Academic Plan Code(s): NURABSN, NURABSNUD, NURABSNOW, NURABSNUDW

Program Information

The Accelerated Second Degree Bachelor of Science in Nursing program is a hybrid accelerated program that prepares students with a bachelor's degree in any area outside of nursing to become entry-level professional nurses. This program has two locations: Louisville, Kentucky and Owensboro, Kentucky. Hybrid programs are a combination of online and in person instruction. Course lectures will be offered online. Clinical and lab experiences will be completed in person at the location in which you are admitted.

This program consists of four semesters of program major requirements after the successful completion of all the professional/prerequisite course work. Our BSN program also provides the necessary content to

prepare for masters and doctoral degrees in nursing. Graduates of the BSN program will be prepared to take the National Council Examination for Registered Nurses (NCLEX-RN).

Students will use innovative Patient Simulation Centers and conduct clinical in acute care and community-based settings.

Program Information

This program is completed entirely online (<http://louisville.edu/online/programs/bachelors/bachelor-of-science-in-organizational-leadership-and-learning/>).

This program offers academic flexibility; all program/major courses required for completion are routinely offered in accelerated format (e.g. 8-week terms or through the Flex Option described below). However, some options for

general education (Cardinal Core) or Supplemental Math or College Reading courses may not be available in an accelerated format.

The Bachelor of Science in Organizational Leadership and Learning with a focus on Healthcare Leadership allows healthcare professionals to capitalize on existing knowledge and experience, and earn a bachelor's degree that can further enhance your skills in leadership, organizational change, workplace development and performance and attain higher-level positions in your organization.

UofL's Healthcare Leadership program is the first of its kind in the state and region, with a curriculum based on the National Center for Healthcare Leadership's (NCHL.org) competency model, which is one of the leading industry standard models for healthcare executive competencies development.

This program is essential for individuals who have acquired experience in the healthcare field, but are missing the proper credentials for promotions within their organization, increased pay, or management and leadership roles.

College/School Requirements		0
Program/Major Requirements		77
Track Requirements		12
Minimum Total Hours		120

Specific coursework information can be found on the Degree Requirements tab.

The program is offered in two distinct enrollment pathways: Term Option and Flex Option.

Term Option: In this pathway, students enroll in half-term courses and complete each course within a predetermined time frame. This option is for students who wish to follow a more structured and traditional university schedule while taking advantage of accelerated sessions. Two half-term sessions will be available in Fall and Spring and one session will be available in the Summer.

Students may start the program at the beginning of the Fall and Spring terms, at the beginning of the second half of the Fall or Spring terms, or in the summer semester. This allows students to start the Term Option program several times per year, and enroll in half-term session courses.

All coursework in the Term-Option Pathway must be completed within the half-term period. Tuition and fees in Term-Option enrollments may be refunded in accordance with normal university policies.

Flex Option: This is the current pathway for students wishing to pursue the Competency-Based Education model (CBE). In Flex Option, students have 32 weeks to move through the program materials at their own pace. Many students value this level of flexibility. This path places the responsibility on the student to set and maintain their own pace to finish the materials on time. Students may enroll in additional CBE courses as soon as all previously enrolled courses are completed to expedite program completion. Financial Aid is dependent on timely completion.

Students may start the program on the first Tuesday of every month (except December). Students in this program will register for all major and track courses with their assigned academic counselor. All tuition and fees for CBE courses are non-refundable when a student begins a CBE course. The CBE course term begins with enrollment and the onset of academic activity. Flex Option/CBE courses are student self-paced, but students must complete enrolled CBE courses within 32 weeks. A student cannot withdraw from a CBE course once started.

Additional Information:

UofL also offers non-CBE BS programs in Organizational Leadership and Learning (<http://catalog.louisville.edu/archive/2023-2024/undergraduate/majors/organizational-leadership-learning-bs/>) with tracks in Career and Technical Education, Leadership, Training, and Organizational Development (LTOD), Counseling and Human Relations, Human Resource Development, Digital Leadership - IT, Project Management, Interdisciplinary Early Childhood, and Diversity, Inclusion, Community Engagement, and Equity (DICEE).

Departmental Admission Requirements

Applicants to the BS in Organizational Leadership and Learning with a track in Healthcare Leadership must have a 2.7 cumulative GPA in college level courses and at least 2,000 hours (approximately one year) of healthcare experience across a wide variety of organizational settings.

Additionally, applicants are recommended to have at least 24 hours of transferable credit.

Applicants who have a cumulative GPA below 2.7 or less than 2,000 hours of healthcare experience, may petition the College of Education and Human Development for consideration of admission.

Unit: College of Arts and Sciences (<http://www.louisville.edu/a-s/>)
Department: Pan-African Studies (<http://louisville.edu/panafricanstudies/>)
Academic Plan Code(s): PAS_BA

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Program Information

The Department of Pan-African Studies (PAS) has developed a Bachelor of Arts and a Bachelor of Science degree. This provides an opportunity for structured undergraduate study in the multi-disciplinary field of Pan-African Studies. Students also have the choice of earning a minor in Pan-African Studies as well.

PAS majors have career options quite similar to those of students with baccalaureate degrees in the humanities and social sciences and a PAS minor often enhances the employability of students who major in other fields.

Increasingly, PAS majors are also finding career opportunities specific to the discipline itself. Such opportunities are most common in social, cultural and educational agencies/organizations, and in business and international affairs initiatives that concern people of color. Other PAS graduates choose to pursue graduate degrees.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Pan-African Studies (BS)

This program was approved for students entering the university in the Summer 2023–Spring 2024 catalog year. For more information about catalog year, go to Catalog Year Information (p. 74).

Bachelor of Science in Pan-African Studies

Unit: College of Arts and Sciences (<http://www.louisville.edu/a-s/>)
 Department: Pan-African Studies (<http://louisville.edu/panafricanstudies/>)
 Academic Plan Code(s): PAS_BS

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Program Information

The Department of Pan-African Studies (PAS) has developed a Bachelor of Arts and a Bachelor of Science degree. This provides an opportunity

for structured undergraduate study in the multi-disciplinary field of Pan-African Studies. Students also have the choice of earning a minor in Pan-African Studies as well.

PAS majors have career options quite similar to those of students with baccalaureate degrees in the humanities and social sciences and a PAS minor often enhances the employability of students who major in other fields.

Increasingly, PAS majors are also finding career opportunities specific to the discipline itself. Such opportunities are most common in social, cultural and educational agencies/organizations, and in business and international affairs initiatives that concern people of color. Other PAS graduates choose to pursue graduate degrees.

Completion of this degree requires work to be submitted for the department’s Learning Outcomes Measurement. For details, contact the department.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan. What-if reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

Flight Planner

The Flight Planner tool is available for you to create a personalized Flight Plan to graduation. Advisors have access to review your Flight Planner and can help you adjust it to ensure you remain on track to graduate in a timely manner.

