GEOGRAPHY (GEOG)

Subject-area course lists indicate courses currently active for offering at the University of Louisville. Not all courses are scheduled in any given academic term. For class offerings in a specific semester, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm).

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

Course Fees
Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website (http://louisville.edu/bursar/tuitionfee/).

GEOG 157. Elements of GIS 3 Units
Term Typically Offered: Fall, Spring
Description: Elements of geographic information systems: focus on introductory GIS functions including; spatial database development, analysis, graphical output, digital data generation, overlapping & updating.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 200. Human Geography in a Changing World - SB, D2 3 Units
Term Typically Offered: Fall, Spring
Description: The basic theme of this course is human geography as the study of place and the power that place has in the conduct of human affairs. Students will study the geographic distributions of human activities at global, regional and local scales, and the causes and consequences of those activities. Specific topics covered include population distribution and movement, economic activity, sustainable development, urban and rural settlements, and cultural and political environments. Students will also become acquainted with the tools that geographers use to understand, map, and analyze current affairs across world regions and gain good knowledge of how those tools are applied to real-world problem solving.
Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 256. Introduction to Quantitative Methods in Geography and Geosciences - QR 3 Units
Term Typically Offered: Fall Only
Prerequisite(s): Appropriate math placement score or equivalent coursework.
Description: This course is designed to teach introductory statistics to undergraduates majoring in the social sciences. It will acquaint students with some fundamental quantitative and statistical techniques for practical data analysis and problem solving. A wide variety of real-world examples that are both relevant to social sciences and of interest to students will be used in the class. Student will also learn how standard statistical techniques can be applied in a spatial context. This course is intended to be practical. In addition to lectures, the class involves in-class discussions, exercises, and take-home assignments which aim to provide students with hands-on experience in using various quantitative and statistical methods.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 270. Introduction to Field Methods in Geography 3 Units
Term Typically Offered: Fall Only
Description: This course focuses on methodologies in field-based, quantitative and qualitative research within Geography, with emphasis on research theory, study and sampling design, data collection and organization, and preliminary data analysis and interpretation. Students will learn more about the scientific process: (1) how to form hypothesis, research questions, and objectives, (2) how to design a research project to answer questions/test hypotheses, (3) how to collect, interpret, and present data, and (4) how to write up a scientific report or progress and/or findings.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 300. Globalization and Diversity - D2, SB 3 Units
Term Typically Offered: Fall Only
Description: A contemporary approach to world regional geography that focuses on human diversity and the geographic changes that accompany today’s rapid rate of globalization.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 301. Geography of Kentucky 3 Units
Term Typically Offered: Occasionally Offered
Description: Spatial patterns and processes of the Commonwealth; emphasis on human-environment interaction, population, settlement, and economic base.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 305. Historical Geography of the United States 3 Units
Term Typically Offered: Spring Only
Description: Analysis of the changing cultural landscape and settlement patterns of the United States. Emphasis on the changing spatial relationships of ethnic minorities to the majority group.
Note: Cross-listed with HIST 305.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

