Department: Women's, Gender and Sexuality Studies (<http://www.louisville.edu/a-s/ws/>)

Academic Plan Code(s): WGSTBA, WGSTBA\_0

## Program Information

*This program can be completed in a traditional classroom format or entirely online (<https://louisville.edu/online/programs/bachelors/bachelor-of-arts-in-womens-and-gender-studies/>).*

Women's, Gender and Sexuality Studies is an interdisciplinary major that draws its questions and approaches from the humanities, social sciences, natural sciences, and arts. It helps students to develop theoretical, empirical, and methodological perspectives for studying gender as a crucial category for understanding the world. We offer extremely flexible scheduling for our majors: we have three core courses, offered regularly; students are allowed a fair amount of control in selecting the classes that will be most helpful to them in their chosen career path to complete the remainder of their requirements. Our students are required to engage in service learning opportunities outside the university, giving them useful career experience. Students in our program also find it easy to double major, if they so desire.

WGST majors learn to:

1. Apply gender analytics at the micro and macro level for research and practices of social change;
2. Examine complex social problems using gender-informed analysis, research and design;
3. Select appropriate methodologies from the humanities and social sciences for analyzing data and texts;
4. Provide appropriate theoretical interpretation based on discipline-related concepts;
5. Draw conclusions based on the analyses of texts and qualitative and quantitative information;

6. Demonstrate effective written and oral communications tailored to specific audiences and contexts to increase the understanding and utilization of research findings;
7. Identify how social, cultural and scientific knowledges are produced by institutions such as academic disciplines, media, arts, and politics;
8. Understand how gender intersects with other structures of power such as race, class, sexuality, disability and other structures of power in the U.S. and globally;
9. Draw from multiple fields of study to evaluate and generate information and experiences related to gender, race, class, sexuality, disability, etc.

Completion of this degree requires work to be submitted for the department's Learning Outcomes Measurement. For details, contact the department.