To create these reports:

- a. Log into your ULink account.
- b. Click on the Academic Progress tile.
- c. Select the appropriate report.
 - i. To run a Degree Audit report, click on "View my Degree Audit."
 - ii. To create a What-if report, click on "Create a What-if Advisement Report."
 - iii. To run a Flight Planner report, click on "Use My Flight Planner."

electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BS/MS (Master of Science) in Physics

Physics majors who are considering pursuing a master's degree (MS) in Physics can speed up the process by applying some of their undergraduate credit hours toward a master's degree. Students accepted into the Accelerated BS/MS take three graduate courses (9 credit hours) as an undergraduate that apply toward both the bachelor's degree and the eventual master's degree.

Interested students must apply for admission to the program in the first semester of the senior year (i.e., after completing 90 hours). Applicants must have completed at least 21 credit hours in Physics before applying to the program with at least a 3.0 GPA in Physics courses and a 3.35 university GPA. Students must also maintain a 3.0 GPA after they are admitted to the BS/MS program.

Departmental Admission Requirements

There are no specific admission requirements for this degree plan.

The Change Major Request form can be found under the Academic Progress tile on ULink.

Accelerated BS/MS (Master of Science) in Physics Program

Applicants apply for admission to the five-year accelerated program in the first semester of the senior year and must meet the following criteria:

- The applicant will have completed at least 21 credit hours in Physics before applying to the program.
- The applicant will have maintained at least a 3.0 GPA in Physics courses and a 3.35 GPA overall.

All applicants must submit an application along with GRE General test score consistent with MS in Physics program (<http://catalog.louisville.edu/archive/2023-2024/graduate/programs-study/master-science-physics/>) guidelines.

Political Science (BA)

This program was approved for students entering the university in the Summer 2023–Spring 2024 catalog year. For more information about catalog year, go to Catalog Year Information (p. 74).

Bachelor of Arts in Political Science

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)
Department: Political Science (<http://louisville.edu/politicalscience/>)
Academic Plan Code(s): See Track Requirements tab.

Program Information

This program can be completed in a traditional classroom format or entirely online (<https://louisville.edu/online/programs/bachelors/online-bachelor-of-arts-in-political-science/>).

Bachelor of Arts in Political Science program at UofL cultivates an understanding of policy, politics and governments in the United States and around the globe. We offer a wide range of courses including campaigns and elections, the Presidency and Congress, social movements and civil rights, terrorism and war, constitutional law, environmental policy, religious politics, urban politics and poverty, and international politics. The department is a particularly inviting environment for students, with small class sizes, our own building, a computer lab, and options to specialize via several tracks in our major.

Political Science majors at the University of Louisville have been extremely successful in earning prestigious scholarships and fellowships. The roster of recent successes includes numerous Fulbright Award winners and multiple Truman Scholars. Since 2010, three of our students have won the annual Mary Churchill Humphrey scholarship, often described as UofL's Rhodes Scholarship because it supports graduate study in Great Britain. Many of our majors go on to have successful careers in government, international affairs, nongovernmental organizations, business, academia, and media.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BA-BS/MA in Political Science

Political Science majors who are considering pursuing a master's degree (MA) in Political Science can speed up the process by applying some of their undergraduate credit hours toward a master's degree. Students accepted into the Accelerated BA-BS/MA take three graduate courses (9 credit hours) as an undergraduate that apply toward both the bachelor's degree and the eventual master's degree.

Interested students must apply for admission to the program in the first semester of the senior year (i.e., after completing 90 hours). Applicants must meet the general requirements for admission to the Graduate School and must submit an application to the Department of Political Science. Applicants should have an undergraduate major or minor in social science or have sufficient alternative preparation in the social sciences.

Departmental Admission Requirements

There are no specific admission requirements for this degree plan.

The Change Major Request form can be found under the Academic Progress tile on ULink.

Bachelor of Science in Political Science

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)
 Department: Political Science (<http://louisville.edu/politicalscience/>)
 Academic Plan Code(s): POLSBS_LP

Program Information

Bachelor of Science in Political Science program at UofL cultivates an understanding of policy, politics and governments in the United

States and around the globe. We offer a wide range of courses including campaigns and elections, the Presidency and Congress, social movements and civil rights, terrorism and war, constitutional law, environmental policy, religious politics, urban politics and poverty, and international politics. The department is a particularly inviting environment for students, with small class sizes, our own building, a computer lab, and options to specialize via several tracks in our major.

Political Science majors at the University of Louisville have been extremely successful in earning prestigious scholarships and fellowships. The roster of recent successes includes numerous Fulbright Award winners and multiple Truman Scholars. Since 2010, three of our students have won the annual Mary Churchill Humphrey scholarship, often described as UofL's Rhodes Scholarship because it supports graduate study in Great Britain. Many of our majors go on to have successful careers in government, international affairs, nongovernmental organizations, business, academia, and media.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Public Health (BA)

This program was approved for students entering the university in the Summer 2023–Spring 2024 catalog year. For more information about catalog year, go to Catalog Year Information (p. 74).

Bachelor of Arts in Public Health

Unit: Public Health and Information Sciences (<http://louisville.edu/sphis/>)

Academic Plan Code: PH_ _BA, PH_ _BA_SHE

Program Information

The School of Public Health and Information Sciences (SPHIS) offers two undergraduate degree options: Bachelor of Science in Public Health for students focused on public health practice and Bachelor of Arts in Public Health for liberal studies.

A degree in public health provides students with the skills they need to improve the health of populations and communities, as well as alleviate suffering caused by disease, injuries and health disparities. Public Health majors learn how to inquire, challenge and explore options that promote the health and well-being of the community.

A BA in Public Health prepares students for positions in specific sectors of public health, health services, and public policy, with career opportunities in health education, health care administration, health research, environmental health, and more. Examples of job settings could include colleges and universities, federal and state health agencies, and community and international organizations. Both degrees prepare students for advanced degrees in public health, law, and clinical health professions (i.e., PA, PT, Nursing, Pharmacy, Medicine, and Dentistry).

Accelerated BA-MPH in Public Health Admissions Process

Pre-Enrollment

Undergraduates who will have earned a minimum of 75 credit hours and a cumulative GPA of 3.25 may pursue the accelerated degree program option. Eligible students who complete the following by February 1st of the student's sixth undergraduate semester can receive permission to enroll in MPH graduate level courses from the director of the MPH program:

- Submit an online program-petition (<http://louisville.edu/sphis/current-students/accelerated-mph-program-petition-form/>)
- Submit resume
- Submit a letter of recommendation, preferably from a UofL faculty member, that speaks to their academic abilities, to Academic Coordinator Rachel Quick at rachel.quick@louisville.edu

Pre-Admission & Concentration Declaration

Students applying to the epidemiology concentration will be required to have a strong quantitative background. ACT score, math placement score, and MATH 111 or higher course will be considered. A representative from the desired concentration will schedule an interview with the student

to determine provisional admission and approval of concentration declaration for the students accelerated program.

