PHYSICS AND ASTRONOMY (PHYS)

Subject-area course lists indicate courses currently active for offering at the University of Louisville. Not all courses are scheduled in any given academic term. For class offerings in a specific semester, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm).

500-level courses generally are included in both the undergraduate- and graduate-level course listings; however, specific course/section offerings may vary between semesters. Students are responsible for ensuring that they enroll in courses that are applicable to their particular academic programs.

Course Fees

Some courses may carry fees beyond the standard tuition costs to cover additional support or materials. Program-, subject- and course-specific fee information can be found on the Office of the Bursar website (http://louisville.edu/bursar/tuitionfee).

PHYS 107. Elementary Astronomy - S 3 Units
Term Typically Offered: Fall, Spring, Summer
Description: Introduction to the basic laws of nature as seen in the large-scale structure of the universe: galaxies, stars and our solar system. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 108. Elementary Astronomy Laboratory - SL 1 Unit
Term Typically Offered: Fall, Spring
Prerequisite(s): Concurrent or prior registration in PHYS 107.
Description: Experiments in astronomy illustrating basic physical concepts. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 111. Elements of Physics - B 4 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): Appropriate math placement.
Description: An introduction to the physics of mechanics, forces, energy and momentum. Electricity and magnetism: electrical conduction, and magnets. Optics: color, mirrors, and lenses. Basic ideas and concepts of quantum physics.
Note: May not be taken by student who has completed 5 or more hours in Physics at the 200-level.
Note: Not acceptable toward a Physics major.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 219. Contemporary Issues in Meteorology Lab - SL 1 Unit
Term Typically Offered: Fall, Spring
Prerequisite(s): Concurrent enrollment in GEOS 220/PHYS 220.
Description: A lab designed to provide real-world examples of atmospheric processes through analysis and problem solving using basic concepts and physical principles relevant to the atmosphere.
Note: Cross-listed with GEOS 219.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 220. Contemporary Issues in Meteorology - S 3 Units
Term Typically Offered: Fall, Spring
Description: Contemporary issues serve as an introduction to the physical basis, distribution and consequences of global-scale meteorological phenomena.
Note: Cross-listed with GEOS 220.

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 221. Fundamentals of Physics I - S 3 Units
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): Appropriate Math placement.
Description: Basic concepts and methods of physics as applied in the study of mechanics, heat and sound.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 222. Fundamentals of Physics II - S 3 Units
Term Typically Offered: Fall, Spring
Prerequisite(s): PHYS 221 or PHYS 298 or equivalent.
Description: Basic concepts and methods of physics as applied in the study of electricity, magnetism, optics and modern physics.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 223. Fundamentals of Physics Lab I - SL 1 Unit
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): PHYS 221 (or concurrently).
Description: Experiments in mechanics, heat and sound.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 224. Fundamentals of Physics Laboratory II - SL 1 Unit
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): PHYS 222 (or concurrently).
Description: Experiments in electricity, magnetism, and light.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 295. Introductory Laboratories I - SL 1 Unit
Term Typically Offered: Fall, Spring, Summer
Prerequisite(s): PHYS 298 (or concurrently).
Description: Experiments in mechanics and heat.
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

