, including at least one sequence from among these courses.

The student may take a maximum of nine (9) credit hours for graduate credit, which will also apply to the requirements for the baccalaureate degree in Mathematics. All 600-level courses numbered 689 or below qualify, as do 500-level courses when completed in accord with the stipulations for graduate credit outlined in the syllabus.

### Early Start Program (Jointly with the College of Education and Human Development)

The Master of Arts in Teaching program in conjunction with the undergraduate programs in Chemistry, Biology, and Mathematics offers a comprehensive and professionally-focused program leading to an additional degree of MAT Middle or Secondary Education. This early start program enables superior students to receive two degrees within five years. A total of 149-152 credits are required for the dual degrees: 122-125 credits of coursework devoted toward the baccalaureate degree and 36 credits toward the MAT, with nine hours double-counted. This program will be available for students who are entering their junior year. They may take graduate level courses in the College of Education and Human Development (CEHD) in their 4th year of study.

The current qualifications for the joint degree program have been agreed upon by discipline faculty from the Colleges of Arts and Sciences and Education and Human Development. The criteria vary by discipline. Students enrolling in the accelerated program will be non-thesis students and must adhere to all policies pertaining to Graduate Students. All interested students must submit an application to the College of Education and Human Development (CEHD) MAT program and meet the admission criteria.

### Departmental Admission Requirements

Admission to the BS in Mathematics requires enrollment in a mathematics course beyond MATH 205; a minimum cumulative grade point average of 2.0; and a minimum grade point average of 2.0 on all mathematics course beyond MATH 205, including at least one sequence from among these courses.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

### General Education Requirements

<table>
<thead>

<tbody>
<tr>
<td></td>
<td>General Education Requirements (<a href="http://catalog.louisville.edu/undergraduate/general-education-requirements">http://catalog.louisville.edu/undergraduate/general-education-requirements</a>)</td>
<td>31</td>
</tr>
</tbody>
</table>

The following courses are required by the program and satisfy the respective General Education Requirement(s):

- MATH 205 Calculus I - QR
- PHYS 298 Introductory Mechanics, Heat and Sound - S
- or CHEM 201 General Chemistry I - S
- or BIOL 240 Unity of Life - S
- PHYS 295 Introductory Laboratories I - SL
- or CHEM 201 Introduction to Chemical Analysis I - SL
- or BIOL 244 Principles of Biology Laboratory - SL

All degrees require the completion of the University-wide General Education Program (link provided above). To complete the degree in
the minimum number of hours listed on the Overview tab, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program.

</table>

**Minimum Total Hours** 64-65

1. Mathematics courses at the 100 level do not count toward hours in the major.
2. A minimum of 12 hours in courses numbered 311 or higher must be successfully completed in the Department of Mathematics at the University of Louisville.
3. Fulfills General Education requirement
4. Students must be admitted to the College of Business prior to enrollment in these courses

Only 60 hours in the major department may be applied toward the Bachelor of Science degree.

At least 50 of the total minimum hours required must be at the 300 level or above.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

**Mechanical Engineering (BS)**

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Science in Mechanical Engineering (ME BMC)**

Unit: Speed School of Engineering (SS) (http://speed.louisville.edu/cms/content.php)

Department: Mechanical Engineering (http://louisville.edu/speed/mechanical)

**Program Information**

Students specializing in Mechanical Engineering will complete a program consisting of two semesters in Engineering Fundamentals and a further period of study in the Department of Mechanical Engineering—ten semesters in Departmental Studies—to complete the Bachelor of Science degree, followed by a fifth year in Graduate Studies for the Master of Engineering degree. This curriculum is structured as an integrated five-
year program, with a cooperative education component, culminating in the Master of Engineering degree.

Degree Summary

<table>

</tr>
</thead>
<tbody>
<tr>
<td>ENGR 101</td>
<td>Engineering Analysis I - QR</td>
<td>31</td>
</tr>
</tbody>
</table>

Some courses required in this degree program satisfy multiple requirements. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree Requirements and/or Track tabs for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Acceptance into a Speed School academic department requires that a student have a 2.25 GPA in the prescribed set of courses totaling 30 semester hours in Engineering Fundamentals. In addition, the student must be in good standing (university GPA ≥ 2.25/4.0).

General Education Requirements

Minimum Total Hours 125

¹ Some courses required in this degree program may satisfy multiple requirements. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements. See the Degree and Track Requirements tabs for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Admission requirements for this program include the following:

- Minimum of 45 semester hours completed
- 2.75 or higher overall GPA with a 3.0 or higher overall GPA in EDTP 107 and EDTP 201
- Minimum test scores as required by the Education Professional Standards Board
- Grade of C or better in ENGL 102 (or equivalent)
- Grade of C or better in Oral Communication course
- Other requirements as outlined in Application Packet.

General Education Requirements

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>

<td>General Education Requirements</td>
<td>31</td>
</tr>
</tbody>
</table>

The following course is required by all tracks in the degree program and satisfies the respective General Education Requirement(s):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDTP 201</td>
<td>The Teaching Profession - SB</td>
<td></td>
</tr>
</tbody>
</table>

Please see the Track Requirements to determine additional courses that will satisfy both a major and General Education requirement. These courses should be taken to fulfill the respective General Education Requirement.

All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

Middle/Secondary Education (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Middle and Secondary Education

Unit: College of Education and Human Development (http://louisville.edu/education) (ED)

Department: Middle and Secondary Education (http://louisville.edu/education/departments/mise) (MISE)

Program Information

The Department of Middle and Secondary Education, in partnership with area schools, prepares teachers to be exemplary professional practitioners and scholars who are strong in their content knowledge as well as in effective research-informed teaching strategies. It is through the preparation of the strongest teachers that we seek to continually improve the quality of life for all in our community.

The Department of Middle and Secondary Education (MISE) offers a wide variety of programs and degrees for those interested in becoming a teacher (initial certification).
### Mid-Point Assessment Prior to Student Teaching

Satisfactory dispositions assessment; Satisfactory mid-point teacher performance assessment (TPA); Positive recommendation from Middle/Secondary Program Committee; Completion of required core and methods courses; Completion of each methods course with a 2.0 or better. Electronic documentation of 200 hours of diverse and approved field experiences.

70-80

### Degree Assessment

2.0 or higher in Student Teaching; satisfactory teacher performance assessment (TPA); 2.50 GPA in content area; 3.0 GPA in Professional Core.

### Certification Assessment

Passing scores on required PRAXIS exams; satisfactory dispositions assessment.

### Track in Chemistry (Grades 8-12)

Electives 10

Minimum Total Hours 70

1. Completes 4 hrs. of Gen Ed S and SL requirements
2. Completes 3 hrs. of Gen Ed S requirement
3. Choose from Biology, Geosciences, Mathematics, Physics, or Chemistry as approved by advisor.
4. Completes 3 hrs. of Gen Ed MATH requirement
5. Completes 3 hrs. of Gen Ed SB – History requirement
6. Completes 3 hrs. of Gen Ed SB requirement
7. Courses listed plus a minimum of nine additional hours from Biology (BIOL 240/BIOL 242/BIOL 244), Mathematics, or Physics (PHYS 298/PHYS 295 and PHYS 299/PHYS 296) as approved by advisor.
8. At least nine credit hours must be earned at the 300 level or above.
9. Courses must be approved by advisor.
10. MATH 180 may be substituted.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

### Music & New Media (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Arts in Music with Emphasis in Music & New Media (MUSIBA_MNM)**

Unit: Music (http://louisville.edu/music)

### Program Information

The Music & New Media program provides training in digital media concepts and skills necessary for the creation and production of sound
for public performance, music albums, digital video, internet applications, interactive media, cinema, commercials, video games, theater, dance, and software development.

Students have the flexibility in the curriculum to focus on their own goals and interests after completing the minimum requirements of the program in audio engineering, acoustics, sound design, electronic music, sound analysis, video generation, sound art, and creative new media projects. Students design and realize a Capstone project with direct faculty oversight. These projects reflect the student's own focus, interests, and goals.

The program is designed to prepare students for careers in music and new media arts that emphasize presentation, performance, and research with technology, including audio and video production for multimedia communications, music recording, audio and video post-production, video art, sound engineering, sound design for film and gaming, sound art, sound and image research, public performance, and computer music composition.

### Departmental Admission Requirements

Students in this unit are admitted directly into their degree program.

### General Education Requirements

The following courses are required by this program and should be used to fulfill the respective General Education Requirement:

- **PAS 214** African-American Music - AH, D1
- **ANTH 205** Music in World Cultures - D2, SB

All degrees require the completion of the University-wide General Education Program ([link provided above](http://catalog.louisville.edu/undergraduate/general-education-requirements)). The following courses are required by this program and should be used to fulfill the respective General Education Requirement:

Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 Theory IV or Analysis (MUS 347 Analysis I for BA General, MUS 349 Jazz Analysis for BA Jazz Studies, MUS 350 Analysis of Electronic Media for BA Music & New Media); MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance,
with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional Gen Ed courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies, music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the Undergraduate Student Handbook.

1. Students are required to take PAS 214 African-American Music - AH, D1 and ANTH 205 Music in World Cultures - D2, SB.
2. MUH courses may not be taken to fulfill any General Education requirement.
3. Students who do not pass the computer-based Fundamentals Test prior to beginning of the fall semester are required to enroll in MUS 91 Fundamentals of Music I for 0 credit concurrently with MUS 141 Theory I. Students who do not pass Theory I (MUS 141), and students who enter the School of Music in January and do not place into MUS 142 Theory II, must enroll in MUS 92 Musicianship I for the spring semester. Credits for MUS 92 do not count toward the degree.
4. Strings take section 01, others solely dependent on the ensemble audition.
5. Contingent on interest and audition.
6. The Piano Proficiency Examination is required for applied piano and organ majors.
7. If the applied area is piano or organ, Piano Class is replaced with 2 hours of music electives. The Piano Proficiency Examination may be taken in lieu of two semesters of Piano Class.
8. Students must pass the complete Piano Proficiency Examination before receiving credit for the final semester of the piano requirement. Students must be enrolled continuously in Piano Class until their piano requirement has been completed. Those who pass the Piano Proficiency Exam before the end of the second semester of Piano Class may replace the requirement with electives or with secondary piano if faculty load permits.
9. 2 hours of music electives if Theory IV is chosen; 4 hours of music electives if Analysis of Electronic Media is chosen.
10. Non-music electives which include 18 hours in one area of concentration. At least 9 hours in the area of concentration, and a total of 12 of the 32 hours, must be at the 300-level or above. The student may choose to pursue a second major or take a minor in a non-music area.

Music Composition (BM)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Music with Emphasis in Composition (MUSIBM COM)

Unit: Music (http://www.louisville.edu/music)

Program Information

The Bachelor of Music Composition (BM) degree at UofL is a four-year program of study designed to develop a high level of expertise in music composition and related skills. In addition, the program encourages and promotes the development of each student's individual compositional "voice" or personality.

</tbody>
</table>

The following courses are required by this program and should be used to fulfill the respective General Education Requirement:

PAS 214  African-American Music - AH, D1
ANTH 205  Music in World Cultures - D2, SB

All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 243 Theory IV or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361 Music Literature I; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance, with a grade S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional Gen Ed courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies, music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the Undergraduate Student Handbook.

Culminating Undergraduate Experience (Graduation requirement)

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS 497</td>
<td>Senior Recital - CUE</td>
<td>1</td>
</tr>
</tbody>
</table>

1. Students are required to take PAS 214 African-American Music - AH, D1 and ANTH 205 Music in World Cultures - D2, SB.
2. MUH courses may not be taken to fulfill any General Education requirement.
3. Students who do not pass the computer-based Fundamentals Test prior to the beginning of the fall semester are required to enroll in MUS 91 Fundamentals of Music I for 0 credit concurrently with MUS 141 Theory I. Students who do not pass MUS 141, and students who enter the School of Music in January and do not place into MUS 142 Theory II, must enroll in MUS 92 for the spring semester. Credits for MUS 92 do not count toward the degree.
4. Strings take section 01, others solely dependent on the ensemble audition.
5. If applied principal is piano, Piano Class is replaced with 3 hours of electives. For students with a piano background, three semesters of MUS 121-MUS 221 (Secondary Piano) may be substituted.
6. Students will take the Piano Proficiency Examination at the end of MUS 231. Any student not completing the Piano Proficiency Examination will be required to take MUS 232 until the proficiency exam requirement is complete. Students must be enrolled continuously in Piano Class until their requirement has been completed. Those who pass the Piano Proficiency Examination before the end of the third semester of Piano Class may replace the requirement with electives or with secondary piano if faculty load permits. Entering students who have a background in piano may register for Piano Proficiency MUS 297 for one semester with approval of the Keyboard Area.
7. Undergraduate composition majors enrolled in MUS 243–MUS 444 are required to present public performances of their original works to average at least eight minutes of music per semester. The senior recital does not count toward these averages, but does fulfill the requirement for the semester in which it is given.
8. Students must present a recital of original works.