Provisional Admission

Once approved to declare a concentration, the student is now provisionally admitted to the MPH accelerated program and must complete the following steps no later than the final year of their undergraduate studies to formally apply to the MPH program:

- Submit a complete UofL Graduate School Application (<https://louisville.edu/graduate/futurestudents/apply-materials/application/>) no later than March 1st and apply for the Summer term unless the student is pursuing the Health Promotion & Behavioral Sciences concentration, in which case that student should apply for the Fall term.
 - Accelerated MPH students DO NOT submit a SOPHAS Application
- Submit two letters of recommendation written within the last twelve months (at least one must be a SPHIS faculty member).
- Overall GPA for the undergraduate degree (including the core courses) must be a minimum of 3.0, and students must have made a grade of B or better in each of the following MPH core courses:

Bachelor of Science in Public Health

Unit: Public Health and Information Sciences (<http://louisville.edu/sphis/>)

Academic Plan Code(s): PH_ _BS, PH_ _BS_PRE, PH_ _BS_ SHE

Program Information

The School of Public Health and Information Sciences (SPHIS) offers two undergraduate degree options: Bachelor of Science in Public Health for students focused on public health practice and Bachelor of Arts in Public Health for liberal studies.

A degree in public health provides students with the skills they need to improve the health of populations and communities, as well as alleviate suffering caused by disease, injuries and health disparities. Public Health majors learn how to inquire, challenge and explore options that promote the health and well-being of the community.

A BS in Public Health prepares students for positions in specific sectors of public health, health services, and public policy, with career opportunities in health education, health care administration, health research, environmental health, and more. Examples of job settings could include colleges and universities, federal and state health agencies, and community and international organizations. Both degrees prepare students for advanced degrees in public health, law, and clinical health professions (i.e., PA, PT, Nursing, Pharmacy, Medicine, and Dentistry).

The educational part of our mission is accomplished through theoretically and empirically driven approach to pedagogy in our on campus and on-line instruction and transformative learning experiences.

BSW Program Goals:

- Prepare graduates for generalist social work practice with vulnerable and marginalized individuals, families, groups, organizations, and communities through the acquisition and demonstration of social work practice behaviors consistent with CSWE educational standards and policies and the NASW Code of Ethics.
- Prepare graduates to understand bio-psycho-social, spiritual, and cultural functioning and apply it to all client systems.
- Prepare graduates to promote social and economic justice through their practice with diverse client systems.

Sociology (BA)

This program was approved for students entering the university in the Summer 2023–Spring 2024 catalog year. For more information about catalog year, go to Catalog Year Information (p. 74).

Bachelor of Arts in Sociology

Unit: College of Arts and Sciences (AS) (<https://louisville.edu/artsandsciences/>)

Department: Sociology (<http://louisville.edu/sociology/>)

Academic Plan Code(s): SOC_BA, SOC_BA_O, SOC_BA_CUL, SOC_BA_DIN

Program Information

This program can be completed in a traditional classroom format or entirely online (<https://louisville.edu/online/programs/bachelors/bachelor-of-arts-in-sociology/>).

Students in the Bachelor of Arts (BA) in Sociology program learn to take an analytical, evidence-driven approach to social issues, as well as gain the interpersonal communication skills necessary to craft persuasive narratives grounded in critical thought. Sociology students focus on diversity and inequality and use their analytical insight into social structures for effective formulation and implementation of democratic social policy.

Those interested in sociology are intrigued by the challenging social issues pervading our world, how society influences and is influenced by them, and how to effectuate change. BA in Sociology students learn how to address these issues through scientific research and application, and, as our world continuously evolves, sociology students are well prepared to offer insight into these changes and how best to accommodate them.

Given the breadth, adaptability, and utility of sociology, employment opportunities are plentiful in social service agencies; federal, state, and local governments; non-profit organizations; and private enterprises

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Accelerated BA-BS/MA in Sociology

The Department of Sociology offers an accelerated master's degree program, which is designed to allow motivated undergraduates the opportunity to earn graduate credit hours in sociology during their senior year. As undergraduates, accelerated students may earn between 6-9 credit hours (taking 2-3 graduate level courses), which are applied toward both the undergraduate degree as well as the graduate degree, allowing students to begin the graduate program in sociology with credits already applied toward their MA degree.

The graduate courses taken during the student's senior year will depend on the courses the student has remaining to complete his/her undergraduate degree in sociology. The undergraduate advisor works individually with accelerated students regarding their course schedules.

NOTE: Students in the accelerated program in sociology may only apply their graduate credits earned as an undergraduate toward the graduate degree in sociology at UofL.

To be admitted to the program, a student must have: an undergraduate GPA of 3.35 or better at the time of application and satisfactory GRE scores (see Admissions tab for more information).

Departmental Admission Requirements

Admission to the BA in Sociology requires:

- Completion of SOC 301 with a grade of C or better;
- Minimum cumulative grade point average of 2.0; and
- Minimum cumulative grade point average of 2.0 in Sociology, if any courses have been taken.

The Change Major Request form can be found under the Academic Progress tile on ULink.

Accelerated BA-BS/MA in Sociology Application Procedure

Students must apply during the first or second semester of Junior year (i.e., when they have earned between 70-80 hours) by submitting the following to the Graduate Admissions Office:

- Graduate application (<http://louisville.edu/graduate/futurestudents/apply-materials/application/>)

- Two references (preferably from sociology instructors) in the form of a discursive letter of recommendation *and* completion of the Letter of Evaluation form (<https://louisville.app.box.com/s/w9jkkbu3cg10q7jtbwxo5rdkn2d1mjaa/>)

Sociology (BS)

This program was approved for students entering the university in the Summer 2023–Spring 2024 catalog year. For more information about catalog year, go to Catalog Year Information (p. 74).

Bachelor of Science in Sociology

Unit: College of Arts and Sciences (AS) (<https://louisville.edu/artsandsciences/>)

Department: Sociology (<http://louisville.edu/sociology/>)

Academic Plan Code(s): SOC_BS, SOC_BS_HMW

Program Information

Sociology students learn how to address these issues through scientific research and application, and, as our world continuously evolves. Sociology majors are well prepared to offer insight into these changes and how best to accommodate them. Sociology majors are offered a rich environment within which to develop skills in critical thinking, analytic problem-solving, and communication that are required by employers and/or that prepare them for a range of graduate programs.

Given the training in research methods, statistics, and topical areas, employment opportunities for sociology majors are plentiful in social service agencies; federal, state, and local governments; nonprofit organizations; and private enterprises. The emerging global economic order and the increased complexity of corporate cultures promise to open even more opportunities for our graduates. Some sociology majors help companies develop global marketing strategies, and others work to enhance the culture and organization of corporations.

Sociology students pursue careers in a variety of fields: business, child welfare, computer industry, criminal justice, education (teaching, evaluation research, consultation, research), gerontology, health care, international relations, law, law enforcement, leisure/recreation/sport, military/military intelligence, social work, and urban planning or management, and more.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Specific coursework information can be found on the Degree Requirements tab.

Accelerated BA-BS/MA in Sociology

The Department of Sociology offers an accelerated master's degree program, which is designed to allow motivated undergraduates the opportunity to earn graduate credit hours in sociology during their senior year. As undergraduates, accelerated students may earn between 6-9 credit hours (taking 2-3 graduate level courses), which are applied toward both the undergraduate degree as well as the graduate degree, allowing students to begin the graduate program in sociology with credits already applied toward their MA degree.

