PHPB 301. Health Equity - D1, SB 3 Units
Term Typically Offered: Fall Only
Description: Health equity is a goal of public health as seen in Healthy People 2020. Race or ethnicity, gender, sexual identity, age, disability, socio-economic status, and geographic location (or some combinations of these factors) contribute to an individual’s ability to achieve good health. Understanding health disparities involves a critical analysis of circumstances that produce differences in health outcomes among groups.