**Music Education (BM)**

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Music in Music Education**

**Unit:** Music [Link](http://www.louisville.edu/music)

The Bachelor of Music in Music Education program is designed to serve students seeking to develop the skills, experiences, and information to qualify graduates for public school music teacher "New Teacher" certification in the Commonwealth of Kentucky (P-12).

The Bachelor of Music in Music Education, Pre-Certification, program is designed for students intending to complete the degree in anticipation of enrollment in the Master of Arts in Teaching program (MAT), when additional professional education, music education, research methods, and clinical education course work are required. More information on this program can be found on the BM in Music Education, Pre-Certification, catalog page (p. 292).

Applied Lessons (four 2-hour courses) 8

- MUS 111 Principal Applied Study
- & MUS 112 Principal Applied Study
- MUS 211 Principal Applied Study
- & MUS 212 Principal Applied Study
- MUS 347 Analysis I (Jazz Track students take MUS 349) 2

Minimum Total Hours 46

1. Students are required to take PAS 214 African-American Music - AH, D1 and ANTH 205 Music in World Cultures - D2, SB.
2. MUH courses may not be taken to fulfill any General Education requirement.
3. Students who do not pass the computer-based Fundamentals Test prior to the beginning of the fall semester are required to enroll in MUS 91 Fundamentals of Music I for 4 credit concurrently with MUS 141 Theory I. Students who do not pass MUS 141, and students who enter the School of Music in January and do not place into MUS 142, must enroll in MUS 92 for the spring semester. Credits for MUS 92 do not count toward the degree.
4. Seven semesters of Principal Ensemble. Strings take section 01, others solely dependent on the ensemble audition. Music Education students who are woodwind, brass, or percussion principals are required to fulfill two years of ensemble performance in the Marching Band. Entering students will be expected to fulfill this requirement during the freshman and sophomore years. Transfer students will be required to fulfill a minimum of one year. A second year may be required based upon evaluation of the transcript. Woodwind, brass, or percussion principals are also recommended to complete one semester of a Principal Jazz Ensemble. Jazz Track: take 6 semesters of “Classical” ensemble and 1 semester of a Principal Jazz Ensemble.
5. Students must be enrolled continuously in Piano Class until their requirement has been completed. Those who pass the Piano Proficiency Examination before the end of the third semester of Piano Class may replace the requirement with electives or with Secondary Piano if faculty load permits. Entering students who have a background in piano may register for MUS 297 Piano Proficiency for one semester with approval of the Keyboard Area. Students will take the Piano Proficiency Examination at the end of MUS 231. Any student not completing the Piano Proficiency Examination will be required to take MUS 232 until the Piano Proficiency Examination requirement is complete.

Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 Theory IV; MUS 361 Music Literature I; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance, with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good
to take the following upper-division music education courses:

Students must be admitted to Teacher Education before being permitted to student teach. These field experiences are non-paid experiences. This regulation will begin based on EPSB prior to being permitted to student teach. These field experiences are outlined by the Education Professional Standards Board.

Requirements for application to Teacher Education are the following:

- Minimum 45 credit hours (completed or in progress at the time of application) with minimum 2.75 cumulative college grade point average;
- Grade of C+ or higher in MUS 116;
- Successful completion of an additional two credit hours of Music Education courses;
- Passing PPST PRAXIS I scores as follows: Math (150), Writing (162), Reading (156);
- C or better in ENGL 102;
- C or better in Oral Communication course (such as COMM 111 or COMM 115);
- Professional Statement (as directed in application);
- Three Letters of Recommendation (as directed in application);
- Successful Interview;
- Agreement to Professional Code of Ethics, Statement of Understanding of Admission Guidelines, and CEHD Acceptable Use of Technology forms (as directed in application).

Some required courses require admission to Teacher Certification prior to enrollment. Please refer to "Admission to Teacher Certification" (above) for requirements and a list of courses.

### Program/Major Requirements

#### Brass Emphasis

Students must pass the Pre-Professional Standards Test (PPST) prior to student teaching and Praxis I and II exams as required by EPSB and obtain a “B” average in EDP 420 and ECPY 507 (or approved Education course substitution).

Music Education, Pre-Certification (BM)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

The Bachelor of Music in Music Education, Pre-Certification program is designed for students intending to complete the degree in anticipation of enrollment in the Master of Arts in Teaching program (MAT), when additional professional education, music education, research methods, and clinical education course work are required.

The Bachelor of Music in Music Education program is designed to serve students seeking to develop the skills, experiences, and information to qualify graduates for public school music teacher “New Teacher” certification in the Commonwealth of Kentucky (P-12). More information on this program can be found on the BM in Music Education catalog page (p. 275).

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

The following courses are required by this program and should be used to fulfill the respective General Education Requirement:

- **PAS 214** African-American Music - AH, D1
- **ANTH 205** Music in World Cultures - D2, SB

All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

### Departmental Admission Requirements

Students in this unit are admitted directly into their degree program. Students considering the Tracks in Jazz Studies must audition and be admissible to both Music Education and Jazz Studies.
MUS 100  Piano Class
& MUS 130  Jazz Piano Class
& MUS 197  Piano Proficiency (Instrument/Voice, Jazz tracks)

- or keyboard students (Voice lessons) -
MUS 133  Functional Study
& MUS 134  Functional Study
& MUS 233  Functional Study
& MUS 197  Piano Proficiency

- or keyboard students in Jazz Track (Voice lessons) -
MUS 133  Functional Study
& MUS 134  Functional Study
& MUS 233  Functional Study
& MUS 197  Piano Proficiency

Applied Lessons (four 2-hour courses) 8
MUS 111  Principal Applied Study
& MUS 112  Principal Applied Study
MUS 211  Principal Applied Study
& MUS 212  Principal Applied Study

MUS 347  Analysis I (Jazz Track students take MUS 349) 2
MUS 100  Introduction to Music Study 1

Minimum Total Hours 47

1 MUS courses may not be taken to fulfill any General Education requirement.

2 Students who do not pass the computer-based Fundamentals Test prior to the beginning of the fall semester are required to enroll in MUS 91 Fundamentals of Music I for 0 credit concurrently with MUS 141 Theory I. Students who do not pass MUS 141, and students who enter the School of Music in January and do not place into MUS 142, must enroll in MUS 92 for the spring semester. Credits for MUS 92 do not count toward the degree.

3 Strings take section 01, others solely dependent on the ensemble audition. Music Education students who are woodwind, brass, or percussion principals are required to fulfill two years of ensemble performance in the Marching Band. Entering students will be expected to fulfill this requirement during the freshman and sophomore years. Transfer students will be required to fulfill a minimum of one year. A second year may be required based upon evaluation of the transcript. Woodwind, brass, or percussion principals are also recommended to complete one semester of a Principal Jazz Ensemble.

4 Piano Principals will replace Piano Class with Functional Voice Study MUS 133, MUS 134, and MUS 233. Students must be enrolled continuously in Piano Class until their requirement has been completed. Students will take the Piano Proficiency Examination at the end of MUS 231. Any student not completing the Piano Proficiency Examination will be required to take MUS 232 until the Piano Proficiency Examination requirement is complete. Students in the Tracks in Jazz Studies who are not required to take MUS 231 will take the Piano Proficiency Examination at the end of MUS 132. Those who pass the Piano Proficiency Examination before the end of the third semester of Piano Class may replace the requirement with electives or with Secondary Piano if faculty load permits. Entering students who have a background in piano may register for Piano Proficiency MUS 297 for one semester with approval of the Keyboard Area.

Upper Division Assessment
All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 Theory IV; MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance, with a grade of S, for 4 semesters; Ensemble Participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105 and 3 additional Gen Ed courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies, music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the Undergraduate Student Handbook.

Admission to Teacher Education
Students must apply to Teacher Education in the second semester of their Sophomore year (February 1 application deadline). Failure to be admitted to teacher education will delay students’ ability to take advanced classes in music education and teacher education.

Requirements for application to teacher education are the following:

- Minimum 45 credit hours (completed or in progress at the time of application) with minimum 2.75 cumulative college grade point average;
- Grade of C+ or higher in MUS 116;
- Successful completion of an additional two credit hours of Music Education courses;
- Passing PPST PRAXIS I scores as follows: Math (150), Writing (162), Reading (156);
- C or better in ENGL 102;
- C or better in Oral Communication course (such as COMM 111 or COMM 115);
- Professional Statement (as directed in application);
- Three Letters of Recommendation (as directed in application);
- Successful Interview;
- Agreement to Professional Code of Ethics, Statement of Understanding of Admission Guidelines, and CEHD Acceptable Use of Technology forms (as directed in application).

Students must complete 200 hours of field observations and related activities, as outlined by the Education Professional Standards Board (EPSB) prior to being permitted to student teach. These field experiences must be non-paid experiences. This regulation will begin based on regulations and timelines stipulated by EPSB.

Students must be admitted to Teacher Education before being permitted to take the following upper-division music education courses:

<table>

</tbody>
</table>
Program/Major Requirements

Note: All full-time undergraduate music majors are required to participate each semester in the principal ensemble designated for their primary instrument. Specific ensemble assignment is dependent on the result of the ensemble auditions.

- Strings: Symphony Orchestra
- Woodwind, Brass, or Percussion: Symphonic Band, Concert Band, Wind Ensemble, Wind Symphony, Marching Band, Community Band
- Voice: Collegiate Chorale, University Chorus
- Keyboard/Guitar: Any of the above depending upon qualifications and/or interests
- Jazz: Jazz Ensemble, Jazz Lab, Jazz Repertory Ensemble, Vocal Jazz Ensemble

Brass Emphasis

Some required courses require admission to Teacher Certification prior to enrollment. Please refer to "Admission to Teacher Certification (p. 47)" (above) for requirements and a list of courses.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Music General (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts with Emphasis in Music General (MUSIBA MUG)
Unit: Music (http://louisville.edu/music)

Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 Theory IV or Analysis (MUS 347 Analysis I for BA General, MUS 349 Jazz Analysis for BA Jazz Studies, MUS 350 Analysis of Electronic Media for BA Music & New Media); MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance, with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional Gen Ed courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies, music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the Undergraduate Student Handbook.

</tbody>
</table>

1. Students are required to take PAS 214 and ANTH 205 Music in World Cultures - D2, SB.
2. MUH courses may not be taken to fulfill any General Education requirement.
3. Students who do not pass the computer-based Fundamentals Test prior to the beginning of the fall semester are required to enroll in MUS 91 Fundamentals of Music I for 0 credit concurrently with MUS 141 Theory I. Students who do not pass Theory I, and students who enter the School of Music in January and do not place into MUS 142 Theory II, must enroll in MUS 92 for the spring semester. Credits for MUS 92 do not count toward the degree.
4. Strings take section 01, others solely dependent on the ensemble audition.
5. The Piano Proficiency Examination is required for applied piano and organ majors.
6. If the applied area is piano or organ, Piano Class is replaced with 2 hours of music electives. The Piano Proficiency Examination may be taken in lieu of two semesters of Piano Class.
7. Students must pass the complete Piano Proficiency Examination before receiving credit for the final semester of the piano requirement. Students must be enrolled continuously in Piano Class until their piano requirement has been completed. Those who pass the Piano Proficiency Exam before the end of the second semester of Piano Class may replace the requirement with electives or with secondary piano if faculty load permits.
8. 12 hours of music electives if MUS 242 Theory IV is chosen; 14 hours of music electives if MUS 347 Analysis I is chosen.
9. Non-music electives which include 18 hours in one area of concentration. At least 9 hours in the area of concentration, and a total of 12 of the 34 hours, must be at the 300-level or above. The student may choose to pursue a second major or take a minor in a non-music area.

Music History (BM)

Music with Emphasis in Music History (BM)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Music with Emphasis in Music History (MUSIBM MH)

Unit: Music (http://www.louisville.edu/music)

Program Information

The School of Music offers the Bachelor of Music and the Master of Music degrees in Music History.