The graduate courses taken during the student's senior year will depend on the courses the student has remaining to complete his/her undergraduate degree in sociology. The undergraduate advisor works individually with accelerated students regarding their course schedules.

NOTE: Students in the accelerated program in sociology may only apply their graduate credits earned as an undergraduate toward the graduate degree in sociology at UofL.

To be admitted to the program, a student must have: an undergraduate GPA of 3.35 or better at the time of application (see Admissions tab for more information).

Departmental Admission Requirements

Admission to the BS in Sociology requires:

- a. Completion of SOC 301 with a grade of C or better
- b. Minimum cumulative grade point average of 2.0
- c. Minimum cumulative grade point average of 2.0 in Sociology, if any courses have been taken.

The Change Major Request form can be found under the Academic Progress tile on ULink.

Accelerated BA-BS/MA in Sociology Application Procedure

Students must apply during the first or second semester of Junior year (i.e., when they have earned between 70-80 hours) by submitting the following to the Graduate Admissions Office:

- Graduate application (<http://louisville.edu/graduate/futurestudents/apply-materials/application/>)
- Two references (preferably from sociology instructors) in the form of a discursive letter of recommendation *and* completion of the Letter of Evaluation form (<https://louisville.app.box.com/s/w9jkkbu3cg10q7jtbwxo5rdkn2d1mjaa/>)
- *Curriculum vitae* (CV) or résumé.

Applicants must also submit to the Department of Sociology a personal statement (~500-750 words) addressing the points below and giving the department's Graduate Committee a basis for evaluating the student's interest in and ability to complete the program, as well as providing a sample of the student's writing:

Spanish (BA)

This program was approved for students entering the university in the Summer 2023–Spring 2024 catalog year. For more information about catalog year, go to Catalog Year Information (p. 74).

Bachelor of Arts in Spanish

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)
 Department: Classical and Modern Languages (<http://www.louisville.edu/modernlanguages/>)
 Academic Plan Code(s): SPANBA

Program Information

The Spanish program offers two options for students wishing to complete the Spanish major.

The Spanish as a Second Language (SL) sequence serves students whose primary experience with Spanish has been in the classroom. Students may place into SPAN 201 or higher through the online placement exam (<https://louisville.edu/languages/>).

The Spanish as a Heritage Language (HL) sequence offers courses for individuals who grew up in Spanish-speaking environments and are able to communicate, to some extent, in more than one language. Some students are immigrants who have recently arrived in the United States and have had extensive schooling in their native countries. Others are first-, second-, or third-generation bilinguals whose abilities in the heritage language vary widely. Placement into Heritage Learner courses is done through departmental evaluation (<http://louisville.edu/modernlanguages/placement-exam/spanish-heritage-learners/>).

Both the Second Language and Heritage Language options offer 300-level courses that are designed to meet the language needs of both groups and to prepare them for the 400- and 500-level courses that are required for both tracks.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Accelerated BA/MA (Master of Arts) in Spanish

Beginning Fall 2023, the Master of Arts in Spanish is not accepting applications for admission.

Spanish majors who are considering pursuing a master's degree (MA) in Spanish can speed up the process by applying some of their undergraduate credit hours toward a master's degree. Students accepted into the Accelerated BA/MA take three graduate courses (9 credit hours) as an undergraduate that apply toward both the bachelor's degree and the eventual master's degree.

Interested students must apply for admission to the program in the first semester of the senior year (i.e., after completing 90 hours). Applicants must have an overall GPA of 3.35.

Departmental Admission Requirements

Admission to the BA in Spanish requires completion of SPAN 201 or higher with a minimum grade of C; a minimum cumulative grade point average of 2.0; and a minimum grade point average of 2.0 on courses in the major.

The Change Major Request form can be found under the Academic Progress tile on ULink.

Accelerated BA/MA (Master of Arts) in Spanish

Beginning Fall 2023, the Master of Arts in Spanish is not accepting applications for admission.

At the time of application, students must have:

- A 3.35 undergraduate GPA
- Completed required 300-level SPAN courses (e.g., SPAN 321) with grades of B or better.

It is also recommended that students have completed one course at the 400 level before applying.

Students should contact the Spanish graduate advisor for more information.

Program Information

This program can be completed in a traditional classroom format or entirely online (<http://louisville.edu/online/programs/bachelors/bachelor-of-science-in-sport-administration/>).

Sport Administration (SPAD) is the business side of sport.

Sport managers work with all of the business aspects surrounding sport organizations and sporting events such as leadership, organizational behavior, marketing, finance, law, facility management, fundraising, event management, multimedia, sponsorships, and promotion.

The University of Louisville offers a Bachelor of Science in Sport Administration. The undergraduate program is designed to prepare students to enter careers in the sport industry. The SPAD program has a diverse student population representing a variety of geographical, cultural, educational, and professional backgrounds. Our students gain valuable experience working, interning, and volunteering on many significant service-learning projects for local and community agencies. We utilize many guest lecturers from sport business organizations each semester to speak with our students about how to excel as a business professional in the sport industry.

Accelerated BA Sustainability/MA in Interdisciplinary Studies: Concentration in Sustainability

Sustainability majors who are considering pursuing a master's degree (MA) in Interdisciplinary Studies with a concentration in Sustainability can speed up the process by applying some of their undergraduate credit toward a master's degree. Special Requirements for Accelerated Master's Degree Program Admission

- a. An undergraduate GPA of 3.0 or better
- b. Completion of SUST 101, 201, 202, 301, 302 and 303 with a minimum GPA of 3.0

Core courses should include PLAN 675, SUST 602, and research methods.

The fifth year consists of graduate coursework leading to completion of the Master of Arts in Interdisciplinary Studies: Concentration in Sustainability. The accelerated curriculum allows students to apply 9 credit hours of graduate core course work taken during their undergraduate studies towards the completion of both the BA and Master's degrees.

Advising to ensure the requirements are met without extraneous credit hours is imperative and strongly recommended for timely degree completion and financial considerations for the accelerated degrees. Please be sure to consult with advisors and the director of the master's program.

All Theatre Arts Undergraduate Majors are required to fulfill course requirements for the College of Arts and Sciences, General Education and Programmatic/Supporting Courses.

Theatre Arts Requirements are split into four core areas: Academics, Performance, Design and Technology, and Performance/Production. Women's, Gender and Sexuality Studies (BA)

This program was approved for students entering the university in the Summer 2023–Spring 2024 catalog year. For more information about catalog year, go to Catalog Year Information (p. 74).

Bachelor of Arts in Women's, Gender and Sexuality Studies

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)

Department: Women's, Gender and Sexuality Studies (<http://www.louisville.edu/a-s/ws/>)

Academic Plan Code(s): WGSTBA, WGSTBA_0

Program Information

This program can be completed in a traditional classroom format or entirely online (<https://louisville.edu/online/programs/bachelors/bachelor-of-arts-in-womens-and-gender-studies/>).

