## Bachelor of Science in Anthropology

Unit: College of Arts and Sciences (AS) (<http://www.louisville.edu/a-s/>)  
Department: Anthropology (<http://louisville.edu/anthropology/>)  
Academic Plan Code(s): ANTHBS

## Program Information

Anthropology is the study of what it means to be human: from the study of culture and social relations, to human biology and evolution, to languages, to music, art and architecture, and to vestiges of human habitation. It considers such fascinating questions as how peoples' behaviors changes over time, how people move about the world, why and how people from distant parts of the world and dissimilar cultures are different and the same, how the human species has evolved over millions of years, and how individuals understand and operate successfully in distinct cultural settings.

The Bachelor of Science degree in Anthropology will allow students to develop skills to understand and critically evaluate numerical data. The degree will strengthen the students' major, preparing them for graduate research and the job market.
