This degree offers candidates several options from which to choose including single certification in elementary (K-5), interdisciplinary early childhood (birth -age 5), and moderate and severe disabilities (P-12), as well as dual certifications in elementary and interdisciplinary early childhood, and elementary and special education (Learning Behavior Disorders [LBD] and Moderate and Severe Disabilities [MSD]). Teacher education candidates pursuing Elementary Education must be able to demonstrate proficiency in the areas of Language Arts/Reading, Mathematics, Science and Social Sciences along with the Arts and Humanities (e.g., music, art, movement/motion). The Flight Plan outlined above is intended to demonstrate one possible path to completing the degree within four years. Course selection and placement within the program may vary depending on course offerings and schedule, elective preferences, and other factors (study abroad, internship availability, etc.). Please consult your advisor for additional information about building a flight plan that works for you.

Degree Audit Report

Degree Audit reports illustrate how your completed courses fulfill the requirements of your academic plan, and which requirements are still outstanding. Degree audits also take transfer credits and test credits into account. "What-if" reports allow you to compare the courses you have completed in your current academic plan to the courses required in another academic plan. Should you have questions about either report, please consult with your academic advisor.

The Bachelor of Science in Early Elementary Education with the available tracks prepares students to meet the requirements for certification and/or licensure. If you plan to pursue professional licensure or certification you should first determine your state's criteria for examination and licensure to see how/if our program meets those requirements prior to enrollment. We recommend that you also contact your state's licensing board directly to verify that the requirements have not changed recently and to answer any questions especially those regarding additional requirements beyond the degree.

More information about certification or licensure is available at the following website: <https://louisville.edu/oapa/licensure-information> (<https://louisville.edu/oapa/licensure-information/>) (you may search by school or by the name of the program then click on 'View Details' to display the information).

For programs with an online option, more information about certification or licensure is available here: <https://louisville.edu/online/About-Us> (<https://louisville.edu/online/About-Us/>) (please scroll down near the bottom of the page and click on the licensing disclosures tab).