Women's, Gender and Sexuality Studies is an interdisciplinary major that draws its questions and approaches from the humanities, social sciences, natural sciences, and arts. It helps students to develop theoretical, empirical, and methodological perspectives for studying gender as a crucial category for understanding the world. We offer extremely flexible scheduling for our majors: we have three core courses, offered regularly; students are allowed a fair amount of control in selecting the classes that will be most helpful to them in their chosen career path to complete the remainder of their requirements. Our students are required to engage in service learning opportunities outside the university, giving them useful career experience. Students in our program also find it easy to double major, if they so desire.

WGST majors learn to:

- Apply gender analytics at the micro and macro level for research and practices of social change;
- Examine complex social problems using gender-informed analysis, research and design;
- Select appropriate methodologies from the humanities and social sciences for analyzing data and texts;
- Provide appropriate theoretical interpretation based on discipline-related concepts;
- Draw conclusions based on the analyses of texts and qualitative and quantitative information;
- Demonstrate effective written and oral communications tailored to specific audiences and contexts to increase the understanding and utilization of research findings;

- Identify how social, cultural and scientific knowledges are produced by institutions such as academic disciplines, media, arts, and politics;
- Understand how gender intersects with other structures of power such as race, class, sexuality, disability and other structures of power in the U.S. and globally;
- Draw from multiple fields of study to evaluate and generate information and experiences related to gender, race, class, sexuality, disability, etc.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Women's, Gender and Sexuality Studies with a 3+3 Track to Law (BA)

Bachelor of Arts in Women's, Gender and Sexuality Studies with a 3+3 Track to Law

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)
 Department: Women's, Gender and Sexuality Studies (<http://www.louisville.edu/a-s/ws/>)
 Academic Plan Code(s): WGSTBA_3+3

Program Information

The College of Arts & Sciences and the Louis D. Brandeis School of Law have joined forces to create 3+3 Accelerated Law programs that allows eligible students in the College of Arts & Sciences to begin law school in their senior year of undergraduate study. Students substitute undergraduate major requirements with the first 30 hours of law school, earning an undergraduate degree after their first year of law school

and a Juris Doctor (JD) degree two years later. Students must have completed three years (6 semesters) of undergraduate course work, including transfer credit and credit earned in summers, prior to enrollment at Brandeis.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.

Degree Summary

	General Education Requirements (http://catalog.louisville.edu/archive/2023-2024/undergraduate/general-education-requirements/) ¹	31
	College/School Requirements	22
	Program/Major Requirements ¹	39
	Law School Courses	30
Minimum Total Hours		122

¹ Some credit hours from the General Education Requirements may be satisfied by courses defined by the program, in which case additional electives will be required to complete the minimum hours for the degree. See the Degree Requirements tab for specific coursework.

Specific coursework information can be found on the Degree Requirements tab.

Departmental Admission Requirements

Admission to the BA in Women's, Gender and Sexuality Studies requires a minimum cumulative grade point average of 2.0 and a minimum grade point average of 2.0 on courses in the major. A 3.5 GPA is recommended by the School of Law (see below). Only 30 hours of Distance Education (DE) are allowed.

The Change Major Request form can be found under the Academic Progress tile on ULink.

Admission to Law School

Admission to the 3+3 track does not guarantee admission to the law school. Students seeking admission to law school must complete a law school application and satisfy all of Brandeis' admissions requirements, including its median GPA and LSAT expectations.

The law school requires that students seeking admission through the 3+3 program have completed three years of undergraduate course work, including transfer credit and credit earned in summer. It is recommended that students planning to pursue this track have a minimum cumulative GPA of 3.5.

For more information on Brandeis and its admissions requirements, please contact the Brandeis School of Law Office of Admissions (<https://louisville.edu/law/>). A visit to the law school and an opportunity to observe a class can be arranged.

Bachelor of Science in Women's, Gender and Sexuality Studies

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)

Department: Women's, Gender and Sexuality Studies (<http://www.louisville.edu/a-s/ws/>)

Academic Plan Code(s): WGSTBS

Program Information

Women's, Gender and Sexuality studies is an interdisciplinary major that draws its questions and approaches from the humanities, social sciences, natural sciences, and arts. It helps students to develop theoretical, empirical, and methodological perspectives for studying gender as a crucial category for understanding the world. We offer extremely flexible scheduling for our majors: we have three core courses, offered regularly; students are allowed a fair amount of control in selecting the classes that will be most helpful to them in their chosen career path to complete the remainder of their requirements. Our students are required to engage in service learning opportunities outside the university, giving them useful career experience. Students in our program also find it easy to double major, if they so desire.

WGST Majors learn to:

- Apply gender analytics at the micro and macro level for research and practices of social change;
- Examine complex social problems using gender-informed analysis, research and design;
- Select appropriate methodologies from the humanities and social sciences for analyzing data and texts;
- Provide appropriate theoretical interpretation based on discipline-related concepts;
- Draw conclusions based on the analyses of texts and qualitative and quantitative information;
- Demonstrate effective written and oral communications tailored to specific audiences and contexts to increase the understanding and utilization of research findings;
- Identify how social, cultural and scientific knowledges are produced by institutions such as academic disciplines, media, arts, and politics;

Completing a minor in Japanese combined with a student's major could allow students the opportunity to go on to a variety of jobs such as working within Japanese companies or teaching abroad, and for further study in graduate programs. Multicultural Marketing (Minor)

For more information about catalog year, go to Catalog Year Information (<http://catalog.louisville.edu/archive/2023-2024/undergraduate/university-wide-unit-specific-policies/catalog-year/>).

Minor in Multicultural Marketing

Unit: College of Business (<https://business.louisville.edu/>)
 Department: Marketing (<https://business.louisville.edu/academics-programs/undergraduate-programs/marketing/>)
 Academic Plan Code(s): MKT_MINMCM

Both global and U.S. markets are increasingly diverse. In the U.S. alone, the minority population (or “emerging majority”) makes up 38% of the population and is expected to exceed 50% by mid-century, a status already attained in California, Hawaii, New Mexico and Texas. Buying power is following suit. Despite this evolution of the marketplace, marketing practices remain largely hegemonized – translating general market plans (predominantly targeting white populations) to minority audiences without nuanced insight into cultural differences. This program will help change that thinking and embrace a multicultural view of marketing.

Admission Requirements

For business majors, enrollment in the College of Business is required.

For non-business majors, students must have completed 51 or more semester hours with a cumulative GPA of 2.5 or higher.

Students must complete the program prerequisites and earn a GPA of 2.5 or higher in those prerequisites in order to pursue the Marketing Core.

Healthcare Leadership (CERT)

This program was approved for students entering the university in the Summer 2023–Spring 2024 catalog year. For more information about catalog year, go to Catalog Year Information (p. 74).

Certificate in Healthcare Leadership

Unit: College of Education and Human Development (<https://louisville.edu/education/>)

Department: Educational Leadership, Evaluation and Organizational Development (<http://louisville.edu/education/departments/eleod/>)

Academic Plan Code(s): HCLSCUGO

This program is completed entirely online (<http://louisville.edu/online/programs/certificate-programs/online-healthcare-leadership-certificate/>).

This program offers academic flexibility; all program/major courses required for completion are routinely offered in accelerated format (e.g., during 8-week terms or through the Flex Option described below).