The music history faculty at the University of Louisville represent a wide range of teaching and research disciplines. Part-time faculty bring expertise in cognate areas such as popular music, country music, history of rock and roll, world music, dance music, and music of the theater.

Undergraduate music history majors complete a senior research project under faculty supervision, concluding with a formal presentation and discussion with the panel of music history faculty. Graduate students in music history undertake a series of seminars and complete a thesis under faculty supervision, as well as satisfy a foreign language requirement and a final oral examination.

Past graduates in music history from the University of Louisville have made careers as musicologists, music librarians, arts administrators, and music critics.

1. Students are required to take PAS 214 African-American Music - AH, D1 and ANTH 205 Music in World Cultures - D2, SB.
2. MUH courses may not be taken to fulfill any General Education requirement.

3. Students who do not pass the computer-based Fundamentals Test prior to the beginning of the fall semester are required to enroll in MUS 91 Fundamentals of Music I for 0 credit concurrently with MUS 141 Theory I. Students who do not pass MUS 141, and students who enter the School of Music in January and do not place into MUS 142, must enroll in MUS 92 for the spring semester. Credits for MUS 92 do not count toward the degree.

4. Strings take section 01, others solely dependent on the ensemble audition.

5. If the applied principal is piano, Piano Class is replaced with 3 hours of music electives. For students with a piano background, three semesters of Secondary Piano (MUS 121-MUS 221) may be substituted for Piano Class.

6. Students will take the Piano Proficiency Examination at the end of MUS 231. Any student not completing the Piano Proficiency Examination will be required to take MUS 232 until the proficiency exam requirement is completed. Students must be enrolled continuously in Piano Class until their requirement has been completed. Those who pass the Piano Proficiency Examination before the end of the third semester of Piano Class may replace the requirement with electives or with secondary piano if faculty load permits. Entering students who have a background in piano may register for MUS 297 Piano Proficiency for one semester with approval of the Keyboard Area.

7. If the applied principal is voice, 2 hours of Diction (MUS 123-MUS 124) are required in addition to the 16 hours of voice.

8. Students may enroll for either 2 semesters at 2 credits per semester or 1 semester at 4 credits.

9. Electives to be determined in consultation with the program advisor. Students are strongly encouraged to include 1 credit hour of minor ensemble where appropriate.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

### To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. ([https://ulink.louisville.edu](https://ulink.louisville.edu))

---

**Music Instrumental Performance (BM)**

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Music with Emphasis in Instrumental Performance (MUSIBM INS)**

Unit: Music ([http://www.louisville.edu/music](http://www.louisville.edu/music))

### Program Information

The Bachelor of Music in Performance degree is appropriate for students who wish to prepare for a career in music performance and related fields. Among the particular career emphases for which the BM in Performance is an appropriate preparation are professional performer, university teacher, private music studio teacher, or pre-professional preparation for music teacher certification study. Since it is unlikely that graduates of the program will have developed all the requisite skills to enter the professional ranks of performers or university teachers, most graduates will continue to develop their skills through further study. Students who have completed the BM in Performance at UofL typically do very well in gaining admission to strong graduate programs nationwide.

<td>General Education Requirements (<a href="http://catalog.louisville.edu/undergraduate/general-education-requirements">http://catalog.louisville.edu/undergraduate/general-education-requirements</a>)</td>
<td>31</td>
</tr>
</tbody>
</table>

The following courses are required by this program and should be used to fulfill the respective General Education Requirement:

- **PAS 214** African-American Music - AH, D1
- **ANTH 205** Music in World Cultures - D2, SB

All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

- **MUS 548** Post-Tonal Theory and Analysis
- **MUS 549** Renaissance Counterpoint
- **MUS 550** Baroque Counterpoint
- **MUS 359** Conducting I
- **Music Electives**
- **General Electives**
- **General or Music Electives**

**Minimum Total Hours**

### Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for **MUS 242 Theory IV or Analysis** (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance, with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional General Education courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies, music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the Undergraduate Student Handbook.

</tr>
</tbody>
</table>

**Culminating Undergraduate Experience (Graduation requirement)**

Requirement fulfilled by completing:

- **MUS 497** Senior Recital - CUE

1 Students are required to take PAS 214 and ANTH 205.
2 MUH courses may not be taken to fulfill any General Education requirement.
Students who do not pass the computer-based Fundamentals Test prior to the beginning of the fall semester are required to enroll in MUS 91 Fundamentals of Music I for 0 credit concurrently with MUS 141. Students who do not pass MUS 141, and students who enter the School of Music in January and do not place into MUS 142, must enroll in MUS 92 for the spring semester. Credits for MUS 92 do not count toward the degree.

Strings take section 01, others solely dependent on the ensemble audition.

For students with a piano background, three semesters of Secondary Piano (MUS 121-MUS 221) may be substituted.

Students must be enrolled continuously in Piano Class until their piano requirement has been completed. Those students who pass the Piano Proficiency Examination before the end of the third semester of Piano Class may replace the requirement with electives or with secondary piano if faculty load permits. Entering students who have a background in piano may register for MUS 297 Piano Proficiency for one semester with approval of the Keyboard Area.

Woodwind option: Students with a major in flute, oboe, clarinet, bassoon, or saxophone may devote as many as 14 of the 32 hours required in the major instrument to the study of other woodwind instruments. After completing one semester of study in the major instrument with a grade of A or B, the student may elect the above option with the approval of the woodwind faculty. Continued enrollment in the option will be dependent upon satisfactory progress in the major instrument studied. An outline of the applied music study must be approved by the teacher of the major instrument. One-half of the senior recital may consist of solo or ensemble performance of one or more secondary instruments.

Students must be enrolled in Minor Ensemble for a minimum of six semesters. The applied teacher must approve the choice of Minor Ensembles that will count towards the degree.

Music Jazz Performance (BM)

Music with Emphasis in Jazz Performance (BM)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Music with Emphasis in Jazz Performance (MUSIBM JAZ)

Unit: Music (http://www.louisville.edu/music)

Program Information

The Bachelor of Music in Jazz Performance degree is appropriate for students who wish to prepare for a career in music performance and related fields. The Bachelor of Music degree with an Emphasis in Jazz Performance is intended to prepare students with the skills needed to perform, compose and arrange within the jazz idiom. Among the goals of the degree are to prepare students to be skilled in the art of jazz improvisation, be well versed in a variety of performance techniques, be able to compose and arrange within the jazz idiom, and to have an understanding and appreciation of the jazz tradition through the study of and performance with jazz masters. Among the particular career emphases for which the BM in Jazz Performance is an appropriate preparation are professional performer, music arranger or composer, or teacher. Since it is unlikely that graduates of the program will have developed all the requisite skills to enter the professional ranks of performers or university teachers, most graduates will continue to develop their skills through additional study.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. ([https://ulink.louisville.edu](https://ulink.louisville.edu))

**Music, Jazz Studies (BA)**

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Arts with Emphasis in Jazz Studies (MUSIBA JAZ)**

Unit: Music ([http://www.louisville.edu/music](http://www.louisville.edu/music))

**Program Information**

The Bachelor of Arts in Music with Emphasis in Jazz Studies degree is aimed at introducing students to elements of jazz within the context of
a liberal arts program. The outcome of the degree is to prepare students to develop skills in performing and improvising music in a variety of jazz styles on primary and secondary instruments, and to have an understanding of a variety of performance techniques in jazz, and an appreciation of the jazz tradition through the study of and performance with jazz masters.

**Degree Summary**

**Upper Division Assessment**

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. The elements and standards of the review are established by the faculty and include credit for MUS 242 or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361 ; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 , with grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional General Education courses.

**Additional Requirements**

- Additional specific elements and standards appropriate to specific degree programs in jazz studies, music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the Undergraduate Student Handbook.

**Culminating Undergraduate Experience (Graduation requirement)**

Requirement fulfilled by completing:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS 496</td>
<td>BA Capstone Project</td>
<td></td>
</tr>
</tbody>
</table>

1. Students are required to take PAS 214 and ANTH 205.
2. MUH courses may not be taken to fulfill any General Education requirement.
### Flight Plan

**Music Organ Performance (BM)**

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Music with Emphasis in Organ Performance (MUSIBM ORG)**

Unit: Music ([http://www.louisville.edu/music](http://www.louisville.edu/music))

**Program Information**

The Bachelor of Music in Performance degree is appropriate for students who wish to prepare for a career in music performance and related fields. Among the particular career emphases for which the BM in Performance is an appropriate preparation are professional performer, university teacher, private music studio teacher, or pre-professional preparation for music teacher certification study. Since it is unlikely that graduates of the program will have developed all the requisite skills to enter the professional ranks of performers or university teachers, most graduates will continue to develop their skills through further study.

The 560-seat Margaret Comstock Concert Hall at UofL houses three Steinway and a Bösendorfer “Imperial” concert grand pianos as well as a 64-rank Steiner-Reck organ, the largest of its kind in the Midwest. Also available to students are a number of practice organs.

Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance, with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105, and 3 additional Gen Ed courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies, music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the Undergraduate Student Handbook.

Code Title Hours

Culminating Undergraduate Experience (Graduation requirement)

Requirement fulfilled by completing:
MUS 497  Senior Recital - CUE (CUE)  5

1 Students are required to take PAS 214 African-American Music - AH, D1 and ANTH 205 Music in World Cultures - D2, SB.
2 MUH courses may not be taken to fulfill any General Education requirement.

3 Students who do not pass the computer-based Fundamentals Test prior to the beginning of the fall semester are required to enroll in MUS 91 Fundamentals of Music I for 0 credit concurrently with MUS 141. Students who do not pass MUS 141, and students who enter the School of Music in January and do not place into MUS 142, must enroll in MUS 92 for the spring semester. Credits for MUS 92 do not count toward the degree.
4 Solely dependent on the ensemble audition.
5 Senior recital for all performance degrees is a public recital.

### Music Piano Performance (BM)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

#### Bachelor of Music with Emphasis in Piano Performance (MUSIBM PNO)

Bachelor of Music with Emphasis in Piano Performance with Track in Piano Pedagogy (MUSIBM PDG)

Unit: Music (http://www.louisville.edu/music)

### Program Information

The Bachelor of Music in Performance degree is appropriate for students who wish to prepare for a career in music performance and related fields. Among the particular career emphases for which the BM in Performance is an appropriate preparation are professional performer, university teacher, private music studio teacher, or pre-professional preparation for music teacher certification study. Since it is unlikely that graduates of the program will have developed all the requisite skills to enter the professional ranks of performers or university teachers, most graduates will continue to develop their skills through further study.

The School of Music building contains two recital halls, a 15,000 square foot music library, forty-four teaching studios, and seventy-six practice rooms, many of them with Steinway grand pianos reserved exclusively for piano majors.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)
While not included in the School or Program coursework requirements, students are expected to take PAS 214 and ANTH 205 to satisfy some of the General Education requirements. Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements
Students in this unit are admitted directly into their degree program.

Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 or Analysis (MUS 347 for BA, General; MUS 349 for BA General, Jazz Studies; MUS 350 for BA, Music & New Media); MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97, with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional General Education courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies, music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Bachelor of Music with Emphasis in Music Theory (MUSIBM MUT)

Unit: Music (http://www.louisville.edu/music)

Program Information

The Bachelor of Music in Theory degree is designed for students interested in understanding and eventually teaching music theory. Many of the graduates of this degree will pursue graduate studies in music theory. In addition to those goals common to all professional baccalaureate degrees in music, students in music theory develop an advanced capability for music analysis, including sophisticated communication skills about analysis and the ability to analyze a musical work from multiple perspectives. Students also develop a sophisticated knowledge of the relationship between music theory and music composition, including the ability to compose music with acoustic and digital sources, and with a degree of technical mastery of music notation, arranging, and computer notation. Theory majors use the tools of music analysis and theoretical research, including keyboard, knowledge of foreign languages, and bibliographic tools. Research techniques and effective written and oral communication skills must be demonstrated by the development and presentation of a senior paper.

Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 Theory IV or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional General Education courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies, music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the concentration and area faculties and are outlined in the Undergraduate Student Handbook.

Culminating Undergraduate Experience (Graduation requirement)

Requirement fulfilled by completing:

1. Students are required to take PAS 214 African-American Music - AH, D1 and ANTH 205 Music in World Cultures - D2, SB.
2. MUH courses may not be taken to fulfill any General Education requirement.
3. Students who do not pass the computer-based Fundamentals Test prior to the beginning of the fall semester are required to enroll in MUS 91 Fundamentals of Music I for 6 credit concurrently with MUS 141 Theory I. Students who do not pass MUS 141, and students who enter the School of Music in January and do not place into MUS 142 Theory II, must enroll in MUS 92 Musicianship I for the spring semester. Credits for MUS 92 do not count toward the degree.
4. Strings take section 01, others solely dependent on the ensemble audition.
5. If applied principal is piano, Piano Class is replaced with 3 hours of electives. For students with a piano background, three semesters of MUS 121-MUS 221 (Secondary Piano) may be substituted.