<tr>
<td>GEOG 308</td>
<td>Understanding China: People, Environment and Development</td>
<td>3</td>
<td>Spring Odd Years</td>
<td>Description: The diversity of China’s environment and people is integral to understanding the ways in which economic and sociocultural changes have taken place. This course is designed to help students gain a better understanding of China under globalization. The course explores modern China around two leading themes: (1) China’s spatial organization, including its growing links to the global system, and (2) the human occupancy and use of the many types of environments. It will examine how transformations of China’s land, people, economy, and society are reshaping its internal divisions and repositioning China in a rapidly changing world. Note: Cross-listed with AST 308. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td>GEOG 314</td>
<td>Africa: Environment and Resources</td>
<td>3</td>
<td></td>
<td>Description: Natural and human potentials of the African continent, with particular reference to Sub-Saharan Africa. Exploration of social, cultural, economic and political factors influencing use of African resources. Emphasis on factors degrading the environment and constraining optimum use of natural and human resources. Note: Cross-listed with PAS 386. If you are taking GEOG 311, you may elect to cross-list and take GEOG 312 instead. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td>GEOG 316</td>
<td>Geography of South Asia</td>
<td>3</td>
<td></td>
<td>Description: An analysis of the Indian subcontinent; emphasis on the physical and cultural setting, political disturbances, population problems, and economic development. Note: Cross-listed with AST 316. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td>GEOG 320</td>
<td>Geopolitics</td>
<td>3</td>
<td></td>
<td>Description: This course introduces students to the main concepts and research themes in contemporary geopolitics. Geopolitics represents a broad engagement with the interactive relationships between power and place, and the construction, contestation and reconfiguration of political spaces that results. During the semester we will examine the formation of geopolitical images of the world, where these images come from, and how they have shaped our thinking and politics over time. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td>GEOG 324</td>
<td>Race and Place</td>
<td>3</td>
<td></td>
<td>Description: In this course, students will explore the many ways race is socially constructed and intimately tied to space and place. Topics covered include: the spatiality of plantations, segregation vs. separation, the Great migration, race in urban and rural spaces, the intersection between race, gender and place, and race and place beyond the United States. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td>GEOG 327</td>
<td>Economic Geography</td>
<td>3</td>
<td>Occasionally Offered</td>
<td>Description: The distribution of economic activity and its associated characteristics that give character to place. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td>GEOG 328</td>
<td>Urban Geography</td>
<td>3</td>
<td>Fall Only</td>
<td>Description: Examination of the association of activities in urban areas as they are expressed in patterns of land use and occupancy features. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td>GEOG 331</td>
<td>Population Geography</td>
<td>3</td>
<td>Spring Only</td>
<td>Description: An examination of spatial variations in human population, with emphasis on population characteristics, growth, and mobility. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td>GEOG 340</td>
<td>Environmental Conflict in the United States: Historical Foundations &amp; Contemporary Problems - D1, SBH</td>
<td>3</td>
<td>Occasionally Offered</td>
<td>Description: A review of various environmental conflicts throughout the United States, including the legal, economic, and policy processes behind them and the reasons why conflict exists. This course explores environmental issues in a variety of United States contexts. This course places particular emphasis on the historical foundations of contemporary environmental conflict and dynamics of identity-based inequalities rooted in differences such as race and socio-economic class. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td>GEOG 350</td>
<td>Introduction to Mapping and Geospatial Technologies</td>
<td>3</td>
<td>Fall Only</td>
<td>Description: Introduction to the concepts and methods of map construction and visualization, including scale, location, projection, design, symbolism, and compilation. Exploration of these concepts and methods through the use of geospatial technologies. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
<tr>
<td>GEOG 355</td>
<td>Introduction to Remote Sensing</td>
<td>3</td>
<td>Fall Only</td>