The purpose of the certificate program is to prepare adult learners who are working in healthcare, public health, private health insurance, health-

care billing and payment, and other health-related businesses. This program is ideal for individuals who have acquired experience in the healthcare field and desire another credential for promotions within their organization, increased pay, or management and leadership roles.

This certificate will also prepare students interested in the Work Ready Kentucky Scholarship (WRKS) Program from the Kentucky Higher Education Assistance Authority to pursue careers in organizational training.

The certificate requires 12 credit hours of coursework. See Certificate Requirements tab for more information.

The program is offered in two distinct enrollment pathways: Flex Option and Term Option.

Term Option: In this pathway, students enroll in half-semester courses and complete each course within a predetermined time frame. This option is for students who wish to follow a more structured and traditional university schedule while taking advantage of accelerated sessions. Two half-term sessions will be available in Fall and Spring and one session will be available in the Summer.

Students may start the program at the beginning of the Fall and Spring terms, at the beginning of the second half of the Fall or Spring terms, or in the summer semester. This allows student to start the Term Option program several times per year, and enroll in half-semester session courses. All coursework in the Term-Option Pathway must be completed within the half-semester session period. Tuition and fees in Term-Option enrollments may be refunded in accordance with normal university policies.

Flex Option: This is the current pathway for students wishing to pursue the Competency-Based Education model (CBE). In Flex Option, students have 32 weeks to move through the program materials at their own pace. Many students value this level of flexibility. This path places the responsibility on the student to set and maintain their own pace to finish the materials on time. Students may enroll in additional CBE courses as soon as all previously enrolled courses are completed to expedite program completion. Financial Aid is dependent on timely completion.

Students may start the program on the first Tuesday of every month (except December). Students in this program will register for all major and track courses with their assigned academic counselor. All tuition and fees for CBE courses are non-refundable when a student begins a CBE course. The CBE course term begins with enrollment and the onset of academic activity. Flex Option/CBE courses are student self-paced, but students must complete enrolled CBE courses within 32 weeks. A student cannot withdraw from a CBE course once started.

Students must have prior college experience (typically about 24 credits), a cumulative GPA of 2.7, and a minimum of one year's workplace experience. Applicants who do not meet these minimum requirements may petition the department for consideration of admission.

Students must complete an undergraduate application and provide official transcripts for all college credits earned at an accredited institution.

Professional Schools

The University of Louisville includes three schools that offer professional degrees: the School of Dentistry, the Louis D. Brandeis School of Law, and the School of Medicine.

For information on pre-professional curriculum and admissions requirements of the professional schools, students should contact the Arts & Sciences Advising Center.

The School of Dentistry

In addition to an undergraduate Bachelor of Science in Dental Hygiene, the School of Dentistry offers graduate and professional degree programs. They are the Doctor of Dental Medicine (DMD), Master of Science in Oral Biology (MS), and Master of Science in Dentistry (MSD) combined with an advanced specialty certificate in endodontics, orthodontics, pediatric dentistry, periodontics, and prosthodontics.

At the time of application, DMD applicants must have a minimum of 90 college credit hours with at least 35 hours of biomedical science course work, including courses in biology, general chemistry, organic chemistry, biochemistry and physics, along with recommended coursework in microbiology, anatomy, physiology, histology and immunology.

The master's degree in oral biology program includes graduate level courses provided by graduate faculty within the School of Dentistry. This program is directed toward a general understanding of the biology of dental science. Students obtain detailed knowledge and necessary skills required to perform biologic research. For more information, see the UofL Graduate Catalog.

The School of Dentistry offers a program of study leading to the master of science degree in dentistry for postgraduate students/residents enrolled in the advanced specialty certificate programs in endodontics, orthodontics, pediatric dentistry, periodontics, and prosthodontics.

To apply, please contact the appropriate program director of each program at louisville.edu/dentistry or contact the Office of Postgraduate Education, School of Dentistry, (502) 852-5081.

The bachelor of science in dental hygiene program is a four year program with a lower and upper division. Students complete the lower division requirements on the Belknap Campus and then apply for competitive admission to the dental hygiene upper division which is housed in the School of Dentistry on the Health Sciences Center Campus.

More detailed information about admission requirements and application procedures may be obtained at the School of Dentistry website (<https://louisville.edu/dentistry/>) or by contacting the Office of Student Affairs, School of Dentistry, (502) 852-5081.

The Louis D. Brandeis School of Law

- JD/Master of Arts in Humanities
- JD/Master of Arts in Political Science
- JD/Master of Business Administration
- JD/Master of Divinity
- JD/Master of Public Administration
- JD/Master of Science in Social Work
- JD/Master of Urban Planning

Admission Requirements

To qualify for admission, candidates must earn a baccalaureate degree from an accredited institution prior to enrollment. There is no required undergraduate major and there are no pre-requisite courses. Students are encouraged to pick a major that suits their interests and to challenge themselves academically within that major. Students should choose courses that emphasize critical thinking, analysis, writing, and communication skills. These skills are necessary for the study of law. Except as noted below, all candidates must take the Law School Admission Test (LSAT) to qualify for admission.

More detailed information about admission requirements and application procedures can be obtained at louisville.edu/law/admissions (<https://louisville.edu/law/admissions/>), by contacting the Law School Office of Admissions at (502) 852-6391 or lawadmissions@louisville.edu.

3+3 Accelerated Law Program

The law school offers a 3+3 Accelerated Law Program for students pursuing certain undergraduate majors at the University of Louisville. Students studying Communication, Criminal Justice, History, or Women's and Gender Studies (through the College of Arts and Sciences) and Economics BA/BS (through the College of Business) may apply to begin law school during their senior year of undergraduate study. More information is available on the Accelerated Programs Page (p. 625) under 3+3 Accelerated Programs in the undergraduate catalog.

Interested students are encouraged to reach out to undergraduate advisors in one of the eligible majors for more information and to contact the Office of Admissions at the Brandeis School of Law at lawadmissions@louisville.edu.

The School of Medicine

Applicants to the first-year class of the University of Louisville School of Medicine are considered individually and are selected based on merit without consideration of race, religion, sex, age, or national origin. The Admissions Committee evaluates an applicant's acceptability based on the premedical record, scores on the Medical College Admission Test (MCAT (<https://students-residents.aamc.org/applying-medical-school/taking-mcat-exam/>)), recommendations from Premedical Advisory Committees, established technical standards for admissions and the applicant's personality and motivation as evaluated by interviews with members of the committee. Complete four-year college preparation is encouraged. Early decision program is encouraged for stellar applicants. Inquiries concerning admission should be addressed to:

Office of Admissions

Programs of medical education that award the degree of doctor of medicine in the United States and Canada are accredited by the Liaison Committee on Medical Education (LCME). This agency is sponsored by the Association of American Medical Colleges and the American Medical Association. The University of Louisville School of Medicine is a member of the Association of American Medical Colleges and is accredited by LCME.

Application Process: The University of Louisville School of Medicine participates in the American Medical College Application Service (AMCAS). Application materials are available by May at the AMCAS

website (<https://students-residents.aamc.org/applying-medical-school/applying-medical-school-process/applying-medical-school-amcas/>).

