ENGR 101. Engineering Analysis I - QR  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): ENGR 190 or equivalent or appropriate math placement score.  
Description: Introduction to vector methods and development and use of differentiation and integration to solve engineering problems, including those involving motion, related rates, optimization, moments and centers of mass.  
Note: Credit will not be granted for both ENGR 101 and MATH 205.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 102. Engineering Analysis II  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): ENGR 101.  
Description: Development and use of: integrating techniques, transcendental functions, vectors in three dimensions, polar coordinates, and power series to solve engineering problems, including work, hydrostatic force, statics, heating, cooling, and catenaries.  
Note: Credit will not be granted for both ENGR 102 and MATH 206.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 110. Engineering Methods, Tools, and Practice I  
Term Typically Offered: Fall, Spring  
Prerequisite(s): Must be a Speed School of Engineering Student.  
Description: ENGR 110 is designed to provide first-year engineering students with an introduction to critical thinking, essential methods, tools and skills for success in engineering. Activities and assignments will focus on developing skills and knowledge in: engineering professionalism (ethics, culture, and risk), basic programming, graphical communication, problem solving, design analysis, and teamwork (including diversity and inclusion).  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
ENGR 201. Engineering Analysis III  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): ENGR 102.  
Description: Development and use of: partial derivatives, Lagrange multipliers, Fourier series, vector-valued functions, and multiple integrals to solve engineering problems, including those involving thermodynamics, motion, fluid flow, curl, flux, and divergence.  
Note: Credit will not be granted for both ENGR 201 and MATH 301.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 205. Differential Equations for Engineering  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): ENGR 201.  
Description: First- and higher-order differential equations (DE), systems of DE, partial DE, difference equations, numerical methods, Laplace transforms, engineering applications involving mechanical vibrations, electrical circuits, impact forces, and mixing problems.  
Note: Credit will not be granted for both ENGR 205 and MATH 405.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 209. ELLC Summer Research Project  
Grading Basis: Pass/Fail  
Term Typically Offered: Summer Only  
Prerequisite(s): Permission of the department; student must have participated in the Engineering Living-Learning Community during the most recent academic year.  
Description: Selected students will participate in a ten week research experience with a specific faculty member within their engineering department. Departments include: Bioengineering, chemical Engineering, Civil Engineering, Computer Engineering and Computer Science, Electrical and Computer Engineering, Industrial Engineering, and Mechanical Engineering. Students will meet as a group three times in the summer semester and will be required to spend a total of ten hours per week working with their faculty mentor. Oral and written presentations at the end of the summer semester are required.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 307. Numerical Methods for Engineering  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): ENGR 201 and ENGR 205.  
Description: Errors and error propagation, solving one and several equations, polynomial interpolation and divided differences, least squares approximation, numerical differentiation and integration, eigenvalues, eigenvectors, solving ordinary and systems of differential equations.  
Note: Credit will not be granted for both ENGR 307 and MATH 407.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 300. Linear Algebra for Engineering  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): ENGR 201.  
Description: Elimination and LU-factorization, dimension, rank, and nullspace, linear transformations and similarity, orthogonally and least squares, eigentheory and diagonalizability, linear differential equations and systems of linear differential equations.  
Note: Credit will not be granted for both ENGR 330 and MATH 325.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 330. Linear Algebra for Engineering  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): ENGR 201.  
Description: Elimination and LU-factorization, dimension, rank, and nullspace, linear transformations and similarity, orthogonally and least squares, eigentheory and diagonalizability, linear differential equations and systems of linear differential equations.  
Note: Credit will not be granted for both ENGR 330 and MATH 325.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 393. Independent Study in Engineering Fundamentals  
Term Typically Offered: Occasionally Offered  
Prerequisite(s): Consent of a faculty sponsor.  
Description: Independent study in any engineering fundamentals related area under the guidance of a faculty member.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 400. Special Topics in Engineering Fundamentals  
Term Typically Offered: Occasionally Offered  
Prerequisite(s): ENGR 205 and Consent of Instructor.  
Description: Investigation of topics in any engineering fundamentals related areas that are not covered in regular courses. Topics will be announced in the Schedule of Courses.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 405. Practicum in Engineering Fundamentals Education  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): ENGR 205 and Consent of Instructor.  
Description: A guided learning experience in inquiry-based instructional techniques and best practices in STEM education that includes field experience as an undergraduate teaching assistant. Permission to enroll required. May be repeated for a maximum of 3 hours.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

ENGR 589. Research Methods for Engineering and Engineering Education  
Term Typically Offered: Fall, Spring, Summer  
Prerequisite(s): ENGR 201.  
Description: This course will have students: learn how to engage in ethical conduct as researchers; acknowledge, reference, and document resources in organized ways; review and evaluate research in a critical and professional manner; synthesize existing literature to craft arguments; complete training for human subjects research (CITI Training); and write research questions that align with methods. It will also provide an overview of research methods: qualitative, quantitative, and mixed research methods.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
