# Engineering Fundamentals (ENGR)

Subject-area course lists indicate courses currently active for offering at the University of Louisville. Not all courses are scheduled in any given academic term. For class offerings in a specific semester, refer to the Schedule of Classes ([http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)).

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

## Course Fees

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website ([http://louisville.edu/bursar/tuitionfee/](http://louisville.edu/bursar/tuitionfee/)).

For class offerings for a specific term, refer to the Schedule of Classes ([http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm](http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)).
ENGR 151. Engineering Graphics Technology  1 Unit
Term Typically Offered: Fall, Summer
Prerequisite(s): ENGR 110.
Description: This course builds on manual drawing skills learned in ENGR 110, and introduces students to the concepts of engineering graphics using two-dimensional and three-dimensional computer aided drawing programs, dimensioning of drawings and applicable industry standards are also included.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 165. e4usa Portfolio Evaluation Credit  2 Units
Grading Basis: Pass/Unsatisfactory
Term Typically Offered: Fall Only
Description: Credit for this course will be granted to students who successfully complete the e4usa (Engineering for Us All) program, or other similar high school engineering curricular programming, matriculate into the Speed School of Engineering, and obtain a passing evaluation of their e4usa (or similar) portfolio of work.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 170. Special Topics in First Year Engineering Mathematics  4 Units
Grading Basis: Pass/Fail
Term Typically Offered: Fall, Spring, Summer
Description: Investigation of math topics related to fundamentals of engineering analysis courses that are not covered in regular Engineering Analysis courses. Specific topics will be announced in the Schedule of Courses.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 181. Foundations in Applied Mathematics for Engineering  3 Units
Term Typically Offered: Fall Only
Prerequisite(s): Admission to either Speed School of Engineering or A&S pre-engineering and ACT Math sub-score of 21+ or SAT Math sub-score of 530+ or Accuplacer QRAS 250+ or successful completion of GEN 104.
Description: Review of essential algebraic properties and operators. Introduction to the functions and use of linear, quadratic and trigonometric functions to model physical systems. Formulate and solve word problems involving rates, average rates of change, finding maximum or minimum values, and kinematic problems for one and two link planar robotic arms. This course may not be used for credit toward the J.B. Speed School of Engineering B. S. and M. Eng. Degrees. B. Speed School of Engineering B. S. and M. Eng. Degrees.
Note: This course may not be used for credit toward the J.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 201. Engineering Analysis III  4 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): A grade of C- or better in ENGR 102.
Description: Development and use of: partial derivatives, Lagrange multipliers, Fourier series, vector-valued functions, and multiple integrals to solve engineering problems, including those involving thermodynamics, motion, fluid flow, curl, flux, and divergence.
Note: Credit will not be granted for both ENGR 201 and MATH 301.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 205. Differential Equations for Engineering  2 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): ENGR 201.
Fee: An additional $80.00 is charged for this course.
Description: First- and higher-order differential equations (DE), systems of DE, partial DE, difference equations, numerical methods, Laplace transforms, engineering applications involving mechanical vibrations, electrical circuits, impact forces, and mixing problems.
Note: Credit will not be granted for both ENGR 205 and MATH 405.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 209. ELLC Summer Research Project  1 Unit
Grading Basis: Pass/Fail
Term Typically Offered: Summer Only
Prerequisite(s): Permission of the department; student must have participated in the Engineering Living-Learning Community during the most recent academic year.
Description: Selected students will participate in a ten week research experience with a specific faculty member within their engineering department. Departments include: Bioengineering, chemical Engineering, Civil Engineering, Computer Engineering and Computer Science, Electrical and Computer Engineering, Industrial Engineering, and Mechanical Engineering. Students will meet as a group three times in the summer semester and will be required to spend a total of ten hours per week working with their faculty mentor. Oral and written presentations at the end of the summer semester are required.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 289. Co-op Education I  0 Units
Grading Basis: Pass/Fail
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): BE 288 OR CEE 288 OR CHE 288 OR CSE 288 OR ECE 288 OR IE 288 OR ME 288.
Description: First cooperative education work term, at Part-time status, in an area directly related to the field of specialization of student’s degree program. Required for Professional School of Engineering students.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ENGR 307. Numerical Methods for Engineering  
**Term Typically Offered:** Fall, Spring, Summer  
**Prerequisite(s):** ENGR 201 Errors and error propagation, solving one and several equations, polynomial interpolation and divided differences, least squares approximation, numerical differentiation and integration, eigenvalues, eigenvectors, solving ordinary and systems of differential equations.  
**Fee:** An additional $84.75 is charged for this course.  
**Description:**  
**Note:** Credit will not be granted for both ENGR 307 and MATH 407.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 330. Linear Algebra for Engineering  
**Term Typically Offered:** Fall, Spring, Summer  
**Prerequisite(s):** ENGR 201.  
**Description:** Elimination and LU-factorization, dimension, rank, and nullspace, linear transformations and similarity, orthogonally and least squares, eigentheory and diagonalizability, linear differential equations and systems of linear differential equations.  
**Note:** Credit will not be granted for both ENGR 330 and MATH 325.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 389. Co-op Education II  
**Grading Basis:** Pass/Fail  
**Term Typically Offered:** Fall, Spring, Summer  
**Prerequisite(s):** BE 289 OR CEE 289 OR CHE 289 OR CSE 289 OR ECE 289 OR IE 289 OR ME 289.  
**Description:** Second cooperative education work term, at Part-time status, in an area directly related to the field of specialization of student's degree program. Required for Professional School of Engineering students.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 393. Independent Study in Engineering Fundamentals  
**Prerequisite(s):** Consent of a faculty sponsor  
**Description:** Independent study in any engineering fundamentals related area under the guidance of a faculty member.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 400. Special Topics in Engineering Fundamentals  
**Term Typically Offered:** Occasionally Offered  
**Description:** Investigation of topics in any engineering fundamentals related areas that are not covered in regular courses. Topics will be announced in the Schedule of Courses.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 405. Practicum in Engineering Fundamentals Education  
**Term Typically Offered:** Fall, Spring, Summer  
**Prerequisite(s):** ENGR 205 and Consent of Instructor.  
**Description:** A guided learning experience in inquiry-based instructional techniques and best practices in STEM education that includes field experience as an undergraduate teaching assistant. Permission to enroll required. May be repeated for a maximum of 3 hours.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 589. Research Methods for Engineering and Engineering Education  
**Term Typically Offered:** Fall, Spring, Summer  
**Description:** This course will have students: learn how to engage in ethical conduct as researchers; acknowledge, reference, and document resources in organized ways; review and evaluate research in a critical and professional manner; synthesize existing literature to craft arguments; complete training for human subjects research (CITI Training); and write research questions that align with methods. It will also provide an overview of research methods: qualitative, quantitative, and mixed research methods.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