Upon receipt of the application from AMCAS, the University of Louisville School of Medicine Office of Admissions will email additional application materials to qualified applicants. Completed secondary applications are due in the Office of Admissions by December 1. A processing fee is charged and is not refundable, nor can it be credited toward tuition if the applicant is accepted. The fee may be waived, however, if the applicant has received a fee waiver from AMCAS. More information about the application process can be obtained at: louisville.edu/medicine/admissions (<http://louisville.edu/medicine/admissions/>).

Residence status: Although applications from nonresidents are accepted, residents of Kentucky are given preference for admission. This policy is consistent with the mission of the University of Louisville as a state university. Residency must be established prior to making application. Applications from international students, including those with "Deferred Action for Childhood Arrivals" status (DACA), are accepted. Consistent with the mission of the University of Louisville as a state university, those with significant academic, personal or family ties to Kentucky are given preference. International applicants are considered under the following circumstances:

- The applicant has a pending application for permanent residency status in the United States **and** A) is either married to a U.S. citizen who has an established residence in Kentucky and intends to remain in Kentucky, or B) has numerous members of his or her immediate family who have established residence in Kentucky indefinitely; or
- The applicant is married to the beneficiary of an approved I-140 Petition for Immigrant Worker ("I-140 spouse") and the applicant and the applicant's I-140 spouse are eligible for permanent residency except for delays stemming from backlogs in visa priority dates, and the applicant and the applicant's spouse are presently in an immigration status that is renewable until they obtain permanent residency **and** A) the applicant's I-140 spouse has an established residence in Kentucky and intends to remain in Kentucky, or B) the applicant has numerous members of his or her immediate family who have established residence in Kentucky indefinitely; or
- The applicant has been granted DACA status **and** A) is either married to a U.S. citizen who has an established residence in Kentucky and intends to remain in Kentucky, or B) has numerous members of his or her immediate family who have established residence in Kentucky indefinitely.

All decisions as to whether consideration circumstances exist in a particular application for admission shall be made by the Admissions Dean or the Dean's designee.

International students, including those with a pending application for permanent residency or with DACA status, are not eligible for most federal benefits. Therefore, if these international students are offered admission, they must submit documentation of sufficient funds to cover the cost of completing a medical degree (see estimates (<http://louisville.edu/medicine/financialaid/cost-of-attendance/>)).

The process of selecting medical school applicants involves a variety of considerations including academic, non-academic, and personal characteristics. Admission to medical school requires a strong foundation in the natural sciences (biology, chemistry, mathematics, and physics), highly developed communication skills, and a solid background in the social sciences and humanities. Specific majors are not recommended, but the undergraduate major area of study should

be a careful and considered decision. All applicants to medical school must take the Medical College Admission Test. Information about the MCAT and how to apply to medical school are available at AMCAS (<https://students-residents.aamc.org/applying-medical-school/applying-medical-school-process/applying-medical-school-amcas/>). Students considering making application to the University of Louisville School of Medicine should consult the school's website (<http://louisville.edu/medicine/admissions/>) for information about their program, in addition to contacting the College of Arts & Sciences Advising Center, (502) 852-5502, to meet with a pre-health advisor.

Pre-Optometry

Students who are planning to apply to schools of optometry can fulfill the pre-optometry course requirements at the University of Louisville. The only optometry school in the state of Kentucky is Kentucky College of Optometry at the University of Pikeville (<https://www.upike.edu/KYCO/>).

Various contract spaces made available by the Kentucky Council on Postsecondary Education (<http://cpe.ky.gov/acm/apply-cs.html>). Since schools of optometry vary somewhat in their course requirements for admission, students interested in making application should select schools to which they have an interest in applying so that they can schedule courses to meet requirements for those schools. In general, students planning to make application to schools of optometry will need a minimum of three years of college coursework including a heavy concentration in the natural sciences (biology, chemistry, mathematics, and physics) as well as courses in social sciences and humanities. Many schools of optometry give preference to students who have completed a bachelor's degree; all schools require applicants to take the Optometry Admission Test.

Students considering making application to optometry school should contact the College of Arts and Sciences Pre-Health Professions Advisors (<http://louisville.edu/artsandsciences/advising/student-services/pre-health/>) for more information. Open advising sessions are scheduled during the academic year.

Pre-Pharmacy

Students who are interested in making application to a school of pharmacy can complete prerequisite course requirements at the University of Louisville. Although requirements for admission to pharmacy schools are similar, they do vary. Students should select schools to which they are interested in applying and schedule courses to meet those requirements. The University of Kentucky College of Pharmacy and Sullivan University are the only schools in Kentucky to offer a pharmacy degree. The degree program involves a four-year professional curriculum leading to the Doctor of Pharmacy degree. Pre-Pharmacy students at the University of Louisville should consult the pharmacy school's website for the undergraduate courses required for admission to this program. Admission to pharmacy schools is competitive.

Students will need two to three years of college coursework with a heavy concentration in the natural sciences in order to meet minimum prerequisites.

All applicants must take the Pharmacy College Admission Test. Students considering making application to pharmacy school should contact the College of Arts and Sciences Pre-Health Professions Advisors (<http://louisville.edu/artsandsciences/advising/student-services/pre-health/>) for more information. Open advising sessions are scheduled during the academic year.

Pre-Veterinary Medicine

Students planning to apply to schools of veterinary medicine can fulfill pre-veterinary course requirements at the University of Louisville. Since schools may vary somewhat in their requirements, students interested in making application should select schools to which they have an interest in applying so they can schedule courses to meet requirements for those schools.

There is not a school of veterinary medicine in Kentucky. However, Kentucky does have contracts with the following schools in Alabama to reserve spaces for students who are legal residents of Kentucky: Auburn University College of Veterinary Medicine (34 spaces; [vetmed.auburn.edu](http://www.vetmed.auburn.edu)) and Tuskegee University School of Veterinary Medicine (2 spaces; [tuskegee.edu/cvm](http://www.tuskegee.edu/cvm) (<https://www.tuskegee.edu/cvm/>)). Admission is competitive with selection made by the respective schools.

Students admitted to either the Auburn or Tuskegee program will be charged in-state tuition, with Kentucky making a payment for each enrolling student for up to four years. This is outlined by the Council on Post-Secondary Education and can be found here: cpe.ky.gov/acm/apply-cs.html (<http://cpe.ky.gov/acm/apply-cs.html>)

Students interested in making application to schools of veterinary medicine should contact the College of Arts and Sciences Pre-Health Professions Advisors (<http://louisville.edu/artsandsciences/advising/student-services/pre-health/>) for more information. Open advising sessions are scheduled during the academic year.

The readings and other materials vary greatly by period, by geographical focus, and by analytical perspective.

- ANTH 348. State & Empire** 3 Units
Description: The argument: that states and empires lie at the heart of the social sciences, of the humanities, and of our everyday lives. The devil lies mainly in the details. Different states and empires serve as examples, with specific foci depending on the instructor's expertise. Stressed: how older empires haunt newer ones. Also emphasized: colonization and empire work as much "at home" as they do "abroad". The course is organized to keep problematical character of states and empires in our sights. It is organized, that is, to suggest that states and empires may often present where we ordinarily do not look for them.