<td></td>
<td></td>
</tr>
<tr>
<td>PHYS 371</td>
<td>Special Topics</td>
<td>3 Units</td>
<td>Fall Only</td>
<td>Faculty consent.</td>
<td>Description: Exploration of intermediate level of some well-defined topic not treated comprehensively in a regular course. Topic announced in Schedule of Courses. Note: Topic announced in Schedule of Courses. For class offerings for a specific term, refer to the Schedule of Classes.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>PHYS 390</td>
<td>Introductory Computational Physics</td>
<td>3 Units</td>
<td>Occasionally Offered</td>
<td>PHYS 300 and MATH 301.</td>
<td>Introduction to the Unix/Linux operating system and the use of contemporary programming languages with applications to physics, including basic numerical methods, simulations, and data manipulation. Introduction to scientific software packages including data visualization. For class offerings for a specific term, refer to the Schedule of Classes.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>PHYS 430</td>
<td>Practicum in Physics Education - CUE</td>
<td>1 Unit</td>
<td>Fall, Spring</td>
<td>Completion of PHYS 300 and PHYS 460; PHYS majors only; permission to enroll required; minimum 3.0 GPA in major to be eligible.</td>
<td>Description: A guided learning experience in inquiry-based instructional techniques and best practices in STEM education that includes field experience as an undergraduate teaching assistant. Note: May be repeated for a maximum of 6 credit hours. Course Attribute(s): CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status. For class offerings for a specific term, refer to the Schedule of Classes.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>PHYS 450</td>
<td>Introductory Mathematical Physics</td>
<td>3 Units</td>
<td>Occasionally Offered</td>
<td>PHYS 350 or ENGR 205 or MATH 405; MATH 301 or ENGR 201.</td>
<td>Description: Introduction to mathematical methods and concepts used in physics. Topics include: vector calculus, matrices and linear vector spaces, special functions and partial differential equations. For class offerings for a specific term, refer to the Schedule of Classes.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>PHYS 460</td>
<td>Mechanics</td>
<td>3 Units</td>
<td>Fall, Spring</td>
<td>PHYS 298 and PHYS 350.</td>
<td>Description: Kinematics, particle dynamics, oscillatory motion, central forces, rigid body motion, variation methods. For class offerings for a specific term, refer to the Schedule of Classes.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>PHYS 465</td>
<td>Dynamic Meteorology I</td>
<td>3 Units</td>
<td>Fall, Spring</td>
<td>PHYS 361.</td>
<td>Description: An introduction to the theory of atmospheric dynamics with application of Newtonian physics and classical thermodynamics to geophysical fluid dynamics. For class offerings for a specific term, refer to the Schedule of Classes.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>PHYS 466</td>
<td>Dynamic Meteorology II</td>
<td>3 Units</td>
<td>Spring Only</td>
<td>PHYS 465.</td>
<td>Description: This is the second semester in the theory of atmospheric dynamics and dynamic meteorology. Topics may include shear instability, atmospheric waves, moist convection, and weather fluctuation. For class offerings for a specific term, refer to the Schedule of Classes.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
PHYS 469. Synoptic Meteorology - CUE  
**Term Typically Offered:** Spring Only  
**Corequisite(s):** PHYS 466.  
**Description:** Employing knowledge and skills developed over the entire program, the course will examine the structure and dynamics of mid-latitude weather systems. Students will learn to integrate observations, numerical weather prediction models, and the physical principles developed in previous courses to understand the atmosphere's behavior and develop weather forecasts.  
**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

### PHYS 495. Communicating in Physics  
**Prerequisite(s):** Senior standing.  
**Description:** Preparation and oral presentation of scientific results in a seminar format. Organization and written presentation of scientific results in a journal format. Communication of research results through a website.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

### PHYS 496. Senior Seminar in Physics - CUE, WR  
**Prerequisite(s):** PHYS 460 and senior standing.  
**Description:** Students will review current professional journals in the discipline and discuss effective scientific writing, including the draft and revision process. Students will write a reflect on the connections between their physics education and critical thinking models. Students will also perform a research project and present the results in journal format.  
**Note:** Approved for the Arts and Sciences upper-level requirement in written communication (WR).  
**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

### PHYS 497. Senior Thesis in Physics - CUE, WR  
**Term Typically Offered:** Occasionally Offered  
**Prerequisite(s):** PHYS 460 and senior standing.  
**Description:** Students will perform original research and write up their methods and results in a multi-chapter thesis. Research projects may be a continuation of previously initiated research.  
**Note:** Approved for the Arts and Sciences upper-level requirement in written communication (WR).  
**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

### PHYS 498. Undergraduate Research  
**Term Typically Offered:** Fall, Spring  
**Prerequisite(s):** PHYS 301, PHYS 350, PHYS 351 and approval of instructor.  
**Description:** Experimental or theoretical research under the guidance of a physics faculty member. The student will participate in one of the ongoing research projects in the department. The student will acquire hands-on-experience in an actual research project. The student will produce a written report on the results of the research project.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

### PHYS 499. Cooperative Internship in Physics - CUE  
**Term Typically Offered:** Fall, Spring, Summer  
**Prerequisite(s):** PHYS 295, PHYS 296, PHYS 298, PHYS 301 and 6 additional hours in Physics; Junior standing or above; approval of department.  
**Description:**  
**Note:** May be repeated to a maximum of 6 hours.  
**Note:** Three hours may apply toward BA or BS major programs as upper division major electives or may be used to satisfy requirement for Culminating Undergraduate Experience.  
**Course Attribute(s):** CUE - This course fulfills the Culminating Undergraduate Experience (CUE) requirement for certain degree programs. CUE courses are advanced-level courses intended for majors with at least 90 earned credits/senior-level status.  