<td>Description: This course provides an introduction to the theory and application of remote sensing data with weekly lab reports for hands-on-experience in the acquisition and utilization of remotely-sensed data in geographical/environmental research. This course prepares for GEOG 556. Prior completion of GEOS 200, GEOS 350, or GEOS 301, or PHYS 111 or equivalent is recommended, but not required. For class offerings for a specific term, refer to the Schedule of Classes (<a href="http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm">http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm</a>)</td>
<td></td>
</tr>
</tbody>
</table>
GEOG 356. Introduction to Spatial Statistics 3 Units
Term Typically Offered: Spring Only
Prerequisite(s): GEOG 256.
Description: Introduction to multivariate statistical analyses and spatial statistics, i.e. statistical methods that use space and spatial relationships directly in their mathematical computations.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 360. Qualitative Methods for Undergraduates 3 Units
Description: The course introduces students to the basic tools and concepts of qualitative research and their geographic application. The readings and in-class exercises have been selected to introduce you to the scope of qualitative methodological approaches used in geography and provide a sampling of references and resources that will help you work through your own research process. In examining how we generate and interpret data from the field-the social, environmental and political space where we learn about the world—we will critique and apply a variety of qualitative methods. In the process, you will have a chance to explore these methods in the context of your own planned or ongoing work and interest. We will focus on a wide range of methods but pay close attention to: conducting interviews, constructing questionnaires, participant observation and discourse analysis.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 361. Sustainable Human Environments - WR 3 Units
Term Typically Offered: Spring Only
Prerequisite(s): Natural sciences general education requirements.
Description: An inquiry into the human impact on the environment and human adjustment to environmental disruptions.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 362. Disease, Ecology and Environmental Management in Africa - WR 3 Units
Term Typically Offered: Occasionally Offered
Description: Relationship between disease agents and the human and physical environment in Africa. Impact of urbanization, industrial pollution and multinational corporations on disease causation and distribution.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
Note: Cross-listed with PAS 384.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 367. Applications Development for GIS 3 Units
Prerequisite(s): GEOG 357 or GEOG 558.
Description: Instruction in the fundamentals of Visual Basic for Applications, object oriented programming, basics of ArcObjects, syntax of writing VB statements, branching and looping structures, and design of user forms.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 385. Introduction to Programming for GIS and Spatial Data Analysis 3 Units
Term Typically Offered: Spring Only
Description: There are two primary goals for this course. First, students will learn introductory computer programming concepts and features. Students will deconstruct examples from a variety of programming and scripting languages (primarily Python, R, VBA, and IDL), learning how to identify common logic, flow control and syntactic features. Students will learn the purpose of these structures and how to start using the programming and scripting environments of common statistics, geographic information systems (GIS) and remote sensing (RS) platforms.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 390. Special Topics 3 Units
Term Typically Offered: Fall, Spring
Description: Investigation of topics not offered in regular courses. Topics will be announced in Schedule of Courses.
Note: May be repeated for different topics up to a limit of 12 hours.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 391. Independent Study 1-3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): Minimum grade point average of 3.0 overall; minimum grade point average of 3.5 in the department, and at least 18 semester hours credit in the department.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 399. Senior Honors Seminar - WR 3 Units
Prerequisite(s): Junior class standing; admission to the departmental honors program.
Description: Investigation of a major scientific or social issue within the field of geography.
Note: Approved for the Arts and Sciences upper-level requirement in written communication (WR).
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 401. Cooperative Internship 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): Department sponsorship and approval.
Description: Cooperative Internship in Geography/Geosciences. Course Attribute(s): CBL - This course includes Community-Based Learning (CBL). Students will engage in a community experience or project with an external partner in order to enhance understanding and application of academic content.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