6. Students will take the Piano Proficiency Examination at the end of MUS 231. Any student not completing the Piano Proficiency Examination will be required to take MUS 232 until the proficiency exam requirement is complete. Students must be enrolled continuously in Piano Class until their requirement has been completed. Those who pass the Piano Proficiency Examination before the end of the third semester of Piano Class may replace the requirement with electives or with secondary piano if faculty load permits. Entering students who have a background in piano may register for secondary piano if faculty load permits. Theory majors are strongly advised to take a second semester of piano for one semester with approval of the Keyboard Area.

7. Theory majors are strongly advised to take a second semester of German.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Music Therapy (BM)

Music with Emphasis in Music Therapy (BM)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Music with Emphasis in Music Therapy (MUTHBM)

Unit: Music (http://www.louisville.edu/music)

Program Information

The music therapy program is designed for students who want to provide therapeutic services to people using music. Students must be strong musicians and find satisfaction in using music to help with non-music areas and skills, rather than as a goal in itself. Students’ music skills will expand during their music therapy course work from performing on their principal instrument to also including functional piano, guitar, and voice skills, using other accompanying instruments such as the Q-chord and autoharp, and developing skill in using percussion instruments.

The music therapy program requires good intellectual skills as music therapists are required to use analytical skills in determining clinical goals and writing skills in documentation.

Music therapy majors may work with any age group and with people with a variety of disabilities. As a member of a therapeutic team or private practitioner, the music therapist participates in the analysis of individual problems and the establishment of treatment goals before planning and carrying out music-related treatment. Music therapists may also do administration in various health-related settings and, with advanced degrees, may become university faculty.

*While not included in the School or Program coursework requirements, students are expected to take PAS 214 and ANTH 205 to satisfy some of the General Education requirements. COMM 115 is suggested for satisfying the Oral Communication requirement.*

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Students in this unit are admitted directly into their degree program.

Degree Requirements

The Music Therapy curriculum meets the competency requirements of the American Music Therapy Association (AMTA). Students must complete a minimum of 1200 hours of clinical training which includes at least 180 hours in pre-internship experiences and at least 900 hours in internship experiences. Students completing the Music Therapy curriculum are eligible to take the examination to become a Board Certified Music Therapist, offered by the Certification Board for Music Therapists.

A person who already has a bachelor’s degree from an accredited institution and who wishes to become a music therapist may take the courses not already taken that are required for music therapy certification, known as “equivalency” courses since they provide the equivalent of an undergraduate degree. The music therapy equivalency program leads to eligibility to apply to become a Board Certified Music Therapist but does not lead to a degree. Specific course requirements, based on the student’s transcript and experiences, are determined in conjunction with the Director of Music Therapy.

Students must demonstrate experience and competence in the use of percussion instruments and in the use of computers and music as appropriate for music therapists.

General Education Requirements

</table>

12
The following courses are required by this program and should be used to fulfill the respective General Education Requirement:

- PAS 214 African-American Music - AH, D1
- ANTH 205 Music in World Cultures - D2, SB
- COMM 115 Interpersonal Skills - OC (suggested)

All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

**Additional Specific Elements and Standards**

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 Theory IV or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance, with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional Gen Ed courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies, music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the division and area faculties and are outlined in the Music Student Handbook and the various Division handbooks.

Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 Theory IV or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance, with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional Gen Ed courses.

Additional specific elements and standards appropriate to specific degree programs in jazz studies, music composition, music education, music history, instrumental and vocal performance, pedagogy, music theory, and music therapy are required of students in order to achieve Upper Division status and to continue in the degree program. Specific degree requirements are determined by the division and area faculties and are outlined in the Music Student Handbook and the various Division handbooks.

**Upper Division Assessment**

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 Theory IV or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance, with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional Gen Ed courses.

</tbody>
</table>

**Additional Specific Elements and Standards**

1. Students are required to take PAS 214 African-American Music - AH, D1 and ANTH 205 Music in World Cultures - D2, SB. In addition, Music Therapy majors should consider COMM 115 Interpersonal Skills - OC to satisfy the Oral Communication content.
2. MUH courses may not be taken to fulfill any General Education requirement.
3. Students who do not pass the computer-based Fundamentals Test prior to the beginning of the fall semester are required to enroll in MUS 91 Fundamentals of Music I for 0 credit concurrently with MUS 141 Theory I. Students who do not pass MUS 141, and students who enter the School of Music in January and do not place into MUS 142 Theory II, must enroll in MUS 92 Musicianship I for the spring semester. Credits for MUS 92 do not count toward the degree.
4. Strings take Section 01, others solely dependent on the ensemble audition. Jazz Studies track students take six 1-hour courses of Jazz Ensemble plus two 1-hour courses of other Major Ensemble.
5. If the Applied Principal is piano, Piano Class is replaced with 3 hours of electives.
Students will take the Piano Proficiency Examination at the end of MUS 231. Any student not completing the Piano Proficiency Examination will be required to take MUS 232 until the proficiency exam requirement is complete. Students must be enrolled continuously in Piano Class until their requirement has been completed. Those who pass the Piano Proficiency Examination before the end of the third semester of Piano Class may replace the requirement with electives or with secondary piano if faculty load permits. Entering students who have a background in piano may register for MUS 297 Piano Proficiency for one semester with approval of the Keyboard Area.

The internship is done after all other music therapy course work has been completed. The American Music Therapy Association requires that a student receive a grade of C- or better in all music therapy courses in order to be eligible for the internship. It must be completed within 24 months of completion of music therapy course work. However, the School of Music will not accept work below a C (not a C-minus) in a major subject.

Music Therapy students will require a C (not C-minus) grade in order to pass Supportive Area courses.

Music Therapy degree students may substitute Voice study at the functional level, MUS 133, for MUS 227 Voice Class at the discretion of the voice faculty.

MUS 123 Diction is required for all applied voice students.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Music Vocal Performance (BM)

Music with Emphasis in Vocal Performance (BM)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Music with Emphasis in Vocal Performance (MUSIBM VOC)

Unit: Music (http://www.louisville.edu/music)

Program Information

The Bachelor of Music in Performance degree is appropriate for students who wish to prepare for a career in music performance and related fields. Among the particular career emphases for which the BM in Performance is an appropriate preparation are professional performer, university teacher, private music studio teacher, or pre-professional preparation for music teacher certification study.

Most graduates will continue to develop their skills through further study. Students who have completed the BM in Performance at UofL typically do very well in gaining admission to strong graduate programs nationwide.

</tr>
</tbody>
</table>

The following courses are required by this program and should be used to fulfill the respective General Education Requirement:

- PAS 214 African-American Music - AH, D1
- ANTH 205 Music in World Cultures - D2, SB

All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

#### Upper Division Assessment

All students enrolled in a music degree program will be reviewed at the approximate midpoint of the selected program in order for students to achieve Upper Division status. Students must meet the standards of this review to register for 400-level courses in music. Both the elements and standards of the review are established by the faculty and include credit for MUS 242 Theory IV or Analysis (MUS 347 for BA General; MUS 349 for BA Jazz Studies; MUS 350 for BA Music & New Media); MUS 361; 4 semesters of Applied Instrument at the course numbers required for the degree; Piano Proficiency Examination; MUS 97 Recital Attendance, with a grade of S for 4 semesters; Ensemble participation; cumulative 2.5 GPA (good standing); minimum of 48 credit hours completed; pass ENGL 101 or ENGL 105; and 3 additional Gen Ed courses.

- 129

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

### Neuroscience (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Science in Neuroscience**  
Unit: College of Arts and Sciences (http://www.louisville.edu/a-s)  
Department: Psychological and Brain Sciences (http://louisville.edu/psychology); Anatomical Sciences and Neurobiology (http://louisville.edu/medicine/departments/anatomy)

**Program Information**

The Bachelor of Science in Neuroscience (BS in Neuroscience) is an interdisciplinary degree with a STEM+Health focus. The program trains students to critically assess and analyze ideas and concepts from the diverse disciplines that contribute to the field of neuroscience. Students achieve an in-depth understanding of nervous system function, from the molecular level to the cognitive sciences, and become familiar with the techniques used to measure nervous system function from the cellular level to the whole brain.

Graduates of this program are poised for careers in a wide variety of areas, including neuroscience and health-related fields, the social sciences, and the biological sciences. This program also prepares students for advanced-degree study in graduate school and professional degree programs.
Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

### Degree Summary

Minimum Total Hours: 121-123

1 Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree.

Specific coursework information can be found on the Degree Requirements tab.

### Admission Requirements

Requirements for admission to the BS in Neuroscience:

1. Complete PSYC 201 or (equivalent) and PSYC 305, earning a grade of C or higher.
2. Complete Statistics Requirement (PSYC 301 or BIOL 350), earning a grade of C or higher. Completion of MATH 205 is required for the degree. For admission to the major, students must have completed the necessary math coursework, or have a math placement score, to satisfy the prerequisites to enroll in MATH 205.
3. Have an overall cumulative GPA of at least 2.5 (no grades of C-minus or lower in core or supporting coursework may be counted toward requirements for the major).
4. Have completed at least 30 hours of degree-applicable credit.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

### General Education

<table>
<thead>
<tr>

<td>General Education Requirements (<a href="http://catalog.louisville.edu/undergraduate/general-education-requirements">http://catalog.louisville.edu/undergraduate/general-education-requirements</a>)</td>
<td>31</td>
</tr>
</tbody>
</table>

The following courses are required by the program and can satisfy the respective General Education Requirement:

- PSYC 201 Introduction to Psychology - SB
- BIOL 240 Unity of Life - S
- CHEM 201 General Chemistry I - S
- CHEM 207 Introduction to Chemical Analysis I - SL
- MATH 205 Calculus I - QR

*All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

#### Electives

12

Suggested Electives

- ASNB 514 | Molecular Neuroscience
- BIOL 330 | Genetics and Molecular Biology
- BIOL 331 | Genetics and Molecular Biology: Laboratory
- BIOL 415 | Biology of the Cell - CUE, WR
- BIOL 511 | Behavioral Endocrinology - CUE, WR
Only 60 hours in the major department may be applied toward the Bachelor of Science degree.

At least 50 of the total minimum hours required must be at the 300 level or above.

Students must participate in at least 3 hours of a research experience, which may include independent research or directed readings with a neuroscience faculty mentor.

Completion of the second semester of a single foreign language; hours will vary depending on the language taken

In addition to courses counted toward General Education

May be incorporated into other degree requirements

Students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.

At least two of the courses selected to satisfy these General Education/Cardinal Core requirements must also satisfy Diversity requirements (at last once course/3 credits each of U.S./D1 and Global/D2 Diversity coursework).
Nursing (RN-BSN Online Program) (BSN)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Nursing (NUR BSNUDO)
Unit: Nursing (http://www.louisville.edu/nursing)

This program is for students who are already licensed Registered Nurses.

Program Information

This program is completed entirely online (http://louisville.edu/online/programs/index/bachelors/rn-to-bachelor-of-science-in-nursing).

The School of Nursing offers an RN-BSN online curriculum designed by nurses for nurses to reflect the evolving nature of health care. We are dedicated to your success and committed to helping you take the next step in your academic and career advancement. Recently ranked in the top ten RN-BSN online programs by AffordableCollegesOnline (http://louisville.edu/nursing/news/uofl-online-nursing-program-ranked-among-nation2019s-best), our program provides a flexible, cost-effective opportunity for registered nurses with an associate’s degree or a nursing diploma to earn a Bachelor of Science in Nursing in as little as 16 months.

Prospective students interested in a first-degree BSN program or individuals with a bachelor’s degree in another discipline who are interested in pursuing a degree in Nursing should refer to the Pre-Licensure Nursing (p. 342) program or the Master’s Entry into Professional Nursing (p. 1001) program, respectively.

RN-BSN students must present official transcripts of coursework completed from all universities and schools attended.

This program is completed entirely online (http://louisville.edu/online/programs/bachelors/rn-to-bachelor-of-science-in-nursing).

To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

The RN-BSN 100% online program is offered by the University of Louisville’s School of Nursing for registered nurses who have an associate degree in nursing (ADN) or a nursing diploma. Students are required to have a minimum undergraduate cumulative grade point average of 2.5 and an RN license without restrictions.