For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

### PHYS 501. Independent Study  
**Term Typically Offered:** Fall, Spring  
**Description:** Independent research conducted with the approval and supervision of a faculty member.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

### PHYS 502. Independent Study  
**Term Typically Offered:** Fall, Spring  
**Description:** Independent research conducted with the approval and supervision of a faculty member.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

### PHYS 507. Solar System Astronomy  
**Prerequisite(s):** PHYS 300, MATH 206 or ENGR 102.  
**Description:** This is an advanced course in solar system astrophysics, and will cover orbital mechanics, the nature of light, astronomical instrumentation, solar physics, planetary atmospheres/geophysics, comets/asteroids, interplanetary dust and exo-planets.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

### PHYS 520. Vibrations and Sound  
**Term Typically Offered:** Occasionally Offered  
**Prerequisite(s):** PHYS 298, PHYS 299 and MATH 206.  
**Description:** Vibrating bodies, propagation of sound waves, physical acoustics, and ultrasonics.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
PHYS 530. Thermal Physics  
**Prerequisite(s):** PHYS 299, MATH 301 or ENGR 201.  
**Description:** The laws of thermodynamics, thermodynamic reasoning, and elements of statistical mechanics.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 531. Introductory Statistical Physics  
**Prerequisite(s):** PHYS 530.  
**Description:** Elementary probability theory applied to the understanding of properties of macroscopic matter in terms of their microscopic constituents. Kinetic theory of gases, transport phenomena. Equations of state derived from ensemble theory.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 541. Electromagnetic Fields  
**Term Typically Offered:** Occasionally Offered  
**Prerequisite(s):** PHYS 300; PHYS 350 or MATH 405 or ENGR 205; MATH 301 or ENGR 201.  
**Description:** Electrostatic and magnetostatic fields in free space and in material media, solutions of Poisson’s equation, time dependent fields, Maxwell’s equations.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 542. Electromagnetic Radiation  
**Term Typically Offered:** Spring Only  
**Prerequisite(s):** PHYS 541.  
**Description:** Poisson’s equation and LaPlace’s Equation, propagation of electromagnetic fields with applications to optics and microwave physics.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 545. Advanced Optics  
**Prerequisite(s):** PHYS 355 and PHYS 542; or consent of instructor.  
**Description:** Topics in optical physics including optical system design, lasers, and quantum optics.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 546. Advanced Optics Lab  
**Prerequisite(s):** PHYS 355 or equivalent.  
**Description:** Laboratory experiments illustrating fundamental optical phenomena, the interaction of light and matter, lasers, and quantum optics.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 547. Fundamentals of Lasers  
**Term Typically Offered:** Occasionally Offered  
**Prerequisite(s):** PHYS 355; and PHYS 542 or ECE 473; or consent of instructor.  
**Description:** Topics to be discussed include interaction of light with matter, optical amplifiers, laser resonators, Gaussian and higher order optical beams, non-linear optics, and ultra-fast laser pulses.  
**Note:** Cross-listed with ECE 540.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 551. Mathematical Physics I  
**Prerequisite(s):** PHYS 350 or MATH 405 or ENGR 205; PHYS 460.  
**Description:** Selected mathematical techniques and their applications to various fields of physics.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 556. Quantum Theory of Matter  
**Term Typically Offered:** Fall Only  
**Prerequisite(s):** PHYS 555.  
**Description:** Spin and general angular momentum, perturbation theory, variational principle, applications, identical particles, and scattering.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 557. Advanced Statistical Mechanics  
**Prerequisite(s):** PHYS 390; and PHYS 555 or PHYS 561 taken concurrently; familiarity with a programming language.  
**Description:** Introduction to modern computational methods in physics with application to problems in different branches of physics.  
For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
PHYS 570. Atomic and Molecular Physics
Prerequisite(s): PHYS 541 and PHYS 555; or consent of instructor.
Description: The structure of atoms and diatomic molecules, the production of coherent radiation and its interaction with matter. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 575. Solid State Physics
Prerequisite(s): PHYS 541 and PHYS 555, or consent of instructor.
Description: Crystal structure, elastic waves, lattice dynamics, phonons, band theory of solids and conductivity phenomena. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 580. Nuclear Physics
Prerequisite(s): PHYS 541 and PHYS 555; or consent of instructor.
Description: Phenomenological study of nuclear properties. Nuclear structure and reactions, radioactive decay, interaction of charged particles with matter. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 585. Elementary Particle Physics
Prerequisite(s): PHYS 541 and PHYS 555, or consent of instructor.
Description: Properties of elementary particles. Detectors and accelerators. Weak and electromagnetic interactions. Quark model of hadrons, strong interactions. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 589. General Relativity
Prerequisite(s): PHYS 460; MATH 301 or ENGR 201.
Description: Review of classical gravitation and special relativity, Riemannian geometry, Einstein field equations, exact solutions, tests of the theory, gravitational collapse and black holes, gravitational waves, cosmology. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 590. Astrophysics
Term Typically Offered: Spring Only
Prerequisite(s): PHYS 307; PHYS 350 or MATH 405 or ENGR 205 (or equivalent).
Description: Physics applied to the interstellar medium; the atmospheres, structure, and evolution of stars; galaxies. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)

PHYS 595. Special Topics
Description: Introduction to an advanced topic or elaboration of an intermediate topic not treated comprehensively in a regular course. For class offerings for a specific term, refer to the Schedule of Classes (http://htmlaccess.louisville.edu/classSchedule/setupSearchClassSchedule.cfm)