While all of the concepts central to anthropology and the other social sciences—culture, society, evolution, history, mind, politics, economics—are premised in consciousness, the premise receives attention only sporadically. The attention that has been paid reveals that consciousness is not uniform. It has various modes. Thus the course focuses on these.

How did the Black Death change human populations and lifestyles? The interplay and dialogue among disciplines such as history, anthropology, and biology help us to understand how infectious diseases affect our species, and a bio-cultural approach will create a more comprehensive and holistic scenario when reconstructing the impact of epidemics on human populations.

Analysis and interpretation of ceramics has been used by archaeologists to accomplish varied ends: to establish a time scale, to document interconnections between different areas, sites or groups of people, and to suggest what activities were carried out at particular sites. Archaeologists also use ceramics as a basis to understand the organization of ceramic production itself as an important activity. The varied means that archaeologists use to bridge the gap between the recovery of ceramics and their interpretation is the focus of this course. - ANTH 380. Ice Age People: Colonization of the Americas - SB** 3 Units
Term Typically Offered: Fall Only
Description: It is widely accepted that the first Americans came into the New World sometime before 12,000 years ago, when the earth was in an Ice Age. Beyond this, little is certain. The goal of this course is to explore the contributions of archaeology, human genetics, paleoanthropology, linguistics, vertebrate paleontology, and paleogeography in peopling of the Americas research. We will discuss how the evidence provided by these disciplines is used in the search for Ice Age Americans. In other words, how researchers use prehistoric artifacts to build ideas about the prehistory of America. Term Typically Offered: Fall Only
Prerequisite(s): Graduate standing or permission of the instructor.
Description: It is widely acknowledged that China is a rising power in the global political economy. These topics include, but are not limited to, family, gender, ethnicity, religion, education, politics, and economics. Our investigation will focus on two broad themes: 1) the unity and diversity of Chinese society, and 2) the continuity and change that took place from late traditional China to the present. The goal of this course includes learning various aspects of Chinese culture and society, studying diverse anthropological approaches to the study of China, and examining the political dimensions of representation.

- ANTH 522. Ecology, Politics and Culture** **3 Units**
Description: This course examines the relations between ecology, economic system, culture, ideology and power relations. The focus moves back and forth between theoretical synthesis and case studies. The case studies are both ethnographic and historical. A few of the themes treated in detail: the role of religious ritual in regulating certain environments; the mutual influences of ecology and political economy in the making of "the Third World"; the local and global politics of national parks; combined and uneven development. Stress is laid on political ecology as a complex, shifting, analytical framework. Questions of sustainability weave in and out of the proceedings. Also emphasized: the story of ecological analysis over the last seventy years is a story about changing relations between anthropology and other social sciences. - ANTH 549. Modes of Consciousness** 3 Units
Term Typically Offered: Occasionally Offered
Description: This course is devoted to examining how consciousness mediates between humans and the wider material world. While all of the concepts central to anthropology and the other social sciences-culture, society, evolution, history, mind, politics, economics-are premised in consciousness, the premise receives attention only sporadically. The attention that has been paid reveals that consciousness is not uniform. It has various modes. Thus the course focuses on these.

- ANTH 555. Black Death: The Pandemic that Changed Human History** 3 Units
Term Typically Offered: Fall Even Years
Description: The Black Death of the fourteenth century is, perhaps, one of the most studied and discussed pandemics in human history, but still we are trying to answer different questions such as: Where did it start? How accurate is retrospective diagnosis? How did different societies and countries react against the Black Death? What were the religious and social responses to the Black Death? How did the Black Death change human populations and lifestyles? The interplay and dialogue among disciplines such as history, anthropology, and biology help us to understand how infectious diseases affect our species, and a bio-cultural approach will create a more comprehensive and holistic scenario when reconstructing the impact of epidemics on human populations.

ANTH 579. Ceramic Analysis 3 Units

Description: Pottery is abundant in many archaeological sites, and the study of pottery has a long history in archaeology. Analysis and interpretation of ceramics has been used by archaeologists to accomplish varied ends: to establish a time scale, to document interconnections between different areas, sites or groups of people, and to suggest what activities were carried out at particular sites. Archaeologists also use ceramics as a basis to understand the organization of ceramic production itself as an important activity. The varied means that archaeologists use to bridge the gap between the recovery of ceramics and their interpretation is the focus of this course.

ARTH 523. History of Performance Art 3 Units

Prerequisite(s): ARTH 270 and ARTH 325; or permission of instructor; or graduate standing.

Description: History of Performance Art is designed as an advanced upper-level seminar that investigates the international, historical developments in Performance Art after World War II. It considers the experimental strategies and ideological aims of visual artists who used their bodies as the primary vehicle of expression, information, communication, and social change. Performance Art has had the dubious distinction of being the most censored art medium, and since the 1960s artists have been continually arrested and fined for their work. This is a highly significant social fact, one that draws attention to Performance Art's particularly disruptive aesthetic codes and materials-emphasizing presentation over representation; intersubjective, human bodies over inanimate objects; and temporarily over spatiality.

ARTH 524. Installation Art 3 Units

Prerequisite(s): ARTH 270 and ARTH 325; or permission of instructor; or graduate standing.

Description: An advanced exploratory seminar that investigates a contemporary art form as well as a thorny art-historical problem: the term "installation" now functions both as a loose descriptor for a myriad of contemporary artworks (having supplanted terms such as Assemblage and Environment) independent of medium and context, as well as a general and comprehensive art-historical genre, a circumstance that has its own compelling historical development. The course is designed so that students can grapple with a central issue for contemporary art—the definition of a burgeoning critical term for art history.

Prerequisite(s): ARTH 270 and ARTH 325; or permission of instructor.

Description: This seminar examines the changing relationships between trauma and its representation in the twentieth century. This historical framework will be brought to bear upon the dynamics of how trauma and visibility have been approached by scientists, scholars, and artists.

Description: This course reviews Japanese history from the Yamato state to the collapse of the bubble economy (500-1900s). We first examine how Japanese native culture and government interplayed with imported elements from China and Korea, forming its own distinctive political structure and society in the Tokugawa era (1600-1868). We focus on Japan's modern experiences-state-led nationalism and modernization since Meiji restoration, investigating how Western influence transformed Japanese state, society, culture, and values. We explore the origin, development, and the defeat of Japanese imperialism and militarism, analyzing how race, gender, and nationalities were constructed and manipulated within Japanese empire in the wartime era (1931-45). Finally we examine postwar Japanese democracy and economic prosperity.

We will investigate emotions through the lens of emotional intelligence, which refers to an individual's ability to become aware of, and control, his or her emotions. You will have the opportunity to gain an understanding of your emotional intelligence and learn multiple strategies for strengthening or "bridging" emotions when moving from one emotion to another. We will explore theories of emotional development and brain development as it pertains to emotional regulation and the impact of cultural influences on the acceptance/expression of emotions.