</tbody>
</table>
GEOG 528. Planning, History and Issues
Prerequisite(s): GEOG 328.
Description: The history of planning and contemporary issues with an emphasis on role of planning, zoning and law.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 529. Geography of Urban Issues
3 Units
Term Typically Offered: Fall
Prerequisite(s): GEOG 328, GEOG 558 or comparable Urban Geography and GIS course.
Description: Advanced urban geography course with unique geographic perspective for integration of socioeconomic problems in America’s metropolitan areas.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 530. Transportation Geography
3 Units
Term Typically Offered: Fall
Prerequisite(s): GEOG 200 or consent of instructor.
Description: An analysis of distribution and transportation systems as functional entities capable of introducing and reacting to change within the economic region.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 531. GIS & Urban Demographic Analysis
3 Units
Term Typically Offered: Spring
Prerequisite(s): GIS knowledge or concurrent tutorial.
Description: Demographic analysis through the use of GIS technology. Emphasis placed on metropolitan area characteristics including population change, segregation, ethnic settlement, social and economic stratification and commuting.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 535. GIS and Retail Site Analysis
3 Units
Term Typically Offered: Fall
Prerequisite(s): GIS knowledge or concurrent tutorial.
Description: Retail site analysis through use of GIS technology. Emphasis placed on market demand and supply characteristics. Physical site analysis, demographics, and competitive environment will be examined.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 536. Sustainable Transportation
3 Units
Term Typically Offered: Fall
Prerequisite(s): GEOG 200 or permission of instructor.
Description: The course looks into the problems of developing sustainable transportation systems. We will examine the environmental and human problems associated with transportation; including climate change, air quality, consumption of non-renewable resources, safety, congestion and social equity. We will also explore possible solutions to these problems, including pricing, planning, policy, technology and education.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 540. Geography and Human-Environment Interactions
3 Units
Term Typically Offered: Spring
Prerequisite(s): GEOG 200 or permission of instructor.
Description: The study of interactions between humans and the environment is inherently interdisciplinary and multi-scalar, two of the hallmarks of contemporary geographic research. Students taking this course will be exposed to the theoretical underpinnings of both social and ecological aspects of research. Through in-class discussions of both seminal and contemporary peer-reviewed literature, students will be expected to engage in an interdisciplinary exploration of how studies of human-environment interactions have evolved from disciplinary roots into the large, complex and transdisciplinary projects commonly funded today and expected in the future.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 545. Unmanned Aerial Systems and Geospatial Applications
3 Units
Term Typically Offered: Spring
Prerequisite(s): GEOG 357 or GEOG 558.
Description: Introduction to the application of GIS by local governments, non-profit agencies and other urban-related groups.
Note: May be repeated if topics vary.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 549. Special Topics in Urban Analysis Applications in GIS
3 Units
Term Typically Offered: Spring
Prerequisite(s): GEOG 357 or GEOG 558.
Description: Introduction to the application of GIS by local governments, non-profit agencies and other urban-related groups.
Note: May be repeated if topics vary.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 554. Remote Sensing
3 Units
Term Typically Offered: Fall
Description: This course provides an introduction to the theory and application of remote sensing data with weekly lab reports for hands-on-experience in the acquisition and utilization of remotely-sensed data in geographical/environmental research. This course prepares for GEOG 556. Prior completion of GEOS 200, GEOS 350, or GEOS 301, or PHYS 111 or equivalent is recommended, but not required.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
GEOG 556. Advanced Remote Sensing 3 Units
Prerequisite(s): GEOG 555 or consent of instructor.
Description: Application of advanced techniques involved in the collection of digital imagery data from aircraft and spacecraft instruments.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 558. Introduction to Geographic Information Systems 3 Units
Term Typically Offered: Occasionally Offered
Description: Introduction to geographic information systems using ArcGIS software, management of relational databases, and manipulation and graphical output of digital geo-spatial data.
Note: May not be taken for credit if credit has been earned in GEOG 357 or GEOG 557.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 559. Advanced Geographic Information Systems 3 Units
Prerequisite(s): GEOG 558.
Description: Application of advanced GIS concepts to real-world projects. An emphasis will be placed on the development of a digital spatial database.
Note: Graduate students must arrange for an additional project for graduate credit.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 561. Urban Environmental Quality 3 Units
Prerequisite(s): Consent of instructor.
Description: A study of environmental aspects of urban areas and analysis of inter- and intra-city variations in environmental quality.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 583. Spatial and Non-Spatial Database Management 3 Units
Term Typically Offered: Occasionally Offered
Prerequisite(s): GEOG 357 or GEOG 558.
Description: Provides students with "hands-on" experience in development, management and integration of spatial and non-spatial databases, using GIS and database management software.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 590. Special Topics 3 Units
Description: Investigation of topics not offered in regular courses. Topic will be announced in Schedule of Courses.
Note: Offered as needed.
Note: May be repeated for different topics up to a limit of 12 hours.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

GEOG 599. Directed Readings in Geography 1-4 Units
Prerequisite(s): Advanced courses in geography or related fields; permission of major department.
Description: Supervised readings centered around a specific region or topical field for advanced work.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