For more information on program requirements and how to apply, please visit louisville.edu/online/programs/bachelors/rn-to-bachelor-of-science-in-nursing/apply.

Minimum Total Hours 61

Thirty (30) of the last 36 credits must be completed at the University of Louisville.

All RN-BSN nursing courses are taught online.

1 Some courses required in this degree program satisfy multiple requirements. To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program.

2 To complete the degree in the minimum number of hours listed, some hours from the General Education Requirements must be satisfied by courses defined by the unit and/or program. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements (or decrease the listed electives).

Nursing, Pre-Licensure Program (BSN)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Nursing (NU_BSN, NURSBSN)

Unit: Nursing (http://www.louisville.edu/nursing)

Program Information

The Traditional Bachelor of Science in Nursing program is a four year program that consists of four semesters of lower division course work and four semesters of upper division course work that prepares students for a career in professional nursing by providing a dynamic course of study that is both theoretical and practical. As citizens of a larger community, our focus is to address the complex health care needs of diverse and dynamic populations through nursing education, research, scholarship and service. Our students graduate prepared to demonstrate excellence in nursing science, practice and leadership in a variety of settings for the benefit of clients across the lifespan and to meet the evolving health care needs of society. Our BSN program also provides the necessary foundation for masters and doctoral degrees in nursing.

Students have access to innovative Patient Simulation and Standardized Patient Centers. Faculty have the highest qualifications and conduct research in their areas of specialization.

By including a core of knowledge in the humanities and the behavioral, physical, and biological sciences, as well as theory and practice of professional nursing graduates of the BSN program will be prepared to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

1 Some courses required in this degree program can satisfy multiple requirements. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements (or reduce the number of available electives). See the Degree Requirements tab for specific coursework.

2 NURS 101 is only required for new students with less than 24 earned college credits.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Students are admitted directly into the Lower Division of the Nursing Program.

Please refer to the catalog pages containing the admissions details for the School of Nursing (p. 36).

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)
Organizational Leadership and Learning (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Organizational Leadership and Learning (WFL BS)
Unit: College of Education and Human Development (http://louisville.edu/education)  
Department: Educational Leadership, Evaluation and Organizational Development (http://louisville.edu/education/departments/eleod)

Program Information

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs).

The Bachelor of Science in Organizational Leadership and Learning (OLL), formerly Workforce Leadership, is designed for working professionals who have at least five years of work experience. It is a great option for adults seeking an extra edge in today’s job market. If you are ready to finish your degree, we can help do it while you enhance your skills in leading people and organizations or plan for a new career.

Classes are offered online, or in convenient off-campus locations, Monday through Thursday evenings in Louisville and at Fort Knox.

UofL also offers a BS in Organizational Leadership and Learning in Healthcare Leadership (p. 346) program.

1. Complete within first year
2. Applications for ELFH 540 must be submitted by mid-term week of the semester prior to enrollment. All other core classes and at least one-half of the track courses must be completed prior to enrollment.
3. Students may select the following tracks with this core: Leadership, Training and Organizational Development or Career and Technical Education. Tracks suspended to further enrollment include Training and Development and Leadership and Organizational Development.
4. A minimum of 9 hours of Work Specialization/Prior Learning Assessment (PLA) credit is required, however, students may earn a maximum of 48 hours for the track in Leadership, Training and Organizational Development, 45 hours for the Career and Technical Education track, and 48 hours for the Training and Development and Leadership and Organizational Development tracks, based on their prior work experience. Depending on available PLA and track, students may need elective coursework to reach the minimum 120 hours required for the degree.
5. Requirements for posting the Work Specialization credits: prior extensive documented work learning; completion of an additional 12 hours in the major core courses with a B or better grade point average.

Organizational Leadership and Learning, Healthcare Leadership (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Organizational Leadership and Learning, Healthcare Leadership Development track

Unit: College of Education and Human Development (http://louisville.edu/education)
Department: Educational Leadership, Evaluation and Organizational Development (http://louisville.edu/education/departments/eleod)

Program Information

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs/bachelors/bachelor-of-science-in-organizational-leadership-and-learning).

The Bachelor of Science in Organizational Leadership and Learning with a focus on Healthcare Leadership allows healthcare professionals to capitalize on existing knowledge and experience, and earn a bachelor’s degree that can further enhance your skills in leadership, organizational change, workplace development and performance and attain higher-level positions in your organization.

UofL’s OnTrack program is the first of its kind in the state and region, with a curriculum based on the National Center for Healthcare Leadership’s (NCHL.org) competency model, which is one of the leading industry standard models for healthcare executive competencies development.

This program is essential for individuals who have acquired experience in the healthcare field, but are missing the proper credentials for promotions within their organization, increased pay, or management and leadership roles.

Departmental Admission Requirements

Applicants to the BS in Organizational Leadership and Learning with a track in Healthcare Leadership must have a 2.7 cumulative GPA in college level courses and at least 2,000 hours (approximately one year) of healthcare experience across a wide variety of organizational settings.

Additionally, applicants are recommended to have at least 24 hours of transferable credit.

Applicants who have a cumulative GPA below 2.7 or less than 2,000 hours of healthcare experience, may petition the College of Education and Human Development for consideration of admission.

Flex Pace: This is the current pathway for students wishing to pursue the Competency-Based Education model (CBE). In Flex Path, students have 32 weeks to move through the program materials at their own pace. Many students value this level of flexibility. This path places the responsibility on the student to set and maintain their own pace to finish the materials on time. Financial Aid is dependent on timely completion. Students may enroll in additional CBE courses as soon as previously enrolled courses are completed to expedite program completion.

Set Pace: In this pathway, students enroll in 8-week courses and complete each course within a predetermined time frame. This option is for students who wish to follow a more structured and traditional university schedule while taking advantage of accelerated terms. Two terms will be available in Fall and Spring and one term will be available in Summer.

Students may start the program on the first Tuesday of every month (except December). Students in this program will register for all major and track courses with their assigned Success Coach. All tuition and fees for CBE courses are non-refundable when a student begins a CBE course. The CBE course term begins with enrollment and the onset of academic activity.

The CBE course completion period begins with enrollment and the onset of academic activity. Flex Pace/CBE courses are student self-paced, but students must complete enrolled CBE courses within 32 weeks. A student cannot withdraw from a CBE course once started.

Set Pace: In this pathway, students enroll in 8-week courses and complete each course within a predetermined time frame. All coursework in the Set Pace Pathway must be completed within the 8-week term period. Tuition and fees in "et Pace enrollments may be refunded in accordance with normal university policies.

Additional Information: For more information on the Healthcare Leadership program, please go to: louisville.edu/online/programs/competency-based-degree-programs/healthcare-leadership-cbe

UofL also offers non-CBE BS programs in Organizational Leadership and Learning (p. 345) with tracks in Career and Technical Education and Leadership, Training and Organizational Development (LTOD).

Departmental Admission Requirements

Applicants to the BS in Organizational Leadership and Learning with a track in Healthcare Leadership must have a 2.7 cumulative GPA in college level courses and at least 2,000 hours (approximately one year) of healthcare experience across a wide variety of organizational settings.

Additionally, applicants are recommended to have at least 24 hours of transferable credit.

Applicants who have a cumulative GPA below 2.7 or less than 2,000 hours of healthcare experience, may petition the College of Education and Human Development for consideration of admission.

General Education Requirements

All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

Students must demonstrate competency at the B+ level or higher to successfully complete a program course. If a student does not achieve a B+ or higher in a program course before the end of the term, then the student will receive the highest grade earned during the course, or F if the student fails to submit required deliverables. Only one repetition of a program course is permitted. If a student does not earn a B+ or higher in the repeated course, then the student will be dropped from the program.
Culminating Undergraduate Experience (Graduation requirement)

Requirement fulfilled by completing:

1. Students must select the following track with this core: Healthcare Leadership.

2. A minimum of 9 hours of Work Specialization/Prior Learning Assessment credit is required, however, students may earn up to 48 hours of credit based on their prior work experience. Requirements for posting the Work Specialization credits: 1) prior extensive documented work learning and 2) completion of an additional 12 hours in the Major Core Courses with a B+ (3.3) or better grade point average.

Pan-African Studies (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Pan-African Studies (PAS BA)

Unit: College of Arts and Sciences (http://www.louisville.edu/a-s)

Department: Pan-African Studies (http://louisville.edu/panafricanstudies)

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Program Information

The Department of Pan-African Studies has developed a Bachelor of Arts and a Bachelor of Science degree. This provides an opportunity for structured undergraduate study in the multi-disciplinary field of Pan-African Studies. Students also have the choice of earning a minor in Pan-African Studies as well.

PAS majors have career options quite similar to those of students with baccalaureate degrees in the humanities and social sciences and a PAS minor often enhances the employability of students who major in other fields.

Increasingly, PAS majors are also finding career opportunities specific to the discipline itself. Such opportunities are most common in social, cultural and educational agencies/organizations, and in business and international affairs initiatives that concern people of color. Other PAS graduates choose to pursue graduate degrees.
PAS 408 Research Methods in Pan-African Studies - WR 3
PAS 409 Pan-African Studies Capstone Seminar - CUE 3
PAS 500 Cooperative Internship in Pan-African Studies 3

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)
Pan-African Studies (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Pan-African Studies (PAS BS)

Unit: College of Arts and Sciences (http://www.louisville.edu/a-s)
Department: Pan-African Studies (http://louisville.edu/panafricanstudies)

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Program Information

The Department of Pan-African Studies has developed a Bachelor of Arts and a Bachelor of Science degree. This provides an opportunity for structured undergraduate study in the multi-disciplinary field of Pan-African Studies. Students also have the choice of earning a minor in Pan-African Studies as well.

PAS majors have career options quite similar to those of students with baccalaureate degrees in the humanities and social sciences and a PAS minor often enhances the employability of students who major in other fields.

Increasingly, PAS majors are also finding career opportunities specific to the discipline itself. Such opportunities are most common in social, cultural and educational agencies/organizations, and in business and international affairs initiatives that concern people of color. Other PAS graduates choose to pursue graduate degrees.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Paralegal Studies (AA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Associate of Arts in Paralegal Studies (PRLSAA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s) Department: Political Science (http://www.louisville.edu/a-s/polsci)

The Associate of Arts Program in Paralegal Studies is not currently accepting applications for Admission.

<tr>
<td>Minimum Total Hours</td>
<td></td>
<td>63</td>
</tr>
</tbody>
</table>
Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives may be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Completion of this degree requires work to be submitted for the program’s Learning Outcomes Measurement. For details, contact the program director (http://louisville.edu/politicalscience/paralegal).

Completion of this degree also requires a 2.5 minimum cumulative grade point average and a minimum 2.75 grade point average on courses in Paralegal Studies.

The Paralegal Studies Program utilizes the university-wide policy regarding transfer credits for all courses. However, the program maintains the following policy for the transfer of legal specialty course credits from other institutions:

1. No more than 6 semester hours will be permitted to be transferred as paralegal specialty courses (either paralegal core or paralegal electives).
2. The courses must be taken in a traditional classroom setting (i.e. no online courses will be accepted).
3. The courses must apply to the established curricula of the Paralegal Studies Program.
4. Students are required to indicate whether the institution is ABA approved.
5. Students must provide a syllabus or similar comprehensive summary of the completed course.
6. Students must provide official transcripts.

It is the responsibility of the transferring student to request an evaluation of credits prior to course enrollment; to request an official transcript from the transferring institution; to submit the necessary materials, including copies of the appropriate catalog and/or syllabus describing courses previously taken, and to pursue the status of that evaluation upon enrollment. The student must have completed the admissions process before transfer credits are officially evaluated.

NOTE: Upon being accepted into the Paralegal Studies Program, students are required to take at least 10 semester hours of legal specialty courses in a traditional classroom setting.

Departmental Admission Requirements

The Associate of Arts Program in Paralegal Studies is not currently accepting applications for Admission.

General Education Requirements

Minimum Total Hours 31

Completion of this degree also requires a 2.5 minimum cumulative grade point average and a minimum 2.75 grade point average on courses in Paralegal Studies.

No more than 6 semester hours from another institution will be permitted to be transferred as paralegal specialty courses (either paralegal core or paralegal electives). Other conditions may apply to transfer credits (see Overview).

