Admission Requirements

The School of Nursing offers the Bachelor of Science in Nursing (BSN). There are two degree curricula available to pursue the BSN: a Traditional BSN and an RN to BSN. **Additional Transfer Student Information**

**Awarding of transfer credit**
A student may earn college credit through a variety of mechanisms. Therefore, students seeking advanced standing through transfer of credit should seek advice from the Office of Student Services, School of Nursing, as soon as possible. Individual evaluations include:

1. Courses from accredited colleges and universities.
2. Course descriptions and outlines.
3. CLEP examinations.
4. Advanced Placement examinations.
5. Portfolio documentation, RN-BSN program only. Students in the RN-BSN program will receive 30 college credits from the university after successful completion of the portfolio course.
6. General Education Block Certifications by accredited Kentucky institutions are recognized.
7. The School of Nursing has a ten-year limit on science courses. Transfer credit for science courses taken prior to the last 10 years will be evaluated on an individual basis.
8. Other transfer courses are evaluated on an individual basis for currency and equivalency to required courses in the nursing curriculum. Science, English, and nursing courses taken at another college or university must have been passed with a grade of C or better in order to be transferred into the nursing curriculum. Generally, only courses equivalent to pharmacology and pathophysiology can be transferred into the School of Nursing degree program.

**Transfer Policy for Students Transferring from Other Schools of Nursing**
Applicants transferring from other schools of nursing will submit complete course syllabi and appropriate supporting documents to the School of Nursing Office of Student Services. These documents must be submitted at least six weeks prior to the application deadline. Syllabi and supporting documents will be reviewed by selected faculty and Office of Student Services staff for the purpose of evaluating course equivalency to University of Louisville courses. Course equivalency must be confirmed prior to admissions. When courses are approved, they become the course of record for that academic year. Nursing courses that have been approved for equivalency will remain equivalent for varying periods of time depending on the course. Nursing courses must be satisfactorily completed at an NLN or CCNE accredited nursing program in order to be considered as equivalent and transfer into the upper division curriculum.

A student who has previously failed two nursing courses at any school of nursing will not be eligible for admission to the Traditional BSN program. If a student has a previous nursing course failure, it will be considered the first failure by the University of Louisville Traditional BSN program. One additional failure of a nursing course at the University of Louisville will result in dismissal from the program.

**International Student Applicants**