1. May be incorporated into other degree requirements
2. Fulfills General Education requirement
3. Required of students with no paralegal background
Philosophy (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Philosophy (PHILBA)
Unit: College of Arts and Sciences (http://www.louisville.edu/a-s) Department: Philosophy (http://louisville.edu/philosophy)

Program Information
The Department of Philosophy offers a wide range of introductory to graduate-level courses in the major subject areas and various traditions of philosophy, with particular strengths in applied ethics and social/political philosophy. The interdisciplinary scope of most of its courses is one of the Department’s most salient features. The Department’s faculty has achieved exceptional research productivity and outstandingly high student evaluations.

Completion of this degree requires work to be submitted for the program’s Learning Outcomes Measurement. For details, contact the department.

Minimum Total Hours 47
PHIL 538  Critical Social Theory
PHIL 581  Current Controversies in Health Care Ethics
PPE 300  Introduction to Philosophy, Politics, and Economics - SB

Supporting Courses
Electives in Social Sciences Division at 300 level or above  23  6
Electives in Social Sciences Division at 400 level or above  3  6
Minimum Electives  29

Minimum Total Hours  47

1  Fulfills WR requirement.
2  It is strongly recommended that three hours be devoted to each of “theory” and “methods” as defined by a particular social science discipline. Student should seek advising with the departmental undergraduate adviser to determine appropriate courses.
3  In addition to courses counted for General Education or college programmatic requirements.

Fall
This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Physics (PHYSBA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: Physics and Astronomy (http://www.physics.louisville.edu)

Program Information
The Bachelor of Arts (BA) degree in Physics is designed for substantial pre-professional education for such fields as medicine, patent law, teaching, technical writing, and technical sales. Students preparing for secondary school science teaching may choose electives to help fulfill teaching certification requirements.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Minimum Total Hours: 16

At least 50 of the total minimum hours required must be at the 300 level or above.

#### Culminating Undergraduate Experience (Graduation requirement)

Requirement fulfilled by completing one of the following:

- PHYS 430 Practicum in Physics Education - CUE
- PHYS 496 Senior Seminar in Physics - CUE, WR
- PHYS 497 Senior Thesis in Physics - CUE, WR
- PHYS 499 Cooperative Internship in Physics - CUE

1. Ten credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree.
2. Completion of the intermediate level of a single foreign language.
3. In addition to courses counted toward General Education, 6 hours must be at the 300 level or above.
4. May be incorporated into other degree requirements.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Physics (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Physics (PHYSBS)

Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: Physics and Astronomy (http://www.physics.louisville.edu)

Program Information

The Bachelor of Science (BS) degree is intended as preparation for entry into graduate programs in Physics and other scientific or engineering fields. It also provides suitable training for entering the workforce in a technical position.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

1 Twelve credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BS/MS (Master of Science) in Physics Program

The Department of Physics and Astronomy also offers a five-year accelerated program leading to a Bachelor of Science degree and Master of Science degree in Physics. Interested students should apply for admission to the program in the first semester of the senior year (i.e., after completing 90 hours).
Applicants must completed at least 21 credit hours in Physics before applying to the program with at least a 3.0 GPA in Physics courses and a 3.35 university GPA. Students take up to nine (9) credit hours in 500-level physics courses for graduate credit that may be applied to both degrees. Two of the courses must be PHYS 542 and PHYS 556; preferably, these courses will be taken during the same semester in the student’s senior year. Students must also maintain a 3.0 GPA after they are admitted to the BS/MS program.

Departmental Admission Requirements

There are no specific admission requirements for this degree plan.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Accelerated BS/MS (Master of Science) in Physics Program

Applicants apply for admission to the five-year accelerated program in the first semester of the senior year and must meet the following criteria:

- The applicant will have completed at least 21 credit hours in Physics before applying to the program.
- The applicant will have maintained at least a 3.0 GPA in Physics courses and a 3.35 GPA overall.

All applicants must submit an application along with GRE General test score consistent with MS in Physics program (p. 1017) guidelines.

Political Science (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Political Science (POLLSBA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: Political Science (http://louisville.edu/politicalscience)

Program Information

Bachelor of Arts in Political Science program at UofL cultivates an understanding of policy, politics and governments in the United States and around the globe. We offer a wide range of courses including campaigns and elections, the Presidency and Congress, social movements and civil rights, terrorism and war, constitutional law, environmental policy, religious politics, urban politics and poverty, and international politics. The department is a particularly inviting environment for students, with small class sizes, our own building, a computer lab, and options to specialize via several tracks in our major.

Political Science majors at the University of Louisville have been extremely successful in earning prestigious scholarships and fellowships. The roster of recent successes includes numerous Fulbright Award winners and multiple Truman Scholars. Since 2010, three of our students have won the annual Mary Churchill Humphrey scholarship, often described as UofL’s Rhodes Scholarship because it supports graduate study in Great Britain. Many of our majors go on to have successful careers in government, international affairs, nongovernmental organizations, business, academia, and media.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)
Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree.

Political Science offers three BA options (two tracks and one non-track). For all three options, including the non-track, please refer to the Track Requirements tab.

Specific coursework information can be found on the Degree Requirements tab.

**Accelerated BA-BS/MA**

The Department of Political Science also offers its undergraduate majors an opportunity to earn both a BA (or BS) degree and an MA degree at an accelerated pace. This program allows students to complete one semester (9 credit hours) of graduate coursework while enrolled as undergraduate students. Typically, students finish their MA degrees within three semesters of completing their undergraduate degrees.

Applicants must meet the general requirements for admission to the School of Interdisciplinary and Graduate Studies and must submit an application to the Department of Political Science. Applicants should have an undergraduate major or minor in social science or have sufficient alternative preparation in the social sciences.

**Departmental Admission Requirements**

There are no specific admission requirements for this degree plan.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

POLS 404  Topics in Political Theory
POLS 504  Topics in Political Theory - WR
POLS 568  Feminist Theory - WR

Political Science Electives 6

Supporting Courses

ECON 202  Principles of Macroeconomics - SB 3

Electives in Social Sciences other than Political Science, with 9 hours at the 300-level or above 15

Minimum Electives 14

Minimum Total Hours 53

1 The department encourages students to satisfy a portion of the elective requirement through completion of experiential learning courses such as POLS 430, POLS 465, POLS 510, POLS 511, POLS 520 or POLS 530.

2 POLS 399 may be an appropriate elective under any category depending on its topic in a given semester. A student must obtain her/his advisor’s approval before attempting to use this course to satisfy an area requirement.

3 POLS 333 may be used as an elective option under Public Policy or International Relations. It may only satisfy one requirement. It may not be used to satisfy both requirements.

4 POLS 341 may be used as an elective option under International Relations and Comparative Politics. It may only satisfy one requirement. It may not be used to satisfy both requirements.

5 POLS 363 may be used as an elective option under International Relations and Comparative Politics. It may only satisfy one requirement. It may not be used to satisfy both requirements.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Political Science (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Political Science (POLSBS)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s) Department: Political Science (http://louisville.edu/politicalscience)
Program Information

Bachelor of Science in Political Science program at UofL cultivates an understanding of policy, politics and governments in the United States and around the globe. We offer a wide range of courses including campaigns and elections, the Presidency and Congress, social movements and civil rights, terrorism and war, constitutional law, environmental policy, religious politics, urban politics and poverty, and international politics. The department is a particularly inviting environment for students, with small class sizes, our own building, a computer lab, and options to specialize via several tracks in our major.

Political Science majors at the University of Louisville have been extremely successful in earning prestigious scholarships and fellowships. The roster of recent successes includes numerous Fulbright Award winners and multiple Truman Scholars. Since 2010, three of our students have won the annual Mary Churchill Humphrey scholarship, often described as UofL's Rhodes Scholarship because it supports graduate study in Great Britain. Many of our majors go on to have successful careers in government, international affairs, nongovernmental organizations, business, academia, and media.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

</tr>
</tbody>
</table>

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BA-BS/MA

The Department of Political Science also offers its undergraduate majors an opportunity to earn both a BA (or BS) degree and an MA degree at an accelerated pace. This program allows students to complete one semester (9 credit hours) of graduate coursework while enrolled as undergraduate students. Typically, students finish their MA degrees within three semesters of completing their undergraduate degrees.

Applicants must meet the general requirements for admission to the School of Interdisciplinary and Graduate Studies and must submit an application to the Department of Political Science. Applicants should have an undergraduate major or minor in social science or have sufficient alternative preparation in the social sciences.

Departmental Admission Requirements

There are no specific admission requirements for this degree plan.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

General Education Requirements

</tr>
</tbody>
</table>

All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

Track in Paralegal Studies (POLSBS PAR)

Note: Completion of the BS in Political Science with Paralegal Track is not, without dual completion of the Associate of Arts in Paralegal Studies, designed to prepare students for a career as a paralegal, nor does it constitute a Paralegal degree from an ABA-accredited program.

Completion of the Associate of Arts in Paralegal Studies requires at least 10 semester hours of legal specialty coursework to be completed through traditional classroom instruction.

The Associate of Arts Program in Paralegal Studies is not currently accepting applications for Admission.

MATH 107 is not approved to satisfy the Cardinal Core program's Quantitative Reasoning (QR) requirement. Students who opt to take MATH 107 will need to take an approved QR course as one of their general electives.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)
Psychology (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Psychology (PSYCBA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: Psychological and Brain Sciences (http://louisville.edu/psychology)

Program Information

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs).

The BA in Psychology prepares students for most bachelor’s-level careers as well as graduate school in psychology and other professional domains. Students develop the critical thinking and communication skills necessary to gather, interpret and present data. Psychology students can become intelligent consumers of information and active investigators of the fields of cognition, behavior, and brain science and how each facet of psychology impacts everyday decision-making.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

1. Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Admission to the major in Psychology requires:

1. Completion of PSYC 201 with a minimum grade of C;
2. Completion of MATH 111 or higher level Math course;
3. Completion of PSYC 301 Statistics for Psychology (or approved substitute) with a minimum grade of C;
4. Completion of 30 hours of degree-applicable credit with a minimum grade point average of 2.0; and
5. A minimum grade point average of 2.0 in Psychology.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Psychology (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Psychology (PSYCBS)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s) Department: Psychological and Brain Sciences (http://louisville.edu/psychology)

Program Information
This degree program is designed to accommodate the needs of majors who intend to pursue careers health or science fields and includes most of the required course work for a pre-med curriculum. This program requires a demanding sequence of supporting classes in biology, chemistry, physics, mathematics beyond the introductory level, as well as increased hours of electives in the major.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Minimum Total Hours 121

1. Students earning the BS in Psychology will satisfy at least 10 hours of General Education Requirements by courses defined by the program. Students who use take MATH 205 and also apply it to satisfy the Quantitative Reasoning requirement will satisfy 13 hours. In either case, students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements
Admission to the major in Psychology requires:

1. Completion of PSYC 201 with a minimum grade of C;
2. Completion of MATH 111 or higher level Math course;
3. Completion of PSYC 301 (or approved substitute) with a minimum grade of C;
4. Completion of 30 hours of degree-applicable credit with a minimum grade point average of 2.0; and
5. A minimum grade point average of 2.0 in Psychology.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

1. Completion of the second semester of a single foreign language; hours will vary depending on the language taken
2. In addition to courses counted toward General Education
3. May be incorporated into other degree requirements
4. Fulfills a General Education Requirement.
5. Students who substitute a statistics course from another department will need to take an additional Psychology elective to complete the required number of Psychology hours for the program.
6. At least 50 of the total minimum hours required for the degree must be at the 300 level or above.
7. Students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.
8. Or higher level course
Public Health (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Public Health (PH BA)
Unit: Public Health and Information Sciences (http://louisville.edu/sphis)

Program Information

The School of Public Health and Information Sciences (SPHIS) offers two undergraduate degree options: Bachelor of Science in Public Health for students focused on public health practice and Bachelor of Arts in Public Health for liberal studies.

A degree in public health provides students with the skills they need to improve the health of populations and communities, as well as alleviate suffering caused by disease, injuries and health disparities. Public Health majors learn how to inquire, challenge and explore options that promote the health and well-being of the community.

A BA in Public Health prepares students for positions in specific sectors of public health, health services, and public policy, with career opportunities in health education, health care administration, health research, environmental health, and more. Examples of job settings could include colleges and universities, federal and state health agencies, and community and international organizations. Both degrees prepare students for advanced degrees in public health, law, and clinical health professions (i.e., PA, PT, Nursing, Pharmacy, Medicine, and Dentistry).

Minimum Total Hours 120

1 Some credit hours from the General Education Requirements may be satisfied by courses defined by the school, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.
Departmental Admission Requirements

Admission requirements depend on a student's educational and public health experience, outlined as follows:

Entering First-Year Students
1. Either of the following:
   a. Graduation from accredited high school
   b. Successful completion of General Education Development (GED) tests
2. High school GPA of 2.5 or higher
3. Pre-College Curriculum (PCC) GPA of 2.5 or higher
4. Either of the following:
   a. ACT/SAT score of 21/980 or higher
   b. ACT/SAT score of 19/940 or higher AND PCC GPA of 3.0 or higher

Transfer Students
Transfer students with fewer than 24 credit hours
1. College GPA of 2.0 or higher
2. Either of the following:
   a. Graduation from accredited high school
   b. Successful completion of General Education Development (GED) tests
3. High school GPA of 2.5 or higher
4. Pre-College Curriculum (PCC) GPA of 2.5 or higher (see Note 1, below)
5. Either of the following:
   a. ACT/SAT score of 21/980 or higher
   b. ACT/SAT score of 19/940 or higher AND PCC GPA of 3.0 or higher

Transfer student with 24 credit hours or more
College GPA of 2.0 or higher

UofL Student Switching Major
University GPA of 2.0 or higher

Post-baccalaureate Student
• Degree posted

KY Public Health Workers
Individuals not meeting criteria for any of above categories can be admitted conditionally with:
1. Either of the following:
   a. Graduation from accredited high school
   b. Successful completion of General Education Development (GED) tests
2. A salaried public health position with continuous employment for previous three years or more
3. Approval of Public Health Appeals Committee

</table>

For this degree, the following apply for courses counting toward the degree:

• A course that meets a requirement for more than one of general education may be counted toward at most two requirement areas.
• The credit-hour requirement, however, is not altered by double-counting courses in two different requirement areas and must be fulfilled with electives.
**Culminating Undergraduate Experience (Graduation requirement)**

Requirement fulfilled by completing the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>

<tr>
<td>PHPH 492</td>
<td>Senior Capstone 2 - CUE</td>
<td></td>
</tr>
</tbody>
</table>

1. If 6 hours are taken for foreign language, additional hours of electives (any level) are required.
2. Students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.

**Public Health (BS)**

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Arts in Public Health (PH BS)**

Unit: Public Health and Information Sciences (http://louisville.edu/sphis)

## Program Information

The School of Public Health and Information Sciences (SPHIS) offers two undergraduate degree options: Bachelor of Science in Public Health for students focused on public health practice and Bachelor of Arts in Public Health for liberal studies.

A degree in public health provides students with the skills they need to improve the health of populations and communities, as well as alleviate suffering caused by disease, injuries and health disparities. Public Health majors learn how to inquire, challenge and explore options that promote the health and well-being of the community.

A BS in Public Health prepares students for positions in specific sectors of public health, health services, and public policy, with career opportunities in health education, health care administration, health research, environmental health, and more. Examples of job settings could include colleges and universities, federal and state health agencies, and community and international organizations. Both degrees prepare students for advanced degrees in public health, law, and clinical health professions (i.e., PA, PT, Nursing, Pharmacy, Medicine, and Dentistry).

1. Some credit hours from the General Education Requirements may be satisfied by courses defined by the school, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.
Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements
Admission requirements depend on a student's educational and public health experience, outlined as follows:

Entering First-Year Students
1. Either of the following:
   a. Graduation from accredited high school
   b. Successful completion of General Education Development (GED) tests
2. High school GPA of 2.5 or higher
3. Pre-College Curriculum (PCC) GPA of 2.5 or higher
4. Either of the following:
   a. ACT/SAT score of 21/980 or higher
   b. ACT/SAT score of 19/940 or higher AND PCC GPA of 3.0 or higher

Transfer Students
Transfer students with fewer than 24 credit hours
1. College GPA of 2.0 or higher
2. Either of the following:
   a. Graduation from accredited high school
   b. Successful completion of General Education Development (GED) tests
3. High school GPA of 2.5 or higher
4. Pre-College Curriculum (PCC) GPA of 2.5 or higher (see Note 1, below)
5. Either of the following:
   a. ACT/SAT score of 21/980 or higher
   b. ACT/SAT score of 19/940 or higher AND PCC GPA of 3.0 or higher

Transfer student with 24 credit hours or more
College GPA of 2.0 or higher

UofL Student Switching Major
University GPA of 2.0 or higher

Post-baccalaureate Student
• Degree posted

KY Public Health Workers
Individuals not meeting criteria for any of above categories can be admitted conditionally with:
1. Either of the following:
   a. Graduation from accredited high school
   b. Successful completion of General Education Development (GED) tests
2. A salaried public health position with continuous employment for previous three years or more
3. Approval of Public Health Appeals Committee

General Education Requirements
General Education Requirements (http://catalog.louisville.edu/undergraduate/general-education-requirements)

The following courses are either required by the program or can be taken to fulfill a requirement within the program, and can be taken to fulfill the respective General Education Requirement:

<table>

For this degree, the following apply for courses counting toward the degree:

- A course that meets a requirement for more than one of general education may be counted toward at most two requirement areas.
- The credit-hour requirement, however, is not altered by double-counting courses in two different requirement areas and must be fulfilled with electives.

**Culminating Undergraduate Experience (Graduation requirement)**

Requirement fulfilled by completing the following:

PHPH 491 Senior Capstone 1 - CUE 3
PHPH 492 Senior Capstone 2 - CUE 3

1. Or higher level biology course with lab.
2. If 6 hours are taken for foreign language, additional hours of electives (any level) are required.
3. Waived and replaced with any 300-level (or above) biology course for students who have taken BIOL 257 or BIOL 357.
4. Or higher chemistry course or another approved non-biological science course; students selecting a 4-hour course may require fewer general electives to satisfy the minimum hours for the degree.
5. Students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.

---

**Social Work (BSW)**

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Social Work (SW BSW)**
Unit: Kent School of Social Work (KE) (http://louisville.edu/kent)

Program Information

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs).

The Bachelor of Social Work program at the Kent School of Social Work prepares students for entry-level professional social work practice. It also provides the foundation for graduate study in social work. The program is accredited by the Council on Social Work Education (CSWE).

The BSW Program Curriculum builds on a liberal arts base. The curriculum is designed to promote the development of generalist social work knowledge and skills in using critical thinking to analyze, plan and implement effective interventions to address complex social problems and the subsequent impact on individuals, families, groups, organizations and communities. Students gain experience through service learning and social work practicum.

Upper Division Social Work Elective 3

Minimum Total Hours 57

### Code | Title | Hours
--- | --- | ---
**Culminating Undergraduate Experience (Graduation requirement)**

Requirement fulfilled by completing:

- SW 472 Practicum Seminar and Lab I - CUE

1. Six (6) hours of Diversity (D1/D2) coursework is required. If these competency areas are not covered as part of the program requirements and/or general elective coursework, 6 additional hours will be needed to fulfill the University of Louisville competency-area requirements.

2. Or equivalent as approved/decided by the unit

3. Students who satisfy General Education Requirements by courses defined by the program will require additional electives to complete the minimum hours for the degree.

4. Students must have a minimum total of 60 credit hours to complete the Lower Division requirements.

5. Two of the four Upper Division Social Work Elective courses may be from the College of Arts and Sciences, Division of Social Sciences (minimum 300 level). Please contact the BSW Advising Team should you have questions.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)
Sociology (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Sociology (SOC BA)
Unit: College of Arts and Sciences (AS) (https://louisville.edu/artsandsciences)
Department: Sociology (http://louisville.edu/sociology)

Program Information
This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs).

Students in the Bachelor of Arts (BA) in Sociology program learn to take an analytical, evidence-driven approach to social issues, as well as gain the interpersonal communication skills necessary to craft persuasive narratives grounded in critical thought. Sociology students focus on diversity and inequality and use their analytical insight into social structures for effective formulation and implementation of democratic social policy.

Those interested in sociology are intrigued by the challenging social issues pervading our world, how society influences and is influenced by them, and how to effectuate change. BA in Sociology students learn how to address these issues through scientific research and application, and, as our world continuously evolves, sociology students are well prepared to offer insight into these changes and how best to accommodate them.

Given the breadth, adaptability, and utility of sociology, employment opportunities are plentiful in social service agencies; federal, state, and local governments; non-profit organizations; and private enterprises.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BA-BS/MA in Sociology

The Department of Sociology offers an accelerated master's degree program, which is designed to allow motivated undergraduates the opportunity to earn graduate credit hours in sociology during their senior year. As undergraduates, accelerated students may earn between 6-9 credit hours (taking 2-3 graduate level courses), which are applied toward both the undergraduate degree as well as the graduate degree, allowing students to begin the graduate program in sociology with credits already applied toward their MA degree.

The graduate courses taken during the student’s senior year will depend on the courses the student has remaining to complete his/her undergraduate degree in sociology. The undergraduate advisor works individually with accelerated students regarding their course schedules.

NOTE: Students in the accelerated program in sociology may only apply their graduate credits earned as an undergraduate toward the graduate degree in sociology at UofL.

To be admitted to the program, a student must have: an undergraduate GPA of 3.35 or better at the time of application and satisfactory GRE scores (see Admissions tab for more information).

Departmental Admission Requirements

Admission to the BA in Sociology requires:

1. completion of SOC 301 with a grade of C or better;
2. a minimum cumulative grade point average of 2.0; and
3. a minimum grade point average of 2.0 in any courses in Sociology.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Accelerated BA-BS/MA in Sociology Application Procedure

Students must apply during the first or second semester of Junior year (i.e., when they have earned between 70-80 hours) by submitting the following to the Graduate Admissions Office:

- G (http://louisville.edu/graduate/futurestudents/apply-materials/application)graduate application (http://louisville.edu/graduate/futurestudents/apply-materials/application)
- Two references (preferably from sociology instructors) in the form of a discursive letter of recommendation and completion of the Letter of Evaluation form (https://sharepoint.louisville.edu/sites/SIGS/Documents/grad-rec.pdf)
- Curriculum vitae (CV) or resume
- GRE scores.

Applicants must also submit to the Department of Sociology responses to the Sociology Graduate Admissions Questionnaire (below). Responses should be of sufficient length to give the Graduate Admissions Committee a basis for evaluating the student’s interest.
in and ability to complete the program, and provide a sample of the student’s writing. Responses can be submitted in four separate essays or combined in one longer essay.

Admissions Questionnaire

1. Please explain your reasons for applying to the accelerated master’s program in sociology. What are your professional or occupational objectives (including any study beyond the master of arts in sociology)? How does this department’s program fit into those objectives?
2. What areas of sociology do you find especially interesting for study and/or research?
3. What positions of responsibility, if any, have you had, and what, specifically, do you believe you have gained from such experience? Positions may include not only employment, but offices held in organizations, volunteer work, etc.
4. Please summarize what you believe to be your most important accomplishments to date, including those in the academic or occupational areas.

Bachelor of Science in Sociology (SOC BS)
Unit: College of Arts and Sciences (AS) (https://louisville.edu/artsandsciences)  
Department: Sociology (http://louisville.edu/sociology)

Program Information

Sociology students learn how to address these issues through scientific research and application, and, as our world continuously evolves. Sociology majors are well prepared to offer insight into these changes and how best to accommodate them. Sociology majors are offered a rich environment within which to develop skills in critical thinking, analytic problem-solving, and communication that are required by employers and/or that prepare them for a range of graduate programs.

Given the training in research methods, statistics, and topical areas, employment opportunities for sociology majors are plentiful in social service agencies; federal, state, and local governments; nonprofit organizations; and private enterprises. The emerging global economic order and the increased complexity of corporate cultures promise to open even more opportunities for our graduates. Some sociology majors help companies develop global marketing strategies, and others work to enhance the culture and organization of corporations.

Sociology students pursue careers in a variety of fields: business, child welfare, computer industry, criminal justice, education (teaching, evaluation research, consultation, research), gerontology, health care, international relations, law, law enforcement, leisure/recreation/sport, military/military intelligence, social work, and urban planning or management, and more.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Minimum Total Hours 75-77

Only 60 hours in the major department may be applied toward the Bachelor of Science degree.

Sociology majors may take no more than six hours of “Special Topics” courses in sociology to meet degree requirements.

At least 50 of the total minimum hours required must be at the 300 level or above.

Completion of this degree requires completion of SOC 303 and SOC 320 with a grade of C or better.
Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.

4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

Spanish (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Spanish (SPAN BA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s)
Department: Classical and Modern Languages (http://www.louisville.edu/modernlanguages)

Program Information

The Spanish program offers two options for students wishing to complete the Spanish Major.

The Spanish as a Second Language (SL) serves students whose primary experience with Spanish has been in the classroom. Students may place into SPAN 201 or higher through the online placement (http://louisville.edu/modernlanguages/placement-exam/spanish-french-russian-and-german-placement-exam.html) exam.

The Spanish as a Heritage Language (HL) offers courses for individuals who grew up in Spanish-speaking environments and are able to communicate, to some extent, in more than one language. Some students are immigrants who have recently arrived in the United States and have had extensive schooling in their native countries. Others are first-, second-, or third-generation bilinguals whose abilities in the heritage language vary widely. Placement into Heritage Learner courses is done through departmental evaluation (http://louisville.edu/modernlanguages/placement-exam/spanish-heritage-learners.html).

The Accelerated BA/MA program is an accelerated option for motivated and highly prepared students who wish to prepare themselves for the global economy, a multicultural community, and a changing workplace through the study of Language, Culture, Linguistics, Translation, Interpretation, and Spanish in the Workplace. It seeks to prepare our students to speak the language in a variety of settings, and to use linguistics skills and cultural knowledge for both academic and non-academic careers.

Students accepted into the combined BA/MA program will complete all the coursework for the Spanish BA. However, during their senior year, students will take three graduate level courses, which will meet both undergraduate and graduate requirements in Spanish. Students remain enrolled as undergraduate students until completion of the BA. At that point, they are officially admitted to the graduate program, and enroll as graduate students for the remainder of the coursework for the MA.

Students accepted into the program will be eligible to apply for Graduate Assistantships. Assistantships can only be awarded for the year following completion of the undergraduate degree.

Interested students should be in their junior (third) year of undergraduate work (with no more than 90 degree applicable hours), with an overall GPA of 3.35 (see Admissions tab for more information).

Departmental Admission Requirements

Admission to the BA in Spanish requires a minimum cumulative grade point average of 2.0 and a minimum grade point average of 2.0 on courses in the major.

The Application for Major form can be found on the Arts & Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

Accelerated BA/MA (Master of Arts) in Spanish

At the time of application, students must have:

- A 3.35 undergraduate GPA
- Completed required 300-level SPAN courses (e.g., SPAN 321) with grades of B or better.

It is also recommended that students have completed one course at the 400 level before applying.

Students should contact the Spanish graduate advisor for more information.
General Education Requirements

All degrees require the completion of the University-wide General Education Program (link provided above). Some General Education requirements may be met in the requirements for the major or supporting coursework, in which case additional electives may be required to complete the minimum hours for the degree.

College/School Requirements

Program/Major Requirements

Code | Title | Hours
---|---|---
GEN 100 | Student Success Center Orientation | 1
or GEN 101 | Arts and Sciences Orientation |
Foreign Language | 12
Electives in Natural Sciences or Social Sciences | 9
WR—two approved courses at the 300 level or above | 3
Minimum Total Hours | 22

Spanish Core Courses

Code | Title | Hours
---|---|---
SPAN 201 | Intermediate Spanish I | 6
& SPAN 202 | Intermediate Spanish II |
or SPAN 205 | Intensive Intermediate Spanish for Heritage Learners |
Select one of the following sequences: | 6-12
Sequence One:
| SPAN 305 | Spanish Grammar in Context |
| SPAN 310 | Readings and Writing in Spanish I |
| SPAN 311 | Cultural Readings and Writing in Spanish II |
| SPAN 321 | Communication and Conversation in Spanish |
Sequence Two:
| SPAN 325 | Bridging Linguistic Registers for Heritage Learners of Spanish |
| SPAN 335 | Advanced Spanish for Heritage Learners |
Select two of the following: | 6
| SPAN 401 | Foundations of Spanish Civilization |
| SPAN 402 | Cultural and Literary Perspectives on Modern Spain |
| SPAN 403 | Foundations of Latin American Nations and Identities |
| SPAN 404 | Cultural and Literary Perspectives on Modern Latin America |
| SPAN 490 | Spanish Capstone Seminar - CUE, WR |
| SPAN 524 | Introduction to Hispanic Linguistics |
Spanish electives at the 300 level or above | 6-9

Supporting Courses

Electives in Humanities Division disciplines, other than Spanish, at 300 level or above | 6
Minimum Electives | 23-26
Minimum Total Hours | 68

Culminating Undergraduate Experience (Graduation requirement)

Requirement fulfilled by completing:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 490</td>
<td>Spanish Capstone Seminar - CUE, WR</td>
</tr>
</tbody>
</table>
1. Completion of the intermediate level of a single foreign language
2. In addition to courses counted toward General Education; 6 hours must be at 300 level or above
3. May be incorporated into other degree requirements
4. Majors in one foreign language may count courses at the 300 level or above in another foreign language toward this requirement.

No more than 40 hours in Spanish may be applied toward the Bachelor of Arts degree. SPAN 121, SPAN 122, and SPAN 123 and SPAN 141 and SPAN 142 do not count toward the 40 hour maximum in Spanish.

At least 50 of the total minimum hours required must be at the 300 level or above.
Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

**Program Information**

This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs).

Sport administration (SPAD) is the business side of sport.

Sport managers deal with all of the business aspects surrounding sport organizations and sporting events such as leadership, organizational behavior, marketing, finance, law, facility management, fundraising, event management, multimedia, sponsorships, and promotion.

The University of Louisville offers a Bachelor of Science in Sport Administration. The undergraduate program is designed to prepare students to enter careers in the sport industry. The SPAD program has a diverse student population representing a variety of geographical, cultural, educational, and professional backgrounds. Our students gain valuable experience working, interning, and volunteering on many significant service-learning projects for local and community agencies. We utilize many guest lecturers from sport business organizations each semester to speak with our students about how to excel as a business professional in the sport industry.

### Degree Summary

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

**To create either report:**

1. Log into your ULink account.
2. Click on the Student Services tab.
3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)

---

# Sustainability (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

**Bachelor of Arts in Sustainability (SUSTBA SUS, SUSTBA PGS, SUSTBA SS)**

Unit: College of Arts and Sciences (http://www.louisville.edu/a-s)

Program Website: louisville.edu/upa/programs/bachelors-of-sustainability
Program Information
The BA in Sustainability is an interdisciplinary approach to understanding issues, problems and solutions in sustainability, with a goal of preparing students to engage with these issues on multiple levels in the workplace and in their community.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact department.

Theatre Arts (BS)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Science in Theatre Arts (TA BS)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s) Department: Theatre Arts (http://www.louisville.edu/a-s/ta)

Program Information
As part of the College of Arts and Sciences, the Theatre Arts is committed to a liberal arts education for our undergraduate students and professional training for graduate students. The ancient art of theatre is most fully understood and exists at its deepest form of expression through the creation of performances shared with an audience. Doing so demands a deep array of knowledge and skill combined with a professional attitude and work ethic that can serve students throughout their lives in whatever profession they pursue.

All Theatre Arts Undergraduate Majors are required to fulfill course requirements for the College of Arts and Sciences, General Education and Programmatic/Supporting Courses.

Theatre Arts Requirements are split into four core areas: Academics, Performance, Production, and African American Theatre. TA Majors also have opportunities for electives and a Culminating Undergraduate Experience in their final year.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

**Performance Core**
- TA 320 Acting I
- TA 321 Acting II
- or TA 533 Stage Management

Select one of the following:
- TA 322 Acting The Black Experience - AH, D1
- TA 330 Directing
- TA 357 Introduction to Hip-Hop Theatre - AH, D1, WR
- TA 367 Black Dramatic Literature - AH, D1

**Electives in the Division of Humanities, other than Theatre Arts, at the 300 level or above**
- HUM 596
- HUM 595
- HUM 594
- HUM 593
- HUM 592
- HUM 591

**Production Core**
- TA 240 Stagecraft I
- TA 241 Stagecraft II

Select one of the following:
- TA 340 Introduction to Scene Design
- TA 345 Introduction to Costume Design
- TA 349 Introduction to Stage Lighting

**African American Theatre Core**
- TA 326 Cultural Diversity in Performance - AH, D1
- TA 366 History of the African-American Theatre - AH, D1, WR

Select one of the following:
- TA 322 Acting The Black Experience - AH, D1
- TA 363 African-American Women in Theatre - AH, D1, WR
- TA 423 Directing the Black Experience

**Performance/Production Projects**
- TA 350 Theatre Performance and Production (6 productions, generally one-half credit each) 4
- TA 550 Culminating Undergraduate Experience Practicum - CUE

**Supporting Courses**
- Select one of the following:
  - HUM 591 Perspectives on Ancient Culture - WR
  - HUM 592 Perspectives on Medieval Culture - WR
  - HUM 593 Perspectives on Early Modern Culture - WR
  - HUM 594 Perspectives on Modern Culture - WR
  - HUM 595 Principles of Cultural History - WR
  - HUM 596 Selected Perspectives in Humanities - WR

**General Electives** 5

Minimum Total Hours 75-77

Only 60 hours in the major department may be applied toward the Bachelor of Science degree.

At least 50 of the total minimum hours required must be at the 300 level or above.

Women's and Gender Studies (BA)

This program was approved for students entering the university in the Summer 2018–Spring 2019 catalog year. For more information about catalog year, go to Catalog Year Information (p. 77).

Bachelor of Arts in Women's and Gender Studies (WGSTBA)
Unit: College of Arts and Sciences (AS) (http://www.louisville.edu/a-s) Department: Women's and Gender Studies (http://www.louisville.edu/a-s/ws)

Program Information
This program can be completed in a traditional classroom format or entirely online (http://louisville.edu/online/programs).

Women's and gender studies is an interdisciplinary major that draws its questions and approaches from the humanities, social sciences, natural sciences, and arts. It helps students to develop theoretical, empirical, and methodological perspectives for studying gender as a crucial category for understanding the world. We offer extremely flexible scheduling for our majors: we have three core courses, offered regularly; students are allowed a fair amount of control in selecting the classes that will be most helpful to them in their chosen career path to complete the remainder of their requirements. Our students are required to engage in service learning opportunities outside the university, giving them useful career experience. Students in our program also find it easy to double major, if they so desire.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. For both reports, please consult with your advisor before editing your course schedule.

To create either report:
1. Log into your ULink account.
2. Click on the Student Services tab.

3. Next, click on "View my Academic Advisement Report" to run a Degree Audit report in the Undergraduate Advising area.
4. To create a What-if report, click on "Create a What-if Advisement Report."

Click here to run a Degree Audit report, or create a What-if report. (https://ulink.louisville.edu)
Some courses required in this degree program can satisfy multiple requirements. Using other courses to satisfy General Education requirements will require additional hours to complete the degree requirements or reduce the number of available electives. See the Degree Requirements and Track tabs for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

**Accelerated BA-BS/MA in WGS**

Women's and Gender Studies majors who are already thinking about pursuing an MA in Women's and Gender Studies can speed up the process by applying some of their undergraduate credit hours toward a master's degree. The basic idea is to take three graduate level courses/nine hours (either 500-level with the additional graduate level assignments, or 600-level) while still an undergraduate, and then have those credits apply both toward the undergraduate degree and towards an eventual master's degree from UofL.

Students in the accelerated Master of Arts in Women's and Gender Studies program may take a maximum of nine hours for graduate credit, which will also apply to the requirements for the baccalaureate degree. To be considered for admission to the Accelerated Master of Arts in Women's and Gender Studies program, students must:

- Complete an application for admission to the Women's and Gender Studies Department's Master of Arts program (including GRE scores, transcripts, two letters of recommendation, a statement of purpose, and a writing sample) no later than the end of their junior year.
- Have a minimum overall grade point average (GPA) of 3.35, a Women's and Gender Studies GPA of 3.5, and meet all other requirements for admission to the Women's and Gender Studies Department's Master of Arts program.

Students must retain a 3.35 GPA in Women's and Gender Studies during their senior year to remain in the program. Once admitted to the accelerated BA/MA program and starting the graduate work, students are expected to maintain a full graduate load of 9 credit hours.

Students in the accelerated BA/MA program must meet all of the MA requirements including receiving at least 18 of their 36-hour program in 600-level, courses.

**Departmental Admission Requirements**

Admission to the BA in Women's and Gender Studies requires a minimum cumulative grade point average of 2.0 and a minimum grade point average of 2.0 on courses in the major.

The Application for Major form can be found on the Arts and Sciences Advising Center website: louisville.edu/artsandsciences/advising/apply.

**Accelerated BA-BS/MA in WGS**

Interested students should apply for entry into the accelerated program no later than the end of their Junior year.
